It was very essential, said the Mayor, that the people of Victoria should patronize home industries in the way of goods manufactured in the city and agricultural products raised in the country in the Island of Vancouver He also drew attention to the fact that the Victoria and Island Development Association was an organization uniqu in its construction, its mainstay in regard to finances being revenue from regard to finances being revenue from the city and the directorate being com-posed of two 'ndividuals from each of any city organizations in the city which cared to be represented on the Association. In addition, the Mayor of the city had always been an ex-officio member, with from three to five of the Aldermen.

Originated Last Year.

The Home Products Fair was originated by the Victoria and Island Development Association a year ago, and that Fair was most successful. The Fair this year promised to be even more of a success. That success would be very largely due to the energy of the personnel of the committee which had the matter in charge, particularly Westley-Newton and Charles Arm-

Smiling Jack Tar,

For several weeks, in almost every hop window in the city and in divers ther places, the public has been heerfully confronted with a smiling ack Tar on cardboard, his can been cheerfully confronted with a smiling Jack Tar on cardboard, his cap bearing the name of his ship, "Victoria," and his hands being employed in holding up above his head a long tray of home-made goods. That genial sallor has now made port in the best of weather, and brought his ship to anchor for a week at the Hudson's Bay "Wharf" on Douglas street. From new on up to Saturday night the second annual Home Products Fair will be the spot where everyone will go to spend an hour, or two or three hours, or more, in fully realizing something of what the City and Island can produce.

Mr. Dilworth was born at Leeds, Quebec province, in 1850, of Irish parentage, his father John Dilworth, being one of the pioners in Southern Quebec. When quite a child, his parentage to the agree up on a farm. At the age of 18 he decided to strike out for himself and settle in the Red River settlement. He traveled west by way of Minneapolis. Within a short time of his arrival, he was engaged in the lumbering business on the Assimbolne for what the City and Island can produce.

Brought into existence by the Vic- Canada. Brought into existence by the victoria and Island Development Association this year's fair has become the second annual occasion on which "home-made" goods—and the possibilities of their great increase—can be viewed under one building, the candid object of which is to encourage and increase local production and enternal increase prise by showing the excellence of local products and stimulating a wider ber and refused to surrender the au-

local products and stimulating a wider demand for them.

Worthy Motive.

With such a worthy motive no citizen can have any feeling but that of hearty appreciation for such a most laudable purpose tending to the still greater development of the resources of the Island. If every part of the British Empire had maintained its independence of outside supplies the crime of the German U boats would never have been attempted. The success of the fair will depend on the extent it is patronized by the public. Every public-spirited resident will no doubt make a point of "taking in" this exhibition, where he will have opportunity of meeting old-friends from the Island, the Mainland and from the United States, and other parts who will come over to visit the fair.

Ottawa, Sept. 24.—All men discharged from the Canadian Expeditionary Force in Canada and who have not been overseas will be required to report under the terms of the Military Service Act. Their military service in Canada will not exempt them from the requirements of the Act, and if they wish to secure exemption on any of the specified grounds, they must fill in their forms of application. Artillery Activity Reported Near Scarpe and in Lens Region; British Troops Have Held Their Gains in Belgium and Added a Little

London, Sept. 24.—Heavy cannonading was again in progress last night on the Flanders battlefront northeast of Ypres, but the infantry had a relief from the recent hard fighting. The last German reaction was not encouraging enough, apparently, to warrant a speedy repetition, as Field Marshal Haig last night reported that when the Germans assaulted the British lines northeast of Langemarck yesterday they not only were repulsed but lost ground in a British counter-drive.

Signs of possible violent activity impending are appearing in other sections of the British front, notably in the Arras region near the Scarpe and in the vicinity of Lens, which city still is being closely pressed by the Canadian forces. Considerable artillery activity is announced from these sectors.

How Teutons Abused Protection of United States at Bucharest

### ANOTHER DISCLOSURE BY SECRETARY LANSING!

Washington, Sept. 24.—How Ger-many "shamefully abused and exploit-ted" the protection of the United States by secreting in the German legation at Bucharest, after the American Govern-ment had taken charge of Germany's affairs at the Roumanian capital quan-tities of powerful explosives for bomb plots and deadly microbes, with in-structions for their use in destroying iorses and cattle, has been revealed by

Secretary of State Lansing.

It is another of the series of disclosures of German intrigue, made public without comment in the same manner as the von Luxburg telegrams, which have brought Argentina to the verge of war with Germany, the von Eckhardt letter from Mexico City and the von Bernstorff telegram asking the German Foreign Office for authorization to spend \$50,000 to influence the Congress of the United States. The latest story was told in a com-

munication to the State Department from William Whiting Andrews, secre-tary of the American legation at Bucharest, and a letter from Foreign Minister Porumbau of Roumania.

Suspicions Aroused.

Parcels and boxes taken into the German consulate at Bucharest with a display of great precaution aroused the suspicions of the Roumanian Govern-ment. On August 27, 1916, the evening prior to the date of Roumania's declaration of war, some of the cases were taken to the German legation, located one from in a different building from the concomplete

Convinced that the boxes had not been taken away from the legation by the German diplomatic mission on its departure from Bucharest, the Rou-manian authorities ordered the police to find and examine their contents. A list of military and naval officers has been submitted to the King from which to choose new members of his staff.

