TO HIS HONOUR,

The Lieutenant-Governor of the Province of Ontario.

MAY IT PLEASE YOUR HONOUR:

The undersigned begs respectfully to present to your Honour, the Annual Report of the Department of Lands and Forests for the fiscal year, April 1, 1944 to March 31, 1945.

W. G. THOMPSON,
Minister.

DIVISION OF TIMBER MANAGEMENT.....	117
TIMBER AGREEMENTS.....	155

GENERAL INTRODUCTION

A feature of the year ending March 31st, 1945, in so far as forest industries are concerned, was the continued heavy demand for both lumber and pulp and paper products. Although there was a slight increase over the previous year in the number of men in cutting operations in the woods, the industry was still hampered in their production by a shortage of manpower. The following comparative record of the number of men in logging camps for 1944 and 1945 follows:

TABLE OF MEN IN LOGGING CAMPS BY DISTRICTS	JANUARY 1944	JANUARY 1945
Algonquin.....	1,173	1,315
Cochrane.....	3,497	4,379
Fort Frances.....	600	754
Geraldton.....	966	2,374
Kenora.....	1,600	1,701
Kapuskasing.....	2,787	4,924
North Bay.....	2,725	2,410
Parry Sound.....	1,100	1,200
Port Arthur.....	5,016	6,334
Sault Ste. Marie.....	2,346	2,693
Sioux Lookout.....	1,300	1,520
Sudbury.....	2,130	2,140
Tweed.....	840	1,015
TOTAL.....	26,080	32,759

No major administrative changes were made in the year under report. The work of the Department is listed under the same headings as last year, namely:

Accounts	Operation and Personnel
Air Service	Reforestation
Forest Protection	Research
Land and Recreational Areas	Surveys and Engineering
Law	Timber Management

All events of note are recorded under the above headings.

SUNSET ON LAKE MUSKOKA

DIVISION OF ACCOUNTS

GENERAL

As shown by the financial report which follows expenditures of the Department have increased during the year by more than \$500,000.00. This has been occasioned by: (1) new construction projects; (2) the purchase of additional equipment, including aircraft; (3) a substantial increase in the field operations of the Division of Forest Research, connected largely with methods of combating the spruce bud worm.

Receipts show a decrease of approximately \$300,000.00 due wholly to reduced returns from timber dues. This was occasioned through a sharp decrease in available woods labour during the cutting season 1943-1944. All other forms of revenue were comparable with those of preceding years.

There has been only a small increase in the number of persons employed by the Department, due to the continuing scarcity of desirable help in both the technical and unskilled groups. This scarcity will be rectified on the release of personnel from the armed services, and will permit of expansion of the scope of the Department's activities to more fully meet the needs of administration.

Due largely to representations made by the Department to the Department of National Revenue, Ottawa, we are no longer required to deduct income tax at the source, from extra fire fighters. This has removed at least one of the obstacles confronting field officers in obtaining help for purposes of fire suppression. During periods of emergency, such extra fire fighters are required to work long hours and in doing so, increase their daily earnings. It is now evident to the Department of National Revenue that settlers, farmers and trappers engaged in fighting forest fires on the request of our local officers, are seldom, if ever, subject to income tax on their annual earnings.

During the course of the year under review officers of the Division of Accounts visited the following field offices of the Department for the purpose of inspection and instruction of staff:—

Reforestation Offices: Galt, Angus, Orono, St. Williams, Midhurst.

District Offices: Algonquin Park, Parry Sound, North Bay, Sudbury, Sault Ste. Marie, Geraldton, Port Arthur.

Other Field Offices: Ranger School (Dorset), Pembroke, Experimental Station (Richmond Hill), Matheson, Timmins, Presqu'île.

For the purpose of obtaining knowledge of the work and methods of other large groups engaged in activities similar to our own, a visit was made to the Tennessee Valley Authority at Knoxville, Tennessee, in company with several other members of the Department. Their general administration and financial and accounting procedures were reviewed, and woods operations and construction activities were inspected.

FINANCIAL REPORT

1. *Cash Receipts and Disbursements:*

Statement for the year ending March 31, 1945, is set out on Schedule A, page 10. The following summarizes the result of operations for the year:

Total—Cash Receipts.....	\$5,413,445.26
Total—Cash Disbursements.....	3,572,225.15
Excess of receipts over disbursements.....	\$1,841,220.11

2. *Comparison of Results with those of Prior Years:*(a) *Receipts*

In schedule B, page 16, cash receipts for the year under review have been compared with those of the previous four years. For purposes of comparison re-arrangement of items of previous years was made to conform with classification of receipts for the current year. The data in Schedule B may be summarized as follows:

DIVISION	Years ending March 31st				
	1941	1942	1943	1944	1945
	\$	\$	\$	\$	\$
Accounts—					
Water Power Rentals.....	571,352	628,691	648,485	618,901	609,425
Provincial Land Tax.....	169,609	146,802	146,014	158,745	175,342
Long Lac Diversion.....		23,100	44,850	21,750	21,300
Miscellaneous.....	13,414	5,773	4,267	5,939	20,388
Land and Recreational Areas.....	173,661	164,998	173,779	273,754	294,308
Forest Protection.....	54,918	55,620	51,825	22,917	26,850
Timber Management.....	4,153,237	4,122,576	4,982,281	4,561,734	4,241,581
Surveys.....	5,030	36	3,438	13,293	1,275
Air Service.....	5,687	10,902	6,946	19,448	12,417
Reforestation.....	5,642	5,834	8,453	26,138	10,559
Lignite.....			924	16	
	5,152,550	5,164,332	6,071,262	5,722,635	5,413,445

(b) *Disbursements*

Classification of Disbursements by Divisions was adopted during the year ended March 31, 1943, with the result that a true comparison of expenditure detail of prior years cannot be obtained with the required accuracy. A comparison of total disbursements is, however, shown below:

	Years ending March 31st				
	1941	1942	1943	1944	1945
	\$	\$	\$	\$	\$
Total Disbursements—					
Chargeable to appropriation as voted.....	2,451,755	2,565,554	2,799,689	3,040,901	3,572,225
Additional Disbursements—					
Uncontrollable items chargeable to Special Warrants.....	2,741	88,802	701,296
	<u>2,454,496</u>	<u>2,654,356</u>	<u>3,500,985</u>	<u>3,040,901</u>	<u>3,572,225</u>

(c) *Trend of Receipts and Disbursements*

i. *Receipts*

Annual Receipts 1945 as compared with 1941 show an increase of approximately \$260,895.00 or 5.1 per cent. This increase is due in large part to increased revenue from:

Water Power Rentals.....	\$ 38,073.00
Lands and Recreational Areas.....	120,647.00
Timber Management.....	88,344.00
	————— \$ 247,064.00

i. *Disbursements*

Annual Disbursements 1945 as compared with 1941 show an increase of approximately \$1,117,729.00 or 45.5 per cent. This increase is accounted for in large part by the following items:

Cost of Living Bonus.....	\$ 130,812.00
Air Service.....	102,140.00
Forest Research—(Control of spruce bud worm, jackpine sawfly, and general field research).....	132,417.00
Basic Organization, Extra Fire Fighting and Scaling.....	618,543.00
	————— \$ 983,912.00

A P.A.S. NORSEMAN AIRCRAFT AT LAKE TIMAGAMI

DIVISION OF AIR SERVICE

General

The fire hazard for the 1944 season could not be considered above normal and at no time were the facilities of the Service taxed beyond their capacity. Fire detection and suppression were carried out as usual.

The defences of the Sault Ste. Marie locks have been removed, and our operations which had been seriously handicapped by the presence of an extensive balloon barrage there have been facilitated. The necessity of obtaining permission from the defence forces for the landing and despatching of any aircraft entering this area caused us considerable inconvenience, but the highest co-operation was accorded the defence forces by our Services.

By reason of continuing wartime restrictions on aviation gasoline and oil, which affected commercial operators, the Service was called upon to do an unusually large amount of commercial flying. The Service undertook to serve in a commercial capacity those who were engaged in utilizing the natural resources of the Province. This included many surveys from the air for timber and pulpwood operators, some transportation for mining companies, transportation of survey and prospecting parties, and assistance in locating and gathering broken booms of logs and pulpwood. Transportation for employees of other Departments of the Government was carried out as required.

Equipment

Procurement of aircraft and engine parts became more and more difficult as the war progressed and during this fiscal year the reconditioning of our fleet was held up on many occasions by inability to secure necessary parts. Before the 1945 season opened however, we were able to have our fleet again re-assembled and tested.

The situation with respect to new aircraft eased unexpectedly and during the winter of 1944 we were able to place with the Department of Munitions and Supply, orders for four Norseman aircraft, taken off a production line manufacturing for the United States Army Air Force. Four were delivered to us during this fiscal year and were found to be very useful aircraft. This acquisition permitted the retiring of three of our older transport ships, two Hamiltons and one Buhl. It is hoped that favourable supply conditions will continue. These are the first new aircraft that the Service has been able to acquire since the outbreak of the war and we are presently in need of more new transport equipment.

Every effort is being made to cope with the spare parts situation, and at this time no serious delays have been experienced.

Winter Operations

Winter operations were carried out as usual at Algonquin Park. In addition, a Moth aircraft patrolled Quetico Park, it being felt that an aircraft was required in that area to protect the interests of the Crown against poaching. The District Forester at Geraldton was also supplied with a Moth for winter operations, in order to expedite administration of an area that was otherwise relatively inaccessible during the winter.

Maintenance and Improvements

Normal maintenance of Service property and buildings was carried out as usual, but the fact that a much higher percentage of our staff now falls in the category of married personnel made it necessary to erect cottages at Caribou Lake, Kenora and Ignace. The Air Service base at Remi Lake was moved from the island to the mainland and this required the construction of an entire new base including two cottages, a gas house and work shop. A new cottage was also built at Pickle Lake in anticipation of reopening that base in 1945. An office building was built at Oba Lake and some remodeling was done on a cottage which ultimately proved satisfactory for occupancy by Service personnel. A gas house and work shop were also built at our Pays Plat base, and the Air Service shared with the Division of Forest Protection, the expense of an ice house for joint use at Red Lake. Some of our buildings at Twin Lakes were remodeled, in order to provide new cooking and messing facilities.

Additional improvements will be required next year, including the construction of an entire new base at South Porcupine.

Assistance in Spruce Budworm Damage Survey

The survey of damage by the spruce budworm was continued, and extensive flying was supplied by this Service in co-operation with those investigating the extent of injury. It is felt that something useful has been accomplished, and it is hoped that at an early date some mitigation of this scourge will follow.

Canoes

The Service again undertook the construction of several canoes for the Division of Forest Protection. Some sixteen were built and distributed to the various Districts as directed by head office. The design was developed entirely by the Air Service and the craft have been found to be very steady and seaworthy. All districts to which they were sent have been loud in their praise.

Accidents

I am very pleased to report that there were no serious accidents to personnel during the period dealt with.

*—From 1924 to the end of the year ending March 31, 1944.

A REMINDER TO MOTORISTS — TYPICAL ROADSIDE SIGN ON HIGHWAY 17

DIVISION OF FOREST PROTECTION

FIRE AND HAZARD CONDITIONS

The spring of 1944 was rather late, although a warm period the latter part of April and the first week of May resulted in many grass fires in the Central and Southern regions. Another period of high hazard developed during the latter part of May, when many fires occurred and four-fifths of the total area burned during the year was accounted for. For the remainder of the summer the hazard was not extreme, though intermittent periods of fairly high hazard occurred in the eastern part of the Province during July and August. The late summer and fall were cool and wet, with few fires.

A notable feature of the season was the continuous low hazard throughout the summer in the Western and Thunder Bay Regions and Kapuskasing District. The fires in that part of the Province were only one tenth of the total number, and burned only one fiftieth of the total area.

LEGISLATION

No legislation pertaining to forest protection was enacted during the year.

The regulations relative to Section 10 of the Forest Fires Prevention Act were amended by Order-in-Council dated December 14, 1944.

The Mississagi Provincial Forest and the following areas in Cochrane District were closed to travel during the period of high hazard at the end of May:

- Area 1. The Townships of Deloro, Shaw, Adams, Eldorado, McArthur and Douglas to McArthur Lake.
- Area 2. Murphy and Jessop Townships.
- Area 3. German Township, except for Provincial highways.
- Area 4. Macklem, Thomas and Sheraton Townships.
- Area 5. Bowman, McCann, Tolstoi and McEvay Townships to Watabeag Lake.
- Area 6. The Mattagami River area and all townships adjacent thereto.

There were thirty five prosecutions under the Forest Fires Prevention Act, thirty-three convictions and two acquittals. In addition there were fifteen prosecutions under the Criminal Code in connection with forest fires, thirteen resulting in convictions and two in acquittal.

ORGANIZATION

On January 1st, the Algonquin District headquarters was transferred from Pembroke to Algonquin Park. In February, Port Arthur District was divided into four chief ranger divisions instead of two as formerly. The new divisions are Shebandowan, with headquarters at Shebandowan Lake, and Black Sturgeon, with headquarters at Kab Lake. The name Thunder Bay Division was changed to Fort William Division. Some minor changes were made in boundaries of chief ranger divisions in Sudbury District as follows:

1. Invergarry Township transferred from Biscotasing Division to Gogama Division.
2. That part of Humboldt Township north and west of Indian Reserve No. 3 transferred from Sudbury Division to Espanola Division.
3. A small area in Silk Township transferred from Foleyet Division to Gogama Division.

On account of the scarcity of labour it was found expedient again this year to employ, for the months of July and August, some seventy high school students seventeen and eighteen years of age, who were sent from the urban centres of southern Ontario to the six most southerly Districts where they were used as improvement crews and for fire fighting, as occasion demanded. It is considered that these student rangers did good work and compensated to an appreciable degree for the shortage of ranger labour.

EQUIPMENT

Major items of equipment purchased were trucks, pumps, hose, tents, and blankets. Supplies were very short and delivery delayed. Although it was desired to acquire some tractors they were not procurable.

IMPROVEMENTS

No steel lookout towers were erected in 1944 and only the most needed buildings and telephone lines were constructed.

The construction of the forest ranger school in Sherbourne Township in the County of Haliburton was commenced in the spring of 1944, and one dormitory building was brought close to completion.

The architect for the forest insect laboratory was engaged on May 1st, and plans were completed by September. The contract for the construction of the building was let on December 5, 1944. Work on construction was well under way early in January, 1945. By the end of the fiscal year most of the reinforced concrete framework was complete.

Radio Equipped Aircraft

Radio equipped aircraft were stationed as follows:

- CF-OAV—Kenora District
- CF-OAW—Geraldton District
- CF-OAY—North Bay District
- CF-OBA—Sault Ste. Marie District
- CF-OBG—Sioux Lookout District
- CF-BGJ—Kapuskasing District
- CF-BIM—Sault Ste. Marie District
- CF-BGM—Fort Frances District
- CF-BGN—Sioux Lookout District
- CF-OBC—Sioux Lookout District
- CF-OBG—Kenora District
- CF-OBE—Port Arthur District
- CF-OBF—Sudbury District

In addition to the equipment tabulated above three 30-watt, 2-frequency medium-wave transmitters were constructed by Departmental technicians for use in the Port Arthur District.

Twelve all-wave communication receivers were purchased to replace obsolete equipment.

HAZARD DISPOSAL

Fire guards in Kirkwood were maintained, and a thirty acre fire guard was constructed adjacent to the town of Larder Lake.

INSECT CONTROL

Following a survey of the status of the spruce budworm epidemic in Ontario during the summer season of 1943, a conference was called by the Minister of Lands and Forests, which was attended by representatives of the Department, forest industries, the Dominion Division of Entomology, the University of Toronto and by other specialists and interested parties. The conference was held at Toronto on December 15, 1943 and as a result of its recommendations, a plan believed adequate to meet the insect epidemic situation in Ontario was drawn up by the Department. The plan included a definite co-operative arrangement with the Forest Insect Unit of the Division of Entomology, Department of Agriculture, Canada, and with Canadian universities and United States government organizations interested in the spruce-balsam forest area of north-eastern North America.

The plan as finally approved by the Department included the following main activities:

1. The construction of a central forest insect laboratory at Sault Ste. Marie, Ontario, by the Department of Lands and Forests, Ontario.
2. The equipping, staffing and operation of the laboratory by the Forest Insect Unit of the Department of Agriculture, Ottawa.
3. The organization, equipping and staffing of the Forest Insect Survey by the Forest Insect Unit of the Department of Agriculture, Ottawa.
4. The establishment of a professorship in forest entomology in the University of Toronto for the purpose of training forest entomologists, and generally raising the standard of forest biological studies in Ontario.
5. Experimental work in the use of insecticides for the control of forest insects, especially directed to the control of the spruce budworm. This led to the trial of the new insecticide known as D.D.T. in Algonquin Park during May and June.

Conversations were held during the year with officials of the Dominion Government for the purpose of outlining a division of administrative functions between the Dominion and the Province in forest insect study and control within the Province of Ontario. This led to an arrangement whereby the Dominion Department of Agriculture, through the Chief of Forest Insect Investigations would be responsible for research and investigative work, and the Province would be responsible for control measures, as and when applied. The Department of Lands and Forests undertook as part of its responsibility to build the Forest Insect Laboratory, which would be staffed and operated by the Dominion Department of Agriculture.

INSPECTIONS

Inspection trips by the Chief, Division of Forest Protection for the year ending March 31, 1945, were as follows:

RUSHING RIVER, NEAR KENORA

DIVISION OF LAND AND RECREATIONAL AREAS

LAND ADMINISTRATION

A further increase in the amount of lands administration work was experienced during the past year. Additions to both the head office and field staffs will be required to complete much unfinished work and to perform effectively the increasing number of duties, required of the staff. As a result of personal instruction in the field, and by letter from head office, field officers to whom more work has been delegated, have become more proficient in the performance of their duties. It is hoped that additional training will still further increase efficiency.

In the course of the year several sections of the Public Lands Regulations were changed by Order-in-Council. These changes may be summarized as follows:-

To make more equitable the price of lands sold for summer resort use, the maximum charge for lands described as "irregular" was reduced from seventy-five dollars to fifty dollars per acre.

For the purpose of directing and controlling agricultural settlement on lands the property of the Crown, soil surveys were continued in parts of northern Ontario.

To preserve natural scenic beauty and to eliminate possible water contamination, all islands one-third acre or less in the Georgian Bay were withdrawn from sale.

Designated road allowances in unorganized townships, which in the past had been withheld from disposition, were released for disposition.

Lands occupied by authority of land use permits were made exempt from Provincial land tax, and provision was made for a surcharge on permit charges, to effect a combination charge.

PROVINCIAL PARKS:

Provincial Parks:

No new Provincial Parks were established during the year. The following are the Provincial Parks which have been established:

Algonquin.....	2,741 Sq. Miles
Quetico.....	1,720 Sq. Miles
Lake Superior.....	540 Sq. Miles
Sibley.....	61 Sq. Miles
Rondeau.....	8 Sq. Miles
Ipperwash Beach.....	109 Acres

In spite of travel restrictions, Rondeau, Ipperwash, Algonquin and Quetico Provincial Parks continued to attract a large number of visitors.

New regulations for the better administration of Algonquin and Quetico Provincial Parks were approved by Order-in-Council on November 17th, 1944, and were made effective.

In order to provide an opportunity for qualified naturalists to study natural forests and forest conditions, an area of 31.53 square miles in the Townships of Canisbay and McLaughlin, in Algonquin Park, was set aside as a wilderness area.

To increase popular interest in natural history and to enable persons to enjoy vacations better in Algonquin Park, Dr. J. R. Dymond of the staff of the University of Toronto was employed during July and August to conduct field nature trips, to construct nature trails and give indoor nature talks in Algonquin Park. Fifteen trips were conducted by Dr. Dymond during the season with groups averaging 25 persons. One trail was labelled, and lectures were given at five boys' and girls' camps.

The boys' and girls' camps plan for Algonquin Park improvement and forest protection assistance, inaugurated in 1941, was continued and enlarged upon. The assistance given the park staff by this work was of great value.

FOREST AND STREAM.—NEAR ENGLEHART

OBSERVE ROAD SIGNS — HELP PREVENT FOREST FIRES

DIVISION OF LAW

The main duties of this Division are as shown in the Administrative Chart at page 80.

Legislation:

During the fiscal year no new Acts affecting the Department were passed, but amendments to existing legislation were effected for the purpose of improving the administration of the Department.

1. *The Crown Timber Act:*

The penalty sections with respect to illegal cutting and removal of Crown timber were strengthened, and penalties provided which were considered sufficient to be a forcible deterrent respecting the practice of cutting and using Crown timber without authority from the Department.

2. *The Public Lands Act:*

Amendments were effected whereby the Lieutenant-Governor in Council may fix the prices and conditions of sale and settlement of public lands, and adjust the price of lands sold prior to the 23rd of June, 1942 where it appears that the land was originally sold at a price beyond its fair value.

3. *The Provincial Land Tax Act:*

The interest rate with respect to unpaid taxes was reduced.

4. *The Surveys Act:*

This Act was amended with respect to the mechanics of surveying an aliquot part of a lot, and provision was made respecting the method of survey of various townships in the County of Renfrew.

5. *The Territorial Divisions Act:*

This Act was amended for the purpose of setting up the Township of Aberdeen Additional.

6. *The Counties Reforestation Act:*

This Act was amended to give certain privileges to the municipal councils of townships. The title of the Act was changed, and it is now known as "The Municipal Reforestation Act."

7. *The Forestry Act:*

This Act was amended to provide for the appointment of The Ontario Forest Resources Commission to exercise such powers and duties as may be vested in or imposed upon it by the Lieutenant-Governor in Council.

Timber Concession Agreements:

During the year five timber concession agreements and one supplementary agreement were prepared by the Division of Law, and executed by the Operator or Company and by the Minister, pursuant to the authority of the respective Orders-in-Council concerning each of the said agreements, as follows:

Kalamazoo Vegetable Parchment Company	—May 26, 1944
J. A. Mathieu, Limited	—Oct. 27, 1944
J. S. L. McRae	—Nov. 8, 1944
Temagami Timber Company, Limited	—Nov. 8, 1944
A. B. Gordon and Co. Limited	—Nov. 8, 1944

Supplementary Agreement:

Brompton Pulp and Paper Company Limited—June 19, 1944

Prosecutions and Charges:

The number of charges laid under The Forest Fires Prevention Act was considerably less than for many previous years. This resulted from the efforts of the field men of the Department in educating the public to a better appreciation of the necessity of observing the Department's regulations respecting the setting out of fires.

During the year one Supreme Court action, in which the Attorney-General was Plaintiff, came to trial. After reserving judgment at the conclusion of the trial, judgment was subsequently given in favour of the Attorney-General, but this is being taken to the Court of Appeal by the Defendant.

Administration Trips:

The Chief of the Division of Law attended at Sault Ste. Marie, Kingston, Ottawa, Manitoulin Island, Sudbury, Port Arthur, North Bay and Bracebridge during the year for the purpose of investigating Departmental matters requiring his attention.

The Division also completed the purchase of the land necessary for the Southern Experiment Station in Vaughan Township, and various other properties located throughout the Province which were purchased by the Crown from private owners for Departmental purposes.

BURNT OVER TWO YEARS AGO, THIS AREA STILL PRESENTS A DESOLATE PICTURE

THE RUGGED BEAUTY OF SAND LAKE, KENORA

DIVISION OF OPERATION AND PERSONNEL

Operation

In the course of another war year with its attendant general shortage of qualified personnel, some returned men from the armed forces have become available, which has afforded a welcome opportunity for redistributing duties in a continuation of the process of reorganization. The requirements of war industry and administration still make it difficult for us to obtain fully qualified personnel.

Similarly, in the field of equipment and supply, shortage prevails; nevertheless, satisfactory progress has been made in consummating reorganization plans. Purchase difficulties have remained with us, and furniture and steel cases have been almost impossible to obtain. In the main however, current needs in most items have been satisfied, on occasion with some delay. Additional personnel has assisted in improving despatch of supplies and maintenance and distribution of stocks of essentials, and the Department is producing all of its small forms in spite of space limitations. Proper control of requisitions has improved inventory figures, and with additional trained staff more efficient methods have been introduced.

The coordination and standardization of methods, routine and equipment have continued and the liaison throughout has been improved. The annual District Forester's conference has been of exceptional value in promoting and advancing these features.

Forms have been prepared and data have been consistently compiled in books, charts, tables and indices in an endeavour to provide a ready picture currently of important functions and administrative activities.

The staff of the records office has been increased, and changes have been made in personnel and duties. Repairs and transfers have increased efficiency, and new storage facilities will be provided for reference records that are no longer current. It has been necessary to use paper cases to a limited extent due to lack of steel.

Checking affidavits.</p> <p><i>Licensing of Mills</i>:— Saw mills. Pulp and paper mills. Lath, shingle, veneer and other mills handling timber. Recording mill locations.</p> <p><i>Scalers</i>:— Supervision. Scalers' training and examinations. Appointing scalers.</p> <p><i>Forest Surveying</i></p> <p><i>Export from Crown Lands</i>:— Pulpwood. Hardwood logs. Other forest products.</p>

PERSONNEL MANAGEMENT

Selection and Placement

Numerous members of the staff released from the armed forces have returned to duty with beneficial results in the routine. In addition to the enlistees who have completed their service in the Armed Forces and returned to the staff, new personnel from the services have been placed in the Department to the number of nine including three amputation cases. Vacancies and new appointments will continue to be filled where possible by ex-service personnel with suitable qualifications. The majority of the male staff are veterans of one or both of the last two wars.

The following changes in status and location of senior personnel were made:

J. S. Walker was appointed Assistant District Forester Tweed May 1, 1944; W. W. Tweed was appointed Assistant District Forester Parry Sound May 1, 1944; J. Ruxton was appointed Fire Protection Specialist Port Arthur May 1, 1944; A. Leslie District Forester at Tweed was transferred as Forester to the Division of Research at Head Office May 1, 1944; Ross Hyslop became Forester in charge of the Kirkwood Forest Management Unit with Headquarters at Thessalon May 1, 1944; A. Crealock became District Forester Tweed District May 1, 1944; A. Leman was appointed District Forester, Sault Ste. Marie District Sept. 8, 1944; Thos. Thorpe was appointed District Forester Sudbury District Sept. 8, 1944; T. E. Mackey was made Regional Forester for the Central Region with Headquarters at North Bay Sept. 8, 1944; G. F. Meyer Assistant District Forester at Port Arthur was transferred and made District Forester at Kenora Oct. 1, 1944; J. M. Whelan was appointed Timber Specialist at Fort Frances Oct. 1, 1944; E. L. Ward District Forester in Algonquin District was appointed Regional Forester at Kapuskasing Oct. 1, 1944; W. D. Cram was appointed Regional Forester for the Western Region, Oct. 1, 1944; P. McEwen was appointed Regional Forester for the Southern Region and Superintendent of the Forest Ranger School, Oct. 1, 1944; J. S. Walker was appointed Assistant District Forester, Algonquin District Oct. 1, 1944.

G. H. R. Phillips returned from service in the R.C.A.F. and was appointed District Forester Algonquin District, Oct. 1, 1944; N. Sauerbrei was made Fire Protection Specialist at Port Arthur Nov. 1, 1944; J. P. Marchildon was made Land Administrator at North Bay, Nov. 1, 1944; Jas. Ruxton was transferred from Port Arthur to Parry Sound as Fire Protection Specialist, Nov. 1, 1944; J. M. Whelan was appointed Acting District Forester, Fort Frances Nov. 2, 1944; W. W. Tweed was transferred from Parry Sound to Tweed as Assistant District Forester, Dec. 1, 1944.

TECHNICAL PERSONNEL

The number of foresters and other technically qualified personnel employed by the Department was as follows:—

	<i>Head Office</i>	<i>Field</i>	<i>Totals</i>
Foresters	26	28	54
Others	13	16	29
Total	39	44	83

Of the above, twelve Foresters were in the armed forces. Seasonally employed Foresters are included.

TRAVEL BY RAIL, CAR OR BOAT IN TIMAGAMI

Civil Service Classifications

The committee appointed by the Government to revise the classification of the Provincial Civil Service have been functioning consistently. Officials of this Department have necessarily given much thought, research, and deliberation in furtherance of the project, in order that within the Department the qualifications, duties, and salary spread may be up to date, strictly compatible with our requirements and fair and just to the individual.

As a result, the first part of the Ontario Public Service revised classes and compensation schedules will issue at an early date.

STAFF

(a) ATTENDANCE RECORDS

The route prescribed for recording attendance has produced a detailed and methodical record, which shows staff distribution by classes, districts, and divisions, with definite indication of trend and incidence. An alphabetical record is maintained of all absences and lates by months and years for reference purposes.

(b) STRENGTH OF STAFF

The number of employees in the permanent and continuous temporary classes, in the inside and outside services was as follows:

Service	Class		Total
	Permanent	Continuous Temporary	
Inside	115	42	157
Outside	209	263	472
Total	324	305	629

The number of employees by different classes by months throughout the fiscal year is shown in the following table:

AGE GROUPS

AGE GROUPS DISTRIBUTION: PERMANENT AND CONTINUOUS TEMPORARY EMPLOYEES

TRAINING

a. *Head Office Training Course*

Courses of instruction for various new members of head office staff and for selected employees from the field, were continued at Head Office. The course lasting up to forty-four days in the several Divisions was designated to acquaint employees more intimately with routine procedure and principles. The results have been good, and the work will be continued and extended in the interest of increased efficiency.

b. *Special University Course in Forestry*

Four men from the staff attended special courses in Forestry at the University of Toronto.

c. *Forest Ranger School*

The Forest Ranger School at Sherwood Camp in Haliburton, was attended by certain employees of the Department, to increase their efficiency in the work of the field in elementary forestry and kindred subjects. Employees taking that course, and the Districts represented were as follows:

ALGONQUIN:	Basil Boyle, A. L. Dunne, Joseph Tait
COCHRANE:	O. G. Harris, N. F. Walsh, R. E. Woodall
GERALDTON:	J. A. Jarvis, G. A. McAdam, A. Grasser
KAPUSKASING:	J. H. Clavelle, J. W. Colley, Bogert Wilson
KENORA:	C. Mackey, R. Alcock, W. Kitt
NORTH BAY:	W. Adair, W. G. Hawley, E. Lafleur
PARRY SOUND:	R. E. Simplon, P. Cassidy, John Wilson
PORT ARTHUR:	M. Sauerbrei
HEAD OFFICE:	R. S. McCormack
SAULT STE. MARIE:	R. D. McMemeny, Bruce Walsh
SIoux LOOKOUT:	H. S. Anderson, R. Taylor, J. A. Wynd
SUDBURY:	J. E. Morin, W. J. Stinson, E. W. Bouchey, W. P. O'Donnell
TWEED:	Earl Goodman, H. Taylor

Dominion Provincial Youth Training Programme

The Department has been able to give extensive cooperation through its field organization in furthering the objectives of the Dominion Provincial Youth Training Programme and the benefits derived from this project have been most satisfactory.

With the centralization of trade schools and academic classes of various kinds at Gould St. in Toronto, with subsidiary centres at various points in the Province, the educational work, particularly with respect to returned soldiers, will become more effective, and the Department of Lands and Forests will give cooperation wherever possible.

Incidentally, the Department will obtain the benefits of Job Instruction Training for selected members of the staff, with a view to active dissemination of appropriate features of Job Instruction throughout the service, both at Head Office and in the field.

Investigations

From time to time for the purpose of presenting an accurate cross section of controversial matters, reports have been made, and through these, solutions to a number of problems have been found.

This is a complete list of enlistments up to March 31, 1945.

*—This signifies the employees returned to duty with the Department.

Accident Prevention and Workmen's Compensation

Preliminary studies have been made with a view to improving safety measures throughout the service, reducing Workmen's Compensation costs, and eliminating as far as possible absences due to preventable accidents. The cost of compensation for the fiscal year was \$14,540.02, which is a little below the average of \$15,036.30 for the preceding nine years. A break-down of the over-all figure for the year indicates that pensions rated highest, with a cost of \$6,828.58, followed by wages totalling \$4,046.11, and medical aid cost of \$3,665.33.

Staff Suggestion Plan

Under this heading forty-two suggestions were received and acknowledged. The reaction of the staff to the plan is encouraging evidence that their hearts are in their work.

The following awards were made:

Miss Audrey Morrison, Operation and Personnel; F. R. Parmeter, Chief Forest Ranger, Kenora; J. C. Dillon, Fire Protection Specialist, Sudbury; M. Sauerbrei, Chief Fire Ranger, Port Arthur, H. E. Kedey, District Lineman, Sudbury; E. C. Burton, Division of Air Service, Sault Ste. Marie; Allan Shaw, Chief Forest Ranger, Kenora; H. M. Jackson, District Accountant, Sioux Lookout; H. E. Kedey, District Lineman, Sudbury; R. H. Keenan, Radio Technician, Sudbury.

Staff Meetings

The Annual Regional Conferences were arranged for the Southern and Central Regions at Sudbury, March 22-23, 1945, the other regions to follow early in the new fiscal year. It is planned that these conferences will be held immediately prior to the annual District Foresters' Meeting. The latter was held at Head Office, Jan. 22-25, 1945. Periods were allotted to the various Head Office Divisions in the mornings, and in the afternoons general meetings were held. The opening meeting was addressed by S. R. Eyre, Senior Silviculturalist of the Lake States Forest Experimental Station who spoke on the management of jack pine.

Superannuations

The following employees were superannuated during the course of the year:

James Terry, stationary engineer and caretaker in the Air Service at Sault Ste. Marie; superannuated November 13, 1944; William Elliott; chief forest ranger at Sudbury; superannuated February 16, 1945; Miss Florence L. Griffith, stenographer in the Division of Lands and Recreational Areas (Miss Griffith died later in the year).

Deaths

The following deaths are regretfully reported:

W. W. Adams, forester during the summers, drowned at Kapuskasing October 12, 1944; J. C. Boyle, caretaker at Sioux Lookout, died in Winnipeg April 26, 1944; William Cobourne, deputy chief forest ranger at Cochrane; died July 16, 1944; T. A. Goodwin, district storeman at Cochrane, died July 15, 1944; Miss Florence L. Griffith, stenographer in the Division of Lands and Recreational Areas; died June 8, 1944; H. S. McCausland, forester, Division of Timber Management; died November 6, 1944; J. P. Marchildon, district forester at North Bay; died December 16, 1944; Norman Vanderburgh, scaler at Sudbury; died January 12, 1945; J. S. Walker, assistant district forester at Pembroke; died in Montreal on March 17, 1945.

ST. WILLIAMS FOREST STATION

OFFICE OF INFORMATION AND EDUCATION

Lack of sufficient personnel, due to the continuation of the war throughout the year, has made it impossible to carry out the functions of the office of information and education to the extent desired. The staff consisted of the supervisor, one full-time clerk stenographer, one occasional stenographer, and one full-time field lecturer. The supervisor continued to carry out many duties other than information and education proper. Release of men at the termination of the war should make it possible to carry out the plans which have been drawn.

The information and education work undertaken in the past year may be presented as follows:

General Inquiries

The volume of inquiries by letter, telephone and personal call increased still further. The subjects of inquiry concerned almost every imaginable question concerning the Department's administration, and many others as well. This is regarded as an index of increased public interest in the natural resources under the Department's jurisdiction.

Articles

Articles were prepared for a number of periodicals and journals, and assistance was rendered to the authors of many additional articles for publication in magazines and newspapers. A page of copy was written each month for a popular outdoors magazine. This is a most fertile field of endeavour, as the masses of the people who read these magazines learn therein the extent and value of the forest resources of the Province, and of their administration.

Department Publications

The following publications were completed during the fiscal year:

- The Ganaraska Watershed
- Pedology "The Dirt Science"
- Annual Report of the Minister of Lands and Forests, 1942-43.
- Systems of Forest Cropping
- Wings over the Bush
- Algonquin Park Folder
- Rondeau Park Folder
- Summer Resort Lands in Ontario
- Lands for Settlement
- Birds of Algonquin Park
- Parasites of Fish, Algonquin Park
- Addenda to Manual of Scaling Instructions
- Crown Timber Regulations
- Manual of Public Land Administration
- Rondeau Park Regulations
- Woodmen's Employment Act
- Forest Products Chart
- Administrative Divisions Chart (revision)
- Ontario Forest Atlas (revision)
- Forest Tree Planting (reprinted)
- Windbreaks and Shelterbelts (reprinted)

The following publications were in course of preparation, but are not completed to date.

- Forest Trees of Ontario
- Fire Fighter's Manual

Publications for distribution

At the present time, the following Departmental publications are available for distribution:

Timber Management

Forest Resources of Ontario
Crown Timber Regulations
Crown Timber Dues
Procedure to Cut Timber from Crown Lands
Systems of Forest Cropping
Forest Products Chart
Woodmen's Employment Act

Forest Protection

Forest Fires Prevention Act and Regulations

Air Service

Wings over the Bush

Reforestation

The Farm Woodlot
Windbreaks and Shelterbelts
Forest Trees for Distribution
Forest Tree Planting
Glacial Pot Hole Area, Durham County, Ontario

Lands and Recreational Areas

The Public Lands Regulations
Lands for Settlement in Ontario
Summer Resort Lands in Ontario
Algonquin Park
Rondeau Park
Birds of Algonquin Park

Operation and Personnel

Administrative Divisions Chart

Surveys and Engineering

List of Townships in Province of Ontario
List of Lithographed Maps and Plans

Research

Pedology "The Dirt Science"
D.D.T. in Ontario Forests

General

Annual Reports of the Department
Indians of Ontario (\$1.00 per copy)
Ontario Forest Atlas (\$1.00 per copy)
The History and Status of Forestry in Ontario
Definitions of Important Branches of Forestry

Field Lectures

A field lecturer conducted a forest fire prevention lecture tour in Northern Ontario during the past year. A summary report follows:

FOREST FIRE PREVENTION LECTURE TOUR

April 1st, 1944 to March 31st, 1945

DISTRICT	SCHOOLS		PUBLIC MEETINGS	TOTAL
	No.	Attendance	Attendance	Attendance
Port Arthur.....	33	8,307	252	8,559
Geraldton.....	3	175	121	296
Sault Ste. Marie.....	51	4,905	562	5,467
Kapuskasing.....	6	1,552	435	1,987
Sudbury.....	88	11,053	1,157	12,210
North Bay.....	135	10,583	194	10,777
Algonquin.....	71	7,833	270	8,103
Cochrane.....	74	7,893	346	8,239
Tweed.....	44	1,590	1,590
Total.....	505	53,891	3,337	57,228
COUNTIES				
Kent.....	69	3,750	141	3,891
Elgin.....	77	3,826	3,826
Total.....	146	7,576	141	7,717
Boys—Girls Summer Camps ..		4,419	1,683	6,102
Grand Total.....	651	65,886	5,161	71,047

One lecturer could not cover adequately the whole of northern Ontario in a year. Limited time was allotted to as many forest districts as could be covered. Each district visited received about half of adequate coverage. Judging by the response from the districts, and from numerous individuals, there is a very definite need for these lectures.

As indicated in the last report, a minimum of five lecturers is needed in order to give proper coverage.

Press

Press releases were usually made by the Minister's or Deputy Minister's office in Toronto, and by the District Foresters' offices in the field. It is hoped that greater assistance may be rendered in this regard when the Information and Education office is more adequately staffed. Growth of publicity given to Departmental affairs is indicated by the following figures of space carried in Ontario newspapers for the calendar years 1944 and 1945:

YEAR	NO. OF NEWSPAPERS CARRYING ITEMS	INCHES OF SPACE GIVEN TO DEPARTMENTAL AFFAIRS
1944	14	565
1945	19	1017

Photographs and Slides

It was impossible to secure a sufficient number of high class photographs to meet requirements. A staff photographer is needed. Cameras are not yet available. Film was very scarce, particularly in color.

A method of working out a production program with newspaper and free-lance photographers in northern Ontario should be developed.

Three days before the close of the fiscal year, a new member of staff, just out of the Royal Canadian Air Force, was attached to the Information and Education Office to take charge of photography, and all visual programming.

Motion Pictures

A new motion picture, titled "Tomorrow's Timber", on the subject of forest fire prevention has been made available, through the services of the National Film Board. This picture, while filling a great need, will be useful for eighteen months, by which time the majority of northern Ontario audiences will all have seen it. Failure to obtain new films will mean that our lecture tour programme effort will be severely handicapped.

Schools

In order to develop school programs to the extent desired, it will be necessary to employ one man full-time, to prepare teachers' aids, in co-operation with educational authorities. During the past year a larger flow of inquiries was received from school teachers and pupils. Under the circumstances we were able to supply only publications and typed material.

Exhibits

No exhibits were made during the year. This excellent means of attaining public interest and co-operation will not be undertaken until after the war. Exhibit material is most useful in store window poster displays at conventions, and in planned exhibits at fall fairs and exhibitions.

Signs and Posters

Five new fire prevention posters were designed last year and are in use. The new posters differ from those already in use (which were black lettered on a yellow background without art work) by being illustrated in colour.

Advertisements

Most of the routine business advertising consisted of items calling for tenders to cut timber. Display advertising consisted almost entirely of fire prevention appeals in magazines. Seventeen such advertisements were placed during the year.

WHITE WATER INVITES THE FISHERMAN

OFFICE AT ST. WILLIAMS FOREST STATION

DIVISION OF REFORESTATION

The work of the Reforestation Division this last year has been concerned largely with the promotion of reforestation among private landowners, and with municipal organizations in southern Ontario. The work of the Zone Foresters on extension is beginning to show good results and it is expected, with the development and intensifying of zone forestry work, that considerable improvement will be made in the forest planting plans of the various organizations interested.

County Forests

Considerable interest is being maintained in municipal forestry work, and at the present time several counties have acquired additional land. Owing to lack of labour and supervision, we have been unable to keep up with the planting on the lands recently acquired. It is hoped that with the conclusion of the war, nursery development and improved labour conditions will allow us to overtake the planting needs of the municipalities.

Many of the older County Forests have developed to the stage where improvement work is required, by way of thinnings. This will also have to be held over until the labour situation improves.

Tree Distribution

While the total distribution has declined from the peak year of 1940, it has remained about the same as 1943, namely 10,522,000 in 1943 and 10,999,000 in 1944. It may be interesting to note that the distribution to private land-owners has remained about the same, namely between seven and eight million for the last war years.

We expect an enlarged demand by private land-owners, and also a very big increase in the demand for municipal and provincial planting. A detailed table is shown on page 102 giving the distribution to the various planting projects.

Seed Collection

A number of important improvements have been carried out at our seed extracting station at Angus. The Superintendent, Mr. R. S. Carman, has visited modern plants in the Lake States and New York State. It is expected that a better quantity and quality of seed will be obtained with changes in process. I may point out that the securing of an ample and satisfactory supply of seed is the basis for all our work.

Extension Forestry

The development of extension work under Zone Foresters is proving to be very satisfactory. It is certain that the size of the zones will have to be decreased, by the addition of further foresters in charge of smaller units. With an increased interest in municipal forestry, school forestry work, and a general awakening to the need for reforestation our zone foresters are finding their time well taken up in preparing planting plans, lecturing, and various educational activities.

INTERIOR OF SEED STORAGE VAULT, ANGUS

THE DEPARTMENT'S CANSO AIRCRAFT — USED BY THE DIVISION OF RESEARCH

DIVISION OF RESEARCH

During the year the work of this Division was still hampered by lack of staff, though some additions were made as follows:

A. P. Leslie, formerly District Forester at Tweed; J. R. Hutcheon from the Division of Surveys; Dr. C. H. D. Clarke, biologist, who was engaged late in the year for wildlife studies in Provincial Parks. The staff now consists of a Division Chief and assistant, a soil specialist, a forester in charge of management surveys, a supervisor of construction work, a librarian and two stenographers, one of whom was recently added. The forest pathologist transferred to another Division late in the year.

The programme covered during the year is outlined under the following heads:

1. *Biological*

- a. Soil survey, Port Arthur.
- b. Management survey, Thessalon.
- c. Fish survey in Provincial Parks.
- d. Sulphur fume damage survey.
- e. Regeneration—sample plot study.
- f. Insect control experiment.

2. *Economic*—Stumpage study.3. *Mechanical and Building Programme* near Maple, Ontario.1. *Biological*

a. *Soil Survey*. This work was carried on by Mr. G. A. Hills in the vicinity of Port Arthur to separate agricultural and forest lands and to delimit lands that are now economically important from the agricultural standpoint.

b. *Management Survey*. This survey was made for the Division of Timber Management on the Forest Management Unit recently established near Kirkwood, Ontario. This Survey was not completed during the current year.

c. *Fish Survey in Provincial Parks*. This study, leading towards management of the fish resources of the Provincial Parks, is a cooperative effort under the direction of Professor W. J. K. Harkness of the Department of Zoology, University of Toronto. Most of the personnel normally engaged on fish study and creel census were employed this year on a study of the biological effects of DDT and other insecticides, as applied for budworm control, on the fauna and flora of the forest.

d. *Smelter Fume Damage Survey*. This work was carried on cooperatively under the authority and direction of the Sulphur Fumes Arbitrator, The National Research Council and the Ontario Research Foundation furnished technical advice and assistance. Quantitative sulphur dioxide recorders were set up at fourteen locations, two of them permanent. The system of reporting smoke from fire towers was extended and twelve portable sulphur dioxide records were established at suitable locations. Automatic recorders were installed at Capreol and Burwash. An airplane was used for mapping the smoke stream, and for sampling it for sulphur dioxide at different levels and on the ground. Increment borings and foliage collections were made to test the effect of fumigations on growth. A study of the distribution of lichens was undertaken, in an effort to find a satisfactory indicator of fume damage. The Meteorological Service of Canada aided in establishing a fully equipped weather station near Sudbury which was of value in correlating weather and smoke conditions.

e. *Regeneration—Sample Plot Study.* This work was started in 1930, but after a good beginning it was abandoned in 1934. Although it was difficult to obtain help this year, four students were finally hired and an attempt was made to salvage some information from the plots established by A. P. MacBean in the vicinity of Martin Lake in 1931-32. Some useful information will be derived from this work, but it is regrettable that this valuable study, which would have yielded much information of use in handling pine forests in the Timagami area was allowed to lapse because of a mistaken idea of economy. As soon as help becomes available this work is to be greatly expanded.

f. *Insect Control Experiments.* The present widespread attack by spruce budworm and the loss of a great quantity of wood, has promoted active cooperation in steps to check the inroads of the insect. Forest Entomological Services of the United States and Dominion governments cooperated actively with this Department in experimenting with control by insecticides. Several insecticides, including DDT, were tested on an infested area in Algonquin Park, both in sprays from the air and from the ground. The aerial sprays were applied from a biplane of the United States Department of Agriculture and from an autogyro rented by the Department of Lands and Forests from a commercial firm.

As the supply of DDT was tied up by war demands, the amount needed for this test was made for the Department by Dr. Breckenridge, of the University of Toronto. A spraying device suitable for the plane and material used was devised by Professor Loudon, Aeronautical Engineer of the University of Toronto, while mixing of sprays and study of effects of the various sprays on insects was under Mr. K. E. Stewart of the Dominion Science Service.

Dr. R. R. Langford and a group of biologists from the University of Toronto collected data on the effect of DDT and other insecticides on the animal life of the forest and streams. The results of the whole experiment were embodied in a report prepared for public distribution by this Division.

2. *Economic—Stumpage Study*

This is a study of rates paid for Crown timber and is important both from the Departmental and lumber industry viewpoint. Due to the shortage of staff during the war years nothing but an office study has been made, but in the course of the coming year it is hoped to have a party in the field on this project.

3. *Building and Mechanical Programme near Maple, Ontario.*

This project was originally started to provide space for testing equipment such as pumps, hose and other equipment. Space was also to be provided for a chemical laboratory, to perform soil analyses for the soil field survey.

Subsequently it was decided to make office space available for personnel who cannot be satisfactorily accommodated in the present building in Toronto. It is hoped ultimately to have research stations at suitable locations across the Province, where forest conditions may be studied, and proposed treatment of the forest tried out on an experimental scale before being incorporated into practice.

SOIL EROSION NEAR SUDBURY

REDUCING THE SCALE OF A MAP WITH A PRECISION PANTOGRAPH

DIVISION OF SURVEYS AND ENGINEERING

Under Survey Instructions, the following surveys were directed to be performed for the year ending March 31, 1945:

Ground Surveys

1. Resurvey of part of the south boundary of the Township of Burns.
2. Resurvey of the boundary between the Townships of Clara and Maria.
3. Resurvey of the north boundary of Sibley Provincial Park, Sibley Township.
4. Meridian line and control traverse of Little Pic River and adjoining lakes from Canadian Pacific Railway to Canadian National Railway, District of Thunder Bay.
5. Control traverse of certain roads in the Kirkwood Forest Management Unit.
6. Subdivision of part of the town plot of Sioux Lookout.
7. Certain lines in the Townships of Clement, Scholes and Belfast.

Summary

Total mileage of ground surveys	134 miles
Total number of town lots surveyed.....	45
Total number of survey posts renewed	50

Municipal Surveys

- No. 813 Township of Pic—Lines between Concessions 8 and 9, Lots 20 and 21, Concessions 9 and 10, Lots 20 and 21, Concession 9 and Lots 18 and 19 across the northerly 3200 feet of Concession 9 and across Concession 10.
- No. 814 East and West limits of Lake Street in the City of Hamilton.
- No. 815 West limit of the Hincks Location across Lot 4, Mining Location J. S. and Lots K and 10—Township of Johnson.

Summer Resort Locations

Total number of summer resort locations surveyed on Crown Lands under authority of Section 37 of the Public Land Regulations of which 93 were surveyed under departmental instructions.....330.

Mining Claim Surveys

Total number of mining claim surveys filed for examination and record purposes.....506

Miscellaneous

The following surveys of major character were filed in the Department for examination and approval.

1. Flooded lands in connection with the Seine River Diversion Project by Steep Rock Iron Mines Ltd.
Crown lands flooded to the extent of 1385 acres.
2. Flooded lands in connection with the water power development, on the Madawaska River at Barrett Chute by the H.E.P.C. of Ontario.
Crown lands flooded to the extent of 1862 acres.
3. Power transmission line extending across Crown lands between the City of Port Arthur to the property of the Steep Rock Iron Mines Ltd., in the Township of Freeborn.
4. Land and water surveys in the Township of Pic surveyed for Marathon Paper Mills of Canada Limited.

Maps

Map No. 21C—District of Timiskaming and parts of Nipissing and Sudbury—revised and printed.

Map No. 20A—Province of Ontario—revised and in printers hands.

Electoral Map No. 33A—Revised and printed.

Maps Nos. 10A and 11A Georgian Bay Islands—in course of revision.

Aerial Surveys

The aerial surveys made in the course of the year are shown in the following table:

MAKING ADJUSTMENTS FOR EXPOSURE ON THE PHOTOSTAT MACHINE

CONSUMING HUGE QUANTITIES OF PULP, THE PAPER MILLS PROVIDE EMPLOYMENT FOR THOUSANDS IN THE BUSH AS WELL AS IN THE MILLS

DIVISION OF TIMBER MANAGEMENT

The war demands for forest products of all kinds continued to be acute during the 1944-45 season, this demand being reflected in great activity in timber operations throughout the Province. With the continued use of prisoners-of-war, and with some easing in the equipment and material situation towards the end of the season, production in the woods was maintained and somewhat increased over the past year. An unusually early spring breakup in 1945 however, prevented a considerable quantity of logs and pulpwood reaching the mills.

A statement of timber cut during the 1943-44 season and returned in 1944 is shown on page 120. Statements are also enclosed showing production by districts in the Province.

Timber Sales—1944-45

During the season there were fifty new sales of timber, 153.25 square miles of timber being sold. Details of the sales are given on pages 147 to 153 inclusive.

In the same period sixty eight timber licenses comprising 272.50 square miles were abandoned, details being given on pages 141 to 145 inclusive.

As at March 31, 1945, the status of the timber licensed areas in Ontario, was as follows:

	No.	Area Sq. Miles
Licenses and Renewals Issued 1944-45:	930	13,187.00
Licenses in suspense:	48	687.50
	978	13,874.50

This is 1626.25 square miles more than that under license at the end of the previous fiscal year.

Pulpwood and Timber Agreements

As at March 31, 1945, the area held under pulpwood concession and timber agreement was 59,196 square miles.

During the season five new agreements and one supplementing the Brompton agreement of Feb. 18, 1942 were entered into, resulting in the addition of 2505½ square miles to the area held under agreement.

Details of the new agreements are reproduced on pages 155 to 184 inclusive.

MILLS LICENSED—1944-45

The mills licensed during the season, under the regulations of the Mills Licensing Act, were as follows:

Less than 5,000 feet.....	486
5,000 to 30,000 feet.....	603
Over 30,000 feet.....	45
Number of Paper Mills.....	33

PULPWOOD EXPORTS AND IMPORTS

During the calendar year, January 1st to December 31st, 1944, 384,579 cords of pulpwood, all species, were exported from Ontario. Of this total, 250,221 cords were exported from Ontario Crown lands, the balance of 134,358 cords from private lands. This represents a decrease of 198,416 cords compared with the previous year, of which 158,283 cords is a decrease in Crown lands exports.

Detailed statements of pulpwood exports are shown on page 138 to 139 inclusive. It is interesting to note that although there is a general decrease in exports, the quantity of jackpine pulpwood exported actually shows an increase of some 13,000 cords. Although the quantity involved is small, this trend towards a greater utilization of what was formerly considered a secondary pulpwood species is encouraging.

Complete figures on the imports of pulpwood into Ontario are not available, but it is believed these will total approximately 350,000 cords, mostly from the province of Quebec.

SCALING

Two scaling examinations were held—at Minden on May 19th, 1944, and at Port Arthur on June 10th, 1944, with the results as below:

	MINDEN	PORT ARTHUR
Number of Candidates:.....	34	28
Number obtaining full License:.....	13	14
Number obtaining Sawlog License:.....	7
Number obtaining Pulpwood License:.....	5	8

The balance of the candidates were either recommended for licenses after further experience, or were unsuccessful.

THIS AGREEMENT, made this 19th day of June, A.D. 1944.

BETWEEN:

HIS MAJESTY THE KING, in right of the Province of Ontario as represented by the Minister of Lands and Forests, hereinafter referred to as the "Crown",

OF THE FIRST PART,

—and—

BROMPTON PULP AND PAPER COMPANY LIMITED hereinafter referred to as the "Company"

OF THE SECOND PART:

WHEREAS by Agreement dated the 18th day of February, A.D. 1942 the Crown granted to the Company the right to cut and remove timber from the areas described in Schedule "A" attached thereto, upon the terms and conditions therein set forth;

AND WHEREAS it was provided by Paragraph 29 of the said Agreement that the Crown would terminate the cutting rights of other parties operating on the areas in the said Schedule "A", subject to the conditions and provisions in the said Paragraph 29;

AND WHEREAS the Crown, prior to entering into the said Agreement with the Company, had granted certain cutting rights to Northern Wood Preservers, Limited in and upon Area No. 7A described in the said Schedule "A", and has requested Brompton Pulp and Paper Company, Limited to relinquish the cutting rights granted to it in and upon the said Area No. 7A, and to accept another area in substitution therefore, which the Company has agreed to do upon the terms and conditions hereinafter set forth;

NOW THEREFORE THIS AGREEMENT WITNESSETH that the Crown, with the approval of the Lieutenant-Governor-in-Council, and the Company agree to and with each other as follows:

1. The Company hereby releases to the Crown all its cutting rights and interest in, to and upon the said hereinbefore recited Area No. 7A, and agrees that it shall henceforth be deemed to be and is hereby deleted from the said Schedule "A" of the said Agreement dated the 18th day of February, A.D. 1942.

2. The Crown agrees that it will, not later than three (3) months after the Company shall have submitted to it a plan and a general description covering an area (hereinafter called the new "area") approximately of the same size and having the same quantity of timber as the said Area No. 7A, and as advantageously as reasonably may be located, grant to the Company cutting rights to remove the kinds of timber set out in the hereinbefore recited Agreement of the 18th day of February, A.D. 1942 from such "new area", and in the same manner and subject to the same conditions as though the said "new area" were expressly described in the said Schedule "A" in the place and stead of the said Area No. 7A.

3. The Company agrees to submit such plan and general description of the "new area", to be substituted, to the Crown not later than five (5) years from the date hereof, and should the Company fail to do so it shall not after such five-year period be entitled to ask for such "new area" in substitution for Area No. 7A.

4. The Crown agrees that it will, for a period of five (5) years from the date hereof or such sooner date as the Company may select an area in substitution for the said Area No. 7A, hold in reserve the area known as the "Pikitungushi Watershed Area", so that the Company may, if it desires, select such area as the "new area". Provided, however, that the Company shall not be bound to select the said "Pikitungushi Watershed Area" by reason of the reservation of the same by the Crown.

5. This Agreement shall supplement and amend the said Agreement dated the 18th day of February, A.D. 1942, the terms of which in all other respects expressly approved and confirmed.

IN WITNESS WHEREOF the parties hereto have executed these presents the day and year first above written.

MINISTER OF LANDS AND FORESTS
FOR THE PROVINCE OF ONTARIO.
BROMPTON PULP AND PAPER COMPANY,
LIMITED.

BY: "P. H. SCOWEN"
GENERAL MANAGER (SEAL)
AND: "J. FROST"
ASST. TREASURER.

THIS AGREEMENT, made the Eighth day of November, A.D. 1944,
BETWEEN:

HIS MAJESTY THE KING, in right of the Province of Ontario,
as represented by the Minister of Lands and Forests, hereinafter
called the "Crown",

OF THE FIRST PART,

—and—

A. B. GORDON AND CO. LTD., hereinafter called the "Com-
pany",

OF THE SECOND PART:

THIS AGREEMENT WITNESSETH THAT:

1. Subject to the approval of the Lieutenant-Governor in Council and subject to the granting of a yearly license pursuant to The Crown Timber Act Chapter 36 R.S.O. 1937 and to the conditions and terms hereof, the Crown, with the consent of the Lieutenant-Governor in Council, doth grant to the Company for a period of Ten (10) years from the First day of April, A.D. 1944 the right to cut and remove the timber hereinafter specified, in Clause 2 of this Agreement, on the lands described in Schedule "A" attached hereto.

2. The Company shall pay to the Treasurer of the Province of Ontario on behalf of the Crown the following rates for timber cut:

Red and White Pine Sawlogs—\$8.75 per M. ft. B. M. Doyle rule (inclusive of brush-burning charges). The above rate is inclusive of Crown Dues.

3. The Company shall pay annually in advance ground rent and fire protection charges at the rate of \$11.40 per square mile on an area of forty (40) square miles, commencing from the First day of April, 1944. Interest at the rate of six percent (6%) per annum shall be charged on amounts which remain unpaid after thirty days from the due date.

4. At the direction of the Minister, the Company shall cut merchantable damaged timber at rates to be determined by the Minister.

5. The right is reserved by the Crown to deal with the lands covered by this Agreement, and the timber standing, growing and being thereon, for reforestation or such other purposes which, in the opinion of the Minister, may be necessary for the development and maintenance of any industry or industries other than timber and kindred industries.

6. The Company, upon execution of this Agreement, shall deposit with the Crown, in the Department of Lands and Forests, bonds approved by the Minister in the sum of Ten Thousand Dollars (\$10,000.00) to be held by the Crown for the due performance by the Company of its obligations hereunder.

7. In the event of the Company making default in the performance of its obligations under the terms of this Agreement, the Minister may, upon sixty (60) days' notice in writing given to the Company at its Head Office at Toronto, Ontario, declare the rights of the Company hereunder forfeited and declare the cash deposit and other collateral securities herein deposited forfeited to the Crown. Provided, however, that any default on the part of the Company in the performance or observance of any of the provisions of this Agreement occasioned in whole or in part through strikes, fire, tempest, war, sabotage, action by Princes or Sovereign States, acts of God, or other causes beyond the control of the Company, shall not be deemed to be a default on the part of the Company.

8. The Minister shall have the right to waive all rights of forfeiture arising under this Agreement by reason of any default if, in the opinion of the Minister, the cause of such default justifies the waiving of such right.

9. The Company is granted under this Agreement no right to the soil or freehold of the said area or to the use thereof, except as may be necessary for cutting and removing the said timber as aforesaid, and operations incidental thereto, and it is distinctly understood that the right is hereby reserved to the Crown to deal with the lands above-described, and the timber standing, growing and being thereon, for forest management purposes and other purposes, as the Minister may see fit.

10. Within three (3) years from the date of the Agreement the Company shall file with the Department a plan which shall be satisfactory to the Minister for the operation and management of the area granted, to the end that the area will be kept productive and in accordance with the provisions of The Provincial Forests Act.

11. Proper sworn returns of the quantity of timber cut in each Season shall be made to the Crown in conformity with the Crown Timber Regulations, and accounts shall be due and payable on the First day of October, and on all accounts which remain unpaid after the Thirty-first day of October in the same year interest shall be charged at the rate of Six percent (6%) per annum, calculated from the First day of October in the same year.

12. The Crown does not guarantee any quantity of timber on the area hereby granted to the Company.

13. The Minister, or any officer or officers of the Department of Lands and Forests, shall have the right to inspect the timber operations on the allotted territory at any time. If such inspection shall show that the timber operations are carried out in such a way that any merchantable or valuable timber which should be removed is being left or destroyed, the Minister shall have the right to have the said timber estimated and charge the same to the Company at the same rate as if it had been actually removed pursuant to the terms of this Agreement, together with such penalty or penalties as the Minister may fix. The cutting and removing of the timber on and from the territory, or any part thereof, shall not be deemed to have been completed until it has been examined by an officer of the Crown and the operation has been declared satisfactory by the Minister.

14. No refuse, sawdust, chemicals or matter of any other kind shall be placed in or deposited in any river, stream or other waters, which shall be or may be injurious to game and fish life.

15. This Agreement shall be subject to The Forest Fires Prevention Act, R.S.O. 1937, Chapter 325, and Amendments thereto, and to all Regulations thereunder, and to Orders made thereunder by the Minister, and to all other Statutes and Amendments thereto and all Regulations and Orders made thereunder concerning forest fires prevention; and the foregoing shall govern the operations of the Company under this Agreement as fully and effectually as if they had been set forth herein.

16. This Agreement shall be subject to all Acts of the Legislature of the Province of Ontario which are now or which may hereafter be in force and all regulations duly made under the provisions of any such Acts, so far as they may be of general application to the protection, cutting, measuring, removing and driving of timber on and from Crown lands throughout the Province, and the same shall apply to operations of the Company under this Agreement as fully and effectually as if they had been set forth herein.

17. The Crown agrees to permit the Company to use the waters of all rivers, lakes and streams within the cutting areas during the term of this Agreement for the driving of timber, and also the right to make, construct, operate and maintain improvements therein and thereto for the purpose of facilitating the floating of timber. The construction, operation and maintenance of any improvements made upon any waters within the said cutting areas and the driving of timber shall be carried out subject to and in pursuance of The Lakes and Rivers Improvement Act, R.S.O. 1937, Chap. 45, and Regulations made thereunder.

18. The Company covenants and agrees to employ Canadian labour and to co-operate with the Crown in maintaining standard rates of wages and otherwise meeting all the requirements as may be provided by The Industrial Standards Act or such other statutory enactments in that behalf as are now or may hereafter be in force.

19. The Company covenants and agrees that it will manufacture all log timber cut on the area above-described into lumber, ties, or other manufactured products, to the satisfaction of the Minister, in the Province of Ontario.

20. It is understood and agreed that no operations other than those conducted by and for the Company shall be permitted on the said area without the consent in writing of the Minister.

21. If, upon the termination of said period of ten (10) years, the Company shall have fully performed the obligations imposed upon it, as set forth, to the satisfaction of the Minister, it shall be entitled to an extension of its rights under this Agreement for a further period of ten (10) years, or such period as the Minister may approve, at such prices and upon such terms and conditions as may then be fixed by the Minister.

22. For the purpose of forest management, watershed protection, preservation of beauty of landscape, fire protection, game preserves or game shelters, or for any other purpose which from time to time the Minister may deem advisable, the Minister may direct operations on a selective system of cutting by the marking of certain trees to be left standing or to be cut and the cost of such marking shall be borne by the Company.

23. The Company shall be required during the currency of this Agreement to operate a sawmill or sawmills and manufacture yearly a minimum of 2,000,000 feet B.M., mill scale.

24. Should the Company establish any community for the purpose of utilizing the timber on the area set out in this Agreement, such community shall be removed at the conclusion of the operation at the expense of the Company. As a guarantee that such removal shall be completed to the satisfaction of the Minister, the Company shall before establishment of such community deposit with the Crown in the Department of Lands and Forests \$5,000.00 in cash or a bond approved by the Minister in the said sum of \$5,000.00.

25. The Company shall not erect lumber camps on the area described in Schedule "A" hereto which are visible from the shores of Lake Timagami, and no warehouses or other buildings may be erected without the written approval of the Minister.

26. The Company shall not clear for skidways or rollways any land along the shores of Lake Timagami, nor shall booming or towing operations be carried on by the said Company on the said Lake during the months of July and August in each year, during the currency of this Agreement.

27. All officers of the Crown, including scalers, scalers' assistants, and check-scalers, who are designated to work on the operation of the Company shall be provided with accommodation and board to the satisfaction of the Minister and at the expense of the Company.

28. In case of disagreement as to the true intent and meaning of this Agreement, the same shall be referred to arbitration under the Arbitration Act (Ontario) R.S.O. 1937, Chapter 109.

29. The Company hereby covenants and agrees to observe, perform and keep all the covenants, provisions, agreements and conditions on its part herein contained.

30. In this Agreement "Minister" shall mean the Minister of Lands and Forests, for the time being, of the Province of Ontario.

31. This Agreement shall be binding upon and enure to the benefit of the Company and its assigns, but this Agreement and the rights of the Company hereunder shall not be assigned without the prior knowledge and consent of the Minister.

IN WITNESS WHEREOF the Parties hereto have executed these presents the day and year first above written.

SIGNED, SEALED AND DELIVERED

PRESIDENT.

and: "T. M. REASLEY" (SEAL)

SECRETARY.

This is Schedule "A" referred to in the Agreement between His Majesty the King and A. B. Gordon and Co. Limited dated the 8th day of November, 1944.

ALL AND SINGULAR that certain territory situate in the Townships of LeRoche, Cynthia and Belfast in the Timagami Provincial Forest, District of Nipissing, containing a total area of 43 square miles, more or less, and which may be more particularly described as follows:—

THE WHOLE OF THE TOWNSHIP OF LEROCHE containing an area of 36 square miles, more or less.

CYNTHIA TOWNSHIP

All that part of the said township lying west of the western shore of Lake Timagami and north of the northern shore of Devil Bay of Lake Timagami, containing an area of 5 square miles, more or less.

BELFAST TOWNSHIP

All that part of the said township lying north of the northern shore of Obabika Inlet of Lake Timagami and east of a line drawn north astronomically from the 3-mile post on the south boundary of the said township and containing an area of 2 square miles, more or less.

THIS AGREEMENT, made the 26th day of May, A.D. 1944.

BETWEEN:

HIS MAJESTY THE KING, in right of the Province of Ontario as represented by the Minister of Lands and Forests, hereinafter referred to as the "Crown",

OF THE FIRST PART,

KALAMAZOO VEGETABLE PARCHMENT COMPANY, hereinafter called the "Company",

OF THE SECOND PART:

WHEREAS the Company is engaged in the manufacture of kraft paper and specialties at Kalamazoo, Michigan, and has recently acquired the assets of the Espanola Mill formerly owned by the Abitibi Power and Paper Company, Limited, in Receivership, which mill the Company intends to rehabilitate at an expenditure of approximately Two Million Dollars (\$2,000,000.00) for the production of sulphate pulp and other products which may be used in connection with its industry at Kalamazoo, Michigan;

AND WHEREAS, in order to support the said industry, it is necessary that the Company should have a supply of pulpwood, and it has applied to the Crown for cutting rights on the area hereinafter mentioned, formerly held by the said Abitibi Power and Paper Company, Limited, and on other areas of public lands as hereinafter described;

AND WHEREAS, the Receiver and Manager of the Abitibi Power and Paper Company, Limited has abandoned the area described in Schedule "A" formerly held by the said Company, and the Crown deems it expedient and in the public interest to grant sole cutting-rights on the said area and the areas described in Schedules "B" and "C" hereto to Kalamazoo Vegetable Parchment Company upon the terms and conditions hereinafter set forth;

AND WHEREAS the said areas have been partly cut and burned over;

NOW THEREFORE THIS AGREEMENT WITNESSETH THAT:

1. In consideration of the covenants and agreements on the part of the Company herein contained, the Crown, with the approval and consent of the Lieutenant-Governor-in-Council, and subject to the terms and conditions hereof, doth grant to the Company for a period of twenty-one (21) years from the First day of April, 1943 the sole right to cut and remove the timber specified in Clause 2 of this Agreement in and upon the lands described in Schedule "A" hereto and the lands selected from Schedules "B" and "C" hereto, which Schedules form part of this Agreement.

Provided that for a period of three (3) years from the date hereof, and thereafter until terminated by the Minister upon six (6) months' notice in writing, the Company may, with the consent of the Minister, abandon any or all of the lands described in Schedule "A" hereto; and where such consent is not given the lands which the Company desires to abandon shall remain subject to the terms and conditions of this Agreement.

In addition to the cutting rights granted to the Company hereunder on the lands described in Schedule "A" hereto, the Company shall have the right for a period of three (3) years from the date hereof, and thereafter until terminated by the Minister upon six (6) months' notice in writing, to examine the lands described in Schedule "B" hereto and to select such portions thereof as it may desire as a further source of pulpwood, and thereupon such portions so selected of the said lands described in Schedule "B" hereto shall be added to the lands held under this Agreement, and all the terms and conditions hereof as to rates and otherwise shall apply to such additional lands.

In the event of the Company failing to exercise its rights to select portions of the lands described in Schedule "B" hereto within the period allowed, the Company shall be deemed to have abandoned all interest in the said lands described in Schedule "B" hereto, and thereupon the Crown shall be free to dispose of them as it may see fit.

In further addition to the aforesaid cutting rights granted to the Company hereunder, the Company shall have the right at any time prior to the Seventh day of December, 1945 to examine the lands described in Schedule "C" hereto, and to select such portions thereof as it may desire as a further source of pulpwood, and thereupon such portions so selected of the said lands described in Schedule "C" hereto shall be added to the lands held under this Agreement, and all terms and conditions hereof as to rates and otherwise shall apply to such additional lands. Such right to examine the lands described in Schedule "C" hereto and to select such portions thereof as the Company may desire shall be subject to the Company obtaining from Abitibi Power and

Paper Company, Limited—which has, pursuant to Agreement, the cutting rights on the said lands described in Schedule “C”—the consent to examine such lands and the transfer of the cutting rights on the portions selected.

The Crown will terminate any existing timber licenses within the boundaries of the lands described in Schedule “A” hereto and those portions of the lands described in Schedules “B” and “C” hereto which the Company may select, as in this clause contained. Provided that the cutting privileges of the Licensees on the lands described in Schedule “A” hereto shall be terminated by the Crown as of March 31st, 1945, and that the cutting privileges of the Licensees upon any portion of the lands in Schedules “B” and “C” here to which the Company may select shall be terminated upon one year’s notice in writing to be given forthwith by the Minister after the selection of such portion.

2. The Company shall pay to the Honourable the Treasurer of the Province of Ontario, subject to the provisions and conditions herein contained and subject to such other conditions, orders and regulations as may be passed or made in relation thereto, the following rates for timber cut,—

Jackpine pulpwood—for 5 years from and after the commencement of cutting operations40 per cord
and thereafter, for the balance of the term hereby created.50 per cord
Spruce Pulpwood	1.40 per cord
Balsam Pulpwood70 per cord
Other Species of pulpwood40 per cord

The above rates are inclusive of Crown dues. Sawlogs or other timber—at such prices as the Minister may from time to time determine.

3. Proper sworn returns of the quantity of pulpwood and other timber cut each season shall be made to the Crown in conformity with the Regulations under The Crown Timber Act, and payment shall be made for such pulpwood and timber not later than the First day of October in each year, and the Crown shall have all the rights and powers in respect of enforcing such payment as are provided under The Crown Timber Act. On all accounts due and payable on the First day of October which remain unpaid after the 31st day of October in the same year interest at the rate of six percent (6%) per annum shall be charged until paid, calculated from the First day of October.

4. Pulpwood taken out in lengths of less than eight feet shall be measured, returned and paid for on the basis of stacked cords of 128 cubic feet. Pulpwood taken out in lengths of eight feet or more shall be measured in the log on the cubic basis and each 100 cubic feet shall constitute a cord.

5. The Company has commenced and has expended a considerable sum of money on the rehabilitation of the pulp mill at Espanola, Ontario, and the Company agrees that it will complete the said rehabilitation and place the said pulp mill in operation with as much expedition as possible; subject, in view of war conditions, to obtaining the necessary priorities. The said pulp mill when rehabilitated and placed in operation, shall have a minimum capacity of approximately one hundred (100) tons of pulp per diem, and the Company will expend in the rehabilitation thereof and for the necessary equipment and appurtenances thereto approximately Two Million Dollars (\$2,000,000.00) of lawful money of Canada or so much thereof as may be necessary to completely equip an efficient pulp mill of such capacity.

6. In each year and every year ending the 31st day of March, after the rehabilitation of the said pulp mill, while this agreement is in force the Company shall cut from the lands which are subject to the terms and conditions hereof,

and use at the said pulp mill at Espanola, Ontario, a minimum of 50,000 cords. The maximum cut in any one such year shall not exceed 150,000 cords of pulpwood without the consent of the Minister, in writing.

7. The Company will harvest all sawlog timber and all other timber except pulpwood in such quantities as the Minister may from time to time direct, and shall cause to be manufactured within the Province of Ontario such sawlog and other timber into such sawn products as the Minister may from time to time direct.

The Company shall, as soon as the necessary priorities are available for the required material and labour, construct, erect and install a sawmill or sawmills having a minimum capacity of 20,000 feet of lumber per diem, such sawmill or sawmills to be completed within a reasonable time.

8. As security for the due performance by the Company of its obligations hereunder, the Company shall deposit with the Crown the sum of \$50,000.00 of lawful money of Canada or Bearer Bonds of the Dominion of Canada having a face value of \$50,000.00 in lieu thereof.

9. In the event of the Company at any time making default under the terms of this Agreement, the Minister may give notice in writing to the Company, which shall be sent to it by registered post addressed to the Head Office of the Company, stating the default complained of and requiring the Company to make good such default, and if at the expiration of six (6) months from the date of such notice the default complained of has not been made good, the Minister may declare the rights of the Company under this Agreement forfeited, and thereupon the cash deposit or Bearer Bonds deposited pursuant to the terms hereof shall be forfeited and become the absolute property of the Crown, and this Agreement shall be terminated.

Provided, however, that any default in delay on the part of the Company in the performance or observance of any of the terms and provisions of this Agreement occasioned in whole or in part through extended interruption to power supply, strikes, fire, sabotage, tempest, war, action by princes or sovereign states, acts of God, or other cause beyond the control of the Company, shall not be or be deemed to be a default on the part of the Company under this Agreement.

Provided, further, that the Minister shall be entitled to waive all rights of forfeiture arising under this Agreement by reason of any default if, in the opinion of the Minister, the cause of such default justified the waiving of such right, and thereupon this Agreement shall be construed and the Company's rights hereunder shall continue as though no such default had occurred.

Provided, further, that any interest charge or penalty under this Agreement shall not affect the rights of the Crown to forfeiture under this clause.

10. It is distinctly understood that the right is hereby reserved to the Crown to deal with the lands described in Schedules "A", "B", and "C" hereto, including the timber standing, growing and being thereon, for forest management and other purposes as the Minister may see fit, and in particular, but not so as in any way to limit the generality of the foregoing, it is here specially stipulated and agrees as follows:

- (a) The Crown reserves and excepts from the lands above-described the right of way over any and all railways or travelled roads, islands, Indian Reserves, and all lands under the water

of all rivers, lakes and streams; also all lands heretofore patented, licensed, leased, located or applied for, or in respect of which such proceedings have been taken or shall hereafter be taken as in the opinion of the Minister has entitled or will entitle the applicant or applicants to a lease or patent of such lands; together with the right to sell, lease, locate or otherwise dispose of any lands within the areas described in Schedules "A", "B" and "C" hereto for settlement, mining, summer resort or other purposes on such terms and conditions as may be deemed advisable;

- (b) All water powers and privileges on the said areas or territory not heretofore granted, leased or licensed by the Crown are reserved to and shall be subject to disposition by the Crown;
- (c) The Company shall not have the right to cut or remove timber of any kind from any lands already under timber license or permit from the Crown without the special permission in writing of the Minister.

11. The Company shall operate in accordance with good forestry practice, and within five (5) years from the date hereof shall file with the Department of Lands and Forests a working plan prepared by the Company, which shall be satisfactory to the Minister, providing a general scheme for the operation and management of the area granted, and providing for the placing of its supply of pulpwood on a sustained-yield basis, to the end that the area will be kept productive and in accordance with the provisions of The Pulpwood Conservation Act.

12. At least sixty (60) days prior to the commencement of cutting operations, the Company shall apply to the Minister and obtain his permission in writing for the portions of the lands upon which the Company intends to cut, and the Company shall be entitled to cut only on the portions of the said lands designated in such permission. At the end of each season's operations, and on or before the First day of August in each and every year, the Company shall file with the Minister a map indicating thereon the area cut over during the preceding season and the kinds and quantities of wood and timber taken therefrom.

13. The Minister shall, in and by the written permission provided for in the next preceding clause hereof, designate the kind or kinds of timber to be cut on the areas covered by such permission and the Company shall cut all merchantable wood and timber so designated on such areas in such manner as the Minister may from time to time direct.

14. For the purpose of forest management, watershed protection, preservation of beauty of landscape, fire protection, game preserves or game shelters, or for any other purpose which from time to time the Minister may deem advisable, the Minister may direct operations on a selective system of cutting by the marking of certain trees to be left standing or to be cut, and the cost of such marking shall be borne by the Company.

15. The Company shall take such precautions and employ such means to prevent injury or destruction by fire upon the lands described in Schedules "A", "B", and "C" hereto as the Minister may require, and for the purpose of fire protection charges the area described in Schedule "A" hereto shall be deemed to comprise 2107 square miles, upon which the Company shall pay annually in advance \$6.40 per square mile. It is expressly agreed that should the Company abandon any part of the area in Schedule "A" hereto, pursuant

to the provisions of Clause 1 hereof, the fire protection charges upon the area of 2107 square miles shall nevertheless continue to be paid by the Company. It is agreed that no charges for fire protection shall be payable by the Company from the date of this Agreement to the 31st day of March, 1946, and that such charges shall be first levied for the year commencing the First day of April, 1946. In the event of the Company failing to pay the said charges within one month after the same become due, interest at the rate of six percent (6%) per annum will be charged thereon until paid. The Company shall exercise due diligence in ascertaining whether or not its timber areas are being invaded by insects or disease, and shall furnish the Minister with such information as it has been able to obtain as often as the Minister may require.

Provided that if the Company selects, as herein provided, any portion of the lands in Schedules "B" and "C" hereto, fire protection charges at the rate of \$6.40 per square mile annually in advance shall be paid on such additional lands so selected.

16. The Company shall pay in advance an annual charge for ground rent of \$5.00 per square mile upon 211 square miles. It is agreed that no charge for ground rent shall be payable by the Company from the date of this Agreement to the 31st day of March, 1946, and that such charges shall be first levied for the year commencing the First day of April, 1946. In the event of the Company failing to pay the said charges within one month of the same become due, interest at the rate of six percent (6%) per annum will be charged thereon until paid.

Provided that, if the Company selects any portion of the lands described in Schedules "B" and "C" hereto, ground rent charges at the rate of fifty cents (50c) per square mile shall be paid on such additional lands so selected.

17. It is distinctly understood that the Crown does not guarantee any quantity of wood on the lands described in Schedules "A", "B" and "C" hereto, and that the only right conferred upon the Company hereby is the sole right to cut and remove wood and timber sufficient to enable the Company to operate its mill continuously to its full capacity during said term of twenty-one (21) years, and during any extension or extensions of such term as are hereinafter provided for, on the said lands described in Schedules "A", "B" and "C" hereto, or upon any other lands which from time to time may be designated by the Minister and required by the Company for the maintenance of its full operations, pursuant and subject to the terms and conditions herein contained, and subject to such further conditions and regulations as to the cutting, measuring, removing and driving of the same as may from time to time be imposed by the Lieutenant-Governor-in-Council or by the Minister.

18. The Minister, or any officer or officers of the Department of Lands and Forests, shall have the right to inspect the timber operations on the lands subject to the terms and conditions of this Agreement at any time. If such inspection should show that the timber operations are carried on in such a way that any merchantable or valuable timber which should be removed is being left or destroyed, the Minister shall have the right to have the said timber estimated and charge the same to the Company at the same rate as if it had been actually removed pursuant to the terms of this Agreement, together with such penalty or penalties as the Minister may fix. The cutting and removing of the timber on the lands described in Schedules "A", "B" "C" hereto, or any part thereof shall not be deemed to have been completed until it has been examined by an officer of the Crown, and the operation has been declared satisfactory to the Minister.

19. No refuse, sawdust, chemicals or matter of any other kind, beyond that reasonably necessary for the operation of the Company herein, which shall be or may be injurious to game and fish life shall be placed or deposited in any river, stream or other waters.

20. This Agreement shall be subject to the Forest Fires Prevention Act, and Amendments thereto, and to all regulations thereunder, and to Orders made thereunder by the Minister, and to all other Statutes and Amendments thereto, and all regulations and Orders made thereunder, concerning forest fires prevention; and the foregoing shall govern the operations of the Company under this Agreement as fully as if they had been set forth herein.

21. The Company shall co-operate to the satisfaction of the Minister in the purchase of all bona fide settlers' pulpwood and in making such purchases the Company shall be deemed to be performing to an extent based upon the amount of pulpwood so purchased the obligations imposed by Clause numbered 6 hereof.

22. All bona fide accounts due for settlers' pulpwood purchased by the Company shall constitute a first claim against the Company.

23. The Company may purchase from persons operating under license from the Crown pulpwood cut on lands adjacent to the lands described in Schedules "A", "B" and "C" hereto, and in making such purchases the Company shall be deemed to be performing to an extent based on the amount of pulpwood so purchased the obligations imposed upon it by Clause numbered 6 hereof.

24. The Company is granted under this Agreement no right to the soil of the said lands described in Schedules "A", "B" and "C" hereto, or to the use thereof, except as may be necessary for cutting and removing the said timber as aforesaid, and operations incidental thereto.

25. If, upon the termination of said period of twenty-one (21) years, the Company shall have fully performed the obligations imposed upon it as herein set forth, it shall be entitled at its option to extensions of its rights under this Agreement for further periods of twenty-one (21) years at such prices and upon such terms and conditions as may then be fixed by the Minister.

26. The manufacturing conditions of The Crown Timber Act shall be binding upon the Company and shall apply to its operations under this Agreement as fully and effectually as if they had been set forth herein.

27. The Company undertakes that newsprint will not be manufactured by itself or others either in Canada or elsewhere from any pulpwood cut on the lands covered by this Agreement.

28. The Company covenants and agrees to develop the water power site at Espanola to its practical maximum, and, if and when such power is generated in excess of its requirements as determined by the Board of Directors in consultation with the Minister, the Company will sell such surplus at the direction of the Minister.;

29. This Agreement shall be subject to all Acts of the Legislature of the Province of Ontario which are now or which may hereafter be in force and all regulations duly made under the provisions of such Acts, so far as they may be of general application to the cutting, measuring, removing and driving of timber on and from Crown lands throughout the Province, and the same shall be binding upon and enure unto the Company and shall apply to its operations under this Agreement as fully and effectually as if they had been set forth herein.

30. The Crown grants to the Company the right to use the waters of all rivers, lakes and streams within the cutting areas during the term of this Agreement, and of any renewals or extensions thereof, for the driving of pulpwood or timber, and also the right to make, construct, operate and maintain improvements therein and thereto for the purpose of facilitating the floating of pulpwood or timber. The construction, operation and maintenance of any improvements made upon any waters within the said cutting areas and the driving of timber shall be carried out subject to and in pursuance of The Lakes and Rivers Improvement Act and Regulations made thereunder.

31. It is agreed that the Company shall be entitled to carry out the cutting and driving of timber either by its own employees, subsidiary companies, or by contractors of jobbers.

32. The Company undertakes and agrees that it will during normal times afford employment, either direct or indirect to approximately 350 employees in connection with its woods operations and 250 employees in connection with its pulp mill operations, for six (6) months in each and every year during the term of this Agreement.

33. The Company covenants and agrees to employ Canadian labour and to co-operate with the Crown in maintaining standard rates of wages and otherwise meeting all the requirements as may be provided by The Industrial Standards Act or such other statutory enactments in that behalf as are now or may hereafter be in force.

34. The Company hereby covenants and agrees to observe, perform and keep all covenants, provisions, agreements and conditions on its part herein contained.

35. In case of disagreement as to the true intent and meaning of this Agreement, the same shall be referred to arbitration under The Arbitration Act (Ontario) R.S.O. 1937, Chapter 109.

36. In this Agreement "Minister" shall mean the Minister of Lands and Forests for the time being of the Province of Ontario and "operating season" shall mean the period from the First day of April in any year that this Agreement is in force to the 31st day of March next ensuing.

37. This Agreement shall be binding upon and enure to the benefit of the Company and its assigns, but this Agreement and the rights of the Company hereunder shall not be assigned without the consent of the Minister.

IN WITNESS WHEREOF the parties hereto have executed these presents the day and year first above written.

KALAMAZOO VEGETABLE
PARCHMENT CO.

BY: "R. A. HAYWARD" (SEAL)
PRESIDENT.

AND: "THOM. W. PECK"
SECRETARY.

This is Schedule "A" referred to in the Agreement between His Majesty the King and Kalamazoo Vegetable Parchment Company, dated the 26th day of May, 1944.

ALL AND SINGULAR that certain territory situate in the Districts of Algoma and Sudbury, containing an area of 3718 square miles be the same more or less, and which may be more particularly described as being bounded as follows:—

COMMENCING at the point in the North boundary of the Township of Champagne where it is intersected by the Canadian National Railway; thence Westerly along the North boundary of the Townships of Champagne and Benneweis, six and six-tenth miles more or less to the North-west angle of the last mentioned Township; thence Southerly along the West boundary thereof six and four-tenths miles more or less to the South-west angle of the said Township; thence Westerly along the Northern boundary of the Townships of Invergarry, Smuts, Alcoma, Carew, Cavell, and Township 16, in all, a distance of thirty-five miles more or less to the North-west angle of the last mentioned Township; thence Southerly along the Western boundary of Townships 16, Faust, Hubbard, Iris, Fulton, and Comox, in all, a distance of thirty-six miles more or less to the South-west angle of the last mentioned Township; Thence Easterly along the Southern boundary of the Townships of Comox and Ethel six miles more or less to the North-west angle of Township "P"; thence Southerly along the Western boundary of the last mentioned Township six miles more or less to the South-west angle thereof; thence Easterly along the Southern boundary of Township "P" six miles more or less to the South-east angle thereof; thence Southerly along the Western boundary of Township "K" six miles more or less to the South-west angle thereof; thence Easterly along the Southern boundary of the last mentioned Township six miles more or less to the South-east angle thereof; thence Southerly along the Western boundary of Township "F" six miles more or less to the South-west angle thereof; thence Easterly along the Southern boundary of the last mentioned Township six miles more or less to the South-east angle thereof; thence Southerly along the Western boundary of Township "A" six miles more or less to the South-west angle thereof; thence Easterly along the Southern boundary of Townships "A", 114, 108, Hart, Cartier, Levack, Morgan, Lumsden, Hanmer and Capreol, in all, a distance of Sixty miles more or less to the South-east angle of the last mentioned Township; thence Northern along the Eastern boundary of the Townships of Capreol and Norman seven miles more or less to the intersection with the shore of Wanapitei Lake; thence in a general Northerly direction following the shore of Wanapitei Lake to the intersection with the South-western boundary of Indian Reserve Number Eleven; thence North-westerly, North-easterly, and South-easterly following the boundaries of Indian Reserve Number Eleven, to the Eastern boundary of the Township of Norman; thence Northerly along the said boundary to the North-east angle

of the said Township of Norman; thence Westerly along the Northern boundary of the Township of Norman a distance of six miles more or less to the South-east angle of the Township of Hutton; thence North along the east limits of the Townships of Hutton, Creelman and Beresford, a distance of eighteen miles more or less to the north-east angle of the Township of Beresford; thence West along the North limit of the said Township of Beresford a distance of six miles more or less to the South-east angle of the Township of McNamara; thence Northerly along the Eastern boundary of the last mentioned Township six miles more or less to the North-east angle thereof; thence Westerly along the Northern boundary of the said Township three miles; thence North astronomically three miles; thence West astronomically three miles more or less to the Eastern boundary of the Township of Lampman; thence Northerly thereon three miles more or less to the North-east angle of the said Township; thence Westerly along the Northern boundary of the Township of Lampman six miles more or less to the North-west angle thereof; thence Southerly along the Western boundary of the said Township five and one-half miles more or less to the intersection with the Canadian National Railway; thence in a general North-westerly direction following the Canadian National Railway to the point of commencement.

THIS IS SCHEDULE "B" referred to in the Agreement between His Majesty the King and Kalamazoo Vegetable Parchment Company, dated the 26th day of May, 1944.

ALL AND SINGULAR that certain territory situate in the Districts of Algoma and Sudbury containing a total area of 1,278 square miles be the same more or less, and which may be more particularly described as follows:—

FIRSTLY: The Townships of Yeo, Arbutus, Huffman, Fingal, Edith, Esther, Fawn, numbers 17, 18, 19, 21, 22, 23, 26, 7-Z, 8-Z, 9-Z, the south-half of Cunningham, the south half of Greenlaw, the south-half of Tooms, containing an area of 666 square miles more or less.

SECONDLY: The Townships of Tennyson, O, N, J, M, I, E, 139, 132, 125, 131, 124, 130, 123, the West-half of 120, the North-half of 138, the West-half of 119, the West-half of 118, the East-half of 129, and the West-half of Gough; containing an area of 612 square miles more or less.

THIS IS SCHEDULE "C" referred to in the Agreement between His Majesty the King and Kalamazoo Vegetable Parchment Company, dated the 26th day of May, 1944.

ALL AND SINGULAR that certain territory situate in the District of Sudbury, containing an area of 414 square miles, and which may be more particularly described as follows:—

The Townships of Somme, Potier, Neville, Chester, Marion, Eric, Mallard, Osway, Benton, Garnet, the North-half of Cunningham, the North-half of Greenlaw, and the North-half of Tooms.

THIS AGREEMENT, made this 27th day of October A.D. 1944,
BETWEEN:

HIS MAJESTY THE KING, In right of the Province of Ontario as represented by the Minister of Lands and Forests, hereinafter referred to as the "Crown",

OF THE FIRST PART,

—and—

J. A. MATHIEU, LIMITED, a Company incorporated under the laws of the Province of Ontario and having its Head Office at the Town of Rainy Lake in the District of Rainy River, hereinafter called the "Company",

OF THE SECOND PART:

WHEREAS the Company has carried on timber operations in the District of Rainy River, and has operated a sawmill at Fort Frances, for the past several years, and has applied to the Crown for permission to cut sawlogs on an area in the vicinity of the Seine River, more particularly described in Schedule "A" hereto, for the purpose of supplying the Fort Frances mill and a mill, or mills, to be built within the area described in the said Schedule "A";

NOW THEREFORE THIS AGREEMENT WITNESSETH THAT:

1. The Crown, with the consent and approval of the Lieutenant-Governor in-Council and subject to the granting of a yearly license pursuant to the Crown Timber Act, Chapter 36, R.S.O. 1937, doth grant to the company for a period of ten (10) years, commencing on the First day of April, 1944, the right to cut and remove the kinds and classes of timber specified in Clause 4 of this Agreement on the lands described in Schedule "A" hereto.

2. If, upon the termination of said period of ten (10) years, the Company shall have fully performed the obligations imposed upon it, as set forth, to the satisfaction of the Minister, it shall be entitled to an extension of its rights under this Agreement for a further period of ten (10) years, or such period as the Minister may approve, at such prices and upon such terms and conditions as may then be fixed by the Minister.

3. The Crown does not guarantee any quantity of timber on the area hereby granted to the Company.

4. The Company shall pay to the Treasurer of the Province of Ontario for timber cut on the said area under the terms hereof the following prices:

Jackpine	\$4.75 per M.B.M.
Red and White Pine.....	7.50 per M.B.M.
Spruce.....	6.00 per M.B.M.
Poplar.....	3.75 per M.B.M.

The above prices shall be subject only to variation in Crown dues which may be hereafter generally effected by Regulation throughout the Province of Ontario.

5. For the purpose of calculating ground rent and fire protection charges the area described in Schedule "A" hereto shall be deemed to comprise 265 square miles, and the Company shall pay annually in advance ground rent and fire protection charges at the rate of \$11.40 per square mile on an area of 265 square miles, commencing from the First day of April, 1944. Interest at the rate of Six percent (6%) per annum shall be charged on amounts which remain unpaid after thirty (30) days from the due date.

6. The Company covenants and agrees to erect and have in operation for the season 1945-46 a sawmill situated on within the area in Schedule "A" hereto having a capacity not exceeding 12,000,000 ft. B.M. annually.

7. The Company covenants that during the term of this Agreement and any extension or extensions thereof it will manufacture a minimum of 4,000,000 ft. B.M. annually, and shall not manufacture more than 12,000,000 ft. B.M. annually at the mill or mills to be erected within the area in Schedule "A" hereto; provided that the Company shall continue to operate its Fort Frances mill for such length of time as timber may be economically supplied to it, and in any event until such time as 20,000,000 ft. B.M. supplied from the area in the said Schedule "A" has been manufactured at the said Fort Frances mill.

8. The Company covenants and agrees that it will manufacture, in the Province of Ontario, all sawlog timber cut on the area above-described into lumber, ties or other manufactured products to the satisfaction of the Minister.

9. In the computation of the hereinbefore-referred-to minimum and maximum cut the production of railway ties shall from and be part thereof.

10. The Company upon execution of this Agreement shall deposit with the Crown, in the Department of Lands and Forests, bonds approved by the Minister in the sum of Twenty Thousand Dollars (\$20,000.00), to be held by the Crown for the due performance by the Company of its obligations hereunder.

11. Before commencing operations in any year, the Company shall pay to the Treasurer of the Province of Ontario a sum of money which shall be the equivalent of twenty percent (20%) of the value of the timber proposed to be cut by the Company during the next ensuing operating season. The balance of the amount owing by the Company for timber cut during any operating season shall be paid on or before the First day of October in the calendar year in which such timber is scaled and a return thereof is made to the Department of Lands and Forests.

12. Should the Company establish any community for the purpose of utilizing the timber on the areas set out in this Agreement, such community shall be removed at the conclusion of the operation at the expense of the Company. As a guarantee that such removal shall be completed to the satisfaction of the Minister, the Company shall before establishment of such community deposit with the Crown in the Department of Lands and Forests, \$5,000.00 in cash or a bond approved by the Minister in the said sum of \$5,000.00.

13. The Company shall operate in accordance with good forestry practice, and within three (3) years from the date hereof shall file in the Department a working plan prepared by the said Company, which shall be satisfactory to the Minister, providing a general scheme for the operation and management of the said area, to the end that it will be kept productive and in accordance with the Provincial Forests Act.

14. For the purpose of forest Management, watershed protection, preservation of beauty of landscape, fire protection, game preserves or game shelters, or for any other purpose which from time to time the Minister may deem advisable, the Minister may direct operations on a selective system of cutting by the marking of certain trees to be left standing or to be cut, and the cost of such marking shall be borne by the Company.

15. At the direction of the Minister, the Company shall cut merchantable damaged timber, at rates to be determined by the Minister.

16. The right is reserved by the Crown to deal with the lands covered by this Agreement, and the timber standing, growing and being thereon for

reforestation or such other purposes which, in the opinion of the Minister, may be necessary for the development and maintenance of any industry or industries other than timber and kindred industries.

17. Sixty (60) days before commencing operations in any season the Company shall give such particulars as the Minister may require as to the proposed operation, and shall obtain the consent in writing of the Minister to proceed with such operation.

18. On or before the First day of March in each year the Company shall apply to, and obtain permission in writing from, the Department of Lands and Forests for the portion or portions of said area, if any, on which cutting for the then coming summer season may take place, and at the end of each summer season's operations, and not later than the First day of October in each and every year, shall file with the Minister a map indicating thereon the portion or portions of said area, if any, cut over during the preceding summer season, and the kinds and quantities of each class of timber taken therefrom.

19. On or before the First day of September in each year the Company shall apply to, and obtain permission in writing from the Department of Lands and Forests for the portion or portions of said area on which cutting for the then coming winter season may take place, and at the end of each winter season's operations, and not later than the First day of July in each and every year, shall file with the Minister a map indicating thereon the portion or portions of said area cut over during the preceding winter season and the kinds and quantities of each class of timber taken therefrom.

20. Proper sworn returns of the quantity of timber cut each season shall be made to the Crown in conformity with the Regulations under The Crown Timber Act, and accounts shall be due and payable on the First day of October, and on all accounts which remain unpaid after the Thirty-first day of October in the same year interest shall be charged at the rate of Six percent (6%) per annum, calculated from the First day of October in the same year.

21. The Minister, or any officer or officers of the Department of Lands and Forests, shall have the right to inspect the timber operations on the allotted territory at any time. If such inspection shall show that the timber operations are carried on in such a way that any merchantable or valuable timber which should be removed is being left or destroyed, the Minister shall have the right to have the said timber estimated and charge the same to the Company at the same rate as if it had been actually removed pursuant to the terms of this Agreement, together with such penalty or penalties as the Minister may fix. The cutting and removing of the timber on and from the territory, or any part thereof, shall not be deemed to have been completed until it has been examined by an officer of the Crown, and the operation has been declared satisfactory by the Minister.

22. It is understood and agreed that no operations other than those conducted by the Company shall be permitted on the said area without the consent in writing of the Minister.

23. No refuse, sawdust, chemicals or matter of any other kind which shall be or may be injurious to game and fish life shall be placed in or deposited in any river, stream or other waters.

24. The Crown agrees to permit the Company to use the waters of all rivers, lakes and streams within the cutting areas during the term of this Agreement for the driving of timber, and also the right to make, construct, operate and maintain improvements therein and thereto for the purpose of

facilitating the floating of timber. The construction, operation and maintenance of any improvements made upon any waters within the said cutting areas and the driving of timber shall be carried out subject to and in pursuance of The Lakes and Rivers Improvement Act, R.S.O. 1937, Chapter 45, and regulations made thereunder.

25. All water powers and privileges on the said area, together with the right of the Crown to raise, hold, lower or maintain the waters of the rivers, streams and lakes in the said area at such height and in such condition as may be found necessary and expedient for the development of the said water powers and privileges, are reserved to the Crown.

26. This Agreement shall be subject to all Acts of the Legislature of the Province of Ontario which are now or which may hereafter be in force and all regulations duly made under the provisions of any such Acts, so far as they may be of general application to the protection, cutting, measuring, removing and driving of timber on and from Crown Lands throughout the Province, and the same shall apply to operations of the Company under this Agreement as fully and effectually as if they had been set forth herein.

27. The manufacturing conditions of The Crown Timber Act and all existing or further amendments to the said The Crown Timber Act, and all other conditions, acts and regulations now existing or as may hereafter be imposed, relating in any way to the cutting of the timber on Crown lands, are hereby made part of the Agreement and shall be applicable to the operations of the Company, and shall be binding upon the Company as fully and effectually as if they had been set forth herein. Provided always, that nothing contained in such conditions, acts and regulations shall limit, restrict or curtail the duties, liabilities and obligations imposed upon the Company by virtue of this Agreement.

28. This Agreement shall be subject to The Forest Fires Prevention Act, R.S.O. 1937, Chapter 325, and Amendments thereto, and to all Regulations thereunder, and to Orders made thereunder by the Minister, and to all other Statutes and Amendments thereto, and all Regulations and Orders made thereunder, concerning forest fires prevention; and the foregoing shall govern the operations of the Company under this Agreement as fully and effectually as if they had been set forth herein.

29. The Company shall exercise due diligence in ascertaining whether or not the timber on the areas herein specified is being infected by insects or disease and shall furnish the Minister with such information as it is able to obtain in respect thereof, as often as the Minister may so require.

30. The Company covenants and agrees to employ Canadian Labour and to co-operate with the Crown in maintaining standard rates of wages and otherwise meeting all the requirements provided by the Industrial Standards Act or such other statutory enactments in that behalf as are now or may hereafter be in force.

31. In the event of the Company making default in the performance of its obligations under the terms of this Agreement, the Minister may upon sixty (60) days' notice in writing to the Company at its Head Office at Rainy Lake, Ontario, declare the rights of the Company hereunder forfeited, and declare the cash deposits and other collateral securities deposited herein forfeited to the Crown. Provided, however, that any default on the part of the Company in the performance or observance of any of the provisions of this Agreement, occasioned in whole or in part through strikes, fire, tempest, war, sabotage,

action by princes or sovereign states, acts of God, or other causes beyond the control of the Company, shall not be deemed to be a default on the part of the Company.

32. The Minister shall have the right to waive all rights of forfeiture arising under this Agreement by reason of any default if, in the opinion of the Minister, the cause of such default justifies the waiving of such right, and thereupon this Agreement shall be construed and the Company's rights hereunder shall continue as though no such default had occurred.

