Daylight Saving to Prevail Generally Here by Next Week

Mass Meeting of Business Men Endorses Plan; Clocks of City Hall and Other Institutions Will Be Advanced To-night.

With various public institutions, a large part of the local business houses and the City Hall operating under the system, daylight saving time apparently will prevail pretty generally in Victoria by Monday.

Confirming the action of the City Council in recommending daylight saving, a mass meeting of Victoria business men held in the Board of Trade rooms this morning, decided by an overwhelming majority to support the change in time.

CHRISTIANS ARE MOVED BY BRITISH OUT OF TURKEY. Constantinople, June 19.—Several hundred Christians and foreigners under the protection of the British squadron.

EFFECT OF TREATY NOW TO BE TESTED

Courts to Decide If Province May Retain Exclusion Clauses

Subject Involves Employment of Orientals on Public Works

Whether or not the Government of British Columbia has the right to prohibit the employment of Orientals on any contracts for the Provincial Public Works Department, and in any work undertaken in connection with leases on crown-granted lands, including mining and lumbering leases, is a question which will be threshed out before the courts in the immediate future.

Prolonged Negotiations. After prolonged negotiations between the Provincial and Dominion Governments, during which time the Japanese Consul-General continually has pressed the claims of his countrymen in opposition to the claims of the Government of British Columbia, the Government of British Columbia has decided not to accept the dictum of the Minister of Justice, unless the courts should decide that there is no legal escape from the position.

Arrival Reported. New York, June 19.—The reported arrival here of \$4,000,000 in gold from Canada had little or no effect upon the discount rate on Canada money this morning.

Distilleries' Record in Canada Last Year; 985 Stills Unearthed. Ottawa, June 19.—In answering Hon. Charles Marcell, Hon. Martin Burrell said in the House last night that the ten distilleries in Canada had made 2,636,000 gallons of liquor last year and there was in stock at the end of the year 6,583,000 gallons.

LEAGUE UNABLE TO FIND POLICE FORCE

Lloyd George Pointed Out Difficulties of World Group to a Deputation

London, June 19.—The official report of the interview Premier Lloyd George had on Wednesday with delegates of the League to Abolish War shows the deputation received cold comfort. The Prime Minister, assisted by Rt. Hon. Arthur J. Balfour, President of the Council, and Earl Curzon, Secretary for Foreign Affairs, subjected the members of the deputation, individually and collectively, to a severe questioning. He endeavored to learn from them, down to the smallest detail, what they desired done, with a view to showing its immediate impossibility.

Mr. Lloyd George's argument was that the great powers, except the United States, already had too many engagements to be able to supply forces to the League to create an international police force large enough to coerce, for instance, Russia or Poland. He admitted the ideals of Viscount Grey and President Wilson for an international force were possible ideals, but said they were impracticable now. They might, he added, become more practical if the United States later decided to enter Poland.

A controversy arose between Rt. Hon. George N. Barnes, former Minister without portfolio, and the Prime Minister, the former complaining that no pressure had been applied to Poland. Mr. Lloyd George retorted with the assertion that three great powers, from the very table at which they were seated, made representations to Poland before her attack on Russia was started, but without effect.

Asked why economic pressure was not applied, the Prime Minister replied: "Such pressure has already been applied to a point where the Russian people are starving. It is impossible to apply it more."

The Prime Minister contended the same principles applied to Armenia and the Dardanelles.

Impossible.

"It is impossible," he stated, "for the League to call into being any forces not already existing. What would happen if you asked the United States or France to supply troops and they refused?"

Questioned why the League had not established control over the Dardanelles, Mr. Lloyd George pointed out that France and Italy had been unable to spare the forces which they engaged to supply to control the waterway.

"Must we go to war with France and Italy to compel them to keep their obligations?" he asked. If the members of the deputation, the Prime Minister observed, had worked the engine from the inside, as he and Mr. Balfour had done, for the better realization of the difficulties encountered in bringing the League into full operation.

Mr. Balfour then asked the deputation where the League's international force was to be kept—should

ARMENIA TREATS WITH NATIONALIST TURKS

London, June 19.—Negotiations between the Turkish-Anatolian republic and Armenia are proceeding favorably, and an agreement is expected shortly, says a Moscow dispatch in The Herald, which says the Russian Soviet Government is acting as mediator between the two countries.

The question of guaranteeing Armenia against Turkish attacks probably will be solved, the dispatch says, by a clause in the treaty binding Turkey from keeping an army within a specified distance of the Armenian frontier. All Armenia's aspirations relative to boundaries cannot be realized, it is asserted, and a compromise probably will be reached by which Armenian refugees who fled from Turkey during the war will be repatriated in Turkish Armenia and granted sufficient land there for their support.

PENSIONS BONUSES BECAME SO THIN SHE WAS AFRAID

Special Commons Committee Favors Higher Amounts For Ex-soldiers

More For Dependents; State Life Insurance Is Recommended

Ottawa, June 19.—Marked increases of pensions, state insurance for returned soldiers, and the grant of war service gratuity based on three years' service to the dependents of those who died during the war and who were in receipt of separation allowance, are the chief recommendations contained in the report of the Special Committee on Pensions and Re-establishment, tabled in the House last night by Hume Cronyn, chairman of the Committee.

Amendments.

Several important amendments to the Pensions Bill are suggested. Pensioners with less than fourteen per cent. disability are given the option of commuting their pensions for payments in cash.

Pensioners under the recommendations are based on the 1918 rate.

For those pensioners resident in Canada, the bonus recommended is fifty per cent. more than the basic rate, with a twenty per cent. bonus for those outside of the Dominion.

A private soldier in 1918, if totally disabled, received \$10 a month or \$600 a year. Under the new schedule he will receive \$75 a month, or \$900 a year. A widow will receive \$720 a year, as against \$480 in 1918. The same rates and increases will apply to widowed mothers or other dependents of deceased soldiers.

Also increased.

The pensions applicable to those of higher rank than private also have been increased. By way of example, no more than the pensions will equal those of the rank and file. All pensions payable to those below the rank of captain will be on a basis of equality under the new scale.

The committee confirmed its opinion against granting a further cash gratuity on the basis of war service.

The increases proposed by way of bonus mean an added liability in addition to what is being paid of more than \$6,000,000 per annum.

Permanently.

While the main pension increases are by means of a bonus, it is proposed to increase certain other pension rates permanently and these increases will apply wherever the pensioner may reside.

The permanent increases apply equally to all ranks. For instance, under the present Pension Act, a totally disabled married man is entitled to an addition to his pension of \$150 a year. His allowance in respect to his wife has been increased to \$300 a year. Under the present law, he is entitled to an allowance for his first child of \$140 a year, \$110 for his second child, and for his third and subsequent \$95. Under the proposed changes he will receive \$180 for his first child, \$144 for his second and \$120 for his third and each succeeding child.

The allowance for the first child of a widow under the present law is \$180 a year. That allowance is not increased, but the allowance for her second, third and subsequent children are increased to those suggested for the children of a totally disabled pensioner.

The foregoing increases suggested for wives and children will add a further liability to the pension bill of the country of about \$1,250,000.

To Parents.

If a soldier who was killed at the front had been maintaining his wife and his parents, and these parents are now in want, not only will his wife receive her full pension, but an allowance of \$15 a month, or \$180 a year, will be paid to his parents.

Pensions to children continue in the case of a boy until past the age of sixteen, and in the case of a girl, until she is sixteen years old, although these pensions may be continued until children reach the age of twenty-one for the purpose of completing their education.

There is at present no provision for continuing the pension beyond the age of twenty-one even when a child is mentally or physically incapable of earning a livelihood. The committee recommends that this should be remedied.

Orphans.

The rates for orphan children formerly stood at \$30 a month for the

FROM A CHILD WAS CONSTIPATED

According to the best medical authorities, fully three-fourths of the people of the civilized world suffer in some form from constipation, or irregular action of the bowels. There is no doubt that many distressing diseases are caused by constipation. It gives rise to sick and bilious headaches, jaundice, heartburn, floating specks before the eyes, catarrh of the stomach, biliousness and the painful, troublesome piles, therefore, it is of supreme importance to health that the bowels be kept regular. Simple food, fruit, etc., should be used, and rich foods and stimulants of all kinds avoided. This, with the use of Milburn's Laxa-Liver Pills to regulate and establish healthy action of the bowels, will give permanent relief in the most obstinate cases.

Mrs. L. M. "Waldman," Oshawa, Ont., writes:—"From a child I was always very badly constipated, and I can well remember, when quite young, my mother giving me senna tea nearly every morning, and I got to dread it after taking Milburn's Laxa-Liver Pills for a while I am not troubled with constipation any more."

Milburn's Laxa-Liver Pills are 25c. Write to all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

DUNCAN TEACHERS GIVE RESIGNATIONS

Several Will Make Midsummer Change; Resignations Are Accepted

Duncan, June 19.—The resignations of the following teachers of the Duncan public schools and High Schools have been accepted: A. B. Thompson, M.A., and D. H. Munro, B.A., of the High School, and the Misses Mackenzie, Bradshaw and Creeden of the Consolidated School and Miss Corrance of Genoa Bay.

Miss Knoche, early froton School, will be transferred at her own request to the Consolidated School.

Mrs. Roscombe Footie, of Quanchan Lake will leave to-day for England and will sail on the Megantic. Mrs. Poole expects to return in September.

E. H. White, who has been secretary of the Cowichan Country Club will leave for England shortly.

W. Burdock, who was secretary before, resigning during the war, will resume the secretaryship.

Hotel Change.

Mrs. Tombs is to leave the Quanchan Hotel early next month. J. Morgan, a well-known hotel man of Victoria, is said to be purchasing the business, and also the building, with the intention of refurbishing and adopting a number of new ideas in management.

Mrs. Elkington, Mrs. Christmas, Miss Wilson, Miss Fry and Miss Herd attended the King's Daughters' Convention in Victoria.

FRUIT-A-TIVES Made Her Well, Strong and Vigorous

MADAME ARTHUR BEAUCHER
805 Cartier St., Montreal.

"I suffered terribly from Constipation and Dyspepsia for many years. I felt pains after eating and had gas, constant headache, and was unable to sleep at night. I was getting so thin that I was frightened and saw several physicians who, however, did not seem able to help me.

At last a friend advised me to take 'Fruit-a-tives.' I did so and soon I felt some relief. I continued with 'Fruit-a-tives' and in a short time, the Constipation was banished, I felt no more pains or headache or the disagreeable sensations that follow dyspepsia. Now I am well, strong and vigorous."

PROFITS ON SUGAR LIMITED BY BOARD

Order Issued by Board of Commerce; Avenues of Sale Regulated

Ottawa, June 19.—Speculating in sugar is now an indictable offence in Canada. The Board of Commerce has issued an order restraining refiners from selling to other than wholesalers, manufacturers or retailers; wholesalers from selling sugar to other than manufacturers or retailers; retailers from selling to other than manufacturers and consumers, and that in quantities no greater than the normal requirements of trade or household; and all other persons from selling sugar in excess of the reasonable requirements of the buyer's household.

Profit.
The profit which sugar dealers may make is restricted to 2c. a pound, or 5 per cent. The practice of advancing prices on stocks when refiners' prices advance is prohibited, and the system is ordered of fixing the price of sugar at a profit of 5 per cent., based on the average invoice cost of all sugar in stock at the time of sale.

Two cents a pound over refiners' prices at Montreal, Chatham or Vancouver, central points for the three districts of the Dominion, is declared to be the maximum profit.

With the refiners' price now standing at 21c. or under, a retail price of more than 23c. a pound is declared to be an unfair profit-taking on general sales, and in cases where the sale of one-pound lots may involve a loss for the dealer, a special price of 23 1/2c. a pound may be charged, or the dealer may refuse to sell less than four pounds at a time, and may charge not more than 93c. for the four pounds, or may require the purchase of two pounds, charging 47c. for two pounds. In special cases, where a spread on refiners' prices may necessitate higher prices, a maximum price of 95c. for four pounds is fixed.

Wholesalers are restrained from charging a percentage higher than refiners' prices which would prevent retailers from selling at the prescribed 5 per cent. profit.

All these prices refer to granulated sugar. Icing sugar, lump, or sugar in cartons is excepted.

Raw Sugar.
Drastic regulations are made for the handling of raw sugar. The Canadian refiners are forbidden to sell raw sugar until September 30 next, except to another refinery, or with special permit from the Board of Commerce. Refiners are required to file with the Board copies of every contract for raw sugar.

Refiners are also restrained from increasing their price on granulated sugar without the consent of the Board, which means that until such consent is obtained the retail price to the consumer of sugar stands at 23 cents a pound on an average, and not more than 23 1/2 cents a pound in special and isolated cases.

The foregoing regulations are effective until September 30 next, and persons concerned may file any objection they have to make with the Board, which promises to make special orders where justice and reasonableness demand.

The order has been made under Section 26 of the Board of Commerce Act, and persons indicted under this regulation will be prosecuted by the Attorney-General of the province in which the offence is committed.

MORE CHANGES IN TAXATION MEASURE

Commons Puts Wheat Flour on Exemption List; Wedding Rings

Ottawa, June 19.—A certain number of articles were exempted from the operation of the one per cent. sales tax when the bill which imposes this and the new luxury taxes was put through the committee stage in the House yesterday afternoon. Wheat flour, split peas and pea meal were among the articles of food placed on the exemption list, but the minister objected to adding products of wheat to the list because this would include biscuits, patent cereals and other taxable articles.

Sir Henry Drayton raised the exemption figure for furs, not made from fur, for boys and men, from \$2 to \$3, and on his motion, the exemption from taxation on wedding rings was limited to the plain gold variety.

He explained that it was becoming customary at fashionable weddings to have wedding rings of platinum set with jewels. These should not be exempted.

Suggestions that the exemption figure for furs should be raised were not accepted.

KIWANIANS CHOSE J. M. BARNETT CHIEF

Portland, Ore., June 19.—J. Mercer Barnett, of Birmingham, Alabama, was elected president of the International Association of Kiwanis at the closing session of the annual convention here yesterday. Other officers chosen were: Vice-presidents, George A. Loveloy, Portland, Ore., E. J. Turner, Chester, Pa.; Roy Fulkerson, Washington, D.C. Treasurer, Russell E. Ward, Jackson, Mich. Trustees, E. F. Arras, Columbus, Ohio; James E. Pearson, Jr., Louisville, Ky.; M. N. Goss, St. Paul, Minn., and Harry Carr, of Baltimore.

Cleveland, Ohio, won next year's convention.

A Problem for the Editor.
It has been asked whether stepping on a man's corns gives provocation for swearing. Answer: Keep the toes clear of corns by using Putnam's Corn Extractor. It's the best, 25c. at all dealers.

A Notable Offering Monday of
Women's Better Grade Suits at \$59.75

A clearaway Monday of women's "better grade" suits of tricotine, serge and gaberdine, in shades of navy, grey, Burgundy and sand; all have been reduced so radically in marking that immediate disposal is assured. The prudent will shop early. Monday **\$59.75**

Johnson's Fight Against the League at Chicago

One of the outstanding incidents of the Republican Convention at Chicago was Hiram Johnson's victory in forcing the adoption of the League of Nations plank in the platform. According to the N. Y. Times, "the net result is that the Republican party has met the issue squarely and has made the League of Nations a paramount issue of the Presidential campaign. It is a clean-cut fight from now on between President Wilson's principles of the settlement of National disputes through a society of nations and the principle accepted by the Republican convention that the United States should hold itself aloof from participation in the affairs of the world."

For all the important news, with special attention given to reporting the Republican Convention, you should read this week's LITERARY DIGEST, dated June 19th.

W. G. McADOO NOT CANDIDATE IN U. S.

New York, June 19.—William G. McAdoo, in a telegram to J. P. Shouse, of Washington, made public yesterday afternoon, announced that he could not permit his name to come before the Democratic national convention, and added that "this decision is irrevocable, as the path of duty to

me seems clear and unmistakable." Mr. McAdoo declared he must have reasonable opportunity to rehabilitate his finances, and having been out of office less than eighteen months, he has not yet been able to accomplish this.

SAANICH PENINSULA.

Discussions on the desirability of industries in or contiguous to this community seldom take note of the unexcelled opportunities for wealth production lying at our very door. The intensive agricultural development of Saanich peninsula, on lines like those so interestingly defined by Prof. Lionel Stevenson at the Board of Trade Luncheon yesterday, would give us industrial reinforcement such as none of the ambitious schemes which so frequently agitate our various public bodies possibly could, adding millions to our wealth production, increasing the population of the district and thereby providing a growing market for the things this city has to sell.

One of the present obstacles to the development of this promising asset is the scarcity of water, but with an abundant supply in Elk Lake it ought to be possible to establish an adequate irrigation system at a cost which, considering the assured advantages, would be relatively not heavy.

This is a matter of such vital interest to Victoria that too much attention cannot be devoted to it by our public bodies. Indeed, it might accurately be said that one of the master keys to this city's future lies in the splendid district on its outskirts. No less an authority than Luther Burbank, on a visit here a few years ago, described the Saanich peninsula as being, in some important respects, the most highly-favored section on the Pacific Coast, and he was somewhat surprised that its resources had not been more fully exploited.

Incidentally, may we remind the municipal authorities of both Victoria and Saanich that among the most essential requirements of the development of the district are co-operation and harmony between those charged with the administration of their respective affairs.

A DOUBTFUL POLICY.

According to a recent announcement by the Federal Soldier Settlement Board a new policy has been formulated by which it is prepared to give preferential treatment to those soldier-settlers who are willing to take up unimproved land; that is to say, unenclosed tracts without buildings. Hitherto, or at least during the early stages of the Board's operations, no restrictions were placed on the choice of properties with the result that the greater majority of settlers selected areas which already had been improved.

Under the new proposal the Board is of the opinion that this fresh "encouragement" will make for an increase in the number of applications for farm lands which it declares have fallen off very considerably of late "owing to the fact that the majority of soldiers who have intended taking up agriculture as a post-war occupation are already settled on their land." It is quite true, of course, that the change of policy would give ample opportunity to the physically fit veteran who is willing to grapple with possibilities in the virgin soil of the country. But the Board admits that those who have intended to devote their energies to the rural sciences already have made their selection, presumably, in improved districts.

If that is the case, therefore, how does the Board expect the luke-warm agriculturist to respond to the new offer when the more attractive one failed to interest him? If, on the other hand, it had announced a policy which included preparation of virgin lands on a large scale in readiness for the plough we could believe that rural life for the veteran would take on a more rosy hue. But the offer at this late date, of an unimproved tract, is hardly likely to appeal to the average veteran.

DEAD ALL OVER.

If the Dominion Government is under the impression that by retaining the British Columbia Electric Railway Company within the jurisdiction of the Railway Board of Canada for another twelve months the Public Utilities Commission in this Province will be resurrected it seems likely to be disappointed. While the Act creating the Commission was regarded primarily in the light of a vehicle for the disposition of a number of uncomfortable conditions arising out of disputes between the street railway company and its employees, its popularity in those sections of the Province where its operation would scarcely be seen or appreciated from one year's end to another was not established. Moreover, just as soon as the chief utilities over whose business the Commission was in a position to exercise its authority were removed from provincial to federal jurisdiction, the need for such an expensive branch of the public service disappeared. And the late Commissioner's contributions to events subsequent to its abolition by the Legislature are sufficient to dampen much of the enthusiasm of those who advocated the establishment of the Commission in the first place.

THE CLASS "A" BADGE.

For unwarrantedly adorning himself with a Class "A" button—the visible indication that its wearer has served with the C. E. F. in battle—a charge was brought against an official of the Soldiers' Civil Re-establishment Department at Calgary on Thursday. The magistrate held, however, that the obvious subterfuge to obtain public and private preferment could not constitute a misdemeanor unless the wearer had attempted "to procure any benefit therefrom, or to obtain that which is meant for those who have actually served with the army in France." It was only to be supposed, of course, that a decision of this character would bring a storm of protest from those who are entitled to wear the insignia. Very few members of the C. E. F. are boastful enough to point to their record of service in France as their warrant for special privilege. They depend upon a grateful country to recognize the significance of the button. The exploitation of this symbol by people who cannot establish their right to it, is unjust to the genuine wearers of it.

FOR THE THIRTY-NINTH TIME.

The re-election for the thirty-ninth time of Samuel Gompers as president of the American Federation of Labor is a remarkable tribute to the unusual qualities of the veteran leader of organized labor on this continent. Mr. Gompers, who was seventy years old last January, was born in London, but came to America when he was thirteen years of age. He early took a leading part in trades unionism and forty years ago organized the American Federation of Labor of which he became the first president. He has held that office continuously, with the exception of one term, ever since. He has been active in many other ways, especially during periods of national stress, and there are few public positions in the gift of his country he could not have had if he desired them. He has repeatedly rejected offers of nomination for the presidency of the United States, preferring to remain, untrammelled by political affiliations, at the head of the organization of which he was the father.

NOTE AND COMMENT

The definite announcement of Wm. McAdoo that he will not permit his name to go before the Democrat Convention as a candidate for President of the United States removes the most prominent possibility from the list which has been going the rounds during the last few months.

The statistician of the Provincial Department of Lands has compiled a vest pocket folder comprising a series of questions and answers regarding British Columbia. The idea is an excellent one; it eliminates the glittering generalities which are useless to the intending settler, and gives him the information he requires in language he understands. A liberal distribution of the treatise in question should assist settlement in British Columbia.

Gregory Krassin, the Bolshevik Minister of Trade and Commerce, says that Soviet Russia desires peace, and as a corollary the authorities at Moscow would be prepared to discuss the question of Russia's financial obligations to France. There is reason in the argument; but the Allied countries would place a good deal more faith in Krassin's observations were they to be attended by appropriate action by the dictator who sanctions Bolshevik aggression in Persia and "red" propaganda in the Near and Middle East.

Nine divorce bills were approved by a special committee at Ottawa yesterday at the rate of one every two minutes, the committee requiring only twenty minutes to discharge this duty. Judging by the large number of divorcees that have been granted by Parliament this session, there have been more than the usual domestic disturbances in certain parts of Canada in recent times. As six of the Provinces have divorce courts all the applications before Parliament must have come from three—Ontario, Quebec and Prince Edward Island.

According to figures just published by the French Ministry of War the total number of French soldiers killed during the great conflict is placed at 1,362,872, and of this number the details of the fate of 361,854 are unknown. Such an appalling toll is eloquent of the sacrifice made in behalf of civilization by the people of France. It is small wonder that she should chafe under the diplomatic delays which postpone the demand that Germany shall abide by the terms of the Treaty of Versailles.

OTHER NEWSPAPERS' VIEWS

BRITAIN THE DOER.

(The Toronto Globe.)

Fifteen thousand tons of wheat intended for Britain has been diverted to Germany. Large stocks of frozen mutton are also being sent to the same country from storage warehouses in Britain. These actions, taken to avert serious shortages of food supplies in a country with which she was recently at war, are striking illustrations of the methods of Britain, the doer of things. The Motherland might have been rich beyond the dreams of avarice had she contented herself with strict neutrality in the war. She entered it for the sake of humanity. She furnished the sinews of war to the utmost of her own limit and assumed obligations for her Allies in replenishing the store from the United States. She sees more clearly than any other nation the necessity of restoring Europe to normal conditions. Her vision is backed by deeds. Friend and erstwhile foe alike look to Britain for aid and leading, and do not look in vain.

WELL, IT'S A BEGINNING

(The Worcester Telegram.)

Hurrah, and Hurrah, and Hurrah, and a Tiger! Standard flour in Minneapolis has had the second reduction of 50c a barrel in its wholesale price within the space of seven days. Flour is now only \$15.25 wholesale. That is to say, it is only a meagre \$2.09 a barrel higher than it was three months ago. Who says deflation and price reductions have not begun?

