S. P 22. 128 8 December 1947

Report for : G. S. General Headquarters

Subject : Removal of a Personel

It is reported hereby that Sugimachi Yoshimasa one of the stafs of Ominato Branch Office of Sendai Regional Financial Bureau was dismissed from his office on the 2nd December 1947.

S. Kunayama

Director of the State Property

Bureau. Ministry of Finance.

Purge !!
Released 2 Dec 52

Application for Remaining in Office

(1) Name: SUGIMACHI Yoshimasa. reparation

(2) Reason for Purge: Paymaster Capt. (Navy)

(3) (a) Present Post: The Head Official.

Rank: Non-regular Staff.

Office: Ominato Sub-branch of Sendai Regional Financial Bureau.

(b) Date of Appointment of above (Period of Service)

Mar. 4. 1946

(4) The position to be given:

Same as (3) (a).

(5) Justification for Remaining in Office:

He is at home in the conditions of the military installations in Ominato because he served there, before he took his post in the Regional Financial Bureau. At present he superintend the affairs of state property and custody and maintenance of appointed arsenal for reparation. He has an intimate connetion with the Military Government of that region and the Military Government trust him very much. For these points, nobody can replace him now. We want his remaining in the present post by all means.

(6) Needed term of office:

File No.: 230.8

Subject: Purge of Former Army and Navy Officers Holding Reparations Positions in Japanese Finance Ministry

Note No.:	From: REP	To: GS	Date: 15 December 1947
1	1. It is the feeling of Reparations Section that no one individual, or group of individuals, is essential to the execution of the Reparations Program by the Japanese Government. It is believed, however, that the purge of one hundred and thirty-eight (138) individuals, within the Ministry of Finance and its Bureaus, if accomplished at one time, would unnecessarily retard reparations work which is presently expanding in magnitude. 2. It is recommended, therefore, that the purge of the individuals mentioned in paragraph 1 above be accomplished at the rate of approximately ten per cent (10%), of the personnel involved, per month. Care should be exercised to insure an even geographical distribution of the purgees so that no single local Finance Bureau will have an abnormally high percentage of purges effected in any one month. Such a procedure would allow the affected offices sufficient time to orient and train replacements; thus minimizing the disrupting effect of such action on the Reparations Program.

MEMORANDUM FOR THE RECORD

SUBJECT: Release of Ex-career Officers in Ministry of Finance

1. Reference is made to check note from Reparations Section to GS, dated 15 December, subject: Purge of Former Army and Navy Officers Holding Reparations Positions in Japanese Finance Ministry.

2. Pursuant to the recommendation made by Comdr. Hussey that subject persons be released at the rate of 15% per month, and to the added request of Major Napier that an attempt be made to effect release of all subject persons (127) by 3 May 1947, these matters were discussed informally with Lt. Col. Harding, Reparations Section, Field Operations, on this date.

3. It was stated that the aim of GS was to effect release by 3 May, Constitution Day and to lend some significance to the day. The undersigned mentioned to Lt. Col. Harding that it seemed that, in the case of Osaka and Kumamoto Financial Bureaus, where 31 and 26 respectively were affected, the release of an average of 7 and 5 respectively per month should be reasonable. Lt. Col. Harding replied that as the whole matter had already been discussed with 8th Army and the release at a rate of 10% per month had been decided upon, and such was the maximum rate of release consistent with the operational responsibilities of Reparations Section and 8th Army, an increase in rate of release could neither be recommended by Reparations Section nor given concurrence. He said that a rate of release at a rate greater than 10% per month would upset the program just at the moment when the bulk of the work is expected to be done. He added that, whereas the first suggested date for completion of release was 31 December 1948, release at the rate of 10% per month by rank would be completed by September 1948, and that Reparations Section did not desire any hastier release.

23 March 1948

MEMORANDUM FOR THE RECORD:

SUBJECT: Retention of Former Career Army and Navy Officers in Ministry of Finance, Conversation Between Col. Kades and General Harrison

1. On 22 March 1948 Col. Kades discussed with Brig. Gen. Harrison, Chief, Reparations Section, the matter of the retention of former career officers in the reparation machinery of the Ministry of Finance as affected by JCCS directive received in radio No. W97791, dated 18 March 1948, paragraph 13. Col. Kades explained that in consequence of this directive it was no longer the function of GS to dispose of JG requests for retention of former career officers as supported by interested staff sections, with the exception of those former regular officers employed in the demobilization and repatriation machinery. This matter was now in the hands of the Chief of Staff, and only the Supreme Commander could authorize retention in positions other than repatriation and demobilization, and then only if the record of the individual showed he had been an opponent of Japanese expansion and totalitarianism.