33. The Company is granted under this Agreement no right to the soil or freehold of the said areas, or to the use thereof except as may be necessary for cutting and removing the said timber as aforesaid, and operations incidental thereto.

34. All officers of the Crown, including scalers, scalers' assistants, and check-scalers, who are designated to work on the operation of the Company shall be provided with accommodation and board to the satisfaction of the Minister and at the expense of the Company.

35. Immediately upon the execution of these presents, the Company shall have the right to commence the construction of logging roads and other improvements necessary to its proposed operations on the area hereby granted to it.

36. In case of disagreement as to the true intent and meaning of this Agreement, the same shall be referred to arbitration under the Arbitration Act (Ontario) R.S.O. 1937, Chapter 109.

37. The Company hereby covenants and agrees to observe, perform and keep all the covenants, provisions, agreements and conditions on its part herein contained.

38. In this Agreement "Minister" shall mean the Minister of Lands and Forests for the time being of the Province of Ontario, and "operating season" shall be defined by the Regulations under The Crown Timber Act.

39. This Agreement shall be binding upon and enure to the benefit of the Company and its assigns, but this Agreement and the rights of the Company hereunder shall not be assigned without the prior knowledge and consent of the Minister.

IN WITNESS WHEREOF the parties hereto have executed these presents the day and year first above written.

SCHEDULE "A"

ALL AND SINGULAR that certain territory situate, lying and being in the Districts of Kenora and Rainy River containing in all an area of 365 square miles, be the same more or less, the boundaries of which may be more particularly described as follows:

FIRSTLY

That part lying in the District of Kenora and containing 29 square miles, more or less;

COMMENCING at a point in the boundary line between the Districts of Kenora and Thunder Bay where it intersects the boundary line between the Districts of Kenora and Rainy River;

THENCE west astronomically along the boundary line between the Districts of Kenora and Rainy River 18 miles;

THENCE north astronomically 2 miles;

THENCE east astronomically 4 miles more or less to the intersection with the west shore of Rea Lake;

THENCE southerly and easterly following the western and southern shores of Rea Lake to the eastern extremity thereof;

THENCE northerly following a stream about three quarters of a mile to the south shore of an unnamed lake;

THENCE easterly following the south shore of the said unnamed lake and a stream to the east thereof, a distance of one half a mile more or less to the western shore of an unnamed lake west of Keewatin Lake;

THENCE easterly and northerly following the southern and eastern shores of the said unnamed lake to the northeasterly extremity thereof;

THENCE northeasterly in a straight line 1- $\frac{1}{2}$ miles more or less to a point in the southeastern shore of Welsh Lake which is distant 11 miles measured west astronomically from the boundary line between the Districts of Kenora and Thunder Bay;

THENCE south astronomically being along the western boundary of Timber License No. 41 for 1942-43 a distance of 4 miles more or less to the boundary line between the Districts of Kenora and Rainy River;

THENCE east astronomically along said boundary line 7 miles;

THENCE north astronomically one quarter of a mile more or less to the south shore of Old Man Lake;

THENCE northeasterly, northerly and westerly following the southern, eastern and northern shores of the said lake to the intersection with a line drawn south astronomically and distant 2 and $\frac{1}{2}$ miles measured west astronomically from the boundary line between the Districts of Kenora and Thunder Bay;

THENCE north astronomically along said line 2 and $\frac{1}{2}$ miles more or less to the intersection with the south shore of a small lake at the northern end of Skunk Portage;

THENCE easterly and northerly following the southern and eastern shores of the said lake to its northern extremity;

THENCE east astronomically 2 and $\frac{1}{4}$ miles more or less to the boundary line between the Districts of Kenora and Thunder Bay;

THENCE south astronomically thereon 4 and $\frac{1}{4}$ miles more or less to the point of commencement;

SECONDLY:

That part lying in the District of Rainy River and containing 336 square miles more or less;

COMMENCING at a point in the boundary line between the Districts of Kenora and Thunder Bay where it intersects the boundary line between the Districts of Kenora and Rainy River;

THENCE west astronomically along the boundary line between the District of Kenora and Rainy River 18 miles;

THENCE south astronomically 18 miles more or less to the intersection with the Canadian National Railway;

THENCE easterly following the said railway to the intersection with the boundary line between the Districts of Rainy River and Thunder Bay;

THENCE north astronomically along the said boundary line 20 miles more or less to the point of commencement.

THIS AGREEMENT, made this 8th day of November, A.D. 1944.

BETWEEN:

HIS MAJESTY THE KING, in right of the Province of Ontario as represented by the Minister of Lands and Forests, hereinafter referred to as the "Crown",

OF THE FIRST PART,

—and—

J. S. L. McRAE, hereinafter referred to as the "Operator",

OF THE SECOND PART:

| THIS AGREEMENT WITNESSETH THAT:

1. Subject to the approval of the Lieutenant-Governor-in-Council and subject to the granting of a yearly license pursuant to the Crown Timber Act, Chapter 36 R.S.O. 1937, and to the terms and conditions hereof, the Crown, with consent of the Lieutenant-Governor-in-Council, doth grant to the Operator for a period of ten (10) years from the First day of April, A.D. 1943 the right to cut and remove the timber specified in Clause 2 of this Agreement on the lands described in Schedule "A" attached hereto.

2. The Operator shall pay to the Treasurer of the Province of Ontario on behalf of the Crown the following rates for timber cut:

Hardwoods.....	\$7.00 per M. ft. B. M.
Hemlock.....	4.00 per M. ft. B. M.
Spruce.....	7.00 per M. ft. B. M.
Pine.....	8.50 per M. ft. B. M.
Poplar.....	4.00 per M. ft. B. M.
Spruce Pulpwood.....	1.40 per cord
Balsam Pulpwood.....	.70 per cord
Other Pulpwood.....	.40 per cord

The above rates are inclusive of Crown dues.

3. The Operator shall pay annually in advance ground rent and fire protection charges at the rate of \$11.40 per square miles on an area of 72½ square miles, commencing from the First day of April, A.D. 1943. Interest at the rate of Six percent (6%) per annum shall be charged on amounts which remain unpaid after thirty days from the due date.

4. At the direction of the Minister, the Operator shall cut merchantable damaged timber at rates to be determined by the Minister.

5. The deposit of the Operator in the amount of Fourteen Thousand, two hundred Dollars (\$14,200.00) for the due performance by the Operator of his obligations under Agreements now in effect between the Crown and the Operator on licensed areas in the Townships of Nightingale, Connisby, McLaughlin and Bruton shall be considered a deposit by the Operator herein, and be held by the Crown for the due performance by him of his obligations under this Agreement.

6. In the event of the Operator making default in the performance of his obligations under the terms of this Agreement, the Minister may upon sixty (60) days' notice in writing to the Operator at his Head Office at Whitney, Ontario, declare the rights of the Operator hereunder forfeited and declare the cash deposits and other securities herein forfeited to the Crown. Provided, however, that any default on the part of the Operator in the performance or observance of any of the provisions of this Agreement, occasioned in whole or in part through strikes, fire, tempest, war, sabotage, action by Princes or Sovereign States, acts of God, or other causes beyond the control of the Operator, shall not be deemed to be a default on the part of the Operator.

7. The Minister shall have the right to waive all rights of forfeiture arising under this Agreement by reason of any default, if, in the opinion of the Minister, the cause of such default justifies the waiving of such right.

8. The Operator is granted under this Agreement no right to the soil or freehold of the said area or to the use thereof, except as may be necessary for cutting and removing the said timber as aforesaid, and operations incidental thereto, and it is distinctly understood that the right is hereby reserved to the Crown to deal with the lands above described, and the timber standing, growing and being thereon, for forest management and other purposes as the Minister may see fit.

9. Within three (3) years from the date of this Agreement the Operator shall file with the Department a plan which shall be satisfactory to the Minister for the operation and management of the area granted, to the end that the area will be kept productive, and in accordance with the provisions of The Provincial Forests Act.

10. Proper sworn returns of the quantity of timber cut in each season shall be made to the Crown in conformity with the Crown Timber Regulations, and accounts shall be due and payable on the First day of October, and on all accounts which remain unpaid after the Thirty-first day of October in the same year interest shall be charged at the rate of Six percent (6%) per annum, calculated from the First day of October in the same year.

11. The Crown does not guarantee any quantity of timber on the area hereby granted to the Operator.

12. The Minister, or any officer or officers of the Department of Lands and Forests, shall have the right to inspect the timber operations on the allotted territory at any time. If such inspections shall show that the timber operations

are carried on in such a way that any merchantable or valuable timber which should be removed is being left or destroyed, the Minister shall have the right to have the said timber estimated and charge the same to the Operator at the same rate as if it had been actually removed pursuant to the terms of this Agreement, together with such penalty or penalties as the Minister may fix. The cutting and removing of the timber on and from the territory, or any part thereof, shall not be deemed to have been completed until it has been examined by an officer of the Crown, and the operation has been declared satisfactory by the Minister.

13. No refuse, sawdust, chemicals or matter of any other kind shall be placed in or deposited in any river, stream or other waters which shall be or may be injurious to game and fish life.

14. This Agreement shall be subject to the Forest Fires Prevention Act, R.S.O. 1937, Chapter 325, and Amendments thereto, and to all Regulations thereunder, and to Orders made thereunder by the Minister, and to all other Statutes and Amendments thereto, and all Regulations and Orders made thereunder concerning forest fires prevention; and the foregoing shall govern the operation of the Operator under this Agreement as fully as if they had been set forth herein.

15. This Agreement shall be subject to all Acts of the Legislature of the Province of Ontario which are now or which may hereafter be in force and all regulations duly made under the provisions of any such Acts, so far as they may be of general application to the protection, cutting, measuring, removing and driving of timber on and from Crown lands throughout the Province, and the same shall apply to the operations of the Operator under this Agreement as fully and effectually as if they had been set forth herein.

16. The Crown agrees to permit the Operator to use the waters of all rivers, lakes and streams within the cutting areas during the term of this Agreement for the driving of timber, and also the right to make, construct, operate and maintain improvements therein and thereto for the purpose of facilitating the floating of timber. The construction, operation and maintenance of any improvements made upon any waters within the said cutting areas and the driving of timber shall be carried out subject to and in pursuance of The Lakes and Rivers Improvement Act, R.S.O. 1937, Chapter 45, and Regulations made thereunder.

17. The Operator covenants and agrees to employ Canadian labour and to co-operate with the Crown in maintaining standard rates of wages and otherwise meeting all the requirements as may be provided by The Industrial Standards Act or such other statutory enactments in that behalf as are now or may hereafter be in force.

18. The Operator covenants and agrees that he will manufacture in the Province of Ontario all log timber cut on the area above described into lumber, ties, or other manufactured products, to the satisfaction of the Minister.

19. It is understood and agreed that no operations other than those conducted by the Operator shall be permitted on the said area without the consent in writing of the Minister.

20. If, upon the termination of said period of ten (10) years the Operator shall have fully performed the obligations imposed upon him, as set forth, to the satisfaction of the Minister, he shall be entitled to an extension of his rights under this Agreement for a further period of ten (10) years, or such period as the Minister may approve, at such prices and upon such terms and conditions as may then be fixed by the Minister.

21. For the purpose of forest management, watershed protection, preservation of beauty of landscape, fire protection, game preserves or game shelters, or for any other purpose which from time to time the Minister may deem advisable, the Minister may direct operations on a selective system of cutting by the marking of certain trees to be left standing or to be cut, and the cost of such marking shall be borne by the Operator.

22. The Operator shall be required during the currency of this Agreement to operate a sawmill or sawmills and manufacture yearly a minimum of 2,000,000 ft. B.M., mill scale.

23. Should the Operator establish any community for the purpose of utilizing the timber on the area set out in this Agreement, such community shall be removed at the conclusion of the operation at the expense of the Operator. As a guarantee that such removal shall be completed to the satisfaction of the Minister, the Operator shall before establishment of such community deposit with the Crown in the Department of Lands and Forests \$5,000.00 in cash or a bond approved by the Minister in the said sum of \$5,000.00.

24. In case of disagreement as to the true intent and meaning of this Agreement, the same shall be referred to arbitration under The Arbitration Act (Ontario) R.S.O. 1937, Chapter 109.

25. The Operator hereby covenants and agrees to observe, perform and keep all the covenants, provisions, agreements and conditions on his part herein contained.

26. In this Agreement "Minister" shall mean the Minister of Lands and Forests for the time being of the Province of Ontario.

27. This Agreement shall be binding upon and enure to the benefit of the Operator and his assigns, but this Agreement and the rights of the Operator hereunder shall not be assigned without the prior knowledge and consent of the Minister.

IN WITNESS WHEREOF the parties hereto have executed these presents the day and year first above written.

in the presence of:

"F. J. SULLIVAN"

"A. MCGREGOR"

"W. G. THOMPSON" (SEAL)

MINISTER OF LANDS AND FORESTS
FOR THE PROVINCE OF ONTARIO.

"JOHN S. McRAE" (SEAL)

THIS IS SCHEDULE "A" referred to in the Agreement between His Majesty the King and J. S. L. McRae dated the 8th day of November 1944.

ALL AND SINGULAR that certain territory situate in the Township of Clyde in the Provisional County of Haliburton containing an area of 72 and 1/2 square miles more or less and which may be more particularly described as follows:—

BEING the whole of the said township Save and Excepting therefrom that part of the said township lying in concessions 1 and 2 and west of the centre line of the allowance for road between lots 15 and 16.

THIS AGREEMENT, made the eighth day of November, A.D. 1944,
BETWEEN:

HIS MAJESTY THE KING, in right of the Province of Ontario,
as represented by the Minister of Lands and Forests, hereinafter
referred to as the "Crown",

OF THE FIRST PART:

—and—

TEMAGAMI TIMBER COMPANY, LIMITED, hereinafter
referred to as the "Company",

OF THE SECOND PART:

THIS AGREEMENT WITNESSETH THAT:

1. Subject to the approval of the Lieutenant-Governor-in-Council and subject to the granting of a yearly license pursuant to the Crown Timber Act Chapter 36, R.S.O. 1937 and to the terms and conditions hereof, the Crown, with the consent of the Lieutenant-Governor-in-Council, doth grant to the Company for a period of ten (10) years from the First day of April, A.D. 1944 the right to cut and remove the timber specified in Clause 2 of this Agreement on the lands described in Schedule "A" attached hereto.

2. The Company shall pay to the Treasurer of the Province of Ontario on behalf of the Crown the following rates for timber cut:

Red and White Pine Sawlogs—\$9.50 per M. ft. B.M. Doyle rule (inclusive of brush-burning charges). The above rate is inclusive of Crown dues.

3. The Company shall pay annually in advance ground rent and fire protection charges at the rate of \$11.40 per square mile on an area of eighteen (18) square miles, commencing from the First day of April, 1944. Interest at the rate of Six percent (6%) per annum shall be charged on amounts which remain unpaid after thirty (30) days from the due date.

4. At the direction of the Minister, the Company shall cut merchantable damaged timber, at rates to be determined by the Minister.

5. The right is reserved to the Crown to deal with the lands covered by this Agreement, and the timber standing, growing and being thereon, for reforestation or such other purposes which, in the opinion of the Minister, may be necessary for the development and maintenance of any industry or industries other than timber and kindred industries.

6. The deposit of the Company in the amount of Twenty-four Thousand, Five Hundred Dollars (\$24,500.00) for the due performance by the Company of its obligations under Agreements now in effect between the Crown and the Company on licensed areas in the Townships of Strathcona, Best, Strathy, Chambers and Briggs shall be considered a deposit by the Company herein, and be held by the Crown for the due performance by it of its obligations under this Agreement.

7. In the event of the Company making default in the performance of its obligations under the terms of this Agreement, the Minister may upon sixty (60) days' notice in writing given to the Company at its Head Office at Goward, Ontario, declare the rights of the Company hereunder forfeited and declare the cash deposit and other collateral securities herein deposited forfeited to the Crown. Provided, however, that any default on the part of the Company in the performance or observance of any of the provisions of this Agreement occasioned in whole or in part through strikes, fire, tempest, war, sabotage, action by Princes or Sovereign States, Acts of God, or other causes beyond the control of the Company, shall not be deemed to be a default on the part of the Company.

8. The Minister shall have the right to waive all rights of forfeiture arising under this Agreement by reason of any default if, in the opinion of the Minister, the cause of such default justifies the waiving of such right.

9. The Company is granted under this Agreement no right to the soil or freehold of the said area or to the use thereof, except as may be necessary for cutting and removing the said timber as aforesaid, and operations incidental thereto, and it is distinctly understood that the right is hereby reserved to the Crown to deal with the lands above-described, and the timber standing, growing and being thereon, for forest management and other purposes as the Minister may see fit.

10. The Company shall operate in accordance with good forestry practice and within three years from the date hereof shall file in the Department of Lands and Forests a working plan prepared by the said Company providing a general scheme for the operation of the said limit.

11. Proper sworn returns of the quantity of timber cut in each season shall be made to the Crown in conformity with the Crown Timber Regulations, and accounts shall be due and payable on the First day of October, and on all accounts which remain unpaid after the Thirty-first day of October in the same year interest shall be charged at the rate of Six percent (6%) per annum, calculated from the First day of October in the same year.

12. The Crown does not guarantee any quantity of timber on the area hereby granted to the Company.

13. The Minister, or any officer or officers of the Department of Lands and Forests, shall have the right to inspect the timber operations on the allotted territory at any time. If such inspection shall show that the timber operations are carried on in such a way that any merchantable or valuable timber which should be removed is being left or destroyed, the Minister shall have the right to have the said timber estimated and charge the same to the Company at the same rate as if it had been actually removed pursuant to the terms of this Agreement, together with such penalty or penalties as the Minister may fix. The cutting and removing of the timber on and from the territory or any part thereof shall not be deemed to have been completed until it has been examined by an officer of the Crown, and the Operation has been declared satisfactory by the Minister.

14. No refuse, sawdust, chemicals or matter of any other kind which shall be or may be injurious to game and fish life shall be placed in or deposited in any river, stream or other waters.

15. This Agreement shall be subject to The Forest Fires Prevention Act, R.S.O. 1937, Chapter 325, and Amendments thereto, and to all Regulations thereunder, and to Orders made thereunder by the Minister, and to all other

Statutes and Amendments thereto, and all Regulations and Orders made thereunder concerning forest fires prevention; and the foregoing shall govern the operations of the Company under this Agreement as fully and effectually as if they had been set forth herein.

16. This Agreement shall be subject to all Acts of the Legislature of the Province of Ontario which are now or which may hereafter be in force and all regulations duly made under the provisions of any such Acts so far as they may be of general application to the protection, cutting, measuring, removing and driving of timber on and from Crown lands throughout the Province, and the same shall apply to operations of the Company under this Agreement as fully and effectually as if they had been set forth herein.

17. The Crown agrees to permit the Company to use the waters of all rivers, lakes and streams within the cutting areas during the term of this Agreement for the driving of timber, and also the right to make, construct, operate and maintain improvements therein and thereto for the purpose of facilitating the floating of timber. The construction, operation and maintenance of any improvements made upon any waters within the said cutting areas and the driving of timber shall be carried out subject to and in pursuance of The Lakes and Rivers Improvement Act, R.S.O. 1937, Chap. 45, and Regulations made thereunder.

18. The Company covenants and agrees to employ Canadian labour and to co-operate with the Crown in maintaining standard rates of wages and otherwise meeting all the requirements as may be provided by The Industrial Standards Act or such other statutory enactments in that behalf as are now or may hereafter be in force.

19. The Company covenants and agrees that it will manufacture all log timber cut on the area above-described into lumber, ties, or other manufactured products to the satisfaction of the Minister in the Province of Ontario.

20. It is understood and agreed that no operations other than those conducted by and for the Company shall be permitted on the said area without the consent in writing of the Minister.

21. If, upon the termination of said period of ten (10) years, the Company shall have fully performed the obligations imposed upon it, as set forth, to the satisfaction of the Minister, it shall be entitled to an extension of its rights under this Agreement for a further period of ten (10) years, or such period as the Minister may approve, at such prices and upon such terms and conditions as may then be fixed by the Minister.

22. For the purpose of forest management, watershed protection, preservation of beauty of landscape, fire protection, game preserves or game shelters, or for any other purpose which from time to time the Minister may deem advisable, the Minister may direct operations on a selective system of cutting by the marking of certain trees to be left standing or to be cut, and the cost of such marking shall be borne by the Company.

23. Within three years from the date of this Agreement, the Company shall file with the Department a plan for the operation and management of the area granted, to the end that the area will be kept productive and in accordance with the provisions of The Provincial Forests Act.

24. The Company shall be required during the currency of this Agreement to operate a sawmill or sawmills and manufacture yearly a minimum of 2,000,000 ft. B.M., mill scale.

25. Should the Company establish any community for the purpose of utilizing the timber on the area set out in the Agreement, such community shall be removed at the conclusion of the operation at the expense of the Company. As a guarantee that such removal shall be completed to the satisfaction of the Minister, the Company shall before establishment of such community deposit with the Crown in the Department of Lands and Forests \$5,000.00 in cash or a bond approved by the Minister in the said sum of \$5,000.00.

26. All officers of the Crown, including scalers, scalers' assistants and check-scalers, who are designated to work on the operation of the Company shall be provided with accommodation and board to the satisfaction of the Minister and at the expense of the Company.

27. In case of disagreement as to the true intent and meaning of this Agreement, the same shall be referred to arbitration under The Arbitration Act (Ontario) R.S.O. 1937, Chapter 109.

28. The Company hereby covenants and agrees to observe, perform and keep all the covenants, provisions, agreements and conditions on its part herein contained.

29. In this Agreement "Minister" shall mean the Minister of Lands and Forests, for the time being, of the Province of Ontario.

30. This Agreement shall be binding upon and enure to the benefit of the Company and its assigns, but this Agreement and the rights of the Company hereunder shall not be assigned without the prior knowledge and consent of the Minister.

IN WITNESS WHEREOF the Parties hereto have executed these presents the day and year first above written.

SIGNED, SEALED AND DELIVERED

in the presence of:

"F. A. MACDOUGALL"

"K. MERRYFIELD"

Witness as to signature of

A. B. GORDON.

"W. G. SINCLAIR"

Witness as to the signature of

S. H. BURWASH.

"W. G. THOMPSON" (SEAL)

MINISTER OF LANDS AND FORESTS
FOR THE PROVINCE OF ONTARIO.

TEMAGAMI TIMBER COM-
PANY, LIMITED.

By: "A. B. GORDON"
VICE-PRES. (SEAL)

AND: "S. H. BURWASH"
MANAGER.

THIS IS SCHEDULE "A" referred to in the Agreement between His Majesty the King and Temagami Timber Company, Limited dated the 8th day of November A.D. 1944.

ALL AND SINGULAR that certain territory situate in the Townships of Chambers and Law in the Temagami Provincial Forest, District of Nipissing, containing a total area of 18 square miles, more or less, and which may be more particularly described as follows:

CHAMBERS TOWNSHIP:

COMMENCING at the southwest angle of the said township;

THENCE northerly along the west boundary thereof 3 miles;

THENCE east astronomically 3 miles;

THENCE south astronomically 3 miles more or less, to the south boundary of the said township;

THENCE westerly thereon 3 miles, more or less, to the point commencement.

LAW TOWNSHIP:

COMMENCING at the northwest angle of the said township;

THENCE easterly along the north boundary thereof 3 miles;

THENCE south astronomically 3 miles;

THENCE west astronomically 3 miles, more or less, to the west boundary of the said township;

THENCE northerly thereon 3 miles, more or less, to the point of commencement.

SAVE AND EXCEPTING THEREFROM that portion of the Township of Law lying west of the northern arm of Wasaksina Lake and containing $\frac{1}{10}$ th of a square miles, more or less.

LETTER OF TRANSMISSION

TO THE HONOURABLE ALBERT MATTHEWS,
Lieutenant-Governor of the Province of Ontario.

MAY IT PLEASE YOUR HONOUR:—

The undersigned has the honour to transmit to you herewith, for presentation to the Legislative Assembly of the Province of Ontario, the Fifty-third Annual Report, 1944, of the Department over which I have the honour to preside.

Respectfully submitted,

LESLIE M. FROST,
Minister of Mines.

DEPARTMENT OF MINES,
Toronto, 1946.

INTRODUCTORY LETTER

TO THE HONOURABLE LESLIE M. FROST,
Minister of Mines.

SIR,—The undersigned has the honour to submit the Fifty-third Annual Report of the Department of Mines, issued in six parts, as follows:—

PART I

Statistical Review of the Mineral Industry of Ontario for 1943, by Maurice Tremblay.
List of Mines, Quarries, and Works Operating in 1943.
Mines of Ontario in 1943, by W. O. Tower, R. L. Smith, W. E. Bawden, D. F. Cooper, J. B. Taylor, E. S. Little, E. B. Weir, D. P. Douglass.
Mining Accidents in 1943, by W. O. Tower, R. L. Smith, W. E. Bawden, D. F. Cooper, J. B. Taylor, E. S. Little, E. B. Weir, D. P. Douglass.

PART II

Geology of Lebel Township, with map No. 53a, by A. MacLean.

PART III

Mineral Occurrences in the Renfrew Area, with map No. 53b, by J. Satterly.

PART IV

Geology of the Robb-Jamieson Area, with map No. 53c, by L. G. Berry.
Some Copper Properties in Robb, Jamieson, and Godfrey Townships, by S. A. Ferguson.

PART V

Natural Gas in 1943, by R. B. Harkness.
Petroleum in 1943, by R. B. Harkness.

PART VI

Geology of the Mattawan-Olrig Area, with map No. 53d, by W. D. Harding.
The Brazeau Vanadium-bearing Magnetite Deposit, Papineau Township, by W. D. Harding.

Only Part I is bound with the Sessional Papers of the Legislature. All parts, together with accompanying geological maps as indicated above by number and letter, are available on application to the Department.

Respectfully submitted,

H. C. RICKABY,
Deputy Minister of Mines.

DEPARTMENT OF MINES,
Toronto, 1946.

PROVINCE OF ONTARIO
DEPARTMENT OF MINES

HON. LESLIE M. FROST, *Minister of Mines*

H. C. RICKABY, *Deputy Minister*

Statistical Review of the Mineral Industry of Ontario for 1943

By Maurice Tremblay

GENERAL SUMMARY

Mineral Production

Ontario's mineral production suffered a set-back in 1943. Final statistics on the output value of mines, quarries, and gas and oil wells showed an aggregate production value of \$233,910,304, as against \$261,363,088 in 1942. The recession is equivalent to 10.5 per cent. and results mainly from depressed gold output, which remains the chief item of production in the Province's mineral industry.

Notwithstanding the drop in production value and quantities in certain metallic and non-metallic minerals, the contribution of the mining industry of Ontario to the war effort of the United Nations continued unabated; and in some instances, as in the case of nickel, iron ore, cobalt, tungsten, and magnesium, to mention a few war metals, production in 1943 surpassed that of the previous year.

A breakdown of the production table on pages 2 and 3 shows that metals accounted for 88.17 per cent. of the aggregate value, followed by structural materials, representing 5.43 per cent., and non-metallics, 5.34 per cent., of the total production value. Clay products accounted for only 1.04 per cent.

Lack of labour more than any other cause was responsible for the continued falling off of production at the gold mines. A serious dearth of experienced mining labour also had its repercussions in the nickel-copper industry. Yet the mines, smelters, and refineries at Sudbury continued to increase their output of nickel. A decided drop in the output of metals of the platinum group was reported by the producing companies.

Ontario's mines since the beginning of 1939, the first year of the war, to the end of 1943 have produced minerals valued at \$1,262,343,797. Hundreds of millions of dollars have been paid out in wages, in the purchase of process supplies and fuel and electricity, in freight charges, and in taxes. At the same time, the nickel-copper industry alone mined more than 51,000,000 tons of ore and produced more than 1,325,900,000 pounds of nickel and more than 1,593,000,000 pounds of copper, besides millions of ounces of gold, silver, and metals of the platinum group. It is estimated that the war-time production of the nickel-copper industry accounts for more than half of its aggregate output from 1887 to the end of 1943. Huge reserves of nickel-copper ores are available in the rich Sudbury basin.

One of the most encouraging signs of things to come in the field of mining was found in the increased number of mining claims recorded in the Province of Ontario in 1943. New gold finds were made in the northwestern section of the Province, which, coupled with the fact that billions of dollars of savings and unspendable wealth lie dormant in the hands of war workers, small business men, and new industrialists, furnished the pattern requisite for the new market boom originating in the early summer of 1943.

SUMMARY OF MINERAL STATISTICS, 1943

Product	Quantity	Value ¹	Employees	Wages

¹Prior to 1891, when the Ontario Bureau (now Department) of Mines was established, it is estimated that metals to the value of \$9,520,269 were produced. No estimate has been made of the output of non-metallics up to 1891.

It should be noted in the above table and the one following that since 1914 the Province has been credited with the value of pig iron made from domestic

ore only. Credit is also given for Ontario iron ores exported or shipped outside the boundaries of the Province.

Metal Production

The aggregate production of Ontario metal mines from the earliest records up to the end of 1943 was valued at \$3,388,683,369. In 1943 the value of the metal output of these mines constituted 88.17 per cent. of the over-all production of our Ontario mining industry.

METAL PRODUCTION TO DECEMBER 31, 1943

Metal or product	To December 31, 1942	1943	To December 31, 1943

Metal Prices and Exchange

The following table is a computation of the average exchange rate of the United States dollar in Canadian funds, the pound Sterling in Canadian funds, the price of silver and copper on the New York and London markets, and the price of gold in Canadian dollars per fine ounce. It will be noticed that the

price of silver rose from an average of 42.166 cents in Canadian funds in 1942 to an average of 49.23 cents in 1943. The price of copper, also in Canadian funds, advanced slightly from an average of 11.684 cents in 1942 to 11.7 cents, in 1943. The price of gold in Canadian funds has not been altered since the fall of 1939, when it was pegged at \$38.50.

Month	Average exchange rate U.S. dollars in Canadian funds	£ Sterling in Canadian funds	Silver, cents per oz.		Copper, cents per lb.		Gold in Canadian dollars per fine oz.
			New York market, U.S. funds	in Canadian funds	New York export, U.S. funds	London in Canadian funds

Diamond-Drilling

The diamond-drilling industry reported a slight increase in activity in 1943 over 1942. Eighteen companies drilled a total of 1,416,213 feet. This compares with 1,183,162 feet in 1942 and 1,650,075 feet in 1941. The number of wage-earners rose from 469 in 1942 to 502 in 1943, and wages, from \$725,581 in 1942 to \$818,949 during the year under review. This increased activity may be attributed to the probing of potential gold deposits and also to the fact that many gold mines with reduced production are carrying out development and exploration work preparatory to a return to normal conditions.

Income from diamond-drilling amounted to \$1,760,264 in 1943, as against \$1,407,967 in 1942 and \$1,736,067 in 1941. The figures do not include operations at any of the other mines where diamond-drilling is carried out by the companies who use their own machines and drill crews.

Consumption of Diamonds

The total value of industrial diamonds, including the stones in ready-set bits, consumed by the diamond-drilling industry during 1943, amounted to \$569,023, which is a considerable increase over the comparable figure for the year 1942. These included borts, 138,689 carats, and carbons, 151 carats. In 1941, the value of diamonds used was estimated at \$607,939. The price of such diamonds is increasing, and stones are becoming more difficult to purchase owing to the competition of war industries here and in the United States.

Prospecting

Prospecting activity in the Province of Ontario in 1943 was slightly improved judging by the statistics covering the number of claims recorded during the year. These totalled 5,232, as against 3,493 in 1942, which was the lowest reported in the history of the Province since the depression days of the early 20's. The improving military position of the Allies and the increasing amounts of risk capital resulting from universal employment in Canada and the United States are recognized as the main causes for this improvement. Considerable interest in gold prospects was manifest in the early part of the year, and indications pointed to an increase in prospecting activity along with the improvement of the military position of the United Nations.

The following table shows the number of claims recorded and cancelled by years from 1907 to the end of 1943.

MINING CLAIMS RECORDED AND CANCELLED IN ONTARIO, 1907 TO 1943

¹Data on claims cancelled are not available for 1907, 1908, 1909, 1910, and 1912. These figures do not include cancellations of claims in Eastern Ontario, Parry Sound district, or Patricia portion of Kenora district.

METALLICS

Gold

General Summary

Ontario's gold output suffered another set-back in 1943, with production from all sources falling by 23.39 per cent. from the year 1942. The gold mines and other gold-producing branches of Ontario's mining industry sold 2,117,218 ounces of gold, valued at \$81,517,998. Gold mines alone reported an output of

2,061,378 ounces, valued at \$79,368,171. The bullion shipped by the gold mines contained 859,700 ounces of silver, valued at \$371,102. Aggregate value of bullion shipped from gold mines alone was reported as \$79,739,273. Ore milled by the gold-mining industry dropped from 10,650,150 tons in 1942 to 8,069,363 tons in 1943. The highest tonnage milled by the industry, 12,225,234 tons, was reached in 1941. To the end of 1943, the gold mines of Ontario have milled 149,779,423 tons of ore and recovered 49,222,770 ounces of gold, valued at \$1,458,717,039, and 12,636,114 ounces of silver, worth \$5,724,568, for a grand total of \$1,464,441,607.

The drastic reduction of gold-mining operations, which is a direct result of the war, saw the dividend disbursements of the companies involved drop from an all-time high of \$35,550,867 in 1941 to \$22,542,160 in 1943. Dividends paid in 1942 totalled \$25,940,062. The contraction in the scale of operations was also reflected in employment figures. Whereas in 1941 at the height of operations, 19,362 wage-earners were employed at the producing mines, the number dropped gradually to 15,561 in 1942 and 11,511 in 1943; wages, from \$35,956,340 in 1941 to \$30,893,523 in 1942 and \$23,062,661 in 1943. Total wages and salaries paid out in 1943 were reported as \$26,692,338. Consumption of process supplies and fuel and electricity was also affected. The producing companies report that \$8,005,018 were spent for supplies in 1943, as against \$13,847,768 in 1941; and \$4,108,476 worth of fuel and electricity were purchased in 1943, as against \$5,370,342 in 1941. A compilation of labour, wages, salaries, process supplies, and fuel and electricity figures prepared by the Statistical Branch of the Department shows that producing mines since the beginning have paid out \$408,945,687 in wages, \$44,661,534 in salaries, \$94,882,387 in supplies, and \$66,270,542 in fuel and electricity. The average grade of ore milled in 1943 by the gold mines alone was estimated at \$9.88.

Nine gold mills ceased production in the course of the year under review. These were: Naybob, Moneta, and Hoyle (burned down in July) in the Porcupine area; Yama in the Larder Lake area; Wendigo in Kenora district; the mill operated by Regnery Metals at the Alden-Goudreau mine in Algoma district; Uchi in the Patricia portion of Kenora district; Magnet in Thunder Bay district; and Jerome in Sudbury district. The daily average gold output dropped steadily from 6,342 ounces in January to 4,947 ounces in December. There were indications toward the end of the year that other producing mines would be forced to close down in 1944 unless the labour situation improved.

Statistics bearing on development work at the producing mines shows that shaft-sinking totalled 4,396 feet; crosscutting, 46,514 feet; drifts, 132,382 feet; and raises and winzes, 14,009 feet. The producing mines carried out 994,149 feet of diamond-drilling during the year.

Out of a total of \$10,905,251 paid in taxes, \$9,682,012 went to the Dominion Government, \$940,004 to the Provincial Government, and \$283,235 to municipalities. The industry also paid out \$679,052 for workmen's compensation, \$562,053 for silicosis assessment, and \$193,935 for unemployment insurance. It was further reported that \$181,047 was expended for exploration purposes in Ontario out of a total of \$226,546 expended by Ontario producing mines in Canada. Freight and express charges on ore and bullion totalled \$204,794 and smelting charges, \$844,066.

Only two operating but non-producing companies reported activity during the year. These were Continental Kirkland Mines, Limited, and Leta Explorations, Limited, and total wages paid out by these two companies amounted to \$7,246.

The Price of Gold in Canada

The average price of gold in Canadian funds during 1943 remained stable at \$38.50. It was so pegged on September 18, 1939, when the Canadian Foreign Exchange Control Board set the rates on United States funds at \$1.10 buying and \$1.11 selling.

Labour Statistics

The following figures summarize labour statistics for the gold-mining industry, as reported to the Ontario Department of Mines:—

AVERAGE YEARLY WAGE, GOLD-MINING INDUSTRY, 1942 AND 1943

Area or district	1942			1943		
	No. of wage-earners	Wages paid	Average wage per annum	No. of wage-earners	Wages paid	Average wage per annum
Porcupine belt	8,069	\$16,503,082	\$2,045	6,137	\$12,524,499	\$2,041
Kirkland Lake area . . .	2,683	5,083,245	1,895	2,272	4,517,908	1,989
Larder Lake area	922	1,800,507	1,953	663	1,297,544	1,957
Matachewan area	445	852,261	1,915	320	511,245	1,598
Sudbury district	201	404,519	2,013	104	245,893	2,364
Algoma district	91	156,279	1,717	14	12,242	874
Thunder Bay district . .	1,332	2,709,300	2,034	832	1,711,084	2,057
Patricia portion	1,687	3,166,257	1,877	1,150	2,223,335	977
Kenora and Rainy River districts	131	218,073	1,665	19	18,911	995
Operating but non-producing	99	117,644	1,188	9	7,246	805
Total	15,660	\$31,011,167	\$1,980	11,520	\$23,069,907	\$2,003

Mint Receipts from Ontario Mines

The table below shows the record over a five-year period of receipts of crude gold bullion from Ontario mines at the Royal Canadian Mint:—

RECEIPTS OF CRUDE GOLD BULLION FROM ONTARIO MINES AT THE ROYAL CANADIAN MINT, OTTAWA, 1939-1943

Year	Quantity	Precious metals		Total value (standard)	Buying rate in Canada for New York funds ¹
		Gold	Silver		
	crude ounces	fine ounces	fine ounces		cents
1939	3,844,349	3,071,130	426,622	\$63,660,860	103.703
1940	4,005,077	3,202,649	425,219	66,362,598	110
1941	3,976,329	3,165,509	432,039	65,597,357	110
1942	3,385,022	2,702,485	359,677	56,555,420	110
1943	2,613,308	2,110,420	275,272	43,732,517	110

¹The average rate of premium on New York funds is based on the day to day record of current quotations. The Federal Department of Finance pays for gold in Canadian funds and reimburses producers by an amount equivalent to the exchange premium on New York funds. Export of gold is prohibited except under license.

Dividends and Production

The following tables show the production by areas in 1943, the dividends paid by the various gold-mining companies, the yearly dividends by areas, the annual production by mines in each area, and the total gold production from 1866 to 1943.

DIVIDENDS AND BONUSES PAID BY GOLD-MINING COMPANIES TO DECEMBER 31, 1943

Name of company	Date of incorporation	Authorized capital, \$ or shares	Capital stock issued, \$ or shares	Par value per share	Dividends and bonuses paid to end of 1942	Dividends and bonuses paid during 1943	Rate per cent. or per share 1943	Total dividends and bonuses paid to Dec. 31, 1943	Date when last dividend or bonus was paid
Acme Gold Mines, Ltd.	Dec. 13, 1911	\$3,000,000	\$3,000,000	\$5.00	\$160,000.00	\$360,000.00	\$160,000.00	Dec. 31, 1916

¹On April 22, 1922, the capital of Dome Mines Company, Limited, was reduced from \$5,000,000 to \$4,500,000, and \$476,667 (repayment of capital not included in above tables distributed to shareholders in addition to dividends paid to September 30, 1923, when the new company, Dome Mines, Limited, issued 1,000,000 no par value shares at \$7.00 per share. In 1936, 20,000 shares were paid in part payment for the Schumacher claims and 26,666 shares were then held in trust for the company. On June 20, 1938, the share capital was doubled from one to two million shares, and the shares held in trust then became 53,332.

²This is not a dividend, but a partial distribution of capital.

³Dividends are translated into Canadian funds.

⁴Distribution was also made in December, 1940, to shareholders of 1 share of stock of Madsen Red Lake Gold Mines, Limited, for each 5 shares of McKenzie Red Lake Gold Mines, Limited, then held.

⁵The authorized and issued capital was changed in May, 1927, from 2,750,000 shares of \$1.00 par value to 5,500,000 shares of no par value. The dividends are paid in United States funds.

¹In addition to the figures given and duplicating them in part, the following reduction plants carried on operations in Kenora, then called Rat Portage, and reported as follows: (1) Dominion Reduction Company (1895, 1897, 1900), 666 tons, \$5,298; (2) Ottawa Gold Milling and Mining Company (1898-1900), 5,153 tons, \$26,181; (3) Rat Portage Reduction Works (1900) milled 200 tons of Wendigo ore; no data of recovery made are available; (4) Keewatin Reduction Works (1900) milled 100 tons ore from Champio and 1,000 tons from Wendigo; no data of recovery made are available.

²Northern Lights Mines Company.

³Acquired by Kenwest Gold Mines, Limited, in 1939.

⁴Acquired by Duport Mining Company, Limited, in 1929.

⁵Acquired by Kenora Prospectors and Miners, Limited, in 1928. The mine was called Cornucopia prior to 1932.

⁶Reported milled in custom mill, no data.

⁷Elora Gold Mines, Limited, acquired the Laurentian mine in 1935.

⁸Operated by Imperial Gold Mines, Limited.

⁹Acquired by Kenora Prospectors and Miners, Limited, in 1928.

¹⁰Or Black Eagle; acquired by Kenland Gold Mines, Limited, in 1936, from Horseshoe Mines, Limited, and by Goldwood Gold Mines, Limited, in 1938.

¹¹Contact Bay Mines, Limited, was incorporated in 1918 and acquired the Rognon, Redeemer, and Bonanza claims; the name was changed to Wabigoon-Contact Bay Mines, Limited, in 1923; and in 1935 the property was acquired by Northern Mines, Incorporated.

¹²Redeemer. ¹³Rognon.

¹⁴Redeemer (with the exception of 8 tons, valued at \$46, from Rognon).

¹⁵Bonanza.

¹⁶Some 1,200 tons milled in custom mill in 1900, but no statistics of values available.

¹⁷Recoveries by Kenopo Mining and Milling, Limited, from shipments from the C. Alcock, Silverman, Dr. A. MacDonald, and Algot Nilson claims; La-Re Exploration Company; El Diver Mines; and Mint sundries.

Maximum World production.....	40,925,330 ounces in 1940.

Gold-Milling Plants

The rated daily capacity of gold mills operating in 1943 was estimated at 34,345 tons, and the daily operating average at 23,112 tons. The following table contains the list of mills, both operating and idle, in the Province of Ontario, in the year 1943.

Nickel-Copper and Platinum Metals

The nickel-copper industry with its mines, smelters, and some of its refineries located in the Sudbury district of Northern Ontario shipped an all-time record of ore in 1943. Five companies made shipments: the International Nickel Company of Canada, Limited; Falconbridge Nickel Mines, Limited; Harlin Nickel Mines, Limited; Nickel Offsets, Limited; and Ontario Nickel Mines, Limited. Nickel production came from the silver-cobalt industry as well as from the mines of the Sudbury basin, although in the former case the production was comparatively small. Copper output came mainly from the Sudbury area, but some production was reported by the gold mines, the silver-cobalt mines, and a copper-gold-silver property north of Porcupine.

Total ore shipped from the nickel-copper mines amounted to 12,925,590 tons. Nickel from the nickel-copper industry advanced to a new high of 287,-963,545 pounds, valued at \$71,664,379. The total Ontario output reached 288,018,615 pounds, valued at \$71,675,322.

Sudbury copper production was reported as 276,875,159 pounds, valued at \$32,080,935. Copper from all sources totalled 277,840,560 pounds, worth \$32,194,369. Besides nickel and copper, this great industry produces gold, platinum metals, selenium, and tellurium. The largest contributor to the output of nickel and copper in the group was the International Nickel Company of Canada, Limited, followed by Falconbridge Nickel Mines, Limited.

Ore shipped by the producing nickel-copper mines contained 306,115,272 pounds of copper and 356,219,960 pounds of nickel. Of the total shipments of ore, 10,962,608 tons were milled, from which 3,418,035 tons of concentrates were produced. The aggregate value of all products of the nickel-copper industry amounted to \$120,489,177 in 1943, as against \$123,590,659 in 1942. The industry produced 82,000 pounds of selenium, valued at \$143,500, as well as 8,600 pounds of tellurium, worth \$15,050.

NICKEL-COPPER MINING AND SMELTING, 1939-1943

Item	1939	1940	1941	1942	1943
	tons	tons	tons	tons	tons
1. Ore shipped.....	7,850,636	8,361,532	9,974,272	12,078,145	12,913,346
2. Ore treated.....	7,839,187	8,342,323	9,974,409	12,078,722	12,912,332
3. Copper in blister produced in Ontario..	155,860	167,908	158,788	146,362	130,906
4. Nickel produced in Ontario.....	65,883	83,739	97,033	102,478	106,070
5. Matte exported ¹	71,315	58,398	67,904	61,226	56,833
6. Nickel content of matte exported.....	47,057	38,867	43,955	40,112	37,911
7. Copper content of matte exported.....	8,212	5,835	7,735	7,583	7,532

¹All matte was exported prior to 1918, when refining in Canada began at Port Colborne, Ont. The British America Nickel Corporation commenced refining operations at Deschênes, Que., in 1920, and closed down finally in July, 1924. Every year since 1934 and including that year, some thousands of tons were brought back to Canada for treatment. These have been deducted.

Production of Precious Metals

Output of precious metals by the nickel-copper industry was lower in comparison to the high record established in 1942. It is nevertheless estimated that the industry is the largest producer of metals of the platinum group in the world. In addition to platinum, palladium, iridium, rhodium, and ruthenium, the nickel-copper industry produces important quantities of gold and silver. It is by far the most important producer of silver in Ontario. The table below gives complete production data on the output of precious metals as well as values.

STATISTICAL SYNOPSIS OF THE NICKEL-COPPER INDUSTRY IN ONTARIO, 1941, 1942, AND 1943

Year	No. of producing companies	No. of plants in Ontario	Capital invested ¹	Dividends paid	Salaried employees		Wage-earners		Selling value of products

Dividends

The International Nickel Company of Canada, Limited, and Falconbridge Nickel Mines, Limited, paid dividends amounting to \$31,590,864 in 1943. This amount is the same as in the preceding year, and to the end of 1943 the nickel-copper industry has paid out dividends totalling \$421,799,842.

DIVIDENDS PAID BY NICKEL COMPANIES TO END OF 1943

Company	Period	To end of 1942	1943

GRAND TOTAL.....	\$390,208,968.51	\$31,590,873.60

¹Successors to the Canadian Copper Company. The International Nickel Company paid dividends on the common stock from 1909 to 1919, inclusive, and again from 1925 to 1928, inclusive. Common stock outstanding was \$41,834,600, and preferred stock \$8,912,600, or a total of \$50,747,200 at the beginning of 1928. On December 19, 1928, the authorized capital stock of \$62,000,000 of the New Jersey company was reduced by changing the par value of the shares from \$25 to \$1 each, and at the same time the name of the company was changed to Nickel Holdings Corporation. On December 31, 1928, the authorized capital was further reduced to \$993,425 fully issued or subscribed-for stock, consisting of \$843,700 preferred stock and \$149,725 common stock, par value in each case.

²Dividends paid by the International Nickel Company of Canada, Limited, on the common stock in 1929 were 90 cents per share, and \$1.00 per share in 1930. Common stock was increased to 15,000,000 shares of no par value on July 25, 1930; as a result shares issued were increased from 13,758,208 to 14,584,025. Seven per cent. preferred stock (cumulative) now stands at \$27,627,825. Dividends on common stock aggregated \$2.00 a share in 1940.

³Upon completion of the exchange of stock under the amalgamation of the Mond and International companies, effective December 31, 1928, stock issued or issuable was as follows: \$27,627,825 of 7 per cent. cumulative preferred, and 13,758,208 common shares without par value. Dividends paid on February 16, 1929, by the Mond company cover the 8 months' period ending December 31, 1928. Dividends are paid in United States funds.

Operations at the Mines

International Nickel Company of Canada, Limited.—At the Frood mine, stopes were mined on all levels between the 1,600- and 3,300-foot, inclusive, with the principal tonnage coming from the 1,600-, 1,800-, and 2,000-foot levels. The Frood and Stobie open pits were the source of about half of the total ore mined by the company. The No. 7 shaft at the Stobie mine reached a depth of 2,187 feet by the end of the year with sinking still in progress. Production at the Creighton mine was obtained from footwall recovery work or from stoping on nearly all levels down to and including the 52nd level. The No. 6 internal shaft was completed at a depth of 1,741 feet below the 2nd level collar. At the Levack mine, production was obtained from the 7th, 9th, 11th, 13th, and 14th levels. At the Garson mine, production was obtained from all levels except the 2nd and 14th. The No. 2 shaft at the Murray mine was completed at a depth of 1,961 feet, and several stations were cut. The Lawson quarry produced a large tonnage of quartzite for smelter flux. The Copper Cliff sintering plant, smelter, and copper refinery were operated at near capacity and the Coniston smelter was operated at near capacity until July and at partial capacity for the balance of the year. The sulphuric acid plant at Copper Cliff, which is operated by Canadian Industries, Limited, was operated at capacity throughout the year.

Falconbridge Nickel Mines, Limited.—Stopes were mined at nearly all levels down to and including the 1,925-foot level and the No. 5 shaft was completed at a depth of 3,204 feet. Preparations were under way at the end of the year to deepen No. 1 shaft. The smelter output was increased following the completion of an expansion programme involving the installation of additional crushing and smelting equipment.

Nickel Offsets, Limited.—The shaft was completed at a depth of 1,130 feet, and stations were cut for the 800-, 950-, and 1,100-foot levels. Stoping was started at the 350-foot level. A screening plant was installed, and 5,733 tons of ore were shipped to International Nickel during the last three months of the year. At the Ontario Nickel Corporation, Limited, operations were suspended at the end of June. Lateral development and stope preparation had been done on the 250-foot level, and about 500 tons of ore were shipped to International Nickel during May and June.

Silver-Cobalt

The production value of the silver-cobalt industry in 1943 amounted to \$301,175, which is well below the output reported in the preceding year. The figure includes the value of the metal contained in ores shipped to points outside Deloro and the silver value of the metal output by the Deloro Smelting and Refining Company, Limited, from ores purchased in the Cobalt area. It does not include the value of ores shipped to the Government stock-pile at Deloro. All the producing mines, with the exception of the Werner Lake mine operated by Norman B. Davis, of Ottawa, are located in the Cobalt area of Northern Ontario. The breakdown of production showed that the industry produced 7 tons of copper, valued at \$1,759; 24 tons of nickel, valued at \$8,828; 88 tons of cobalt, worth \$191,407; 204 tons of arsenic, valued at \$32,924; and 143,151 ounces of silver appraised at \$66,257. The aggregate production of the silver-cobalt industry from 1904 to the end of 1943 amounts to \$301,783,982.

Total shipments of ore from Cobalt and Werner Lake were reported at 3,860,546 pounds, which contained 568,556 ounces of silver, 392,476 pounds of cobalt, 118,321 pounds of nickel, and 56,082 pounds of copper.

The following table gives a statistical picture of the metallic content of shipments and values by the silver-cobalt industry:—

SHIPMENTS FROM SILVER MINES, SMELTERS, AND REFINERIES

Material	1904-1942		1943		Total	
	Quantity	Value	Quantity	Value	Quantity	Value
Bismuth..... tons	99	\$207,019	99	\$207,019
Copper..... tons	973	294,867	7	\$1,759	980	296,626
Lead..... tons	370	32,619	370	32,619
Nickel..... tons	6,739	1,768,189	24	8,828	6,763	1,777,017
Cobalt..... tons	17,494	32,074,841	88	191,407	17,582	32,266,248
Arsenic..... tons	77,341	6,281,572	204	32,924	77,535	6,314,496
Silver..... ounces	436,313,016	260,823,700	143,151	66,257	436,456,167	260,889,957
Total.....	\$301,482,807	\$301,175	\$301,783,982

The total silver production for the years 1942 and 1943 is shown in the following table:—

SILVER PRODUCTION, 1942 AND 1943

Source	1942		1943	
	Fine ounces	Value	Fine ounces	Value
Sales of bullion by the reduction companies, smelters, and mines.....	888,153	\$404,628	161,072	\$74,367
Contained in silver-cobalt concentrates and residues exported from Canada ¹				
Estimated as recovered from concentrates treated in other provinces.....				
In crude gold bullion.....	1,326,457	548,754	859,701	371,102
Recovered by nickel-copper refineries..	2,238,177	943,749	1,650,547	746,939
Total.....	4,452,787	\$1,897,131	2,671,320	\$1,192,408

¹Also silver in silver-lead-zinc concentrates.

The following table shows the dividends and bonuses paid by silver-mining companies to the end of 1943:—

DIVIDENDS AND BONUSSES PAID BY SILVER-MINING COMPANIES¹

	To Dec. 31, 1942	1943	Total
Coniagas Mines, Ltd.....	\$12,760,000.00	\$12,760,000.00
Nipissing Mining Co., Ltd.....	33,537,297.25	\$125,000.00	33,662,297.25
All other companies.....	55,132,488.91	55,132,488.91
Total.....	\$101,429,786.16	\$125,000.00	\$101,554,786.16

¹Up to 1929, dividends were attributable to silver-cobalt production. The Nipissing Mining Company, Limited, and Coniagas Mines, Limited, are holding companies and dividends result from investments in other fields.

Twenty-one mines were reported in operation in 1943, as against fourteen during the previous year, and a total of 39,184 tons of ore was mined and 395 tons salvaged from surface dumps. The industry milled 39,625 tons of ore and treated 8,865 tons of tailings. Concentrates produced totalled 1,346 tons. Fuel and electricity valued at \$74,691 and process supplies worth \$48,068 were con-

sumed in 1943. The industry employed 328 persons, who were paid wages amounting to \$418,047.

In order to encourage the production of cobalt for war requirements, Canadian and United States government agencies purchased ores from Canadian cobalt producers. These were consigned in 1942 and 1943 to a stock-pile located at Deloro, Ont. Government purchases were discontinued in the latter part of 1943. In the course of the year, the Temiskaming Testing Laboratories, which had been destroyed by fire, were rebuilt by the Ontario Department of Mines.

Iron Ore, Pig Iron, and Steel

All of the Ontario shipments of iron ore in 1943 came from the Helen mine, which is owned by Algoma Ore Properties, Limited, a subsidiary of the Algoma Steel Corporation, Limited.

Of the total shipments of 498,232 tons of sintered ore, 184,650 tons were shipped to the Algoma Steel furnaces at Sault Ste. Marie, and most of the remaining 313,582 tons was purchased by the M. A. Hanna Company, of Cleveland.

IRON AND STEEL STATISTICS, 1939-1943¹

Year	Domestic ore smelted	Foreign ore smelted	Limestone for flux	Pig iron produced		Steel made	
				Quantity	Value	Quantity	Value
	long tons	long tons	short tons	long tons		long tons	
1939....	45,152	819,524	200,202	496,686	\$12,681,146	905,377	\$35,010,929
1940....	136,475	1,359,564	339,909	808,025	18,608,640	1,337,744	53,509,760
1941....	166,263	1,683,180	396,776	988,178	23,723,249	1,673,974	69,185,345
1942....	229,253	2,717,257	555,137	1,507,064	36,130,452	2,218,469	103,336,286
1943....	198,244	2,604,163	548,107	1,409,667	34,320,400	2,182,995	102,600,765

¹Figures supplied by the Dominion Bureau of Statistics.

Ore raised at the Helen mine totalled 694,319 tons, and 731,281 tons was treated and roasted in the sintering machines. The production of concentrates during the year was 505,090 tons.

³These firms produce ferro-silicon as a by-product in the manufacture of fused alumina.

⁴Ferro-alloys.

Exploratory and development work was carried out during the year at the Steep Rock mine, near Atikokan; at the Josephine and Ruth properties of

Michipicoten Iron Mines, Limited, in Algoma; and at the properties of Great Lakes Iron Mines, Limited, Midwest Iron Corporation, Limited, and Rebar Gold Mines, Limited, all in the Atikokan area. Some work was also done by the Frobisher Exploration Company, Limited, on certain magnetite deposits in Mayo township, Hastings county, and at the Tomahawk iron mine, in Lake township, Hastings county.

Under an agreement with Beverly Iron Prospecting Syndicate, Hollinger Consolidated Gold Mines, Limited, did some exploration work in 1943 near Milton in Halton county. Drilling to a depth of 3,000 feet was begun in the spring of the year to investigate an anomaly registered earlier by a magnetometric survey. The Hollinger option, however, was surrendered before the end of the year.

Furnaces were operated in 1943 by the Algoma Steel Corporation at Sault Ste. Marie, the Steel Company of Canada at Hamilton, and Canadian Furnace, Limited, at Port Colborne. These had a combined daily capacity of 4,477 long tons per day.

IRON BLAST FURNACES IN OPERATION, 1943

Company	Stacks operating	Furnaces		Location
		No. of stacks	Daily capacity	
Algoma Steel Corporation, Ltd.....	4	4	long tons 1,792	Sault Ste. Marie.
Canadian Furnace, Ltd.....	2	2	613	Port Colborne.
Steel Company of Canada, Ltd.....	3	3	2,072	Hamilton.

Lead and Zinc

Two companies, the Lake Geneva Mining Company, Limited, and Berens River Mines, Limited, produced lead in 1943. The total output amounted to 2,273,896 pounds, valued at \$85,362. This constitutes a drop of 20.24 per cent. in value from the preceding year. Lead and zinc concentrates were produced at the Lake Geneva mine throughout the year for the Metals Reserve Company. The operation at the Sudbury property is being carried on through the Wartime Metals Corporation.

Zinc output, at 3,299,812 pounds, valued at \$131,992, also was down from the previous year. All of the zinc production came from the Lake Geneva mine. The industry employed 11 salaried employees, who were paid \$28,839, and 59 wage-earners, who received \$132,053 for the year's work. Fuel consumed was estimated at \$29,449, and process supplies used amounted to \$30,711. The industry also produced 17,921 ounces of silver.

Magnesium

The plant of Dominion Magnesium, Limited, at Haley Station in Renfrew county was the sole Canadian producer of magnesium in 1943; and output amounted to 7,153,974 pounds, valued at \$2,074,652, an increase of 895 per cent. in value over 1942. This company employed 371 wage-earners, who were paid \$581,995 for the year's work.

Tungsten

All of Ontario's tungsten came from gold-mining operations. Ore and concentrates were shipped by mines in the Larder Lake, Porcupine, and

Little Long Lac-Sturgeon River areas. The total output from all sources was estimated at 269,039 pounds of WO_3 , valued at \$356,478, which constitutes an increase of 145.44 per cent. in value over the year 1942.

NON-METALLICS

The value of non-metallic minerals produced in Ontario in 1943 rose 0.78 per cent. above the previous year. The aggregate output was valued at \$12,502,624 in 1943, as against \$12,406,382 in 1942. Production of feldspar, fluorspar, graphite, gypsum, mica, and lesser minerals advanced considerably over 1942. On the other hand, the output value of natural gas registered a drop of 4.73 per cent. This last item is the most important in point of value in the non-metallic division of the industry.

Feldspar

Ten companies or individuals shipped feldspar in 1943. The value of output rose from \$49,353 in 1942 to \$61,549 in 1943, or 24.71 per cent. The industry mined 4,326 tons of ore and shipped 6,659 tons. Sixty-five wage-earners and salaried employees were paid \$59,015 for the year's work. Consumption of fuel was valued at \$9,996 and process supplies at \$5,796.

Fluorspar

Intensive development work in the Madoc area resulted in 1943 in a large increase in production of fluorspar over the previous year. Eight operators shipped 10,385 tons, valued at \$301,424. In 1942, nine operators shipped 4,340 tons, valued at \$113,957, an increase in value of 164.51 per cent. The industry employed 115 wage-earners and salaried employees, who received \$141,598. The cost of fuel consumed rose to \$23,795 and process supplies to \$10,811.

Much of the activity in the Madoc area resulted from the increasing demand of smelting and refining plants for fluorspar. In order to boost the output, the Dominion Government gave financial assistance to the industry. According to the Bureau of Mines in Ottawa, it is estimated that 95 per cent. of all fluorspar now being used in the United States and Canada is consumed in war industries.

Graphite

The Black Donald mine at Whitefish lake near Calabogie in Renfrew county was the sole producer of graphite in Canada in 1943. Output value of this mineral rose from \$117,904 in 1942 to \$197,431 in 1943, or 67.45 per cent. The operators mined 345 tons but milled 3,500 tons. The company paid out \$69,563 in wages and salaries to 50 employees during the year.

Gypsum

Production of gypsum in Ontario comes from the properties of Gypsum, Lime and Alabastine, Canada, Limited, and the Canadian Gypsum Company, Limited. The output of this industry in 1943 rose in value by 10.35 per cent. Materials sold amounted to 92,448 tons, valued at \$335,637. This industry employed 200 wage-earners and salaried employees, who were paid \$323,942 for their year's work. The two companies used fuel valued at \$124,232 and process supplies worth \$29,912.

The following table gives a 5-year record of gypsum sales along with labour statistics:—

GYPSUM SALES, 1939-1943

Grade	1939	1940	1941	1942	1943
	tons	tons	tons	tons	tons
Crushed.....	6,578	10,295	11,365	10,090	13,667
Fine-ground.....	195	381	76	109	201

Total sold or used.....	59,440	75,271	90,599	82,795	92,448
Total value.....	\$260,792	\$313,512	\$276,459	\$304,170	\$335,637
No. of workers.....	152	249	182	168	185
Wages paid.....	\$148,827	\$293,921	\$242,553	\$236,768	\$290,282

Mica

The recent discovery of large deposits of high-grade white mica, which is considered the most important find of its kind reported in Canada for several decades, has considerably boosted the output value of this essential commodity. The value of Ontario's mica production jumped from \$89,243 in 1942 to \$296,189 in 1943, an increase of 231.89 per cent. Notwithstanding the fact that shipments of amber mica amounted to 3,707,957 pounds and that white mica shipments totalled only 546,062 pounds, the value of the latter variety was by far the more important. The value of amber mica shipments amounted to \$58,262 and that of the white mica to \$237,927. The industry employed 227 wage-earners and salaried employees, and these were paid \$159,059 by the 19 active companies. Fuel consumption was valued at \$5,997, and process supplies worth \$6,448 were consumed during the year.

The following table shows a three-year record of sales of amber mica.

SHIPMENTS OF AMBER MICA, 1941, 1942, AND 1943

Grade	1941		1942		1943	
	Quantity	Value	Quantity	Value	Quantity	Value
	pounds		pounds		pounds	
Ground and rough.....	1,000	\$15	29,485	\$1,690	351,000	\$24,285

Scrap.....	21,565	1,294	421,785	3,775
Total.....	34,889	\$31,540	546,062	\$237,927

Natural Gas

Natural gas production in 1943 registered a further decline, owing largely to the depletion of the producing fields. The total production amounted to 7,914,408 M cubic feet, which is 2,562,362 M cubic feet less than 1942, and more than 5,000,000 M cubic feet less than 1940. The value of this production was estimated at \$6,354,045.

According to R. B. Harkness,¹ Natural Gas Commissioner, domestic consumers had no shortage of gas in the year 1943, as no extremes of temperature were recorded; the few cold days in February and March were easily provided for by auxiliary plants—still gas, oil gas, and propane. Harkness states that industrial consumption of natural gas in 1943 amounted to 2,065,556 M cubic feet.

The following table shows the quantity of gas produced from each field and from private wells and the quantity of imported mixed gas and manufactured gas used during the year.

Nepheline Syenite

Shipments of nepheline syenite were reported by one company in 1943. The total ore mined was reported as 56,096 tons, and the value of shipments at \$25,382 represented a drop of 89.72 per cent. from 1942, when the value amounted to \$246,893. Eighty-two employees and wage-earners received \$89,260 during the year, and the operating company purchased fuel valued at \$13,628 and process supplies amounting to \$21,250.

Petroleum

Figures supplied by the office of the Natural Gas Commissioner show that petroleum production in Ontario again declined in 1943. The quantity produced was 132,492 barrels, and the number of operating wells in 1943 was lower by 124 than in 1942. The value of the 1943 production amounted to \$311,356, which is an increase of 1.67 per cent. over the previous year. Capital employed in the production of petroleum for the year under review was estimated at \$37,594,239, and the number of men employed at 2,718, who received wages amounting to \$5,828,163. A very detailed review of the Ontario petroleum industry in 1943 is contained in the annual report of the Natural Gas Commissioner,¹ which is obtainable at the Ontario Department of Mines.

Peat Moss

Demand for peat moss dropped slightly in 1943, when shipments amounting to 11,120 tons were made by six operators. Value dropped from \$147,729 in 1942 to \$136,595 in 1943. The industry employed 132 persons, who received \$107,455 for the year's work. Fuel valued at \$3,457 and process supplies worth \$2,816 were consumed by the industry in 1943.

Four operators shipped 260 tons of peat fuel during the year under review. This had a value of \$2,560, and 12 employees were paid \$2,523 for their period of work.

Phosphate

All of the phosphate production from three operations in Ontario was purchased by the Electric Reduction Company of Buckingham, Que. This small industry accounted for the shipment of 401 tons of apatite. Twenty men were employed during the working season and were paid \$3,444 for their work.

Quartz, Quartzite, and Silica Brick

The quartz and quartzite industry, comprising 10 operators in 1943, reported a drop in output and value. A total of 1,350,640 tons of quartz and quartzite, valued at \$852,196, was shipped by the operators. The value is down by 9.73 per cent. from that of 1942. It was reported that 147 wage-earners and salaried employees were paid \$222,967 for their work and that the industry consumed fuels valued at \$37,261 and process supplies worth \$199,168.

As will be seen in the following table, silica brick production amounted to 1,052,000 bricks, valued at \$125,722. The quantity sold in 1943 was less than for the previous year, but the output value was higher by 4.34 per cent.

QUARTZ, QUARTZITE, AND SILICA BRICK, 1939-1943

Year	Rock sold or used		Silica brick sold or used		Total value

Salt

The recovery of salt, or sodium chloride, from Ontario brine wells in 1943 rose by 3.52 per cent. in value over the preceding year. In the following table may be found a five-year review of output of this product along with labour statistics.

The total value of all products amounted to \$2,892,839 in 1943. Production was reported by six companies, and 466 wage-earners and salaried employees received \$909,095 for their work. Fuel used by the industry was valued at \$443,258, and process supplies consumed amounted to \$88,297.

Talc

Most of the Ontario production of talc in 1943 came from a deposit located near Madoc in Hastings county. A relatively small quantity was obtained from a property situated near Ompah in Frontenac county. Total shipments for the year under review amounted to 11,959 tons, valued at \$131,216. The operators reported 24 employees, who were paid \$42,723 for their work. Process supplies valued at \$2,500 and fuel at \$12,294 were used by the two operators in 1943.

The following table gives a five-year record of talc sales along with labour statistics:—

TALC STATISTICS, 1939-1943

Year	Sales		Wage- earners, mine and mill	Wages paid
	Quantity	Value		
1939.....	tons 13,144	\$128,595	No. 23	\$23,477
1940.....	15,166	154,734	34	31,102
1941.....	18,171	204,884	55	45,224
1942.....	15,499	174,295	39	42,962
1943.....	11,959	131,216	20	24,376

STRUCTURAL MATERIALS

The value of structural materials receded in 1943 by 7.69 per cent., from \$13,767,041 in 1942 to \$12,708,296 in 1943. Only one item reported an increase, sand and gravel, where value rose by 5.44 per cent.

Building Permits

In 58 Canadian cities building permits in 1943 were valued at \$61,537,956, as against \$76,640,596 in 1942. Of this total, 28 Ontario cities accounted for \$25,600,973, as noted in the following table abstracted from the *Annual Review of Building Permits in Canada in 1943*, issued by the Dominion Bureau of Statistics, Department of Trade and Commerce, Ottawa:—

BUILDING PERMITS, 1939-1943

Year	Ontario cities		Wholesale prices index ¹	Toronto metropolitan area, ² value	Wages index ³
	No.	Value			
1939.....	27	\$26,543,103	89.7	\$12,356,556	103.3
1940.....	28	35,928,049	95.6	13,202,666	105.7
1941.....	28	45,937,844	107.3	13,921,751	111.7
1942.....	28	35,939,104	115.2	11,758,559	118.4
1943.....	28	25,600,973	121.2	9,304,014	128.8

¹Applies to average index numbers for Canadian wholesale prices of building materials on the basis of 1926=100, as compiled by the Dominion Bureau of Statistics. In 1913 the index was 67, dropping to a low of 60.5 in 1915.

²Includes York and East York municipalities.

³Average index numbers of wages in Canadian building trades as compiled by the Federal Department of Labour on the basis of 1935-39=100.

Construction Contracts

The value of Canadian construction contracts awarded for 1943 reported by *MacLean Building Review*, was \$206,103,900, as compared with \$281,594,100 in 1942. Ontario contracts in 1943 amounted to \$83,025,300, or 29 per cent. of the total.

VALUE OF CONSTRUCTION CONTRACTS, 1939-1943

Classification	1939	1940	1941	1942	1943
Residential.....	\$34,681,900	\$32,985,200	\$44,299,900	\$40,080,400	\$33,583,900

Total.....	\$82,605,500	\$146,806,100	\$145,598,600	\$108,679,500	\$83,025,300

Cement

Two companies, the Canada Cement Company, with plants at Port Colborne and Belleville, and the St. Mary's Cement Company, with plant at St. Marys, were the only producers of cement in Ontario in 1943. Output value dropped sharply from \$3,998,294 in 1942 to \$2,872,732 in 1943, or 28.15 per cent. The operators manufactured 2,227,027 barrels of cement and sold 1,972,009. The industry employed 391 men, paid out \$680,506 in wages, and consumed fuel valued at \$831,409 and process supplies worth \$239,436.

PORTLAND CEMENT STATISTICS, 1939-1943

Year	Operating plants	Sales

¹350 pounds.

Lime

Returns covering production of lime were received from thirteen operators in 1943. Total output amounted in value to \$3,115,194, as against \$3,125,574 in 1942. The products of this industry cover a very wide field. The figures include the production of hydrated lime as well as limestone for fluxing purposes. The industry employed 259 persons and paid them salaries and wages amounting to \$451,724. Fuel consumed was valued at \$843,231, and process supplies used were valued at \$47,092.

LIME STATISTICS, 1939-1943

Year	Lime marketed or used						Fuel costs	Wage-earners	Wages
	Hydrated			Quicklime					
	Quantity	Total value	Value per ton	Quantity	Total value	Value per ton			
	tons			tons				No.	
1939....	33,637	\$366,917	\$10.91	268,622	\$1,870,035	\$6.96	\$465,866	250	\$226,352
1940....	38,163	412,181	10.80	334,470	2,340,605	6.99	621,565	239	275,067
1941....	57,197	597,344	10.44	373,927	2,649,303	7.08	777,902	294	385,082

Distribution of the quicklime and hydrated lime sold in 1943, as reported by the producing companies, was as follows:—

Industrial consumption	Quicklime		Hydrated lime	
	Quantity	Value	Quantity	Value
	tons		tons	
Building trades: finishing and masons	8,638	\$78,807	21,273	\$244,593
Sand-lime brick	2,951	25,455		
Agriculture	83,020	622,523	3,060	29,612
Chemical and metallurgical industries:				
Smelters	3,517	25,287	1	11
Iron and steel	28,870	208,198	86	863
Gold-milling	42,810	312,547	315	3,308
Pulp and paper	4,992	34,275	675	7,072
Glass	14,086	101,315		
Sugar	3,985	38,785		
Tanneries	4,524	31,859	620	6,407
Fertilizers and insecticides	1,283	9,037	692	5,709
Dealers and others	6,978	53,752	368	3,885
Other chemicals ¹	177,895	1,252,231	1,881	19,663
Total	382,950	\$2,794,071	28,971	\$321,123

¹Uses for lime under this heading include the manufacture of alkali, acetate of lime, and calcium carbide, the last-mentioned being used largely for making cyanamid.

Sand and Gravel

Output of sand and gravel rose in value from \$3,433,986 in 1942 to \$3,620,852 in 1943, or 5.44 per cent. Returns were received from 36 producers, who employed 207 men, to whom wages and salaries amounting to \$290,354 were paid for the season's work. The producing companies also reported using fuel valued at \$93,892 and process supplies worth \$14,548. Tonnage handled in 1943 amounted to 8,285,309 tons.

OUTPUT OF SAND AND GRAVEL, 1942 AND 1943

Source	1942		1943	
	Quantity	Value	Quantity	Value
	tons		tons	
Private pit operators	2,493,596	\$938,726	2,097,317	\$873,173
Dredged from Great Lakes and rivers	852,640	500,000	682,486	420,626
Department of Highways	1,459,300	634,003	1,744,274	890,228
Miscellaneous counties and townships	2,087,831	1,043,915	2,473,421	1,236,710
Estimate for other producers ¹	1,526,991	317,342	1,287,811	200,115
Total	8,420,358	\$3,433,986	8,285,309	\$3,620,852

¹Railway ballast.

Sand-Lime Products

Sand-lime products valued at \$141,135 were sold in 1943 by two producing companies. This is a drop of 36.78 per cent. from the value recorded in 1942.

Stone

Stone products quarried in Ontario in 1943 dropped 0.92 per cent. in value from the preceding year. In the following table, output and value of the different products falling under this designation are shown.

OUTPUT OF STONE, 1941, 1942, AND 1943

Variety	1941		1942		1943

CLAY PRODUCTS

As in the case of structural materials, clay products followed the downward trend in 1943 with a production value of \$2,453,829, as against \$2,549,487 in 1942, a decrease of 10.5 per cent. The following table gives quantities and values of the several clay products made and sold by Ontario producers:—

HEAVY CLAY PRODUCTS MARKETED, 1943

Kind	Quantity	Value
Brick:

MISCELLANEOUS STATISTICS

Mining Company Incorporations

A summary of mining companies incorporated and licensed in Ontario from 1939 to 1943, inclusive, is given hereunder:—

MINING COMPANIES INCORPORATED AND LICENSED, 1939-1943

Year	Incorporated				Extra-provincial and mortmain companies licensed	
	No.	Nominal capital	"No par" companies		No.	Capital for use in Ontario
			No.	Shares		
1939.....	137	\$195,650,000	20	10,374,000	1	\$10,000
1940.....	66	89,490,000	8	4,444,000
1941.....	55	77,970,000	14	11,390,400
1942.....	47	44,370,000	19	14,181,000
1943.....	108	176,710,000	17	31,685,000	2	80,000

Of the 127 companies incorporated in 1943, 108 had specified capital only, 17 were companies having shares without nominal or par value, and 2 had both specified capital and shares without par value.

MINING COMPANIES INCORPORATED IN ONTARIO IN 1943 HAVING SHARES WITHOUT NOMINAL OR PAR VALUE

Name of company	Head office	Date of incorporation	No. of shares

Mining Revenue and Expenditures

The revenue of the Department of Mines for the fiscal year ending March 31, 1944, was \$2,192,739.88, as compared with \$2,596,649.19 in the previous year. Expenditures were \$333,311.82. The following table gives details of the revenue for the year:—

REVENUE, DEPARTMENT OF MINES, APRIL 1, 1943, TO MARCH 31, 1944

ORDINARY:

Sand and gravel:						
Royalties.....				\$50,044.21		
Licenses.....				1,190.00		
Casual fees.....				634.96		
Sale of record books, Unwrought Metal Sales Act.....				226.18		
Draughting office: sale of blue-prints.....				700.97		
Gas leases.....				13,715.00		
					\$66,511.32	
Inspection cable testing fees.....						8,682.16
Assessment:						
Acreage tax.....				\$37,354.97		
Profit tax, including arrears.....				1,850,512.74		
Gas tax.....				50,182.05		
						1,938,049.76
Chemical and assay fees.....						2,269.77
Mining recorders:						
Rentals:						
Mining leases.....				\$10,219.34		
Licenses of occupation.....				9,612.60		
Miner's licenses.....				31,816.77		
Recording fees.....				58,231.91		
Miscellaneous fees.....				3,700.86		
Blue-print sales.....				1,433.30		
						115,014.78
Natural Gas Commissioner, permits.....						1,612.58
Temiskaming Testing Laboratories:						
Fees.....				\$18,941.50		
Sale of gold ores.....				1,917.09		
						20,858.59
Miscellaneous.....						328.12
						\$2,153,327.08
CAPITAL:						
Mining recorders—mining land sales.....						39,412.80
Total revenue.....						\$2,192,739.88

The following is a comparative statement of mining licenses and renewals issued, claims recorded, profit tax, and total revenue during the past five years:—

PROSPECTING ACTIVITY, PROFIT TAX, AND TOTAL REVENUE, 1939-1943

Year	Calendar year					Fiscal year
	New miner's licenses issued	Miner's licenses renewed	Total licenses and renewals	Mining claims recorded	Profit tax	Total mining revenue
1939.....	2,096	5,617	7,713	6,772	\$1,703,159.69	\$2,268,515.56
1940.....	1,000	4,470	5,470	4,667	2,002,908.48	2,392,961.42
1941.....	1,009	3,225	4,234	4,254	2,392,285.97	2,772,302.07
1942.....	1,178	3,224	4,402	3,593	2,263,698.72	2,596,649.19
1943.....	1,341	2,073	3,414	5,232	1,850,628.30	2,192,739.88

The following statement, prepared by the Accounts Branch of the Department, gives details of the profit tax collected under the supervision of A. R. Crozier, Mine Assessor, for the fiscal year ending March 31, 1944.

DETAILS OF PROFIT TAX

GOLD:	
Aunor Gold Mines, Limited.....	\$17,906.69
Berens River Mines, Limited.....	15,509.18
Broulan Porcupine Mines, Limited.....	5,153.14
Central Patricia Gold Mines, Limited.....	9,652.08
Cochenour Willans Gold Mines, Limited.....	15,733.78
Coniaurum Mines, Limited.....	2,054.01
Delnite Mines, Limited.....	7,771.27
Dome Mines, Limited.....	62,566.63
Hallnor Mines, Limited.....	19,765.55
Hard Rock Gold Mines, Limited.....	9,688.94
Hasaga Gold Mines, Limited.....	4,614.68
Hollinger Consolidated Gold Mines, Limited.....	83,265.41
Jason Mines, Limited.....	242.56
Jerome Gold Mines, Limited.....	5,724.12
Kerr-Addison Gold Mines, Limited.....	114,078.89
Kirkland Lake Gold Mining Company, Limited.....	3,106.15
Lake Shore Mines, Limited.....	25,190.91
Leitch Gold Mines, Limited.....	10,633.49
Little Long Lac Gold Mines, Limited.....	8,765.72
Macassa Mines, Limited.....	11,990.66
MacLeod-Cockshutt Gold Mines, Limited.....	17,026.63
McIntyre Porcupine Mines, Limited.....	72,596.94
McKenzie Red Lake Gold Mines, Limited.....	8,810.11
McMarmac Red Lake Gold Mines, Limited.....	2,702.11
Madsen Red Lake Gold Mines, Limited.....	12,470.72
Magnet Consolidated Mines, Limited.....	4,828.52
Moneta Porcupine Mines, Limited.....	3,958.28
Pamour Porcupine Mines, Limited.....	3,399.14
Paymaster Consolidated Mines, Limited.....	3,034.17
Pickle Crow Gold Mines, Limited.....	11,056.67
Preston East Dome Mines, Limited.....	9,254.07
Sturgeon River Gold Mines, Limited.....	1,609.52
Sylvanite Gold Mines, Limited.....	7,172.73
Teck-Hughes Gold Mines, Limited.....	9,707.18
Toburn Gold Mines, Limited.....	444.09
Tombill Gold Mines, Limited.....	4,815.83
Upper Canada Mines, Limited.....	13,581.02
Wendigo Gold Mines, Limited.....	3,511.97
Wright-Hargreaves Mines, Limited.....	58,889.08
Young-Davidson Mines, Limited.....	7,796.06
	\$690,078.70
NICKEL-COPPER:	
Falconbridge Nickel Mines, Limited.....	\$9,872.29
International Nickel Company of Canada, Limited.....	1,145,755.81
	1,155,628.10
IRON:	
Algoma Ore Properties, Limited.....	3,333.73
SILVER-COBALT:	
Cross Lake Lease.....	1,315.79
GRAPHITE:	
Black Donald Graphite, Limited.....	271.98
Total.....	\$1,850,628.30

The amount of profit tax shown in the revenue statement on page 47 is \$1,850,512.74, which is \$115.56 less than the amount shown above. The difference is brought about by a refund on account of an adjustment from a previous year's assessment.

STATEMENT OF MONIES RECEIVED FROM MINING RECORDERS FOR THE FISCAL YEAR ENDING MARCH 31, 1944

Mining division	Purchase price	Licenses of occupation	Mining leases	Blue-prints	Miscellaneous fees	Miner's licenses	Recording fees	Total

19. Substitute Miner's Licenses issued.....	1	2	1	3	2	2	1	12
20. Abstracts issued.....	750	1,760	1,281	1,882	1,027	1,235	29	345	366	377	671	9,723
21. Blue-prints sold.....	185	831	515	1,085	295	477	7	155	177	245	89	4,061

¹Miner's Licenses issued and renewed at the Department in Toronto were 781, making a total of 3,314 for the Province, as compared with 4,402 in 1942, 4,234 in 1941, 5,470 in 1940, and 7,713 in 1939.

²In addition, the claims recorded at the Department of Mines in Toronto were 218, making a total of 3,232 for the Province, as compared with 3,593 in 1942, 4,254 in 1941, 4,667 in 1940, and 6,772 in 1939.

The totals in the statement of monies received from mining recorders on page 49 agree with corresponding items in the previous revenue statement, with the exception of the amounts shown for licenses of occupation and mining leases. The differences are \$7,517.18 and \$9,046.87, respectively, which amounts were collected by the Accounts Branch of the Department on account of annual rentals on lands licensed and leased in previous years.

The figures of monies derived from sales and leases, divided according to district, do not agree with corresponding items of the revenue statement on page 47, which record collections of monies actually received during the fiscal year. Details are given in the following table:—

MINING LANDS SOLD AND LEASED FOR FISCAL YEAR ENDING MARCH 31, 1944

District	Sales			Leases			Total sales and leases		
	No.	Acres	Amount	No.	Acres	Amount	No.	Acres	Amount

Provincial Assay Office

As an aid in the development of the mineral resources of Ontario, the Government established a Provincial Assay Office in Belleville in 1898. This was for the purpose of making assays of the various ores found in the Province and to assist the prospector in the development of claims. This office is now established in the East Block of the Parliament Buildings, Toronto.

The Provincial Assayer and Chemist, W. F. Green, reports as follows:—

ASSAY RETURNS FOR 1943

Metal	Free assays under Mining Act	General custom work	Departmental work	Total

Fluorine.....	1	28	3	32
Manganese.....	4	8	12
Titanium.....	6	11	19	36
Silica.....	2	21	19	42
Tungsten.....	8	4	1	13
Miscellaneous.....	49	56	60	165
Total.....	1,218	1,063	231	2,512

In addition, 196 samples for identification were received and reports issued. Numerous samples were brought directly to the laboratory for identification, and of these no record was kept. Complete analyses were made of 7 rocks.

Determinations for iron were also made on samples taken from 57 cargoes of iron ore sinter shipped from Michipicoten by the Algoma Steel Corporation. These determinations were to serve as checks on the returns made under the Iron Ore Bounty Act.

The fees received for the custom work done in 1943 amounted to \$2,045.30.

A comparative statement of the work done during the years 1942 and 1943 follows:—

	1942	1943
Free coupon samples.....	1,225	1,218
Identifications.....	232	196
Custom work samples.....	274	1,063
Departmental samples.....	300	231
Total.....	2,031	2,708

The fees received for custom work done in 1943 amounted to \$2,045.30, as compared to \$648.60 in 1942.

There has been a further decrease in the number of free assay coupons received during the year; at the same time the number of assays for gold and silver has increased a great deal. The resulting increase in revenue has been further augmented by more paid assays for strategic minerals.

Free assays may be obtained as provided by the Mining Act of Ontario, R.S.O. 1937, Chapter 47, section 67, as amended in 1943, as follows:—

Every licensee who stakes out and records a mining claim shall be given by the recorder two free assay coupons on recording it and two additional free assay coupons on recording each forty days' work thereafter, and on forwarding or delivering, charges prepaid, samples from the mining claim to the Provincial Assayer, Toronto, together with the required number of coupons, he shall be entitled to have such samples assayed without charge.

Some assays require one coupon in payment, and some require two or more, as indicated on the coupons now being distributed. The number of coupons received during 1943 was 1,548, a decrease of 334 from the total of 1942.

Minerals and rocks not requiring analysis are identified free of charge, and tests for radioactivity are also free. All other determinations require a fee, as found in the Schedule of Fees for this branch of the Department.

MINES OF ONTARIO IN 1943

By

Chief Inspector of Mines, W. O. Tower, Toronto; Inspectors, R. L. Smith, Kenora; W. E. Bawden, Port Arthur; D. F. Cooper, Sudbury; J. B. Taylor, E. S. Little, Kirkland Lake; E. B. Weir, Timmins; D. P. Douglass, Toronto.

APATITE

Ontario Phosphate Company, Limited

The operations on the old McLaren phosphate property in Bedford township, Frontenac county, which had been begun by the Canadian Phosphate Mining Company, Limited, in 1942, were continued during the early months of 1943. The property is on lots 27, 28, 29, and the east half of lot 31, concession X, and lot 25, concession IX. About 100 tons of phosphate ore, excavated from three shallow pits, was shipped early in the year.

The property was idle during the summer months. About October 10, operations were resumed by the Ontario Phosphate Company, Limited, a private company formed to succeed the Canadian Phosphate Mining Company, Limited. Henry Monkton, 62 Richmond Street West, is secretary and manager. H. B. Cordick was foreman at the property. The mine address is Burridge.

COPPER

Algoma Copper Mines, Limited

Algoma Copper Mines, Limited, was incorporated in March, 1942, with an authorized capitalization of 3,000,000 shares of no par value, of which 1,462,111 have been issued. The officers and directors are: H. J. Addison, president; C. C. Downey, vice-president; Holland Pettit, secretary-treasurer; J. H. Hughes and Andrew Lucas, directors. The head office is at 199 Bay Street, Toronto. The mine address when operations are in progress is Iron Bridge.

The company obtained a lease on the property formerly operated by White Lake Mines, Limited. It consists of 10 claims, approximately 400 acres, in township 1A, Mississagi Provincial Forest, about 45 miles northeast of Iron Bridge on the Sudbury-Sault Ste. Marie highway.

From 1929 to 1931, White Lake Mines, Limited, did about 4,000 feet of underground development work through two adits. The property was then idle till the summer of 1943, when the present operators let a contract for a programme of diamond-drilling and surface-trenching.

A 220-cubic-foot gasoline compressor was installed. Operations began on August 1 and continued to December 22. Nine diamond-drill holes, totalling 2,200 feet, were drilled from surface. About 1,200 feet of surface-trenching, 6 feet deep, was cut. Some 400 tons of copper ore was obtained from the trenching.

The work was done by A. Burton and K. V. Dean. An average force of 6 men was employed during the period of operation.

Kam-Kotia Porcupine Mines, Limited

Kam-Kotia Porcupine Mines, Limited, a subsidiary of Hollinger Consolidated Gold Mines, Limited, has an authorized capitalization of 40,000 shares of \$1 par value, all of which have been issued. The officers are: J. R. Timmins, president; P. C. Finlay, secretary; S. M. Hutchinson, treasurer; B. E. Lawless, and E. B. Weeks, directors. The head office is at 2 King Street East, Toronto. The mine address is Timmins.

The property, which was originally known as the Jamieson, consists of 8 claims, 400 acres, in Robb township, district of Cochrane, 14 miles northwest of Timmins.

Hollinger Consolidated Gold Mines, Limited, which operated the property from 1926 to 1928, sank a 2-compartment, vertical shaft on claim No. 12,339 to a depth of 162 feet and did 600 feet of drifting and 250 feet of crosscutting on a level at 150 feet.

The present operations began in October, 1942, pursuant to an agreement between the Department of Munitions and Supply, Ottawa, and the Metals Reserve Company, Washington, with the object of helping to meet the deficiency of copper in the United States. The work is being carried on by Hollinger Consolidated Gold Mines under the general supervision of the Wartime Metals Corporation.

A 22-mile road from Timmins, begun late in 1942, was completed in 1943. A 44,000-volt power line, 6 miles long, was built and connected to the Lower Sturgeon Falls transmission line of the Canada Northern Power Corporation. A pumping-station was erected at Kamiskotia lake, and a 7,000-foot pipe line was built. A crusher plant and a 500-ton copper flotation concentrator were built and equipped. Other buildings included an office, a steel shop, a 3-truck garage, a dry-house, a bunk-house, a cookery, and a staff-house. The following equipment was installed in the crusher and concentrator: 48- by 60-inch Buchanan jaw-crusher, 4½-foot Symons cone crusher, 7- by 14-foot Marcy ball mill; 6- by 20-foot tube mill, 28 No. 26 Denver flotation cells, 40-foot tray thickener, 30-foot thickener, and 1,200-cubic-foot Canadian Ingersoll-Rand compressor.

An open-pit operation was begun on August 30 and continued till December 31. The broken ore was removed with a Bucyrus Erie electric shovel, with a 2-yard dipper, and taken in trucks to the concentrator. At the end of the year, the pit was 175 feet long, 125 feet wide, and about 40 feet deep. There were 37,448 tons of ore broken. The mill treated 37,048 tons, operating from September 2 to the end of the year. The concentrates, amounting to 2,134 tons, were carried by truck to Timmins and shipped to Noranda for further treatment.

An average force of 38 men was employed. John Knox, Jr., is manager.

FELDSPAR

Bathurst Feldspar Mines, Limited

Bathurst Feldspar Mines, Limited, was incorporated in April, 1927, with an authorized capitalization of 40,000 preferred shares of \$5 par value, of which 26,525 have been issued, and 40,000 common shares of no par value, all of which have been issued. The officers and directors are: B. Day, president; S. Howorth, vice-president; B. S. Hyde, secretary-treasurer and manager; M. Stone and A. Hyde, directors. The head office is at 21 King Street East, Toronto. The mine address is Perth.

The company owns the Bathurst feldspar property on the south half of lot 16 and the north half of lot 15, concession VIII, Bathurst township, Lanark county.

Operations were continuous throughout 1943 and consisted of mining a section about 80 feet in length at the south end of the old pit. At the end of the year this section had been cut down about 30 feet below the surface. About 2,300 tons of feldspar and 106 tons of quartz were produced.

Robert McVeigh was in charge of the work, employing 18 men.

T. H. Craig

T. H. Craig, 16 Victoria Street, Perth, operated the Charles feldspar property on lot 9, concession VIII, Bathurst township, Lanark county, under lease from January 1 to August 31, 1943. The excavation is L-shaped, each branch being about 60 feet long, 30 feet wide, and 20 feet deep.

About 488 tons of feldspar were produced. Five men were employed.

P. J. Dwyer

P. J. Dwyer, 45 Richmond Street West, Toronto, opened up a feldspar showing on lot 30, concession IX, Monteaule township, Hastings county, in July, 1943, and shipped 50 tons of feldspar. No further work was done.

Five men were employed during July.

E. L. Gough

E. L. Gough, 332 Sherwood Drive, Ottawa, did some work in 1943 on a feldspar showing on lots 13 and 14, concession V, Murchison township, district of Nipissing, to test its commercial possibilities. The showing was opened over a length of about 500 feet. The feldspar proved to be of doubtful grade, and work was discontinued. Several small shipments were made.

John Hay was foreman, employing 6 men.

Keystone Contractors, Limited

Garry Colautti, of Barrys Bay, acting for Keystone Contractors, Limited, carried on operations in 1943 on two feldspar deposits.

Lot 22, Concession VIII, Grattan Township, Renfrew County

About 1,067 tons of No. 2 grade feldspar was taken from shallow pits on lot 22, concession VIII, Grattan township, Renfrew county, during July and August. The equipment was then removed from the property.

Five men were employed.

Lot 22, Concession VIII, Murchison Township, District of Nipissing

A property on lot 22, concession VIII, Murchison township, district of Nipissing, formerly operated by W. B. Cameron, was worked continuously during the year. The feldspar was taken from a cut, which at the end of the year was about 100 feet long, 12 feet wide, and 25 feet deep. About 1,668 tons of feldspar was mined and shipped.

Five men were employed.

D. L. Ross and Company

D. L. Ross and Company, 275 St. James Street West, Montreal, Que., carried on operations throughout 1943 on the north halves of lots 14 and 15, concession IV, Murchison township, district of Nipissing. This property, formerly operated by John G. Gole, is also known as the Madawaska Feldspar.

About 3,550 tons of quartz and 700 tons of feldspar were mined. The material was taken from an open cut about 700 feet long, from 20 to 40 feet wide, and about 25 feet deep.

A small office building was erected during the year.

B. A. Gordon was in charge, employing 10 men. The mine address is Madawaska.

FLUORSPAR

Bassett Fluorspar Mining Syndicate, Limited

The Bassett Fluorspar Mining Syndicate, Limited, was incorporated in September, 1942, with an authorized capitalization of 35,000 shares of \$1 par value. The officers are: M. Abraham, president; Charles Beilby, vice-president; J. L. Lennon, secretary-treasurer. The head office is at 36 Toronto Street, Toronto. The mine address is Madoc.

In the summer and fall of 1943, the syndicate reopened two fluorspar veins that had been worked some years ago on the George Lee property on lot 2, concession III, Madoc township, Hastings county. On the east side of the lot a narrow vein in limestone was opened for a length of about 300 feet. At the end of the year the bench along the vein was from 5 to 30 feet in depth. At the deepest point a headframe was erected, but no further work was done. Preparations were made to sink a shaft on the vein on the west side of the lot and to establish a mining plant.

About 216 tons of fluorspar were shipped from the east vein.

M. Abraham was in charge of the work, employing 6 men.

Cardiff Fluorite Mines, Limited

Cardiff Fluorite Mines, Limited, was incorporated on September 9, 1943, with an authorized capitalization of 2,000,000 shares of \$1 par value. The officers and directors are: F. R. Marshall, president; W. E. Cross, secretary-treasurer; E. C. Cattanaich, L. K. Fletcher, R. J. Clarke, and H. Lemon, directors. The head office is at 26 Queen Street East, Toronto.

The company began operations on August 1, 1943, on a fluorspar deposit on lot A, concession XVII, Cardiff township, Haliburton county, and continued to the end of the year. Stripping and blasting over a distance of 500 feet was done on a hill-side to open up a vein. A stock-pile of some 300 tons of disseminated fluorspar was built up.

A. H. Smith was in charge of the work, employing 6 men. The mine address was Wilberforce.

Dominion Fluorspar Company, Limited

The Dominion Fluorspar Company, Limited, was incorporated on February 5, 1940, with an authorized capitalization of 50,000 shares of \$1 par value, of which 30,014 have been issued. The officers and directors are: Louis Hurtubise, president; John G. Porteous, secretary-treasurer; Stanley Johnston and William Papke, directors. The head office is at 360 St. James Street West, Montreal, Que. The mine address, when operations are in progress, is Madoc.

The property, formerly known as the Wallbridge, is on the west halves of lots 1 and 2, concession I, Madoc township, Hastings county, and contains 200 acres.

In the summer of 1943, the plant was reconditioned and the headframe raised. The shaft was pumped to the 50-foot level, and the drift was continued southward on the vein for a distance of 50 feet.

About 100 tons of fluorspar was mined, and the same amount was recovered from sorting the dumps.

The operation ceased on October 9.

C. Brooks was in charge, employing 20 men during the period of operation.

R. T. Gilman

Johnston Property

R. T. Gilman, of Madoc, began operations in the summer of 1943 on the Johnston property, which is just south of the Noyes property, on the west half of lot 14, concession XI, Huntingdon township, Hastings county.

Several diamond-drill holes were put down, and the presence of a fluorspar vein was indicated. A shaft was started to open up this deposit and had reached a depth of 55 feet when the operation ceased on November 30.

Five men were employed during the period of operation.

Noyes Mine

Operations at the Noyes mine on lot 13 and the east half of lot 12, concession XII, Huntingdon township, Hastings county, continued from January to October.

About 300 feet west of No. 2 winze, an excavation known as No. 3 winze was carried to a depth of 14 feet below the 275-foot level by underhand methods.

The following table shows the development work done in 1943 and the total when operations ceased:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
No. 2 SHAFT:						
125-foot.....	120	1,025		45	95	345
225-foot.....		750		10	80	400
No. 2 WINZE:						
275-foot.....		400			50	50

About 6,800 tons of ore was mined.

Forty men were employed during the period of operation. Ray H. Binch was in charge of both the Johnston and the Noyes properties.

H. C. Miller

H. C. Miller, of Ottawa, obtained a lease on the Keen property on the west half of lot 9, concession XIV, Huntingdon township, Hastings county, in December, 1942, and began preparations for dewatering the mine.

Previous operators had sunk a shaft to a depth of about 65 feet and established a level at 57 feet, on which some drifting had been done.

Early in 1943, a new hoist-room was built and a single-drum, air-driven Rand hoist installed. The workings were dewatered, the shaft was deepened to 91 feet, and a new level was established at a depth of 87 feet. Drifting was done to the north and south on both the new level and the 57-foot level. The following table shows the total development on each level when the operation ceased in October, 1943:—

Level	Drifts		Raises
	North	South	
57-foot.....	feet 255	feet 135	feet 30
87-foot.....	310	130	25

In 1943, 2,376 tons of crude fluorspar ore was produced and shipped.

C. W. MacDonald was manager, employing 20 men during the period of operation. The mine address was Madoc.

Montgomery, MacFarlane, and Clarke

F. K. Montgomery, of Havelock, J. K. MacFarlane, and R. M. Clarke, operating under a lease, mined about 40 tons of fluorspar during October from lot 8, concession XXII, Cardiff township, Haliburton county. The work done was alongside the Wilberforce road, where a tunnel about 35 feet long had been driven some years ago.

Three men were employed.

Reliance Fluorspar Mining Syndicate, Limited

The Reliance Fluorspar Mining Syndicate, Limited, was incorporated in December, 1940, with an authorized capitalization of 35,000 shares of \$1 par value, of which 20,005 have been issued. The officers are: W. J. Symon, president; Frank Dafoe, vice-president; Mrs. W. J. Symon, secretary-treasurer. The head office and mine office are at Madoc.

The syndicate continued to operate the Perry mine on lot 11, concession XIII, Huntingdon township, Hastings county, from January 1 to November 20, 1943, when operations ceased. Operations at the Rogers mine on lot 10, concession XIV, Huntingdon township, were carried on during the last four months of the year.

There were 3,987 tons of fluorspar mined, from which 3,187 tons of ore of metallurgical grade was shipped. The mill, which is on the Perry property, operated from May 1 to November 20.

W. J. Symon was manager, employing 23 men.

Perry Mine

The No. 1 shaft at the Perry mine was carried to a depth of 195 feet by raising from the 118-foot level to the bottom of the shaft and sinking below the level. A new level was established at 190 feet, and 196 feet of drifting was done.

Twenty diamond-drill holes, totalling 4,000 feet, were drilled from surface.

Rogers Mine

On the Rogers property there is an old vertical, 2-compartment shaft sunk by former operators to a depth of about 56 feet. The shaft is some 50 feet northeast of an open pit on a fluorspar vein, which strikes northwest and southeast across the south end of the property.

A new headframe and hoist-room were built at the shaft, and a compressor and hoist were installed. A small office was built.

Four carloads of good fluorspar ore were mined from the open cut.

Charles A. Stoklosar

Charles A. Stoklosar, of Madoc, continued his operations at the Blakely fluorspar mine on the east half of lot 10, concession XII, Huntingdon township, Hastings county, in 1943.

A pit at the south end of the property was operated from May 15 to June 15. The excavation is 50 feet long, 5 feet wide, and 35 feet deep. Three men were employed at this work.

Operations at the main Blakely workings at the north end of the property were begun on June 15 and continued for the rest of the year.

A small Canadian Ingersoll-Rand standard mine hoist was installed to replace the Napanee hoist used in 1942. A 115-foot portable Canadian Ingersoll-Rand compressor, a Mitchell crusher, and an 8 h.p. Canadian Fairbanks-Morse engine were added to the plant.

The shaft was dewatered to a depth of 45 feet, where a new level was established. After about 220 feet of drifting had been done, stoping operations were carried on above the level.

Ten men were employed in this section from August to December.

About 731 tons of fluorspar was produced during the year.

Trent Mining Syndicate, Limited

The Trent Mining Syndicate, Limited, which was incorporated in November, 1939, has an authorized capitalization of 35,000 shares of \$1 par value, of which 24,012 have been issued. The officers and directors are: H. R. Cory, president; W. R. Cory, secretary-treasurer; S. R. Westfall, S. J. Jenners, R. G. Weddell, and H. Wessells, directors. The head office is at Trenton.

The syndicate carried on operations on the Ben Lee property on the east half of lot 1, concession I, Madoc township, Hastings county, from July 15 to November 15.

A new headframe was erected over an old shaft on a vein, and the shaft was deepened 20 feet to a total depth of 50 feet. At a depth of 20 feet from surface 104 feet of drifting was done to the south, and at 30 feet from surface 54 feet of drifting was done to the north.

