FLORISTS'

SEEDS,

SUPPLIES.

BULBS.

CATALOGUE.

68 LAKE ST.

CHICAGO.

SEEDS BULBS, PLANTS, SUPPLIES, CUT FLOWERS.

TERMS OF SALE.

STATEMENT of account will be rendered on the first of each month when all bills without regard to date of purchase are due, unless otherwise arranged.

Discount.—On all Florists' Supplies we allow a discount of five per cent. from catalogue prices when the cash accompanies the order. three per cent. allowed when paid within 10 days from date of purchase. For discount on Wire Designs, see wire design page.

NB. Positively no discount given on Cut Flowers or Plants.

Remittance should be made in most convenient manner, Postal Note, Money Order, Express Order or Draft and **not** by Personal Check.

Unknown Correspondents will please send cash with order, also references so that future orders may have prompt attention.

C. O. D.—We will **not** ship goods C. O. D. to unknown correspondents, unless some money accompanies the order.

Notice.—We do not propose to be undersold. We ask to be allowed to meet the quotation of any reliable house.

Remember.—We carry a complete line of everything used by the Florist, and can supply first grade stock in all branches, at most reasonable prices, owing to the fact that we have ample room for carrying a supply equal to all demands, thereby insuring prompt filling of orders, at all times, and in a manner, that will insure satisfaction.

We occupy the entire building at 68 Lake St., consisting of four floors and basement, which allows space for all departments where stock can be taken the proper care of, causing no shop worn or soiled goods to accumulate.

To convince customers of our reliability, I earnestly solicit your patronage.

Very respectfully,

E. H. HUNT.

ROSES—STANDARD FORCING VARIETIES:

DESCRIPTION OF SIZES.

2-Inch.—These are from 2 inch pots. They have made their first growth, the balls are well filled with roots and the plants ready for a shift.

2½-Inch.—This is the stock that has been selected from the 2 inch size, shifted to a pot, made especially for this purpose, measuring a little over 2½ inches, and in which the plant has made its second growth. This grade is A1, and worth more than the slight advance over the first size.

3-Inch.—Standard 3-inch pots are used for this size; this is by far the most desirable stock for general planting to gain best results.

4-Inch.—Selection from the second size are shifted to standard 4-inch and grown in them from five to seven weeks. This size is used mainly by those who can not plant early.

SHADES OF YELLOW

Sunset.

Perle des Jardins.

Madam Hoste.

Price, 2 inch size, \$4.00;

2½ " 5.00;

3 " 6.00;

4 " 8.00

per 100 according to age and size.

SHADES OF PINK.

Catharine Mermet.

La France.

Clothilde Soupert.

Price, \$4, \$5, \$6 and 7 per hundred.

Mad. de Watterville

Madame Cusin.

White La France.

\$5, \$7 and 9 for first 3 sizes.

WHITE.

Niphotos. The Bride.

Price, \$4, \$5 and \$6 per 100.

SHADES OF RED.

Meteor. Souv. de Wooton.

Papa Gontier.

Price, \$5, \$6 and \$7 per hundred.

American Beauty.

2½ inch size, \$6; 3 inch size, \$8; 4 inch size, \$15.

Wm. Francis Bennett.

2½ inch size, \$8 per 100.

All the roses offered in this list have been propagated from the new growth of wood. None have been carried dormant through the winter. While not as large perhaps as those grown during the summer and carried over, the wood is soft and clean, and the roots in active working condition. To the careful grower this class of stock will commend itself.

THE NEW ROSES OF LAST SEASON.

KAISERINA AUGUSTA VICTORIA.

Every shoot brings a bud, many being borne on stems 18 to 24 inches long, and for decorative purposes no white rose equals it. It is of easy culture, not liable to mildew; beautiful foliage. The best white rose that exists for summer flowers, and also good at all seasons of the year. You will make no mistake in buying largely of this variety.

Price, 2½ in. size, \$6 per hundred.

3 " " \$8 " "

MADAM C. TESTOUT.

This is also a strong grower, bearing immense blooms of soft and pleasing shade of pink. In both size and color

there is nothing in cultivation among the free flowering varieties that will compare with it, as its immense bud, long stem and beautiful foliage bear more of a resemblance to the class of hybrids that are used for early forcing. It resembles La France in habit of growth; though much

more vigorous. This rose needs careful handling, but the grower who is familiar with the requirements of La France will succeed with this, as it needs about the same treatment.

Price, 2½ in. size, \$6 per 100; \$55 per 1,000; 3 in. size, \$8 per 100.