The artillery on both sides also is otably busy on the French front in the Verdun region. Last night its activity reached the stage of intense vio+ nce in the Fosses and Chauman Woods regions, Paris reports.

London, Sept. 24.—German heavy guns were active this morning on both banks of the River Scarpe, on the Arras front in France, Field-Marshal Haig reported to-day. A German raiding party near La Bassee Ville was driven away after a sharp fight last night with the British. The text of the report follows:

"A hostile raiding party last night near La Bassee Ville was driven off with loss after a sharp fight. A few-of our men are missing.

Dr. Hermann Roesemeier, formerly Foreign Editor of The Berliner Morganpost, in an article written in Berne, Switzerland, urges the Allies to force peace by victory. He expresses amazement that anybody should imagine an understanding with an unconquered Germany. Moreover, owing to the tions, most of the intellectual classes from university professors to students are likewise tied up with the Junkers. The humbler classes of civil servants are absolutely imbued with the spirit of military subjection, being mostly composed of non-commissioned officers, corporals, sergeants, etc. Dr Roesemeier further points out that the military associations (Kriegervereine) in which ex-soldiers unite and meet together, and the smaller newspapers (completely under the thumb of the local magnates, who are most of them Junkers) take care that the middle classes are all militarists and jingoes Finally, with the help of the Workingmen's Christian Associations, presided over by orthodox pastors, the Junkers the working classes into their clutches.

Such is the peace for which official Germany is striving, and by way of adding insult to injury, she declares that such conditions are no reflection on the honor of the Allies!

ADr. Roesemeler plainly is hostile to reliance upon the other classes as factors in the determination of German policy. While the moderates the ma Socialists and Progressivesmight be induced to agree to a peace on the basis of the status quo before the war, they would not oppose annex-

That calamity at one time was dangerously imminent. French's two corps were confronted by at least four corps of Germans who were swiftly working Wright and the two-hundred-mile around his flank. Only fierce rearguard resistance by the British army retiring with extraordinary order and skill, averted the catastrophe,

The first British expeditionary army in organization, discipline and fighting enpacity was the finest force of its kind that ever took the field. And it was the product of a War Minister who was a lawyer, not a soldier-the much abused Lord Haldane. Moreover, the Germans themselves helped in its creation, though unwittingly. The disclosures of Haldane's negotiations with Berlin in the interests of a settlement of long-standing international differences reveal that in establishing his people in Canada believe, that the wonderful little fighting organization have even contrived to get a section of the British Minister used information quietly but thoroughly acquired by him from the German war chief. pends to an enormous extent upon one onsideration. Germany under her preshabit of trying to murder her neighbor in their sleep; and the nature of the in their sleep; and the nature of the peace that is coming depends on whether Germany prefers to retain that habit or to abandon it. The sign of its abandonment will be fairly simple. It will be the rejection of Germany's present rulers, whether by the direct overthrow of the dynasty, or by some complete change of Government and Constitution. It is not that we claim to dietate to Germany the sort of Constitution we wish her to have. The rule of freedom demands that Germans, as much as Poles or Armenians, shall choose their own Government. But it makes a profound difference in our attitude towards them in the future, what sort of Government they choose. Suppose we gain, our ends; the Katser is deposed by his own people; a Parliamentary Government is established in Germany, with in all likelihood, a Liberatisocialist majority. Then the way of peace is plain. Germany Joins the League of Nations. Slie accepts arbitration and the reduction of armaments. She sets all her relevances before the tribunal of the League. Her main concern will be to pay her debts and reconstruct her shattered seedety. ce that is coming depends on whether

### TWENTY FIVE YEARS AGO TO DAY CARS COLLIDED ON

Victoria Times, September 24, 1892.

Ottawa, Sept. 24.—Dr. Milne, M. P. P., medical health officer for the City of Victoria, had another interview to-day with Mr. Carling, Minister of Agriculture, fin reference to the case of seven lepers now isolated on D'Arcy Island, and being cared for by that city. There appears to be some doubt as to jurisdiction in such cases between the Dominion, the Province and the Municipality.

Rev. Egerton B. Young, for some years missionary at Norway House and Berens River, H. B. T., is paying a visit to the Pacific Coast, and will arrive here this evening. He is an author and lecturer of note.

At the Y. M. C. A. convention of the Pacific Northwest, it was decided that the next annual meeting will be held here.

South Saanich Institute.—The South TABERNACLE OPENED sanich Women's Institute held their regular meeting on Thursday evening. September 20, when a very interesting talk on drying vegetables and fruits was given by Mrs. Hofer. The sum of 35 was voted toward the Agricultural Relief fund.

Given Hearty Send Off.—Percy W. Pain, who left here on Saturday with a number of Victorians for Toronto to take up duties with the Royal Flying Corps, was placed in charge of the Victoria party. The boys were given a splendid sendoff by their many friends who assembled at the boat on Saturday night, a similar demonstration following the next morning as the young airmen were joined by the Vancouver party and entrained for Camp Borden.