A single-drum Canadian Ingersoll-Rand hoist was installed.

There were 203 tons of crude fluorspar ore shipped.

Seven men were employed. W. Badgley was foreman. The mine address is Madoc.

Wood Land Mineral Company

The Wood Land Mineral Company, 19 John Street South, Hamilton, conducted operations on the South Reynolds property on lot 7, concession XIII, Huntingdon township, Hastings county, from November 16, 1942, to July 21, 1943.

Some years previously, a fluorspar vein on the property had been opened for about 150 feet. The present operators installed a portable mining plant consisting of a boiler, hoist, and compressor. A temporary headframe and buildings to house the equipment were erected. The sinking of a shaft on the vein was begun, and the shaft had reached a depth of 30 feet when the operation ceased.

A small amount of fluorspar was produced.

Arthur I. Land, one of the partners, directed operations, and L. Burkett was in charge at the property. Ten men were employed.

GOLD

Aunor Gold Mines, Limited

Aunor Gold Mines, Limited, was incorporated in May, 1939, with an authorized capitalization of 2,000,000 shares of \$1 par value, all of which have been issued. The officers and directors are: Jas. Y. Murdoch, president; J. R. Bradfield, secretary; R. G. Rudolf, treasurer; Russell Horsfall and C. H.

Windeler, assistant secretaries; Harold Pinnock, assistant treasurer; A. L. Ellsworth, N. C. Urquhart, and W. S. Mitchell, directors. The head office is at 1600 Royal Bank Building, Toronto. The mine address is Box 420, Timmins.

The property consists of 11 claims, containing approximately 360 acres, in Deloro township, Porcupine area, district of Cochrane. Of these, 8 claims are owned by the company, 1 is under option, and 2 are leased.

Mining and milling operations continued throughout 1943. During the second half of the year the 3-compartment, vertical shaft on claim H.S. 850, was deepened from 1,580 to 2,071 feet. A 48- by 36-inch, single-drum Canadian Ingersoll-Rand hoist, installed at the 700-foot level, was used for the sinking. The preliminary rounds were taken out for stations at 1,625, 1,750, 1,875, and 2,000 feet. The following table shows the development work done during 1943 and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
250-foot.....			318	346		
500-foot.....				110		
625-foot.....		1,821	50	838	59	865
750-foot.....	37	3,259		694		778
875-foot.....	33	3,596		1,018		1,118
1,000-foot.....	167	7,025	113	868	62	3,564
1,125-foot.....		3,502		618	395	1,888
1,250-foot.....	91	4,165		968	279	1,133
1,375-foot.....	1,381	2,354	63	587	424	508
1,500-foot.....	1,460	3,075	357	842	351	351

The new 66- by 96-inch, double-drum Canadian Ingersoll-Rand hoist, which had been installed late in 1942, was put into service in February, 1943. An Akins classifier was added to the mill equipment during the year.

The following is taken from the manager's report for the year ending December 31, 1943:—

During the year, stoping operations were carried on between the 750- and 1,375-foot levels. Grade of ore recovered was slightly better than in the preceding year.

Development was carried out principally on the two bottom levels at the 1,375- and 1,500-foot horizons.

New ore put in sight more than compensated for ore extracted and milled.

ORE DEVELOPED BY DRIFTING

Level	Length	Width	Reduced grade	Tons per vertical foot
	feet	feet	ounces	
1,250-foot.....	91	5.1	0.255	38.7
1,375-foot.....	1,381	5.3	.404	609.9
1,500-foot.....	968	5.4	.292	435.6

Some 2,440 feet of ore, averaging 0.318 ounces gold per ton, reduced across an average width of 5.3 feet, was developed during the year. This is the equivalent of 77 per cent. of the total drifting, exclusive of slashing. Supplementary diamond-drilling shows the ore on both the 1,375- and 1,500-foot levels to be greater than drift width in many places.

A total of 14,920 feet of underground diamond-drilling was completed. The drilling consists of flat holes drilled from the main drifts and stopes at regular intervals across the ore zone.

At the end of the year, ore reserves in the developed portion of the mine are estimated as follows:—

ORE RESERVES

	Tons	Per cent.	Grade ounces
Broken	9,500	1.6	0.241
Proved	459,540	78.2	.327
Probable	118,860	20.2	.304
Total	587,900	100	.321

MILLING STATISTICS

Dry tons milled	159,436
Average tons per 24 hours	436.81
Head assay (ball mill)	0.314
Calculated head (mine bullion assay)	0.321
Tailings loss	0.0088
Total recovery	97.25

SOURCES OF ORE, 1943

	Tons	Per cent.
Development	16,113	10.11
Drawn above 1,000-foot level	29,666	18.61
Drawn from 1,125-foot level	58,029	36.39
Drawn from 1,250-foot level	50,331	31.57
Drawn from 1,375-foot level	5,300	3.32
Total	159,439	100

During the year, 2,971 man hours were spent on war work in the machine shop. Each job undertaken was completed on schedule. The company derives no profit from this work.

Shipments of scheelite ore amounted to 10.18 tons.

Starting October 1, 1943, the directors of this company authorized, and the Department of Labour approved, the payment of six days' vacation with pay annually to all employees who are employed by this company for a period of one year or over.

As of November 1, 1943, a medical plan was put into force. This plan, which provides for full medical care and hospitalization for all Aunor employees and their immediate families, is paid for jointly by the employees and the company. Married men pay \$3.15 per month and single men \$2.05 per month. The company's contribution is \$1.10 per month per employee plus a further \$4.00 per year per employee.

Stanley S. Saxton was manager, employing an average force of 295 men, of whom 204 were underground and 25 in the mill.

Berens River Mines, Limited

Berens River Mines, Limited, which was incorporated in July, 1936, has an authorized capitalization of 2,000,000 shares of \$1 par value, all of which have been issued. The company is a subsidiary of the Newmont Mining Corporation. The officers and directors are: H. De Witt Smith, president; John Drybrough, vice-president; H. E. Dodge, secretary-treasurer; A. W. Burt and Carroll Searls, assistant secretaries; Gus Mrkvicka, assistant treasurer; F. M. Connell, Philip Kraft, and E. D. Birchard, directors. The head office and mine office are at Favourable Lake. The secretary's office is at 14 Wall Street, New York.

The property consists of 39 claims, approximately 1,550 acres, situated some 3½ miles east of South Trout lake, which is 8 miles east of Favourable Lake, in the Patricia portion of Kenora district.

Operations continued throughout 1943. The 3-compartment, vertical shaft on claim Pa. 116, was deepened from 1,502 to 1,898 feet, and levels were estab-

lished at 1,550, 1,700, and 1,850 feet. The following table shows the development work done during 1943 and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
125-foot	17	1,175	266	266	245	588
250-foot		1,650	362	362		690
375-foot		2,224	674	674		654
500-foot		1,411	358	358		580
650-foot		879	245	245		625
800-foot		1,311	426	426		855
950-foot		1,459	338	338	127	848
1,100-foot	88	989	121	503		193
1,250-foot	330	837	216	612	78	208
1,400-foot	175	294	61	714	230	277
1,550-foot	403	403	1,602	1,602		
1,700-foot			83	83		
1,850-foot (station only)						

Diamond-drilling consisted of 99 holes, totalling 7,551 feet, all from underground.

During the year the compressor- and hoist-room was enlarged, a tractor garage built, and an isolation ward added to the hospital. The zinc flotation plant begun in 1942 was completed and put into operation in May. The equipment in the plant consists of the following: 10- by 10-foot Denver Wallace low-head type, super-agitator, with tank; 10-cell Denver Sub-A flotation machine, with a capacity of 200 to 250 tons per day; 9- by 11-foot Denver thickener, with tank and 2-inch diaphragm pump; 6- by 4-foot Eimco drum filter, metallurgical type, with a capacity of 10 to 15 tons per day.

The following is taken from the manager's report for the year ending December 31, 1943:—

Development on the 1,400-foot level in the No. 1 zone proved disappointing, but stoping above the level has yielded more ore and of a better grade than was shown in the section on level.

The 1,550-foot level development to date shows improvement over the 1,400-foot level in the same section, with two shoots averaging 0.29 ounces per ton gold and 10.6 ounces per ton silver over an average width of 8.1 feet for a length of 168 feet.

On the 1,550-foot level, a crosscut is being driven approximately 1,700 feet north from the shaft to develop the No. 3 zone, which was explored by surface-drilling in 1942 to a depth of 850 feet. At the year end, the heading had advanced 900 feet and cut two narrow veins which carried low gold and silver values. These veins will be further explored.

Ore Reserves

Ore reserves decreased sharply during the year as mined-out ore was not replaced, due partly to lack of development work caused by manpower shortage and partly to disappointing development results on the 1,400-foot level horizon as shown by work to date. As of December 31, 1943, ore reserves are estimated at 53,030 tons, averaging 0.31 ounces gold and 10.65 ounces silver, compared with 124,700 tons, averaging 0.35 ounces gold and 10.1 ounces silver on December 31, 1942.

Exploration

No exploration was done outside of the present mine property.

Mill Operation

During the year, 53,255 tons were milled, an average of 145.9 tons per day. Mill heads averaged 0.313 ounces gold and 9.97 ounces silver. The above compares with 86,850 tons milled in 1942.

Metal recoveries, as compared with previous years, were increased, due to closer laboratory control, and were as follows:—

	Gold	Silver
	per cent.	per cent.
Cyanide precipitates.....	97.02	80.16
Flotation concentrates.....	.30	8.35
Total, 1943.....	97.32	88.51
Total, 1942.....	96.81	85.69
Total, 1941.....	95.95	86.03
Total, 1940.....	95.66	82.20

Production

Net recoverable metals produced during the year 1943 were as follows:—

	Gold	Silver	Value
	ounces	ounces	
Cyanide precipitates.....	16,086	429,565	\$829,286.87
Flotation concentrates.....	22	39,002	190,898.26
Total.....	16,108	468,567	\$920,185.13

¹Includes value of base metal production.

Net recovery per ton milled averaged \$15.57 per ton from cyanide precipitate and \$1.71 per ton from flotation concentrate, a total of \$17.28. This includes the value of zinc which was not previously recovered.

Costs

Operating costs were \$12.59 per ton, as compared with \$9.05 for the previous year, as follows:—

	Per ton milled	
	1942	1943
Development.....	\$0.96	\$1.46
Mining.....	5.16	7.19
Milling.....	1.96	2.66
Mine operating costs.....	\$8.08	\$11.31
Transportation and refining charges:		
Precipitates.....	\$0.32	\$0.33
Lead concentrates.....	.65	.22
Zinc concentrates.....		.73
Total transportation and refining costs.....	\$0.97	\$1.28
Total costs.....	\$9.05	\$12.59

Higher costs in 1943 were due largely to the decrease in tonnage milled, from 237.9 tons per day in 1942 to 145.9 tons per day in 1943, and to a lesser extent to the extra cost for zinc recovery and higher transportation and freighting charges.

Capital Expenditures

Apart from the expenditure for the plant for the production of zinc concentrates and a tractor garage, capital charges were confined to minor extensions and improvements.

Mill—zinc plant extension.....	\$26,630.47
Compressor- and hoist-house.....	1,056.75
Shops.....	140.11
Hospital.....	400.33
Garage.....	901.48

Total..... \$29,129.14

E. J. Martin was manager until August, when he resigned and was succeeded by C. W. MacDonald. An average force of 191 persons was employed. Of these, 119 men were in the mine, 17 in the mill, and 44 on surface.

Bidgood Kirkland Gold Mines, Limited

Bidgood Kirkland Gold Mines, Limited, was incorporated in March, 1933, with a capitalization of 2,000,000 shares of \$1 par value, which was increased to 4,000,000 shares in 1935. All the shares have been issued. The officers and directors are: W. J. Lawson, president; O. L. Knutson, vice-president; J. M. Macintosh, secretary-treasurer; W. Harrison, assistant secretary; A. E. Belcher and S. K. Learie, directors. The head office and mine office are at Kirkland Lake. The executive office is at 357 Bay Street, Toronto.

The property consists of 23 claims, approximately 753 acres, in Lebel township, Kirkland Lake area, district of Timiskaming.

The property is in two sections, known as Nos. 1 and 2 workings. The shafts are about 4,275 feet apart. The No. 1 section has not been operated since June, 1940.¹

Operations at the main or No. 2 working continued throughout 1943. The vertical, 3-compartment No. 2 shaft on claim L. 9,882 was deepened from 1,385 to 1,561 feet. There are three winzes in this section. No. 1 winze, collared at the 500-foot level, 410 feet southeast of the shaft, is 292 feet deep. No. 2 winze, collared at the 775-foot level, 738 feet southeast of the shaft, is 1,278 feet deep. No. 712 winze, also collared at the 775-foot level, about 500 feet southwest of the shaft, runs at an angle of 65 degrees to a depth of 900 feet from surface. The deepening of the shaft was accomplished by crosscutting from the 1,525-foot level of No. 2 winze to the shaft location and raising from that point. A sump was sunk 36 feet below the 1,525-foot level. A level was established at a depth of 1,400 feet in the shaft.

The following table shows the development work done in the No. 2 section during 1943 and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
125-foot (No. 2 shaft)		1,521		900		
250-foot (No. 2 shaft)	734	2,465	23	1,149	76	364
375-foot (No. 2 shaft)		265		332		178
375-foot sublevel (No. 2 shaft)		1,416		346		540

2,025-foot (No. 2 winze)		766		275		213

¹For an account of the work done to that date, see Ont. Dept. Mines, Vol. L, 1941, pt. 1, p. 10.

²Workings connected between No. 2 shaft and No. 1 winze.

³Workings connected between No. 2 shaft and Nos. 1, 2, and 712 winzes.

⁴Workings connected between No. 2 shaft and No. 2 winze

Diamond-drilling consisted of 60 holes, totalling 15,423 feet, from underground.

The following is taken from the report of the manager for the twelve months ending December 31, 1943:—

During the year, 49,835 tons of ore were milled, from which were recovered 14,377.86 fine ounces of gold worth \$553,548.09 and 7,743.79 fine ounces of silver worth \$2,989.08. Total bullion production amounted to \$556,537.17, to which was added miscellaneous income of \$1,423.72, making a total gross revenue of \$557,960.89, or \$11.20 per ton milled.

Exploration and Development

Only a small amount of development work was accomplished during the year. This consisted chiefly of drifting and crosscutting, diamond-drilling, and in deepening the main No. 2 shaft to open up new levels at the 1,400- and 1,525-foot horizons. Owing to the acute labour shortage, the shaft work was not completed until the end of the year. Consequently, the small amount of drifting which we were able to accomplish had to be done on the upper levels of the mine. One development crew only could be spared for this work, which consisted mainly of investigating diamond-drill intersections and trying to locate the faulted sections of veins in which we had previously developed ore bodies. Some small shoots of medium-grade ore were developed, but on the whole this work failed to open up any new ore bodies of importance.

On the 250-foot level, diamond-drilling has indicated a new vein, which lies to the south and east of the No. 2 shaft and about 450 feet north of the main break. This vein is in a large diorite mass, which has not been explored on any of the lower levels and may develop into something of importance. A heading is now being driven to explore the vein.

Summary of Ore Hoisted

Grade was taken from car samples taken as the ore was dumped into the loading pockets:—

	Tons	Grade	Per cent.
Hoisted from development.....	1,697	\$6.14	3.39
Hoisted from stopes.....	48,268	11.31	96.61
Total.....	49,965	\$11.14	100

Analysis of Operating Costs

	Total	Per ton milled (49,835 tons)
REVENUE:

Lime lbs.	5.30
Cyanide lbs.	.85
Litharge lbs.	.74
Zinc (per ton solution precipitated) ounces	.38

An average force of 115 men was employed, of whom 65 were in the mine and 9 in the mill. F. L. Smith is mine manager.

Bonetal Gold Mines, Limited

Bonetal Gold Mines, Limited, was incorporated in November, 1936, with an authorized capitalization of 3,000,000 shares of \$1 par value, of which 2,839,173 have been issued. The mine is operated under the direction of Broulan Porcupine Mines, Limited. The officers and directors are: B. W. Lang, president; W. F. James, vice-president; T. C. Newman, secretary-treasurer; F. G. Lawson, G. B. Webster, and F. J. Bowley, directors. The head office is at 372 Bay Street, Toronto. The mine address is Pamour.

The property consists of 8 claims, adjoining the Hallnor and Broulan mines on the west, in Whitney township, Porcupine area, district of Cochrane. Seven of the claims are owned by the company and one is held under option.

Operations continued throughout 1943. The vertical, 3-compartment shaft on claim P. 18,523 is 571 feet deep, with levels at 175, 275, 400, and 512 feet. The following table shows the development work on these levels during 1943 and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
175-foot	6	787	407	407	159	159
275-foot		1,333	458	458	202	202
400-foot	6	1,496	60	629	216	743
512-foot	15	1,011	407	407	6	105

Diamond-drilling in 1943 consisted of 23 holes, totalling 7,692 feet, all from underground.

The following is taken from the mine manager's report for the year ending December 31, 1943:—

Production and Treatment

During the year, 31,351 tons of ore were mined and hoisted, of which 3,553 tons (11.3 per cent.) were removed on the sorting belt and the remaining 27,798 tons were milled in the cyanide plant of Broulan Porcupine Mines, Limited.

Production totalled \$165,656.64, representing 4,298.58 troy ounces of fine gold and 418.17 ounces of silver. Average recovery was \$5.28 per ton hoisted, or \$5.96 per ton cyanided. Over-all recovery, including sorting, was 93.17 per cent., and recovery in the cyanide plant was 93.75 per cent.

Mining

Of the 31,351 tons treated during the year, 709 tons were obtained from development work, the balance from stoping operations. Approximately 4,942 tons of rock from sorting and development work and 8,902 cubic yards of sand were used as backfill.

General

No new ore was developed during the year. However, stoping in the No. 1 or sedimentary zone has revealed greater widths than at first anticipated, so that at the end of the year enough ore is available to maintain operations at the present rate for at least another year.

Operating Costs

Total operating costs for the year, including head office administration and general expense, amounted to \$4.91 per ton of ore mined and hoisted, or \$5.53 per ton milled. These comparatively low costs for treatment of a small tonnage could not be obtained were it not for our working agreement with Broulan Porcupine Mines, Limited.

About 30 men were employed, of whom 26 were underground and 4 on surface. Walter F. Brown was mine manager.

Broulan Porcupine Mines, Limited

Broulan Porcupine Mines, Limited, was incorporated in March, 1936, with an authorized capitalization of 3,000,000 shares of \$1 par value, of which 2,694,005 have been issued. The officers and directors are: B. W. Lang, president; W. F. James, vice-president; D. R. Michener, secretary-treasurer; R. B. Andrews, assistant secretary; G. B. Webster and J. B. Streit, directors. The head office is at 372 Bay Street, Toronto. The mine address is Pamour.

The property consists of 10 claims, 415 acres, in Whitney township, Porcupine area, district of Cochrane.

The mine and mill continued to operate throughout 1943. The vertical, 3-compartment shaft on claim No. 14,909, is 611 feet deep. The following table shows the development work done during 1943 and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
173-foot.....		2,403		916		1,369
273-foot.....		2,714		722	99	1,383
398-foot.....		1,472		918	243	1,685
523-foot.....	1,716	7,172		482	114	1,000

Diamond-drilling during 1943 amounted to 88 holes, totalling 8,681 feet, drilled from underground. Of this, 5,125 feet was for development work and 3,556 feet for the obtaining of stope information.

The following is taken from the report of the mine manager for the year ending December 31, 1943:—

Production and Treatment

During the year, 131,747 tons of ore were mined and hoisted. Of this tonnage, 13,740 tons (10.4 per cent.) were removed on the sorting belt and the balance of 118,007 tons was milled in the cyanide plant.

Production totalled \$1,101,944, representing 28,594.65 troy ounces of fine gold and 2,717.81 ounces of silver. Average recovery was \$8.36 per ton hoisted, or \$9.34 per ton cyanided. Overall recovery, including sorting, was 94.7 per cent., and recovery in the cyanide plant was 95.0 per cent.

During the year, 27,798 dry tons of ore were crushed and milled for Bonetal Gold Mines, Limited.

Mining

Of the 131,747 tons of ore hoisted during the year, 769 tons were obtained from development work, the balance from stoping operations. All stoping is done by cut-and-fill methods. In addition to the waste rock obtained from sorting and development work, 48,481 cubic yards of sand were obtained for backfill.

On the fourth level, the 401 east drift was advanced a total of 1,635 feet to reach the north-west corner of our most easterly claim. In the vicinity of hole No. 1,738 (mentioned in last year's report), a zone containing flat quartz stringers was driven through. At the end of the year, an area of 1,344 square feet had been opened up by slashing in this zone. Muck samples averaged \$9.40 per ton at \$35.00 gold. Results in an area immediately to the east tested by short diamond-drill holes have been disappointing. Considerable more work is necessary before the importance of this area can be assessed or any tonnage included in ore reserves.

Ore Reserves

Ore reserves as at December 31, 1943, are estimated to be 465,000 tons, having an average grade of 0.20 ounces of gold per ton. This figure includes a block of approximately 95,000 tons above the first level in which sufficient work has not been done to establish definitely tonnage and grade.

General

The Bonetal mine was operated by Broulan on a cost basis, and therefore the Broulan pay-roll includes all men employed at Bonetal. This arrangement has resulted in considerable savings to both companies.

In conjunction with nine other mines in the Porcupine district, your company entered into a medical plan, which provides complete medical, surgical, and hospital care for employees and their dependents. The plan, which is administered by the employees and physicians, is provided at a cost to employees with dependents of \$3.15 and to single employees \$2.05 per month. The company contributes \$1.10 per month for each employee.

Operating Costs

Total operating costs for the year, including head office administration and general expense, amounted to \$3.94 per ton of ore mined and hoisted, or \$4.40 per ton cyanided.

About 156 men were employed, of whom 91 were underground and 65 on the surface. Walter F. Brown was mine manager.

Buffalo Ankerite Gold Mines, Limited

Buffalo Ankerite Gold Mines, Limited, which was incorporated in 1932, has an authorized capitalization of 1,000,000 shares of \$1 par value, of which 701,679 have been issued. The officers and directors are: F. G. Kinkel, president and managing director; Jacob Betz, vice-president; George R. Feine, secretary; Clarence H. Leo, assistant secretary; Henry Kobler, treasurer; R. P. Kinkel, assistant treasurer and mine manager; A. J. Baldeck, Everett Bristol, Harry J. Carmichael, Henry J. Tiedt, and H. C. Loesch, directors. The head office and mine office are at South Porcupine. A business office is maintained at 2100 Rand Building, Buffalo, N.Y.

The company holds 1,171 acres in Deloro township, Porcupine area, district of Cochrane.

Mining and milling continued throughout 1943. The workings are in two sections, known as the North and South. The old Nos. 1, 2, and 3 shafts and No. 7 winze are no longer used. Operations are carried on through the vertical, 5-compartment No. 5 shaft, which is 3,474 feet deep, in the North section. In the South section, the 2-compartment No. 4 winze runs from the 425-foot level to the 1,050-foot level, and the 2-compartment No. 6 winze, collared at the 1,050-foot level, goes to a depth of 2,020 feet from surface. No. 6 winze is connected with No. 5 shaft by crosscuts on the 1,050- and 2,000-foot levels.

The following table shows the development work done during 1943 and the total:—

UNDERGROUND DEVELOPMENT WORK

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
170-foot		2,540		570		180
200- and 250-foot		4,600		1,256		288
300-foot		2,197		924		346
365-foot		3,909		1,529		975
425-foot	391	2,884		910		638
475-foot		4,002		3,880		1,256
550-foot		1,348		125		230
600-foot		4,019		2,730	19	755
675-foot		1,685		725	110	1,238
725-foot		2,712		657		1,610

UNDERGROUND DEVELOPMENT WORK—Continued

3,400-foot (loading pocket)						278
3,450-foot				30		

Diamond-drilling during 1943 consisted of 8 holes, totalling 5,208 feet, from surface and 215 holes, totalling 32,752 feet, from underground.

The following is taken from the manager's report for the year ending December 31, 1943:—

Production

The mill treated 260,271 dry tons of ore with an average of 731.1 tons per day. This was a decrease of 27.38 per cent. over 1942 and 41.98 per cent. over 1941. The bullion recovery was \$1,894,051.59. This was a decrease of approximately 22.71 per cent. over 1942 and 31.39 per cent. over 1941. The amount yielded was 49,151.332 ounces of gold. The average recovery was \$7.277 per ton milled, as compared to \$6.82 for 1942 and \$6.15 for 1941. The increase over 1942 was 6.5 per cent.

The mine operating cost was \$5.679 per ton, an increase of \$0.563 per ton over 1942. This increase was due primarily to decreased tonnage, which increased fixed and distributed costs. The increase in the cost of supplies and the cost-of-living bonus also increased operating costs.

There was a 23 per cent. decrease in miners during the year, which was the primary cause of the reduction of tonnage. Most of the decrease in labour took place during the first four months of the year, but thereafter there was no material decrease.

Milling

Although there was a 27.38 per cent. decrease in tonnage during the year, the milling costs only increased \$0.021 per ton. After certain equipment had been removed from the South mill to the North mill, all ore was milled in the North mill and the South mill was closed, which helped to reduce costs. The small increase of milling costs, notwithstanding the reduced tonnage, was particularly appreciated by the management by reason of the other rapidly increasing costs under existing conditions.

The following is a summary giving the average data of milling during the year:—

Tons milled	260,271
Tons milled daily	731
Heads (gold, \$20.67)	\$4,095
Tails (gold, \$20.67)	\$0.185
Recovery per ton	\$3.910
Premium per ton	\$3.367
Total recovery per ton	\$7.277
Gold ounces per ton	0.1888
Recovery (gold, \$20.67)	\$1,017,772.01
Recovery (present value)	\$1,894,051.59
Average ounces per month	4,095.944

Mining, Development, and Exploration

Stopes above the 2,000-foot levels delivered 90 per cent. of the production hoist. The restricted development below the 2,000-foot level and the limited number of stopes that could be opened up curtailed production in this area.

Because of the lack of labour, there was a substantial curtailment of development. The only important development work during the year was on the 425-foot level in the South zone to prospect for ore above the No. S05 west stope and to provide stations to diamond-drill No. 3 vein system for a length up to 1,500 feet along the strike and 750 feet along the dip of this ore body. This heading has advanced 391 feet. Between the 1,250- and 2,000-foot levels in the South zone, there was a total of 1,303 feet of crosscutting and drifting. Further development to the west should be carried on in this area. There was practically no development work between the 2,000- and 2,850-foot levels.

On the 3,100- and 3,250-foot levels, North zone, there has been developed approximately 6,720 square feet better than average-grade ore.

A crosscut is being driven on the 3,250-foot level to connect the main No. 5 shaft to our North claims. It will be necessary to crosscut approximately 1,160 feet over the claim of an abutting property owner to reach our North claims.

The 2,350-foot level exploration crosscut was advanced only 51 feet during the year.

	Tons
Ore broken in production	232,268
Ore broken in development	31,646
Total ore broken	263,914

The ore and waste broken in production was 234,344 tons, and the cost was \$2.406 per ton.

	Feet	Cost per foot
Diamond-drilling	37,960	\$0.995
Drifts (linear advance plus slashing)	6,822	15.81
Major and other crosscuts (linear advance plus slashing)	2,715.5	14.48
Raises	1,723.5	16.08
Ore and waste passes	205.5	10.93

ORE RESERVES

	Tons	Value at \$20.67		Value at \$38.50	
		Per ton	Total	Per ton	Total
Positive ore reserves	296,086	\$4.161	\$1,232,079.15	\$7.751	\$2,294,874.09
Broken ore reserves	29,255	3.913	114,473.94	7.288	213,219.48
Total	325,341	\$4.139	\$1,346,553.09	\$7.709	\$2,508,093.57

There is only included in the above-mentioned ore reserves 26,159 tons below the 2,000-foot level in the North zone of a grade of \$7.877. In making the computation of the ore reserves for the period ending December 31, 1943, it was not possible to include a larger block as positive ore because the major portion of the ore in this area had not been blocked out on three sides. At the time of this report, diamond-drilling and further development work indicates a substantial block of ore in this area.

Mine Operating Costs

The total mine operating costs are as follows:—

	Total cost	Cost per ton milled
Exploration	\$37,962.17	\$0.146
Development	168,867.44	.649
Mining	835,449.35	3.210
Milling	198,753.11	.763
General expense, mine (including cost-of-living war bonus)	237,095.59	.911
Total	\$1,478,127.66	\$5.679

Construction and General Improvements

The total capital expenditures for the year were \$22,718.35. Used equipment sold during this period was \$5,591.39. War-time machine shop work for the Government amounted to \$41,948.38.

Completion of pumping stand-by system and purchase of a surface diamond-drill were the major purchases. Total mine expenditures amounted to \$8,926.88.

A 40- by 16-foot addition was built east of the North mill, and two small filters and the vacuum system were transferred from the South mill. An improved assay crusher was purchased. Total mill expenditures were \$8,663.47.

Several small houses on the property were purchased from former employees. The large bunk-house was altered for resident required employees.

An average force of 486 men was employed, of whom 320 were in the mine and 36 in the mill. E. C. Keeley is superintendent.

Central Patricia Gold Mines, Limited

Central Patricia Gold Mines, Limited, was incorporated in 1931 with an authorized capitalization of 2,500,000 shares of \$1 par value, all of which have been issued. The officers and directors are: F. M. Connell, president; W. H. Connell, vice-president; Alan Cockeram, secretary-treasurer; C. R. Elliott, assistant secretary-treasurer; A. B. Mortimer, G. B. Webster, and L. Cohen, directors. The head office and mine office are at Central Patricia, and the administrative office is at 85 Richmond Street West, Toronto.

The main property, which includes the Central Patricia or No. 1 mine and the Springer or No. 2 operation consists of about 5,208 acres in Connell and Ponsford townships, Pickle-Crow area, Patricia portion of Kenora district. No work has been done at the No. 2 operation since June, 1940.

Operations at the No. 1 mine continued throughout 1943. The mine is operated from a vertical, 3-compartment shaft, 2,226 feet deep, and a vertical, 4-compartment winze, which is collared at the 2,050-foot level, about 1,400 feet northeast of the shaft and runs to a depth of 2,667 feet below surface. The following table shows the development work done during 1943 and the total:—

	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
MAIN SHAFT:						
125-foot		1,130		165		829
250-foot		885		267		548
375-foot		2,995		504		457
500-foot		1,627		289		785
625-foot	345	3,619		529		1,216
750-foot	39	2,248		357	116	1,335
875-foot	82	2,699		723	33	1,424
1,000-foot		2,386		514	31	1,569
1,150-foot	152	1,323		471		1,298
1,300-foot		3,188		609		1,130
1,450-foot	17	2,079		948		1,364
1,600-foot		2,332		602	28	1,332
1,750-foot	9	1,301		554	23	813
1,900-foot		1,921		668	41	969
2,050-foot	17	2,740	24	1,542	32	738
2,160-foot (waste pocket)						
2,200-foot (station only)						
WINZE:						
2,200-foot	468	620		302	368	368
2,350-foot	724	845	238	238	341	341
2,500-foot	451	667		240	271	271
2,650-foot	977	1,471		190	296	332

Exploratory diamond-drilling amounted to 14,599 feet, all from underground.

A total of 104,751 tons of ore and 10,518 tons of waste was hoisted during the year.

An addition to the hospital and four dwellings for Indian employees were built during the year. In order to utilize surplus power available in the area and to reduce the amount of labour required for cutting wood, an agreement was made with the Hydro-Electric Power Commission to take "at will" power at a favourable rate for heating purposes. A used 750 k.w. Kaelin electric boiler was purchased.

The following is taken from the manager's report for the year ending December 31, 1943:—

Production

The mill treated 104,451 tons of ore, from which was recovered 37,000.806 ounces of gold and 3,210.00 ounces of silver, valued at \$1,425,771.33, an average recovery of 0.354 ounces of gold, or \$13.65 per ton, representing 95.8 per cent. of calculated mill heads.

The average milling rate for the year was 286 tons per day, compared with 380 tons per day during the previous year, this reduction being entirely due to the labour shortage. During the latter part of the year the milling rate had fallen off to 220 tons per day, but this has since improved and milling rate is now stabilized at better than 250 tons per day. The labour shortage remains acute.

Ore Reserves

Ore reserves increased from 437,739 tons at 0.39 ounces per ton at the end of 1942 to 445,269 tons at 0.36-ounce grade.

Ore estimate as of December 31, 1943, was as follows:—

	Tons	Ounces per ton
Developed ore.....	386,446	0.36
Probable ore.....	23,146	.29
Broken ore.....	22,224	.32
Pillar ore.....	13,453	.50
Total.....	445,269	0.36

Costs

A comparison of costs on the basis of tons hoisted follows:—

	1943	1942	1941	1940
Surface exploration.....	\$0.01	\$0.08	\$0.18	\$0.13
Development and exploration.....	1.21	1.45	1.24	1.55
Mining.....	2.79	3.15	3.04	2.44
Milling.....	1.25	1.17	1.28	1.25
Bullion expense.....	.17	.15	.17	.19
General expense at mine.....	.93	.71	.63	.59
Administration expense.....	.33	.22	.23	.26
	\$6.69	\$6.93	\$6.77	\$6.41
Allowance for Dominion and Provincial taxes....	\$1.73	\$1.27	\$1.74	\$1.95
Depreciation.....	1.06	.90	.97	1.18
Preproduction expense write-offs.....				.28
Total.....	\$9.48	\$9.10	\$9.48	\$9.82

War-time cost-of-living bonus, paid in accordance with Government Orders-in-Council, amounted to \$41,964.72, equivalent to 40.1 cents per ton milled.

An average force of 202 persons was employed, of whom 85 were in the mine, 11 in the mill, and 103 on general surface work. R. E. Barrett is manager.

Chesterville Larder Lake Gold Mining Company, Limited

The Chesterville Larder Lake Gold Mining Company, Limited, which was incorporated in March, 1907, has an authorized capitalization of 2,000,000 shares of \$1 par value. Of the 1,735,559 shares issued, 13,000 are held in trust for the company. The officers and directors are: I. J. Kearns, president and general manager; J. B. Streit, vice-president; E. V. Oag, secretary-treasurer; V. Sutton, assistant secretary-treasurer; W. F. James, H. W. Knight, and H. J. Kearns, directors. The head office is at 330 Bay Street, Toronto. The mine address is Kearns.

The property consists of 753 acres adjoining the Kerr-Addison mine on the east in McGarry township, Larder Lake area, district of Timiskaming.

Mining and milling continued throughout 1943. The vertical, 3-compartment main shaft on claim H.F. 404 is 1,703 feet deep, with twelve levels, the deepest being at 1,633 feet from surface. The following table shows the development work done during 1943 and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
1st	2,015	1,587	119	1,266
2nd.....	43	3,797	1,412	2,220
3rd.....	1,703	1,370	1,923
4th.....	1,277	1,077	1,217
5th.....	1,009	40	969	146	755
6th.....	776	992	198	687
7th.....	351	578	146	955	298	502
8th.....	358	413	395	741	226	424
9th.....	113	113	557	799	152	254
10th.....	166	166	794	801
11th.....	424	424
12th.....	686	686	5

Diamond-drilling during 1943 totalled 24,466 feet, all from underground.

The following is taken from the manager's report for the twelve months ending December 31, 1943:—

During the year, 196,687 tons of ore, having an average grade of \$5.20 per ton, were mined and milled at a cost of \$3.75 per ton. At the end of the year there were ore reserves of 470,000 tons, with an average grade of \$5.62 per ton.

While essential supplies have usually been obtainable, the operation suffered greatly from a shortage of labour. This situation grew steadily worse until in October the tonnage milled averaged 388 tons per day and development work had to be greatly curtailed. There was some improvement in the labour situation during the last two months of the year.

Development

Little development work was carried on above the 7th level, where the "D" ore zone was explored. The crosscuts on all the lower levels were extended, and a drift was driven in the "C" ore body on the 8th level. A drift was started from the crosscut to the "21" ore body on the 12th level. The lower levels were partially explored by diamond-drilling.

Mining

The "A" ore body, which to date has supplied the bulk of the mill feed, now contains only 16.2 per cent. of the ore reserves. Mining the "C" ore body above the 3rd level and between the 4th and 5th levels was largely completed. This ore body was opened up at the 7th level, where one of the largest stopes in the mine is being worked. The "D" ore was mined down to the 6th level with the exception of some sill pillars.

The following table shows by levels and by zones the sources of ore mined during the year:—

ZONE:	Per cent.
A.....	66.45
C.....	19.51
D.....	14.04

LEVEL:	
2nd.....	10.44
3rd.....	13.42
4th.....	46.15
5th.....	13.23
6th.....	3.21
7th.....	13.09
8th.....	.28
9th.....	.11
10th.....	.04
12th.....	.03

Ore Reserves

The following table of ore reserves includes all the ore in the explored portion of the mine above the 12th level:—

Zone	Tons	Ounces per ton
A.....	76,150	\$5.97
B.....	28,550	5.62
C.....	245,500	5.28
D.....	77,500	5.20
F.....	8,800	5.20
21.....	33,500	8.36
Total.....	470,000	\$5.62

This reserve includes 107,400 tons of broken ore.

Mill

During the year the mill treated 196,687 tons of ore, from which 24,539.985 ounces of gold and 1,324.60 ounces of silver were extracted.

An average extraction of 92.5 per cent. was achieved, tailings losses being \$0.39 per ton. Tailings losses in 1942 were \$0.52 per ton, and the improvement shown in 1943 was due to the finer grinding made possible by operating at reduced tonnage.

New Plant and Equipment

The heating plant was moved to a new location for greater efficiency, and a stand-by boiler was installed at a cost of \$4,187.39. An arrangement was made with Kerr-Addison Gold Mines, Limited, to dispose of tailings jointly. The installation of the new pumps and pipe lines for this cost \$5,351.98.

An average of 175 men was employed, of whom 111 were in the mine and 21 in the mill. L. T. Postle is manager.

Cochenour Willans Gold Mines, Limited

Cochenour Willans Gold Mines, Limited, was incorporated in April, 1936, with an authorized capitalization of 3,000,000 shares of \$1 par value, of which 2,961,655 have been issued. The officers and directors are: W. M. Cochenour, president; A. Mackenzie, vice-president; G. M. Huycke, secretary-treasurer; E. C. Cochenour and J. M. Macintosh, directors. The head office is at 801 Dominion Bank Building, Toronto. The mine address is McKenzie Island.

The company's property originally consisted of approximately 436 acres in Dome township, Red Lake area, Patricia portion of Kenora district, purchased from the Cochenour Willans Syndicate. In 1940, controlling interest was acquired in the 8 claims of Kelson Red Lake Gold Mines, Limited, adjoining to the east. The purchase of these claims was completed in 1943.

Mining and milling operations continued throughout 1943. The smelter was not operated.

The 3-compartment, vertical shaft on claim K.R.L. 322 is 423 feet deep. The following table shows the development work done during 1943 and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
150-foot.....	428	4,958	140	2,613	139	1,326
275-foot.....	520	2,957	273	1,820	328	1,000
375-foot.....	955	4,352	175	2,068	297	1,021

Diamond-drilling in 1943 consisted of 58 holes, totalling 12,491 feet, from surface and 265 holes, totalling 36,989 feet, from underground.

At the end of the year it was decided to sink a vertical, 3-compartment shaft on claim K.R.L. 462 on the Kelson ground, about 1,900 feet northeast of the No. 1 shaft, to deepen the No. 1 shaft and connect the two shafts on the third level.

The following is an extract from the report of the mine manager for the twelve months ending May 31, 1944:—

Production¹ and Costs

During the year a total of 53,886 tons of ore was milled for a daily average of 147 tons. This is a reduction of 3,733 tons as compared to the previous year. Included in the total are 4,280 tons of ore recovered from the surface dump, and this graded 0.18 ounces (\$6.93), or somewhat less than half of mine average grade.

Period	Production	Tonnage	Recovery per ton	Total costs per ton	Tails	Heads
Year ending May 31, 1944.	\$1,031,589.70	53,886	\$19.14	\$14.66	\$0.78	\$19.92
Year ending May 31, 1943.	1,188,096.60	57,619	20.62	12.83	1.27	21.89
Year ending May 31, 1942.	1,134,362.21	62,330	18.19	11.55	.94	19.13

All-time production amounts to \$4,688,172.45 from 262,093 tons of ore. Average mill head was 0.498 ounces, or \$19.20 per ton milled.

The following table gives comparative cost per ton and cost per ounce figures covering the two past fiscal years:—

	Cost per ton		Cost per ounce	
	Year ending May 31, 1944	Year ending May 31, 1943	Year ending May 31, 1944	Year ending May 31, 1943

Total.....	53,886	\$19.92	57,942	\$22.00

Summary and Conclusions

The year under review has not been outstanding from the point of view of production and profits, and this was entirely due to the labour situation. The situation in this regard reached a serious stage during the summer of 1943 and then improved for a brief period from November, 1943, to March, 1944, when the supply of labour became most critical and remains so. We have been operating the mine with approximately half the number of men required for normal operations, and at the moment the underground crew consists of less than one-third our requirements. Anticipating just such a situation, it was decided that emphasis would be placed on development.

An average force of 118 men was employed during the year, of whom 56 were in the mine, 12 in the mill, and 50 on general surface work. W. P. Mackle is manager.

Coniaurum Mines, Limited

Coniaurum Mines, Limited, which was incorporated in July, 1929, has an authorized capitalization of 3,000,000 shares of no par value, of which 2,766,743 have been issued. The officers and directors are: H. Lindsley, president; A. L. Bishop, vice-president; H. Whittingham, secretary-treasurer; Thayer Lindsley, T. H. Rea, Fraser D. Reid, and D. M. Hogarth, directors. The head office is at 25 King Street West, Toronto. The mine address is Schumacher.

The company is the second of the name. The first company, which was incorporated in 1924 and went into receivership in 1929, had an issued capital of 1,200,000 shares of \$5 par value and \$800,000 in 7 per cent. bonds. The shares were exchanged on a basis of one new share for two old shares held. Bondholders in the old company were given the option of exchanging the \$80 bonds for 120 shares of the new stock or redeeming them at par plus accrued interest.

The main property consists of 19 claims, approximately 760 acres, adjoining the McIntyre-Porcupine mine, in Tisdale township, Porcupine area, district of Cochrane. It comprises the former Goldale, Newray, Armstrong-Booth, and Strong Bow properties and three other claims.

Operations were continuous throughout 1943. The mine is operated through a system of vertical shafts and winzes, as shown in the following table:—

Shaft or winze	No. of compartments	Sinking in 1942	Total depth from surface
		feet	feet
Bishop shaft.....	3 to 2,000 feet. 4 to 3,666 feet.	3,666
Bishop subshaft (below 3,250-foot level).....	2 and 3 to 3,500 feet. 4 below 3,500 feet.	5,641
Goldale shaft.....	2 to 400 feet. 3 to 1,000 feet.	1,020
No. 1 winze (below 2,000-foot level).....	2	2,533
No. 2 winze (below 3,000-foot level).....	2 to 3,500 feet. 3 to 5,000 feet.	5,028
No. 3 winze (below 2,000-foot level).....	2	2,755

The following is taken from the general manager's report for the year ending December 31, 1943:—

Exploration and Development

This year operations have been on a reduced scale for reasons beyond our control. However, many places in the mine have been under exploration from the 900-foot down to the 5,500-foot level. Development has been concentrated on the 5,250-foot and 5,500-foot levels, with the greater part on the 5,250-foot level. This work has met with fair encouragement.

No. 47 vein on the 5,250-foot level has been further developed in ore, and No. 57 vein has been intersected in No. 10.5 crosscut. These veins are in porphyry and values are somewhat spotty, but with careful mining they will provide mill feed. No. 51 vein has been driven on for a distance of 181 feet in ore. No. 46 vein has been drifted for a distance of 110 feet, with both ends still open. This vein is a strong quartz vein and offers some promise. No. 52 vein has been cut in two diamond-drill holes, 140 feet north off the west end of M2 crosscut. This will be explored in No. 11 crosscut. No. 7 vein has been driven on for a length of 197 feet in ore.

On the 5,500-foot level, No. 58 vein has now been opened up for a distance of 250 feet in ore. This vein is in porphyry. The east end of these workings is being driven as a main drive to explore the ground to the east, where it is expected to locate the downward extension of Nos. 46 and 51 veins and to continue further east to prospect favourable indications that are known to exist.

Crosscut M2 will be extended west to explore the downward extensions of Nos. 47, 57, and 52 veins.

Operations

During the year it has been necessary to further reduce the mill tonnage from 360 tons per day as at December 31, 1942, to 280 tons per day. We have endeavoured to keep development and mining in step with tons milled and have managed to maintain the lateral work. However, raising has been somewhat held up. It will require some months, with sufficient labour, to get back to normal.

Labour Conditions

Labour conditions have shown few indications of improvement up to the present. Absenteeism is a serious drawback, over which we have no control. Holidays with pay have been allowed to all employees who have worked 300 days in the one year. The employee is then entitled to 6 days holiday with pay. This was put into operation on the first of October, 1943.

Improved Medical Plan

This plan provides medical services and hospitalization for all our employees and their dependents. Fees are as follows:—

Employees with family and/or other dependents.....	\$3.15
Employees without family or other dependents.....	2.05
In addition the company pays per employee per month.....	1.10

This plan is similar to that of the Hollinger, which has been successfully operated for the past six years. Our plan was put into effect on the first of November, 1943. Up to date, it has functioned satisfactorily. We are associated with ten other mines of the Porcupine camp in this plan, and this association is known as the Porcupine Mines Employees' Medical Services Association.

Development

Footage driven in ore amounted to 1,556 feet, with an average assay value of 4.8 pennyweights per ton over a width of 4.2 feet. Raising in ore totalled 1,597 feet over a width of 3.7 feet, with an assay value 6.5 pennyweights per ton.

Broken Ore Reserves

After making the necessary adjustments, the broken ore reserves at the end of 1943 stand at 77,451 tons, with an estimated value of 5.86 pennyweights per ton. There has been a reduction of 11,222 tons. Cut-and-fill stoping will further reduce broken ore reserves from year to year.

Milling

During the year, the mill treated 111,455 tons of ore with an average recovery of \$10.67 per ton, extracting 97.4 per cent. of the gold content and operating 364.7 days, or 99.9 per cent. of possible running time.

The average number of men employed was 223, divided as follows: mine, 144; mill, 22; general surface work, 56. John Redington is manager.

Continental Kirkland Mines, Limited

Continental Kirkland Mines, Limited, was incorporated in December, 1927, with an authorized capitalization of 5,000,000 shares of \$1 par value. The officers and directors are: H. A. Guess, president; G. A. Brockington, secretary; J. C. Emison, treasurer; C. W. Bell, A. W. Holmsted, and R. F. Goodwin, directors. The head office is at Kirkland Lake.

The property consists of 27 claims in Lebel township, Kirkland Lake area, district of Timiskaming.

No underground development work has been done by the company since 1938. In 1939 an agreement was entered into with Toburn Gold Mines, Limited, under the terms of which Toburn carried out a diamond-drilling campaign, made a geophysical survey, and is running a drift on its 2,475-foot level towards Continental Kirkland's west boundary. The drift was advanced 551 feet in 1943. A further reference to the work appears on page 162 of this report under Toburn Gold Mines, Limited.

Deep Lake Gold Mines, Limited

Deep Lake Gold Mines, Limited, was incorporated in March, 1938, with a capitalization of 3,000,000 shares of no par value, of which 1,520,878 had been issued at the end of 1943. The officers and directors are: Brice Bowman, president; Frank Lyons, vice-president; C. F. Schnee, secretary; E. B. Gill, treasurer and general manager; W. F. Kampf and Carl N. Schicker, directors. The head office and mine office are at Wawa. A business office is maintained at 109 North Union Street, Akron, Ohio.

The company's holdings consist of the Deep Lake and Stanley gold properties

in township 29, range 23, Michipicoten area, district of Algoma, and a molybdenite prospect about 4 miles distant near Limer on the Algoma Central railway.

A small amount of open stoping was done on the 123-foot level of the Stanley mine during the first four months of 1943. Operations were then suspended.

An average of 6 men was employed. A. M. George was manager.

Delnite Mines, Limited

Delnite Mines, Limited, which was incorporated in October, 1934, has an authorized capitalization of 3,000,000 shares of \$1 par value, of which 2,978,767 have been issued. The officers and directors are: E. L. Koons, president; W. V. Moot, vice-president and managing director; C. L. Ingham, treasurer; W. S. Walton, secretary; Lewis R. Gulick, Harry Yates, Jas. Savage, and Alfred H. Sharpe, directors. The company is controlled by Sylvania Gold Mines, Limited. The head office and mine office are at Timmins. The Toronto office is at 603 Royal Bank Building.

The property consists of 8 claims, containing approximately 306 acres, in Deloro township, Porcupine area, district of Cochrane, three miles southeast of the town of Timmins. It includes the former La Roche mine, the former Rendix or Martin claims, and a claim known as the Jarvis.

Mining and milling operations continued throughout 1943. The property has been developed through two vertical shafts, both on claim T.R.S. 825. The 2-compartment No. 1 shaft is 391 feet deep and is connected to No. 2 shaft on the 250- and 375-foot levels. The first level, developed entirely from No. 1 shaft at a depth of 125 feet, is not directly connected with No. 2 shaft. The vertical, 3-compartment No. 2 main shaft was sunk a further 416 feet to a depth of 2,266 feet in 1943. New levels were established at 1,875, 2,000, 2,125, and 2,250 feet. The following table shows the development work done during 1943 and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
125-foot		1,938		1,163	52	372

Total costs.....	\$749,967.84	\$5.957	\$6.012	\$35.258

Summary

The mill tonnage was gradually reduced from 385 to about 300 tons per day. The average daily tonnage was 344.8.

Development work was continued on a reduced basis. In No. 2 shaft, one crew continued the work of sinking. The majority of the lateral work was done on the 750- and the 1,000-foot levels. On the 750-foot level, the No. 50 vein was fully developed and exploration was continued to test out other parallel breaks. On the 1,000-foot level, a crosscut was driven to No. 50 vein and some development work was done on it. Drifting was 26.2 per cent. in ore and gave a length of 207 feet, which averaged 4.53 pennyweights over a width of 5.41 feet.

During the year, 16,485 tons of gravel backfill were purchased and placed underground in various stopes.

The scheelite recovery plant was closed down in August. The war work in the machine shop ended in October.

Permission was obtained to grant holidays with pay to all wage-earners, and this privilege was made effective from November 1. Effective the same date, over 96 per cent. of all the employees became members of the local medical plan with complete medical, surgical, and hospital coverage for the employee and his family.

An average force of 162 men was employed, of whom 98 were in the mine, 18 in the mill, and 46 on general surface work. John Beattie is manager.

Dome Mines, Limited

Dome Mines, Limited, was incorporated under Dominion charter in 1923 to succeed the Dome Mines Company, Limited. The authorized capitalization is 2,000,000 shares of no par value, all of which have been issued. Of these, 53,332 shares are held by the trustees of the Employees Pension Fund.

The officers and directors are: Jules S. Bache, chairman; C. W. Michel, president and treasurer; J. H. Stovel, vice-president; Alex. Fasken, vice-president and secretary; E. P. Goetz, assistant secretary and assistant treasurer; C. C. Calvin, John B. Robinson, and H. H. Butterman, assistant secretaries; Morton F. Stern, Simon N. Stein, A. D. McRae, F. Warren Pershing, and Byron C. Foy, directors. The president's office is at 36 Wall Street, New York. The secretary's office is at 36 Toronto Street, Toronto. The mine office is at South Porcupine.

The company owns 53 claims and the beds of Porcupine and Simpson lakes in Tisdale and Whitney townships and 5 claims in Shaw township, Porcupine area, district of Cochrane, containing in all 2,857 acres.

The mine has been developed from the vertical shafts and winzes shown in the following table:—

Shaft or winze	No. of compartments	Total depth from surface
		feet
No. 1 shaft	3	105
No. 2 shaft	3	805
No. 3 or main shaft	5	2,456
No. 4 internal shaft (below 13th level) ¹	2	2,052
No. 5 internal shaft (below 16th level) ²	3	3,137
No. 6 internal shaft (below 16th level) ²	5	4,061
No. 1,802 winze (below 18th level) ¹	2	2,870
No. 2,309 winze (below 23rd level) ¹	3	3,775

¹Not being used for hoisting.

²Also connected with the main shaft on the 18th level.

³This winze was originally 722 feet deep below the collar, but has been partially stoped out.

The following table shows the development work done during 1943 and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet

The following is taken from the general manager's report for the year ending December 31, 1943:—

During the year 525,900 tons of ore was treated in the mill. In the course of mining operations we excavated 26,100 tons of waste rock, much of which was used in the cut-and-fill stopes, while the remainder was used as fill in old stopes. The 525,900 tons of ore milled yielded bullion containing 149,641 ounces of gold, the yield being 0.2845 ounces or 5.690 pennyweights per ton.

All values of ore, etc., will be expressed in pennyweights (dwts.) throughout this report. One pennyweight equals one-twentieth of an ounce, troy weight. At \$38.50 per ounce for gold, one pennyweight is equal to \$1.92½ in Canadian funds.

OPERATING STATEMENT

for the year ended December 31, 1943

EARNINGS:

Bullion production..... \$5,772,520.51

OPERATING AND MAINTENANCE EXPENDITURE:

Development and exploration.....	\$337,492.46
Mining, including hoisting.....	892,148.45
Crushing and conveying.....	89,720.04
Milling.....	421,859.74
Refining and marketing.....	65,941.82
Fire protection.....	8,152.66
Warehouse expense.....	17,890.41
Auditing expense.....	3,899.83
Administrative expense:	
Mine office.....	164,825.74
Executive office.....	84,190.01
Registrar and transfer fees and expenses.....	17,019.59
Insurance.....	14,703.04
Taxes other than income.....	22,926.95
Current contributions to pension fund.....	32,219.11

2,172,989.85

NET OPERATING PROFIT (before depreciation, income taxes, and outside exploration written off).....

\$3,599,530.66

Mining

The following table shows the source and grade of the ore milled, and this includes 75,900 tons of development ore of an average grade of 3.65 pennyweights per ton.

Source	Tons	Dwts. per ton
5th level to surface	49,354	4.57
Ankerite veins	171,548	4.54
23rd level and below	1,700	10.24
Remainder of mine, including approximately 104,600 tons from the Schumacher area	303,298	6.64
Total	525,900	5.78

Development

As skilled labour became progressively more scarce, the company was only able to maintain its tonnage by concentrating on mining and cutting down on development. Early in the year any development work below the 16th level had to be abandoned, and this was soon followed by the complete closing down of the No. 6 interior shaft, which serves all that area in the mine below the 16th level. By early summer development work was confined to that actually necessary to permit of mining known ore bodies.

A total of 20,292 feet of development work was done during the year. A small amount of work, 126 feet only, was done on the new waste-pass system being provided for distribution, from the surface, of fill material for the cut-and-fill stopes. This pass system is complete to the 11th level, and the rock work on same, but not the control chutes, has been completed to the 13th level.

There was also a sharp reduction of diamond-drilling during the year, and major exploration via this medium was abandoned. In all, 26,130.5 feet of diamond-drilling was done. Of this total, 16,577.5 feet was done for close-in exploratory purposes and as a guide to mining operations, while 9,553 feet of drilling was done in blast holes for the recovery of ore.

Ore Production

During the year the mine produced 525,900 tons of ore, which averaged 5.7766 pennyweights per ton. The stopes produced 450,000 tons, averaging 6.14 pennyweights per ton; and 75,900 tons, averaging 3.65 pennyweights per ton, came from development work.

Ore Reserves

The ore reserves are estimated at 2,426,000 tons, a decrease of 4,000 tons from the tonnage shown last year. The ore reserves are classified as follows:—

	Per cent.
Ankerite veins	21.4
23rd level and below	20.2
Remainder of mine	58.4

Mill

The following are the milling results:—

Ore treated	tons	525,900
Average grade treated	dwts. per ton	5.7766
Recovery	per cent.	96.98

Costs

The expenditure on mining was \$892,148.45, or \$1.70 per ton milled, as compared to \$1.84 per ton milled in 1942. The expenditure on development was \$337,492.46, or \$0.64 per ton milled, as against \$0.96 per ton milled in 1942. The total operating charges for the year were \$4.132 per ton milled, as compared to \$4.567 per ton milled in 1942. This drop in over-all operating costs was due to general conditions in the mine.

Employees' Medical Scheme

Late in the summer of 1943 the company joined the Porcupine Mines Employees' Medical Services Association.

Vacations with Pay

Late in the summer the company asked permission of the National War Labour Board to institute the practice of giving vacations with pay. This was granted as of August 31, 1943, under conditions laid down by the above board.

War Work

This work was continued during the year, but in the latter part of the year it slackened off somewhat. While there are fewer employees working on this there is still sufficient work ahead to keep the work going for many months. The work is carried on in co-operation with the other mines and machine shops in the district.

The company employed an average of 598 men during the year, of whom 277 were in the mine and 55 in the mill. J. H. Stovel is general manager, and Robt. E. Dye is assistant general manager.

Donhurd Prospecting Syndicate

The Donhurd Prospecting Syndicate was formed by agreement dated April 1, 1942, and filed in the office of the Provincial Secretary under the provisions of the Securities Amendment Act, 1940. The capitalization is 10,000 units of \$1 par value. Donald F. Hurd is trustee and manager. Gordon A. Wilson and A. C. Kilgour are trustees. The syndicate has an office at 18 Taylor Avenue, Kirkland Lake.

The syndicate owns the property formerly known as the Bulldog gold mine in Boston township, Larder Lake area, district of Timiskaming.

In the summer of 1943 the old No. 1 shaft on claim No. 38,804 was recollared and dewatered to the 250-foot level, where samples were taken in an effort to locate the source of some scheelite ore that had been found on the surface dump. The operation ceased in September, and the workings were allowed to fill.

Hallnor Mines, Limited

Hallnor Mines, Limited, was incorporated in April, 1936, with an authorized capitalization of 2,000,000 shares of \$1 par value, all of which have been issued. The officers and directors are: J. Y. Murdoch, president; J. R. Bradfield, secretary; R. G. Rudolf, treasurer; H. Pinnock, assistant treasurer; R. Horsfall and C. H. Windeler, assistant secretaries; F. M. Connell, A. L. Ellsworth, Leo H. Timmins, and J. E. Perrault, directors. The head office and mine office are at Pamour. The executive office is at 1600 Royal Bank Building, Toronto.

The property consists of 160 acres in the north half of lot 7, concession V, Whitney township, Porcupine area, district of Cochrane, adjoining the west boundary of the property of Pamour Porcupine Mines, Limited.

The mine and mill continued to operate throughout 1943. The mine is served by a vertical, 3-compartment shaft, 2,244 feet deep. The following table shows the development work done during 1943 and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
210-foot.....		1,650		1,224		317
360-foot.....		3,323		1,507		1,297
560-foot.....	114	4,316		1,615	11	1,867
760-foot.....		2,249		353		1,048
960-foot.....	15	3,177		571		1,376
1,110-foot.....		2,382		381		740
1,260-foot.....		2,713		622		405
1,410-foot.....		1,500		188	144	306
1,560-foot.....		2,603		208		95
1,860-foot (station only).....						
2,010-foot (station only).....						
2,160-foot.....		2,586		150	70	137

The following is taken from the manager's report for the year ending December 31, 1943:—

Mining

The work underground consisted of drifting, raising, diamond-drilling, and stoping. Due to shortage of labour underground, all drifting and raising had to be stopped early in the year; 129 feet of drifting and 225 feet of raising made up the year's total in these two classes of work.

Diamond-drilling was all done underground; 189 holes in all were drilled for a total of 15,238 feet. On the 2,160-foot level, 9 incline down holes were drilled; and in 8 of these holes towards the west end of the property, ore sections with values ranging from 0.13 ounce to 0.48 ounce gold per ton were found at various depths and over a length of 700 feet. The holes do not show a clear-cut continuous break but indicate possibilities for ore from the 2,500-foot horizon downwards.

Stoping was carried on on the 2nd, 3rd, 4th, 5th, and 6th levels with the major part of the ore coming from the 5th and 6th levels. A gradual change has been made from open square-set to cut-and-fill stoping during the year. The change in stoping methods is not yet completed due to shortage of men.

	Tons
Ore broken in stopes	103,819
Ore drawn off	104,547
Broken reserve	10,352

Although 104,547 tons of ore have been taken from the stopes and no new ore put in sight by development during the year, the ore reserves have only been reduced 23,510 tons to 607,376 tons with an average grade of 0.37 ounce gold per ton. Increased mining width in the stopes being operated at present account for the ore reserves being only slightly lower than last year.

Mill

The mill has been in continuous operation throughout the year with numerous short shut-downs for repairs, inspection of equipment, and power failures. The 8- by 8-foot ball mill operated 8,710.1 hours, or 99.43 per cent. of possible running time. The mill treated 105,544 dry tons of ore for an average of 289.16 tons per day. The mill tonnage ranged from 250 to 350 tons per day.

Bullion produced for the year had a value of \$1,460,952.59 from 105,544 tons of ore for an average recovery of \$13.84 per ton, compared with \$17.90 per ton in 1942. The decrease in value is entirely due to the major portion of the ore coming from two of the larger lower-grade stopes.

General

There has been no scarcity of labour for carrying on surface operations, but underground all development had to be cut out in order to keep mining operations going, even at a reduced scale. Absenteeism also cut into operations underground. Where on surface the absenteeism was 0.6 per cent., underground it ran 13.8 per cent.

Permission was granted by the National War Labour Board to give one week's holidays with pay to all men who had completed one year's continuous service with the company. This holiday plan went into effect on October 1.

On November 1, Hallnor mine, in conjunction with nine other mines in the Porcupine camp, formed the Porcupine Mines Employees' Medical Association.

The machine shop has been steadily at work during the year on war orders of various kinds.

An average of 141 men was employed during 1943, of whom 80 were in the mine, 22 in the mill, and 39 on general surface work. A. L. Sharp is manager.

Hard Rock Gold Mines, Limited

Hard Rock Gold Mines, Limited, which was incorporated in January, 1934, has an authorized capitalization of 3,000,000 shares of \$1 par value, of which 2,990,074 have been issued. The officers and directors are: T. H. Rea, president; G. W. Rayner, vice-president; W. S. Walton, secretary-treasurer; A. B. Gordon, H. R. Aird, and Wm. W. Smith, directors. The head office and mine office are at Geraldton. The secretary's office is at 603 Royal Bank Building, Toronto 2.

The property consists of 17 claims, 845 acres, in Ashmore township, Little Long Lac area, district of Thunder Bay. It is accessible by automobile road from Geraldton, 4½ miles north of the property on the Longlac-Port Arthur branch of the Canadian National Railways.

The mine was first operated through the vertical, 3-compartment No. 1 shaft on claim T.B. 9,985 and No. 1 winze, which is collared at the 450-foot level

about 375 feet south of No. 1 shaft. No. 2 shaft, vertical, with three compartments, is on claim T.B. 9,991, about 2,500 feet west of No. 1 shaft. No. 2 vertical winze is collared at the 475-foot level about 1,300 feet northwest of No. 2 shaft. The 450-foot level from No. 1 shaft and the 475-foot level from No. 2 shaft coincide, and a long drive at this horizon connected the workings of the two shafts. In 1939 a bulkhead was built in the long drift approximately 500 feet west of its junction with the main crosscut south from No. 1 shaft. The No. 1 shaft workings were then allowed to fill. Work since that time has been confined to the No. 2 shaft area.

Mining and milling operations continued throughout 1943. The following table shows the development work done during the year and the total amount in both sections of the mine:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
No. 1 SHAFT (462 feet deep):						
200-foot		1,108		511		
325-foot		949		442		55
450-foot		2,043		598		74
No. 1 WINZE (143 feet deep):						
575-foot		636		102		
No. 2 SHAFT (1,410 feet deep):						
150-foot		3,984		1,911		1,029
250-foot		4,457		2,343		833
360-foot		1,594		382		584
475-foot		4,692		2,372		1,223
625-foot	513	513	227	227		
775-foot	586	586	13	81		
925-foot (station only)						
1,075-foot (station only)						
1,225-foot (station only)						
1,375-foot	1,753	1,753	225	274		
No. 2 WINZE (325 feet deep):						
625-foot		1,032		219		
775-foot		1,723	50	63		

Diamond-drilling in 1943 consisted of 5 holes, totalling 2,074 feet, from surface and 91 holes, totalling 21,052 feet, from underground.

A second storey was added to the carpenter shop during the year.

The following is taken from the general manager's report for the year ending December 31, 1943:—

Mining and Development

As a result of the continued decrease of labour, considerable difficulty was experienced throughout the year in maintaining operations even on a reduced scale. In August it was necessary to reduce the underground operations from three to two shifts per day. Early in December underground operations were increased to three shifts per day. Under these circumstances it was impossible to either maintain an adequate supply of ore going to the mill or to complete a satisfactory amount of development work during the year.

Development east of No. 2 shaft on the fifth level (625-foot level) has outlined an ore structure approximately 120 feet long and 14 feet wide. A considerable amount of coarse visible gold was exposed in this development work. Sampling results have been so erratic that it is considered unwise, at this time, to estimate the probable grade of this ore. For example, muck-sampling of drifting, slashing, and back-stoping gave an average of \$4.95 per ton after excluding approximately 10 per cent. of the sample values, which in themselves averaged \$271 per ton. Twenty-seven mill-head samples on this ore averaged \$7.58 per ton.

Development on the tenth level (1,375-foot level) consisted of drifting directly east from No. 2 shaft parallel to the main iron formation and diamond-drilling north and south at regular intervals from this drift. Values of interest occur in the north diamond-drilling approximately 1,100 feet east of the shaft, 250 feet north of the drift. Five successive north holes indicated a definite shear zone in the iron formation over an east-west length of 400 feet, and diamond-drill core shows narrow sulphide intersections, which assayed from \$1.15 to \$36.19 per ton. A crosscut to investigate these values was started late in November. Two diamond-drill holes south from the tenth level east drift, 700 and 1,100 feet east of the shaft, intersected erratic values in quartz stringers 400 to 500 feet south of the drift. A crosscut is being driven south to explore this structure. The main east drift on the tenth level, the face of which was approximately 1,700 feet east of No. 2 shaft at the end of the year, will be continued east as an exploratory drift from which diamond-drilling at regular intervals will be continued.

No diamond-drill blast-hole stoping was done during the year, but several large stope pillars were prepared for this type of mining and will be blasted in 1944. Two large stopes above the second level were completed, and the surface pillar over them will be stripped of overburden and the ore recovered next summer.

The broken ore reserve was decreased from 121,000 tons to 111,000 tons during the year.

Ore Treatment

Of a total of 122,107 tons of ore hoisted, 24,734 tons were sorted and discarded as waste and 97,373 tons milled, including 1,597 tons of free-milling quartz ore from development headings. The average mill-head was \$10.29 per ton.

The mill operated 80 per cent. of the running time. The monthly milling average (not including stored concentrates) was 8,114 tons, compared to 11,176 tons monthly average for the year 1942.

From May to November, inclusive, 3,906 tons of previously stored concentrates were roasted and cyanided. The average value of these concentrates was \$18.03 per ton.

The total proceeds from bullion amounted to \$926,543.84, including \$59,341.61 recovered from stored concentrates treated.

The source and average value of ores treated was as follows:—

	Tons hoisted	Tons treated	Average value per ton treated
Sulphide ore.....	120,510	95,776	\$10.34
Quartz ore.....	1,597	1,597	6.86
Concentrates.....		3,906	18.03
Total.....	122,107	101,279

¹No sorting was done on this ore.

As a result of underground labour shortage, particularly during the latter half of the year, it was impossible to hoist sufficient tonnage from underground to maintain the mill at capacity. Hence, partially treated concentrates, which were stored in 1938 and 1939, were reclaimed and sent to the roaster in order to maintain that part of the process as close to capacity as possible. These concentrates are stored in the open and for that reason can be economically handled only during fair weather. From further investigation and information gained in treating this stock-piled material it would appear that the quantity of concentrates stored was less but the value per ton was greater than the original estimate, and the value recovered will, it is expected, approximate the amount previously estimated.

Ore Reserves

The total reserve of sulphide ore in the North vein system is estimated to be 290,000 tons, of which 111,000 is broken and in reserve in the stopes. The average grade is estimated to be \$7.46 per ton. According to previous experience after sorting, this is estimated to be equivalent to 200,000 tons of an average value of \$10.42 per ton.

To date sufficient work has not been completed on the free-milling quartz ores occurring on the fourth and fifth levels on which to base a satisfactory estimate, and for that reason no tonnage from such quartz ores has been included in the above-mentioned ore reserve.

The ore reserve does not include free-milling (quartz) ores in other parts of the mine.

Statement of Operations

The following is a statement of operations for the year ending December 31, 1943:—

	Total	Per ton milled (97,373 tons)	Per ton milled and sorted (122,107 tons)
INCOME:			
Proceeds from bullion ¹ (ore milled, \$867,- 202.23; stored concentrates treated (3,906.44 tons), \$59,341.61)	\$926,543.84	\$9.5154	\$7.5879
Interest on investments and bank balances ..	4,745.61	.0487	.0389
Total	\$931,289.45	\$9.5641	\$7.6268
EXPENSES:			
Development	\$96,587.59	\$0.9919	\$0.7910
Write-off of winze- and shaft-sinking ex- pense, deferred	34,908.48	.3585	.2859
Mining	258,056.71	2.6502	2.1134
Milling	225,240.05	2.3132	1.8446
Applicable directly to stored concentrates treated (original cost up to storing, \$30,677.27; subsequent treatment, \$21,- 379.09)	52,056.36	.5346	.4263
Marketing bullion	10,546.15	.1083	.0864
General and administrative, after deducting sundry revenue	60,396.41	.6202	.4946
Expenses for stock transfers and audit, legal, and administration	21,030.47	.2160	.1722
Total	\$758,822.22	\$7.7929	\$6.2144
OPERATING PROFIT FOR YEAR (before providing for depreciation, development write-off, and taxes)	\$172,467.23	\$1.7712	\$1.4124
OTHER COSTS:			
Provision for depreciation	\$110,613.24	\$1.1360	\$0.9059
Development charges written off	48,686.50	.5000	.3987
Provision for taxes on profit for year	5,000.00	.0513	.0409
Total	\$164,299.74	\$1.6873	\$1.3455
Profit for year	\$8,167.49	\$0.0839	\$0.0669

¹Gold, 24,064.316 fine ounces; silver, 173.200 fine ounces.

The company had on hand at December 31, 1943, concentrates having an estimated recoverable value of \$158,473.52.

The total costs per ton, as shown in the "Statement of Operations" under the headings "Per ton milled" and "Per ton milled and sorted," are distorted for the following reasons: The tonnages under these headings do not include the tonnage of stored concentrates treated; whereas, the total costs include the cost of handling and treatment and write-off of charges applicable to these concentrates.

As a result of the reduction of milling rate the total costs per ton are increased due to the fact that general overhead charges, including labour other than underground, could not be reduced in the same proportion.

General

On October 19, 1943, a formal working agreement was completed with the Hard Rock Mine Employees Union, which represents all the hourly rated employees. This agreement sets forth conditions of employment, wages, hours of work, adjustments of disputes, grievance procedure, and a "Vacation with Pay Plan" authorized by the National War Labour Board.

An average force of 139 persons was employed during the year. Of these, 66 men were in the mine and 29 in the mill. R. G. McKelvey is mine manager.

Hasaga Gold Mines, Limited

Hasaga Gold Mines, Limited, was incorporated in October, 1938, with an authorized capitalization of 5,000,000 shares of \$1 par value, of which 2,875,006

have been issued. The officers and directors are: J. E. Hammell, president; C. S. Hamilton, vice-president; G. M. Huycke, secretary-treasurer; John Bland, assistant secretary-treasurer; A. G. Hattie, director of mining; Eola Hammell, director. The head office is at 25 King Street West, Toronto. The mine address is Box 320, Red Lake.

The company holds 51 claims, approximately 2,100 acres, in the Red Lake area, Patricia portion of Kenora district. The holdings consist of the former J. E. Hammell property, now known as the No. 1 operation, and the former Red Lake Gold Shore mine, in Dome and Heyson townships, and the Starratt-Olsen property in Baird township, called the No. 2 operation. The No. 2 operation has been idle since March 31, 1940. No development work has been done on the Red Lake Gold Shore mine since the company was formed, but the mill is used to treat the ore from the No. 1 operation.

There are two shafts on the No. 1 property: No. 2 shaft on claim K.R.L. 1,378 and No. 1 shaft some 2,500 feet to the east on claim K.R.L. 1,374. No. 2 shaft, which is vertical and has three compartments, is 235 feet deep with a level at 200 feet, on which 376 feet of drifting and 785 feet of crosscutting have been done. No work has been done in this section since January, 1939.

Operations in the No. 1 shaft area continued throughout 1943. The vertical shaft, which is 1,080 feet deep, has three compartments from surface to 500 feet and four compartments below that point. The vertical, 3-compartment winze, known as No. 3 internal shaft, which is collared at the 850-foot level 220 feet northwest of No. 1 shaft, runs to a depth of 1,673 feet from surface. The following table shows the development work done during 1943 and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
125-foot.....		711		405	148	345
250-foot.....		936		639	143	567
375-foot.....	31	724		419		625
500-foot.....	74	2,556		694		568
560-foot sublevel.....						50
650-foot.....		1,542		353		545
850-foot.....		584		379		1,253
900-foot sublevel.....		197		30	118	191
1,050-foot.....		889		268		589
1,250-foot.....	24	754		283	128	396
1,415-foot sublevel.....	342	342	183	183		
1,450-foot.....		459	85	447		522
1,600-foot.....	237	554		336		179
1,660-foot sublevel.....						72

During the year a building to be used as a garage and repair shop was erected, a 38- by 22-foot frame building was purchased and fitted as a warehouse, and a company residence was converted into an office. A used 42- by 30-inch double-drum Canadian Ingersoll-Rand PE-I electric hoist was bought from Madsen Red Lake Gold Mines, Limited, and put into service at the winze.

The following is taken from the report of the manager for the year ending December 31, 1943:—

Development

Due to acute labour shortage during the past year, development work was seriously curtailed. The work done consisted mainly of preparing known ore bodies for mining and providing the mine with required travelways.

Diamond-drilling

About 4,264 feet of core-drilling was completed in 56 holes. A considerable amount of the footage drilled during the year was for guidance in mining operations. Exploratory drilling from the 304 E drift indicated possibilities for ore which will bear further investigation. Holes from the west face of 1,602 W drift cut a fractured zone carrying some values, which should be investigated when it is possible to do so. Drilling below the 1,450-foot level in the region of the main ore zone returned some interesting values, which as yet have not been substantiated in the drifting on the 1,600-foot level.

Mining

There were 158,374 tons of ore broken in stopes, and 146,111 tons of ore were hoisted. Included in the latter were 3,348 tons of ore which were sent to the mill from development work. Some 3,175 tons of development waste were hoisted.

A summary of the source and grade of ore hoisted follows hereunder:—

Level	Stope	Tons	Grade ¹	Production
250-foot	210	1,838	\$4.14	\$7,609
	220	28,439	4.13	117,453
375-foot	340	277	2.10	582
	515	811	3.39	2,749
500-foot	530	281	3.04	854
	540	655	2.90	1,900
	610	5,157	3.30	17,018
650-foot	615 pillar	1,690	10.50	17,745
	815	20,217	4.23	85,518
1,050-foot	1,010	29,372	4.20	123,362
1,250-foot	1,210	51,340	5.25	269,535
1,450-foot	1,410	1,399	1.75	2,448
Ore passes		1,187	4.57	5,425
Total		142,663	\$4.57	\$652,198
Development		3,448	\$3.07	\$10,598

¹Gold at \$35.00 per ounce.

Ore Reserves

Ore reserves as of January 1, 1944, totalled 365,397 tons valued at \$1,872,354.00, based on \$35.00 per ounce for gold.

The summary and make-up of the ore reserve tonnage is as follows:—

	Tons	Average grade
Broken ore in stopes	95,613	\$5.13
Ore in place in stopes	100,665	4.42
Ore in place in pillars	169,119	5.54
Total	365,397	\$5.12

No new ore was developed to replace that milled during the year; some stopes did, however, produce more ore than had been expected from previous calculations. A considerable portion of the present ore reserves consists of sill pillars, many of which cannot be mined until all possibilities for ore beyond them are exhausted.

Milling

	Tons
Waste sorted	25,923
Ore crushed	120,318

LABOUR

Salaries, wages, and bonuses	\$264,491.37
------------------------------------	--------------

An average force of 124 men was employed, of whom 67 were in the mine and 27 in the mill. A. E. Pugsley is manager.

Hollinger Consolidated Gold Mines, Limited

Hollinger Consolidated Gold Mines, Limited, has an authorized capitalization of 5,000,000 shares of \$5 par value, of which 4,920,000 have been issued. The officers of the company are: Jules R. Timmins, president; John B. Holden, vice-president and treasurer; P. C. Finlay, secretary. The directors are: Leo H. Timmins, Wilson Bell, James Y. Murdoch, Allen A. McMartin, John I.

Rankin, N. A. Timmins, and John McMartin. John Knox, who had been general manager for the company for many years, resigned from the position at the end of 1943 to assume the duties of consulting engineer. E. L. Longmore was appointed manager of the Hollinger mine. A. H. Wohrab is assistant manager. The mine office and head office are at Timmins. The general office is at 602 Royal Bank Building, Toronto.

The main property operated by the company is located in Tisdale township, Porcupine area, district of Cochrane, and includes part of the ground underlying the town of Timmins. The company has numerous other holdings and interests. It owns and operates the Ross mine in Hislop township, district of Cochrane, and controls and operates Young-Davidson Mines, Limited,¹ in Powell township, Mataclewan area, district of Timiskaming. It controls the Kam-Kotia Porcupine Mines, Limited,² and operates that company's copper-zinc property in Robb township, district of Cochrane, under the direction of the Wartime Metals Corporation.

Mining and milling operations at the Hollinger mine continued throughout 1943. The No. 27 internal shaft, which is being sunk below the 2,450-foot level, was continued a further 55 feet to a depth of 5,332 feet from surface. A total of 24,650 feet of drifting, 7,262 feet of crosscutting, and 326 feet of raising was added to the development work. Diamond-drilling amounted to 1,322 holes, totalling 181,830 feet, from underground.

The following is taken from the general manager's report for the year ending December 31, 1943:—

Cyanide consumed per ton of ore.....	lbs. 0.501	
Zinc consumed per ton of ore.....	lbs. 0.048	
Zinc consumed per ton of solution.....	lbs. 0.038	
Lime consumed per ton of ore.....	lbs. 2.149	
Lead acetate per ton of ore.....	lbs. 0.008	
Average value of pregnant solution.....	\$7.82	
Average value received per ounce of gold sold.....	\$38.50	

Ore Reserves

The ore reserves on December 31, 1943, consisted of 7,735,904 tons of a total value of \$52,862,333, having an average value of 0.331 ounces, or \$6.83 per ton. The ore reserves on December 31, 1942, consisted of 7,881,713 tons of a total value of \$53,723,738, having an average value of 0.330 ounces, or \$6.82 per ton.

In the calculations dealing with ore reserves, the price of gold at \$20.67 per ounce has been taken as the basis of value, and the same minimum ore grade, namely \$4.00, as used in former years, continued. Taking the price of the gold at \$35.00 per ounce as the basis of value, the combined ore reserves had a total value of \$89,510,480.00 at the end of the year.

Hollinger Mine

As a result of additional discoveries, there has been an increase in the amount of ore milled from developments above the 800-foot level, the percentage having risen to 38.2, as compared to 36.9 per cent. in 1912. Continuity of production from this zone is an important factor in maintaining our tonnage. The estimated ore reserve tonnage at the Hollinger mine is 167,815 tons less than the figure before reported, which decreases the gross value of our ore reserves by \$983,642. As formerly, the estimate is based on gold at \$20.67 per ounce. Due to the shortage of labour, development was chiefly confined to the more accessible areas.

The labour turnover in the year continued at a high rate. Under the circumstances, we reduced tonnage to an average rate of 2,972 tons per day and balanced our surface and underground operations to this tonnage.

The hoist mentioned in the last annual report for No. 27 shaft has been delivered and is now being installed. This will allow us to proceed with deeper development operations below the 5,000-foot horizon.

Scheelite

Following instructions from the Metal Controller, scheelite production was suspended on September 4, 1943, and all of the accumulated product was sold to the Dominion Government. While this operation was not profit-making, it was an important contribution to the war effort.

Young-Davidson Mine

The winter conditions in the open pit still hamper operations, and as in previous years milling was suspended as of January 1 and all available men placed on development operations. There were 192,727 tons milled, being an average of 771 per day with recovery of \$4.01 per ton.¹ There were 1,165,759 tons of broken ore in the stopes at the end of the year.

Kam-Kotia Mine

During 1943, our Kam-Kotia copper property went into operation. The plant was financed by the Metals Reserve of the United States. A road 22.5 miles long was built from Timmins to the property, and the concentrate is trucked to rail at Timmins and shipped to smelter at Noranda.

Exploration

Due to labour conditions or regulations, no work was performed at the Mace mine, the Gillies Lake gold mine, or the Rundle mine in Newton township.

Ross Mine

The Ross mine consists of approximately 374 acres, which the company owns, on the north half of lot 1, concession II, and part of the south half of lot 1, concession III, Hislop township, district of Cochrane. Several blocks of claims around the Ross mine in lots 2 and 3 of concession III are held under option.

Operations continued throughout 1943. The mine is served by a vertical, 3-compartment shaft, 979 feet deep, known as No. 1, on the north half of lot 1, concession II. The winze below the 300-foot level is not now being used as a hoistway. The following table shows the development work done during the year and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
150-foot.....		2,294		1,091		786
300-foot.....	94	2,815		1,233	15	1,090
450-foot.....		4,170		3,160		1,657
600-foot.....	184	1,856		1,731		1,102
750-foot.....	102	333	495	1,673		448
900-foot.....	75	635	329	1,834		579

Diamond-drilling consisted of 49 holes, totalling 3,449 feet, all from underground.

There were 85,158 tons of ore mined, of which 85,125 tons were hoisted. The mill operated at an average daily rate of 233.5 tons and treated 101,409 tons of ore.

¹Gold at \$35.00 an ounce.

The following is taken from the general manager's report for the year ending December 31, 1943:—

The ore reserves as of December 31, 1943, were 679,059 tons of a total value of \$3,232,351, having an average content of 0.230 ounces per ton. These figures compare with 675,053 tons of a total value of \$3,110,114, having an average content of 0.229 ounces per ton, at the end of 1942. Taking the price of gold at \$35.00 per ounce as a basis of value, the total value was \$5,473,259 at the end of the year, an increase of 22,006 tons and \$217,373.

J. J. Caty is resident manager. The mine address is Ramore.

Hoyle Gold Mines, Limited

Hoyle Gold Mines, Limited, was incorporated in February, 1938, with an authorized capitalization of 4,000,000 shares of no par value. In 1940 the capitalization was increased to 5,000,000 shares of no par value. All the shares have been issued. The officers and directors are: Thayer Lindsley, president; H. Whittingham, secretary-treasurer; J. M. C. Dunlop, A. G. Fulton, and W. B. Maxwell, directors. The head office is at 25 King Street West, Toronto. The mine address is Pamour.

The company holds 32 claims, approximately 1,280 acres, in Whitney and Cody townships, Porcupine area, district of Cochrane, including the property formerly known as the Lang mine, adjoining the Pamour Porcupine mine on the east.

On July 11, 1943, the 700-ton mill was destroyed by fire. Underground operations were suspended on July 31. The mine is being kept pumped until such time as it is possible to build a new mill.

The mine has been developed from a vertical, 3-compartment shaft, 1,800 feet deep, on the northwest quarter of the north half of lot 14, concession V, Whitney township (claim P. 7,673). The following table shows the development work done in 1943 and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
200-foot	559	2,353	14	950	170	1,336
400-foot	439	3,281		496	472	2,900
600-foot	290	2,676	54	669	291	1,984
800-foot		179				277
900-foot (loading pocket)						195
1,000-foot		321		102		
1,200-foot				60		
1,400-foot (station only)						
1,600-foot (station only)						
1,800-foot		2,357		657		22

Diamond-drilling amounted to 29 holes, totalling 2,190 feet, all from underground.

A total of 108,944 tons of ore was mined, of which the mill treated 105,606 tons.

An average force of 72 men underground and 26 in the mill was employed during the period of operation. An average of 30 persons was employed on general surface work throughout the year. J. M. C. Dunlop was manager.

Jerome Gold Mines, Limited

Jerome Gold Mines, Limited, was incorporated in February, 1939, with an authorized capitalization of 3,000,000 shares of \$1 par value, all of which have

been issued. The officers and directors are: J. H. C. Waite, president; Jules R. Timmins, vice-president; G. C. Ames, secretary-treasurer; W. Harrison, assistant secretary-treasurer; P. C. Finlay, R. W. Hart, Chas. McCrea, J. A. H. Paterson, and Leo H. Timmins, directors. The head office is at 350 Bay Street, Toronto. The mine address is Jerome.

The company holds 62 claims, approximately 2,900 acres, south of Opeesway lake in Osway and Huffman townships, district of Sudbury.

During the first eight months of 1943 development work and stoping operations had to be greatly curtailed owing to shortage of labour. The mill continued to run until August 31, when operations were suspended.

On September 30, the sinking of the vertical, 3-compartment shaft from 835 feet to an objective depth of 1,100 feet was begun. At the end of the year a depth of 1,016 feet had been reached and sinking was continuing. A new level was established at 950 feet. Most of the development work for the year was done after the mill ceased operation. The following table shows the work done in 1943 and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
200-foot		3,539		658	121	744
350-foot		3,694	17	906		995
500-foot	46	3,188		447		876
650-foot	107	2,129		214	25	544
725-foot (loading pocket)						205
800-foot		992		193		
950-foot (station only)						

Diamond-drilling consisted of one hole, 2,065 feet in length, from surface and one hole, 30 feet long, from underground.

A total of 106,846 tons of ore was hoisted during the year.

The following is taken from the president's report for the year ending December 31, 1943:—

Mining and Development

Due to labour shortage it was impossible to develop new ore or proceed with normal stope preparation, and consequently it became necessary to draw on the broken ore reserves to feed the mill. Breaking in the stopes, which was continued until the end of milling in August, resulted in a total of 57,912 tons ore broken.

Milling

Mill operations to the end of August were as follows:—

Tons milled, Jan. 1 to Aug. 31	107,608
Tons milled per day	443
Mill operating time	per cent. 88.55
Average mill head	ounces gold per ton 0.185
Average tailings	ounces gold per ton 0.0150
Average recovery	per cent. 91.87
Gold produced	fine ounces (Mint) 18,640.89
Silver produced	fine ounces (Mint) 4,920.80

Of the total production figures above, 343.32 ounces gold and 112.93 ounces silver were obtained from the mill clean-up in September.

Costs

Operating costs to the end of August averaged \$3.501 per ton milled. The marked decrease in costs was due to the lack of development work and stope preparation and the fact that only 53.8 per cent. of the ore milled was broken in the stopes during this period. Details of costs per ton milled are:—

Development	\$0.050
Stope preparation174
Extraction	1.768
Milling795
Administration and general, including head office and mine and mill clean-up636
Bullion selling expense078
Total per ton milled	\$3.501

Ore Reserves

When milling operations ceased, the ore reserves were estimated at 213,442 tons, averaging 0.166 ounce gold per ton, after making an allowance for 10 per cent. dilution.

An average of 120 persons was employed during the year, of whom 57 were in the mine and 56 on surface work. The average number of men employed in the mill during the period of operation was 7. E. E. Harris was general superintendent.

Kenwest Gold Mines, Limited

Kenwest Gold Mines, Limited, was incorporated in November, 1939, with an authorized capitalization of 3,000,000 shares of \$1 par value, of which 2,088,241 have been issued. The officers and directors are: W. M. Gordon, president and secretary-treasurer; C. A. Billings, vice-president; F. A. Riddell, secretary-treasurer; M. W. Leslie, assistant secretary-treasurer; R. A. Robertson and H. J. Coon, directors. The head office is at 10 Adelaide Street East, Toronto. The mine address, when operations are in progress, is Goldrock.

The company owns the former Big Master and Selby Lake properties, containing approximately 1,800 acres, adjoining the Elora mine about a mile from Goldrock in the Upper Manitou Lake area, district of Kenora. No work has been done on the Selby Lake section since 1938.

The Big Master section has been developed from a 3-compartment, vertical shaft, 638 feet deep, on claim H.P. 366. Mining operations continued from January 1 to May 31, 1943. No development work or diamond-drilling was done during the period. The following table shows the total amount of development work on this section:—

Level	Drifts	Crosscuts	Raises
	feet	feet	feet
80-foot	660	250	160
180-foot	485	65	100
270-foot	495	280	135
352-foot	600	200
475-foot (station only)
600-foot	923

There were 3,119 tons of ore mined and milled. The mill operated intermittently, a total of 1,021 hours, between January 1 and April 26.

A 20- by 20-foot frame refinery building was erected.

C. A. Billings was manager, employing an average force of 29 men.

Kerr-Addison Gold Mines, Limited

Kerr-Addison Gold Mines, Limited, was incorporated in April, 1936, with an authorized capitalization of 5,000,000 shares of \$1 par value, 4,730,301 of which have been issued. The officers and directors are: Jas. Y. Murdoch, president; André Dorfman, vice-president and managing director; G. A. Cavin,

secretary-treasurer; Oliver Hall, L. K. Fletcher, M. F. Fairlie, J. H. C. Waite, and J. H. Rattray, directors. The head office is at 80 King Street West, Toronto. The mine address is Virginiatown.

The property, which is in McGarry township, Larder Lake area, district of Timiskaming, includes the Reddick and Kerr-Addison claims taken over from Proprietary Mines, Limited, on incorporation and several claims acquired later. It consists of 32 patented and 3 unpatented claims, totalling 1,131 acres.

The following table shows the shafts on the property:—

Shaft	Claim No.	No. of compartments	Depth
Reddick (No. 2) ¹	H.J.B. 29.....	2	feet 76
Kerr-Addison (No. 1) ²	H.S. 166.....	3	716
No. 3.....	H.J.B. 30.....	5	2,806

¹The Reddick shaft was sunk by former operators, who did 1,035 feet of crosscutting and 1,130 feet of drifting on a level at the bottom of the shaft.

²The Kerr-Addison shaft was sunk to a depth of 300 feet by the former operators and deepened to 716 feet by the present company. It has an adit level at 60 feet and is connected with No. 3 shaft on the 175-, 300-, 500-, and 700-foot levels. It is now used only as a ventilation shaft and manway.

Mining and milling operations continued throughout 1943. The following table shows the development work done during 1943 and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet

2,800-foot (station only).....						

Diamond-drilling during the year consisted of 638 holes, totalling 95,894 feet, all from underground.

There were 676,059 tons of ore mined and hoisted, including 947 tons of scheelite ore. Of the latter, 540 tons averaging better than 1 per cent. WO₃ were shipped for treatment.

The following is taken from the report of the manager for the year ending December 31, 1943:—

A greatly reduced but continuous development programme was carried out in a planned effort to maintain the mine in a properly developed condition for the post-war period, so that a full crew may again be employed with a minimum of delay.

A reduced diamond-drilling campaign was also continued, the main object being the further probing of ore bodies and zones above the 1,450-foot level previously only partially developed. As a result of this work some new blocks of ore are now included in reserves, and these have a little more than made up for the tonnage milled during the year.

No. 6 ore body, discovered late in 1942 at the 1,450-foot level, was proved by diamond-drilling to have a length of 413 feet, widths up to 80 feet and, from work done so far, an indicated grade of better than mine average. Further diamond-drilling in No. 16 ore body indicates an additional 200 feet in length at and below the 1,450-foot level.

Ore Reserves

Ore reserves, all above the 1,450-foot level, total 8,244,236 tons, having a grade of 0.2002 ounce per ton after allowing for dilution. Broken ore, all above the 1,000-foot level, amounting to 544,359 tons, is included in the above figure. Considerable tonnages of ore above the 1,450-foot level are still only partially developed and hence not included in ore reserves.

Lower Development

Early in the year the new section of No. 3 shaft between the 1,450-foot level and the 2,650-foot level was placed in service, following which development of the 2,500-foot level was started. So far about 1,200 feet of drifting has been done. This, with horizontal diamond-drilling to the east of the main crosscut, has indicated a body of mineralized flow-type ore for a length of 400 feet, having a grade of 0.1956 ounce per ton over an average width of 49 feet. This ore is still open to the east. In the carbonate zone north of this, diamond-drilling indicates a substantial area of carbonate-type ore. Diamond-drilling from the west drift on this level has intersected good ore in a recently discovered flow, but its importance remains to be determined.

On the 2,650-foot level several hundred feet of crosscut has been driven, and a sump and pumping station have been excavated.

Production

Because of the reduction of daily tonnage, from 2,100 to 1,650 tons, started June 1, both tonnage treated and production were lower than for 1942.

SUMMARY OF PRODUCTION¹

Tons milled.....	674,487
Total gold recovered..... ounces	130,192.28
Total silver recovered..... ounces	7,030.06
Average gold recovery per ton (0.1930 ounce).....	\$7.435
Average tailings loss per ton (0.0034 ounce).....	\$0.129

Total realized value of bullion (Canadian funds).....	\$5,015,127.68
Total realized value of bullion per ton (Canadian funds)...	\$7.435

COST SUMMARY

	Total	Per ton
Mine development.....	\$322,857.08	\$0.478
Stope development.....	109,257.36	.162
Mining.....	528,033.18	.783
Crushing and conveying.....	86,581.07	.128
Milling.....	350,019.39	.519
General expense.....	138,338.67	.205
Bullion marketing.....	57,063.29	.085
Total operating costs at mine.....	\$1,592,150.04	\$2.360

The net operating profit at the mine, before provision for depreciation, amortization of deferred development, and taxes was \$3,422,977.64, or \$5.075 per ton.

General

Again in 1943 a considerable quantity of war supplies, subcontracted from other companies, was turned out in the machine shop.

An average force of 344 men was employed, of whom 204 were underground, 33 in the mill, and 106 on general surface work. W. S. Row is manager.

¹Gold at \$38.50 an ounce.

Kirkland Lake Gold Mining Company, Limited

The Kirkland Lake Gold Mining Company, Limited, was incorporated in November, 1915, with an authorized capitalization of 5,500,000 shares of \$1 par value, of which 5,326,699 have been issued. The officers and directors are: J. B. Tyrrell, president; R. V. Le Sueur, vice-president; H. F. Cassidy, secretary-treasurer; V. H. Emery, managing director; A. C. Matthews, J. A. Dalton, and W. S. Walton, directors. The executive office is at 44 Victoria Street, Toronto. The head office and mine office are at Chaput Hughes.

The property consists of 11 claims, 334 acres, in Teck township, Kirkland Lake area, district of Timiskaming.

The depths of the shafts and winzes at the mine are as follows:—

Shaft or winze	No. of compartments	Total depth from surface
No. 1 shaft.....	2	feet 894
No. 2 or main shaft.....	3	2,666
No. 1 winze (below 2,475-foot level).....	4 to 2,975-foot 3 to 4,900-foot	4,914
No. 2 winze (below 4,900-foot level).....		
No. 3 winze (below 3,600-foot level).....	3	4,897
1,000 winze (below 1,000-foot level).....	2	1,124

There is a bulkhead at the 4,900-foot level.

Operations continued throughout 1943. The new No. 4 winze was collared at the 4,900-foot level, about 1,850 feet west of the No. 2 winze, in preparation for further sinking. The following table shows the underground development work done during 1943 and the total amount since 1922:—

Ore Reserves

The ore reserves in the mine at the end of 1943, consisting of proved ore in place and broken ore in the stopes, amount to 356,538 tons, having a gross value of \$4,856,680, calculated on gold at \$35.00 per ounce.

An average force of 198 men was employed, of whom 138 were in the mine and 11 in the mill. P. J. Harris is general superintendent.

Lake Shore Mines, Limited

Lake Shore Mines, Limited, was incorporated in February, 1914, with an authorized capitalization of 2,000,000 shares of \$1 par value, all of which have

¹Collar of No. 4 winze.

been issued. The officers and directors are: Albert Wende, president; W. H. Wright, vice-president and treasurer; A. L. Blomfield, managing director and superintendent; Ernest Martin and Walter Foskett, directors. Kirkland Securities, Limited, is secretary. The head office and mine office are at Kirkland Lake. The property consists of 287.15 acres in Teck township, Kirkland Lake area, district of Timiskaming.

Mining and milling operations continued throughout 1943. The depths of the shafts serving the mine are set out in the following table:—

Shaft	No. of compartments	Sinking in 1943	Total depth from surface
		feet	feet
No. 1.....	3	2,250
No. 1 shaft extension (below 2,000-foot level).....	3	4,500
No. 2 (inclined, used only for supplies and timber).....	1	200
No. 3 (abandoned).....	5	4,000
No. 4 (below 4,325-foot level).....	3	290	6,424
No. 5.....	5	4,000
No. 6 (below 3,575-foot level).....	3 to 3,825-foot level 5 to bottom	190	6,098

Levels were established in 1943 at depths of 6,200 and 6,325 feet in No. 4 shaft and at 5,950 and 6,075 feet in No. 6 shaft.

The following table shows the development work done during 1943 and the total:—

UNDERGROUND DEVELOPMENT WORK

Diamond-drilling during the calendar year consisted of 231 holes, totalling 21,125 feet, all from underground.

The following is taken from the report of the managing director for the twelve months ending June 30, 1944:—

In the period 267,698 dry tons of ore were milled. Bullion produced amounted to 116,600 ounces of gold and 26,315 ounces of silver, having a total value of \$4,498,529.77.

Retreatment of other tailings.....	.222

Development

Footage advance in development drifts driven during the year totalled 4,414 feet, of which 1,406 feet, or 31.9 per cent., was in ore having an average value of 0.692 ounces per ton across an average width in the drifts before slashing of 63.5 inches. The total advance was divided, as shown below, between the No. 1 or south vein zone, the No. 2 or north vein zone, and subsidiary veins.

Vein zone	Advance	Ore	Width	Grade, ounces per ton	Drifting in ore
	feet	feet	inches		per cent.
No. 1.....	1,192	779	72.2	0.815	65.4
No. 2.....	1,849	211	68.5	.416	11.4
Subsidiary veins.....	1,373	416	44.8	.534	30.3
Total.....	4,414	1,406	63.5	0.692	31.9

Due to the scarcity of experienced driftmen, the advance in development drifts for the year was at a greatly reduced rate, the total footage driven being but slightly more than half of that for the preceding period and just about one-third of the average yearly advance for the past twelve years. Most of the reduction was in the No. 2 or north vein zone, where just slightly more than one-third of last year's footage was driven. In the No. 1 or south zone, the total advance for the year amounted to nearly two-thirds of the preceding period's total, while on subsidiary veins on the upper levels more drifting was done this year than last.

Because of the existing shortage of development crews in the last two or three years, it has been necessary to restrict drifting operations on the lower levels for the most part to the main leads of the veins. Subsidiary veins and branching fractures remain largely untested except by diamond-drilling. Many of the drill-holes cut material of ore grade, and some of these occurrences, when opened up by drifting, will undoubtedly contain minable ore bodies.

Mining

Shortage of labour forced a further reduction in the tons of ore mined to about 79 per cent. of last year's production. Value of the bullion produced amounted to approximately 81 per cent. of the figure for the preceding period.

Most of the mine is now working one shift per day only, and in addition many working places, which normally would be in production, are forced to remain idle. The summary of ore trammed for the year gives by levels the sources of the ore milled. The total was made up of 29 per cent. from the No. 1 or south vein zone, 58 per cent. from the No. 2 or north zone, and 13 per cent. from subsidiary veins.

Apart from the work required to be done on subsidiary veins, the balance between ore exposed in drifts and stoping operations has been reasonably well maintained. At the end of the fiscal year, the length of ore exposed in drifts and available for stoping amounted to 17,122 feet, having an exposed average width before slashing of 58 inches and an average grade of 0.575 ounces per ton. Comparable figures for the last ten years are given below:—

Year ended June 30	Length	Width before slashing	Grade, ounces per ton
	feet	inches	
1935	16,540	61	0.665
1936	15,934	61	.674
1937	18,162	58	.610
1938	17,226	55	.600
1939	16,803	54	.601
1940	13,290	54	.585
1941	17,103	54	.624
1942	17,236	56	.606
1943	16,925	57	.575
1944	17,122	58	.575

The length of untouched ore reserves has increased considerably since 1940 and is above the average for the last ten years. Shaft development is also in a very advanced position. However, a considerable part of these ore reserves is represented by pillars, a large part of which has burst and can only be mined with reasonable safety slowly and as their physical condition permits. It is believed that this ore can be removed without too excessive cost, but if and when the mine ends, these pillars must come to an end concurrently with the other ores as the speed of mining the remnants by themselves obviously will not permit sufficient production to carry overhead and maintenance required to carry on the operation.

Another requisite in the operation of a rock-bursting mine is to have an ore picture developed many levels ahead of the bottom of active mining. It is thus possible to so open this part of the mine as to very largely eliminate the making of pillar ore. This is the immediate objective. This policy means a much lower tonnage than in the past and an even greater proportional extension of profitable life. The immediate picture would indicate a production of not over 1,200 tons, though there are many known breaks as yet unexplored that may influence the future tonnage.