2. General Harrison replied to Col. Kades that he himself had never supported the retention of these ex-career officers, but that he had been forced to do so by the position taken by 8th Army. He stated that in the light of the new directive from Washington, he could not afford to further support their retention, and that all could be released immediately.

6. Required period of ~~retention~~ :

For coming ~~three~~ one years.

7. Remarks : None.

48-0484

EXPLANATION ABOUT Mr. Hisajiro NAMBA

Mr. H. Namba is in charge of winding-up of special account of extraordinary war expenditures, which means reclamation of advance payment and collection of bills for articles disposed of by the army. It amounts to 340 million yen approximately collectable from 750 companies and firms.

As is clear in the career of him, he was promoted from private soldier to officer and engaged in intendence through his career. The businesses he engages now are assigned to only two: one in ex-army affairs -- Mr. H. Namba, and the other in ex-navy affairs -- ex-navy civil officer (treated as Sonin-kan rank). This is the minimum personnel and cannot be reduced any more. Under the circumstances, it is sincerely desired that Mr. H. Namba remains in the present position up to the end of next March at the earliest.

R, Inuiyama

O/tn

EXPLANATION ABOUT Mr. Hisajiro NAMBA

Mr. H. Namba is in charge of winding-up of special account of extraordinary war expenditures, which means reclamation of advance payment and collection of bills for articles disposed of by the army. It amounts to 340 million yen approximately collectable from 750 companies and firms.

As is clear in the career of him, he was promoted from private soldier to officer and engaged in intendence through his career. The businesses he engages now are assigned to only two: one in ex-army affairs — Mr. H. Namba, and the other in ex-navy affairs — ex-navy civil officer (treated as Sonin-kan rank). This is the minimum personnel and cannot be reduced any more. Under the circumstances, it is sincerely desired that Mr. H. Namba remains in the present position up to the end of next March at the earliest.

Application for Retention in Service
(Ministry of Commerce and Industry)

NO
gone

1. Name: Narita Takeo
2. Reason for Disqualification
   Acting Engineering Captain
3. Present Post
   a. Title and its particulars
      Non-commissioned official, in charge of automobile manufacturing industry
      Studying basic requirements of raw materials especially coke and coal from the standpoint of rationalization of factory fuel economy, having many years' experiences
   b. Tenure of Present Post
      From October 1945 to August 1947
4. Position to be assigned and its particulars
   Exactly the same business as mentioned in 3, a.
5. Reasons for indispensability
   Immediately after being appointed Engineering Second Lieutenant in June 1939, he had been working for Non-metallic material Branch of the Planning Department of the Sagami Arsenal, studying rationalization of fuel economy in heavy-duty vehicle production plants of the arsenal in order to overcome the shortage of coal and coke, coupled with the statistical survey concerning the basic figures of requirements of secondary materials needed.

   In view of the present aggravated raw material situations, it is deemed necessary to enforce the strict control over fuel economy in order to rationalize production method on the basis of many years' experience.

33-3850

It is needless to state that quite a number of raw material itens are required in the automobile industry. In order to have the automobile manufacturers enforce the strict control over fuel economy, and investigate and analyse the bastic requirements of non metallic materials, it is indispensable to have an excellent experienced engineer like him. Otherwise it seems to be imposible to cope with the stringent raw material situations. This is the reason why we, as the Ministry of Commerce and Industry, to have his study continued for aperiod mentioned in 6.

6. Requested Period of Retention
   From August 1947 to March 1949
7. Remarks: None

APPLICATION FOR RETENTION IN SERVICE NO

Ref 26-6274
Weiler 26-6257

(Ministry of Commerce and Industry)

1. Name

YAMADA Minoru

2. Reason for disqualification

Lieutenant (Navy)

3. Present post

(a) Title of present post

Occupies responsible position in the dealing with other offices (i.e. with Marine Transportation General Affairs Bureau and Shipping Management Association) in regard to the planning and distribution of vessels in the program of steamship transportation of materials under the perview of the Ministry of Commerce and Industry.