Fairfield Red Cross.—The Fairfield cranch of the Red Cross Society and counces that the rooms, corner of May Non-Partisan League.-The inaugural meeting of the Victoria Non-Par-tisan Leagne will be held in the Vic-toria Club (Campbell building) on Monday, Sept. 24, at 8 p. m. Mrs. Liv-Street and Linden Avenue, will be open daily except Saturday from 10 o'clock to 5 o'clock, for both visitors and workers. The junior auxiliary under the direction of Miss George will meet each Saturday 'morning at 10 o'clock. ### The Individuality of the Steinway Piano

To the mind of the musically cultured and musically critical there is an indefinable something about the Steinway Piano that both appeals and fascinates. Every vocalist and pianist of eminence has at one time or another paid homage to the superb excellence of the Steinway Piano and its characteristics.

And these Steinway characteristics-what are they? Outwardly, a harmony of symmetrical detail that is as pleasing to the eye as a masterpiece by Corot, Meissonier, or Rembrandt. A subtle, appealing quality of tone—a tone that grades from a murmur of almost unbelievable mellowness, up, up to the vibrating volume of sound that reminds one more of a complete orchestral ensemble rather than of a piano. It is this masterly blending of tone that imparts to the Steinway Piano its supreme INDIVIDUALITY!

You may not wish to buy a Piano just now, but when you do, we will be glad to meet you and point out the many other features that combine to make the Steinway Piano "the ultimate aim of every home of culture and refinement.

#### SANG AT SERVICE

Mae Meyers Gives Solo at First Bible Readings Continue.

It will be a long time before the people of First Presbyterian Church will have the goopel sung to them more sweetly than it was last night, when the well-known Toronto soprano, Mrs. Mae Dickenson Meyers, sank the good old song, 'There Were Ninety and Nine" to the good old tune to which Ira D. Sankey sang it. She played her own accompaniment on the guitar, and as the sweet strains fell on the ears of the great congregation the ears of the great congregation the strain of the great congregation to the control of the strain of the great congregation to the cars of the great congregation to the sweet strains fell on the cars of the great congregation to the people of the p the ears of the great congregation there was a "deep hush subduing all."

Mrs. Meyers has been singing in many of the local churches in which her husband has been speaking, and everywhere her message of song has come as an inspiration and a benediction.

#### "CHRISTMAS CHEER" AND SOCKS APPEALED FOR

A Sock-day and Christmas Cheer shower for the men at the front will be held on Friday, September 28, by the I. O. D. E. Field Comforts, 35 Arcade Building. Contributions sent to the rooms will be forwarded as Christmas gifts to the men, and must be packed in airtight tins. Anything they do not get with their rations would be appreciated: fruit-cake, short-bread, candy, canned food, such as sardines, salmon, pork and beans, fruit, or anything along these lines; also such articles as writing tablets, envelopes, pencils, not books, and money for the purchase of smokes.

theirs beyond dispute.

It was fitting that Clarence Rowland should win his first major league championship from the club which has championship from the club which has been Chicago's strongest opponent, the Red Sox. It was on their home grounds that the 1915 champions finally fell before the White Sox. The game was hard fought and it took the new champions ten innings to overcome Boston by a 2 to 1 score. From now on the Chicago players can get into condition for the great series against New York; the first time that teams representing the two largest cities in the country have met in the baseball classic.

### HOCKEY CHAMPIONS **WILL BE HARD HIT UNDER DRAFT LAW**

Seven Members of Seattle Club Will Be Eligible on First Call

While the first draft of conscription will not make havoc with the majority of professional hockey clubs in the country, two at least will be hard hit. Seattle's Stanley cupholders will be, shattered from stem to stern insofar as Team Still Retains Its Record

as Undefeated Champion

Statered from stem to stern insorar as eligibles are concerned, while in the National Hockey Association the Quebec team has several eligibles in the club that will come out at the first call. Professional hockey has contributed its quota to the great fight overseas with-out waiting for conscription. In pro-portion to the number of players ac-tually under contract to the different clubs, the hockey organizations have sent more men to France than many other sporting bodies in the country. The Incogs defeated a strong eleven picked from the rest of the lengue on Saturday afternoon, thereby bringing to a close a season unsullied by defeat.

Seven Players in Line. No less than seven members of the Seattle club will be called out under the first draft of conscription. Harry Holmes and Bobby Rowe are the only members of the club who are married and who are perhaps over the age limit. Foyston, Carpenter, Morris, Rickey, Riley, Walker and Wilson will all be called out with the first draft. Portland would lose several players unless exemptions were allowed. Mur-

ray, Harris, Irvine, O'Loughlin, Mar-ples, Tobin and Ran McDonald all come within the first call. Ernie Johnson is over age limit and Tommy Dunderdale

Cincinnati, O., Sept. 2, and Brooklyn divided a doubleheader yesterday, the visitors taking the first game by pounding for six hits and second give runs. Pfeffer pitched in fine form, having the locals shut out until the final inning, when three hits were bunched for two runs. In the second game the Reds hit Cheney and Coombs hard and won casily.

Second game—

R. H. E. Beroklyn — 0 5 9 Cincinnati — 2 8 7 Cincinnati — 2 8 0 Cincinnati free, but is above the age limit. Jack is verging on the fortles. Beg. Noble, who finished the season with the Cana-diens, is eligible. So is Louis Berlanquette. Tommy Smith is a trifle over the age limit.

