THE present Exhibition of Drawings and Sketches by two of the most eminent of our water-colour painters, the late DAVID COX and the late PETER DE WINT, is due to the kindness and liberality of Mr. HENDERSON, one of the original members of the Club.

It is a subject of congratulation to the Committee that they are able to bring before the members and their friends a series of drawings of these two eminent Artists, so illustrative and characteristic of the style of each. They have been selected with great judgment by Mr. HENDERSON, and it is probably the only opportunity which may occur of bringing together in one room so many of the important works of these Masters.