Supplies and Equipment Purchased

	March 1, 1918, to June 30, 1943	July 1, 1943, to June 30, 1944	Total to date
Explosives	\$2,597,847	\$52,354	\$2,650,201

Total	\$34,074,282	\$977,063	\$35,051,345
Freight and express included in value of above materials	\$2,570,272	\$50,485	\$2,620,757

At the request of the authorities, work on special war orders was greatly curtailed during the latter part of the period.

An average force of 619 men was employed during the calendar year, of whom 362 were in the mine, 44 in the mill, and 212 on general surface work.

Leitch Gold Mines, Limited

Leitch Gold Mines, Limited, was incorporated in July, 1935, with an authorized capitalization of 3,000,000 shares of \$1 par value, of which 2,850,005 have been issued. The officers and directors are: K. J. Springer, president; W. E. Segsworth, vice-president; W. W. McBrien, secretary-treasurer; Russell Cryderman, Dr. J. H. C. McClelland, and S. H. Robinson, directors. The head office and mine office are at Beardmore. The executive office is at 67 Yonge Street, Toronto.

The company's main property consists of 433 acres in Eva and Summers townships, district of Thunder Bay, about 5 miles from Beardmore, on the Port Arthur-Longlac branch of the Canadian National Railways. It is reached from Beardmore by an automobile road. The claims staked in 1942 in township 85 in the district of Thunder Bay, township 46 in the district of Algoma, and Lynchdoch township in Renfrew county were all dropped in 1943. The 25 claims that had been held in Stover and Rennie townships, district of Sudbury, were transferred to Leta Explorations, Limited, a new company formed in conjunction with Moneta Porcupine Mines, Limited.

Mining and milling operations at the main property continued throughout 1943. The vertical, 3-compartment No. 1 shaft on claim H.F. 1 is 1,685 feet deep. The following table shows the development work done during 1943 and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
125-foot		2,239		696		271
225-foot		2,500		625		335
325-foot		2,432		389		1,024
425-foot		2,671		115		834
525-foot		4,879		238	167	797
650-foot		2,514		350	276	992
782-foot		2,772		318	72	987
900-foot		3,787		1,417	308	991
1,025-foot		2,703		627	142	1,183
1,150-foot		2,230		601	28	336
1,275-foot		2,479		507		33
1,400-foot	128	1,616		613		
1,525-foot	527	1,555		593		
1,650-foot		1,868		1,011		

Diamond-drilling during the year consisted of 3 holes, totalling 408 feet, from surface and 15 holes, totalling 10,425 feet, from underground.

The following is taken from the manager's report for the twelve months ending December 31, 1943:—

Exploration and Development

As a result of man-power shortage, lateral development was discontinued in May. While some extension to ore on the 12th and 13th levels is expected when development is resumed, most of the main known ore lengths have been developed to the 14th level.

Ore Reserves

Ore reserves amount to 210,160 tons, averaging 0.841 ounces per ton for a total of 176,646.82 ounces, or \$6,182,638.70 at \$35.00 per ounce, or \$6,800,902.57 including premium. This is an increase of 16,195.43 ounces, or \$566,840.05 at \$35.00 per ounce, or \$623,524.06 including premium.

Hoisting

Some 35,127 tons of ore were hoisted, being 2.8 per cent. from lateral development, 1.8 per cent. from raising, and 95.4 per cent. from the stopes; 4,843 tons of waste were hoisted.

Milling

Some 27,438 tons, an average of 75.8 tons per day, were milled after sorting 7,678 tons of waste and 36.4 tons of scheelite ore. Production amounted to 21,749.866 fine ounces of gold, or \$837,646.70 including premium. Average recovery was 0.793 ounces, or \$30.53 per ton milled, including premium.

Extraction for the year was 95.5 per cent.

Tungsten Ore

Some 64.3 tons of tungsten ore, averaging 3.95 per cent. WO_3 , were shipped to Little Long Lac Gold Mines tungsten concentrating plant. Of the above amount 36.4 tons were sorted from the mill feed in the first seven months of 1943. Recovery amounted to 53.13 per cent. of the WO_3 , being 1,600 pounds of concentrate averaging 62 per cent. WO_3 and 8,200 pounds of concentrate averaging 20.90 per cent. WO_3 . The concentrates have been shipped and settlement is still outstanding.

Sorting of tungsten ore has been discontinued due to over-all improvement in the Canadian supply.

Costs

	Cost per ton milled
Exploration and development:	
Surface exploration	\$0.02
Surface diamond-drilling02
Underground47
Crosscutting and drifting44
Raising40
	\$1.35
Mining	8.58
Milling	2.73
Tungsten sorting04
	\$12.70
Total operating costs at the mine	\$12.70

The cost per ton milled decreased by \$0.59 from 1942, but this figure is not comparative due to the decrease in development work and the decrease in the tons milled. The actual cost of doing work showed an increase over 1942.

General

The company participated with citizens and other companies in the district to establish a Red Cross hospital in Beardmore.

A. D. Dickson was manager, employing an average force of 93 men during the year, of whom 48 were in the mine and 14 in the mill.

Little Long Lac Gold Mines, Limited

Little Long Lac Gold Mines, Limited, was incorporated in January, 1933, with an authorized capitalization of 2,000,000 shares of no par value, of which 1,841,000 have been issued. The officers and directors are: D. M. Hogarth, president; Thayer Lindsley, vice-president; G. G. Blackstock, secretary-treasurer; A. B. Gordon, D. M. Morin, and Mrs. Clela Ellis, directors. The head office is at 25 King Street West, Toronto. The mine address is Geraldton.

The property consists of 35 claims, approximately 1,400 acres, in the townships of Errington and Ashmore, Little Long Lac area, district of Thunder Bay. The mine is 2 miles south of Geraldton on the Port Arthur-Longlac branch of the Canadian National Railways. There is an automobile road from Geraldton to the property.

Mining and milling operations continued throughout 1943. The mine is being developed from a vertical, 3-compartment shaft, 2,322 feet deep, on claim T.B. 10,560 and a vertical, 3-compartment winze, which is collared at the 16th level about 1,680 feet southwest of the shaft and runs to a depth of 3,004 feet from surface. The following table shows the development work done during 1943 and the total:—

Level and depth from surface	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
No. 1 SHAFT:						
1st (126 feet).....		112		57		50
2nd (204 feet).....		1,695		1,239	12	1,219

WINZE:						
17th (2,405 feet)....	699	1,415		411	596	619
18th (2,558 feet)....	617	1,440	144	431	311	621
19th (2,711 feet)....	724	1,577	238	417	443	644
20th (2,864 feet)....	1,565	1,756	198	418	345	639

No diamond-drilling was done during the year. At the end of 1943 preparations had been begun to deepen the winze and establish two new levels. The following is taken from the report of the general manager for the year ending December 31, 1943:—

Production

Hoisted.....	tons	104,707
Waste sorted.....	tons	15,817
Ore milled.....	tons	88,890
Bullion recovered, gold.....	ounces	26,179.566
Bullion recovered, silver.....	ounces	2,371.640
Total gold in residues.....	ounces	1,424.848
Calculated mill heads assay.....	ounces per ton	0.311
Calculated mill residues assay.....	ounces per ton	0.016
Recovery.....	per cent.	94.84

The mill operated 337.71 days, or 92.52 per cent. of full time. The average daily tonnage milled was 263.21 tons, as against 324.89 the previous year.

Production for the past five years is listed below:—

Year	Tons milled	Gross production	Value per ton
1939.....	106,777	\$1,699,078.12	\$15.910
1940.....	113,065	1,761,708.15	15.581
1941.....	118,332	1,634,811.26	13.815
1942.....	115,790	1,516,057.19	13.093
1943.....	88,890	1,024,321.24	11.524

¹Includes \$15,491.62 value of tungsten concentrates produced.

Development

The main vein in the lower levels of the mine has been separated into two parts about 150 feet apart, and these have been called the north and south parts of the vein. Recent development has shown that these two parts are connected with vein material, the whole forming an "S" structure. This connecting portion of the vein is called the "fold section."

Development for the year consisted of drifting on and preparing for stoping the south portion of the vein on the 19th and 20th levels and the north portion of the vein on the 17th to 20th levels. The north and south parts of the vein show an average length of 1,346 feet on the 17th to 20th levels and an average value of cut channel samples of 0.34 ounce (\$13.09) over 34 inches.

Ore Reserves

Ore reserves to the 20th level as of December 31, 1943, are:—

	Tons	Grade	
		Ounces	Value
Ore in pillars.....	101,622	0.448	\$17.25
Available ore.....	334,944	.325	12.51
Total ore reserves.....	436,566	0.354	\$13.63

Operating Costs

	Total cost	Cost per ton
Development.....	\$134,910.18	\$1.5177
Mining.....	324,093.49	3.6460
Milling.....	177,520.25	1.9971
Mine office and supervision.....	37,152.29	.4180
General expense.....	69,525.75	.7822
Administrative (Toronto).....	27,147.65	.3054
Tungsten recovery.....	15,040.94	.1692
Total.....	\$785,390.55	\$8.8356

A comparison of operating costs by years follows:—

Year	Develop- ment and exploration	Mining	Milling	Mine office and supervision	General expense	Adminis- trative expense	Total cost	Tons milled	Cost per ton
1939...	\$170,477.82	\$401,585.44	\$164,699.26	\$36,437.35	\$38,959.68	\$29,208.80	\$841,368.25	106,777	\$7.87
1940...	201,191.83	329,685.59	174,236.42	38,974.75	58,648.21	32,565.14	835,301.94	113,065	7.39
1941...	221,480.19	357,793.01	182,762.15	38,433.75	60,909.49	28,515.76	889,894.35	118,332	7.52
1942...	137,644.31	438,316.34	190,848.24	37,176.23	65,730.68	26,868.82	896,584.62	115,790	7.74
1943...	134,910.18	324,093.49	1192,561.19	37,152.29	69,525.75	27,147.65	785,390.55	88,890	8.84

Includes \$15,040.94 for tungsten recovery.

The above table shows a marked reduction in total mining cost, partly explained by decrease in ore mined and partly by the amount of development ore sent to the mill, and little change in other costs, but due to the reduction in ore milled the cost per ton milled increased by \$1.10 as compared with 1942.

Tungsten

The small mill erected for the treatment of scheelite concentrates hand-picked from the mine ore operated between January 4 and October 31, 1943, and treated 1,353 tons of hand-picked ore, including 64 tons from Leitch Gold Mines.

This operation was discontinued as, owing to efforts on the part of the Allied Governments all over the world, an over-production of tungsten resulted.

General

In July, with the approval of the War Labour Board, holidays with pay were granted to all employees.

An average force of 219 men was employed, of whom 141 were in the mine and 40 in the mill. W. Samuel is general manager, and A. E. Cave is mine manager.

Macassa Mines, Limited

Macassa Mines, Limited, was incorporated in April, 1926, with an authorized capitalization of 3,000,000 shares of \$1 par value, of which 2,678,000 have been issued. The officers and directors are: Robert A. Bryce, president; Thos. Riggs, vice-president; L. Soliague, secretary-treasurer; H. M. Porteous, J. D. Perrin, A. G. Slaght, C. R. Leonard, and J. W. Flanagan, directors. The head office is at 85 Richmond Street West, Toronto. The mine address is Kirkland Lake.

The property consists of 11 claims, approximately 374 acres, in Teck township, Kirkland Lake area, district of Timiskaming.

The following table shows the various shafts on the property, their location, number of compartments, and depth:—

	Claim No.	No. of compartments	Depth from surface
Elliott shaft ¹	L. 1,617.....	2	feet 523
Main No. 1 shaft.....	L. 2,837.....	3	3,043
No. 1 winze ² (below the 3,000-foot level).....		3	4,316
No. 2 shaft ³	L. 4,186.....	3	4,070

¹No work has been done for several years in the Elliott shaft area.

²About 360 feet southeast of No. 1 shaft.

³About 1,000 feet southwest of No. 1 shaft.

The following table shows the development accomplished in the workings from Nos. 1 and 2 shafts during 1943 and the total:—

Level ¹	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total

4,250-foot.....	1,908	1,924	119	803	15	15

¹At the levels above 1,300 feet, stations only have been cut.

²Connected with Kirkland Lake Gold mine workings.

³Includes 273 feet of drifting in Casakirk property.

⁴Includes 721 feet of crosscutting in Casakirk property; the 1,173-foot crosscut driven in Macassa ground to reach the Casakirk boundary; and 2,003 feet of crosscutting done in Macassa ground to reach the Amalgamated Kirkland boundary.

Diamond-drilling during the year consisted of 79 holes, totalling 10,590 feet, all from underground.

The following is taken from the mine manager's report for the year ending December 31, 1943:—

Production

During the twelve months under review, 103,259 dry tons of ore was hoisted and milled. From this, a net recovered value of \$1,657,950.35, or \$16.05 per ton, was obtained, as compared with 120,400 tons having a recovered value of \$2,144,500.78, or \$17.81 per ton, during the previous year. Since milling commenced in October, 1933, the value recovered has reached a total of \$18,088,904.89, or \$16.74 per ton, from 1,080,247 tons milled.

The drop in production was due solely to a gradual drop in the number of underground men during the year, mainly to the Armed Services, and our being unable to replace them in equal numbers. Particular attention was paid to maintaining a rate of development comparable with the rate of mining, so that ore reserves were maintained at about the same figure as at the beginning of the year. Of the 103,259 tons milled, 95,750 tons came from stopes and 7,509 tons from development headings.

Exploration and Development

A total of 1,030 feet of new ore was drifted on during the year, having an average grade of 0.42 ounces over an average width of 6.6 feet. Of this length, 250 feet was on the bottom or 4,250-foot level, which averages 0.39 ounces over an average width of 8.8 feet, and the remainder is made up of various lengths of new ore developed on levels at 2,475, 3,000, 3,225, 3,350, 3,875, and 4,000 feet.

This year it is planned to continue developing indicated branch veins throughout the mine down to the present bottom or 4,250-foot level, and particularly a promising zone between the 2,000- and 2,475-foot levels.

Equipment for deepening the main winze below the 4,250-foot level is installed, and this work will be proceeded with when conditions permit.

Ore Reserves

While conditions prevented as much exploration and development as was desirable, an effort to keep the mining and development rates in balance was successful in that positive ore reserves were down only slightly below what they were at the end of 1942. The following is an estimate of positive ore having an average grade of 0.451 ounces per ton:—

	Tons	Ounces per ton	Value per ton at \$38.50
Unbroken ore.....	447,600	0.459	\$17.67
Broken ore.....	44,706	.375	14.44
Total.....	492,306	0.451	\$17.36

Of this reserve, 46 per cent. is in bodies along the main break and 54 per cent. in branch or subsidiary hanging-wall veins.

Milling

During the year an average daily tonnage of 282.9 tons was milled per day, as compared with 328.9 tons in 1942 and 390 tons in 1941. The average extraction throughout the year was 95.6 per cent.

Operating Costs

The total operating costs per ton milled before provision for taxes and depreciation are as follows, with figures of 1942 and 1941 for comparison:—

	1943	1942	1941
Development and exploration.....	\$0.93	\$0.87	\$1.51
Mining (stopping, tramming, pumping, etc.).....	3.84	3.64	3.21
Milling.....	1.33	1.25	1.17
Administration and general charges (including head office, Mint charges, and bullion handling charges).....	1.19	1.17	.92
Total.....	\$7.29	\$6.93	\$6.81

A comparison of the main items of expenditures during the year with the years 1942 and 1941 is as follows:—

	1943	1942	1941
Wages.....	\$435,996.39	\$471,245.23	\$550,358.99
Supplies used.....	162,338.25	207,144.08	252,235.38
Power.....	73,812.06	76,774.65	87,897.30
Provision for taxes.....	242,029.44	358,708.21	463,469.77

Mines Wartime Machine Shop Work

No additional expenditure for equipment or construction was made in this department beyond that which was referred to in last year's report. The Wartime Machine Shop operated continuously throughout the year, employing a master mechanic and 10 assistants on primary and subcontract work for certain divisions of the Department of Munitions and Supply. During the year, work to the equivalent of 27,500 man-hours was completed, and the gross value of the

work performed by the shop since the commencement of operations approximates \$230,000. The shop has operated on a very efficient basis, and the standard of the work turned out has been of a high quality.

An average force of 203 men was employed during the year, of whom 121 were in the mine and 15 in the mill. G. A. Howes is mine manager.

McIntyre Porcupine Mines, Limited

McIntyre Porcupine Mines, Limited, incorporated in March, 1911, has an authorized capitalization of 800,000 shares of \$5 par value, of which 798,000 have been issued. The officers and directors are: J. P. Bickell, president; Bernard E. Smith, vice-president; Balmer Neilly, executive vice-president; R. J. Ennis, vice-president and general manager; E. D. Fox, secretary; D. H. McDougall, and R. S. McLaughlin, directors. The executive office is at 15 King Street West, Toronto. The head office and mine office are at Schumacher.

The company has numerous holdings in Canada, chief of which is the McIntyre mine in Tisdale township, Porcupine area, district of Cochrane.

Operations at the main property continued throughout 1943. An average force of 1,051 men was employed, of whom 698 were in the mine and 73 in the mill.

The following is taken from the report of the general manager for the fiscal year ending March 31, 1944:—

Production	
Ore treated..... tons 654,930
Value per ton (0.302 ounces).....	\$11.607
Gross value.....	\$7,601,880.07
Bullion recovered:	
Gold (189,233.510 ounces at \$38.50)....	\$7,285,257.42
Silver (51,668.80 ounces at \$0.3977)....	20,547.33
Total value.....	\$7,305,804.75
Recovered per ton (0.289 ounces).....	\$11.16
Bullion melting, refining, and handling charges.....	81,178.92

General

Throughout the year there was a continuing and gradual decline in the number of men employed, and, as a consequence, tonnage treated dropped 12 per cent. and at the end of the year the mill was operating at 75 per cent. of normal capacity.

With less man-power available, exploration and development work was necessarily restricted to the more favourable ground contiguous to productive areas. The lenticular ore bodies within the company's property are widely distributed and, if ore reserves are to be maintained, a systematic plan of exploration on a broad scale must be constantly pursued. This type of work has been greatly curtailed during the past two years.

McKenzie Red Lake Gold Mines, Limited

McKenzie Red Lake Gold Mines, Limited, was incorporated in February, 1933, with an authorized capitalization of 3,000,000 shares of \$1 par value, of which 2,935,000 have been issued. The officers and directors are: W. G. Armstrong, president; F. D. Reid, vice-president; H. M. Anderson, secretary-treasurer; A. B. Stodart and A. H. Seguin, directors. The head office is at 19 Richmond Street West, Toronto. The mine address is McKenzie Island.

The property consists of 12 claims, approximately 475 acres, at the north end of Mackenzie island, Dome township, Patricia portion of Kenora district.

Mining and milling operations continued throughout 1943. The mine is being developed from a vertical, 3-compartment shaft, 456 feet deep, on claim K.R.L. 87 and a 3-compartment winze, which is collared at the 250-foot level about 250 feet southwest of the shaft and runs at an angle of 36 degrees to a vertical depth of 1,275 feet from surface. The vertical shaft is known as No. 1 and the winze as No. 2 shaft. The following table shows the development work done during 1943 and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
150-foot.....		1,828		384		475
250-foot.....		3,689		1,184		1,285
350-foot.....		3,336		616		1,735
450-foot.....		6,669		1,040		1,968
550-foot.....		4,937		899		1,380
650-foot.....	155	5,506		1,004		1,520
750-foot.....	124	3,902		747		477
850-foot.....	662	8,831	30	1,432	30	1,379
950-foot.....		2,709		795		209
1,050-foot.....	840	5,954		1,697		427
1,150-foot.....				186		
1,250-foot.....	576	4,660		1,185		9

Diamond-drilling consisted of 118 holes, totalling 22,558 feet, from underground.

A 60 h.p. electric boiler, made by the Canadian General Electric Company, was installed to provide heat for domestic purposes. A 5- by 13-foot tunnel was constructed between the electric boiler-house and the compressor house. A new steel shop was built.

The following is taken from the resident manager's report for the year ending December 31, 1943:—

The following comparisons in operating statistics with those of the previous year, may be noted: (a) tonnage milled, 85,973 as against 85,547 tons; (b) average value per ton milled, 0.292 ounces (\$11.24 at \$38.50) compared with 0.324 ounces (\$12.47 at \$38.50); (c) value of gold bullion recovered, \$952,246.90 against \$1,039,209.64.

While operating costs were a little lower than in the previous year, \$6.20 per ton as against \$6.58, it should again be noted that due to the shortage of labour, this has been at the expense of development and exploration, amounting to only \$0.58 per ton milled. This item for 1942 was \$0.99; for 1941, \$1.49; and for 1940, \$1.91.

Salaries and expenses, stock registration, transfer fees, etc.....	\$20,709.81	\$0.20	\$0.24
Total.....	\$533,211.46	\$5.15	\$6.20

General Development

Shortage of labour throughout the year again seriously restricted all types of development. Drifting this year amounted to a total of 2,357 feet, which included 576 feet of work on the 1,250-foot level, the latter following no structure but advancing toward the northeast section. The remaining footage, amounting to 1,781 feet, was made up of drifting on structures mainly in the northeast on the 850- and 1,050-foot levels and resulted in the development of 981 feet of new ore in this section. In the older portion of the mine, 120 feet of new ore was indicated in drifting on the 750-foot level, making a total of 1,101 feet of new ore for the year.

Approximately half of the tonnage milled during the year originated in the northeast zone, and the grade of this equalled that of the ore being mined in the older portions of the mine.

Ore Reserves

Although the new ore footage did not entirely meet the mine requirements and was lower, due to the greatly reduced amount of development completed, than in any of the preceding three years, yet the total for the past four years has been such that our ore position during the war years has been more than maintained.

Conclusion

The daily tonnage milled and sorted during the year averaged 284 tons, and tonnage milled 236 tons. Due to war-time difficulties, maintenance of this tonnage has been extremely difficult and was possible at times only by mining ore that was readily accessible.

An average force of 131 men was employed, of whom 78 were in the mine and 13 in the mill. J. L. Ramsell is resident manager.

MacLeod-Cockshutt Gold Mines, Limited

MacLeod-Cockshutt Gold Mines, Limited, which was incorporated in September, 1933, has an authorized capitalization of 3,000,000 shares of \$1 par value, of which 2,862,490 have been issued. The officers and directors are: F. G. MacLeod, president; Arthur Cockshutt, vice-president; J. M. Macintosh, secretary-treasurer; D. M. Hogarth, W. H. Marsh, Arthur Notman, and A. L. Cochrane, directors. The head office is at 357 Bay Street, Toronto. The mine address is Geraldton.

The property consists of 23 claims, 1,163 acres, about 3 miles from Geraldton on the Port Arthur-Longlac branch of the Canadian National Railways, Ashmore and Errington townships, Little Long Lac area, district of Thunder Bay.

Mining and milling operations continued throughout 1943. The property is being developed from two vertical shafts. The 3-compartment No. 1 shaft is on claim T.B. 10,040, and the 4-compartment No. 2 or main haulage shaft, 1,440 feet deep, is on claim T.B. 10,038 about 1,500 feet southeast of No. 1 shaft. No. 1 shaft was deepened in 1943 from 1,135 to 1,755 feet, and four new levels were cut at 1,271, 1,421, 1,570, and 1,721 feet. The shafts are connected on the 500- and 1,100-foot levels. The ore from the new levels will be hoisted in cars to the 1,100-foot level and carried to No. 2 shaft to be hoisted to surface. The following table shows the development work done in 1943 and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
1st.....		5,652		1,904		1,563
2nd.....	215	6,336		2,134		1,720

8th.....		13	18	149		562
9th.....			11	37		
10th.....			13	13		
11th.....			13	13		

Diamond-drilling consisted of 159 holes, totalling 18,308 feet, from surface.

New buildings erected during the year included a combined hoist- and power-house and a switch-house at No. 1 shaft and a mill warehouse. The old headframe at No. 1 shaft was removed and replaced by a steel headframe bought from Cline Lake Gold Mines. A second-hand 4-foot, short-head Symons cone crusher was installed in the crusher-house, and a new 36-inch filter press was added to the mill equipment.

The following is taken from the general manager's report for the twelve months ending September 30, 1943:—

General

Labour shortage in the past year has been our major problem. The underground force gradually decreased due to enlistments and men leaving for other industries. Replacements for underground labour were practically non-existent. The decrease in shifts worked underground was 21.2 per cent. for the year, while the last month shows a decrease of 50.8 per cent. compared with the previous year's average.

The first quarter of the fiscal year was an all-time high in production. The production, however, decreased each quarter. During the first quarter, our development work was at the usual rate, but as labour decreased our development was greatly restricted. This curtailment in development has been so serious that no new ore has been developed.

Mining

Ore mined, hoisted, and conveyed to the crusher plant amounted to 320,512 tons with an average value of \$8.62 per ton. After hand-sorting and magnetic separation of waste rock, amounting to 112,294 tons, ore sent to the mill was 208,218 tons with an average value of \$12.69 per ton, an increase of \$4.07 per ton. This ore produced \$2,352,839.94. The sources from which the ore was obtained are listed below:—

SUMMARY OF ORE DELIVERED TO ORE-PASS SYSTEM
OCTOBER, 1942, TO SEPTEMBER, 1943

	Ore hoisted	Tonnage	Average recovery		Total ounces
			Ounces	Value	
	tons	per cent.

Milling

The mill operated 96.3 per cent. of the running time. The daily average tonnage was 570.7 tons, which yielded an average daily tonnage of 130.5 tons of concentrates to be roasted.

Recovery of the tailings (impounded before roaster operations commenced) was started August 16, and a total of 1,980 tons were treated in August and September.

Development and Ore Reserves

A summary of the ore reserves which can be classed as proved ore with location and average value is listed below, and for comparison there is added a summary of the total ore mined from these same locations from the time the mill started operating to the present.

SUMMARY OF ORE RESERVES AND ORE MINED

	Ore reserves			Ore mined		
	Tons	Ounces per ton	Total ounces	Tons	Ounces per ton	Total ounces
North zone	359,699	0.213	76,544.44	1,197,807	0.230	275,835.73
West zone	342,553	.249	85,181.09	197,633	.223	44,009.71
South zone	73,778	.220	16,231.16	245,569	.225	55,280.05
Total	776,030	0.229	177,966.69	1,641,009	0.229	375,125.49

An average force of 308 men was employed, of whom 155 were in the mine and 24 in the mill. J. M. Kilpatrick is general manager.

McMarmac Red Lake Gold Mines, Limited

McMarmac Red Lake Gold Mines, Limited, was incorporated in July, 1939, with an authorized capitalization of 3,000,000 shares of \$1 par value, of which 2,050,005 have been issued. Development work on the property was financed by a loan of \$195,000 from McKenzie Red Lake Gold Mines, Limited, which was repaid at the beginning of 1942. Operations are carried on under the control of McKenzie Red Lake. The officers and directors are: W. G. Armstrong, president; A. C. McLean, vice-president; H. M. Anderson, secretary-treasurer; J. E. Boyle and A. Kelso Roberts, directors. The head office is at 19 Richmond Street West, Toronto. The mine address is McKenzie Island.

The company acquired 5 claims from Margaret Red Lake Mines, Limited, and one claim and a fraction from Richmac Gold Mines (1936), Limited, approximately 243 acres in all. The property is in Dome township, Red Lake area, Patricia portion of the district of Kenora.

There are two vertical, 3-compartment shafts on the property. No. 2 shaft, on claim K.R.L. 1,023, through which the present operations are conducted, is 777 feet deep, with levels at intervals of 150 feet. No. 1 shaft, also known as the Margaret, on claim K.R.L. 1,022 about 925 feet southwest of No. 2 shaft, is 300 feet deep. The former operators did 50 feet of drifting on the 80-foot level and 300 feet of drifting and crosscutting on the 175-foot level. The present company has done no lateral work from this shaft.

Operations in the No. 2 shaft area continued throughout 1943. The following table shows the development work done in 1943 and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
150-foot	233	2,150	282	291	638
300-foot	2,518	248	206	498
450-foot	870	423	406
600-foot	912	458	451
750-foot	1,147	984

Diamond-drilling consisted of 15 holes, totalling 2,945 feet, from surface and 98 holes, totalling 6,715 feet, from underground. About 126 feet of surface-trenching 4 feet deep was cut.

There were 32,073 tons of ore mined and milled. The mill operated at an average daily rate of 87.8 tons. The concentrates were sent to Tacoma, Wash., for further treatment.

An average force of 49 men was employed, of whom 24 were in the mine and 8 in the mill. J. L. Ramsell is resident manager.

Madsen Red Lake Gold Mines, Limited

Madsen Red Lake Gold Mines, Limited, was incorporated in March, 1935, with an authorized capitalization of 5,000,000 shares of \$1 par value. On June 6, 1940, the capitalization was reduced to \$3,500,000 by the cancellation of 1,500,000 unissued shares. The number of shares issued at the end of 1943 was 3,499,528. The officers and directors are: Jos. McDonough, president; F. R. Marshall, vice-president; M. Masterson, secretary-treasurer; Wm. R. Askwith, managing director; Marius Madsen, D. M. Hogarth, Hugh Mackay, and F. M. Connell, directors. The head office is at 67 Yonge Street, Toronto. The mine address is Madsen.

The property consists of 46 claims, 2,179 acres, in Baird and Heyson townships, Red Lake area, Patricia portion of Kenora district. It is about 7½ miles southwest of the Howey mine and may be reached by road from Red Lake.

No development has been done since September, 1936, on the original workings from No. 1 shaft on claim K.R.L. 11,505. A table showing the amount of work done from this shaft appears on page 168 of the annual report of the Ontario Department of Mines for 1938, Volume XLVII, part 1.

Operations in the No. 2 shaft area continued throughout 1943. The 3-compartment, vertical shaft on claim K.R.L. 12,528 is 1,311 feet deep. The following table shows the development work done during 1943 and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
200-foot.....		1,908		271		769
350-foot.....		5,460		730		2,885
500-foot.....		2,068		226	228	1,256
650-foot.....	94	3,175		302	313	1,632
800-foot.....	268	2,085		407	181	1,182
950-foot.....	430	1,572		416	167	1,126
1,100-foot.....	352	1,790	85	685	196	1,090
1,250-foot.....				46		

Diamond-drilling consisted of 8 holes, totalling 3,804 feet, from surface and 135 holes, totalling 15,603 feet, from underground.

A new boiler-house was built, and a 2,000 k.w., 2,300-volt Kaelin electric boiler was installed for heating purposes. A new mill-tailings disposal line about 550 feet long was constructed.

The following is taken from the report of the manager for the twelve months ending February 29, 1944:—

Production

The tonnage of ore and waste hoisted during the year was 151,729 tons. Of this total tonnage, 7,550 tons were waste. The remaining 144,179 tons, being ore, were milled to yield

33,732.769 fine ounces of gold and 7,398.980 fine ounces of silver. The total value of this bullion was \$1,301,568.67. This was a recovery of \$9.03 per ton milled.

ANALYSIS OF OPERATING COSTS

	Total cost	Cost per ton milled
Development and exploration.....	\$63,465.65	\$0.442
Stope preparation.....	77,341.09	.536
Stoping.....	74,532.84	.517
Mucking, tramming, and hoisting.....	122,539.40	.850
Crushing and conveying.....	34,511.94	.239
Milling.....	109,886.42	.762
Mine general expense, net.....	99,500.99	.690
Head office expense.....	24,293.42	.168
Marketing charges.....	16,591.38	.115
Total operating costs.....	\$622,663.13	\$4.319

Mining

Sublevel drifting to the west of the 2-15 stope was completed and a raise driven up from the 2nd level drift to above the first sublevel. Work in this area was discontinued due to the shortage of man-power. Backfilling of the 2-B stope with waste rock from the mine was continued.

Part of the pillar between 3-2 and 2-A stopes and all of the pillar between 3-10 and 2-D stopes was removed. The mining of these pillars does not mean that we have lost access to the eastern part of the mine on the 2nd level, as the ore bodies were in the hanging wall from the main haulage drift.

The 3-5 stope was completed and practically drawn empty. The 4-12 and 4-14 ore bodies were opened up for mining by raises and sublevel drift.

The lower section of the 5-8 ore body was very successfully mined by diamond-drill blast-holes. Preparations are being made to mine the upper section by similar methods. The ore body disclosed to the east of the 5-10 stope and part of the 5-14 ore body were both prepared for mining.

A grizzly system is being established in the 6-8 ore body at the 6th level in preparation for mining the ore above this level.

The 7-2 stope was carried up approximately 25 feet. The western part of the 7-8 ore body was stoped up to within 20 feet of the 6th level, and the Eastern part of this ore body is currently being prepared for mining by a system of grizzlies established just above the 7th level. The 710 stope was silled out and mining operations started.

Ore Reserve

The tonnage of new ore developed was not sufficient to replace the 144,179 tons milled and the ore reserve was reduced by 81,205 tons. This reduction of the reserve was caused primarily by our inability to obtain men to carry out a normal development programme.

The calculated ore reserve at the end of the year is as follows:—

	At Feb. 28, 1943	At Feb. 29, 1944
	tons	tons
Block between 2nd level and surface.....	23,760	19,510
Block between 3rd level and 2nd level.....	40,710	37,000
Block between 4th level and 3rd level.....	31,180	27,900
Block between 5th level and 4th level.....	100,920	64,590
Block between 6th level and 5th level.....	283,140	280,000
Block between 7th level and 6th level.....	273,930	218,370
Broken reserve.....	53,630	78,695
Total reserve.....	807,270	726,065
	ounces	ounces
Grade of reserve.....	0.201	0.201

In calculating the grade and tonnage of the reserve, allowance has been made for 20 per cent. dilution. No allowance has been made for any ore below the 7th level.

Milling

The mill was operated at full capacity throughout the year. The details of the mill operation are shown in the following summary. Also shown, for purposes of comparison, are the details of the operation for the years ending February 28, 1942 and 1943.

	Year ending Feb. 28, 1942	Year ending Feb. 28, 1943	Year ending Feb. 29, 1944
Dry tons treated.....	145,534	146,346	144,179
Per cent. operating time.....	98.28	96.62	96.01
Tons treated per mill day.....	400.9	403.2	396.1
Average gold assay of heads..... ounces	0.2299	0.2860	0.2507
Average gold assay of tails..... ounces	0.0171	0.0182	0.0167
Recovery..... per cent.	92.6	93.6	93.3

General

Operating costs were reduced by \$0.622 per ton milled. This reduction of costs was caused by the decreased amount of development and stope preparation work completed.

An average force of 151 persons was employed. Of these, 72 were in the mine and 19 in the mill. E. G. Crayston is resident manager.

Magnet Consolidated Mines, Limited

Magnet Consolidated Mines (1936), Limited, was incorporated in April, 1936. At the end of 1940 the name was changed to Magnet Consolidated Mines, Limited. The authorized capitalization is 3,000,000 shares of \$1 par value, of which 2,999,995 had been issued at the end of 1943. The company is controlled by the Northern Empire Mines Company, Limited, which is a subsidiary of the Newmont Mining Corporation of New York. The officers and directors are: A. W. Burt, president; Fred Searls, Jr., vice-president; H. E. Dodge, secretary-treasurer; Carroll Searls, assistant secretary; Gus Mrkvicka, assistant treasurer; T. M. Mungovan and G. Scott, directors. The head office is at Empire; and the mine address, when operations are in progress, is Geraldton.

The company owns 46 claims, 1,840 acres, formerly the property of Wells Longlac Mines, Limited, and Magnet Lake Gold Mines, Limited, in Errington township, Little Long Lac area, district of Thunder Bay. The property adjoins that of Bankfield Consolidated Mines, Limited, about 2 miles southwest of Bankfield station on the Port Arthur-Longlac branch of the Canadian National Railways. It can be reached from Geraldton by a 4-mile automobile road.

Mining and milling continued from January 1 until October 28, 1943, when operations were suspended and the workings were allowed to fill.

The mine has been developed from a 3-compartment, vertical shaft, 1,772 feet deep, on claim T.B. 10,398. The following table shows the development work done during 1943 and the total amount when operations ceased:—

Level and depth from surface	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
1st (203 feet).....		970		208		195
2nd (332 feet).....		3,241		2,869	95	505
3rd (480 feet).....		1,177		149		267
4th (630 feet).....		1,435		110		199
5th (780 feet).....	139	1,957		109	110	578
6th (930 feet).....	55	1,844		102		303
7th (1,080 feet).....		2,592		534	25	348
8th (1,230 feet).....	113	2,037		54	484	434
9th (1,380 feet).....	130	2,476	64	173	50	538
10th (1,555 feet).....				60		
11th (1,730 feet).....	1,429	3,745		168	496	496

Diamond-drilling in 1943 consisted of 39 holes, totalling 6,103 feet, from underground.

A total of 43,834 tons of ore was mined in 1943. The mill treated 43,060 tons.

The following is taken from the president's report for the year ending December 31, 1943:—

During the calendar year 1943 operating conditions at the property became progressively more difficult. It was apparent that under existing conditions continued operation would exhaust the remaining reserves without producing any substantial profit that could be distributed to the shareholders.

The Magnet vein, from which substantially all of the ore above the 1,380-foot level has been won, has failed on the 1,730-foot level, where it is entirely non-commercial. The vein on which stopes have been started from the bottom or 1,730-foot level lies some 90 feet north of the Magnet vein. The marginal ore developed in this vein appears to have its top below the 1,380-foot level, which is near the bottom of the ore on the Magnet vein.

Ores milled during the year 1943 amounted to 43,060 tons with an average grade of approximately 0.34 ounces, compared with 50,613 tons at 0.444 ounces in 1942. It has been estimated that there remain developed approximately 32,000 tons of assured ore having a grade similar to that mined during 1943. The mine warrants additional development under conditions that permit mining this lower vein at a profit.

An average force of 121 men was employed, of whom 71 were in the mine, 9 in the mill, and 40 on general surface work. W. S. Hargraft was manager.

Matachewan Consolidated Mines, Limited

Matachewan Consolidated Mines, Limited, was incorporated in July, 1933. The authorized capitalization is 4,000,000 shares of no par value, of which 3,430,000 have been issued. On incorporation the company acquired the property of Matachewan Canadian Gold, Limited. The officers and directors are: Thayer Lindsley, president; H. H. Sutherland, vice-president; H. Whittingham, secretary-treasurer; George McKeown and E. V. Neelands, directors. The head office is at 25 King Street West, Toronto. The mine address is Matachewan.

The property consists of approximately 886 acres in Powell and Cairo townships, Matachewan area, district of Timiskaming.

The original development, by former operators, was done from a shaft known as No. 1, which is about 170 feet deep with a level at 160 feet. There is also a shallow shaft, about 37 feet deep, called No. 2. Neither of these is used in the present operations, which are conducted through No. 3 vertical, 3-compartment shaft on claim M.R. 5,380.

Mining and milling continued through 1943. No. 3 shaft was sunk a further 273 feet to a depth of 1,640 feet, and the cutting of an 11th level was begun at a depth of 1,550 feet. The following table shows the development work done during 1943 and the total:—

Level and depth from surface	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
1st (167 feet).....		4,667		2,035		1,323
2nd (267 feet).....		5,404	41	1,610		2,642
3rd (367 feet).....		2,675		617		837
4th (500 feet).....		4,035	91	1,748		2,573
5th (650 feet).....		1,971		376		942
6th (783 feet).....		2,408		176	57	949
7th (916 feet).....		5				233
8th (1,050 feet).....		4,091	6	981	418	2,515
9th (1,200 feet) (ore pocket).....						212
10th (1,300 feet).....	2,006	2,616	70	70	63	63
11th (1,550 feet) (station partly cut).....						

The following is taken from the manager's report for the twelve months ending December 31, 1943:—

General

The acute shortage of labour affected operations and made operating conditions most difficult. This condition was more serious in the underground working force than in other departments. As a result, necessary development work had to be further curtailed and broken ore reserves drawn upon to supply the reduced daily tonnage milled.

Mine Development

Stope development work was carried on in the west boundary porphyry area to open up one new stope on the 6th level and two new stopes on the 10th level.

A ventilation raise from the 8th to the 6th levels was completed. This raise supplies fresh air to the lower part of the mine and also provides an auxiliary escapeway.

Diamond-drilling

The footage drilled for exploration during the year was 6,395 feet. This drilling was all done from the 10th level in the west boundary porphyry area. The greater part of this drilling was done below the level exploring the downward extension of the porphyry ore body. A small amount of drilling was done to outline the porphyry ore body between the 8th and 10th levels.

In addition to the above exploration drilling, 51,375 feet of blast-hole drilling was done on various parts of the mine as follows:—

	Feet
8th level stopes.....	21,271
8th level pillars.....	20,119
2nd level pillars.....	9,985

The diamond-drill blast-hole method of mining was advantageous in that it enabled broken ore reserves to be maintained at a satisfactorily high level, which would not have been possible otherwise under present conditions.

Ore Reserves

The estimated probable ore reserves, including broken ore, have been figured from surface to the 1,300-foot elevation, the 10th level. The same dilution factors have been used as last year; liberal discounts have been allowed for both tonnage and grade on ore yet to be mined.

Probable ore reserves as at December 31, 1943, including broken ore, are as follows:—

	Tons
Ore reserves December 31, 1942.....	1,237,858
Added during 1943.....	162,521
Total.....	1,400,379
Less hoisted in 1943.....	250,179
Reserves as at December 31, 1943 (average estimated grade, 0.108 ounces per ton).....	1,150,200

In addition to the above, diamond-drilling in the west boundary porphyry area, between the 1,300-foot and 1,550-foot levels, indicates a possible 383,000 tons of 0.114 ounces porphyry ore.

Diamond-drill holes below the 1,550-foot elevation indicate a downward extension of the porphyry ore body, but our present information on this possible ore is too limited to estimate tonnages or grade.

Mining

A summary of mining operations for the year 1943 is given below:—

ORE BROKEN

	Tons
Broken during 1943.....	222,177
Less hoisted during 1943.....	250,179
Ore drawn from broken reserve.....	28,002
Carried forward from 1942 (adjusted).....	319,443
Broken ore reserves, December 31, 1943 (estimated grade, 0.093 ounces per ton).....	291,441

ORE HOISTED

	Tons
From stopes.....	243,047
From development.....	7,132
Total.....	250,179

Of the ore hoisted, 90.4 per cent. came from the west boundary porphyry zone and 9.6 per cent. from the greenstone zone.

The proportion hoisted from each level was:—

	Per cent.
2nd.....	44.9
4th.....	9.2
5th.....	.2
6th.....	1.9
8th.....	41.5
10th.....	2.3
	100

Four 8th level stopes and two pillars were mined to completion during the year.

Milling

The mill performance for the year was as follows:—

Tons milled.....	249,779
Average daily milling rate..... tons	684
Average value of heads..... ounces per ton	0.0836
Average value of tails..... ounces per ton	0.0087
Average recovery..... ounces per ton	0.0749

Mill operation was very satisfactory. A 90 per cent. recovery was maintained in spite of intermittent operations and lower mill heads.

Production

The metal recovery for 1943 was: gold, 18,713.492 ounces; silver, 8,264.26 ounces.

STATEMENT OF PRODUCTION, BY YEAR, SINCE COMMENCEMENT OF OPERATIONS

Year	Tons milled	Net value metals recovered	Value per ton	Operating costs	Cost per ton	Operating profit	Profit per ton	Price gold per ounce
1935...	48,362	\$351,769.40	\$7.27	\$272,942.24	\$5.64	\$78,827.16	\$1.63	\$35.17
1936...	54,764	419,178.19	7.65	359,383.13	6.56	59,795.06	1.09	35.04
1937...	132,764	698,976.61	5.26	594,969.29	4.49	104,007.32	.77	34.98
1938...	154,409	820,823.00	5.31	639,672.64	4.14	181,150.36	1.17	35.19
1939	155,238	855,310.76	5.51	600,204.73	3.87	255,106.03	1.64	36.32
1940...	182,033	817,916.52	4.49	642,135.16	3.53	175,781.36	.96	38.50
1941...	196,962	879,187.86	4.46	709,249.55	3.60	169,938.31	.86	38.50
1942...	315,040	962,620.23	3.06	764,369.80	2.43	198,250.43	.63	38.50
1943...	249,779	714,763.40	2.86	593,776.16	2.38	120,987.24	.48	38.50

An average force of 141 men was employed, of whom 63 were in the mine and 19 in the mill. H. S. McGowan is manager.

Moneta Porcupine Mines, Limited

Moneta Porcupine Mines, Limited, which was incorporated in October, 1910, has an authorized capitalization of 3,000,000 shares of \$1 par value, of which 2,543,860 have been issued. The officers and directors are: W. E. Segsworth, president; C. C. Calvin, vice-president; H. B. Clearihue, secretary-treasurer; R. J. Jowsey, J. D. Conover, and A. M. Reaper, directors. The head office is at 67 Yonge Street, Toronto. The mine address when operations were in progress was Timmins.

The company owns 8 claims, 320 acres, situated west of and adjacent to the Hollinger mine in the township of Tisdale, Porcupine area, district of Cochrane. The mine workings are on the northeast quarter of the south half of lot 12, concession II. The company also has a substantial interest in Dominion Magnesium, Limited, and has joined with Leitch Gold Mines, Limited, in the formation of Leta Explorations, Limited, for the purpose of searching for new properties.

The Tisdale township property has been developed from a vertical, 3-compartment shaft, 1,455 feet deep. The mining of all the known ore was completed

early in June, 1943. Hoisting and milling operations continued till June 27. All the ore hoisted in 1943, amounting to 14,101 tons, came from stoping operations. The following table shows the development work done in 1943 and the total when the mine closed:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
150-foot.....		1,422		301		336
295-foot.....		970		398		145
400-foot.....		2,764		840		147
525-foot.....	51	2,097		315		220
675-foot.....		1,495		204		322
825-foot.....		820		150		92
975-foot.....		3,068		291		295
1,425-foot.....	6	3,333		247	20	20
1,125-foot (station only).....						
1,275-foot (station only).....						

Diamond-drilling in 1943 consisted of 2 holes, totalling 160 feet, from surface and 4 holes, totalling 4,053 feet, from underground.

The mill treated 14,088 tons of ore.

Following the cessation of operations, the mill circuit was cleaned out and the underground workings were allowed to flood. The mining and milling plants are being maintained intact.

An average force of 90 men was employed from January to the end of June. Of these, 45 were in the mine and 9 in the mill. About 35 men were employed in the winding-up operations in July and August. Delbert Wilson was acting manager.

Naybob Gold Mines, Limited

Naybob Gold Mines, Limited, went into voluntary liquidation on December 31, 1942. E. G. Clarkson, 15 Wellington Street West, Toronto, was appointed receiver.

The company's property, formerly the Hayden mine, is situated 3½ miles south of Timmins and consists of 16 claims, which lie on both sides of the Deloro-Ogden township line, Porcupine area, district of Cochrane.

The mine continued to operate till January 24, 1943. No development work was done. A total of 3,543 tons of ore was hoisted. The mill operated till January 25 and treated 3,843 tons of ore.

The mine has been developed from a vertical, 3-compartment shaft, 1,347 feet deep, on claim H.R. 938 (T.R.S. 1,021). The following table shows the total amount of development work on the property when operations ceased:—

Level	Drifts	Crosscuts	Raises
	feet	feet	feet
100-foot.....	641	330
200-foot.....	1,269	369	292
300-foot.....	5,052	1,664	882
400-foot.....	3,638	1,494	768
550-foot.....	2,556	744	1,810
700-foot.....	6,622	2,589	2,899
825-foot.....	1,094	430	504
950-foot.....	323	320	37
1,075-foot.....	60	81
1,175-foot.....	13	240
1,275-foot.....	753	179	238

There is a loading-pocket at 1,330 feet in the shaft, but no connection with the level above.

L. E. Hansen was mine superintendent, employing a force of 53 men during the period of operation, of whom 28 were underground and 10 in the mill. During the cleaning-up period, which lasted till about March 15, there were 6 men employed on surface and 2 underground.

Omega Gold Mines, Limited

Omega Gold Mines, Limited, was incorporated in May, 1935, with an authorized capitalization of 5,000,000 shares of \$1 par value, all of which have been issued. The officers and directors at the end of 1943 were: J. P. Bickell, president; E. D. Fox, secretary-treasurer; Balmer Neilly, André Dorfman, E. M. Thomson, and Dr. A. F. Demary, directors. Early in 1944 Noranda Mines, Limited, and Anglo-Huronian, Limited, acquired control of the company, and the executive office was moved to 80 King Street West, Toronto. The head office and mine office are at Larder Lake.

The property consists of 26 claims, approximately 839 acres, in McVittie township, Larder Lake area, district of Timiskaming.

Mining and milling operations continued throughout 1943. The vertical, 3-compartment No. 1 main operating shaft, also known as the Crown, on claim L.S. 191 is 1,592 feet deep. The 2-compartment, vertical winze, known as No. 3 internal shaft, which is collared at the 1,550-foot level about 1,600 feet southeast of No. 1 shaft, was sunk a further 272 feet in 1943 to a depth of 2,000 feet from surface. New levels were established at 1,800 and 1,975 feet. The vertical, 3-compartment No. 2 or Goldfields shaft on claim L. 1,794 about 365 feet southwest of No. 1 shaft is 1,030 feet deep. The following table shows the development work done during 1942 and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
No. 1 SHAFT:						
170-foot	219	1,783		304		370

Diamond-drilling during 1943 consisted of 7 holes, totalling 1,470 feet, from surface and 109 holes, totalling 17,609 feet, from underground.

The following is taken from the manager's report for the twelve months ending March 31, 1944:—

Production	
Ore treated..... tons	109,396
Value per ton (0.158 ounces).....	\$6.103
Gross value.....	\$667,697.00
Bullion recovered:	
Gold (15,345.532 ounces at \$38.50).....	\$590,803.51
Silver (2,005.22 ounces).....	776.71
Total value.....	\$591,580.22
Recovered per ton (0.140 ounces).....	\$5.408
Bullion melting, refining, and handling charges.....	\$7,562.76
	\$584,017.46

PRODUCTION SINCE THE BEGINNING OF MILLING OPERATIONS IN 1936

Period	Months	Tons milled	Value per ton	Gross value	Recovery per ton	Total value
Feb. 1, 1936, to Mar. 31, 1936..	2	17,352	\$4.286	\$74,369.00	\$3.557	\$61,726.28

Mining

Further enlistments in the armed forces, some shifting of labour to other industries, and increased absenteeism resulted in a 28 per cent. drop in man-shifts underground. It was found necessary in the last quarter of the year to curtail development and restrict stoping operations to the bigger, more accessible stoping area. Some 3,500 feet of diamond-drilling was used in blast-hole stoping operations. The net result was a decrease in tonnage milled of 20 per cent. with a consequent rise in cost per ton.

The ore milled during the year was obtained from the following sources: development, 4,762 tons; stoping, 104,634 tons.

The grade of such ore milled was 0.158 ounces per ton, as compared with previous ore reserve estimate of 0.153 ounces per ton.

Development

Level development and some raising development was carried out, principally on the two new, lowest levels. Exploratory diamond-drilling was maintained, but at a lesser total than in the previous years.

Diamond-drilling and development opened up new ore on the 1,800-foot level on the No. 1 vein system. This ore is of considerably higher grade than the mine average, but the lenses are smaller and not as consistent as the No. 1 vein in the upper levels. Only a small amount of ore was opened on the 1,975-foot level.

Through level and stoping development, new ore was also added on the No. 1 vein on the 170-foot level, the No. 2 vein on the 1,425-foot level and 1,175-foot level, and the No. 4 vein on the 925-foot level.

The year's development as above replaced a considerable portion of the tonnage mined.

Ore Reserves

Ore reserve estimate of a year ago showed approximately 400,000 tons of grade 0.153 ounces per ton. Production for the year of 109,396 tons was at a slightly higher grade of 0.158, due to

the addition of new ore on the 1,800-foot level. Ore reserves estimate now shows approximately 388,000 tons at 0.148 ounces per ton. Stability and availability of labour together with other factors will determine what quantity of ore will eventually be mined. Present conditions make it necessary to do some selective mining.

Operating Costs

Total operating costs were down due to the smaller scale of operations. Development costs were also down, but the proportional cost of development remained about the same as the previous year. With a lower tonnage milled, there was a consequent rise in cost per ton. The operating costs were:—

	Total cost	Cost per ton milled
Development.....	\$78,048.55	\$0.713
Mining.....	311,528.32	2.848
	\$389,576.87	\$3.561
Milling.....	164,808.35	1.506
	\$554,385.22	\$5.067
Administration and municipal taxes.....	4,434.25	.041
Total.....	\$558,819.47	\$5.108

General

Modest operating profit resulted from the year's operations. The grade of ore milled was the same as the previous year. Some new ore was developed and some ore indicated by diamond-drilling. There is also some ore partially developed and requiring further development before being added to ore reserves.

An average force of 147 men was employed, of whom 90 were in the mine and 16 in the mill. A. D. Campbell was manager.

Pamour Porcupine Mines, Limited

Pamour Porcupine Mines, Limited, which was incorporated in March, 1934, has an authorized capitalization of 5,000,000 shares of no par value, all of which have been issued. The capitalization was increased from 3,500,000 shares in 1935. The officers and directors are: James Y. Murdoch, president; G. H. Rainville, vice-president; J. R. Bradfield, secretary; R. G. Rudolf, treasurer; Jules R. Timmins, Leo H. Timmins, M. Kendall, J. E. Perrault, and Oliver Hall, directors. The executive office of the company is at 1600 Royal Bank Building, Toronto. The head office and mine office are at Pamour.

The company's main property consists of 1,160 acres in concessions V and VI, Whitney township, Porcupine area, district of Cochrane, and includes the former La Palme Porcupine, Three Nations, and Porcupine Grande properties. Three claims at the south end of Three Nations lake in the same area are also held.

The No. 3 or main operating shaft on claim No. 13,783 is 2,132 feet deep and has five compartments. There is a connection with the Hallnor workings on the 400-foot level, which is used for ventilation purposes. There are two other shafts on the property, sunk by former operators. No. 1 shaft, 110 feet deep, on claim No. 13,793, is not connected with the other mine workings and is not used. No. 2 shaft, also on claim No. 13,793 about 1,100 feet west of No. 3 shaft, is 220 feet deep, with levels at 100 and 200 feet. It is connected to the No. 3 shaft workings on the 200-foot level and serves as an emergency exit.

The mine and mill continued to operate throughout 1943. The following table shows the development work done during 1943 and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
100-foot		1,018		713		140
200-foot		9,342		4,807		3,359
300-foot		32		116		
400-foot		18,729		3,163		10,910
500-foot		264		88		263
600-foot		10,950	14	1,354	80	8,793
700-foot		35				79
800-foot		6,991		1,140	258	2,493
900-foot		27				
1,000-foot		5,410		1,125		4,054
1,100-foot		72				56
1,200-foot	148	6,598	14	1,053	660	6,146
1,300-foot		28

1,600-foot		3,832		832		905
1,700-foot		213				276
1,800-foot		90		54		
1,900-foot		41				737
2,000-foot		1,538				73
2,100-foot		48				

Diamond-drilling consisted of 125 holes, totalling 22,415 feet, from underground.

A dust-collecting cyclone and exhaust fan, driven by a 7½ h.p. motor, was installed in the crushing-plant. A 40- by 165-foot skating-rink was constructed.

The practice of allowing a week's vacation with pay to employees who have been employed for a year or more was inaugurated in October.

In November the Pamour mine joined with a group of other mines in the area in the adoption of a plan to provide full medical care and hospitalization for employees and their families.

The following is taken from the manager's report for the twelve months ending December 31, 1943:—

Drifting east was done on the 1,200-foot level and east and west on the 1,400-foot level. Raising was done in stopes for stope access, and in pillars.

MINE PRODUCTION

Level	Tons	Ounces per ton
400-foot	21	0.1524
600-foot	281,306	.0975
800-foot	6,255	.1228
1,000-foot	91,592	.1469
1,200-foot	128,609	.1135
1,400-foot	11,336	.0972
Total	519,119	0.1105
Development	6,438	.0727
Total milled	525,557	0.1100

Waste hoisted amounted to 6,441 tons.

ORE RESERVES

	Tons	Ounces per ton
Broken ore.....	460,000	0.096
Drilled off.....	33,000	.135
Floor pillars.....	40,000	.144
Vertical pillars.....	35,000	.130
In place.....	1,040,000	.114
Total.....	1,608,000	0.110

Average daily tonnage for the year was 1,439.9 dry tons, making a total of 525,557 tons at 0.1100 ounces per ton and a recovery of 93.512 per cent.

Period	Tons milled	Mill head assay, ounces per ton	Gold recovered, ounces per ton	Recovery
1st quarter.....	135,855	0.1131	0.1057	per cent. 93.514
2nd quarter.....	135,108	.1119	.1045	93.343
3rd quarter.....	133,598	.1059	.0988	93.318
4th quarter.....	120,996	.1090	.1023	93.911
Total.....	525,557	0.1100	0.1029	93.512

An average force of 275 men was employed, of whom 150 were in the mine and 33 in the mill. C. E. Anderson is manager.

Paymaster Consolidated Mines, Limited

Paymaster Consolidated Mines, Limited, which was incorporated in February, 1930, has an authorized capitalization of 9,000,000 shares of \$1 par value, of which 8,629,090 have been issued. The officers and directors are: E. H. Walker, president and managing director; A. S. Fuller, vice-president; E. L. O'Reilly, secretary; A. W. Hodgetts, assistant secretary-treasurer; Chas. E. Cook, H. M. Pryale, and H. D. Rothwell, directors. The head office and mine office are at South Porcupine. The executive office is at 19 Melinda Street, Toronto.

The main property, in Deloro and Tisdale townships, Porcupine area, district of Cochrane, contains approximately 748 acres and consists of the amalgamated holdings of the following former operating companies: West Dome Mines, Limited; Dome Lake Mining and Milling Company, Limited; Standard Gold Mines, Limited; McLean Gold Mines, Limited; Consolidated West Dome Lake Mines, Limited; Premier Paymaster Mines Company; Bison Gold Mines, Limited; West Dome Lake Gold Mines, Limited; and United Mineral Lands Corporation. The company also owns another 160 acres in Tisdale township, 920 acres in Cody township, and 80 acres in Whitney township, all in the district of Cochrane, and holds under lease 500 acres in Leonard and Tyrrell townships, Matachewan area, district of Timiskaming.

Operations continued throughout 1943. Diamond-drilling in the calendar year consisted of 125 holes, totalling 9,121 feet, from underground. A total of 143,581 tons of ore was hoisted, and 138,531 tons were milled, the mill operating at an average daily rate of 379.5 tons. About 6,863 tons of tailings were re-treated.

There are nine shafts on the main property, four of which have been used by Paymaster Consolidated Mines, Limited, for hoisting purposes. The others

are used for ventilation purposes or not at all. There are also several winzes. The depths of the various shafts and winzes are included in the table below, which is arranged to show the amount of development work done during 1943, the section of the mine in which it was done, and the total:—

The following is taken from the report of the general manager for the twelve months ending June 30, 1944:—

Mining

The mine development programme consisted of the following:—

No. 5 Shaft.—Crosscutting is under way to intersect and develop the No. 14 vein on the 1,050-foot level. On the 1,225-foot level, the No. 32 vein was drifted out. On the 1,575-foot level, the No. 8 vein was drifted out to develop the extent of the "B" lens to the west. Crosscutting is completed, and the development of the No. 24 vein on the 1,740-foot level is under way. A small amount of lateral work on the 1,200- and 2,075-foot levels was carried on in conjunction with stoping operations.

In the No. 5-2075-1 winze, development of the Nos. 8, 23, and 24 veins is being continued on the 2,200-, 2,325-, and 2,450-foot levels. The No. 3 vein on the 2,200-foot level has been partly drifted out.

On the 2,700-, 2,825-, 2,950-, and 3,075-foot levels, crosscutting to the Nos. 8, 23, 24, and 31 veins is in progress, with the Nos. 8, 18, and 24 veins intersected on the 2,700-foot level; with the Nos. 8 and 18 veins on the 2,825-foot level intersected; and the No. 18 vein on the 2,950-foot level intersected. A small amount of drifting has been done on some of these veins and will be continued as labour is available.

Most of the ore mined and drawn has been from stopes between the 1,050-foot and the 2,075-foot levels.

No. 6 Shaft.—Development work during the year was confined to the Nos. 4 and 32 veins on the 800-foot level and to the No. 21 vein on the 1,050-foot level. Ore was mined and drawn from stopes from the 300-foot to 1,050-foot levels. Work at this shaft has been suspended until more labour is available.

No. 2 Shaft.—The development work at this shaft during the year consisted of diamond-drilling and driving a raise from the 400- to the 300-foot level.

Stopes mined and drawn on the 300-, 400-, and 600-foot levels produced an average of 52 tons of ore per day.

Ore Reserves

	Tons	Ounces per ton
Probable ore	81,971	0.224
Positive ore	380,760	.226
Broken ore	99,935	.234
Total	562,666	0.227

Milling

During the fiscal year, there were milled 134,464.9 tons of ore and 6,863.4 tons of tailings. These tailings were obtained from Simpson Lake area, where they had been deposited by former owners. The average daily milling rate was 386 tons, as against 472 tons for the previous year. The total production for the fiscal year was \$1,113,518.35.

Costs

The mining cost per ton of ore broken at No. 5 and No. 6 shafts was \$4.49. At No. 2 and No. 3 shafts, the work consisted of raising, diamond-drilling, and drawing broken ore reserves.

	Total cost	Cost per ton milled
Diamond-drilling	\$11,212.71	\$0.08
Outside exploration	259.53
Development, Nos. 2 and 3 shafts	2,678.48	.02
Development, Nos. 5 and 6 shafts	74,556.85	.53
Station-cutting, 2075-1 winze, No. 5 shaft	12,173.98	.09
Mining, Nos. 2 and 3 shafts	32,657.16	.23
Mining, Nos. 5 and 6 shafts	416,059.13	2.94
Backfilling, Nos. 5 and 6 shafts	1,362.47	.01
Ore transportation	12,188.40	.09
Tailings transported for re-treatment	3,542.98	.02
Crushing and conveying	21,949.96	.16
Milling	172,642.61	1.22
General expense	80,603.78	.57
Total	\$841,888.04	\$5.96

An average force of 236 men was employed, of whom 143 were in the mine and 35 in the mill. Charles E. Cook is general manager.

Pickle Crow Gold Mines, Limited

Pickle Crow Gold Mines, Limited, was incorporated in January, 1934, with an authorized capitalization of 3,000,000 shares of \$1 par value, all of which have been issued. The officers and directors are: J. E. Hammell, president; C. S. Hamilton, vice-president; G. M. Huycke, secretary-treasurer; John Bland, assistant secretary-treasurer; A. G. Hattie, director of mining; Eola Hammell, director. The head office and mine office are at Pickle Crow. The executive office is at 25 King Street West, Toronto.

The property, in the Pickle Crow area, Patricia portion of Kenora, consists of 79 claims containing 3,160 acres.

Operations continued throughout 1943. The vertical No. 1 main shaft, in the Howell vein system, on claim Pa. 747, is 2,545 feet deep and has three compartments from surface to the 1,200-foot level and four compartments from that point to the bottom. The 3-compartment, vertical winze, known as No. 2 shaft, is collared at the 750-foot level about a mile northeast of the No. 1 shaft in the Cohen-McArthur section. In 1943 it was deepened a further 350 feet to 1,516 feet from surface. Levels were cut at 1,225, 1,350, and 1,475 feet. The following table shows the development work done in 1943 and the total:—

UNDERGROUND DEVELOPMENT WORK

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet

1,225-foot	212	212	239	239		
1,350-foot			123	123		

Diamond-drilling in 1943 consisted of 39 holes, totalling 4,312 feet, from underground.

A trestle 1,200 feet long was erected for the disposal of mill tailings.

The following is taken from the manager's report for the year ending December 31, 1943:¹—

The following table shows the new ore opened up by development work during 1943:—

Vein	Level	Drift	Length	Width	Assay	
					Ounces	Value
No. 2	850-foot	2-81E	feet 580	inches 53	0.50	\$17.50
	975-foot	2-91E	520	70	.55	19.25
	975-foot	2-91S.E.	95	101	.90	31.50
	975-foot	2-91W	98	58	.30	10.50
	1,100-foot	2,111W	40	22	.27	9.45
	1,225-foot	2-121E	50	11	.51	17.85

During the year, a total of 69,809 tons of ore was taken from the stopes. The stopes on No. 2 vein supplied 7,281 tons of this total, the remainder coming from the Howell vein.

A total of \$1,535 tons of ore was hoisted during the year, of which 11,726 tons came from development headings.

Ore Reserves

At the year end the estimated ore left in the Howell vein from the surface to the 2,450-foot level was 488,695 tons of an average grade of \$12.02.

On No. 2 vein in the north zone, a block of ore 550 feet deep, that is from a point 75 feet above the 750-foot level to the 1,225-foot level, has now been developed, and the estimated ore for this block is 153,970 tons of an average grade of \$18.05.

The mine has now a total estimated ore reserve of 642,665 tons of an average grade of \$13.46. Based on a normal milling rate of 480 tons per day (which was the average daily tonnage during 1941), this is sufficient to operate for 3.6 years.

Diamond-drilling

Diamond-drilling done during 1943 was for the most part of an exploratory nature in the vicinity of No. 2 vein. One hole, however, No. 3-701, was drilled on No. 3 vein, which is located

¹All values in this report are based on gold at \$35.00 an ounce.

south of the porphyry near the main crosscut between the Howell and No. 2 vein. The results obtained were as follows: At 50 feet below the 750-foot level, a core length of 106 inches of altered mineralized greenstone assayed 0.46 ounces or \$16.10 per ton.

Milling

The mill operated continuously throughout the year, and a summary of this operation follows:—

Waste picked	Tons	10,740
Ore ground		70,575
Total milled		81,315
Gold produced per ton milled	troy ounces	0.4318
Gold produced per ton ground	troy ounces	0.4975

	Gold		Silver	
	Troy ounces	Per cent.	Troy ounces	Per cent.
By amalgamation	16,623.841	47.344	1,975.35	45.570
By cyanidation	17,840.404	50.809	2,359.44	54.430
Total recovery	34,464.245	98.153	4,334.79	100
Gold in tailings	648.350	1.847		
Total gold in ore	350,112.595	100		

SUPPLIES USED IN MILLING

	Per ton milled	Per ton ground
Balls lbs.	1.80	2.07
Lime lbs.	2.17	2.50
Cyanide lbs.	.607	.700
Zinc lbs.	.1149	.1324
Litharge lbs.	.1349	.1557
Lead acetate ounces	.0572	.0659

Operating Costs

	Total cost	Cost per ton of ore milled (\$1,315 tons)	Cost per ounce of gold produced (34,464 ounces)
Development	\$118,059.36	\$1.45	\$3.43
Mining	356,621.31	4.38	10.32
Milling	108,066.20	1.34	3.16
Shipping and marketing	16,126.73	.20	.47
General mine expenditures	120,013.74	1.47	3.48
Total before depreciation	\$718,887.34	\$8.84	\$20.86
Depreciation	218,884.66	2.69	6.35
Total	\$937,772.00	\$11.53	\$27.21

Supplies and Equipment Purchased

Power	\$65,823.47
Explosives	8,808.04
Timber and lumber	15,290.71
Wood fuel	15,225.63
Commissary supplies	71,478.99
General supplies and equipment	100,992.84
Total	\$277,619.68

Labour

Wages and salaries paid during 1943 amounted to \$478,028.57.

An average force of 214 men was employed during the year, of whom 120 were in the mine and 16 in the mill. A. G. Hattie was manager.

Preston East Dome Mines, Limited

Preston East Dome Mines, Limited, was incorporated in 1911 and re-organized by supplementary letters patent in 1936. The shareholders received one new share for five of the old. The authorized capitalization is 3,000,000 shares of \$1 par value, all of which have been issued. The officers and directors are: W. H. Bouck, president; S. N. Graham, vice-president; L. I. Hall, secretary; H. Preston Coursen, J. B. Allen, J. W. Ecclestone, J. W. Hubbard, and C. L. Hershman, directors. The executive office is at 10 Adelaide Street East, Toronto. The head office and mine office are at South Porcupine.

The property consists of 7 claims, 280 acres, in Tisdale township, Porcupine area, district of Cochrane. It is adjacent to and lies south and east of the Dome mine.

The mine and mill continued to operate throughout 1943. The 5-compartment, vertical No. 2 shaft, on claim No. 13,151, through which operations are conducted, is 1,648 feet deep. The following table shows the development work done during 1943 and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
90-foot.....		1,135		696		
200-foot.....		4,904	85	1,802	260	1,366
300-foot.....	139	5,285		1,588		1,199
425-foot.....	6	4,696		972	108	1,462
550-foot.....	63	4,378		1,185	95	1,235
675-foot.....		3,349		784		912
800-foot.....	121	3,707	195	581	78	925
906-foot.....	360	3,322	284	789	131	855
1,050-foot.....	1,297	3,416	251	5,996	30	787
1,175-foot.....	417	1,288	276	1,067	155	743
1,300-foot.....		343		841		528
1,425-foot.....	1,552	1,804	1,915	4,605	272	836
1,550-foot.....	178	178	1,093	1,093		5

Diamond-drilling during 1943 consisted of 20 holes, totalling 1,386 feet, from surface and 334 holes, totalling 76,050 feet, from underground.

The following is taken from the report of the manager for the year ending December 31, 1943:—

Production

The average daily milling rate was 676.7 tons in 1943, as compared with 840 tons in 1942. The daily tonnage milled was maintained at around 800 tons per day during the first quarter of the year and then declined due to labour shortages to 563 tons per day in August. Towards the end of the year, there was a decided improvement and the daily tonnage milled in December was 645 tons. Production results for the year ending December 31, 1943, are shown below:—

Tons of ore hoisted.....	248,766
Total dry tons milled.....	247,026
Dry tons milled, average per day.....	676.7
Average mill heads..... ounces gold per ton	0.2478
Average net recovery..... ounces per ton milled	0.2397
Average gold in tailings..... ounces per ton	0.008
Average recovery..... per cent.	96.70
Gold produced..... fine ounces	59,214.055
Silver produced..... fine ounces	6,540.25

Tonnage of ore hoisted was 73,691 tons less than in 1942, with a corresponding drop in gold production of 13,225 ounces. The average grade of mill feed remained practically the same as in the previous year.

There was no sorting done during the year. The spare mill capacity made available by labour shortages made the sorting practice uneconomical.

COSTS

	Cost per ton hoisted (248,766 tons)	Cost per ton milled (247,026 tons)
Development and diamond-drilling	\$1.1863	\$1.1947
Mining	3.3901	3.4140
Milling8047	.8104
Total per ton	\$5.3811	\$5.4191

The above is the total mine operating cost exclusive of bullion marketing, administration, taxes, and write-offs. The operating cost per ounce of gold produced was \$22.607.

Costs per ton milled showed an increase of 42 cents from those of the previous year, due to the smaller tonnage milled and to the larger quantities of backfill used during the year. All costs were affected by the scarcity of labour and by the higher costs of supplies.

Development

The year 1943 found your company in common with most gold-mining companies unable to carry out a scale of development in balance with the rest of the operations. This was due entirely to the shortage of experienced mining crews necessary for this work. The limited development work carried out during the year, however, was very encouraging, and during the year a total length of 2,198 feet of new ore was opened up, with a cut grade of 0.224 ounces per ton.

Development work during the year was carried on in the main Preston porphyry: in the porphyry greenstone area, which lies from 200 to 300 feet on the footwall or west side of the Preston porphyry, and in the west porphyry area, which lies about 1,500 feet southwest of the Preston porphyry.

In the Preston porphyry, a total length of 586 feet of ore, or 26.6 per cent of the total, was developed. This ore averaged 0.17 ounces per ton (cut grade) over a width of 11 feet. Most of this work was done on narrow vein type ore bodies from the 8th to the 12th levels, although some work was done on ore bodies of the stringer zone type on the 3rd and 5th levels.

In the porphyry greenstone area, a total length of 679 feet, or 30.9 per cent. of the total, was developed in this area. This ore averaged 0.24 ounces per ton (cut grade) over a width of 10.5 feet. Work on this ore zone was carried on on the 7th, 8th, 9th, 10th, and 12th levels. A series of parallel porphyry dikes separated by greenstones strike northwesterly through this zone. The ore has been found in both veins and stringer zones in both the porphyry and greenstones.

In the west porphyry area a length of 933 feet, or 42.5 per cent. of the total, was developed. This ore averaged 0.27 ounces per ton (cut grade) over a width of 6.9 feet. This development during the year has been confined to the 9th and 12th levels with some additional diamond-drilling on the 13th level. All of this ore exposed to date has been of the quartz-vein type.

Apart from developing the above sections, a drive was continued on the 12th level to the two northerly claims, which heretofore had been virtually unexplored. Diamond-drilling in this area located what is believed to be the downward extension of the north end of the Preston porphyry. In the limited amount of diamond-drilling to date one section assaying 0.20 ounces per ton over a width of 29.5 feet has been found.

Mining

During the year, 13 per cent. of the ore mined was taken from shrinkage stopes, 56 per cent. was taken from cut-and-fill stopes, 24 per cent. was taken from stull stopes, and 7 per cent. came from square-set stopes. No attempt was made during the year to selectively mine the higher-grade sections, and the mill feed for the year represents an average cross-section of the ore reserve. Mill heads for the year averaged very close to ore reserve grade.

The following table shows the ore sources by levels for the year 1943:—

Level	Tons ore trammed	Percentage of total	Cut grade by sampling
			ounces
2nd	15,725	6.3	0.19
3rd	67,173	27.1	.20
4th	30,941	12.5	.28
5th	5,658	2.3	.12
6th	7,860	3.2	.25
7th	20,193	8.1	.24
8th	28,237	11.4	.18
9th	23,723	9.6	.22
10th	20,252	8.2	.25
11th	3,278	1.3	.20
12th	2,833	1.1	.48
Development	21,934	8.9	.20

During the year, 147,216 tons of backfill were used, including 29,840 tons of our own development waste. This backfill was obtained at a cost of \$65,523.85, which is the equivalent to \$0.44 per ton of backfill purchased, or \$0.26 per ton of ore milled.

Ore Reserves

Ore reserves as of December 31, 1943, are estimated at 820,820 tons, with a grade of 0.227 ounces per ton after allowance for dilution has been made. This includes all ore sufficiently exposed for measurements down to the 13th level but does not include ore indicated in diamond-drilling on the 12th level north nor the ore intersected in diamond-drilling in the west porphyry on the 13th level. Details of the ore reserve estimate are as follows:—

	Tons	Ounces per ton	
		Uncut	Cut
Ore in place.....	793,823	0.29	0.22
Broken ore in stopes.....	25,297	.28	.20
Broken ore in bins.....	1,700	.23	.22

The above total of ore reserves as of December 31, 1943, shows a decrease from those of the previous year by 39,280 tons. This is a very small amount considering the year was one in which it was difficult to do any development and in no way reflects on a declining ore position.

General

War work on pump and engine parts was continued in our machine shops during the year under subcontract. Two shipments of hand-picked scheelite ore were made to the Department of Mines at Ottawa during the early part of the year.

On November 1, 1943, the company joined with nine other mines in forming the Porcupine Mines Employees' Medical Services Association.

Permission was given by the National War Labour Board to institute a plan of allowing six days holidays with pay for any employee working 300 days in any one year. This plan has been adopted.

An average force of 361 men was employed during the year, of whom 233 were in the mine and 25 in the mill. V. A. James was manager during the first three months and was succeeded by G. G. Campbell, the former superintendent.

Regnery Metals

Walter Regnery, of Goldville, S.C., continued mining operations at the Michael-Boyle property from January 1 to May 31, 1943, under his profit-sharing agreement with the owners, Alden-Goudreau Mines, Limited. The mill operated till June 30. All work was then suspended for the duration of the war. The operation was carried on under the name of Regnery Metals.

The property is in township 27, range 25, district of Algoma, about 6½ miles north of Hawk Junction. The address, when operations are being carried on, is Mile 171½, Algoma Central Railway, via Sault Ste. Marie, Ont.

There is a 333-foot adit, driven by former operators into a hill on claim A.C. 2,120, with some lateral development and a raise to surface. A winze, sunk by Regnery Metals, runs from the adit level at an angle of 32 degrees to an inclined depth of 80 feet. There is a level at a depth of 60 feet on the incline. The only development work done in 1943 was 18 feet of drifting on this level. The following table shows the total amount of development work when the operation ceased:—

Level	Drifts	Crosscuts	Raises
	feet	feet	feet
Tunnel.....	690	375	113
No. 1.....	149	45	55

The open-stoping method of mining was used underground. The high-grade section around the raise was mined by open-cutting from surface, and the ore was passed down the raise to the adit and trammed to the mill.

There were 1,782 tons of ore mined and milled in 1943.

Edward Lahaye was manager, employing an average force of 16 men during the period of operation, of whom 6 were in the mine and 5 in the mill.

Sylvanite Gold Mines, Limited

Sylvanite Gold Mines, Limited, was incorporated in June, 1913, with an authorized capitalization of 3,300,000 shares of \$1 par value, of which 3,299,500 have been issued. The officers and directors are: Edward L. Koons, president; Welles V. Moot, vice-president and managing director; William S. Walton, secretary; Clark L. Ingham, treasurer; Alfred H. Sharpe, Harry Yates, and Lewis R. Gulick, directors. The executive office is at Erie County Bank Building, Buffalo, N.Y. The secretary's office is at 603 Royal Bank Building, Toronto. The head office and mine office are at Kirkland Lake.

The main property consists of 5 claims and a fraction, approximately 230 acres, in Teck township, Kirkland Lake area, district of Timiskaming.

Operations continued throughout 1943. The table below shows the number of shafts on the property and their depths at the end of 1943. Nos. 2 and 4 are the main operating shafts from surface. No. 5 internal shaft, which is collared at the 3,150-foot level, was carried to a total depth of 4,853 feet from surface in 1943, and levels were cut at 4,350, 4,500, 4,650, and 4,800 feet. The workings at 3,600 feet are connected between the internal shaft and No. 2 shaft.

Shaft	Claim No.	No. of compartments	Depth from surface
			feet
No. 1.....	L. 2226.....	2	125

3,750-foot						

Diamond-drilling in 1943 consisted of 212 holes, totalling 14,811 feet, from underground.

The following is taken from the general manager's report for the twelve months ending December 31, 1943:—

Production

During the year, 148,190 tons were milled, producing 52,514.752 troy ounces of gold and 8,252.73 troy ounces of silver, with a value of \$2,025,005.29. The mill averaged 406 tons per day, which is approximately 75 tons less per day than in the previous year. The following is a summary of production for the last fiscal years:—

Period	Tons milled	Fine ounces gold produced	Average price per ounce gold	Total gold and silver production	Average gold recovery, troy ounces per ton
Apr. 1, 1939, to Mar. 31, 1940	204,119	68,781.23	\$37.17	\$2,561,331.82	0.33
Apr. 1 to Dec. 31, 1940	160,721	52,037.99	38.50	2,006,973.10	.32
1941	197,293	67,159.788	38.50	2,589,635.12	.34
1942	175,745	52,418.009	38.50	2,021,506.35	.30
1943	148,190	52,514.752	38.50	2,025,005.29	.35

The following is a summary of ore and waste broken and hoisted:—

Period	Ore broken			Waste broken			
	In stopes	From development and backs	Total	Hoisted to surface	Used for backfill	Total	Total ore and waste broken
Apr. 1, 1939, to Mar. 31, 1940	138,387	65,601	203,988	15,639	30,624	46,263	250,251
Apr. 1 to Dec. 31, 1940	121,376	46,114	167,490	22,959	18,603	41,562	209,052
1941	148,637	40,821	189,458	25,434	13,772	39,206	228,664
1942	133,724	32,733	166,497	11,686	13,788	25,474	191,971
1943	113,866	34,276	148,142	12,700	9,915	22,615	170,757

Broken Ore Reserves

Broken ore reserves were 71,015 tons at the end of the period. This is 787 tons less than a year ago.

Development

During the year, a total of 7,864.5 feet of drifting and subdrifting was done, of which 2,633.0 feet was in ore.

In a total drifting footage of 5,197.5, there was developed 1,360.0 feet of ore. The more important ore lengths developed in drifting were as follows:—

On the 250-foot level, a length of 306.5 feet of ore was found on a branch vein of the south break. On the 400-foot level, a combined length of 127 feet of ore was developed on a vein in the north vein area. On the 2,000-foot level a length of 220 feet of ore was developed on an incline vein. This is considered to be the downward extension of the ore developed the previous year on the 1,750-foot level. On the 2,850-foot level, 93.5 feet of ore was developed in conglomerate

formation in the area 300 feet north of the main north vein. A drift on line on the 1,875-foot level was advanced west 342.5 feet to connect the main workings of the mine with No. 4 shaft for the purposes of mine ventilation. At the end of the year the drift was completed to a point from which a raise will be driven to the bottom of No. 4 shaft at the 1,750-foot level.

No major development work of an exploratory nature was undertaken during the year. In a footage of 2,667 of subdrifting, 1,273 feet of ore was developed.

Operating Costs

Operating costs were higher at \$6.738. The operating costs of the two previous periods are given for comparison:—

	Total cost	Cost per ton ore milled	Cost per fine ounce gold produced
1941:			
Development and exploration ¹	\$372,688.86	\$1.889	\$5.549
Mining.....	482,210.15	2.444	7.180
Milling (including tailings disposal expense)...	220,248.72	1.117	3.279
General charges, including employees' group life, accident and sickness insurance, unemployment insurance, medical aid and pension plan expense, and after deducting sundry revenue.....	86,736.89	.439	1.292
Administration expense.....	69,365.92	.352	1.033
Bullion selling expense:			
Insurance, shipping and Mint refining charges.....	4,739.05	.024	.071
Mint handling charges.....	23,505.92	.119	.350
Total.....	\$1,259,495.51	\$6.384	\$18.754
1942:			
Development and exploration ²	\$249,368.29	\$1.419	\$4.757
Mining.....	473,386.71	2.694	9.031
Milling (including tailings disposal expense)...	205,195.82	1.168	3.915
General charges, including employees' group life, accident and sickness insurance, unemployment insurance, medical aid and pension plan expense, and after deducting sundry revenue.....	103,659.28	.590	1.978
Administration expense.....	67,288.82	.383	1.284
Bullion selling expense:			
Insurance, shipping, and Mint refining charges.....	3,591.19	.020	.068
Mint handling charges.....	18,346.32	.104	.350
Total.....	\$1,120,836.43	\$6.378	\$21.383
1943:			
Development and exploration ³	\$258,332.42	\$1.743	\$4.919
Mining.....	380,114.37	2.565	7.238
Milling (including tailings disposal expense)...	178,972.02	1.208	3.408
General charges, including employees' group life, accident and sickness insurance, unemployment insurance, medical aid and pension plan expense, and after deducting sundry revenue.....	89,675.79	.605	1.708
Administration expense.....	69,788.13	.471	1.329
Bullion selling expense:			
Insurance, shipping, and Mint refining charges.....	3,282.42	.022	.063
Mint handling charges.....	18,380.17	.124	.350
Total.....	\$998,545.32	\$6.738	\$19.015

¹Including the sum of \$90,691.94, or 46 cents per ton milled, for direct charges for work on the internal shaft, covering shaft-sinking and station-cutting, headframe raise, and incidental charges on cable raise, hoist-room, and main haulageway excavation.

²Including the sum of \$58,887.32, or 33.5 cents per ton milled, for direct charges for work on the internal shaft, covering shaft-sinking and station-cutting.

³Including the sum of \$66,492.53, or 44.87 cents per ton milled, for direct charges for work on internal shaft, covering shaft-sinking and station-cutting.

The main charges to operations in the fiscal year were:—

Wages and mine salaries.....	\$571,739.28
Supplies, including water.....	210,245.48
Power.....	82,204.77
Provision for taxes on mining income.....	280,593.09

Capital Expenditures

Very little was spent on capital account during the year, the total amount being only \$7,594.55. Practically all this amount represents the cost of a ventilation fan and installation at No. 4 shaft and air, power, light, and signal lines in the new No. 5 shaft.

General Summary

During the year under review it was necessary, due to labour and material shortages, to again reduce our mill tonnage. This reduction averaged 75 tons per day as compared to the previous year and meant a daily average of just over 400 tons. No additional tonnage cuts have been necessary.

Although drift footage was only 47 per cent. of the 1941 figure, the ore developed was almost equal to the ore milled.

Our machine shop did considerable war work during the year.

An average force of 289 men was employed during the year, of whom 199 were in the mine and 21 in the mill. K. C. Gray is general manager.

Teck-Hughes Gold Mines, Limited

Teck-Hughes Gold Mines, Limited, was incorporated in March, 1923, with an authorized capitalization of 5,000,000 shares of \$1 par value, of which 4,807,144 have been issued. The officers and directors are: Albert W. Johnston, chairman of the board; D. L. H. Forbes, president and general manager; H. C. McCloskey, vice-president; C. G. Williams, secretary; K.P. Emmons, treasurer; John F. Lash and John F. Thompson, directors. The head office is at Woodstock; the executive office is at 25 King Street West, Toronto, and the mine office is at Kirkland Lake.

The main property, which is a consolidation of the original Hughes claims, located by Sandy McIntyre, and the claims of Orr Gold Mines, Limited, is in Teck township, Kirkland Lake area, district of Timiskaming. It contains 446 acres. The company also holds six undeveloped claims about 2 miles to the southwest. The holdings total 618 acres.

The mine has been developed from three shafts¹ and six winzes. The following table shows the depth, inclination, and number of compartments in the various shafts and winzes:—

	Inclination	No. of compartments	Depth below surface
	degrees		feet
No. 1 shaft.....	90	2	520
Central shaft ²	90	4	3,014
South shaft.....	90	4	3,692
Central shaft extension (below 25th level)....	90	3	3,619
South shaft extension (below 30th level).....	90	4	5,546
No. 1 winze (below 5th level).....	90	2	1,129
10th level winze (below 10th level).....	90	3	1,994
No. 2 winze (below 30th level).....	60	3	4,912
No. 3 winze (below 40th level).....	60	3	6,182

Mining and milling continued throughout 1943. The following table shows the development work done during the year and the total:—

¹Does not include the original Orr shaft, 400 feet deep, not now used.

²Blocked between the 16th and 18th levels.

Level and depth	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1913	Total

The following is taken from the report of the general superintendent for the year ending December 31, 1943:—

During the year, 100,705 tons of ore from the mine were milled. The total recovery of bullion was the equivalent of 32,528.43 troy ounces of fine gold. The realized value of bullion production was \$1,251,047.22, or \$12.42 per ton, while operating costs amounted to \$633,579.46, or \$6.29 per ton, leaving an operating profit of \$617,467.76, or \$6.13 per ton.

Income on general investments and dividends on shares of Lamaque Gold Mines, Limited, amounted to \$1,046,687.66. After charging the expenditure on examination and exploration of outside properties of \$1,306.44 and providing \$188,214.41 for taxes, net surplus for the fiscal year was \$1,474,634.57.

An analysis of operating costs follows:—

	Total cost	Cost per ton of ore treated	Cost per ounce of gold produced
Mining and development	\$371,354.68	\$3.69	\$11.416
Milling	129,129.02	1.28	3.970
General expense	133,095.76	1.32	4.092
Total	\$633,579.46	\$6.29	\$19.478

Development footage for the year was as follows:—

	Feet
Drifting	690
Crosscutting	284.5
Subdrifts and subcrosscuts	596.5
Raising	922.5

Total development

2,493.5

Diamond-drill exploration amounted to 6,486.7 feet. Ore production from drifting and crosscutting totalled 1,791 tons. New ore found totalled 35 feet, or 5.1 per cent. of all drifting.

During the year 7.89 per cent. of the total tonnage and 7.64 per cent. of the gold production came from E and F branch veins, which are about finished.

The technical estimate of "positive ore" at December 31, is as follows:—

	Tons	Gold content in troy ounces	Average grade in pennyweights per ton
Broken ore	117,159	25,911	4.42
Blocked ore	186,851	76,253.7	8.16
Total	304,010	102,164.7	6.72

Due to adverse conditions, operations during the year were confined to the upper ten levels in Central shaft and those in the 10th level winze.

The charges for pumping, maintenance, and repair of the South shaft workings amounted to \$19,843.77. Maintenance and repair in the lower and intermediate levels was mainly for the replacement and support of untreated timber, which will not outlast the period of shutdown of these levels.

An average force of 181 men was employed during 1943, of whom 98 were in the mine and 20 in the mill. J. G. McMillan is general superintendent.

Toburn Gold Mines, Limited

Toburn Gold Mines, Limited, was incorporated in January, 1931, with an authorized capitalization of 2,000,000 shares of \$1 par value, of which 1,850,000 shares have been issued. The officers and directors are: H. A. Guess, president; R. F. Goodwin, vice-president; G. A. Brockington, secretary; J. C. Emison, treasurer; E. C. Corson, comptroller; A. W. Holmsted and S. C. Guess, directors. The head office is at 1809 Royal Bank Building, Toronto, and the executive office is at 120 Broadway, New York, N.Y. The mine address is Kirkland Lake.

The property, formerly called the Tough-Oakes Burnside, consists of 10 claims, 343 acres, in Teck and Lebel townships, Kirkland Lake area, district of Timiskaming.

The main operations are carried on from the No. 3 shaft and No. 3 subshaft, both on claim L. 1,823. No. 3 shaft is 1,105 feet deep and has two compartments to a depth of 400 feet and three compartments from that point to the bottom. The 3-compartment subshaft, which is collared at the 1,090-foot level about 300 feet south of the shaft, runs to a depth of 2,498 feet from surface.

Both shaft and winze are vertical. No. A inclined shaft, on claim L. 2,375 about 675 feet northeast of No. 3 shaft, has a vertical depth of 400 feet, with levels at 85, 171, 247, and 319 feet. There are connections between the two lowest levels and the 200- and 400-foot levels from No. 3 shaft. No. A shaft is used as a ventilation and escapement shaft and for the transportation of supplies. There are a number of other shallow shafts sunk by former operators, some of which are now used as manways and ore passes.

Mining and milling operations continued throughout 1943. The following table shows the development work done during the year and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
A SHAFT (inclined):

2,350-foot.....				57		
2,475-foot.....	907	1,927		609		11

The following is taken from the president's report to the shareholders for the year ending December 31, 1943:—

During the year 1943, a total of 4,965 lineal feet of underground development was completed, compared with 4,677 for the year 1942, showing an increase for the year under review of 288 feet. Of the total development, 1,293 feet was on ore, or 26 per cent., producing approximately 4,263 tons.

During the year 1943, 33 underground diamond-drill holes plus 4 holes deepened, aggregating 6,944 feet, were drilled, in comparison with 20 diamond-drill holes plus 2 holes deepened in 1942, aggregating 4,423 feet.

Production figures for 1943 as compared with those for 1942 are:—

	1942	1943
Tons milled.....	43,635	40,905
Average ounces gold per ton.....	0.450	0.402
Ounces fine gold produced.....	18,914	15,799
Percentage mill recovery.....	96.28	96.16

Estimated ore reserves, broken and unbroken, at December 31, 1943, were 83,200 tons, averaging 0.55 ounces gold per ton, as compared with 93,400 tons, averaging 0.53 ounces gold per ton, at December 31, 1942. Due to some dilution in actual mining and scaling when shrinkage

stopes are drawn, this tonnage may be somewhat increased with a corresponding decrease in grade. It is apparent, therefore, that 30,705 tons of new ore were found and opened up in 1943, compared with 22,710 tons of new ore in 1942.

Throughout the year, owing to the continued shortage of labour, the mill continued to operate at a reduced tonnage to permit as much development work as possible.

Earnings for the year 1943, after deducting administrative and legal expenses and taxes, but before deduction of \$30,163.49 depreciation and depletion, were \$120,001.90.

Continental Kirkland Mines, Limited¹

All mining operations remained suspended during the year 1943, with the usual shutdown expenses.

On the 2,475-foot horizon of Toburn Gold Mines, Limited, development on the fractured zone was continued for 551 feet toward Continental Kirkland's west boundary. Depending upon the results obtained from future eastward development, a decision will be made as to the advisability of drifting into Continental Kirkland's property in the hope of locating commercial ore.

As of December 31, 1943, your company owned a total of 425,000 shares of Continental Kirkland Mines, Limited, acquired at a total cost of \$82,673.25.

An average force of 129 men was employed, of whom 70 were in the mine and 12 in the mill. M. W. Hotchkin is manager.

Uchi Gold Mines, Limited

Uchi Gold Mines, Limited, was incorporated in January, 1937, with an authorized capitalization of 3,000,000 shares of \$1 par value. In August, 1940, the capitalization was increased to 5,000,000 shares of \$1 par value. There have been 4,033,344 shares issued. The officers and directors are: J. E. Hammell, president; Robert Fennell, vice-president and secretary-treasurer; John Bland, assistant secretary-treasurer; A. G. Hattie, director of mining; Eola Hammell, director. The head office is at Uchi Lake, which was also the mine address when operations were in progress. The executive office is at 25 King Street West, Toronto. The company went into receivership in February, 1943, and the Trusts and Guarantee Company, 302 Bay Street, Toronto, was appointed receiver.

On incorporation the company acquired the property known as the Mac-Auley, located half way between Lost bay of Confederation lake and Uchi lake in Earney township, Patricia portion of the district of Kenora. In 1940 the properties of Hanalda Gold Mines, Limited, Jalda Gold Mines, Limited, and the Grasett claims, which were part of the Hill-Tivy-Sloan property, were bought. These all lie to the north of the original claims. The company now holds 95 claims and a 90 per cent. interest in 5 additional claims, approximately 4,100 acres, all in Earney township. Each group of claims has been operated as a separate working. The two shafts on the original Uchi claims are known as Nos. 1 and 2; they are connected underground. No. 1 shaft has for several years been used only as an auxiliary escapement way, operations being carried on through No. 2 shaft. The Hanalda shaft is No. 3; the Jalda, No. 4; and the Grasett, No. 5. The following table shows the depths of the shafts, the number of compartments in each, and the claims on which they are situated:—

Shaft	Claim No.	No. of compartments	Total depth
No. 1.....	K.R.L. 5,038.....	2	feet 622

No. 4.....	K.R.L. 12,486.....	3	320
No. 5.....	K.R.L. 4,505.....	{ 3 to 510 feet 4 to bottom }	731

¹Further information on Continental Kirkland Mines, Limited, appears on page 92 of this report.

The No. 3 shaft working has not been operated since August, 1941, and the No. 5 shaft operation ceased in November, 1942. The Nos. 2 and 4 shaft workings continued to operate from January 1 to March 7, 1943, following which they were allowed to fill. No development work was done in 1943. The following table shows the total amount of work done from the five shafts:—

Level	Drifts	Crosscuts	Raises
	feet	feet	feet
No. 1 SHAFT.....			
No. 2 SHAFT:			
100-foot.....	1,858	745	362
300-foot.....	2,379	777	2,911

300-foot.....	1,342	594	330
No. 5 SHAFT:			
150-foot.....	1,681	18	217
250-foot.....	1,216	52	119
400-foot.....	721	89
550-foot.....	329	128
700-foot.....	397	171

Diamond-drilling in 1943 consisted of one hole, 213 feet deep, from surface and five holes, totalling 2,213 feet, from underground.

A total of 15,554 tons of ore was mined. The mill, which is at the No. 2 mine, operated from January 1 to March 28 and treated 16,254 tons of ore.

A. G. Hattie was manager, employing an average force of 90 men during the period of operation, of whom 47 were in the mine and 10 in the mill. Nine men were employed on cleaning-up work after the plant shut down.

Upper Canada Mines, Limited

Upper Canada Mines, Limited, was incorporated on April 4, 1929, with an authorized capitalization of 2,500,000 shares of \$1 par value. On April 27, 1938, the capitalization was increased to 3,500,000 of \$1 par value. On July 16, 1940, it was decreased to 3,000,000 shares by the cancellation of 500,000 unissued shares. The number of shares issued at December 31, 1943, was 2,963,009. The officers and directors are: R. R. Brown, president; W. H. Despard, vice-president; G. F. Summers, secretary-treasurer; T. J. Day and T. R. Buchanan, directors. The head office is at 85 Richmond Street West, Toronto. The mine address is Dobie.

The property consists of 16 claims, approximately 597 acres, in Gauthier township, Kirkland Lake area, district of Timiskaming.

Operations continued throughout 1943. The vertical, 3-compartment No. 1 shaft in the northwest corner of claim L. 6,314 was sunk a further 132 feet to a total depth of 1,444 feet, and a new level was established at 1,375 feet. No. 2 vertical, 3-compartment shaft, in the northeast corner of claim L. 6,321 about 2,900 feet west of No. 1 shaft, was deepened from 412 to 796 feet, and new levels were cut at 500, 625, and 750 feet. The two shafts are connected on the 375-foot level. The following table shows the development done during 1943 and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
125-foot	246	2,781	11	837	68	237
250-foot	264	4,053	839	36	634
375-foot	132	5,050	50	2,342	502
500-foot	241	4,472	47	1,300	220
625-foot	257	3,496	62	613	669
750-foot	63	2,011	55	366	393
875-foot	1,928	1,160	527
1,000-foot	299	2,580	52	584	121	232
1,125-foot	338	970	339	106	106
1,250-foot	2,075	2,075	251	420	13	13
1,375-foot	51	51

Diamond-drilling during the year consisted of 16 holes, totalling 5,322 feet, from surface and 275 holes, totalling 17,121 feet, from underground.

The following is taken from the manager's report for the twelve months ending April 30, 1944:—

Since November active development on the three new levels at No. 2 shaft has disclosed ore bodies of satisfactory size and grade, and this development is still far from complete. Cross-cutting on the new levels at No. 1 will not get under way before the middle of June.

The tonnage of ore in reserve has been maintained by the No. 2 development, but the value will remain depleted until drifting on the new levels in the No. 1 area has replenished it.

ORE DEVELOPED,¹ MAY 1, 1943, TO APRIL 30, 1944

Level	Vein or zone	Length zone explored	Ore developed			Ore milled from lateral development		
			Length	Width	Estimated stoping grade	Tons	Grade	Value
		feet	feet	feet				
125-foot	L	99	82	\$5.28	\$433.00
250-foot	L	110	137	2.83	388.00
375-foot	L	30	90	1.68	151.00
500-foot	L	400	262	6.6	\$9.20	1,849	6.55	12,110.00
625-foot	L	472	392	7.1	10.02	2,307	9.83	22,674.00
750-foot	L	313	209	7	12.60	1,278	13.29	16,983.00
750-foot	H	63	2	1.50	3.00
1,000-foot	H	60	15	2.53	38.00
1,250-foot	H	476	240	4.5	20.00	812	22.24	18,063.00
1,250-foot	M	843	111	5.4	6.60	509	5.48	2,789.00
1,250-foot	K	185	98	5	6.50	298	5.41	1,613.00
Total	3,051	1,312	6.2	\$11.17	7,379	\$10.20	\$75,245.00

Of all ore sent to the mill, 10.8 per cent. came from lateral development; 43 per cent. of all ore zone explored developed ore bodies of stoping grade; 40 per cent of all "H" zone explored was of stoping grade; 60 per cent. of all "L" zone explored was of stoping grade. Total waste to cut-and-fill stopes was 9,403 tons.

MINE PRODUCTION

Shaft	Tons	Value ²	
		Per ton	Total
No. 1	42,799	\$18.21	\$779,049.00
No. 2	25,234	9.00	227,228.00

¹Values given are calculated with gold at \$35.00 an ounce.

²Gold at \$35.00 an ounce.

Total cost per ton milled increased due to expanded diamond-drill exploration and higher overhead per ton on the lower tonnage. Cost per ounce of gold produced before depreciation write-offs and taxes was \$21.48.

Running time of the mill was 98.1 per cent., and recovery of gold content in ore 94.4 per cent.

Operations throughout the year were handicapped by the shortage of labour and the difficulty of securing repair parts manufactured in the U.S.A. The shortage of technical help has grown worse and has reached an acute stage. In spite of this, we have maintained essential development and come part way through this difficult time in better shape than might have been expected.

Local 240 of the International Union of Mine, Mill and Smelter Workers, C.I.O., was certified as the collective bargaining agency for our employees on May 10, 1944.

An average force of 180 men was employed, of whom 121 were in the mine and 10 in the mill. R. J. Henry is manager.

C. S. Walsten

In the summer of 1943, C. S. Walsten, of Kenora, took a lease on the property of Goldwood Gold Mines, Limited, on Regina bay, Lake of the Woods, district of Kenora. No underground work was done. The operation consisted of cleaning up the mill. The finely ground ore found in and about the mill was put over a 40-foot corduroy blanket. The concentrates obtained were shipped to Trail, B.C., for further treatment.

Mr. Walsten did the work himself with the assistance of one employee.

Wright-Hargreaves Mines, Limited

Wright-Hargreaves Mines, Limited, was incorporated in June, 1916, with an authorized capitalization of 5,500,000 shares of no par value, all of which have been issued. The officers and directors are: E. L. Miller, president; W. H. Wright, vice-president; P. H. Gerhard, secretary; Gerard F. Miller, treasurer; M. W. Summerhayes, managing director; Oliver G. Donaldson and James Y. Murdoch, directors. The head office is at Fort Erie North. The executive office is at the Liberty Bank Building, Buffalo, N.Y. The mine address is Kirkland Lake.