Ottawa Not Affected.

Wanderers will lose at least one good man—Odie Cleghorn, if the hockey, golf and baseball star passes the tests. Billy Bell and Harry Hyland are two more who answer the requirements of the first draft: likewise Phil Stevens and Brownie Baker. Bert Lindsay is married, and so too are Art Ross and Sprague Cleghorn. Alf Skinner, who finished the season with Wanderers, is eligible, but Harry Cameron, the other star Toronto player secured by redhoops last season, is married.

The Ottawa club, runners-up in the title fight, will not lost a player by the draft. Frank Nighbor is the only player not married and he has been turned

down on several occasions. Quebec will lose some players. Paddy Moran, the veteran goaler, is far over the age limit. Joe Hall is a veteran in years, and is married besides. Joe Malone was married over a year ago. Kusty Crawford has a wife and family in Brandon. The sentimental youngster Carey and Mummery, Jr., would both Jack McDonald.

### **AL DAVIES WON HIS CONTEST AT DUNCAN**

Holiday's Seconds Display Gross Lack of Good Sportsmanship at Event

Holiday's two seconds engaged in an argument with the efficial and accused him of favoritism.

For a time it looked as if a free-for all was to ensue, when the two dis-turbers went so far as to knock down the third man in the ring. This be-havior was soon put an end to, howwhen the men were hustled into the dressing rooms. Otherwise the event of the evening was a success in those of Holiday's seconds. No clean sport can for a moment afford to be associated with such an attitude of contempt for the rules of the game.

sport can for a moment afford to be associated with such an attitude of contempt for the rules of the game. It was by a narrow margin on points that Al Davies defeated his opponent. The winner had a slight advantage over his opponent during most of the encounter. The one thing that could be said concerning the affair was that there was a little too much clinching but otherwise it was an excellent contest. Holiday himself put up a good fight and showed excellent pluck against his opponentianho although lighter was nevertheless possessed of superior knowledge of the game.

The decision given was generally considered a perfectly fair one. Two judges, at the request of the Vancou-

Willesden should be keenly interested in the Government proposal to ex-plore Great Britain for oil, because a few years ago traces of petroleum were found there while an artesian well was being sunk. So there is just a possi-bility that Londoners in the near fu-ture may get a cheap supply of oil from one of their own suburbs. Nearly all the manorial rights around Wil-lesden have belonged since Saxon times to the Dean and Chapter of St. Paul's, who could probably claim "mining royaltles" if oil were discovered in paying quantities.—London Chronicle.

The famous no-treating orders seems to have become quite a dead letter in some districts, although the notice "No Treating Allowed," is still prominently displayed. ### THE FRANCHISE BILL.

To the Editor: In your issue of Friday evening there appeared from a number of women in Victoria who-presume to speak for the women of Canada a protest against the franchise bill of the Borden Government, which gives the franchise to the female rela-tives nearest of kin to soldiers at the front, but not to all women. Nothing would please me more than to see all women granted the franchise under normal conditions, and I would be among the first to enter my protest against discrimination, but the bill minate, for it is an emergency asure to be effective only during war. When the war is over and he soldiers return and they are able hemselves to vote, the bill ceases to e in operation.

Of all citizens the women of Canada of all citizens the women of Canada uid be emphatically unanimous in port of a bill that would enable our lant heroes at the front, fighting, their freedom and protection, to e by proxy, as this bill enables them do, as otherwise they would be citically disfranchised. Who would more likely to cast their ballots as y themselves would vote if at home in the nearest of kin of their female tives, their mothers, wives or sis-

nely this does not discriminate nst women whose fathers, husls, sons and brothers are not at front, but who are at home and the opportuinty of casting their themselves. The good women who recorded their protest lay claim, inter alia, on the fact that are sacrificing their all by Red s, patriotic and other work, and should counterbalance the sacriont. The women of Canada have ly done, and still are doing, work, and are all sure in time the franchise. But no one the franchise. But no of forget that the women who are in Flanders, and to who

### **COWICHAN FAIR MOST** SATISFACTORY HELD

People From All Over Island Thronged to Duncan Last Day

### LIVESTOCK FEATURE OF THE YEAR'S SHOW

Now that the Cowichan Fair is over the exhibitors and critical visitors alike are able to summarize the better their general impressions of the exhibition. It was very commonly conceded yesterday among the people of the district that the event was quite the most satisfactory, from an allround standpoint, that has ever been held in that part of the Island. Their comparisons even extended further affeld, and those outsiders who visited the fair in impartial spirit were agreed that some of the more populous centres

that some of the more populous centres will have to look to their laurels if they are to take even comparative standing with the Cowichan farmers. The climax of the three days fine weather was reached on the Saturday. Portunately the condition was general over the Island, and Victoria and surover the island, and victoria and sur-rounding district were represented by some four hundred visitors, while the Nanalmo and Albernand other north-ern sections sent scores to add to the throngs who gathered by special train or motor. This widespread interest, most acute among the Cowichan farm-ers, was one of the several fine feat-ares of the fair. Coupled with the very high average quality of the exhibits it made of the event quite the best held on the Island for some years.

The Boxing Game.

