U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

Wed 17th of May 1967
Day Month Year

2. Time of day: 11 : 30
Hour Minutes

(Circle One): A.M. or P.M.

3. Time Zone:

(Circle One): a. Eastern
b. Central
c. Mountain
d. Pacific
e. Other

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object?

[Redacted] Xenia Ohio
Nearest Postal Address City or Town State or County

5. How long was object in sight? (Total Duration)

1 45
Hours Minutes Seconds

a. Certain
b. Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? I had just looked at clock at 1130 - went straight to door to see if it was behind at screen when it spotted the light

5.2 Was object in sight continuously? Yes No
Forgot when light went off but was visible as soon as light came over

6. What was the condition of the sky?

DAY NIGHT
a. Bright a. Bright
b. Cloudy b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

8.2 MOON (Circle One):

- a. None *The stars were straight up*
 b. A few *while this light was*
 c. Many *so low it appeared less than*
 d. Don't remember *half way up*
- a. Bright moonlight
 b. Dull moonlight
 c. No moonlight - pitch dark
 d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

WEATHER (Circle One):

- a. Clear sky
 b. Hazy
 c. Scattered clouds
 d. Thick or heavy clouds
- a. Dry
 b. Fog, mist, or light rain
 c. Moderate or heavy rain
 d. Snow
 e. Don't remember

10. The object appeared: (Circle One):

- a. Solid
 b. Transparent
 c. Vapor
 d. As a light
 e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- a. Brighter
 b. Dimmer
 c. About the same
 d. Don't know

11.1 Compare brightness to some common object:

About four times size of light as the North Star

12. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
 b. Like a bright star
 c. Sharply outlined
 d. Don't remember

e. Other *because of brightness and because moon was way off to side we could not distinguish shape. It did not throw off the points of light which make a star look like it was more round*
 (Circle One for each question)

13. Did the object:

- | | | | |
|---|---|--|--|
| a. Appear to stand still at any time? | <input checked="" type="checkbox"/> Yes | No | Don't know |
| b. Suddenly speed up and rush away at any time? | <input checked="" type="checkbox"/> Yes | No | Don't know |
| c. Break up into parts or explode? | Yes | <input checked="" type="checkbox"/> No | Don't know |
| d. Give off smoke? | Yes | No | <input checked="" type="checkbox"/> Don't know |
| e. Change brightness? | <input checked="" type="checkbox"/> Yes | No | Don't know |
| f. Change shape? | Yes | <input checked="" type="checkbox"/> No | Don't know |
| g. Flash or flicker? | <input checked="" type="checkbox"/> Yes | No | Don't know |
| h. Disappear and reappear? | <input checked="" type="checkbox"/> Yes | No | Don't know |

*red green light
flashed across front about
every 4 to 5 second.*

14. Did the object disappear while you were watching it? If so, how? Moved farther back in sky making it appear smaller. As it moved farther away the yellow light took on a very faint green appearance to it making it yellow green. Then it seemed to sit for about one to one and a half minutes and turning a darker green went straight up getting smaller & smaller until disappearing.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what it moved behind: It went behind trees but by walking out into our yard we could continue to see it until it moved out again.

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what in front of: a cloud - which would make a light reflect

on the side ^(of the cloud) towards us. Each time we saw a white misty light it appeared at the same moment the object changed position going forward.

17. Tell in a few words the following things about the object:

- a. Sound for only a few seconds, as it got smaller, we heard a noise which we can associate with the sound of high winds with a shrill whistling faintly.
- b. Color ^{light} yellow with red green lights (side by side) flashing across the front of it every 4 to 5 seconds. (The red light always first) then turned completely green as it disappeared.

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

about $\frac{1}{3}$ - the part that ^{was} not covered would have been divided equally to the sides of the match head - as this -  a thin rim of light would appear on each side.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

 Like a beam light a path across the dark dot being the red with the green so close it looked attached to the red. After moving across the front it would take 4 or 5 seconds for it to appear at A again. Then it would flash across in about 1 to 1 1/2 seconds.

The picture is only to show more width than height to the light. The outline was not ~~clear~~ visible because of brightness of light.

The white mist was behind and to the side away from us. This was only seen as it went forward ~~eastward~~ grew smaller going North East. It was not seen when object fell or rose to different height.