The main property consists of 4 claims, approximately 153 acres, in Teck township, Kirkland Lake area, district of Timiskaming. The company also has four claims, totalling 203 acres, in Morrisette township, from which sand for backfilling is obtained. Eleven claims in Teck and Lebel townships are used for slimes disposal.

The following table shows the depths of the shafts and winzes that serve the mine:—

	No. of compartments	Depth from surface at December 31, 1943
		feet
No. 1 shaft ¹	2 to 2,000 feet 3 to bottom	2,277
No. 2 shaft ²	2	
No. 3 shaft.....	3 to 1,200 feet 4 to bottom	4,089
No. 4 shaft.....	4	
No. 5 winze (below 3,600-foot level).....	3 to 3,800 feet 4 to bottom	6,404

¹Now used for ventilation.

²Now used as a sand pass.

All the shafts are at the west end of claim L. 1,829, except No. 2 shaft, which is at the west end of claim L. 1,830.

Mining and milling operations continued throughout 1943.

The following table shows the development work done during 1943 by levels, the total since January 1, 1930, by levels, the total footage prior to January 1, 1930, and the total footage at December 31, 1943:—

Level	Drifts		Crosscuts		Raises	
	1943	Jan. 1, 1930, to Dec. 31, 1943	1943	Jan. 1, 1930, to Dec. 31, 1943	1943	Jan. 31, 1930, to Dec. 31, 1943

Diamond-drilling during 1943 consisted of 312 holes, totalling 28,167 feet, from underground.

The following is taken from the report of the general manager for the fiscal year ending August 31, 1943:—

During the period, 245,130 tons of dry ore were treated in the mill, from which were recovered 126,075 ounces fine gold and 25,333 ounces fine silver. There was realized from marketing this bullion, \$4,886,357.64.

The average grade of ore milled was 0.534 ounces, or \$20.565 per ton, with a recovery of 0.518 ounces, or \$19.934 per ton, an extraction of 96.93 per cent.

ANALYSIS OF OPERATING COSTS

	Total cost	Cost per ton milled
Development, exploration, and pumping.....	\$199,516.69	\$0.814

⁴12 months ending fiscal year August 31, 1934.

ORE RESERVE ESTIMATE

	Tons	Ounces	Grade	Value at \$38.50 per ounce
On hand August 31, 1942	1,185,445	0.50	\$19.34	\$22,931,155
Developed in fiscal year	210,206	.52	19.83	4,168,711
	1,395,651	0.50	\$19.42	\$27,099,866
Milled in fiscal year	245,130	.53	20.57	5,040,980
Ore reserves, August 31, 1943	1,150,521	0.50	\$19.17	\$22,058,886

Development

There were 210,206 tons of ore developed, having an average grade of 0.52 ounces, or \$19.83 per ton. It will be noted that this is 34,924 tons less than the tonnage milled during the year under review. This new ore was developed by drifting, raising, and the extension of marginal stoping areas.

Due to the shortage of labour, it was necessary to curtail the amount of development work for the year. Every effort was made, therefore, to confine the drifting to veins partially developed previously, which accounts in part for the relatively high percentage of drifting in ore and for the low percentage of crosscutting.

Detailed geological study and remapping of the vein structures was continued throughout the year. This work, aided by drilling, continues to prove valuable both from the standpoint of finding ore and in helping to correlate and solve geological structures.

Milling

The mill treated 245,130 tons of ore, or an average of 671.59 tons per day. The average grade was 0.534 ounces, or \$20.565 per ton. The tailings loss was 0.016 ounces, or \$0.631 per ton, giving an extraction of 96.93 per cent., as compared with 96.63 per cent. for the previous year. This improvement in mill extraction is due to the smaller tonnage treated, which allows of a longer time-period of agitation.

Treatment of the sulphide contents of current mill tailings in the Lake Shore roasting plant was continued throughout the year. This arrangement for tailings disposal eliminates cost of attendance at our tailings dam.

General

A new collective bargaining agreement was entered into with the Employees' Council on November 27, 1942. This has worked out very satisfactorily for employees and company alike. One week's holiday with pay to days-pay employees was granted on November 1, to those who have 300 working days in a year to their credit.

Logging and saw-milling operations were started during the 1942-43 season at our recently acquired timber limit in Kilmer and Hobson townships with production in both branches sufficient for next year's requirements under present scale of mining operations. Due to war-time conditions with serious shortage of satisfactory labour, which adversely affected all logging and milling work in the district, the first year's operations were difficult. The season's experience indicates that the timber limit is a valuable one and more than sufficient for the requirements of the mine during its life.

Our part in the local mines' contribution to the war effort through utilizing the facilities in their machine shops was most active. We participated actively in the machining and testing of parts for units used in the war. Much of the labour was specially trained in our shop for this work. In addition three heavy machine-shop tools (two lathes and one planer) were purchased in order to participate to a greater extent in the heavier type of work.

An average force of 499 men was employed during the year, of whom 324 were in the mine and 24 in the mill. R. L. Healy is general manager.

Yama Gold Mines, Limited

Yama Gold Mines, Limited, was incorporated in January, 1937, with an authorized capitalization of 3,500,000 shares of \$1 par value, of which 3,375,290 have been issued. The officers and directors are: W. J. P. Jenner, president; Dr. W. W. Babcock, vice-president; G. G. Findlay, secretary-treasurer; Thos. J. Kingston and Stanley Harpham, directors. The head office is at 171 Yonge Street, Toronto. The mine address, while operations were in progress, was Boston Creek.

The main property consisted of 11 claims, approximately 440 acres, on the border between Catharine and McElroy townships, Larder Lake area, district of Timiskaming. The company also held 18 other claims in Catharine township, in two separate groups, and 21 claims, in two groups, in Hearst township in the same area.

Mining operations at the main property continued from January 1 to March 1, 1943. No development work was done. The mill was operated until March 1, and the final clean-up was completed by March 13, when all operations ceased.

The mine has been developed from a vertical, 3-compartment shaft, 528 feet deep, on claim L. 26,272. The following table shows the total amount of development work done:¹—

Level	Drifts	Crosscuts	Raises
	feet	feet	feet
125-foot	45	225	140
250-foot	1,824	630	90
375-foot	1,599	720	125
500-foot	1,560	480	108

O. L. Knutson was manager, employing an average of 36 men during the period of operation, of whom 15 were underground and 8 in the mill.

In July, Cathroy Larder Mines, Limited, acquired the property and did a small amount of diamond-drilling.

¹The figures given were obtained by scaling the plans of the property on file in the Department of Mines.

Young-Davidson Mines, Limited

Young-Davidson Mines, Limited, was incorporated in April, 1926, with an authorized capitalization of 3,000,000 shares of \$1 par value, of which 1,584,108 have been issued. The officers and directors are: W. C. Young, president; C. G. Knott, vice-president; Frank M. McKay, secretary-treasurer; A. C. Ross, Jacob A. Davidson, and W. T. Davidson, directors. The head office is at 320 Bay Street, Toronto. The mine office is at Matachewan.

The property, which is in Powell township, Matachewan area, district of Timiskaming, is operated under agreement by Hollinger Consolidated Gold Mines, Limited. A reference to the operation appears on page 108 of this report.

The mine continued to operate throughout 1943. The mill operated from May 1 to December 29. The vertical, 3-compartment main or No. 1 shaft on claim M.R. 5,372 is 1,082 feet deep, with levels at 263, 463, 663, 863, and 1,063 feet. The vertical, 2-compartment No. 2 internal shaft, which is collared at the 463-foot level about 250 feet west of and slightly to the north of the shaft, runs to a depth of 1,302 feet from surface. The 6th level is at a depth of 1,263 feet in the winze. The following table shows the development work done during 1943 and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
1st.....		2,290		1,055		1,271
2nd.....	318	2,914		883	90	2,001
3rd.....		1,501		714	15	1,796
4th.....		1,080		784		1,313
5th.....		788		575		890
6th.....		201		302		

There were 192,701 tons of ore hoisted. The mill treated 192,727 tons.

An average force of 123 men was employed, of whom 61 were in the mine, 18 in the mill, and 43 on general surface. H. North is manager.

GRAPHITE

Black Donald Graphite, Limited

Black Donald Graphite, Limited, was organized in October, 1942, to acquire the mine, mill, and other assets of the Black Donald Graphite Company, Limited. The latter company retained its charter. The authorized capitalization of the new company is 200,000 shares of no par value, of which 137,500 have been issued. The company is controlled by the Frobisher Exploration Company, Limited. The officers and directors are: Thayer Lindsley, president; W. B. Malone, secretary-treasurer; R. A. Telfer, assistant secretary-treasurer; A. K. Muir, managing director; E. V. Neelands and G. R. Burge, directors. The executive office is at 25 King Street West, Toronto. The mine office is at Calabogie.

The property consists of 300 acres in Brougham township, Renfrew county.

The mine and mill were operated from January 3 to May 7, when operations were suspended owing to failure of the local supply of electric power. Sufficient Diesel power to operate the mill was installed, and the milling operation was resumed on July 1 and continued until the end of the year. No ore was hoisted from underground from May 7 to the end of the year, at which time the hydro-power plant resumed operations.

The No. 2 or Patno shaft was retimbered to a depth of 45 feet. About 55 feet of crosscutting was done in the No. 1 or "F" shaft workings. There were 345 tons of ore hoisted through No. 1 shaft.

About 3,500 tons of old mill tailings were pumped from the lake and re-treated.

A small assay office was built during the year. A 6-cell Denver flotation machine and a 30-inch Akins classifier were added to the mill equipment.

An average force of 45 men was employed. N. H. C. Fraser was manager.

GYPSUM

Canadian Gypsum Company, Limited

The Canadian Gypsum Company, Limited, was incorporated in September, 1907. It has a capitalization of 3,000 shares of \$100 par value, of which 2,710 have been issued. The officers and directors are: W. L. Keady, president; M. H. Basquin, vice-president; C. H. Shaver, secretary-treasurer; S. L. Avery, F. B. Gibbs, O. M. Knode, J. E. MacLeish, and Otis Wack, directors. The head office is at Windsor, N.S., and the business office is at 170 Bloor Street West, Toronto.

The company operates a gypsum mine and plant near Hagersville in Oneida township, Haldimand county. All commercial gypsum products are produced at the plant, which includes a mill and wall board and block manufacturing buildings. During 1943 some 55,541 tons of gypsum were mined, of which 47,552 tons were milled, 2,320 tons were crushed only, and 5,668 tons were stock-piled on surface.

An average of 22 men was employed in the mine and crushing plant. W. E. Allen is superintendent. The mine address is Hagersville.

The company also operates a quarry and lime plant at Guelph and a rock wool plant at Weston. Through a wholly owned subsidiary, Toronto Asphalt Roofing Manufacturing Company, Limited, the company operates an asphalt roofing plant at Mount Dennis.

Gypsum, Lime and Alabastine, Canada, Limited

Gypsum, Lime and Alabastine, Canada, Limited, has a capitalization of 500,000 shares of no par value, of which 440,043 have been issued. The officers and directors are: Col. Henry Cockshutt, chairman; George A. Dobbie, president; J. E. McConnell and C. G. Cockshutt, vice-presidents; S. H. J. Reid, secretary; F. Andrews, comptroller and treasurer; P. P. Tyler, managing director; J. R. Inksater and S. G. Dixon, directors. The head office is at Paris, Ont.

The mine and mill at Caledonia, Seneca township, Haldimand county, was operated throughout 1943. L. V. Robinson was superintendent, employing an average of 22 men in the mine and crushing plant.

A total of 68,280 tons of gypsum was mined. Some 11,547 tons were crushed and fine ground. About 57,226 tons were calcined; of this, 7,986 tons were shipped and 35,108 tons were used in the manufacture of gypsum products.

In addition to the Caledonia mine the company operated lime plants at Beachville, Hespeler, and Milton. The alabastine plant is at Paris.

IRON

Algoma Ore Properties, Limited

Algoma Ore Properties, Limited, was incorporated in February, 1936, with an authorized capitalization of 50,000 shares of no par value, all of which have been issued. The officers and directors are: Sir James Dunn, president; William Jeffrey, secretary; E. W. Shell, treasurer; E. Carey, comptroller; W. C. Franz, J. A. McPhail, E. G. McMillan, and S. V. McLeod, directors. Geo. W. MacLeod is general manager. The head office is at Sault Ste. Marie, Ont. The mine address is Helen Mine.

The company is a wholly owned subsidiary of the Algoma Steel Corporation, Limited, from which various iron properties in Algoma district were acquired, including the Helen mine in township 29, range 24. This property consists of 52 claims, containing approximately 1,754 acres.

The open-pit operations continued throughout 1943. Both upper benches in the pit, at 1,600- and 1,550-foot elevations, were worked, and a third bench was started at an elevation of 1,500 feet. A total of 272 churn-drill holes, with a length of 17,520 feet, was drilled. Twenty-two diamond-drill holes, totalling 13,655 feet, were drilled from surface.

The sinking of a vertical, 3-compartment shaft on claim D.J. 22 was begun in August and discontinued in the latter part of September, when the shaft had reached a depth of 272 feet.

A 65-foot headframe, a 10-ton rock bin, and a temporary hoist-house and change-house were built at the shaft. A 24- by 18-inch, single-drum Canadian Ingersoll-Rand hoist was installed.

Additions to the compressor house, the service garage, and the first-aid building were erected. A change-house for women employees was built at the sinter plant. New equipment at the mining plant included three single-phase, 60-cycle, 150 k.v.a. Canadian General Electric transformers; a 1,590-cubic-foot air receiver and a 1,600-cubic-foot after cooler; and a 1,590-cubic-foot Canadian Ingersoll-Rand XVHE-2 air compressor.

A total of 694,319 short tons of ore was mined. The sintering plant operated from April 19 to November 28 and produced 505,090 short tons of sinter.

S. J. Kidder was manager, employing an average force of 204 persons. Of these, 61 men were in the pit and 48 men and 18 women were at the sintering plant.

Michipicoten Iron Mines, Limited

Michipicoten Iron Mines, Limited, was incorporated in October, 1941, with an authorized capitalization of 3,000,000 shares of no par value, of which 300,005 have been issued. The company is controlled by Sherritt Gordon Mines, Limited, and the Frobisher Exploration Company, Limited. The two companies share equally in the cost of operations, which are under the direction of Sherritt Gordon Mines, Limited. The officers and directors are: H. Whittingham, president; A. G. Fulton, secretary-treasurer; E. L. Brown, general manager; Halstead Lindsley, Thayer Lindsley, G. R. Burge, and E. V. Neelands, directors. The head office is at 25 King Street West, Toronto. The mine address is Josephine.

The property consists of 70 claims, totalling 2,887 acres, in townships 28 and 29, range 24, and township 28, range 25, Algoma district. It includes the Josephine mine, the Ruth group of claims about 1½ miles away, and the Lucy claims, which adjoin the Ruth. The mining plant is about one mile north of the Josephine stop on the Algoma Central railway, 6 miles west of Hawk Junction.

Operations at the Josephine mine continued throughout 1943. The 3-compartment, vertical shaft on the south side of Parks lake on claim Y. 452 (A.C.R. 4,263) was sunk a further 173 feet to a total depth of 1,226 feet. A new level was established at a depth of 1,190 feet, and a loading-pocket was installed at 1,145 feet. The following table shows the development work done during 1943 and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
265-foot.....			209	414		
415-foot (station only).....				39		
565-foot.....				243		
715-foot.....	649	649	349	393		
865-foot.....	1,193	1,193	430	576	107	107
1,015-foot.....	1,536	1,536		563	587	587
1,145-foot (loading pocket).....					625	625
1,190-foot (station only).....			55	55		

Diamond-drilling during 1943 consisted of 13 holes, totalling 8,898 feet, from surface and 144 holes, totalling 12,872 feet, from underground.

New buildings erected during the year included a bunk-house, an addition to the boiler-house, a school, an office, and a building to house a stand-by power unit. The unit consists of a 232 h.p. Dolphin gas engine driving a 219 k.v.a., 3-phase, 60-cycle, 550-volt Canadian General Electric generator. A 1,000-cubic-foot Canadian Ingersoll-Rand XVHE-2 compressor and a 60 h.p. Vulcan return tubular boiler were added to the plant equipment.

The following is taken from the report of Sherritt Gordon Mines, Limited, for the year ending December 31, 1943:—

Josephine Mine

Lateral development work was done on the three bottom levels, the greatest amount being done on the 6th, with progressively lesser amounts being completed on the 5th and 4th. On the 6th level a length of over 1,200 feet of continuous ore was opened up, with box-holes cut ready for stoping operation. This ore shoot is still open at one end, and surface diamond-drilling results indicate that this length may ultimately be doubled. Several raises were driven from the 6th to the 5th level, and one raise was driven on up to the 4th level horizon. These raises are intended for use in stoping operations, but they also provide evidence of the vertical continuity of the ore body.

As a result of this underground development work, the tonnage of ore reserves was more than doubled during the year and the grade of the reserve was appreciably improved. The additional information obtained provided further confirmation of the observation made a year ago that the silica content of the deposit decreased, and the iron content increased, with increasing depth. The following is a summary of the calculated ore reserve as at December 31, 1943. The calculations are based upon the data obtained from drifting, crosscutting, and raising, supplemented by diamond-drilling.

CALCULATED ORE RESERVE (2,666,000 GROSS TONS)

	Per cent.
Fe.....	53.94
SiO ₂	15.67
S.....	1.184
P.....	.051
Mn.....	.17
As.....	.033
CaO.....	.50
MgO.....	.38
Al ₂ O ₃	2.00
Ignition loss.....	3.21

The pilot mill was operated intermittently during the year, and runs were made on ore taken from various sections of the ore body. A number of additional sintering tests were also

carried out on the concentrates from the pilot mill. Three carloads of open-hearth lump ore were sorted out and shipped to two different steel plants, in order that test runs could be made under actual operating conditions. The average grade of the ore in these three carloads was as follows:—

	Per cent.
Fe.....	63.19
SiO ₂	6.12
S.....	.031
P.....	.022
Mn.....	.07
As.....	.037
CaO.....	trace
MgO.....	.10
Al ₂ O ₃	1.67
Ignition loss.....	1.53
Moisture.....	2.00

Ruth Mine

A number of deeper diamond-drill holes, with a total footage of 7,198, were put down during the first three months of the year. These holes added considerably to the indicated ore reserve and proved the deposit to continue to depth with undiminished size and grade.

In general the central part of the siderite deposit is sufficiently low in silica to permit of sintering to produce a sinter of ore grade without any prior beneficiation. On the margins of this low-silica material there is a further substantial tonnage of siderite, which is cut up by acid dikes and quartz stringers and which contains unreplaced fragments of the footwall rock. Due to the inclusion of this siliceous material, the silica content of this marginal siderite is too high to permit of a good sinter being made without prior beneficiation. Tests carried out in the Josephine pilot mill have proven that the bulk of this included siliceous material can be satisfactorily eliminated, so that with prior beneficiation a good grade sinter can be made from this marginal material.

The indicated ore reserve tonnage on the Ruth property, to an average depth of 800 feet, is as follows:—

	Gross tons	Iron	Silica	Sulphur
		per cent.	per cent.	per cent.
Low-silica siderite.....	16,840,000	34.54	6.81	6.258
High-silica siderite.....	11,760,000	26.57	21.46	3.546
Combined total.....	28,600,000	31.26	13.15	5.143

W. D. Mackenzie was superintendent. An average force of 109 persons was employed. Of these, 45 men were in the mine.

Steep Rock Iron Mines, Limited

Steep Rock Iron Mines, Limited, was incorporated in February, 1939, with an authorized capitalization of 5,000,000 shares of no par value. In February, 1943, the capitalization was increased to 6,000,000 shares of no par value, and in August, 1943, the par value of the shares was changed to \$1 each. The officers and directors are: C. S. Eaton, chairman of the board; D. M. Hogarth, president; G. G. Blackstock, executive vice-president; N. Edmonstone, secretary-treasurer; G. E. Allen, J. G. Cross, W. E. Phillips, D. H. McDougall, John Stewart, and Bethune L. Smith, directors. The head office is at 25 King Street West, Toronto. The mine address is Atikokan.

The property consists of 193 claims, containing 8,481 acres, in Freeborn and Schwenger townships, district of Rainy River.

Early in 1943 arrangements were completed to raise the necessary funds to bring the property to production.

The following drilling was done through the ice on Steeprock lake in the early months of 1943: churn-drilling, 32 holes, totalling 11,696 feet; diamond-drilling, 5 holes, totalling 368 feet.

The Dominion Government agreed to advance to the Canadian National Railways the cost of building ore docks at Port Arthur, a spur line 3.3 miles in

length from Atikokan to the loading-pocket at Steeprock lake, and the necessary ore cars. The Government also agreed to provide a subvention on the freight rate of 20 cents per ton on the first 5,000,000 tons from Atikokan to Port Arthur.

The Ontario Government, through the Hydro-Electric Power Commission of Ontario, financed the cost of a new power line from Port Arthur to Atikokan.

The diversion operations began in February as soon as the financial arrangements were complete. The following parts of the project were completed during the year:—

1. Some 17 miles of new roads necessary to give access to the various parts of the diversion project were completed.

2. A diversion tunnel 10 by 12 feet in diameter and 1,300 feet in length was driven under the esker ridge at the lower end of Finlayson lake, which was lowered about 70 feet.

3. Raft lake, containing 550,000 U.S. gallons of water, was pumped out.

4. Rock channels 100 feet wide and up to 90 feet deep were cut between Raft and Marmion and Raft and Finlayson lakes. The channels were about 4,000 feet long and involved the excavation of 550,000 cubic yards of rock.

5. A fill dam was installed to separate the West and Middle arms of Steeprock lake. A tunnel was driven through the island in this section, and a forebay was constructed at its eastern end. The large pumps dewatering the eastern section of the lake discharged into the tunnel, which emptied into the West arm.

6. The esker ridge at the south end of Finlayson lake was cut through, involving the removal of 1,200,000 cubic yards of gravel and 60,000 cubic yards of rock.

By the means described above the Seine river was diverted from its flow through the section of Steeprock lake that covered the ore bodies. Its new route is from Marmion to Raft lake (where a control dam was installed), to Finlayson lake, and thence by a new channel into the West arm of Steeprock lake.

The old power-house belonging to the Ontario-Minnesota Pulp and Paper Company, Limited, at the point where the Seine river formerly entered Steeprock lake, was changed so that its generators are now used as condensers in the new power set-up.

On December 15, 1943, the pumping-out of Steeprock lake began. Fourteen Canadian Ingersoll-Rand centrifugal pumps, with a capacity of 23,000 U.S. gallons per minute each to a 65-foot head, were used. The pumps were mounted on seven steel scows, two pumps on each scow. They were driven by twelve Westinghouse and two Canadian General Electric motors of 500 h.p. each. The lake was lowered at the rate of 6 inches a day.

The total amount of water to be pumped to uncover all the ore bodies was estimated at 118,422,000,000 U.S. gallons.

M. S. Fotheringham was in charge as general superintendent for Steep Rock Iron Mines, Limited. H. G. Acres was consultant on the diversion project. The C. A. Pitts Construction Company was the general contractor. The Thunder Bay Harbor Improvement Company, Limited, constructed the bridges and dam at the narrows in Steeprock lake. P. Harrison, mining contractor, drove the tunnels.

LEAD AND ZINC

Lake Geneva Mining Company, Limited

The Lake Geneva Mining Company, Limited, was incorporated in April, 1928. The authorized capitalization is 1,500,000 shares of \$1 par value, having been increased from 1,000,000 shares in 1937. At the end of 1943 there were

1,250,000 shares issued. The company is controlled by the Towagmac Exploration Company, Limited. The officers and directors are: C. D. H. MacAlpine, president; A. A. MacKay, vice-president; P. C. Finlay, secretary-treasurer; J. C. Norton, assistant secretary-treasurer; Leo Timmins and F. J. Bales, directors. The head office is at 1010 St. Catherine Street West, Montreal, Que. The mine address is Benny.

The property consists of 22 patented claims, 880 acres, in Hess township, district of Sudbury.

The mine and concentrator continued to operate throughout 1943. A new cook-house, a storehouse, and an addition to the power-house were built. A 500-cubic-foot Carels-Ingersoll Rand Diesel-driven air compressor was installed in the power-house.

The vertical, 2-compartment No. 1 shaft, on claim S. 6,304, is 400 feet deep. In 1943 a 2-compartment winze, collared at the 375-foot level 30 feet southwest of the shaft was sunk in a southerly direction at an angle of 45 degrees for a distance of 375 feet on the incline to a depth of 638 feet from surface. Levels were established at 525 and 615 feet from surface. The following table shows the underground development work done during 1943 and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
No. 204 sublevel.....		143		31		59
235-foot.....		656		118	47	691
315-foot.....	50	290	17	37		133
375-foot.....	103	103	47	47	189	189
525-foot.....	29	293	82	82		
615-foot.....			24	24		

Diamond-drilling during 1943 consisted of 3 holes, totalling 2,059 feet, from surface and 9 holes, totalling 693 feet, from underground.

A total of 32,330 tons of ore was mined, and 28,357 tons were treated in the concentrator, which operated at an average daily rate of 90 tons.

J. E. Jerome was general superintendent, employing an average force of 68 men.

LIGNITE

Department of Lands and Forests

Operations at the lignite deposit at Onakawana continued throughout 1943. The erection of a boiler plant to produce steam for the processing of the lignite had been begun in 1942. By March, 1943, the boiler building had reached the stage where inside foundation work could be started. The boiler was then erected, the setting built, and the engine-room equipment installed. The boiler plant consists of a 626 h.p. Babcock-Wilcox cross-drum, straight tube boiler, with a steam capacity of 30,000 p.p.h. at 400 pounds pressure, and a Harrington travelling grate stoker, Green air heater, Coppus turbine feed pumps, Cochrane water heater, and Bailey meters. The engine plant includes a 125 h.p. Babcock-Wilcox double-expansion, vertical steam engine, coupled to a 75 k.w. General Electric 3-phase, 60-cycle, 550-volt generator, and a 500-cubic-foot single-stage, steam-driven Gardner-Denver compressor.

Work on the process plant was started in September, 1943, and continued through the winter.

A new 2-storey bunk-house, 28 by 57 feet, was built. A pump-house was built at the river and connected to the engine plant by a tunnel. A caterpillar D-8 tractor bulldozer with a 12-yard Letourneau scraper, a ½-yard Northwest Model 18 combination shovel and dragline, and another 5-ton truck were acquired during the spring and summer.

The dragline was used intermittently from May to October to do surface ditching, dig a roadway to the river, and excavate a pit about 400 feet long at the site of the experimental pit made in 1940 and 1941.

In November a 100 h.p. return tubular boiler was installed for heating purposes, and about 400 tons of raw lignite were mined from the pit to supply the heating unit.

An average force of 35 men was employed, of whom 10 were on clearing and excavation work and 25 on construction. The address is Onakawana, via Cochrane. William Gerrie was superintendent.

MAGNESIUM

Dominion Magnesium, Limited

Dominion Magnesium, Limited, is a private company formed to develop and operate the Pidgeon process for making magnesium. The capitalization is 150,000 shares of no par value. The officers and directors are: R. J. Jowsey, president; W. E. Segsworth, vice-president; M. Crabtree, secretary; H. B. Clearihue, treasurer; C. C. Calvin and Thayer Lindsley, directors. The head office is at 67 Yonge Street, Toronto. The plant address is Haley.

The company's quarry and plant are about 3 miles from Haley in concession V, Ross township, Renfrew county. The operation is under the direction of the Wartime Metals Corporation.

Operations continued throughout 1943. There were 61,637 tons of dolomite treated in the plant.

J. D. Barrington was manager. An average force of 395 persons was employed. Of these, 5 men were in the quarry, 224 persons in the treatment plant, and 166 persons on general surface work.

MICA

Amber Ridge Mica Company

Charles Frank, of Westport, operated a mica deposit on lots 9 and 10, concession V, North Burgess township, Lanark county, for the Amber Ridge Mica Company, of 165 Broadway, New York, during the early months of 1943.

Mica was mined from a trench, which was 30 feet long, 8 feet wide, and about 20 feet deep when the operation ceased.

The mica was sent to the shop at Westport for trimming. About 3,900 pounds of trimmed amber mica was produced.

A small force was employed at the property and shop.

Amic Mica Mines, Limited

Amic Mica Mines, Limited, was incorporated in March, 1943, to succeed Mica Consolidated Mines, Limited. The authorized capitalization is 1,750,000 shares of \$1 par value, all of which have been issued. The officers and directors are: Norman Vincent, president; Robert Hughes, vice-president; Eleanor

Bickle, secretary; W. N. Rook, director. The head office is at 80 Richmond Street West, Toronto.

The company acquired the property of Mica Consolidated Mines, Limited, consisting of 25 claims, approximately 1,000 acres, in Mattawan township, district of Nipissing.

Operations at the property were carried on from January 1 to October 30, 1943. A 28-foot headframe and ore bin were built at the open pit on No. 1 dike on claim S. 36,151, and a small mining plant, consisting of a 310-cubic-foot Canadian Ingersoll-Rand compressor and a 5- by 6-inch air hoist, was installed. A vertical, 2-compartment shaft was sunk to a depth of 45 feet from the bottom of the pit.

A total of 76 tons of muscovite mica was produced from No. 1 dike and from an open pit on No. 2 dike, which is on claim S. 36,242.

An average force of 13 men was employed. A trimming shop was operated at Bonfield. R. Basher was manager.

Biram Mines, Limited

Biram Mines, Limited, was incorporated in May, 1943, with an authorized capitalization of 250,000 shares of \$1 par value, of which 150,005 have been issued. The officers and directors are: T. G. Ramslaw, president; W. Biton, vice-president and general manager; J. W. C. Cornell, secretary-treasurer; Wm. Prosser and R. W. Philip, directors. The head office is at 11 King Street West, Toronto. The mine address was Perth.

The company took over the property worked till May 31, 1943, by Perth Mica, Limited, on lot 4, concession V, North Burgess township, Lanark county, and continued operations from June 1 to November 15.

The pit on the north shore of Rideau lake, which had been operated in 1942 and earlier in 1943, was abandoned and other pits farther east were opened up. About 31 tons of amber mica was mined, mainly from two pits, the larger of which was 30 feet long and 20 feet deep, located about 100 feet from the pit on the edge of the lake.

The mica was shipped to a shop at Westport for trimming.

W. W. Lee was manager, employing five men at the property. One man and four girls were employed at the shop from July to November.

An account of the operations of Perth Mica, Limited, appears on page 180 of this report.

Canadian Flint and Spar Company, Limited

The Canadian Flint and Spar Company, Limited, was incorporated under a Dominion charter in March, 1930, and in May, 1938, obtained a license in mortmain permitting it to operate in Ontario. In April, 1943, the authorized capitalization was increased from 9,800 shares to 12,000 shares of no par value; 6,666 shares have been issued. The officers and directors are: R. W. Lawson, president; M. J. McHugh, Jr., vice-president and secretary-treasurer; Norman B. Davis, managing director. The head office is at Buckingham, Que., and the executive office is at 512 Victoria Building, Ottawa.

The company operated a mica showing on the south half of lot 27, concession V, Dickens township, district of Nipissing, from June 1 to September 15. About 3 tons of muscovite mica was produced.

Jas. MacDonnell was in charge of the work, employing 5 men.

Kingston Mica Mining Company, Limited

The Kingston Mica Mining Company, Limited, was incorporated in April, 1939, with an authorized capitalization of 15,000 shares of \$1 par value, of which 7,500 have been issued. The officers are: Charles Keller, president; Stuart H. Richardson, vice-president and treasurer; Wm. C. Richardson, secretary. The head office and mine office are at Godfrey.

The property consists of the south half of lot 5, concession II, Bedford township, Frontenac county, and contains 100 acres. It was formerly known as the Thirty Island Lake mine.

Mining operations continued throughout 1943. The No. 2 winze or hoist-way was carried down a further 38 feet to a total depth of 193 feet from surface, as underhand stull-stopping on the north lens progressed.

About 354 tons of mine-run amber mica were hoisted. This produced 144 tons of rough mica and 210 tons of scrap.

A 40-ton scrap bin was built.

The trimming shop at Godfrey was operated throughout the year, employing an average force of 3 girls.

J. E. Sullivan was manager at the mine, employing 12 men.

Laughrin Prospecting Syndicate

The Laughrin Prospecting Syndicate was formed under an agreement dated August 11, 1942, and filed in the Provincial Secretary's office under the provisions of the Securities Amendment Act, 1940. The capitalization is \$10,000 in units of \$10 each. The head office is at 371 Bay Street, Toronto. L. Jefferson is syndicate manager.

The syndicate carried on open-cut operations from May 1 to October 31, 1943, on a mica showing on lots 8 and 9, concession IV, Loughrin township, district of Sudbury. About 3 tons of muscovite mica was obtained.

Four men were employed. The mine address was Markstay.

Majormica Mines, Limited

Majormica Mines, Limited, was incorporated in October, 1942, with an authorized capitalization of 500,000 shares of no par value. The officers were: Boris Monsaroff, president; L. A. Young, vice-president; Robert Mitchell, secretary; E. E. Ott, treasurer. The head office address was 16 James Street South, Hamilton.

The company continued operations on old open pit workings on the Richardson mica property on lot 13 and the west half of lot 14, concession VIII, Loughborough township, Frontenac county, from January 1 to October 29, 1943.

A mill building, a mica-trimming shop, and a bunk-house were erected. A Canadian Ingersoll-Rand 110-cubic-foot portable air compressor was installed. A small grinding plant was installed in the mill building.

About 200 feet of trenching, 5 feet deep, was done to explore the property further.

At the end of October the company was reorganized as Micaspar Industries, Limited, and operations continued for the rest of the year under the new name. The new company has a capitalization of 1,000,000 shares of no par value, of which 403,252 have been issued. The officers and directors are: Boris Monsaroff, president and general manager; L. A. Young, vice-president; Robert Mitchell, secretary-treasurer; E. E. Ott and Dr. J. H. Leeds, directors. The head office is at 16 James Street South, Hamilton.

A total of about 5 tons of amber mica was mined from the property during the year. From this, 1,288 pounds of trimmed mica was produced.

Eight men were employed on the property, and 5 girls in the trimming shop. C. D. Salkeld was manager for the Majormica company, and J. E. Ayrhart was superintendent for Micaspar Industries, Limited. The mine address is R.R. 1, Sydenham.

Mattarig Mica Mining Syndicate, Limited

Mattarig Mica Mining Syndicate, Limited, was incorporated in November, 1942, with an authorized capitalization of 35,000 shares of \$1 par value, all of which have been issued. The officers are: N. B. Castle, president; W. R. Binch, vice-president; H. A. Provost, secretary-treasurer. The head office is at 38 King Street West, Toronto. The mine address is Mattawa.

The syndicate owns four claims, 200 acres, in Mattawan and Orlig townships, district of Nipissing.

In the first four months of 1943, trenching and test-pitting were carried on to prove a showing of muscovite mica. Six men were employed at this work. About 4 tons of mica was produced.

In December, 2 men were employed on the property. A trimming shed was erected and equipped, and 3 girls were employed. Leo H. Hicknell was manager.

P. Moreland

P. Moreland operated a showing of muscovite mica on lot 9, concession X, Dickens township, district of Nipissing, on the north side of Aylen lake, from May 15 to September 30, 1943. About one ton of mica was produced.

Three men were employed under the direction of Wallace B. Cameron, of Madawaska.

W. J. O'Connor

W. J. O'Connor, of Lombardy, shipped 46 tons of scrap amber mica from lot 1, concession III, South Burgess township, Leeds county, in June, 1943.

Two men were employed for a month.

S. H. Orser

S. H. Orser, of Bancroft, mined 29 tons of biotite mica from an open pit on lot 31, concession XV, Faraday township, Hastings county, between October 14 and 21.

Perth Mica, Limited

Perth Mica, Limited, was incorporated in July, 1942, with an authorized capitalization of \$40,000 divided into 2,000 preferred shares of \$10 par value and 20,000 common shares of \$1 par value. The officers and directors are: Alan Manchester, president; D. J. Snell, secretary-treasurer; John F. Boland, director. The head office is at 372 Richmond Street West, Toronto. The mine address was Perth.

The company continued operations on the mica property on lot 4, concession V, North Burgess township, Lanark county, from January 1 to May 31, 1943. Operations were confined mainly to the pit on the north shore of Rideau lake which had been worked in 1942.

Four tons of amber mica was mined. Some 10,000 pounds of mine-run mica and 2,879 pounds of trimmed mica were shipped.

The trimming shop was operated in January, February, and May. One man was employed.

W. W. Lee was in charge, employing 5 men at the property.

At the end of May the operation was taken over by Biram Mines, Limited. An account of the latter company's operations appears on page 178 of this report.

Purdy Mica Mines, Limited

Purdy Mica Mines, Limited, was incorporated on October 30, 1942, with an authorized capitalization of 2,000,000 shares of \$1 par value, all of which have been issued. The officers and directors are: M. A. Thomson, president; J. P. Norrie, vice-president and general manager; F. D. Lamont, secretary-treasurer; A. J. Davis, P. A. Thomson, and R. I. Ferguson, directors. The head office is at 355 St. James Street West, Montreal, Que. The mine office address is Oak Street, North Bay.

The property consists of 37 claims, three miles north of Eauclaire in Mattawan township, district of Nipissing.

Open-pit mining was continued throughout 1943. Three pits were operated. A total of 235 tons of mine-run muscovite mica was obtained from the operation. About 2,000 feet of exploratory surface-trenching, 2 feet deep, was done. Three diamond-drill holes, totalling 317 feet, were drilled from surface.

The following is taken from the general manager's report for the year ending December 31, 1943:—

The muscovite mica occurs in pegmatite dikes, which cut across the gneissic structure of dark hornblende-garnet gneisses, probably ancient sediments intruded by granite, also gneissic, all of early Precambrian age. The main Purdy occurrence is in echelon lenses or dikes of pegmatite in the older rocks in an area about 2,000 to 3,000 feet on claims Nos. 35,975 and 35,976. Three main dikes, with lengths up to 400 feet and widths up to 20 feet, and many smaller ones have been opened up on the side and top of a hill with an elevation of 150 feet above the valley level, so that mica can be produced for an extended period by advancing into the hill-side, thus eliminating hoisting and pumping operations. All work during the year was done on the showings in the main zone.

The Croteau workings, idle during the year, are located 2,200 feet northeast of the main occurrence. They consist of at least eight dikes and lenses over a width of 600 feet and length yet unknown in hornblende gneiss close to a contact with gneissic granite.

Mica occurs in books or crystals, accompanied by quartz and feldspar, generally near the hanging wall of the dikes in sizes up to 6 feet by 8 feet.

During the year development of the property was increased month by month to supply the ever-increasing war demand for clear and somewhat stained muscovite mica. The run-of-mine mica is transported by truck to the splitting and trimming plants at Mattawa and North Bay.

The Mattawa plant was extended during the year to accommodate a personnel of 100 employees. Upon the request of the Metals Reserve Company, which has contracted to purchase the entire production, a splitting and trimming plant was established at North Bay to accommodate 500 workers. The Metals Reserve Company has an inspection and buying staff at North Bay, which has rendered valuable assistance in the classification of the various sizes and grades of mica produced.

An average force of 20 men was employed at the property. J. R. Norrie was mine manager.

Rideau Lake Mica Prospecting Syndicate

The Rideau Lake Mica Prospecting Syndicate was formed under an agreement dated June 10, 1943, and filed with the Provincial Secretary's Department under the Provisions of the Securities Act. The head office was at 45 Richmond Street West, Toronto.

In September and October, 1943, the syndicate, operating under lease, cleaned out old pits on lots 2 and 3, concession V, North Burgess township, Lanark county, from which amber mica had previously been mined. A tugger hoist, derrick, and Worthington portable compressor were used for the work.

No mica was produced.

Oliver Morin was in charge, employing three men. The mine address was Perth.

MOLYBDENUM

Crichton and Rivers

D. J. M. Crichton and E. J. Rivers carried on operations on a molybdenite property in the township of Gaudette, district of Algoma, about 5 miles north-east of Searchmont, from June to December, 1943.

An office, a blacksmith shop, and a garage were built.

Twelve diamond-drill holes, totalling 2,000 feet, were drilled. About 1,500 feet of open-cutting, 8 feet deep, was done. One hundred tons of molybdenite ore was produced and 42 tons was shipped.

An average of 10 men was employed. The mine address is Searchmont.

Zenith Molybdenite Project

The Wartime Metals Corporation continued its operation at the Zenith Molybdenite property on the west halves of lots 27 and 28, concession IV, Bagot township, Renfrew county, from January 1 to April 5, when the work was suspended.

The shaft on this property is 200 feet deep, with levels at 95 and 175 feet. The following table shows the development work done in 1943 and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
95-foot.....	195	803	89	627	120
175-foot.....	419	739	142	330	40

Twenty-nine diamond-drill holes, totalling 836 feet, were drilled from underground.

A total of 410 tons of ore was hoisted.

A. E. Pugsley was manager, employing an average force of 33 men, of whom 15 were underground and 18 on the surface.

NEPHELINE SYENITE

American Nepheline Corporation

The American Nepheline Corporation was incorporated in the State of New York, U.S.A., in March, 1937. On May 10, 1940, the corporation was granted an extra-provincial license permitting it to hold land and carry on business in the Province of Ontario. The authorized capitalization is 1,500,000 shares of fifty cents a share par value, 1,123,540 of which have been issued. The officers and directors are: H. R. Deeth, president; R. G. Kilbon, vice-president; A. Kelso Roberts, secretary-treasurer; W. G. Hubler, managing director; and Thayer Lindsley, director. The head office is at 361 Boxart Street, Rochester, N.Y. The secretary-treasurer's address is 320 Bay Street, Toronto. The mine address is Lakefield.

The property consists of 43 claims, approximately 2,000 acres, in concession IX, Methuen township, Peterborough county. The quarry from which the nepheline syenite is taken is on lot 13. The company has a mill at Lakefield and another at Rochester, N.Y.

Operations were carried on throughout 1943. About 56,000 tons of nepheline syenite were mined and crushed at the quarry. The product is taken in trucks to the head of Stony lake, a distance of about 3 miles, and then transported by barge to Lakefield, where some of it is ground. The rest is shipped to Rochester.

R. G. Kilbon was manager, employing an average force of 34 men at the quarry.

NICKEL AND COPPER

Falconbridge Nickel Mines, Limited

Falconbridge Nickel Mines, Limited, was incorporated in August, 1928, with an authorized capitalization of 5,000,000 shares of no par value, of which 3,337,507 have been issued. The officers and directors are: J. Gordon Hardy, president; Thayer Lindsley, H. Whittingham, and L. K. Brindley, vice-presidents; A. G. Fulton, secretary; J. C. Rix, treasurer; Halstead Lindsley, W. G. Malcolm, and W. S. Morlock, directors. The head office is at 25 King Street West, Toronto. The mine address is Falconbridge.

The company operates a nickel-copper mine, concentrator, and smelter in the Sudbury district. The refinery in Norway, which has been in German hands since the occupation of that country, was reported to be intact early in 1944.

Operations in the Sudbury district were continued throughout 1943. The arrangement with the International Nickel Company of Canada, Limited, for the refining of the Falconbridge ore, was continued. The following is taken from the manager's report for the year ending December 31, 1943:—

Tonnage of ore hoisted and of metals produced was substantially higher than that recorded for any previous year. As forecast in the report of last year, completion of the second war-time expansion programme was not accomplished until the end of the first quarter of the year under review. Some initial difficulties required remedial action but otherwise, excepting for interruptions noted under the heading "Ore Treatment," the smelter was operated satisfactorily on a two-furnace basis for the last nine months of the year.

Mine Development

The chief items of development are listed as follows:—

	Feet
Drifting and crosscutting (including slashing)	10,858
Stope raising	5,264
Fill-pass raising	260
Ore-pass raising	26
Ventilation raise	400
Shaft-sinking (No. 5)	47
Diamond test-drilling	8,100
	cu. ft.
Station-cutting	50,738

In addition, some raising was done in preparation for deepening No. 1 shaft, and a hoist was moved from No. 5 and installed at No. 1 for this sinking operation.

The greater part of the ore zone development was confined to easterly advances on the 1,400-, 1,575-, 1,925-, and 2,100-foot levels. This work disclosed the continuation of a substantial ore body of fair width but comparatively low grade, lying east of a narrow non-commercial area, which borders the present easterly workings of the mine.

The 1,925-foot level was also extended westerly to outline a possible stoping area lying west of No. 1 shaft at this horizon.

Drifting on the 1,750-foot level as recorded in the report for last year was continued both easterly and westerly in 1943. The westerly advance had to give way to demands of production and was discontinued in July without any definite conclusion to be reached from results thus far obtained. The easterly advance was for the greater part of the year through a section known to be lacking in ore possibilities. However, the drift is now approaching an area which is considered to be favourable, and encouraging conditions were revealed toward the year end.

Though reserve tonnage shows little change from 1942, the grade is slightly reduced owing to the new ore being of lower grade than that extracted during the period.

In opening new stopes, the greatest effort was on the 1,400-foot level, which accounted for a length of 1,647 feet of the total 2,646 feet. Practically all of the remainder of this development was on the 1,000- and 1,925-foot levels at 454 and 480 feet, respectively.

After excavating a sump below the 3,150-foot level, sinking of No. 5 shaft was discontinued and a start was made to open up the 2,625- and 2,800-foot levels. While all preparations are complete to deepen No. 1 shaft, sinking had not actually been commenced at the year end.

Connections were driven which completed the No. 5 fill-pass system from surface to the 1,750-foot level. Since the scraping limit has been reached at the surface opening of this pass, it is proposed to tap the overburden layer some 550 feet to the northeast for a further source of supply. To this end a crosscut is being driven at the 325-foot level in which a conveyer belt will be installed to transport this new supply horizontally to the existing fill-pass system.

The mine ventilation system was further extended during the year.

Ore Production

	Tons
Broken ore in stopes as of December 31, 1942.....	53,311
Ore broken in stopes, 1943.....	731,344
Total.....	784,655
Ore from stopes, 1943.....	736,892
Broken ore balance, December 31, 1943.....	47,763

With the inclusion of development ore, the tonnage of ore hoisted is as shown below:—

	Tons
Ore from stopes, 1943.....	736,892
Ore from development, 1943.....	70,909
Total ore hoisted, 1943.....	807,801

Ore Reserves

Data furnished by some 12,000 feet of diamond-drilling on outside holdings in the district added over 400,000 tons to the ore reserves of these properties. Compilation of ore reserves at the end of the year shows the over-all picture to be slightly better than that of a year ago.

Ore reserves as of December 31, 1942:	Tons
Falconbridge mine.....	7,436,000
Outside properties.....	4,250,000
Total.....	11,686,000
Less: drawn during 1943.....	807,801
New ore added, 1943:	10,878,199
Falconbridge mine.....	986,801
Outside properties.....	424,000
Ore reserves as of December 31, 1943 ¹	12,289,000

A dilution factor, developed from mining experience over a period of years, has been applied to calculation of Falconbridge mine ore reserves. Outside properties ore reserves are calculated from diamond-drilling results.

Ore Treatment

Operation of the treatment plants was satisfactory throughout the year. For the first quarter the operation followed the same pattern as for the preceding year. However, during the remainder of the year, a marked improvement in metallurgical efficiency was experienced due to the greater flexibility afforded by increased smelting capacity. The result is shown by a comparison of the last nine months of the year with a like period in 1942, which indicates that, while tonnage treated increased but little over 5 per cent., the production was about 11 per cent. higher with no change in grade of ore.

A complete shut-down for approximately one week was required in March to tie in new installations with the existing plant. A slow-down occurred in July when one furnace was out of production for a 15-day period following severe damage to essential equipment during a heavy electrical storm.

¹Averaging 1.74 per cent. nickel and 0.93 per cent. copper; includes outside properties.

After deducting waste picked, which this year amounted to only 326 tons, and applying adjustments in aboveground storage, treatment plant performance develops as shown below:—

	Tons
Total ore treated (made up of milling ore, 514,724 tons, 63.8 per cent.; smelting ore, 292,324 tons, 36.2 per cent.).....	807,048
	short tons
Matte produced.....	22,699.4
Nickel in matte produced.....	11,597.4
Copper in matte produced.....	6,046.6
NICKEL:	pounds
Metals recovered per ton treated.....	28.74
Metallurgical loss per ton treated (tailings plus slag plus stack losses).....	3.58
Total.....	32.32
	per cent.
Indicated grade of ore hoisted.....	1.62
Sample grade.....	1.61
COPPER:	pounds
Metals recovered per ton treated.....	14.98
Metallurgical loss per ton treated (tailings plus slag plus stack losses).....	2.83
Total.....	17.81
	per cent.
Indicated grade of ore hoisted.....	0.89
Sample grade.....	.86

Construction

All of the installations listed as being included in the second expansion programme were completed and put in service. A hoist of sufficient capacity to serve the deepened No. 1 shaft was purchased during the year, and its installation entailed the erection of a new concrete and tile hoist and compressor building. This work was all but complete at the end of the year.

Plans were made and authorization received to erect a modern change-house for ore dressing plant and concentrator employees. Owing to delays from one cause or another, only the foundation was completed this year.

The bowling alley mentioned in last year's report was finished and opened in the month of May.

General

There is considerable satisfaction in recording the improved metallurgical efficiency derived from betterments in the smelting plant. Unfortunately, however, the price of some commodities has increased, the quality of other important supplies has fallen off, and this, coupled with a lowering efficiency as a result of many of the newer employees being unaccustomed to the work in which they are now engaged, has wiped out the advantage thus gained.

Ernest Craig is manager of the Sudbury district operations; J. R. Gill is assistant manager; John Metz is mine superintendent; and R. C. Mott is superintendent of the concentrator and smelter.

An average force of 1,223 persons was employed in 1943. Of these, 469 men were in the mine, 380 men in the concentrator and smelter, and 374 persons on other surface work.

Harlin Nickel Mines, Limited

Harlin Nickel Mines, Limited, was incorporated in October, 1942, with an authorized capitalization of 40,000 shares of \$1 par value, all of which have been issued. The company is a wholly owned subsidiary of Clifton Consolidated Mines, Limited. The officers are: Henry J. Martin, president, and S. C. McLaughlin, secretary-treasurer. The head office is at 357 Bay Street, Toronto. The mine address is Porquis Junction.

The company acquired an option on the Alexo mining property in Clergue and Dundonald townships, district of Cochrane. The mine lies half a mile south of the branch line of the T. and N.O. Railway and the highway from Porquis Junction to Timmins and is about 28 miles northeast of Timmins.

The shaft, sunk by former operators, on the northeast quarter of the south half of lot 1, concession III, Dundonald township, is reported to be about 310 feet deep, with levels at 40, 75, 120, and 265¹ feet. Open-cutting had been done above the 40-foot level and stoping above the 75-foot and 120-foot levels.

The present operators began work on June 1 and continued to December 31. A headframe, ore bin, power-house, and garage were built.

Underground development work in 1943 consisted of 152 feet of drifting and 25 feet of raising on the 40-foot level and 50 feet of raising on the 120-foot level.

There were 2,154 tons of nickel-copper ore mined and shipped to the International Nickel Company of Canada, Limited, for treatment.

J. G. Harkness was manager, employing an average force of 15 men.

International Nickel Company of Canada, Limited

The authorized capitalization of the International Nickel Company of Canada, Limited, consists of \$27,679,900 of preferred shares of \$100 and \$5 par value and 15,000,000 shares of common stock of no par value.

The officers are: Robert C. Stanley, chairman of the board and president; John F. Thompson, executive vice-president; Paul D. Merica, R. L. Beattie, and D. Owen Evans, vice-presidents; John C. Nicholls, assistant to the president; Henry S. Wingate, secretary; Wm. J. Hutchinson, treasurer.

The directors whose term expires in 1944 are: J. P. Bickell, Hon. H. Cockshutt, Wm. N. Cromwell, D. Owen Evans, Wm. J. Hutchinson, Rt. Hon. Lord McGowan, R. H. McMaster, Rt. Hon. Lord Melchett, Paul D. Merica, Thomas Morrison, Grant B. Shipley, J. C. Traphagen, and Henry S. Wingate.

The directors whose term expires in 1945 are: James L. Ashley, R. L. Beattie, John F. Dulles, Reg. Halladay, John R. Lamb, H. R. MacMillan; R. S. McLaughlin, H. C. F. Mockridge, Robt. C. Stanley, Andrew V. Stout, John F. Thompson, and Rt. Hon. Lord Weir of Eastwood.

The executive office is at 67 Wall Street, New York, N.Y., and the general offices are at Copper Cliff. The Toronto office is at 25 King Street West.

This company and subsidiary companies operate hydro-electric plants at High Falls, Big Eddy, Wabagoshik, and Nairn Falls, Ont.; nickel-copper mines in the Sudbury district, Ont.; smelters at Copper Cliff and Coniston, Ont.; refineries at Copper Cliff and Port Colborne, Ont., Acton, England, and Clydach, Wales; rolling mills at Birmingham, England, Huntingdon, W. Va., and Glasgow, Scotland; a colliery at Pontardawe, Wales; and a foundry at Bayonne, N.J. The company also owns a nickel deposit at Kolosjoki, Finland, which was being developed prior to November, 1939.

The following information is extracted from the annual report of the company covering the year ending December 31, 1943:—

Since the outbreak of war in 1939, the objective of this company has been to meet effectively the war-time requirements of the governments in Ottawa, London, and Washington. We have striven to provide the maximum supply of nickel and nickel products, copper and platinum metals, and through our technical knowledge of uses to assist in directing the supplies into those fields of application where they would be of greatest value.

Our central effort has been to expand the supplies of nickel. Deliveries of nickel in all forms derived from our own mine production amounted in 1943 to 265,000,000 pounds, representing an increase of 55,000,000 pounds over 1939. In order to provide this enlarged supply, the tonnage of our ore mined was forced from 7,273,000 tons in 1939 to 12,105,000 tons in 1943. Had it not been for shortage of man-power during the last six months of the year the production would have been appreciably higher. As an emergency war measure we have also refined a

¹The depth of this level was given as 240 feet in Vol. XLVI, 1937, pt. 1, page 223. This was later found to be incorrect.

volume of nickel originating from the mines of others. Our own deliveries, together with this volume refined for others, totalled nearly 300,000,000 pounds.

The company's output of copper has been subordinated to the war needs for expanded nickel production. Deliveries of our copper in all forms amounted to 265,000,000 pounds, comparable with 334,000,000 pounds in 1939. Our own deliveries, together with the volume of copper which we refined for others, totalled nearly 316,000,000 pounds.

Deliveries of platinum metals reached the highest level in the company's history. Government policy precludes a more exact report. Deliveries of gold and silver amounted to 58,331 ounces and 1,768,052 ounces, respectively, and of selenium and tellurium to 80,984 pounds and 6,779 pounds, respectively.

Our rolling mills and foundries in Great Britain and the United States established their highest record of output of alloys of nickel-copper. The total deliveries of mill and foundry products amounted to \$4,900,000 pounds, comparable with 38,800,000 pounds in 1939.

During the war the technical and operating resources of the company have been devoted also to the production of a variety of special war *matériel*. It is not advisable under present conditions to publicize the details in regard to these extraordinary war activities.

The capital expenditures in 1943 amounted to \$5,445,248, comparable with \$12,009,497 in 1942, and it is estimated that a further \$6,000,000 will be required in 1944. During the past five years, over \$43,000,000 has been outlaid by the company to expand production.

Net profit for the year after all charges and provisions was \$31,127,204. From this profit, there were disbursed \$1,933,899 for preferred dividends and \$29,156,338 for common dividends at the rate of \$2.00 per share, a total of \$31,090,237. During the past five years nearly 91 per cent. of the net profit has been disbursed in dividends.

R. L. Beattie was general manager; I. J. Simcox, technical assistant to the vice-president; J. R. Gordon, assistant to the vice-president; E. A. Collins, assistant to the general manager; R. D. Parker, general superintendent; F. Benard, assistant to the general superintendent; H. J. Mutz, superintendent of mines; A. E. O'Brien, superintendent of the Frood mine, C. H. Stewart, superintendent of the Frood-Stobie open pit; T. M. Gaetz, superintendent of the Creighton mine; Chas. Lively, superintendent of the Levack mine; L. Ennis, superintendent of the Garson mine; F. F. Todd, superintendent of the Murray mine; J. B. Fyfe, superintendent of the Stobie mine; E. Herbert Rose, superintendent of the Copper Cliff concentrator; R. M. Coleman, superintendent of the Copper Cliff smelter; E. T. Austin, superintendent of the Coniston smelter; and R. H. Waddington, superintendent of the Copper Cliff refinery.

During 1943 an average of 3,546 persons was employed at the Copper Cliff concentrator and smelter; 613 at the Copper Cliff refinery; 465 at the Coniston smelter; 1,384 at the Creighton mine; 1,791 at the Frood mine; 622 at the Garson mine; 674 at the Levack mine; 106 at the Murray mine; 92 at the Stobie mine; 805 at the Frood-Stobie open pit; and 46 at the Lawson quarry.

Nickel Offsets, Limited

Nickel Offsets, Limited, was incorporated in April, 1938, with an authorized capitalization of 3,000,000 shares of no par value, of which 1,873,872 have been issued. The company acquired the assets of Sudbury Offsets, Limited, on a basis of one share of the new company for five of the old. The officers and directors are: D. W. Lang, president; Albert Wende, vice-president and managing director; D. R. Michener, secretary-treasurer; Ralph Hochstetter, S. H. Knox, and H. W. Wende, directors. The head office is at 372 Bay Street, Toronto. The mine address is Chelmsford.

The company holds 57 claims, 2,140 acres, in Foy and Bowell townships, district of Sudbury.

Operations continued throughout 1943. The 3-compartment, vertical shaft on claim S. 5,668 was deepened from 650 to 1,130 feet, and new levels were established at 800, 950, and 1,100 feet. The following table shows the development work done during the year and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
200-foot.....		454		186		138
350-foot.....	75	953		165	160	160
500-foot.....				266		143
650-foot (station only).....						
800-foot (station only).....						
950-foot (station only).....						
1,100-foot (station only).....						

Fourteen diamond-drill holes, totalling 3,709 feet, were drilled from underground.

A building to house a screening plant was erected, and a 3- by 6-foot Allis-Chalmers vibrating screen, with line shafting and conveyers, having a capacity of 300 tons daily, was installed. The plant operated from September 23 to the end of the year.

A total of 5,868 tons of nickel-copper ore was mined. Some 6,218 tons were screened, and 5,733 tons were shipped to the International Nickel Company of Canada, Limited, for treatment.

Walter Riddell was superintendent, employing an average force of 40 men, of whom 17 were underground.

Ontario Nickel Mines, Limited

Ontario Nickel Mines, Limited, was incorporated in August, 1943, with an authorized capitalization of 4,000,000 shares of \$1 par value, of which 1,700,005 have been issued. The company succeeded the Ontario Nickel Corporation, Limited. The stock transfer was made on a basis of one new share for five old. The officers and directors are: J. R. O'Neill, president; J. H. Adams, vice-president; M. H. Johnson, secretary-treasurer; G. E. Buchanan, W. G. Chipp, and Donald F. McDonald, directors. The head office is at 350 Bay Street, Toronto. The mine address, when operations were in progress, was Sudbury.

The company's holdings include the Moose Lake property in MacLennan township, district of Sudbury, several miles north of the Falconbridge mine, and the Cuniptau mine in Strathy township, district of Nipissing. The Cuniptau mine has been idle since 1938.

The Moose Lake mine was operated by the Ontario Nickel Corporation, Limited, from January 1 to June 30. The mine is served by a vertical, 2-compartment shaft, 265 feet deep, on claim F. 6. There is a level at 250 feet and a sublevel at 115 feet. The following development work was reported to have been done at the mine between January 1 and May 30: 115-foot sublevel, 51 feet of crosscutting; 250-foot level, 1,676 feet of drifting and 231 feet of raising.

An ore bin, crusher-house, and conveyer-belt runway were in course of construction when the operation ceased. A ½-yard jaw-crusher and a 45-foot conveyer belt, with a 50 h.p. and a 5 h.p. motor, had been installed in the unfinished buildings.

About 500 tons of nickel-copper ore was shipped.

F. E. Towsley was in charge of the work until May 10 and was succeeded by D. D. McDonald. An average of 21 men was employed.

SILVER AND COBALT

Ankarlo and Bell

George Ankarlo and Frank A. Bell leased the Silver Bar mine on lot 5, concession IV, Coleman township, Cobalt area, district of Timiskaming, from J. C. Dean and carried on operations from October 20 to the end of 1943.

A 17-foot headframe and hoist-house were built at No. 3 shaft.

From 3 to 7 men were employed during the period under the direction of Allen Stewart, of Cobalt.

Austin Mining Syndicate

The Austin Mining Syndicate, composed of A. B. Pilliner and associates, was formed in 1943 and in the latter part of October took over under lease the operation of the Nerlip mine in Coleman township, Cobalt area, district of Timiskaming. It also acquired the Silver Cliff property in Coleman township and began to recondition the old mill.

A. B. Pilliner is manager, and C. H. Mathews is co-manager and treasurer of the syndicate. The post office address is Cobalt. About 16 men were employed.

Bellayre Mineral Interests, Limited

Bellayre Mineral Interests, Limited, was incorporated in September, 1942, with an authorized capitalization of 40,000 shares of \$1 par value, of which 20,002 have been issued. The officers and directors are: B. W. Newkirk, president; Charles Conacher, vice-president; J. W. S. Dixon, secretary; W. R. Marchmont, treasurer; Charles Smith, director. The head office is at 710 Excelsior Life Building, Toronto. The mine address is Cobalt.

The company carried on operations from February 15 to September 15 on the Bellellen silver mine on claim R.L. 470 in South Lorrain township, district of Timiskaming. The old buildings and the steam plant and equipment on the property were repaired, and a 4- by 10-foot air receiver was installed.

Six diamond-drill holes, totalling 430 feet, were drilled from surface.

There are three shafts on the property, sunk by former operators: No. 1 shaft, 450 feet deep; No. 2 shaft, 100 feet deep; and No. 3 shaft, 40 feet deep.

The No. 1 or main inclined shaft was dewatered, and 50 feet of drifting was done on the 60-foot level. The following table shows the total amount of lateral development work that has been done from this shaft:—

Level	Drifts	Crosscuts
	feet	feet
60-foot.....	110
100-foot.....	400
200-foot.....	600
300-foot.....	750	150
400-foot.....	225
450-foot.....	50

About 3,200 pounds of ore was produced.

Seven men were employed under the direction of J. W. Brydges.

Bond and Douglas

S. B. Bond and R. D. Douglas continued to operate the University mine on claim J.B. 8 in Coleman township, Cobalt area, district of Timiskaming, under lease throughout 1943.

The No. 1 shaft, inclined at about 70 degrees, was deepened to 243 feet on the incline. A new level was established at 215 feet from surface, and 180 feet of drifting and 140 feet of raising were done. About 240 feet of crosscutting was done on the 171-foot level.

A total of 3,200 tons of ore was mined and hoisted. Of this, 39 tons was crude cobalt ore and 6 tons was crude high-grade silver ore. Cobalt milling ore treated in the O'Shaughnessy mill produced 6 tons of concentrates.

An average force of 7 men was employed under the direction of S. B. Bond. The mine address is Cobalt.

Cobalt Products, Limited

Cobalt Products, Limited, was incorporated in June, 1938, with an authorized capitalization of 40,000 shares of no par value, which was increased to 100,000 shares of no par value in December, 1939. The officers are: Jos. McDonough, president; Margaret Masterson, secretary-treasurer; J. E. McDonough and A. K. Roberts, directors. The head office is at 67 Yonge Street, Toronto. The mine office is at Cobalt.

The Foster mine in Coleman township, Cobalt area, district of Timiskaming, was operated under lease till February 15, 1943, when work was suspended.

The Agaunico mine in Bucke township and the Provincial and Savage mines in the Gillies limit were operated until September 15. No development work was done on any of the properties.

The mill on the old Colonial mine property in Coleman township was operated from January 1 to September 15 and treated 21,194 tons of ore from the company's operations.

An average force of 52 men was employed. Of these, 19 were employed underground at the Provincial and Savage mines, 6 underground at the Agaunico mine, and 7 in the mill.

On September 16, the mill and all the company's holdings in the Cobalt area were sold to the Silanco Mining and Smelting Corporation, Limited. Information regarding the latter company appears on page 194 of this report.

Cochrane Cobalt Mining Company

The Cochrane Cobalt Mining Company is a partnership composed of Wm. M. Adams and Louis Cadesky, formed in April, 1943, with a capital of \$10,000. An office is maintained at 45 Richmond Street West, Toronto. The mine address is Cobalt.

The company owns the Cochrane mine on the east half of the southwest quarter of the north half of lot 1, concession III, Coleman township, Cobalt area, district of Timiskaming.

There are two 2-compartment shafts on the property, sunk by former operators. No. 1 shaft, which is vertical, is 220 feet deep with levels at 100 and 200 feet. No. 2 shaft, inclined at about 50 degrees, has a vertical depth of 632 feet with levels at 100, 200, 300, 550, and 632 feet from surface.

Operations by the present owners began on April 7, 1943, and continued to July 31. A timber headframe, 40 feet high, and a 14- by 24-foot hoist-house were built at the No. 2 shaft. An 8- by 12-inch, single-drum Jenckes hoist was installed. The workings were dewatered and the shaft was reconditioned. A connection on the 100-foot level with a shaft on the adjoining Duchess property was repaired. No development work was done. About 90 tons of mill rock were mined from the upper levels.

From 4 to 10 men were employed during the period of operation. The work was done under the direction of Wm. M. Adams.

Cross Lake Lease

The partnership known as the Cross Lake Lease operates the O'Brien mine in Coleman township, Cobalt area, and the Miller Lake O'Brien mine in Nicol and Haultain townships, Gowganda area, district of Timiskaming. The properties are held under lease from M. J. O'Brien, Limited. The partners are: C. J. Donegan, D. M. McLeod, T. Jackson, and Lorne Umphrey, all of Cobalt.

Miller Lake O'Brien Mine

The Miller Lake O'Brien mine was operated throughout 1943. The vertical, 2-compartment No. 10 winze, which is collared at the 900-foot level, was sunk a further 35 feet to a total depth of 985 feet from surface, and a level was established at 975 feet. One hundred feet of drifting was done on the new level. There were 23 diamond-drill holes, totalling 1,519 feet, drilled from underground during the year.

About 80 tons of silver ore were hoisted.

An average force of 16 men was employed. C. M. Davis was superintendent. The mine address is O'Brien.

O'Brien Mine

Operations at the O'Brien mine were continued throughout 1943. No development work was done. Diamond-drilling amounted to 27 holes, totalling 1,663 feet, all from underground. There were 546 tons of ore mined, of which 106 tons was milling ore.

T. Jackson was superintendent, employing 23 men. The mine address is Box 390, Cobalt.

Norman B. Davis

Norman B. Davis, 512 Victoria Building, Ottawa, continued operations throughout 1943 at the cobalt property at Werner lake in the Red Lake mining division, Patricia portion of the district of Kenora. The workings are on claim K.R.L. 9,383.

During the first part of the year, a 25-ton milling plant, driven by a 56 h.p. gasoline engine, was built and equipped. The mill machinery includes the following: No. 8 Mitchell jaw-crusher, 3- by 4-foot Denver ball mill, 8- by 12-inch Simplex Denver jig, and two No. 6 Wilfley tables.

Other buildings erected included a power-house, a shed for drying concentrates, a bunk-house, and warehouses.

Two diamond-drill holes, totalling 130 feet, were drilled from surface.

An adit was driven from the hill-side to the vein, a distance of 42 feet, and a 2-compartment, vertical shaft was collared and sunk 20 feet. A 5- by 6-inch, single-drum Canadian Ingersoll-Rand steam hoist was installed. Steam was supplied by two vertical tubular boilers, having a combined capacity of 38 h.p. The boilers also supplied steam to the mill for drying the concentrates.

The mill operated from June 3 to December 20 and treated 2,500 tons of cobalt ore that had been stock-piled during previous operations. The concentrates were shipped to Kenora by airplane.

K. R. North was superintendent, employing 17 men. The address is care of Canadian Pacific Air Lines, Kenora.

Grant Cobalt Mines

J. D. Grant, of Cobalt, carried on operations at the Lumsden mine, in Coleman township, Cobalt area, district of Timiskaming, from June 10 to

October 15, 1943, under the name of Grant Cobalt Mines. An ore bin was built. The mine was dewatered and sampled.

An average of 7 men was employed during the period of operation under the direction of B. Sopha.

Lapa Cadillac Gold Mines (1937), Limited

In May, 1943, a syndicate headed by J. Koza, of Cobalt, dewatered the No. 1 shaft of the Columbus mine, Coleman township, Cobalt area, district of Timiskaming, to the 240-foot level.

No. 1 shaft is 255 feet deep, with levels at 75, 150, and 240 feet. A winze, collared at the 240-foot level, is 175 feet deep and has a level at 360 feet from surface. No. 2 shaft is 400 feet deep, with levels at 90 and 400 feet.

In August, Lapa Cadillac Gold Mines (1937), Limited, took over the lease on the property and continued the operation till November 6. They dewatered the No. 2 shaft and built a 40-foot headframe. Two diamond-drill holes, totalling 1,198 feet, were drilled from the 400-foot level. No development was done and no ore was mined.

J. G. Pierdon was manager, employing 6 men during the period of operation.

McCann and Binks

The Trout Lake mine on claims H.R. 103, 104, and 107 in South Lorrain township, district of Timiskaming, was operated intermittently under a lease in the name of W. D. Taylor from January 1 to June 24. J. J. McCann and J. R. Binks then bought the property from the Mining Corporation of Canada, Limited, and continued operation till August 1.

A total of approximately 30 tons of crude ore and concentrates was produced.

W. D. Taylor was in charge during the first half of the year and was succeeded by Hugh McDonald.

An average of 9 men was employed during the period of operation. The mine address was Cobalt.

Raoul Mercier

Raoul Mercier, of Cobalt, leased the No. 18 vein of the Coniagas mine, the dump at the No. 2 shaft of the Trethewey mine, and the dump at the Michael shaft of the Cross Lake mine, all in Coleman township, Cobalt area, district of Timiskaming.

From about November 1 to the end of the year, the No. 5 shaft area of the Foster mine was worked under a sublease from C. V. J. O'Shaughnessy. About 35 feet of drifting and 36 feet of raising was done on the third level of the Foster mine.

Twenty-nine tons of high-grade ore and concentrates were obtained from the various operations.

An average force of 3 men was employed over the period of operation.

Michelini, Dorpetti, Gabani, and Le Clair

E. Michelini, G. Dorpetti, L. Gabani, and A. Le Clair, of Cobalt, continued to operate the Silver Bar mine on lot 5, concession IV, Coleman township, Cobalt area, district of Timiskaming, under lease from J. C. Dean from January 1 to April 1, 1943. No development work was done. They obtained 105 tons of milling ore.

Four men were employed during the operation.

Murphy and Landry

Ambrose Murphy and A. P. Landry, of Cobalt, continued operations on the Coniagas and Trethewey mines in Coleman township, Cobalt area, district of Timiskaming, from January 1 to March 18. No development work was done.

The silver-cobalt ore obtained was sent to the Cobalt Products mill and Deloro for treatment. Two men were employed underground.

After the operation ceased, the properties were sold to the Sanymac Mining and Development Company, Limited. An account of the latter company's operations appears on page 194 of this report.

Nerlip Mines, Limited

Nerlip Mines, Limited, continued operations at the Nerlip mine in Coleman township, Cobalt area, district of Timiskaming, from January 1 to October 23, when the property was leased to the Austin Mining Syndicate.

Two new levels were established from the winze at depths of 860 and 895 feet, and some drifting, crosscutting, and raising were done.

About 1,200 tons of mill rock were hoisted, from which 340 tons were shipped.

A. B. Pilliner was manager, employing 10 men.

An account of the operations of the Austin Mining Syndicate appears on page 189 of this report.

C. V. J. O'Shaughnessy

C. V. J. O'Shaughnessy continued to operate his custom mill on the old O'Brien property at Cobalt from May 1 to November 1 and treated 5,498 tons of ore.

Eight men were employed during the period of operation.

Foster Mine

C. V. J. O'Shaughnessy had a lease on the No. 5 shaft area of the Foster mine in Coleman township, Cobalt area, district of Timiskaming, from September 15 to December 31, 1943.

The property was subleased to Raoul Mercier on November 1.

Peterson, Armstrong, and McCready

P. Peterson, H. O. Armstrong, and W. E. McCready, of Cobalt, continued work from January 1 to November 30 under lease on the main property of the Hudson Bay Mines, Limited, on the northeast quarter of the north half of lot 6, concession VI, Coleman township, district of Nipissing. About 639 tons of silver-cobalt ore were mined.

A. B. Pilliner and Associates

A. B. Pilliner and associates bought the Genesee property, in Bucke township, Cobalt area, district of Timiskaming, in 1943. They began operations on October 25 and continued till December 15. The shaft was dewatered and re-conditioned, and about 50 tons of ore were hoisted.

The work was done under the direction of A. B. Pilliner. Eight men were employed. The address is Cobalt.

Albert Presse

Albert Presse, Box 385, Cobalt, had a lease in 1943 on claim R.L. 404 of the Nipissing property, Coleman township, Cobalt area, district of Timiskaming, and continued to operate open cuts.

About 52 tons of crude cobalt ore and 20 tons of concentrates were recovered from mill rock.

Four men were employed throughout the year.

Sanymac Mining and Development Company, Limited

The Sanymac Mining and Development Company, Limited, was incorporated in October, 1937, with an authorized capitalization of 3,000,000 shares of \$1 par value, of which 2,604,282 have been issued. The officers and directors are: G. R. McLaren, president and general manager; W. F. Wood, vice-president; D. M. Maddock, secretary-treasurer; Charles A. Schier, R. W. Bross, and Ambrose Murphy, directors. The head office is at 45 Richmond Street West, Toronto. The mine address is Cobalt.

Red Jacket Mine

The company continued operations under lease at the Red Jacket mine in the Gillies limit, Cobalt area, district of Timiskaming, from January 1 to March 15. The vertical, 2-compartment No. 1 winze, which had been started in 1942 at the 100-foot level west of the main shaft, was continued to a total depth of 45 feet. Ten feet of drifting was done on the 100-foot level.

About 255 tons of ore were mined and treated in the smelter, which operated intermittently between February 15 and March 15.

Following the cessation of operations, the surface plant was dismantled and the usable material and equipment were moved to the Coniagas and Trethewey properties.

Four men were employed. Wm. E. Seed was in charge.

Coniagas and Trethewey Properties

The Sanymac Mining and Development Company bought the Coniagas and Trethewey properties in Coleman township, Cobalt area, district of Timiskaming, from Ambrose Murphy and A. P. Landry early in 1943. Operations were begun on June 1 and continued to the end of the year. On the Coniagas property, claim J.B. 6, timber for a hoistway and a manway was installed through the open stope on No. 2 vein from surface to the 225-foot level, a distance of 191 feet, and a 60-foot headframe was built. About 15 feet of crosscutting was done on the 225-foot level.

A hoist-house, a dry-house, and an office were erected.

Four men were employed during the period under the direction of A. P. Landry.

Silanco Mining and Smelting Corporation, Limited

The Silanco Mining and Smelting Corporation, Limited, was incorporated in August, 1943, with an authorized capitalization of 1,000,000 shares of \$1 par value, of which 516,141 have been issued. The officers and directors are: S. A. Morse, president; W. E. Mitchell, vice-president; G. E. Buchanan, secretary-treasurer; Samuel Ciglen, assistant secretary-treasurer; V. B. Rumley and H. T. Leslie, directors. The head office is at 45 Richmond Street West, Toronto. The mine address is Cobalt.

In the middle of September, 1943, the corporation took over the operations of Cobalt Products, Limited, in the Cobalt area, district of Timiskaming. The following properties were included: the Beaver, Temiskaming, Penn-Canadian, Colonial, Provincial, and Savage mines and parcels Nos. 6,125 and 6,147 in Coleman township, and the Agaunico and Ruethel mines and parcels Nos. 3,305 and 4,963 in Bucke township.

Cobalt Products, Limited, had been operating the mill on the Colonial property and the Provincial, Savage, and Agaunico mines when the transfer was made. The Silanco Mining and Smelting Corporation continued the operation for the rest of the year. No development work was done on any of the properties. A total of 9,474 tons of ore was mined and milled.

In November and December, the Dotsee Cobalt mine in Bucke township was dewatered and sampled.

The work is done under the direction of the Mining Research Corporation, Limited. Louis Cadesky is general manager, and A. J. McLaren is resident engineer. A force of 17 men was employed.

J. H. Sutherland

J. H. Sutherland, of Cobalt, continued to lease the Lawson mine in Coleman township, Cobalt area, district of Timiskaming, throughout 1943.

Development work consisted of 12 feet of drifting and 219 feet of raising. About 192 tons of crude cobalt and silver ore and 2,084 tons of mill rock were hoisted. The mill rock was sent to the O'Shaughnessy mill for treatment.

Thirteen men were employed under the direction of R. J. MacArthur. The mine address is Cobalt.

Sycee Cobalt Silver Mines, Limited

Sycee Cobalt Silver Mines, Limited, was incorporated in July, 1935, with an authorized capitalization of 1,000,000 shares of \$1 par value, of which 963,440 have been issued. The officers are: Arnold Hoffman, president; E. E. Ott, vice-president; B. R. P. MacKenzie, secretary. The head office is at 36 Toronto Street. The mine address is Cobalt.

The company holds three claims, 60 acres, in concession VI, Coleman township, Cobalt area, district of Timiskaming. The property lies immediately east of the Nipissing claim R.L. 402 and north of the Violet mine.

The operation, which was conducted from the Nipissing No. 402 shaft, was continued from January 1 to September 1. About 346 feet of crosscutting was done on the 480-foot level. Seven diamond-drill holes, totalling 2,460 feet, were drilled from underground.

Eight men were employed under the direction of D. J. Russell.

Windsor-Cobalt Silvers, Limited

Windsor-Cobalt Silvers, Limited, was incorporated in September, 1927. The authorized capitalization is 2,000,000 shares of \$1 par value, of which 1,600,000 have been issued. The officers and directors are: A. D. McArthur, president and general manager; J. A. McArthur, vice-president; D. C. Walmsley, secretary-treasurer; B. L. Wrench and F. Harrington, directors. The head office is at 9 Toronto Street, Toronto. The mine address is North Cobalt.

The company operated the Cobnor mine on lot 14, concession I, Bucke township, Cobalt area, district of Timiskaming, under lease from April to November. Fifty feet of drifting and 6 feet of crosscutting were done on the 200-foot level.

The mill operated from April 1 to November 20. Three tons of concentrates were shipped to the Temiskaming Testing Laboratories.

Geo. A. Ellis was manager, employing 5 men.

TALC

Canada Talc, Limited

Canada Talc, Limited, has an authorized capitalization of 2,500 shares of \$100 par value, all of which have been issued. The officers and directors are: E. S. James, president; Roy Taylor, vice-president, secretary-treasurer, and general manager; A. R. Cameron, director. The head office and mine office are at Madoc.

The company owns the Conley (or Connolly) and Henderson mines in Huntingdon township and a claim in Elzevir township, Hastings county. The combined holdings consist of 4 claims and total 750 acres.

Operations at the two mines continued throughout 1943. The following table shows the depths of the shafts on the two properties:—

Shaft or winze	No. of compartments	Depth
		feet
CONLEY MINE:		
No. 1 shaft.....	2	431
7th level winze.....	2	31
No. 2 shaft (escapement way).....	1	185
No. 3 shaft.....	2	383
ENDERSON MINE:		
No. 4 shaft.....	2	456

The above shafts are all vertical.

The two mines are connected by a drift 748 feet long from the 4th level of the Conley mine. A raise 21 feet high runs from the 5th level of the Henderson mine to the end of this drift.

The following table shows the development work done during 1943 and the total:—

Level	Drifts		Crosscuts		Raises	
	1943	Total	1943	Total	1943	Total
	feet	feet	feet	feet	feet	feet
CONLEY MINE						
No. 1 SHAFT:						
1st ¹		310				
2nd ¹		345				180
3rd ¹		1,040		420		150
4th ² (255 feet).....		650		80		90
5th ³ (300 feet).....		625		90		130
6th ³ (360 feet).....		275		75		180
7th ³ (420 feet).....		250		90		190
7th LEVEL WINZE:						
8th ³ (451 feet).....		225				160
No. 3 SHAFT:

2nd ¹		485		130		220
3rd ¹		575		90		245
4th ¹		625		185		265
5th ¹		690		210		330
6th (372 feet).....		670		275		485
7th (264 feet).....	74	264	14	49		

¹The figures given represent the original development footages. The ore has been mined out and the workings caved.

²The 4th level from No. 1 shaft and the 1st level from No. 3 shaft are the same level.

³These levels are flooded, and the depths given are approximate.

A total of 10,991 tons of ore was mined, and 11,051 tons were milled. An average force of 14 men was employed throughout the year.

METALLURGICAL WORKS

Algoma Steel Corporation, Limited

The Algoma Steel Corporation, Limited, has an authorized capitalization of 27,000 shares of preferred stock of \$100 par value and 1,000,000 shares of common stock of no par value. At December 31, 1943, the number of preferred shares outstanding was 19,350, and the number of common shares 412,700. The officers and directors are: Sir James H. Dunn, president and chairman; William Jeffrey, secretary; E. W. Shell, treasurer; W. C. Franz, John A. McPhail, E. G. McMillan, John W. Hobbs, Thomas Arnold, Joseph A. Simard, Allan A. Aitken, and Leo H. Timmins, directors. The head office and blast furnaces are at Sault Ste. Marie, Ont.

A new furnace, No. 5, was built during 1943. It is reputed to be the largest in the British Empire.

No. 1 furnace was in blast from January 1 to November 27, No. 2 from January 1 to October 22, Nos. 3 and 4 throughout the year, and No. 5 from November 29 to December 31. A total of 586,001 net tons of iron was produced.

J. A. Murphy was blast furnace superintendent. An average force of 494 persons was employed.

Canadian Furnace, Limited

Canadian Furnace, Limited, has an authorized capitalization of 500 shares of \$100 each, all of which have been issued. The officers are: Richard C. Yates, president and manager; H. L. Caulkins, secretary; P. G. Harrison, treasurer. The three officers are also directors. The head office and the plant are at Port Colborne.

No. 1 furnace operated for 196½ days and No. 2 furnace for 332 days during 1943, producing 141,815 tons of pig iron, 8,059 tons of ferro-silicon, and 3,329 tons of spiegeleisen.

An average force of 189 men was employed. D. J. Higgon was superintendent.

Canadian Industries, Limited

During 1943 the plant of Canadian Industries, Limited, located at Copper Cliff, was in continuous operation.

The three 50-ton-per-day sulphuric-acid units were operated at capacity throughout the year. These units manufacture the acid from converter gases produced at the smelter of the International Nickel Company. The oleum unit was also operated at full capacity. The nitre-cake unit was not operated.

An average force of 48 persons was employed. E. H. Jordan is works manager.

Deloro Smelting and Refining Company, Limited

The Deloro Smelting and Refining Company, Limited, was incorporated under Dominion charter in July, 1916. In November, 1936, it was converted into a private company by Supplementary Letters Patent. The officers and directors are: J. A. O'Brien, president; A. V. Yates, secretary-treasurer; H. A. Green, R. A. Elliott, M. J. O'Brien, Jr., S. B. Wright, and G. E. Bell, directors.

During 1943, refined silver and arsenic were produced and cobalt products were refined from raw materials imported from Africa. The blast furnace did not operate.

An average force of 257 men was employed. S. B. Wright is general manager and R. A. Elliott is works superintendent. The plant address is Deloro.

International Nickel Company of Canada, Limited

The nickel refinery of the International Nickel Company of Canada, Limited, at Port Colborne, was operated continuously throughout 1943. An average force of 1,467 persons was employed. H. W. Walter is general superintendent.

Steel Company of Canada, Limited

The Steel Company of Canada, Limited, was incorporated in June, 1910. It has an authorized capitalization of 400,000 seven per cent. cumulative preference shares of \$25 par value, of which 259,852 have been issued, and 600,000 common shares of no par value, of which 360,000 have been issued. The officers and directors are: R. H. McMaster, president; H. G. Hilton, vice-president; H. S. Alexander, secretary; G. B. Elwin, treasurer; H. H. Champ, H. T. Diplock, G. H. Duggan, H. M. Jaquays, S. C. Mewburn, F. G. Osler, Glyn Osler, Sir Thomas White, and Hon. C. A. Dunning, directors. The address is Hamilton.

"B" and "C" furnaces each operated for 365 days and "A" furnace for 349 days in 1943, producing a total of 632,588 tons of pig iron.

R. A. Gillies is works manager. An average force of 188 men was employed.

MINING ACCIDENTS IN 1943

By

Chief Inspector of Mines, W. O. Tower, Toronto; Inspectors, R. L. Smith, Kenora; W. E. Bawden, Port Arthur; D. F. Cooper, Sudbury; J. B. Taylor, E. S. Little, Kirkland Lake; E. B. Weir, Timmins; D. P. Douglass, Toronto.

Accidents during 1943

During the year 1943 at the mines, metallurgical works, quarries, and clay, sand, and gravel pits regulated by the Mining Act there were 2,137 accidents to employees reported to the Department of Mines up to January 16, 1944. Of these, 36 were fatal accidents and 2,101 were non-fatal accidents. A survey of the industry shows that an average number of 29,477 persons were employed throughout the year.

The returns represent a decrease of 80 (3.6 per cent.) in the total number of accidents reported and a decrease of 14 in the number of fatalities recorded over the preceding year. The number of accidents involving fatalities is 34, which is 11 less than the preceding year. There were 32 accidents in which one man was killed and 2 accidents in which 2 men each were killed.

The report shows a fatality rate of 1.22 persons killed per thousand persons employed, which is a decrease of 0.26 per thousand over the preceding year and is 0.85 per thousand lower than the average for the last 25 years.

There were 71 non-fatal accidents per thousand persons employed, which is an increase of 7 (11 per cent.) from the rate of 1942 and is 24 per thousand lower than the average for the last 24 years.

The total employment figures show a decrease from 1942. This is due chiefly to decreased employment in producing gold mines. The employment of women in approved occupations on surface at certain essential operations shows an increase.

Fatal Accidents

A comparison of fatal accidents for the past five years is given below:—

Distribution	1939	1940	1941	1942	1943
Mines, underground.....	27	35	50	27	21
Mines, surface.....	3	1	2	5	5
Metallurgical works.....	3	2	6	5	5
Quarries.....	1	3	5	1
Clay, sand, and gravel pits.....	4	1	3	3	2
Contract diamond-drilling.....	1
Total.....	38	42	62	45	34

ANALYSIS OF FATALITIES AT MINES, 1939-1943

Cause	1939	1940	1941	1942	1943
	per cent.	per cent.	per cent.	per cent.	per cent.
Fall of ground.....	8	34	27	43	41
Rock burst.....	19	5	6	8
Run of ore or rock.....	21	20	11	14	7
Shaft accidents.....	16	8	13	8	4
Explosives.....	10	3	13	15
Miscellaneous, underground.....	18	27	25	13	15
Surface.....	8	3	5	14	18

By months the fatal accidents occurred as follows:—

Month	No. accidents	No. men killed
January.....	4	5
February.....	3	4
March.....	5	5
April.....	1	1
May.....	1	1
June.....	4	4
July.....	4	4
August.....	0	0
September.....	3	3
October.....	7	7
November.....	0	0
December.....	2	2
Total.....	34	36

Classifying the fatalities according to industries gives the following:—

Gold mines.....	21
Nickel mines.....	5
Fluorspar mines.....	1
Metallurgical works.....	6
Quarries.....	1
Clay, sand, and gravel pits.....	2
Total.....	36

The comparative fatality rate per thousand persons employed at mines, metallurgical works, quarries, and clay, sand, and gravel pits is as follows:—

	Persons employed ¹			Number killed			Rate per thousand
	Men	Women	Total	Men	Women	Total	
Mines ²	19,782	360	20,142	27	27	1.36
Metallurgical works.....	7,337	705	8,042	6	6	.74
Quarries.....	767	767	1	1	1.30
Clay, sand, and gravel pits.....	526	526	2	2	3.80
Total.....	28,412	1,065	29,477	36	36	1.22

¹Average number for year.

²Includes contract diamond-drilling at mines.

The ages of the persons killed were as follows:—

17-20	21-25	26-30	31-35	36-40	41-45	46-50	Over 50	Total
3	2	2	3	8	8	5	5	36

The occupations of the persons killed at mines, metallurgical works, and clay, sand, and gravel pits are set out in the following table:—

Occupation	Men	Women	Total
Boiler fireman.....	1	1
Chute puller.....	1	1
Deckman.....	1	1
Driller.....	8	8
Drill helper.....	1	1
Electrician.....	1	1
Foreman.....	5	5
Labourer.....	2	2
Mechanical loader operator.....	1	1
Mill man.....	2	2
Millwright's helper.....	1	1
Motorman.....	2	2
Sanitaryman.....	1	1
Smelter labourer.....	4	4
Shaft leader.....	1	1
Switchman.....	1	1
Timberman.....	2	2
Trammer.....	1	1
Total.....	36	36

Summary of Fatal and Non-fatal Accidents

The following table is a summary for the past twenty-five years of the number of persons injured per thousand employed at mining operations in Ontario:—

TABLE OF ACCIDENTS TO EMPLOYEES IN MINES, METALLURGICAL WORKS, QUARRIES, AND CLAY, SAND, AND GRAVEL PITS, 1919-1943

Year	Persons injured			Persons employed at all operations			Persons injured per 1,000 employed	
	Fatally	Non-fatally	Total	Producing operations	Non-producing operations	Total	Fatally	Non-fatally
1919.....	39	11,926	1,000	12,926	3
1920.....	29	1,497	1,526	10,486	1,000	11,486	2.61	130
1921.....	24	1,262	1,286	8,436	1,000	9,436	2.54	140

Diagram showing fatalities per thousand persons employed between the years 1919 and 1943.

Diagram showing non-fatal accidents per thousand persons employed between the years 1920 and 1943.

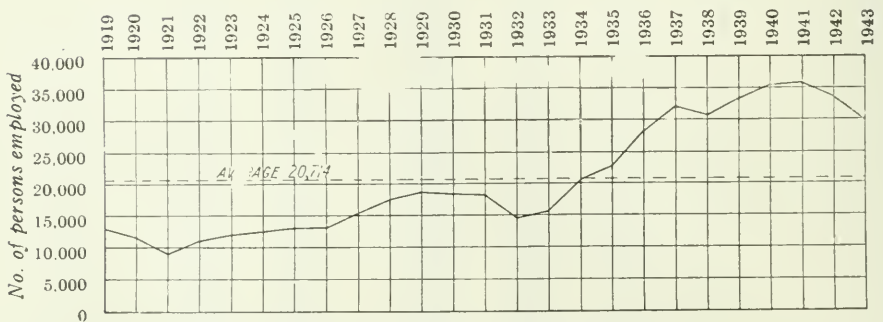

Diagram showing the number of persons employed between the years 1919 and 1943.

Non-fatal Accidents

The causes of non-fatal accidents at mines are shown in the following table:—

Cause	Surface			Under-ground	Total
	Men	Women	Total		
Fall of persons.....	85		85	165	250
Crushed between two objects.....	30		30	152	182
Falling objects.....	40		40	105	145
Strain while lifting.....	38		38	104	142
Flying objects, sledging, etc.....	16		16	91	107
Rock or ore at chute.....				102	102
Handling rock or ore.....	5		5	85	90
Fall of rock or ore at face.....				78	78
Falling rock or ore, drilling, scaling, etc.....				62	62
Hand tools.....	25		25	34	59
Machinery.....	29	1	30	19	49
Drilling machines.....				47	47
Nails or splinters.....	14		14	21	35
Running into or striking objects.....	6	1	7	26	33
Explosives.....	4		4	25	29
Tramming.....	3		3	23	26
Transportation.....	1		1	21	22
Burns.....	19	1	20	1	21
Falls down shaft, winze, or stope.....				8	8
Cage, skip, or bucket.....				7	7
Rock burst.....				3	3
Electricity.....	1		1	1	2
Gas (natural).....				2	2
Unclassified.....	1		1		1
Total.....	317	3	320	1,182	1,502

The causes of non-fatal accidents at metallurgical works were:—

Cause	Men	Women	Total
Fall of persons.....	76	9	85
Falling objects.....	40	2	42
Crushed between two objects.....	49	4	53
Handling material.....	54		54
Strain while lifting.....	41	1	42
Burned by slag, matte, or scrap.....	29		29
Burns.....	26	1	27
Hand tools.....	14		14
Machinery.....	11	1	12
Flying objects, sledging, etc.....	24		24
Nails or splinters.....	5	1	6
Transportation.....	2		2
Electricity.....	3		3
Gas.....	2		2
Explosives.....	2		2
Running into or striking objects.....	13	2	15
Poison.....	1		1
Unclassified.....		1	1
Total.....	392	22	414

The causes of non-fatal accidents at quarries were:—

Handling material.....	14	Hand tools.....	4
Fall of persons.....	9	Strain while lifting.....	7
Falling objects.....	6	Transportation.....	1
Crushed between two objects.....	6	Nails or splinters.....	2
Flying objects, sledging, etc.....	5	Burns.....	1
Fall of rock.....	14		
Machinery.....	7	Total.....	77
Explosives.....	1		

The causes of non-fatal accidents at clay, sand, and gravel pits were:—

Machinery.....	8	Nails or splinters.....	1
Fall of material.....	5	Hand tools.....	1
Fall of persons.....	7	Falling objects.....	1
Strain while lifting.....	2		
Crushed between two objects.....	4	Total.....	31
Flying objects, sledging, etc.....	2		

The causes of non-fatal accidents in contract diamond-drilling were:—

Crushed between two objects.....	10	Caught in feed screw.....	1
Caught in moving parts.....	9	Burns.....	5
Nails or splinters.....	9	Running into or striking objects.....	5
Hand tools.....	5	Explosives.....	1
Strain while lifting.....	8	Burns (natural gas).....	2
Fall of persons.....	13		
Flying objects.....	7	Total.....	77
Falling objects.....	2		

Infection

Records show that infection followed in 87 cases out of a total of 2,101 accidents.

Location	No. of accidents	Accidents followed by infection	Per cent. infection
Mines, underground.....	1,182	36	3
Mines, surface.....	320	16	5
Metallurgical works.....	414	22	5.3
Quarries.....	77	3	3.9
Clay, sand, and gravel pits.....	31	1	3.2
Diamond-drilling.....	77	9	11.7
Total.....	2,101	87	4.1

Accidents from Explosives

Cause	Non-fatal		Fatal		Total	
	No. accidents	Men injured	No. accidents	Men injured	No. accidents	Men injured
Drilled into dynamite.....	3	5	1	1	4	6
Delayed too long at blast.....	4	5	1	2	5	7
Did not take sufficient cover.....	3	5	1	1	4	6
Fumes from blasting.....	1	1			1	1
Hit with material from diamond-drill hole.....	1	1			1	1
Dynamite exploded at collar of hole while loading.....	1	2			1	2
Detonators exploded, cause unknown.....	4	4			4	4

Fires

Central Patricia Gold Mines, Limited

A fire destroyed the telephone box and telephone and charred adjacent timber at the 2,170-foot loading-pocket in the shaft of the Central Patricia gold mine on the night of December 3.

There is no great amount of room at the pocket, and the telephone is only about 5 feet from the nearest chute. At 8.10 P.M. the cagetender blasted, using one stick of powder. Prior to blasting he removed the 200-watt bulb from over the chute and placed it in the telephone box for safety. There was also a sample bag and a roll of lead wire in the box. After blasting, he left to nip steel from the upper levels.

At about 8.30 P.M. the shift boss, H. Jensen, reached the 2,050-foot level station and found it full of wood smoke. He called the cagetender and together they proceeded to the pocket, where they extinguished the fire with a water-hose. A Pyrene extinguisher was handy, but was not used. As the smoke went into the main upcast it did not circulate in the mine, hence no one else was aware of the fire and no alarm was issued.

The telephone was a battery set, powered with two 1½-volt dry cells. There was an electric-light bulb on a 110-volt circuit in the box for warmth and drying. Both telephone and box were completely destroyed, making subsequent investigation difficult. The fuse on the 110-volt circuit was blown.

The origin of the fire is unknown. There may have been other more inflammable refuse in the box which was ignited by the hot bulb, or if the 110-volt wires were shorted by the blast, they may have broken and ignited the refuse.

Dome Mines, Limited

A small fire broke out in No. 12 battery locomotive on the 11th level of the Dome mine on December 3. No damage was done other than burning one board under the battery box. The fire, so far as can be ascertained, was caused by an overheated grid.

Hoyle Gold Mines, Limited

The cyanide and flotation mill of Hoyle Gold Mines, Limited, was completely destroyed by fire on July 11. The cyanide section of the mill was 86 by 86 feet; the grinding and flotation section, extending southward from the cyanide section, was 60 by 135 feet. The mill walls were built of 2-inch tongue and groove planks covered with asphalt paper and galvanized siding. The roof was double shiplap, spaced with 2- by 2-inch strips at 30-inch centres and covered with 10-year built-up roofing. The mill was treating a little over 600 tons of ore daily.

The fire originated around a 15 h.p. motor over the ore bin. This motor drove the 24-inch conveyer between the screening plant and the ore bin.

The fire was discovered by a mill shift boss who had smelt smoke and was looking for the source of it. As soon as he discovered the fire he ran from the mill to the main office, a distance of about 750 feet, to give a general alarm. In the mean time the night watchman saw smoke coming from the mill and turned in the alarm. The whistles were blown at 8.30 P.M. The flames were then breaking through the roof. The watchman had passed through the conveyer-way from the mill to the screening plant, from the screening plant to the crushing plant, and from there to the storage bins in the shaft-house, a total distance of 550 feet, and had punched the time clock at the lower end of the conveyer-way at 8.15 P.M. He reported afterward that the conveyer between the screening plant and the mill bin was carrying a heavier load than usual at that time.

The conveyer was driven by the 15 h.p. motor and 3 V-belts through reduction gearing. It is believed that the V-belts began to slip on the gear pulley. This would account for the overload on the conveyer and for the failure of the overload cut-out to shut off the power. It is believed that the V-belts finally took fire.

The mill water-supply system and the fire-fighting supply system were on the same line. The mill water-tank, of 20,000-gallon capacity, was considerably higher than the fire-pump supply tank, of 100,000-gallon capacity, outside. The smaller mill-tank overflowed into the larger fire supply tank, but by closing one valve and opening another the larger tank could be filled directly from the main supply line. These valves, however, were inside the mill, and no one remembered to adjust them until it was too late to reach them. The shift boss on duty was the man who should have started the 50 h.p. Sterling Model B4 gasoline fire pump, but when he ran to the main office others tried to start it and flooded it. When it was eventually started the fire was beyond control, and all that could be done was to stop it from spreading down the conveyer-way to the screening plant. To maintain the water supply the trestle supporting the tank in the mill also had to be saved. This much was accomplished.

On the floor where the fire started there was a barrel full of water and two fire-pails, and 50 feet of 1½-inch fire-hose.

In the screening plant 300 feet down the conveyer-way, there were 50 feet of 1½-inch fire-hose, a 2½-gallon soda-acid extinguisher, a barrel of water, and two fire-pails.

In the crushing plant, 135 feet farther from the mill, there were two hydrants with 50 feet of 1½-inch hose on each, one 2½-gallon soda-acid extinguisher, one barrel of water, and three fire pails.

Inside the shaft-house there were 50 feet of 2-inch hose and a 2-inch line to the top of the headframe, with four open sprinklers.

In the hoist-room there were 50 feet of 1½-inch fire-hose, two small "Fyr-Fyter" extinguishers, one barrel of water, and two pails.

Outside of the main buildings there were six hydrants. Five of these were equipped with 2-inch hose; the other, the No. 1 hydrant, supplied by a third water tank behind the hoist-house, was equipped with a small Viking fire-pump (type used by fire rangers) and 150 feet of 1½-inch hose and 150 feet of 1-inch hose.

The 50 h.p. Sterling pump, which supplied pressure in the hydrants, had been running at noon on the day of the fire.

International Nickel Company of Canada, Limited

A minor fire occurred in the north refuge station on the 2,200-foot level of the Froid mine about 6.25 P.M. on December 26.

A pair of gloves and some paper lying on top of an electric heater caught fire when the current was inadvertently left on during a lay-off period. No damage resulted.

A minor sulphide fire was discovered in No. 4-10 stope, 4th level, at the Garson mine, on January 9.

No. 4-10 stope is a small shrinkage operation at the extreme west end of the mine, in which the ore flattened out rapidly as stoping progressed. It is adjoined on the east by an inclined raise from the 4th level to surface. A sublevel was driven from this raise, about 200 feet above the 4th level, to get box-hole chutes in position to pull the ore between that elevation and the surface sill. An opening was driven from the lower section of the stope to the sublevel, through which the ore pulled from the upper section could be dumped and eventually pulled out through No. 10-4 chute on the 4th level. A considerable amount of water ran into the lower section of the stope from the sublevel, and a drainage dam was built on the sublevel in November, 1942, to divert this water into the raise.

Sulphur fumes were noticed on the sublevel on January 9 and were found to be coming from the lower section of the stope. The dumping of ore on the sublevel was stopped, and intensive pulling of No. 10-4 chute was started. The ore pulled from this chute began to show signs of heat on January 13 and became really hot on January 15. The pulling operations were then suspended, the drainage dam on the sublevel was removed to let water into the stope, and brattices were built to isolate the area.