While the Saturday morning 10 o'clock "special" from Victoria carried about 125 passengers to Duncan the five o'clock train in the afternoon car-ried an additional crowd, principally "fans" and intending-spectators of the boxing match which took place in the evening and for which a special train also ran from Nanaimo. The interest which the linking of the two events brought to the district lasted well over the week-end, and most of the hotels in the Cowichan section were crowded with motorists who took the opportun-ity to remain over for a day or two while in that part of the country.

A review of the livestock display was satisfactory to the organizers. Without question this was one of the most encouraging features of the show, the exhibits of borses and cattle being particularly fine, better in quality, larger and more varied. G. Shannon nudged the heavy horses and F. O. Wolfenden the light-draft animals. Magnificent equines were shown, particularly in the former class. Great interest was taken in the judging of the saddle horses in the afternoon, hundreds of visitors rimming the ring to watch the

animals put through their paces.

There was a grand parade of the cattle in the afternoon, this also being an interesting event.

Sheep and Poultry.

Sheep-raising has not yet become so general in the district as the advocates of this industry would like to see, but some very fine entries were shown all the same. The Fleckmasters Associexhibited some fine little ewe lambs.
William Robson took a prize with two
grade ewes, and in the Oxford Down
class G. H. Hadwen and Louis F.
Notic were holders of the chief honors.

In judging poultry H. Upton, pro-vincial poultry inspector, was accom-panied on his founds by about thirty of the poultrymen of the district, and much valuable information as to utility points and up-to-date methods in the points and up-to-date methods in the breeding and rearing of fowls was siven by him in this impromptu class. The introduction of such a scheme was much appreciated by the farmers of the district, who thus gain direct information from the Government expert, and in a way which permitted the asking of questions which led to further elucidation on knotty points. In a lesser degree the same idea was conther elucidation on knotty points. In a lesser degree the same idea was carried out in the judging of other exhibits. Swine were in fairly good evilence, and some excellent pork hogs were shown. Among the winners of prizes were William Waldon, who took three firsts with boar and sows overtwo months and under six: William-McKinnon, whose 'best pen of bacon hogs and sow with litter" took firsts: Grosland Bros., Cedar Creek ranch, who took one first and three seconds; and G. F. Corfield; of the Eureka Grosland Bros., Cedar Creek ranch, who took one first and three secends; and G. F. Corfield; of the Eureka Phoroughbred Stock Farm.

Vegetables and Fruit. Vegetables on the whole were of better standard than the fruit. Root trops made a fine showing, and for rise, quality and variety the district has never afforded anything better. Fruit was slightly disappointing, the long dry summer having proved a de-terrent to the proper maturing of many

of the crops.

Bread was the most in evidence of the "oven" products in the demestic

cience display. Miss Monide, of Dunain, was the judge, and the principal
onors went to Mrs. Dawley, Mrs. Mrs.
Mrs. George Colk, Mrs. W. P.
aynes, Mrs. Briggs, Miss Hall, Miss
'atterson and Miss Savage.

Bottled fruits and jams made one of
he most attractive features in this
ection of the fair, and the industry of
he Cowichan housewives was abund.

the Cowichan housewives was abundantly demonstrated in the rows of tasty-looking conserves. Needlework, both of practical character and of more artistic aspiration, was much in evidence. The North Cowichan Red Cross exhibit, which took first prize in this division, was the object of favorable comment on all sides. Nothing which could possibly be made in the way of Red Cross hospital supplies seemed to have been omitted from the box which this branch of the organization sent in, and all the work was neat and nicely worked.

Dog Show.

Dog Show.

The entries in the dog show were excellent, and the judge, T. P. McConnell, of Victoria, was particularly pleased to find such a good showing of retrievers and Labradors, dogs which are now too rarely seen. Another nowadays rare dog, the Gordon setter, was exemplified in a particularly fine specimen. The bulldog which took a special prize as best dog in the show was a remarkably fine specimen of his kind and was fine specimen of his kind and shown by a Victoria man.

The quality throughout was excel-lent, and the majority of the winners would take prizes at any show. There was not much seen in the way of new dogs, however, the majority of the winners having been shown before.
The best setter was still "Arbutus Swallow," and "Victoria Jill" again held a place. Sports dogs were most in evidence and of finest average quality, as might have been expected in a place where hunting is carried on to such an extent as it is in the Cowichan district. The following is the prize list:

### JUDGED AT WEST **COAST EXHIBITION**

William Gibson, Sr., Tells of Visit to San Josef and Cape Scott

Something of how the remote settle ents struggle along is told by William Gibson, Senior, of this city, who is just back from a trip to the northson, who for many years farmed at Wolseley, Sask., has since he came to British Columbia, judged field crops

for the Department of Agriculture. He left on September 8 on the Prin ess Maquinas for San Josef Bay and Cape Scott to judge the exhibits at the annual fairs, and also to make a re-port on the co-operative variety test in the district. The latter is to ascertain the best kinds of produce to be cultivated. The data is based on an average over a term of years.

Up West Coast.