EFFECT OF TREATY NOW TO BE TESTED

(Continued from page 1.)

ploy whatever people of whatever nationality it wishes on public works without dictation from the Dominion authorities, it is assuming a position which will meet with the approbation of the majority of the people of this Province. It is in this spirit, Mr. Farris said, and not in any attempt to avoid its legal obligations, or to harass the Dominion Government, that the case is being brought to court for a definite decision. The history of the matter goes back eighteen years and Mr. Farris briefly outlined the salient points in the discussion.

In the session of 1903 the British Columbia Legislature passed a resolution instructing the Government to insert a clause in all public works contracts and in all leases of Crown lands, including mining and timber leases, to the effect that no Japanese or Chinese should be employed on work in connection with these leases. This policy has been carried out ever since and the present Government has been careful to insert this clause in every case.

The Trade Treaty.

In 1911 a trade treaty was entered into between Great Britain and Japan which stipulated among other things, that reciprocal privileges with regard to matters of travel, occupation and residence should be granted in each country as provided under the "most-favored-nations" clauses.

"This treaty did not apply to Canada when it was made originally, but a proviso was inserted that if it might be made applicable to Canada within two years on notice of adhesion being given to the Japanese Government by the British Government. In April, 1913, the Dominion Government passed an Act declaring that the provisions of the treaty and the same month the Imperial Government gave notice of adhesion to Japan as provided in the treaty."

To these dates the Attorney-General drew particular attention as they materially affect the argument which British Columbia will put before the courts. He continued: "During the last two years the Japanese Consul-General, on behalf of his Government, has made repeated representations to the B.C. Government that the clause referred to was in violation of the Treaty of 1911, applicable to Canada since May, 1913.

Communicated With Ottawa.

"During the winter of 1918 the Provincial Government communicated with the Minister of Justice setting out the situation which had arisen and stating that British Columbia was anxious to continue to exercise its powers as contained in the clause objected to, but stating also that the paramount obligations of the Dominion Government were recognized. The matter was referred to the Department of External Affairs since when no further communication has been received by the Provincial Government.

"After the Japanese Consul-General had been in direct communication with the Ottawa Government Premier Oliver received an opinion from the Minister of Justice that the clause referring to Orientals was in violation of the treaty and should be deleted.

"The B. C. Government now finds itself in a very perplexing situation. Under the terms of the British North America Act there is no question as to the power of the Province to insert any stipulation it desires in its leases and contracts with regard to the employment of Orientals. On the other hand, under Section 132 of the B. N. A. Act, the Dominion Government has power to pass legislation making imperial treaties of force and effect in Canada, thus overriding provincial legislation. This Province was not consulted with regard to the passage of the Treaty, nor in regard to the Imperial Government's decision to protect by all means in its power the interests of the people of British Columbia. Therefore, we have decided that the dictum of the Minister of Justice should not be accepted until the case has been before the courts."

Points to Be Raised.

Mr. Farris stated that the Province would raise the following points in its argument before the Court of Appeal: In the first place, it will be contended that the rights of this Province in respect to contracts connected with its own lands, and leases connected therewith, can only be overridden by the Dominion Government under Section 132 of the B. N. A. Act. It will be contended that the Dominion legislation referred to does not come under this section because this section says that the Dominion may pass legislation to carry out

treaty obligations of the Dominion or of any Province arising out of the notice of adhesion provided for under the treaty. Notice of adhesion was not given by the Imperial Government until May, 1913, where as the Dominion Act, purporting to give effect to this treaty in Canada, was passed in April, thus antedating any obligation on the part of Canada.

While it will not be contended that the Federal Government could not legislate under Section 91 of the B. N. A. Act, it will be contended that Provincial legislation of this kind cannot be abrogated except under Section 132 of the B. N. A. Act, which latter section the British Columbia Government claims cannot be invoked.

In the second place, assuming that the courts find that the Dominion Act

Presentable Luggage For the Traveler

After all, presentable baggage can add much to the pleasure of a trip. With a strong, well-made trunk or bag one does not need to worry about its condition on arrival.

At this store the prospective traveler will find a display of luggage of unusually fine quality. Practically all of it is from the foremost Canadian manufacturer making this class of merchandise.

deed operate as against this Province, the British Columbia Government will contend that its regulations are not in contravention of the treaty stipulations. It will be contended that these regulations do not interfere with the rights of Japanese in British Columbia, but simply exercise the rights of the Province in connection with its own contracts and property. The British Columbia Government will claim that it has as much right to employ whom it will on its own work as has any private corporation.

PAR DOLLAR NOT IN SIGHT YET

(Continued from page 1.)

amount of gold due to arrive in the United States within the next few weeks is \$15,000,000, and the movement will not cease until \$70,000,000 to \$100,000,000 in gold in the Bank of England for the account of the Bank of France has been transferred to the United States.

According to The Sun report, the gold arrivals of to-day and for early next week are scheduled to total \$1,000,000, and are consigned to the New York agency of the Bank of Montreal, and \$4,000,000 on Monday, also consigned to that institution, and \$7,000,000 approximately for early next week at the Pacific Coast to the credit of J. P. Morgan & Company for the account of the British Government.

Regarding the gold said to be arriving from Canada at the Bank of Montreal branch here, The Sun said: "The \$3,000,000 gold scheduled to arrive in New York from Canada is said in some quarters to be exclusively for Canadian Government account and not for the account of the Dominion Government, but indirectly the gold will be applicable here to the use of the British Government even though immediate credit is to the Canadian Government. On the other hand, that gold may be from the store of yellow metal held in Ottawa for the account of the Bank of England, and in that event it would be applicable directly to the relief of the Anglo-French loan."

DAYLIGHT SAVING TO PREVAIL GENERALLY HERE BY NEXT WEEK

(Continued from page 1.)

and everyone agrees that it has been an unqualified success," said C. B. Schwengers. "Moreover, a great many big Canadian cities had adopted the system and are well satisfied." Mr. Schwengers stated that even should the City Council reverse its previous decision on daylight saving, the wholesalers of the city intended to change their time.

Mr. Schwengers' remarks were greeted with applause.

B. C. Electric Willing.

G. M. Tripp, Superintendent of the B. C. Electric Railway Company, stated that his concern would follow the general wishes of the community, though, of course, the new time would cause a loss to it. In Vancouver, he said, the company, so far as he knew, had suffered no inconvenience as a result of the daylight saving system.

A. E. MacLean opposed daylight saving, and said he had found it unsatisfactory in the home.

Joshua Kingham, ex-President of the Board, came out strongly in favor of daylight saving, which he felt would cause very little confusion. His observations in the East, he said, had showed him that the people soon became accustomed to standard time on the railways and daylight saving time in the cities.

"I don't see that daylight saving will increase production and I don't see any of the men who do the work are here advocating it; it's mostly the golfers and people who want recreation who favor it," remarked Mr. Cameron.

W. H. Bone, who favored daylight saving, urged the business men to act on the question together. He pointed out that the system was working well in larger cities than

Victoria, where all the difficulties pointed out were magnified.

"I can't for the life of me see why Victoria should not be able to put this system over when the big Canadian and American cities are finding no trouble with it," H. P. Johnson observed.

"Let's get together," urged P. C. Abell. "We're always talking about co-operation—lets show some of it. A big, representative meeting of the Board of Trade yesterday endorsed daylight saving, and I don't see why we should buck it now!"

"Daylight saving is a patriotic duty," declared another member. "The tremendous saving in fuel in England and the United States, when the system was in force, took it out of the category of recreation and golfing, and made it a natural duty."

Mr. Cochrane reiterated his previous arguments, stating that he favored daylight saving if it were general, but was opposed to it if it were local. He questioned that the Mayor had the power to put the City Hall clock ahead, and warned the meeting against the confusion that was bound to result from the change. It had become very plain, he said, that the people who supported daylight saving did so because they wanted to use the extra hour in the afternoon for recreation and not for production.

Anyone who wanted to cultivate a job, he felt, would get up an hour earlier in the morning to do it.

When the motion was put eleven gentlemen voted with Mr. Cochrane, while twenty-three opposed him.

Mr. Schwengers then moved that the meeting confirm the action of the Board of Trade at its regular monthly meeting yesterday in favoring daylight saving. On this vote the standard time men lost strength, securing eight votes against twenty-four for the motion.

Oak Bay Action.

Mr. Johnson stated that Reeve

Drake, of Oak Bay, had just telephoned that the Oak Bay Municipal Council was unanimously in favor of adopting the system which prevailed in Victoria.

After further discussion it was decided on motion of Mr. Kingham, seconded by Vice-President James Beatty, to forward to the City Council a copy of the resolution passed, so that the aldermen would have before them on Monday night, when considering a possible reversal of their previous decision, an expression of the business men's opinion.

**BRIDGE PARTIES
DISAPPROVED BY
KING'S DAUGHTERS**

Criticism From New Westminster Firmly Upheld at Provincial Session

There was a decided tension in the atmosphere at the Provincial annual session of the King's Daughters on Friday afternoon when the president, Miss Leitch, read a letter from the Royal Aid Circle of New Westminster of which Mrs. E. G. Welsh is president, strongly criticizing the circles which raise funds by means of bridge parties. It developed that the majority of those present endorsed the stand of the New Westminster Circle, but others showed an inclination to resent anything in the nature of dictatorial criticism.

Mrs. George Beattie of Vancouver said that no circle should set itself up to be better than others, and that this spirit of criticism was becoming too pronounced. Mrs. Christmas of Vancouver thought that none should sit in judgment. A resolution moved by Mrs. H. A. Urquhart of Vancouver, and seconded by Mrs. A. E. Currie of Surrey was carried placing the King's Daughters on record as being strongly opposed to the practice of making money by means of bridge parties, grab bags, fortune telling, or similar methods. Mrs. Urquhart said that in Surrey District the King's Daughters had been greatly humiliated to see accounts in the papers of circles raising money by methods contrary to the general spirit of the order.

The Officers.
The Provincial officers elected by acclamation at the election were: Miss Leitch, president; Mrs. Hardie, secretary, both of Victoria, and Mrs. Christmas, literary secretary, others elected on the executive were: Miss A. Henderson of Vancouver, treasurer, Miss M. Ross, Mrs. W. G. Russell, Mrs. Robert McNair, of Vancouver, and Mrs. Elkington. Miss Leitch was elected to the office of central council member.

Constitution Change.
Another change in the election system was foreshadowed when a resolution was carried for a motion to come before the next annual convention resolving that there be nine members of the executive elected by the order, and that officers be elected from among these. It was pointed out that as this would not come into effect until after the next convention it would be two years before the new method of electing officers would come into operation. The change was made through a resolution withdrawn that the office of literary secretary be made obsolete, and a first vice-president elected in her place. Several members spoke of the value of the work being done by the literary secretary, Mrs. Christmas, of Vancouver, and thought that it would be detrimental to do away with the office.

Mrs. Christmas in her report explained the duties of the literary secretary, which kept the British Columbia branch of the order in touch with the International.

No Knocking.
Mrs. A. T. Watt, M. P. E. gave an excellent address on organization, and pleaded that no organization should knock another. There never was a time the speaker said when the spirit of co-operation was more needed by women.

Rev. R. M. Thompson, secretary of the Victoria branch of the Prohibition Association gave a five minute address, in the course of which he urged the ladies to register on the voters' list.

The session closed with votes of thanks to the committees, and all those who had assisted in the arrangements for the convention. In response to the invitation of the Cowichan district it was agreed that the next annual convention would be held at Duncan.

NEW COPPER CIRCUIT FOR SECOND CABLE PLANNED UNDER GULF

When the second submarine telephone cable is in place across the Gulf of Georgia, it is expected that the new copper circuit for the B. C. Telephone Company north and south from Nanaimo will be in place so that this main facility can be taken full advantage of. The first of this construction is now in hand, namely, the construction of two 172-pound copper circuits between Victoria and Saanich Inlet, which is on the direct route to Nanaimo.

There are five circuits now on that route, two going from Victoria to Vancouver direct, one to Duncan and one to Nanaimo. They cross Saanich Inlet from Coal Point and join the Georgian Highway at Cobble Hill.

"CORNS"

Lift Right Off Without Pain

Doesn't hurt a bit! Drop a little "Frezzone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Frezzone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Women and Home

Social Affairs
The wedding took place last night at the residence of Mr. and Mrs. Bruce, 1949, Handford Avenue, in the presence of an assembly of intimate friends of Miss Agnes Storie, to James Steel Clark, Rev. Dr. Campbell officiating. Bod the bride and bridegroom are residents of Victoria, but natives of Scotland. The bridegroom was supported by Mr. John Bruce in the capacity of best man, and in attendance on the bride was Miss Elizabeth McLennan, as bridesmaid and Mrs. Bruce as matron-of-honor. The bride looked charming in her traveling suit of navy blue silk with hat to match, and was given away by Mr. Alexander McLennan. The little flower girl, Emily Ada Bruce, was a pretty figure in a white voile frock, and carrying a basket of pink roses. The bride's bouquet was of white bridal roses, and the bridesmaid carried pink carnations. After the ceremony the guests sat down to a delectable supper. The bride and bridegroom will make their home on Chester Street.

A quiet but pretty wedding took place at the First Presbyterian Church, Friday afternoon at 3.30, when Maude L. Thompson became the bride of Joseph M. Eastwood, eldest son of Fred M. Eastwood, 612 Moner Street. The bride entered the church on the arm of her brother, Mr. Robert Thompson, looking charming in her traveling costume of dark blue serge worn with a picture hat of taffeta and georgette, and carried a shower bouquet of bridal roses and carnations. Miss Lillian Thompson, attended the bride as bridesmaid. Her bouquet was of pink carnations. The best man was John W. Eastwood. The happy couple were the recipient of many beautiful gifts. After the service they departed for Los Angeles, where the honeymoon will be spent.

A very enjoyable evening was spent at the Girls' Corner Club rooms on Thursday, when about eighty members and their friends met for tea at 4.15 p. m. These meetings are becoming very popular with the young business women of Victoria and many take this opportunity to meet their friends and enjoy a social hour together. This week the girls collected among themselves over \$20.00 as a contribution to the Jewish Relief Fund for the starving children in Russian Poland. The many thanks are due to the Owl Drug Co. for their generous gift of candies and chocolates for the supper.

British Columbians who had the pleasure of meeting Lady Susan Fitzclarence, when she accompanied Dame Nellie Melba to the coast, will be interested in hearing of her marriage to Mr. Wyncham, which is to take place on June 23. Lady Susan is a sister of the Earl of Hardwicke. Her husband, Captain A. A. Fitzclarence, was killed in the first year of the war. Her marriage is to take place in St. George's Church, Hanover Square, London, and the ceremony will have an interesting feature in Dame Nellie Melba, who will sing during the signing of the register.

A dinner party and dance was given last night at the home of Mr. and Mrs. Carl Gonnason, Seaview Avenue. The guests were Lieut.-Commander, R.N., Mr. and Mrs. Paul Milton, Mr. and Mrs. E. Downs, Mrs. W. Waagemott, Mr. Jack Lewis, Miss Marie Sweeney, Mr. and Mrs. J. M. Wood, Mr. and Mrs. E. B. Johnston, Mrs. L. Bick, A. Hoos, Miss J. M. Bowker, Miss Inez Connason, Mr. J. W. T. Toimie, B. Lemon, Evan Hanbury, Mr. and Mrs. Allwood.

Miss Edith Lyttleton, better known under the pen name of "G. B. Lancaster," is one of many interesting visitors to the coast this Spring. Miss Lyttleton is a favorite contributor to a number of magazines, and though her home is in New Zealand she has many friends in Canada. During the war she was in England and France, and wrote a number of articles for publication in Canada.

A sale of work in aid of the Victoria Boys' Naval Brigade will be held on Friday next, from three until five o'clock, at the residence of Mrs. A. L. Marchant, 405 Michigan Street. A very attractive display of plain and fancy sewing and a large assortment of ladies' clothes will be on sale. Afternoon tea will be served.

The ladies' committee of the Elks Swimming Club met last night to make arrangements to serve tea and home-made cakes on Wednesdays, the special swimming day of the Elks Club. The ladies' committee is convened by Mrs. O. A. Macdonald, and is working hard for the success of the next dance.

Mr. and Mrs. H. Humphrey Jones, 633 Michigan Street, announce the engagement of their daughter, Daisy Edna Kathleen, to A. N. S. Beaton, son of Mr. and Mrs. R. Beaton, of Matsqui, B. C. The marriage will take place early in July.

Miss Bertha E. Frazer, or "Carisbrook," Balmoral Road, has returned home after an absence in England of about twelve months, spent with her married sister, Mrs. C. R. Savage, of Moseley Hill, Liverpool.

Mr. and Mrs. Bretel Harris, of Birmingham, Eng. is staying with her son, J. Harris, and Mrs. Harris, Mrs.

FIRST GARDEN FETE GIVEN BY CHAPTER IS UNIQUE SUCCESS

A delightful garden party was held this afternoon at the home of Mrs. W. J. Bowyer, Terrace Avenue, under the auspices of the Margaret Locke Robertson Chapter, I. O. D.E. This was the first garden fete held by the chapter, and in view of its success the hope was expressed that the chapter would again sponsor similar undertakings.

The grounds looked lovely with an early summer profusion of flowers, and the soft green of the lawns contrasted with the brilliant red of the made a brilliant contrast. Music by the bugle band of the High School cadet corps, a Highland piper in full regalia, a string orchestra, and an orchestra, enriched the proceedings. Mrs. Curtis Sampson, regent of the Municipal Chapter, opened the fete.

Tea was served on the wide balcony. Mrs. Harry Smith and an energetic committee attending to the needs of the numerous guests. Mrs. Gordon Smith, regent of the chapter, with the assistance of several committees was untiring in her efforts to make the event a social success, and at the conclusion of the chapter, with the assistance of several committees was untiring in her efforts to make the event a social success, and at the conclusion of the chapter, with the assistance of several committees was untiring in her efforts to make the event a social success.

Either is excellent to remove grease or soil from goods, as it leaves no trace of its use.
Cold starch will remove blood-stains from mattresses by wetting a piece of cloth with the starch and rubbing it on any cotton fabric.
To add water to roast beef makes it tough. If you would have it juicy and tender, baste often in its own fat.

NEW MATRON AT DUNCAN HOSPITAL

Believes in British Methods Adapted to Needs of This Country

Mrs. Mathieson, R.R.C., R.N., who will assume duties of matron at the King's Daughters Hospital at Duncan, is a widely traveled woman, who has held senior executive positions in England, India and Canada, and while the Hospital Board regrets the departure of Miss Wilkinson, who is going to be married, great confidence is felt in the new appointee.

Mrs. Mathieson left Victoria in 1915 in charge of a contingent of nurses for the system for the Imperial Nursing Service Reserve, which was recruited from both Victoria and Vancouver. For her services overseas Mrs. Mathieson was decorated by His Majesty with the Royal Red Cross. She was matron at Fort Steele some years ago and is well-known in British Columbia. She will be the delegate for Duncan Hospital at the medical convention, to be held in Vancouver, July 23 to 26.

To develop the training school for nurses at Duncan along progressive lines is a work to which Mrs. Mathieson is looking forward.
"We should keep to British ideas, adapting them to the needs of this country," said Mrs. Mathieson to the Times, "and much as I admire the American method, I intend to become entirely Americanized."

Mrs. Mathieson is quite, in sympathy with the eight hour shift, which is the system for the nurses at Duncan Hospital, though she thinks that it is quite right that the nurses should be available at any hour in critical cases, of for operations.
"They say nurses are angels," said Mrs. Mathieson, while speaking of those who had met in her long career in several countries, "and indeed many of them are, and I have a very warm spot in my heart for them. Nursing is a wonderful profession, and I hope to be very happy in my new appointment."

St. Peter's Church, Quamichan, was the scene of a very pretty wedding when Miss Dorothy Catherine, daughter of Mrs. J. L. Paitson, became the bride of Robert William Whitome, son of Mr. and Mrs. J. H. Whitome, of "Dogwood," Cowichan.

The bride, who was accompanied by her brother, Edward Paitson, entered the church to the strains of "The Voice That Breathed O'er Eden," sung by the full choir.

After the ceremony a reception was held at "Farleigh," the beautiful home of the bride's brother, E. W. Paitson. The reception rooms, the broad veranda and the lawn were thronged with guests, who were received by the bride and groom under a large bell of white and pink carnations.

One of the reception rooms was filled with the beautiful presents. The bride's mother wore an attractive blue gown of mole colored tulle over blue satin trimmed with beads, and a chiffon hat.
Mrs. Ernest Paitson wore a handsome dress of flowered georgette over satin in harmonizing soft tones of blues, mauves and dull red. Mrs. Jaynes, grandmother of the groom, wore a purple satin gown with black chiffon over dress and mole-colored marabout fur. Mrs. G. H. Whitome, the groom's mother, was gowned in rose-colored georgette with black picture hat.

The groom, who was under age when he enlisted, attained the rank of captain in the Canadian Engineers' Mechanical Transport Co.
The bridal couple left by motor for Victoria and later will return to their newly-built home on the Maple Bay Road.

Two small nieces, Joan and Barbara Paitson, wore fairy-like little frocks of pointed net frills and attractive mob caps decorated with pink rosebuds.
The groom was attended by Leonard Boulton, of Vancouver.

The ceremony was performed by Canon Leakey, assisted by the Rev. F. L. Stephenson. During the signing of the register Ruscombe Poole sang a solo, "The Cause," and the congregation and choir "O Perfect Love."
The bride's dress, which came from England, was a charm of creation of white satin with georgette overdress embroidered in gold. The frock was quite low and the sleeves short, and with the traditional veil and orange blossoms set off the bride's girlish loveliness.

SHOULD EDUCATE ALIEN POPULACE
Dr. Stowe-Gullen Advocates the Compulsory Use of English Tongue

The need of Canadianization of the alien population of this country was urged by Dr. Augusta Stowe-Gullen when she addressed the guests of the Women's Independent Political Association at a reception arranged in her honor at the Victoria Club on Friday afternoon. The speaker gave instances of how in certain foreign settlements the Canadian flag at school houses would be torn down after school teachers had put it up. This had been done repeatedly, the speaker said, and showed the need of the education of these alien children. The use of the English tongue should be compulsory, she speaker thought.

A review of the history of women's enfranchisement from the beginning was made in an interesting manner by Dr. Stowe-Gullen. Of special interest to her audience were her personal reminiscences of her career as a medical student when she was the first woman to take a Canadian medical course. Mrs. Young, wife of Dr. Young, proposed the vote of thanks to Dr. Stowe-Gullen, and spoke of the wonderful advantages open to young people in this Province. While there were some things that the country lacked in comparison with older countries, there were yet some great advantages. He thought, Dr. Hloppe Ryan seconded the vote of thanks, and suggested that the women's institutes could do good work in interesting people in this Province. While there were some things that the country lacked in comparison with older countries, there were yet some great advantages. He thought, Dr. Hloppe Ryan seconded the vote of thanks, and suggested that the women's institutes could do good work in interesting people in this Province.

Mrs. Jenkins, president of the Women's Canadian Club, and Miss Cresce, president of the Local Council of Women, spoke a few words of welcome to the guest on behalf of

their organizations. Mrs. Curtis Sampson, regent of the Municipal Chapter, I. O. D. E., was unable to be present, but on behalf of the order sent a welcome, and an appreciation of what Canadian women owed to advocates for the freedom of women such as Dr. Stowe-Gullen.
Dr. Mackenzie Cleland, of this city, a medical student in Toronto College at the time when Dr. Stowe-Gullen was a professor there, was among the guests. Mrs. Mathieson, who will shortly take over the duties of Matron at Duncan King's Daughters, was also among other present. Mrs. Gordon Grant, acting president of the Women's Independent Political Association, was in the chair, and introduced the guest of honor. At the conclusion of addresses many took the opportunity to meet the distinguished woman doctor. Tea was served, and the pretty club rooms were very attractive with masses of golden broom and flowers.