Equipment from the Mine Rescue Station was taken underground at 8.30 A.M. on January 16 and used when pulling operations were resumed. The ore was hot and steaming, but no gas or dust was encountered. The rescue equipment was used until 11 A.M., by which time the ore had become considerably cooler. Conditions were normal on January 17, and intensive pulling operations were discontinued. About 2,500 tons of ore was pulled during these operations.

A fire occurred in the sand shaft at the Garson mine about 2.20 A.M., on October 29, during contract sinking operations by the Foundation Company of Canada, Limited.

A circular shaft was being sunk through 98 feet of sand overburden and 19 feet of rock to connect with a raise from the 2nd level. It is to be used as a sand pass to supply backfill for the east ore body. The first section, from the collar to a depth of 72 feet, is $14\frac{1}{4}$ feet in diameter outside the timber. Each set consists of four 3- by 10-inch segmental rings and six posts, with an inside and outside lining. The sets are at 4-, $3\frac{1}{2}$ -, and 3-foot centres according to the depth of the shaft. The second section, from a depth of 68 feet to the rock surface, passes through 22 feet of water-bearing sand and consists of interlocked steel-sheet piling lined with concrete and steel. It is 9 feet in diameter outside the sheet piling, and 4 feet in diameter inside the lining.

An inflow of water was encountered about 6 feet above the rock surface during the excavation work following the driving of the sheet piling. It was found that several adjoining sheets had been overdriven after encountering the rock surface. This forced the lower end of these sheets toward the centre of the shaft and broke the joints interlocking them, thus permitting the inflow of water. A heavy concrete slab was then poured over the shaft area immediately above the sheet piling, and around a pipe $2\frac{1}{2}$ feet in diameter in the centre of

the shaft. An air lock, 5 feet in maximum diameter and 11 feet in height, was subsequently coupled to this pipe just above the concrete slab. The excavation work was resumed under compressed air and completed to the rock surface on October 28.

On October 29, the midnight to 8 A.M. shift prepared to cut off the bent sheet piling about 4 feet above the rock surface with an oxy-acetylene torch. The gas cylinders were laid on top of the concrete slab, then the hoses were passed through a 3-inch pipe set in the concrete and lowered to the shaft bottom. F. Savoy and A. Belisle passed through the air lock about 1.30 A.M., and started to work under compressed air at 12 pounds pressure. J. Balko and E. Bouchard, locktenders, remained in a safety chamber cut in the side of the first section beside the top of the air lock. Savoy was using the torch about 2.20 A.M., when the tip became plugged. This was followed immediately by an outbreak of flame from the hose connections at the gas cylinders. Balko went up the manway to surface. Bouchard made an unsuccessful attempt to reach the cylinders and turn them off. He then rapped the danger signal on the air lock, waited until Savoy and Belisle had passed through it, then followed them up the manway to surface. None of the men was injured.

The shaft timber adjacent to the cylinders had meanwhile caught fire, and no water was available in the vicinity of the shaft. An attempt was made to smother the fire with sand pending the arrival of the mine fire brigade, but was not successful. The fire brigade laid 1,700 feet of hose from No. 2 shaft and extinguished the fire about 4.30 A.M.

The 2-inch inner lining and the manway from the collar to a depth of 30 feet were destroyed. The rings and 3-inch outer lining in this area were charred and the inner lining and manway below this depth were charred but remained in a serviceable condition. No damage was done to the derrick or other equipment.

Kerr-Addison Gold Mines, Limited

At about 4.45 A.M. on September 11, a small fire was discovered at the skip dump-deck of the No. 3 shaft headframe at the Kerr-Addison mine. At the moment the fire was discovered, the nearest sprinkler head blew and brought the fire immediately under control. Fire extinguishers were used to put out the last bit of fire in the headframe sheeting behind the steel column.

The fire evidently started underneath a seat which the deckman had made out of a couple of powder boxes. It was evidently caused by a short circuit or accumulated heat from a 100-watt bulb on an extension cord, which had been used under the box seat to supply heat.

Damage was negligible.

Moneta Porcupine Mines, Limited

An incipient fire was extinguished about midnight on January 13 in a frame building used as a steel shop at the Moneta mine. The fire had started in the south wall about 8 feet from the floor, above the part protected by galvanized metal. It is believed that the fire was caused by sparks, flying from a power-driven emery wheel, striking the wall.

The wall between four of the studs and one side of the roof over a slightly wider area were charred. A sprinkler system kept the fire under control and the alarm warned mine employees. Six sprinkler heads burst, one opposite the charred wall near the eave and five along the peak of the building.

Regular work had ended in the shop at 4.30 P.M., but it is thought that perhaps some of the underground workmen who came to surface for lunch may

have been sharpening tools on the emery wheel shortly before the alarm was given.

The greatest loss caused by the fire was that of a barrel of oil in a tempering tank, the oil being displaced by water. The roof where a small hole had burned through near the cave had to be repaired.

Pamour Porcupine Mines, Limited

A fire occurred in the riggers' shack at the Pamour mine about 8.30 P.M. on February 1, the cause of which is unknown. It was promptly extinguished and did not endanger any structure at the mine entrance.

Prosecutions

Rex vs. J. H. Aubin

Rex vs. W. Lubinski

Following an incident at the Lake Shore mine on May 20, when J. C. Adamson and M. Seymour almost walked into an unguarded blast in stope No. 5,002 east, section 3, the following charge was laid against J. H. Aubin, machine runner in the stope:—

That J. H. Aubin on the 20th day of May, 1943, in the township of Teck, did unlawfully, being a workman engaged in blasting, neglect to cause all the entrances to the place where the blasting was to be done to be effectively guarded before blasting, contrary to the Mining Act, R.S.O. 1937, Chapter 47, Section 160, subsection 75 (a).

A similar charge was laid against Aubin's partner in the stope, W. Lubinski, also a machine runner.

Both men pleaded not guilty when the cases were heard on June 24, in Kirkland Lake Police Court.

Magistrate S. Atkinson registered a conviction and fine of \$10.00 and costs or 30 days in each case.

Rex vs. C. A. Billings

Three charges were laid against C. A. Billings, vice-president and managing director of Kenwest Gold Mines, Limited, as follows:—

1. That C. A. Billings of the hamlet of Goldrock in the district of Kenora between April 15, 1943, and September 22, 1943, at the hamlet of Goldrock in the said district of Kenora, being the manager of Kenwest Gold Mines, Limited, in the said district of Kenora, on the date of the closing down of the said mine did unlawfully fail to give written notice to the Chief Inspector that the requirements of Section 157(1) of the Ontario Mining Act as to fencing of the top of a shaft, entrances from the surface, pits and openings, had been complied with, contrary to the provisions of Section 165(1)c of the Mining Act of Ontario.

2. That C. A. Billings of the hamlet of Goldrock in the district of Kenora, between April 15, 1943, and September 22, 1943, at the hamlet of Goldrock in the said district of Kenora, being the manager of Kenwest Gold Mines, Limited, in the said district of Kenora, on the date of the closing down of the said mine did unlawfully fail to give written notice to the Chief Inspector that the requirements of subsection 4 of Section 167 of the Ontario Mining Act as to the filing of plans and sections had been complied with, contrary to the provisions of Section 165(1)c of the Mining Act of Ontario.

3. That C. A. Billings of the hamlet of Goldrock in the district of Kenora between April 15, 1943, and September 22, 1943, at the hamlet of Goldrock in the said district of Kenora, being the manager of Kenwest Gold Mines, Limited, in the said district of Kenora on the date of the closing down of the said mine did unlawfully fail to give written notice to the Chief Inspector that the requirements of Rule 54 of the Rules under Section 160 of the Ontario Mining Act as to the disposal of explosives had been complied with, contrary to the provisions of Section 165(1)c of the Mining Act of Ontario.

The first of the above-mentioned charges was dropped on receipt of the required notice and satisfactory assurance that the entrances were properly protected. The second charge was also dropped on receipt of the required

plans. Billings pleaded guilty to the third charge by mail to Magistrate T. H. Wolfe, Kenora, Ont., who registered a fine of \$100 and costs amounting to \$16.50. The fine and costs were paid.

Arrangements were made to dispose of the explosives.

Rex vs. J. J. McCann

The following three charges were laid against J. J. McCann, who was dictating the policy and supplying the finances for the operation of the Trout Lake mine, and was believed by the Department of Mines to be the manager of the property:—

1. On the 21st day of June, 1943, J. J. McCann did unlawfully store blasting caps in a building on a mining property in the township of South Lorrain, of which he is the manager, such building not being suitable for the storing of the number of blasting caps stored therein, contrary to the provisions of subsection 44 of Section 160 of Part VIII, of the Mining Act of Ontario, R.S.O. 1937, Chapter 47, as amended.

2. On the 21st day of June, 1943, J. J. McCann did unlawfully fail to give written notice of completion of rope-testing requirements as required by written order of J. B. Taylor, an inspector of mines, dated at Swastika, May 29, 1943, contrary to the provisions of subsection 2 of Section 170 of Part VIII of the Mining Act of Ontario, R.S.O. 1937, Chapter 47, as amended.

3. On the 21st day of June, 1943, J. J. McCann did unlawfully fail to comply with a written order of J. B. Taylor, an inspector of mines, such order being dated at Swastika, May 29, 1943, and requiring the repairing of a powder magazine, situate on the mining property in the said township of South Lorrain, of which he is the manager, contrary to the provisions of subsection 1, of Section 170, of Part VIII of the Mining Act of Ontario, R.S.O. 1937, Chapter 47, as amended.

The first charge was heard by Magistrate S. Atkinson, in Haileybury Police Court, on July 16.

McCann's defense was that he was not the manager, but was supplying the finances only. He succeeded in this contention and was acquitted. The other two charges were dismissed on the same grounds.

Rex vs. M. Prpich

A charge was laid against M. Prpich, a miner, residing in South Porcupine, as follows:—

That M. Prpich did, on February 6, 1943, in 203 stope raise at the Preston East Dome mine, in the township of Tisdale, drill within five feet of a hole charged with explosives, contrary to subsection 73(b), Section 160 of the Mining Act of Ontario.

Prpich was instructed about 9 A.M. on February 6 by Shift Boss W. Jones, in the presence of D. Schmitt, captain, to reblast a hole about 7 feet in length which was fully charged with explosives. Prpich did not do so, but set up and drilled within 2 feet of the charge. He employed a lawyer and pleaded not guilty. An attempt was made to prove that much time would have been lost waiting for smoke to clear out of the stope.

The case was heard before Magistrate S. Atkinson, in South Porcupine, on February 23. Prpich was found guilty and fined \$10.00 and costs, the latter amounting to \$10.55.

Rex vs. Richmond Prospecting Syndicate

Following the finding of explosives at an abandoned property, a charge was laid by the Royal Canadian Mounted Police against the Richmond Prospecting Syndicate of having explosives at their property at Ess Creek, Ont., without a valid permit, contrary to the War Measures Act, P.C. 2,903, Section 15.

The case was heard before Magistrate W. Cooper on September 29, 1943, in Sudbury. The counsel for the defence entered a plea of "guilty." After hearing the evidence the magistrate declared the defendant guilty, but stated

that in his opinion the onus and blame for the offence appeared to rest on W. J. McNeely rather than on the other members of the syndicate, as it seemed that he had been left in full charge and had accepted the responsibility for the necessary supervision of the property. A fine of \$50.00 and costs amounting to \$15.50 were levied.

**Rex vs. C. Salo
Rex vs. W. Fors**

A charge was laid against C. Salo, a driller at the Central Patricia mine, as follows:—

That C. Salo of the hamlet of Central Patricia in the district of Kenora (Patricia portion) on or about the 8th day of April, 1943, at the hamlet of Central Patricia in the said district of Kenora, did unlawfully drill a hole within six inches of the remnant of a hole that had been charged and blasted, contrary to the provisions of Section 160, subsection 73a, of the Mining Act of Ontario.

A similar charge was laid against W. Fors, a driller at the Central Patricia mine.

The cases were heard before Justice of the Peace R. E. Barrett on May 25. Both men pleaded guilty, and a fine of \$10.00 and \$7.50 costs were imposed in each case. The fines and costs were paid.

Rex vs. Eli Timber

A charge was laid against Eli Timber, a driller at the Leitch gold mine, as follows:—

Eli Timber, on or about April 29, 1943, at the Leitch gold mine near Beardmore, in the district of Thunder Bay, being a driller in the said mine, did unlawfully drill within five feet of a hole containing explosives contrary to Section 160, subsection 73b, Part VIII of the Mining Act of Ontario.

On August 13, at Geraldton, before Magistrate Le May, Eli Timber pleaded guilty to the above charge and was fined \$25.00 and costs.

Mine Rescue Stations

During the year normal activities were carried out at the three mine rescue stations at Timmins, Kirkland Lake, and Sudbury. Fifty-one fully trained rescue teams were maintained: 21 teams at Timmins, 14 teams at Kirkland Lake, and 16 teams at Sudbury.

Voice Powered Telephone

The "Voice Powered Telephone" incorporated in the Burrell gas mask was added to the mine rescue equipment in Ontario by the Ontario Department of Mines in the early part of 1942. This has made an important advance in mine rescue equipment available to the mining industry of Ontario. Complete sets with approximately 1,000 feet of 2-conductor, No. 18, type "S" neoprene-jacketed cable are located at the mine rescue stations at Sudbury, Timmins, and Kirkland Lake.

Tests carried out at the Froid mine in 1941 over one mile of line were successful, reception being clear and distinct. The limit of transmission for this equipment is from 3 to 4 miles, as stated by the manufacturer.

The telephone does not take the place of a life-line with oxygen-breathing apparatus but is intended for use in operations where the All-Service gas mask is suitable. It provides two-way communication between one or more wearers of masks and someone at the fresh-air base. A special portable cable-reel has

been made up so that the cable can be payed out as an advance is made into the danger area; this is carried by members of the rescue squad.

The operating principle of the telephone equipment is quite simple, no batteries or outside power of any kind being required. The voice, which is the source of power, produces sound waves which are directed against a very sensitive diaphragm, which is coupled to a magnetic armature balanced between two magnetized pole pieces. These waves cause fluctuations in the magnetic circuit of the telephone instrument. A coil surrounds the armature but provides sufficient clearance so that the armature can vibrate. Sound waves, striking the diaphragm, cause motion that is transmitted to the armature, varying the magnetic reluctance and developing a flux which creates a small current in the coil. This current is transmitted through the line to the receiver instrument, which, by means of a similar process, converts the current into sound.

The tone is remarkably clear and true. The receiver on the mask fits comfortably over one ear and gives a high degree of reception, even when surrounding noises are loud, a valuable feature in emergency or rescue work.

Summary of Rope Tests, 1943

The following is a summary of the tests made in the Wire Rope Testing Laboratories of the Department of Mines during 1943:—

Tests for Ontario mines under Act.....	549
Special informative tests.....	92
Tests for wire rope manufacturers.....	29
Tests for mines outside Ontario.....	45
Other tests.....	7
Total.....	<u>722</u>

50 EAST LAKE STREET, CHICAGO, ILL. 60607

TO THE HONOURABLE ALBERT MATTHEWS,
Lieutenant-Governor of the Province of Ontario.

MAY IT PLEASE YOUR HONOUR:

The undersigned begs respectfully to present to Your Honour the Annual Report of the Inspector of Legal Offices for the year ending 31st December, 1945.

L. E. BLACKWELL,
Attorney-General

Toronto, March 18th, 1946.

Report
of the
Inspector of Legal Offices
Ontario, 1945

Parliament Buildings,
Toronto, Ontario

THE HONOURABLE L. E. BLACKWELL, K.C.,
Attorney-General, Province of Ontario,
Parliament Buildings, Toronto.

SIR:

I have the honour to submit to you my report as Inspector of Legal Offices for the year ending the 31st of December, 1945.

This has been a particularly busy year in all offices. The Annual Returns from different Land Titles and Registry Offices have shown a marked increase in fees received, and handsome surpluses have been paid over to various Counties.

With regard to the different Court Offices, the volume of business is on the increase, and surpluses are evident in many jurisdictions where previously there have been deficits of varying sizes.

It will be observed from the Financial Summary hereinafter set out that revenue in all branches except that of Division Courts is up substantially. The most marked increases are in the Magistrates' Fines, and in the Sheriffs' Fees.

Continued general prosperity seems to be the cause of the drop in Division Court business, which same prosperity must, of necessity, be responsible for the increased volume of fees in the Surrogate Court, Land Titles and Registry Offices.

Land transfer tax collected and paid direct to the Treasury by various Registrars of Deeds and Local Masters of Titles reached last year nearly three quarters of a million dollars.

Our auditors have met this situation splendidly. Messrs. J. H. Dignam and F. J. Reddin have been most zealous in their efforts to cope with this additional volume of work and have adhered in the main to their usual schedule of regular as well as special audits when required. We were fortunate in obtaining the services of Mr. Hugh Gourley, an addition to our audit staff late in the year. His work has been most commendable and he will prove himself of great value.

Mr. H. C. Moore has visited a great many Land Titles and Registry Offices during the year. His advice has been freely given and has proven most valuable to the various incumbents and their staffs. At the same time, he has been instrumental in solving many Registry Office and Land Titles problems which have arisen from time to time.

The difficulty of keeping up with the copying of documents in the various Land Titles and Registry Offices remains. Trained and efficient personnel is hard to obtain and replacements present a problem until these can be properly instructed.

During the past year, I have found in my visits to different offices in all parts of the Province that uniformly the incumbents in these and their staffs have been anxious to perform their respective duties promptly and courteously and to give service to the public. It has been a rare occasion when this situation did not exist. Further, these men and women have accepted the responsibility of handling an increased volume of business cheerfully and willingly.

The staff of this office has, as always, accorded me the utmost loyalty and co-operation and has, in its turn, coped with additional work in a capable and efficient manner. This cannot help but make work pleasant, happy and most satisfactory to us all. We are all glad to have Kenneth Booth back from Overseas.

The following is the total revenue collected by the Legal Offices of the Province and the disposition of such money:

**TOTAL REVENUE COLLECTED DURING 1945
LEGAL OFFICES, PROVINCE OF ONTARIO**

Magistrates' Fines.....	\$ 294,499.49

ONTARIO

DEPARTMENT OF INSURANCE

TO THE HONOURABLE LESLIE E. BLACKWELL, K.C., M.P.P.
Minister in Charge of the Department of Insurance.

I have the honour to submit herewith the Sixty-seventh Annual Report of the Superintendent of Insurance for the year 1946 (business for the year ended December 31, 1945). This Report includes the Preliminary Tables respecting 1945 business as printed under date May 28, 1946.

The Report is arranged in four divisions, in addition to an index of all insurers licensed to carry on business in Ontario and classes of insurance for which authorized, as follows:

- I. Annual Statements
- II. Annual Statement Abstracts
- III. Statistical Tables
- IV. Appendices

The first division, entitled "Annual Statements," contains extracts from the Annual Statements filed with the Department by all licensed insurers, arranged alphabetically by class of insurer. Insurers registered under The Canadian and British Insurance Companies Act, 1932, or The Foreign Insurance Companies Act, 1932 (Dominion Acts), have been required to file only Modified Statements, summarizing their assets and liabilities and showing their underwriting experience within the Province only, with the Department, and this skeleton information only has been included in this Report.

Division II, entitled "Annual Statement Abstracts," contains tabulated summaries showing the financial condition of all joint-stock and cash-mutual fire insurance companies and fraternal societies not registered under the above mentioned Dominion Insurance Acts. Some discrepancies will be observed between the figures shown in these tables and those shown in the statements of individual insurers in Division I, the latter containing changes made as a result of inspection reports. In such cases the figures included in Division I should be understood to prevail.

Division III, entitled "Statistical Tables," shows in tabular form the premiums and losses of and other information pertaining to all licensed insurers, except mutual benefit societies.

Division IV includes, as "Appendices," certain miscellaneous information and a review of certain legislation enacted at the 1946 session of the Legislative Assembly of this Province.

LIFE INSURANCE

There were 43 companies licensed to write life insurance in Ontario as of December 31, 1945, two companies being newly licensed during 1945. There are now 28 Canadian, 6 British and 9 American companies licensed.

Premium income received from Ontario policyholders increased \$9,607,000 in 1945 to a total of \$130,183,000. This compares with increases of \$6.8, \$7.8 and \$7.3 million in 1944, 1943, 1942 respectively. These premiums have been increasing steadily since 1935, when they amounted to \$87 million.

Premiums on all types of insurance increased again this year, with ordinary assurances increasing \$6.8 million. Income from annuities increased \$1.3 million to a total of \$12,464,000.

A comparative summary of premium income for the past five years is as follows:

	1945	1944	1943	1942	1941
Net Premium Income:					
Assurances { Ordinary.....	\$86,815,482	\$79,999,629	\$76,482,123	\$71,080,352	\$67,228,107
{ Industrial.....	23,830,052	22,722,059	21,401,105	20,740,238	19,135,278
{ Group.....	7,069,713	6,688,918	6,029,298	5,726,206	4,566,469
Annuities.....	12,464,041	11,164,415	9,853,197	8,392,614	7,702,159
Sinking Fund Policies.....	3,702				
TOTALS.....	\$130,182,990	\$120,575,021	\$113,765,723	\$105,939,410	\$98,632,013

Disbursements to policyholders in Ontario and their beneficiaries increased from \$66,447,000 in 1944 to \$70,356,000 in 1945. Amounts paid out in surrender values, which have consistently decreased in each of the years since 1939, when they amounted to \$24.3 million, have this year increased by \$1.4 million to \$10.7 million. Death claims in 1945 were approximately the same as in 1944, and dividends paid to policyholders increased \$1.1 million to \$13.2 millions.

The following is an analysis of disbursements to Ontario policyholders and their beneficiaries during 1945 and 1944:

	1945				TOTAL FOR 1944
	ORDINARY	INDUSTRIAL	GROUP	TOTAL	
ASSURANCE CONTRACTS					
Death Claims.....	\$21,208,121	\$3,714,777	\$4,205,959	\$29,128,857	\$29,286,153
Matured Endowments.....	8,323,639	3,845,405		12,169,044	11,130,084
Surrender Values.....	7,501,863	3,314,728	5,963	10,822,554	9,885,505
Disability Claims.....	706,528	38,774	375,873	1,121,175	953,623
Dividends.....	10,072,855	2,608,669	433,291	13,114,815	12,011,365
	\$47,813,006	\$13,522,353	\$5,021,086	\$66,356,445	\$63,266,730
ANNUITY CONTRACTS					
Payments to Annuitants.....	\$1,620,443	\$15	\$363,726	\$1,984,184	\$1,811,316
Surrender Values.....	879,472		452,981	1,332,453	877,817
Death Benefits.....	490,924		26,225	517,149	334,134
Disability Claims.....	5,863		26,822	32,685	35,701
Dividends.....	133,794			133,794	120,965
	\$3,130,496	\$15	\$869,754	\$4,000,265	\$3,179,933
GRAND TOTAL.....	\$50,943,502	\$13,522,368	\$5,890,840	\$70,356,710	\$66,446,663
Payments in Respect of Sinking Fund Contracts.....				133	500
TOTALS.....				\$70,356,843	\$66,447,163

New business written in the Province of Ontario during 1945 amounted to \$450,325,000, which represents an increase of \$50 million over the figure for 1944. There has been an increase in the new business written each year since 1940, when the figure was \$276 million. There was a slight increase in the number of policies issued in 1945, but the amount of the average new policy written has increased to \$1,578 in 1945 as compared with \$1,448 in 1944.

Insurance in force in the Province of Ontario has increased in 1945 by \$277 millions to an amount of \$4,536 millions. During the six war years since 1939, insurance in force has increased \$1,404 millions from a figure of \$3,132 millions in 1939.

A comparative summary of new insurance issued and in force as at December 31 for the years 1941 to 1945 inclusive is given below:

POLICIES IN ONTARIO	1945	1944	1943	1942	1941
New Issued:					
Number.....	285,333	276,438	286,021	289,223	258,945
Amount.....	\$450,325,320	\$400,410,498	\$398,212,328	\$367,966,881	\$276,659,803
Average Policy.....	\$1,578	\$1,448	\$1,392	\$1,272	\$1,018
In Force Dec. 31:					
Number.....	3,386,766	3,270,453	3,160,081	3,050,018	2,829,575
Amount.....	\$4,536,796,251	\$4,259,471,378	\$3,997,471,647	\$3,714,400,345	\$3,252,147,913
Average.....	\$1,339	\$1,302	\$1,265	\$1,217	\$1,149

FRATERNAL INSURANCE

There were forty-five Fraternal Societies licensed to operate in the Province of Ontario as at December 31, 1945, which is an increase of one over last year.

Total premiums and dues collected from members in 1945 again showed an increase, being \$2,768,000 in 1945 as compared with \$2,603,000 in 1944. These premiums have shown some increase in each year since 1941, when they amounted to \$2,393,000.

Disbursements to policyholders and beneficiaries (excluding expenses) amounted to \$3,133,000 in 1945 as compared with \$3,214,000 in 1944.

New business written in 1945, both Adult and Juvenile, amounted to \$9,605,000 as compared with \$7,948,000 in 1944. The amount of new business written has increased in each year since 1941. Mortuary certificates in force (Adult and Juvenile) in Ontario in 1945 amounted to \$87,695,000, which represents an increase of business in force of \$4,803,000 over the 1944 figure of \$82,892,000.

FIRE INSURANCE

Three hundred and twenty-eight companies had licenses to transact fire insurance in Ontario in 1945, three joint-stock companies being newly licensed during the year.

Net premiums written in Ontario by all companies in 1945 were \$23,938,000, which is an increase of \$923,000 over 1944. A considerable volume of mercantile and manufacturing risks were first written for terms of three years in 1941 and this business came up for renewal in 1944, with a resulting increase in the premiums written in that year. The increase in premiums written in 1945 over 1944 represents therefore a larger increase than is apparent from the figures. Premiums written in 1945 were \$4,529,000 greater than those written in 1943, which was a year in which the total was not inflated by the writing of an unusual proportion of three-year business.

Net premiums earned in 1945 were \$22,183,000, which represents an increase of \$1,798,000 over the 1944 figure.

Total net losses incurred in Ontario in 1945 were \$12,789,000, an increase of \$810,000 over the figure of \$11,979,000 in 1944, which compares with losses of \$6,848,000 in 1939. Fire losses have shown a consistent increase during the war years, and losses in 1945 were the highest since 1932, when they were

\$13,654,000. The ratio of net losses incurred in 1945 to net premiums earned is 57.65% as compared with 58.76% in 1944. Premiums earned and losses incurred for the various classes of insurers as defined by the Act are tabulated below, with the same figures for 1944. The experience of each insurer is shown in Table X, and a comparative summary appears in Table XIII on page 74.

CLASS	1945			1944		
	NET PREMIUMS EARNED	NET LOSSES INCURRED	RATIO NET LOSSES INCURRED TO NET PREMIUMS EARNED	NET PREMIUMS EARNED	NET LOSSES INCURRED	RATIO NET LOSSES INCURRED TO NET PREMIUMS EARNED

FARMERS' MUTUAL FIRE INSURANCE

(See Abstract Tables of assets, liabilities, receipts and disbursements on pages 88 to 95; loss ratios on pages 230 and 231; and other data on pages 216 to 218.)

The farmers' mutuals had another year of favourable experience in 1945.

Net insurance in force increased \$34 millions to an all-time high of \$702 millions, the number of policies being up 5,336 to 217,800. The number of direct policies showed little change, with an increase of only 601 to 174,572, but the number of reinsurance policies increased sharply by 4,735, to 43,228. The average direct policy has gone up from \$3,458 in 1940 to \$3,838 in 1944 and \$4,014 in 1945—an increase of \$556, or 16%, in the past five years. In the same period, the average net direct policy has increased \$363, or 11%, to \$3,549 at the end of 1945. In other words, the increase of one-sixth since 1940 in the average direct policy written has been held down by a greater use of reinsurance to an increase of one-ninth in the average net retention per direct policy.

Net losses paid in 1945 amounted to \$992,000—a decrease of \$188,000 from the corresponding figure of 1944—and net losses incurred decreased \$135,000 (11.8%) to \$1,008,000. Cost of management increased \$18,000 to \$411,000. In terms of cents per \$100 of the average net amount of insurance in force during the year, the cost of insurance decreased 2.83c. to 20.70c., consisting of a decrease of 2.80c. in loss cost (14.71c.) and a decrease of .03c. in management cost (5.99c.). This loss cost of 14.71c. is the lowest since 1909 (13.40c.). Cost of insurance to members (premiums earned) on the same basis was down .37c. to 27.67c., being further reduced to 26.87c. by \$54,637 of incurred refunds from surplus.

Net premiums received increased \$142,000 to \$1,932,000, and net premiums earned were up \$66,000 to \$1,896,000. Interest earned increased \$26,000 to \$233,000. The ratio of net losses incurred to net premiums earned dropped from 62.44 in 1944 to 53.15 in 1945, and the ratio of management expense to

net premiums earned showed a small increase from 21.46 in 1944 to 21.66 in 1945.

Aggregate surplus increased \$675,000 to \$6,424,000, which is equivalent to an increase of $5\frac{1}{2}\%$ to $9\frac{1}{2}\%$ per \$100 of net insurance in force. Liquidity (excess of bonds and cash over net unpaid losses, borrowed money and other cash liabilities) increased \$748,000 to \$7,392,000, or \$1.05 per \$100 of net insurance in force. These figures are net after providing \$55,000 for refunds from surplus, spending \$13,000 on fire prevention and donating \$12,000 to charitable funds. On the other hand, nearly \$41,000 of profit was realized from sale of investments.

"Standard By-laws for a Farmers' Mutual" were recommended to the companies by the Department in 1945. To date, 40 companies have adopted them and most of the remaining 26 fire and 2 weather companies are preparing to adopt them at their next annual meetings. Revised standard forms of application and policy are now in use.

AUTOMOBILE INSURANCE

Four additional companies were authorized to transact automobile insurance during 1945, and there are now 179 companies licensed.

Net premiums written in 1945 were \$12,674,000, an increase of \$1,428,000 over the 1944 figure. These premiums showed decreases in 1942 and 1943 as a result of war-time restrictions on automobiles, but an increase of \$710,000 was shown in 1944 and this expansion has continued into 1945.

Net premiums earned in 1945 were \$11,996,000, which is an increase of \$1,019,000 over the 1944 figure of \$10,977,000.

Net losses incurred have again increased in 1945 to a figure of \$6,395,000, which is \$1,215,000 greater than in 1944. The ratio of these losses to net premiums earned has also increased from 47.19% in 1944 to 53.31% in 1945. This loss ratio dropped sharply in 1942, but has increased each year since then and is now approximately the same as in 1941. It is, however, less than in any of the years from 1934 to 1940. The following tabulation shows the premiums and losses from 1926 to 1945:

	NET PREMIUMS WRITTEN	NET PREMIUMS EARNED	NET LOSSES INCURRED	RATIO NET LOSSES INCURRED TO NET PREMIUMS EARNED
	\$	\$	\$	%
1926	3,743,532	3,657,994	2,037,903	55.7
1927	4,643,948	4,295,003	2,835,352	66.0
1928	6,280,675	5,670,656	3,603,260	63.5
1929	8,324,146	7,520,896	4,314,383	57.4
1930	9,361,901	8,934,508	4,378,698	49.0
1931	8,830,502	8,968,620	4,601,104	51.30
1932	7,769,765	8,017,672	3,805,268	47.46
1933	6,462,809	6,904,414	3,551,142	51.43
1934	6,931,896	6,748,426	4,007,387	59.38
1935	7,017,027	6,963,890	4,123,233	59.21
1936	7,920,609	7,553,033	4,717,954	62.46
1937	9,550,354	8,862,667	5,860,657	66.16
1938	10,409,413	10,048,543	6,043,133	60.14
1939	11,194,996	10,882,626	5,837,725	53.64
1940	12,135,244	11,750,570	6,700,382	57.02
1941	13,315,564	12,686,272	*6,751,708	53.20
1942	11,840,998	12,672,499	*5,097,897	40.23
1943	10,535,991	11,275,704	*4,709,411	41.77
1944	11,246,523	10,977,147	*5,180,653	47.19
1945	12,674,633	11,996,282	*6,395,311	53.31

*Does not include adjustment expenses.

The figures shown in the foregoing table afford a rough indication of the underwriting experience of the companies in the aggregate from the standpoint of the shareholders or members of the several companies; they do not indicate the reasonableness of the premium rates shown in any particular manual of rates or charged by any particular company, because insurers which are not member companies of the Canadian Underwriters' Association write approximately sixty per cent of the automobile insurance premiums reported for Ontario at "non-tariff" rates, which are generally lower than "tariff" rates.

CASUALTY AND MISCELLANEOUS INSURANCE
(OTHER THAN AUTOMOBILE)

The following table shows net premiums written and net losses incurred (excluding adjusting expenses) for 1945 for these classes of insurance.

CLASS OF INSURANCE	NET PREMIUMS WRITTEN	NET LOSSES INCURRED	RATIO NET LOSSES INCURRED TO NET PREMIUMS WRITTEN
	\$	\$	%
Accident—Personal.....	2,022,731	565,732	27.97

Windstorm.....	277,750	83,964	30.23
TOTALS.....	22,120,145	10,133,055	45.81
TOTALS FOR 1944.....	19,858,631	9,624,591	48.47

Net premiums written in 1945 were \$22,120,000, an increase of \$2,262,000 over 1944, as compared with an increase in 1944 over 1943 of \$2,630,000. Premiums for these classes of insurance have more than doubled during the war years and were \$9,712,000 in 1938.

Nearly all classes have shown increases in premiums written during 1945, but the three classes, Personal Accident, Accident and Sickness Combined and Sickness have accounted for the greater part of the increase and now show a combined premium of \$10,152,000, which is an increase of \$1,484,000 over 1944. Personal Property insurance shows an increase of \$597,000 to a total of \$2,668,000 in 1945.

The total net losses incurred increased in 1945 by \$509,000 to a total of \$10,133,000. The ratio of net losses incurred to net premiums written has decreased from 48.47% in 1944 to 45.81% in 1945. Personal Property insurance showed a considerably improved loss ratio, decreasing from 79.83% in 1944 to 50.26% in 1945. The combined loss ratio for the three classes of Accident and Sickness insurance also showed an improvement, being reduced from 60% to 54.9%.

NEW COMPANIES

By Letters Patent under The Companies Act and dated June 19, 1946, Hastings Fire and Accident Insurance Company, Limited, with head office at the City of Belleville, was incorporated as a joint-stock insurance company to transact any class of insurance other than life insurance. The initial license under The Insurance Act was issued on July 16, 1946.

By Letters Patent dated January 30, 1946, Co-Operators' Fidelity and Guarantee Association, with head office at the City of Toronto, was incorporated as a mutual insurance corporation with an authorized guarantee capital stock of \$300,000, to undertake and transact any class of insurance for which such a company may be licensed under The Insurance Act. The initial license to transact guarantee insurance was issued October 31, 1946.

Miscellaneous Statement

I. STATEMENT OF ACTUARIAL LIABILITIES

(1) Valuation of Assurance Policies and Annuity Contracts:

Life insurance contracts were valued in groups arranged according to section of business, year of issue, plan and age at issue. There was an exception in the case of the fraternal whole life plan and in the case of paid-up policies for which the business was grouped according to attained age in 1945. The valuation schedules were completed for each group using factors for the terminal reserves for the policy anniversary preceding and that following the valuation date, as well as the net premium and the death strain. The mean reserves were computed only for each section of the business. This method provides a check on the accuracy of the work in applying the valuation factors. The age at issue is taken as the age nearest birthday at the date of issue and the duration is taken as $N + \frac{1}{2}$ where N is the difference between the calendar year of issue and the year of valuation.

Particulars of the bases used for the valuation of life insurance contracts are: business issued 1929-1936 by the Mutual Relief Life reinsured—the AM(5) 3 $\frac{1}{2}$ % table net level premium method; prepaid profit plans issued 1922-1937—the OM(5) 3 $\frac{1}{2}$ % table net level premium method; participating policies issued 1922-1942—the OM(5) 3%, the OM(5) 3 $\frac{1}{2}$ % and the AM(5) 3 $\frac{1}{2}$ % tables net level premium method using the deductions permitted by The Ontario Insurance Act; non-participating policies, issued 1922-1930—the OM(5) 3 $\frac{1}{2}$ % table, issued 1931-1942—the AM(5) 3 $\frac{1}{2}$ % table, net level premium method using the deductions permitted under The Ontario Insurance Act; fraternal business reinsured by this Company—the CM(5) 3 $\frac{1}{2}$ % table, with the Canadian modification except for the whole life plan for which the sums assured and net premiums were valued separately; both participating and non-participating policies issued 1942 and after—the CM(5) 3% table, Canadian modification. The reserves determined in accordance with the foregoing specifications are the equal of, or exceed, the amounts which would be required by The Ontario Insurance Act.

For vested annuity contracts involving life contingencies, the basis of valuation was the Rutherford Table with 3 $\frac{1}{4}$ % interest rate. Contracts for single premium deferred annuities and immediate annuities for periods certain were valued on an interest basis of 3%. Contracts issued as annual premium deferred annuities, not involving life contingencies during the deferred period, were valued on a 3 $\frac{1}{2}$ % interest basis for issues prior to 1941 and on a 3% interest basis for issues of 1941 and after, using the method of accumulating the net premium at interest. The foregoing valuation bases provide reserves in excess of the requirements of The Ontario Insurance Act.

(a) Policies issued at premiums corresponding to ages higher than the true ages were valued as of the rated up age.

(b) Policies issued subject to a lien or contingent debt were valued for the full amount of insurance.

(c) Policies otherwise issued on lives classed as substandard or special seem to be all included in categories (a), (b) and (d).

(d) Policies issued at, or subject to, an extra premium payable either in one sum or annually; ordinarily the latter only are issued and a reserve equal to 50% of the gross extra premium is provided in the valuation.

(e) For policies providing for disability benefits, waiver of premium and other benefits (waiver of premiums only and waiver of premiums with monthly income without the deduction from the sum insured) the additional liability was determined as follows:

(i) Before the occurrence of disability by the accumulation without interest of 50% of the gross extra premium for disability from the date of issue on the policies in force as of the date of valuation;

(ii) After the occurrence of disability the reserve provided was the present value of the future income payments and premiums to be waived on the basis of Hunter's disability table with interest at the rate of 3% per annum adjusted as follows according to the year preceding the date of valuation that the claim was incurred: 50% first year, 75% second year, 85% third year, 95% fourth year and 100% in the fifth year of disability and thereafter.

(f) Policies providing for additional accidental death benefits were valued as follows: For all policies in force a reserve of one-half of the annual premium for the benefit was set up, and in addition thereto for policies where the premium paying period was less than the period of coverage, the excess amount of the premium paid for the double indemnity benefit over \$1.25 per \$1,000, such excess being accumulated at 3 $\frac{1}{2}$ % interest per annum.

(g) Annuities issued to lives classed as under average were valued as of the rated-up age on the basis of which the contract was issued substandard.

(h) Any other special classes of policies the foregoing statement appears to cover.

(2) Items of Special Reserves:

(a) To cover future expenses for limited payment and single premium assurance policies and, for immediate annuity contracts, no reserve is maintained.

(b) To make provision for benefits granted under contracts which may at any duration be in excess of the reserve computed in accordance with the basic method of valuation; for these a special reserve was provided equivalent to the excess of the guaranteed value over the level reserve.

(c) To provide any amount, in excess of the cash value held, which may be made available upon the reinstatement of lapsed policies; no provision for this item was made as the volume of policies lapsing always exceeds the amount of reinstatements.

(d) To cover the option of renewal under term policies no reserve was provided.

(e) To cover the option of conversion either during a fixed term or at the end thereof into higher premium policies, the premium for the new policy being fixed according to the age at entry for the age at date of conversion, no reserve was provided.

(f) To cover any other contingency; excepting for the special contingency reserve noted in the balance sheet and the provision for unreported death and disability claims, no items of special reserve other than those described above appeared to be necessary.

II. INVESTMENT INCOME AND INVESTMENT EXPENSES

(1) Average rate of interest earned. The average rate of interest earned during the year 1945 on the basis of the net ledger assets at book value was 4.42% according to the formula $21 \div (A + B - I)$. The revenue interest for the year is determined by taking the cash interest income including premium on foreign currency page 9, item 4, plus the accrued interest as of the 31st of December, 1945, page 5, item 14 less the accrued interest as of the 31st of December, 1944, being the corresponding item. The book value of the net ledger assets as of the end of the year is represented by item 10, page 5 of this statement, and for the beginning of the year by the corresponding item of the previous year's statement.

(2) Investment expenses: The investment expenses for 1945 amounted to \$32,480. These expenses were comprised of taxes \$3,717.43; salaries \$13,500; rents \$1,019.25; directors' fees \$3,000; auditors' fees \$1,000; commissions \$9,245.76, and miscellaneous \$997.56. In determining the basis of investment expenses not specifically allocated, an analysis of expenses by function is made from time to time.

III. ALLOCATION OF SURPLUS

(1) Basis for the distribution of surplus as between shareholders and policyholders. A separation of the funds of the Company as between participating policies, non-participating policies and shareholders has been made and the surplus arising from participating policies is allotted on the basis of 90% to the policyholders and 10% to the shareholders.

(2) Method by which dividends for each class of assurance policies and annuity contracts were computed. The distribution of surplus is made on a three factor contribution method using the factors (i) gain from interest earned in excess of the amount required to maintain the policy reserve, (ii) gain from mortality, i.e., the difference between the claims experienced and the expected claims on the net amount at risk according to the method of valuation, and (iii) the gain from loading on premiums in excess of the expenses.

The interest surplus is taken at 0.50% of the mean reserve by the Canadian Modified preliminary term method.

The gain from mortality is assumed to be 10% of the AM(5) table of mortality with a minimum of \$1.00 per thousand applied to the net amount of risk.

The gain from loading is taken as 50% of the excess of the gross premium over the net renewal premium by the Canadian Modified preliminary term method AM(5) 3 1/2% and expenses of 7 1/2% of the gross premium plus \$3.00 per thousand per annum. In the case of endowment plans on the 1937 rate series the loading factor is a percentage of the (gross premium less the net renewal premium on the Canadian Modified AM(5) 3 1/2% basis) graded from 5% at age 10 to 7 1/2% at age 50. In the case of the retirement income bond plan the loading factor is 50% of the (gross premium less the net premium and less the expense allowance of 5% of the gross premium plus \$7.50 per unit premium).

It is assumed that there are no dividends earned during the first policy year. Quinquennial dividends are derived by accumulating the annual profits as described above at 5% to cover interest and survivorship. The amounts of the cash dividend determined as described are converted into bonus additions using the AM(5) 3 1/2% table and are converted into premium reductions using the annuities certain on the 3% interest basis.

Respecting policy proceeds left on deposit with the Company the rate of interest for 1946 is 3% per annum subject to the special guarantee of a higher rate in the case of a few policy contracts. Amounts pertaining to policy contracts in the form of premiums paid in advance are accepted subject to a rate of discount computed on a 2 1/2% interest basis.

The foregoing schedule is applicable for participating policies entitled to share in profits during 1946.

Annuities are issued by the Company only on the non-participating basis. No distinction in dividend class is made as between policies with and without disability benefits.

IV. REASSURED CONTRACTS

This Company has business ceded to one company not licensed in any province of Canada, the particulars being as follows: Lincoln National Life Insurance Company; amount of insurance \$8,511, reserve \$298, as of the 31st of December, 1945.

NET RESERVE CARRIED IN THE LIABILITIES..	832,437.01		60,580.20		893,017.21

I. STATEMENT OF ACTUARIAL LIABILITIES

(1) Policies were grouped according to plans of insurance, years of issue, and ages. The valuation was made on the basis of the Canadian Table of Mortality CM(5). The mean reserves modified in accordance with the Canadian Act by the "Modified Preliminary Term" were used, with 3% interest.

(a) Policies issued at premiums corresponding to ages higher than the true ages were valued at the higher ages.

(b) Liens on policies were disregarded.

(c) There were no policies otherwise issued on lives classed as substandard or special.

(d) Policies were valued as if no extra premiums had been charged.

(e) Before the occurrence of disability, the reserve for the waiver of premiums benefit was taken as half of the gross premiums received. After the occurrence of disability, in addition to the ordinary reserves on the policies, the premiums waived were valued by the mean Hunter's disability annuity values with 3% interest.

(f) The reserve for the additional accidental death benefit was taken at a half of the gross premiums received except that for limited payments policies the additional premiums received were accumulated at 3% interest.

(g) No annuities were issued.

(h) The reserve of a Supplementary Contract not involving life contingencies was taken as the present value of the annuity certain for the payments outstanding, at the rate of 3%.

(2) There were no special reserves.

II. INVESTMENT INCOME AND INVESTMENT EXPENSES

The average rate of interest earned during 1945 was 3.74% as computed by the formula $21 \div (A + B - 1)$.

III. ALLOCATION OF SURPLUS

(1) The surplus to be distributed as between policyholders and shareholders is to be distributed on a proportion of at least 90% to the policyholders.

(2) The first dividend is considered as being equal to the loading of its gross premiums over the net premiums based on CM(5) 3%. The dividends for the following years are computed by taking 20% of the loading increased by 0.25% of the reserve for each policy.

IV. REASSURED CONTRACTS

There was no reinsurance ceded to companies not licensed in any province of Canada.

Actuary's Valuation Balance Sheet, December 31, 1945

MORTUARY FUND

Liabilities

Value of future claims from 948 members	8216,290.00	
Less value of 92% of their future premiums	168,050.00	\$ 18,240.00
Outstanding claims		1,000.00
RESERVE REQUIRED.....		\$ 49,240.00

Assets

Book value of bonds	\$ 17,990.00
Accrued interest....	280.00
Cash in banks	450.00
Deficit	520.00
TOTAL	\$ 49,240.00

The basis of the above valuation was the AM(5) Table of Mortality with 3% interest, and it was assumed that 92% of future premiums would be allocated to the Mortuary Fund.

The rate of interest earned in 1945 was 2.93%.

The ratio of actual to expected claims in 1945, was 54%.

The valuation was compiled by M. A. Mackenzie, M.A., Fellow of the British Institute of Actuaries.

Miscellaneous

Number and amount of mortuary and juvenile certificates in force at end of year providing for waiver of premium in case of disability: Mortuary certificates—number, 2,482; amount, \$2,048,800. Juvenile certificates—number, 192; amount, \$77,600.

Actuary's Valuation Balance Sheet, December 31, 1945

ADULT MORTUARY FUND

Assets

Book value of bonds not in default	\$2,193,629.72
Authorized value of bonds in default	183,279.68
Value of real estate	32,000.00
Policy loans	132,305.70
Cash	35,346.46
Quebec deposit	5,000.00
Non-ledger assets	41,924.50
TOTAL	\$2,623,486.06

Liabilities

Reserves per valuation summary	\$2,329,796.00
Reserve for Grand Council meeting	3,000.00
Reserve for dividends	10,000.00
Accrued liabilities	52,903.44
Surplus	227,786.62
TOTAL	\$2,623,486.06

Basis of the above valuation was:

- For certificates issued prior to October 1, 1937—AM(5) Table of Mortality using continuous functions, and interest at 3½%. The net premiums valued were the gross premiums less 5% of the gross premiums and \$3.75 per thousand per annum.
- For certificates issued between October 1, 1937, and December 31, 1943—AM(5) Table with interest at 3½%. A modified preliminary term method was used by which the allowance under any certificate, for first-year expenses, was limited in the valuation to the amount of the 20 Payment Life premium for the amount of insurance and for the age of entry under the certificate valued.
- Certificates issued in 1944 were valued on the same basis as (b) above, with interest at 3%.

Average rate of interest earned on ledger assets was 4.81%.

The mortality experienced on the gross amount at risk was 74.8%.

Ratio of assets to liabilities, 109.5%.

JUVENILE MORTUARY FUND

Assets

Book value of bonds not in default.....	\$ 53,273.81
Cash.....	7,844.88
Policy loans.....	469.91
Non-ledger assets.....	2,240.30
TOTAL.....	\$ 63,828.90

Liabilities

Reserves per valuation summary.....	\$45,710.00
Other liabilities.....	3,219.69
Dividend reserve.....	1,000.00
General reserve.....	1,500.00
Surplus.....	12,399.21
TOTAL.....	\$ 63,828.90

Certificates issued prior to 1939 were valued by the AM(5) Table using net premium equal to 60% of the gross premium with 3½% interest. Certificates issued between 1939 and 1943 were valued on the net level premium basis by the AM(5) Table at 3½% interest. Certificates issued in 1944 were valued on the same basis with 3% interest.

Insurance valued (maximum) was \$1,033,550.

Ratio of assets to liabilities was 124.1%.

SICK BENEFIT FUND

Assets

Book value of bonds not in default.....	\$175,581.26
Authorized value of bonds in default.....	3,984.51
Cash.....	8,136.58
Non-ledger assets.....	4,987.05
TOTAL.....	\$192,689.40

Liabilities

Reserves per valuation summary.....	\$125,193.00
Other liabilities.....	10,232.90
General reserve.....	10,000.00
Surplus.....	47,263.50
TOTAL.....	\$192,689.40

Basis of valuation: The certificates issued under the sickness plan in force prior to 1937 were valued upon the basis of the M.U.O.O.F. Table and 3½% interest, Occupation Group A.H.J., Area 1, Rural and Urban combined, using the first three months' sickness only. The net premiums valued were 60% of the gross premiums. The new plans issued from 1937 on were valued on the basis of the same table, using the first twelve months' sickness. A modified preliminary term method was used by valuing the net premiums at age of entry, plus six months, according to the table used in the valuation. Certificates issued in 1944 are valued on a basis of 3% interest. Basis of funeral benefits—AM(5) Table with 3½% interest.

Ratio of assets to liabilities was 132.5%.

All the above valuations were compiled by S. H. Pipe, F.A.S., F.A.I.A., A.I.A., Toronto.

Actuary's Valuation Balance Sheet, December 31, 1945

MORTUARY FUND

Liabilities

Net reserves on policies, including vested bonuses	\$333,740.00
Outstanding claims and provisions for unreported claims	7,730.00
Value of 4% of future premiums payable to secretaries	7,250.00
Reserve for contingencies	25,000.00
Surplus	39,220.00
TOTAL	<u>\$412,940.00</u>

Assets

Bonds not in default	\$383,930.00
Bonds in default at authorized value	3,970.00
Accrued interest on bonds not in default	4,680.00
Loans on policies	15,060.00
Cash on hand	5,300.00
TOTAL	<u>\$412,940.00</u>

The basis of the above valuation was the AM(5) Table with interest at 3%. The premiums valued were 92% of future premiums and the reserve includes an annual allowance of \$2.00 per \$1,000 of the sums assured in force. In addition, a special reserve has been set up to take care of the 4% commission payable to secretaries on gross premiums to be collected on policies now in force.

The rate of interest earned during 1945 on the mean ledger assets was 4.16%.

Ratio of actual claims incurred during 1945 to expected claims by the AM(5) Table of Mortality was 85.7%.

The ratio of assets to liabilities was 110.5%.

FUNERAL FUND

Assets		
Book value of bonds not in default.....	\$ 35,150.00	
Accrued interest.....	260.00	
Cash.....	3,310.00	\$ 38,720.00
Estimated one-quarter year's dues in hands of Subordinate Secretaries.....		5,000.00
Outstanding liens bearing 4% interest.....		45,000.00
Deficit.....		<u>45,000.00</u>
TOTAL.....		<u>\$140,830.00</u>
Liabilities		
Value of \$100 funeral benefit payable on death of each of 7,289 members.....	\$382,230.00	
Less value of \$3.00 per year from each member reduced by 8% for expenses.....	243,900.00	\$138,330.00
Outstanding claims.....		<u>2,500.00</u>
TOTAL.....		<u>\$140,830.00</u>

The basis of the above valuation was 1924-29 Ultimate Table with interest at 4%. The liability valued was the funeral benefit of \$100 payable on the death of members only. No liability has been calculated for the funeral benefits payable to members' wives or children. The premiums valued were 92% of the future premiums payable. The rate of interest earned during 1945 was 3.90%. The valuation was compiled by N. E. Sheppard, M.A., F.I.A.

*See note on page 1.

†For detail of last Actuarial Valuation as of December 31, 1944, see page 138 of 1945 Report (Business of 1944). See also The Insurance Act, R.S.O. 1937, c. 256, secs. 243 (4) and 257, re societies with membership limited to government or municipal employees. Amendments to the by-laws were made in 1946, changing the benefits and contributions to the Fund. It is anticipated that these changes will eliminate the deficit shown in the 1944 Actuarial Valuation and will put this Fund in a sound condition.

Actuary's Valuation Balance Sheet, December 31, 1945

MORTUARY FUND

Assets

Funds applicable to benefits	\$4,924,375.88
Sickness benefits paid as a lien on certificates in force	69,024.12
TOTAL	\$4,993,400.00

Liabilities

Reserve.....	\$1,503,777.00
Claims payable by instalment.....	8,372.00
Commuted value of disability claims.....	7,030.00
Other liabilities.....	35,187.00
Surplus.....	439,034.00
TOTAL.....	\$1,993,400.00

Certificates issued prior to 1944 were valued on the National Fraternal Council Table with interest at 4%.

Certificates issued since 1944 were valued on the AM(5) Table of Mortality with interest at 3 1/2%, using net premiums which distribute first-year expenses over the premium-paying period.

Ratio of actual to expected claims during 1945 was 70.3%.

The ratio of interest earned in 1945 on the total assets of the Society was 3.78%.

Total insurance valued was \$23,408,134.

SICKNESS FUND

Assets

Funds applicable to benefits.....	\$ 432,845.31
-----------------------------------	---------------

Liabilities

Reserve.....	\$ 310,761.00
Other liabilities.....	2,650.00
Surplus.....	119,434.31
TOTAL.....	\$ 432,845.31

The valuation has been made on the basis of the graduated rates of sickness adopted in 1934, in conjunction with the N.F.C. Table of Mortality with interest at 4%, except that the \$5.00 class admitted in 1921 and subsequently, and also the \$10.00 class are valued on the AM(5) Table of Mortality with interest at 3 1/2%. The \$10.00 class of benefit has been valued on the basis of 2 1/2 times the 1934 rates of sickness.

JUVENILE FUND

Assets

Funds applicable to benefits.....	\$ 170,322.69
-----------------------------------	---------------

Liabilities

Reserve.....	\$ 147,585.00
Other liabilities.....	520.00
Surplus.....	22,217.69
TOTAL.....	\$ 170,322.69

The basis of valuation is the same as in previous years.

All the above valuations were compiled by J. B. Mabon, F.I.A., F.A.S., and P. D. Baldwin, F.A.S., F.A.I.A.

MISCELLANEOUS AND CONSTATING INSTRUMENTS

Les Prevoyants du Canada is an organization founded in the Province of Quebec in the year 1909, incorporated that year by private act of Quebec, cited 9 Edward VII, c. 121. Its charter was amended in 1911 (1 Geo. V, c. 89); again in 1918 (8 Geo. V, c. 122); again in 1921 (11 Geo. V, c. 148), and again in 1930 (20 Geo. V, c. 142). In 1926 it applied for permission to carry on business in Ontario, and the following year The Ontario Insurance Act was amended to provide for the licensing of such organization as a new class of insurer called "pension fund associations" (vide Stat., Ont. 1927, c. 50). This organization subsequently received its initial Ontario license under date of December 3, 1927.

The charter was again amended in 1942 (6 Geo. VI, c. 142), whereby the Company was authorized to enter into contracts of life insurance and to assume the assets and liabilities of the Annuity Fund (La Caisse de Retraite) and the Reimbursement Fund (La Caisse de Remboursement). The Company continues to administer the Pension Fund, which remains a separate organization from Les Prevoyants du Canada.

This Act also changed the basis on which pensions were to be paid to members of the Pension Fund, as follows:

"Notwithstanding any provision to the contrary, the rate of the annual pensions shall be established in such a way that the present value of the pensioners' pensions at any time and the accumulated assessments of the members shall correspond to the net assets of Les Prevoyants du Canada (Fonds de Pension)."

For detailed description of funds and method of operation, see 1928 Report, page 351.

Miscellaneous and Constating Instruments

The Société Saint-Jean Baptiste de Montreal was founded in the Province of Quebec in 1834 and incorporated in 1848 by private Act of Quebec (12 Victoria, chap. 149). Its charter was later amended as follows: 1888-89 by 51-52 Victoria, chap. 65; 1891-92 by 55-56 Victoria, chap. 85; 1899 by 62 Victoria, chap. 93; 1903 by 3 Edward VII, chap. 121; 1906 by 6 Edward VII, chap. 93. It is classified as a benefit society, having no capital stock, its directors being elected by the members. Its only objective is to serve the people by mutual benefit.

By its charter, the Society has been authorized to establish a few separate corporations, amongst which are: La Caisse Nationale d'Economie, La Caisse de Remboursement, and a trust company known as La Société Nationale de Fiducie, also Le Monument National and La Société Nationale de Colonization.

In 1926, La Société St-Jean Baptiste de Montreal applied for permission to carry on business in Ontario for its two corporations: La Caisse Nationale d'Economie and La Caisse de Remboursement in the operation of Pension Funds; and the following year the Ontario Insurance Act was amended to provide for the licensing of such organizations under a new class of insurers called "Pension Fund Associations" (vide Stat. Ont., 1927, c. 50). These organizations subsequently received their initial Ontario licenses under date of September 19, 1927. La Société Nationale de Fiducie, Le Monument National and La Société Nationale de Colonization operate in the Province of Quebec only.

La Caisse Nationale d'Economie and La Caisse de Remboursement are two distinct corporations, founded in the Province of Quebec by La Société St-Jean Baptiste de Montreal, and incorporated as follows: Caisse Nationale d'Economie by private Act of Quebec (62 Victoria, chap. 93); Caisse de Remboursement by private Act of Quebec (3 Edward VII, chap. 121).

Their charters were later amended as follows: 1912 by 3 Geo. V, chap. 93; 1918 by 8 Geo. V, chap. 121; 1920 by 10 Geo. V, chap. 130; 1921 by 11 Geo. V, chap. 147; 1922 by 12 Geo. V, chap. 130; 1940 by 4 Geo. VI, chap. 124; 1945 by 9 Geo. VI, chap. 105.

The 1945 Act converted La Caisse de Remboursement into a mutual life insurance company under the name of the Caisse Nationale d'Assurance-Vie, with power to carry on the business of life insurance. This Act also changed the basis on which pensions were to be paid by La Caisse Nationale d'Economie as follows:

"From and after the 1st of January, 1946, the amount of the annual pensions shall be determined in such a way that the actual value of the pensions at the amount fixed and the accumulation at compound interest of the contributions of the members who are not annuitants does not exceed the amount of the capital of La Caisse increased by the part of the general reserve fund available for use for the purposes of the pension including the actual value of the contributions to be received from member-annuitants."

NOTE.—Beginning 1924, companies were required to set up in their annual statements, 80% liability for unearned portions of cash payments paid three years in advance; beginning 1931, they were further required to set up 80% liability for unearned portions of annual instalments of cash payments. Total liabilities increased accordingly.

APPENDICES

APPENDIX I

REVIEW OF 1946 LEGISLATION

At the 1946 Session of the Legislature the following amendments were effected to The Insurance Act by The Insurance Amendment Act, 1946 (Statutes of Ontario, 1946, c. 42). The Legislature prorogued on April 5, 1946, and the Act, except those sections to come into force on a day to be named by the Lieutenant-Governor by his Proclamation, came into force on June 4, 1946. The provisions enacted subject to proclamation came into force on July 2, 1946, by Proclamation dated June 12, 1946.

Sections 1 and 3 deal with amendments to section 48 and the repeal of subsection 84 of The Insurance Act resulting from the enactment of The Regulations Act (1944, chapter 52).

By section 2 the word "or" is substituted for the word "and" in the fifth line of subsection 1 of section 76 of The Insurance Act to correct an error.

Section 4 renders the provisions of Part III of The Insurance Act inapplicable to contracts of marine insurance. This amendment is complementary to The Marine Insurance Act, 1946 (Statutes of Ontario, 1946, chapter 51).

By section 5 "will" is defined to include a codicil. This definition is added as paragraph 19 of section 128 of The Insurance Act.

By section 6, subsection 2 of section 153 of The Insurance Act is repealed and the following substituted therefor:

- "(2) Subject to subsection 1, a beneficiary or a trustee appointed pursuant to section 177 may, at the maturity of the contract, enforce for his own benefit or as such trustee the payment of insurance money appointed, appropriated or apportioned to him by the contract or a declaration and in accordance with the terms thereof, but the insurer shall be entitled to set up any defence which it could have set up against the insured or his personal representatives; and payment made to the beneficiary or trustee shall discharge the insurer.
- (2a) A declaration, whether contained in a will or other instrument in writing, shall, subject to subsection 1, have effect from the time of its execution, but a declaration shall not affect the interest or rights of a beneficiary for value or assignee for value unless the declaration has been filed with the insurer at its head or principal office in Canada prior to the time when the beneficiary for value or assignee for value acquired such interest or rights and if not so filed the interest or rights of the beneficiary for value or assignee for value shall be as if the declaration had not been made.
- (2b) In the case of a declaration contained in a will it shall be sufficient for the purposes of subsection 2a to file a copy thereof or of the material part thereof verified by statutory declaration."

The purpose of this amendment, arising out of the decision in the case of *Deckert vs. Prudential Insurance Company of America* (1943 O.R. 448), is to remove uncertainty respecting the right of an ordinary beneficiary under a life insurance policy to sue for insurance moneys and to clarify and safeguard the rights of ordinary beneficiaries.

By section 7, a new subsection (3) is added to section 184 of The Insurance Act, as follows:

- "(3) This Part, other than section 205, shall not apply to insurance of an automobile chiefly used or operated off highways unless insured under a form of policy approved under this Part."

This amendment permits policies of insurance different from the usual automobile type to be written for vehicles used chiefly "off the highway," but in all such cases the absolute liability provisions will apply.

By section 8, section 201 of The Insurance Act is amended to read as follows:

- "201. The insurer shall not be liable under an owner's policy or a driver's policy,—
- (a) for any liability imposed by any workmen's compensation law upon the insured; or
- (b) for loss or damage resulting from bodily injury to or the death of the insured or the son, daughter, wife, husband, mother, father, brother or sister of the insured;

or, unless the coverage is expressly extended under section 203,

- (c) to any person, not the owner of the automobile, engaged in the business of an automobile garage, repair shop or service station or as an automobile dealer, for loss or damage sustained while engaged in the operation or repair of the automobile; or
- (d) for any loss or damage resulting from bodily injury to or the death of any person being carried in or upon or entering or getting on to or alighting from the automobile; or
- (e) for loss or damage to property carried in or upon the automobile or owned by, or in the care, custody or control of the insured; or
- (f) for loss or damage resulting from bodily injury to or the death of any employee of the insured while engaged in the operation or repair of the automobile."

By section 9, the first paragraph and clause (a) of section 203 of The Insurance Act is amended to read as follows:

"203. The insurer may, by an endorsement on the policy and in consideration of an additional stated premium, and not otherwise, extend the coverage in whole or in part in any or all of the following respects:—

- (a) in the case of an owner's policy or a driver's policy, the matters mentioned in clauses (c), (d), (e) and (f) of section 201; and"

Prior to this amendment, section 201 relieved the insurance company of liability under an owner's or driver's policy for loss or damage incurred under clauses (a), (b) and (c) and also under clauses (d), (e) and (f) unless the coverage were expressly extended pursuant to section 203. The amendment to section 201 permits the coverage to be extended under a driver's policy to enable a mechanic or driver to file proof of financial responsibility where necessary under his driver's insurance. The amendment of clause (a) of section 203 is complementary to the amendment of section 201. These amendments came into force on July 2, 1946.

THE MARINE INSURANCE ACT, 1946

By this Act (Statutes of Ontario, 1946, chapter 51) (*not printed herein*) Ontario has enacted a Marine Insurance Act identical with The Marine Insurance Act of British Columbia. The following is an explanatory note appearing with the Bill when introduced:

EXPLANATORY NOTES

Ontario has never had an Act dealing specifically with marine insurance and an appreciable amount of this type of insurance business is written in the Province. The Canadian Bar Association, through its Insurance Law Section, recommended the adoption of a uniform Marine Insurance Act in Canada and the attention of the Association of Superintendents of Insurance was directed to this matter. At their 1942 session, and again at the 1944 session, the Association of Superintendents of Insurance recommended that various Provinces enact a uniform Marine Insurance Act based on the Act in force in the United Kingdom.

The Act now proposed is the same as the Marine Insurance Act, 1906, of the United Kingdom. It has been in force in British Columbia for many years, in Nova Scotia since 1941, and in New Brunswick since 1943. A similar Bill is now before the Manitoba Legislature. No change whatever has been made in the drafting of the sections.

The general scope and effect of the Imperial Statute is described in Lord Halsbury's "Laws of England," Volume 17, at page 335, as follows:

"670. The Act codifies only those principles of the law which relate exclusively to marine insurance. Thus it does not lay down rules which apply to contracts in general, such as those relating to fraud, mistake, or illegality, nor those relating to such special subjects as the duties of the master of a ship, salvage, or general average; it does not attempt to define who is to be deemed in time of war an alien enemy or a neutral, or by what acts the character of neutrality may be forfeited. All such matters are excluded, because they more properly belong to other departments of law, such as the law of contract, the law of shipping and navigation, prize law and international law; and therefore it expressly provides that 'the rules of the common law, including the law merchant, save in so far as they are inconsistent with the express provisions of this Act, shall continue to apply to contracts of marine insurance'."

THE SUCCESSION DUTY AMENDMENT ACT, 1946

By section 2 of this Act, clause (h) of section 3 of The Succession Duty Act, 1939, is repealed and the following substituted therefor:

“(3) No duty shall be levied on,—

(h) any money payable as a result of the death of the deceased and any interest by way of annuity or otherwise accruing or arising on the death of the deceased, under any contract of insurance within the meaning of The Insurance Act where the deceased was domiciled outside Ontario at the date of his death.”

The purpose of this provision is to bring the Province of Ontario in line with the Dominion and other provinces having similar provisions and so remove possible discrimination against Ontario insurance companies, particularly in regard to their foreign business.

By section 6, subsection 1 of section 8 of The Succession Duty Act, 1939, is amended by striking out the words “provided that this sub-clause shall not apply to any money payable as mentioned in clause (h) of section 3” in sub-clause (ii) of clause (a), and by adding at the end of the subsection the words “provided that this subsection shall not apply to any contract to which clause (h) of section 3 applies.”

This amendment is complementary to section 2 of the 1946 Act by dispensing with consent to payment under those conditions.

By subsection 2 of section 6 of the 1946 Act, section 8 (2) of the 1939 Act is amended by striking out the figures “\$1,100.00” and inserting in lieu thereof the figures “\$1,500.00.”

The purpose of this amendment is to permit payment of insurance moneys without consent to the same amount as under the Dominion Succession Duty Act.

THE STATUTE LAW AMENDMENT ACT, 1946

By section 24 of this Act, section 1 of The Insurance Amendment Act, 1942, is repealed.

The repealed section provided for the repeal of a number of definitions contained in section 1 of The Insurance Act. It was enacted in 1942 subject to proclamation but has never been proclaimed.

THE COMPANIES AMENDMENT ACT, 1946

By section 5 of this Act (1946, c. 10), section 300 of The Companies Act is amended by adding thereto the following subsection:

“(7a) Notwithstanding anything contained in this Act or in any other Act, an insurer incorporated under the law of Ontario for the purpose of undertaking life insurance may cause to be formed, or may join with one or more life insurance companies in forming, one or more institutional holding companies and one or more institutional housing corporations as defined in The National Housing Act, 1944 (Canada), as amended by 9-10 George VI, chapter 26 (Canada), and may invest its funds in shares or debentures of the said holding companies, and in shares of the said housing corporations to an aggregate amount which, when added to the aggregate amount invested by the said insurer under section 300a of this Act, does not exceed five per centum of its total assets in Canada allowed by the Superintendent of Insurance.”

This amendment makes applicable to insurance companies incorporated in Ontario the provisions of the amendment to The National Housing Act, 1944 (Canada), which gives Dominion incorporated insurance companies power to form institutional holding companies and institutional housing corporations and to invest in the debentures or shares of the holding companies and the shares of housing corporations.

Section 123 of The Loan and Trust Corporations Act (R.S.O. 1937, Chapter 257) provides as follows:—

123.—(1) No corporation shall, under the penalty of becoming disentitled to registry or of having its registry suspended or cancelled, make, print, publish, circulate, authorize, or be a party or privy to the making, printing, publishing, or circulating of any statement or representation that its solvency or financial standing is vouched for by the Registrar or that the publication of its statement in his report is a warranty or representation of the solvency of the corporation, or of the truth or accuracy of such statement in any particular.

ONTARIO

DEPARTMENT OF INSURANCE

TO THE HONOURABLE LESLIE E. BLACKWELL, K.C., M.P.P.,

Minister in charge of the Department of Insurance.

Sir:

I have the honour to submit herewith, as required by The Loan and Trust Corporations Act, the Forty-ninth Annual Report of the Registrar of Loan Corporations. It shows the particulars of the business of each registered loan corporation, loaning land corporation, and trust company doing business in Ontario during 1945, as ascertained from its annual and other returns and from the inspection and enquiries made by the Chief Inspector and his staff. Detailed statements of the individual corporations are grouped herein in accordance with these three classifications recognized by the Act and are further arranged in alphabetical order. In addition, statistical tables, tabulated summaries and comparative statements are included as shown in the Table of Contents.

The annual returns of the corporations covering their 1945 business were filed with the Department at the end of February, 1946. Upon filing, each return was carefully checked and a preliminary Abstract of this Report showing assets, liabilities, revenue accounts, profit and loss accounts and mortgage summaries was prepared and issued under date of April 15th, 1946. The remaining months of the year were required to complete the annual inspection of the corporations, and to determine what changes, if any, should be made in the individual statements of the corporations as a result of such inspections. Any such changes made have not been carried, by reason of the time and expense involved, into the statistical tables and summaries at the end of this report which are reprinted without change as they appeared in the preliminary Abstract.

I have the following registry changes to report:

“Crown Trust Company”

“The Trusts and Guarantee Company, Limited”.

An agreement between these companies dated January 9th, 1946, whereby the Assets and Liabilities of the Crown Trust Company were taken over and assumed by The Trusts and Guarantee Company, Limited, as of the 21st day of May, 1946, was approved, ratified and confirmed by the shareholders of both companies on the 25th day of February, 1946, and was approved by Order-in-Council on the 21st day of May, 1946.

The Lieutenant-Governor having approved the said Agreement bearing

date the 9th day of January, 1946, the name of The Trusts and Guarantee Company Limited was changed to Crown Trust and Guarantee Company.

“Ottawa Valley Trust Company”

By a special Act of the Parliament of Canada, assented to by the Governor-General on the eighteenth day of December, 1945, the Ottawa Valley Trust Company with Head Office in Ottawa was incorporated and became registered under The Loan and Trust Corporations Act, Ontario, on the twenty-fourth day of September, 1946.

INTRODUCTION:

The Statistical Tables included at the end of this Report have been used for comparative purposes in preparing the following review of 1945 business.

Loan Corporations:

Total assets of loan corporations have increased \$5,562,000 during 1945 to a total of \$207,707,000. This increase is due to an increase in deposits, which now amount to \$50,257,000. This is the largest amount held on deposit by these companies since statistics have been kept and represents an increase of \$5,873,000 over 1944. As a result of the further redemption of debentures payable in Sterling, debentures payable outside of Canada have continued to decline. These were reduced by \$958,000 in 1945 to a total of \$14,898,000 as compared with \$27,184,000 in 1938. Debentures payable in Canada have shown an increase of \$515,000 to \$73,906,000 in 1945, as compared with a total of \$73,391,000 in 1944.

The following table shows the public liability of loan corporations over the past twenty-one years:

Year	Deposits	Debentures Payable	
		In Canada	Out of Canada
1924	\$27,757,000	(\$86,650,000 not separated)	
1934	31,460,000	\$83,558,000	\$30,085,000
1938	33,589,000	74,850,000	27,184,000
1942	33,439,000	74,222,000	20,033,000
1943	37,381,000	74,737,000	17,872,000
1944	44,384,000	73,391,000	15,856,000
1945	50,257,000	73,906,000	14,898,000

The assets of Loan Corporations continue to show the same trend which has been evident during the past few years. Real Estate held for sale was reduced \$2,714,000 in 1945 and \$2,704,000 in 1944, and now stands at \$3,296,000. Mortgage loans now total \$107,033,000, which represents a reduction of \$3,500,000 in 1945 as compared with a reduction of \$10,087,000 in 1944 and \$8,864,000 in 1943. The funds from these reductions have been invested in increased holdings of Dominion of Canada bonds. In 1941 the total of these bonds was \$12,800,000; in 1942, \$15,731,000; in 1943, \$28,493,000; in 1944, \$39,253,000 and in 1945, \$57,390,000. The increase this year is \$18,147,000 as compared with an increase in 1944 of \$10,760,000.

The percentage of Dominion of Canada bonds to total assets is 27.63%, as compared with 19.42% in 1944, and 6.41% in 1941. Holdings of cash decreased \$5,754,000 this year, to a total of \$7,340,000, but nevertheless the percentage of total assets held in cash and Dominion Government bonds has increased from 25.89% in 1944 to 31.16% in 1945, which compares with 11.08% in 1941.

The steady reduction in real estate and mortgages is the result of increased incomes throughout Canada, particularly in the rural areas of the Western provinces, and is an indication of the general transition from tenancy to ownership of city homes and farms as a result of war conditions.

TRUST COMPANIES:

Total assets of trust companies (exclusive of those held for estates, trusts and agencies) show an increase of \$20,615,000. Company fund assets of \$66,091,000 show an increase of \$3,339,000 in 1945. Guaranteed fund assets totalling \$176,285,000 have increased \$17,276,000, due principally to an increase in Trust Deposits of \$12,483,000 and an increase in Guaranteed Certificates of \$4,563,000.

Trust deposits over the past twenty-one years have shown a steady increase and are at the present time at their highest point since statistics have been kept. Guaranteed Trust funds have been fluctuating, but this year also show a substantial increase. The following table of Guaranteed funds received from the public by trust companies over the past twenty-one years shows the trend of this liability:

Guaranteed Funds

<i>Year</i>	<i>Deposits</i>	<i>Guaranteed Receipts</i>	<i>Total</i>
1924	\$11,363,000	\$42,655,000	\$ 54,018,000
1934	45,058,000	87,493,000	132,551,000
1938	56,488,000	87,367,000	143,855,000
1942	55,033,000	80,468,000	135,501,000
1943	59,505,000	84,056,000	143,561,000
1944	69,485,000	89,524,000	159,009,000
1945	81,968,000	94,080,000	176,048,000

The increase in total assets of both Company and Guaranteed Funds is represented by an increase of \$24,778,000 in Dominion of Canada (and guaranteed) bonds, which now represent 22.36% of company funds and 48.11% of guaranteed funds as compared with 18.42% and 39.77% respectively in 1944.

Real Estate holdings, due to sales, were again reduced in 1945, having decreased \$1,333,000 to a total of \$1,839,000, which compares with decreases of \$2 million and \$1.7 million in 1944 and 1943 respectively. Mortgages on real estate held in Company and Guaranteed Funds have decreased \$3,566,000 in 1945 as compared to a decrease of \$5,677,000 in 1944 and \$5,827,000 in 1943.

PUBLIC LIABILITY—LOAN AND TRUST COMPANIES COMBINED

The total public liability of both Loan and Trust Companies increased \$22

million in 1945 to a total of \$315 million. This compares with \$168 million in 1924; \$277 million in 1934, and \$279 million in 1938.

This liability consists of debentures payable by Loan Companies, Guaranteed Investment Receipts issued by Trust Companies and deposits held by both Loan and Trust Companies.

These deposits at December 31st, 1945, were \$132,225,000 as compared with \$113,869,000 at December 31st, 1944, an increase of \$18,356,000, which compares with an increase during 1944 of \$16,984,000. Deposits have been increasing steadily for the past twenty years, being \$39 million in 1924; \$76 million in 1944, and \$90 million in 1938.

ESTATES, TRUSTS AND AGENCIES:

Total assets under administration by all Trust Companies have increased during 1945 by 104 million dollars to a total figure of \$2,753,477,000, which makes a new high in this important branch of their business. At December 31st, 1924, the total assets under administration by all companies showed a total of \$823,375,000.

OFFICE PREMISES:

The total investment in office premises for Loan and Trust Corporations amounted to \$10,770,000. This is a decrease of \$233,000 from the previous year's total of \$11,003,000, which is due to the customary annual write-downs.

REAL ESTATE HELD FOR SALE:

The demand for real estate of all kinds was again very active in 1945 and has resulted in a further expansion in sales. The following table shows the holdings of real estate during the past eleven years:

<i>Year</i>	<i>Loan Corporations</i>	<i>Trust Companies</i>
1935	\$ 8,850,000	\$ 7,151,000
1936	10,146,000	8,321,000
1937	12,933,000	8,549,000
1938	11,334,000	8,938,000
1939	11,731,000	9,367,000
1940	12,020,000	9,411,000
1941	10,989,000	8,379,000
1942	9,617,000	6,952,000
1943	8,714,000	5,246,000
1944	6,010,000	3,172,000
1945	3,296,000	1,839,000

Real Estate held for sale by all Loan and Trust Corporations shows a substantial decrease of \$4,047,000 during 1945, from a total of \$9,182,000 in 1944, to \$5,135,000 in 1945. In 1940 the total amount of real estate held for sale amounted to 21,431,000.

Holdings of real estate by Loan Corporations now represent 1.58% of total assets as compared with 6.01% in 1940, while that held by Trust Companies in Company Funds was 2.78% of total Company Assets in 1945, and 15.98% in 1940.

MORTGAGE LOANS:

Total mortgages of both Loan and Trust Corporations are carried at balance sheet figures of \$166,382,000, a reduction of \$7,066,000 from the total in 1944 of \$173,448,000. Loan Corporations reduced their mortgages \$3,500,000 to \$107,033,000, while those of Trust Companies have been reduced \$3,566,000 from \$62,915,000 to \$59,349,000.

The summary of mortgages at the end of this Report shows a segregation of farm and urban mortgages by provinces, based on the gross book value before the deduction of special reserves for balance sheet purposes. The total value of mortgages for both Loan and Trust Corporations shown in this summary is \$173,775,000, which is some \$7,418,000 greater than the amount at which they are carried in the companies' balance sheets, and consists of \$130,069,000 in mortgages in Eastern Provinces and \$43,706,000 in Western Provinces. The amount of Western mortgages held by Loan and Trust Corporations has been substantially reduced in recent years, being \$51 million in 1944; \$65 million in 1943; \$74 million in 1942 and \$77 million in 1941.

The following table shows the trend of mortgages of both Loan and Trust Corporations, as divided between Western and Eastern holdings for the years 1938 to 1945 inclusive:

<i>Western</i>	<i>Principal</i>	<i>Interest Charged and Past Due</i>
1938	\$80,006,000	\$5,188,000
1939	77,632,000	5,008,000
1940	75,072,000	5,353,000
1941	72,086,000	5,015,000
1942	68,680,000	5,008,000
1943	61,102,000	3,891,000
1944	49,155,000	1,633,000
1945	42,837,000	869,000
 <i>Eastern</i>		
1938	153,350,000	2,042,000
1939	152,426,000	1,834,000
1940	149,103,000	1,581,000
1941	146,014,000	1,222,000
1942	140,175,000	856,000
1943	132,970,000	615,000
1944	128,891,000	324,000
1945	129,980,000	89,000

A segregation between farm and urban mortgage principal owing has been made for the four years since 1942 as follows:

(000 omitted)				
<i>Western</i>	1945	1944	1943	1942
Farm	\$ 25,113	\$ 32,074	\$ 44,015	\$ 49,140
Urban	17,724	17,081	17,087	19,540
Total	\$ 42,837	\$ 49,155	\$ 61,102	\$ 68,680
 <i>Eastern</i>				
Farm	\$ 7,786	\$ 7,774	\$ 7,937	\$ 8,632
Urban	122,194	121,117	125,033	131,543
Total	\$129,980	\$128,891	\$132,970	\$140,175
 Total Farm	 \$ 32,899	 \$ 39,848	 \$ 51,952	 \$ 57,772
Total Urban	139,918	138,198	142,120	151,083
 Grand Total	 \$172,817	 \$178,046	 \$194,072	 \$208,855

It is notable that the decline in mortgage principal which was evident during the war years, has been halted for Eastern mortgages and urban mortgages in the Western Provinces. Only Western farm mortgages have continued to decrease in amount. It may be anticipated that the trend of the past few years will shortly be reversed as opportunities for new mortgage investments expand.

COLLATERAL LOANS:

The total of these loans for both Loan and Trust Corporations is \$15,469,000 and shows little change from the previous year.

BONDS AND DEBENTURES:

Bonds and debentures held by Loan Corporations total \$69,716,000 and by Trust Companies \$132,654,000, a total for both Loan and Trust Corporations of \$202,370,000, which represents an increase of \$41,750,000 over the previous year's total of \$160,620,000. The investment in Dominion Government bonds has increased \$42,915,000, while Provincial, Municipal and other bonds have decreased \$1,165,000.

The following table shows the trend of bonds and debentures of Loan and Trust Corporations for the years 1941 to 1945 inclusive:

(000 omitted)					
	1941	1942	1943	1944	1945
Dom. of Canada	\$ 41,648	\$ 51,989	\$ 81,618	\$114,059	\$156,974
Provincial	23,187	23,134	22,526	21,907	20,927
Municipal	12,162	11,188	11,267	10,744	10,897
Other	17,441	14,355	13,483	13,910	13,572
Total	\$ 94,438	\$100,666	\$128,894	\$160,620	\$202,370

During the four years 1942 to 1945 inclusive, these corporations have invested \$115.3 million in Dominion of Canada bonds. Dominion of Canada bonds now represent 34.8% of total assets of Loan and Trust Companies as compared with 10.47% in 1941, but with a return to peacetime conditions we may anticipate that this trend will not continue.

STOCKS:

The holdings of stocks by Loan Corporations increased \$430,000 in 1945 to a total of \$13,532,000, while Trust Companies' holdings at \$13,043,000 show an increase of \$776,000.

CASH:

Cash held by Loan Corporations decreased \$5,754,000 to a total of \$7,340,000, while total cash of Trust Companies decreased \$387,000 in 1945 to a total of \$11,495,000.

EARNINGS:

Net profits of Loan Corporations (excluding transfers to and from investment reserves) amounted to \$3,147,000 in 1945 as compared to \$3,550,800 in 1944. Trust Companies' net profits on the same basis were \$3,199,300 in 1945 as compared with \$2,803,500 in 1944.

The net amount transferred to investment reserves, which have been eliminated from the above figures is \$945,900 for Loan Corporations, and \$453,600 for Trust Companies, which compares with \$1,365,900 and \$324,000 respectively in 1944.

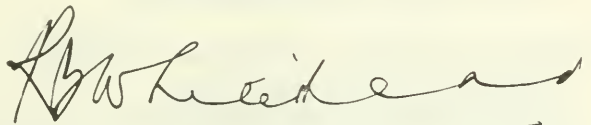

DIVIDENDS:

Dividends declared by Loan Corporations in 1945 amounted to \$1,948,000 and by Trust Companies to \$1,876,000 as compared with \$1,934,000 and \$1,754,000 respectively in 1944.

LIQUID POSITION:

The percentage of liquid securities held by Loan and Trust Corporations that accept deposits was 113.50% on December 31st, 1945, as compared with 109.22% in 1944; 80.41% in 1942, and 67.35% in 1939.

All of which is respectfully submitted.

Registrar of Loan Corporations.

November 15th, 1946.

Interest	42,900 52

CONSTATING INSTRUMENTS

This corporation was incorporated under Special Act of the Dominion of Canada, 62-63 Victoria (1899), c. 101, under the name of "The Canada Permanent and Western Canada Mortgage Corporation," for the purpose of acquiring the assets and business of the Canada Permanent Loan and Savings Company, the Western Canada Loan and Savings Company, the Freehold Loan and Savings Company, and The London and Ontario Investment Company, Limited, which several purchases were confirmed by Special Act of Ontario 63 Victoria, 1900, c. 129. The name was changed to the "Canada Permanent Mortgage Corporation" by 3, Edward VII (1903), c. 94 (D), which Act also amended its lending powers. By 3-4 George V (1913), c. 86 (D), further amendments were made to the Incorporating Act.

Of the constituent companies, the Canada Permanent Loan and Savings Company was incorporated by declaration filed under The Building Societies Act. (Cons. Stat. U.C., c. 53) in 1855, under the name of the Canada Permanent Building and Savings Society, which name was changed to the Canada Permanent Loan and Savings Company by 37 Victoria (Ontario), 1874, c. 100.

The Western Canada Loan and Savings Company was also incorporated by declaration filed under The Building Societies Act in 1863, under the name of the Western Canada Permanent Building and Savings Society, and its name was changed to the Western Canada Loan and Savings Company by 37 Victoria (Ontario), 1874, c. 79.

CANADA PERMANENT MORTGAGE CORPORATION—Continued

The Freehold Loan and Savings Company was also incorporated by declaration filed under The Building Societies Act in 1859 under the name of The Freehold Permanent Building and Savings Society; the name being changed to The Freehold Loan and Savings Company by 36 Victoria (Ontario), 1873 c. 104.

The London and Ontario Investment Company was incorporated by the Act of Ontario 39 Victoria, 1876, c. 62.

In 1918 the corporation purchased the assets and business of The Oxford Permanent Loan and Savings Society, which purchase was ratified by Order-in-Council of Ontario, dated July 31, 1918, pursuant to The Loan and Trust Corporations Act.

In 1921, the corporation purchased the assets and business of The London and Canadian Loan and Agency Company, Limited, which purchase was ratified by Order-in-Council of Ontario, dated September 23rd, 1921, pursuant to The Loan and Trust Corporations Act.

In 1927 the corporation purchased the assets and business of The Royal Loan and Savings Company, which purchase was ratified by Order-in-Council of Ontario, dated March 4th, 1927, pursuant to The Loan and Trust Corporations Act.

In 1927 the corporation purchased the assets and business of The British Columbia Permanent Loan Company, Vancouver, B.C.

In 1927 the corporation also purchased the assets and business of The Canada Landed and National Investment Company, Limited, which purchase was ratified by Order-in-Council of Ontario, dated December 30th, 1927, pursuant to The Loan and Trust Corporations Act.

In 1944, the Corporation purchased the assets and business of The Landed Banking and Loan Company, which purchase was ratified by Order-in-Council of Ontario, dated October 18th, 1944, pursuant to The Loan and Trust Corporations Act.

In 1945, the Corporation purchased the assets and business of The Real Estate Loan Company of Canada, Limited, which purchase was ratified by Order-in-Council of Ontario, dated February 2nd, 1945, pursuant to The Loan and Trusts Corporations Act.

CONSTATING INSTRUMENTS

1884—Letters Patent (under the Ontario Government Joint Stock Companies' Letters Patent Act) incorporating The Central Canada Loan and Savings Company of Ontario, with a capital of \$2,000,000, in 20,000 shares of \$100 each, dated 7th March, 1884.

1890—Act (of the Legislature of the Province of Ontario), 53 Vic., c. 129; declares capital to be \$5,000,000, in 50,000 shares of \$100 each; confirms the purchase of the assets of the Peterborough Real Estate Investment Company, Limited; authorizes the issue of debenture stock; authorizes agencies in the United Kingdom; defines the limit of borrowing powers.

1893—Supplementary Letters Patent (of the Province of Ontario), dated 8th June, 1893, extending the Company's purchasing and lending powers with regard to bonds, stocks and debentures to the Province of Manitoba.

1896—Act (of the Legislature of the Province of Manitoba), 59 Vic., c. 33, authorizes Company to exercise in the Province of Manitoba, with respect to real and personal property, all the rights, powers and privileges that it possesses in Ontario.

1897—Supplementary Letters Patent (of Ontario), dated 6th May, 1897, amending the original Letters Patent by expunging therefrom powers of Company to buy and sell land.

1898—Act (of the Parliament of the Dominion of Canada), 61 Vic., c. 97.

1899—Act (of the Legislature of the Province of Manitoba) authorizing Dominion Company to exercise in Manitoba all its rights, powers and privileges; defining the powers of the Company and vesting all the assets of the old company in the new company.

1900—Act (of the Legislature of the Province of Ontario), confirming and validating the conveyance and assignment of 1st December, 1898 (see form of the conveyance and assignment in schedule to 61 Vic., c. 97), and transferring and vesting the assets of the Provincial Company in the Dominion Company.

CONSTATING INSTRUMENTS

March 15th, 1864, Declaration made and filed (March 18th, 1864) in pursuance of Chapter 53, Consolidated Statutes of Upper Canada, 1859, incorporating The Huron & Erie Savings & Loan Society under the said Act.

1865, 28 Victoria, Chapter 41, An Act of the Legislative Council and Assembly by Canada whereby the London Permanent Building & Savings Society was amalgamated with and merged in The Huron & Erie Savings & Loan Society.

1866, 29-30 Victoria, Chapter 132, An Act of the Legislative Council and Assembly of Canada whereby the Western Counties Permanent Building & Savings Society was amalgamated with and merged in The Huron & Erie Savings & Loan Society.

1875, 39 Victoria, Chapter 95, An Act changing the name of The Huron & Erie Savings & Loan Society to The Huron & Erie Loan & Savings Company.

1875, September 2nd, Declaration filed in pursuance of Chapter 53, Consolidated

THE HURON AND ERIE MORTGAGE CORPORATION—Continued

Statutes of Canada, 1859, whereby the Canadian Savings & Loan Company of London, Canada, was incorporated under the said Act.

1896, 59 Victoria, Chapter 49, Canada, An Act for defining the borrowing powers of the Company and for consolidating legislation in relation thereto.

1899, 62-63 Victoria, Chapter 115, Canada, An Act regulating the amount of the Company's liabilities to the public and as to the types of security in which it may invest.

1905, 4-5 Edward VII, Chapter 105, Canada, An Act dealing with the Company's liabilities to the public, limiting the amount from time to time to be held on deposit, and as to the extent of borrowing power.

1905, December 29th, An Order of the Lieutenant-Governor in Council, assenting to an agreement whereby the assets of The Canadian Savings & Loan Company were vested in The Huron & Erie Loan & Savings Company.

1906, 6 Edward VII, Chapter 110, Canada, An Act whereby The Canadian Savings & Loan Company of London, Canada, was amalgamated with and merged in The Huron & Erie Loan and Savings Company.

1906, 6 Edward VII, Chapter 130, Ontario, An Act of the Province of Ontario similar to the one above described and for the same purpose.

1913, 3-4 Geo. V, Chapter 130, Canada, An Act permitting the Company to increase the amount of its liabilities to the public.

1915, 5 Geo. V., Chapter 74, Canada, An Act changing the name of The Huron & Erie Loan & Savings Company to The Huron & Erie Mortgage Corporation, authorizing the increase of the Company's capital stock, the establishment of a pension fund, etc.

1915, 5 Geo. V., Chapter 86, Ontario, An Act for the same purpose as the Dominion Act last above recited.

1922, August 29th, An Order of the Lieutenant-Governor of the Province of Ontario in Council, assenting to an agreement whereby the assets of the Dominion Savings & Investment Society were vested in The Huron & Erie Mortgage Corporation.

1926, October 13th, An Order of the Lieutenant-Governor of the Province of Ontario in Council, assenting to an agreement whereby the assets of The Hamilton Provident & Loan Corporation were vested in The Huron & Erie Mortgage Corporation.

1927, May 31st, An Order of the Lieutenant-Governor of the Province of Ontario in Council assenting to an agreement whereby the assets of The Southern Loan & Savings Company were vested in The Huron & Erie Mortgage Corporation.

1929, August 29th, An Order of the Lieutenant-Governor of the Province of Ontario in Council, assenting to an agreement respecting the sale of the assets of The London Loan & Savings Company to The Huron & Erie Mortgage Corporation.

1931, January, 17th, An Order of the Lieutenant-Governor of the Province of Ontario in Council, assenting to an agreement, dated November 18th, 1930, whereby the assets of The People's Loan & Savings Corporation were vested in The Huron & Erie Mortgage Corporation.

CONSTATING INSTRUMENTS

Incorporated under The Building Societies Act, 9 Vict., c. 90 (Province of Canada), by declaration filed on 27th March, 1847, with the Clerk of the Peace for the Western District. The original corporate name was "The Port Sarnia Building Society." The society was reorganized as "The Lambton Permanent Building and Investment Society" under the said Act and other Acts, all of which became consolidated as Chapter 53 of the Consolidated Statutes of Upper Canada, by declaration filed 19th June, 1855, with the Clerk of the Peace for the County of Lambton. This latter corporate name was changed by Order-in-Council, 4th June, 1880, to The Lambton Loan and Investment Company.

The lending and the borrowing powers are governed by The Loan and Trust Corporations Act, R.S.O. 1937, c. 257.

Date of last Annual Meeting—February 6th, 1945.
7. Amount of Company's own Debentures and interest thereon, *due and unpaid*\$ 29,951 95

CONSTATING INSTRUMENTS

Incorporated under The Building Societies Act, Consol. Sta. U.C., Chap. 53, by declaration filed with the Clerk of the Peace for the United Counties of Northumberland and Durham, 5th July, 1872. (Decl. Book II, 127).

The corporate name was, by Order-in-Council of Ontario, 21st June, 1876 (Ibid.), changed to the Midland Loan and Savings Company.

A by-law altering the amount of the capital stock and par value of the share was, pursuant to The Loan Corporations Act, approved by Order-in-Council of Ontario, 3rd October, 1900.

The borrowing and lending powers are governed by The Loan and Trust Corporations Act, R.S.O. 1937, Chap. 257.

CONSTATING INSTRUMENTS

Incorporated under The Building Societies Act, Consolidated Statutes of Upper Canada, c. 53, by declaration filed in the office of the Clerk of the Peace for the County of Middlesex, 26th September, 1870. The original corporate name was The Ontario Savings and Investment Society.

By Order-in-Council of Ontario, dated 4th October, 1879, and also by Order-in-Council of Canada, dated 29th October, 1879, the corporate name was changed to The Ontario Loan and Debenture Company.

The Company as now constituted was formed under the provisions of The Loan Corporations Act of Ontario by The Ontario Loan and Debenture Company, taking in by amalgamation the Agricultural Savings and Loan Company under Order-in-Council dated 10th November, 1911, and operates under The Loan and Trust Corporations Act, R.S.O. 1937, chapter 257.

By Order-in-Council of Ontario, dated 12th March, 1930, 20,000 shares twenty per cent, called and paid were converted into 4,000 shares fully paid, the authorized capital thereby being reduced from 100,000 to 84,000 shares.

CONSTATING INSTRUMENTS

Incorporated as "The Toronto Real Estate Investment Company" by Letters Patent of Ontario (June 15th, 1885), issued under The Ontario Joint Stock Companies' Letters Patent Act, R.S.O. 1877, c. 150. Supplementary Letters Patent of Ontario (December 29th, 1887), were issued under R.S.O. 1887, c. 157, defining the borrowing powers, etc. Further Supplementary Letters Patent of Ontario (September 25th, 1889) were issued under the last mentioned Act, increasing the capital stock from \$400,000 to \$2,000,000. Further Supplementary Letters Patent of Ontario (March 30th, 1891) were issued under the same Act, conferring agency powers on the Company. The corporate name was by Order-in-Council (April 2nd, 1891) changed to "The Toronto Savings and Loan Company."

For the lending and borrowing powers, see the Letters Patent and the Acts, R.S.O. 1877, chap. 150; R.S.O. 1887, chap. 157; R.S.O. 1914, chap. 184; R.S.O. 1927, chap. 223; R.S.O. 1937, chap. 257.

CONSTATING INSTRUMENTS

Incorporated 20th May, 1905, by special Act of the Legislature of Quebec, 5 Edward VII, chap 78.

Amendments to charter, 9 Edward VII, chap. 114, 7th May, 1909; 5 George V, chap. 125, 5th March, 1915; 7 George V, chap. 102, 22nd December, 1916; 9 George V, chap. 125, 4th March, 1919.

Authorized by special Act of the Legislature of Ontario, 10-11 George V, chap. 156, 4th June, 1920, to transact business therein as specified in Section 5 of the said Act, which enacts as follows:

“(5) The company shall be limited in respect of all business relating to property and civil rights or provincial objects in the Province of Ontario, to the powers mentioned in the schedules to The Loan and Trust Corporations Act, and shall be subject to the general provisions of the said Act and of the general public law of the said Province relating to trust companies and trusts.”

The company has a deposit in the Province of Ontario amounting to \$50,000.00. Order-in-Council assented to August 23rd, 1934.

CONSTATING INSTRUMENTS

Incorporated by declaration filed May 11th, 1885, with the Clerk of the Peace for the United Counties of Leeds and Grenville. The declaration was made by virtue of "The Building Societies Act," R.S.O. 1877, c. 164, continued by R.S.O. 1887, c. 169, and superseded by 60 Vic., c. 38 (O), now R.S.O. 1897, c. 205. See R.S.O. 1937, c. 257.

The lending and borrowing powers are derived from the above public General Acts.

By a Special Act of the Legislature of Ontario, 19 Geo. V, c. 130, the Company was granted the powers of a trust company and its authorized capital stock was increased from \$500,000 to \$1,000,000. Its name was changed to The Brockville Trust and Savings Company.

CONSTATING INSTRUMENTS

The Canada Permanent Trust Company was incorporated in 1913 by a Special Act of Parliament of the Dominion of Canada, 3-4 Geo. V, c. 87.

Authorized by Order-in-Council (May 7th, 1913), to carry on business in the Province of Ontario as a Trust Company, pursuant to the provisions of The Loan and Trust Corporations Act. R.S.O. 1927, c. 223.

In 1927 the Company purchased the assets and business of The Brantford Trust Company, which purchase was ratified by Order-in-Council of Ontario, dated 31st day of August, 1927, pursuant to The Loan and Trust Corporations Act.

CONSTATING INSTRUMENTS

The Company was incorporated by Act of Parliament of Canada, Chap. 162, 4-5 Edward VII, assented to 20th July, 1905, under the name of The Title and Trust Company with powers to carry on a general Trust Company business and also title insurance.

By Act of the Legislature of the Province of Ontario, Chap. 118, 7 Edward VII, 1907, assented to April 20, 1907, the Company was empowered to register under the Ontario Insurance Act and under the Loan Corporations Act of the Province.

April 18th, 1914, Amendment to Charter and by further Act of the Parliament of Canada, Chap. 70, 5 George V, assented to April 8th, 1915, the name of the Company was changed from The Title and Trust Company to Chartered Trust and Executor Company, the business of title insurance having been discontinued.

CHARTERED TRUST AND EXECUTOR COMPANY—Continued

By further Act of the Parliament of Canada, Chap. 98, 9-10 George V, assented to July 7th, 1919, the Company was empowered to acquire the business of any other Company and to sell and dispose of its own business. (The last mentioned Act was preliminary to the acquisition of Guardian Trust Company, Limited.)

By Act of the Parliament of Canada, Chap. 75, 19-20 George V, assented to May 1st, 1929, the capital stock of the Company was increased to \$2,500,000.00.

By Act of the Legislature of the Province of Quebec, 25-26, George V, Chapter 150, the Company acquired the business of Quebec Savings and Trust Company on March 23rd, 1936.

CONSTATING INSTRUMENTS

The Grey and Bruce Trust and Savings Company, cited 16 Geo. V (1926), c. 123. This Act confirms the amalgamation of The Grey and Bruce Loan Company and The Owen Sound Loan and Savings Company, and constitutes the amalgamated corporation a new corporation under the name of The Grey and Bruce Trust and Savings Company, with Head Office in the City of Owen Sound, and empowers the new corporation to carry on the business of a trust company under The Loan and Trust Corporations Act.

The Grey and Bruce Loan Company was incorporated under The Buildings Societies Act, R.S.O. 1887, c. 169, as a permanent building society under the name of The Owen Sound, Grey, and Bruce Loan and Savings Company, by declaration filed with the Clerk of the Peace for the County of Grey, May 10th, 1889. The corporate name was by Order-in-Council of Ontario, September 15th, 1897, changed to The Grey and Bruce Loan Company.

The Owen Sound Loan and Savings Company was incorporated under The Building Societies Act, R.S.O. 1887, c. 169, by declaration filed with the Clerk of the Peace for the County of Grey on the 1st April, 1889.

The date of incorporation of The Grey and Bruce Trust and Savings Company being April 8th, 1926.

CONSTATING INSTRUMENTS

Incorporated on the 12th June, 1925, by Special Act of Parliament of Dominion of Canada; registered as a Trust Company in Ontario, 13th day of May, 1926.

Fidelity Trusts Company of Ontario. By Order-in-Council dated November 29th, 1940, the Lieutenant-Governor-in-Council formally approved an agreement dated October 8th, 1940, by which "Guaranty Trust Company of Canada" purchased certain assets and assumed the liabilities of the "Fidelity Trusts Company of Ontario". The "Fidelity Trusts Company of Ontario" ceased registry June 30th, 1941.

Niagara Falls Loan and Savings Company, Guaranty Trust Company of Canada. An agreement between these companies dated 20th day of December, 1943, ratified by shareholders of both companies on the 29th and 30th days of December, 1943, respectively, whereby the assets and liabilities of the loan corporation were taken over and assumed by the trust company as of the 13th day of January, 1944, was approved by an order-in-council dated the 13th day of January, 1944.