Mr. Gibson describes the trip up the West Coast to Quatsine, and says he was greeted at the wharf by Captain Peterson, who had a letter from the secretary of the Agricultural Society at San Josef. The letter recommended two alternative courses to reach the settlements. "I chose," he states, "the sea course, and accompanied Captain Peterson in his launch. The swell from the Pacific when we got outside th entrance prevented the captain mak-ing San Josef harbor, and we put into Sea Otter Cove, the home of the cap-tain. Here were quite a few halibu ind fishery boats in the cove anche from the storm. After luncheon we started, Mr. Morman, who I had met at Quatsino, accompanying me, and on the way to San Josef Bay met Mr. Dane, the secretary of the Associa-

The candy committee of the Municipal Chapter, I. O. D. E., are again asking for candles. This year the appeal is most urgent, as the Motherland can supply none. No one who gives the idea a serious thought would like to have the boys at the front go without their Christmas candy. The brave sallors and airmen must have their share too, and tins marked for them will be forwarded to the destination intended. The girls of Victoria are expected to do their bit as they did last year, and the stores will help generously. Uniform sized tins cannot be

COMPELLING STORY

The former associations are discovered by the interests and the woman is made to confront "Smith" in the presence of Edith Mallon to say that he was her own lawful husband. "Smith" could not deny, for he could not remember, and this was his answer to the anxious query of Edith Mallon. The woman's statement, and the things she told about "Smiths" past, created a tremendous sensation. Naturally they had a bearing on his prohibition fight.

Robert Warwick is to be seen at the Pantages this afternoon and evening, and for all of the showings to-morrow, in one of the best productions he has ever been starred in, "The Man Who Forgot," This is a most opportune story to be shown in this city on the eve of the coming in of prohibition, though its theme goes further—it is more comprehensive.

It is the story of a man who had sickened of the life that association with bleary-eyed flends in the underworld of Shanghai had created for him, and determined it of quilt it. He addressed his decision to a man and a woman—both human wrecks like himself—and asks them to return to America with him. woman—out numan weeks the min-self—and asks them to return to America with him. They do not come, not then; they come at the crucial period of his life later on, at the time when he has almost attained the pin-nacle of success.

Alone in this country he drifts east-ward, eventually to reach a mission house of Cincinnati, sodden with whis-key, to which he had resorted in an ef-fort to satisfy the tremendous, com-pelling, unnatural craving for the thing he had determined to quit.

thing he had determined to quit.

Here the real woman came into his life, the good angel from the nobler human strata, who had sought to be helpful by devoting herself to the reclaiming of human souls. Strangely enough she was the daughter of Sentor Mallon, the leader of the opposition to prohibition, which was the big issue of the time.

Home Products Fair Exhibit is a Revelation in Embossed Stationery

The faculty of knowing what to do and how to do it assuredly belongs to the Macey Company, Limited. One of the firm's chief aims in establishing a branch here was to provide Victoria with a store where the business man could go knowing he would find the object of his quest. If was realized that a man's business is often lost and his patience tried during the days which must elapse before a certain article may be procured for his approval from some distant part of the Dominion or mayhap-from across the

When the store was opened in 1913 there was more second-hand office furniture changing hands than could furniture changing hands than could furniture changing hands 'than could be regarded with equanimity by the individual planning a new venture. Helief that the ebb-tide period was to be only of a temporary nature and the possession of a broader vision of Victoria's future resulted in the opening of the doors of the new store. That optimism was justified and the Macey shop is now firmly rooted in its commodious View Street home.

Despite the fact that whale meat as table delicacy has scarcely "caught on" in Victoria, the officials of the Victoria Whaling Company are decidedly optimistic about the future. This is the more marked from the fact that meat from the whaling stations operated by the company is being continually shipped to San Francisco in twenty-five ton ear load lots.

### FOXALL'S WORK THE LAST WORD IN ART

Remarkable Specimens of Photographs in Oils at Fair Exhibit

Everyone has a soft spot for the cood old-fashioned oil painting, tragicare, particularly upon a close inspec-tion. Photographs in oils, however, are quite a different matter, and the unique examples of this particular phase of modern portrait work to be found in the Foxall exhibit at the found in the Foxail exhibit at the Home Products Fair, will go to show how far the old order of perpetuating family likenesses has been left behind. Mr. Foxail has made a special study of this branch of his profession and the attendant success has been the subject of highly complimentary com-ment from many satisfied clients.

Aside from general portraiture—the excellence of his work being too well-known to need especial emphasis—Mr. Foxall has developed to a state of remarkable perfection the art of making large pictures from small ones as he chooses to call the process.

tarly sharp subject. That misgiving need exist no more. Mr. Foxall's specimens at the Eair will show how in the process of enlargement from very inferior prints instead of the subject suffering it has invariably been greatly improved, the copy transcending the original.

The copying of old pictures has similarly been brought to a science by Mr. Foxall much to the delight of many possessors of prints impossible to duplicate by any other means.

On the 6th floor of the Sayward Building Mr. Foxall conducts his business, with fifteen years experience in Victoria behind him, and his belief in the city as a home of home products in the future continually grows brighter.

The local branch carries the agency for "Macey-made-in-canada." Its splendid assembly of filing cabinets, sectional bookcases, and every concervable class of office furniture paper, wood, and metal—are of Dominion manufacture and in every detail of workmanship have no peer.