SIXTH ANNUAL FLOWER SHOW OF INSTITUT
The Spanish Women's Institute is holding its sixth annual flower show to-day in the Temperance Hall, East Saanich Road. A fine display of flowers has been arranged, and there are numerous attractions to suit all tastes.
The show was opened at 3 o'clock by Mrs. A. E. Wall, M. B. E., and a musical programme provided a pleasing feature.
Home cookery, ice cream, candy booths, and a fancy work stall offered many tempting wares, and attracted a generous patronage. Tonight the evening's entertainment is in the hands of Mr. Semple and other popular entertainers from Victoria.
If the clothes are hung on the line neatly and smoothly much time will be saved when the time for ironing comes.
By putting a little borax in your starch, the clothes will iron easier and be stiffer.

INTRODUCING PEDIGREE STOCK TO FANNY BAY

Mr. W. S. Curry, the local livestock dealer, returned to the city yesterday after delivering a large number of stock heifers to Geo. M. Swan, at Fanny Bay, in the Comox District. Included in this consignment is a yearling short-horn sire bred by Jonah White, of Myrtle, Ontario, with a registered pedigree, probably second to none in the province.

The inclusion of stock of this character promises well for the future of the pure bred and beef industry of Vancouver Island, and Mr. Swan was particularly fortunate in being able to make arrangements with a stockman of Mr. Curry's long experience in assisting him to get away to such a good start with his beef herd.

Mr. Swan is a returned soldier who has taken up his place under the Soldiers Settlement Board, a place which promises to develop into one of the finest stock ranches on the Pacific Coast.

THIRTEEN-YEAR-OLD BOY SUCCESSFUL

Henry Watson, of South Park School, Wins Scholarship

Henry Watson, son of Mrs. P. M. Watson, of 27 Olympian Avenue, and a pupil in the entrance class of the South Park School, has won the 1920 Spott-Shaw scholarship. The results of the competitive examinations were announced today.

Two of the brightest pupils from each of the city schools were sent up for the scholarship tests. These consist in examinations in arithmetic, spelling, penmanship and grammar and composition.

Out of a possible of 400 marks Watson got 341, a lead of 49 over the next. He is only 13 years old. He led his class this year at South Park.

The scholarship provides for one full year's instruction at the Spott-Shaw school. The scholarship can be taken up any time within four years. This is so that winners may have the chance to take up and complete their High School course before taking up special work at the Spott-Shaw.

Charles Swannell, whose father was on military service in Siberia, won the scholarship last year. He is now going on with his High School course.

The complete scholarship examination results are:

TUBERCULAR WORK OF HEATHER CLUB

Secretary Visiting City Tells of Magnificent Work Accomplished

How the I.O.D.E. in Toronto, is carrying on a magnificent fight against tuberculosis is told by Miss Marwood to The Times. Miss Marwood is corresponding secretary of the Heather Club Chapter, of that city. Miss Marwood has been spending a few days in Victoria before returning from the I.O.D.E. convention at Calgary where she was a delegate.

The Heather Club began the anti-tubercular work some time ago, and then became affiliated with the I.O.D.E.

The Preventorium in North Toronto is maintained by the I.O.D.E. and there the Heather Club supports two cots for tubercular patients.

The value of milk as a diet in tubercular diseases is shown by the fact that the milk bill at the Preventorium is annually about \$2,000, while the drug bill is but \$5. The Heather Club expends between \$2,000 and \$3,000 annually on milk for the children of Toronto, in addition to keeping the cots in the hospital.

The Club also looks after eight families in the city, aiming to contribute to their welfare in all respects. In summer time the club in connection with the children's hospital in Toronto takes a number of children to

Island Park for a Summer outing.

White Marwood declares that her individual work in connection with the Heather Club is quite insignificant, she believes that the club's work in looking after the tubercular children of Toronto is quite unique.

While in the city only on a holiday, and not in any official capacity, Miss Marwood said she was very glad to hear that the Victoria Order of Nurses and the Red Cross Society were co-operating in public health work. "We could not get along in Toronto without our public health nurses," Miss Marwood declared.

MAY MAINTAIN RATE

The action of the city in raising the water rates bears a direct influence upon the various municipalities. It is stated by the Water Commissioner for Oak Bay that the contract with the city will be terminable with that corporation at the end of the current year. It is not yet decided what action will be taken on the Oak Bay water matter but likely that the rates will continue as usual until the expiration of the contract. The next meeting of the Oak Bay council is to deal with the matter in full.

Meanwhile Spanish has already taken steps to amend the by-law, in accordance with the revised schedule in the city.

"SEVEN DAYS" STOCK-REDUCING SALE

Gordon Drysdale LIMITED

SEVEN DAYS' STOCK-REDUCING SALE

Store Hours—9 a.m. until 6 p.m. Wednesdays, until 1 p.m.

Special Announcement

Twenty per cent. off all Banded Hats, such as Milans, Panamas and White Hats. The assortment is large and offers wonderful opportunities to procure a good hat at a low price.

No. 7

Suppose the Price of Bread Had Been Fixed in 1888

The price of the street car ride was fixed in the franchise in 1888.

It doesn't pay the cost of a street car ride to-day.

Is it not just as absurd to suggest that the price of bread, milk, butter or any other commodity to-day be fixed at what it was in 1888?

Fares fixed over thirty years ago cannot be expected to be fare to-day—they are neither fair to the street railway company nor the public.

THOMAS A. EDISON SAYS:

"The ironclad contracts between the Electric Railway and cities made in pioneer days have no protective clauses against the greatest change that has taken place in centuries, due to the world war.

"The municipalities can exact their pound of flesh, with the ultimate bankruptcy of these organizations, but the spirit now abroad in the world is against this. We are all trying to play fair."

Continued Street Car Service Necessitates More Street Car Revenue

B.C. Electric Railway Co., Ltd.

CITY THREATENS TO CUT OFF WATER SUPPLY TO SAANICH

Saanich Must Install New Meter or Drastic Action Will Be Taken

Saanich's water supply will be cut off by the city, unless the Saanich Municipal Council acts to install a new water meter on the Sooke main running from the city, if the civic authorities of Victoria carry out a warning they have forwarded to the adjacent municipality.

The dispute between the city and Saanich over the meter on the Burnside Road, which measures Saanich's entire water supply, has reached the point of action. Ever since the meter was installed, City Water Commissioner F. M. Preston states, it has failed to function satisfactorily, and as a result, Saanich has been paying a flat rate for its water since late in 1917. Mr. Preston stated that he has continually urged the Saanich authorities to install a new meter and, to bring the matter to a head, last week threatened to turn off the water supply unless some action in the matter were taken.

Later representations from Saanich persuaded Mr. Preston to defer action until the Saanich Council can meet and consider the question. The present unsatisfactory meter is of a type which, at the time it was installed, was considered by Saanich and the city, the most efficient that could be secured. Indeed, a similar meter, installed on the Quarantine Station main, has been working since the service was opened in a satisfactory manner. It is stated, however, that the meter which measures Saanich's water supply is installed under unfavorable conditions, and is alleged to have been set wrongly in the first place.

Mr. Preston states that the company which manufactures the Saanich meter has expressed its willingness to replace it free of cost. The Saanich position is that the meter had the official approval of city officials, and that actually the city has gained by a flat system, therefore, pressure to effect a change is unnecessarily harassing.

MINISTERIAL ASSOCIATION PASSES MOTION OF APPROVAL

The Canadian Jewish Relief Committee's work here received the formal support of the Ministerial Association by resolution yesterday, the accompanying letter forwarded by Rev. A. de B. Owen, chairman of the executive, speaking for itself.

The Executive Committee of the Ministerial Association of Victoria desire to express to the Joint Distribution Committee of the Jewish Relief Committee their gratification for the work they have done in caring for the needy (Nestorians and others) in Syria and Turkey. "And we are gratified to learn that the Jews of the United States and Canada prior to July, 1919, have distributed in that part of the world commodities and money to the amount of \$1,181,574. And since then the Jewish Relief Committee having become non-sectarian in their work, the amount given for relief in the East has been largely increased. "We are also gratified to learn of the important work that has been done under the direction of the Joint Distribution Committee in the devastated territory of Central Europe for the saving of the many millions of lives of women and children. "We desire to commend the work of your organization to the liberality of our Victoria citizens and will be glad at all times to aid in any way in our power."

WILL STATE POLICY OF GOVERNMENT

Hon. John Oliver's Speech Tuesday Is Awaited With Interest

Considerable interest has been aroused in the city by the announcement that the Premier will be the chief speaker at the Liberal demonstration to be held at the Pantages Theatre on Tuesday evening.

Mr. Oliver is expected to discuss the general policy of the Government. He will be followed by Hon. John Hart, Minister of Finance, who will speak on various financial questions affecting the Province. To a senior member for the city, George Bell, will fall the task of discussing social legislation, notably mothers' pensions, and amendments of the law to aid women and children. Mr. Bell, as chairman of the Municipal Committee of the Legislature, intends to talk on various ways adopted to improve municipal administration since this Government took office.

Henry C. Hall will take up a question to which he gave considerable attention during the last session, the administration of the Esquimalt & Nanaimo Railway lands.

SHOWS CITY NOT GUILTY OF DELAY

Engineer Gives Account of Johnson Street Bridge Negotiations

To make clear that the city has been guilty of no delay in the Johnson Street negotiations, City Engineer F. M. Preston has forwarded the following report on the matter to the Streets Committee of the City Council:

"Your chairman has instructed me to report upon the status of the preparation of the plans of the Johnson Street Bridge.

"The by-law was passed on January 19, 1920, and on January 23 I asked for instructions from the Council as to the design of the bascule span, and how the work was to be carried out generally. I received these instructions on February 2, 1920. On February 16, the general plans were forwarded to the C. P. R. Company for their approval, and we received them back on March 19 with a request that certain alterations be made. These plans were again returned to the C. P. R. on March 22 with an explanation, and they were returned, unaltered, to us on April 15 with the railway company's approval.

"The same plans were sent to the Dominion Government with certain others which, they requested, on April 28, and the necessary one month advertising was commenced on May 1.

"These plans were returned to us on May 18 for alterations to the harbor line shown, this harbor line having been altered by a recent order of the Council.

"The plans were returned again on June 9th after the necessary alterations had been made, and I understand that the only reason the Dominion Government have now for delaying their approval is the acquisition of the Munn property, as their Order-in-Council cannot be given until the City proves its ownership of the land on either side of the water.

"Apart from these general plans, the detailed drawings of the approach spans and sub-structure have been prepared and are ready for submission to the C. P. R. within a few days.

"The Strauss Company have also given me sufficient data to work upon as to their reactions on the foundations, but I do not propose to instruct them to do anything else until we have the Dominion Government's authority for the one hundred and fifty feet bascule spans.

"When we have received the Dominion Government's approval, we shall be in a position to immediately submit plans to the Railway Commission, and when we have received their approval to call for tenders for the sub-structure."

BANK EXTENDS BUSINESS SPACE

Merchants Will Absorb Part of the McCallum Block

Officers of the Merchants Bank completed plans today for the extension of the bank premises at Yates and Douglas Streets, because of the growth of the bank's business.

The store in the McCallum Building next to the bank on Douglas Street, at present occupied by Sam Scott, is to be used for the extension of the bank. The Scott clothing store is to be moved to the other half of the McCallum Building. Extensive alterations will be made to permit of the extension.

Copas & Son have started work on modernizing their grocery store at Fort and Broad Streets. The improvements consist in the installation of additional show rooms.

L. J. Ekman started today on the construction of a new home at 40 Wellington Avenue. The preliminary work on this will cost \$4,000.

Others who have commenced building operations this week include: J. D. McBeath, of 123 Durban Street; L. A. Gange, of Vancouver and Humboldt Streets, and Donald Cameron, of 1429 Denman Street.

OBSERVE DAYLIGHT SAVING

The following firms will observe daylight saving time: David Spencer, Ltd.; Gordons, Ltd.; Gordon Drysdale's and Angus Campbell & Co.

WILL BE SHIPPING ABOUT WEDNESDAY

Conference on Moving Berry Crop Is Proceeding To-day

After a most unpromising start, in which the weather gave no sign of a determined and persistent effort to remain hopeless, the fruit growers of Saanich are beginning to see signs of at least fair to an average crop.

Acreage Under Crop.
The Gordon Head section is stated to have at least 100 acres in strawberries alone, which are expected to yield between 225-250 tons for the total crop of the season. This works out at 2 1/2 tons to the acre per season. Keating—with about seventy-five acres of berries, will show the same average yield, it was said to-day.

Of this strawberry crop, after the local markets have been supplied, which takes care of the fresh berries, and the complement for the jam-makers locally, the balance will be freighted in cars to the prairies. It is stated that some twenty cars will be shipped in Gordon Head alone, this being at the rate of a car a day at first, commencing next Wednesday, two cars per day later, and three cars a day at the peak of the season, which will last for shipping purposes about ten days.

In the local markets 125 crates a day are being picked now, and this figure will increase enormously with the advent of a little more sun.

Conference in Session.
An interesting side light on the value of the local strawberry crop appears in the convention now in session under the auspices of the Gordon Head Fruit Growers' Association, in which many prominent experts on fruit shipping and refrigeration are in conference over the best methods of shipping the local products, which will commence next Wednesday.

G. E. McIntosh, head of the transportation branch of the fruit department at Ottawa; J. Burgess, expert on cold storage and refrigeration at Ottawa; Mr. Walker, C. P. R. expert on refrigeration, of Montreal; and Mr. Danzer, representing a number of prominent concerns that make refrigerating apparatus, are all in session with the Saanich fruit growers to devise the best means to handle the crop, and determine the best type of cars and considerations to be used, and observed.

Jam Factories.
The jam factories locally will absorb many tons, while the crated berries in the markets of Victoria will also take a considerable proportion of the crop, and in this connection it is stated that the Victoria markets will be given equal rights with all and will receive the very best berries. Of the pickers there has been calls made already for 216, which it is stated will be increased somewhat when the main picking gets under way. The women's branch of the Government Employment Bureau is handling this section of the work.

In general the season has been summed up by the fruit growers as far above all expectations, considering the unstable condition of the weather in the latter part of the winter and the past spring. The total yield is stated as likely to be about up to average, and the quality distinctly good.

FOUR MONTHS' GAS HERE; NO FAMINE

No Fear of Island Being Without Motor Fuel This Summer

There will be no gasoline shortage in Victoria and Vancouver Island this summer, according to an announcement made to-day by Gilbert D. Christie, president, and Charles L. Harris, secretary of the Island Automobile Association, after an investigation of the facilities of the Imperial Oil Company.

Investigation proved that there is now on hand here a supply of gasoline equal to between four and five months' demand. This is the reserve supply and is being added to daily.

The investigation was undertaken by the automobile club officials because of the fear of a shortage developing here similar to the gasoline famine that has already struck some of the districts in Washington, Oregon and California.

Word that Victoria and the Island are safeguarded against a gasoline famine has been telegraphed to the leading newspapers down the Coast, as many motorists have been hesitating about making the trip here for fear that they would be left without any motor fuel.

Mapping Out Island.
As stated Friday, Sidney H. Ellis, Jr., assistant secretary of the Automobile Club of Southern California, and Roscoe J. Behan, of the Route and Map Service Department of the Club, arrived in Victoria yesterday to map out the district for California motorists. Secretary Harris put them on the right track of things here.

"Vancouver Island and British Columbia cannot expect the number of automobile tourists from the South that came up last year," said Mr. Ellis. "This is due to the fact that gasoline is at a premium south of the line."

"Restrictions have been so severe that motorists are compelled to stay at home or take only short trips."

A child's toy iron is often a great help in ironing tiny garments.

Makers of everything in brushes

CYCLING NOTES.
When tyres must be removed to repair punctures, the back cover, whether wired or beaded, should be detached on the side farthest from a naked chain. A front wheel wired on cover may be detached either side. In the case of a wired-on cover, having removed the valve and its lock-nut, press the edge of the cover into the bottom of the rim at the opposite side of the wheel to the valve, and work round with the thumb in opposite directions towards the valve. This will make a loop or loose edge over the valve, which is usually big enough to lift off the rim without the use of a lever. Never try to stick a patch on an air-tube without having first cleaned away the white sulphurous exudation and French chalk. Sandpaper is the best to use for this purpose, as it leaves a roughened surface which greatly assists the patch to hold. Salt

iva and the head of a brimstone match are also handy and effective. If a puncture occurs close to the edge of a patch, the latter should be removed with petrol or benzine, or it should be reduced in thickness with sandpaper before a new one is applied large enough to cover the old one as well. When a nail punctures a tyre and remains in the cover, it will usually be found to have passed through the tube and punctured the opposite side as well. This should always be looked for. The location of a puncture can often be found by running the fingers round inside the detached cover to see if anything is projecting, and then noting the corresponding position on the air-tube. The little rubber sleeve with fits over the stem of the valve is very liable to perish and crack, especially in hot weather. When the cause of deflation is not known, the valve sleeve should always be examined first.

RELIEVE CONSTIPATION
CONSTIPATION IS A COMMON ILLNESS FROM WHICH MOST OF US SUFFER AND IS A CONDITION WHICH WHEN PERMITTED TO CONTINUE BECOMES DANGEROUS TO HEALTH. A REMEDY SHOULD BE SOUGHT AT ONCE. THIS CONSTITUTIONAL TROUBLE YOU WILL FIND IN

COLONIAL "A"
This, without service of accuracy. At all good jewelers. Priced from \$25.00 upwards. Other Waltham models from \$25.00 upwards.

A good watch is always an asset

ON the contrary an inferior watch is always a liability.

The repair bills that will accumulate in a few years, trying to make such a watch keep good time, will equal the cost of a Waltham.

It's much more economical to buy a Waltham in the first place.

Every Waltham is flawlessly constructed—built for complete, enduring accuracy in time-measurement. It is the product of more than sixty-five years of specialized experience in watch-making. Its quality is due to the perfection with which each of the many tiny screws, jewels, plates, wheels and springs are made, assembled and tested. If you want long, dependable service, ask your jeweler for a Waltham.

MACHINE TO TRAP "FIBS."

Among the marvels of delicate mechanism is an apparatus invented by Dr. Augustus D. Waller, F.R.S., of the London University, by which it is possible to detect lies.

This is done by taking electric records of the effect of cross-examination on a criminal's nervous system to indicate whether he is telling the truth.

Dr. Waller discovered that the resistance of the skin to electricity varies with the state of the emotions, and has so developed the discovery that even apprehension can plainly be "spotted" by the fluctuations of a spot of light on a scale.

Keeps Baby's Skin Healthy

If every mother could only realize the danger which lurks in the neglect of chafing and skin irritations she would not take chances on being without Dr. Chase's Ointment to apply after baby's bath.

It arrests the development of eczema and makes the skin soft, smooth and velvety.

The Table Oil You Have Been Looking For
APROL
It Never Goes Rancid

The death occurred yesterday morning at St. Joseph's Hospital of James Tillman Halle, of San Antonio, Texas. The late Mr. Halle was born in Texas 61 years ago and had resided in this city for the past month. The remains are reposing at the Sands Funeral Chapel and will be forwarded to day to San Antonio for interment. Mr. J. T. Halle, of this city, is a son, and will accompany the remains South.

BRIEF LOCALS
Reformed Episcopal Church.—The services in the Church of Our Lord, Reformed Episcopal, will be held tomorrow on the old time schedule.
Less Prescription Forms.—Chief of Provincial Police McMynn has received 200 forms for distribution from the Prohibition Commissioner, J. Schatec, notifying the Government vendors and druggists throughout the Province that prescription forms numbers 142101 to 142200 have disappeared, and are not to be honored if presented for filling. The prescription block was formerly issued to Dr. J. E. Affleck, Atlin, B. C.

Saanich Nurses.—The financial statement of the Saanich branch of the Victorian Order of Nurses presented to the Saanich Council on Thursday showed that the year began with a deficit of \$1,300, so that the actual increasing deficit has been monthly about \$100 this year. The nurses desire this explanation as showing that care was exercised financially during the time Mr. Sewell, the treasurer, was confined to hospital.

Address Printed.—Very Rev. Dean Quinton, who preached a sermon on "What has Spiritism to Offer," in the Christ Church Cathedral, Victoria, B. C., on the morning of St. Mark's Day, April 25, has had the sermon printed and published in pamphlet form, for the benefit of those who wish to see it in print. Copies may be obtained from Mr. W. O. Cockett, Church House, 551 Broughton Street.

Iriye Likes This Country.—Yasujiro Iriye is a native of Japan and a waiter at the Empress Hotel. To-day he decided that he would like to become a Canadian. He applied to Judge Lampan for naturalization papers. He came here in January, 1919, and after living in Moose Jaw, Vancouver and here, says that he likes what he has seen of Canada. He was born in Wakayama, Japan in December, 1894. In 1918 he made a trip home to see how the family was getting on. His application will be heard by the court early in the Fall.

S. C. R. Garden Party.—An attractive garden party has been arranged to take place at the Esquimalt S. C. R. Hospital next Wednesday afternoon in aid of the recreation fund. The public is invited to take an interest by patronizing the event. The grounds are looking their best and the picturesque environment of the hospital are most inviting. There will be plenty of lawn games and a musical programme in which will participate Mrs. R. H. Pooley, Arthur Gore, Mrs. Jessie Longfield, R. S. MacKenzie, and Ernest Petch.

Judge Considers Case.—Judgment in the suit of Alfred Rylands against the Boulton Taxi because of the collision between cars belonging to the two has been reserved. Judge Lampan, H. Alexander, driver of the Boulton car, took the stand and swore that the Rylands car skidded down the wet incline on Queens St. on to Pandora and smashed the front part of his car bound up Pandora. Mr. Alexander swore that he was an experienced driver and that he had been one of the expert mechanics of the Packard Motor Company for the last fifteen years.

May Fellow Suit.—Following on the action of the meeting deciding that the majority are going to favor the adoption of the daylight saving clause, the Esquimalt council were thrown into a quandary. "There is no question that we will have to do whatever the majority determine, stated one member, and if the daylight saving section is adopted in the city we will have to do so to avoid considerable confusion. The Reeve stated that the matter had not been before the council yet, and he could not do so definite announcement, but that it was likely Esquimalt would follow suit.

In Police Court.—The charge of having liquor in the Gordon Hotel against John Ferguson was today dismissed by Magistrate Jay, who held that the evidence pointed to the fact that the accused was not personally in possession, and may not have known of his being placed. The liquor included five bottles of whiskey, which were all that were left of a store that had been collected by Watson, a man who lost his life on the whaling tender Grosf. Watson gave the key to the rooms in which the whiskey was hidden under the floor board to Donnelly, who apparently had sole access to the hidden treasure. The liquor was ordered confiscated. Hop Yick, for keeping two dogs without license, explained that he did not speak very good English, although alleging that the "dogs no stop along me," and was remanded until Monday next at ten o'clock.

"Virol saved his life."

Messrs. Virol, Ltd., Montreal.
I should like to tell you what Virol has done for my baby Lucien.
He was very ill, and I was afraid that he would not live. On the advice of my doctor I gave him Virol, and he improved immediately. Now at the age of seventeen months he is a happy boy, and in splendid health.
I am very grateful to Virol for having saved his life.
Yours faithfully,
M. ANGELIA ROY
(Madame JOSEPH ROY).

