Kagoshima Pref. R.C.& I. O.

AUTHORITY: Third and subsequent indorsements to Ltr. Kagoshima MG Team, Serial No 396, subj: "Application for Temporary Use of Reparations Machinery" dtd 16 April 47.

SUBJECT: Custody, Control and Protective Maintenance of Japanese Aircraft Plants, Arsenals and Laboratories

FROM : Yoshioka Industry Encouragement Co 23 May 1947
Date

TO : Commanding Officer, Kagoshima Military Government Team

1. Reference is made to memorandum for the Imperial Japanese Government, dated 20 January 1946 (SCAPIN 629), and memorandum for the Imperial Japanese Government, dated 28 May 1946 (SCAPIN 987), both subject as above.

2. It is desired that permission be granted to move equipment and/or machinery of aircraft factories, Army and Navy arsenals and laboratories as taken into custody and control of the Supreme Commander for the Allied Powers.

3. The following information concerning the desired movement is submitted:

a. Owner of equipment and/or machinery: Japanese Government (22nd Naval Air Depot)

b. Present use of equipment and/or machinery: Storage

c. Use intended for equipment and/or machinery after movement: Production and repairs of fire-fighting equipments

d. Exact present location of equipment and/or machinery: Nakamyo-cho, Kanoya City, Kagoshima Prefecture.

e. Exact location to which movement of equipment and/or machinery is desired: 1, Nanrinji-cho, Kagoshima City.

f. Exact description of each type of equipment and/or machinery and number of items of each type to be moved are given in list attached.

g. If approval is granted, movement of this equipment and/or machinery will be accomplished between the following dates:

Between 26 May 1947 and 2 June 1947

4. The attached list of personnel will perform the movement.

5. The proper safeguarding and maintenance of this equipment and/or machinery is my personal responsibility.

SUBJECT: Preservation of Reparations Equipment

TO : Mr. Yotsumot, Chief of
Kagoshima State Property Department

1. As our higher headquarters indicates that Japanese guard and maintenance force show deficiencies in care of reparations equipment, your keen attention is hereby re-invited to the following policies to overcome the difficiencies.

a. Guards will stop visitors and require presentation of authenticated passes issued by this headquarters, before entry to the plant is permitted.

b. Even when accompanied by military government officer, presentation of the passes will be required.

c. When some one forces to enter, immediate report, by telephone or other means, is submitted to this headquarters.

d. Entrace will be only one, and others will be locked.

e. Frequently see the "Off-Limit" signs to ~~insure~~ AVOID deterioration or falling-down.

f. Guarding at night will not be neglected.

g. A "Visitors Daily Log" will be kept at each storage-places.

h. An identification-card will be issued to each one of the guard and maintenance force, signed by both chief of Kagoshima State Property Dept, and local branch's head. A list of those given the above identification-cards will be submitted to this headquarters.

i. More strenuous efforts will be made to comply with SCAPIN 1219 which requires the servicing of machinery and assembly or necessary information data, and this program will be completed as soon as possible.

j. Inventory Sheet No. will be written on the surface of the information data, and the data will be kept at the place where the machinery is located.

k. Ten-day report will be submitted to this headquarters on the machinery repaired to the complete extent.
(Inventory sheet No and extent of repair are needed.)

APPLICATION FOR TEMPORARY USE OF
REPARATION MACHINERY

TO : Commanding General, Eighth Army

THRU: Kagoshima Military Government Team

FROM: Izumi Trucking Co Ltd., Izumi-cho, Kagoshima Prefecture.

Sir:

We beg to ask you to kindly permit our temporary use of the following machinery for the purposes and reason stated herein.

1) Name of Reparation Plant & Plant No.: 22nd Naval Air Arsenal - Izumi Branch 18 - 02

2) Machinery Requested:

Machine No.	Name of Maching	Sub-type	Condition	Will be used for
424	Surface Grinder	Table travel 120 mm.	Good	Working on tools, and parts
426	Tanger Charger	900 W	Good	Charging battery
428	Shearing Machine	Square shear Length of cut: 180mm	Good	Shearing iron-plates, and bolts
471	Lathe	4ft. Swing 310mm.	Good	Making screws, and other parts

3) Purpose & Reason To Use Above:

Transportation is a most important method to overcome the present food and other critical problems. It is, however, not going smoothly due to the shortage of capable vehicles. And urgent repairs of the broken trucks are greatly hoped.

Our company is the only trucking company in our district, and the most part of the district's transportation is dependent on us.

We are, however, short of capable trucks, and cannot pay full efforts to the demand of the district. So we are going to establish a repairing shop in our company and repair our broken trucks, with which we think we can do more to meet the demand.