The watchword of Manager Abell has been and continues to be "Service." He realizes that the business man is getting, if anything, more fastidious concerning the effectiveness and practicability of his office equipment. That contingency was expected and has been met. Tastes in stationery have changed. The exhibit at the Fair indicates the ability of the Macey Company to gauge the need.

So the story goes, from the moment one enters the store there is evident the quality of service. It is right. Colloquially, the store is able "to deliver the goods."

The officer's story, published in a loca paper, deals with the submasine attack on a number of vessels being convoyed and reports of which have already reached American ports. The officer berclaims that eight vessels and not five, as previously reported, were sunk, and that the Virginian, seriously crippled and in a sinking condition, managed to make the beach.

"It is impossible for me to say." said the officer, "whether any su were sunk or not. We were scattered over quite an area, and our ship had her own troubles in getting away. The destroyers were busy, however, and I am quite sure some of them got what they were aiming at. With a heavy sea running and nothing but a periscope to aim at, it is a difficult matter to get in a

The Harrison Line has been greatly bandicapped in maintaining its various services since the outbreak of war by the commandeering of many of its ships and the situation has been still further aggravated by the loss of a large number of vessels through the activities of enemy submarines.

Recently the impression gained ground that the company might have to curtail its North Paelfic service owing to lack of tonnage brought about by the demand on other routes. It is now understood, however, that the company has had a number of its ships released for regular trading purposes.

The allied monarchs," said Governor-General von Beseler in the Röyal Palace of Warsaw on November 15, 1816, after reading aloud the manifesto of Wilhelm II. and Franz Josef setting up the Kingdom of Poland, "thus most solemnly guarantees the re-establishment of the Kingdom of Poland, "thus most solemnly guarantees the re-establishment of the Kingdom of Poland. This past cannot be any more overturned." Just at the moment when the world rings with Mr. Wilson's denunciation of the perfidy of the German Government, it would seem, to feed an independent Polish State found it "a pressing and Joyous duty" to create a "numerous, well-disciplined Polish face of the world another "scrap of paper." The Austro-German kingdom was a humbug from the first. The aspirations fused the double oath. It was not safe to let the Polish legions stay in Warsaw. Their creator, the popular hero, Pilsudski, was among the eariest to dresign from the Council of State. His the amiable occupiers and guarantors of the Kingdom of Poland seems to have been the last straw. The whole Council of State resigned. Having succeeded in setting most of the Poles in the occupied territory against them, Germany and Austria-Hungary are to abolish the phantom kingdom. They must have more soldiers. They can get them by conscription, by partitioning Russian Poland. Doubtless the Polish conscripts will be as loyal to the Central Powers as some of the Czech troops have shown themselves to be. Germany, it is gald, will content herself with a tenth of the deceased kingdom. Her modest purpose is to "rectify her strategic frontier." The Congress of Vienna had trouble enough in finding one for her in 1815: Ought she not to be content with one this side of the Urale? Austria-Hungary, so strong and happy in her united peoples, so beloved by Czechs, Sloveks, we of the Poles have looked to a united to let the Polish legions stay in War-Poland, including Prussian and Aus-trian Poland. The new kingdom com-Plisudski, was among the earlest to

Danzig or other access to the sea, it could not be autonomous. If it could have continued, it could have continued, it could have continued, it could have been only an economic and political annex of Germany and Austria-Hungary, it was created, in part, to make a division between Poland and Russia and her allies, but primarily and mainly to mobilize the Polish workmen and peasants for the armies of the Central Powers.

Five days after the pompous farce at Warsaw an Austro-German proclamation, called on the Russian Polsand was to get the institutions she needed, and "of these the Polish army. Poland was to get the institutions she needed, and "of these the Polish army is the most limportant." Rise, valiant men!"

The valiant men were slow to rise. The German trained of the Poles, creating agents were rather more numerous than the recruits. of rehearsals. The summers are chiefly spent in California, and before

the went to Santa Barbara this year for the hot weather, season they were giving concerts in Southern California. This American singer has a versatile taste in music, as his programme for Thursday night will prove to his auxience. But among the outstanding numbers which he will give is a ballad. "Edward," from Percy's relies, one of portant consideration on the part of "Edward," from Percy's relics, one of the oldest pieces of Scottish literature.
This work Mr. Fanning considers probably the greatest ballad ever written, and undoubtedly the most tragic, and as a composition it makes tragic, and as a composition it makes great demands on the singer, calling on all grades of emotion of which the human voice is capable. Another of his great favorites on the programme is "The Last Leaf." the words by Wordsworth, the music by Sidney Homer. On his various European concert tours this was always the most popular of his English ballads, and he computes that he must have sung it quite five must have sung it quite fiv ndred times on the continent.

New York Sept 24.—Supreme Court Justice Daniel Cohalan, of this city, last night issued a statement in reply as reckless of the lives of his men as in the Eattle of Lens a month ago.

The activity on the Canadian front is still below normal. In the St. Laurent sector another post was put out this (Sunday) morning at a point where the observation of Lens is excellent. New York Sept 24.—Supreme Court Justice Daniel Cohalan, of this city, last night issued a statement in reply to a reference to him contained in the expose by the Committee on Public Information at Washington in regard to German propagandas and plots in this country prior to the break in diplomatic relations. The statement said in part.