Buyers will do well to place their orders early, whether for immediate or for future delivery.

BRIDESMAID.

The prediction that this rose would displace Mermet has been fulfilled. Most growers are discarding Mermet and planting this. It retains its color in the worst of weather, and never comes deformed. It will also produce one-fourth more bloom on the same space than Mermet.

The demand for this rose the present season will be very great, and buyers should place their orders early.

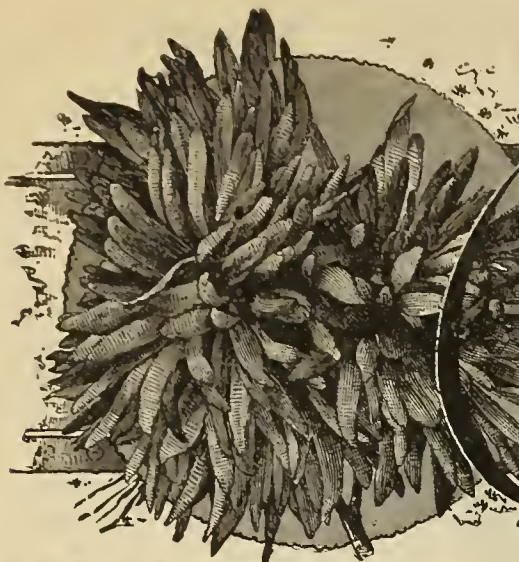

Price, 2 in. size, \$5 per 100.

2½ in. size, \$6 per 100; \$50 per 1000.

3 in. size, \$8 per 100.

NEW VARIETIES

Chrysanthemum

FOR 1895.

RADIANCE—(HILL.)

Has the fine color of Golden Wedding, is full and deep and of fine size—height about 3½ ft.—stem long, foliage fine and well up to the flower.

H. W. REIMAN—(HILL.)

Grand exhibition yellow. A deep golden yellow, very bright; very massive in build; height 4 ft.; stems very stiff and foliage very beautiful.

MISS M. M. JOHNSON--(HILL.)

Grows scant three feet in height and perfects three fine flowers to a plant; beautiful foliage, stiff stem and deep golden color. It is a first rate shipper. Flowers ready to cut about October 10th.

THE EGYPTIAN—(HILL.)

Grand exhibition red flower of immense size. Color dark velvety red, very rich and pure; incurving in form; height 4 ft.; stems stiff and good foliage.

HALLOWE'EN—(HILL.)

Color hard to describe, being pinkish gray without and rosy violet within. Height of plant 4 ft.; terminal bud; very stiff and elegant foliage.

MISS LOUISE D. BLACK--(HILL.)

Color reddish orange; height about 4 ft.; terminal bud; something like Dailedouze in habit. Lasts an indefinite length of time either on or off the plant.

GOLD DUST--(HILL.)

Pure golden yellow, very full; shows no center at all and a good *Enfant*; color very brilliant.

NELLIE EVERSON--(HILL.)

An elegant grower; heavy stocky stems; very fine foliage; height 4 ft. The flowers are of immense size; color, Indian red faced with bronze.

Price, your choice, 50c. for a single plant; \$5 per doz. (6 plants at dozen rates.) \$35 per 100 (25 plants at the 100 rate.)

HUNT'S FLORISTS' FLOWER SEED LIST.

IN no branch of the Florists' Supply Trade is greater care so essential to success than in the department of **FLOWER SEEDS FOR FLORISTS.**

We have ever been on the watch for the newest and best strains of all that properly come under this head, and that our labors are meeting with success, as evidenced by numerous unsolicited testimonials and continued patronage, we feel confident. The old saying, "Be sure, you're right, then go ahead," will apply to every Florist when making up his seed order. Trade Packets contain four to six times more seed than ordinary packages. Florist customers who do not state in their orders whether Trade or Retail packets are desired, will invariably receive Trade Packets.

"Vernon." This new flowering Begonia is a decided acquisition. It comes absolutely true from seed, and will stand the hot summer sun. Sown in February, it will begin to flower in June, and continue through the entire summer. The flowers are of a brilliant deep red color and are borne in immense quantities. The foliage is first green, but when the plant is about two months old the leaves begin to turn red on the margins, and gradually the whole leaf and stem are suffused. It thrives everywhere, and is so easily raised from seed, being equally valuable for growing in pots for winter blooming, that it is bound to give satisfaction. Pkt., 10c.

STANDARD FLOWER POTS AND SAUCERS.

Sizes and shapes as adopted and recommended by the Society of American Florists. These pots are all full inside measurement, height and width, which makes them at least one size larger than by the old way of measuring.

They are of perfect shape, with a very much needed improvement in the drainage, by being made with a convex bottom; or, we should say, with the rim or body of the Pot projecting below the bottom, so that when it is set on any smooth surface, there is some space between the bottom of the Pot and what it stands upon. The drainage is perfect. Breakage is not one-half as great as in other pots, the deep rim protecting them from any ordinary hard usage.

STANDARD POTS.

Measurement from inside to inside, width and depth equal.

THE NEW LIGHTNING HOSE COUPLERS.

DISCONNECTED.

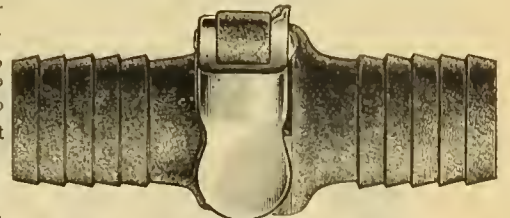

simple that it can be operated by a child. No screws to get out of order—nothing to get damaged or broken. Two positive motions and you have a **Water-Tight Joint**.

It is made for new hose, and also for hose fitted with old screw couplings. No necessity to disard old couplers—our couplers can be used with them with perfect satisfaction.

HOSE BAND (As it Comes.)

No Tools Required. Anybody Can Apply Them.

CONNECTED.

APPLIED ON HOSE.

No. 1.

No. 1--For new hose. Goes on end that attaches to faucet and ground connection (*used with No. 3*), and is (*used with No. 2*) for connecting two lengths of hose.

No. 2--For new hose. Used on nozzle end with No. 4 nozzle tip, and for connecting two lengths of hose.

No. 3--For new and old hose. Goes on faucet, where it can be left permanently; also on end of ground pipe (*Nos. 1 and 4 are used with it*), and on old style coupling, taking the place of No. 2

No. 4--For old hose, used in connection with old style couplings already fitted. Also on nozzles (*used with No. 2 or 3*).

Can be applied without tools of any kind. The teeth engage in the openings at end and wind the brass strip with a powerful leverage. By pressing down the ears the lever is locked.

Can be used by anybody.

Quick and effective.

THE UNIVERSAL LAWN KEEPER.

Its use accomplishes more in one hour in keeping lawns free from weeds, than can be accomplished in a day by any other means. Made of one piece of Steel (casting) heavily tinned. When using hold the blade in a perpendicular position. Push it down beside the root, turn it half way around and withdraw when the blade will contain the root with all its fibrous shoots, as shown in cut. Never sharpen any part but the end. Each, 30c.

MUSHROOM SPAWN.

SATIN RIBBONS FOR FLORISTS.

KNOWING the demand for this article is increasing rapidly every year, we have put in a complete stock of the finest grade of **Failla Satin Edge**, the best brand for florists' purposes. We offer these ribbons at a price far below what florists usually pay for a poorer quality of ribbon. We can supply any width or color wanted.

We handle two grades because at times a cheaper grade will answer for some florists' work, but we advise our customers to buy the **Santa Maria** brand, as there is no ribbon that will give more satisfaction, and it costs but a trifle more money. In ordering give us **No. of Ribbon, Color and brand** wanted. Viz.: 1 bolt, No. 7, lavender, Santa Maria.

These Ribbons come 10 yards to the bolt, nothing less than 10 yards sold of any one color as we cannot break bolts. Order by number.

A NEW BOOK.