20. Do you think you can estimate the speed of the object?

(Circle One) Yes No

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes No

IF you answered YES, then how far away would you say it was? *I would say it moved from close to eight miles at its nearest to about 12 to 15 when it was just across the horizon.*

22. Where were you located when you saw the object?

(Circle One):

- a. Inside a building *looking out my screen door*
 b. In a car
 c. Outdoors *went out into yard for clearer look*
 d. In an airplane (type)
 e. At sea
 f. Other _____

23. Were you (Circle One)

- a. In the business section of a city?
 b. In the residential section of a city?
 c. In open countryside?
 d. Near an airfield?
 e. Flying over a city?
 f. Flying over open country?
 g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

- a. North c. East e. South g. West
 b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

- | | | | | | |
|-----------------|-----|----|---------------|---|----|
| a. Eyeglasses | Yes | No | e. Binoculars | Yes | No |
| b. Sun glasses | Yes | No | f. Telescope | Yes | No |
| c. Windshield | Yes | No | g. Theodolite | Yes | No |
| d. Window glass | Yes | No | h. Other | <i>through screen - Daughter who witnessed was wearing glasses. We went out into yard also.</i> | |

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

A measuring spoon (1/4 teaspoon) turned upside down and tilted away from you until you can almost see the bottom of the inside and imagine the red & green light running across the rim of the spoon making it look as if the lights started lower and ended lower but going up higher in the center.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you first saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you last saw it. Place an "A" on the compass when you first saw it. Place a "B" on the compass where you last saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

Lines with circles around show where lights went off for a few seconds (this is as close to what I can remember). The lines that are crossed are where it became smaller and then came back to larger size. (Going up to B the 2 green lights became smaller & smaller until they completely disappeared.)

29. IF there was MORE THAN ONE object, then how many were there? 3

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

MOVING

MOVED AS WRITTEN ABOVE

ONE IN SQUARE CONTINUED FORWARD AFTER OTHER HAD STOPPED. THEN RETURNED TO ALMOST SAME DISTANCE FROM OTHER AS IN BEGINNING. ARROWS WITH CIRCLES AROUND SHOW WHERE THESE TURNED. THEY THEN ROSE TOGETHER UNTIL OUT OF SIGHT.

THE \square SEEMED NOT TO STOP AT ALL. THE TWO WERE MUCH HIGHER IN THE SKY AND MUCH SMALLER.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

NO

31. Was anyone else with you at the time you saw the object? (Circle One) Yes No

31.1 IF you answered YES, did they see the object too? (Circle One) Yes No

31.2 Please list their names and addresses:

KAREN LEE ENNIS 1305 BERWALD DR. AGE 15
XENIA, OHIO

32. Please give the following information about yourself:

NAME _____
Last Name First Name Middle Name

ADDRESS _____
Street City Zone State

TELEPHONE NUMBER _____ AGE 32 SEX F

Indicate any additional information about yourself, including any special experience, which might be pertinent.

I did not call any neighbors out to witness this because all the time I kept telling myself and daughter this could have been weather balloons or helicopters since it seemed in the direction of W.P.A.S.B. When the lights disappeared straight up at such a rapid speed I finally decided to call.

33. When and to whom did you report that you had seen the object? Called W.P.A.S.B.

Wed 17th of MAY 1967
Day Month Year

34. Date you completed this questionnaire:

25th May 1969
Day Month Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

The red and green lights which crossed the object (or light) were like the lights that go down the runways at the base. Especially as seen from Route 335. Not a light that moved around but a line of lights that flashed in sequence.

All three lights disappeared, going up to B, (as in drawing) almost in same spot. Growing smaller as they rose, and each turning a dark green just before rising and staying green until disappearing.
(dim)

At the times the white misty light appeared it made the area of the object look three dimensional. The object, the light inbetween and then the clouds from which the light was reflected. Reflected probably isn't the right word but it made the cloud look heavy (almost as a barrier) or something solid.

This is the only thing which gave any idea to me that there was or might be something solid there. When the light shown against the cloud it seemed to be over some thing and not from it (as in a ray.) The light seemed cut off in an arch. Since it only lasted a second, we had no time to observe a definite line or shape.