Affairs assigned to this person are:

1. Collection of application for request for transportation of materials re: commerce and industry.
2. Liaison, to effect above collection, among each Original Bureau, each Commerce and Industry Bureau, and each Industrial body.
3. Planning of Steamship transportation schedule, and liaison work with Marine Transportation General Bureau and Shipping Management Association.
4. Liaison with Marine Transportation General Bureau and Shipping Management Association in affairs concerning the alteration of shipping distribution in the course

of actual enforcement of the above schedule.

5. Collection of actual results of steamship transportation, and planning of various schemes and advice for the promotion of shipping efficiency through the materials obtained thereof.

(b) Duration of existence of the above post

Approximately eight months.

4. Position to be assigned and its particulars

Same as 3, (a) above.

5. Reasons for indispensability

(a) To become experienced in such work as collection of application for transportation, as stated in 3, (a), (1), (2), as assigned to this person, needs fairly long time, and inasmuch as, there are great many parties concerned to whom he has to acquaint and establish personal relation to carry out the business.

(b) As the parties to deal with by us in the matters mentioned in 3, (a), (3), (4) in course of planning and enforcement of distribution of steamships are such expert bureaus as Marine Transportation General Affairs Bureau and Shipping Management Association, it is necessary that the management be handled by technical expert with knowledge of marine transportation, shipping administration, etc. which cannot be easily acquired in short duration.

(c) This person, having served with the navy in fleet service, has rich knowledge in regard to marine transportation when compared with other person; and having established, in spite of only 8 months service with this Section, complete personal

connection with many parties concerned throughout the country through tireless efforts and thorough contribution in successful management so for, so that, he is expected, hereafter, to perform the affairs in most smooth management.

(d) His immediate retirement from present post would cause great impediment to the performance of the above duties, and it is deemed absolutely impossible to effect the business by any other person in short time before establishing such personal connection as mentioned above.

(e) The reasons why such important post as above should have been assigned to a person who has no official appointment are:

1. No suitable person ranked as Secretary could be found at that time.
2. There was no room in the full employment number of this division, and had to fill the post with non-official personnel.

He, even as a non-official personnel, had to perform his duty without payment until quite recently. He has, dispite the above fact, performed, with unflinching zeal, the duty that this section assigned to him.

6. Required period of retention

~~One year and~~ six months.

7. Remarks

None.

Sa/to

APPLICATION FOR RETENTION IN SERVICE

(Ministry of Commerce & Industry)

Not career officer JB 28 Nov JB

1. Name

YAZAKI Tomomichi

2. Reason for disqualification

Technical Captain (Army)

3. Present post

(a) Title of present post

Non-official personnel of Ministry of Commerce and Industry.

1. Affairs pertaining to allocation of required materials for Engineer Requirements and L.D. issued by Military Government Headquarters 8th Army.

2. Acceptance and distribution of P.D.

3. Application for approval of samples.

4. Application for request of amendment and cancellation of procurement demand.

(b) Duration of existence of the above post

Eleven months.

4. Position to be assigned and its particulars

Same as 3, (a) above.

5. Reasons for indispensability

This person being appointed as non-official personnel on the 26th August, 1945, as mentioned in the attached questionnaire, and assigned, since 20 September last year, to Special Materials Division, has been carrying out the work, up to the present, with

utmost zeal and most faithful manner. As this division, as you understand, is handling equipment work for the Occupation Forces, for which implementation requires long and adequate experience and technical knowledge, especially quick dispatch, and that any failure in the business performance due to alteration of experienced worker would affect, no small degree, to the fulfilment of the requirement of the Occupation Forces, so, in view of the above reasons, our division has, heretofore been endeavouring, as much as we can, to secure such experienced person as stated above by avoiding the change as much as possible.

This person, notwithstanding, has been charged with most difficult part in the equipping work for the Occupation Forces, such as:

1. Handling of allocation of factories for required materials of Engineer Requirements and L.D. issued by Military Government Headquarters 8th Army.
2. Acceptance and distribution of procurement demands.
3. Application for approval of samples.
4. Application for request of amendment and cancellation of procurement demand.

etc.

has carried out his assigned work in most efficient manner, without single mistake, has contributed largely to the work of this division as well as to the Japanese Government which also, not in small degree, contributed in the accomplishment of occupation program of the Occupation Forces.

This person having all experience and knowledge that required by this division, we can anticipate that his dismissal will cause great impediment to smooth procecution of the work of this division; in view of the above reasons, we, hereby, request that your office be good enough to grant us approval of his retention at the present post.

