The Gazette Firemen's Contest was completed yesterday as per announcement. A large number of votes came in at the larter process began the countrat. It o'slock and it was nearly 10 o'clock in the evening when the result was reached the third judge working steadily upon the counting all the while with the exception of the few minutes necessary to partake of the supper farming of the representatives of the participants in the hall.

The firemen's voting contest now closed has been a friendly rivalry for honors and can leave no ill feelings among those participating.

The Weymouth firemen deserve the support of the townspeople is their noble work and the effort of the Gasette to secure for them, an added measure of recognition and honor has been successful and has been well supported by the people. We desire to extend our thanks to everyone who has aided the efforts of the Gazette in this contest, and to the firemen particularly for their cordial good will.

May the fireman and the Gazette always be firm friends. The following is the report of the judges:

THE PEOPLE'S COLUMN.

To the editor of the Weymouth Gasetic Deer Sir—Being one of your new residents of Weymouth, I feet a little delicat in offering you a letter for publication your patrons and readers of the Gasetic but as I am a stranger in a strange try, as present as a two-ling representative and traveling men being readers and judge of all classes of people, they therefore how home chapterers of new toward as

Now fastering myself that I am a keen chinever of towns, I wish to tell you shout Schenectady, N. Y. I sim not an owner of real estate house or spirit you and your renders the news that so impressed and pleased me.

I arrived at Schenectady Wednesday afternoon, Sept. 19, at 3.30 from Albany, N. Y. After settending to my mail, I took a walk up States street, the principle business street of the city. The impression was beautiful. A large vide street, shaded on both sides by large olm trees, from the uses divinery, 20c, 100 lbs.

Strees, Markets, 25c, 100 lbs.

But law up and course of the old driver in law he will not seen to be street, the principle in the street there is a large triangular park with seats, shade trees, and the castom-

the street there is a large triangular park with seats, shade trees, and the customary monuments. This park forms a large square (not to the rule of geometry) bounded by churches, fire stations, the armory, public buildings and a number of imposing residences. It certainly was a piesaing sight to me, a stranger, and the first impression is a lasting one. Returning to the hotel for supper, I saw a good many bleycle riders coming up the street: I thought at first that it was an out of town bleycle run, but they kept coming and coming, in two's, fourn, singly and any old way, mes, women, girls and boys, all ages, styles, shapes, weights and heights, all pushing their wheels as if they were going to a fire.

My curiosity was at once aroused and I immediately made it a point to find out what was meant by so many bleycles. I found that it was the help of the General Electric Works, formerly, the Edison Works of Trenton, R. J. This company employs eight thousand people and out of that number, three thousand of them go to and from work on their bleycles. I writched them from 5 o'clock-till 4, then I got tred and went to the hold for firsther information and supper. They were still going when I left. My informant gave me these few points which I will give to you. My first question was "Formathe how do all of those people over find their machines." He langhed and said they had racks for them all and gave checks, having 15 or 50 mon to take charge of them, heeping them clean and is repair they paying ten cents a week for the same. Fvery day the bleycles are all thoroughly looked over and cleaned, as much care being taken with them, as would be of a team at a boarding stable. Now I will tell you what I know to be a fact about Schenectady. It is the most hustling and hustiling city of its also of any in the world. It is IT miles from Alhany, the state capitol, on the line of the New York Central R. R., and bordering on the Mohawk river and the Eric canal. It has a population of over forty thousand inhabitionsis. Every thing

something more than a large farming village as of old.

The General Electric Works employ eight thousand people, with a payroll of one hundred and ninety thousand dollars one hundred and ninety thousand dollars weekly, not counting the salary of the weekly of the we westly, not counting the select of the precident who gets only sixty thousand a year, ten thousand more than the ruler of our nation. The plant consists of 13 acros of land given them by the city, and 104 large buildings and more building. Some of the buildings are over 700 ft. in length by 50 ft. in width. In addition to the General Ricctric Works, there is here the Schenectady Locomotive Works, next to the larguest in the world, employing five thousand men, working night and day having two crews, and turning out 36s locomotives a year, being over one a day. It is no important an industry for Schenectady that the city gave them a street and closed it up, that they might build upon it, which they did. It is a non-union shop and the payroit 800,000 westly, the precidents salary not included. I did not learn his salary.

