FIELD & CRAIGHEAD,

THE END OF IMPEACHMENT.

The whole country will take a long breath at the end of the trial of the President Whatever the disappointment at the result, it is at least a relief to a suspense that had become too painful to be borne much longer. For nearly three months we have heard of nothing else. All legislation has been checked, and the usual business of Congress has the great trial. As the time of the decision approached, the country was wound up to the highest pitch of expectation. Everything was in a state of suspense. Even orwere waiting to see if a new administration might not inangurate a new financial policy, and a general revolution in our public affairs. Such uncertainty is always disastrons to the business interests of a country Men do not dare to venture on new enter prises, as they know not what to expect. They will put up with this for a while, if they see a prospect of a speedy end of their troubles. But when they have endured it month after month, they begin to cry out for relief. Anything is better than this prolonged nncertainty. Better even defeat than this long suspense. On this account we believe the country will rejoice to have the Impeachment trial brought to a close. They are tired of the long delay, and of the general ont of the way, so that they can attend to their ordinary affairs.

At length we have a decision which, if not complete, yet indicates the final result. True, the vote has been taken only on a single article, but as that one was believed to be the strongest, failure on that involves failure on the whole. The New York Tribune, which is the highest authority for the managers of impeachment, says: "The Eleventh article would command most votes. That failing, all fail." So that we may consider the business of impeachment as practically ended.

As to the result, however much surprised, yet we feel bound to acquiesce in the solemn verdict of the Senate, and to respect their decision as the highest judicial anthority known in our country. While the failure to convict will disappoint a large part of the people of the North, yet we do not see in it any ground for the rage and despair of some of our contemporaries. This is too great a the fate of one man. "Men die, but nations as a wreck floats down the stream; while the nation will continue on its career of greatness as if he had never been.

Looking at it in this light, impeachment always seemed to us rather "small business" for such a great people. We could never attach to it the importance which some did. We were in Washington when it was begun, and know that many of the oldest and wisest men in the councils of the nation—and we ly to be accomplished. may add, in the councils of the Republican party-shook their heads doubtfully as to the that it was a great political mistake. Mnch ably no man in public life has so little peras they disliked Mr. Johnson, although they sonal popularity as Mr. Johnson. It is a regarded his being President of the United sad confession that it is so, for there was a it wise to stop all the legislation and the the Union against the tide of Southern fannever be heard of any more in the poli- his quarrel with Congress, opposing almost time he could not do much mischief. indignation at his course, that many felt that that this personal matter is out of the way, they could wait no longer, and hence the we hope Congress will go to work attending struggle between Congress and the President was pressed to an immediate issue.

Since impeachment was determined on. much dignity and deliberation. Never in the history of the country have we had more reason to be proud of the Senate, for never has it appeared a more dignified body. There were not wanting violent spirits who counselled unseemly haste. One of the nagers at the beginning expressed his determination to hurry on the trial "with railroad speed." But the Senate, by its dignified attitude, silently rebuked this spirit of precipitation. Calmly and deliberately it sat, from day to day, and week to week, to hear every particle of the evidence, and The Evangelist.

NEW YORK: MAY 21, 1868.

WHOLE NO. 1991.

to listen to long-drawn arguments. The patience and decorum and dignity of the Sennate, have raised that body in the esteem of the country and of the civilized world.

This dignity was the more commendable because of the very strong pressure from without to sway their judgments. The moment the trial began, we felt that it was the duty of all ontsiders to respect the position of those who were called to sit as judges in this High Court, bound by a solemn oath to hear, to deliberate, and to decide according to the law and the evidence. To obtrude on them private opinions, to dictate, or even to advise, what verdict they should render, we should have considered as gross an indecency as for a crowd to force its way into a jury room, while the jury were in session, and dictate to them what should be their verdict. Yet some of our brethren of the press seem to have had no scruples, either of conscience or of delicacy, as to ofbeen at a stand-still, waiting for the close of fering their opinions, whether asked for or not. Nor did they hesitate to accuse of "treachery" every Senator who was even "suspected" of thinking differently. If any one hesitated an instant, he was denounced dinary business could not go on, for men in the most violent manner. Thus we have seen within a few days some of the oldest and ablest men in our National Congress, men who have spent years in public life, and have grown gray in the service of their country, denounced as "traitors" and "infamous," because they thought that the charges against the President were not sustained. Such language is ntterly disgraceful. It does not seem to have produced much effect. Every high-minded Senator must have felt indignant and disgusted at this kind of intimidation, and would naturally spurn it with contempt; and it is not at all impossible that the final defeat of the impeachment movement has been due to the natural indignation at this kind of dictation. It is a lesson to these journals, which we hope stagnation of business, and wish to have it they will not forget. But whether they will learn wisdom from it, is doubtful. They are not of the sort that learn wisdom from any

As to Mr. Johnson, if he were capable of learning anything, he should take warning by his narrow escape. He has indeed been saved from an ignominious expulsion from his high office, and yet he has been "saved so as by fire." He has just escaped "by the skin of his teeth." Only one vote saved was deliberately selected as the one that him. A large majority of the Senate declared him guilty. Nothing but the proviso in the Constitution, that in a trial for im peachment, two-thirds should be required to convict, saved him. One vote, changed from Nay to Aye would have removed him at once from the White House, and given us a new President and a new administration.

Most men who had had such a hair-breadth escape, would learn from it some degree of cantion. But we are afraid Mr. Johnson is like the Bourbons, of whom Napoleon used to say, that "they never forgot anything" nation to have its whole future depend on [that is, of their old party hatreds and resentments], "nor learned anything." Mr. live." A few months, and he will pass away Johnson is a man of such unbounded self-run. And it ought to be agreed that there nothing will teach him modesty and wisdom, and that he will remain the same to the end. Happily his power is small. The work of reconstructing the Southern States on the plan of Congress, is nearly completed, and he cannot hinder it. However he may oppose it, the will of the nation is like-

But onr chief concern is not for the President, but for the country. What becomes expediency of the movement. They thought of one individual is a small matter. Prob-States as a calamity, yet they did not think time when his bold course in standing up for business of the country for the sake of get- aticism, which swept his own Tennessee ting rid of a man whose term of office would with other States, into the Rebellion, cansed soon expire of itself. In less than a year his name to be held in honor throughout the his course would be run. He would then North. But since he has been President, he retire to the mountains of Tennessee, and has been so headstrong and obstinate, in tics of the country. Surely within this brief every measure which they passed, that he has completely alienated the popular respect gress had already stripped him of his power; and sympathy. While anxions, for the honof his control over the army; of his power of or of the country, that he should have a appointing to office, and removing from fair trial, yet if he had been found guilty and been deposed from his office, we should have had no tears to shed over his fate. that might be rejected without injuring the butes of power. He was the mere ghost of But since it is settled otherwise, that he is a President-the shadow of a shade. Why to remain where he is to the close of his term, neither shall we shed any tears over endured him for three years; could it not fairs, it is a good rule to forget the things look. Many questions which have been greatly suffering from its neglect, to regulate ed here. the finances, lightening taxes, giving new we are glad that it was conducted with so life to industry, and pushing forward meassures for the public prosperity. A few months will bring us to a Presidential election, when the nation will again have a chance to express its will. A popular election is the High Court before which our rulers are always liable to be impeached; and whose verdict is without appeal. To that all questions of public men and public policy may be referred. That we may hope will bring all branches of our Government into harmony, when the nation, free from check or obstacle in its path, will start for-

ward anew on its magnificent career.

Not a Come-out-er but a Stay-in-er. - A lit- wisdom and fidelity, the subject of the retle volnme, just published by Ticknor & union of the two bodies will be fully discuss-Fields, giving the official life of the late ed. It becomes all, therefore, who have at Governor Andrew, furnishes a beautiful tes. heart the interests of the Church which they timony to the humanity, the patriotism, and the practical wisdom of that noble man, whose death was so great a loss to the State of Massachnsetts. He was not only an earnest reformer, but what very few reformers are, a man of sound judgment, of sterling common sense. Among other incidents illustrating this is the following. The church in Boston to which he belonged at one time was in danger of disnnion on account of some difference of opinion in the congregation. Against this separation Gov. Andrew, then a young man, less than thirty years of age, protested very earnestly in language which showed alike his good sense as well as his Christian charity. Says his pastor,

"He pleaded that the true way to treat all whom we snpposed to be in error, was not to them out, but take them in. Nor was it the right way, he contended, to leave a church, because a majority conscientiously differed from us, but to remain in it and convince them. We never can do so much good by going only with those who agree with us, for if only those who agree together go together, each party in the church hardens itself in its own opinions, and truth and error never come in contact." "At last," said he in closing, "Brethren, I do not believe in the principle of come-out-er-ism. I am not a come-ont-er: I am a stay-in-er. I shall not leave this church because the majority may differ from me, on this or other questions. You may indeed turn me out; but you cannot make me go out of my own accord. If you turn me out of your meeting, I will stand on the outside, and look in not do this, I will come the next day and sit in the place where you have been, and commnne with you so. I cannot be excommunicated, for I shall continue thus always in your communion.'

The American Presbyterian of last week repeats the questions it addressed to us, on the action of our own Church. Reunion, and insists upon our answering them. It seems to think them important, if not embarrassing to us. Our only reason for not replying formally was, that we did not wish to discuss among ourselves the terms of reunion, until we know just what they are. But as that journal wants a reply, we will give it.

"1. Who is to judge of the consistency of the various interpretations with the Calvinistic or Reformed sense of the Confession?" Who judges, in any case, about the sense

of a document? Of course, the parties to it, according to their best light. No one man, presbytery, or school is entitled to jndge about it, as if that judgment were infallible and binding on others. In any judicial case that may arise, the "Book" prescribes the way.

An "intolerant minority," if there be such, may make trouble. That is a risk we must should be all the "toleration" on both and everybody else wrong—that we fear that consistent with a fair interpretation of the Confession as a Reformed symbol. We say that the Auburn Declaration comes under such a fair interpretation.

" 2. Does THE EVANGELIST wish us to understand that it would be content with the degree of toleration which the editor of the Princeton Review is inclined to allow?" What a question! Such anthority we concede to no man and no school. If the Princeton Review will allow the differences fairly deducible from its own concessions, we think we might agree with it; if not,

then not. "3. On the whole, is THE EVANGELIST SO desirous for reunion that it would prefer to have the doctrinal lines drawn closer than they now are, rather than [that] the scheme of rennion should fail?" Our reply to the Northwestern Presbuterian (which the American Presbuterian says it agrees with) covers. we think, the ground of this question. We would have no "lines" which would not include the Auburn Declaration. We do not suppose that reunion would alter the general position and practice of our presby-

"4. Are there no doctrines in our extended Confession that are not fundamental, and

integrity of the Calvinistic system?" There are doctrines in our Confession which no theologian would think of calling as to what he should do? The country had that. In political as well as in personal af- "fundamental." There are statements about even the "fundamental" doctrines, which pnt np with him a few months longer? So which are behind, and to press forward to may be and have been differently interpretthey reasoned-and who will say, in view of those which are before. The country has a ed, without detriment to the doctrinal inthe long trial and its result, that they did great future before it to which we are to tegrity. Doctrines not fundamental might be "rejected" without destroying the system. But at that time such was the feeling of kept in abeyance, demand attention. Now though its integrity might be marred. For even doctrines not fundamental may be necessary to the completeness and symmetry to the business of the country, which is of the system. Nice discrimination is need-

If our contemporary wishes more of our views of these "fundamental" doctrines, and the "integrity of the system," we should like to talk over the matter with him at some convenient season. It hardly seems either necessary or profitable in connection with the reunion question.

Prayer for the Assemblies. - Both General Assemblies commence their annual meetings to-day-the Old School at Albany, and our own at Harrisburgh, Pa. These meetings own at Harrisburgh, Pa. These meetings are no charges. I shall be happy to revise are of much more than usual importance, and shall then gladly notice any disclaimers made by those whom I have charged; and shall give, in addition to its present contine; that Christ did not suffer the penalty souri, will be inaugured of the law in the sense of distributive justice; that the Atonement is rather a satisfactory.

Mrs. Gen. Fremont.

wisdom and fidelity, the subject of the reunion of the two bodies will be fully discussed. It becomes all, therefore, who have at
heart the interests of the Church which they
so much love, to go to a throne of grace and
plead that God would give wisdom to these plead that God would give wisdom to these assembled delegates, would gnide all their deliberations, and lead them to such results as shall be for His glory and the salvation of men. Let the Assemblies at Harrisburg and Albany be remembered not only in the sanctuary on the Sabbath, but in the social meetings for prayer, and daily at our family

Reunion-Anburn Declaration.-The Presbyter and the Northwestern Presbyterian each devote several columns in their last issues to the question of reunion, both discussing the subject with reference to one and the same point, viz: the orthodoxy of the Auburn Declaration. The former, in reply to an ingo from them, but to go to them; not shut quiry proposed by a prominent New School minister to the Editor, Dr. Montfort (a men holding the theological views put forth sufficiently orthodox to warrant their reception in the united church, answers clearly and unequivocally, that in his opinion they would. The Northwestern Presbyterian, replying to a similar question asked it by THE EvangeList, says, "The plain truth is, there is a radical difference between the two schools as to the latitude with which they interpret the Standards, and any formula of words, whether the Anburn Declaration, or Smith's or Gnrley's amendment, which allow all the latitude or liberty which has hitherto prevailed in the other branch, and be conceded in the United Church, cannot through the window, and see yon. If I can- be accepted by honest and intelligent Old School men.

We think it well that these opinions have een elicited, and are thus before the members of both churches. We have now only to wait and see which of these papers reflects the views and feelings of the great body of our Old School brethren, as this will govern

DRS. A. A. HODGE AND H. B. SMITH.

The Presbyterian of Philadelphia two weeks since republished the whole of Dr. Smith's notice of Dr. A. A. Hodge's recent work on the Atonement; and, in connection with it, printed the following communication from Dr. Hodge:

AN EXPLANATION.

Union Seminary, has published, in the April number of his Review, a notice of the work on the Atonement, recently issued by our Board of Publication. As that notice thas been given to the public, as well through the columns of Old School papers, as in the pages of the Review, there can be no im-propriety in my noticing a mistaken allega-tion which it makes. The Doctor says of by the New School as by the Old.

Now, it is impossible that I should have, in any way, directly or remotely, implied that this theory was held by the New School branch of the Presbyterian Church as a body, because I never believed that to be the case, and was never, for one moment, tempted to suggest such an idea. That theory is credited to the names of Drs. Fiske, Jenkyn, Beman, and Mr. Barnes, and to sundry eminent theologians of New Eng-land. The only names of men connected with the New School Presbyterians mentiond are those of Dr. Beman and Mr. Barnes Atonement." The phrase "New School" loes not once occur in the book, except in the midst of a long quotation from Dr. Fiske, (p. 328,) in which it was supposed to be used in the New England sense of the word, which is, by Old School men, understand stood to be a very different one from that intended when applied to Presbyterians of any class. All, therefore, that was implied in the book was that the New School branch of the Presbyterian Church has from the beginning tolerated, in two of her distinguished members, the profession of the "Governmental Theory." Professor Park, in his work on the Atonement, declares that this theory, styled by him "Edwardean," is held by a large party of the Presbyterian Church but that I have never said nor "implied."

I wish earnestly that Dr. Smith would say upon what grounds he judged the book "im-plied" that the "Governmental Theory" was the New School theory. Was it because although "in some of its features it is a unanimously repudiated by the New School as by the Old," yet, in other of its distin-guishing features, it was really recognized as truly representing the opinion of his de-nomination? I did not imply this. Bu Dr. Smith's notice does appear to imply it; and since the Doctor is believed to represent the soundest and most numerous division of occasion to Old School men an uneasines hey did not feel before.

Or did the Doctor find the implication in the fact that the names of Dr. Beman and Mr. Barnes are associated with the teachers of this doctrine? Are they, in such a sense, representative theologians in their branch, that the assertion that they teach a doctrine is equivalent to an assertion that the New School Church receives it?

These are the questions which Old School men are now asking, and in view of which they will certainly act. We insist that answers to them should be definitely and auhoritatively given, and widely circulated. At the close, Dr. Smith suggests that I hould "revise the book, and allow New School men the benefit of their disclaimers There can be no "disclaimers" where there are no charges. I shall be happy to revisithe book when permitted by the publishers

and seventeenth centuries.

To this "Explanation," Dr. Smith sends to the Presbyterian the following reply:

To the Editors of The Presbyterian :-As Dr. A. A. Hodge of Allegheny Semina-

ry has addressed me indirectly through your columns, in connection with your republication of my notice of his recent work on the Atonement, I must rely upon your courtesy to publish a reply to his questions.

Dr. Hodge seems to be surprised that I said that he "implied that the Governmental Theory of the Atonement was the New School "view. He says: "It is impossible that I should have, in any way, directly or remotely, implied that this theory was held by the New School branch of the Presbyte member of the Joint Committee), whether rian Church as a body, because I never be lieved that to be the case, and was never for in that Declaration would be regarded as one moment tempted to suggest such an

I must confess that I am quite as much surprised by this statement as Dr. Hodge appears to have been by mine. Certainly, very many Old School men (see, for example, the Princeton Review, October, 1867, p 672,) have charged the New School with holding or sanctioning this theory. And Dr. Hodge's work on the Atonement has been loudly proclaimed to be an able vindication of the Old School, and refutation of the New School view. In what part of the book is the alleged New School theory stated as still insisted by all New School men must and refuted, if not under the Governmental Besides, Dr. A. A. Hodge, in his Outlines

of Theology (1860), p. 301, says, that "the advocates of the Governmental Theory of the Atonement, which is distinctively New now, in addition to common and equal terms, England and New School, agree with the Socinians in their fundamental propositions.' To whom does "New School" here refer? If to "New England," it is superfluons. In reviewing these Outlines, in The American Theological Review, 1861, p. 195, I took exception to this statement, interpreting it as intended to include New School Presbyterians; and so, I suppose, did almost all readers of the work. I called upon the author to name any prominent New School theologian or minister, who held to these "Socin ian propositions." No reply was made to this; and in the issue of the Outlines, dated 1868, the statement stands unaltered. Had I not then some good ground for believing Messrs. Editors :- Dr. Henry B. Smith of that the author of the work on the Atone the Governmental Theory?

But as he now says that he "never believ d" " that this theory was held by the New School as a body," we must grant that we were honestly and entirely mistaken. He also adds, that he has "hitherto hoped" the the work, that "it gives an exposition of what it terms the "Governmental Theory," and which it implies to be the New School theory was the "same" with his "own," and with that "common to Lutery, which we are certain, in some of its features would be a processor of the same of the course, then, so far as the doctrine the nature of the Atonement is concerned, there has been no reason in his own mind why the two Schools should remain apart. This is certainly a welcome assurance.

But it seems that my notice of his work has somehow clouded this hopeful state. In trying to account for what he considers my misunderstanding of his position, Dr. Hodge asks: "Was it because, although [the Governmental Theoryl in 'some of its features it is as nnanimonsly repudiated by the New School as by the Old ', [as I had said it was]. That denomination was never once con-sciously alluded to in that department of yet, in other of its distinguishing features the work which treats of the "Nature of the it was really recognized as truly representing the opinion of his denomination? And he adds, that "that fact, if not remove ed, must occasion to Old School men an un easiness they did not feel before." That is to say, before I wrote that notice, Old School men had no special "nneasiness" on this point; now they have. I have nnconscions ly betraved a doctrinal laxity in the New School which the Old had not suspected. And Dr. Hodge "earnestly wishes" me to explain the meaning of his own mysterious intimations about these supposed doctrinal defections.

As I have already shown how I came to that awkward misconception of his real views, there is really no necessity for my answering his vague suppositions. But I will try to explain even these, as the only valuable object of controversy is a good mutual understanding. The "Governmental Theory" is so vague,

that it is stated quite differently by Dr.

Hodge himself in his Outlines, and in his

work on the Atonement. As ascribed to "the New School" in the Outlines, it is said to include the two "Socinian propositions," 1. That sin does not intrinsically deserve unishment," and "2. That there is no principle in God which demands the punishment of all sin for its own sake alone." These propositions would, I am snre, be repudiated by the New School as much as by the Old. Nor do I think that this theory would be sanctioned by the New School, so far as it implies that benevolence (as the love of happiness) is the essence of virtue; that the Atonement is an expedient for moral impres sion; or, that in the Atonement there is no proper satisfaction to divine justice. But onnected with this theory are other points also held by its advocates, yet held, too, by many who oppose it on the above grounds,

faction to general justice; and that it provision sufficient for all mankind, and de? signed so to be. Are these the "other dis tingnishing features" to which Prof. Hodge so cautiously refers? If they are not, should be truly obliged to him, if he would say what he supposes them to be. If they are, -as I had already stated them distinct. ly in my notice of his work, and in the way of objection and reply, -why did he not object to them, when he had so good an opportunity? His silence, I trust, may be taken as evidence, that he, as well as yourselves, Messrs. Editors, do not find in these points any bar to a cordial reunion.

Dr. Hodge also wishes to know whether Dr. Beman and Mr. Barnes (whom alone of New School divines he had named in this connection) "are in such a sense representative theologians of their [onr] branch, that the assertion that they teach a doctrine is equivalent to the assertion that the New School Church receives it?" To which very general inquiry I might simply and safely reply in the negative, on the ground of mere common sense. But the subject is too important to be left in this form.

For one, I have steadily declined to discuss the question of reunion on the basis of the opinions ascribed to any man or any school. For on such an issue the debate might be endless, would be personal, and could only result in making reunion impracticable. At the same time, I need not say to any honorable man that the New School will never accept terms of reunion which can be construed as casting any disparagement on these distinguished men, or as implying that they are not to be received into the full and cordial fellowship of the reunited Chnrch. We are to come together "as independent bodies, and on equal terms," or not at all.

Referring to the above queries, Dr. Hodge adds: "These are questions which Old School men are now asking, and in view of which they will certainly act. We insist that answers to them shall be definitely and authoritatively given, and widely circulated." 'We insist!"-Who insists, and to whom? In negotiations for reunion we confer as 'independent" and "equal," as our Joint Committees say. And, for one, I do not know what right the Old School, or any one in it, has to insist on explanations, in terms which imply an assumed superiority. The Old School opened these negotiations. If it "insists" on something more, we must do the same. If you demand special guarantees, so shall we. If you ask us formally to renounce the opinions of certain men, we too must ask that the distinctive Old School theology shall be formally declared not to be the sole test of ministerial fellowship. And so we have all the old disputes back again, just asif we inherited from the past only its feuds, and not its wiser lesson of the need of a

higher faith and a better charity. But the real friends of reunion will make to such domends; for to make them is to defeat their best intent. Believing that reunion may and ought to be effected, they will use the means which alone, under Christ's guidance and blessing, can heal our discords, and give us true unity in the bonds HENRY B. SMITH.

New York, May 15, 1868.

Freedman's Union Commission.—A correspondent writing from the Sonth, whose letter we published two weeks ago, drew a contrast between the agencies at work in that region for the Freedmen, and the results which would follow the different methods of operation adopted by the Freedman's Unions Commission, and the American Missionar Association. Speaking of the former, he said: "It makes no pretension to a religious aim in its work," and employs "men and women of no religious pretensions; some even infidel," in its schools.

This statement being excepted to by the Commission, and its truthfulness denied, we have inquired of our correspondent, and so far as we can learn these are the facts in the case. The gentleman in question was travelling through the South in the employ of our Committee on Home Missions, studying the different methods there employed to educate and elevate the black race; and with neither preference nor prejudice in favor of either society, he gave such impressions of their agents and labors as he had derived from his own observations. This he did for the sole purpose of informing his own Church as to the best method of prosecuting its work among the Freedmen. On inquiry we find that his examination was diected to four principal points, and that his remark is certainly true of two of these : and may be of the other two, though his attention was not given particularly to the subject when visiting there. Now we think that these premises are too limited for so general a statement as our correspondent made; and as neither he nor THE EVANGELIST has any wish to throw the slightest obstacle in the way of the nsefnlness of any organization which is engaged in so good a work, we append the statement furnished us by the Secretary of the New York Branch of the Freedmen's Union Commission.