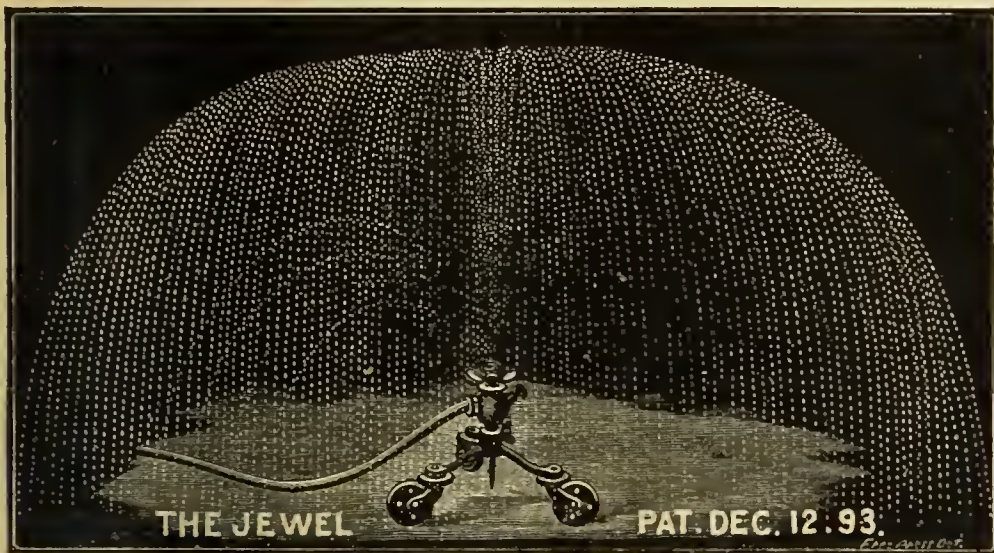

Flower lovers will be glad to know that a work has been published on "How to grow Cut Flowers." The author, the late **Mr. M. A. Hunt**, was known to thousands through the country as an authority on the subject upon which he has written. The book is fully illustrated, is replete with valuable information drawn from his personal experience of a quarter of a century, and has the endorsement of the leading flower lovers and growers of the country as a book which should be in the hands of every one who loves flowers and desires to know how to grow them. It contains numerous illustrations relative to the construction of green-houses, plant growth and development. Insects injurious to plants are shown with a very thorough exposition of the various remedies now in use for their extermination. There is scarcely a page in the entire book that is not worth in actual information more than the price of the book. *It covers every department from the erection of the green-house to the packing of the product.*

Neatly bound in cloth. 225 pages. Price, \$2.00 postpaid.

THE LENOX ATOMIZER.

A sprinkler that is readily filled with water, and throws a fine spray, similar to fog. For sprinkling designs and cut flowers *it is perfect.* Price, each, 20c.; per doz., \$2.00.

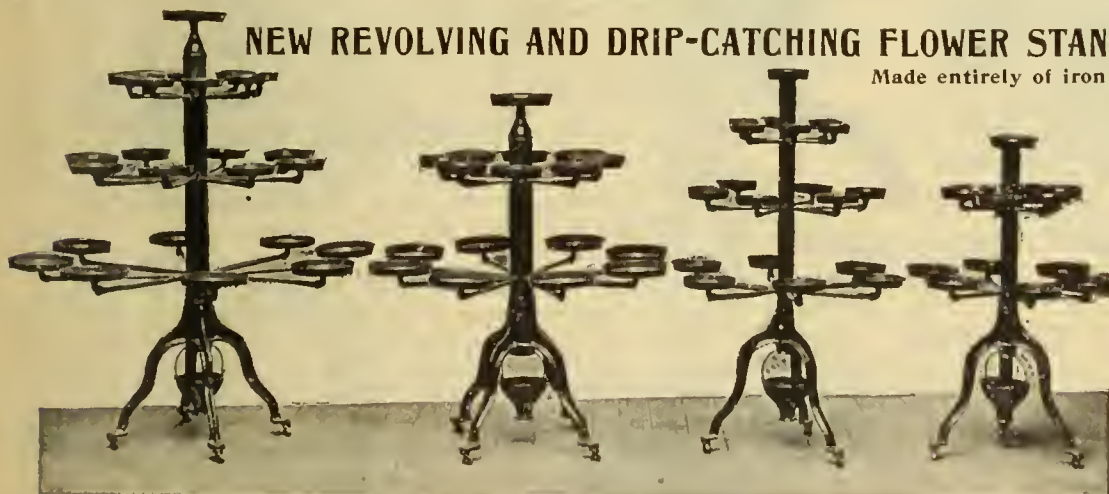

JEWEL LAWN SPRINKLER.

Spreads the water evenly over the lawn and gives general satisfaction. Price, each, 75c. Stand with rollers for above, each, 50c.

NEW REVOLVING AND DRIP-CATCHING FLOWER STAND.

Made entirely of iron and highly finished.