The Baldwin Locometive Works of Philadelphia, are the larguest in the world, while Schenectady is a good eary second. There are two industries that slone pay out 6210,000 a west and heating, it has other industries that a progressive city of 40,000 inhubitants would naturally have. If this is interesting to you I am amply repaid.

Yours respectfully,

A certain Bullelo minister has a little daughter, and the other day he dectard to meeps a call in Chicago. He told his wife and family shout it, and that evening, when the little girl was saying her prayers, she spoke as follows: "Boar Lord, help us, we are going to Chicago,"—Bullalo Courier.

The cry imperialism is one of the weak-est and most far fetched which has ever been raised in a political campaign. Is it on account of the second term; if so how was it is the case of Washington, Jeffer-son, Madison, Monroe, Jackson, Lincoln, Grant and Cleveland? Is it on account of the annexat dictatorable of the present Grant and Cleveland? Is it on account of the apparent dictatorship of the present administration; if so we would call the attention of the people who are using the term to Jefferson and Jackson. Comes to Grief in Weymouth---Harry King is Arrested for Numerous Burglaries.

Under Suspicion For Some Time and His Arrest Will Probably End Burglaries Which Have Puzzled Police of Late.

The arrest of Harry King, 60 years of age, and his 11-year-sold nephew, Byron McPherson, will probably clear up the mystery surrounding the frequent burgaries which have occurred in this town of late, and which have caused the officers of Station 3 no end of trouble. Within the past four or five weeks nearly a dozen stores have been entered at night, and robbed of a part of their stock. The method of procedure employed by the burgiars has been identical in almostevery case, and this fact led the police to believe that all the breaks were perpetrated by one and the same parly.

King and the boy have lived in a house off Quincy avenue, Rast Braintree, for sheral weeks past, and as King appeared to have no visible means of support and had been seen about in the early hours of the morning, suspicion was at once "fast-ened upon him. Tuesday, Officer" Pitzgerald of Weymouth, with Officer Dugan at the officers uncarthed a stock of miscellancous articles, believed to have been a stolen, sufficient to stock an up-to-date, store. The articles included a large supply of groceries of all kinds, gentlemen's furshings, grain, furniture, plaper bags, rope, and in fact almost everything that would be found in a general store. King and her flex almost everything that would be found in a general store. King and his nephew were arrested, and the goods were removed to. Station 3. King denies all knowledge of the breaks but the boy made a complete confersation to the police, in which he said that he had been in the habit of accompaganging his uncle on his trips, and also explaining the manner in which he broke the glass in the windows in order to effect, an, searrance. Baking Powder **Economy**

> The manufacturers of Royal Baking Powder have always, declined to produce a cheap baking powder at the sacrifice of quality.

The Royal is made from the most highly refined and wholesome ingredients, and is the embodiment of all the excellence possible to be attained in the highest class baking powder.

Royal Baking Powder costs only a fair price, and is cheaper at its price than any similar article.

Samples of mixtures made in imitation of baking powders, but containing alum, are frequently distributed from door to door, or given away in grocery stores. Such mixtures are dangerous to use in food, and in many cities their sale is prohibited by law. Alum is a corrosive poison, and all physicians condemn baking powders containing it.

"Without our wish, we found ourselves
suddenly engaged in a contest with one
of the oldest monarchies in the world.
From the beginning to its close, at the
end of a hundred days, it was a marvel
of successive victories. The thrill of
conquest, the admiration for those who
were privileged to be at the front, the
desire to reward the men who had risked
their lives for so great and good a cause,
made a demand for the people that a
soldier should be rewarded with this
great office of governor of the state of
New York. We had that soldier, New
York born and bred. New York in every
drop of his blood. He won the most
brilliant laurels in the war. The party
recognized his fitness for the executive
of the state. It met the demand of the
people that he should be placed at the
head of the licket and the heroes of the
war were complimented and the state
was honored in securing for its chief officer Theodore Roosevelt." — Senator

The portraits of President McKinley and Mr. Bryan, published this week, are printed because of the many demands for the pictures. The picture of Mr. Bryan is not a chance kodaker's shot, but is reproduced from a large 12-inch picture, representing in full Colone Bryan and General Lee sitting in from of their tent in Florida. The two men were admirably posed for the picture, which was sent to Lincoln and placed in a local photograph-the picture, which was sent to Lincoln and placed in a local photograph-cris spindow, where it remained for several months. The inference is, therefore, not unfair that the likeness was a stisfactory to Mr. Bryan and his friends.

Dr. Everett: "Why, sir, we have had in the last few days a very elaborate document by a very distinguished statesman, in which he, having been a Democrat all his life, never having thought of being anything eise, takes infinite pains to prove to his countrymen that he cannot vote the Republican ticket. Did anybody ever suppose he would vote the Republican ticket. Did anybody ever suppose he would vote the Republican ticket. Did anybody ever suppose he would vote for Mr. McKinley? No, sir. And the fact that he takes such pains to prove that he must vote the Democratic ticket sliows that he feels the weakness of his condence: then cast his ballot in confidence; and his associates will be strengthened and maintained."—Senator Biranahan at New York convention.

of mind, and strength of character who have declared themselves against Mr. Bryan's election, although opposed to Mr. McKinley's policy in the l'hilippines, is the most striking feature of the campaign. We are not referring to Republicans or to those of Republican antreedents, but to the class who may be called Independent Democrate, like Wheeler II. Uscham, John G. Carible, George Hondley, Francis Lynde Stetson, George Lollices, etc. We have heard of no criticism upon these men which imputes to them aught but patriotic and disinterested motives in declaring the position which they have taken. It is not merely that they are unalterably opposed to the financial heresy which Mr. Bryan espouses. Perhaps even more is it the general tendency of Mr. Bryan's leadership toward the arraying of classes against each other which impels them to take a stand against what they

CONSENSUS OF OPINION.

The Full Dinner Patt.
[Chicago (Ill.) Chronicle (Dem.)]
Senator Tilman, who has been unking mocratic speeches in Wisconsin, and is ming to Illinois, delivered at Milwaukee caustic and effective reply to the Hanna Institutions is to confess that he is an impostor if thereby he can be sure that his pantry will be well stocked. Heretofore orators have appealed to the reason of their hearers, to their convictions of what was right, but Senstor Hauna bases his appeal upon the lowest concelvable considerations. The American voter, from his point of view, lives only to cat, not to think. laboring man has a full dinner pall he should vote the Republican ticket—is simply an appeal to the stomach, not an appeal to the mind or conscience. A full meal, to sustain a man's strength so that he can accomplish his day's work, may be an emblem of prosperous and contented slavery, as in the case of the well-fed slaves of the south.

Why Apathy is Disquisting Rapublicans.
There is much complaint of apathy among the voters at the present time. The complaint comes principally from the Republicans. The Republicans, as the party is power, would be hart most by a condition of apathy. In no case can the tremendous majorities of 1896 in the important states be approached in 1000. No Republican, for example, looks for a lead of 269,000 in New York this year, or one of a fifth of that length. No Republican apywhere imagines that Illinois will roll up a plurality of 142,000 for McKinley, or