Virol increases the power of resistance to the germs of disease and replaces wasted tissue. It is therefore a valuable food in Measles, Whooping-cough, Infantile Diarrhoea, Influenza, etc.

Tests Smoke Nuisance.—Chief Stewart, of the Fire Department, has just laid information against the Canadian Puget Sound Lumber Company's mill, for alleged infringement of the Smoke Nuisance by-law. The matter will be heard in court early next week, no definite date as yet fixed. The case will probably be contested and will take the form of a test one to establish a precedent.

Elect Officers.—At its annual meeting last night the Victoria and District Teachers' Association elected the following officers for the coming year: President, W. H. Hoadley; first vice-president, E. Yeo; second vice-president, Harold Campbell; secretary, W. H. Wilson; treasurer, J. Armstrong; executive, Miss Jessie Roberts, Miss I. Turk.

OBITUARY RECORD

The funeral of Andrew Smith, 516 Montreal Street, will take place from the B. C. Funeral Chapel on Monday at 2.30 p. m. Dr. Leslie Clay will conduct the service. Interment will be made in Ross Bay Cemetery.

The funeral of the late Percy Thompson, the infant and only son of Mr. and Mrs. P. Thompson, of 1215 Chapman Street, was held yesterday afternoon from the Sands Funeral Chapel at 2.30 p. m. Dr. Leslie Clay officiated at the Chapel and graveside, the little casket being covered by many floral offerings. Interment was made in Ross Bay Cemetery.

The death occurred yesterday morning at St. Joseph's Hospital of James Tillman Halle, of San Antonio, Texas. The late Mr. Halle was born in Texas 61 years ago and had resided in this city for the past month. The remains are reposing at the Sands Funeral Chapel and will be forwarded to day to San Antonio for interment. Mr. J. T. Halle, of this city, is a son, and will accompany the remains South.

The funeral of the late Mrs. Edw. Adelaide Pearson, wife of Mr. Edw. Pearson, of 1259 McKenzie St., took place yesterday afternoon, leaving the B. C. Funeral Chapel at 2.30 o'clock and proceeding to Christ Church Cathedral, where service was conducted by Rev. G. A. Wells, assisted by Rev. F. H. Fox. Many beautiful floral tributes covered the casket. Interment was made in Ross Bay Cemetery. The following acted as pallbearers: E. Farquhar, A. R. Morris, J. E. Jacob and H. W. Hilliard.

The funeral of the late Mrs. Penman, who passed away at the residence, No. 2635 Blackwood Street, last Wednesday, took place yesterday afternoon, a short service being held at the above address, the cortege then proceeding to St. Andrew's Presbyterian Church. Many friends were present and numerous floral offerings were made. The casket was draped with the national flag. The hymn sung was, "Asleep in Jesus." The following acted as pallbearers: E. J. Parker, C. Ely, E. Hovey, Todd, W. Farquhar, J. O. Jones. Interment was made in Ross Bay Cemetery.

TO TELL OF CITY LIFE

Rev. John Gibson Inkster to Handle Municipal Problems Tomorrow; Moody Director Coming.
Dr. P. W. White, director of the Moody Institute, Chicago, noted speaker and evangelist, leader in to speak at the Wednesday night meeting at the First Presbyterian Church.
Tomorrow, regular Sunday evening service, the Rev. John Gibson Inkster will deal with the conception of the city through the ages, taking up the improvement of urban life and the problems that must be faced because of the increasing population in the city. Mrs. Archie Willis will sing "The Holy City."

ONLY QUARTER OF CITY VOTERS ARE REGISTERED

Commissioners Are Urged to Make More Prompt Returns
Only a quarter of the voters of Victoria entitled to register for the Provincial list have recorded their declarations at noon to-day. The precise figures are 4,115, of about 25,000 estimated qualified electors.
Esquimalt riding is also being handled jointly with Victoria, and of an estimated potential registration of 4,500 only 960 declaration forms have been registered.
The returns are considered exceedingly slow, when officials point out that the office has been opened since June 1. July 15 is the last day, and Commissioners are urged to do everything in their power to return declarations promptly to prevent congestion at the closing hours.
The Esquimalt registration place is at the corner of Esquimalt and Admiral's Road. Location of Victoria booths have already been published.

SAANICH TO HAVE FINE MAIN ROAD

Permanent Paving to Come Later; Minister Speaks at Sidney

The north part of the Saanich Peninsula from the end of the paving at Saanichton and particularly from there as far as Sidney is this season to have a road as fine as the famous Marine Drive leading out of Vancouver, according to the announcement last night by the Hon. Dr. King at the public meeting at the Esquimalt Hotel, presided over by B. Jackson, K. C., M.P.P. for the Islands, as well as the Minister spoke.
Hon. Dr. King explained that a protective and binding covering of sand and heavy asphaltic oil is to be applied to the present Sidney road bed after the rough places have been smoothed out.

Before the meeting members of the Sidney Board of Trade interviewed the Minister about the condition of the road from the end of the paving to Sidney. They pointed out that by road and motor bus is now the only connection the residents of Sidney have with Victoria and that had the road been paved the transportation service and add to the expense.

Permanent Paving Soon.
Hon. Dr. King explained that the Government is planning to lay down a permanent pavement through the Government of the Saanich Peninsula as soon as the money is obtained. He said that the new pavement when completed would surpass the present pavement in finish. He said the present pavement is objectionable because it is slippery in wet weather. Slipperiness for horses as well as accidents will be banished from the new pavement.

Get More For Money.
The Minister explained that the Government during the last three years has spent only fifty per cent. of the amount spent in former years for the maintenance of roads and he asserted that although the dollar is to-day worth only 60 per cent. of what it was then, the roads are better maintained than they were under the larger expenditure. He illustrated this by photographs and profile illustrations taken from the engineering departments to show the economical value of the new organization that has been brought into the Public Works Department under technical and efficient engineers.

Library Extensions.
Mr. Jackson explained the new library act under which the facilities of the Provincial Library are being thrown open to people in all parts of the Province. He told how the new library at Sidney is being established as a result of this library act.

Mr. Jackson asked for co-operation among the people of Sidney and Saanich to secure economy of production and an unrivalled status in the agricultural field. He emphasized the value of education in agricultural matters.
He explained the humanitarian legislation passed at the last session of the Legislature, including accounts dealing with co-operative societies, animals, regulation of creameries and dairies, mothers' pensions and testators' family. He also discussed the financial situation.

STRAWBERRY PICKERS ARE NOW REQUIRED

Some 216 Will Be Needed, Commencing With First Calls Next Week

The Government Employment Bureau was working without the added impetus of the genial director, S. Harvey Creech, this week, and did not get time to strike a summarized report prior to closing to-day, but Mr. Creech reports that the employment in the men's department was fairly up to the average, and chiefly out of town work. It is stated that the Choberg yards will take on a number of additional men next week, which will cause quite an increase in the figures for that period.
In the women's branch some 216 calls on the Bureau were made for strawberry pickers, to take the field next week. There are still a few more pickers wanted, and those that have applied will be notified when and where to report.
The pickers are mostly required in the Gordon Head and Keating districts of the Saanich Peninsula. Nine other placements in domestic work, and "facterettes" general work on the farm were included in the report for the current period.

VIEWSON TIME CHANGE

The Board of Trade itself, of course, went on record as favoring daylight saving at its regular monthly meeting yesterday; various other organizations have decided for or against it; the Trades and Labor Council has approved the change and Saanich Cottage Gardeners' Association have likewise supported it.

BURGLARY DOESN'T PAY

When the man in the street reads that "the thieves got away with jewels valued at \$5,000," he often thinks that crime is probably worth the risk, for one good burglary like that would satisfy a reasonable man for some time.

Now if there is one thing certain in this hard world it is this: Crime doesn't pay.
It's only the big and spectacular burglars and thefts which get reported. The average criminal is like the average man in the street. He earns little, and he runs a greater risk than if he were honest.

Here are a few figures by a well-known prison chaplain, who gained the confidence of many hundreds of prisoners.
Out of 488 burglars the average gain from their burglary was \$12 18s. 8d., and it mustn't be forgotten that for this paltry sum every single one was serving a sentence!
One man, who had the reputation of being particularly daring and expert, averaged less than thirty shillings a week from his crimes!

It mustn't be forgotten that jewels valued at \$100 by the owner won't fetch more than £20 or £30 for the burglar, unless he's exceptionally lucky in disposing of his stolen goods.

There is more profiteering among "fences" than among any other class. Out of 443 pickpockets the average amount for which they had been sentenced was £4 11s. 9d., and yet most of them confessed they would gladly give up the game for a certain £1.10s. a week!

The average earnings of criminals throughout the country, despite the dazzling hauls they are supposed to make, do not average £1 a week year in and year out.

And take the case of criminals who have made big hauls.
Ned Lyons, the bank burglar who got away with over half a million in his career, died in a charity hospital in New York; Goudie, who robbed the Liverpool Bank of £170,000, died in prison; Johnnie Irving, who with some companions robbed a Northampton bank of £140,000, was shot by a fellow burglar, who died in prison.

It can be taken as a certainty that the average man can earn more by honest work, even of the humblest nature, nowadays, than he can hope to by crime.—Tit-Bits.

SAANICH LAND VALUES

Day Gone When Land Can Be Bought at \$50.00 Per Acre

Professor Stevenson, manager of the Dominion Experimental Farm, Esan Bay, in his interesting and instructive address at the Board of Trade Luncheon yesterday, made the statement that there was no more land to be had on the Saanich Peninsula at a price as low as \$50.00 per acre.

In the vicinity of Parksville, Errington and Coombs on the East Coast of Vancouver Island, there are thousands of acres of land suitable for small fruit growing and poultry raising unexcelled even on the famous Saanich Peninsula, which is being sold in small tracts of 10 to 40 acres, opened up by roads, close to schools and within 1 to 3 miles of the railway, at a price of \$36.00 per acre, cash or \$40.00 per acre on terms of \$50.00 per acre down and \$50.00 per acre per annum for four years, without interest.

Those that are interested in small fruit growing, poultry raising, etc., would be well advised to call at the office of Vancouver Island Fruit Lands, Ltd., Belmont House, for further particulars of this unique opportunity.

The Voters' List

You are not on the Voters' List unless you have registered within the last few days because the old lists have been cancelled. Every woman is entitled to register, and married women must register as well as their husbands.

Unless you register now you will not be able to vote on the referendum "Prohibition or Government Sale and Control" at the next Provincial Elections.
The Prohibition Act at present in force was in the nature of experimental legislation. Many of the people who now support the League were in favor of it at the time. But it has been shown that it has brought with it a train of evils worse than the evils which it was intended to engender. It has made good citizens lend themselves to deception and humiliating courses of action. It has encouraged the bootlegger and the secret vendor of drugs—people we did not know in the Province a few years ago. It has resulted NOT in elevating British Columbians, but in debasing them.

You cannot make a bone dry Province because alcohol is as easy to make as bread. There is at present more fermented liquor being privately manufactured in British Columbia than ever before. Bone dry legislation would only result in the establishment of a thousand illicit stills and our last state would be worse than our first.

The betterment of mankind can only be accomplished by sane legislation and personal example. The League is against the open bar and the unrestricted sale of liquor as much as it is against the Prohibition Act. It is in favor of Government sale and control. REGISTER without delay so that you may exercise your franchise.

A postcard sent to us with your name and address will place you on our mailing list.

Capitals Out-run Giants in Hard-Hitting Affair

Giants Had Best of Swatfest in Which Three Home Runs and Nine Two-Baggers Were Made; Young Got an Awful Trimming in Seventh; Washington Hardly Knew Game Had Started Before He Was Yanked.

Victoria, 10; Seattle, 6.

Extra base-hitting featured last evening's battle between the league leaders and tail-enders with the latter having a distinct edge. Although the Giants outbit the Capitals they failed to deliver their pokes with men on bases. Two home runs and five doubles went to the credit of the Hoffman crowd, while Victoria collected one home run and four two-baggers. As usual the Capitals made the most of their smackers and by heady work on the bases nearly doubled the score on Seattle.

Victoria got away to a flying start and it was fortunate that they did, for the Giants made a sensational finish and looked exceedingly dangerous until Cy Young was ordered to take his slow ball home and Wee Tom Kelly did the relief work. Kelly took over the hurling task in the seventh with one man out and struck out six of the nine men who faced him during the rest of the game.

Good-Bye Washington. George Washington tried to chop a few chips off Victoria's league standing but a fatal start prevented him from repeating the words of his illustrious namesake, "I did it." All that Washington seemed to possess was an angry ball, which simply would not behave. The first three men who faced him walked, and then he shot one down the alley, which Brown cracked to left field for a double scoring three runs. Dempsey slammed out another two-base hit, scoring Brown. Then George unknocked a wild pitch and allowed Dempsey to score.

This was enough for Manager Hoffman if not for Washington. Bill Reid, who has worked in two games previously this week, received an S. O. S. and for three innings he held the Capitals both runless and hitless. But such good things never last forever when the Victoria sluggers still have their bats in the ring. In the fifth Brown drew a pass, and Carman singled. Dempsey scored them with a drive that hit the right-field fence. Dempsey was forced out at second by Zienke, who was later thrown out at the plate trying to score on Cunningham's two-bagger. Young got a life and Elliott sent a drive to left field which gave him two bases, and scored Cunningham and Young.

Brown got Victoria's last tally in

the sixth, when he drove the ball through the canvas for a home run.

Seattle Opens Up. Seattle began to retaliate feebly in the sixth, getting one run on Hoffman's double and singles by Paul and Cuyler. In the seventh the Giants brought all their heavy hitting ability into play, and Young failed to survive the bombardment. Heenan, the first man up, doubled, and Grant poled the ball over the right field fence for a home run. Nixon doubled, and Hoffman repeated with two bases. Paul put the ball out of the lot, and again cleaned up the bases. Young's floaters no longer baffled the visitors, so Leard quickly yanked him, and sent Kelly in to save the game. Wee Tom struck out the next two batters, got two more strike-outs in the eighth, and whiffed another pair in the ninth.

Zienke's Fine Catches. Zienke furnished the fielding features of the game. He had four put-outs to his credit, and they were all difficult chances. He robbed Cuyler of a hit in the fourth by making a brilliant catch in right centre after a hard run.

The Box Score. Victoria AB R H PO A E. Elliott, ss, 3 1 2 1 5 0. Church, 3b, 4 1 0 2 0 1. Leard, 2b, 4 0 0 2 1 1. Brown, lf, 3 3 2 0 0 0. Carman, rf, 4 1 1 2 0 0. Dempsey, lb, 4 1 2 6 0 0. Zienke, cf, 4 0 1 4 0 0. Cunningham, c, 4 1 2 0 0 0. Young, p, 3 1 1 0 5 0. Kelly, p, 1 0 0 0 0 0. Totals, 34 10 11 27 11 2.

Seattle AB R H PO A E. Heese, rf, 5 1 1 0 0 0. Grant, 3b, 5 1 2 1 7 1. Nixon, lf, 5 1 1 2 0 0. Hoffman, lb, 5 2 2 13 0 0. Paul, 2b, 5 1 2 3 1 1. Cuyler, cf, 4 0 1 4 1 0. Shannon, ss, 3 0 0 2 2 0. Washington, p, 0 0 0 0 0 0. Reid, p, 4 0 0 0 0 0. Totals, 41 6 12 24 15 2.

Score by Inning: Victoria 5 0 0 4 1 0 0 -10. Seattle 0 0 0 1 5 0 -6.

Summary: Home runs—Heese, Grant, Paul. Two-base hits—Heese, Nixon, Hoffman (2), Grant, Brown, Dempsey, Elliott, Cunningham. Wild pitch—Washington. Struck out—By Young, 3; by Kelly, 6. Double plays—Cuyler to Hoffman. Bases on balls—Off Washington, 3; off Young, 1.

SISLER TAKES LEAD AS KING OF BATTERS

St. Louis Star Jumps Ahead of Speaker; Hornsby Still Leads National

Chicago, June 18.—George Sisler, star of the St. Louis club today is blazing the trail for the batters of the American League, according to averages including games of Wednesday, released today.

The St. Louis first baseman, second to Tris Speaker of Cleveland, a week ago, shot into first place with an average of .406. Sisler's record for the season is .392.

Joe Jackson, the hard-hitting outfielder with Chicago, is third with .374.

Sisler's remarkable batting streak came into bloom a week ago. Sisler has hit 10 consecutive home runs and has a total of 85 safe blows for 51 games.

Ruth is Doing Well. With the season a third finished, "Babe" Ruth, champion home-run hitter, seems certain of establishing a new record, as he is only 10 behind the mark of .29 he set last season.

Ruth drove out his 19th circuit smash during the second game of the Chicago-New York series. He is far ahead of his 1919 performance, when he attained his 18th home run on August 18.

Speaker is leading Ruth by one as a run-getter, having registered 51 times. Rice, of Washington, continues to show the way to the base-stealers, his 22 thefts remaining high.

Other leading batters: Milan Washington, .368; Johnson, Cleveland, .354; Meusel, New York, .353; Weaver, Chicago, .351; Murphy, Chicago, .351; Shotton, Detroit, .350; Hendrix, Boston, .349; Judge, Washington, .348; Ruth, New York, .344; Evans, Cleveland, .343; Jacobson, St. Louis, .342; Felech, Chicago, .335.

Hornsby on Top. There was little change among the leaders of the National League during the past week. Ross Hornsby, of St. Louis, added a few points to his average, as did Nicholson, of Pittsburgh, who became the runner-up to the St. Louis star, displacing Daulton, of Cincinnati, whose slump put him in third place.

Hornsby is batting .393; Nicholson .351 and Daulton .342.

Other leading batters are: Robert, Chicago, .340; Groh, Cincinnati, .335; Roush, Cincinnati, .328; Williams, Philadelphia, .323; E. Smith, New York, .318; Young, New York, .315; Flack, Chicago, .315; Clements, St. Louis, .309; Fournier, St. Louis, .308; Cruise, Boston, .308; Stock, St. Louis, .305.

Swimming Championships at Vancouver July 10. Vancouver, June 19.—The executive of the Vancouver Amateur Swimming Club last night agreed on the events to be decided at the championship swimming gala on July 10 and it promises to be the best aquatic meet staged on the Mainland. In order to ensure that all the races will be conducted under championship conditions the Swimming Club has arranged to lease the premises of the Vancouver Rowing Club for the afternoon and 25-yard course will be constructed which will be in such a position as to give the ticket holders a splendid view of the proceedings.

In addition to some British Columbia championships there will be events for Greater Vancouver titles and much interest will be aroused in the scholastic championships for boys and girls under 15. The preliminary heats will be swum at English Bay and only the semi-finals and finals will remain to be disposed of on July 10. These events are open to all school children of Greater Vancouver and the Lower Mainland.

The full list of events for July 10 follows: 50 yards boys' scholastic championship semi-final; 200 yards junior relay championship of British Columbia for Patricia Shield; 50 yards scholastic championship girls' semi-final; 200 yards breast stroke open; 50 yards back stroke open; novelty race 50 yards senior championship of British Columbia, semi-final; 50 yards boys' scholastic championship, final; 100 yards ladies' championship of Greater Vancouver and Lower Mainland; 50 yards girls' scholastic championship final; fancy diving; 50 yards senior championship of British Columbia, final.

JOHNSTON DEFEATS TILDEN IN GREAT MATCH IN LONDON. London, June 19.—In one of the finest tennis matches ever seen in Great Britain, William M. Johnston, of San Francisco, single tennis champion of the United States, defeated William T. Tilden, of Philadelphia, in the finals of the London lawn tennis tournament today.

Johnston won by the score of 4-6, 6-2, 6-4. A record attendance of several thousand persons saw Johnston win the championship. Time after time the brilliant returns and counter-voleys evoked rounds of applause. Both players were in magnificent form. It was Johnston's ferocious forehand drive which turned the scale in his favor at a critical stage in the third set. At this stage, Tilden led four to two with his service game in hand. He had not lost a single service game.

Here Johnston captured Tilden's service with faultless driving with out dropping a single point. Johnston followed in with his service game in which Tilden captured the first three points and once again seemed to have the match in hand. Johnston, however, by terrific deliveries captured the game, and made it four-all. Johnston won his next service, thus leading five to four, and once again captured his opponent's service, winning 6-4.

Sidney Plans Greatest Sports Day on July 1

Will Revive Famous Bicycle Race From Victoria to Sidney; Track Events Will Draw Large Number of Entries; Victoria and Sidney Will Stage Lacrosse Game.

Sidney has decided to hold another big sports day on July 1. This thriving little town, which is doing more to promote and popularize various branches of sports than many of the larger communities in this Province, has a very active athletic association and it is staging sports days at frequent intervals. In this manner it is developing a number of fine athletes. A few weeks ago the people of Victoria received an awful shock when they learned that Sidney possessed a lacrosse team which defeated the world's champions and which stands a fine chance of winning the Victoria and District Lacrosse Championship.

Sidney also has a number of athletes who are showing surprisingly good form.

The Sports Days are always crowded with a variety of sports. No expense is spared in bringing outside athletes, and the people of Sidney are shown solidly behind their own boys, and will back them to win in almost any game.

The Next Programme. Besides a fine programme of track and field events, the Sidney people will stage the following feature events: Bicycle race from Victoria to Sidney.

Lacrosse game—Victoria vs. Sidney. Football game—Royal Oak vs. Garrison. Baseball game—Roche Harbor, Wash. vs. Metropolis, of Victoria.

The Sidney Athletic Association is reviving the bike race between Victoria and Sidney, which was brought popular a few years ago, and quite on a number of very fine peddle-pushers. It is expected that a large number of boys will enter this event as the roads are in good shape, and should make the going easy as well as fast. Entries in this as well as all other events must be made to P. N. Tester, Sidney Hotel, Sidney.

Expect Big Crowd. The promoters of the sports day expect a very large crowd of spectators from the peninsula, Victoria and the Gulf Islands. Every effort is to be made to make this the greatest day in the history of Sidney, and everyone out there is doing his utmost to ensure its success.

The Victoria Labor band has been engaged to furnish the music. The B. C. A. A. U. has granted the necessary sanction for the meet.

Earl Thomson Will Not Attend Olympic Games. Toronto, June 19.—Canada has lost its outstanding athletic representative for the Olympic games. In a letter to Mayor Church yesterday, Earl Thomson, a Canadian and a student of Dartmouth College, who recently broke the world's record, says that he will not be a candidate for the Canadian Olympic team for Antwerp.

Thomson, besides being a world's record holder, is recognized throughout the United States as the king of all hurdlers and something akin to a sprinting wonder. He also puts the shot and hurls the discus up to championship distance.

The reason given for his not being able to go over for Canada is that his university work and his summer position will not permit of it.

RUFFLE, the Cycle Man. Is Now Located at 709 JOHNSON STREET Phone 862

OTTAWA LADY WINS QUEBEC GOLF TITLE. Montreal, June 19.—Mrs. Frank Ahearn, of the Royal Ottawa Golf Club, won a score of 90, won the women's golf championship of Quebec at the tournament yesterday over The course of the Country Club at St. Lambert. She went out in 47, and came back in 43, defeating her next competitor, Miss K. Robertson, Beaconsfield, by one stroke.

V.A.S.C. Victoria Amateur Swimming Club is now preparing to enroll new members. Adults, \$3.50; Juniors, \$2.50. Tickets issued by Mrs. Armstrong, care of Beehive, 1210 Douglas Street. For information regarding the swimming pool at the Y. M. C. A. phone 1871.

SPORTING NEWS

MRS. SWEENEY WINS LADIES' GOLF TITLE

Defeated Mrs. Patterson For B. C. Championship by One Up in Keen Match

Once again Mrs. Sweeney has won the British Columbia ladies' golf championship. In a very brilliant and keenly contested match over the Oak Bay links yesterday afternoon Mrs. Sweeney defeated Mrs. Patterson by one up.