We desire to call the attention of the trade and all lovers of flowers to the Plant or Flower Stand, of which we show cuts reproduced from photographs. The great features embodied in this Stand are:

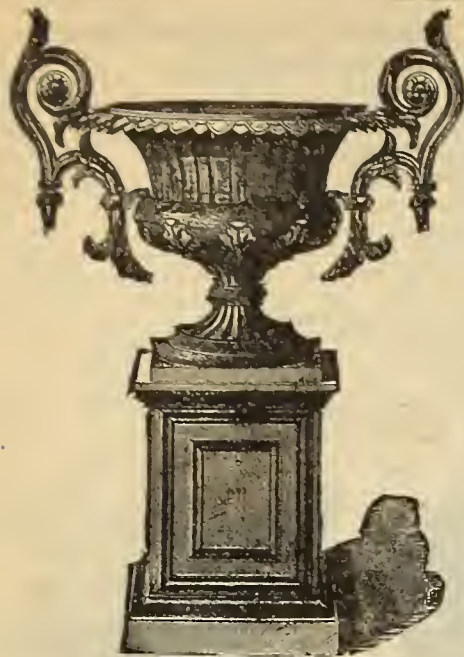

First—The arrangement for catching all drip and carrying it off to the small bucket beneath the center pipe, which is always in sight and can be easily emptied.

Second—Being easily revolved, makes the arrangement or substitution of

plants very simple. It is also very convenient for arranging the proper amount of sunlight. **Third**—The legs being fitted with ball-bearing castors, enables the stand when laden with plants to be moved easily to any part of the house.

While these stands are designed for the home, flower dealers will see at a glance that they can be adapted to great advantage for exhibiting plants for sale, as a large number of plants can be carried in a small space, and can be revolved, showing each one. They are built of the best material and carefully constructed.

No. 4	4	25	8 " 8 mdm., 8 small.	12.00

IRON RESERVOIR VASES.

THE peculiar feature in these Vases consists in the reservoir for water. They do not need watering oftener than once in ten or fifteen days, according to the size of the Vases. The moisture being drawn upward by capillary attraction (as in nature), the ground does not become caked and hard, as in ordinary vases, but remains open and porous through the entire season. There is no excess of moisture, and plants thrive in them to perfection.

These vases have three distinct advantages.

First—The earth receiver.

Second—The reservoir for water, which is filled through apertures.

Third—Tube connecting the earth receiver with the reservoir. This tube is packed with moss or sponge, through

which the moisture is drawn up into the earth by capillary attraction.

We have these Vases in 70 different styles and sizes.

SMALLEST SIZE.—Height, 21 inches; diameter of Vase, 16 inches base; 10½ inches square; capacity of reservoir 1½ gallons. Price, \$6.00.

LARGEST SIZE.—Height, 5 ft. 2 inches. Diameter of Vase, 37 inches width, including handles; 5 ft. 4 inches base; 21 inches square; capacity of reservoir, 16 gallons.

There is not a more handsome Vase manufactured than this. Price, \$100.00.

Intermediate sizes range from \$6.00 up.

There is from \$2.00 to \$6.00 difference on price when Vase is bronzed; otherwise they are painted pure white.

LONG'S FLORISTS' PHOTOGRAPHS.

Designed for the use of Florists in taking orders.

The recently introduced feature of the florist bringing to his aid the photographic art for securing representations of made-up work and arrangements, to be used in taking orders, has been accompanied by some discouraging conditions. The most serious was the difficulty experienced in arranging flowers so that the pictures secured by photography would be practical for use. Attempts to get such pictures off-hand, from made-up work, almost invariably results in disappointment, even with unusually fine arrangements.

We take much pride in now announcing, that as a result of much study, experiment, and energetic effort on our part, devoted to arranging flowers for photography, and also properly handling them before the camera in order to get the desired effect in the finished photograph, we now are offering to the trade a series of pictures that are practically perfect. Small details have not been lost sight of, nor pains or expense spared to produce desired improvements. By an ingenious arrangement in posing the objects for the camera, we have overcome the undesirable feature of supports and fastenings showing in the photographs, and also that of objectionable shadows of the designs showing in the background of the pictures.

The continued and continuing use of our photographs by leading florists, in their now being standard for daily—almost hourly—use, is a most flattering testimonial of their practical merit, and establishes the fact that their use is advanced quite beyond an introductory or experimental stage.

For prices and further information address,

OUR CUT FLOWER DEPARTMENT

THIS Department of our business is an important one, both to ourselves and to those needing flowers on short notice; and while we sometimes make mistakes, and can not always fill our orders, yet our list of customers is steadily increasing, and those who have tried us once, come again and keep calling on us. No better testimonial to our conduct of this part of our business do we need.

INSTRUCTIONS TO CUT FLOWER BUYERS.

—READ THEM.—

It is never necessary to use the words "send" or "express" in a telegram, as that is understood. The words "one," "two" "three," etc., can be used to represent hundreds, and "quarter" to mean twenty five, or quarter of a hundred.