There is no repairing shop in our district, and also it is very hard to buy new parts. So the establishment of our own repairing shop is badly needed.

Gunkichi Oishi.

President of the Company

KAGOSHIMA
LIAISON OFFICE

29 November 1946

TO : Commanding Officer, Kagoshima Military Government Team

SUBJECT: Application for Temporary use of Reparation Machinery.

1. Enclosed herewith is an application for temporary use of reparation machinery sumbitted by the Izumi Trucking Co. Ltd., Izumi-cho, Kagoshima-ken.

2. The acute shortage of transportation in the Izumi district is hampering the smooth operation of farming and other industrial rehabilitation works and delaying the solusion of food and other critical problems. If the application be considered favorably and approved the proposed use of the machinery will help greatly improve situation in this district.

3. Your recommendation for approval will be deeply appreciated.

Incl:
OI-1/2 (one)

Nov. 2, 1946.

To: Commanding Officer of Military Government in Kagoshima.

Name of Company: Yoshioka Industry Encouragement Company.

Representatives of the Company : Sunao Yamaguchi.

Subject: Requisition for the transient use of undisposed reparative machines under the hands of the Occupation Army.

We are endeavouring to increase the capital of Yoshioka Motor-car and Fire-extinguishers Company, and organize it into a joint-stock company and reinforce the factory of it that has been dealt in the production and repair of fire-extinguishers and agricultural implements. The principal default we find here is the fact that we lost almost all machines we had, for in the wartime we were commandeered of our machines to Kanoya Naval Munition Factory for military use. Since the war was over, we have many obstacles before us on account of it although we want to get over the incompletion of fire machines and contribute to the accomplishment of fire machines, pumps.

In any way we can not accomplish the full results in our efforts for the establishment of complete fire extinguishing works in this prefecture. And so we want to use the machines now in hands of the Occupation Army as reparatives in order to strengthen the capability of our factory and enterprise to get the complete perfection of the fire machines and succeed in the mechanization of the agricultural implements in this prefecture.

We beseech you to investigate and acknowledge the details in the next inventory as you will see, and permit us to borrow these undisposed machines and tools you have in hands.

We beg herewith to enclose additionally the inventories and paper of order issued by the Government. As to the restoration of these materials we beg to state we are quite at your will and restore them to you on your request whenever and wherever you dictate.

Sunao Y. Yamaguchi.

Manager, Sunao Y. Yamaguchi
Yoshioka Industry Encouragement Company.

To: Commanding Officer of Military Government in Kagoshima.

Name of Company: Yoshioka Industry Encouragement Company.

Representatives of the Company : Sunao Yamaguchi.

Subject: Requisition for the transient use of undisposed reparative machines under the hands of the Occupation Army.

We are endeavouring to increase the capital of Yoshioka Motor-car and Fire-extinguishers Company, and organize it into a joint-stock company and reinforce the factory of it that has been dealt in the production and repair of fire-extinguishers and agricultural implements. The principal default we find here is the fact that we lost almost all machines we had, for in the wartime we were commandeered of our machines to Kanoya Naval Munition Factory for military use. Since the war was over, we have many obstacles before us on account of it although we want to get over the incompletion of fire machines and contribute to the accomplishment of fire machines, pumps.

In any way we can not accomplish the full results in our efforts for the establishment of complete fire extinguishing works in this prefecture. And so we want to use the machines now in hands of the Occupation Army as reparatives in order to strengthen the capability of our factory and enterprise to get the complete perfection of the fire machines and succeed in the mechanization of the agricultural implements in this prefecture.

We beseech you to investigate and acknowledge the details in the next inventory as you will see, and permit us to borrow these undisposed machines and tools you have in hands.

We beg herewith to enclose additionally the inventories and paper of order issued by the Government. As to the restoration of these materials we beg to state we are quite at your will and restore them to you on your request whenever and wherever you dictate.

SUBJECT: Inventory of Military Installations and Plants

THRU : Commanding Officer, Kyushu Military Government Region, APO 929

TO : Commanding Officer, Kagoshima Military Government Team, APO 929

1. Inclosure 1 is a corrected list of installations located in Kagoshima Prefecture, which have been selected for reparations. The installations are listed by the code numbers under which they are to be inventoried.

2. Inventory of all military and naval arsenals, and aircraft factories is to be completed by 10 October 1946. You are directed to take immediate steps to accomplish the Inventory of Privately Owned Munitions Plants (SCAPIN-1134) as rapidly as possible. Instructions for inventory of plants listed on SCAPIN 1129, 1130, 1131, 1132, 1133, 1135 and 1136 will follow:

3. The attached list is subject to such corrections, additions and deletions as may be announced by higher headquarters.

BY COMMAND OF MAJOR GENERAL WOODRUFF:
