

## Cabinet Rap Battle

Mr. Biden, for me it's America first,  
Get off the guidon because you're this country's curse.  
Since 2020 migration goes through the roof,  
Come on young man, there's nothing you can really spoof

Did I hurt your feelings?  
Oh, I forgot you were swearing during meetings  
Wake up youngster, insulting the press is my thing  
Problem is you welcome gangsters, and do nothing

Drug deals, cartels, and all.

But the worst is that you don't seem to care at all

Democrats are retards, why are they in office

Uh oh, I guess the answers in your orifice

Get this: the wall is the sole solution

But your woke bullshit will be the doom of this nation

There are already too damn many junk Mexicans

You refuse to halt the cataclysm and you let in Afghans?

Look, in a few seconds old Joe will fall down when his face will turn bland then he'll say "Shut up man"

Man, you look so aged I wonder if your brain is still right

And I'd be really curious to know If your pubes is white...

That old dude can't solve the migration crisis