CONSTATING INSTRUMENTS

Incorporated under The Building Societies Act., R.S.O. 1887, c. 169, by declaration filed with the Clerk of the Peace for the County of Lambton, 20th August, 1889.

By Order-in-Council approved March 6th, 1907, pursuant to the provisions of Section 4 (6), cap. 27, 63 Victoria, the authorized capital stock of the Company was increased from \$500,000.00 to \$1,000,000.00.

By 18 George V. Chapter 112, the Company was given Trust Company powers and its name changed to The Industrial Mortgage and Trust Company.

By 24 George V, Chapter 79, the Company assumed the liabilities and purchased under agreement the business, assets, etc., of The East Lambton Farmers' Loan and Savings Company.

The lending and borrowing powers are governed by The Loan and Trust Corporations Act R.S.O. 1937, c. 257.

By Order-in-Council approved 22nd April, 1936, the Lieutenant-Governor assented to The Industrial Mortgage and Trust Company assuming the liabilities and purchase under agreement dated 24th December, 1935, of the business, assets, etc., of The Crown Savings and Loan Company.

CONSTATING INSTRUMENTS

Incorporated on the 17th September, 1896, by Letters Patent of Ontario, issued under The Ontario Joint Stock Companies' Letters Patent Act, R.S.O. 1887, Chap. 157. See also The Loan and Trust Corporations Act, R.S.O. 1937, Chap. 257.

February 18th, 1929—Order-in-Council confirming By-law No. 14 of the Corporation to increase the capital stock from \$500,000.00 to \$1,000,000.00.

August 21st, 1929—Order-in-Council confirming By-law No. 18 of the Corporation to increase the capital stock from \$1,000,000.00 to \$5,000,000.00.

On the 10th day of September, 1929, His Honor the Lieutenant-Governor approved by Order-in-Council the removal of the Head Office of The London and Western Trusts Company, Limited, from the City of London to the City of Toronto.

By an agreement, dated the 15th day of October, 1929, The London and Western Trusts Company, Limited, of London, Ontario, purchased the assets and liabilities, business, rights, property and goodwill, etc., of The Standard Trusts Company with Head Office in Toronto, Ontario. The agreement was ratified and confirmed by the shareholders of both companies and was subsequently approved by the Lieutenant-Governor-in-Council. The transfer became effective on the 18th day of December, 1929. The Standard Trusts Company had, by authority of By-law No. 35, moved its Head Office from Winnipeg to Toronto, and was granted registry in Ontario under date of October 26th, 1929.

June 28th, 1932—Order-in-Council assenting to the conversion of partly paid shares into fully paid shares equivalent to the amount paid in on account of subscriptions not including premiums.

\$ 558,196 31

CONSTATING INSTRUMENTS

The Montreal Trust Company was incorporated on the 21st day of March, 1889, by Special Act of the Province of Quebec, 52 Vic., c. 72 (Q) and the following subsequent special amending Acts, 54 Vic., c. 75; 55-56 Vic., c. 78; 63 Vic., c. 77; 20 Geo. V, c. 139; and 24 Geo. V, c. 121.

By Special Acts the name was changed in 1895 to Montreal Trust and Deposit Company, 59 Vic., c. 70 (Q), and again in 1909 to the Montreal Trust Company, 9 Edw. VII, c. 115 (Q).

Authorized by Order-in-Council to carry on business in the Province of Ontario as from the 11th day of March, 1909, subject to certain conditions and limitations.

Registered in the Trust Companies Register, January 21st, 1913.

By Order-in-Council, dated February 25th, 1928, the Capital Stock was increased from \$1,000,000.00 to \$2,000,000.00.

The Company has a deposit with the Province of Ontario amounting to \$200,000.00. Order-in-Council assented to 6th July, 1909.

THE ROYAL TRUST COMPANY—Continued

CONSTATING INSTRUMENTS

The Royal Trust Company was incorporated in 1892, by Special Act of the Province of Quebec, 55-56 Vict., chap. 79, which was amended by 55-56 Vict. (1892), chap. 80 (Q), and by 59 Vict. (1895), chap. 67 (Q), and by 63 Vict. (1900), chap. 76 (Q), 6 Edw. VII (1906), chap. 73 (Q), 17 Geo. V (1927), chap. 96 (Q), 19 Geo. V (1929), chap. 104 (Q).

Authorized by Special Act of the Legislature of Ontario, 2 Edw. VII. (1902), chap. 103, to transact business therein as specified in Section 1 (5) of the said Act, which enacts as follows:

“(5) The Company shall be limited in respect of all business relating to property, rights or interests in the Province of Ontario, to the powers mentioned in the schedule to The Ontario Trust Companies' Act, and shall be subject to the general provisions of the said Act and of the general public law of the said Province relating to trust companies and trusts.”

The Company has a deposit in the Province of Ontario amounting to \$200,000.00.

CONSTATING INSTRUMENTS

Incorporated on the 24th February, 1897, by Letters Patent of Ontario, issued under R.S.O. 1897, c. 191. See Ontario Trust Company Act (R.S.O. 1897, c. 206), and The Loan and Trust Corporations Act (R.S.O. 1937, c. 257).

Amendments to Charter: December 23rd, 1897, "The Ontario Companies Act"; February 25th, 1898; "The Ontario Joint Stock Companies Letters Patent Act" and "The Trust Companies Act, 1895"; August 14th, 1900, "The Ontario Companies Act"; March 28th, 1907, "The Ontario Companies Act."

By Order-in-Council, dated January 25th, 1934, the Lieutenant-Governor in Council formally approved an agreement dated December 7th, 1933, whereby Trusts and Guarantee Company, Limited, acquired the assets and assumed the liabilities of Union Trust Company, Limited.

By Order-in-Council, dated October 30th, 1940, the Lieutenant-Governor in Council formally approved decreasing the capital stock from Three Million Dollars (\$3,000,000) to One Million Five Hundred Thousand Dollars (\$1,500,000).

 - Deposits—2%.
 - Guaranteed investment receipts: (1-2 years)—2¾%; (3-5 years)—3¼%.

CONSTATING INSTRUMENTS

Incorporated under The Building Societies Act, 1887, c. 169, as amended by 56 Vic., c. 31 (O), by declaration filed with the Clerk of the Peace for the County of Victoria, on the 4th September, 1897.

The operations of the Company were for a time by law restricted to the County of Victoria (56 Vic., c. 31), continued by R.S.O. 1897, c. 205, s. 8 (4); but the Company, having fulfilled the statutory requirements, was by Letters Patent of Ontario, bearing date 11th November, 1898, relieved from the above restriction of its operations.

By a Special Act of the Legislature of Ontario, 13 Geo. V, c. 107, the Company was granted the powers of a trust company and the name was changed to The Victoria Trust and Savings Company. (See also The Loan and Trust Corporations Act, R.S.O. 1937, chap. 257).

CONSTATING INSTRUMENTS

Originally incorporated as a Loan Corporation by Letters Patent, 7th April, 1913, under The Loan and Trust Corporations Act, 2 Geo. 5, 1912, chap. 34, now R.S.O. 1937, chap. 257. The original corporate name was The Waterloo County Loan and Savings Company.

By a Special Act of the Legislature of Ontario, 12-13 Geo. V, c. 148, the Company was granted the powers of a trust company and the name was changed to the Waterloo Trust and Savings Company.

FILED BY

Loan and Trust Corporations

DECEMBER 31st, 1945, and JUNE 30th, 1946

Pursuant to Sections 49 or 19 (3) of the Loan and Trust
Corporations Act.

Sec. 49. Every loan company receiving deposits shall make a sworn return to the Registrar quarterly on the 15th days of January, April, July and October in each year, drawn in accordance with the form prescribed from time to time by the Registrar, showing the amount of such deposits and showing the amount of cash on hand and on deposit and the amount of debentures, bonds, stock or other securities of or guaranteed by the Dominion of Canada, and of or guaranteed by any province of Canada less any incumbrances thereon and the amount of bonds, debentures and other securities of any municipal corporation in Ontario or of any city in Canada, less any incumbrances thereon and the bonds or debentures issued by any incorporated company in respect of which bonds or debentures annual or semi-annual payments sufficient to pay both principal and interest thereof are, by virtue of any general Act of the Dominion of Canada, payable by the Government of the Dominion of Canada to a trust company as trustee for the holders of such bonds or debentures, and the principal amount of any moneys payable to the company on demand the payment of which is secured by the mortgage or pledge of any of the securities hereinbefore in this section mentioned as the said amounts stood at the end of the last preceding month, and stating that the same were at the date mentioned in such return on hand and available for depositors.

Sec. 19.—(3) Every trust company receiving deposits in the manner authorized by subsection 3 of section 19 shall make a sworn return to the Registrar quarterly on the 15th days of January, April, July and October in each year, drawn in accordance with the form prescribed from time to time by the Registrar, showing the amount of such deposits and showing the amount of cash on hand and on deposit, and the amount of debentures, bonds, stock or other securities of or guaranteed by the Dominion of Canada, and of or guaranteed by any province of Canada, less any incumbrances thereon, and the amount of bonds, debentures and other securities of any municipal corporation in Ontario or of any city in Canada, less any incumbrances thereon, and the bonds or debentures issued by any incorporated company in respect of which bonds or debentures annual or semi-annual subsidy payments sufficient to pay both principal and interest thereof are, by virtue of any general Act of the Dominion of Canada, payable by the Government of the Dominion of Canada to a trust company as trustee for the holders of such bonds or debentures, and the principal amount of moneys payable to the company on demand, the payment of which is secured by the mortgage or pledge of any of the securities hereinbefore in this subsection mentioned, as the said amounts stood at the end of the last preceding month, and including in such statement all such cash and securities and loans as defined in this subsection, whether owned by the company or held by it as guaranteed investments under the provision of subsection 2 of section 17, or subsection 4 of section 18, and stating that the same were at the date mentioned in such return on hand and available for depositors.

REPORT

OF THE

Minister of Public Works

FOR THE

PROVINCE OF ONTARIO

FOR THE

TWELVE MONTHS ENDING MARCH 31st, 1945

PRINTED BY ORDER OF

THE LEGISLATIVE ASSEMBLY OF ONTARIO

SESSIONAL PAPER No. 8—1946

ONTARIO

TORONTO

Printed and Published by T. E. BOWMAN, Printer to the King's Most Excellent Majesty
1946

To:
THE HONOURABLE ALBERT MATTHEWS,
Lieutenant-Governor of the Province of Ontario.

MAY IT PLEASE YOUR HONOUR:

As required by law, I submit for the information of Your Honour and the Legislative Assembly, the Annual Report of the works under the control of the Public Works Department, comprising the reports of the Deputy Minister, the Architect, Engineer, Secretary and Accountant, for the twelve months ending the 31st of March, 1945.

Respectfully submitted,

GEO. H. DOUCETT,
Minister of Public Works.

Department of Public Works, Ontario,
Toronto, March 25, 1946.

REPORT

OF THE

Deputy Minister of Public Works

THE HONOURABLE GEORGE H. DOUCETT, M.P.P.,
Minister of Public Works,
Parliament Buildings,
Toronto, Ontario.

SIR:

I have the honour to submit to you the accompanying reports of the Architect, Engineer, Secretary and Accountant for the financial year, April 1, 1944 to March 31, 1945. These reports cover a wide variety of repair and construction work in all parts of the Province.

ARCHITECT'S BRANCH

Owing to the favourable war situation, the Dominion has returned to the Province seven of the fourteen Institutions which were leased in whole or in part for war purposes. Agreements have been entered into with the Dominion for restoring the buildings to their condition at the time of leasing the various units. The work has progressed favourably and is dealt with in detail in the Architect's report. A considerable amount of mechanical equipment requires to be replaced as soon as conditions permit and every effort has been made to keep this equipment in repair.

The construction of a new 300 Bed Hospital Group at the Ontario Hospital, Orillia, is progressing as favourably as conditions permit, but delays have occurred owing to the shortage of material and the difficulty of securing sufficient trained mechanics.

The Architect's Office has co-operated extensively with other departments in preparing plans, giving technical advice and making reports on various projects to assist in carrying out the provisions of Acts relating to public buildings.

ENGINEER'S BRANCH

Repairs to the locks and dams in the Northern Districts have been carried out where necessary; the work being done by day labour. The construction of the Dollar's Dam on the north channel of the Pickerel River has been completed. In accordance with provisions of the Provincial Aid to Drainage Act, the following municipalities were given aid:

Townships of Aldborough and Orford . Morden Drain.....	\$2,020.99
Mersea Township..... Lloyd Drain.....	2,563.00
Howard and Harwich Townships..... Field's Creek Drain.....	2,959.40

SECRETARY AND ACCOUNTANT'S BRANCH

Owing to the difficulties of obtaining materials and labour for construction projects, contracts for new construction were entered into on a lump sum fee basis, the Department supplying the materials and the contractor supervising and carrying out the work.

While the revenue shows an increase over previous years, this increase is on account of funds received from the Dominion to carry out restoration work at Institutions returned to the Province.

Expenditures are summarized, as follows:

Main Office.....	\$143,924.71
Maintenance and Repairs—Government Buildings.....	736,849.86
Total Ordinary.....	<u>\$880,774.57</u>

CAPITAL

Public Buildings and Public Works.....	<u>\$353,245.68</u>
Total Net Expenditure.....	\$1,234,020.25

I have the honour to be, Sir,

Your obedient servant,

R. A. McALLISTER,
Deputy Minister of Public Works

TORONTO, March 25, 1946.

REPORT OF THE ARCHITECT

THE HONOURABLE GEO. H. DOUCETT, M.P.P.,
Minister of Public Works.

SIR:

I have the honour to report on the work done by the Architect's Branch of the Department of Public Works, Ontario, during the fiscal year April 1st, 1944, to March 31st, 1945, as follows:

ONTARIO GOVERNMENT INSTITUTIONS LOANED

TO

THE DEPARTMENT OF NATIONAL DEFENCE, CANADA

During this fiscal year, the following Ontario Government Institutions which were previously turned over, all, or in part, to the use of the Department of National Defence for purposes of the present war are still being used for this purpose:

Ontario Hospital, St. Thomas,
Ontario Hospital, Brampton,
Ontario Hospital, London (portion of lands only),
Normal School, Ottawa,
Industrial Farm, Monteith,
Girls' Training School, Galt,
Boys' Training School, Bowmanville.

The following Institutions have been returned by the Department of National Defence to the Province:

Ontario Reformatory, Mimico, as of May 1st, 1944,
Agricultural School, Kemptville, as of May 1st, 1944,
Normal School, Toronto, as of July 12, 1944,
Ontario School for Deaf, Belleville, as of July 15, 1944,
Training College for Technical Teachers, Hamilton, as of Sept. 1, 1944,
Ontario Agricultural College, Guelph, as of February 19, 1945.

Further remarks regarding the return and reconversion of these various Institutions will be found in the body of this report under their respective sub-divisions.

A considerable amount of work was rendered by this Branch of the Department in connection with the continued use of the above enumerated Institutions still on loan to the Department of National Defence, as well as in connection with the above Institutions referred to as being returned to the use of the Province during this fiscal year.

LEGISLATIVE AND DEPARTMENTAL BUILDINGS

Sketch plans were prepared and working drawings started for proposed two wing extension to East Block. In this connection, a survey and schedule was made of the present elevator traffic and a population survey and schedules made of all offices, with a view to determining the space requirements in the new wings.

Sketch plans were prepared for a proposed new building for the Theatre Inspection Branch of the Treasury Department.

Sketch plans were prepared for a proposed central garage building.

Working drawings were prepared for the remodelling of three lavatory centres in the Parliament Buildings.

Working drawings were prepared for remodelling the Cafeteria service counter in the East Block.

General routine repairs, replacements and changes were carried out in all trades, but restricted to the extent required by present war conditions.

The work referred to for this group of buildings, included repairs, replacements or changes, as required in each instance in connection with roofs, plastering, windows, doors and other interior wooden trim and other finishes.

General repairs and replacements were also carried out in connection with furniture, furniture upholstery, linoleum, blinds and other such equipment.

A considerable amount of general re-painting was done and extra shelving provided for the various Departments.

Repairs, replacements and changes were carried out in connection with plumbing, heating, ventilation, refrigeration and electrical systems.

Considerable repairs were made to elevators generally.

The electrical power and lighting systems were maintained and repaired and, in some instances, the illumination improved by the installation of fluorescent lighting units.

Considerable general welding work was done to effect repairs to general mechanical equipment and to office and cleaning utensils and equipment.

Numerous sectional partitions were installed in various offices throughout the Parliament Buildings and the East Block to divide existing offices.

Included with the general work, as above described, the following items were considered to be of sufficient interest to warrant mention for purposes of record, in this report:

Parliament Buildings:

Repairs were made to room 373, Treasury Department, to repair damage done by a small fire in this room.

A portable steam table was purchased for the Member's dining room, to improve the food service to the Members during Sessions of the Legislature.

General repairs were made to the elevators, preparatory to their being placed under a maintenance contract. It was felt in this connection that the safety of the general public and staff using these elevators would be more assured if the continuous maintenance of these important service units was placed under a contract with a reputable elevator manufacturing company.

A start was made to replace the existing 2 ½" fire hose with 1 ½" hose to provide for safer operation of this equipment.

The extractor in the laundry was overhauled and rebuilt and a more efficient drive provided.

East Block:

To replace the small Health Clinic, which had been set up temporarily on the 6th floor, a suite of offices on the 5th floor was remodelled to provide

more adequate facilities for Health Clinic Services and included rest, examination, treatment rooms and consultation offices for the general welfare of the Civil Service staff, as well as to provide for the emergency treatment of those taken ill or injured in the course of their duties.

Special desks and book trucks were designed and provided for the Registrar-General's Branch to facilitate the handling of the heavy record books used in connection with the issuance of certificates of records required by the Public.

A special X-ray film filing cabinet was designed and made by staff mechanics for the Industrial Hygiene Division of the Department of Health.

For the convenience of and assistance to the general public who have, in the past found difficulty in locating the various offices and Departments throughout the East Block, a system of directional boards and illuminated signs was designed, purchased and some units, as they became available, were installed during this fiscal year.

To provide much needed additional office space, the observation room on the 15th floor of the Tower, was subdivided into small offices.

As previously referred to for elevators in the Parliament Buildings, the elevators in the East Block were also repaired preparatory to their being placed under a continuous maintenance contract with a reputable elevator manufacturing company.

As requested by the Prime Minister's Department and from information obtained from the various Departments of the Government Service, a series of Organization Charts were prepared and photostatic copies provided.

A new battery of coffee urns and a warming stand were provided and installed in the Civil Service Cafeteria to replace worn out and inadequate units. Temporary repairs were made to the dish-washing machine, sufficient to allow for continuance of its use until a new and larger machine could be purchased. A steam sterilizing device was improvised to meet Department of Health requirements. Dishes and other utensils were purchased to replace breakages, as required.

A program of repointing the joints in the exterior stone work was started during this fiscal year. Limited progress was made, owing to the difficulty of obtaining the necessary skilled labour.

General repairs were made to the boiler plant, including repairs to boilers, feed pumps, stokers, coal conveyor and ash conveyor, together with valves and other general accessories.

Subsidiary Buildings:

Minor General repairs in various trade branches, were carried out in the following buildings:

Numbers 11, 15 and 39 Queen's Park,
112 College Street,
454 University Avenue (Liquor Control Board)
807 Richmond St. W. (Sewage Laboratory)
Department of Highway's Garages, Surrey place and Leaside.
Department of Health Serology Laboratory annex and duplex residence Mimico.

In addition to the above referred to general repairs to subsidiary buildings, the following work items are listed in this report for record purposes:

At No. 15 *Queen's Park*, space on the ground floor was remodelled and fitted out to provide a court room for the Labour Relations Board.

At the rear of No. 39 *Queen's Park*, the heating system of the garage and chauffeur's quarters was altered and improved and a hot water circulating pump installed. A large Elm tree, which was found to be in a dangerous condition and overhanging the aforementioned residence and garage, was removed.

At No. 112 *College Street*, the lease of the Mothercraft Society was terminated and the premises were repaired and fitted out to provide additional office space for Government Departments.

At No. 454 *University Avenue*, arrangements were made to place the passenger elevator under a continuous maintenance contract with a reputable elevator manufacturing company, for the reason given under previous reference to elevators in the Parliament Buildings. Repairs were made to the domestic water heating system and to the roof of this building.

At the *Serology Laboratory, Mimico*, a new chimney was built and a connecting corridor built between the two animal buildings. A heating unit was installed and pens were built for guinea pigs. General repairs were made to brickwork and roofing and plumbing fixtures and shelving installed.

Osgoode Hall:

For purposes of record, measured drawings were started of various important Architectural features of the Great Library.

General routine repairs, replacements and minor changes were carried out at these premises in most of the various trade branches. Apart from this general work program, the following items may be mentioned for purposes of record:

Repairs were made to the passenger elevator preparatory to placing it under a continuous maintenance contract with a reputable elevator manufacturing company, for the reason given under previous reference to elevators in the Parliament Buildings.

Repairs were made to the fire alarm system and a new master fire alarm box, with annunciator and three remote control stations, were installed.

The boiler stokers and the ash hoist were overhauled and repaired. The coal hoist was changed from hand to electrical operation.

EDUCATIONAL BUILDINGS

Normal and Model Schools, Toronto:

As noted in my previous annual report, these premises were loaned to the Department of National Defence, as of July 10th, 1941, for R.C.A.F. purposes.

These premises were returned to the Province as of July 12th, 1944 and are being used as a Rehabilitation Centre by the Department of Education under a Dominion-Provincial Training Program.

Repairs were made to boilers, pumps, stokers and other mechanical equipment and a new brick air duct installed in connection therewith.

The use of the former Earl Kitchener School on Pape Avenue, Toronto, as temporary quarters for Normal School work was continued during this fiscal year and general routine maintenance and repairs carried out, including repairs to the boilers and mechanical equipment.

Sketch plans and tentative estimate were prepared for a new Normal School Building for Toronto.

Normal and Model School, Ottawa:

These premises are still on loan to the Dominion Government and, as noted in my previous annual report, were loaned by the Province to the said Government as of November 1st, 1939.

The normal school classes are being carried on in temporary quarters located in the Mutchmor School in Ottawa.

Normal School, London:

Minor repairs were made to this building; two hallways painted and the program clock serviced.

Normal School, Hamilton:

General routine repairs and replacements were made to this building, including roof repairs and repairs and painting to dome over front pediment and to galvanized iron covering of entrance hoods. A new sidewalk was laid at the north end of the School and the walks at the south and main entrances repaired.

Minor repairs were made to boiler piping, and some drains were cleared and concrete floors repaired in connection therewith.

The electric clock system and the temperature control system were serviced.

Normal School, North Bay:

Minor repairs were made to furnace walls and stoker dead plates and a new domestic hot water tank installed, together with a steam heater coil unit, which was supplied from this Department's stores. A new electric sump pump was also installed in the basement. One sink and laundry tray was installed in the wash room on the main floor and one wall type drinking fountain provided in the basement. A kitchen sink was installed in the plant room. The program clock system was serviced by our staff electricians.

Normal School, Peterborough:

A contract was let for painting the library, Principal's office and wash room, and the Secretary's office and store room adjoining also the Master's office and wash room adjoining and the lady teachers' office and wash room. In the lecture room the lighting was improved by raising the fixtures. Alterations were made to the platform in the lecture room and the blackboards were raised and the room painted. General repairs were made to the plumbing and roofing. A contract was awarded for installing switches and plugs for power equipment in the Manual Training room.

Repairs were made to the boiler brick settings and defective exhaust was renewed. Repairs were also made to the thermostatic heat controls.

Normal School, Stratford:

The defective wood shingles on the roof of the tool shed were replaced with red asphalt shingles. Seven obsolete toilets were removed and replaced with complete new fixtures and the plaster walls etc. repaired in connection therewith. Defective tubes in number 1 boiler were replaced and the boiler cleaned. Defective boiler feed pump piping to numbers 1 and 2 boilers was replaced. An obsolete toilet was replaced completely in the lavatory adjoining the Principal's office. The program clock system was serviced by Department's staff electricians.

Ontario School for Deaf, Belleville:

As noted in my previous annual report, these premises, omitting the farm division, one workshop building and the Bursar's residence were loaned by the Province to the Department of National Defence for R.C.A.F. purposes as of July 10th, 1941.

These premises were returned to the Province as of July 15th, 1944 and the work of restoring the said premises to the plan and condition which existed at the start of the Dominion's occupancy was carried well along by the Department during this fiscal year.

After consultation with the officials of the Dominion, arrangements were made by the Province, to terminate the leases of the various properties in Belleville which had been leased and fitted as temporary premises for this School during occupancy of the Original School by the Dominion. The work of restoring the said temporary premises was proceeded with according to the requirements of the various covering leases and as arranged with the owners in each case.

The temporary school premises referred to, are listed as follows:

Battery Building
St. Thomas Anglican Church Property
St. Thomas Anglican Church Parish Hall
Rankin residence
Clare residence
Lazier residence
Mouck residence
Bridge Street United Church (3 class rooms in basement)
Connor residence
Bull residence

In addition to the special program of restoration work carried out in connection with the original school buildings, the following ordinary repairs were made:

A new warm air furnace was installed in the Engineer's residence. The brickwork of boilers numbers 3 and 4 was repaired; the manholes in number 1 boiler reinforced and new parts installed in numbers 3 and 4 stokers. The electric program clocks were serviced by our staff electricians and two swinging check valves were replaced on the sewage system.

Ontario School for Blind, Brantford:

Repairs and replacements were made to conductor and eavestroughs on the main building and laundry and new T. & G. roofing laid over the girls' lavatory section. The power house chimney was repaired, cracks filled and the top replaced with a cement cap and lightning rods installed. The weather

vane on the tower was also repaired. The program clock and electric telephone systems were serviced by our staff electricians. The floor of the main hall of the hospital was overlaid with masonite and covered with linoleum. Minor repairs were made to boilers and two sets of worm flights supplied for stokers.

Ontario Training College for Technical Teachers, Hamilton:

During the fiscal year, these premises were used in co-operation with the Dominion Government for the various training purposes required by the Dominion in connection with present and post war requirements. After September 1944, the said premises were restored to their original use for the Department of Education.

After this date, a program of restoration was laid out and the work put in hand to fit the building for the opening of the regular classes for training Technical Teachers.

The roof flashings were repaired over the two storey section of the building and the roofs of the three storey block and the pent house were repaired. Repairs were made to furniture and linoleum tops installed on sewing tables. A contract was let for exterior and interior painting and finishing. Repairs were made to the plumbing and heating systems and a broken radiator replaced. Repairs were made to the stonework of entrance steps and to parapet wall over entrance. A rear fence was renewed.

AGRICULTURAL BUILDINGS

Ontario Agricultural College, Guelph:

The major portion of the premises and buildings of this College, which had previously been on loan to the Department of National Defence, were returned to the use of the Province as of February 19th, 1945. After this date, arrangements were made to start the work of restoring these premises to the plan and condition of repair which existed at the time the buildings were originally loaned to the Dominion. The buildings returned to the Province are listed generally as follows:

- Watson Hall
- Garage
- McDonald Institute
- McDonald Hall
- Main dining hall and kitchen building
- Mills Hall
- Maids' dormitory building
- Trent Institute
- Administration and Students' residence
- Gymnasium
- Memorial Hall
- Skating rink
- Mechanics building
- Bursar's Hall
- Laundry building
- Engineer's house and garage
- Plumber's house

With respect to that part of the College premises which was not loaned to the Dominion, the following repairs were made:

General repairs were made and some repainting done. The number 1 Palm house portion of the greenhouses was reconditioned and painted including repairs to ventilator sash and iron work and replacement of some 150 lights of glass, which had been damaged by storm. Two concrete silos were designed and erected at the farm and an existing silo extended in height to replace old wooden silos. Alterations were made to the poultry building basement to provide for incubators and egg testing rooms. A weigh scale and a 40" extractor were purchased from the War Assets Corporation.

Ontario Veterinary College, Guelph:

General routine repairs were made to this building, including repairs to plastering and roofing. All glass was removed from the skylight and replaced, using mastic putty for bedding. The galvanized iron flashings were repaired and replaced where necessary and all such flashings, gutters and other metal work on the roof was painted.

Agricultural School, Kemptville:

The major portion of the premises and buildings of this College, which had previously been on loan to the Department of National Defence, was returned to the use of the Province as of May 1st, 1944. After this date, arrangements were made to start the work of restoring these premises to the plan and condition of repair which existed at the commencement of the Dominion's occupancy. The said restoration work was, for the major portion, completed during this fiscal year. The premises referred to above, which were returned by the Dominion to the use of the Province, included, generally, the following:

- Main and administration building, including steam boiler plant
- Students' residence
- Engineering building
- Judging pavilion (and main deep well water pump)
- Staff house number 1
- Staff house number 2 (and garage)
- Staff house number 3
- Sewage disposal plant.

In addition to the above referred to restoration work, other general improvements were carried out as follows:

Shingles and flashings were replaced on the north section of the piggery and tops of chimneys on the Superintendent's residence and the piggery were re-built. The kitchen in the students' residence was improved, including the sanding and covering of floor with linoleum and the installation of a new type, coal fired, cooking unit with modern utensils.

In the main building, a portion of the basement was fitted with plumbing, electric wiring, counters etc., for use as a Soils Laboratory according to the plans prepared.

In the Dairy Building, repairs were made to the plastering, boiler mountings overhauled and a new feed water injector installed.

Plans and specifications were prepared and tenders obtained for the construction of a new Seed Cleaning Plant but the work was not put in hand for economic reasons.

Working drawings were prepared for alterations to the Assistant Superintendent's residence.

Experimental Farm, Ridgetown:

Routine repairs were made generally to the buildings as required. At the Superintendent's residence new shingles were placed on the north side of the roof; new galvanized iron ridges installed on three hips and repairs made to vent pipe and flashings. In the kitchen a new plaster ceiling was applied on Gyproc lath and painted. The ceilings and walls of the office and down-stair wash room were painted. Walls and ceilings were repapered in the house for the farm help, after the old paper had been removed.

Horticultural Experimental Station, Vinelands:

Routine general repairs were made to the various buildings, including heating and plumbing repairs and repairs to roofs. New furnaces were installed in the Strong Cottage, and the Boarding House. Defective pipe in the steam line to the garage was removed and replaced; the stoker was overhauled and repairs made to the heating system in the greenhouse where defective traps were replaced. In the Boarding House a new 60 gallon tank heater was installed. The Administration Building and the Superintendent's residence was repainted.

Sketch plans were prepared and the working drawings started for a new Horticultural Products Processing Laboratory Building.

Working drawings and specifications were prepared and a contract let for the construction of a new sewage disposal plant, including a new system of main sewers and branch lines to replace the old and obsolete septic tank units.

Demonstration Farm, New Liskeard:

General routine repairs were made including repairs to roofs of the Poultry house and the barn. The main roof of the barn was painted and the roof on the Dairy Building was renewed. Repairs were made to a litter carrier pole and materials were ordered for a Colony House for poultry and for a new concrete pavement for the barnyard. A water heater was supplied to the Superintendent's residence.

DISTRICT BUILDINGS

Generally, the works progress in connection with these district buildings was kept to a minimum and provided for the carrying out of such work items as enumerated in the following sub-divisions:

Algoma:

Court House. During a severe wind storm, part of the tin roof on the east cornice was blown off. This was repaired, together with the parapet wall, which required rebuilding. An unused safe in the Court House was shipped to Bracebridge for use there.

Basement space was leased to the City of Sault Ste. Marie to provide offices for the City Police Department, the Magistrate's court and the use of detention cells. The alterations required in this connection were made and paid for by the said City. It was understood that the said basement space would only be required until such times as this temporary accommodation could be re-located in the proposed new City Hall.

Plaster repairs were made to some ceilings and the rooms painted and the woodwork of four entrance doors and lobbies varnished. The floor of the

Judges' Chambers on the second floor was refinished. Radiator traps were overhauled and new traps fitted to drips on steam lines.

At the Jail, new hot water circulating pipes were renewed and radiator valves and air vents overhauled. New grates were installed in the jacket heater. Three new prison type toilets were installed. Paint was supplied for general purposes.

Cochrane:

At the Court House, Cochrane, number 2 boiler was partly relined and repairs made to steam return mains. A new electrically operated sump pump was installed to replace a worn out water operated ejector. Some blinds were supplied for office windows and some master keys replaced.

At the Lock-up, Hearst, repairs were made to the pumping system for the water supply; new flooring was laid and covered with linoleum on the Magistrates' platform.

Working drawings were prepared and an extension was made to the living quarters of the Provincial Police Constable to give him an additional bedroom and closet space.

At the Lock-up and office Building, Matheson, interior painting was carried out. The space occupied by the Provincial Police, as living quarters on the second floor, was vacated and the space turned over to the Agricultural Representative for use as offices and a two section wood cabinet provided. The wiring in this building was changed by the Hydro Commission to feed through one meter for the entire building. Plumbing repairs and replacements were made as required.

Kenora:

At the Court House, Kenora, minor general repairs were made. The jury spaces were enlarged and the height of the prisoners' box lowered. A new cylinder lock was ordered for the front door. Some new radiators were installed in the basement for the Provincial Police and the ceiling in the Judges' retiring room was replastered. Bedding plants were ordered for the grounds. New grates were installed in one of the steam heating boilers. New linoleum was laid in the Janitor's apartment.

Working drawings were prepared to provide for new lavatory for the Judges and new lavatories for the public; the work was not put in hand due to labour conditions.

At the Jail, paint was supplied for exterior and interior painting. Five new prison locks were installed. A new set of grates was installed in the steam heating boiler and new fire door and grates for the jacket heater.

At the Jailer's residence, exterior and interior painting was done.

At the Government Building, Sioux Lookout, general minor maintenance and repair items were carried out and some additional radiation installed in the basement in section used by the Town Police.

Manitoulin:

Effective December 31st, 1944, the Gaol at Gore Bay was closed, the prisoners transferred to the Sudbury Jail and the building later occupied by the Provincial Police for residence purposes.

General repairs were made to the Court House and Registry Office Gore Bay, including improvements and re-arrangements in connection with the water supply systems and also including repairs to the return mains on the heating system.

Muskoka:

At the Court House, Bracebridge, minor repairs were made. Linoleum was laid in the Judges' retiring room and the Court Clerk's office and a desk lamp supplied for the Sheriff. The upper part of the chimney was rebuilt. A relief valve was installed on the hot water heating system.

At the Jail, Bracebridge, discarded steel shelving from the Registry office was installed in the Sheriff's vault. An unused safe was transferred to the Jail from the Court House, Sault Ste. Marie. Six new padlocks for cells were replaced.

Five new fire extinguisher hose and nozzles were provided for fire extinguishers in the above Court House and Jail.

At the Registry Office, Bracebridge, additional filing cabinets were provided.

Nipissing:

At the Court House, North Bay, extra shelving and one door was installed for the Department of Welfare to provide for additional storage space and additional shelves were installed for the Sheriff in the basement vault. New linoleum was laid on the stair landing, main downstairs hall and in the ladies' wash room and office of the Department of Game and Fisheries. Two lawn sprinklers and nozzles were ordered. Door mats were supplied. Rubber non-skid matting was put on the stairs. In order to increase the efficiency of the heating system of the Crown Timber Agent's office, on the ground floor, suitable piping was installed. Radiation was re-arranged in the Judges' Chambers to provide sufficient heat for the library section.

At the Jail, North Bay. Following the retirement of the matron of the Jail and the appointment of the Jailer's wife as Matron, quarters were provided on the second floor for the Jailer and his wife. Wiring was installed on this floor for an electric range and some cupboards installed. Five new type prison locks were installed to replace old type locks which were found to be insecure. Defective boiler tubes were replaced to provide proper means for introducing feed water treatment to boilers. A water pressure reducing valve was installed to reduce excessive pressure from City mains on the plumbing system.

At the Registry Office, North Bay, a wash room and store room were painted and lights and switches installed in the wash room. Storm sash were painted and minor repairs carried out. A coal chute was installed in the basement of this building.

Parry Sound:

At the Court House, Parry Sound, two new heating boilers which were installed last year were insulated and cleanout doors and frames, together with a new set of grates were installed for the jacket heater. In order to

conserve heat and prevent ice forming on the roof, the attic of the Court House was insulated.

At the Registry Office, necessary repairs and replacements were made to plumbing fixtures.

At the Jailer's house, decorating was done to bathroom, hallway and dining and living rooms.

At the Lock-up, Burks Falls, minor repairs only were made, including an 8" high raised platform for the Magistrate.

Rainy River:

At the Court House, Fort Frances, minor repairs were carried out. A new return pump was installed on the heating system and the reducing valves were overhauled.

At the Jail, Fort Frances, the steam reducing valves were removed from the Jail system and improvements made to the piping of the heating system. New grates were installed in the jacket heater. Twenty-four protective screens were installed on the windows to prevent articles being passed to the prisoners, by the public.

Sudbury:

At the Court House, Sudbury, accommodation was made for a Juvenile Court, including a Judges' private office and a general and private office for Court Officials. These offices were newly decorated and equipped with new lighting, linoleum on the floors and new furniture. A new storm porch was erected at the rear entrance. Shelving was installed in the Crown Attorney's vault. A cloak room, fitted with racks, was fitted out in the basement for use of the Jurors. A contract was awarded for painting a number of the offices, hallways and washrooms and linoleum was laid in several of the offices, including the Provincial Police offices and the Judges' room on the main floor. A directory sign for the various offices was provided in the main lobby. Repairs were made to roofs and plumbing fixtures renewed where required. Venetian blinds were ordered for the Court Room. Repairs were made to the heating system as required, including overhauling of radiator traps. The heating return mains were renewed and the layout improved in the boiler room. Two new stoker hoppers were installed to replace those worn out. Worn out thermostatic steam main drip traps were replaced by float and thermostatic drip type traps. New bridge walls and fire door ramps were installed in boiler furnaces. The boiler room was whitewashed.

Working drawings were prepared for alterations proposed to provide a library and a robing room for Lawyers. These alterations were not carried out, but some new furniture was purchased for the old quarters.

At the Jail, Sudbury, a new domestic hot water storage heater shell was purchased. Radiator traps were overhauled and new bellows installed where necessary and new float and thermostatic traps were installed on all steam main drips.

At the Registry Office, Sudbury, repairs were made to the heating return mains and radiator traps overhauled and renewed where necessary. Painting was done to all walls and ceilings on the ground floor, including the painting of two vaults and the steel shutters.

Temiskaming:

At the Court House, Haileybury, the furnace walls were re-lined and general minor repairs made, including some painting.

At the Jail, Haileybury, new type prison locks were installed to replace the old installations which were found to be insecure. Minor repairs were made to the cook stove and some painting done by the inmates. The locks on the doors leading to the guard's corridor were changed and keyed alike.

At the Lock-up at Elk Lake, minor repairs only were made, including cleaning of boilers and boiler mountings.

At the Lock-up at Englehart, a new jacket heater was installed to supply hot water for domestic and Jail purposes and new grates were supplied for hot water boiler.

At the Mining Recorder's Office, Swastika, a new set of grates were supplied for the boiler.

At Ontario Government Bldg., New Liskeard, minor repairs only were done, the boiler inspected and order given to have it cleaned and minor repairs made.

Thunder Bay:

At the Court House, Port Arthur, minor repairs were made, including a set of grates for jacket heaters; grass and flower seeds were provided for the grounds.

At the Jail, Port Arthur, the door leading to the Doctor's office was changed to a new location; new type prison locks were installed to replace the old flat key type which were found to be insecure. The other locks were also overhauled. Seventeen window screens were installed on basement windows to prevent the passing of articles to the inmates by the public. Minor repairs were made to plaster work, electric lights and some painting was done by the inmates. The furnace walls of boiler were repaired and the safety valve on number 2 boiler repaired and tested. A new heavy duty type steel range, with warming oven over, was supplied.

At the Registry Office, Port Arthur, minor repairs were made and some electric fixtures provided.

At the Registry Office, Fort William, blinds were renewed, where necessary and minor repairs made. The interior of the Registry Office was painted and some new electric light fixtures installed.

For District Jails, generally:

A standard detail drawing was prepared for typical prison lock installations.

ONTARIO HOSPITALS

Ontario Hospital, Brampton:

At the outbreak of the war a new Ontario Hospital for mentally ill tubercular cases was under construction at Brampton and the Administration Building had been completed. As mentioned in my previous report this new building and a portion of the hospital lands were loaned to the Department of National Defence and their occupancy was continued during this fiscal year. The remainder of the farm lands and the farm buildings are used and operated by the Department of Health. To provide a small pipe extension to the existing farm water service system across the railroad an agreement was entered into with the Canadian Pacific Railway, whose right-of-way traverses the property.

Ontario Hospital, Brockville:

General routine repairs were carried out, including repairs to roofs, replacement of rotted electric transformer poles and platform and the renewal of a burnt out transformer. Lightning arrestor protection was provided on the bank of six transformers. A new roof was laid over the boiler room and a new steel fire escape on concrete foundations was erected to provide an exit from the rear of the stage in the Assembly Hall.

Ontario Hospital, Cobourg:

General routine repairs were made including repairs to plaster work, roofs and sidewalks. New roofs were laid over the pump room and the auditorium and the roof boarding, which had rotted over the boiler house, was renewed and a new roof laid. Two ventilators were installed in the boiler house roof. A new dish washing machine was purchased and installed in the patients' dining-room.

Ontario Hospital, Fort William:

Routine repairs were made, including repairs to the chimney and roof of the main building. A new stable was erected to provide shelter for beef cattle. This stable was designed for a future hay mow addition, but the stable portion only was proceeded with during this fiscal year.

Ontario Hospital, Hamilton:

Routine repairs were made, including repairs and part renewals of roofs over the main building, Orchard House, East House, Morgue, Nurses' Residence, Paint Shop, Skating Rink and the Garage. Gutters and metal flashings were repaired on the Main Building, Milk House and the Queen Street Pump House. The wooden floor of the dressing room in the skating rink, which had rotted, was replaced in concrete and the heating and plumbing systems improved. A metal window sash was renewed in the main kitchen. Safety devices on the laundry elevator were inspected and new locks and interlocks were installed on the six hatchway doors.

Ontario Hospital, Kingston:

Rockwood. Routine repairs were made, including repairs and pointing of stonework on portions of the main building and the Occupational Therapy Building. Repairs were made to shelving in the stores and new additional shelving erected. The wood floor in the stores was removed and a concrete floor laid. A new shingle roof was laid over the skating rink and new metal ridge roll applied.

Mowat Wing. Routine repairs were made, including extensive repairs and renewals of shingling on the roof of the Patients' pavilions. A new reinforced concrete roof slab was erected over a portion of the boiler house and a new roof laid over the whole roof surface.

Ontario Hospitals, Langstaff and Concord:

At Concord. General routine repairs and renewals were carried out, including repairs to the garage, renewal of the roof on the cow barn and renewal of the electric wiring in the stable.

At Langstaff. General routine repairs and renewals were carried out, including repairs to the barn roof and the slate roofing on the patients' buildings. Electric wiring on the pole line, serving the farm buildings, was renewed and two electric motors overhauled and repaired. The high pressure steam

boilers were repaired. Steam radiation was installed in the sun rooms on the north end of the Main Building to provide additional bedroom accommodation for patients. An intensive survey was made of the water supply situation at this Hospital, following up a reported water shortage. A considerable leakage of water was discovered in the main supplying the staff residence. The faulty pipe was replaced and dis-used pump and well were put into commission to provide a more adequate water supply.

Ontario Hospital, London:

General routine repairs were made, including repairs to slate roofs on the Main Building and North Building and the roof over the Boiler House. Repairs were made to the bay windows of the Main Building. New boiler tubes were supplied and installed in number 4 boiler. A new felt and gravel roof was laid over the sun porch of ward 4, Main Building.

Ontario Hospital, New Toronto:

General routine repairs were made, including painting of eaves, metal flashings, ridge roll and tower on Main Building. The guy wires and pulleys were replaced and the flagpole painted. A contract was awarded for damp-proofing portions of the basements of Cottages A, B and L and the Main Building. A survey was made and a plot plan prepared of the Institution's cemetery. Materials were supplied for a new poultry house, the work of erection being done by the staff mechanics.

Ontario Hospital, Orillia:

General routine repairs were made, including extensive repairs and replacements of eavestroughing and down pipes and repairs to exterior brick-work. The ventilators on the Main Building were repaired.

Quantities were prepared and the materials ordered for the work of building a new 300 bed hospital for infirm cases and the work was carried forward during this fiscal year. Progress details and specifications were prepared as the work progressed; tenders were called for and the sub-trades of the general contract, as well as the separate mechanical trades and contracts for the work awarded. Details and specifications were prepared for the necessary equipment and furnishings and tenders were called for and contracts awarded in this connection. Progress was retarded by shortages of labour and materials.

Ontario Hospital, Penetanguishene:

Routine repairs were carried out, including repairs to the water tower standpipe and frost casing. A large portion of the piggery roof was rebuilt, following damage by fire. Five new fire hydrants were supplied. Alterations were carried out in Cottage B, including installation of a quarry tile floor and new lavatory facilities for a new bed case ward.

Ontario Hospital, Port Arthur:

At the outbreak of the war a new Ontario Hospital for the mentally ill was under construction at Port Arthur and the Administration Building had been completed. This building and the hospital lands were loaned to the Department of National Defence. Since the return of these premises to the Province on February 15th, 1944 the Department of Health have operated this unit as an annex to the Ontario Hospital, Fort William. Routine repairs were made during this fiscal year.

Ontario Hospital, Toronto, (999 Queen St. W.):

General routine repairs were made, including repairs to the covered passage-way to the kitchen; repairs to metal flashings and brickwork at the roof level of the main building; extensive repairs to greenhouse and temporary repairs to the brick wall along the southerly boundary of the property.

Extensive alterations to the building and mechanical services were carried out in old cottage A to provide much needed additional office accommodation for the Department of Health.

Psychiatric Hospital, Toronto:

General routine repairs and mechanical service maintenance was carried out by the Public Works Department staff mechanics in all trade branches. A new mastic tile floor was laid in the main entrance corridors and in two small rooms adjoining this corridor, replacing a coloured asphalt floor, which had deteriorated.

Ontario Hospital, Whitby:

General routine repairs were made including extensive repairs and renewals of roofs over Boiler House, Dining Hall number 1, Grove House, barn and root house and new eavestroughing was erected on Dining Hall number 2 and the Nurses' Residences. Repairs were made to quarry tile floors and dadoes in the main kitchen, Infirmaries and Pavilions. Exterior stucco work, brickwork and tile roofs generally were repaired. Storm sash were installed on the Nurses' Residence. Plaster repairs were made to the walls and ceilings of patients and staff buildings throughout the Institution. A contract was let for reroofing the west wing of the Male Acute Pavilion. Two new electric bake ovens were installed in the Central Dining Halls. Two new hot water storage heaters were installed to replace worn out units in the Reception Building.

Ontario Hospital, Woodstock:

Adult Group. General routine repairs were made, including repairs to roofs of cow barn and Assembly Hall, repairs to Power House chimney stack were also made. Alterations were carried out in the Assembly Hall to provide rooms for occupational therapy, including new lavatory facilities. The Superintendent's residence was redecorated and a small wash room installed. Hardwood flooring was laid in the Engineer's residence. Alterations were made to the male and female pavilions to provide separate admission and infirmary units complete with lavatory facilities.

Tuberculosis Division. Routine repairs were made and the alterations were carried out in the basement of the Administration Building to provide a laboratory unit complete with laboratory fittings, refrigeration, plumbing and heating services.

Ontario Hospital, St. Thomas:

As mentioned in the previous report, these hospital lands and premises, excluding the farm, are still on loan to the Department of National Defence. The Department of Public Works has retained at St. Thomas, certain stores of equipment and furniture, originally purchased for use in this Hospital and from time to time has loaned articles required by the R.C.A.F. from these stores on requisition and has also supplied certain requirements of other Ontario Hospitals and Institutions from these stores. A new roof was laid over the farm residence, which, together with the farm, remains for the present under the control of this Department.

EXAMINATION OF PLANS FOR THE DEPARTMENT OF HEALTH

Generally, plans were examined and recommendations forwarded to the Department of Health in connection with proposed new construction, alterations and additions to General Hospitals, Hospitals for Incurables, Red Cross Hospitals, Sanatoria and Private Hospitals.

Proposals of various kinds were dealt with this fiscal year in connection with the following:

General Hospitals:

Arnprior.....	Arnprior and District
Chesley.....	Memorial
Collingwood.....	General and Marine
Grimsby.....	West Lincoln Memorial
Hamilton.....	General
Haileybury.....	Misericordia
Kingston.....	General
Kitchener.....	Kitchener-Waterloo General
London.....	Victoria
Newmarket.....	York County
Niagara Falls.....	Niagara Falls General
North Bay.....	Queen Victoria Memorial
Ottawa.....	Salvation Army Grace
Peterborough.....	St. Josephs
Sarnia.....	St. Josephs
St. Catharines.....	General
Sturgeon Falls.....	St. Jean de Brebeuf
Sudbury.....	St. Josephs
Toronto.....	East General
	Riverdale Isolation
	Hospital for Sick Children
	Sunnybrook Park
	Wellesley
	Women's College
Niagara-on-the-Lake.....	Cottage Hospital
Windsor.....	Hotel Dieu
	Salvation Army Grace
Wingham.....	Wingham General

Hospitals for Incurables:

Ottawa.....	St. Vincent Hospital
Toronto.....	Queen Elizabeth Hospital
	Runnymede
Windsor.....	East Windsor

Proposed Hospitals:

Aurora.....	Fleury Estate (proposed Chronic)
Brampton.....	Coombs Estate (proposed Chronic)
Little Current.....	St. Josephs
Sudbury.....	General (Stafford House)
Winchester.....	Winchester General
Warton.....	Warton General

Sanatoria:

Fort William	Fort William Sanatorium
St. Catharines	Niagara Peninsula
Sudbury	(proposed site)
Weston	Weston Sanatorium

Red Cross Hospitals:

Bancroft and Northern Ontario

Private Hospitals:

Campbellford	Campbellford Private Hospital
Central Patricia	Central Patricia Gold Mines
Cobourg	Brookhurst Convalescent
Elmira	Turner Private Hospital
Favourable Lake	Berens River Mines Private Hospital
Havelock	Havelock Private Hospital
Little Britain	Little Britain Private Hospital
London	Rogers Private Hospital
Markdale	Markdale Private Hospital
Marathon	Wilson Memorial
McKenzie Island	McKenzie Red Lake Gold Mines
Midland	Midland Convalescent
Milton	Milton Private Hospital
Moosonee	Assumption Private Hospital
Pickle Crow	Pickle Crow Gold Mines Private Hospital
Port Perry	Port Perry Private Hospital
St. Catharines	Bellevue Convalescent
Sarnia	Carruthers Clinic Private Hospital
Stouffville	Brierbush Private Hospital
Toronto	Huntley St. Nursing Home
Waterford	Waterford Private Hospital
Whitby	Whitby Private Hospital

Proposed Private Hospitals:

Campbellford	Mrs. F. I. Peters
Creemore	Creemore
Meaford	Meaford Cottage
Red Lake	Red Lake District

Drawings and studies prepared for work of special nature for Department of Health:

Tentative sketch block plans were prepared for a new mental defective hospital for Eastern Ontario.

Sketch plans were prepared for a proposed addition to the main administration building of the Ontario Hospital, Woodstock.

Typical drawings were prepared for Health Service Centres for Schools.

Sketch plans were prepared for a health laboratory for the General Hospital, Stratford and for the City of Windsor.

Further typical detail drawings were prepared for a standard nursery cubicle.

A typical detail drawing was made in connection with replacement of doors for Ontario Hospital, Whitby.

Detail drawings were prepared for a safety chair, as requested by the Department of Health.

A Physician's register was designed and made for the Hospitals Division.

Detail shop drawings were prepared for two sizes of Serological water baths.

ONTARIO REFORMATORIES

Andrew Mercer Reformatory, Toronto:

Minor repairs were made to the roof of the Main Building and the underground electrical cable to the entrance gate lights, was repaired.

Ontario Reformatory, Mimico:

The main group of buildings and part of the farm lands, mentioned in my previous report as being on loan to the Department of National Defence, were returned to the use of the Province as of May 1st, 1944.

The shale quarry, which had become flooded during the Dominion's occupancy, was pumped out preparatory to resuming brick making operations at this plant. The work of restoring these buildings, following the Dominion's occupancy was carried out.

Industrial Farm, Monteith:

As noted in the previous annual report, this Institution is on loan to the Department of National Defence and their occupancy was continued during this fiscal year.

Industrial Farm, Burwash:

Working drawings for a new four family house were provided. The work of erection to be undertaken by staff mechanics and the inmates at this Institution.

Ontario Reformatory, Guelph:

On the expiration of an existing agreement, a new agreement was drawn up and executed in connection with the railroad siding and trestle bridge over the Speed River at this Institution.

ONTARIO TRAINING SCHOOLS

Boys' Training School, Bowmanville:

As noted in the previous report, this Institution is on loan to the Department of National Defence and their occupancy was continued during this fiscal year.

The premises in Bowmanville known as the "Senkler House" and the "Alexander House" which were previously leased for use as temporary quarters for this School, are still in use for this purpose.

General routine repairs were carried out at these temporary quarters and some minor alteration work undertaken, including the installation of wooden shelving and lockers for the boys' personal effects.

A new wooden fire escape was erected at the Senkler House and wire guards were placed on three detention room windows.

Girls' Training School, Galt:

This Institution is still on loan to the Department of National Defence and the leased premises in Cobourg, known as the "McCook and Haas Houses" were continued in use as temporary school quarters.

General routine repairs were carried out at these temporarily leased premises, including repairs to furnaces, stokers and circulating fans. The refrigeration equipment was repaired and a grease trap installed in the kitchen of the Haas House.

A new heavier gauge electrical feeder cable was erected to serve these premises and the house service wiring increased to provide for two new electric ranges.

Wooden fire escapes were erected on the Haas and McCook houses to improve the exit facilities from the second floor levels.

A new heating boiler was installed in the Haas House and the heating system redesigned and improved. One of the buildings on the grounds of this property was remodelled to provide a gymnasium for the girls and living quarters for some staff members. Work on the new septic tank and distribution bed at this house was carried on during this fiscal year.

FISH HATCHERIES

At Hill's Lake, Hatchery, the dams were repaired.

DEPARTMENT OF HIGHWAYS BUILDINGS

The following work was done by this Department at the request and direction of the Department of Highways:

Drawings and inspections were made in connection with the completion of the construction of a garage at North Bay.

Preliminary sketches were made for a proposed Divisional Office, North Bay.

Working drawings and specifications were prepared for Garage at Stratford.

Typical plans and specifications were prepared for a double snow plow shed.

A study was made for expansion of accommodation at Bancroft for a Divisional Garage.

Improved systems of heating, water supply and drainage were installed at the Rouge and Port Credit Division yards to improve the existing services.

Sketch plans were prepared for proposed alterations and additions to the equipment garage and workshop at Leaside, including inspections and specifications for minor repairs required.

Sketch plans were prepared for a proposed Highway's Testing Laboratory Building.

Sketch plans were prepared for a proposed Implement Storage building at Blind River.

Inspections were made of Scale House buildings at West Hill and on Queen Elizabeth Way.

Inspections were made of property for proposed divisional yards and sand bins at Barrie, Churchhill, Midhurst and Beaverton.

Inspection visit to American laboratories at Chicago, Indianapolis, Jefferson City, St. Louis and Madison was made along with the Testing Engineers of the Department of Highways.

Inspections were made of Garage at Ottawa, and Garage and Paint shop at Beamsville (Hamilton Division).

Inspection was made of Electric Service Building, Brown's Line for proposed alterations.

PROVINCE OF ONTARIO SAVINGS OFFICES

Plans were prepared for alterations to the Savings Office in St. Catharines. Sketch plans were prepared to provide an extra cage and some additional ledger counters for the Savings Office on King Street, East, Hamilton.

Layout was prepared for new fluorescent lighting installation for Savings Office University and Dundas Streets, Toronto.

Sketch layout was prepared for New Savings Office, St. Catharines.

Working drawings were prepared for alterations to banking counters to provide for installation of new type accounting machines at Savings Office, Bay and Adelaide Streets, Toronto.

Co-operation was given in the usual manner to the Head Office Management of the Savings Offices in the matter of general routine maintenance and repair work at the branches where such work was requested and renewals of expiring leases were negotiated and arranged as directed.

DRAWINGS AND REPORTS PREPARED AND OTHER WORK RENDERED FOR THE DEPARTMENT OF LANDS AND FORESTS

At new Experimental Station, Richmond Hill:

Working drawings were prepared, bills of materials computed, assistance given in the matter of purchasing materials and inspection and general co-operation given in connection with the erection of a Files Storage Building and an Experimental Station and Repair Shop for Forestry Protection work.

For Forestry School, St. Norah's Lake:

Plans were reviewed and report prepared in connection with a proposed central heating plant and distribution system.

MISCELLANEOUS

Ontario Government Building, Kingston:

General routine repairs were made, including:

Plaster repairs were made at stairway; four window screens and one storm sash installed. The windows and doors of the first floor were caulked. The stairway and part of the second floor hall was painted and electric outlets and fixtures installed at the stairway, at the rear of the building and at the elevator shaft. Nine fire extinguishers were installed. Repairs were made

to boilers, including renewal of blow down piping, boiler manhole gaskets, repairs to fire door arch to number 1 boiler and installing tubes in numbers 1 and 2 boilers. A new catch basin and iron cover was installed.

Potato Storage Warehouse:

At the request of the Department of Agriculture, working drawings were prepared for a proposed new potato storage warehouse for Cochrane.

Cheese Factories:

At the request of the Department of Agriculture, sketch plans were prepared and photostated to small scale, to show various types of typical cheese factories.

Wartime Day Nurseries:

At 95 Bellevue Ave., Toronto

Inspections were made and minor repairs made, including the installation of an additional radiator. One room was divided forming two offices and a window installed in connection therewith.

At Westminster Presbyterian Church, 150 Floyd Ave., Toronto:

In connection with the basement used for a Day Nursery, an officer of our Department inspected these premises and reported on the heating, and a copy of the report sent to the Wartime Nursery Branch of the Department of Welfare.

T. & N. O. Railway:

Sketch plans were prepared for a proposed new building at Moosonee.

Department of Mines:

Working drawings were prepared for a Mine Rescue Station for Geraldton.

BOILER INSPECTIONS

The boiler inspection work of this Department was carried out by the Heating Engineer, as an addition to his duties as Chief Stationary Engineer for the Parliament Buildings.

* Excluding the plants which have been loaned to the Department of National Defence for their own operations and responsibility in connection with the Institutions loaned for purposes of the present war, the inspection work covered this year under the above heading may be described as follows:

The boilers and boiler equipment and heating equipment of the Legislative and Departmental Buildings, Osgoode Hall, Educational Buildings, Agricultural Buildings, District Buildings, Ontario Government Hospitals, Ontario Training Schools and Ontario Reformatories were inspected and reported upon for safety and proper operation and to determine the extent of the repairs and materials needed for such repairs to properly maintain and operate the power and heating plants in the various building groups referred to. In the case of the Ontario Hospitals and the Ontario Reformatories, the reports, as

referred to, were sent to the Departments of Health and Provincial Secretary respectively for their attention in the matter of making the repairs recommended.

The recommendations contained in these reports regarding plants in all the other building groups, referred to in this section, were attended to by the Department of Public Works.

I have the honour to be, Sir,

Your obedient servant,

GEORGE N. WILLIAMS,

Chief Architect.

Toronto, March 31st, 1945.

REPORT OF THE ENGINEER

THE HONOURABLE G. H. DOUCETT, M.P.P.,
Minister of Public Works,
Parliament Buildings.

SIR:

I have the honour to report on the work done by the Engineer's Branch of the Department of Public Works, Ontario, during the fiscal year April 1, 1944, to March 31, 1945.

All work was done by day labour under local foremen employing local men wherever possible.

The usual maintenance of locks, dams, docks and navigable channels was carried out. Dollars Dam, which was started in 1943, was completed, and drainage work was done in ten districts.

Maintenance work was as follows:

Buoys:

All buoys on navigable channels taken out by ice and spring floods were replaced to make the channels safe for navigation.

Port Carling Locks:

Considerable repairs were made to the old wooden locks and docks. A large section of the dock had to be renewed with timber and plank, and the lock gates were repaired.

Port Sandfield Dock:

The dock on the south side of the channel had become very rotten and unsafe. It was renewed with timber and plank. Repairs were also made on the north dock.

Bala Dam:

A large part of the deck of the south dam was renewed with 3-inch cedar plank.

Baptiste Lake Dam:

This is a concrete dam and was built about 15 years ago. On the west wing wall a section of concrete 60 feet long and 4 feet deep had broken loose due to the action of frost, ice and log jams. This loose section was removed and fresh concrete, well rock bolted to the old concrete, was put in. Several cracks had developed in the wall and these were filled to prevent frost action doing more damage to the dam.

This is an important dam as it provides considerable storage water for the Hydro Plants on the Madawaska River and also provides navigation on the lakes above it.

Pickerel River:

The navigable channel provided by the Pickerel River Dam built in 1942 was considerably hampered by a shallow section at the upper end of Stanley Lake. The bottom was boulders and solid rock and power boats had to be paddled through this channel or they were liable to break their propellers. These boulders and some solid rock were blasted out to give sufficient depth for all boats. This has greatly improved the waterway.

Scott Dam on Restoule River:

This is a timber dam and during the spring floods of 1944 a large log jam was allowed to form above it which swept away the deck and the equipment for lifting the stop logs. A new deck was put on and new equipment provided for lifting the stop logs.

Repairs were also made to Huntsville Locks, Tasso Lake Dam, Kashee Lake Dam, Moose Lake Dam and Camp Lake Dam.

Dollars Dam:

Work on a new concrete dam on the north channel of the Pickerel River was started in 1943 but owing to the labour situation and the shortness of the season in which work could be done, the dam was only about one-half completed. Work was resumed in the spring of 1944 as soon as flood conditions permitted and the dam was completed in the fall.

This dam is about 425 feet long with wing walls, and is 18 feet high at the sluiceways. It has two sluiceways 18 feet wide each, provided with 12x12 inch timber stop logs for regulating the flow of water. Two steel winches are provided for handling the stop logs. It has a timber deck of stringers and 2 inch plank.

Mr. T. J. Paget, Foreman of Public Works, was in charge of the work.

It is the intention of the Department to rebuild the dam on the south channel in 1945. It is a much smaller dam.

Municipal Drainage:

Municipal Drainage was carried out in the following districts: Simcoe Centre, Muskoka, Parry Sound, Nipissing, Sudbury, Haliburton, Peterborough, Addington, Renfrew South and Renfrew North.

*Provincial Aid to Drainage:**Morden Drain, Aldborough and Orford Townships:*

This drain was improved by the Township of Aldborough in accordance with the Municipal Drainage Act, according to the report, plans and specifications prepared by Mr. G. A. McCubbin, Civil Engineer, of Chatham, Ontario.

The work consisted of cleaning out the old drain by deepening and widening it from the road between the Gore and Concession 6, on lot 1 of the Gore in Aldborough Township, to the road south of the Middle Road in the Township of Orford, a total distance of a little over 5 miles. It has a bottom width of 6 feet at the upper end and 10 feet at the lower end with side slopes of one to one.

The estimated cost of this work was \$8,291.00, which amount was assessed by the Engineer on the lands and roads affected in the Townships of Aldborough and Orford. The final cost as certified to by the Treasurer of Aldborough Township was \$10,104.93.

The drain was examined and found completed in a satisfactory manner and on report a grant of \$2,020.99 was paid the Township of Aldborough, the initiating municipality, in accordance with the Provincial Aid to Drainage Act.

Lloyd Drain, Concession D, Mersea Township:

This is a pumping scheme in which low-lying land is drained by pumping the water over the embankments which surround it. The drains carrying

the water to the pumps had become filled in with sediment so that they could not drain the land properly. The embankments had settled and washed away so that there was a danger of high water breaking through them and flooding the land.

These drains and embankments were repaired by the Township of Mersea according to the report, plans and specifications prepared by Mr. C. G. R. Armstrong, Civil Engineer, of Windsor, Ontario.

The repairs consisted of excavating the drains to the proper depth and width. The excavated material was deposited on the embankments to raise and widen them and make them safe.

The estimated cost of this work was \$13,060.00, which amount was assessed against the lands affected in the marsh. The final cost as certified to by the Treasurer of the Township was \$12,815.00.

This work was examined and found completed in a satisfactory manner. On report a grant of \$2,563.00 was paid the Township of Mersea in accordance with the Provincial Aid to Drainage Act.

Fields Creek Drain, Howard and Harwich Townships:

This drain was improved by the Township of Howard in accordance with the report, plans and specifications prepared by Mr. G. A. McCubbin, Civil Engineer, of Chatham, Ontario.

The work consisted of cleaning out the old drain by deepening and widening it from the line between lots 16 and 17, Concession 6, Howard Township, in a westerly direction to lot 20, Concession 3 R.T., Harwich Township. The total length of drain improved was a little over 11 miles. It has a bottom width of 3 feet at the upper end, widening to 12 feet at the lower end, with side slopes of one to one. Considerable brush, trees and rubbish had to be removed along the course of the drain.

The estimated cost of this work was \$14,795.00, which amount was assessed on the lands and roads affected in the Townships of Howard and Harwich. The final cost as certified to by the Treasurer of Howard Township was \$14,797.00.

This drain was examined and found completed in a satisfactory manner. On report a grant of \$2,959.40 was paid the Township of Howard, the initiating municipality, in accordance with the Provincial Aid to Drainage Act.

I have the honour to be, Sir,

Your obedient servant,

J. W. HACKNER,
Engineer of Public Works.

Toronto, March 31, 1945.

Department of Public Works, Ontario,
TORONTO, March 31st, 1945.

THE HONOURABLE GEORGE H. DOUCETT, M.P.P.,
Minister of Public Works, Ontario.

SIR:

I have the honour to submit the following statement showing the several contracts entered into with His Majesty during the twelve months ending March 31st, 1945, in connection with Public Buildings and Works, subject to the control of the Public Works Department of Ontario.

I have the honour to be, Sir,

Your obedient servant,

S. WOOD,
Secretary and Accountant.

STATEMENT NO. 26

Showing the several contracts entered into with His Majesty during the twelve months ended March 31, 1945, in connection with Public Buildings and Works, subject to the control of the Department of Public Works, Ontario.

Date	Location of Work	Subject of Contract	Contractors	Amount
April 1, 1944	Legislative and Departmental Bldgs.	Supply labour and material to put all elevators in good order	Otis-Fensom Co. Ltd., Toronto	\$4,140.00
April 1, 1944	Legislative and Departmental Bldgs.	Complete maintenance of 13 elevators	Otis-Fensom Co. Ltd., Toronto	688.00 per month
April 1, 1944	Legislative and Departmental Bldgs.	Complete maintenance of elevator south end of North Wing.	Otis-Fensom Co. Ltd., Toronto	27.00 per month
April 11, 1944	Osgoode Hall	Complete maintenance of elevator	Otis-Fensom Co. Ltd., Toronto	27.75 per month
April 25, 1944	Ontario Hospital, Orillia	Installation of Plumbing System in the 300 Bed Hospital Group	John Fraser, Esq., Toronto	Lump sum fixed fee
April 25, 1944	Ontario Hospital, Orillia	Installation of Heating System in the 300 Bed Hospital Group	John Fraser, Esq., Toronto	825.00 Lump sum fixed fee
April 25, 1944	Ontario Hospital, Orillia	Installation of an Electric System in the 300 Bed Hospital Group	Harris and Marson, Toronto	890.00 Lump sum fixed fee
April 27, 1944	Ontario Hospital, Orillia	218 Trane Convector Heaters and cabinets for 300 Bed Hospital Group	Trane Company of Canada, Ltd., Toronto	1,100.00
May 8, 1944	Ontario Hospital, Orillia	Supply metal doors and frames and observation window frames for 300 Bed Hospital Group	Otis-Fensom Co. Ltd., Toronto	5,045.00
May 15, 1944	454 University Ave.	Complete maintenance of elevator	Otis-Fensom Co. Ltd., Toronto	1,847.00
June 5, 1944	Ontario Reformatory, Mimico	Pump out water from quarry	Otis-Fensom Co. Ltd., Toronto	17.75 per month
June 7, 1944	Ontario Hospital, Orillia	Supply and erection of flat deck roofing and sheet metal work and the application of rigid asbestos shingles for the 300 Bed Hospital Group	H. A. Wickett Co. Ltd., Toronto	1,480.00
June 13, 1944	Ontario Hospital, Orillia	Lathing and Plastering of the 300 Bed Hospital Group	Wheeler and Bain, Toronto	11,654.00
June 15, 1944	Ontario Agricultural College, Guelph	Renovate No. 1 Palm House	Herbert Thomson and Son, Hamilton	21,523.00
July 7, 1944	Ontario Hospital, Orillia	Supply and installation of Refrigeration and insulation work for the 300 Bed Hospital Group	Lord and Burnham Co. Ltd., St. Catharines	2,870.00
July 13, 1944	Ontario Hospital, Orillia	Supply and installation of Terrazzo, Marble and Tile work for the 300 Bed Hospital Group	Linde Canadian Refrigeration Co. Ltd., Toronto	2,439.00
			Terrazzo Mosaic and Tile Co. Ltd., Toronto	18,488.00

STATEMENT NO. 26 (Continued)

Date	Location of Work	Subject of Contract	Contractors	Amount
July 13, 1944	Agricultural School, Kemptville	Aga Cooker Heat Storage equipment and utensils	Aga Heat (Canada) Ltd., Toronto	\$1,935.85
Aug. 1, 1944	Agricultural School, Kemptville	Painting and decorating of the Administration Building, Students' Residence, Staff Residences and Dairy Building	Holmes Construction Co., Kemptville	8,195.00

TO THE HONOURABLE ALBERT MATTHEWS,

Lieutenant-Governor of the Province of Ontario.

MAY IT PLEASE YOUR YOUR HONOUR:

I have the honour to submit herewith for the information of Your Honour and the Legislative Assembly, the Thirty-Eighth Annual Report of the Game and Fisheries Department of this Province, for the year ending March 31st, 1945.

I have the honour to be,

Your Honour's most obedient servant,

G. H. DUNBAR,
Minister in Charge,
Department of Game and Fisheries.

TORONTO 2,
March 26th, 1946.

THIRTY-EIGHTH ANNUAL REPORT

OF THE

Department of Game and Fisheries of Ontario

TO: THE HONOURABLE G. H. DUNBAR,
Minister in Charge,
Department of Game and Fisheries.

SIR:

I have the honour to submit to you herewith the Thirty-Eighth Annual Report of the Department of Game and Fisheries, in which is contained information with reference to the various Departmental services, as well as condensed statistics and comparative tables for the fiscal year ended March 31st, 1945, and other information which will probably be of interest.

INTRODUCTORY

For several years, in compiling the Annual Report, it has been found necessary to refer to the fact that war and wartime economy are still the most important factors in our national life, and the period under review is no exception; but as the year closes it is quite apparent that the backbone of enemy resistance has been broken, and hopes are high that the end is not far distant, and perhaps in sight.

In reviewing the wild-life situation and administrative activities of the Department during the year, it is desirable and necessary to point out that while there has been but little change in the former, the latter has been carried on under the handicap of prevailing economic conditions. Despite this fact, however, the conservation policies of the Department have been maintained to a very satisfactory degree, and the general situation has not been allowed to deteriorate.

The work of conserving the wild-life natural resources of the Province is complex and perhaps difficult, involving as it does many factors actually not within the scope of Departmental authority, and which have a direct bearing on conditions relative to food, habitat and environment, all of which play a very important part in the continuation and development of the wild-life resources. It is pertinent to add that these governing factors, such as soil, reforestation, water control, and similar problems are receiving a great deal of consideration and attention by various interested public spirited organizations, as well as by the responsible Departments of Government. Every progressive step which is taken to improve deficiencies with a view to restoring the previous natural conditions which existed will be reflected in increased production as well as in the development of wild-life.

The economic and recreational value of wild-life has been emphasized on more than one occasion and in previous reports, but it may be repeated that these values have assumed new and increasing importance during the recent years of conflict. Fishing and hunting have continued to provide clean, wholesome and healthful recreation for an ever growing number of people, included among whom are thousands of war-workers, who because of the strenuous nature of their employment and services require relaxation of the type to be found in the outdoor environment of field and stream, and while the direct contribution made by wild-life to the war effort may not be immediately obvious, it is nevertheless of great significance.

ance. It is not to be assumed that food is the primary objective of those who enjoy fishing and hunting, yet it is a fact that the fish and game taken by the angler and hunter have made a substantial addition to the food supply of the nation as a whole. Huge quantities of game fish were taken by resident and non-resident anglers during the year, while hunters bagged a correspondingly large total of all kinds of game. Every pound of this personally secured fish and meat served to release an equal amount of food for shipment overseas where the demand for such was, and still is, extremely urgent. Commenting on this fact the Director of the U.S. Fish and Wild-life Service, in his annual report to the U.S. Secretary of the Interior states: "Game (in the United States) is estimated to replace annually enough meat to feed an army of 5,000,000 for 77 days." The amount of game and fish taken annually in Ontario would be proportionately large, therefore it provides a considerable saving in the use of our domestic food supply.

Throughout the year the Department has been conscious of the fact that, even during the stress of war, recreation in the outdoors such as wild-life provides is an essential to health and morale, and because of this reason has continued its various activities designed to improve conditions, maintain and develop the resources, and protect them from unnecessary waste or extravagant use. In line with this work, the value and importance of conservation have been continually emphasized, and it is pleasing to report that public co-operation has been very evident. These various activities are set forth in detail herein.

FINANCIAL

The following summary of the revenue collected by the Department of Game and Fisheries during the fiscal year covered by this report indicates in detail the various sources from which such revenue was derived, as well as the amounts collected in each case.

REVENUE FOR THE FISCAL YEAR ENDING MARCH 31st, 1945.

GAME —

Licenses—

Trapping	\$ 53,132.90
Non-resident Hunting	115,590.00
Deer	117,004.70
Moose	4,812.50
Gun	79,389.64
Dog	7,823.65
Fur Dealers	30,652.00
Fur Farmers	6,266.00
Tanners	160.00
Cold Storage	185.00

\$415,016.39

Royalty 194,429.40

\$609,445.79

FISHERIES—

Licenses—

Fishing (Commercial)	\$ 87,253.00
----------------------------	--------------

Angling	412,073.30	
		\$499,326.30
Royalty	12,565.61	
		\$511,891.91
GENERAL—		
Licenses—		
Tourist Camps	\$ 6,510.00	
Guides	7,432.00	
		\$13,942.00
Fines	24,828.82	
Costs collected (Enforcement of Act)	786.89	
Sales — Confiscated articles, etc.	26,372.27	
Rent	3,335.00	
Commission retained by Prov. on sale of licenses	2,132.72	
Miscellaneous	298.32	
		\$71,696.02
Net Ordinary Revenue		\$1,193,033.72

The total revenue derived from our operations, viz. \$1,193,033.72 is the largest collected in any fiscal year to date, and exceeded by approximately \$10,000.00 the largest previous total, i.e. the sum of \$1,183,269.29 received three years ago, in 1941-42. It was more by \$217,961.12 than the revenue collected in the previous year, 1943-44.

Increased collections were recorded in practically every instance and the only noticeable decrease was in the revenue received from the sale of commercial fishing licenses, which was approximately \$4,000.00 less than the revenue derived from the same source in the previous fiscal year. The most important and greatest increase in revenue, as compared with that of the previous year, was in the fees from the sale of non-resident angling and hunting licenses. The amount received in 1943-44 from the sale of these licenses was \$378,135.00, while the sum of \$527,663.30 was collected in 1944-45, or an increase of \$149,528.30, or approximately seventy per cent. of the total increase.

The revenue as compared with that of the previous fiscal year also shows the following collections and increases, viz.—

The total of \$262,163.39 received from the sale of trapping licenses and the various kinds of resident hunting licenses represents an increase of \$10,419.09.

Fees from the sale of fur dealers' licenses and from fur royalties amounted to \$225,081.40, or an increase of \$49,355.95.

Fines and costs imposed on those convicted of violations of provisions of the Game and Fisheries Act and the regulations amounting to \$25,615.71, represents an increase of \$10,612.61.

The following comparisons in connection with the sale of licenses may prove to be of interest:—

NON-RESIDENT ANGLING LICENSES

	1943-44	1944-45
Individual (Seasonal)	27,314	36,907
Individual (Three-Day)	27,622	32,242
Family	12,593	18,859
Manitoba Residents	699	817
Boys' Camp	13	18

NON-RESIDENT HUNTING LICENSES

	1943-44	1944-45
Small Game	1,605	1,949
Deer	1,782	2,385
General	504	653
Bear (Spring Season)	157	181

RESIDENT HUNTING LICENSES

	1943-44	1944-45
Deer	31,067	31,470
Deer (Camp)	371	398
Deer (Farmers')	6,858	6,786
Moose	854	875
Gun	87,504	92,847

During the year expenditures to a total of \$638,765.27 were made by the Department, and it should be noted that these were all ordinary expenditures. There was no expenditure on capital account. The following statement is a resume of the details of this expenditure:—

EXPENDITURE FOR THE FISCAL YEAR ENDING MARCH 31st, 1945

ORDINARY —

Main Office	\$ 55,819.80
General	45,828.00
Enforcement	238,596.35
Game Animals and Birds	12,095.04
Macdiarmid	3,482.96
Biological and Fish Culture	222,759.54
Grants	5,400.00
Wolf Bounty	45,993.58
Bear Bounty	8,790.00
Total	\$638,765.27

As compared with the previous year this total represents an increase in ordinary expenditure of approximately \$68,000.00, the increase being spread over the various activities indicated in the foregoing table, and \$51,000.00 of this increase was absorbed by the expenditures made in connection with two branches of the Service, viz: Enforcement and Biological and Fish Culture.

The allocation of grants followed the distribution which has been in effect for the past few years, details of which are as follows: \$2,500.00 to the Ontario Fur Breeders' Association, Inc., to encourage the efforts of this Association to improve the practice followed by those engaged in the fur farming industry in the Province; \$500.00 to Professor W. J. K. Harkness in connection with his research

work with a view to providing information which will assist in improving fish culture practice in the Department and throughout Ontario; \$500.00 to the Ontario Federation of Anglers and Hunters for their efforts to secure the co-operation of sportsmen interested in hunting and angling in Departmental activities; and the remaining \$1,900.00 in varying amounts, to the late Mr. Jack Miner, Mr. Thomas N. Jones and Miss Edith L. Marsh in appreciation of their services in providing sanctuary for migratory and native birds on their properties located respectively in the counties of Essex, Elgin and Grey.

The favorable balance of revenue over expenditure for the year under review was \$554,268.45. This balance to the credit of consolidated revenue has been exceeded only once in the history of the Department, viz. in 1941-42, as will be shown in the following table which depicts annual departmental revenues and expenditures during the past ten years:—

	REVENUE	EXPENITURE (Ordinary and Capital)	SURPLUS
1935-36	\$ 683,938.72	\$451,041.91	\$232,896.81
1936-37	782,217.63	474,128.95	318,088.68
1937-38	866,558.19	563,938.33	302,619.86
1938-39	914,475.24	575,437.79	339,037.45
1939-40	1,015,350.82	568,198.55	447,152.27
1940-41	984,800.69	512,834.70	471,965.99
1941-42	1,183,269.29	576,762.26	606,507.03
1942-43	962,350.89	574,732.49	387,618.40
1943-44	975,072.60	574,525.05	400,547.55
1944-45	1,193,033.72	638,765.27	554,268.45

GAME

Herewith is a summary of conditions as they apply to the various species of game animals and birds which are to be found in Ontario, compiled principally from reports which have been supplied to the Department by our field officers throughout the Province:—

DEER:—While it should be stated that this species of excellent game animal is not too plentiful in many of the southwestern and southeastern counties in which entire protection throughout the year has been provided over an extended period of time, it is noted that in most of these counties increasing numbers have been observed, and in some cases to such an extent has this improvement continued that a short period of open season was provided in six different townships, details of which are set forth herewith:—

- (a) From November 20th to 23rd, 1944, in the Townships of Aldborough and Dunwich in the County of Elgin, and in the Township of Wilmot in the County of Waterloo;
- (b) From November 22nd to 25th, 1944, in the Township of East Gwillimbury in the County of York; and
- (c) From November 20th to 25th, 1944 in the Townships of Mountain and Williamsburg in the County of Dunc'rs.

Special hunting licenses were provided for this open season, and these licenses were issued to those interested by the respective Township Clerks.

In connection with this season the following regulations were provided to govern,—

That the use of dogs for such hunting would not be permitted;

That hunters would be required to use shot-guns with either buck-shot or S.S.G shells for ammunition;

That the use of rifles would be prohibited; and

That hunters would be permitted to take only one deer, either buck or doe, over the age of one year.

In addition to this a special open season for deer was provided, on the recommendation of the County Council, in that portion of the county of Carleton lying west of the Rideau River, from November 6th to 21st, 1944, and during which open season the general provisions which apply to the hunting of deer were in effect.

By an amendment to the Game and Fisheries Act provided by the Legislative Assembly during the Session of 1944, and as a means of further protection, the following additional counties and portions of counties were included in that part of the Province in which an entire close season for deer prevails, viz:— the Counties of Durham, Northumberland and Prince Edward, that portion of the County of Ontario lying south of the north boundary of Scott and Brock Townships, the Township of Howe Island in the County of Frontenac and the Township of Cambridge in the County of Russell.

In those portions of Ontario in which an open season for the taking of deer is established by the general provisions of the Game and Fisheries Act it may be stated that favorable conditions prevailed for the successful hunting of these animals, and as has been indicated by reference made earlier in this report this is substantiated by the fact that again thousands of resident and non-resident hunters secured licenses to authorize them to partake of the privileges thus available and enjoy the recreational pleasures which such hunting provides during the period of the regular open season in the fall of the year.

MOOSE:—The prevalence of these animals in numbers to warrant successful hunting of the same is confined to scattered areas principally in the districts situated in that part of Ontario lying north and west of the French and Mattawa Rivers and Lake Nipissing, and while such conditions do prevail the reports which have been submitted do not indicate much improvement with a few local exceptions.

Open seasons were provided for the hunting of moose:—

(a) From November 13th to 21st, 1944, in the Townships of Alice, Buchanan, Burns, Clara, Fraser, Head, Maria, McKay, Petawawa, Richards, Rolph and Wylie in the County of Renfrew; and

(b) From October 16th to 31st in the area east of the C.P.R. and C.N.R., from Bigwood to Westree and south of the road from Westree to the Ontario-Quebec interprovincial boundary in the vicinity of New Liskeard.

These special seasons were in addition to the regular periods of open season provided by the Game and Fisheries Act.

As has been previously stated in this report there was a total of 1,528 licenses, resident and non-resident, issued for the hunting of moose and while

this represents an increase of twelve per cent. over the figures of the previous year, the increase is principally made up by the improved sale of such licenses to non-resident hunters.

CARIBOU:—There are but few parts of Ontario in which this species is reported to exist, and their numbers apparently are extremely scarce. A survey of the reports received reveals the fact that they have been observed in scattered and extremely small herds only in the districts of Sudbury, Algoma, Thunder Bay and Kenora. It would appear that there is little or no reason to anticipate any noticeable improvement in a general way even though local increases have occurred, and the protection afforded by the complete close season which has prevailed in the past will be necessary to maintain this species even at its present limited level.

ELK:—Such specimens of elk as are found in Ontario at this time are attributable to the efforts of the Department in the past to re-establish this species in this Province. As stated in previous annual reports the original stock was secured from Western Canada with the co-operation of the National Parks Branch of the Federal Government. Their numbers are still quite few, and they are, of course, to be found only in the areas in which they have been liberated, that is in certain portions of the Counties of Bruce, Simcoe and Peterborough in the southern portion of the Province, and in the Districts of Algoma, Nipissing, Sudbury and Thunder Bay in Northern Ontario. This species is naturally provided the protection of an entire close season.

BUFFALO:—A small herd of buffalo was received in Ontario from Alberta some five years ago. These animals were placed on the Burwash Crown Game Preserve located in the District of Sudbury. Little or no improvement has been reported.

BEAR:—In those parts of Ontario in which suitable habitat prevails these animals continue to be sufficiently plentiful to be somewhat of a nuisance to those engaged in agricultural pursuits, and the damage to domestic flocks and herds has been sufficiently extensive to warrant the provision of a regulation for the payment of bounty to encourage the destruction of bear under certain circumstances. This regulation provides for the payment of this bounty on bears which have been killed in settled agricultural areas in specified portions of the Province and details of the operations under this regulation are provided elsewhere in this report.

In addition to constituting the nuisance related in the previous paragraph this species is sufficiently plentiful in many sections to afford a measure of successful hunting for the sportsmen who are interested in such pursuit, and in this connection it is very interesting to note that we have quite a number of United States residents who visit Ontario to participate in the hunting of bear during the season which is provided each year between April 1st and June 15th.

RABBITS:— In Ontario three species of rabbits are known to exist, viz:— cotton-tail, the European Hare (or jack-rabbit), and the snowshoe rabbit (or varying hare). The cotton-tail rabbit is native to practically all of the southern counties, the jack-rabbit is restricted pretty well to the southwestern counties, though reports indicate some extension to the eastern counties and some northern districts in the southern portion of the Province, while the snowshoe rabbit is prevalent in the various northern Ontario districts as well as in some of the northern districts and eastern counties in southern Ontario.

These animals were sufficiently plentiful in most sections to warrant the conclusion that they continue to provide very enjoyable and successful hunting particularly during the late fall and early winter months. Notwithstanding this favour-

able conclusion there are naturally some sections in which reports state that there has been a diminution of the numbers of rabbits, but in no case would this be applicable to more than one of the species which were prevalent therein.

It is undoubtedly true that the favourable hunting which rabbits provide is a source of considerable satisfaction to the hunters who are interested, and their numbers are legion, and provides a condition which is greatly appreciated.

PARTRIDGE:— The general conditions which applied to the various species of partridge native to this Province, judging from the reports submitted, was none too favourable in many portions of Ontario, nevertheless there were other sections in which it was indicated that their numbers were sufficiently plentiful to justify the provision of a restricted period of open season.

The regulation which established this open season provided that it would prevail in that portion of Ontario lying south of the French and Mattawa Rivers and Lake Nipissing, except in those counties lying south and west of, but not including the counties of Huron, Bruce, Grey, Dufferin, Simcoe and Ontario, and in the districts of Nipissing, Temiskaming, Cochrane, Sudbury, Manitoulin, and Algoma. It will be noted that in addition to the southwestern counties previously referred to this open season was not in effect in the northern districts of Thunder Bay, Rainy River and Kenora. Two periods were included in this open season, i.e., from October 7th to 14th, 1944, and from November 6th to 11th, 1944. It was further provided "that no person shall take or kill such birds in excess of five (5) per day in all, or twenty-five (25) in all during the aforesaid two periods, or have in possession at any time such birds in excess of the numbers herein prescribed."

No provision was made to permit the hunting of partridge in the townships established as Regulated Game Preserve Areas, on the days on which the hunting of pheasants was permitted, as had been the case in previous years.

HUNGARIAN PARTRIDGE:— In connection with this species it would be apparent that while there are quite a few of the southern Ontario counties in which scattered small flocks are to be found there are very few extensive areas in which they have been observed. Perhaps the best areas are located in the extreme southwestern counties of Essex and Kent and adjoining counties and in the eastern counties of Dundas and Stormont, but their numbers are not too plentiful even in these counties. These birds are not native to the Province and those which are now found here are the result of re-stocking undertaken in previous years by the Department.

During the year 1944 the hunting of these birds was provided by regulation effective on three days only, October 26th, 27th and 28th, in the counties of Essex and Kent. The regulation which governed established a bag limit of two (2) birds per day.

PHEASANTS:— The Department continued its policy of purchasing and liberating pheasants for the restocking of the various Township Regulated Areas, and in other areas in which suitable conditions for the development of these birds exist. This policy was inaugurated some years ago and has been continued with the object of establishing this species in suitable areas and in which it may be practicable to declare a period of open season. According to statistics which have been compiled in the Department, a total of 11,896 pheasants were secured from three bird farms operating in Norfolk, Northumberland and Victoria Counties. Of this number, 9,972 were distributed in varying quantities throughout the Regulated Townships, 1,907

for general re-stocking in other areas, and the remaining 17 were allotted to private individuals to assist them in their efforts to improve their own private flocks.

Details of this distribution are contained in the following table:

County	Township	Poult	Adults	Total
Brant	Burford	150		330
	South Dumfries	105

Sudbury	12		12
Totals	1559	348	1,907

Arrangements were made to provide open seasons for pheasants as follows:

(a) In the following townships established as Regulated Game Preserve Areas, viz:—

South Marysburgh in Prince Edward County;
 Pickering, Whitby, and East Whitby in Ontario County;
 East Gwillimbury, North Gwillimbury, King, Markham, Scarborough, Vaughan and Whitchurch in York County;
 Albion, Caledon, Chinguacousy, Toronto (part) and Toronto Gore in Peel County;
 Esquesing, Nassagawega, Nelson and Trafalgar in Halton County;
 Puslinch in Wellington County;
 Ancaster, Barton, Beverly, Binbrook, East Flamboro, West Flamboro Glanford and Saltfleet in Wentworth County;
 Bertie, Crowland, Humberstone, Pelham, Stamford, Thorold, Wainfleet and Willoughby in Lincoln County;
 Canboro, North Cayuga, South Cayuga, Dunn, Moulton, Oneida, Rainham, Seneca, Sherbrooke, and Walpole in Haldimand County;
 Burford, South Dumfries and Onondaga in Brant County;
 Middleton, Townsend, North Walsingham and Windham in Norfolk County;
 Dereham and East Oxford in Oxford County;
 Aldborough, Bayham, South Dorchester, Dunwich and Malahide in Elgin County;
 on October 20th and 21st, 1944.

(b) In the following townships established as Regulated Game Preserve Areas, viz:—

Caistor, Clinton, Gainsboro, Grantham, North Grimsby, South Grimsby, Louth and Niagara in Lincoln County;
 on October 20th, 21st and 25th, 1944.

(c) In the following townships established as Regulated Game Preserve Areas viz:—

Metcalfe and Westminster (part) in Middlesex County; and Plympton in Lambton County;
 on October 26th and 27th, 1944.

In connection with the various seasons in the aforementioned township

Regulated Game Preserve Areas the regulation which governed stipulated a bag limit of three cock birds per day. It was further provided that the special township hunting license was required by hunters in addition to the regular hunting license demanded by the provisions of the Game and Fisheries Act.

(d) On Pelee Island on October 26th and 27th, 1944. The regulation in this instance provided that "no person shall take, kill or have in possession such birds (pheasants) in excess of five per day, two of which shall be hen birds"; and, as in the case of the open seasons in the Regulated Township Areas, a special township hunting license was required by hunters who participated in this open season on Pelee Island. All hunting on Pelee Island was prohibited during the period from October 19th to 25th, 1944, that is, during the week previous to the pheasant shoot.

(e) In the counties of Essex and Kent on October 26th, 27th and 28th, 1944, with a provision for a bag limit of three cock birds per day.

QUAIL:— Conditions as they apply to this species are not favourable, nor does information regarding their prevalence indicate much improvement over previous years. There are but few sections in which there is any evidence of their existence, and they are generally speaking confined to the most southerly counties. The only section in which an open season was provided was in the counties of Essex and Kent, and in which counties the open season coincided with that which prevailed with respect to pheasants, viz:— October 26th, 27th and 28th. The regulation in effect provided a bag limit of four birds per day in the case of quail.

DUCKS:— The various species of wild ducks which are available in Ontario during the open season which occurs during the southerly migration of these birds in the fall of the year were reported to be quite plentiful in many sections of the Province, though there are some areas, particularly in Northern Ontario in which such favourable conditions do not prevail. The hunting provided by this species of waterfowl represents a substantial measure of enjoyment to the sportsman who is interested in this division of our wild-life. The regulations which govern are provided by the Federal Government under the provisions of the Migratory Birds Convention Act. The complete protection of a close season throughout the year was continued in the case of wood duck, while the hunting of eider duck was permitted, as in past years, only north of the Quebec-Cochrane-Winnipeg line of the Canadian National Railway from September 15th to November 15th. The only change in the regulations which apply was in respect to the period of the open season which was extended five days throughout the Province, and in the northern division the season closed on December 5th instead of November 30th as had been previously provided, while in the southern division the season closed on December 15th instead of December 10th.

GEESE:— Favourable shooting conditions with respect to this species do not prevail to any great extent in Ontario. Generally speaking such conditions exist only in the extreme northerly portion of the Province, along the western shore of James Bay, the southerly extension of Hudson's Bay, and in two or three counties in the southwestern peninsula. They are observed in scattered areas during the periods of migration, but in such cases they offer little or no attraction to hunters.

The period of open season which is provided is similar to that which is in effect in the case of ducks as is related in these comments on the last mentioned species with the exception that in the counties of Essex, Kent and Elgin the open season was from November 1st to January 10th, an extension of eight days over the season which previously existed and which ended on January 2nd.

The species Brant are provided the protection of a complete closed season throughout the year.

WOODCOCK:— General conditions as they apply to this species of game bird are not too satisfactory. They are reported to exist in various portions of Ontario, but except in some scattered sections they are not sufficiently plentiful to encourage hunters to participate in such hunting as is provided under the Migratory Bird Regulations.

In 1944 the open season on woodcock extended from October 1st to 31st, and the regulations which governed specified a bag limit of eight per day and a seasonal bag limit of one hundred birds.

SNIPE:— Conditions somewhat similar to those which prevail in connection with woodcock are evident with respect to snipe. There are some sections in which they provide desirable sport, but generally speaking they are not too plentiful.

The open season extended from September 15th to November 15th in the northern division and from October 1st to November 30th in the southern division. The bag limits were reduced considerably in 1944, the daily limit being decreased from twenty to eight, and the seasonal limit decreased from two hundred to fifty.

PLOVER:— Reports from field offices indicate that while these birds may be found in most parts of the Province, they are not at all plentiful except in a few widely separated counties, and the protection of an entire close season as is provided under the Migratory Birds Convention Act is justified by these conditions. There are some areas in which improvement has been observed, though such increase is in no way general nor too noticeable.

FUR-BEARING ANIMALS

Following is a summary of the conditions which apply throughout the Province to the various species of fur-bearing animals which are known to exist here, and which remarks are based on the reports submitted by members of the Field Service staff of the Department:—

BEAVER:— These animals continue to provide a good proportion of the financial returns accruing to trappers from their trapping operations. Conditions as they apply to this species continue to be quite favourable in many sections and more particularly in the remoter areas in which circumstances suitable to their propagation and increase prevail. Such suitable circumstances are undoubtedly augmented by the intensive efforts put forth by members of the enforcement service commensurate with their other duties, to secure as strict observance as they possibly can of the provisions of the Game and Fisheries Act established for the protection and development of this very desirable fur-bearer. There are, of course, many portions of the Province in which such favourable conditions with regard to numbers do not exist, and in these sections they are rigidly protected and an entire close season prevails.

The following open seasons were provided during the year 1944:

(a) Throughout Northern Ontario (except the District of Rainy River and that portion of the District of Kenora lying south of the main transcontinental line of the Canadian National Railway), and in the districts of Parry Sound, Muskoka, and Nipissing (South), the counties of Haliburton, Lanark and Renfrew, and those portions of Hastings, Lennox, and Addington and Frontenac lying north of num-

ber 7 Highway.

Trappers were allowed to take not more than ten beaver during this open season, and while the territory in which this open season prevailed was not as extensive as that in which such open season was provided in the previous year the catch of beaver in 1944 exceeded by approximately 6,000 the catch of the previous year.

(b) In the county of Grey and in the townships of Orillia and Matchedash in the county of Simcoe, under the following conditions, viz: that trapping operations for beaver would be restricted to licensed trappers and farmers residing in the respective areas; that each trapper or farmer should take not more than ten beaver during such open season, and that such pelts as were taken were to be forwarded to the Department for disposal by us on behalf of the respective trappers concerned.

The period of open season in each instance extended from December 1st to 21st.

It has been revealed by Departmental records that there were some 38,070 pelts taken during these periods of open season, an increase of practically fifteen per cent over the catch recorded during the season in the previous year.

It is computed that these pelts had a value to the trappers of some \$1,366,713.00, which is in excess of twenty-five per cent of the total value of the entire fur catch taken during the fiscal year 1944-45.

FISHER:— Very few of these animals are trapped during the season which extends from November 1st to February 28th, and while there was an increase in the number taken during the 1944-45 season as compared with the number taken in the previous season, reports from officers show that any improvement in the case of this species is very restricted and confined to scattered localities.

FOX:— This species continues to be quite plentiful in practically every section of the Province and they are not only causing considerable damage to domestic poultry flocks but they are also responsible for some of the decrease reported among certain species of game birds. Several township councils have provided by-laws under the authority of which such municipalities pay bounties under certain conditions on foxes killed within the boundaries of the respective townships. This extreme prevalence of foxes resulted in the Department continuing the arrangement which relaxed the legislation which provided the protection of a close season on these animals in the counties of Brant, Durham, Elgin, Essex, Haldimand, Halton, Huron, Kent, Lambton, Lincoln, Middlesex, Norfolk, Northumberland, Oxford, Peel, Perth, Prince Edward, Waterloo, Welland, Wellington, Wentworth and York. In these counties it was also provided that dogs could be used for the hunting of foxes without permit, as is required by existing provisions of the Game and Fisheries Act. As is indicated further on in this report there were 43,185 red foxes taken during 1944-45 which was a decrease of more than 10,000 as compared with the number which was taken in the previous year.

LYNX:— These animals continue to be extremely scarce throughout the Province, and they are practically non-existent in southern Ontario. There are no reports to indicate they are increasing anywhere in the Province, although there was an increase in the number taken during the year under review.

MARTEN:— The conditions applicable to marten are somewhat similar to those

reported in connection with fisher and lynx. This species is extremely scarce throughout the entire area, and they are practically extinct in the southern portion of the Province. As in the case of fisher, the season in this case extends from November 1st to February 28th. Trappers take but a limited number of marten during the season, though there was a slight increase in 1944-45.

MINK:— This species continues to be fairly plentiful and is available in many sections of Ontario. The open season which prevails extends from November 1st to February 28th. It is one of the more desirable species of fur-bearing animal available to trappers. Returns compiled in the Department show that between fifteen and twenty per cent of the total amount received by trappers from their entire fur catch of 1944-45 was derived from the sale of mink. The catch of mink for the year under review decreased seventeen per cent in comparison with that of the previous year.

MUSKRAT:—General conditions with reference to muskrat continue to be quite favourable in practically every section of the Province and the revenue earned by trappers from the sale of these pelts constitutes their principal source of income. It has been estimated that 38 per cent of the total value of the entire fur catch in 1944-45 was attributable to the sale of muskrats. The 1944-45 catch exceeded by approximately 100,000 pelts the number which was taken in 1943-44.

The open season which is in effect is provided annually by regulation to coincide as far as possible with suitable weather conditions in the various sections. In the past the periods of this open season have been omitted from this report for the reason that in many instances the season commences in one fiscal period and terminates in the succeeding fiscal period. However, it may be desirable for purposes of record to incorporate in this report details of such open season, and to inaugurate this decision this open season which prevailed in 1944 will be recorded.

Period of Open Season

Thunder Bay	April 21st	May 21st

(X)—The dividing lines between the northern and southern areas in these counties and districts are as follows:

Highway No. 7 in the counties of Frontenac, Hastings, Lennox and Addington, Peterborough and Victoria.

The Mattawa River in the district of Nipissing.

The north boundary of the townships of Brock and Scott in the county of Ontario.

The north boundary of the townships of Tossorontio, Essa and Innisfil in the county of Simcoe.

OTTER:—These animals are extinct in many of the southern Ontario counties, and conditions in the areas in which they do exist are not very favourable. The number trapped during the year shows an increase, but they do not provide any important portion of the revenue received by trappers in general. The period of open season extends from November 1st to February 28th.

RACCOON:—It is only in that part of Ontario south of the French and Mattawa Rivers that these animals are found. The pelts of this species are not in great demand. Conditions which apply to the prevalence of raccoon remained about the same and while the total catch showed a decline during the year it was better

than the average catch over the previous five years. The open season for the taking of raccoon extends from November 1st to December 31st.

SKUNK:—As in the case of raccoon, these pelts are not in great demand, and the prices paid for them do not encourage trappers in their attempts to take these animals. They are quite plentiful in practically every section of the province, though there was a considerable decline in the catch during 1944-45 in comparison with that of the previous year.

WEASEL:—Conditions with reference to weasel are variable, and though they are plentiful in many counties and districts the value of their pelts is not sufficient to encourage intensive operations for the trapping of this species. The catch during 1944-45 was about normal though somewhat decreased.

The following is a comparative table showing the numbers of pelts of the several varieties of fur-bearing animals taken in Ontario, and which were either exported or dressed, during the fiscal year 1944-45, as well as figures for the three preceding years.