1914. During the war the competition was not held.

In the final yesterday the ladies drove off from the men's tees. Mrs. Sweeney was in perfect form and went out in 38. Mrs. Patterson had the misfortune to break her favorite driver, which she had used for 16 years, at the fourth hole, and was 3 down at the turn. By a plucky recovery and consistent playing Mrs. Patterson pulled up and was one down at the sixteenth hole. The seventeenth and eighteenth holes were halved.

A large number of golf enthusiasts who had anticipated a keen struggle attended the match and were well repaid.

To Play At Vancouver.
Mrs. Sweeney will now enter for the Northwest Pacific championship, which will be held in Vancouver early in July.

Play For Sayward Cup.
On Tuesday next ladies' teams from the Oak Bay and Colwood clubs will play for the Sayward Cup over the Colwood links. This match will prove exceptionally interesting. Both Mrs. Sweeney and Mrs. Patterson will be on the Oak Bay team.

CEDAR COTTAGE WILL MEET LOCAL BOWLERS

Another Vancouver Team Will Make Effort to Lower Victoria's Colors

Vancouver will send over another coterie of bowlers on Dominion Day to see if they cannot lower the colors of the Victoria Lawn Bowling Club. On May 24 a team from the Mainland was defeated by the local club by twenty-three shots. The visitors on Dominion Day will be from the Cedar Cottage Bowling Club.

Victoria has an exceptionally good rink this year. There are over seventy bowlers who can give a good account of themselves in any company. They are taking a great interest in the sport, and the club competitions are the keenest in the memory of the oldest members.

The local bowlers have no fear of the outcome with the Terminal City players. They are confident that the Cedar Cottage rink will prove no more formidable than their predecessors.

Thank Mayor Porter.
Last April the Bowling Club passed a resolution asking the council to adopt Daylight Saving. Last evening an impromptu gathering of the sportsmen passed a unanimous resolution thanking Mayor Porter for his initiative in putting through the scheme, and of the great benefit the amateur athletes of this city would derive from the change.

The bowlers will particularly benefit from the new order of the clock.

ST. LOUIS GETS ITS NINTH STRAIGHT WIN

Detroit and New York Win in Pitchers' Battles; Ruth Only Gets Single

American League.
St. Louis, June 19.—St. Louis trailed Philadelphia for eight innings yesterday, then mixed a fielder's choice wild throw by Thomas and a single by Davis, for two runs and won 4 to 3. It was the locals' ninth straight victory. The score: R. H. E. Philadelphia 3 8 1 St. Louis 4 13 1 Batteries—Harris and Perkins; Davis and Severid.

Ayers Wins Battle.
Detroit, Mich., June 19.—Ayers, pitching in fine form, let Boston down with three hits and Detroit won the second game of the series 1 to 0. With exception of the first inning, Jones also pitched faultless ball. The score: R. H. E. Boston 0 3 0 Detroit 1 8 0 Batteries—Jones and Walters; Ayers and Ainsmith.

Yanks Still Winning.
Chicago, June 19.—Timely hitting by New York, coupled with a walk and a wild pitch, enabled the visitors to break St. Louis' straight from Chicago, 3 to 2. The game was a pitching duel between Shawkey and Kerr, with the former pitching his best in the pinches. Ruth's lone hit was a single. The score: R. H. E. New York 3 7 0 Chicago 2 8 0 Batteries—Shawkey and Hannah; Kerr and Schalk.

Johnson Badly Beaten.
Cleveland, O., June 19.—Cleveland knocked Johnson out of the box in the fifth inning and won, 9 to 2. Six hits were bunched off Johnson in the first two innings, and Speaker hit for a home run with a man on first in the seventh, while Johnson stole home on Zachary in the sixth. The score: R. H. E. Cleveland 9 11 2 St. Louis 2 8 0 Batteries—Johnson, Zachary and Pincin; Caldwell and Nunamaker.

National League.
Philadelphia, June 19.—Stengel's one-hand jumping catch of Fournier's liner, with two out and two on base, saved the game for Philadelphia yesterday, enabling the locals to break St. Louis' straight from Philadelphia, 1 to 0 score. The only run of the game was a home run by Traggesser. The score: R. H. E. St. Louis 0 5 1 Philadelphia 1 4 0 Batteries—Doak, North and Clemens; Causey and Traggesser.

Giants Beat Pirates.
New York, June 19.—New York defeated Pittsburgh in a see-saw game yesterday, 5 to 4. The Giants overcame an early three-run lead with a block of four runs in the third. New York scored what proved to be the winning run in the fifth on a single by Bancroft. Young's double and a wild throw by Grimm. The score: R. H. E. Pittsburgh 4 8 1 New York 5 9 1 Batteries—Cooper, Carlson and Schmidt; Barnes and Snyder.

Coast League.
At Sacramento—R. H. E. San Francisco 7 18 1 Sacramento 1 4 4 Batteries—Love and Yelle; Pittery and Cady.

At Salt Lake—R. H. E. Los Angeles 11 13 2 Salt Lake 5 8 2 Batteries—Keating and Lapan; Levensen, Gillum and Jenkins.

At Los Angeles—R. H. E. Portland 4 8 0 Vernon 5 8 0 Batteries—Jones, Poulsen, Ross and Baker; Dell and Devormer (11 innings).

At San Francisco—R. H. E. Seattle 0 4 0 Oakland 1 6 0 Batteries—Woodward and Baldwin; R. Arlett and Mitze, Spellman.

American Association.
Milwaukee 2, St. Paul 8.
First game, Louisville 2, Toledo 1; second game, Louisville 3, Toledo 2.

Moose Jaw 4, Regina 12.

TENNIS CLUB'S ANNUAL HANDICAP HAS STARTED

The annual club handicap in connection with the Victoria Lawn Tennis Club commenced this afternoon at 2:30 o'clock, and has brought out the largest number of entries since 1914. Two hundred and twenty entries have been received for all the events, which consist of men's singles, men's doubles, ladies' singles, ladies' doubles and mixed doubles. The men's singles drew the largest entry.

ELKS AND VETS MEET AT STADIUM TONIGHT

The Elks and Colliers-Vets meet tonight at the Stadium. The game will commence at 6:30 o'clock. Alex Straith will try to twist the Vets to victory. He will be opposed by Ross, on whom Walter Lorimer relies to hold his team in the lead.

at the Theatre

DOMINION
An event of unusual interest to both screen and theatre fans and lovers of good literature in general is coming to the Dominion Theatre in a great motion picture version of "Dr. Jekyll and Mr. Hyde" at the Dominion Theatre.

The photoplay, which is a Paramount production, is already a widespread comment and is declared to be a film masterpiece, featured with the splendid acting of Mr. Barrymore in the leading character, Martha Mansfield, a young woman of talent and exceeding beauty, is the leading woman. The picture was directed by John S. Robertson.

VARIETY
Beautiful Olive Thomas is seen at the Variety Theatre this week in "The Spite Bride," a drama of youthful impulse, produced by Selznick Pictures Corporation. Never has Miss Thomas looked more beautiful, and never was she cast in a better role than that of Tessa Doyle, one of the partners of the Dennis and Doyle dancing "sisters." Tessa was a high type of show girl, straight, sweet and clean. When Rodney Dolson saw her he immediately decided that she was just the girl for his friend, Billy Swayne, to marry. Rod had impressed Billy with the fact that he must get married—to spite Millicent Lee, the girl to whom Billy had been engaged and who had jilted him, so that she could not get out her publicity first. Rod's idea was this: "Marry the girl, hand her a thousand dollars and then give her a trip to Reno, Billy, a son of one of New York's oldest families, married the girl, but when he proceeded to give her a thousand, he met trouble. Tessa, Tessa's astute little partner, had sized him up and come to the conclusion that he could afford to pay more.

COLUMBIA
Tom Mix certainly makes picture true to life. An incident demonstrating this occurs in "The Coming of the Law." He shows a small town printing office, and gets out a newspaper called "The Kicker." There is everything in the office that would be in a small town plant—even the vest, the collar, and the freckle-faced "printer's devil." There is also the big belled stove in such a plant because most people in a small town make it so hot for the printer much of the time that the big stove is his only method of keeping the temperature even all the time. The "printer's devil," played by young Lewis Sargent, is a scream. He is barefooted, has a generous supply of large freckles and is minus two teeth. But this is only an incident in a play that bubbles with humor and contains many startling stunts on horseback, with other sensational action. "The Coming of the Law" is now being shown at the Columbia Theatre.

PRINCESS
"Believe Me Xantippe" next week's offering of the Mildred Page Players, at the popular Princess Theatre, promises to be a sure fire hit in Victoria, as it has been in all the larger Eastern Canada cities. "Believe Me Xantippe" was written by the complete for the \$5,000 cash prize offered each year by Harvard, Yale and several other of the larger Eastern educational institutions, and was picked from several hundred manuscripts submitted by famous authors as well as college students from all over the world. Miss Mildred Page and Mr. Byron Aldenn will again be seen in the leading role, while the supporting cast will be very much to their liking, and as the production is a mishap, evil brute. Gradually the side side of his character overmasters Jekyll and, after a string of dramatic scenes, he succumbs. Only after his death is the dual character of his personality revealed.

PANTAGES
Returning from a world tour, Long Tack Sam's company of Chinese wonderworkers will be the headline feature of the coming week's bill at the Pantages. It is a gorgeously staged Oriental spectacle and the performers, five men and a woman, are amazingly versatile. They offer singing, dancing, juggling, magic and athletics and they have one of the most elaborately staged and handsomely costumed acts in vaudeville.

As an added headline offering, Jess Hayward and her company will appear in Miss Hayward's new comedy play, "Air Castle Kate," presented by Leon Hahn. Miss Hayward is one of the best known and most popular of vaudeville's comedians and is bound to be particularly happy in her present offering. After success on the larger Eastern circuits, the act was booked for the Pantages circuit on its first Western showing.

Another important comedy feature of the new bill will be Pete Pinto and Boyle in a laughable sketch called, "The Mysterious Trunk." The offering is original and brimful of fun. Herta Corty and Edith Althoff are two pretty French maids who are dainty comedienne, singers, dancers and musicians. Their offering is characterized by variety and charm.

Jack De Winter and Ivy Rose will present an elaborately staged dancing novelty that they call "An Indian Idyll." Both are gifted dancers and their numbers include classical, interpretative and modern jazz. The act is beautifully costumed.

THE RIVER'S END.
Jiu-Jitsu was used to excellent advantage in the filming of "gang fight" scenes in "The River's End," a Marshall Neilan production, written by James Oliver Curwood, which will be shown at the Royal Victoria Theatre, next Monday, for four days only.

The battle, which takes place in an opium den at a Canadian trading post, between John Keith (a murderer) and a gang of Chinese, is one of the most spectacular films ever screened. In actual blood that flowed, the hits, kicks, falls and blows that were delivered. One of the Chinese is hurled clear across the room, his head striking the log wall. Several members of the cast

Cabaret—The Critorian.

were confined to the studio hospital as a result of "too much realism." Lewis Stone is seen in the dual role of John Keith (wanted for murder) and Derwent Coniston (of the mounted police). Majorie Daw, Jane Novak, Charles West and J. Barney Shaw support the star.

ORPHEUM PROGRAMME PLEASES AUDIENCE
Variety makes for the success of an excellent bill at the Orpheum tonight. The entertainment has two headline acts with Miss Marie Dresser and Jack Gardner in an effective musical farce, and Miss Ryan in her clever conception of "Peg For Short."

Miss Dresser sustains her reputation for being one of the most statuesque blond beauties on the stage, and Miss Ryan succeeds in entirely captivating her audience. In contrast to these artistic numbers are the "Darwinian Demonstrations of Fun," a remarkable troupe of monkeys which give an amusing performance under the tutelage of Miss Anita Diaz.

Clara Morton, in a single woman's act, is a winsome and bewitching songstress, and her audience would like to see her again.

Harrison Greene and Katherine Parker give a turn where their black face patter and singing make a hit, and in "At the Depot," provide a turn where the laughter is continuous. The Novelty Clintons give an extraordinary jumping act in regular grasshopper fashion, which is a distinct novelty. The orchestra and the British film pictures complete an entirely satisfying bill, which will be seen again tonight.

Palo and Palet open the bill with a clever musical act entitled, "Les Bouffons Musicaux," which the critics judged one of the best musical acts seen here.

are guaranteed for 5,000 miles puncture proof and cost half as much as other tires of corresponding size.

This tire embodies a scientific principle which is so simple that when you see it you will say, just as hundreds of other motorists have, why didn't someone think of this before.

LET US SHOW YOU THESE TIRES

Gates' Half-Sole Tires that are oversize and puncture-proof and yet cost you only one-half as much.

DESCRIBES ISLAND AS RUGGED PARADISE

Former Victoria Writes Attractive Article on Island Wonders

Writing in "Tourist Topics," Ernest McCaffey, formerly secretary of the Vancouver Island Development Association, deals with the wonders of Vancouver Island in the June issue. Mr. McCaffey is now in charge of the publicity department of the Automobile Club of Southern California, and evidently has not permitted his recent associations to detract from the glowing memories of this island.

In an article headed "An Island Just Paradise" beautifully illustrated with cuts of the most attractive setting, Mr. McCaffey conducts his readers over the famed Island Highway, from Goldstream, up over the Summit to the sea line again at Mill Bay.

"The Malahat Drive can be made in a day's trip from Victoria," he says, "although it will not be forgotten in a life time."

"With its settings of mountain, forest, fjord and ocean it presents, even to the most jaded and blasé globe trotter a touch of novelty that compels attention and extorts admiration, however many times the traveler may have girdled the globe or sailed the Seven Seas in wandering voyages. The whole island forms a rugged grandeur that never has been spoiled by the hand of man," he concludes.

The article is profusely illustrated and should form one of the most effective advertisements that has ever appeared in favor of Vancouver Island.

FLEETING MEMORY OF A SUMMER HOUSE

When the Leechtown Diggings Had a Popular Hostelry

John Hoole, of the Provincial Library staff, greatly interested in the account in Thursday's paper of the aldermanic visit to Leechtown on Wednesday, sent The Times the following, culled from a B.C. paper of December 28, 1864:

Highly Important News from Leech River

"It is said that after all the excitement and fashion are gone, something new comes every day. And as the Keans have fulfilled their engagement and the next and last excitement in the way of enjoyment is the Grand Masonic Ball, after which it is necessary for the enjoyment of fashionable pleasure-seekers of Victoria, British Columbia and Washington Territory that a proclamation should be published by someone."

Therefore we, the undersigned, do solemnly declare and proclaim that the

Mount Ararat Summer House

Will be opened on the first day of January, 1865, for the accommodation of both Miners and Merchants, and as the Mount Ararat Summer House is located on the most lovely spot of ground on Leech River, being on the brow of the hill, just above and in sight of the Government House, or Commissioner's Office, immediately in the rear of Stege's two-story house, those visiting Leech River cannot but feel at home, as the proprietors, without regard to cost or trouble, have fitted up the Mount Ararat not as a boarding and lodging house only, but as a mountain home. And the proprietors do further proclaim that as Mrs. Johnson has kindly consented to take charge of the ladies' department, husbands, brothers, and lovers need not hesitate in bringing the ladies along in the mining season, as their wants will be honestly attended to.

DON'T FORGET THE MOUNT ARARAT SUMMER HOUSE.

Given under our hand and seal, this 24th day of December, 1864.

R. H. JOHNSON

ROBERT L. DIXON, Proprietors.

There is no mention, Mr. Hoole points out, in The Times article, of the Aldermen having visited Mount Ararat Summer House; therefore, he presumes it has long since fallen into decay, like everything else in the erstwhile bustling town.

How Sallow Skin Can Be Changed To Rosy Complexion

Every woman with pale cheeks and poor complexion needs medicine—needs a potent tonic to regulate her system.

To tone up the stomach—to insure good digestion—to give new life and vitality to the whole system—where is there a remedy like Dr. Hamilton's Pills?

Dr. Hamilton's Pills enable you to eat what you like—they correct constipation—make nourishing blood—instill force and vim into a run-down system.

If nervous and can't sleep your remedy is Dr. Hamilton's Pills—they search out the cause of your condition and you rise in the morning refreshed, strong, vigorous, ready for the day's work.

Dr. Hamilton asks every weak and debilitated person to use his Mandrake and Butterbur Pills. They make old folks feel young, and weak folks feel strong. Their effects upon insomnia and languor is marvellous. Hundreds declare they soon and quiet the nerves so that a good night's rest always follows their use.

To look well, to feel well, to keep well, use Dr. Hamilton's Pills. They are mild, cleansing, strengthening. They are good for the young or old. Sold by all dealers in 25c. boxes.

VANCOUVER ISLAND NEWS

Nanaimo.—J. M. Gibbons, of Montreal, publicity agent for the C.P.R., has arrived in Nanaimo, in the course of his tour of Vancouver Island, securing material for the C.P.R.'s advertising campaign. Mr. Gibbon is accompanied by Mr. and Mrs. Terry Ramsaye of New York, who are securing views and material for Canadian Kinograms. The party spent the night in Nanaimo and left for Cameron Lake this morning on a trip combining business with pleasure.

Visits Cassidy.—Since the recent change in the management, Edwin Ludlow, a coal expert, has been studying the coal at Cassidy. He has also been looking into the coal deposits at Brule Lake with a view to securing a supply of better coking coal than that of Cassidy, which is reported to have proven a disappointment from the coking standpoint.—Nanaimo Free Press.

School Gymnasium.—The success of the Empire Day celebration and the May Queen contest has encouraged the public school teachers to proceed this Summer with the erection of the school gymnasium. The Empire Day will provide about \$2,200, and with the amount already on hand nearly \$2,500 will be available. Although this is only about half of the estimated cost, the wide interest displayed in the project will guarantee the remainder.

Women's Institute.—Shawnigan lake.—The bi-monthly meeting of the Shawnigan Women's Institute was held in the S. L. A. Hall on Thursday, June 17, H. T. Ravenhill, of Victoria, gave a very able and interesting address on the work of the Navy League in Canada, more particularly with regard to the Boy's Naval Brigade. Mr. Ravenhill's talk quite opened the eyes of his audience to the importance and praiseworthy work that the Navy League is doing.

Were Arrested.—Nanaimo.—Two Austrians, Pogy and Gerard, who were required to report to the police during the war, were arrested Thursday by the provincial police, acting in conjunction with Inspector J. E. Miller, of the Inland Revenue Department, Victoria, on the charge of the illicit manufacture of liquor at the Portage, near Jack's Point. Two stills were located, one, the smaller, in the house, and the second, with a capacity of ten gallons, in the bush some little distance away. Seventy-six gallons of mash was secured and several gallons of liquor of a superior quality.

CLO-OOSE MEN HEAR MEMBER

Kenneth Duncan, M. P. P., Addresses West Coast Constituents.

Clo-oose, June 18.—A meeting called on June 11 at the Schoolhouse, was the first occasion upon which Kenneth Duncan, M.P.P. had the opportunity of addressing the residents of this district.

Commencing his address he briefly touched on the aspects of legislation and matters under discussion in the House in the last session and bills laid on the table. In order to explain the great judgment needed in expending monies he spoke of the Loan Acts and the purpose of borrowing; also the vote to Conservation, Land Settlements, Highway Bill and B.C. University Loan.

Among the subjects for future discussion in the House, he mentioned the Mother's pension, the Game Act, the Jurisdiction to control public utilities charters; he also explained the referendum to come in the fall of the Prohibition Act and its alternative vote.

The Dolly Varden Mines question was dealt with at length by the speaker. He pointed out that as a result of legislation in the House it is now possible that returned men having served overseas and being British subjects may vote without further qualifications, whether of age or not.

The Cannery

Mr. Mann, the Road Superintendent, invited a free discussion of the part of the settlers as to what they considered imperatively necessary in the way of trails. He explained that the road estimates are made up in the November of the year and that, therefore, it is desirable that interested settlers should meet and decide their needs before that time. It was suggested by Mr. Logan that the Cannery trail imperatively needed improvement and that the Cannery should be open. It was the opinion of some that Brown's trail, already in a fair condition, should be further improved as the suggestion that the Cannery intended to open received little credence by them.

Mr. Matthews pointed out, however, that Brown's trail was built, only as a matter of convenience and that much money had been invested in the district through which the Cannery trail runs, and that the oldest settlers are living along its route. Furthermore, that it was not likely that an investment of \$60,000 in the Cannery should be idle. The speaker held that the Cannery trail was in use far more than Brown's trail inasmuch that the Logging Camp tug operates from the Cannery when taking booms out and waiting on the tides, and that the men usually come to the Cannery house for Clo-oose. A number of questions were asked by settlers, particularly with regard to the appropriation for Brown's and the Cannery trails.

District Committeeman Mr. Duncan referring to the previous election, emphasized the point that as his representative, Mr. Dickson had been selected and that he would be obliged, in stating their needs, the committeeman should be used by the settlers, and furthermore that they eliminate personality and do not hesitate to state everything they want. Mr. Duncan stated that he was not a party politician but an independent and that he was out for

The "Bear Cat" Portable Drag Saw

The First Practical One-Man Outfit

ALL METAL, LIGHT, DURABLE, RELIABLE

This Drag Saw Will Cut Working Expenses for You on Your Farm and in Your Woods.

Note This Picture Carefully

The clean-cut appearance of this machine is clearly shown. Note the look of concentrated power—the freedom from extra parts. The "Bear Cat" is trimmed down to greatest working efficiency and arranged for easiest operation. The picture also shows the Single Anchor Dog feature which allows cutting to the finish without building staging—and the adaptability of the "Bear Cat" to land clearing.

Study the Exclusive Features of the "BEAR CAT"

NO SAW IS EFFICIENT ENOUGH FOR YOU WITHOUT THEM

NEVER has there been offered a drag saw built so practical. Constructed entirely of metal selected for light weight and wearing quality. Designed with a straight-from-the-shoulder simplicity that means greater ease of operation than is possible with more complicated machinery. There's nothing difficult to understand, nothing inaccessible to cause loss of time in operating or caring for the "Bear Cat." It is designed for direct and most profitable application of its power—and backed upon it for unlimited continuous service.

Starting Wheel

Exclusive "Bear Cat" feature; free from all other parts.

Square Bearing

Cross head travels on square cold rolled bars—easy to get at, easy to adjust. Long bearings surfaces for long life of service.

Oscillating Motion of Saw Blades

Duplicates the work of most highly skilled sawyers in throwing the dust clear and allowing the saw to bite deeper with every stroke.

All Weather Battery Box

Weather proof, all metal, wood-lined box protects the battery lengthens its life and efficiency. Heavy insulations; all holes porcelain lined.

Saw Blade Holder

A patented "Bear Cat" feature that allows you to put on or take off the saw blade in the least possible time. No monkey wrench required—no nuts to delay.

Demountable Wheels

Can be removed or replaced in quick time. Can be used separately for cart, etc., when desired.

Adjustable Leg

Has a range of 14 inches. Makes it possible to saw logs wherever they are. Eliminates the many disadvantages of rough ground. Quickly adjustable and perfectly rigid when set. Both legs of extra heavy axle tubing.

The "Bear Cat" multiplies the results of your day from 8 to 10 times and does all the work. One man can wheel the "Bear Cat" to its work without assistance—as easily as he would a wheelbarrow. One man can start the "Bear Cat" and make all necessary adjustments with ease. It's a one-man job all the way through.

The "Bear Cat" is built to outlast its guarantee. Put one on your place now. Work it all day, every day, rain or shine. The "Bear Cat" will conserve your strength, make your time eight to ten times more valuable, and pile up your profits.