* The two smaller lights never had the white misty light. Only the large one.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight - pitch dark
- d. Don't remember

1/4 moon

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

several hours after rain

10. The object appeared: (Circle One):

- a. Solid
- b. Transparent
- c. Vapor
- d. As a light
- e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- a. Brighter
- b. Dimmer
- c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

yellow - brighter than path stars / also ² green lights

12. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
 - b. Like a bright star
 - c. Sharply outlined
 - d. Don't remember

e. Other _____

13. Did the object:

(Circle One for each question)

- | | | | |
|---|--------------------------------------|-------------------------------------|------------|
| a. Appear to stand still at any time? | <input checked="" type="radio"/> Yes | No | Don't know |
| b. Suddenly speed up and rush away at any time? | <input checked="" type="radio"/> Yes | No | Don't know |
| c. Break up into parts or explode? | Yes | <input checked="" type="radio"/> No | Don't know |
| d. Give off smoke? | Yes | <input checked="" type="radio"/> No | Don't know |
| e. Change brightness? | <input checked="" type="radio"/> Yes | No | Don't know |
| f. Change shape? | Yes | <input checked="" type="radio"/> No | Don't know |
| g. Flash or flicker? | <input checked="" type="radio"/> Yes | No | Don't know |
| h. Disappear and reappear? | <input checked="" type="radio"/> Yes | No | Don't know |

14. Did the object disappear while you were watching it? If so, how?

yes - 1 minute off (30-60 sec light off)
then back on and moved position.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what
it moved behind: trees + going further away.

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what
in front of: _____

17. Tell in a few words the following things about the object:

- a. Sound whirr - bit of wind far away - high pitch sound
b. Color bright yellow, then green, blue, red,

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?
(Circle One) Yes No

objects went very high and fast

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?
(Circle One) Yes No

15-20 miles away appeared to be in direction of WPAFB,

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object?
(Circle One):

- a. Inside a building
- b. In a car
- c. Outdoors
- d. In an airplane (type) _____
- e. At sea
- f. Other _____

23. Were you (Circle One)

- a. In the business section of a city?
- b. In the residential section of a city?
- c. In open countryside? *Housing project*
- d. Near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

- | | | | |
|------------------------------------|------------------------------------|------------------------------------|------------------------------------|
| <input type="radio"/> a. North | <input type="radio"/> c. East | <input type="radio"/> e. South | <input type="radio"/> g. West |
| <input type="radio"/> b. Northeast | <input type="radio"/> d. Southeast | <input type="radio"/> f. Southwest | <input type="radio"/> h. Northwest |

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

- | | | | |
|-----------------|---|---------------|---|
| a. Eyeglasses | Yes <input type="radio"/> No <input checked="" type="radio"/> | e. Binoculars | Yes <input type="radio"/> No <input checked="" type="radio"/> |
| b. Sun glasses | Yes <input type="radio"/> No <input checked="" type="radio"/> | f. Telescope | Yes <input type="radio"/> No <input checked="" type="radio"/> |
| c. Windshield | Yes <input type="radio"/> No <input checked="" type="radio"/> | g. Theodolite | Yes <input type="radio"/> No <input checked="" type="radio"/> |
| d. Window glass | Yes <input type="radio"/> No <input checked="" type="radio"/> | h. Other | <i>screen door the outside</i> |

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

Nothing before

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

*moved north + returned
green lights went straight up*

29. IF there was MORE THAN ONE object, then how many were there? 4 lights
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

*1 bright red/green moved in/out + up/down
2 green lights moved down and appeared out
further and went straight up in air
1 bright light moving around.*

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

NO.

31. Was anyone else with you at the time you saw the object? (Circle One) Yes No

31.1 IF you answered YES, did they see the object too? (Circle One) Yes No

31.2 Please list their names and addresses:

Husband
Daughter
Same address.

32. Please give the following information about yourself:

NAME [REDACTED] [REDACTED] [REDACTED]
 Last Name First Name Middle Name

ADDRESS [REDACTED] DRIVE XENIA, OHIO
 Street City Zone State 45385

TELEPHONE NUMBER [REDACTED] AGE 32 SEX FEMALE

Indicate any additional information about yourself, including any special experience, which might be pertinent.

none.

33. When and to whom did you report that you had seen the object?

18 May 67
Day Month Year

Capt Haverstick 7007P Duty office

34. Date you completed this questionnaire:

18 May 67
Day Month Year
0100EDST

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

thought object might be near WPAFB.

4 lights appeared to move.