When possible, give leaving time AT CHICAGO of train on which flowers are wanted, giving the even hour without the fraction—for instance, if train leaves at 5:10 or 5:45, use simply "five."

In using our code, word your telegrams, so they can be construed by one way. For instance DO NOT write it this way: Eight hundred carnations, etc., as we would not know whether you wanted 800 carnations or only 100 sent on 8 o'clock train.

FLORAL DESIGNS

filled to order for the trade on short notice. If customers telegraph the price in ordering Floral Designs, we shall understand it to be the retail rate (unless otherwise stated), from which we allow a discount of 25 to 35 per cent.

Our store is not open after 7 P. M. week days, or 2 P. M. Sundays and Holidays.

Make allowance therefore for delay in transmission of telegrams, and whenever there is any doubt whatever as to telegram reaching us before our closing time, use the Code word "Corporal" in case it will do to send the flowers on the morning train.

This is very important, and if observed will prove mutually beneficial.

We issue

CUT FLOWER PRICE LISTS

weekly, giving the market price for the week as near as possible, although at times the weather causing scarcity of stock, alters prices a trifle, but generally you can figure on Price List in booking and giving prices on your orders.

Florists using flowers in large quantities will do well to get our special quotations on such. We also cater to our regular trade to a great extent, and parties giving us regular orders to be shipped daily or as often as they require will be assured of getting the best stock the market affords and at lowest possible prices.

Florists who have a surplus of cut flowers of any kind, at any time, if they will ship same to us we will place same on sale and realize all possible out of them.

Growers wanting addressing labels, consignment tablets, etc., will please notify us and we will forward same at once.

If you desire first-class stock, well packed and shipped on time, you will make no mistake by placing your orders with us. If you do not receive our weekly price lists, notify us immediately.

TELEGRAPH CODE FOR FLOWERS.

- Assume.**—Do not answer if cannot fill order.
Abrogate.—in case you cannot fill order, telegraph at once.
Anticipate.—Answer at once, stating whether you can or cannot fill order.
Ambition.—If you can only partially fill order, do so, and reply, stating what.
Admiral.—Order must be sent on train mentioned only.
Ambulance.—Want all of order filled or none, and prompt answer back.
Adjacent.—If cannot send on train mentioned, next one will do.
Affable.—Send prepaid by baggage master, if no express messenger on train.
Decorate.—If cannot send all on train mentioned, send all you can, and send balance on next train.
Admission.—This order is a substitute for my regular order.
Dancing.—If cannot fill exactly as specified, you may substitute according to your best judgment.
Ancestor.—This order is an addition to my regular order.
Durable.—These flowers are for funeral purposes, and colored flowers must not be substituted for white.
Affection.—Fill if possible, even at extra expense.
Fabricate.—Flowers ordered are to be reshipped to a distance, therefore buds must be cut specially close.
Fortunate.—Select extra stock and charge accordingly.
Devotion.—For cheap work, and can use second-class flowers, if at reduced price.
Flattery.—If price has advanced since last quotation, do not send goods, but telegraph.
Forgery.—This order countermands all previous orders.
Formation.—Add these items to the order which you already have, but in case first order is already shipped cancel this addition.
Flamingo.—We are in a bad pinch; send us *something* to help us out, even if of poor quality.
Flocking.—Have sent mail order; if not yet received, send following at once, and cancel mail order when received.
Foraging.—This order includes all items previously ordered and wanted for this date.
Superior.—Can use something especially fine, and am willing to pay accordingly.
Skip.—If you are out, buy if in Chicago. Get the best you can; we accept risk of getting "pickled" stock.
Corporal.—If cannot send on night train, morning train will do.

IMPORTANT. Do not lose this Code. Hang it up where you can see it.

The code below we shall use in answering you, when necessary, so it will be **important** for you to keep it **posted up**.

- Elope.**—Cannot fill order to-day. Stock is scarce. Have tried to buy at other houses for you.
Lecture.—Our store was closed yesterday when your telegram came. Received it this morning. Will ship first train to-day, unless countermanded at once.
Willing.—Cannot ship on train mentioned. Will send on next train possible to-day.
Eclipse.—Will send part of your orders. Balance scarce. Cannot get it at any price to-day.
Artistic.—Cannot fill order to-day, if you want order filled (same order) to-morrow, wire us at once.
Favorite.—Stock very poor, none better to be had. Will ship unless countermanded by . . . o'clock.
Fundament.—Stock named in this telegram has been sent, and balance, unless countermanded by telegram, will be sent on . . .