Single Dog

Has steel point that takes a good grip. The guide prevents slipping along log. You can saw within four inches of end of log—an advantage when making last cuts or clearing land.

Auto Type Clutch

Cone clutch (auto type) with long hand lever; insures perfect safety in starting and makes frequent stopping of engine unnecessary.

the best legislation no matter where it came from. The member expressed his appreciation of the excellent meeting.

With regard to road work it was decided that the amount of work done on each trail should be settled according to its merits.

They were talking about the different places they had visited during the war. One Australian was saying that he had the pleasure of being on guard one night at the gates of Bethleem. Suddenly the old soldier of the party looked up at the speaker, and said: "I'll bet the shepherds watched their flocks that night."

Commerce TRUCKS

Ship By Commerce Trucks

Express with Canopy Top

Platform and Convertible Stake Body

If you expect a profit on your truck investment buy a truck that enables your driver to enjoy his work. Commerce trucks have many appeals to the driver.

There is a higher proportion of payload weight to truck weight in the Commerce than in any other truck.

Three vital advantages—Low initial investment—Low operating cost—Low repair cost.

A decade of truck manufacturing experience back of Commerce Trucks.

PLAN WEEVIL CRUSADE

New Methods of Fighting Pest Discovered by Department Experts; Keating Farmers Alarmed.

Agricultural and entomological experts including William Downes of the entomological branch and E. W. White of the horticultural branch of the Department of Agriculture are demonstrating new weevil control methods at the Vantreight farm, Gordon Head, this afternoon. Farmers from all over the district and Keating are attending.

The new methods are the result of experiments conducted by experts during the last two years.

Keating farmers have lately been alarmed at the increase in the weevil in their district. Some fear their crops will be destroyed altogether. Agriculturists of Keating gathered at the Farmers' Institute Thursday night and for two hours discussed the problem with experts.

NEWS AND NOTES OF THE MINES

Emerald Mine

Remodelled and with its capacity increased to 50 tons per day, the concentrator of the Emerald mine in the Sheep Creek district, has now been completed after a total expenditure of about \$35,000, and as some minor adjustments are made, the plant will start to run on Emerald ore, and in two or three days the wheels will be turning. R. W. Mifflin, secretary-treasurer of Iron Mountain, Ltd., stated to the Nelson News.

As originally designed last fall and built during the early winter by Dr. J. W. Crook, the plant was to have a capacity of 30 tons, but the addition of an extra set of rolls for the crushing, and some alterations in the process, principally in the direction of limiting the per centage of the product to 100 per cent, has made it possible to run through 50 tons, while the crushing capacity is set at 100 tons.

At present 15 men are employed at the mine and the mill, and this force will be increased to 25 when the mill gets going.

The famous old Emerald mine was the first silver-lead property to be exploited in the silver-lead belt of the Sheep Creek district, and has been a continuous operator, practically speaking since January, 1904, when John Waldbeser started it in operation. In 1919 Mr. Waldbeser and his associates were incorporated, taking the name of Iron Mountain, Ltd.

In 1919 the Emerald shipped 177 tons of ore to the Trail smelter, and so far this year has shipped 404 tons to the same destination.

Surprise Mine

That the Surprise mine, at Sandon, is operating with a crew of 10 men, six of whom are underground while the remaining four are hauling ore, and that the Bosun, at New Denver, is also working steadily was the statement last night of J. P. MacFadden, manager of the Rosebery-Surprise mining company. The company is not running its concentrator at Rosebery at present.

During the Sidney Board of Trade Picnic on Monday to the Island, visits will be paid to Parker Island, Sidney Island Ganges and Cushion Cove Lumber Plant, according to W. H. Dawes secretary of the Board, who was in the city yesterday.

James H. Baxter, of Calgary, has purchased ten acres with the idea of building, at Beacon Avenue, Sidney.

WHY GOLD IS THE BASIS OF MONEY

(Continued from page 12.)

It, a premium does not necessarily give it a higher purchasing power, but, on the other hand, in the final adjustment, seriously disrupts the basis of international credit. To increase this uncertainty by tampering with the standard of international payment would be an extraordinarily futile means of handling the situation and only make the confusion worse confounded.

The principal nations of the world have adopted gold as the basis of their currency system. The market price for it is everywhere the same and equally certain at the standard price of \$20.67,18 a fine ounce. It may be an anomaly that economic civilization should depend for means of payment on the supply of a particular metal, but it will take much ingenuity to find a practical substitute for gold and secure for it the popularity and confidence that this precious metal commands. The mere fact that it has been chosen by the most enlightened commercial nations is strong proof that it is the best single commodity for practical use as a standard.

The disproportionate distribution of gold among world nations attracts attention to the study of the part that this metal plays and is to play in the future in the world's economic affairs. It is apparent to the careful observer that the pace at which the production of gold increases is not as fast as the rise in value of the world's wealth.

The vast obligations piled up by the nations; the huge issues of paper currency; the refunding of debts, and difficult problems with which the world is confronted. This makes it only too apparent that gold is a necessity for the credit and financial unity of nations and it is essential that an adequate foundation of gold be created to uphold that system.

One of the first acts of the British Government, after England was plunged into the war, was to insure against lowering prices. It would seem equally certain that as international commerce progresses and the system of credit expands, an increased world's supply of gold is a matter of vital importance.

It is true that, in practice, many transactions of buying and selling are set off one against another, but there can never be a system of finance carried on in any country, operating under a gold standard, without a basis of money somewhere.

The tendency to a further rise in prices is likely to continue for several years; the increase in the cost of living and the importance of adjusting wages to prices; the increasing obligations of nations extending over long periods; the problem of a universal standard of values; the development of commerce and banking; the growth of population and wealth—these questions which are becoming of increasing importance as time runs on. With the falling off in the production of gold and a material rise in gold prices a very serious state of affairs is presented which is likely to effect the international economic position of all peoples.

That the gold turned out of her mines should be safeguarded, and steps were taken for the deposit of new holdings in Canada, South Africa and Australia to the credit of the Bank of England. This arrangement had many advantages and tended greatly to facilitate the concentration of the metal where it was most needed for the settlement of liabilities, and Great Britain was, in this way, enabled to use her gold unsparingly in meeting immediate obligations.

The enormous increase in credits and paper money circulating in every country of the globe, as a result of the Great War, reacts very materially on the present and prospective supply of gold and reflects in prices in general, which in normal times zig-zag to meet the demand for, and the supply of, credit and gold. If, for instance, prices and wages are increased, as far as they are paid in gold, it requires a proportionate amount of money to meet the higher costs. It follows as a matter of course that a large circulation of money is required to meet the demand. While the quantity of gold available as money is seen to exert an influence in the direction of rais-

The Rise of Maxwell is Due To Its Metals

Fine soil makes fine wheat; fine feathers make a fine bird; and fine metals have made the Maxwell. They have given it:

1—A life of 100,000 miles. 2—Thriftiness.

For its metals are light in weight. Therein comes thriftiness.

But these metals are of extra strength. Therein comes long life.

Metallurgists—those who have made the study of metals a science—will tell you that such metals are costly, but they guarantee quality in a car and their generous employment in a Maxwell is by far the best evidence anyone may need to determine its quality.

They are almost alone responsible for the rapid rise of Maxwell, for the fact that nearly 400,000 now have been built, for that ever-growing friendliness to Maxwell the world over.

BOARD'S WORK IS DECLARED GOOD

Commons Committee on Re-establishment Reports on Soldier Settlement Board

Ottawa, June 19.—In its report on the inquiry into certain allegations made against the administration of the Soldier Settlement Board, the Special Committee on Re-establishment, whose report was tabled in the Commons last night, finds "there is nothing to show executive inefficiency;" that "the main operations under the Act appear to have been beneficial to the extent of the settlement on land of a very considerable number of men to the full extent of the money appropriations set apart for the purpose by Parliament," and that "no further important changes appear to be advisable at present in the general policy or scope of the Act."

Taking into account the magnitude of the Board's operations, and the great pressure of work during last year's business, says the report, "the Committee cannot but feel that the complaints illustrated by the typical cases placed before committees are cases which must necessarily arise from the settlement of from 15,000 to 20,000 men and a total expenditure of more than \$50,000,000 in loans, where certain individuals necessarily cannot receive all the demands, and where delays must unavoidably occur in certain cases because of the character and volume of the business transacted."

In Conflict.—Dealing with the letters and affidavits submitted by C. G. McNeil, Dominion secretary of the Great War Veterans' Association, the Committee finds that certain applications for benefits were in conflict with the Act and regulations.

With regard to certain individuals who suffered hardships, this was a matter for the Federal emergency relief and not due to neglect of the Board.

At Winnipeg.—Whether a royal commission will be appointed to investigate charges made against the Soldier Settlement Board here will depend on the findings of the Board at Ottawa, according to Major Barnett, general counsel for the Board. He also stated that it will depend upon the Board at Ottawa whether or not the suspension of D. W. Campbell, Director of Loans, and E. W. Gardiner, Assistant District Agriculturist, will be made permanent.

IN A QUANDARY.—"So Alice caught her husband kissing the maid. What is she going to do about it?" "She can't seem to make up her mind, poor dear. Sometimes she thinks it would be easier for her to get a new husband than to find a new maid."

GREECE READY TO SUPPLY FORCES

Government Is Reported Prepared to Enforce Treaty With Turkey

London, June 19.—During the visit to London to discuss the execution of the Turkish treaty and the position of the Greek authorities at Smyrna, according to The London Times, is believed to have expressed his readiness to place Greek forces at the disposal of the Allies for execution of the treaty. M. Venizelos, adds the newspaper, is convinced that if the restrictions imposed by the Supreme Council upon Greece were removed she could very quickly reduce the Turkish Nationalists to reason.

BELGIAN WOMEN MAY BE DEPUTIES

Brussels, June 19.—The measure enabling women to be elected to Parliament has been adopted by the Chamber by 142 votes. Belgian women, with the exception of widows of combatants, are not yet electors, except in communal elections.

UTTERLY HELPLESS FROM ST. VITUS DANCE

The Sufferer Restored to Health Through the Use of Dr. Williams' Pink Pills.

St. Vitus dance is a disease of the nerves brought on by a morbid condition of the blood. It is a common disease with children, and attacks frequently than boys. Irritability is frequently one of the first signs noted. The child frets, it is quarrelsome, and does not sleep well. The jerky movements that characterize the disease come a little later. The patient becomes pale, languid and often complains. The limbs and sometimes the whole body jerk spasmodically, and in severe cases the power of speech is affected. Such a child should not be allowed to study, but should be kept quiet, given a nutritious diet, remain out of doors as much as possible, and above all things give a course of Dr. Williams' Pink Pills to build up the blood and restore the shattered nerves. Without this treatment the trouble may become chronic and the patient a life-long sufferer. The value of Dr. Williams' Pink Pills in cases of this kind is shown by the following statement by Mr. Frank J. Scriven, Acton, Ont., who says: "In January, 1917, my daughter Gertrude, then aged fourteen, had a bad attack of rheumatic fever, which left as its after effects a severe attack of St. Vitus' dance. For weeks she was confined to her bed under the doctor's care. She was entirely helpless, being unable to even hold a spoon to feed herself. For a time she lost the power of speech almost entirely, and only with great difficulty made herself understood. The twitching of her muscles was so bad it was painful to see her. After a long time and taking a lot of medicine, she seemed to improve. But she did not seem to get along as she ought to. In November, 1917, we removed to Acton, and in January, 1918, she was again confined to her bed with St. Vitus' dance. She was again in a terrible state and quite helpless. She was under a doctor's care, and while there was an improvement, she was still very nervous, did not look well and was always tired. In May, 1918, we decided to try Dr. Williams' Pink Pills, and see what they would do for her. She took them regularly according to directions, and after taking several boxes there was a decided improvement. After a further use of the pills she is now as healthy a girl as you would wish to see. She is fat, with a fine healthy color and is strong and lively. The neighbors to whom she is well known remark on the wonderful change in her appearance since taking Dr. Williams' Pink Pills. Both her mother and myself are convinced that the pills have done her a world of good as she is now far healthier than we at one time thought she ever would be."

For a trouble due to poor blood and weak nerves there is no other medicine can equal Dr. Williams' Pink Pills. You can get these pills from any dealer in medicine, or by mail, post paid, at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

WOULD STOP C.P.R. CALL AT MANILA

Vancouver, June 19.—While local shipping men find it difficult to comment on the Jones Merchant Shipping Bill, which is aimed at promoting trade for American bottoms to the detriment to Canadian bottoms to a complete copy of the measure has reached the city, sufficient information has come to hand to show conclusively that Canadian steamship lines will be forced to withdraw entirely from the trade-out of Manila Canadian ports.

"I believe that the bill has passed the Senate and has been signed by the President of the United States," stated A. Melville Dollar, president of the Canadian Robert Dollar Company, in discussing the situation. "We know that there are certain amendments to the bill, but what these consist of is not exactly known. We are practically certain, however, that Canadian lines will be forced to withdraw from the Manila trade. This, of course, would apply to other lines as well as ours plying out of this port."

THINGS TO REMEMBER.

In cooking string beans, peas and spinach, a grating of nutmeg much improves their flavor. Shabby curtain rods and rings, if enamelled, to match the woodwork of the room look as good as new.

Appetite Keen and Bowels Relieved

You can rely your meals without fear of upsetting your liver or stomach if you will put your faith in Carter's Little Liver Pills.

Foul accumulations that poison the blood are expelled from the bowels and headache, dizziness and sallow skin are relieved. Small Pill—Small Dose—Small Price

B. C. INSTITUTE OF JOURNALISTS

Formed in Vancouver; Will Help Entertain Visiting Journalists

Vancouver, June 19.—Although placed on a permanent footing only in April last, the B. C. Institute of Journalists already has a membership of approximately sixty-five, comprising the majority of the active newspapermen in Vancouver. The Institute has been formed largely on a fraternal and social basis, but the underlying motive is to maintain and raise the standard of journalism in British Columbia to the highest possible level. From the enthusiastic way in which the movement has been taken up it is evident that there is much useful work to be done by such an organization.

To Remove First Signs of Old Age

"The infallible first sign of age is the sagging cheek muscles," says Miss Cavalleri, whose fame as a beauty culturist is scarcely less than that of a surgeon. "These are more difficult and serious to treat than wrinkles," she continues. "The sagging muscles indicate they have grown too weak to remain in place; they must be assisted, strengthened."

DR. G. ZANDER DIES IN SWEDEN

Stockholm, June 19.—Gustav Zander, aged eighty-five, famous Swedish physician and founder of the Zander system of medico-mechanic gymnastics, has just died here.

THREE IN NEW YORK ARRESTED ON CHARGES OF PROFITEERING

New York, June 19.—Frederick Gimbel, first vice-president of Gimbel Brothers' department store, with branches in many cities, was arrested to-day by Department of Justice agents on a charge of profiteering in clothing. Gimbel is head of the New York store.

J. J. Dowdell, general merchandise manager of the store, and C. D. Slawter, clothing buyer, also were arrested on similar charges.

All three are charged with making profits on clothing of from ninety to 275 per cent.

J. J. Price, special agent investigating the Gimbel firm, said that the specific charges upon which warrants were served to-day represented a selection out of 185 which had been laid before the grand jury.

Charges of profiteering in the sale of foodstuffs are pending against the firm of Gimbel Brothers in Philadelphia, Mr. Price said.

WILSON'S FLY PADS

Kill them all, and the germs too. 10c a packet at Druggists, Grocers and General Stores.

AIR FORCE BODY IS INCORPORATED

Canadian Air Force Association Will Advance Interests of Force

Ottawa, June 19.—(Canadian Press)—Notice is given in The Canada Gazette of the incorporation of the Canadian Air Force Association, the object of which, it is said, is to promote the efficiency and advance the interests of the Canadian Air Force and to assume such a share of the administration of this force as may be authorized by the Governor-in-Council.

The following are incorporated as the Association officers:

Hon. Hugh Guthrie, Minister of Militia; Colonel O. M. Biggar, vice-chairman of the Air Board; Major-General Leckie, Lieut.-Colonel James Stanley Scott and Edward Deville.

The operations of the Association are to be carried on without share capital throughout the Dominion, the chief office to be at Ottawa.

Silverware may be easily and thoroughly cleaned by putting all the pieces in an aluminum kettle, covering entirely with cold water and bringing it to a boil. Then remove pieces, rubbing each one with a soft cloth.

Tea and coffee stains may be taken from any white goods by soaking the spots with glycerine and letting stand for several hours untouched. Afterward wash with soap and water.

To clean dust from bed springs, set out in the yard on a bright day and turn the hose on them. The sun will dry them in a short time.

Increase in Preference Is Provided For in Ottawa Agreement

Ottawa, June 19.—(Canadian Press)—The scope of the agreement reached by the Canada-West Indies Conference is indicated in an official statement issued this morning. The text of the agreement will not be made public, but in general, says the statement, "it may be stated that the agreement:

"1. Carries the assent of all the delegates present at the conference.

"2. Is framed upon an increase of the mutual preference now granted, and an extension of the list of products upon which preference has hitherto been given.

"3. Included in the mutual preference are all the British colonies in the West Indies.

"4. Contemplates mutual co-operation of the signatories towards the provision and maintenance of improved steamship transport and includes a memorandum urgently pressing for improved cable communications."

GERMAN SHIPS AGAIN USE PANAMA CANAL

Washington, June 19.—Re-appearance of German tonnage was noted in the monthly report of Acting-Governor Morrow of the Panama Canal to-day. During the report showed the four German ships aggregating 25,990 tons, traversed the canal, paying \$20,872 in tolls.

AIR FORCE BODY IS INCORPORATED

Canadian Air Force Association Will Advance Interests of Force

Ottawa, June 19.—(Canadian Press)—Notice is given in The Canada Gazette of the incorporation of the Canadian Air Force Association, the object of which, it is said, is to promote the efficiency and advance the interests of the Canadian Air Force and to assume such a share of the administration of this force as may be authorized by the Governor-in-Council.

The following are incorporated as the Association officers:

Hon. Hugh Guthrie, Minister of Militia; Colonel O. M. Biggar, vice-chairman of the Air Board; Major-General Leckie, Lieut.-Colonel James Stanley Scott and Edward Deville.

The operations of the Association are to be carried on without share capital throughout the Dominion, the chief office to be at Ottawa.

Silverware may be easily and thoroughly cleaned by putting all the pieces in an aluminum kettle, covering entirely with cold water and bringing it to a boil. Then remove pieces, rubbing each one with a soft cloth.

Tea and coffee stains may be taken from any white goods by soaking the spots with glycerine and letting stand for several hours untouched. Afterward wash with soap and water.

To clean dust from bed springs, set out in the yard on a bright day and turn the hose on them. The sun will dry them in a short time.

THREE IN NEW YORK ARRESTED ON CHARGES OF PROFITEERING

New York, June 19.—Frederick Gimbel, first vice-president of Gimbel Brothers' department store, with branches in many cities, was arrested to-day by Department of Justice agents on a charge of profiteering in clothing. Gimbel is head of the New York store.

J. J. Dowdell, general merchandise manager of the store, and C. D. Slawter, clothing buyer, also were arrested on similar charges.

All three are charged with making profits on clothing of from ninety to 275 per cent.

J. J. Price, special agent investigating the Gimbel firm, said that the specific charges upon which warrants were served to-day represented a selection out of 185 which had been laid before the grand jury.

Charges of profiteering in the sale of foodstuffs are pending against the firm of Gimbel Brothers in Philadelphia, Mr. Price said.

ACROSS THE STRAIT FROM ASIATIC HORDE

Australia Professor on Menace From Oriental Millions.

In connection with the clamor for less work and more pay throughout the States, the following words of warning are culled from an article by Professor T. Brailford Robertson, of the Adelaide University, in the March issue of Science and Industry: "We who are citizens of our Commonwealth of Australia stand in a peculiarly hazardous position in the restless, over-populated world of our day. A handful of population scattered over the sea fringe of the only empty habitable continent that remains. Clinging tenaciously to our sole right to populate this vast area of land, indisposed to invite others to share with us the burden and the reward, unshakably opposed to sharing either with Orientals, we stand along with our small neighbor, New Zealand, facing hordes of Orientals, now rapidly arming themselves with the educational resources, manufactures and death-dealing implements of Western civilization. The great centres of white population are twice the distance from us that our Oriental neighbors are, and they are subdivided and absorbed in mutual jealousies and suspicions. With these far-away friends who chance for the moment to regard our policies and our aspirations in kindly but indifferent fashion—with this moral and potentially physical support, the continuance of which none can guarantee—we assert in no measured terms our absolute ownership of our great estate and demand our starving, overcrowded neighbors from participation in it.

PLAN LONG WALK FOR THREE WOMEN

Satisfied that they need not fear rattlesnakes, wild Indians and the like, Mrs. Margaret Wallace, of Seattle, and her two daughters, Dorothy and Hazel, will hike from Seattle to Los Angeles for their Summer outing, about July 1.

By automobile highway, as they have planned the trip, the distance will be 3,495 miles and they are allowing three months for the walk. Each woman will take but \$5 in cash along and with the stars for their nightly camp, each will cover up in blankets and sleep in the open under an army poncho.

"I don't think there will be any rattlers to trouble us," said Mrs. Wallace. "And there will be plenty of wood for camp fires and cooking along the way. Our friends say we can't make the trip, so we are going to show them. We will make our way as we go."

In a knapsack slung over the back of each, the pedestrians will carry the most necessary cooking utensils, provisions and a camera with which they hope to earn money on the way. Neither mother nor daughters ever before had attempted a long hiking trip, but when they met at Portland last week two girls who had walked there from Los Angeles and were en route to Seattle, they felt convinced the trip would be an ideal outing. The Los Angeles girls had made the journey to Portland in five weeks, so that Mrs. Wallace and her daughters believe they can duplicate the time.

"If things are satisfactory when we reach Los Angeles," said Mrs. Wallace, "we may try a walk across country to New-Orleans."

Just for protection—though not because they really fear rattlesnakes—one of the party will carry a .38 calibre revolver.

MUSIC

DO IT ON MONDAY—DON'T DELAY SELECT THAT PIANO

No Tax To Pay

We daily expect instructions to sell our pianos, player-pianos, gramophone, etc., with the tax added on to our present prices. Monday may be your last chance to take advantage of the big saving offered by Heintzman & Co. and other makes of pianos. Act now! We will arrange terms.

CLEVER SONG WRITER A BRITISH COLUMBIAN

Gifted Girl Composer Author of Songs Grave and Gay

Among talented British Columbians, Miss Doris Saville, of Vancouver, is undoubtedly a gifted musical composer and poetess of promise. From a very tender age her nursery fairy tales were related generally in rhyme rather than prose, and her first accepted and published literary effort was a composition awarded first prize by the "Erdington Recorder" in England, at the age of seven.

But about five years ago she commenced to write her Song Compositions. Among the first was a humorous song, "But, There's Never Know, You Know," which was accepted by "Catin's" Pierrots at Scarborough, England, with the assurance that it was their best number.

Since that time she has composed words and music of some fifty or more songs, including some sacred inspirations, some patriotic, some Scotch songs and others humorous. Always of a quietly observant disposition, she combines the many opportunities of acquiring general knowledge which were afforded by travel over England and Canada, and this, combined with her love of reading—which much desired accomplishment she easily attained when but five years old—has resulted in her becoming a most versatile composer of "Words and Music" of many songs. Upon arriving at a new town or city, always her first idea has been to find the libraries and to read all the most interesting books available; the principle subjects being Travels all over the world (perhaps chiefly Occident, Occident and Psychic Research).