"The Democrats are making a great

railroad in China, while there are one hundred and eighty odd thousand miles in the United States. In the next 20 years China will be gridfroned with railroads. The rails and spikes, the fish plates, the locomotives, the electric cars, the wire, must all be brought from abroad. And yet in another speech he says that the only reason we outht not to have anything to do with them is that they are entirely unfit for self-government, and he is going to let them establish a stable government of the Philippine archipelago; it is the work of years, and it is the work of the Ernipilago, a stable government for the Philippine archipelago; it is the work of years, and it is the work of the Aguinaldos, who never claimed to be anything but dictators. And then a protectorate; a protectorate for what end? Why, to protect them against the 50 insurrections which would spring up the next 20 days after they had established a stable government. There would be an insurrection in every island. We would have to protect him against Europe. Do you suppose Europe would sit quietly by and see all those various islands in insurrection, property endangered? Why, in least than 30 days the whole of Europe would seip in to protect their property and the lives of their citizens, or would go there on a pretense of doing so. "You will probably find in your town a few people who will support the Republicas idea of the colonial policy, and I suggest that you ask them to show their sincerity by sending a petition to the President, asking him to apologize to Great Britain for the trouble made her before we learned of the blessings of this colonial system. If the Republican party is right today in administering colonies, taking them without representation and goveraing them without their congent, then the colonists were wrong 125 years ago, when they asserted that these principles were wrong."

The next regular meeting of the Old Colory Club will be held in the vestry of the Union Church, South Weymouth, on Thursday, Oct. 25 at 3 p. m. The speaker being so well-known, just pristed, will be for sale at the Library and the subject attractive, it is hoped that a large andicace of members and friends of the club will avail themselves on and after November 1st at 10 cents per copy. After that date, to obtain the desired shooks, it will be essential that the meeting the prist of the New York, New Haven & Harrtford Railroad will go into effect, when important changes will be made in train service.

The greatest obstacle to being kerolc is the doubt as to whether one justy not be going to prove one's self a fool.

The strong, wise, tender-hearted man who guides the nation's destinies today, and who resemblee Lincoln more than any president the republic ever had, William McKinley, would have prevented bioodshed if it had been popsible with honor. He tried expedient affeet bepedient to compose the Philippines, until the world looked on amazed at his forbearance. He has approved force with reluctance; and only when this flags he had sworn to defend was hid by the battles emoke of hostile guns, and tofra at by the dark hands of insurrection, only when anarchy whirled aloft its torch and civilization gasped at Aguinaldo's order of murder and extermination, only then, when honor and humanity commanded, did our great president, dauntless as he is merciful, draw the nation's sword; and William McKinley never draws the sacabbard is the sword's true place until the peril of the flag calls it forth, and then it should leap like lightning, naked from its sheath, and, like lightning, strike. President McKinley, in the Philippine problem, has been the same cautious, conciliatory, conservative statesman that he has been throughout this four years of American avance. Patient in the very hour of exasperation, conservative when all the atmosphere was charged with impetuosity, clear eyed when flaming circumstance on every fland reddened the vision of the calmest counsellors, steady when hurricanes of unprecedented events swept the stanchest from their bearings—such is the president of the American republic, the most respected statesman in the world today, and forever fixed as one of the foremost figures of American history. EUGENE H. SPRAGUE OF OUINCY.

Republican Candidate for Senator from First District.

abileans of the First Norfolk Senatorial district have placed in n The Republicans of the First Nortons Senatorial district have piaced in nomina-tion, Eugene II. Sprague of Quincy, and he will prove an exceptionally strong candi-date. Mr. Sprague is a native of the "Pine Tree State," having been born in Isles-boro, Maine, May 23, 1864. His education was received in the public schools of that place, and in the Eastern State Normal School. For the past two years, he has given Quincy excellent representation in the lower branch of the Legislature, a three for his duties under the "gilded dome." It was but a few years ago, that Mr. Sprague, then a young man of about 19 years of age, entered the employ of Thomas Gurney, a grocer and provision dealer in Atlantic. "Gene," as he is called, enjoyed a great deal of popularity in the store and on the route and his customers were sorry when he severed his connection with Mr. Gurney, to engage in business for himself. The firm of Sprague Bros. & Co., who carry on an immense wholesale provision business at numbers 99 and 101 Blackstone street, Boston, originated in a small way, but loday they lead in their line and have an extensive and profitable business. Notwithstanding the fact that Mr. Sprague has been in public life about six years he is not what one would call a real politician. Although he has been very regular la his attendance in the Legislature, by no means has he been neglectful of his private business; but has worked early and late, making his calls on his suburban trade early in the morning, before many people had commenced their daily routine of business. As a legislator, he is at times rather too outspoken to be discreet, but on the whole, people admire that sort of a man. His stand on questions of public interest is never doubtful, he being straightforward and possessing the courage of his convictions. He then entered Harvard Law School, where he remained two years, discontinuing the study of law to engage in the leather business with his father. Mr. Drinkwater's social affiliations are of the highest and he moves in the most intellectual circles of his native town. He is secretary of the Cochato Club of Braintree, and a member of the Pine Tree State Club of Braintree, and a member of the Pine Tree State.

CORDON WILLIS OF WEYMOUTH.

eymouth's leading business men. He is a son of Stephen Richard and Alice lis and was born in 1851. In 1853, when he was two years of age, his parents came to this country from Ireland and settled in South Weymouth, where Mr. Willis still resides. Mr. Willis is in every sense of the word a self-made man. His father, who was a member of Company H, 25th Massachusetts Regiment, was killed in battle in the year 1863, and Mr. Willis who was then a young lad of twelve years, and who was attending the public schools of the town, was obliged to give up his studies and strike out for himself. He was married in 1872 to Miss Ruth Isabel Jones, daughter of Graaville R. and Ruth Hunt Jones of South Weymouth. His wife died in 1882 and Mr Willia resides with his two daughters on Pleasant street.

But willis is in the prime of mannood, rootes and active, successful in his own business and faithful and conscientious in the diveharge of the duties attendant upon the many public offices of trust which he holds. Socially, he is an unassuming, modes and approachable gentleman. His strict attention to business has won for him the absolute confidence of all who know him. As a public man he has proved progressive and in touch with the most modern ideas. In fact, Mr. Willis has shown himself to and overseers of the poor for seven years, and during the past six years has acted as chairman of these boards. He served on the board of water commissioners for six

political discussion and then we shall all be simply American citizens, working together for the good of the people and the glory (not necessarily to be won by a large army) of the Unite's States.

In the death of Capt. "Jack" Adams all the people of Massachusetts feel that they have lost a friend and a prominent and loved citizen.

To hear some Republicans talk, Bryan's election if it should come about, would bring utter ruin to the country. To hear some Democrats talk, a confirmation of the administration's polley of imperialism will ruin the country and render the Constitution and Declaration of Independence forever obsolete. Don't you think these forever obsolete. Don't you think these are somewhat exaggerated ideas on both sides and that the United States will go on growing and prospering whoever is elected? This country and this people are too big to be ruined by any one man

To a fair-minded man the Republica party is apt to appear to be right on the question of sound money and wrong in its encouragement of trusts and its policy of imperialistic expansion. The Demo-cratle party appears on the other hand to Few men in America are better inatic party appears to be sadly wrong in s declaration for free silver.

There has been much discussion in the tors whether free silver press and by orators whether Hre. Siven is a real danger, whether Mr. Bryan can, if elected, change the gold standard law. Secretary Gage is recorded on both sides of the question. He first stated that the exigencies of the pointen necessity raising a paramount issue of free silver he says that Mr. Bryan might in many ways negative the law, partially at least. Mr. Schurz and Mr. Olney differ from Mr. Gage and say that the law is fixed bemust remain, also that if there is any flaw in it the Republican party will have absolute control of House, Senate and Presidency through the next session of Congress until the inauguration and there will be ample time for the Republicans this control of House, Senate and Statemen, but unfortunately this year it has no issue and no one feature around statesmen, but unfortunately this year it has no issue and no one feature around water. Paine is a good swimmer and his first thought was for the safety of the states sayings, free silver is an immisent danger. If we believe Secretary Gage's latest sayings, free silver is an immisent danger. If we believe his first sayings and those of the other gentlemen named, free silver is not a danger even in case.

You can get along with people a good deal easier by agreeing with them than you can by being obstinate and sticking up for your own belief. Wedding Gifts.

One of the most perplexing problems to peoble now-a-days is deciding what's best to give their friends for wedding gifts.

It ought not to be difficult to decide this question, when you consider that nearly every newly married couple will sooner or later go to house-keeping, and that some one article that will help furnish their home will be more acceptable than anything else you can give. Then again, gifts of this nature are not costly, and brand you a thoughtful and generous donor.

Fancy Chairs and Tables, Pedestals, Pictures, Lamps, Vases, Clocks, Jardinere Stands, Umbrella Racks, Parlor Desks, etc. Wonderful Values from \$1.00 to \$10.00.

Independent Drum Corps.

The Independent Drum Corps is the very latest organization to be formed in town, with the avowed purpose of arousing enthusiasm in the great political campaign now on. As the name implies, this is a strictly independent organization: the members have cast aside all personal party preferences, and will drum their very best for the party holding forth the strongest inducements. Its members number both kepublicans and Democrats, and its repetoire includes selections suit able for either McKindey or Bryan rallies. It is said that the music furnished by the Independent Drum Corps is hypnotic in its effect, and that if a stump speaker were but to tour the country accompanied by this drum corps, he would experience not the slightest difficulty in persuading the voters that his was the only correct way of solving the all important question

Biew Up the Solier.

A party of four would-be smelters from this place had a hard experience in trying to get a few smelts on Tuesday. Toler objective point was Welr river and a steam yacht. They found the river and they acht, but like the foolish virgins "no oil;" a trainp of a mile and a backload of oil was the next more and then came another difficulty, a new bed for the engine. This was packed across the country and when all was ready a first started. Things worked finely until a pressure of steam was raised when the holler blew up and the smelters four went overboard and abandoned the trip.

Cresceus trotted a quarter in 28% seconds—a 1.55 gait—at Cleveland the other day.

Foreno, 2:10%, is the fastest 5-year-old for 1900 and is out of an undeveloped mare.

Among the new 2:10 trotters with former records Contralto, 2:10, had the lowest, 2:28%.

Cresceus was named after one of the most famous Roman charloteers at the time of Cæsar.

Boralma, 2:08, is the first trotter to win both the Futurity and the Transpivania at Lexington.

Eagle Flanagan still has the credit of the fastest heat in the Transpivania, having trotted the first heaf in 23:7% in 1898.

Stamboul, 2:07%, has now four with

Park Theatre. This week offers the last opportunity t ew the continuous charms of Jam ane Allen's beautiful ldyl of early day tentucky which Frances Hastings has tramatized, which is now in the fourth iramatized, which is now in the four-and last week of its engagement at Bos-ton's Park theatre. The praise metal out for the excellence of the production, the careful attention to detail, and the worthiness of the acting by Mr. Henry indexed in many ways. Messrs, Liebler & Co., who make the production, have re-ceived hundreds of letters from promi-nent citizens of the state and from clergyen which tell that the central theme

that is embodied in the play's plot. A few rise to remark that it was the moral right thing for John Gray to declare his right thing for John Gray to declare his affection for Jessica Falconer and to sug-gest that the playwright find a way for John Gray and Mrs. Falconer to marry. There is no gainsaying the lesson that it teaches, and none can be but the better teaches, and none can be but the better for viewing this romantic idyl of the blue grass country. As John Gray, Henry Jewett has scored perhaps his greatest triumph. Mr. Jewett has given the role of the Scotch-Irish, red-headed, virile choolmaster the artistic conception i