"The following tabular statement gives the religious character of the teachers under the Commission of the New York Branch : Baptist, 37; Methodist Episcopal, 30; Congregational, 28; Presbyterian, 10; Episcopal, 10; Dutch Reformed, 2; Wesleyan Metho dist, 1; Christian, 1; Unitarian, 7; Roman Catholic, 1; Swedenborgian, 1.

This is a fair indication of the character of all those who have been put into the field by the Commission; which indeed requires of its teachers only the Apostolic qualification "apt to teach," but which sends into the field only those who approve themselves for the post by the manifest tokens of that love to God and man, which Christ declared to be the sum of the law."

The Statue of Thomas H. Benton, for thirty years United States Senator from Missouri, will be inaugurated at St. Louis on the of the law in the sense of distributive jus- 27th inst., and unvailed by his daughter,

FOR THE EVANGELIST A GENTLE WORD.

BY GEORGE COOPER. A gentle word is never lost; O never then refuse one,-It cheers the heart when sorrow-tost, And lulls the cares that bruise one. It scatters sunshine o'er our way, It turns our thorns to roses, It changes dreary night to day, And hope and peace discloses.

A gentle word is never lost: The fallen brother needs it; How easy said, how small the cost, With joy and comfort speeds it. Then drive the shadow from thy brow, A smile can well replace it : Our voice is music, when we speak With gentle words to grace it !

#### THE ANNIVERSARIES.

The American and Foreign Christian Un ion. - The nineteenth anniversary of this Society took place in Steinway Hall on Thurs day evening, 14th inst., its new President, William A. Booth, Esq., in the chair. Seated about on the stage were many prominent clergymen and others known for their interest in home and foreign missionary efforts The exercises were opened with prayer by Dr. J. P. Thompson, after which the Treasurer, Mr. T. S. Young, read his report. From this it appeared that the total receipts during the year were \$138,526 44; expenses \$138,193 28, leaving on hand a balance of \$333 16. It having been thought desirable to change the financial year, it is noted that the income of the Society has been \$128,-000 in eleven months of this year, against

\$110,000 in the twelve months of last year.

The report of the Managers was next read by the Rev. Mr. Scudder. The following is by the Rev. Mr. Scudder. The following is an abstract of it: South America.—Before the past year we have felt compelled, by inthe past year we have felt compelled, by in-tolerant laws, to work mainly among the English-speaking people, and through them to reach the uative population. But now, lapse of time and change of laws enable us to go directly to the natives in their own language. This we have been doing the past year with nnexpected success, especially in Chili. Mexico.—The seminary established by Miss Rankin on the Rio Grande, in 1852, is in successful operation under the Rev. Mr. and Mrs. Park. Miss Rankin has gone to Monterey, a city of 40,000 inhabitants, and opened a much larger institution, with promise of extensive usefulness. She is also employing several colporteurs in the shrounding region. She hopes soon to have a Protestant chapel. Greece.—Here we have six missionaries laboring in Sabbath-schools, Bible-classes, day-schools for Cretan refagees, preaching the Gospel, and publishing two periodicals. The Paris chapel is now, through the liberality of friends in Paris, freed from debt and established on a good foundation. Italy is our main field. Nearly eighty native laborers have been employed there under the direction of two Ameri can missionaries. Twenty young Italians have completed their studies in the Society's Theological class at Milan, preparatory to reaching the Gospel. Hungary presents a most inviting field. An evangelist, a colporteur, and a Bible woman have labored there with good success. The Home Work has gone forward the past year with fully its nsn-al prosperity. The Christian World contin-ues to be received with favor. Fifteen hundred new subscribers have been obtained this year. In the Methodist denomination a new interest has been awakened by the la-bors of Rev. Dr. Mattison, and a number of the Conferences have already commended the cause to the patronage of their churches.

Rev. Leon Pilatte of Nice, France, then addressed the audience. Great changes, he said, were taking place not only here but in Europe. He was in this country eighteen years ago, and he felt grateful that now, on returning to it, that great stain on America, Slavery, had been removed, though at a terrible cost. He came now to ask for aid in evangelizing Frauce, and he hoped to meet with an earnest response Protestaut Christians. In from American had been lost to the nation. Once, under the Republic, they had the liberty of meet-ing and speaking, of writing and of printing, without which it was difficult to spread the Gospel; but now these were taken away Popery was, in his opinion, the cause of this loss of liberty to France. Those who had been taught to confide blindly in the priesthood for their eternal salvation could easily be prevailed upon to give up liberty for a fancied benefit. And as for the wealthy and intelligent classes who, twenty years ago, denounced the Church of Rome, they are not a whit more believing in her than they were then, but account it good policy to affect be lief and observe a strict outward conformity for the sake of keeping all things as they are. Wherever a despoism is established it seeks a priesthood, and wherever there is a priesthood it seeks a despotism. To this asy be attributed the increase of Catholic power in France. Even here he (the speaker) was not free, for he might, on returning France, be arrested should he say anything that might be tortured into disrespec for the Government, though his utterances were made across the ocean. Under the new law lately passed, and called a liberal one Frenchmen were allowed to meet and dis cons any question they pleased, provided it did not concern three things. These were politics, social science, and religion. [Laughter.] He appealed earnestly to the andience to aid in evangelizing France, for it would be useless to think of redeeming Italy while

there was a France wedded to the Papacy.
The Rev. Dr. H. H. Jessup was the next
speaker. In the course of his remarks he
touched upon the superstitions of the Greek and Romish Churche . The intolerance of the latter was notorious. But the former was more intolerant than the Romish Church. Trine baptism by a priest of the Greek Church was the only way of salvation, as the Greek Patri arch of Constantinople, of Antioch, or of Jerusalem, would tell you should you ask him. They do not believe that the Pope himself is in the way of salvation, having never been val idly baptized ! Ritualists were throwing away their time in attempting a union, unless they were prepared to give up everything. Allnding to the claimed infallibility, and especially the vaunted uniformity of the Romish Church, the speaker brought out the fact that all her priests in the Lebanon district, and they were in good and regular standing, were married men, in many in-stances with large families 1 This had been hundreds of years. Of late, however, now that information is becoming so diffused that it is likely to become notorious, and very detrimental to the "infallibility" theory of the Church, especially among its own celibate adherents, the Jesuits have been in that region, and have astonished the

Church, and of their zeal now largely concentrating upon this country. In the steamer he came here in were a considerable number ber of novices, not yet full nuns, on their way to Texas to become proselyting teachers. They were, some of them, from influ ers. They were, some of them, from intential and cultivated families of Ireland.

The next speaker was the Rev. Henry C. Riley, pastor of the Church of Santiago de Chile, of this city; he was followed by the Rev. Dr. Duryea of Brooklyn, who commenced by congratulating the Society upon its improved prospects, and then spoke of the importance of the work it had in hand. Although Rome was a master hand at crushing ont all thought and investigation, yet the speaker knew that the Italians were thinking in spite of all that, and ere long they might, as they saw the Pope's opposi-tion to railroads and agricultural societies— so that the plow of Cincinnatus was still nsed upon the Campagna—compare themwith other nations in that regard, and reach the conclusion that the Pope was as allible in religion as in his estimate of ma rathble in religion as in his estimate of material progress. It was customary to call this a frivolous age, but it was not. The universal mind of man was being waked up to think, investigate, and reflect as never before. Men were in dead earnest. It was the operation of the Spirit of God upon their basets.

Dr. Duryea having translated to the audi ence the credentials of Rev. Signor Georgio Appia, representing the Waldensian Church of Naples, that gentleman came forward and made a short address, concluding with asking the prayers of all American Christians in behalf of the efforts now being made to evangelize Italy. The benediction was pro-nounced by Rev. Dr. Cox.

nounced by Rev. Dr. Cox.
Subsequently the Directors met, and elected the following-named gentlemen as officers for the ensuing year: President, Wm.
A. Booth; twenty Vice-Presidents; Secretaries, Rev. J. Scudder and Rev. J. Glentworth Butler, D.D.; Treasurer, T. S. Young; and a board of managers consisting of forty

The American Congregational Union held its fifteenth annual business meeting in the Directors' Room of the Academy of Music, Brooklyn, on Thnrsday afternoon, 14th. Mr. A. S. Barnes, the Vice-President, occupied the chair. Prayer was offered by the Rev. William A. Bartlett, when the annual report William A. Bartlett, when the annual report Since the first opening of this institution 1,of the trustees was read by the Rev. Ray
442 orphans have been cared for and placed Palmer, D.D. The number of churches assisted and to whom pledges have been made are 352. The demands for assistance were are 352. The demands for assistance were in excess of that of any previous year. The contributions had also increased, and the Union was gradually gaining the position it the expenditures during the year ending Debought to occupy. There had been on the cember 1, 1867, were \$96,583 45, and that the receipts were \$102,992 64, leaving an ands of the Board during the year one hundred and twenty-three churches, of which seventy had been assisted. In 1857 one chnrch was aided; in 1858 two: 1859 nine: 1860 twenty-four; 1861 thirty-nine; 1862 eighteen; 1863 eighteen; 1864 twenty-two; 1865 twenty-three; 1866 thirty-three; 1867 fifty-nine; 1868 seventy. The great field of labor was referred to, and the report closed.

Mr. N. A. Calkins, the Treasurer, reported the total receipts for the year at \$59,846 72, all of which had been expended or pledged, save \$62. The Union elected Rev. Leonard Bacon, D.D., of New Haven, Ct., as President of the plant of the plan dent ; twenty-four Vice-Presidents from different sections of the country, and twentywo trustees.

The Academy of Music was crowded in the vening at the annual social reunion of this organization. The services consisted of addresses by Senator Wilson, the Rev. H. M. Storrs, D.D., the Rev. Henry Ward Beecher, the Rev. C. H. Malcolm of Newport, R. I., and the Rev. Leon Pilatte of the Evangelical church at Nice, France, and the singing of hymns by the congregation, cou-ducted by Mr. T. E. Perkins, accompanied by an orchestra under the direction of Mr. H. B. Dodworth.

H. B. Dodworth.

Almost precisely at 7½ o'clock, the hour announced in the order of exercises, the meeting was called to order by the Rev. Ray Palmer, D.D., who introduced the Chairman for the evening, the Hon. Henry Wilson, U. S. Senator from Massachusetts. The hongentleman was enthusiastically welomed, and, as the audience relapsed into si-

ence, said : LADIES AND GENTLEMEN: I am grateful for the privilege of meeting with you to-night, and of participating with you in the pleasures of an occasion like this. The ob-ject for which you have assembled has aleady been announced, and surely that obect is in the spirit of our Divine Master We come together to-night to express our sympathy with our brothers of all denomina tions, and to express our devotion to the cause of our Lord, to aid in spreading true Christianity all over the Republic. Our heavenly Father has given us our being in this magnificent country in the land of boundless resources, to be developed for human happiness and human progress. In our land are brought together the people of every nation, and to them we all give welcome. The borders of our country continue to advance, until they embrace now six-eighths of the clobe, and will soon in the providence of God, embrace the larger portion of the North American Continent. (Applause.) Men and women from the Old World are flocking to our shores to find homes and to build up free institutions. We welcome them to the blessings of our democratic institutions and to our Christian civilization. We have no established church. Here the cause of Christianity rests on the voluntary will of the peo-ple. Alluding to the South, the distinguish-ed speaker said that we of the North, and East, and Northwest are obligated to come to the succor of a country trampled down by the iron heel of war — a people broken by power—to an emancipated race. There is a mighty work for the Christian men and women of this country to do. (Applause.) We want to be, in the first place, just to all portions of our countrymen—to maintain the rights of the poor and lowly, and, no matter what it costs, to maintain these rights. Those who have been broken and defeated by our battalions, let us teach them that we em-brace them in affection. These acts are the growth of our Christian civilization, and in that spirit we assemble here to-night, and may God bless our efforts for good on this occasion. (Applause which was continued for some time.)
Prayer was next offered by the Rev. Mr.

Clapp of the Home Mission Society, and at its close the Chairman in poduced the Rev. Church, the speaker brought out H. M. Storrs, formerly of Cincinnati, but now of Brooklyn, who spoke in a very acceptable strain, concluding with the remark that enthusiasm for humanity must possess that enthusiasm for humanity must possess tian means. This was the only safety. It the various evangelical denominations if they are to grow and increase in the affections of the people Christian means. tions of the people, Christian work, rather than sacraments, will be the salvation of the than sacraments, will be the salvation of the country. In consequence of the indisposition of the Rev. Dr. Hall, which prevented that gentleman from attending the reunion, the Rev. Henry Ward Beecher was presented that gentleman from attending the reunion, the Rev. Henry Ward Beecher was presented that the forces of combined the Rev. The Brookiyn Woman's Temperance Assoclation.-The first annual meeting of the ton in the Chair.

Rev. Mason Gallagher read the annual report, from which it appeared that 562 ladies had signed the pledge and had enrolled their names as members of the Association during the year. Addresses were delivered by Rev. T. L. Cuyler, D.D., Mr. Allen Thompson of Cincinnati, and Rev. Dr. Bud-

Opening of the New Colored Orphan Asyium.-The children of the Association for the Benefit of Colored Orphans assembled for the first time in their new building on Tenth avenue, corner of One hundred and forty-third street, on Thursday last, the 14th inst. The exercises commeuced at 11 o'clock, and at 12 they marched in double file to their old quarters on One hundred and at which all the officers and managers of the fifty first street. After partaking of a substantial dinner they marched back to spend numerons carriages at the door showed that President. The exercises opened with praythe wealthier people of the city had not forgotten them since their home on Fifth venue was burned by the rioters in 1863. The exercises were interesting and the singing unusually good. In counection with the children's exhibition several lady managers of the Association held a fair in the building, which seemed to draw considerable patronage, and the visitor not unfrequently saw well-dressed young ladies buy large plates of son. The infant class was assembled in a

front room under the care of its teachers. in comfortable homes. The present number of inmates is 253,—107 of whom are girls. The ages during the past year have ranged amount of \$6409 19 on hand. Only three deaths have occurred among the boys, and none among the girls. One hundred and eighteen of the pupils can read with ease and 114 write. In every department a rigid economy has been practised, and a bill of all expenditures presented each month to the Board for examination. The Association is not sectarian, still the precepts of the Gospel have been daily taught. Insubordina-tion is rare, and the rod seldom used. The pitch pine, polished and oiled. The rooms are large and well ventilated. The utmost

order and neatness prevails throughout, Mr. William E. Davis is the Superint-Indent, and Mrs. Jane McClellan matron. In the cellar is a steam engine, which furnishes all the power required in the different departments. The basement is fitted up with all the conveniences of a hotel, which include a steam anndry and drying and washing room; adoining is a kitchen complete in all that pertains to first-class cooking arrangements Here also are large bathing and dining rooms. On the ground floor is the nursery, together with commodious class rooms, par-lors, offices, and reception rooms.

dumb-waiter, and also a fire-proof passage-way, paved with blocks of colored marble, thus rendering escape easy in case of fire. On every floor are small, square doors, con-uccting with pipes which lead into boxes below. When cleaning the house the servant has only to sweep the dirt into the tubes, through these little doors, where it falls in to the receiver below. A finer view can no where he found in the vicinity of New York han from the observatory of the Asylum.

The New York City Mission and Tract So ciety held its forty-first anniversary in Dr. John Hall's church in Fifth avenue on Friday evening last. Its venerable President, Dr. Thomas De Witt, occupied the chair, and after singing and the reading of the Scriptures, opened the proceedings with prayer. Mr. L. E. Jackson, the Corresponding Secretary of the Society, then read the annual report, the main facts of which we gave last

The Rev. George J. Mingins, also officially connected with this organization, then addressed the large audience present, saying in the course of his remarks, that if Christ ever reigns supreme in this city of wealth, folly and sin, it must be through an army of Missionaries. He thought the work of Christianizing the people should be done chiefly by the church members. The 65,000 Christian men and women would find employment enough if they look around them. In the Fourteenth Ward with a population of nearly 30,000, there was not a Protestant church with English preaching. In conversation with the Rev. Newman Hall, the latter in-quired concerning the means taken to amuse the people. The speaker was in favor of recreation, and he was much pleased with the success of a concert given by the "Philharmonic Society" to over 1000 persons. He also favored secular lectures, as the useful information imparted was thankfully re-In England, it was true, people came to the mission houses on account of the refreshments. In this country, such

people are not to be found.

After singing Rev. Dr. Duryea spoke. said that every Christian is a witness and a messenger of the truth. All are below the standard of the Gospel until they are converted. Wheu men are so far below the Christian plaue they should be raised up by Chrisdestroyed the Roman Empire. The Greeks had art and wealth, but nothing was for the masses. England at present was creaking ing and advising against the ancient custom.

The speaker alluded to the ubiquity and rising power of this order in the Romish ing power of this order in the Romish.

The speaker alluded to the next speaker, and after this classes, and of look ingoring the laboring classes, and of look ingo of ignoring the laboring classes, and of look in eed a persevering appeal to their reason to ignoring the laboring classes, and of look in eed a persevering appeal to their reason and their good feelings to induce them to image of the south, and claim of water, had been fully proved. The rights free the Constitution from the remains of ingly of the white people of the South, and claim.

y the Rev. Leon Pilatte of France, who iso pronounced the benediction. was the result. The negro had made the war, and the fact cannot be denied. [Applause.] People who ride in their carriages and look down upon the poor should be reminded that a day may come when the wheels may be Brooklyn Woman's Temperance Association ed to walk on foot. Once before travel was took place at the Packer Institute on stopped by the uprising of the populace, and Thursday afternoon, 14th, Rev. Dr. Budingon foot. The American nation must esteem the hnmble. Christians must have more regard for them as a part of the body of Christ. The unity of life is like unto the Banyan tree, which sends its influence from the parent trunk to the farthest shoot. The speaker concluded by exhorting his audience to imitate the lowlines of Him who washed his dis

ciples' feet.
The Rev. H. D. Ganse followed, and also spoke well, as he always does. He urged in-creased effort, and cited as an encouragement the fact that the income of this Society had increased 95 per cent. in four years, proceedings closed with the doxology. The

The American Bible Society .- The fifty econd anniversary of this Society was held at Steinway Hall, on Thursday morning week, beginning at 10 A. M. (A business meeting had been previously held at the Bible House. preceding year were re-elected.) Mr. Norman White occupied the chair at Steinway the afternoon in singing, speaking, &c. The Hall, in the place of Mr. James Lenox, the er, the large audience repeating the Lord's Prayer in concert. Henry Fisher, Esq., read the Treasurer's report, setting forth the year's operations as follows: Total receipts \$723,106; life directors constituted, 121; life members, 2313; new auxiliaries recognized, 107; whole number of auxiliaries, 2032; books printed at Bible House and in foreign lands, 1,305,347, including 315,525 Bibles, 643,336 Testaments, in about fifty different languages and dialects; total issued among the children in the class rooms. Several speeches were made in the course of the day, which though good, seemed rather out of place when compared with the sweet singing. The larger boys and girls occupied a commodious room looking out on the Hudson. The infant class was assembled in a different languages and dialects; total issued and circulated in the year, 1,187,194; total in fifty-two years, 23,855,120 volumes; Bible Society Record circulated, 481,513 copies; books sold, 904,282—value, \$490,482; books donated, 105,179—value, \$33,285. General result of canvassing—families visited 60% 357; destitute of the Scriptures, 64,767 supplied, 83,380; refused to receive, 16,312 whole number of families visited in two years, 1,201,605, of whom 101,300 were without Bibles. The Society employs 42 agents, 239 assistants, and 24,480 voluntary local agents, besides about 50 colporteurs in for

eign lands.
The Rev. W. J. R. Taylor then read the Managers' report. During the past year two Vice-presidents have died, Hon. Reuben H. Walworth of New York, and Hon. W. W. Ellsworth of Connecticut; also two Managers, Daniel L. Ross, Esq., and Dr. Isaac Wood of New York. The following were

the resolutions adopted:

Resolved, That the Bible, as supremely the book for to-day, demands of us renewed and unfaltering activity in its more extended and efficient circulation.

Resolved, That the benefactions of the American Bible Society to the people of the South and Southwest should be recognized as strengthening the bonds of amity and Christian union, especially when manifested in their day of suffering and sorrow.

Resolved, That the ascertained results of the third general supply of the whole country with the Word of God indicate the wisdom of this great work, and the necessity

for its vigorous prosecution.

Resolved, That the recent translations of the Bible into the languages of millions of our race in the East, and the marked providential openings for its wide distribution, call for devont gratitude and a continued enlargement of the foreign Bible work.

Resolved, That the diviuity of the Word, as shown in its preservation and diffusion, claims the united efforts of all Christian

people iu support of the Bible work.

Hon. Lafayette S. Foster was the first speaker to these resolutions. He contrasted the condition of the Society fifty years ago with what it was to-day, and spoke of the good results which had been achieved during that period.

that it was a book that afforded living instruction and light to the world.

Rev. Dr. J. E. C. Doremns, of New Oreans, spoke as a representative of the Sonth ern Bible Society, and stated that the benefactious of the American Bible Society were

deeply appreciated in his own section.

Rev. Dr. George S. Savage, of Lexington,
Ky., spoke of the great destitution at the
South, which reached an average of twenty per cent, of the population. In certain districts it attained sixty, and even eighty per cent. The spiritual destitution was greater than the material. Many districts have no Bibles or Testaments whatever. In speaking of the religious and educational elevation of the freedmen, he said they were duggish and superstitious, and slow in realizing the consequences of their new position.

Their elevation, he thought, was a work of great delicacy and for sound discretion.

Rev. Dr. H. H. Jessup, of Syria, said that the recent translations of the Bible into foreign languages called for enlarged efforts on the part of the Bible Society. He gave an exceedingly interesting address upon the state of the Mohammedan religion in the Holy Land, and upon the spread of Chris-

tianity there.

Hon. William A. Buckingham, late Gov ernor of Connecticut, spoke in relation to the reports of the Manager and Treasurer, especially on the fact that many families in the country were without the Bible, which he much deplored.

Brief remarks were also made by Rev. Dr. Hutton, New York; Rev. Mr. King, Balti-more; Rev. Dr. George W. Wood, Rev. Dr. Vermilye, and Rev. Dr. Canfield. The ben-clicities was the superior of the services of the services. ediction was then pronounced and the mee ing adjourned.

The American Equal Rights Association. The second anniversary of this Association was held on the 14th, morning aud evening, at the Cooper Institute, Mrs. Elizabeth Cady Stanton in the chair. The attendance was very large, and many of those present were ladies, who evinced a deep interest in the discussions.

A letter was read from Hon. John Stuar Mill, in which, among other things, the writer says that "there is no true Democracy when large classes of the community are denied equality of political rights. Every government which permanently divides its people into a governing part and a governed part, is an aristocratic government, by what-ever name it may be called; and I am convinced that the people of the United States of both parties, are capable of seeing this, and attached as they both are to the general principles of democratic government, only

hitrary disqualifications."

Addresses elaborating these sentiments were delivered by Elizabeth Cady Stanton, Lucy Stone, Rev. Olympia Brown, Henry Blackwell, Frederick Donglass, Col. T. W. Higginson, Ernestine L. Rose, Mrs. Kingubury of Pennsylvania, Rev. Dr. Blanchard, and others. Several pieces of music were sung by the Hutchinson family. The Convention finally adjourned sine die.

Relief of the Crippled Poor of New York.