BEAUTIFUL CANNIBALS.

According to travellers who have lived among them, some of the most beautiful and interesting tribes to be found among the natives of the Cannibal Islands, South Pacific.

The men are tall and massive, while the women are beautifully formed and very graceful, their skin being tawny like that of a white man who has been deeply tanned by the sun. Here is the description of one of them given by Mr. Frederick O'Brien a distinguished traveller, who spent twelve months among the cannibals. "The men are tall and massive, with a grace of carriage, a beauty and perfection of feature, a rich coloring in the hair and eyes, with thin lips of warm olive hue, with thin lips of red in the cheeks, and the lips cherry red. Her eyes were dark brown, large and deep, and her little bare feet, arched, rosy-nailed, were like flowers in the sand. She wore a necklace of white cotton tunic, and there were flamboyant flowers in the shining dark hair that tumbled to her waist."

It is commonplace among these Islanders at the bathing beach. To their minds modesty has nothing whatever to do with clothes. And it is at the beach that most of the courting is done. A youth finds a girl to his liking, and takes her home to his mother. If mother gives her consent, the wedding follows. If not, the youth goes to the beach for another girl. They are plentiful, and, as far as charms are concerned, there is little to choose between them.—Tit-Bits.

SILENT DRAMA AND MUSIC.

The musical accompaniment to the art of the silent drama has of late been very marked. In fact it has grown more rapidly and made more advances than the motion picture industry itself, during this past year at least.

This development, of course, has been gradual, though consistent. Most of us can remember when the only musical accompaniment to the screen story at the "movies" was a piano, which stood in one corner. It "shimmied" its way through the emotional conflict and ended in the sweet triumphant strains of Lohengrin's "Wedding March." In this piano, however, the idea of interpretive music for the movies had its beginning. Its notes were crude, perhaps, but in the larger sense they struck true—as true, at least, as the old village choir that tried to set their religious emotions to song.

The movie world has moved a good stellar distance since then, and the music, fortunately, has moved with it to those higher spheres. The culminating note of its development is perhaps to be found in the orchestral programme as given at the Rivoli, New York, and some other of the better cities of motion picture theatres in the larger cities of Canada and the United States.

The value of music in stimulating business progress and developing an esprit de corps among workers was the subject of a recent speech by D. M. Yates, general manager of Marshall, Field and Company's retail store in Chicago before the firm's choral society. This organization was established in 1906. Thomas A. Pape, one of the employees, is director. Under his supervision more than 200 voices have been trained to musical efficiency of a high order and attractive programmes are frequently given, to which the public as well as the employees are invited.

WAY PAVED FOR RETURN OF WAGNER SEASON

The new season should find both the Metropolitan and Chicago companies fully emancipated from racial and nationalistic prejudices in their choice of operas, say an editorial in "Music and Musicians." "Parisian" in English at the Metropolitan has paved the way for the return of all the Wagner music dramas. Just what the Chicago Company contemplates off the beaten track has not been made known. The Metropolitan seems content to make haste slowly and next season will add only the two Wagnerian works previously mentioned, retaining, of course, the English "Parsifal." With the American composer no longer a stranger to the operatic boards, with Russian opera slowly coming into its own, with German opera returning to its pre-exile place, and with French opera holding a place second only to Italian there should be a variety of works presented next season than ever before in American operatic history, even without those scores off the beaten track which the music critics doubtless would like to substitute for the tried and proven (or, as some would have it, the tried and found guilty) standard works of the repertoire.

MUSIC MAKES WORKERS BETTER

Art in Factories Has Aided to Stimulate Pro- duction

Music in factories is just on the verge of big development. It does not require very deep powers of perception to see why music is a great aid to industry. There are many reasons why music makes workers work. In the first place, rhythm is an essential factor in the efficiency of the worker who performs a succession of mechanical operations of largely the same character. Efficiency engineers understand that point very thoroughly. For instance, if a girl is filling packages by hand, putting material of the same kind in packages of the same kind over and over again, she is making practically the same movements with her hands all day long. The efficient worker on this job is the one who works steadily with movements in rhythm. It takes no argument to convince anyone of the value of music in inspiring rhythm.

Music actually takes much of the burden off the mind. It is music which supplies the rhythm and materially reduces the effort of the brain in directing the movements of the muscles.

A Contrast.

Here is a simple example to illustrate the point. Picture to yourself a sidewalk, a mile in length and as smooth as a dance floor. Get some little girl, not too robust, to get out and dance, without the inspiration of music, the entire length of this sidewalk. If she did not collapse before she probably would when she got to the end of her mile. But put this same girl on a dance floor and set her to dance to the tune of a good orchestra and she will dance not one mile, but five miles with little or no fatigue.

If fatigue were entirely physical, it would be a matter of muscle, the girl would get just as tired dancing to music as without music, but it is a well-known fact that music fatigue is only incidental to mental fatigue. If you don't believe it, take a newspaper on the wall some day and with a pin start to put a hole in each letter. There is nothing in the operation that is taxing upon muscles, but, if you have worked at it for a couple of hours you will be a fit subject for a sanitarium.

There are thousands and thousands of tasks done by workers just as monotonous as that—tasks that require no great mental ability, but tasks that require a simple direction of movement by the brain. And the brain is the thing that shows fatigue first.

Another phase of the proposition is the manner in which music puts a smile in the heart. People in high spirits enter into any task with greater enthusiasm. And music makes high spirits.

THE PLAYER PIANO.

The significant thing about the player piano is that it does not limit its work to cultivating the desire to hear music but is equally effective in stimulating the desire to produce it. The child soon wants to master the technique and create the music it himself. It is the instinct to do—the impulse which once awakened, is the teacher's most potent ally. It means that the child will begin his music lessons voluntarily, not simply under parental compulsion; that he will persevere in them because he has a vision and an aim, that vital motive which no mere superior instruction or plodding industry can replace.

To surround the child with an atmosphere favorable to awakening the instincts we wish to cultivate, then, to make those instincts in hand and develop them in the way they should go, is the whole theory of the modern organic or "natural" education. Growth from within is the watchword, and the superior instruction without the taboo. Even the most conservative educators admit the advantage of the new conception. The only objection to it, that it is not practicable where large groups of children are concerned, falls away entirely in the case of private music teaching. Surely if the player piano can foster this precious "growth from within" it has established its right to more than mere toleration from the music-teaching profession.

NOTED TENOR STIRS AUDIENCE TO CHEERS

McCormack's Admirers Moved to Applause and Tears by Great Singer

John McCormack, the noted tenor, sang at the Arena in Seattle, on Monday night when he was accorded a great reception that the different "He sang," said the musical critics, "as only McCormack can sing, stirring a tremendous crowd of cheering McCormack audience that would not have had one tone of his voice changed in any degree. It was all quite perfect; the singer was in fine voice and sprits and the audience matchless in enthusiasm. McCormack is unique among the great singers of the world, for the appeal of his art is limitless. When he sings, the musically elect and the lover of the simple "heavenly" songs, are drawn into a mutual admiration society, and his programme is arranged to meet all requirements; everybody is pleased. Blessed with a lyric beauty, resonance and power the tenor of Athlone lost not a whit of the sentiment in his Irish heart in the process of study, and he sang arias and songs that composed the first part of his programme were sung with lovely phrasing and impeccable style and the three composers is Richard Deering's. This contains a number of "tradesman" songs in addition to the London "Cryes." The following, sung by a bass voice is set to a beautiful tune: "Have you any wood to cleave? A cooper I am and have been long And hopped I am to, as pretty a wench As ever God hath made. Have ye work for a cooper? The variety of songs and cries is bewildering, and in turn the soprano, tenor, bass and alto sing out: White radish, white young radish, white, white, white young lettuce, white cabbage, white young cabbage, white, white, white young turnips, white, white, white young parsnips, white, white. This is followed a little later by the tenor crying out in a resounding bass declaims, fortissimo: Oyes! Oyes! Oyes! If any man or woman, city or country, that can tell any tidings of a grey mare with a black tail, having but three legs and both her eyes out, with a great hole in her ear, let him bring word to the Crier, and he shall be well pleased for his labor.

Arthur Carrington is a successful English composer and just turned fifty. His first musical comedy was produced in London a few weeks ago, but strange to say Carrington cannot play from notes, and cannot write music. For years he has been getting together the melodies he has evolved, that can be written down in the following peculiar manner. A melody takes shape in his mind, he then runs it off on the piano, memorizes it and finally plays it for his friends. One day came to his the desire to write a musical comedy, and having the themes in his mind, he played a theme and then wrote the score. The score of his first comedy was thus created in this manner.

AN ENGLISH EXAMPLE.

Every person interested in the progress of music in this country, should had the attempt made in Glastonbury to found an English centre for musical drama, as an indication of what we can eventually develop in Canada. Glastonbury, with its backgrounds of Arthurian legends, is rich in dramatic and romantic suggestion, as Rutland Boughton, composer of "The Birth of Arthur," and "The Round Table" has amply proven, and have not in London Washington in our own country, sufficient legendary material to inspire our composers and warrant a yearly music festival?

Oberammergau started with its motive, a powerful one: Bayreuth started with its man of one of the most compelling personalities of the last century. One would not assest that he impelled to make a local art in Glastonbury is as strong as that which developed the Passion Play, nor that the composer of "The Birth of Arthur" and "The Round Table" is a Wagner, but the impulse is the same in kind and the man has the qualities of genius together with that singular mind and tenacity of purpose which in Wagner's case turned failure to success.

ADVOCATES MUSIC IN SCHOOLS

P. P. Claxton, United States Commissioner of Education, in a recent interview with a newspaper man said he was glad to see the people of his country awakening to a new interest in music in school and community. "The great interest," said he, "will no doubt react on music in the schools. Both have educational value of a high order." "It is to be hoped that music may very soon find its way into all our schools, both public and private, as an essential part of their work, and that courses in music may be offered in a much larger number of our colleges and universities. These should be supplemented by a great national conservatory of music with sufficient income to do the work for which so many of our young men and women go to other countries."

According to Representative Royal C. Johnson, of South Dakota, the nation's greatest victory memorial, is to be erected in Washington in the form of a fine auditorium built for the holding of music festivals, conventions, conferences, etc. Congress has donated the site for the building on the spacious Mall, about half way between the White House and the Capitol, and has authorized the George Washington Memorial Association to collect the necessary funds for its construction and maintenance—\$10,000,000.

MUSICAL NOTES

(By George J. Dyke).

The sixteenth century was the great madrigal period in English music, and its study is vital, lively and human. Sir Frederick Bridge once more deserves our thanks for his publication of "The Cryes of London" through the musical publishers, Novelle & Sons, under this title are three compositions found in M. S. S. in the British Museum, each described as a "Humorous Fancy," one by Thomas Weelkes (1574-1623), one by Orlando Gibbons (1583-1625), and one by Richard Deering (1640); in the original, M. S. Deering's the vocal part is given in one voice only; and to give more point to the various cries Sir Frederick suggests that the different instruments only. This is the first time I have met with it where vocal parts are used. The "Chimney Sweep," a charming song, is given to the tenor.

Perhaps the most attractive of the three composers is Richard Deering's. This contains a number of "tradesman" songs in addition to the London "Cryes." The following, sung by a bass voice is set to a beautiful tune: "Have you any wood to cleave? A cooper I am and have been long And hopped I am to, as pretty a wench As ever God hath made. Have ye work for a cooper? The variety of songs and cries is bewildering, and in turn the soprano, tenor, bass and alto sing out: White radish, white young radish, white, white, white young lettuce, white cabbage, white young cabbage, white, white, white young turnips, white, white, white young parsnips, white, white. This is followed a little later by the tenor crying out in a resounding bass declaims, fortissimo: Oyes! Oyes! Oyes! If any man or woman, city or country, that can tell any tidings of a grey mare with a black tail, having but three legs and both her eyes out, with a great hole in her ear, let him bring word to the Crier, and he shall be well pleased for his labor.

Arthur Carrington is a successful English composer and just turned fifty. His first musical comedy was produced in London a few weeks ago, but strange to say Carrington cannot play from notes, and cannot write music. For years he has been getting together the melodies he has evolved, that can be written down in the following peculiar manner. A melody takes shape in his mind, he then runs it off on the piano, memorizes it and finally plays it for his friends. One day came to his the desire to write a musical comedy, and having the themes in his mind, he played a theme and then wrote the score. The score of his first comedy was thus created in this manner.

Kubelik has already been booked to play in 34 cities of Canada and America.

Havana has eighteen or nineteen daily newspapers, in addition several weekly and monthly periodicals.

All Englishmen—especially Londoners—for Vaughan Williams is a Londoner—must be proud of their fellow-countryman, whose splendid "London Symphony," was recently given an excellent reading by the greatest conductor of the day, Albert Coates, an Englishman too, at an orchestral concert in London. This great work is about to be published under the auspices of the Carnegie Trust. The Symphony is planned on spacious lines, and is of great length, but as we all know London is not to be dismissed with a brevity of themes.

Arabella Goddard, the famous English pianist, known to many of the present day, retired from the stage forty-two years ago. She is still in the land of the living. Miss Goddard made her debut at Her Majesty's Theatre in 1850, and was the first pianist to play Beethoven's last sonatas publicly in England. Her last appearance was at the Sir Arthur Sullivan's concerts at the 1873 Paris Exposition.

Fortune Gallo is busy preparing his coming opera, but there is no definite modern school of music found in these countries. Spanish literature is rich in romance and poetry.

The history of Spain tells us of the intercourse of the Spaniards with the Moors, and other Oriental nations. All branches of art in Spain show the unmistakable influence of the Moors, and through its gateway much of the Oriental art, poetry and music, the inspirations of the "Troadours," entered into Europe. Al-

WILLIS PIANOS WILLIS PLAYERS

though many schools of music were established in the ancient days, it is curious to note that Spanish music has no distinctly modern development. No European country is so completely medieval in character as the Spain of to-day. Her literature, and art, and her music, too are only beginning to realize her revived importance politically. The guitar is the most popular instrument. The Folk Songs of Spain and Portugal are now found in Mexico, Cuba, Southern California and South America. One of the most characteristic forms of Spanish folk song is the Alborada, or Morning Serenade, sung by the Troubadours to their fair ladies. This form is also found in parts of Italy, and was popular in France as Aubade.

The heading in a musical paper, "Seattle Teachers Would Raise Music Standards in Schools," has raised my curiosity. Upon looking farther into the matter I discovered that the playing of "Jazz" music was allowed during school hours and that each High School has its own "Jazz" band. Moreover I notice that the young people were taking too keenly to the charms of syncopation, and that the "home" pianos reverberated with the "Jazz" learned at school. Surely do we agree with the Seattle Teachers it is time to raise the music standards in the schools of Seattle. Imagine a "Jazz" band at the Victoria or Oak Bay High Schools, or a pupil of the George Jay School, thumping up a "Jazz" tune during school hours.

Portland, Ore. has had its May Festival, too. We note several selections were given from Haydn's "Creation."

There has passed out that wonderful Viola player—one of the best in England—Simon Spielman, at Manchester. For over forty years he was a member of the Halle Orchestra, and was first conductor of the

Dr. H. Holbrook Curtis, eminent for many years as a throat specialist, died at his New York home last May, at the age of 64 years. Dr. Curtis' patients included many of the great singers in the world, and his book on "Voice Building and Tone Planning," dedicated to his friend, the tenor, Jean de Reszke, is well known. He was a Fellow of the R. S. M. Eng.

Bloomington Ill., has had two May Festivals this year. Surely is this city blooming in music.

The musicians of Paris and the pianists particularly, are up in arms against the tax on pianos in France. They are fighting the tax through a composer's syndicate.

"Sally In Our Alley!" What an inspired song, and as popular to-day as it was 200 years ago, when it had great vocal hit in that famous pastiche "The Beggar Opera." This song was written in the 17th century by the romantic Henry Carey, reputed to have been the natural son of the Marquis of Halifax, George Saville. For many years it was believed that Carey was the author of "God Save the King," but this has been disputed many times.

SALVATION ARMY.

Staff Captain and Mrs. Hill who have spent 11 years in Korea will return to Korea on the Empress of Japan on Thursday to take up their work again. The staff captain and his wife arrived from Nansalmo to-day and will conduct the meetings at the Salvation Army Citadel, Broad St. on Saturday and Sunday. This is the first visit of these officers to Victoria. Salvationists as well as Army friends will rally around and extend a welcome to the visiting officers. The meetings will be held as follows:
Saturday night—A welcome.
Sunday, 11 a. m.—Holiness Meeting.
Sunday, 3.15 p. m.—Praise Service.
Sunday, 7.15 p. m.—Salvation Meeting.
On Monday night Staff Captain Hill will give a lecture on the Army work and its operations in Korea.

SAILORS' SUNDAY.

"Sunday is being observed throughout the churches in Victoria as Sailors' Sunday, when appeals will be made and collections (in special envelopes) taken on behalf of the Victoria Seamen's Institute, which are doing splendid work in caring for the sailors when in port, as well as looking after their religious interests and general welfare."

Coming to Vancouver.—Rev. Dr. Shearer, secretary of the Dominion Social Service Council is expected to visit Vancouver about June 21, when he will meet those interested in social service work in that city. Dr. Shearer left immediately after the meeting of the General Assembly of the Presbyterian Church for the East, where he will assist the workers of Nova Scotia to establish a branch of the Provincial Social Service Council. He will come direct from the East to Vancouver.

To speak at Sidney.—A public meeting will be held next Sunday evening, June 27, in the Herquistein Hall, Sidney, when Dr. Goldenstein, Jewish Rabbi, of Tacoma, will speak on the subject of "Starving Jews in Europe," under the auspices of the Jewish Relief Committee (non sectarian) and humanity at large.

To Meet To-Morrow.—The Crusaders Class of the Centennial Church will hold the meeting at 1.30 to-morrow (standard time).

BAPTIST CONVENTION TO BEGIN TUESDAY

Provincial Heads of Denomination Will Be in Session For Four Days

Dr. William Russell, of this city, will occupy the chair at the meeting of the Baptist Churches of British Columbia, which will commence Tuesday, Douglas Street Baptist Church. After an address of welcome by the pastor of the church, Rev. M. T. Habershon, and reply by Rev. J. S. Pirie, of Korriada, the president of the convention, Dr. W. Russell will give the annual address to the assembled delegates. Rev. A. S. Lewis will speak on "The Foundations of the Christian Church." On Wednesday there will be three sessions. The morning will be taken up with the report of the board of the convention; in the afternoon Rev. J. Willard Litch, of Ruth Morton Church, Vancouver, will preach the annual sermon to the convention, and the new pastors will be introduced. There will then be a drive to the Dominion Observatory, Saanich Hill.

At the evening meeting, Rev. F. W. Patterson, D.D., field secretary for the four Western provinces, will give an address on "Home Missions," and Rev. L. M. Orchard will speak on "Foreign Missions."

Addresses and Conferences. Thursday will be given up to committee reports until 11.30 a. m. when Rev. G. A. Reynolds, of Chilliwack, will give an address on "The Power of the Holy Spirit in the Church." Thursday afternoon will be young people's meeting. W. H. Morrow, of Vancouver, will lead the devotional exercises, and addresses will be given by Rev. N. A. Harkness on "The Spiritual Life of the Teacher," Rev. W. A. Ryder, on "Qualifications for Christian Leadership," and by Rev. E. O. Erb, of Philadelphia, on "The Church's Task in Education."

These addresses will be followed by group conferences. The service of Thursday evening will also deal exclusively with young people's work. At 8 p. m. the Baptist Young People's Union will hold the supper and business session and at 7.30 Rev. G. J. Whiten will conduct a devotional service. At 8 o'clock there will be two addresses, the first by Rev. E. O.

Erb, who will speak on "A Year's Progress with the Young People," and the second by Rev. H. P. Whidden, D.D., on "Responsibility of Young People to the Church."

Closing Sessions. The closing sessions of the convention will be held on Friday. Reports of the Baptist Union meetings will be given by Rev. A. F. Baker, and of the Forward Movement by Rev. S. Sheldon. The election of officers and committees will take place Friday afternoon, when Rev. H. P. Whidden, D.D., will speak on the "Prohibition Referendum." The evening session will be conducted by the new officers and addresses will be given by Rev. L. M. Orchard and Rev. Dr. Patterson.

In connection with the convention, the sixth annual meeting of the Baptist Women's Missionary Society of B. C. will be held on Monday and Tuesday, June 21 and 22. The board meeting will be held at 4 p. m. Monday and at 8 p. m. Mrs. Spofford, of Victoria, will give the president's address, and Mrs. G. Maguire will also speak. Tuesday morning the annual reports of the officers will be given, recording secretary, Mrs. E. Lewis, corresponding secretary, Mrs. W. Russell, and treasurer, Mrs. E. P. Miller. Mrs. S. Sheldon will give a report of the Italian mission work. At the afternoon session reports of the mission bands, baby bands, bureau of literature, home department and woman's board of the Baptist Union will be given. The appointment of the new board will conclude the sessions.

ESQUIMALT SCHOOL EXHIBITS PROGRESS

Merry Gathering Reviews Work of Students in Art and Crafts

The annual exhibition of the Arts and Craft section of the Lamson Street School, Esquimalt Municipality, which has been open for the past two days, yesterday made the occasion of a united gathering of parents, teachers, and students, in a merry entertainment lasting for several hours.

At the request of Leonard Tall, principal, Reeve Lockley addressed the gathering in a few well-chosen remarks. He said, in part: "We have, here in Esquimalt, a school that is second to none in the Province. To the students present I would say—that you boys and girls are the men and women of to-morrow. Your future is moulded by the foundation you lay to-day, and one of the best places to lay a foundation is here in your school days. You must not think of them as drudgery days, and when I look at the work you have done under Mr. Waddington's direction I cannot think that you so regard them; you could not work so well if you were not interested in your work."

"If you are successful in school, you are likely to be successful in after life," concluded the Reeve, after paying a glowing tribute to the ability of the teachers and the capable management of the Esquimalt Board of School Trustees.

Mr. Waddington, Superintendent of Drawing and Economics, under whose guidance the art and crafts section of the establishment has been brought to such a successful issue, addressed the gathering, taking as his subject the alleged "frills" of education, which he contended were some of the most vital points in the practical education of the growing generation of to-day. He took objection to considering these splendid mediums of education as "frills." "The trustees of our community have a different view of the matter, and we are proud to show that by training the mind and hand together we are turning out better men and women for to-morrow. We are proud of the showing here to-night, and of the plaudits of the parents here assembled."

The exhibition included a very complete array of art work by the boys and girls, arranged in progressive stages, which bore ample evidence of taste and originality well applied, and a full list of exhibits in the department of Home Economics, by the girls under the guidance of Miss Alice McKinnon.

The entertainment concluded with an attractive musical programme, and a novel exhibition of club-swinging by the girls of the school. Cheers for the School Board and Principal Tall closed the meeting.

NEGOTIATING TO RETURN INDIANS TO THE FOLD

Rev. P. T. Rowe, Bishop of Alaska, who it is reported, is negotiating to bring the Metlakatla Indians into harmony with the Episcopal Church. Thirty-five years ago the natives of Metlakatla under the leadership of Rev. William Duncan, their spiritual and material mentor, withdrew from the pale of the Episcopal Church because of differences over methods of teaching. This withdrawal left them without status in the territory of Alaska save that of squatters, and the matter was placed before President Cleveland, who set aside the island of Annette for their use.

VALEDICTORY OF REV. J. W. FLINTON

Presentation Is Made to Departing Vicar of St. Mark's Church

A very pleasing event took place in St. Mark's Hall, Boleskin Road, on Tuesday evening, last, when the Rev. J. W. and Mrs. Flinton were made the recipients of a purse of money, and an illuminated address, from the officers of the church, and the parishioners.

