| Pump | 2 " | 0 " | 1 " |
| Crane | 5 " | 0 " | 3 " |
| Miscellaneous | 20 " | 0 " | 0 " |
| Total | 449 sets | 0 sets | 212 Sets |

6) Necessity for Conversion:

Ima-mura Plant which had been designated for Reparation Custody is the most important one in view of carrying on our business. And after being permitted the conversion for manufacturing civil commodities, we had continued the production in that plant.

But owing to lessening of demands for our products by consequence of dulness of machine Industry, We have had to suspend it's operation of Imamura plant since Jan.1950.

Recently the demand for the goods such as parts for Sewing machine, Spining machine, Engine Parts for Motor-car and steam Traps, etc, is tremendously increased, and prospective circumstances shall be coming to develop the demand for these goods, so we desire to resume it's operation of Imamura plant so as to enable us to use high grade machine under designation for, Reparation custody to carry on the order for these goods.

As it is the case, we shall be obliged if you could grant us at your earliest convenience your permission for conversion for designated Reparation plant.

Denichiro Murase