The fifth annual meeting of the New York Society for the Relief of the Ruptnred and Crippled, was held on Thesday evening, at the rooms 39 Bible House. R. M. Hartley, Esq., Corresponding Secretary, read a report, in which was given a most favorable statement regarding the new hospital which is about to be erected on the corner of Lexington avenue and Forty-second street. The lots for this building have been paid for, and The lots for this building have been paid for, and about \$60,000 is in the treasury for the building fund. About as much more will be necessary to complete the edifice. When completed the crippled children of the poor will be admitted for treatment, and educated during the period of detention. Many patients afflicted with paralysis of their limbs will be detained from three to four years in the institution. years in the institution. Hip disease, white swelling, spinal disease, and other ailments, will require from six months to two years to arrest the disease. There is to be attached to the hospital an extensive manufacturing department, by which the Society will be enabled to supply the adult poor with trusses, laced stockings, and other surgico-mechanical appliances, gratis. A report was also read by Dr. Jas. Knight, the resident surgeon, in which it was said that with the assist ance of Drs. N. M. Shaffer and J. S. Warren over two thousand patients had been relieved dur-ing the past year, at 97 Second avenue. One hird of these patients were crippled children un der 12 years of age, about 200 of whom were afflicted with scrofulous disease of a serious char-acter, and which could only be treated successfully in a hospital, as the parents of these children reside in confined apartments, and are in such indigent circumstances as to be unable to obtain suitable nutriment or necessary dressings; yet many of these children will be saved from pendent and lonely life. The report also stated that nearly seven thousand patients had been treated during the past five years, and that other institutions availed themselves of the privi lege of sending to this one for bandages and treat

The following gentlemen were elected officer for the ensuing year: President, John C. Green; Vice Presidents, James Lenox, Geo. Griswold, John David Wolfe, Stewart Brown, and A. R. Wetmore; Treasurer, Jonathan Sturges; Corresponding Secretary, Robert M. Hartley; Recording Secretary, Otis D. Swan.

The African Colonization Society.—A public meeting was held on Tuesday evening, the 12th, at the Presbyteaian church, Fifth avenue, near lineteenth street, in behalf of African coloniza tion. The proceedings were opened with prayer by the Rev. Dr. Haight, and after the reading of the report, addresses were delivered by several gentlemen, among whom were the Rev. Dr. Hall, the Hon. Chas. W. Beekman, and the Hon. W. C. Alexander. The latter gentleman opened his remarks by saying that several years ago while wandering in the Crystal Palace in this city he saw a case from Liberia containing some specimens of her manufacture. This showed that Liberia wishes to give evidence that she wanted to take her place among the Christian countries of the world. In 1817 the Liberian Society was founded, amid considerable doubts as to its success. In England, when the early settlers were setting out for America, encountering all the dangers and perils of the sea and forest, they were met with doubt and scoff, but they succeeded in founding a glorious republic. The Africans here who had knowledge of Christianity would be the means of bringing the Gospel to their brethren in Africa who had not the knowl-edge of Christ, and would probably be the founders of a great and prosperous community of civil-ized Christians. The speaker dwelt on the irrepressible conflict of race which at present exists plessione connect of race which at present exists in the country, and the impossibility of placing on a social equality two people of such different races as the Caucasians and Ethiopians, and that Africa is the only spot where the negro can hope for a perfect social and political equality—the latter of which in this country is only secured to ood results which had been achieved during hat period.

In speaking on the resolutions, Rev. Dr.

In speaking on the resolutions, Rev. Dr.

In speaking on the resolutions, Rev. Dr. Henry C. Potter (the new rector of Grace church) quoted the observation of an unbeliever upon the Bible, and maintained of her colored citizens to a land where they may enjoy all the rights of freedmen. He drew a graphic picture of the horrors of the slave trade,

and stated that in the year before the Society was founded, 120,000 slaves were exported from Africa, one-third of whom were committed to the deep in the horrid middle passage. Suppression of this traffic became necessary to establish Christianity—but cruisers, etc., were in vain, as avarice evaded all their efforts. The little colony of Liberia did more than everything else to effect its suppression, for by its influence no slaver dar-ed carry on his trade for 140 miles along its coast. The heroes of history cannot lay claim in his es timation to the title of greatness so much as Ash land and Cannon, who planted the standard of Christianity and liberty in Liberia, and laid the foundation of a Christian empire. Ashland's ca reer was an extraordinarily romantic one. He risited Liberia to see a dear friend, and found the settlement menaced with annihilation by a native prince. He placed himself at the head of the spirit of high endeavor and of manhood, so that his little colony of fifty, ont of which there were only twenty-five fighting men, repulsed the onset of 1600 savages. This was nearly fifty years ago, and now civilization has spread among these erce tribes and the work of Christianity has narched gloriously on.

Rev. John Hall, D.D., was the next speaker

He said that when this society was formed, friends in Europe gave it support. In England the idea of establishing colonies in different parts of the world had advanced considerably, and it was not nreasonable to suppose that a society such as this should be supported not only by voluntary contributions but by State aid.

Mr. James W. Beekman urged that it could

not be thought of for a moment to force the black population to leave America. If they wished to to the land of their forefathers the society would do alf it could to help them in doing so. The speaker put forward some arguments t prove that it would be possible to cultivate the fields of the South without the help of the black

The American Missionary Association. The American Missionary Association.—
The twenty-second anniversary of this institution was held at Steinway Hall on Tnesday evening, 12th, Lewis Tappan, Vice-President, in the chair, After reading the Scriptures and prayer, Secretary Geo. Whipple read the yearly statement. The reports from the six foreign (branch) missions, located in Africa, Siam, the Sandwich Island and Market Missions. ands, and among the Western Indians, were upon the whole quite encouraging. Since the beginning of the late civil war in this country, the principal labors of the Association have among the freedmen. During the present fisca year, 479 missionaries and teachers had been sen o the South, at a cost of about \$375,000. Th amount of expenditures in all the branches of the Association for the year, will be about \$400,000. Addresses were delivered by Rev. L. W. Bacon, Rev. Dr. Z. Eddy, John M. Langston, and David

the old system of privileged orders and ar- ed that with all the education that had been for years showered npon their wealthy sons at the great colleges of the North, they had never addgreat colleges of the North, they had never added one page to the world's literature, with the exception of William Gillmore Simms, and that this people should stand up and say "the nigger won't learn," was one of the greatest practical jokes of the age. He also doubted the Christianity of both the white and black races at the South, and thought that beneath the show of religion by the blacks, there lurked some traces of the fetich worship of the native Africans, and it was now time that the Gospel was preached to them.

John M. Langston, a colored man, was next introduced as "a gentleman who had been offered by the government the position of Commissioner of the Bureau of Freedmen and Refugees and Abandoned Lands, but who declined it and took Abandoned Lands, but who declined it and now a subordinate office under General Howard as General Inspector of Schools of the Freedmen's Burean." He said it was true he had declined the position as stated, but it had not been offered Johnson, and he had never seen the day when he would accept an office at his hands. Certainly Johnson would offer him (laughter)—because he believed him to be the worst man now on this Continent. (Applanse and hisses.) His (the speaker's) position now as inspector, under his chief, General Howard, was one he liked, because it brought him in contact with the colored records. it brought him in contact with the colored people, in whom he took an interest, and whatever he stated aere he said from his own standpoint as a colored man, and claimed especial consideration for that reason. He then proceeded to say that the blacks of the South were doing very well, all things considered, and the Church at the North had sent their very best men and women to minister to them. Ask the lady teachers why they go there, them. Ask the lady teachers why they go there, and they could not tell, but somehow or other they felt that the spirit of the Lord was within them, and they suddenly found themselves teaching in the South, surrounded by negro children. The colored people needed education, and it must be considered from three standpoints: first, they needed the introduction of letters among them, for coming out of slavery as they had done, they know very little about letters, and their normal schools even now were schools in which the ele-mentary studies only were taught; second, they needed to be instructed as to the importance and ecessity of accumulating property. needed to be taught that property had a moral as well as a local value. They were now extravagant of their little means; their women "dipped snuff," and almost every man chewed and smoked tobacco, and thought it was just right to take a littlelliquor. These practices of chewing, smoking, and drinking needed to be checked, and the Burean, to further this work of reformation in this particular among them, was organizing in their schools what they called the "Vangnard of Freedom," the scholars being urged to sign pledges holding them to abstain from the use of snuff, es notang them to abstant from the use of soul, liquor, and tobacco. "We have, another pledge, which would be an excellent pledge for you to have in your white schools—we pledge our chil-dren to use no vulgar language either in their schools, at home, or in the playground." The colored people at the South also needed to learn what it was to get power, and to save their power; and he was glad to see that they were fairly In conclusion he nrged npor in this direction. his audience that, having entered upon the work as they had done, they must not faint by the way, but must educate this people that they might be-come citizens. If they failed in doing this, they

must take care lest the people they thus neglect become a dangerous element in their midst. Mr. McCrea, who stated that he had come to this country from Scotland for the sole purpose of making observations throughout the Northern of making observations throughout the Northern and Southern States, hoped that teachers employed by this Association would give the Southern people no cause for continuing the complaint which he had heard made by them, namely, that these persons were not there for the purpose of educating and elevating the negroes, but rather to inflame them with bitter feelings towards the whites, and to incite them to injure in every possible way their former masters. The meeting closed by singing a hymn and the pronouncing of the benediction.

National Temperance Society and Publication House.—This Society celebrated its third anniversary on Wednesday evening at Cooper Institute. The copions and perhaps sympathetic fall of rain, somewhat thinned the attendance. Wm. A. Booth, Esq., occupied the chair, and the Rev. A. T. Thompson opened the exercises owing results of the Society's labors during the year ending April 31, 1868. It has published year ending April 31, 1868. It has published 110,255 copies of the National Temperance Advocate, 663,015 copies of the Youth's Temperance Banner, 72,000 eight-page tracts, 865,000 four-page tracts, 12 new books and pamphlets 26 four and sight page tracts. 000 four-page tracts, 12 new books and panipulets, 26 four and eight-page tracts, 15,000 copies temperance chimes; total pages printed since the organization of the Society, 27,238,754. Receipts of the past year: Publication department, 200, 200, 26; donations, \$7,662, 37. Total recepts of the past year: Publication department, \$28,398 86; donations, \$7,662 37. Total receipts, \$36,061 23; expenses, \$37,188 07. Total receipts for publication since the Society has been in operation (two years and five months), \$52,457 84; total donations, \$25,211 46.

The Chairman introduced the Rev. Dr. T. De Witt Talmage of Philadelphia, who said that though he came from that one-horse village, he could assure the audience that it is the equal of New York in the number of its lagerbier and rum shops—between six and seven thousand—and its drunkards. A raid was recently made upon one of their celebrated breweries, and in the bottom of the vat there were found about two bushels of rats, a fitting foundation for our Philadelphia ale (langhter). The grandest law ever made he considered to be the Maine law, The grandest law whose author they had with them on the stage to-night (applause). But this law could not be enforced in many—certainly not in most—of the cities and towns of our land. And no law can be enforced that rises higher than public can be enioreca that rises nigher than public opinion. Hence the necessity of educating the public mind up to the point. The speaker recommended the erection of inebriate asylums all over the land, to save the drunkard, and closed vith a poetic encouragement to trust in God and

do the right. The Hon. Neal Dow, author of the Maine The Hon, Neal Dow, author of the Maine Liquor Law, was then introduced. He believed it impossible in general to reform drunkards permanently. He had known men to refrain from the intoxicating cup for several years, but afterwards they had fallen into a greater depth of degradation than before. And there are abundant evidences that interpresence can call he restanting evidences that intemperance can only be restrained by law and the healthful education of the people. Father Matthew, the great Irish tem perance reformer, had public opinion on his side in his day, and could have had the sale and manufacture of intoxicating drinks prohibited alto-gether in Ireland. But he failed to do this, and now the Irish are proverbially an intemperate people. Mr. Dow continued to show the sity of a prohibitory law in this and other States of the Union, and expressed the belief that the public opinion of this State would sustain such a law, though that of the city would not. We legislate to prevent crime and punish criminals, but we license the rumseller to incite men to commit the greatest crimes in the category. Why is this? he asked. Simply because prohibition would interfere with some men's ease to get their drinks. He considered rumselling a crime greater than theft, counterfeiting, or even marder itself, and why should it not be placed above these in the category of crimes and be punished accordingly? The people of England great are of the category of the category of the second are of the category of the people of England great are of the category of the people of England great are of the category of the people of England great are of the category of the people of England great are of the category of the people of the peop ingly? The people of England spend annually eighty-eight millions of pounds sterling for intoxicating drinks, and sixty-six millions of this sum

pnnishment of drunkards, Mr. Dow showed that the law was inconsistent in that it punished only one party to the crime. This practice has failed np to this time, and must always fail until the pnnishment is equally meted out to the rumseller and the rum drinker. How long, he asked, would the proprietors of the Fifth Avenue, the constitutional law. God send this nation on the law and other hotels, sell liquor, if they. would the proprietors of the Fifth Avenue, the St. Nicholas, and other hotels, sell liquor, if they, as well as the drunkards they make, were sent to Blackwell's Island for sixty days or six months? [Applause.] The speaker related incidents of effective cures having been made by this kind of treatment, and closed his remarks with a few humorons incidents bearing upon the enforcement of the law in Maine and elsewhere, and showing that jails, almhouses, and asylmms are the legitimate offspring of the rum traffic. Prohibit the former, and we shall not want the latter of the law in Maine and elsewhere, and sylmms are the legitimate offspring of the rum traffic. Prohibit the former, and we shall not want the latter of the law in Maine and elsewhere, and sylmms are the legitimate offspring of the rum traffic. Prohibit the former, and we shall not want the latter of the law in Maine and elsewhere and sylmms are the legitimate offspring of the rum traffic. Prohibit the former, and we shall not want the latter of the law in Maine and elsewhere, and sylmms are the legitimate offspring of the rum traffic. Prohibit the former, and we shall not want the latter of the law in Maine and elsewhere, and sylmms are the legitimate offspring of the rum traffic. Prohibit the former, and we shall not want the latter of the law in Maine and elsewhere, and sylmms are the legitimate offspring of the rum traffic. Prohibit the former, and we shall not want the latter of the law in Maine and elsewhere and the law in finitely more inexorable than Republican law in the hands of a law infinitely more inexorable than Republican law in the hands of a law infinitely more inexorable than Republican law in the hands of a law infinitely more inexorable than Republican law

J.D., Cyrus D. Foss, and J. B. Dnn, and Messrs.
J. N. Stearns, Horace Greeley, and Wm. E.
Dodge, and Gen. Joseph S. Smith were appointed delegates to the Cleveland Temperance Convention. A proposition to repeat the anniversary in Boston was referred to a committee. Thanks were voted to Lieut-Gov. Woodford and Mr. F.
G. Foster of New York, for their earnest endeavers as health of the Excited Law. ors on behalf of the Excise Law.

The American Tract Society.—The forty-third anniversary of this Society was held on Wednesday morning of last week in Dr. John Hall's church, a business meeting for the election Hairs chirch, a business meeting for the election of officers preceding the customary services. In the absence of Bishop McIlvaine of Ohio, President of the Society, Mr. A. R. Wetmore occupied the chair. The Rev. Dr. Phillip Shaff opened the proceedings with prayer, after which the Treasners's and Secretaries' reports were read, from which we gather the following facts:

\$4000 for sales. This year, 1867-8, the donations and legacies to this Society have been \$118,white states and Tigris. The Society also printed during the year, 1,072,780 volumes; 9,335,934 publications. Total printed in forty-three years, 22,877,379 volumes; 296,808,887 publications. Printed of the American Messenger, 164,000 monthly; Child's Paper, 350,000; Botschafter,

families without the Bible. The Society has to see that in any measure of reconstruction the made grants to its foreign and domestic Indian suffrage be secured to men and women alike. grants to its foreign and domestic Indian snffrage be secured to men and women alike, one during the year amounting to \$10,000. You may depend upon it that it is the only way by which was no secure a section of leating and the property of the property of

The reading of these reports was followed by addresses by the Rev. Dr. Talmage of Philadelphia; the Rev. Mr. Reilly of South America; the Rev. Dr. Hall; the Rev. Dr. Sawyer of France, Agent of the Paris Tract Society; Wood of Chicago.

A partial union has been effected between the

Boston and New York Tract Societies, by which the former withdraws all its collecting agencies from the home and foreign fields, and the latter ceases its publications in Boston. It is hoped that by and by a more perfect union will be con-

The American Anti-Slavery Society held its thirty-fifth anniversary in Steinway Hall, on Wednesday morning, 13th. Various of the well-Wednesday morning, 13th. Various of the well-known representatives of this phase of anti-slavery sentiment were present in the meeting and upon the stage. The President of the Society, Wendell Phillips, Eq., called the meeting to order, and said: "We have assembled here to-day in the thirty-fifth annual meeting of the American Arti Sparey Society and certainly in views." in the unity-nith annual meeting of the American Anti-Slavery Society, and certainly in view of the events ripening around us there could not be a more decisive week in which any organization designed for the protection and aid of the black race could assemble. Hanging in the balance of the political issues of the day is the comfort and processes if not the satural rights of the fort and progress, if not the actual rights of the negro for the next ten or twelve years. We are passing through an honr which in all human probability is to give color and complexion to the political phase of the next one or two administra-tions. If the cowardice of party, if the unscra-pulonsness of individuals, if the interest taken in other questions, if the absorbing corruption of the coming Presidential canvass, turns aside the present movement, no man can prophesy where we shall stand in another twelve months, how we shall stand in another twerve mounts, how large will be the effect on public conscience, on the dominant party, on the status of the great question which the war seems to have decided. We are bound to remember that triumphant as the loyal masses seem to be, there are five millions of unappeased and unappeasable enemies watching the nation's course, determined to take watching the nation's course, determined to take advantage with vigilant malice of every opportunity to recover their lost cause. We have always said on this platform that it would be a marvel in history if one decisive battle, such as that which has been fought in the last five years decided finally the relation of the great races on this continent. If when we next meet, or during the next four years all that we have gained by the war is saved, it will be a record unparalleled in history, it would be a tribute to the progress, the energy, the virtue of democratic government, such as no epoch in any clime can show. We can hardly hope for it, we have no right to expect it. Only by the most arduous toil and the most tireless vigilance, can we expect to save even a large portion of what we gained by the war. How much that portion shall be this week that is coming, or the next thirty honrs may de-termine, and it seems to me that no gathering of abolitionists and watchmen on the advanced towers, endeavoring to gnarantee beyond doubt the 'You are all alone, I guess I'll walk in.' tornado swept over large portions of Illiposition of the colored race on this continent was. In walked a short figure, enveloped in a nois and Iowa on Sunday, the 3rd of May.

comes from the pockets of the workingman. But the English people are now aroused on this subject and a reform is sought. In regard to the ject and a reform is sought. In regard to the ject and a reform is sought. In regard to the ject and a reform is sought. In regard to the ject and a reform is sought. But though Presidents betray punishment of drunkards, Mr. Dow showed that it is, and Senators fail of their duty, no thoughtful and she was very much frighten.

ter. [Applause.]

The Rev. James B. Dunn, Secretary of the N.
T. Society, followed Mr. Dow in some brief remarks, after which the venerable John Marsh, D.D., prononneed the benediction.

The business meeting of this Society was held in the morning, at the Society's rooms in William street, the Rev. Dr. Cuyler presiding. Among other business, the Revs. Theo. L. Cuyler, D.D., Cyrus D. Foss, and J. B. Dnnn, and Messrs.

J. N. Stearns, Horace Greeley, and Wm. E. Sound at heart understands the circumstance of the past year confident that though betrayed by its Senate, the nation is still by the proportion of the past year which the proposed and dopted. The following are the most important ones:

Resolved, That we congratulate the friends of the negro race everywhere on the vast stride the proposed and dopted. The following are the most important ones:

Resolved, That we congratulate the friends of the negro race everywhere on the vast st

Resolved, That while in the legislation of Congress and its attempts toward an amendment of the Constitution, the political status of the negro is still nusettled, and while terror reigns through-out the Scuth, we consider the naked right to vote at the peril of life almost, if not altogether, a mockery, and we hold Andrew Johnson and Congress responsible for this perilous condition of public affairs, and this disgrace to a great na-

tion.

Resolved, That if the Senate acquit Andrew Johnson, they cannot set aside the nation's verdict that he is guilty; it will only join itself to him as disloyal, and as betrayers of the trust committed to its hands in cold blood, as he had done in hot and drnnken passion.

Resolved, That we demand of the Republican

party, at Chicago, a man who represents the most radical and advanced purpose of the loyal people, and that he stand on a platform which shall gua-antee to the negro by constitutional sanction, imwhich we gather the following facts:

During the 43 years of the Society's existence its progress has been sure and steady. In 1822 the total receipts of all the tract societies in this country were but about \$2500 in donations, and country were but about \$2500 in donations, and such legislation as will secure him a homestead such legislation as will secure him a homestead

tions and legacies to this Society have been \$118, 000; the sales \$400,000; total, \$518,000. It After an address by Mr. Charles C. Burleigh, has stereotyped nearly 4000 publications, including about 800 volumes. Ten of the Society's agents have died during the year, including one from the Publishing Committee, three Vice Presoidents, two Directors, and four missionaries. The Society has issued 197 new publications in English, German, Spanish, Portuguese, and Armenian, 87 of which are volumes. Miss West of the Fester Turkey Mission prepared a kind of having volunteered to take up the President's counsel. His man, 87 of which are volumes. Miss West of the Eastern Turkey Mission, prepared a kind of tract primer in Armenian, entitled "A Key to open the Bible, or Easy Lessons for Beginners," the profession of law than even the heathen and of which the Society printed 20,000 copies, to be distributed among all the Armenian towns and villages along the Black Sea and the rivers European and Tirris. The Society also printed the matter. [Appended at the Ben Wade side of Parties and Tirris. The Society also printed the matter. [Appended at the Ben Wade side of Parties and Tirris.]

the matter. [Applause and laughter.]
Miss Mary Grew of Philadelphia, next spoke
at considerable length, and she was followed by

Mr. Burleigh.

The Convention throughout the day was well Printed of the American Messenger, 164,000 monthly; Child's Paper, 350,000; Botschafter, or Messenger in German, 32,000; total periodicals monthly, 546,000. Publications on the Society's list, 3981, of which 802 are volumes, besides 3834 in 141 languages and dialects approved for circulation abroad. Gratuitous distribution for the year, \$56,696 83, in grants to missionaries and Christians in foreign lands, to the shipping for foreign ports, and to seamen's chaplains, to boatmen on our lakes, canals, and rivers, to the army and navy, to the freedmen, mission Sabbath schools, &c. The receipts and expenditures during the year have been as follows: Receipts from all sources, \$519,614 95; expenditures, \$517,979 85; balance now in treasury, \$1,635 10.

During the year, 273 colporteurs have labored in connection with the Society in 23 of the United States and in the adjacent British Provinces. They held or addressed \$229 religions meetings, made 254,862 family visits, conversed on personal religion or prayed with 179,117 tamilies, found 31,748 Protestant families who habitually neglected evangelical preaching, 14,603 families of Roman Catholics, 14,356 destitute of all religions books except the Bible, and 8212 Protestant families without the Bible. The Society has made acrount to the sake of their toil. Now is the time to see that in any measure of reconstruction throughout the day was well attended, nearly two thousand people being present during the vencies. Another meeting was held in the evening at which Col. T. W. Higginston, Anna Dickinson, Wendell Phillips and Mrs. E. Cady Stanton spoke. The latter said, in substance, that the question of the day was on what basis reconstruction should be placed. They (the women party) had looked to the abolitionists to give them the key note of reconstruction. She had known that Wendell Phillips was a believer in universal suffrage, and had looked to him to give forth that grand broad idea of their duty with the Abolitionists because they have not been true to their own ideas

### The Children at Home.

GOD IS HERE. BY MRS. S. T. PERRY.

Annie Grant's mother worked in the factory. She had to be in her place, at one of Annie always had the breakfast dishes to the water.