The presentation was made by St. J. Wilson, senior member of St. Mark's, and was very suitably acknowledged by Mr. Flinton. Mrs. Wells also presented Mrs. Flinton with a handsome crocodile leather hand-bag, the gift of the Mother's Union, of which Mrs. Flinton has been a very able and faithful president.

REV. J. W. FLINTON

The evening was spent in final greetings between the Vicar, his wife, and the parishioners, the latter showing their great regret at the pending departure of the family from the parish in no uncertain manner.

Toward the close of the evening, Mrs. Brake, president of the Women's Auxiliary, gave a very roasting address to the women of the parish, urging them to greater effort and participation in the work of the church, and exhorting each to find and take her place in the forward march of the Army of Christ. The Vicar and his family leave next week for Comox and Courtenay, and the Rev. Mr. Hitchcocks of Parkville, will take charge of St. Marks.

Closing Exercises. The closing exercises of St. Mary's (Oak Bay) Sunday School, preliminary to the suspension of classes during the months of July and August, will take place at 2.30 p. m. to-morrow in the Memorial Hall, Yale Street. A hearty invitation is extended to all parents and friends to join the children on this occasion, and by their presence and interest to hearten the teachers and encourage the scholars. An address of a valedictory character will be given by a layman, H. H. Smith, formerly of the diocese of London and Southwark, and more recently lecturer in reading in the diocese of Columbia. The Sunday classes will be resumed on September 5.

Organize For Prohibition.—Gorge residents are to be organized to fight for prohibition at the Gorge Presbyterian meeting of Saanich Ward VII. prohibitionist ratepayers. Organization will start at 11 o'clock to-morrow, when Reginald Chave, anti-liquor campaign manager, will visit the district to get things started. He will deliver an address on the need for prohibition at the Gorge Presbyterian Church in the morning to the congregation under the Rev. Daniel Walker.

TO CONFERENCE.

New York, June 19.—Prominent dignitaries of the Protestant Episcopal Church in this country are among the passengers on the steamship Celtic, sailing to-day for England, where they will attend the Lambeth Conference, which will open in London July 3.

A Suggestion for Saving

CASH in the pocket encourages careless spending. You will find it a much easier task to save if you keep your "Spending" money in a Savings Account with The Bank of Toronto. There it is safe and can be drawn upon when really needed.

A reluctance to draw from that account will grow upon you, and protect you from many needless expenditures.

Once the saving habit is acquired, the account, with its earnings of interest, will steadily grow to a substantial amount.

Many young men and women are working out this scheme with us to advantage.

It is a plan worthy of a trial.

"The Little Name for Little Ills"

DISCUSS DAYLIGHT SAVING, BUT FORMER DECISION UNALTERED

Alderman Johns, Home From Vancouver, Says System Satisfactory There

Daylight saving was discussed briefly and more or less informally by the City Council in Streets Committee yesterday afternoon, but as nothing definite in the matter was done, the Council's former decision to put city clocks ahead Saturday night stands.

Alderman Sargent urged the Council to invite the Provincial government, the adjacent municipalities and the D. C. Electric Railway Company to adopt the new time. The aldermen felt that the favorable action of these two bodies would lend an official atmosphere to the system and insure its success.

Alderman Patrick, father of the daylight saving plan, reiterated his previous arguments in favor of it, and declared that his observations had convinced him more than ever that the public wanted to put its clocks ahead. While numerous people had urged him to continue his efforts in behalf of the system, only two had expressed opposition to it.

After a visit to Vancouver, Alderman Johns, who voted against daylight saving at the last meeting, declared that so satisfactory was the system working out on the mainland that he had changed his mind. He was prepared now he said to vote in favor of daylight saving. Vancouver, he stated, was placed in the same official position as Victoria in that it could not force the stores and business houses to adopt the new time, but everything had seemed to the alderman to be working smoothly over there.

"I'm glad to note that the promoters of this plan say that it was not pre-arranged—that it was spontaneous," remarked Alderman Todd. "I guess it was spontaneous—probably spontaneous combustion!" The alderman was strongly opposed to the plan and asserted that it would trample upon the rights of the minority.

Prads For Vegetables.
Alderman Dewar made a powerful plea on behalf of the city's vegetables, affirming that they should be watered in the morning and not during the cool of the evening. If the clocks were put ahead, however, they would suffer by being soaked at night. He did not believe that a majority of the people favored daylight saving.

"They have kept the wires at my house hot," admitted Alderman Dinah, "in announcing that he had swerved from his neutral attitude to one of opposition. He felt that it was too late in the season to adopt the system, and though he personally favored it, he thought that the public did not want it. In Vancouver the system might work, but the Council there had a far greater influence upon the people than had the Victoria Council, he said.

Alderman Cameron had likewise changed his mind since the last meeting, when he voted in favor of daylight saving. As a matter of fact, he announced after Monday's meeting that he would not have voted for daylight saving if he had thought it would carry, and yesterday he came out frankly against the system.

"It was a snap verdict on Monday," asserted Alderman Sangster. "Don't you think it's a little unfair to say that?" queried Alderman Patrick mildly.

"No, it's absolutely right," replied Alderman Sangster. "Someone Changed His Mind. "Well, anyone who voted against my motion is peculiar," observed Alderman Sargent. "It's strange, too, that one of the aldermen who spoke against daylight saving to-day canvassed me to vote for daylight saving before. If a man who canvasses for a proposition doesn't vote for it—where's his grave responsibility?"

At this juncture Mayor Porter announced that, in accordance with the Council's decision Monday, he would see that the City Hall clock was put ahead one hour Saturday night.

"Has he any power to advance the clock?" demanded Alderman Todd. "He's taking a grave responsibility." "He could let it stand still or put it back if he wanted to," Alderman Patrick assured the meeting. Alderman Sangster felt that the Council should not put daylight saving into effect while there was a notice of motion on the notice board, posted by himself, urging that the

Council's previous decision be rescinded.

"Do you think that the Mayor should act in opposition to the wish of the Council because one alderman posts a notice?" asked Alderman Patrick.

Finally the Council decided not to ask the organizations mentioned in the Sargent motion to adopt daylight saving. The vote on the question was five to five, Mayor Porter and Aldermen Patrick, Sargent, Johns and Fullerton supporting the motion and Aldermen Sangster, Todd, Dewar, Cameron and Dinahale opposing it.

WOULD NOT BE WITHOUT BABY'S OWN TABLETS

Once a mother has used Baby's Own Tablets for her little ones she would not be without them. They are the ideal home remedy for the baby: being guaranteed to be absolutely free from opiates or other harmful drugs. They are a gentle but thorough laxative and have been proved of the greatest aid in cases of constipation, indigestion, colic, colds and simple fevers. Concerning them Mrs. Ernest Gagne, Beaujeour, Que., writes: "I have used Baby's Own Tablets for constipation and colic and have found them so successful that I would not be without them. I would strongly recommend every mother to keep a box in the house." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

COMRADES CRITICIZE LEGAL VIEW-POINT

Remarks on Misuse of Badge Elicit Protest to Minister of Justice

The Comrades of the Great War last night, in regular meeting, took exception to the stand of a magistrate at Calgary on the misuse of the "A" returned soldier's badge, as reported in the local press. After discussion the following was sent to the Minister of Justice at Ottawa: "Decision of magistrate at Calgary re misuse of 'A' service badge, causing feeling among returned soldiers. If legally correct, may action be taken to protect men justly entitled to wear this badge."

A communication was also addressed to the Governor-General, following up a message recently dispatched by the organization to Sir Robert Borden. It was given in notice of motion that during the summer months the assemblies of the organization be reduced to one per month, commencing with July.

DR. MARTIN TO ADDRESS LOCAL CANADIAN CLUB

Dr. Charles F. Martin, one of the most distinguished medical men of the continent, will address the Canadian Club at a luncheon to be held at the Empress Hotel Monday, June 28.

Dr. Martin will be in the West to attend the sessions of the Canadian Medical Association in Vancouver, commencing June 22, and will visit Victoria for several days. He is professor of medicine at McGill University, Montreal. He will speak on "Medical Problems of National Concern," dealing particularly with the necessity of manpower conservation—the need of maintaining a high physical standard among the immigrants pouring into the country.

GET DAILY MAIL NOW

Post Office Opens Service Through to Courtenay on E. & N. Railway. Daily, except Sunday, mail service through to Courtenay on the line of the E. & N. Railway has been opened by the Post Office Department.

Railway post office staffs are not carried on both Port Alberni and Courtenay lines from Parkville. The mail bags for all places above Parkville are made up before that junction is reached. The mail is dropped off at the points along the line through a baggage car service. This is because population is not dense enough to warrant a full post office staff service.

WILL INSPECT PERMANENT FORCE

All Units at Work Point Barracks to Be Reviewed by General Ross

Brigadier-General Ross, C.M.G., G.O.C., will inspect the Permanent Force units and departments at Work Point Barracks at 10 o'clock on Wednesday next.

The officer commanding Esquimalt garrison is to arrange the details of the parade which will form up at 9.45 a.m. on the parade grounds at Work Point. Dress drill order; officers with swords.

The complement at Work Point includes artillery, engineers, machine gunners, ordnance corps and miscellaneous units and departments, and always makes an attractive showing on parade.

VICTORIA BOYS SCOUTS' ASSOCIATION

James Bay Troop.

Headquarters, corner of Simcoe and Douglas Streets. Regular meeting night, Thursday, 7.30 p.m. Scoutmaster, C. J. Cherry. Assistant scoutmasters, S. Davie and C. Thompson; Instructor, N. Fatt.

Plans are now being made for the Summer Camp, which will be held shortly. It is felt that the Troop is now beginning to find its feet and that it will shortly be able to get down to real Scout work. Recruits are still admitted, if they are keen and want to belong to a troop that intends to be a real Scout Troop.

All Old Scouts who wish to return to the Movement, by joining the Rovers, are asked to communicate with the Scoutmaster of this troop, as arrangements are now being made for the formation of a Rover Patrol in connection with this Troop. The Rovers will have their own meeting night and room, and it is expected that they will be a distinct success. Any Old Scout or young man who has not previously been a scout but who would like to join the Rovers, are asked to communicate with Scoutmaster Cherry, c/o The Boy Scout Office, 221 Pemberton Building. Applicants must be 17 years or over.

James Bay Wolf Cub Pack.

Headquarters same as Troops Meets on Friday, at 7 p.m.

The Pack now has vacancies for three recruits of ten years of age, who are keen and who desire to belong to a Pack where the standard demanded is high. Plans are under way for a Summer Camp to be held shortly. It is hoped that the entire Pack will be able to participate. Troop leader Turner of the James Bay Scout Troop has been appointed instructor to the Pack and is very popular with the Cubs. Officers are urgently needed to take charge of the Pack.

For Sport Wear

HOLEPROOF Hosiery is capable of withstanding the strain of sport wear as well as handsome enough to add the finishing touch to the smart sport costume. No wonder it is the favorite hosiery of outdoor women. In your favorite material: Pure Silk, Silk Faced or Lusterized Lisle. Made for men too.

OUR GOLDEN JUBILEE 1870 1920

The Organization of the MUTUAL LIFE of Canada

is simplicity itself. There is a Board of Directors who are elected by the policyholders and to the interests of the latter the Board devotes its time and attention exclusively. The ultimate control of the destinies of the company lies therefore with the policyholders—all of the Directors are "Policyholders' Directors." The immense success that has crowned the efforts of the management is sufficient proof of its effectiveness. The assets have increased to \$38,000,000. The policies in force exceed \$170,000,000.

Real Estate and Insurance. Phone 38, 820 Fort Street.

Half an Acre of Land AND A PRETTY 4-ROOMED BUNGALOW.

This bungalow has a very attractive design. It has a large square porch, hot and cold water, bath and toilet, pressed brick mantel and open fireplace. The land is deep, black loam, planted in orchard and small fruits. Poultry house to accommodate 400 birds. Nice workshop, first-class garage and a woodshed. The 3 large lots cost \$800 each. Total \$1,400. Bungalow was built for \$1,600. Price now cheap. \$1,000.

SUGAR PRICE UP AGAIN

But Ottawa Cuts Profit of Retailers to Two Cents a Pound.

The wholesale price of sugar advanced two cents to twenty-one cents a pound to-day.

The advance came out at the same time as the Government anti-profiteering order from Ottawa that no retailer is allowed to make more than two cents a pound on sugar. Up until now the profit per pound has been running around four cents. This is the second advance in the wholesale price of sugar within the last ten days.

To-day's orders from Ottawa decree that 22 cents a pound is the maximum price that can be charged consumers by retailers for sugar. It is also stipulated that where retailers have stocks of sugar on hand they must sell that sugar at the price at which they bought it from the wholesaler plus two cents a pound profit.

"In many cases this averaged cost will be so low that they can still at prices several cents below 25 cents a pound," says to-day's order from Ottawa.

TO-DAY'S TRADING IN WINNIPEG MARKETS

(By Burdick Brothers, Ltd.)

Winnipeg, June 19.—The volume of business transacted to-day was very light on the local grain market. All grades of cash oats to-day and the top grades of barley were in good demand, with wheat offerings and sprays unchanged. Corn and rye markets were dull and featureless.

July oats closed 4 cent lower, October 5 cent higher and December 3 cent higher. Barley 1 1/2 cents higher for July and 1/2 cent lower for October. Flax 1/4 cent lower for July and 1/4 cent lower for October.

Oats			
July	129	129 1/2	131
Oct.	129 1/2	128 1/2	131 1/4
Dec.	129 1/4	128 1/4	131 1/4

Barley: July 172 1/2, 172, 172 1/2; Oct. 163 1/2, 163 1/2, 163 1/2; Dec. 163 1/2, 163 1/2, 163 1/2.

Flax: July 416, 416, 416; Oct. 416 1/2, 416 1/2, 416 1/2; Dec. 416 1/2, 416 1/2, 416 1/2.

Rye: N. W. C. W. 197 1/4; C. W. 167 1/4; track, 11 1/2.

Wheat: N. W. C. W. 412 1/2; C. W. 408 1/4; C. W. 502; combined, 322; track, 413 1/2; Rye—C. W. 738.

USED CARS

No. 1—A Grey Dert about one year old, in first class order throughout.

No. 2—Light "Overland," late model, Starter, El. Lights and thoroughly up to date.

No. 3—"Cadillac," a splendid car.

News of Markets and Finance

SLIGHT CHANGES IN TO-DAY'S MARKET

(By Burdick Brothers, Ltd.)

New York, June 19.—Initial prices were slightly higher, but it seems as though there was a desire on the part of some small holders of stocks to realize profits. These offerings naturally served to halt the upward movement and moved prices slightly lower. There are definite indications of renewed movement of gold to this country from abroad on a larger scale and it is thought naturally that some will have the effect of improving the domestic money status.

The declaration of the regular quarterly dividends on Northern Pacific and Great Northern Railways seems to have dispelled the fears of a general reduction in dividends by the carriers. Then, too, there is the declaration of the Interstate Commerce Commission will at an early date announce a substantial increase in freight rates in view of which it is believed confidence will be restored to a good extent in railroad stocks and bond investment. In all it would seem that fundamental factors in the situation are shaping up in a more cheerful way and this changed aspect of things, it is reasonable to assume, should stimulate a keener inquiry for stocks, particularly on the decline.

GRAINS ACTIVE ON SHORT SESSION

(By Burdick Brothers, Ltd.)

Chicago, June 19.—Corn.—The trade was of a week-end variety with tendency continuing upward and new high levels reached for all deliveries. Some short selling was indulged in early on the preliminary estimates of 240 cars, but when the increased receipts failed to make an impression on cash prices, shorts in the future were quick to cover. The majority of the trade expects some falling off in receipts next week, while at the same time some shorts of 200 cars demand are of the opinion that the buying by shippers is about over.

Out—Profit taking sales were absorbed with only a moderate price recession and the market gained strength towards the close, which was the highest close of the crop, for the September delivery shipping sales were rather large at 125,000 bushels, mostly new oats, for August and September shipments. Less was heard of crop damage, in fact, reports were generally favorable.

Province of Ontario

Ten-Year 6% Coupon Gold Bonds

Dated June 15, 1920. Due June 15, 1930.

Principal and half-yearly Interest (15th June and 15th December) payable in Gold at the office of the Treasurer of the Province of Ontario in Toronto, or the Bank of Montreal in Montreal. Bonds may be registered as to Principal.

Denomination: \$1,000

Population: 2,800,000. Area: 407,252 square miles.

Ontario is the wealthiest and most thickly populated Province in the Dominion of Canada. The population is over one-third, and the value of the annual production over 45 per cent. of that of the entire Dominion. More than one-half of Canada's manufactured products are produced by Ontario. In the year 1915 the mineral output totalled \$65,842,846 of a total approximately \$172,000,000 for the whole Dominion. The field crops for the same year were valued at approximately \$262,000,000.

The people of Ontario subscribed \$284,705,300 to the last Dominion Victory Loan, this representing 52% of the total, and over \$1,000,000,000 to Dominion Loans during the war period, which is over \$350 per capita.

"THE HOLY CITY". On Sunday night in First Church Mr. Inkster in his penultimate lecture in Revelation, chapter xxi, will discuss the place of that city in the new Heaven and new Earth. Mrs. Archie Willis will sing "The Holy City."

ARMY AND NAVY VETERANS OPEN NEW QUARTERS. Handsome Premises in Hamley Building Now in Service

Celebrating phenomenal growth from 110 members, in January, 1918, to its present mark of 1,763, the Army and Navy Veterans of Canada, Victoria branch, were yesterday installed in their new quarters at an interesting ceremony in which the Hon. E. G. Prior, Lieutenant-Governor, declared the rooms in the Hamley Building, corner of Government and Broughton Streets, formally open.

Lieut.-Governor Speaks. Introduced by Bdgr.-Gen. Clark, His Honor the Lieut.-Governor said: "Mr. President, Ladies, Comrades, I appreciate very much indeed the kindness conferred upon me to-day. Although prevented by the duties of my office from working actively among you, my heart has been with you all the time. I remember how modestly this organization started, in small rooms on Langley Street, and later when you moved to the old quarters in the Pemberton building, I thought that, like the City Council, you were discounting the future and going ahead too fast."

"Now the headquarters has been moved to this splendid place, and I don't think you could have found better appointments. Your president has told you of the membership in 1918 of but 110, which to-day has grown to 1,763 paid up members, and I think this organization has gone ahead so well because it learned the value of deeds and not words alone, and, too, it has always been headed by the most capable and energetic officials. Your secretary, Mr. H. J. Young, in particular, I have always regarded as a 'live-wire,' and I hope his health improves so that he may be spared to carry on the work of this organization for many years."

Fulfills High Purpose. "This organization is fulfilling the highest purpose in civilization, that of knowing thy fellow man, and it has as its main object that of bringing its members together. We are all born into different spheres, and I think we must stay in these spheres to some extent, but here we all may meet on common ground, to the lasting benefit of all. I only hope, Comrades, that we will have many happy hours in these rooms, for it is needless for me to state that I am proud to belong to the organization that has such a splendid record. I have not seen European service like many present but I trust that the position I hold will count for something among you and assure you that I am at all times only too glad to do anything within my power to further the interests of the Army and Navy Veterans in Canada. I have much pleasure in declaring these rooms formally open," he concluded.

Premier Oliver attended and rendered a very sincere compliment in a suitable speech. An Active Body. Bdgr.-Gen. Clark, in a short introductory address, recounted the splendid activities of the organization since its inception and particularly in the past year. He stated that the secretary, Mr. Young, had interviewed 3,863 persons individually, attended to 844 cases of pensions and other needed adjustments, mailed no less than 11,119 letters, and investigated 321 cases outside the organization in which relief had been accorded.

Splendid Quarters Now. The new rooms are commodious and well appointed throughout, while already the organization has them furnished in a manner that leaves nothing left to be desired. The suite occupies the two upper stories

JUNE BRIDES. Here's to you—to long life, happiness and prosperity, and all that's best in the world. Be everything to that fine young man you've chosen—everything but too much devotion to "duty."

Start your first week of house-keeping by sending the family washing to us. You may think that this advice is flavored by self interest, but after you've tried it you'll see how disinterested it is.

of the Hamley Building on the corner of Government and Broughton Streets, and will be right in the centre of business, situated in convenient access to all points of the community. Dining rooms, reading rooms and a billiard room occupy the main apartments, with a well appointed canteen on the lower floor. Everywhere the ultimate comfort of the individual has been regarded, and the new quarters are exceptionally well planned in every detail. Merry Re-Union. Yesterday took on something of the nature of an anniversary of the well-known organization, and many friends who have followed the vicissitudes of the society for years attended to wish the members every good fortune in their new establishment. Later the assembly settled down to a concert and general social time which passed all too quickly before time put an end to the merry proceedings. The Ladies' Auxiliary, assisted by many willing workers from the men, served a delightful tea, and were responsible for much of the success of the entire event, arranging the flowers, decorations and other items with an attention to detail that so often has proved the value of the lady members. Never cover hot potatoes. They will become water soaked in their steam.

DIOCESAN W. A. HOLDS MEETING. Many Activities Reviewed; Social Service Work Is Endorsed. The Women's Auxiliary of the Columbia Diocesan Board met in the Parish Hall, of St. Luke's, Mount Tolmie, on Friday. The hall had been beautifully decorated, and seventy-three members were present. Mrs. Goodwin on behalf of the ladies of St. Luke's extended a hearty welcome to the visitors. After the opening prayers the president, Mrs. Belson, requested delegates and representatives of branches to take notes of the meeting and report to their branches. The various diocesan officers reported at the morning session. The prayer partner secretary urged the need of more prayer for social service work, particularly among young

girls. At noon members adjourned to the church for prayers, and to hear an address by Rev. A. G. Wells, who spoke on the influence of women in national religious life. Men had done great deeds, but women have inspired and influenced, the speaker said. "The Women's Auxiliary stands for the best we have in womanhood—the work done in foreign fields," said Mr. Wells, and he hoped that the W. A. would continue to extend its interest in conditions at home, pointing out the need for concentrated effort. "Home first, church next, national and international last," let the first permeate the last," concluded the speaker. After the morning session notes of addresses by various bishops at the annual meetings of the S. P. G. and C. M. S. held in the Albert and Queen's Halls, of London England, which Miss Turner, now in England had attended, were read by Mrs. Dickson, after which a message of love to W. A. members sent by the Hon. President, Mrs. Schofield, was conveyed by Mrs. Belson. It was announced that Mrs. Cook, the Oriental secretary, would be glad to receive donations towards the annual picnic for Chinese children to be held on or about June 26. A suggested constitution for the proposed board of Federated Women's Institutes was received and approved. After announcements were made,

PLUMBING AND HEATING SUPPLIES. DESOLVO. Will Cleanse Your Sink Waste Pipe. Will Cleanse Your Bath Waste Pipe. Will Cleanse Your Lavatory Waste Pipe. Desolvo is the original pipe cleanser—don't take imitations. It is the greatest help a home has got. It will keep your waste pipes clean and save you from sniffing of the odor which all dirty waste pipes throw off. Tell your husband to get a can now—or Can Him. ANDREW SHERET. Phone 629. 1114 Blanshard Street. Miss Nastel, a missionary who is leaving soon for Dawson, gave an interesting talk on her new work. Social service work was then brought to the notice of the meeting, and a motion carried that this work would be more definitely helped by monthly contributions to its support. Miss Rye was appointed to represent the Diocesan Board W. A. at the monthly social service meeting. At the close of the meeting Mrs. Quinlan on behalf of the Diocesan Board extended hearty thanks to the ladies of St. Luke's for their hospitality. Mouldy bread is the result of careless housekeeping.