"How much England has had to do with the publication of the unsigned statement, of an unnamed third party on my alleged views I do not know.

#### WILHELM WENT SOUTH AND MADE A SPEECH

London, Sept. 24.—Kaiser Wilhelm, says a dispatch from Amsterdam to Reuter's, has visited the batllefields in Roumania and inspected the troops who participated in the campaign in Transylvania and Roumania in the autumn of 1916. These troops are now on the Moldavian battlefront. Addressing the troops, Kaiser Wilhelm spoke of the worldwide historical importance of this fighting, which, he said, was also of great importance economicali for the homeland.

He concluded with the declaration

that "if the war is to continue, it is not the Germans' fault."

### **DETERIORATION OF GERMANS IS NOTED**

Interested Chiefly in Peace Question

British Headquarters in France and Belgium, Sept. 24.—The Battle of Menin Road has furnished further evi dence of that deterioration in the fighting qualities which has been going on in the German lines for some time. It must not be assumed from this statement that the Germans are in a demoralized state. During the past few days they have fought with great determination and skilfully, but they are not so good as they were. It is significant perhaps that the counter-attacks delivered by the enemy on the first day were lacking in the intensity of previous counter-attacks, although the Germans had known that the offensive was pending and had had time to prepare for eventualities. In this connection a change has been noted in the attitude of captured German officers. Apparently they no longer have faith in the future and have abandoned hope of success in the western theatre. The thing they are most interested in now is peace. lence of that deterioration in the fight

Everywhere along the line one finds the same feeling. The men are imbued with the idea that they have proved thomselves stronger than their adversaries, and they are filled with the determination to see the affair through to the finish. The arrival of the American troops in France has done much to make even stronger this confidence. Everywhere

#### A GERMAN PAPER ON LANSING'S DISCLOSURES

London, Sept. 24.—In commenting on the latest Washington disclosures con-cerning the activities of Count von Bernstorff, former German Ambassador to the United States, The Koenlische Velks, Zeitung, according to Amster-dam dispatches to Reuter's, says: "This affair, if true, has a very dis-agreeable character, and it is highly

regrettable. The American Government, God knows how, was able to get
hold apparently of the whole collection
of German diplomatic documents,
which, it is now exploiting against us
and Sweden. What the State Department remarks about the relations between von Bernstoff's policy and the

(By Burdick Bros & Brett Ltd.)
Chicago, Sept. 2t.—The grain market opened quietly to-day at prices unchanged from the last session. Notwithstanding a drop of ten cents in cash corn the futures took on strength and after a gradual advance for the first hour a hurried covering of shorts caused a rapid advance and the closing prices were the best of the day. The demand for cash oats was good at increased prices and the futures advanced from opening to close without reaction.

### To Demonstrate the Quality of My Dentistry—

I wish to announce that beginning this morning and continuing for one full week I will extract any tooth or any number of teeth

### Absolutely Free of Charge!

My receiving hours for patients desiring to avail themselves of my free extraction offer will be from 9 a. m. to 6 p. m. daily. Children, accompanied by their parents, will be received on Tuesday and Thursday mornings only.

This offer of free extractions is made with but one object in view, namely, to afford every sufferer from defective or aching teeth an opportunity to gain relief, and to prove to them that by my modern scientific methods the alleviation of pain is more than a promise; it is a reality.

Just one year ago I inaugurated for one week a free dental clinic. During that week I extracted more than five hundred teeth. From the friends I made during that week I have received numerous letters of commendation on the quality of my work and upon the skill and conscientious care I took

Two Conflicting Opinions ne of the factors causing politics ents in republican China. One de ier and responsible cabinet: the other gains its inspiration from the United States and is supported by men educated in that country, where the president is the executive head of the country and there is no place for a premjer. In China an attempt has been made to retain the functions distinct, but hitherto the distinction has not been defined, in consequence of which there is constant conflict beween the two heads, executive

German Influence.

The extent of German propaganda in China, to prevent her coming to the tid of the Allies, has been little understood in America. The story was spread, and had wide currency that if the central powers made peace with Russia, opportunities would be afforded to attack China from the West and to attack China from the West, and that illusion for a long time operated against the present happy situation of active co-operation with the Allied na-tions. This international relation has a close bearing on the national one, be-cause if China is to be of any use in the war, there must be a strong cen-tral government whose influence is appreciated in the South. Therefore national union at this time is of great importance."

selling their services for the best pay and prospects of loot. He maintains that until the Chinese Army is nation-ized and the Generals subservient to the civil power peace in China will be very difficult to secure.

Lack of Development. Mr. Macinnes stated a fact little known on this side, that the Chinese mining code is largely based on that of British Columbia, and was drawn up for the late President Yuan Shai Kai by a Canadian lawyer. However, it is not put in operation and the it is not put in operation and the splendid mineral wealth of the Celes-tial republic is scarcely scratched on account of ignorance and superstiti-tion about disturbing the earth. "Why in the Shameen, the international setin the Shameen, the international settlement at Canton," he said, "inferior Japanese coal at \$23 gold per ton is used, while almost within sight is coalbearing land capable of yielding a hetter grade of coal." He mentioned this fact as typical of the general backward condition of the country in the development of its potential natural resources.