'What makes that black mark on the 'What makes that white 'What makes that black mark on the 'What makes that whit was 'What makes that white was 'What makes that white 'What makes that white 'What makes that white 'What makes that white 'What her dinner up in a little basket and walked a mile to school. When she got home at night she made the fire, got the water in the water rises and rises, until it reaches that tea-kettle boiling, and the table set for supper, for her mother did not get home until away the stone until the mark is cut into six o'clock in the evening.

One night, when Annie had everything rung an half hour before, and she knew work hours were over. She wondered very I wondered how they came to be there, until much why her mother was so late. It was growing dark, and she could only discern by the fire-light the furniture that was in the room. She did not wish to light a candle, because once, when she was alone, she bent so near the blaze as to have her hair catch the blind, and turned her face away from on fire. Her mother told her not to light a the window. O dear me! what a face it was! candle again until she got home. Annie The blue eyes were full of frowns instead of candle again until she got home. Annie smiles, the pleasant lips were drawn up in smiles, the pleasant lips were drawn up in an ugly pout, and the queer little marks on the forehead had deepened into actual wrintick, tick,' and made her feel very lonely. kles.

She called 'pussy, pussy,' but pussy did not come. 'She has gone visiting,' thought you will feel when you grow up, to have your face marked all over with the tide.

Darker and darker it became, and Annie could not see anything out of the window, when she had just gone to look to see if her mother was coming down the road. She sat down again by the fire. The wind howled, and shook the doors and windows. Annie's little heart beat very fast. 'I needn't be afraid,' said she, as she put her little hand over the place where her heart throbbed so wildly, 'for God is here, and he can see me

if it is dark.' first she was afraid to open it, then she thought it must be some of the neighbors.

'How do you do?' said a gruff voice. 'You are all alone, I guess I'll walk in.'

this must be one of the worst kind.

behind the stove, and when she heard her mother's step on the stoop she jumped up, exclaiming 'My mother has come.' Then she ran and lit a candle. In the middle of the minister, the services were postponed. This church was also entirely demolished. The tornado extended to Iowa, and occafloor stood this ugly-shaped figure, hanging sioned great loss of property in the vicinity his head.

'Who is this?' said Mrs. Grant, lifting up the large hat.

Annie saw in a moment that it was Sar 'I was only playing a trick on Annie,' he

said, looking very much ashamed. 'Very serious trick,' said Mrs. Grant. look how pale Annie is.'

Sam Dresser sneaked off, looking foolish enough. Mrs. Grant stopped in to see Mrs. Dres-

ser, who was sick, and Sam took that opportunity of playing what he called a trick on

The next night, just as she had finished setting the table, she heard a knock again. Her mother had told her that she might lock the door, and not open it until she knew who it was. 'Who's there?' said Annie, as she stood listening through the key-hole. 'Me,' replied a voice.

'I guess I sha'n't let you in, Sam Dresser, she replied, 'you may go home.'

'O Annie, do! I am not dressed up now want to talk with yon. Sam spoke so kindly that Annie opened

the door. 'Annie,' said he, 'I'm sorry I frightened you last night, I'll never do it again. I've been thinking all day what you said abou

God's being here.' 'Didn't you know before that God was verywhere ?' asked Annie.

'Yes, but I never thought much about it

birds, neither did he knock the little boys caps off coming home from school. All this change was brought about by Annie's simple reply, 'God is here.'

Let every child remember that wherever there too, that there is ness to him:

Sam was very kind to Annie after that, and often came over to sit with her when her mother was detained from coming home.

#### TIDE MARKS.

It was a low tide when we went down to Bristol, and the great gray rocks stood up bare and grim, above the water; but high up, on all their sides, was a black line that seemed hardly dry, though it was far above

'O,' thought I, 'that is all, is it? Well. I One night, when Annie had everything have seen a great many people that carried ready for supper, she sat down by the fire to tide marks on their faces. Right in front of wait for her mother. The factory bell had me was a pretty little girl, with delicate fea-

> presently her mother said,
> 'Shut down the blind now, Carrie, the sun shines right in baby's face.'
> 'I want to look out,' said Carrie, in a very

eevish voice. But her mother insisted, and Carrie shut

Annie, 'and won't come home until after marks of passion;' for these evil tempers leave their marks just as surely as the ocean does, and I have seen many a face stamped so deeply with self-will and covetousness, that it must carry the marks to the grave.

Take care, little folks! and whenever you give way to bad temper, remember the 'tide marks.'—Lee.

CYCLONES AT THE WEST .- A fatal cyclone covering a width of half a mile, passed over portions of Davidson and Williamson counies, Tenn., Wednesday afternoon, 6th, sweep ing away houses, trees, and fences, for a dis wildly, 'for God is here, and he can see me if it is dark.'

Just then she heard a rap at the door. At first she was afraid to open it, then she thought it must be some of the neighbors, and opened it.

'How do you do?' said a gruff voice.

'How do you do?' said a gruff voice.

'How do you do?' said a gruff voice. ter was turned keel upwards. Also a fearful

great overcoat, that dragged on the floor, and a slouched hat, so much too large that it fell over his nose. Annie could not see him very well, and she was very much frightened; she could not imagine who it could be.

'Why don't you light a candle, sis, 'said the gruff voice.

'My mother told me not to light a candle until she came home.'

'O you are all alone then!' until she came home.'

'O you are all alone then!'

'No, I am not alone,' said Annie in a trembling voice.

'Who is here, then, sis?'

'Somebody,' replied the child, that time with confidence, and with no tremble in her with confidence, and with no tremble in her voice.

'I don't see anyhody here: so just lights.

First it was perfectly still, and then a noise was heard in the distance as of the roaring of a mighty cataract. The windows began to shake, and some one called out from his seat, "Mr. Hurd, a bad storm is coming up." The minister answered, "Never mind the storm; there is a day coming when there will be a storm compared with which this will be nothing. I will be through soon."

Just then the hail and wind commenced hereaking in the window lights, and in all. 'I don't see anybody here; so just light a breaking in the window lights, and in all and let me search about and see what candle and let me search about and see what I can find.' The gruff voice spoke louder than before.

'God is here,' said Annie, 'he will see what you do, and he will take care of me.'

'Pooh!' replied the gruff voice.

'He won't let you steal our things, and he can strike you dead in a minute if he can strike you dead in a minute if he on every counterance. Suddenly the crash ne can strike you dead in a minute if he on every countenance. Suddenly the crash obleases, 'said Annie, very bravely. The strange looking person began to clump about the floor in quite a defiant manner.

Annie did wish her mother would come; she had heard of robbers, and she thought some had skulls broken, others arms, others received internal injuries from which they can never recover. There are several who Just then her mother did come. Annie did not receive a scratch, but nearly all were had rolled herself up in a ball on the floor more or less injured. Services were to have behind the stove, and when she heard her been held at the same hour in the Metho

#### Ayer's Sarsaparilla. FOR PURIFYING THE BLOOD

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or ness. Scrofulous poison is one of the most destructive emeies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebing or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercless may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and at length, cure, by the use of this Sarsaparilla. It advisable, alternative that the though complaints generally find immediate relief, and at length, cure, by the use of this Sarsaparilla. THURSDAY MORNING, MAY 21, 1868.

A Volume on Missions. - The Secretary of the Beard of Missions of the Presbyterian Church (O. S.), has prepared a volume giving the history and position of each one of its stations. The biographical, historical, and statistical intelligence which it embodies will not only make it valuable to the friends of the missionaries of the Board, but also as a book of reference. A large number of portraits and drawings impart additional interest and value to the volume.

The Rev. Albert Barnes.-We regret to see it stated that the Rev. Albert Barnes is suffering from a renewed and serious difficulty in his eyes, which threatens total blindness. He has been obliged to write with the aid of a machine such as was used by Mr. Prescott. change, compared with our expectations, His blindness is not yet total; but there are which twenty-five years had made in our apalarming indications, increasing rather than pearance and manners. Recognition was diminishing, that he may yet become, like so many other literary laborers, "a blind old since we parted in 1843. Of course there were man." He will scarcely be able to be at marks of care and streaks of silver, and a Harrisburgh. His presence would be grateful, however, should he not feel able to dis. All wore beards, a few were somewhat bald; charge his duties as a commissioner. He is forbidden even to think. Gardening is his

That Ex-Parte Resolution, a Myth. - The projoined letter will, to say the least, create surprise, and demand important explanations in some quarters. As the "turn of the tide," of which we have recently heard so much, was, if really a fact, mainly produced by the statement referred to, it may be presumed this development will check it before the low water mark is reached. The letter is addressed to a well known minister of our the cause of truth:

"CAMDEN, N. J., May 13, 1868. "REV. S. W. CRITTENDEN: Dear Sir, I thank your for calling my attention to an article that appeared originally in The Presby terian of your city, and has been copied into other papers, relative to a resolution, said to have been adopted by the Old School portion of the Joint ( ... Presbyterian Union Convention, Cherry Fork, Ohio. - Ageeably to the call of Revs. Gibson and McDill a "Presbyterian Union Convention" met in the Brick church, Cherry Fork, Ohio, on Wednesday, April 26th. It continued two days. Its sessions were presided over by Revs. Crothers, Campbell, Gibson, Gilmore, and Edmonson. The convention was a grand success. Much time was spent in devotional exercises. The discussions were marked by Christian courtesy and kindness. Good delegations from the Old School, New School, and United Presbyterian churches, and we were also cheered by the presence of a number of our Methodist brethren. It was good to be there. The andiences were very large. The following paper was adopted, only a very few voting nay:

1. It is the duty of all Christians to labor and pray for the restoration of visible unity to the whole Church of Christ.

4. The Presbyterian denominations in and practice as the Christians were in the

days of the Apostles; therefore, Resolved, That these denominations should enter into organic union, each retaining the right to maintain its present views and practices, but not making its distinctive

QUARTER CENTURY MEETING AT AUBURN.

The recent Commencement week of the Theological Seminary at Anburn, N. Y., will long be remembered by a few of the class of 1843. We met for one of those reunions known only to classmates. The pleasure is peculiar, affording some foretaste of that future gathering, when all the people of God shall come together for everlasting fellow-

The meeting was as nearly informal as was consistent with the object for which we met. We had no late supper, formed no proces sion, and made no display. We simply met in the senior recitation room in morning and afternoon session, for that look at each other, and that talk with each other, and that prayer and conference together, which our ong separation had so thoroughly prepared as to enjoy.

The order adopted was, first, for the members present to give, each in turn, a brief sketch of his ministerial life; and second, to gather from letters and from each other all the information possible, with reference to the absent dead. Of these sketches and reports notes were taken by a secretary appointed for the purpose, with a view to their preservation in permanent form for the use of the class. No particular account of them can be given here. We must confine ourselves to such general observations and reflections as were deeply impressed upon us.

The hours passed only too rapidly. We could as easily and delightfully have spent twelve honrs together as four, and yet not become either surfeited or weary. Among the things that impressed us was the little instant, even by those whose had not met somewhat slackened step and altered form. some had grown stout, but so much were we, after all, like our former selves, that we almost forgot the years that had separated us, and felt that we were students again, under the venerable Richards, over whose death we mourned during the last Seminary term.

But while we were delighted to find our selves to be the identical classmates of former days, we were still more pleasantly impressed with the improvement which life's work and discipline had wrought in us. We spoke not a word of it, but we could discov er it in the developed mind, the easier dig-Church, with the liberty to use it so far as nity, the more tender heart, the broader he may judge its publication will promote views, the more single purpose, the more unselfish consecration, and the more matured Christian man.

Another impression more grateful still was the great aggregate usefulness of the class. Nearly every brother reported converted children-in some instances all converted. labor any length of time in the ministry rehad settled in important cities of the older States and some in the growing places of the Great West, and on the Pacific shore, and was present at the 'separate meetings' of had an important part to perform in foundthe Old School Committee; and beyond ing the institutions, and forming the sentiquestion his correction is right. No such ments, and determining the character of resolution 'as that referred to in the article new and populons States, so that it would in question was ever adopted. The records be safe to say that, through the labors of the whole class, as far as we could estimate, thousands must have been gathered into the Presbyterian and Congregational churches,

Another impression made clearly upon "If you think this statement will correct us was the wisdom of the great Master in employing such a variety in the ministry. tificate from that body, with a request to be No two alike, yet all alike useful. Some had been pioneers all their ministerial life, fitted to it and liking it. Others had been in city churches all through their ministry, naking their power felt in the centres of population, wealth, and influence. Others still, designed and fitted for rural work, had been steadily and usefully filling their important mission. Some who loved controersy had been called to do good service in battling for the right in the line of Church polity and missionary activity. Some (one Brayton, all graduates of Hamilton College specially), who had been laid aside by illhealth, making themselves most useful as the latter in Union Theological Seminary lay members of their village churches, and employing such leisure as they could command in writing for literary and religious reviews, and making their pen do the work denied to their tongue.

Another impression made upon us, and as delightful and instructive as any, was the various working of the same Spirit, in building up the Church of Christ.

Brethren as opposite as our variety could furnish had been equally useful in very different ways, and with very different lines of 2. Complete uniformity in belief and policy. Some had worked for a revival as practice does not exist, and cannot exist the one grand means of Church edification among Christians on earth, and is not requisite to Christian union and fellowship.

3. Forbearance in regard to same differences is a duty taught plainly in the word of God. and progress-beginning systematically and on the contrary, never worked for a revial as the country are as nearly agreed in doctrine an end, but had kept gathering in converts at their regular communions, and had probably received as many to the church as their

revival brethren, and with less reaction. Yet both classes were just as dependent on the one Spirit, and apparently equally principles laws for the consciences and con- blessed! The moral seemed to be, that every

minister must work in his own way. Jewish Convention. - The ninth annual Another impression pleasantly made upon Convention of the Board of Delegates of us was, the desirableness of the ministerial

gogue, New York. Resolutions were adopt- known to have left the ministry for secular ed favoring the furtherance of Jewish edu- employment. Of these, two are known to cation and theology, directing the Board to have become teachers, doing in their sphere

they who have moved the most frequently equally with those whose home had been ermanent. Even one who said his fortune at this "School of the Prophets," have been had always been to be in quarrelling churthis year of unusual interest, in conseches, looked as if abundantly contented with his profession. If the brethren had fessors, Rev. H. A. Nelson, D.D., and Rev.

not from superior talent, or prudence, or the Commencement exercises, Dr. Nelson's would exchange it for any other.

through long and nudoubted repentance, had again fallen into intemperance, and died a drunkard! All that could be said in their favor was said, as we asked, in view of our own escape, "Who has made us to differ?" But a sketch of these impressions would

be very imperfect without one other, viz: the real work of the ministry-the conversion of souls. All our other successes seemed to us as nothing. The sheaves we had gathered were the trophies of our toils and prayers, which, above all others, we would carry up from the wide harvest-field with songs of joy. No ministry should be satisfied without them.

Under impressions like these we parted to meet again at the anniversary of 1873. And the mingled emotions this adjournment roduced impressed us profoundly and delightfully with the blessedness by-and-bye of the final reunion around the Common Master. There those now absent would all be should now follow and sustain them with his present. Even the dead would be there. And that joyous reunion would never break up! Whoever may live, or not live, to meet final gathering cheered us as we parted for

Among the pleasures of our meeting was the evidence everywhere visible of the prosperity of our beloved Seminary. The examinations of the classes were of a highly satisfactory nature-sustaining abundantly the reputation of her able professors. The appearance of the grounds and of the several halls, no less than of the students themselves, indicated a degree of thrift most creditable to the Institution, and to the churches which have contributed to its prosperity. Beantifully situated, neatly furnished, and strongly manned, we were thoroughly satisfied with it, and convinced that our sons, seeking the ministry, could do no better than to follow the footsteps of their fathers.

our widely separated homes.

In behalf and by request of the Class, T. D. H.

Presbytery of Utica. - An adjourned meeting of this body was held on the 11th inst., in the chapel of Westminster church, Utica, when David J. Biggar, a licentiate of the Presbytery of Cayuga, was received on cerordained to the ministry. Rev. Elizur N. Manly, the Stated Supply of the Presbyterian church of Camden, was also received from the Presbytery of Genesee; and Rev. Cyrus M. Perry dismissed at his own request, to unite with the Presbytery of Cayuga, having received a call from the church at Jordan, where he is at present preaching, as a Stated Supply.

Mr. John D. Jones of Utica, Mr. Wallace B. Lucas of Cortlandville, and Mr. George -the two former students in Auburn, and presented requests for licensure. After a thorough examination on the several parts of trial, which were unanimously systained

they were duly licensed to preach the Gospel. Mr. Biggar having passed a satisfactory examination on those parts of trial which are required for ordination, a call from the church in Verona was put into his hand, and having signified his acceptance of the same. Rev. Dr. Fisher and Rev. Messrs. Haines and Dunham were appointed a committee to make arrangements for his ordination and installation. Presbytery adjourned to the time of their semi-annual meeting in June. at Vernon Centre.

S. W. BRACE, Stated Clerk. Utica, May 14th, 1868, Sunday-school Convention. - The tenth anqual Convention of the Minnesota State Sabbath-school Association, is called to meet at Faribault, on the evening of Tuesday, June 16th, and to continue in session on Wednesday and Thursday. The State Committee, of which Mr. H. M. Knox is chairman, desire to make this their best Convention. Names of delegates should be forwarded to Prof. J. L. Noyes, Faribault, Minn. Attractive names are on the list of speakers, among them that of Rev. F. T. Brown of St. Paul, is down as certain to be present, and Rev. T. Ralston Smith, D.D.

An- Institution. I could but feel that, as Auother who in early life had been dissipated, burn had entered on a new career of prosperity with the inauguration of its new Professors some fifteen years since, so Lane was about to enter upon a similar career of prosperity with the inauguration of these brethren in its Professorial chairs. This Seminary is the only hope of a ministry for the West, so far as our Church is concerned. Central New York, for the most part, employs nearly all the graduates of Auburn. from year to year. It is only after a few years that some of us drift northward. The West must rear and educate its ministry, or he without one. In this view, it is of the highest importance that Lane Seminary should grow and prosper. It was with this

prayers. Laboring together with them, are Professors H. Smith, D.D., of old a worker in this five years hence, the glorious hope of that Institution, and every inch a Professor, and Rev. L. J. Evans, a graduate of not many years back, but already proved a workman worthy of the place he holds.

view, largely, as I understand, that Drs. Nel-

son and Morris consented to leave churches

to which they were devotedly attached to un-

dertake this new line of duties. It is in

this view, that every friend of our Church

The examinations in the several classes began on Saturday the 9th of May. If there were any want of enthusiasm in some of the exercises, on the part of the young men it must be accounted for, doubtless, by the fact that the two Professors who had labored alone during a great portion of the year, were unable to impose as much work upon the classes as they needed for their own good. Of course such a defect will be easily remedied by the present full corps of Professors.

The exercises of Commencement day, Thursday, May 14th, were most fittingly crowned and classed by the fine Inaugural discourse of Dr. Nelson.

Not in many years before, have the friends of Lane Seminary been more hopeful than at the present. Only let the churches, presbyteries, and Christian families of the West, receive a theological training, which by the grace of God shall fit them to go into thes ripened fields and reap an abundant harvest to the gloryof His name. J. F. K. Columbus, Ohio, May 15, 1868.

in Jassy, Baken, and other places in Moldavia has been stopped by the authorities. Those who were compelled to flee from their homes have been allowed to return. Assassins and desecrators of the graves of Jews, who have perpetrated their outrages almost be rigorously punished.

Union Theological Seminary .- The graduating class of Union. Theological Seminary New York city, at their farewell meeting on Monday May 11th, formed a permanent class organization, and appointed a committee consisting of Thomas Paton, George U. Wenner, and Joseph M. Greene, whose address will be at the Seminsry, to whom the members of the class are expected to send all interesting statements relating to themend of the first year, and thereafter once in three years. After a very free and pleasant of future prospects, they unanimodsly adopt-

Whereas, we the members of the class of 1868 of Union Theological Seminary representing eight denominations of Christians, viz: Presbyterian, (New School) Presbyterian, (Old School) Congregational, Reformrian, (Old School) Congregational, Reformed, Methodist, Baptist, Episcopal, and Lutheran, are about to separate to our respec-tive fields of labor; and feeling that in our intercourse with each other no denomina-tional differences have at all marred our harmony and Christian fellowship, but that in all things we have been able to study and labor together in the things pertaining to the Master's kingdom, and feeling that fraternal intercourse can be maintained between the different denominations, therefore

Resolved, that we are more than ever persuaded of the oneness of Christ's people, that the freest Christian interconrse should mark their dealings with each other, and Gospel to the world.

Dedication.—The dedication of the Pres byterian church at Watkins, erected by the liberality of the late Hon. John Magee, took place on Thursday, the 14th inst. Sermon by Rev. Geo. D. Stewart of Burlington, Iowa; dedicatory prayer by Rev. D. Megic of Penn Yan. Rev. Messrs. Carr, Chichester, Stryker and Dr. Goertner of Clinton, took part in the services. In the evening of the

same day an able and interesting discourse was delivered by Rev. L. M. Miller, D.D. of Ogdensburgh. The sermon of the morn ing, and all the services of the day, were regarded by the large congregation present as eminently appropriate and satisfactory. The renting of pews in the new church has

already been very successful. This new edifice stands in the centre of the beantiful village of Watkins, upon an ample lot, and is one of the best specimens of Presbyterian village-church architecture anywhere to be found. It is built of brick with stone trimmings, slate roof, and graceful tower, with ample session and Sabbathschool rooms in the rear. No pains or expense were spared to make it substantial and enduring, but nothing was given to mere show, and herein, we think, the good taste of its donor was conspicuous. Its dimensions are ample and all its parts harmonions, chaste and neat, as befits the house of God. We congratulate its worthy pastor, Rev. F. S. Howe, and all interested, upon its dedication under such happy auspices.

The New Chapel of the New York Magdalen Benevolent Society, of Eighty-eight street, near Fifth avenue, will be dedicated on this (Thursday) morning at 11 o'clock. The exercises will be conducted by Rev. Dr. Thomas S. Hastings.

The Question of Sanity.—The laws regu The Question of Sanity.—The laws regulating the arrest and imprisonment of persons alleged to be insane, are attracting attention. Sorgeral payerspapers have such as tention. Sorgeral payerspapers have such as the committee of Home Missions, to go into the Synod of Missouri, where they will find a wide, important and inviting field of labor. May God bless them in their work. L. E. R. tention. Several newspapers have quoted from the article of Mr. Davis on the subject in the last Allantic Monthly. He goes so far gall's, have let the contract to finish the spire, and are about to place a large hell in the spire, as to assert that under the laws of some of the states, every citizen, no matter how sane. owes his freedom to the fact that no physician of his acquaintance has chosen, for any reason, to abuse the power which the law gives to him.

Missionary Arrival.-The friends of the Rev. J. Y. Leonard and wife will be pleased to hear of their safe arrival in New Haven. Ct., after an absence of nearly eleven years in Western Turkey in Asia. Mr. Leonard graduated at Yale, completed his theological course at Andover, and went out under the suspices of the American Board, being first stationed in Ceserea, where he labored for the first feur years. The remainder of the laboration of the persons nave been received into fellowship, near 200 of them on profession; over 500 children are in attendance upon the Sabbath-school; while the aggregate amount of the contributions of the people of the first feur years. the first four years. The remainder of the time has been spent in Marsovan. Owing to the magnitude of the field and the want of a sufficient number of associates and helpers his labors have been very arduous, and he returns to his native land by consent of the Board, for the recovery of his health.

A Meeting in behalf of the Indians was in which they held that every trader should be driven from the Indian country. . Good men should be sent to deal with the Indians. and they should be taught to cultivate the soil, and proper efforts made to civilize them, and this would put an end to Indian wars. A general committee, consisting of Mr. Cooper, Jonathan Sturges and others, was then appointed.