6. Required period of retention

~~One year and~~ six months.

7. Remarks.

This person graduated from Mechanical Course of Tokyo Technical School and physical and Chemical Course of Tokyo Physical College. He is an engineer with superior technical and clerical ability. The affairs he is in charge of in this office is the liaison with Military Government Section, Head quarters, Eighth Army and Engineer Section, Eighth Army. He wins a measure of confidence in Military Government Section. Procurement Division, M.G.H.Q., 8th Army attaches much importance to this problem, and an official letter has been specially sent to G. H. Q. from Adjutant General, H.Q. 8th Army for his sake.

It is sincerely desired that you will approve of his remaining in office, taking this special circumstance into consideration.

SUBJECT: Retention of Japanese Career Naval Personnel

THRU: Commanding General
Far East Air Forces
APO 925

TO: Commander-in-Chief
Far East
APO 500
ATTN: Government Section

1. Operation of the ocean weather station by the Japanese Central Meteorological Observatory as authorized in SCAPIN-417A is being carried out with the aid of certain career personnel of the former Japanese Navy.

2. An application has been tendered this organization by the Central Meteorological Observatory for retention of certain of the personnel in exception to the provisions of paragraph 13, Far Eastern Commission, serial number 89, dated 12 February 1948, subject: "Prohibition of Military Action in Japan and Disposition of the Japanese Military Equipment", until such time as satisfactory replacements can be obtained.

3. An evaluation has been made of duties and assignments of the career Naval personnel and it is felt that retention of the following can be justified from operational requirements pending replacement by non-career personnel:

a. Ship Ikuna:

Name	Position
Terashima, Masayoshi	Captain

JUSTIFICATION FOR RETENTION ON OFFICIAL POSITION

July 1947

TRANSPORTATION MINISTRY

1. Name :	HATTORI Shirōji
2. Reason of falling in Purge Directive	Regular naval officer (Former Lientenant of Navy)
3. (a) Present Position:	Non-official personnel of Transportation Ministry, belonging to Lighthouse Bureau. (In charge of supervision business of Bouy Section)
(b) Date of Installation in the above position:	On Janury 20, 1947 (Up to date 6Months elapsed)
4. Position to be installed in:	Same as stated in 3(a)

5. Reason necessitating Retention on official position:

Same as stated in the annexed paper

6. Term of the retention: December 31, 1948

REASON FOR REQUEST TO RETENTION (Concerned Mr. S. Hattori,)
(Special Employee)

He is working very hard on all business concerned navigational aid at Swept-clear Channels, for he was employed as a special stuff of the Lighthouse Bureau, Ministry of Transportation on January 1947.

And at present, this work is directed by the Allied Forces, and ordered to be finished as soon as possible.

The safety aid for navigation is very important. He engaged in the Planning, Establishment, Maintenance, Superintendence of the Buoyage and the Liaison Business with the Officer in charge of the U.S. Navy.

He have wide knowledge and experience in the buoyage business, and is doing in this work with the highest efficienby.

He is trusted very much by the American Naval Officers in charge of the above works; so that, if he is taken place of by another person, it is quite clear that the business of the Lighthouse Bureau will be greatly disturbed and will be unable to fulfill our responsibilities and therefor bad influence upon our duty as directed by the Allied Forces.

Under the reasons above mentions, and especially in view of the Particularly Disire, (enclosed), by Captain E.T. Seaward, U.S. Naval Officer, and at the same time, the supervisor of Japanese Lighthouse Bureau, which is addressed to Mr. Yamaguchi, the Director of this Bureau; it is highly disired that he be retain at his present executive position.

COMMANDER NAVAL FORCES FAR EAST
Tokyo, Japana

C * O * P ** Y

26 July 1947

From : Officer in Charge, Branch Hydrographic Office, Tokyo
To ; Director, Japanes Lighthouse Bureau

Subject : Retention of special employees

1. The co-operation which the Japanese Lighthouse Bureau has shown during the time I have served in the capacity of Liaison Officer has been very gratifying to me.

2. In order that this co-operative spirit may not be disturbed it is important that the personnel in executive positions be kept as constant as possible.

3. It is particularly desired that the two special employees, Mr. S. Hattori and Mr. O. Suzuki, who have a wide knowledge of the technical workings of the Bureau be retained if this can be arranged in conformity with your planned operation of your Bureau.

SIGN E. T. SEAWARD

E. T. Seaward
Captain, U. S. Navy.