	1941—42	1942—43	1943—44	1944—45
Bear	384	288	269	306
Beaver	25,197	24,194	32,266	38,070
Fisher	884	691	1,035	1,219
Fox (Cross)	1,780	2,649	4,350	3,691
Fox (Red)	32,215	31,297	53,205	43,185
Fox (Silver or Black)	206	265	499	449
Fox (White)	114	185	33	22
Lynx	537	552	646	938
Marten	1,652	1,417	1,610	1,701
Mink	63,996	60,331	52,289	43,098
Muskrat	722,387	642,810	683,450	782,220
Otter	3,880	3,557	3,964	4,650
Raccoon	13,499	13,420	20,664	17,381
Skunk	94,656	48,337	79,298	45,117
Weasel	80,776	62,553	67,461	62,859

Again trappers experienced a highly successful season, both from the standpoint of the numbers of pelts which were taken by them and their financial returns received from the sale of these pelts. The average price of fur declined somewhat during this period, but notwithstanding this decline it has been estimated that the value of the fur trapped in Ontario and disposed of in the fiscal year under review amounted in all to a total of \$5,138,126.68. As has been mentioned previously the principal pelts contributing to this sum were muskrat—\$1,955,550.00, beaver—\$1,366,713.00, mink—\$933,933.66 and red fox—\$302,295.00.

In addition Departmental records show that during this fiscal year licensed fur farmers as a result of their activities marketed the pelts of 22,085 silver and black foxes, 1,312 blue foxes and 76 cross foxes, and in addition the pelts of 58,539 mink, all of which had an estimated value of \$1,852,084.49, which was approximately the same amount as that received during the previous year.

It will therefore be observed that the fur produced and sold by trappers and licensed fur farmers in the fiscal year under review was marketed for a total sum of \$6,990,211.17.

FUR FARMING

While wartime problems continued to beset the fur breeder, and the future market for raw furs was somewhat uncertain, there was sufficient demand to maintain prices at a level commensurate with the rising cost of operation. The industry continued on practically the same scale as in the previous year. 1220 fur farmers' licenses were issued during the year 1944 — 1091 renewals and 129 new licenses.

THE FOLLOWING IS A SUMMARY OF THE BREEDING STOCK ON LICENSED FUR FARMS AS AT JANUARY 1st

	1942	1943	1944	1945
Beaver	18	21	23	44
Fisher	16	15	12	14
Cross Fox	112	68	58	64

WOLF BOUNTIES

The following is a comparative statement showing annual wolf bounty statistics for a period of five years ending with the fiscal year 1944-1945.

Period	Timber	Brush	Pups	Total	Bounty & Expenses
For year ending Mar. 31, 1941	738	400	8	1,146	\$16,477.43
For year ending Mar. 31, 1942	1,199	577	37	1,813	40,593.77
For year ending Mar. 31, 1943	935	497	32	1,464	33,606.62
For year ending Mar. 31, 1944	1,302	731	32	2,065	46,545.75
For year ending Mar. 31, 1945	1,321	665	12	1,998	45,993.58

WOLF BOUNTY

Pursuant to the provisions of the Wolf Bounty Act, the continued destruction of wolves was encouraged at prevailing rates of bounty, \$25.00 on an adult timber or brush wolf, and \$5.00 on a pup under 3 months of age.

It is noted from Department records that more wolves were taken during each of the last two fiscal years than in any year since 1937. This is indicative of the increase in the wolf population and that favourable weather conditions during the winter months are an important factor in the hunting and destruction of predators.

WOLVES KILLED**WOLF BOUNTY CLAIMS**

Fiscal Year Ending March 31st, 1945

The following table indicates the total number of wolves killed in each of the Counties and District and in respect of which applications for payment of bounty were submitted.

County	Number of Timber	Number of Brush	Number of Pups	Total Wolves
Brant	0	1	0	1

Grand Total	1,323	667	12	2,002

The Department continued the practice instituted on November 1st 1942, of giving to the Seaman's Fur Vest War Project, the wolf pelts submitted in support of applications for payment of bounty. These pelts were manufactured into fur vests by volunteer workers and were made available to personnel of the Naval Service and Merchant Marine.

BEAR BOUNTY

The payment of bounty to control the population of bears was continued. The regulations provided for a bounty of \$10.00 on bears killed between April 15th and November 30th by a bona fide resident of a township, located in certain counties and districts, and of which 25% of the total area was devoted to agriculture.

The Department received 774 applications for bounty on 910 bears killed during the period covered by this report. Payment of 26 of these claims involving 31 bears, was disallowed however, due principally to the fact that 25% of the total area of the township in which the bears were killed, was not devoted to agriculture. The total bounty paid therefore, was \$8,790.00 for 879 bears.

TOURIST OUTFITTERS

While travel restrictions and similar unfavorable conditions curtailed the volume of tourist traffic and many camps could not operate at full capacity during the season, most of the camp operators renewed their licenses in 1944. Five hundred and sixty Tourist Outfitters' Camp Licenses were issued during the period covered by this report, an increase of twenty-one, as compared with such licenses issued during the previous year.

There was considerable interest in post war expansion. Ninety-three applications for permits to establish camps were considered, of which fifty-five were granted. Twenty-one were refused and seventeen were in abeyance at March 31st., 1945. Ten new camps were completed and licensed during the year.

Details regarding location of the camps licensed to operate during the year, are as follows: —

CROWN GAME PRESERVES

This phase of the Department's conservation work is an important factor in the development and perpetuation of the wild-life of the Province. In the northern part of Ontario much of the sanctuary reserved for game is contained within Crown Lands. These are mostly bush lands,—sometimes wild and frequently inaccessible,—providing a natural environment and offering food and cover under the

best possible conditions. While these areas are quite extensive every effort is made to protect them against poachers, field officers making frequent patrols into and around the various preserves. Wild-life development within these areas has been very satisfactory while adjacent territory has benefited from the overflow.

In the southern part of the Province, where the lands are mostly privately owned and largely of an agricultural nature, there is a considerable number of small sanctuaries, serving a useful purpose in the protection and development of upland game birds and animals. These areas have been set aside with the co-operation of the landowners who are for the most part vigilant in protecting any game which may be found on their lands.

No additions to these Crown Game Preserves have been made during the period under review.

LEGISLATION AND REGULATIONS

Amendments to the Game and Fisheries Act were provided during 1944 as follows:—

- (a) Provision to establish fur royalties by regulation;
- (b) Extending the southerly boundary of division (b) for the purposes of hunting deer and moose therein. Additional townships formerly located in division (c) were included in division (b) by this amendment;
- (c) Adding the counties of Durham, Northumberland, Prince Edward, the township of Howe Island, the township of Cambridge, the townships of Scott and Brock and all townships south thereof in the county of Ontario to the areas in which the hunting of deer is prohibited at all times;
- (d) Establishing portions of the district of Parry Sound and the district of Nipissing south of the Ottawa and Mattawa Rivers as a separate division for the hunting of deer, and providing for the open season for such purpose therein;
- (e) A later open season for deer in that portion of southern Ontario defined as division (ddd);
- (f) Including farmers' sons in the exemption provided in subsection 4 of Section 10 (gun licenses) when hunting on such farmers' lands;
- (g) Clarification of the provisions of subsection 3 of Section 15 relating to tourist outfitters;
- (h) Extending the provision which requires possession of licenses to sell nets, to include in addition to gill nets, hoop nets, pound nets and seine nets.
- (i) Extension of the spring open season for bear, to extend from April 1st to June 15th.
- (j) Prohibiting the owners of greyhounds to pursue game or run at large on Sundays; and prohibiting the owners of dogs from permitting such dogs to molest game birds or disturb their nests during the months of April, May, June or July, except during approved field trials;
- (k) Prohibiting the possession of artificial lights at night by persons in possession of fire-arms capable of killing deer or moose;
- (l) Adding the counties of Halton, Northumberland and Ontario to those counties in which the use of snares is prohibited at all times;
- (m) Adding the counties of Lincoln, Wentworth and York to those counties in which there is a bag limit of six cotton-tail rabbits per day; and prohibiting the sale of such rabbits in these counties;
- (n) Prohibiting the discharge of any fire-arm from or across the King's Highway; and
- (o) Authorizing the export by non-resident hunters of "additional

small game animals and birds not in excess of the numbers authorized to be killed or taken by this Act (Game and Fisheries Act) or the regulations in respect of which special open seasons may be provided.”

Amendments to the Special Fishery Regulations for the Province of Ontario in 1944 were as follows:

(a) The open season for black bass and maskinonge in all the waters of Lake Erie was changed to extend from June 25th to December 15th; and

(b) The open season for black bass and maskinonge in the waters of the River St. Lawrence was changed to extend from June 16th to October 15th.

Amendments to the Migratory Bird Regulations were in accordance with the details as outlined in the reference to ducks, geese and snipe previously recorded in this report.

ENFORCEMENT

This Department is responsible for the administration throughout Ontario of The Game and Fisheries Act and the regulations which may be provided thereunder, as well as The Special Fishery Regulations for the Province of Ontario provided by the Federal Government under The Fisheries Act (Canada), The Migratory Birds Convention Act, insofar as the regulations apply in Ontario, and The Wolf Bounty Act.

For the enforcement of this legislation the Department maintains a staff of Game and Fisheries Overseers whose services are augmented at different periods of the year, but principally during the period of the Spring Fish spawning season, by additional seasonal overseers. In addition members of the Ontario Provincial Police force co-operate with our regular officers to secure better observance of the various provisions of these legislative enactments and regulations.

The work of enforcement is also assisted by the efforts and co-operation of the hundreds of Deputy Game and Fishery Wardens who annually apply for such appointments. This co-operation with the regular Overseers by these Deputy Game Wardens is provided without expense to the public and serves a very useful purpose. It is more than probable that the services rendered by these honorary officers are generally speaking not to the extent of making seizures and prosecuting those who have been apprehended violating the provisions of the legislation with the enforcement of which we are charged, but rather for the purpose of advising and drawing to the attention of those who might be contemplating such violations the impurities which might result, and thus they act principally in a preventive rather than an enforcement capacity. They undoubtedly render good service on behalf of the general public, and it would be difficult to estimate the value of the assistance which is thus voluntarily provided.

In the performance of their duties enforcement officers did apprehend offenders on many occasions, and in such cases this action was followed by the seizure of equipment which was being employed in connection with the violations so witnessed. During the period of the fiscal year under review there were 1,247 cases in which seizures were made from such offenders. These seizures were the result of action provided by Game and Fisheries Overseers in 1146 cases, by Deputy Game and Fishery Wardens in 9 cases, by members of the Ontario Provincial Police Force in 25 cases, and by members of municipal police forces in 3 cases. In the remaining 64 cases the seizures resulted from action in which Overseers, Deputy Game Wardens and Provincial Police constables co-operated with each other.

The following is a summary of the articles which were placed under seizure in these actions, —

Live Animals and Birds	in 2 cases.
Birds, game animals and meat	in 142 cases.
Fire-arms and Ammunition	in 389 cases.
Fish	in 209 cases.
Nets and Fishing Equipment	in 140 cases.
Angling Equipment	in 152 cases.
Pelts and Hides	in 256 cases.
Traps and Trapping Equipment	in 154 cases.
Canoes, row-boats and motor-boats	in 14 cases.
Outboard Motors	in 9 cases.
Motor Vehicles	in 4 cases.
Flashlights and lanterns	in 25 cases.
Spears	in 49 cases.
Miscellaneous Articles	in 46 cases.

While the combined total of these various articles exceeds 1,247, the actual number of seizures made during the year, the discrepancy is accounted for by the fact that there are many seizures made in which articles in more than one of these classifications are included, such as fire-arms and game, traps and pelts, fishing tackle and fish, and in all the cases in which water-craft, outboard motors and motor vehicles are involved articles in other classifications would be included.

Departmental records disclose the fact that the fire-arms which were seized in these cases consisted of 177 small calibre fire-arms such as .22's and .25's, 95 larger calibre rifles, 1 revolver, 7 air guns, 58 single-barrel shot-guns, 69 double-barrel shot-guns, 18 repeater shot guns, and 1 automatic shot gun.

Details of confiscated pelts of fur-bearing animals are as follows:

Beaver	468
Fox	94
Lynx	1
Marten	2
Mink	71
Muskrat	382
Otter	56
Raccoon	64
Skunk	34
Squirrel	46
Weasel	31
Deer and Moose Hides	64

Charges were laid and subsequent prosecutions were undertaken in 1,085 cases in which violations of the Game and Fisheries Act and the various Regulations were involved. Following these charges and prosecutions convictions were registered and penalties imposed by the presiding magistrates in 1,034 of these cases. The charges were dismissed, principally for lack of supporting evidence, in 44 cases. In 6 cases the charges were withdrawn previous to the trial and in one case the defendant received a warning.

In connection with the 1,034 convictions which were registered, the charges were laid by Game and Fisheries Overseers in 1,005 cases, by Provincial⁸ Constables in 21 cases, and in the remaining 8 cases the charges followed information laid

jointly by Overseers and Provincial Constables.

In connection with the 44 cases in which the charges were dismissed the information was laid in 42 of these cases by Game and Fisheries Overseers, in one case by Provincial Constable and in the one remaining case jointly by Game and Fisheries Overseers and Provincial Constables.

Game and Fisheries Overseers were responsible for the 6 actions in which the charges were withdrawn, and were also responsible for the one action in which the defendant was warned.

REPORT OF THE FISH CULTURE BRANCH

Fish culture may be defined as any procedure for increasing the stock of fish. One of the procedures used extensively in Ontario, is the planting of hatchery raised fish. In the majority of cases this procedure is a supplement and not a substitute for nature's means of replenishment.

A study of the complex series of events which occur from the time the fish egg is fertilized until the end product, the fish, reaches sexual maturity discloses useful facts for developing advantageous procedures in fish culture. For example, fundamental fish culture research may result in the establishment of important principles governing successful planting.

During the year twenty-seven hatcheries and rearing stations were operated. In keeping with prevailing wartime restrictions, no new plants were established. The introduction to the report of the Fish Culture Branch for the year 1943-1944, contains information on the classification of the hatcheries and rearing stations, and the kinds and sizes of the fish cultured. Since this classification is substantially the same for this year it is unnecessary to report the details of it here.

THE CULTURE AND DISTRIBUTION OF FISH

Speckled Trout:

The distribution of speckled trout during the year was approximately as follows:

2,877,000 yearlings
493,840 fingerlings
4,360 adults

It is not the policy of the Department to plant fingerlings (under-yearlings) unless the accommodation at our rearing stations is taxed beyond their proper capacities. On account of crowded conditions at Chatsworth, Sault Ste. Marie, Dorion and Hill Lake, distribution was required until crowded conditions were alleviated.

Brown Trout:

The department is careful to avoid planting brown trout in streams that continue to support native speckled trout satisfactorily, or in streams that may be susceptible to improvement for the latter. The distribution of brown trout is confined to streams where there is scant possibility of their rehabilitation for speckled trout on a practical basis; the lower reaches of a number of streams cut off by dams from the upper reaches, where speckled trout still thrive, have been stocked with browns advantageously.

Planting of browns in suitable streams continues to yield fruitful results. During the year, the Department received many reports of excellent catches from waters which were previously barren of speckled trout, due largely to temperatures unsuitable for them.

Approximately 331,000 yearlings were planted this year, an increase of 90 per cent over the previous year's distribution.

Rainbow Trout:

(a) Steelhead:

It has long been recognized that steelhead rainbow have a tendency to migrate from streams in which they have been planted to larger waters such as the Great Lakes during their second year or when they are about a foot in length. On reaching sexual maturity, they ascend streams in spring and leave again after the completion of spawning. Hence they are available to anglers for only a short time, and consequently comparatively few are found in the fisherman's creel.

It is only in the larger rivers and lakes that rainbow trout are normally found, except during their immature stages. The St. Mary's, the Pine and certain of the larger parts of the Nottawasaga are examples of rivers in which rainbows remain throughout the year. They have survived chiefly in larger lakes, Superior, Georgian Bay and Lake Simcoe, which they inhabit for the most part, as adults.

Distribution was confined with few exceptions to the larger tumultuous rivers flowing into Georgian Bay and Lake Superior, and larger rivers and lakes of Southern Ontario where successful planting has been indicated.

Approximately 32,200 fingerlings and 4,000 yearlings were planted during the year.

(b) Kamloops Trout:

The monthly bulletin of the Department, February, 1946, vol. 1, No. 4, contains a detailed account of the life history, culture, and planting of Kamloops trout in provincial waters. As mentioned in the Annual Report 1943-44, many of our domesticated adult stock of Kamloops trout have not spawned satisfactorily within recent years. Consequently, until eggs can be secured from the stock that is being reared at Chatsworth Trout Rearing Station, the distribution of this species will be limited. Notwithstanding this difficulty, a distribution of 7,200 yearlings was carried out this year; this is a 44 per cent increase over plantings of the preceding year.

Lake Trout:

The collection of lake trout eggs in the fall of 1943 was 20 per cent lower than that of the fall of 1942. This was reflected in the distribution in 1944 which was 21 per cent lower than that of 1943. In addition to this distribution, 44,000 yearling lake trout were planted.

Steps are being taken by the Department to ascertain the factors responsible for the decline, with a view to providing a remedy.

Atlantic Salmon:

"Nearly 30,000 salmon of Miramichi stock obtained from the Dominion Department of Fisheries, hatched at Glenora, and fed at the Waring Creek Rearing Station for about 34 days, were planted on June 20, 21 and 22, 1944, in Duffin Creek above Pickering by the Ontario Department of Game and Fisheries with the co-

operation of members of the staff of the Ontario Fisheries Research Laboratory. The plan followed was based upon the experience of the Fisheries Research Board on the Petitcodiac River, N. B., and involved distributing the fish along the streams of the system in numbers related to estimated holding capacity for yearlings. A total of 54,890 yards were planted. Neither the large, lowest waters nor for the most part the small uppermost waters were included, but the distribution covered a large part of the two main branches of the system and their tributary streams.

Hand-seinings (one man) made by myself in July, August and September, and by Dr. Huntsman in October, by which time the fish were from 5.7 cm. (2.2 in.) long in the coldest water to 11 cm. (4.3 in.) in the better waters, showed that some salmon survived in all the tributaries and in the upper parts of the two main streams, but in only two places were they found elsewhere. Most were in cool clear waters with constant, moderate flow, which were apt to be noted for trout. Some correlation is seen between disappearance of salmon (from the main stream) and heavy floods with very much sediment, which alter the stream bed, forcing the fish to shift their locations, and reducing the available food supply. Also salmon survival seems correlated with few minnows and rainbow darters. The salmon were found as a rule in from 6 to 12 inches of water, at somewhat intermediate temperatures, over clean, coarse gravel, or in relation to such cover as stones, boulders, etc. and in partial shade rather than dense woods or open to full sky. By mid-October, from none to nearly a third of the number planted were found in various parts of the streams examined, but the proportion of those present that would be caught in the seining was unknown." (D. M. Britton).

Whitefish:

The distribution of whitefish was 30 per cent less than that of the preceding year.

The collection of whitefish eggs in the fall of 1943 was 23 per cent less than the collection in 1942. This decrease was noticeable on all the spawning areas where collections were made. Likewise the distribution of whitefish in 1944 was 30 per cent less than that of 1943.

Herring:

The total collection of herring spawn and the percentage fertility of the eggs taken varies considerably from year to year. It is probable, although there is no documented evidence that can be cited as proof, that in both cases weather conditions may be largely responsible.

The collection made in the fall of 1943 was somewhat smaller than that of 1942, and the loss due to infertility was very much higher. Consequently, the distribution in 1944 was considerably less than that of 1943.

Yellow Pickerel:

The number of yellow pickerel eyed eggs and fry planted this year was substantially the same as last year, namely, a 2.8 per cent increase in 1944 over that of 1943.

Small-mouth Black Bass:

The number of small-mouth black bass fry planted was greatly in excess of that of the preceding year, namely a 300 per cent increase. The production of

fingerlings was increased by 69 per cent. There was also a substantial increase in the number of yearling and adult bass planted.

Large-mouth Black Bass:

As formerly, one pond was operated for the propagation of large-mouth black bass; the production being 130,000 fry and 14,600 fingerlings.

Perch:

The production of perch fry was approximately the same as that of the preceding year.

Maskinonge:

The distribution of maskinonge fry and fingerlings was 130 per cent and 37 per cent higher, respectively, than in 1943.

CLOSED WATERS

In addition to the waters already closed for the natural protection and propagation of fish the following were closed during the period April 1, 1944 and March 31, 1945.

ADAM LAKE

Located in unorganized territory north of Clay Lake, and between Fluke Lake and Segise Lake, District of Kenora.

BENORIS LAKE

Located on Lot 25, Concessions 8, 9 and 10, Township of Harcourt, District of Haliburton.

FISHTAIL LAKE

Located on Lots 10 and 15, Concessions 8 and 9, Township of Harcourt, District of Haliburton.

HARVEY or NOGIES CREEK (Part)

Located on Lot 10, Concession 2, Township of Galway and Lot 28, Concession 17, Township of Harvey, County of Peterborough.

KINGSCOTE LAKE

Located in the Township of Harcourt, District of Haliburton.

MASKINONGE CREEK flowing from Maskinonge Lake; Little Vermillion Lake, (Part) and Maskinonge Lake (Part)

Located on Lot 12, Concession 5, and Lot 8, Concession 6, respectively, Township of Pickerel, District of Kenora.

McMILLAN CREEK

Located on Lot 33, Concession 6; Lot 34, Concession 6; Lot 25, Concession 6, Township of McKillop, Lot 1, Concession 6; Lot 2, Concession 6; Lots 2, 3, 4, 5, 6, 7, Concession 5, and Lot 7, Concession 4, Township of Hullett, County of Huron.

NASH'S CREEK or HOASIE'S CREEK

Located on Lots 26 and 27, Concession 1, Township of Williamsburg.

County of Dundas.

SILVER CREEK

Located on Lot 22, Concession 2; Lot 21, Concession 2; W.H. Lot 21, Concession 1, Lot 22, Concession 1, Lot 23, Concession 1, Township of McKillop, and Lot 9, Concession 1, Township of Tuckersmith, County of Huron.

Part of Little Thessalon or Bridgland River located between what is known as **RESERVE DAM** and **McCREIGHT'S DAM**, both in Township of Kirkwood, Algoma District.

BIOLOGICAL SURVEYS

Biological surveys were conducted on —
Twelve Mile Creek, Lincoln County;
Welland River and Canal, Welland County;
Walker's Pond, Middlesex County, and
Belwood Lake, Wellington County.

The Grand River was examined near Dunnville regarding the need for fishways in order that pickerel might have access to the reaches of the river above the dams at Dunnville.

Streams in the vicinity of Caledon were studied as to their possibilities as hatchery sites.

The following waters were examined for evidence of pollution and for other causes of fish mortality.

1. River between Sturgeon Lake and Pigeon Lake at Bobcaygeon.
Pollution by domestic sewage evident, but it had no noticeable effect on fish life.
2. Beardmore Creek at Acton — Tannery wastes.
3. Duffin's Creek near Pickering — Treated domestic sewage.
4. Sandy Lake, Peterborough County — Some fish mortality but the cause was not determined.
5. Grand River near Kitchener — Domestic and trade wastes.
6. Nith River near New Hamburg — Domestic Sewage.
7. Lake Ontario off Peel and Halton Counties — Persistent oil slick on the water in this area.

The Ontario Fisheries Research Laboratory of the Department of Zoology, University of Toronto continued the studies of fisheries in the Provincial parks and other waters of the Province. Financial assistance and cooperation making this work possible was received from the Ontario Department of Game and Fisheries, the National Committee on Fish Culture, the University of Toronto, and for work within the parks, the Ontario Department of Lands and Forests.

STOCKING, LAKE CLOSURE and CREEL CENSUS

The experimental stocking of selected lakes in Algonquin Park and the practice of alternate annual closure of Lakes were continued as in previous years as experiments in fish culture directed toward building up a good stock of both lake trout and speckled trout. The creel census was carried out in order to determine the efficacy of these two procedures.

Biological studies have been initiated in Lake Superior Provincial Park, Sibley Provincial Park and Quetico Provincial Park, in all of which the creel census has been used as a means of determining the present availability of stock of game fishes. More intensive biological studies have been carried out on the lakes and streams of both Quetico and Sibley Parks as a basis for a management policy to improve the game fishery.

Meetings of the Ontario and New York State fisheries biologists were held on two occasions during the year at Kingston, Ontario, for the purpose of planning studies on lake Ontario. Arising out of these conferences investigations of the plankton production, small-mouth black bass and whitefish were undertaken. The bass of the upper St. Lawrence river and adjacent Ontario waters were tagged in order to determine their movements throughout the year.

A special study of the whitefish was carried out to compare the effectiveness of natural reproduction with that of hatchery produced fry. In order to accomplish this, the hatchery raised fry are to be planted in alternate years and an analysis of the year class composition of fish in the commercial catch is to be carried out continuously so that the year class of whitefish arising from natural spawning only, and natural spawning supplemented by hatcheries may be measured.

In conjunction with this investigation the Ontario Department of Game and Fisheries have greatly improved the method of collecting statistics of catch from the commercial fishermen which constitutes an essential adjunct to the successful implementation of this research.

In view of the fact that the Atlantic salmon were formerly abundant in Lake Ontario and tributary streams where they are now completely lacking, an investigation has been undertaken in cooperation with the Ontario and Federal Departments of Fisheries to determine whether or not it may be possible to introduce this valuable species. This investigation includes, also, an analysis of the distribution of planted salmon fry and fingerlings along the course of Duffin Creek where the experiment is being carried out to determine conditions within the stream favourable or unfavourable for the planted fry.

The techniques and results of this study may be of the greatest importance as having a direct bearing upon the general practice of planting fry and fingerlings of any species in the waters of the Province.

Closely integrated with this investigation, studies are being made on the effect which sedimentation in the stream has upon invertebrate life constituting the food of the fishes living there.

ACKNOWLEDGEMENTS

In conclusion I desire to express general satisfaction with the services rendered by the various members of the Departmental staff, both in the Main Office and in the Field. They performed their duties in a conscientious manner, and were generally courteous in their contacts with the public with whom they had any dealing.

Local Fish and Game Protective Associations and the Northern Ontario Tourist Trade Association, as well as their various officers, have cooperated with the Department in our efforts to secure strict observance of the legislation provided for the protection of fish and game in the Province and in our work to further extend and develop conditions favourable to the possible improvement of the wild-life division of our natural resources, and it would be extremely difficult to estimate the value of the results of this co-operation. It is superfluous to add that this assistance has somewhat relieved the burdens of administration and it is very deeply appreciated.

Many other organizations and individuals have assisted with desirable advice and suggestions, and the efforts put forth by Municipal Councils and Controlling Organizations in the Townships included in the scheme of Regulated Game Preserve Areas have been of considerable advantage and benefit in bringing to this scheme the success it at present enjoys.

All of which is respectfully submitted.

I am, Sir,

Your obedient servant,

D. J. Taylor
Deputy Minister of Game and Fisheries

APPENDIX NO. 1

SPECIES AND QUANTITIES OF FISH PLANTED IN PROVINCIAL WATERS
April 1, 1944, to March 31, 1945.

LARGE-MOUTHED BLACK BASS		Dundas	10,000

---------------	----

TO THE HONOURABLE
THE LIEUTENANT-GOVERNOR
OF THE PROVINCE OF ONTARIO

May It Please Your Honour:

The undersigned has the honour to present to Your Honour the twenty-sixth Report of the Department of Labour of the Province of Ontario for the fiscal year ending March 31, 1945.

Respectfully submitted,

CHARLES DALEY,
Minister of Labour.

REPORT OF THE DEPUTY MINISTER OF LABOUR

For the Fiscal Year Ending March 31, 1945.

TO THE HON. CHARLES DALEY,
MINISTER OF LABOUR.

SIR:

I have the honour to submit a report on the work of the Department of Labour of Ontario for the fiscal year ending March 31, 1945.

Included herein are reports on the administration of the following Acts within the jurisdiction of the Minister of Labour: Factory, Shop and Office Building Act; Operating Engineers Act; Steam Boiler Act; Labour Relations Board Act, 1944; Hours of Work and Vacations with Pay Act, 1944; Industrial Standards Act; Apprenticeship Act; Minimum Wage Act, as well as reports of the conciliation service of the Department of Labour and the Ontario Regional War Labour Board. The report of the Workmen's Compensation Board will be submitted by the Chairman of the Board.

LEGISLATION

One labour act was passed at the first session of the Legislature of Ontario, 1945. THE WORKMEN'S COMPENSATION AMENDMENT ACT, 1945: An amendment to The Workmen's Compensation Act in 1944 added a subsection 6 to section 8 of the Act making provision for the protection of employers and certain workmen in case of action brought for accident by third parties. The 1945 amendment to the Act repealed and re-enacted this subsection 6 in order to cover adequately every situation that might arise in this connection. By this amendment the present authority to arrange for the payment of superannuation allowances to employees of the Board was extended to include the commissioners. Certain sections of the Act relating to regulations were also amended in order to bring them into line with The Regulations Act, 1944.

INDUSTRIAL CONDITIONS

A slight decline was indicated in the wartime industrial activity in Ontario for the fiscal year ending March 31, 1945. The annual index number of employment, as recorded by the Dominion Bureau of Statistics, based on the 1926 average as 100, stood at 184.6 as compared with 185.3 for 1944, the highest point recorded for any year in this Province. At the close of the year under review the index number stood 1.3 points higher than at the beginning.

Manufacturing operations over the whole group showed considerable curtailment. The largest proportion of the loss was in the iron and steel industry, which, however, was at a high level with an index number of 302.4 as compared with 112.5 for the fiscal year 1940.

In the non-manufacturing group the greatest expansion was recorded in the logging industry, with more moderate gains in trade, communications, services and transportation, the extent of the gains being in the order named. Contractions in the volume of employment were reported in the construction and mining industries.

The value of building permits issued in Ontario for the fiscal year amounted to \$53,762,605, an increase of \$18,936,671 as compared with the preceding year.

STRIKES

During the fiscal year 1945 there were sixty-seven strikes reported in Ontario, in which 32,999 workers were involved in a time loss of 263,621 man-working days, as compared with ninety strikes involving 31,497 workers in a loss of 134,840 man-working days in 1944. The most serious strike as regards time loss was one which involved 13,346 workers in the manufacture

of motor vehicles and caused a loss of 228,000 man-working days, or eighty-six per cent of the total time loss due to strikes in the Province. Nine strikes in rubber products manufacturing caused a loss of 10,470 days.

Twenty-nine of the sixty-seven strikes were settled within the first day, fifty-nine lasted less than five days and sixty-five less than ten days. One strike which involved 13,346 workers lasted eighteen days, and one involving fifteen workers lasted twenty-four days.

In twenty-three of the sixty-seven strikes fewer than fifty workers were involved, in twenty-nine fewer than 100 workers and in fifty-three fewer than 500 workers were involved.

Classification according to time loss shows that eighteen strikes caused a loss of less than fifty man-working days, twenty-five less than 100 days, forty-eight less than 500 days, fifty-seven less than 1,000 days, sixty-six less than 6,000 and one strike caused a loss of 228,000 man-working days.

Further details regarding strikes will be found on pages 58 to 67 of this Report.

CONCILIATION AND ARBITRATION

During the fiscal year conciliation officers of the Department of Labour were successful in bringing about satisfactory agreement in twenty-one cases of disputes, and also acted as arbitrators in forty-nine cases involving 200 grievances, which had passed through the various stages without agreement.

These officers acted as returning-officers in sixty-four plant elections for the Ontario Labour Relations Board, eight for the National Labour Relations Board, six for the Labour Court, and conducted twenty-five consent votes at the request of the parties concerned. The number of employees affected by these elections totalled 26,716. The results of the sixty-four cases were reported to the Ontario Labour Relations Board and the Board dealt with the matter thereafter.

The conciliation officers investigated thirty-six cases of application for certification for the Ontario Labour Relations Board and two for the National Labour Relations Board. They also undertook 412 investigations into wage schedules in plants in all parts of the Province for the Regional War Labour Board and five for the Industry and Labour Board.

FACTORY INSPECTION BRANCH

For the first time since the beginning of the war the number of industrial accidents reported to the Factory Inspection Branch showed a decrease as compared with the previous year. The increases ranged from eighty-three per cent in 1941 to fourteen per cent in 1944, and in 1945 there was a decrease of 266 in the total. While this decrease is only a small percentage, it represents a sharp check in the trend. There was also a decrease of six in the number of fatalities.

During the year 735 plans for factory, shop and office buildings having a total value of \$17,607,685 were approved in the Factory Inspection Branch, as compared with 714 plans having a value of \$20,394,800 in 1944. The metals group of industries ranked first and the food group second in both numbers and value of construction projects undertaken. The value of the proposed buildings in the food group was double that of any year since the war began and the combined value of these two groups was slightly over fifty per cent of the total value for all groups.

The Examiner of Reports and Designs made 126 field inspections to investigate special hazards reported by the factory inspectors and to facilitate the approval of building plans, and held 635 office interviews with architects, owners and employers to discuss approval of plans and to ensure that plans included adequate provisions against hazards peculiar to the industries concerned before their final approval.

BOARD OF EXAMINERS OF OPERATING ENGINEERS

The Board of Examiners of Operating Engineers issued 17,498 certificates of all grades during the year, 16,151 of which were renewal certificates, 1,037 were issued on examination, twenty were provisional, twenty-five duplicate and 265 were plant registration certificates.

Candidates examined by the Board totalled 2,093, of whom 916 were examined at the Toronto office and 1,177 at other centres throughout the Province where fifty-three examination sessions were arranged for the convenience of the candidates. The inspector of the Branch made 517 inspections and 195 violations were reported and dealt with by the Board during the year. The shortage of certificated engineers created a decided problem in connection with the administration of the Act and regulations. The net revenue of the Branch amounted to \$31,184.85 for the year.

BOILER INSPECTION BRANCH

The Steam Boiler Act requires that all steam boilers and other pressure vessels intended for use in this Province be constructed according to designs and specifications which have been surveyed and registered in the Boiler Inspection Branch, and be inspected during construction by inspectors of this Branch.

The number of such designs surveyed, registered and re-registered during the fiscal year totalled 459, as compared with 372 the previous year. New boilers and pressure vessels inspected during construction numbered 1,935, and 883 used boilers and other pressure vessels being extensively repaired, sold or exchanged were inspected, receiving 3,217 second and final inspections. As required by The Factory, Shop and Office Building Act, 6,319 annual inspections were made of uninsured boilers and pressure vessels, as compared with 6,209 in 1944. The number of certificates issued by the Branch totalled 6,066. A total of \$42,628.75 was transmitted to the Treasurer of Ontario, revenue from the Boiler Inspection Branch.

INDUSTRY AND LABOUR BOARD

The Industry and Labour Board administers The Hours of Work and Vacations with Pay Act, 1944, The Industrial Standards Act, The Apprenticeship Act and The Minimum Wage Act.

HOURS OF WORK AND VACATIONS WITH PAY ACT: This Act became effective July 1, 1944, and regulations pursuant to the Act were approved July 11, 1944. The Act requires that regular working hours for employees in industrial undertakings shall be not more than eight per day and forty-eight per week, and that employees shall be given a minimum of one week's vacation with pay each year of employment.

Because of the shortage of labour and the necessity of peak production in essential war industries, postponement of the application of the Act in the matter of working hours was provided for such war industries. This postponement ruling was later amended to require the forty-eight-hour limit for regular working hours and to permit such overtime hours of work as might be necessary in order to maintain necessary production on war contracts. Postponements will be withdrawn just as soon as decreasing war demands and an increasing labour supply make it possible. No postponements in regard to vacations with pay were granted.

The regulations provide that the minimum vacation pay shall be two per cent of total earnings. Due to the intermittent nature of employment in the construction industry, provision was made for each employer in the industry to contribute his share of vacation pay of his employees through the use of stamp books and vacation pay credit stamps. After June 30 each year employees are entitled to receive the cash equivalent of the stamps contained in their stamp books, amounting to two per cent of their total earnings from their various employers over the period.

INDUSTRIAL STANDARDS ACT: The schedules of wages and hours and days of labour in effect in the Province pursuant to The Industrial Standards Act numbered 102 at the close of the fiscal year. Fifty-nine of these schedules apply to the barbering industry in zones covering 105 municipalities; thirty-two cover various building trades and the remaining eleven apply to baking industry in Ottawa; coal, coal hoisting, gasoline service, jewellery, soft furniture and the taxicab industry in Toronto; brewing, hard furniture, ladies' cloak and suit and men's and boys' clothing for the whole Province.

The sum of \$1,504.71 was collected from nine employers as arrears of wages of eleven employees and a total of \$504.71 was paid by eight employers direct to ten employees.

APPRENTICESHIP ACT: Greater interest in apprenticeship was evidenced during the year, resulting in an increase in both the numbers of registrations and the numbers of apprentices attending trade training classes. A total of 516 apprentices registered, as compared with 328 the previous year; nineteen contracts were cancelled; twenty-nine were completed and 815 apprentices were receiving training at the close of the year, as compared with 601 the previous year. The increase of 188 in the numbers registered were divided as follows:—eighty-seven in the building industry, seventy-nine in the motor vehicle repair trade, and twenty-two in hairdressing. A total of 264 apprentices in the building industry, or more than double the number of the previous year, attended school classes for periods of two months. These classes were held from January to the end of April.

Under an amendment of 1944 to The Apprenticeship Act, the regulations for the motor vehicle repair trade were amended so that only apprentices and certificated mechanics may now be employed in the repair of motor vehicles, with certain exceptions for minor repairs, adjustments and services.

The Apprenticeship Branch undertook the responsibility of rating, placing and supervising discharged members of the armed forces entering trades designated under The Apprenticeship Act, and the facilities and experience of the Branch were utilized in organizing a system to handle this part of the work of rehabilitation.

MINIMUM WAGE ACT: Wage sheets were collected from 21,404 employers by the Minimum Wage Branch during the year. The number of employees reported by these firms totalled 682,836, of whom 243,234 were female employees, the largest number ever reported and almost double the number reported in 1940.

Improved conditions in the matter of wages resulted in fewer complaints and fewer wage adjustments. Increases in wage rates were ordered for thirty-six employees in twenty-four establishments, as compared with seventy-four employees in fifty-eight establishments in 1944, and arrears of wages amounting to \$123.13 were collected from three employers on behalf of three employees.

REGIONAL WAR LABOUR BOARD

The volume of work of the Regional War Labour Board continued unabated, and 8,846 cases were considered during the year, making a total of 24,729 since the inception of the Board.

The Board has been greatly assisted by the co-operation of both industry and labour in furthering the main purpose of price and wage control, namely, to keep down inflation and guard against any undue rise in the cost of living.

The Minister of Labour is the Chairman of the Board, the Deputy Minister is Vice-Chairman, and the members consist of three representing labour and three representing employers.

IN MEMORIAM

The Province of Ontario suffered a great loss in the death on November 11, 1945, of a valued public servant, Mr. J. F. Marsh, who had been Deputy Minister of Labour since August 1934.

Mr. Marsh came to the Department with a broad experience in labour matters and a reputation for his sympathetic understanding and sound judgment in labour problems which had won for him the confidence of both management and labour. He had been connected with the building and construction industry, and for many years was business agent and general representative in Ontario of the United Brotherhood of Carpenters and Joiners of America. He had a keen interest in the establishment of a proper system of apprenticeship in the trades, and in 1928 was appointed by the Premier as a charter member of the first Advisory Apprenticeship Committee, which was largely responsible for formulating the policy and for the development of the present apprenticeship system in Ontario.

The conciliation service was set up in the Department shortly after Mr. Marsh became Deputy Minister, and under his guidance this service became an important factor in the improve-

ment of industrial relations in the Province. When the Ontario Regional War Labour Board was established he was appointed by the Minister of Labour as Vice-Chairman of the Board. In this capacity his tact and fair-minded dealings with both employers and workers assisted greatly in bringing about satisfactory decisions.

During Mr. Marsh's tenure of office as Deputy Minister, the various branches of the Department of Labour increased their activities, and several boards were established in order to keep pace with the increasing demands being made on the Department and to render to the Province the most efficient service possible.

It is with regret that the deaths are recorded of three other valued officials of the Department since the last Report.

On January 28, 1945, Mr. W. C. Ferris died at his home in Toronto. Mr. Ferris had been connected with the Department for over twenty years, first as superintendent of the Cobalt office of the Employment Service of Canada and later as factory inspector, and had won the respect of employers and workers in the districts in which his duties lay.

Mr. E. W. A. O'Dell, a pioneer leader of organized labour and member of the Hamilton and District Trades and Labour Council, was for more than eleven years senior investigator for the Minimum Wage Branch of the Department. He died at his home in Hamilton, August 22, 1945.

Mr. Edward Coons died in Toronto, September 16, 1945. He had been prominent in labour circles in the Dundas and Hamilton districts for many years and had served the Department of Labour for a year as member of the Industry and Labour Board.

This Report was prepared under the direction of the Deputy Minister, Mr. Marsh. He had read and approved it with certain suggestions for changes to provide fuller information. These changes have been made and the Report is respectfully submitted.

CHARLES DALEY,
Minister of Labour.

FACTORY INSPECTION BRANCH

CHIEF INSPECTOR, DEPARTMENT OF LABOUR—J. R. PRAIN

EXAMINER OF REPORTS AND DESIGNS—C. G. GIBSON

The fifty-ninth report of the Factory Inspection Branch covers the fiscal year ending March 31, 1945. Employment as reported by the factory inspectors continued almost on a par with that of 1944, there being a reduction in the number of male employees reported and an increase in the number of female employees.

INDUSTRIAL HAZARDS

Each year since the beginning of the war the numbers of industrial accidents showed increases over the preceding year ranging from eighty-three per cent in 1941 to fourteen per cent in 1944. For the fiscal year 1945 there was a decrease of 266 in the number of accidents and six in the number of fatalities.

A determined effort was made to prevent scalping accidents which had been increasing to an alarming extent during the last few years. The 1944 amendment to The Factory Act made the wearing of safe hair covering compulsory for all female employees in industry and, while resentment has been shown by a number of women, compliance has been quite general, and it is gratifying to report that since this amended law became effective on June 5, 1944, accidents of this nature have been reduced to almost zero. The improvement has been brought about mainly by educational methods on the part of the inspectorate, coupled with co-operation from industrial management, and the realization on the part of the women that head injuries of this type, major or minor, mean permanent disfigurement.

Foot injuries still continue to be numerous and many of these could be prevented by the use of safe footwear. Strains caused by too heavy lifts and improper methods of lifting, and frequently resulting in hernia, have been on the increase. The dangers of unsafe practices in connection with lifting cannot be over emphasized.

The number of accidents reported, 16,344, include 510 cases of industrial disease. The Industrial Hygiene Division of the Department of Health increased its activity in the field of prevention and our appreciation is again extended for the assistance rendered in this respect.

CHILD LABOUR

It is regrettable that child labour increased during the year, the records showing 132 more violations than in 1944. The law on this point is quite clear. A child is defined in The Factory Act as a person under fourteen years of age, and the employment of children is prohibited in a factory, shop, bakeshop, restaurant, office building, bowling alley, pool room and billiard parlour. Prosecutions for violation were entered against twenty-eight firms, totalling eighty-six separate charges.

SPECIAL AUTHORITIES

Continuation of special authorities was necessary to allow multiple shifts for female workers, covering the twenty-four hour period, but there was a marked reduction in the applications for this purpose.

	Shifts	Number of firms	Number of female employees affected
2	8-hour	3	75
2	9-hour	3	1,831
2	10-hour	31	2,443
3	8-hour	20.....	1,488
	Totals	57	5,837

RESTAURANTS

Eighty-three permits were issued under section 29 of the Act to enable female employees over eighteen years of age to be employed to an hour not later than 2 A.M., but under no circumstances were the regular working hours allowable by law to be exceeded. Every request received for permission to employ female workers on an all night shift in restaurants was refused. This does not apply, however, to industrial cafeterias in plants on direct war work, and authorities were granted in three instances for the employment of female help in cafeterias within the plant during the hours of operation in the factory. In 1944 similar authorities numbered twenty-six.

HOMEWORK

During the year 1,019 permits were issued for homeworkers, making a total of 7,450 permits in the Province, and forty permits to give out homework were issued, making a total of 441 firms holding permits. The prices paid for this work were approved by the Minimum Wage Branch, in order to prevent abuses in the matter of wages.

GENERAL

Peak activity in the enforcement of The Factory, Shop and Office Building Act continued and the inspectors were frequently called upon to carry on investigations to a late hour at night.

During the winter the usual one-week conference of inspectors was held, and opportunity afforded for discussion of the many problems confronting inspectors in the field. These meetings were of great value.

It is with regret that the death of Mr. W. C. Ferris is reported. Mr. Ferris was a valued member of the inspection staff for many years and was respected by both employers and employees in his district. The vacancy on the staff was filled by the appointment of Mr. A. R. Grass.

PLANS FOR BUILDINGS

The Examiner of Reports and Designs reported that 735 plans for factory, shop and office buildings were approved during the fiscal year. The total value of this construction amounted to \$17,607,685. During the previous fiscal year, twenty-one fewer approvals had been given to projects with an estimated cost of \$20,394,800.

The following table has been prepared to show the value and number of construction projects undertaken by the various industries and trades in Ontario.

CLASSIFICATION OF APPROVED BUILDING PLANS

Trade or Industry	Number of Plans	Value of Buildings	Percentage of Total Value
Bakeshops.....	12	\$ 108,400	.62
Chemicals.....	69	1,576,800	8.95
Clay, glass and stone.....	13	173,275	.98
Clothing.....	24	158,900	.90
Conveyances.....	40	1,441,370	8.19
Food.....	82	3,411,500	19.35
Garages.....	27	340,500	1.96
Laundries, cleaners.....	13	58,300	.33
Leather.....	4	59,300	.33
Lumber.....	4	55,000	.31
Metals.....	229	5,494,540	31.20
Offices.....	23	693,850	3.94
Paper trades.....	20	863,300	4.90
Printing and publishing.....	16	398,600	2.26
Rubber.....	22	744,400	4.22
Shops.....	14	145,700	.83
Textiles.....	21	168,500	.96
Warehouses.....	62	1,310,200	7.47
Wholesale.....	7	160,100	.91
Woodworking.....	26	110,450	.63
Unclassified.....	7	134,700	.76
TOTAL.....	735	\$17,607,685	100.00

The metals group of industries led all others with 229 plan approvals of buildings valued at almost five and one-half million dollars. Slightly over thirty-one per cent of the number and value of all industrial construction was undertaken by the metal trades. The largest single project was a large iron foundry in Brantford in which the most modern methods of mechanized production and dust control will be followed. The second largest metal plant expansion was a hot strip steel mill in Hamilton.

The food industry ranked second both in number and value of expansions. A soy-bean processing mill with storage elevators and which will require the use of hexane gas was one of the outstanding units in this group. The growing necessity of increasing food shipments to Europe for liberated countries required expansions by several of the larger food and meat packing factories. The total value of \$3,411,500 was double that of any year since the war began. Many cold storage buildings were erected chiefly for storage lockers, but also by farmers' co-operatives who realize that better prices can be obtained by selling when their produce is out of season.

Sixty-nine approvals were given to buildings involving chemical processes, very few of which are not directly convertible to peace-time use. When examining plans, a full description of the processes is always obtained in order that the health and safety hazards can be studied and the requisite recommendations made to minimize potential hazards. Over one-half of Canada's chemical plants are located in this Province.

In the conveyances group, one aircraft plant completed a major building programme during the early months of this fiscal year. The automotive factories exceeded the aircraft factories in value of building additions.

The relaxation of some controls by the Dominion Controller of Construction has resulted in fewer reports being furnished to his officers by this Branch. These special reports covered

the necessity of improvements being made to factory buildings and equipment in order to protect the safety, health and welfare of employees.

One hundred and twenty-six field inspections were made by the Examiner of Reports and Designs to investigate special hazards reported by the inspectors and to facilitate the approval of building plans. Included among the hazards were floor overloadings, insufficient exits, poor ventilation, dangerous processes and faulty elevators. One warehouse collapsed due to the overloading of floors with a government-owned supply of a surplus commodity. Fortunately the several employees in the building were given sufficient warning to leave it in safety. Permission has been refused for the re-use of the damaged sections of the building until the Department has received satisfactory proof that the proposed repairs will make the structure safe. Many orders were issued to owners during the year to limit floor loads to those specified by the Department, registered engineers or architects. The vigilance of the district inspectors in reporting suspected excessive floor loadings has been of the utmost importance in this work. Several premises were condemned for any further use for commercial or industrial purposes.

A total of 635 office interviews with architects, owners and employers were held to discuss the approval of building plans and also the control of special hazards inherent in their equipment. This number represents an increase of twenty-five over last year's total of 610 interviews and was exceeded only by twenty-five interviews in the peak fiscal year 1942.

One firm was prosecuted for failure to submit satisfactory plans before proceeding with construction of a factory building. However, the sending of 219 letters to notify owners of their obligation to submit drawings was an important factor in keeping prosecutions to this low figure.

During the last half of the year, increasing numbers of drawings for postwar projects were submitted by designers for preliminary discussion and approval. The latter practice has been always encouraged as it leads to better final drawings of those items which benefit the safety, health and welfare of employees.

Considerable time has been devoted to the preparation of amendments to the fire escape regulations and these will be adopted in the near future.

INSPECTION STATISTICS

The following is the distribution of the services rendered by the inspectors of the Composite Inspection Branch:

FACTORY INSPECTION BRANCH:	1944	1945		
First inspections.....	16,027	15,359		
Second inspections.....	4,889	4,031		
Visits re fruit camps.....	47	43		
	20,963	19,433		
Apprenticeship Branch.....	1,585	1,377		
Industrial Standards Branch.....	345	266		
Main Office.....	244	740		
Minimum Wage Branch.....	318	406		
Operating Engineers Branch.....	119	146		
Steam Boiler Branch.....	2,292	2,246		
	4,903	5,181		
TOTALS.....	25,866	24,614		

In addition there were investigations of accidents and the usual visits, office calls and conferences incidental to inspections.

The number of orders issued relating to various requirements of The Factory, Shop and Office Building Act totalled 14,282 as compared with 16,293 during the previous year.

Employees in the above visited industries, mercantile establishments and office buildings numbered 720,008, classified as follows:

Fiscal years	Males over 16	Males 14-16	Females over 18	Females 14-18	Totals	Children under 14 dismissed
1944	486,617	6,012	247,525	7,298	747,452	312
1945	449,368	5,483	259,212	5,945	720,008	444

These figures show a decrease in the number of males employed in the industries visited and a slight increase in the number of adult females employed.

WEEKLY HOURS OF LABOUR

Male Employees

Hours	Up to 49	50 to 53	54 to 57	58 and 59	60 and over	Totals
Firms 1944	4,599	1,515	2,156	148	3,252	11,670
Firms 1945	5,477	2,923	1,759	400	1,244	11,803
Employees 1944	254,507	79,202	81,323	13,555	38,516	467,103
Employees 1945	201,502	160,132	36,593	14,583	23,062	435,872

Female Employees

Hours	Up to 49	50 to 53	54 to 57	58 and 59	60 and over	Totals
Firms 1944	5,683	978	626	106	123	7,516
Firms 1945	6,382	2,051	387	135	140	9,095
Employees 1944	151,135	48,570	31,998	5,913	7,828	245,444
Employees 1945	143,681	77,312	17,225	6,458	10,079	254,755

Total Employees

Hours	Up to 49	50 to 53	54 to 57	58 and 59	60 and over	Totals
1944	405,642	127,772	113,321	19,468	46,344	712,547
1945	345,183	237,444	53,818	21,041	33,141	690,627

Also 29,381 employees, male and female, employed by 1,119 firms were working approximately fifty hours per week.

**Overtime Permits, Employment of Females until 9 p.m.
Section 30 of The Factory, Shop and Office Building Act**

Fiscal Years	1943	1944	1945
Number of firms using permits.....	775	545	509
Number of permits issued.....	2,569	2,079	1,634
Number of nights worked.....	15,892	12,497	10,516
Number of females employed overtime.....	12,858	24,267	14,898

**Double Shift Permits, Employment of Females between 6 a.m. and 11 p.m.
Section 31 of The Factory, Shop and Office Building Act**

Fiscal Years	1943	1944	1945
Number of firms using permits.....	135	116	93
Number of permits issued.....	251	215	193

**Special Authorities granted for Employment of Females
on Multiple Shifts beyond the Limitations of Sections
30 and 31 of The Factory, Shop and Office Building Act**

Fiscal Years	1943			1944			1945			
	Shifts	Firms	Employees		Firms	Employees		Firms	Employees	
			Male	Female		Male	Female		Male	Female
2 8-hour shifts..	14	7,368	1,387	11	1,744	1,637	3	88	75	
2 9-hour shifts..	16	2,542	1,967	19	5,101	2,289	3	3,953	1,831	
2 10-hour shifts..	94	35,555	13,020	65	20,436	7,854	31	3,900	2,443	
3 8-hour shifts..	63	32,891	8,752	45	24,944	6,242	20	5,450	1,488	
Totals.....	187	78,356	25,126	140	52,225	18,022	57	13,391	5,837	

Note: Some of the above authorities were issued to continue during the wartime emergency.

VIOLATIONS

Violations of the acts in the enforcement of which the inspectors have a responsibility were reported as follows:

	1944	1945
Adolescent School Attendance Act.....	197	119
Minimum Wage Act.....	1,872	2,347
Operating Engineers Act.....	351	194
Steam Boiler Act.....	4	19
Totals.....	2,424	2,679

Violations of The Minimum Wage Act were chiefly cases of carelessness on the part of employers in neglecting to keep minimum wage cards posted in their establishments.

PROSECUTIONS

Proceedings were taken against forty-two firms for violations of The Factory, Shop and Office Building Act in connection with which 100 separate charges were laid. Convictions were recorded in thirteen cases under section 29; one case under section 13; and fifty-seven convictions, twenty-seven cases withdrawn and two cases dismissed under section 24.

	Con- victions	With- drawn	Dis- missed
Hours for youths, young girls and women—Section 29.....	13	—	—
Submitting of plans—Section 13.....	1	—	—
Child labour—Section 24.....	57	27	2
Totals.....	71	27	2

EXPLOSIONS

One hundred and fifty-five explosions were reported during the year, four of which took place towards the close of the previous fiscal year. Seventy-five of these explosions caused injuries to ninety-four employees, and injuries proved fatal to twelve employees.

Explosions causing injuries were as follows:

- February 4, 1944. Detonator exploded when press was being operated.
- March 7. Cupola was being tapped and, as hot metal struck the ladle, it exploded.
- March 20. Water poured on fire in container caused an explosion.
- March 29. There was an explosion when degreaser machine was being cleaned with caustic and water.
- April 8. When a crane was being driven in front of and above the furnaces, a furnace blew, causing hot liquid to fly on crane.
- April 20. Detonator in mould exploded when mould was being picked up.
- May 9. Employee put a match to a barrel of flavour concentrate which was being filled, causing an explosion.
- May 10. Bulb exploded.
- May 19. Dust exploded in rag duster.
- May 27. Lighting fire in oven, witness threw match in fire, and fire exploded.
- May 29. Mould exploded due to moisture.
- June 2. Solder pot exploded when valves were being regulated.
- June 3. Explosion in an adjoining building resulted in falling debris.
- June 12. When vacuum cleaner was being cleaned, motor started and an explosion took place.
- June 15. When press scrap was put in furnace it exploded.
- June 20. Employee reached to set mould straight and detonator exploded.
- June 29. When stuck detonator was being removed it exploded.
- June 30. When tar was being melted, cold layer touched hot layer causing explosion.
- July 8. Explosion caused by dust.
- July 11. Hot metal in hand ladle suddenly exploded.
- July 13. Furnace being charged with copper exploded.
- July 14. When full bottle was being removed from pasteurizer it exploded.
- July 19. Fuse exploded.
- July 24. Oil burner in foundry exploded.
- July 26. Slate in forge fire exploded when rivets were being heated.

EXPLOSIONS—(Continued)

- July 30 Furnace exploded.
- July 31 Furnace being charged with wet copper exploded.
- August 2 Mould being filled with hot metal exploded.
- August 7 When being charged furnace blew hot metal.
- August 17 Furnace exploded when employee was charging it with wet scrap.
- August 17 Tracer exploded.
- August 17 Furnace being skimmed with wet shovel blew up.
- August 22 Naphtha put on fire by mistake caused explosion.
- August 24 Metal ran down into mould when a skim-pot was being tapped and it exploded.
- August 26 When molten metal was being poured an employee dropped in a piece of cold casting to cool it, thus causing an explosion.
- August 28 Gas exploded in firebox.
- August 30 When employee was cleaning around mix piles, bottom of furnace shell burned out; molten slag contacted water duct and explosion occurred, blowing about two-thirds of slag and metal out top of furnace.
- August 30 Detonation in limestone spawl caused explosion in cupola.
- September 2 Furnace exploded when fuel was being thrown on.
- September 6 An employee skimming a pot of metal added a gate for cooling which must have been wet, thus causing an explosion.
- September 8 When employee was testing a sprue in a runner-box filled with hot iron, the sprue was apparently wet, and as the hot iron came in contact with sprue the iron exploded.
- September 8 When hot metal was being skimmed before being poured into mould particle exploded.
- September 11 Hot magnesium metal exploded when being poured.
- September 13 An explosion occurred when pipefitters, under supervision, were cracking coils removing valve from two-inch reflux line on No. 6 coil.
- September 13 Flame on heater had gone out and explosion occurred when employee tried to relight it.
- September 14 Piece of scrap put in furnace caused explosion.
- September 15 Explosion occurred when bonnet was being removed from three-inch discharge valve at ammonia pump.
- October 4 Hot metal being poured into cold die caused an explosion.
- October 16 Wet metal being thrown into core oven caused explosion.
- November 2 Ladle operator was pouring leavings into pit and explosion occurred when molten metal hit moisture.
- November 6 Fire and explosion occurred in oven in enamel and plastics department.
- November 8 Fire and explosion occurred when a quantity of high carbon manganese was being crushed in a ball mill.
- November 9 Operator struck drift with brass hammer, thus causing gunpowder to explode.
- November 13 While an automatic sawdust conveyer was being installed from the shavings vault to the dutch ovens, an explosion occurred.
- November 13 Wood flour used with regular fuel caused explosion in furnace, forcing furnace doors open and shooting flames into room.
- December 5 Over-sensitive detonator exploded.
- December 18 Wet mould caused explosion when small castings were being poured.
- December 20 A barrel of paint exploded when being emptied.
- December 26 Furnace exploded when being skimmed with wet shovel.
- January 8, 1945 Pipe filled with sand exploded while being heated in the forge during the bending process.

EXPLOSIONS—(Continued)

January 12	Leaking gas exploded.
January 17	Explosion occurred when residue of pulverized coal was being sprinkled with water.
January 17	When firing machine was being operated, one of the fuses failed to explode, and one extraction detonator fell from fuse and detonated.
January 17	While employee was removing detonator from press, detonator blew.
January 19	When cup of A.S.A. powder was being removed from mixer, powder detonated.
January 19	Powder fired when being scooped with copper scoop to fill bomb.
February 13	Explosion occurred when a filled bomb was being removed from funnel.
February 13	Hot metal exploded when employee started to pour billets into mould.
February 21	While being poured metal went on weight and exploded.
February 28	Mould of metal that had just been poured exploded.
March 2	While an employee was trying to find leak in propane gas meter with an air hose the meter exploded.
March 5	Metal in furnace exploded.
March 13	Explosion occurred when employee pouring a heat was about to move ladle to next mould.
March 19	Explosion occurred while employee was working between calender and post dip.
March 22	While metal top was being taken from the sealrite container of mix, an explosion occurred.

COMPLAINTS

Two hundred and one complaints were received during the fiscal year. Upon investigation, sufficient grounds for complaint were found in one hundred and twenty-one cases, insufficient grounds in sixty-seven cases and thirteen cases concerned matters not under the jurisdiction of the Factory Inspection Branch. Some investigations covered more than one complaint. Subjects of complaints were as follows:

	1944	1945
Adolescents	9	10
Child labour	45	31
Dust	12	5
Elevators	9	9
Fire hazards	12	13
Fumes	21	13
Guarding machinery	1	—
Lack of heat	6	7

BOARD OF EXAMINERS OF OPERATING ENGINEERS

CHAIRMAN: JOHN SHARP

MEMBERS OF THE BOARD: W. J. SCOTT, S. G. ROSE

The Board of Examiners of Operating Engineers presents the thirty-sixth annual report for the fiscal year ending March 31, 1945.

The statement of revenue attached hereto compares favourably with previous years, the net revenue of \$31,184.85 being an increase of \$262.54 over the fiscal year 1944. The sale of engineering text books issued by the Department shows an increase of twenty-nine per cent, which indicates that these books have a definite educational value for engineers writing the examinations. There was a decrease in the number of examinations conducted at the Toronto office and at other centres of examination, with a corresponding increase in the number of candidates who failed to pass. Enforcement of the Act has been carried out in a satisfactory manner and in conjunction with the National Selective Service Regulations.

The number of applications for examination reviewed by the Board was 843, of which eighty-one were rejected as not complying with the requirements of the Act. A total of 17,498 certificates was issued and does not include certificates maintained in good standing of engineers in the armed services. The number of plant registration certificates issued was 265.

There were 916 candidates who wrote examinations at the Toronto office and 1,177 who wrote at other centres in Ontario. The number of candidates who failed to obtain sufficient marks to pass was fifty-one per cent of the total. As the standard of examinations has not been raised, this increase in percentage of failures can be attributed to insufficient study and preparation on the part of the candidates.

To assist in the rehabilitation of men discharged from active service, an Order-in-Council was passed in April, 1945, which will permit men who have been honourably discharged from His Majesty's armed services to qualify for fourth class stationary engineers' examination upon completion of six months' operating time.

Enforcement of the regulations has been limited to the extent of certificated engineers available. The situation in this respect is improving gradually through the engineers being discharged from active service and resuming their positions held at the time of enlistment. One hundred and ninety-five violations were reported and acted upon for compliance with the Act and 517 inspections were made by the inspector of the Branch.

The Board of Examiners takes this opportunity to express its appreciation and to acknowledge with thanks the assistance given by the operating engineers in carrying out the provisions of The Operating Engineers Act.

BOILER INSPECTION BRANCH

CHIEF INSPECTOR, DEPARTMENT OF LABOUR: J. R. PRAIN

EXAMINER OF REPORTS AND DESIGNS: J. N. BRIGGS

SUMMARY OF WORK FOR FISCAL YEAR 1945

Drawings and Specifications Surveyed, Registered and Re-registered:		Designs
Boilers		67
Pressure vessels		311
Accessories		7
Pressure piping layouts		28
Ontario rulings		46
TOTAL		459
New Boilers and Pressure Vessels:		Inspections
Boilers		780
Pressure vessels		1,128
Pressure piping installations		27
TOTAL		1,935
Used Boilers and Pressure Vessels:		Inspections
Boilers		566
Pressure vessels		317
Second and final inspections		883
TOTAL		2,334
Certificates Issued:		Number
Class A—new boilers and pressure vessels		1,325
Class B—used boilers and pressure vessels		689
Class C—low pressure boilers accepted on affidavit		220
Class D—pressure vessels accepted on affidavit		983
Class E—boilers under 3 H.P. accepted on affidavit		24
Duplicate certificates		17
TOTAL		3,258
Annual Inspections (Factory, Shop and Office Building Act):		
Uninsured boilers		2,446
Uninsured pressure vessels		3,873
TOTAL		6,319
Certificates issued		2,808

Total amount of monies transmitted to the Treasury Department \$42,628.75.

CONCILIATION AND ARBITRATION

CHIEF CONCILIATION OFFICER—LOUIS FINE

CONCILIATION OFFICERS—JAMES HUTCHEON, G. L. FENWICK

The conciliation staff of Ontario consists of the Chief Conciliation Officer and two conciliation officers, assisted by labour relations officers of the Dominion Government. In addition to duties directly connected with mediation, conciliation and arbitration, these officers act as investigators for the Regional War Labour Board, and as referees and returning-officers in plant elections arranged by the Ontario Labour Relations Board, and in plant elections held with the consent of all parties. They also conduct conferences as required under The Industrial Standards Act.

APPLICATIONS FOR BOARDS OF CONCILIATION

During the fiscal year there were fifty-seven Boards of Conciliation. Before such a board is appointed, the dispute is investigated by one of the conciliation officers, whose first efforts are directed toward conciliating or adjusting the matters in dispute. Failing this, he reports the facts to the Department involved which decides whether a Board of Conciliation is warranted. During the fiscal year conciliation officers were successful in bringing about an understanding enabling the parties involved to reach a satisfactory agreement in twenty-one cases. Prior to the establishment of the Ontario Labour Relations Board in April, 1944, most of the disputes which came before Boards of Conciliation were connected with collective bargaining requests. Subsequently these cases were dealt with by the Labour Relations Board, and when necessary referred to a conciliation officer where the parties were unable to reach an agreement.

ARBITRATION

The question of arbitration of grievances or disputes has become one of the most important factors in industrial relations. Practically every agreement between management and labour provides for arbitration proceedings where matters cannot be amicably disposed of, and the services of this Branch have been utilized to a great extent. After a grievance has passed through the various stages without agreement, it finally reaches a point where an arbitrator is required and this arbitrator is often appointed on application to the Minister of Labour by the parties concerned. During the year officers of this Department acted as arbitrators in forty-nine cases involving 200 grievances.

CONCILIATION

Conciliation officers are available at all times to both employees and employers to assist in adjusting grievances, labour difficulties and misunderstandings. In many instances, conciliation officers have been successful in preventing stoppages of work, strikes and lockouts and in bringing about harmonious relations in all types of industries. During the fiscal year 103 conciliation cases passed through the National Labour Relations Board, sixteen through the Ontario Labour Relations Board, twelve through the Ontario Department of Labour, and five through the federal Department of Labour.

DISCRIMINATION CASES

Twenty-three cases of dismissal for alleged union activity or membership were investigated and rectified wherever possible. In other instances a recommendation was made to the federal Department of Labour for the appointment of a Commissioner under Order-in-Council P.C. 4020 and enquiries were investigated as provided in this Order.

PLANT VOTES

During this period conciliation officers acted as returning-officers for sixty-four plant elections for the Ontario Labour Relations Board. Eight elections for the National Labour Relations Board and twenty-five votes were held at the request of, and with the consent of the parties concerned. Six plant elections were held for the Labour Court.

Number		Employees involved
64	Ontario Labour Relations Board.....	13,661
8	National Labour Relations Board.....	234
25	Consent votes.....	6,911
6	Labour Court.....	5,910
	Total.....	26,716

In case of the consent votes, the conciliation officers make all preliminary arrangements, obtain agreement on the voters' list and supervise the election. After the result of the election is certified, the union receiving the majority vote is recognized by the company as the bargaining agency and in most cases a collective bargaining agreement resulted. In the Ontario Labour Relations Board cases, the result of the vote was reported to the Ontario Labour Relations Board and the Board dealt with the matter thereafter.

REFEREES

Conciliation officers act as referees for the Ontario Labour Relations Board to investigate applications for certification. During the fiscal year there were thirty-six referee investigations for the Ontario Labour Relations Board and two for the National Labour Relations Board.

ONTARIO LABOUR RELATIONS BOARD

In April, 1944, The Labour Relations Board Act was passed by the Ontario Legislature, by which the Ontario Labour Relations Board took the place of the Ontario Labour Court. This Act provided for certification of unions or employees' associations as authorized by federal Order-in-Council P.C. 1003.

ONTARIO REGIONAL WAR LABOUR BOARD

During the fiscal year conciliation officers were given 412 assignments to investigate for the Regional War Labour Board, and five for the Industry and Labour Board. These assignments necessitated visits to plants in all parts of the Province, and complete reports to the Board on wage schedules not only of the plant under review but of other plants in the same district and plants in similar industries. The federal Government's wage control Order P.C. 9384 is administered within the Province by the Ontario Regional War Labour Board subject to review by the National War Labour Board.

LABOUR RELATIONS BOARD

CHAIRMAN:—J. FINKELMAN

The enactment by the Legislative Assembly of the Province of Ontario of The Collective Bargaining Act, 1943, constituted a new departure in the treatment of labour relations in this Province. Juridical processes were substituted for industrial strife as a means of settling controversies relating to union recognition, for, although union recognition is but the first step in the collective bargaining process, nevertheless it has been one of the chief sources of serious and aggravated disputes throughout the preceding decade. The tribunal set up to administer that Act was the Labour Court, a branch of the High Court of Justice for the Province. The Act conferred upon the Court power (i) to certify bargaining agencies; (ii) to restrain employers from continuing to engage in certain unfair labour practices defined by the Act; (iii) to direct employers to bargain in good faith with certified bargaining agencies; (iv) to reinstate persons discharged from employment contrary to the provisions of the Act; and (v) to construe collective agreements. The Labour Court administered The Collective Bargaining Act from June 14, 1943, until that statute was repealed consequent upon the coming into operation of the Wartime Labour Relations Regulations, federal Order-in-Council P.C. 1003 of February 17, 1944, and The Ontario Labour Relations Board Act on March 20, 1944 (federal Order-in-Council P.C. 1982 of March 20, 1944). However, by federal Order-in-Council P.C. 2301 of March 30, 1944, and The Ontario Labour Relations Board Act, it was provided that the Labour Court should continue in existence for the purpose of disposing of proceedings pending therein on March 20, 1944, and that certificates issued under The Collective Bargaining Act, 1943, should be deemed to have the same effect as certificates issued under the Wartime Labour Relations Regulations.

The contribution made by the Labour Court to the establishment of a scheme of industrial jurisprudence in Ontario is of the highest significance. As successor to the Labour Court, the Ontario Labour Relations Board has been spared the onerous task of breaking new ground; it has been in the fortunate position of being able to build on the solid foundation already laid by the Labour Court. Indeed, it is not too much to say that, but for the Labour Court, collective bargaining might have been less readily accepted by industry as a normal feature of industrial relations in Ontario. If proof be required to support this statement, reference need only be had to the protracted legal battle which hampered the National Labour Relations Board of the United States of America in the early years of its history.

On February 17, 1944, the federal Government, in pursuance of the powers conferred upon it by the War Measures Act, R.S.C. 1927, Chapter 206, enacted the Wartime Labour Relations Regulations, thus effectively occupying the legislative field in respect of collective bargaining in so far as it included (i) industries normally within the exclusive legislative jurisdiction of the Dominion and (ii) a group of industries listed in Schedule A to the regulations, which may be referred to broadly as "war industries" and which normally fall within the exclusive legislative jurisdiction of the provinces. Provision was made in the regulations enabling the provinces by statute to make the regulations applicable to those industries which still remained within their legislative jurisdiction, i.e., industries which did not fall within classes (i) and (ii) above. For convenience, this latter class may be referred to as "provincial industries". Since the operation of two parallel schemes for dealing with labour relations would have produced chaos in a heavily industrialized province such as Ontario, the Province availed itself of the opportunity afforded by the regulations to bring all industries within the scope of the regulations. Accordingly, the Legislative Assembly of the Province enacted The Ontario Labour Relations Board Act, 1944, which *inter alia* empowered the Lieutenant-Governor in Council to make applicable to that portion of industry which remained within provincial jurisdiction ("provincial industries") the Wartime Labour Relations Regulations as well as certain other federal Orders-in-Council and any amendments to such regulations and any other regulations which might be made under or pursuant to the War Measures Act. Any regulations so brought into effect by the Lieutenant-Governor in Council continue in full force and effect notwithstanding their revocation by the

federal Government and notwithstanding that, because of the termination of the war or for any other reason, they may become inoperative as regulations under the War Measures Act. In addition, the Act provided for the establishment of the Ontario Labour Relations Board to exercise such powers and to perform such duties as might be vested in or imposed upon it by the Act, or by any other act of the Ontario Legislature, and by any regulation or agreement made under or pursuant to any of such acts.

The Lieutenant-Governor in Council, by Order-in-Council of May 18, 1944 (O. Reg. 53/44), then made the regulations applicable to all employees whose relations with their employers are ordinarily within the exclusive legislative jurisdiction of the Legislature of Ontario to regulate in the manner provided in the regulations and to the employers thereof. By agreement between the Dominion and the Province, confirmed by Orders-in-Council (P.C. 2911 of April 27, 1944 and O. Reg. 52/44), the jurisdiction and powers of the Wartime Labour Relations Board (National) under the Wartime Labour Relations Regulations in so far as they pertain to "war industries" and to "provincial industries", except for certain matters which might extend beyond the boundaries of the Province, were vested in the Ontario Labour Relations Board. All decisions and orders of the Ontario Labour Relations Board, whether in respect of "war industries" or in respect of "provincial industries" were made subject to appeal to the Wartime Labour Relations Board (National) by leave of either the Ontario Board or the National Board. On September 1, 1944, the federal Government, by Order-in-Council P.C. 6893, made certain amendments to sections 15, 16 and 48 of the Wartime Labour Relations Regulations and these amendments were also made applicable to "provincial industries" by provincial Order-in-Council (O. Reg. 54/44 of October 17, 1944).

The Ontario Labour Relations Board is not a provincial branch of the Wartime Labour Relations Board (National). It is a quasi-judicial tribunal appointed by the Lieutenant-Governor in Council upon the recommendation of the provincial Minister of Labour, after consultation with the federal Minister of Labour, and certain powers of original jurisdiction have been vested in it. The Ontario Labour Relations Board consists of seven members, three being representatives of employers and three representatives of employees, chosen from panels of names submitted by appropriate employer and labour organizations respectively. The personnel of the Board is as follows:

- Chairman . . . PROFESSOR J. FINKELMAN . . . Professor of Administrative and Industrial Law in the School of Law, University of Toronto, Toronto;
- Members . . . MR. W. J. CORBETT Hayes Steel Products Limited, Merritton;
- MR. C. E. SHUMAKER Goodyear Tire & Rubber Co. Ltd., New Toronto;
- MR. R. W. TEAGLE Teagle & Son, Toronto;
- MR. RUSSELL HARVEY Organizer, American Federation of Labour, Mimico;
- MR. H. J. PADGET United Steelworkers of America, Toronto;
- MR. E. J. HOPCRAFT Brotherhood of Maintenance of Way Employees, Toronto.

During the fiscal year ending March 31, 1945, the Ontario Labour Relations Board held 102 sessions. The "average board member" attended 98 sessions and no board member attended less than 94 sessions. Until October, 1944, the Board heard all cases in the first instance, only routine administrative duties being delegated to the staff of the Board. As the burden of work increased, however, it became impossible for the Board to cope with its case-load in this fashion and the Board established the practice of referring to referees uncontested cases and cases in which no novel issue was involved. Seventy-nine cases, representing 33.5 per cent of the cases coming before the Board after the beginning of October, 1944, were so referred. Through the co-operation of the Chief Conciliation Officer of the Province, the Board was enabled to avail

itself of the services of the conciliation officers under his supervision, members of the provincial conciliation service as well as of the federal conciliation service. The Board is heavily indebted to these officials. Similarly, the Board has enjoyed the co-operation of the officials of the Unemployment Insurance Commission who have on numerous occasions permitted the Board to call upon their senior inspectors to act as deputy returning-officers in connection with the taking of representation votes. High tribute has been paid to these officials both by employers and by employees for the efficient and judicious manner in which they have discharged their duties. It is to be hoped that in future, no matter what labour relations legislation may be enacted, no lesser degree of cordiality and co-operation will prevail between the Dominion and the Province on the administrative level.

The jurisdiction of the Ontario Labour Relations Board includes the following matters: (i) certification of bargaining representatives; (ii) conciliation services; (iii) establishment of grievance procedure; (iv) granting of leave to prosecute for failure to do things required to be done pursuant to the grievance procedure established by a collective agreement or by the Board; and (v) granting of leave to prosecute for a violation of the unfair practice provisions of the regulations. The principles established by the Board in administering the Wartime Labour Relations Regulations in connection with each of these heads of jurisdiction are set out in the reasons for judgment which the Board has issued in all cases in which important matters of principle are involved, and it would be a work of supererogation to summarize them in this report, especially since the statement of the principles established by this Board would be incomplete without summarizing also the decision of the National Board which serve as precedents for this Board. This report will accordingly be confined to statistical information.

The members of the Ontario Labour Relations Board took the oath of office on April 17, 1944, and the Rules of Practice and Procedure of the Board were approved by the Lieutenant-Governor in Council on May 2, 1944 (O. Reg. 9/44). The following statistics therefore represent the administrative experience of the Board over a period of some eleven months. During that period, 461 applications of all types were filed with the Board and they may be analyzed as follows: petitions for certification, 321; applications for conciliation services, 125; petitions for leave to institute prosecution, 9; petitions for establishment of grievance procedure, 3; miscellaneous petitions, 3.

Certification

As has already been pointed out, 321 petitions for certification were filed with the Board during the fiscal year ending March 31, 1945. A breakdown of this figure according to trade union and employees' organizations which were involved either as petitioners or interveners in the proceedings looking towards certification of bargaining representatives shows that trade unions with Canadian Congress of Labour-Congress of Industrial Organizations affiliation were concerned in 161 petitions, trade unions with Trades and Labour Congress of Canada-American Federation of Labor affiliation in 143 petitions, locals affiliated with the Amalgamated Unions of Canada in 9 petitions, locals affiliated with the Canadian Federation of Labour in 5 petitions, Independent Canadian Mine Workers' Union in 4 petitions, and unaffiliated employees' organizations in 65 petitions. In 63 of the petitions, there was a contest between two or more trade unions or employees' organizations. It is with the utmost regret that the Board finds it necessary to report that it was called upon to deal with a number of jurisdictional disputes between Canadian Congress of Labour-Congress of Industrial Organizations affiliates and Trades and Labour Congress of Canada-American Federation of Labour affiliates. Fortunately, the number of such cases was comparatively small (10) and in several of them the parties displayed a highly commendable desire to solve their problems amicably.

Certification was granted in 161 cases, 30 petitions were withdrawn, 23 petitions were dismissed and 1 petition was transferred to the National Board because the case did not lie within the jurisdiction of this Board. The affiliation of trade unions and employees' organizations

concerned in the 161 cases in which certification was granted was as follows: Canadian Congress of Labour-Congress of Industrial Organizations affiliates—84, Trades and Labour Congress of Canada-American Federation of Labour affiliates—64, Amalgamated Unions of Canada—1, Canadian Federation of Labour—1, unaffiliated employees' organizations—12. (In one case, success was divided between a Canadian Congress of Labour-Congress of Industrial Organizations affiliate and several Trades and Labour Congress of Canada-American Federation of Labor affiliates).

No useful purpose would be served by giving a breakdown of the affiliation of the various organizations which were involved in cases withdrawn or dismissed. In a number of cases, a petition for certification was filed as a step in the negotiation of a collective agreement, the collective agreement itself being executed before the case was ripe for hearing. Where negotiations reach a successful conclusion under such circumstances, the petition is invariably withdrawn by the petitioner in view of the decision of this Board in the **Loblaw Groceries Case** to the effect that no certification would issue upon the petition of a trade union or employees' organization which holds a collective agreement. In addition, in some cases a petition has been dismissed not because the petitioner had failed to establish that it enjoyed the requisite support among the employees affected but because such employees were at the time bound by a collective agreement which had not yet run for the ten months period provided for by section 9 of the regulations. Thus, the withdrawal of a petition for certification or even the dismissal of such a petition cannot be taken in every instance as indicating a failure on the part of the employees to achieve a collective bargaining position, for such position may have been achieved altogether apart from certification. In fact, it has been the consistent policy of the Board to encourage employers and employees to settle their affairs without recourse to the Board.

In connection with those petitions for certification of bargaining representatives which were finally disposed of during the fiscal year covered by this report, representation votes were taken in 90 cases. Certification followed on 74 of these votes, 14 petitions were dismissed and 2 were withdrawn.

Conciliation

Although section 11 of the regulations declares that where the efforts of the parties to reach agreement prove unsuccessful, they "may ask the Board to intervene with a view to the completion of an agreement", the language of the regulations in this respect is misleading, since the functions of the Board are confined within very narrow limits. In effect, the Board merely serves as a conduit type for the transmission to the federal Minister of Labour of requests that the conciliation services of the federal and provincial Departments of Labour be made available to the parties. One hundred and twenty-five applications of this character have been filed with the Board during the past fiscal year, 112 of which have been referred to the Minister, and 9 rejected. Requests for intervention were submitted by 89 Canadian Congress of Labour-Congress of Industrial Organizations affiliates, 33 by Trades and Labour Congress of Canada-American Federation of Labor affiliates, 1 by a Canadian Federation of Labour affiliate and 1 by an unaffiliated employees' organization.

Prosecutions

Petitions for leave to institute prosecutions were filed in 9 instances. In several of them the real purpose of the petitioner was to obtain from the Board a declaration of its rights, no other procedure being available for this purpose under the regulations and the Board having established the policy, from which it has in no case departed, that it will not give advisory opinions on hypothetical cases where the parties are not afforded a full opportunity of presenting evidence and argument. Five of the petitions were withdrawn, 1 was dismissed, and 1 was adjourned sine die. The Board is of the opinion that leave to prosecute should be granted only as a last resort when all lesser measures have proved abortive. In addition, the Board has established the policy that it will not institute prosecution on its own initiative save for infringement of the process of the Board, in which event the prosecution would be in the nature of contempt proceedings.

Grievance Procedure

One of the most salutary features of the regulations and a significant innovation in labour relations legislation is the provision for the arbitration of disputes arising out of the interpretation or violation of a collective agreement. Machinery established pursuant to such provision should go far to solve many industrial disputes and thus eliminate industrial strife. Although the regulations require that every agreement shall henceforth "contain a provision establishing a procedure for final settlement, without stoppage of work, on the application of either party, of differences concerning its interpretation or violation", they also provide for the establishment of such a procedure by the Board in those instances in which the parties have failed to do so. Three petitions asking for the establishment of such procedure were filed with the Board and the relief requested by the petitioner has been granted in each case.

ONTARIO REGIONAL WAR LABOUR BOARD

CHIEF EXECUTIVE OFFICER—J. B. METZLER

In the twenty-fifth Annual Report of the Department issued for the fiscal year 1944 a resumé of the activities of the Regional War Labour Board was given. This included a discussion of the various developments which had taken place in connection with wage control.

The Regional War Labour Board continued to function during the fiscal year 1945 under the provisions of the Wartime Wages Control Order, 1943, P.C. 9384, which was passed pursuant to the War Measures Act, December 9, 1943. The constitution of the Board continued as in the previous year, that is, with the Minister of Labour as Chairman, the Deputy Minister of Labour as Vice-Chairman, and with three members representing labour and three representing employers. During the year Mr. C. W. Findlow, Works Manager of the Amalgamated Electric Corporation Limited, resigned from the Board and was replaced by Mr. M. O'Brien of the Canadian General Electric Company Limited.

The volume of work of the Board continued unabated during the year. In all, 8,846 cases were considered, making a grand total of 24,729 since the inception of the Board.

It is interesting to note that the Board has been able to help considerably in furthering the main purpose of price and wage control, namely, to keep down inflation and to ensure that there will be no untoward rise in the cost of living. In large measure the activities of the Board have been assisted by the co-operation of industry and labour alike towards this end.

INDUSTRY AND LABOUR BOARD

CHAIRMAN: ERIC BILLINGTON

MEMBERS: E. G. GIBB, EDWARD COONS

The Industry and Labour Board administers The Hours of Work and Vacations with Pay Act, 1944, The Industrial Standards Act, The Apprenticeship Act and The Minimum Wage Act.

HOURS OF WORK AND VACATIONS WITH PAY ACT, 1944

This Act became effective July 1, 1944, and provides that the maximum regular working hours for employees in industrial undertakings shall be eight per day and forty-eight per week, and that employees shall be given a minimum of one week's vacation with pay after each year of employment.

HOURS OF WORK—REGULATIONS

Regulations pursuant to the Act were approved by Order-in-Council July 11, 1944, and provide that where an employer has by custom or practice established a working week of forty-eight hours or less for his industrial undertaking, but the hours are in excess of eight per day, such employer may continue the established daily hours until otherwise ordered by the Board. Where an employer has reduced the number of hours in the working week in an industrial undertaking to conform with the provisions of the Act, but desires to establish a working week of less than six days, he may, with the approval of the Board, adopt a working day in excess of eight hours.

POSTPONEMENT IN ESSENTIAL INDUSTRIES

At the time the Act became effective the labour situation and the vital demands of war were found to be acute. Problems due to manpower shortage existed in those industries which were engaged in the production of war materials and the situation became so serious that the Department of Munitions and Supply, Ottawa, requested that, in view of the necessity for peak production of war supplies, a postponement of the application of the Act in the matter of working hours of employees in such industries be provided. This acute war demand entailed continued absorption of labour from other essential industries which were further handicapped. Consequently, after consultation with the Minister of Labour, the Industry and Labour Board permitted the continuance of existing working hours in industries operating on priority war materials in Ontario.

Conferences were arranged by the Board with both management and employee representatives from many types of industries in order that individual problems might be discussed, and from these conferences the Board was enabled in many instances to provide special orders which were best suited to the requirements of the industries concerned and the enforcement of the Act and the regulations.

No postponement was granted insofar as the vacations with pay provision of the Act is concerned.

OVERTIME PERMITS

Employers whose production could not be considered essential to the full maintenance of the war effort were advised that their employees might engage in overtime hours of work only under an overtime permit issued by the Board upon written application from the employer. This permit provides for a maximum of 120 hours of overtime during a calendar year under regulation 4.

Where doubt existed in the mind of an employer as to the status of his present production or undertaking, whether essential or not, such employer was informed that it was his responsibility to communicate in writing with the Industry and Labour Board and obtain a ruling in this regard.

AMENDMENT TO POSTPONEMENT RULING

With the advent of 1945 the Board, acting in accordance with the requirements of section 14 of the Act and at the same time giving due consideration to existing essential production requirements, provided an amendment to the original postponement ruling insofar as working hours are concerned. This amendment requires that the regular working hours of an employee in any business, industry or occupation shall not exceed forty-eight in the week, in accordance with section 2 of the Act. Those employers, however, who were still engaged on war contracts or were under a directive of the Wartime Prices and Trade Board, or under United Nations Rehabilitation Relief Administration contracts, or those engaged in construction, transportation or in the production of essential materials and supplies were permitted such overtime hours of work as might be necessary in excess of a regular working week of forty-eight hours or less in order to maintain maximum production.

RECORDS REQUIRED

Regulation 8 requires employers to keep complete and accurate records showing the name and address of each employee, the total number of hours in each day worked by each employee, the overtime hours worked by each employee in any day or week, and the Board may require an employer to file a certified copy of any part of his payroll records with the Board or to supply certified copies of any other records or to make a return in such form as the Board may order pertaining to hours of employment and vacations with pay.

VACATIONS WITH PAY

Regarding vacations with pay the regulations state that every employee granted a vacation with pay pursuant to the Act shall be entitled to receive a minimum of two per cent of his total annual earnings.

CONSTRUCTION INDUSTRY

Special provision was made in the regulations for vacation pay credits for employees in the construction industry. Due to the intermittent nature of employment in this industry, it was found necessary to arrange a plan requiring each construction employer to contribute his proper share of vacation pay to his employees. The employee obtains a vacation pay stamp book from his employer, association of employees or from the Department of Labour. The book is chargeable to the employee at a cost of twenty-five cents.

VACATION PAY STAMP BOOKS

The vacation pay credit stamps are purchased by the employer and may be obtained from any Provincial Savings Office in denominations of one cent, two, three, four, five, ten, twenty-five, fifty cents and one dollar. Effective July 1, 1944, and at each future pay period the employer is required to affix to each employee's vacation pay book vacation pay credit stamps in an amount equivalent to two per cent of his total earnings during such working period. The employer is also required to cancel vacation pay stamps by means of a date stamp across each stamp defining the affixing date.

On and after the 30th of June in each year employees may present their books at any Canadian Chartered Bank or Provincial Savings Office and upon identification shall be entitled to receive the cash equivalent of the stamps contained therein. New vacation pay

stamp books must then be obtained by employees for the subsequent qualifying period ending June 30 of the following year. Under this system employees build up a vacation pay credit in proportion to their earnings and irrespective of the number of different employers for whom they may have worked during each year.

LIMITED PERIOD OF POSTPONEMENT

Before the outbreak of the present war the trend of the times was towards a shorter working day and week, and undoubtedly this will again be the trend when peace returns. The Hours of Work and Vacations with Pay Act, 1944 is the first of its kind in Canada in certain of its provisions, and may be considered a forward step in legislation. The Act applies to industrial undertakings, with postponement in the matter of overtime working hours provided in certain instances because of the essential nature of the undertakings. No provision has been or will be made for postponements covering an unlimited period, but they will be withdrawn gradually as war production requirements in industry decrease, thus making available additional labour supplies so that excessive working hours will not be necessary.

INDUSTRIAL STANDARDS ACT

INDUSTRY AND LABOUR BOARD

The Industrial Standards Act provides a definite procedure for collective bargaining in any industry by providing a legal means for calling a conference of employers and employees in any designated industry within a predefined zone. Any schedule of wages and hours and days of labour agreed upon by the conference may be approved by the Minister, if in his opinion the schedule has been agreed to by a proper and sufficient representation of those engaged in the industry concerned. Upon recommendation of the Minister an Order-in-Council may be passed making the schedule effective in law and binding on all persons engaged in the industry within the zone.

Conferences were held during the fiscal year ending March 31, 1945, as follows:—

INDUSTRY AND ZONE	DATE OF CONFERENCE	DATE OF ORDER-IN-COUNCIL
Barbering Industry:		
Port Arthur-Fort William	November 13, 1944	December 19, 1944
Ottawa	January 17, 1945	March 9, 1945
Hamilton	December 20, 1944	Not completed by end of fiscal year
	April 20, 1945,	
	reconvened	
Carpentry Industry:		
Brockville	May 17, 1944	June 16, 1944
Cornwall	January 31, 1945	April 12, 1945
Goderich	February 28, 1945	After close of fiscal year
Cloak and Suit Industry:		
Ontario	February 20, 1945	After close of fiscal year
Jewellery Industry:		
Toronto	September 13, 1944	October 3, 1944

The schedule for the men's and boys' clothing industry, Ontario zone, was amended by order of the Industry and Labour Board on January 17, 1945, and published January 27, 1945.

PAYROLL ASSESSMENT OF INDUSTRIES

Under authority of the Act the Industry and Labour Board has designated the cloak and suit industry and the men's and boys' clothing industry as interprovincially competitive, and has approved provisions in the respective schedules with respect to the collection of assessment from employers and employees. The purpose of this assessment is to provide revenue for the enforcement of the schedule.

SCHEDULES IN FORCE

At the close of the fiscal year there were 102 schedules in effect in Ontario pursuant to The Industrial Standards Act, as follows:—

TRADES AND INDUSTRIES:	Number of Schedules	
(a) Schedules covering local zones:		
Baking.....	1	Ottawa
Barbering.....	59	59 separate zones covering some 105 municipalities
Bricklaying and stonemasonry.....	1	Ottawa
Bricklaying, stonemasonry and plastering.....	1	Galt
Building industry.....	1	Kitchener-Waterloo
Carpentry.....	12	Belleville, Brantford, Brockville, Cornwall, Galt, Kirkland-Larder Lake, Ottawa, Peterborough, St. Catharines, St. Thomas, Sault Ste. Marie, Timmins
Coal.....	1	Toronto
Coal hoisting.....	1	Toronto
Common labourers.....	2	Ottawa, Windsor
Electrical repair and construction...	5	Kingston, Kirkland-Larder Lake, London, Ottawa, Windsor
Gasoline service.....	1	Toronto
Jewellery industry.....	1	Toronto
Painting and decorating.....	3	Hamilton, Kingston, Ottawa
Plastering.....	2	Ottawa, Toronto
Plumbing and heating.....	5	Hamilton, Ottawa, St. Thomas, Township of Teck, Windsor
Soft furniture.....	1	Toronto
Taxicab industry.....	1	Toronto
(b) Schedules covering the Province:		
Brewing.....	1	
Hard furniture.....	1	
Ladies' cloak and suit.....	1	
Men's and boys' clothing.....	1	
Total.....	102	Schedules

ARREARS OF WAGES

ARREARS OF WAGES	Number of employers affected	Number of employees affected	Amount of arrears
Collected through Trust Account.....	9	11	\$1,504.71
Paid direct to employees after investigation by the Industry and Labour Board.....	8	10	\$504.71

NOTE: There is in the Trust Account the sum of \$1,000 which has been ordered by the Industry and Labour Board to be diverted to the Crown.

There were no Court cases during the fiscal year.

APPRENTICESHIP BRANCH

DIRECTOR OF APPRENTICESHIP: FRED J. HAWES

In reviewing the work of the Apprenticeship Branch for the fiscal year ending March 31, 1945, acknowledgment must be made of the valuable work accomplished by the various apprenticeship committees. Where local committees were particularly active a decided interest was evidenced and the numbers of apprentices increased.

BUILDING TRADES

The special efforts indicated in last year's report to obtain apprentices in the building trades were continued with good results, but there are still many opportunities for boys to enter the building industry.

TRADE TRAINING CLASSES

The improved facilities provided at the Rehabilitation Training Centre in Toronto for the training of discharged members of the armed forces have given additional accommodation for training civilian apprentices in the building trades. The training was carried out efficiently by the instructors and directors of the school and progress was most gratifying with the result that employers have expressed gratification at the increased skill of the apprentices upon the completion of this school training.

Owing largely to the efforts of the provincial and local apprenticeship committees, the numbers of apprentices attending schools showed a sharp increase. One hundred and fifty-five apprentices in nine trades received instruction in January and February and 109 in three trades in March and April. At the conclusion of the training periods prizes donated by employers, trade unions and supply houses were presented to the apprentices showing most progress during the school term. The Minister of Labour attended the prize-giving function at which members of the Provincial Advisory Committee were also present. Mr. Pigott, chairman of the committee, acted as chairman of the first graduation and Mr. Nicholls, member of the committee, was chairman of the second graduation. Visitors representing the building trades of Toronto and a large delegation from Hamilton were in attendance on both occasions.

As evidence of the aroused interest in apprenticeship in building trades, the local apprenticeship committees in Hamilton, Brantford, St. Catharines and Kitchener arranged for and provided a dinner and entertainment for all registered apprentices in their respective localities.

PROVINCIAL ADVISORY COMMITTEE FOR BUILDING TRADES

The Provincial Advisory Committee for all designated building trades met every month. Faced with a large backlog of building this committee was anxious to increase the number of apprentices in these trades and under its guidance and supervision greater efforts were made to stimulate interest among boys ready to leave school. Two hundred and sixty-two contracts of apprenticeship in the building trades were entered into during the fiscal year, but this number was not sufficient to satisfy the demands of the various trades.

The Provincial Advisory Committee for Building Trades is composed of an equal number of employer and employee representatives who devote a considerable amount of time to organized apprenticeship. The personnel of the committee is as follows:

CHAIRMAN: Jos. M. Pigott, Pigott Construction Company, Hamilton.

MEMBERS: Employers' Representatives	Employees' Representatives
H. J. Ball	A. J. Crawford
J. Kenyon	Cecil M. Shaw
H. C. Nicholls	John W. Bruce
P. C. Mansell	A. Cooper
J. E. Greenland	William Jenoves

REPRESENTING THE DEPARTMENT OF EDUCATION: F. S. Rutherford, Director of Technical Education.

SECRETARY: Fred. J. Hawes, Director of Apprenticeship.

PROVINCIAL ADVISORY COMMITTEE FOR THE MOTOR VEHICLE REPAIR TRADE

The Provincial Advisory Committee for the Motor Vehicle Repair Trade recommended that The Apprenticeship Act be amended to provide for regulations requiring all persons, other than registered apprentices, engaged in designated trades to obtain certificates of qualification and to prohibit the employment in any designated trade of persons who have not complied with this requirement.

Regulations for the motor vehicle repair trade were then amended to include this requirement so that only apprentices and certificated mechanics may now be employed in the repair of motor vehicles, with certain exceptions for minor repairs, adjustments and services.

The Provincial Advisory Committee for the Motor Vehicle Repair Trade held numerous meetings during the year and gave considerable time to drafting the new trade regulations. The personnel of this committee is as follows:

CHAIRMAN: Fred J. Hawes, Director of Apprenticeship.

MEMBERS: Employers' Representatives	Employees' Representatives
Howard B. Moore	John Munro
J. L. Stewart	William Farley
H. W. Harper	B. Lozon
George Beattie	D. Lyons
Ed. Wadham	
R. D. Salmond	

PROVINCIAL ADVISORY COMMITTEE FOR THE BARBERING TRADE

The Provincial Advisory Committee for the Barbering Trade was quite active and has forwarded a petition to the Industry and Labour Board requesting that the regulations for this trade be amended in order to make applicable to the barbering trade the requirement that all those practising the trade be either barber school students, apprentices or certificated operators. This matter is now receiving the consideration of the Industry and Labour Board. The personnel of this committee is as follows:

CHAIRMAN: Fred. J. Hawes, Director of Apprenticeship.

MEMBERS: Employers' Representatives	Employees' Representatives
C. D. Stevenson	P. C. Hollier
Hilliard Bruce	William A. Stickles
Otto Maluske	George Macdonald

PROVINCIAL ADVISORY COMMITTEE FOR THE HAIRDRESSING TRADE

The Provincial Advisory Committee for the Hairdressing Trade held few meetings during the year. Throughout the year the trade absorbed all apprentices and students from hairdressing schools and provided opportunities for those with knowledge and skill necessary to class them as competent operators. The personnel of this committee is as follows:

CHAIRMAN: Fred. J. Hawes, Director of Apprenticeship.

MEMBERS: Employers' Representatives	Employees' Representatives
W. O. Wiegand	Jean McKay
J. D. Adams	G. Duncan

BARBER AND HAIRDRESSING TEACHERS EXAMINATIONS

On instructions of the Industry and Labour Board all persons wishing to instruct in barbering and hairdressing schools are required to pass an examination arranged by this office.

BENEFITS UNDER VOCATIONAL TRAINING CO-ORDINATION ACT

An agreement has been consummated between the federal Department of Labour and the Ontario Department of Labour, to which the Minister of Labour, The Honourable Charles Daley, attached his signature. The agreement provides that the cost of actual training be shared equally by the federal and provincial Governments, the Ontario Department of Labour assuming all costs of administration.

The first group to take advantage of this training programme was the Ontario Retail Lumber Dealers' Association. A programme for trade training was drafted and agreed upon and provision was made for school training for apprentices and discharged members of the armed forces.

During the year enquiries were received from representatives of other trades considering the advisability of entering into an organized system of apprenticeship and having their trade brought within the scope of the Act. Satisfactory progress has been made.

ASSISTANCE IN REHABILITATION PROGRAMME

Upon the request of the federal Department of Veterans' Affairs, and by agreement between the Department of Labour of Canada and the Department of Labour of Ontario, the Apprenticeship Branch assumed full responsibility for rating, placing and supervising all discharged personnel entering trades designated under The Apprenticeship Act. This opportunity to co-operate with the federal Department of Labour was accepted by the Minister, and the facilities and experience of the Apprenticeship Branch were utilized in organizing a system to handle this important part of the rehabilitation of discharged members of the armed forces, and the work is proceeding satisfactorily.

In the preparation of plans for carrying out this programme the provincial advisory committees gave valuable advice and assistance to the members of the staff engaged in this work. These committees were also of great service in helping to establish satisfactory school training for ex-service men.

ACTIVITIES OF THE BRANCH

The following tables indicate the activities of the Apprenticeship Branch in connection with designated trades under the Act, and in addition, with the registration and placement of ex-service men.

Thirty-seven contracts of apprenticeship were registered by employers in trades other than designated trades.

TABLE No. 1

Registration of Apprentices by Trades
as at March 31, 1945

MINIMUM WAGE BRANCH
INDUSTRY AND LABOUR BOARD

WAGE RETURNS

Wage information is collected by the Minimum Wage Branch for the purpose of checking compliance with The Minimum Wage Act, and of compiling statistics which are comparable from year to year. Employers are divided into groups and for further consolidation these are placed in the eighteen classifications which are given in the tables appended to this report.

It will be noted in the following summary that the total of employers reporting this year was lower than for the two preceding years but higher than in 1942 or any earlier date. The totals of all employees and of female employees reported were higher than last year, and in the case of female employees, were higher than in any year previously reported, and nearly double the number reported in 1940.

	Fiscal Years					
	1940	1941	1942	1943	1944	1945
Employers reporting.....	14,954	16,967	16,264	22,781	21,798	21,404
Employees of reporting firms.....	432,892	535,906	631,631	714,451	578,442	682,836
Female employees of reporting firms.....	129,111	151,278	210,257	224,879	224,459	243,234

WAGE ADJUSTMENTS

Analysis of the wage returns revealed the underpayment of fewer employees than last year. These cases were handled largely through correspondence. Increases in wage rates were ordered for thirty-six employees in twenty-four establishments as compared with seventy-four employees in fifty-eight establishments during the previous year.

ARREARS OF WAGES

As a result of complaints from employees arrears of wages amounting to \$123.13 were collected from three employers on behalf of three employees as compared with \$206.71 collected from eight employers on behalf of nine employees in 1944.

COMPLAINTS AND PROSECUTIONS

Improved employment conditions resulted in a further decrease in the number of complaints received, the number being three as compared with twelve the previous year. No prosecutions were entered for violations of the Act.

HOMEWORK

Rates of pay for homework submitted by 420 employers were approved, as compared with 360 employers in the previous year. For approval rates must in no case be lower than the minimum rates prescribed in the order under The Minimum Wage Act.

HANDICAPPED WORKERS

Permits to employers authorizing the employment of handicapped workers at rates lower than the prescribed minimum rates were issued to forty-five employers for sixty-two employees. In 1944 the corresponding figures were fifty-three employers and eighty-four employees.