The General Conference of the Methodist now send on their sons, and they may there | Episcopal Church has been in session in Chicago since the first instant. As most of our readers are aware, there are three grades of Conferences—the quarterly, annual and general. The latter is a delegated body and assembles once in four years; each one of the fifty odd annual Conferences cleeting dele-The Funeral of Lord Henry Brougham, gates in the ratio of one to every thirty the eminent lawyer, reformer, legislator, and members. There are now at Chicago two ex-Chancellor of England, who died at his hundred and fifty-seven clerical delegates. rural retreat in Cannes, France, on the 9th and they will probably sit the month out. instant, at the age of nearly ninety years, All the nine Bishops are present, and prewas held at that place on Wednesday of last side in turn by seniority of office. Several days were spent in discussing the question Progress.—The persecution of the Jews of admitting delegates (some of them colored) from certain Southern Missionary Conferences.

Two reports were brought in, the majori ty one, admitting them to every right save that of voting, but holding their status in reserve for the present; and a minority one with impunity for a long time, will hereafter favoring their admission to full membership in this Conference. After a very full and spirited discussion the latter passed, amid no small demonstrations of enthusiasm. A great mass meeting in favor of lay representation is on the programme.

An Army Nurse Turned Missionary,-The

Hartford Courant relates that Jerrie Bell of

New Bedford, Massachusetts, went into the South as an army nurse, and when the war ended, remained there as a missionary. She is living at Hasbrer's Island near Cape Lookselves and their work, to be published at the out, off the coast of North Carolina-by no means an inviting field. This island is inhabited by some two hundred and fifty peointerchange of thought, feeling, and relation ple; descendants of a few families which came there from Martha's Vineyard in 1752. They are very poor, live almost entirely on fish, dwell in little huts which often contain but little room, and own the land in common without attempting to cultivate it. Miss Bell is working hard to civilize these neglected countrymen of ours. She has already taught the greater part of the children to read, and is now engaged in a resolute attempt to induce the grown people to "make gardens" and raise vegetables. To obtain her letters, see intelligent people, and attend divine worship, she has to cross to the mainland in a small sailboat. It will be seen that she has made great sacrifices, but she is not in the least inclined to give up her self-imposed work. We are sure that she will have the cordial good wishes of all Christian men and women, and that if anythat mutual sympathy and concert of action Christian men and women, and that if any-should govern their conduct in carrying the thing more substantial is needed, she will not have to ask twice in order to get it.

### Ministers and Churches.

Rev. A. Crocker, has removed to Coventry, henango county, N. Y. Rev. Ezra Jones has accepted a call from the Congregational church in North Evans, N. Y. Correspondents will please note.

Rev. H. Bushnell, late of Granville, Ohio, should hereafter be addressed at McMinn ville, Oregon.

Rev. D. M. Rankin, late of Spartansburg, Pa., has changed his field of labor to Great Bend, Pa., where he should be addressed in

Dr. Humphrey was installed as pastor of Calvary church on Tuesday evening. It was arranged that his brother, Rev. Dr. Humphrey, of Lonisville, should preach the sermon. Rev. Albert Barnes and Dr. March were to take part in the services. Phlladelphia. - The installation of Rev. Mr.

Stryker, recently of this city, occurred in the new Broad-street Presbyterian church in Philadelphia, on Thursday of last week.
If the arrangements were all carried out,
Mr. Stryker's father preached the sermon, and other parts of the service were performed by Drs. Wiswell, March, and Adams.

Grand Ledge, Mich.—Rev. E. F. Tanner, late of Pardeeville, Wisconsin, has received a call to the charge of two small churches in Michigan, Oneida and Grand Ledge, both in the town of Oneida, Eaton county, twelve miles west of Lansing, and in Lansing Presbytery. He has accepted the call to this interesting field of labor; and his address will be hereafter Grand Ledge, Mich.

Licensed to Preach. -At the annual meeting of the Presbytery of Delaware, held in Delhi, April 28th, Col. James Lewis, who has just completed his theological studies in Union Theological Seminary, was licensed to preach the Gospel. The examinations were very creditable to the piety and scholarship of the candidate. Brother Lewis and seven of his class are under appointment, by the Committee of Home Missions, to go into the Synod of Missonsi

Progress. - The Second Presbyterian and are about to place a large bell in the tower. Within a few months twenty-six mem-bers have been added to their fellowship,

Bloomington is growing fast, and the present house is becoming too small for the congregation. Enlargement by adding thirty feet to the rear of the present edifice is their only remedy.

Wharton street Presbyterian Church. — The fourth anniversary of this Philadelphia church was observed on the 3d. According to the statement of the pastor (Rev. J. G. Hamner), 274 persons have been received ple for the four years is \$10,000. It will be recollected that this church enterprise was started full blown so far as the church edifice itself was concerned, a benevolent lady having erected the handsome brown-stone bridding at her own areas. building at her own expense. The pastor was called and the doors thrown open, and the people invited, and above is recorded the successful result.

A Meeting in behalf of the Indians was held in the Cooper Institute on Monday evening, Peter Cooper Esq., in the chair, and Vincent Colyer, Secretary. Mr. Kilbourn of Iowa, and others made addresses, over the church of Salem on Wednesday, the 29th ult. The installation services were as follows: Invocation, Rev. J. C. Forsythe; reading of the Scriptures, Rev. J. A. Prime; sermon, Rev. A. D. Eddie, D.D., from John sermon, Rev. A. D. Eddie, D.D., from John vi. 44; constitutional questions by the Moderator, Rev. J. B. Hall; and the ordaining and installing prayer by Rev. J. Sewall. The charge to the pastor by his venerable father, Rev. Daniel G. Sprague, of South Orange, N. J., came from a full heart, and was deeply affecting. The charge to the people was by Rev. John Henry Brodt and was ple was by Rev. John Henry Brodt, and was worthy of the services that had preceded it. The occasion was a very impressive and hap-

> Red Wing, Minn.—Good Progress.—We have received eighteen into our church since the first of January, by letter and on pro-fession. The little band of six, organized as a church by Rev. J. W. Hancock, thirteen years ago, when Minnesota was a terri-tory, and when there were more Indians here than white people, has grown to a membership of nearly 150. The present house of worship having proved inadequate to meet the wants of the congregation very generous, self-denying efforts are being made o secure means enough to erect building, whose appointments shall be such as to add much to the usefulness of the

The founder of this church is now preaching to two thriving little churches in this vicinity, organized also by himself, in connection with each of which an effort will ere ong be made to erect a honse of worship.

Installed.—The Presbytery of Illinois met A. L. Brooks, late of Peoria, as pastor of the Second Presbyterian church. This church has been recently organized, and their pas-

has been recently organized, and their pastor begins his work with an experience of over twenty-five years in the ministry. He is in the prime of life, and has occupied important fields East and West.

The opening sermon was preached by the moderator, Rev. G. H. Robertson of Springfield, on Tuesday evening, from Eccl. ix. 10, at the close of which Presbytery took a recess until 2 P. M. of Wednesday. At the hour named the people assembled, and Preshour named the people assembled, and Presbytery proceeded to instal the pastor-elect. Reading the Scriptures and prayer by the Rev. A. McDougall of Bloomington. Ser-mon by Dr. A. Eddy of the Ninth church, Chicago, from Rom. xi. 13: "I magnify mine office." Subject, Magnitude of the Ministerial Office. The sermon was clear and logical in its divisions—written in a vigorous style, and well delivered. Constitutional questions put by the mod-

Constitutional questions put by the moderator. Charge to the pastor by Rev. George C. Wood of Jacksonville. Charge to the congregation by Dr. Glover, also of Jacksonville. Both charges were well conceived and delivered — enumerating the distinctive duties which belong to pastor and people.

These interesting services closed by singing, and benediction by the pastor. Elders, members, and others present took M.

ties which belong to pastor and people.

These interesting services closed by singing, and benediction by the pastor. Elders, members, and others present, took Mr. Brooks cordially by the hand, expressing their joy, and giving him a hearty welcome to his labors of love among them.

It was a memorable day to the little church at Decalur. They are at precent work.

at Decatur. They are at present worshipping in a public hall, but judging from the piety, energy, and benevolence of the members, and with so able and faithful a pastor to lead them, they will soon be worshipping God in a house of their own. May the relation of pastor and people be long, prosperous, and happy.

The Other Branch—
ELECTION.—Rev Charles Hodge, D.D.,
Professor in the Theological Seminary at
Princeton, N. J., has been elected President
of the Board of Foreign Missions of the
Presbyterian Church, in place of the Rev.
J. M. Krebs, D.D., deceased.

Congregational-CONNECTICUT CHURCHES. -Fifteen persons nited with the Congregational church at Middletown on the 10th. A number of these were prominent citizens and heads of families.

Rev. Mr. Potter, the revivalist, has been leboring recently and with great spaces.

Bev. Mr. Potter, the revivalist, has been laboring recently, and with great success, in Birmingham, Ct. Between thirty and forty conversions are reported there.

There is considerable religious interest in the churches in New Britain. On Sunday the 10th, there were some dozen or more taken into the South church, by letter and on profession of faith.

LOOKING AHEAD.—The Beneficent church in Providence R. I., Rev. J. G. Vose's, have added \$500 to his salary, and presented him with an endowment Life Insurance policy of \$10,000, payable to him when fifty years of age, if living; if not, to his family.

REV. ISRAEL W. PUTNAM, D.D., died at Middleboro, Mass., on Sunday morning, 3d, at the advanced age of 81 years and 5 months.

months. PROSPECTIVE FUNDS.—Mr. Ansyl Field of Portland, Me., deceased in Boston, left one half of his property in Spring street (valued at about \$4500) to Bangor Seminary and the Maine Missionary Society, after the decease

REV. FREDERICK H. ALLEN of Boston, has lately been installed as pastor of the Congregational church at Canandaigua, N. Y.

#### Deaths.

WALKEB-In Brooklyn, Monday evening, May 4th, Marian Walker, widow of Adam Walker.

LEAVITT-At Great Barrington, April 27th, MABIA CLABISSA, wife of David Leavitt. Why seek for line or sentiment Her goodness to portray? There is no language strong enough Her virtues to display."

Yet we cannot suffer such a life to fade away in the past, be buried in the silence of the tomb, without a few words of loving tribute to her memory. The warrior dies, and history is prompt and lasting in its re-cords of praise; the learned and the great cords of praise; the learned and the great are called away in the midst of their usefulness, and loudly sounds the voice of popular acclaim. Shall a battle, fought with death and sin, be won through Christ, a book with its title-page of "All Things for God and His Glory" be closed, its finis in heaven, and no appreciating voices be heard? Justice and love forbid. Mrs. Leavitt was wonderfully retiring in character, and shrank from marked demonstrations of any kind, even religious; her humility kept her always at the foot of the cross, and she ever sought the protection of the shield, never used the sword of Christian warfare. used the sword of Christian warfare. Ex ample was her battle cry; "Peace and good will toward men" her motto. With such characteristics, this disciple of the meek and lowly Jesus seemed only to exercise influence in the home circle, but since death has taken this true friend and generous benefactor many rear many realize that they factor, many, very many, realize that they were the better and happier when brough in contact with such a personation of Christian graces. Seldom does it fall to our lot to record such an instance of love for peacemaking as Mrs. Leavitt exhibited. she won the blessing awarded to those who "shall be called the children of God." Pre-eminently patriotic, this true woman felt her country's weal or woe to be part of her religious duty and interest, and occasional words of just severity would escape toward those she thought wilfully jeopardized a nation's welfare, but she never descended to bitterness, and was among the first to advocate "forgiveness, that divinest attribute of heaven," to our fallen foes. All this, and much more of "whatseever things are love-

the departing spirit.
God grant his comfort to those who mourn the loss of this good wife, fond mether, and untiring friend, for "Earth has no sorrow which heaven cannot heal."

much more of "whatsoever things are lovely," constituted a character ripe for heaven, but sadly needed on earth. The last

days of this life we vainly strive to deline-

ate, were marked by great physical suffer-ing—borne with fortitude and sweet submis-

sion to the Master's will. Ever a nucleus around which were gathered the most assid-

sympathy, in death it was the same circle of loving hearts which received the parting

look of wondrous affection bestowed on each

and every one heard the last drawn sigh of

It has faucet for drawing off the water, so that the water is no ning over the floor. The principles for preserving meats and fruits by this Refrigerator are correct."

This excellent Befrigerator is manufactured and for sale by

ALEX. M. LESLEY, 605 Sixth avenue, New York.

### CAMPAIGN TRIBUNE 1868.

The Presidential canvass of 1838 is already certain to be one of signal interest and vehemence. The American Peo-ple, so long distracted by issues originating in Slavery, emered by Rebellion, and culminating in Johnsoni stinctively welcome the struggle now opening as destined to close the long series of sterile and wasting distractions and usher in a glad, bright era of peace and rest. Of all the false dogmas which incited and upheld the late frenzied War for Disunion, the assumption that "This is a White Man's Government," wherein political rights and franchise Man's Government," wherein political rights and franchise are the rightful monopoly of a single race or caste, alone remains to be everthrown. Pointedly condemned by the Declaration of Independence, signally though quietly re-buked by the Federal Constitution (which recognizes amon g our people only "free persons" and "all other persons," but knows no such distinction as White and Black), and put to open shame by the nndeniable fact that men of di verse colors fought under our flag in our Revolutionary contest, in the War of 1812, and in our late desperate strug gle to preserve the Union, it nevertheless takes shelter u n der the Atheistic if not flendish assertion of a natural, un conquerable antipathy between the Caucasian and the Afri can races, and a natural right of the hater to dominion over fomenter of intestine fends, of hostility and bloodshed alone remains to be overcome; and the first Tuesday of November next must see it unhorsed and put at rest tor

THE NEW YORK TRIBUNE proposes to do in this contes its very utmost for Impartia: Liberty and Equal Human Rights. Believing the triumph of the Republicans therein to be the natural and logical complement and consumms ion of that "struggle for the rights of Hnman Nature which our Revolutionary fathers so nobly initiated, it enters npon the Presidential campaign with a perfect conscious ness that it will be, must be, one of unequalled excitement and intensity, but with a profound and joyful conviction hat it can have but one result-a result which will be hailed with glad and grateful exultation by the champion Liberty and Progress throughout the civilized world. But we are quite aware also that the victory will not be won without effort, and that the most perfect diffusion of Intellience and Argument is prerequisite and essential to its evement, or at least to its completeness

We now regularly circulate 230,000 copies of our several ditions, which are steadily increasing. We are able to rint still more, and ready to do so for the bare cost of materials and labor. We propose, therefore, to publish a ence with the issue of May 27, containing the proceeding of the Chicago Convention, and end with that of Nov. 11th-which we will send to clubs at the following rates:

For \$3 50 received at one time ...... 5 copies. For \$6 50 received at one time ...... 10 copies. For \$12 received at one time...... 20 copies For \$22 received at one time ...... 40 copies. For \$31 50 received at one time....... 60 copies.
For \$50 received at one time....... 100 copies. The papers ln all cases to be sent to one address. If the papers are to be sent to names of subscribers, ten cents per

copy in addition must be sent. Payable always in advance Subscriptions are respectfully solicited. Address THE TRIBUNE, New York City.

#### THESSALONIANS. TIMOTHY. TITUS, PHILEMON, and **HEBREWS**

By the Rev. Drs. E. HARWOOD, H. B. HACKETT, E. A. WASHBURNE, GEORGE E. DAY, A. C. KENDRICK, and he late JOHN LILLIE.

These volumes have been unanimously welcomed as in every respect worthy additions to a Commentary now ac mowledged to be an

all biblical students who aim to keep abreast of the times The volume devoted to Genesis, in particular, is recognized as the ablest exposition ever made of this important part of the Holy Scriptures, and it stands by Itself as one of the nost thorough and exhaustive defenses ever written of the armony which exists between the Mosaic account of the reation and the developments of modern scientific inves-

#### NOTICES OF THE PRESS.

FROM PRESBYTERIAN JOURNALS.

Nothing but actual use can suitably impress the stude with the extraordinary value of this Commentary. Such helps as these cannot, by any possibility, be a disadvantage; and to the faithful student will certainly bring not only mowledge but a mental and spiritual stimulus that will nuicken every power of the soul. Unto God would we give he praise for such glowing monuments as this to the inexible richness of His own holy Word."-N. Y. Observe. "No volume that we have seen is more full of various learning, or so important to the biblical student as this; and 'we hope that it will speedily be found in the libraries of all our ministers.'"—Philadelphia Presbyterian.

"Carried out on the present plan, it will make a Cyclophia of Biblical Exegesis."—N. Y. Evangelist. "The issue of this volume (Genesis) may without exagge-ration, be described as an epoch in the history of Old Testa-ment exegesis in England and America."—American Pres-

FROM CONGREGATIONAL JOURNALS. "The tone of this Commentary (Genesis) in regard to the great questions between science and religion, philosophy scalled and theology, is thoroughly reverent. It proceeds on he basis of the idea that the God of reason and the God of revelation is one and the same, and cannot contradict him-self; and that all difficulty that sometimes seems to rise toward apparent contradiction between them, is due to our imperfect knowledge and comprehension of the book of na-ture, or of revelation, or of both. We think that careful bib ical scholars will find more with which to refresh and instruc themselves in this volume than in any which the press has issue for a very long period."—Boston Congregationalist.

"The ABLEST EXPOSITION of Genesis in the English of any other language."—Chicago Advance.

FROM EPISCOPAL JOURNALS. "These volumes are entitled to all the praise which hu-man labors can claim. They are monuments of industry, learning, perseverance, and patience. . . . They will doubt-less become the favorites with many Scripture students."

"Another noble volume (Genesis) of this great Commertary."—Protestant Churchman.

FROM BAPTIST JOURNALS. "Intelligent Christian men will welcome with warm a

"The whole work is an honor to the biblical scholarship of the age and to the Christian enterprise of the publishers, and is also a rare contribution to our means of understanding the Word of God."—National Baptist.

FROM METHODIST JOURNALS. "No Christian divine can afford to delay the perusal of this great 'Bible work' on Genesis."- Western Christian Ad

"A most valuable contribution to the cause of biblica nowledge."—Zion's Advocate.

AT PAR,

BRINCIPAL AND INTEREST

PAYABLE IN GOLD.

The Union Pacific Railroad Company are building a raiload from Omaha, on the Missouri River, West, to connect with the Central Pacific of California, building from Sacramento, East, and these roads, when completed, will be THE ONLY GRAND BAILROAD BETWEEN THE AT-LANTIC AND PACIFIC COASTS.

The Union Pacific Company have already

#### COMPLETED 580 MILES.

nd trains are now running over the highest point of the Rocky Mountains that will be traversed by the line. The Company will have a much larger force employed this year than ever before, and it is expected that between

#### 800 and 900 Miles

will be in operation during 1868. There seems to be no easonable doubt that the 1,721 miles between Omaha and acramento will be finished in 1870.

The means provided for the construction of this Great National Work are ample. The United States grants its Six Per Cent. Bonds at the rate of from \$16,000 to \$48,000 per nite, for which it takes a second lien as security, and receives payment to a large, if not to the full extent of its claim in ervices. These Bonds are issued as each twenty-mile secion is finished, and after it has been examined by United tates Commissioners and pronounced to be in all respect first-class road, thoroughly supplied with depots, repairshops, stations, and all the necessary rolling stock and othe

The United States also makes a donation of 12,800 acres of land along the line to the mile, which will be a source of

arge revenue to the Company. The Company is also permitted to issue its own First Mortgage Bonds to an amount equal to the issue of the overnment and no more. Hon. E. D. Morgan and Hon. Oakes Ames are Trustees for the Bondholders, and deliver the Bonds to the Company only as the work progresses, so that they always represent an actual and productive value. The authorized capital of the Company is One Hundred Million Dollars, of which over eight and one-half millions

Contracts for the construction of 914 miles west from Omaha, comprising much of the most difficult mountain work, have been made with responsible parties at the average rate of sixty-eight thousand and fifty-eight dollars \$68,058) per mile. This price includes all necessary carshops, depots, stations, and all other incidental buildings, and also locomotives, passenger, baggage, and freight cars, and other requisite rolling-stock, to an amount that

ave been paid in upon the work already done.

shall not be less than \$7,500 per mile.

It is not doubted that when the road is completed the through traffic of the only line connecting the Atlantic and Pacific States will be large beyond precedent, and as there will be no competition, it can always be done at profitable

The Earnings from Local or Way Busines

are now Three Times the Interest on their Bonds. It will be noticed that the Union Pacific Railroad is, n fact, A GOVERNMENT WORK, built under the supervision Government officers, and to a large extent with Government money, and that its bonds are issued under Govern-ment direction. It is believed that no cimilar security is so carefully guarded, and certainly no other is based upon a

larger or more valuable property. The Union Pacific Bonds are for \$1,000 each, and have coupons attached. They have thirty years to run, and bear annual interest, payable on the first days of January and July at the Company's Office in the City of New York, at the rate of six per cent. in gold. The Principal is payable in

At the present rate of gold, these bonds pay an annual income on their cost of

NEARLY NINE PER CENT., AND IT IS BELIEVED THAT THEY WILL

SOON BE AT A PREMIUM. The Company have but a very limited supply of their Bonds remaining on hand-but it is expected that the first astalment of the New Bonds to be issued on that portion of the road to be completed this year, will be ready in May. Any subscriptions accepted to a greater amount than can e filled from Bonds now in the Company's possession, will

be supplied from the New Bonds in the order in which they The Company reserve the right to advance the price of their bonds to a rate above par at any time, and will not fill any orders or receive any subscriptions on which the money has not been actually paid at the Company's office before

the time of such advance. Parties subscribing will remit the par value of the bonds and the accrued interest in currency at the rate of six per cent. per annum, from the date on which the last coupon vas paid. Subscriptions will be received in New York

## Beligious Bending.

FOR THE EVANGELES THE CHRISTIAN'S TITLE CLEAR. HY REV. THEODORE I. CUYLER, D.D.

At this season of the year many persons are securing new houses. And there is a diligent searching of titles to real estate going on. One does not wish to hold a deed for property to which his title is not "clear." He pays a lawyer well for searching it.

But if men are anxious about a secure title to earthly possessions, how much more must an immortal soul demand security as to his heavenly inheritance. Some professed Christians have but little in their title. If this fear were awakened inexhaustible love of Him to whom they have committed their souls for salvation. When a storm of dark despondencies breaks on them, they cry out - like the affrighted disciples - "for fear." They believe in the storm. But they don't seem to believe in the Life-boat.

Listen now a moment, troubled friends to that trumpet voice which rings out from Nero's guard-house at Rome! It of sound filling the Music Hall, will give little He writes exultingly to his spiritual children at Philippi. "I am confident of this with a true musical enthusiasm, have devoted very thing that He which hath begun a themselves under the discipline of one of the good work in you will perform it until the best of leaders, to the careful study and day of Jesus Christ." The "good work" practice of these great works of art, the rehere spoken of is the "κοινωνια"—the fel-snlts of which are now presented to the pub. lowship in Christ-the unity in Jesus of lic. No one could fail to perceive the honest, of a heart-union to the Saviour. There rendering of these grand oratorios. Nothare many good and wise people who in bodily form in the city of Jerusalem grandenr, and perhaps never with so little to or in some other little locality. For one provoke criticism. It may truly be said I am more happy to believe that it re- (and I am sorry that it is so) that nowhere fers to that time spoken of by the bless- in this country can the great oratorios be ed Jesus when He said, "I will come again heard adequately performed but in Boston. and receive you unto myself." If that is First, the existence here of a voluntary Societo be with Jesus—that "where He is, we than fifty years has devoted its energies to may be also." This clause in our title is the study and performance of this kind of God for this confidence. Faith held that de corps, traditions, purposes, determinabrumpet to his lips from which he sound- tion. Its meetings for a considerable part ed forth, "I thank my God . . . . being of the year, are held at least once a week. confident of this very thing that He which and they are meetings for careful study and hath begun a good work" (i. e. a converting work) "in you, will perform it until the day of Jesus Christ.'

Christ does not begin to build a Chrisman of taste and skill and high professional tian for Himself without counting the standing, who with sincere love of music cost. We are His workmanship, says the has devoted no small amount of time and happy apostle. The Divine Redeemer energy to enlarging the resources and raisis "a workman that needeth not to be ing the aims, and every way increasing the ashamed." He does not commence with- efficiency of this time honored association. To him also, I may say in a parenthesis, is out being able to complete. Men make such blunders; but the infinite wisdom largely due the present admirable system never does. What Christ the atoning schools. The Musical Director of the So-Saviour undertakes to do is to bring a cicty is Mr. Carl Zenahn, who now ranks, finished and glorified saint out of a poor with Mr. Bergmann of New York, as among unholy sinner, and to "present him fault- the most accomplished of Conductors. less" in the day of His final triumph before the hosts of heaven! Will He be thwarted in His magnificent undertaking session of an admirable music hall, and a offilling heaven with a rejoicing multitude that no man can number? Will He let the Devil's craft or human depravity baulk Him in His plan? No! for we are confident of this very thing that He who begins the regenerating work in a true believer's heart will perform it to its glorions consummation.

There are other clauses yet in the title-deed to a genuine Christian inheritance which are equally precious with the one just quoted. Look at this one-"you who are kept by the power of God through faith unto salvation." This affirms that the believer-not the false professor-is held fast by the almighty arm. The final salvation of every Christian own merit which is as worthless as "Confederate" money, but on the everlasting and unchangeable grace of God. It is not my promise that secures me to Christ; it is Christ's precious and powerful promise unto me. The only reason why the " saints persevere" is that the adorable Jesus perseveres in saving them.

We cannot go over all the clauses in the Christian title. "This is the Father's will that of all which He hath given me I should lose nothing." What a declaration that is! "Neither shall any pluck I have believed, and that he is able to to heaven multiply the more a true believer studies his Bible and studies the history of redeeming love.

Happy is he who, having given his heart and life to Jesus, can look over his lnjah.

ing humility and in Christ-exalting as urance can sing,

"Through the love of Christ my Saviour, All will be well; Firm, unchanging in His favor Precious is the blood that healed us Perfect is the grace that sealed us, Strong the Hand stretched forth to shield us! All must be well!

#### Our Correspondence.

FOR THE EVANGELIST TRIENNIAL FESTIVAL OF THE HANDEL

AND HAYDN SOCIETY.

BOSTON, May 11, 1868. Messrs, Editors: The last week in Boston was one of extraordinary gratification to the lovers of music. Ti ree years ago the Handel and Haydn Society celebrated its semi-censassurance of hope." They believe sal-tennial anniversary with a series of very novation through the cross a pleasant pos- ble performances. Now, following a cussibility; they admit that many have been tom which has long prevailed in England, saved; they do not question that many and in some parts of Germany, it has, with others will yet be saved; but as to their marked success, held its first Triennial Fesown selves they are sorely afraid of a flow tival, concentrating into one week the results ter. The Society gave us in a truly noble by a vivid view of their own weakness, it and grand style Mendelssohn's Ninety-fifth would be all the better for them. But it | Psalm and Hymn of Praise, and four great often springs from an utterly inadequate Oratorios, viz : Samson by Handel, St. Paul conception of the power and grace and by Mendelssohn, The Creation by Haydn, and The Messiah by Handel.

Besides this, on the afternoons of Wednesday, Thursday, Friday and Saturday we had grand orchestral and, vocal concerts of the very noblest music.

In these great concerts, the chorus numbered seven hundred and forty-seven voices. and the orchestra one hundred and fifteen instruments. But this mention of numbers, though it will give some notion of the volume comes from an old man doomed to die. idea of the admirable skill exhibited in the performances. During the long Winter and all true believers. It includes the idea sincere, conscientious and truly admirable ing was slighted, and nothing done for mere think that "the day of Jesus Christ" re- these masterpieces of musical genius been fers to the personal reign of Immanuel given on a scale of so much majesty and glorious. Paul felt it so, and thanked masic. This Society; has life, spirit, esprit assiduous practice, under the most skilful and scientific leadership. The President of the Society, who has held the office now for many years, is Dr. J. B. Upham, a gentle-

> The second cause of the high rank of Boston in Oratorio music is the fact of the pes really first class organ. It may be doubted whether either of these would have existed, at least in their present noble form, but for the unbought labor, the untiring efforts, and high ideal of the President of the Handel and Haydn Society.

The music hall is an admirable structure in many respects. It is simple in construction, tasteful though with little ornament, excellent for both sight and sound. sides opening into ample corridors, with nndirections (it is really a hall within a hall. or larger shell ) so that such a thing as panic in case of fire or any accident would one hundred and thirty feet in length, by modations. seventy-eight in breadth, and sixty-five in depends ultimately, not on his own height. It is a little larger than the celestrength which is weakness, nor on his brated Town Hall of Birmingham, Eng., and ing elapsed since the foundation-stone was will seat somewhat over three thousand. three or four most perfect instruments of the with it. It was built by Walcker of Lndthem out of my hand." "I know whom ties are fully tried. Now the adequate per- with most institutions. The place itself afkeep that which I have committed to Him only a multitude of voices, but the vast morality; while numbers who come here until that day." The clauses in the deed serges of sound which only such an instru- thoughtless and inclined to dissipation, leave midst of the rushing tumnlt of tones in such

ing the last week. It will be felt in thousands of families not in this city only or perhaps chiefly, but throughout the State and in many parts of the country, for visitors have been drawn hither from quite remote regions by the promise of this festival, and none that I have heard of have gone away disappointed, and few, perhaps, withgiven in a style which may be called perfect, Jesus. so absolutely without fault worthy of notice did they seem to be.

The orchestral concerts were equally deerving of unstinted praise, although in this kind of music, I well know, remembering your noble Philharmonic Society, Boston has nothing to boast of. And yet one of the Symphonies performed, Beethoven's Ninth, for voices as well as instruments, was probably never heard in this country as it was heard on Friday afternoon, May the 8th. That grand chorus of seven hundred voices fairly took the audience by storm. An enthnsiastic young German musician of wide fame, who sat beside me, was almost beside himself with delight, and his bravos rang through the hall above all the applanse, at the close.

It would be a happy thing if such musical festivals of a high character, conducted, as this has been, purely in the interest of the highest musical art, could be established in all the great musical centers of the country. It is impossible to expect this at once, for anything like this must be an organic growth and not a mechanical product; but an effort might be made, and if there were many failures, there would at last be success. Such festivals are marks of a higher civilization, and powerful aids to a more complete general culture. Their influence, though intangible, is powerful; though apparently evanescent, is really solid and permanent.

For when the stream of sound Which overflows the soul has passed away It leaves deposited upon the silent shores Of memory, images and gentle thoughts Which will not die and cannot be destroyed

#### FOR THE EVANGELIST A SABBATH IN OBERLIN. BY REV. JOHN MARSH, D.D.

Returning on a northern route from the Anti-Secret Society Convention at Pittsburgh, I went with President Fairchild, Prof. Cowles, and other friends to Oberlin, the birth-place of much that is good and inspiring, to spend there the second Sabbath of the month. Amid several open doors, I felt most inclined to enter that of President Finney, having known him for many years, and being in no small sympathy with him in his three score and ten; but his eye is not and just at the present time, a new spring is given to all his powers by the anti-masonic work in which he is enlisted. So deeply interested is he in this matter, that he fears the papers will not give him the space he requires, though he has no doubt the pnblic mind will be deeply interested, and that great and important will be the results. His extraordinary revival labors are all fresh with him, and will in due time be laid before the public from his own pen. On the Sabbath morning he regularly preaches in church or himself of a snm of money pro-Sabbath morning he regularly preaches in the First church, to a large congregation, who are more satisfied with him than they would be with any one else; but I had not the pleasure of hearing him, as his pulpit had been preengaged to a tract agent. In hold names and addresses; but we earnest the pleasure of hearing him, as his pulpit had been preengaged to a tract agent. In hold names and addresses; but we earnest the present a shin of money for the process. In the process or venality. If the whole amount was beyond her pocket money, she was told it might be paid by instance and addresses; but we withhold names and addresses; but we earnest the present agent. In hold names and addresses; but we earnest the process or venality. If the whole amount was beyond her pocket money, she was told it might be paid by instance and the present agent. In hold names and addresses; but we earnest the process of the process had been preëngaged to a tract agent. In the afternoon the church was filled by a funeral of one of the most important men in the community, and an appropriate sermon was delivered by President Fairchild. The evening was devoted to myself in a sermon on the fallacies and evils of secret temperance societies, and the great importance and demand for open and church organizations. Seldom have I addressed a larger and more

attentive audience. Oberlin is now taking a high stand among our literary institutions, numbering, with an able Faculty, 1134 students : Males, 640; Females, 494; Theological Department, 11; College, 119; Scientific, 34; Young Ladies' Conrse, 190; Preparatory-Males, 484, Females, 294. It is situated in a rich, level country, filled with good farmers, and must be a healthy place; easily accessible by rail with abundant doors in each of its longest from Cleveland and Toledo. Its buildings are surprisingly commodious for the short restrained egress to the street in different time in which the College has been in existence, and considering that it has been chiefly the work of charity. The ladies' hall is nowhere surpassed. President Finney took seem to be impossible. Its dimensions are me through it and showed me all its accom-

The College is now entering upon its sec ond generation, one-third of a century havlaid. The peculiarities of Oberlin are, that The great organ deservedly ranks with the young men and young women have here been gathered together, enjoying the common adworld. Nothing in this country can compare vantages, and none have been ejected on account of color. A deep spirit of piety has wigsberg in Germany. The case, or organ been the usual characteristic of the Instituhouse, as the Germans call it, was built by tion, and instances of misconduct, calling the brothers Herter of New York, and is it- for disciplinary notice among all these self a wonderful specimen of architectural youth, ranging for thirty years from five skill. The organ contains four manuals or hundred to a thousand in attendance, have key boards for the hands, and a pedal key been very rare. A finished education is givboard, and has eighty-four complete regis- en in the various departments by able Proters and 5474 pipes. It has been in constant fessors. Tuition is almost a gratuity, and use since its opening in 1863, and seems to board can be had from \$2 25 to \$3 25 per elicit new praises whenever its vast capabili- week. Other expenses are small compared formance of the great Oratorios requires not fords almost no temptation to vice and imment can send forth. And it is wonderful with a good hope through grace. The colto feel the deep tremulous pulsations in the ored student feels at home here, and is accounted a blessing to the white rather than choruses as "The Heavens are telling the otherwise, giving his white brethren enlarg-Glory of God," or the still grander "Halle, ed views and drawing out his sympathies for the entire world in every condition. may be seen in the refined and cultivated ney, in the close of his long and useful life, audiences which have crowded the hall dur- looks with great complacency and gratitude upon the success of this enterprise, so much at one time, the jeer of the conservative and unbelieving community. I had here the pleasure of spending an hour with the Rev. John Keep, the oldest graduate of Yale, now in his 87th year, but hale and hearty. He procured for the College in England, by his personal efforts, \$30,000. Surely it is the out a higher ideal of musical culture and prayer of many that Oberlin shall long be a performance. Several of the oratorios were school which shall eminently stand up for

#### [For THE EVANGELIST. THE FIRST PRESBYTERIAN CHURCH. BRICKSBURG, N. J.

Messrs. Editors: A Presbyterian church was organized in this place on the 28th ult., by a commission of the Presbytery of Newark, consisting of Rev. James P. Wilson, D.D., Rev. Robt. Aikman, and Elder Baker of Madison. The sermon was preached by Rev. Robt. Aikman, from 1 Tim. iii. 16 'The Church of the living God, the pillar and ground of the truth." A most timely and excellent discourse. Dr. Wilson gave the charge to the elders elect, and read the covenant to the members of the church, sixeen in number, and the church was duly and formally organized. On the succeeding Sabbath six others, whose letters had not arrived in time for the organization, and two on profession, were added to our number, and we hope on the next communion to receive sixteen others.

This church has been gathered through he labors of the Rev. A. H. Dashiell, ir., (formerly of Stockbridge, Mass.,) who began his ministry here a year since, under he appointment of our Committee of Donestic Missions.

Bricksburg is situated on the Raritan and Delaware Bay railroad, forty-four miles from New York. It is part of the estate of the late Joseph H. Brick, consisting of 25,000 acres of land, which is being laid out after the manner of Vineland, and sold to actual settlers only. The small price of land, the healthful climate, and soil adapted to the growth of fruit and vegetables, besides an dmirable water power, have attracted large numbers already, though the lands have not been in market over two years. The population generally are of the best class of Yankee emigrants, and they are making this wilderness bud and blossom as the rose.

The church is the growth of one year, the minister's coming being in advance of the population. A Sabbath-school of over 100 nembers have been gathered, and the trustees have voted to procure lots on which to build a church. Our first communion as a church was most solemn and tonching. The Lord Jesus was present, manifestly, in the mnch of his life work. I found him beyond breaking of bread. The vessels on the table, the gift of old parishioners in Stockdim, neither is his natural force abated; bridge, Mass., evinced the sympathy of Christian friends in our work, and our hearts were enconraged to go forward. A. H. D.

#### Koreign.

Penance Imposed.—An extraordinary penance has been imposed, as sequel to an auricular confession, by the chief "priest" of a South London Ritualistic church. The clerical worthy ordered, as reparation for ly trust that this shameful mockery—the marketing of heaven's forgiveness—will promptly be visited on the abuser of pastoral functions. A fortune-telling crone would In fullest import of that sacred name. be in jail ere now; let not his surplice screen the clerical sharper.—South London Press. Spurgeon on the Dis-Endowment Question.

The following pungent letter sufficiently explains itself :

"The one point about which the Dissenters of England have any fear is one which I trust you will mention to-night. We fear est any share of the church property should be given to the Papists. To a man we should deprecate this. Bad as the present evil is, we would sooner see it let alone than see Popery endowed with the national property. Not one single farthing ought any re denomination to receive, and the whole mat-ter will be imperilled if those in power are not quite clear as to any douceurs to the Pope. We are not agitated by the dead horse of 'No Popery,' which knaves would raise that fools may be their instruments; but we are very determined that it never shall be said that, under guise of removing the grievances of Ireland, we made an ex-change of endowed churches, and put down

the Anglican to set up the Roman image.
"May you, dear sir, be sustained as the champion of the people, and as you have already lived to see many of the dreams of your youth become realities, so may you survive to see the matters in question enrolled in history as triumphs of the right and the truth!—Yours, with profound respect, C. H. SPURGEON.

"To John Bright, Esq."

The Scotch Free Church Sustentation Fund. The origin and success of this fund are among the most remarkable developments of the energy of modern religious efforts. It was planned by Dr. Chalmers, as an integral point of the policy of the separation from the established Kirk of Scotland, which took place in 1843. Knowing that many of the withdrawing congregations would be too feeble to maintain their operations, a large fund was raised, the annual proceeds which were to be equally divided the churches of a certain class of resources. The dividend this year is to be £150 to each of seven hundred and thirty churches. Originally the principle of equal division was made absolute. But last year a provision was adopted by which the surplus, after the equal distribution of £150, may be distributed pro rata among the congregations in ly valued. About the first article of luxury, proportion to their own efforts of liberality in helping themselves. Congregations contributing at the rate of ten shillings for each mentary, which was a constant companion member, receive a full share of the surplus, all the rest of his life. Though excessively and others receive less. The effect has been diffident in religious conversation, he neverthat this year, for the first time, the regular theless found a congenial field in the Sabdividend has reached £150; the capital fund bath-school, where he had a class to which has advanced £6, 164 in the year, with a prospect of constant increase. Its value as a guaranty of tolerable support to every pastor. To his personal efforts and liberal control.

The Church and State Question in Great st been aronsed to action in reference to the Irish Church question—involving as it does the entire question of Church and State—which is now agitating Parliament. We learn by the Cable that a meeting was held in St. James's Hall, on the 6th inst., in favor of the continuance of the Irish Church establishment. The attendance was im establishment. The attendance was immense, and the proceedings very noisy and turbulent. The Archbishop of Canterbury occupied the chair, and the platform was crowded with the most prominent men of the Tory party. The Archbishop, on taking his position, made a speech in furtherance of the objects of the meeting. The Lord Mayor of London then rose and moved a series of resolutions in force of the cona series of resolutions in favor of the con-tinned union of State and Church, which were seconded by the Bishop of Oxford.

The Archbishop of York also presented resolutions to the effect that an attempt to overthrow the Irish Church was an attack upon the Church of England, and a moveent towards the establishment of Papacy in the country. There was much tumul and confusion at this point of the proceed ings, but the resolutions were finally adopt

ngs, but the resolutions were finally adopted, and the meeting adjourned.
On Tuesday evening, the 5th, in the House of Commons, Mr. Gladstone, in some remarks, referred to the Duke of Richmond's assertion in the House of Lords, that her Majesty had intrusted it to the Ministry to dissolve Parliament whenever they pleased. Such a power, said Mr. Gladstone, was un constitutional, as it left the Ministry to deal with cases which have not yet arisen. He asked for an explanation of that statement, and contradicted the one made in the House

of Commons by the Premier.

Mr. Disraeli, in reply, said there was no discrepancy between the statements made in the two Honses. He had offered to resign, but the tender was declined by her Majesty His advice to the Queen was to dissolve Parliament when the state of the public business permits. This was without any reference to the new constituencies, but if the work of the House was soon completed, a new House would be elected by them.

Sir Stafford Northcote made some remarks to the effect that the Ministry had no intensaid the right to dissolve Parliament was only reserved by the Ministry in case the issue upon the Irish Church question was pressed to a division.

lic, he presses upon the people, in the most eloquent words, the study of the Bible, and rives the right hand of fellowship to Protestants, comparing the spiritual condition of Protestants and Papal Roman Catholic naions, much to the disadvantage of the latter

#### OBITUARY.

With every fee ling of admiration and love, the ollowing lines are inscribed to the memory of

MRS. EMILY HAYDEN. And thou art gone! sweet mother, sister, friend;

Gone from the hearts that, with a love which far Outweighed the common meed, had cherished thee For Heaven on thee had showered her choicest gifts The fertile mind, the tender human heart, Wanting all human guile, so quick to feel Another's wee-to heal another's pain; The soul with every loveliness replete In woman most we prize. And thou to these Didst add life's latest grace, true piety Sincere. And in all life's relations sweet, Didst sweetly bear thy woman's part with firm And we with heavy hearts have laid thee down His armor calmly by). At whose fond side On earth she fondly walked-the counsellor As counselled, the true and honorable wife, Our hearts are sad, yet not for thee we weep, O! not for thee, for thou hast done with grief And sin, and all that here might vex or stain The soul-and in thine angel beauty joined

is still Redeeming love. 'Tis for ourselves we weep, That we no more that fond remembered face Shall see, receive thy pious counsels more, With thy blessed presence cheered; for thou to u Wilt never more return, but we may go To thee-Heaven grant we may-Heaven grant

That blood-bought throng, whose rapturous sons

to us That ever earnest, calm, unswerving faith, That fervent, trusting love for Christ our Lord Which signalized the life of her we mourn

Rev. Gardner Hayden died Jan. 9th, 1864.

DIED-In Hornellsville, Stenben county, N. Y, March 14th, 1868, Hon. OTIS THACH-ER, in the 68th year of his age. Judge Thacher was born in Gloncester, R. I., Ang. 6th, 1800, and with his family removed first to Albany, N. Y., thence to Chenango county, and in 1808 to Steuben county. In 1810 the family moved into the town of Hornells-ville, where the Judge has ever since resided. The country was then new, and educa-tional advantages were exceedingly limited. There was no common school system and no

organized schools. But the Judge, in spite of all difficulties, at the age of eighteen was far in advance of the large majority of his age. He had, with an ardent temperament, a studious mind, and all his spare moments were devoted to its culture. Passionately fond of reading, few men had a more ex tended general reading than he.

At an early period he became impressed with the importance of a good hope in Christ, and it is believed was savingly converted, though he did not make a public profession of religion till 1832, when he united with the Presbyterian church of Hornellsville at its organization, and from that time to the day of his death took a decided and earnest interest in all that pertained to its welfare. He was a subscriber to the Western Recorder, published at Utica, and he regarded it, which he purchased after Scott's Comhe became a householder was

Judge Thacher will long be had in grateful remembrance by a devoted wife, who survives him, by a large family of loving children, by the dear church, with which he had so long taken sweet counsel, by a large circle of appreciating friends, and by the whole community in which he lived.

DIED-At Lysander, on Sabbath evening, April 26th, Rev. G. C. BEACH, in the 67th year of his age. He was born at Kingsborongh, Montgomery (now Fulton) county, N. Y., Aug. 19, 1801. At the age of fifteen he commenced the study of the languages with Rev. Dr. Yale, pastor of the church of Kingsborough, of which he became a mem-Sophomore class in Middlebury College; from which he graduated in 1826, and the same Antumn entered Auburn Theological Seminary, graduating in 1829. He was licensed to preach the Gospel by the Presbytery of Albany, and entered npon his labors in the ministry at Baldwinsville, Onondaga county, the same Antumn and continued county, the same Antumn, and continued about two years. In 1831 he united with the Presbytery of Onondaga, of which he con-tinued an honored and useful member until his death.

During his ministry at Baldwinsville, was of religion. In the Spring of 1832, after having spent a few months at Jamesville, he commenced his labors with the Presbyterian church of Lysander, of which he soon became pastor, where he continued his labors in the Gospel until the Spring of 1858, with great fidelity, acceptance, and nsefulness. Not less than five or six revivals of religious ware enjoyed desired his acceptance. ness. Not less than nye or six revivals of religion were enjoyed during his ministry at Lysander, by which a large proportion of the youth of the congregation were from time to time brought into the church. After resigning his pastoral relation at Lysander, on account of bodily infirmities, until he be-came entirely disabled from loss of sight and

hearing, he supplied the church of Camillus npon the Sabbath, continuing a year or two. During his whole entire life in the ministry, his devotion to his work and his emi-nently consistent Christian character commanded the confidence and respect of all who knew him. We think no one questioned his piety or his call of the Master to the Father Hyacinthe .- This eloquent divine is ministry, and yet his last days of compara-Though still calling himself a Roman Catholal Though still calling himself a Roman Catholal the world, and under deep bodily affliction, the world, and under deep bodily affliction, were his best.

Finding that his sight was becoming im-Finding that his sight was becoming impaired, and under the apprehension that it might ere long entirely fail him, he entered upon, not merely a very careful and diligent study of the Divine Word, but the thorough committal of it to memory, extending to chapters and books, until almost the whole New Testament could be repeated at pleasure, the psalms also, and much of the law and the prophets. While thus engaged in treasuring np truth—food for future use es-pecially—he was favored with, if not a new, a wonderfully enlarged and blessed view of a wonderining enlarged and blessed view of the scheme of redeeming mercy revealed in the Gospel, of the law of God, of the adapt-edness of the Gospel to meet the wants and heal the woes of men, and this, not only in the future, beyond the veil but to bring present peace and love and joy, far beyond what he had supposed attainable in this life, or if possible, for others, not for himself.

Entirely deprived of sight, and nearly of hearing, and beside suffering from bodily maladies much of the time, even to agony.

maladies much of the time, even to agony, such were his realizations of divine things, his communion with his Savionr, and joy in the Holy Ghost, that he seemed often more n Heaven than npon earth. As might have been expected under such experiences "of things hoped for," all his privations and pains were borne with sweet submission to the Divine good pleasure respecting him, and even joy. He evidently spoke with reand even joy. He evidently spoke with re-luctance of his privileged spiritual state, lest he should seem something; when he did speak of it, it was with the utmost self-depreciation, and with the obvious desire only to magnify the grace of God, and to encourage and bless others. With desire to depart, yet patiently he waited. In due time came his release. He rests from his pains and privations as well as his labors, and his works do follow him.

The stanzas accompanying this very meager notice of this favored servant of the Master were dictated by him near the close of life, the last of the kind to which he gave expres-

> HYMN. RESIGNATION. Into Thy hands, O God of grace,
> My all I would resign;
> My soul at rest in Thine embrace,
> My will absorbed in Thine.

O keep this wayward heart of mine Within Thine arms of love.
Where beams of light and life divine
Fall from the throne above.

Lord. I would hold mine humble place Beneath Thy mercy seat;
Drink in Thy spirit and Thy grace,
And worship at Thy feet.

Thou art my portion, saith my soul, No counter good I crave;
My rest while surging billows foll,
My hope beyond the grave.

Into Thy hands, O God of grace, My all I would resign; My soul at rest in Thine embrace, My will absorbed in Thine.

Lysander, 1868.

N. B. The individual who may receive this paper, co aining as it does the writer's last hymn, and composed fter having become deaf and blind, is requested to socept it as a keepsake from the author, who is now also deeply diseased, and steadily approaching his journey's end. The lights of this world have all expired around me, and very earthly trust has been removed, but Jesus the Lord my everlasting trust, my treasure and my all.

A SECRET OF REVIVALS .- Mr. Finney

ells of a pastor who was constantly successful—enjoyed a revival every year for twelve years, and could not account for it—till one evening at a prayer-meeting a brother confessed that for a number of years past he had been in the habit of spending every Saturday night until midnight, in prayer for his pastor the next day.' That explained the secret, in part at least. Such a man praying would make any ministry successful. mous John Livingston, of Scotland, once preached an ordinary sermon with such power and success that five hundred were converted under it. But it was after a large number of Christians had spent the whole previous night in prayer

### The Larmer's Department.

A dozen of eggs is a little more definite quantity than a dozen potatoes, but still a very indefinite quantity. A dozen of eggs from little, scrawny, ill-kept chickens, sell for the same price as a dozen from large, well-kept fowls, while the difference between them is as great as the disparity between the hens that proeach gets a fair average. But it is not so with producers, and here is where the injustice occurs. The man who raises choice fowls, and keeps them in the convent of the brick edifice at Mount St. Vincent, formerly used as the chapel of the convent, has been decorated and fitted for the reception of statuary. To provide a place for the additions that are being made to the collections. others one-taird smaller. This operates as a discouragement to raising good hens, and as a premium on poor ones. A writer in the Canada Farmer gives the difference in the average weight of a dozen of eggs from different breeds of fowls, as follows:

These are the differences in the average weight from the different breeds. Should we compare the poorest specimens of the poorest breeds with the best specimens of the best, we would find a difference of fully one-half, and yet all are sold at the same price. We buy and sell nothing at so loose an adjustment of quantity, to price, as eggs, except when we buy wood by the load. Even apples and peaches, when sold by number, have the prices adjusted to the size. But big or little, an egg is an egg.-Wisconsin Farmer

WHITEWASHING .- Nothing attended with so little expense and trouble, does more towards beautifying a homestead than whitewash. Every farmer should see to it that in the Spring of the year his stables, garden fence and out-houses are whitewashed. It will always prove a satisfaction to him and his family during the Summer, and give a pleasant appearance to the eye of the passer-by. More particularly, for health and comfort, should the cellar, chicken-house, and inside of stable be thoroughly cleaned and whitened. When once done, it would afford pleasure in keeping everything about neat and clean. The following is a good recipe for is

whitewash: "Procure fresh burnt lime-not that partly air-slacked. The large lumps are best; the fine portions and small lumps will not make a wash that will stick well. For this reason, lime that has been burnt several months is not so good as that in a vessel, and pour on water slowly, until it is all slacked, and is about as thick as cream; then add cold rain water until it will flow well from the brush. Stir often when using it. A few drops of blueing added will give it a more lively One or two tablespoonfuls of clean salt, and one-fourth pound of clean sugar to a gallon of the wash, will make it more adhesive. If the walls have been whitewashed, let them be swept thoroughly, and if colored with smoke, wash them clean with soap-suds. Coloring matter may be mingled with the wash, to give it any desired tint. To make a light peach-blow color, mingle a small quantity of Venetian red. For a sky-blue, add any kind of dry blue paint, stirring it well while mixing. To make a wash The coloring matter should be quite fine. to prevent its settling at the bottom of

"When buildings or fences are to be whitewashed, prepare the wash as directed above, keeping it warm when using it. by means of a kettle of burning coal; and mingle about a pint of good paste made of wheat-flour, with a gallon of the wash, and also half a pound of salt and half a pound of cheap sugar per gallon of the wash. These materials will make it stick well, and, if applied quite warm, will look well and be durable."-Rural

vessel.

THE TUBEROSE.—To get flowering bulbs the method is to plant out the little offsets that surround the old bulb, each Spring, in rows a foot or so apart. These will not flower the first Summer, but make plump flowering bulbs for the next. In the Fall take them up just before frost kills the top. Lay them in some place where it will not freeze, to dry off a little; then trim off the tops and keep the bulbs dry, and where the thermometer does not go below 40°, until they are wanted for planting out the

ensuing Spring.

They are better started first in a hotbed or other warm place, so that their season of flowering is early enough to escape the Fall frost. The old bulbs taken. will not flower again. The double only is worth growing; the flower is of waxy white, and highly fragrant.

HEADING-IN PEACH TREES. - This important work should receive more attention from fruit growers than is generally the case. Some of the best horticulturists think that the most favorable time for doing this is when the tree is in full leaf, as it will not then gum. Besides the very great difference in the appearance, at least between those trees that have

The Lincoln memorial volume, published at the Government printing office for transmission to societies and other public bodies in Europe which passed resolutions concerning the assassination, is the most concerning the assassination, is the most magnificently printed and bound volume ever got up at the Government office. One copy has been given to each member of copy has been given to each member of were probably not 1000 who could trace finally fixed at Montpelier.

No. 5 Austa Barrett.

#### Scientific & Useful.

The Central Park.-From the annual Report of the Commissioners, we gather the fol-lowing interesting facts:—The expenditures for the year in construction have been \$199, 264 06. Nearly a mile of new walk of various width has been made. Six new drinking ountains have been provided, and new machinery for distributing water on the roads. The casting in bronze of the artistic figures for the fountain of the Esplanade north of the terrace, is provided for. The interior of the portion of the brick edifice at Mount choice fowls, and keeps them in good antiquity from various parts of the world, condition, sells large, rich eggs for the the old Arsenal building is being put in a ance page per dozen that is paid for proper condition. During the year there there one third smaller. This operates were 127 arrests made at the Park, 57 of which were for fast driving. The increased taxable valuation in the three wards surrounding the Park from 1856 to 1867, is shown to be over seventy-five millions of dollars, giving an increased tax for the year 1867 of \$2,020,542 53. Deduct from this the annual interest on the cost of the land and improvement of the Park, \$608,855 58, and \$1.411.686 95 is shown to be the excess of increased tax in the three wards over the interest on the cost of land and improve-There were thirty-three music days at the

Park during the year, being ten more than in the previous year. The Commissioners of the Park, early in the season, made application to the Secretary of War and Section 10 to the Secretary of War and Secretary of War an retary of the Navy, for the services of the army and navy bands stationed near the city, for one day in each week. Neither the Secretary of War or Navy felt at liberty to comply with the request. Though assurances were given by some of the city railroad companies of contributions towards sustaining the music, no money was received from any of them for this purpose. The table of the boat service at the Park shows an in-crease of 23,281 persons carried, over that of the previous year. There were thirty nine snow storms during the Winter of 186 and 1868, and the depth of snow for the year was 92.32 inches. The number of skat-ing days in the season of 1866 and 1867, was larger than usual. The plan of the work on the west side of the Park below One Hundred and Fifty-fifth street has been completed; it is to some extent a remodelling of the former plan of the city, having greater capacity for ornamentation, at the same time attended with much less expense. The extent of the new avenues provided between One Hundred and Fifty-fifth street and Kingsbridge will develop this whole beautiful part of the island.

Life Under Water.—The following interesting facts in regard to submarine operations is derived from the experience of Hiram Hill, a Mississippi diver, who has followed his profession so constantly for twenty years that he estimates that he has passed about three years in the river :

The use of a bell in diving is now discarded. The diver wears a water-tight armor over his entire person, except the head, which is covered by an inverted metallic just from the kiln. Put a pound or two pot. Thick, transparent glass is fixed in front to serve as windows, and to prevent accident this glass is protected by steel guards or fenders.

Equipped in this armor the diver puts on a pair of lead-soled shoes, weighing each twenty pounds, lashes to his back and breast a piece of lead weighing forty pounds, attaches the tube through which he receives air to the back of his head-pot, and is then read to the his supportions. ready for his submarine explorations. The moment he disappears under the water the air-pump commences its work of supplying him with a constant stream of fre He breathes full and satisfactorily; there is no stifling sensation, no odds how long he

remains under. Mr. Hill has remained under water five hours at a time. The great weight of lead fastened upon his feet and body is necessary to counteract the buoyancy of the air furnished him by the pump. While on the nished him by the pump. While on the boat, the armor and weights form a load for of a light straw-color, mingle a few a strong man. Under the water they impose ounces of yellow ochre, or chrome yellow.

The coloring matter should be quite fine motion. Mr. Hill has, while under water, often clambered up stanchions, jumped down hatchways, a distance of twelve and fifteen feet, with much greater ease and less risk than he might have performed the same feats out of water. Taking with him his tools, he has frequently worked for hours at a time, patching up the bottoms of snag-ged steamers, sawing boards, boring holes,

driving nails, &c., with perfect ease and ac curacy. When the water is clear he can recognize ships at a distance of two or three feet, and at a distance of six inches he can recognize the different kinds of timber. When the rivers are high and the water is muddy, everything is impenetrably black, rendering it immaterial whether his eyes are

Improvement in Printing Wall Papers.-Mr. P. H. Bowers, of Brooklyn, N. Y., has furnished the Scientific American with an account of the process by which he produces

an elegant wall paper:
"I take thin strips of wood of various kinds, from which I desire to print the wall papers, and mount them upon blocks of wood, or any suitable substance; or I saw out from wood, blocks of sufficient height to allow as impression to be taken from them allow an impression to be taken from them when placed in the press. I then thoroughly cleanse the face of the wood blocks with a mild alkaline solution, so as to remove the softer substance filling the pores of the wood. The blocks are then placed in the ordinary machine for printing wall paper, are properly inked, and the paper being fed into the machine, any number of impressions may be

"The result is the production of a wall paper in which the grain of the wood used as a type is perfectly reproduced, and the expense attendant upon the same does not exceed the cost of wall paper printed in the usual manner, while a high artistic character is given to the work."

The California Giants Outdone. - Recent researches in Australia show that trees are growing there whose height exceeds those found in California, which were supposed to be the tallest in the world. The tallest actually measured was 480 feet high; but at least between those trees that have been shortened-in and those that have been left to themselves; the trees so treated live longer, are broken down less by the wind, produce larger and better fruit, which is more easily gathered than from the trees grown by the old method.

another, with a circumference of eighty-one feet, four feet from the ground, was estimated to be over 500 feet high. The tallest schools of the State, and that no local boards of directors have the right to exclude them or to compel them to attend separate schools. President A. D. White has purchased than from the trees grown by the old method.

The Rev. James Kent Stone has resigned another, with a circumference of eighty-one est drought.

City and Country .- The cities live at the ex-City and Country.—The cities live at the expense of the country. Families are exhausted and die out, and their places are filled by new comers from the country. This was illustrated by the case of Paris, where it was estimated by a writer in 1842, that among

population up to its number.

Mexican Silver.—The Mexican silver mines particularly those in the district of San Luis
Potosi, seem to be in a very prosperous condition, if we may judge from the report of
the State Inspector of Mines for that district.
It appears that one mine in the neighborhood of Charcas, worked at an expense of
\$170,000, since the 1st of January, 1862, has

ANALYSE COLUMB The trustees of Analysis and the fourth or fifth that Dr. yielded silver during that time to the value of \$5,460,000. The Santa Rosa Mining herst College met in Springfield, Mass., on Company is drawing out \$95,000 worth of ore per week. Its works employ 460 hands, the expenses amount in the aggregate to about five per cent. of the value of the silver

Harris of Beloit, Wis., College Professor of Chemistry, in place of W. S. Clark, now about five per cent. of the value of the silver

President of the State Agricultural College. taken out.

Engineering Feats. -At Glascow, Scotland the Garnkirk Railroad passes, by means of a tunnel 400 feet long, under the Moreland Canal, and over the tunnel of the Edinburgh and Glascow Railroad. The two tunnels stand secure, tier over tier. A similar feat was performed by Stephenson in Derbyshire, England, a railroad being carried over a bridge which there spanned the river Amber, one of the largest and finest Female Semiand at the same point, under the aqueduct of the Crawford Canal. River, bridge, railad, and canal were thus piled one above the other, four stories high. Such another curious complication in railroad engineering probably does not exist.

Preserving Colors.—Before washing almost any colored fabrics, it is recommended to soak them for some time in water, to every gallon of which is added a spoonful of oxgall. A tea-cup of lye in a pail of water is said to improve the color of black goods when it is necessary to wash them. A strong, clean tea of common hay will preserve the color of French linens. Vinegar in the rinsing water for pink or green will brighten those colors, and soda answers the same end for both purple and blue.

#### COLLEGE RECORD.

LAFAYETTE COLLEGE (AT EASTON, PA.)-Francis A. March. Professor of the English Language and Comparative Philology in Lafayette College, has been chosen Phi Beta Kappa orator of Amherst College for the next Commencement. ANOTHER COLLEGE FOR YOUNG WOMEN.

-Exeter, New Hampshire, will soon have first-class college for young women Mr. Robinson, a native of that town, died The main building was burned in 1853 not long since at the South, leaving an immense estate, the proceeds of which are to completed in 1857. The College grounds found and support a literary institution of as expressed in the will is, that the college should be able to send forth "female scholars equal to all the practical duties of life. and to enable them to compete successfully with their brothers throughout the world, when they have to take their part in the action of life." The town has purchased fourteen acres as the site for the buildings, and architects have already furnished plans. Preference is in every case to be given to the poor and the orphan. The system of instruction is designed to be divested of whatever is simply for effect or display. It is to be eminently practical, and to furnish girls every advantage now had by boys.

GENESEE COLLEGE. -The Auburn Advocate lately spoke of the removal of this institution from Lima to Syracuse as a well nigh fixed fact. It says: "There is neither right, nor excuse, for withholding the legal authority from the owners and supporters of the College to remove it." The Black River and Oneida Conferences have already well under way the \$200,000 endowment fund, and the latter is to raise \$30,000 in addition to establish the Oneida Conference Professor-

FARMERS' COLLEGE.-Rev. C. D. Curtis has been re-elected President of Farmers' College.

Mr. A. L. BARBER of the Oberlin Theological Seminary, has accepted an invitation to take charge of the Normal and Preparatory Departments of Howard University, at Washington, D. C.

THE IOWA Deaf and Dumb Asylum, to be erected at Council Bluffs, is expected to cost \$500,000.

MARIETTA COLLEGE held its Junior Exhibition on the 28th ult., when thirteen memers of the class spoke. The work on the Library Building will soou be recommenced, The first instalment of the legacy of Mr. Woodbury has been paid into the Treasury. Rev. Dr. H. A. Nelson of Lane Seminary will deliver the annual oration before the Literary Societies the evening before Comnencement.

THE ATTORNEY-GENERAL OF MICHIGAN has given the opinion that the recent act of the egislature requiring the establishment of a Professorship of Homosopathy in the State University, will not be fulfilled by the plan adopted by the Regents of establishing a School of Homeopathy at some other place than Ann Arbor. The grant which depended on compliance with this condition has ac. cordingly been withheld. Three of the medical professors of the University have meanwhile resigned, unwilling to be involved even in such a countenancing of Homeopathy as the Regents proposed, and the Old School Physicians are endeavoring to raise funds for the endowment of an independent medical school at Detroit.

THE SUPREME COURT OF IOWA have decid ed that colored children have an equal right with all others to admission to all the public

AMHERST COLLEGE. -The trustees of Am-Tuesday, fortnight, and elected Elijah P. Harris of Beloit, Wis., College Professor of A Committee was appointed to procure plans and subscriptions for a library building to cost \$50,000.

THE OHIO FEMALE COLLEGE situated six miles north of Cincinnati, lost its main building by fire on the afternoon of the 24th ult. The building burned was of brick, and was nary buildings in the land. It was insured for 45,000, so that the loss over insurance will be about \$25,000. This sum the Trustees hope to raise by donations, and to rebuild at once. The Herald says :

"While the Seminary was burning the Board was in session in Cincinnati, ignor ant of the fire. They elected Rev. N. C. Burt, D.D., of this city, President, in the place of Rev. J. M. Anderson, who accepts a professorship in Williams College. The hope is that the fire will not prevent the acceptance of Dr. Burt, who is regarded by all who know him as admirably adapted to be the head of such an institution. With faith and energy, a new building better than the old may be ready for occupancy by the opening of the next term in September. The Ohio Female College is not now a private enterprise, as it was in former years, but is held and controlled by a self-perpetuating Board of Trustees.

"The College was chartered about twenty years ago. The buildings first erected under the energetic management of Rev. John Covert, were dedicated in September, 1849. was rebuilt in part the following year and embrace twenty acres of lawn, lakelet and the highest order. The intent of the donor garden. The shrubbery is the growth of twenty years, and its value cannot be estimated in money."

PROF. JAMES C. WATSON, the young but already celebrated astronomer of Michigan University, has just published, through Lippincott of Philadelphia, and Trubner of London, a large and costly treatise on as tronomy.

SIR ALEXANDER GRANT will be the Principal of the University at Edinburgh, in place of Sir David Brewster. Sir Alexan der will also be appointed Professor of Moral Philosophy.

## THE GREAT AMERICAN Tea Company

TWO FULL CARGOES

OF THE FINEST NEW CROP TEAS.

22,000 HALF CHESTS by ship Golden State. 12,000 HALF CHESTS by ship George Shotton.

In addition to these large cargoes of Black and Japan Teas, the Company are constantly receiving large invoices of the finest quality of Green Teas from the Moyune districts of China, which are unrivalled for fineness and delicacy of flavor, which they are selling at the following prices:

Oolong (Black) 50c., 60c., 70c., 80c., 90c., best \$1 per Ib. Mixed (Green and Black), 50c., 60c., 70c., 80c., 90c., best \$2 English Breakfast, 50c, 60c, 70c, 80c, 90c, \$1, \$1, \$1 10, best \$1 20 per lb.

Imperial (Green), 50c, 60c, 70c, 80c, 90c, \$1, \$1 10, best \$1 25 per lb.

Young Hyson (Green), 50c, 60c, 70c, 80c, 90c, \$1, \$1 10, best \$1 25 per lb.

Uncolored Japan, 50c, 51, \$1 10, best \$1 25 per lb.

Gunpowder, \$1 25, best \$1 50 per lb.

Coffees Roasted and Ground Daily.

Ground Coffee, 20c., 20c., 30c., 30c., best 40c. per lb. Hotels, Salcons, Bearding-House Keepers, and Families who use large quantities of Coffee, can economize in that article by using our-French Breakfast and Dinner Coffee, which we sell at the low price of 30c. per lb.; and warrant to give perfect satiafaction.

Consumers can save from 50c. to \$1 per lb. by GREAT AMERICAN TEA COMPANY, Nos. 31 and 33 VESEY STREET.

Post-office Box No. 5643, New York city.

We warrant all the goods we sell to give entire satisfaction. If they are not satisfactory they can be returned at our expense within 30 days, and have the money refunded.

Through our system of supplying Cinbs throughout the country, consumers in all parts of the United States can receive their Teas at the same prices (with the small additional expense of transportation) as though they bought them at our warehouses in this city.

Some parties inquire of us how they shall proceed to get up a Club. The answer is simply this. Some parties inquire of us how they shall proceed to get up a Club. The answer is simply this Let each person wishing to join in a Club say how much Tea or Coffee he wants, and select the third and price from our Price List, as ynbilshed in this paper or in our circulars. Write the names, kinds, and amounts plainly ose list, and when the Qinb is complete send it to us by mail, and we will put each party's goods in separate packages, and mark the name upon them, with the cost, so there need be no confusion in their distribution—each party getting efactly what he orders, and no more. The cost of transportation the members of the club can divide equitably among themselves.

The funds to pay for the goods ordered on be seni by drafts on New York, by post-office money orders, or by Express, as may suit the convenience of the club. Or if the amount ordered exceed \$30, we will, if desired, send the goods by Express, to "collect on delivery."

Hereafter we will send a complimentary packages to the party getting a pin the Club. Our profits are small, but we will be as liberal as we can afford. We send no complimentary package for Clubs of less than \$30.

All villages and towns where a large number reside, by clubbing sogether, can reduce the cost of their Teas and Coffees about one-third (beside the Express charges), by sending directly to

'The Great American Tes Company." BEWARE of all concerns that advertise themselves as branches of our Establishment, or copy our name either wholly or in part, as they are bogus or imitations. We have no branches, and do not, in any case, authorize the use of our name.

#### THE APPLETONS' NEW BOOKSTORE.

The growth of the publishing business in the United States, is seen in the immense warehouses which are erected for its accomodation. Of all the publishing houses, not one has a higher standing than that of THE APPLETONS. It is, we have been told, the largest honse for the publication of booksthe business of the Harpers being divided between books and their two papers and monthly magazine. Even since we have been in New York, which is not much over a dozen years, we have seen the Appletons outgrowing three locations, and migrate in search of larger accommodations. When we first knew the firm of D. Appleton & Co., founded by that pioneer in the publishing business, the late Daniel Appleton, it was below the City Hall Park, at 200 Broadway. Then it removed to the old Society Library building, corner of Leonard street; then still Broadway; till, spreading out still, it has have ample space, and here it has erected its new and immense building.

The building, costing \$160,000, has a front of 75 feet on Grand street, and 100 feet on Greene, and is five stories high. The front on Grand street is of sandstone, and that on Greene street of brick, with sandstone fac-Greene street is of sandstone, and that of Greene street of brick, with sandstone fac-ings. Large and elegant iron pillars flank the doorways on both streets, and give addi-tional support to the structure. The exterand appearance of the building is massive and imposing, and may be considered even beautiful, though the prime object of the architect and builder was to obtain strength and durability. The numerous large win dows on both streets impart a look of lightness and grace, and supply an illumination for the interior which is appreciated alike

by sellers and customers.

The basement, 75 by 100 feet, is a general stock-room. Here may be seen great piles of cyclopædias, school-books, and Dickens's and Scott's novels, and the standard works of the house, fresh from the Brooklyn bookfactory. Broad flights at each end of the basement lead to the first floor, which is the retail department, and is fitted up in oak, rich and neat, which, in a word, is the style of the furniture and decorations throughout the building. Adjoining the retail bureau is the subscription department, which has grown into an immense business within a few years, and is still steadily increasing. Next, to the left, is the city branch, which is a complete bookstore in miniature, intended for the supply of their own publica-tions to the local trade. These three depart-ments occupy about a third of the first floor. e eastern door on Grand street is the portion set apart for the works of other publishers, of which the Appletons have a large stock always on hand. In the rear part of this floor, the packing and shipping business is chiefly done. The safe, which extends from the basement to the ceiling of the first floor, is probably one of the largest and most secure in the country. It is built into the structure from the foundation, in two tiers, each of which is 14 by 21 feet in floor area, and 15 feet high, with surrounding stone and brick walls 2 feet thick. Here are kept the costly steel plates of the House,

The ample and beautifully-furnished suite of business offices occupy the second floor on the Graud street front. These are occupied by the Messrs. Appleton, and are re-plete with every convenience which could facilitate the transaction of business or ranging from a few shillings to \$100, whole-

room is also here, and a very large business is done in filling single cash orders for books from all parts of the United States and the

Theology and Spanish literature are on are now dug up are headless. the fourth floor, while the fifth and last floor serves the purpose at present of a store-room for goods in bulk.

Of all the leading books, it is the inten-

tion of the Appletons to keep a very large supply always on hand, which their increased es for manufacturing now enable them The private telegraphic connection will soon be established between their offices in Grand street and their new printing house and bindery in Brooklyn, will be of service in promptly equalizing the supply to the demand.

onr table, filled with attractive and instructive articles. The embellishment is an engraving of the celebrated painting, "Napotion-What is Turkey ?; The Enchantress; tory; The Island of Mitylene, by the editor; The Poetry of Tears, &c. The editor's note informs us that this number completes the seventieth volume of this long-established magazine.

The Children's Ald Society have opened a new lodging house for boys at 325 Rivington street.

opening of the slave trade. #### THE AMERICAN BOARD.

The May meeting in behalf of this Board was held in the Madison Square Presbyterian Church, Sunday evening last. After an opening anthem by the choir, the Rev. Dr. S. D. Alexander, read the Scriptures at the Second Psalm and offered prayer, when the Missionary Hymn "On Greenlaud's icy mountains" was sung by the large audience standing.

Mr. William E. Dodge, the Vice President of the Board, acted as the Chairman of the meeting and made a few opening remarks touching the present position of the Board and the great work it had solemnly taken upon itself at Buffalo, to evangelize the Chinese nation, and at the conclusion called upon the New York Secretary.

The Rev. Dr. Geo. W. Wood, then came forward and read a carefully prepared outline statement of the present missionary ophigher up to No. 348, on the west side of erations of this great organization. These are carried on among the Dakota, Ojibwa, removed into Grand street, where it could and Seneca tribes of Indians in this country in West and Southeastern Africa; in Greece Syria, European Turkey, Asia Minor, and be yond the Euphrates and the Tigris; among the Nestorians of Persia, in Western and Southeastern India, on the Island of Ceylon, in China, and in the ocean world of the Paeific. It occupies 104 stations, with American missionaries, and 482 out stations, with native laborers; the increase in the number of the latter having been 292 in five years and sixty-one during the last year.

> Since the report made to the Board a Buffalo last Fall, the number of native pas. tors in the missions is known to have been raised from eighty-four to ninety-eight. Adlitions have also been made to the native preachers and catechists then reported as 272. The whole number of native laborers, including 349 school teachers and 223 other aborers, is about 950; and of laborers connected with the missions is about 1300. Considerable accessions have been made to the membership in the 205 churches, reported at Buffalo as 22,502, of whom 1467 were re ceived last year. The Educational department exhibits sixteen training and theologischools, and sixteen other boarding schools, containing 1060 pupils; and 12,564 pupils in 459 day schools, omitting those at the Hawaian Islands. The issues of the press last year were nearly twenty-four million pages.

> These statistics are highly significant and cheering; but they feebly represent the great work of spiritual enlightenment and moral renovation which is accomplished by the faithful labors of the messengers of the in which these are prosecuted. They show, however, that a living Christianity is impartseed-sowing, we have been looking, surely approaches.

The Rev. Dr. Jessup was next introduced. He commenced his remarks by referring to the impressive lesson of God's abhorrence of lighten its cares. In immediate communication with their offices are the departments of the cashiers and of the book-keepers. On strew many of the plains and mountain tops this floor also is the educational department, where may be found a large and elegant assortment of Bibles and Prayer Books and Egyptian, Philistian, Phoenician, Greek or stationery. The Bibles are imported, and Roman, all were now desolate and silent. Are of every conceivable style and price. Yet not silent as to admonition. On an in-Of Prayer Books, there are fully one ner wall of the great Egyptian Baalbech a thousand varieties. The assertment of stationery is as complete as it is possible to obsall ntterly abolish." The whole land tain from every source.

The third floor is similar in general respects to the floor below, and is full of When idolatry overspread these lands and gaged in it. Rev. Samuel Nott, who was When idolatry overspread these lands and gaged in the first band of missionaries that in attendance next year. The number this was seated in these great temples seemingly one of the first band of missionaries that in attendance next year. The number this year is thirty-one, from ten different States, juvenile books, poetry, works of fiction, was seated in these great temples seemingly photograph-albums, etc., etc. The mailas in an impregnable fortress, then God let loose that besom of destruction, Mohammed. Those strange, iconoclastic invaders did their work thoroughly. The images that

The speaker next touched upon the methods of missionary work in Syria. To attempt to evangelize the people without giving them the word of God would be but to insure their lapse into their former condition in a generation or two. The principal points were occupied; a native ministry was raised up and the new churches incited to self-support as quickly as possible, while the missionary passed on in his pioneer and supervisory work. More men were wanted The Eelectic for June is promptly upon in the field to help on in every department of this great and growing work. Eight hundred printed Christian works were to be had in the Chinese language, but the Arabic leon in the Prison of Nice," long in the col- publications of the kind were not one-tenth lection of his great adversary the Duke of as numerous. to show the bald formalism, the utter want of heart and conscience in the adherents of the Mohammedan faith, and also in the adherents of the Greek church in Syria.

The Rev. William Tracy of Southern Iudia, was the next speaker. Alluding to what had been said of temple ruins, he observed that he came from a land crowded with heathen temples yet standing in all their magnificence, and filled with worshippers. These quite overshadowed the humble Gospel laborer, yet at the close of a score of years, begun under such discouraging circumstances, he could declare in the spirit with which he set out, that he was not ashamed of the Gospel of Christ. Some scientific writers held that it was not true; and literary travellers had written down the missionary work as a failure; but they were all mistakeu. The work must needs be slow at first against such an all pervading, indurated idolatry. We have to contend against an ancient system and one that is intertwined with the very constitution of society. It is an imposing system, with forms and ritual and a powerful priesthood. The priests interfere and direct everywhere, and they are the richest, and most influential and intelligent of all classes. They oppose Christianity as did the Pharisees at Jerusalem, for they know it would destroy their influence and lessen their revenues. Then the very philosophy of the people obliterates all distinction between vice and virtue. A Brahmin will tell me that he is not a sinner, but a part of God. Their religion is liceutious and their gods are licentious, and this falls in with the wishes of the people, they love to have it so. The system of caste imposed the greatest difficulties also. When the missionaries first went among them they were regarded as unclean, the very refuse of creation, women and children ran from them and barred their doors. To human view it seemed the height of absur dity to ask the natives to give up their spleudid religion for the humbling doctrines of the cross-to leave their great temples and turn their backs upon business and social standing, for the sake of hearing Gospel truths in mud houses! A Brahmin came and talked with us when we had been or the ground five years, expatiating on the absurdity of our attempting anything, and we were obliged to confess that as yet we had not gained a single convert. But we did not blush for the Gospel, we avowed the be lief that all the great cities thereabonts would yet be converted. He finally ac knowledged that it might be so. Indeed there was a prediction somewhere in the Vedas-next in age to the Pentateuch-that Gospel in the vast and widely distant fields a true religion should finally come from the West and supplant all others. By and bye two or three families in a village came out, ed; that is taking root in the soil, and is and calling themselves Christians, ceased propagating itself by its own vitality; and their attendance on the temple worship and the grand harvest season toward which, in no longer bore the marks of their gods in the periods of breaking up the ground and their foreheads. A British officer spoke of the change for the better in the villages where we were preaching. It was safe to go into the streets after dark. In a word, the work has gone on increasing until now there are thirty organized churches in that district, with 1250 members-some of them as earnest and lovely Christians as are anywhere to be found. Two hundred and fiftyfive villages are regularly visited, and the

number of congregations with some organiham, Mass. It was not proposed to send men from this country in sufficient numbers to convert other lands, but to set the natives of these lands at work in the right way. spot for this Southern institution. The 950 helpers of the American Board showed what was being done in this direction. It was a significant and encouraging item of the statement read at the opening of the meeting.

The American Bible Society. - The last stated meeting of the Board of Managers vas held on the 7th inst., Norman White, Esq., in the chair. The decease of Rev. Dr. Charles F. E. Stohlmann, a member of the Board, was announced, whereupon the Rev. Dr. Holdich read the ninetieth Psalm and offered prayer.

Communications were received from Agents n Mexico and South America, from Rev. E. P. Hastings, Ceylon, in regard to employing colporteurs, and from Rev. H. Blodgett, Peking, on the same subject, and also requesting Arabic vowelled Testaments for disguesting Arabic vowelled Testaments for distribution among Mohammedans in China; and from Rev. Asher Wright of the Cattarangus Reservation, as to publishing parts of the Scriptures in the Seneca language for the Iroquois Indians.

It is too late, however. The speaker related several incidents going have swallowed the fish.

#### Current Events.

Foreign Affairs.—In the English House of Commons, on Wednesday afternoon, Mr. Gladstone moved a bill to prevent the making of further appointments to livings in for a specified period, and the Irish Church also to suspend the proceedings of the Com-mission on the Irish Church Establishment for the same length of time. The Queen, on Wednesday, in the presence of a vast multitude of spectators, laid with imposing ceremony the corner stone of the Thomas Hospital, which is to be built on the Thames ediately opposite the Houses of Parlia ment. Her majesty was attended by the Prince of Wales and other members of the royal family, and by the members of the Ministry and the chief officers of the State. The Corporation of the city of London, have presented an Address to the Queen declaring their profound sympathy with Her Majesty for the injuries received by Prince Alfred at the hands of an assassin, and expressing their detestation of the attempted crime. As to the method of the foul deed,

crime. As to the method of the foul deed, it appears that the Prince was walking across a green in company with Sir. William Manning, when O'Farrell came out from under the trees which fringe the beach of the scene of the festivities and advanced at a right angle to the Prince. On getting behind him he turned sharply round, drew a Springfield ompany's revolver, and with the muzzle of it almost touching the Prince's back, fired at his spine. The bullet passed through the at his spine. The built passed through the centre seam of his coat, through the centre of his brances, entered his back about half an inch from the junction of the ninth rib and the vertebre, then glancing obliquely off the bone, traversed the rib round to about two inches under the breast bone and there lodged. The Prince's lower limbs were at once paralyzed, and he fell to the ground, exclaiming, "Oh, God! He has broken my back." Sir William Manning, hearing the report behind him, turned sharp-ly round, and as he did so the assassin shout-"Stand back," covered him with his revolver and snapped the cap. Fortunately the pistol missed fire, and before he could again fire a coachbuilder, named Vail, rushed on the ruffian and clasped him round the O'Farrell then attempted to shoot body. O'Farrell then attempted to shoot Mr. Vail, and a desperate struggle ensued. O'Farrell tried to shoot the Prince again as he lay on the ground, but his aim was diverted by Vail striking down the pistol, and the bullet, diverted from the prostrate Prince, went through the foot of a merchant named Thorne. In another second O'Farrell was surrounded on all sides and almost torn to pieces. HAYTI is in a turmoil as usual. Despatch-

s state that President Salnave escape Cape Haytien and arrived in Port an Prince. At the latter place he used violent threats to the American and other foreign consuls, and many Americans were shot and robbed, be ing finally compelled to seek shelter at the American Consulate. Some of the citizens were arrested and ordered to be shot. The American Consul sent to Havana for an American man-of-war, and to Jamaica for a British war vessel. The steam gunboat Phebe, belonging to the British govern-ment, immediately sailed from Jamaica to his assistance. The revolution has spread all over the country, nearly the whole of which is now in arms against Salnave.

THE SOUTHERN BAPTIST CONVENTION WE

in session in Baltimore the second week of the present month, Prof. Mell of the Uni-versity of Georgia acting as its President. President Curry of Marion College, Alaba-ma, and many other influential men of the lenomination were present. Dr. Skinner of denomination were present. Dr. Skinner of Nashville preached the annual sermon. At the opening it was voted to invite all Baptist ministers present to take seats with the Convention, and the invitation was accepted by a considerable number among them, about twenty from Northern States. The Committee appointed at the last meeting of the American Baptist Herma Micrison Sch the American Baptist Home Missionary Sonumber of congregations with some organization is 162.

The services concluded with a few words from the pastor of the church, Dr. Adams. He called to mind that this wonderful success in the mission work had been achieved within the life-time of those who first engaged in it. Rev. Samuel Nott, who was one of the first band of missionaries that the American Baptist Home Missionary Society to attend this meeting, presented a 55,000 bush., at 2 51a2 32 for No. 2, 2 41a2 45 for No. 1, and 2 75a2 85 for red and white Western, closing at 2 28a2 29 for No. 2, and 2 40 for No. 1.

S. 7-30, July, 1078; New York Central, 1225; Erie, 688; Hudson River, 187; Reading, 91; Michigan Southern, 864; Illinois Contral, 147; Pittsburg, 844; Northwestern, 66; Northwestern preferred, 764; Toledo, 1054; Rock Island, 948; Fort Wayne, 1074; Ohio and Mississipul Certificates, 293; Cauton, 483; Pacific Medical stppi Certificates, 29%; Canton, 48%; Pacific Mail, 90%; Quicksilver, 28%; Western Union Telegraph.

8. The Weekly Bank Statement shows an increas n loans of \$1,968 900; in deposits, \$2,036,737 of legal tenders \$71,258, and a decrease of \$347, 768 in specie, and \$12,160 in circulation.

THE FIRST MORTGAGE BONDS OF THE UNION PA RAILROAD COMPANY are offered for sale at par and accrued interest from Jan. 1st in currency. They are for \$1000 each, have thirty years to run pay 6 per cent. gold interest, and principle as well as interest is payable in gold, These Bonds are issued only as the road progresses. The government loans, to aid in building the road, United States Bonds to the following amounts: \$16,-000 per mile from the Missouri to the Rocky Mountains, a distance of about 525 miles; \$48,-000 per mile for the 150 miles through the moun-

close of the year. The entire line to the Pacific will he completed in 1870, when the traffic and profit of the road must be immense.

The company's Bonds have unusual provisions for security. The charter granted by Congress makes them a First Mortgage upon the entire line, taking precedence even of the Government's claim, the latter holding a second lien as security for its advances, The railroad upon which these Bonds are a first mortgage costs about three times their amount, the contract price for building the first 917 miles being \$68,068 per mile, which includes \$7500 per mile to be expended in rolling stock. The receipts from way husiness already show a remarkably successful operation of the line. During the eight months ending Dec. 31. 1867, (with an average completed distance of 386 miles,) the net earnings were more than none milling lind nolliars. The interest upon the Bonds with could be issued upon that distance was \$247,040 in gold, or \$345,856 in currency. The net profits were therefore more than three times the interest upon the Company's Bonds, and the traffic must be greatly increased as the sond progresses. A limited amonnt of these Bonds will be issued this year. Their gold coupons (payable semi-annually, in January and July), will be cashed by hankers in any part of the country, and the Bonds themselves are readily convertible. Copies of the pamphlet for 1868, giving full information in respect to the Bonds and the resources of the country through which the road is being built with remarkable rapidity, will be furnished on application to the Treasurer, John J Cisco, at the Company's offices, No. 20 Nassau street, New York, or to any of the Company's advertised agents.

HAY-Was duli at 80a90c for shipping, and \$1 HAY—was dull at 80a90c for shipping, and \$1 15a1 40 for retail lots.

Hors—Had only a small sale at 15a45c for domestic, and 20a35 for foreign.

MOLASSES.—The market is fairly active. Clayed, 47a50c, and Muscovado, 50a60. Sales of Barbadoes, on private terms; and 30 hhds. Muscovado at 51

rado, at 51. Provisions.-Pork very firm and active; sales 5300 hbls. at \$28 75228 88 for new mess, \$27 75a28 for old mess, 23 50a24 for prime, and 24 50a25 for prime mess. After 'Change, new mess was weak, with free sellers at 28 75 cash, and buyers at 28 50.

EEF-Was more steady: sales 450 pkgs, at \$156 19 50 for plain mess, and 20a25 for extra do., re TIERCE BEEF-Continues unsettled and nominal

at \$32a35 for prime mess, and 38:41 for India BESF HAMS-Nominal at \$34a37.

Land — Was lower for inferior grades; sales 600 bbis. at 174a188c for No. 1 and city, and 184a St for steam and kettle rendered.

Cut Mkars — Steady but quiet at 13½al4c for noulders, and 16½al8 for hams.

Bacon—Nominal, at 14al4½ for Cumberland.

DRESSED Hogs—Were lower, at 12a12§
BUTTER — Steady; Ohio, 28a33c, and CHEESE-Quiet at 12a17c.

PETROLEUM — Was dull and nearly nominal. trude in hulk, 132c, and in bbls. 184183. Re-ined in bond, 29a291 for S. W. Naphtha, 18a14. Rics — Quiet and steady, at 94a103 for Ranoon; and Ilalla for Carolina TALLOW-Duil but firm; saies 50,000 fbs. at 12a 24c. STEARINE — Quiet and rather drooping at 184s

SEEDS. - Calcutta Linseed was dull and unchang ed. Clover was steady at 101a101c; Timothy \$250a2 60, and Rough Flax, 2 55a2 75.

Sugars — Less active but steady; fair refining o good grocery grades, 114a124c; soft white refind. 154a16. Sales 675 hhds., including Cuba, a

114124, and Porto Rico, at 124a144. WOOL.—The market continues quiet, and price

parely supported. Sales, 60,000 fbs. fleece at 43a, 7c, including X at 50a52; 40 000 fbs. pulled at 3a47 for No. 1 to extra; 17,000 fbs. unwashed Western fleece at 23; 10,000 fbs. Canal combing at 67; 25,000 bs. California pulled, private terms; 15,000 bs. Spring clip California, from 28 to 32; 16,000 bs. Fall clip California, 19a26; and small parcels of foreign on private terms.

THE WASHINGTON MARKET. - This great retail The Washington Marker. — This great retail depot of the city is more lively than formerly.

The washington Marker. — This great retail depot of the city is more lively than formerly.

The meat market, however, is dull, mutton has to an equal amount, and no more. During dust year, about twelve million dollars of these Bonds reger shout twelve million dollars of these Bonds completed. So large a constructing force is on the road this season, that from 300 to 350 miles and round, 20@25c; corned beef, 15@22c; loins will be added to the completed portion before the

#### LIVE STOCK MARKET.

MONDAY EVENING, May 18, 1868. Monday Evening, May 18, 1868.

Beeves—The arrivals for the week aggregate 7126 head—2254 at 100th street, 2322 at Hudson City, 2509 at Communipaw, and 31 at Chamberlin's. To day buyers were scattered among the three market places, and trade was not active at either. Holders were pretty firm, considering the large number of cattle offered and sold during the week. Prices were fully \$\frac{1}{2}\$ \$\mathbb{D}\$. Dower than on Monday last, but not materially different from the ruling rates on Thursday, Friday and Saturday. Nothing fancy was offered. Good to primesteers were selling at 17a18, medium to fair at 16\frac{1}{2}\$16\frac{3}{2}\$, and common and inferior at 14\(\overline{0}\)[6]\$6. steers were selling at 17a18, medium to fair at 16\frac{1}{2}a16\frac{2}{3}, and common and inferior at 14@16. Included in the sales were 96 good Li nois steers, 7\frac{1}{4}@7\frac{1}{2} cwt., at 17\frac{2}{4}C \text{B} \text{D}. av.; 96 do., 7\frac{1}{2} cwt., at 16\frac{1}{4}@18; 102 fair to good do., 6\frac{1}{2} cwt., at 16\frac{1}{4}@18; 59 medium to good do., 6\frac{1}{2} cwt., at 16\frac{1}{4}@18; 52 do., 6\frac{1}{2} cwt., at 16\frac{1}{4}@18; 85 do., 6\frac{1}{4} cwt., at 17\frac{1}{4}@18; and 52 fair to good Illinois, 7 cwt. 17\frac{1}{4}@18; and 52 fair to good Illinois, 7 cwt. 17\frac{1}{4}@18.

cwt. 17@18.

cwt. 17@18.

MICH Cows — For good milkers, and large handsome cows, there is a fair inquiry. Common and thin cows are hard to sell. Prices range from \$50 to \$100 for poor to good, and fancy bring: higher figures. Receipts 111.

CALVES—The demand for good to prime calves has been steady and firm during the week, and prices are higher, the best selling at 12½c % b.; fair to good at, 11@12; and common to medium, at 8½@10; poor, thin trash, at 7@8. Receipts, 1447.

1447.

SHEEP—Receipts for the week 14,019, against 12,017 last week, 12,843 for the same week last year, and 18,858 for the corresponding week in 1866. The receipts since Saturday were 9 car loads, or about 18.90 head. The market was firm and steady, at 74,3104c \$\mathref{B}\$ b. for common to prime sheared; and 9@11 for medium to choice unshorn. Sales include 2 car loads of fair to good sheared Ohios sheep, 90 bs. av., at 94,@94c \$\mathref{B}\$ b.; 1 car load of prime sheared Ohios, 98 bs. av., at 104; 422 medium sheared Ohios, 86 bs. av., 85; 1 car load fair do., 86 bs. av., at 9; 2 cars com-

104; 422 medium sheared Ohlos, 86 hs. av., 8\frac{1}{2}; 1 car load fair do., 86 lbs. av., at 9; 2 cars commonish do., 78 hs. av., at 8; and 1 car load rough do., 78 hs. av., at 7\frac{2}{4}. Also 175 good unshorn State sheep, 94 hs. av., at 10\frac{1}{2}(11 \frac{1}{2}) h. Swinz — Total for the week 19,644, against 24,003 last week, 21,452 for the same week last year, and 14,918 for the same week in 1866. The market was extremely dull at the opening and closed weak at 9\frac{1}{2}(10 \frac{1}{2}) h for fair to prime. At Communipaw, 2 cars of fair Ohlos, 146 hs. av., were sold of 9\frac{1}{2}, and at Fortieth street, sales were made at 9\frac{1}{2}(9\frac{3}{2}), and one lot at 10.

### Railroad Across the Continent.

THE

# Central Pacific Railroad Company

Are authorized by Acts of Congress to construct, with the aid and supervision of the United States Government, the Western and principal portion of the National Trunk Line between the Pacific Coast and the Mississippi Valley. They have built by far the most difficult and expensive portion of their road, and have an unprecedented working force extending the track across the Sait Lake Basin. By the close of 1868 it is expected they will have 400 miles in full operation, and that the

Entire Line will be co 1870.

More than TWENTY MILLIONS OF DOLLARS have

1. United States Bonds

2. First Mortgage Bonds e same amount, issued also according to the progress road, and having the preferred claim—superior to that

3. Grant of Public Lands Along the route, 12,800 acres per mile, or nearly ten million acres in all, which are now selling at the minimum rate of \$2 50 per acre.

4. Capital Stock of \$20,000,000, of which \$5,000,000 is subscribed and naid on

5. Cash Resources, Comprising Donations from California sources amounting to \$1,250,000, Net Earnings, etc., 1865 to 1870, \$6,500,000 making a total of more than Seventy Millions upon the first 726 Miles.

The Company now offer for sale through us at their PAR VALUE AND ACCRUED INTEREST,

# FIRST MORTGAGE BONDS,

bearing 6 per cent. per annum—both interest and principal being explicitly made "PAYABLE IN GOLD COIN," conformably with the specie laws of the Pacific States. The Bonds are of \$1000 each, with semi-annual gold coupons attached, payable in July and January.

\*\*\*\* The Company reserve the right to advance the price at any time; but all orders actually in transitu at the time of such advance will be filled at present price. They are believed to combine greater attractions of safety, reliability, and profit than any other securities now offered, and are recommended to persons seeking desirable steady investments. We receive all classes of Government Bonds, at their full market rates, in exchange for the Central Pacific Railroad Bonds, thus enabling the holders to realize from 5 to 10 per cent. profit, and keep the principal of their investments equally secure.

Orders and inquiries will receive prompt attention. Information, Descriptive Pamphlets, etc., giving a full account of the organization, progress, business, and prospects of the enterprise turnished on application. Bonds sent by return Express at our cost.
