TOA GOSEI KAGAKU KOGYO CO., LTD.
FUSHIKI PLANT.

No.90, Fushiki-Shinshima,
Takaoka city, Toyama Pref.

Sept. 24, 1949.

To: Chief of the Toyama Civil Affairs Team.

Thru: The Commercial and Industrial Section of Toyama Prefectural Office.

Subject: Survey of the Equipments designated to be under Control.

We hereby present to you the following report on the subject mentioned above.

1. The list of the machines used at present (Sept.20) - the ones on the Inventory only -

   On the following pages.

2. Number of the blocks and area of the sites of the buildings designated as reparation matters.

Locality of the building	Number of the blocks	Area of the sites (m^2)
Fushiki	24	7,466

3. The list of EX machines (Sept. 20)

   On the following pages.

   Note: The number of the machines which are not on the Inventory, is 453.

The opinion of the surveyor.

1. Is (not) operating. yes.
2. The name of production. Caust soda, trichlore and Caustic potash and ect. etc,
3. Is (not) a conversion plant. yes
4. Is (not) producing for occupation forces, if so descript the permitting number. yes
5. Any offection of plants to removal of survey item. very
6. Further the reference description are kept on the remarks columu.
7. Installed materials and supplies is (not) take away only but after to removal of separation materials yes.

REPROOF.

To: Commanding Officer U.S. 8th Army.

Date: Jan. 25th, 1947.

Dear Sir,

With the following reasons, we wish for your good office to have the equipments and materials which has been investigated by the Nippon Construction Industry Control Assn. released and detained from withdrawal.

Reasons:

(1) Reasons necessitating the detaining of withdrawal.

This plants caustic soda equipment is a necessity in the production of trichlene, ammonium chloride, caustic potash, medicinal active carbon, amino acid, metallic soda, sodium cyanide, etc., which products are necessary for the stabilization to the national life. Therefore though it has been designated for reparation, permission for the operation has been prolonged. Therefore of this investigated materials, concerning the designated reparation facilities, the continuation of operation would become impossible unless it is left till the time comes for the enforcement of withdrawal of the equipment.

(2) Reasons necessitating exempting from withdrawal.

Included in this investigated materials are equipment designated for reparations and equipments for the production of the products above mentioned which have common use. If this were withdrawn it would not only make it impossible to produce civilian necessary goods but also make it impossible for this plants reconstruction for conversion.

Yours respectfully,

Toa Gosei Kagaku Kogyo K. K.
Master of Fushiki Plant.

I. Yonaka

In the Clause 3 (machines to be moved) of the permission of the New-establishment of the EX-machines dated October 7 for which we applied on August 9, we have found misprints of "Quantity."

We are very sorry to intrude on your precious time, but we wish to have them corrected as follows:-

Name of machines	Type	Quantity	
		Misprints	Correct
1. ----------			
2. ----------			
----------			
7. Pump for the above (with motor)	3 HP	2	3
8. Brine dissolving tank	50 m^3 concrete	2	4

By the way, EX column of "Quantity of machines in the application" in the Clause 7 (Total number of the machines in this application) is 35, and this quantity is all right.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

4. Reasons to move the machines:

Our bleaching powder equipment has never been renewed since it was set up in 1918, and also it has been a NI machine for its exhaustion and decay since the reparation appointment. So we wish to equip EX-machines newly in place of the four Reaction chambers of which we applied for the permission of scrapping, the other day.

We, hereby, apply for the permission to move the above-mentioned machines.

5. The date of the movement of the machines:

Immediately after the permission.

6. To produce what kind of products was this Company or Plant established.

A. Company: Caustic Soda
B. Plant: Caustic Soda
C. Total number of the machines in this plant:
~~NV 656~~ Executed machines 72 (Reparation machines)

As the above-mentioned machines are intended to be equipped in the reparation plant, we apply for the permission to make them "EX-machines". I represent the Company and Plant.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

4. Reasons to move the machine:

(A) Since September, 1937, this Induction Regulator, owned by our plant, had been used for the manufacture of Ammonia Perchlorate, but the work was stopped in 1938 and the machine was accordingly left in a state of being not used until the end of the War. In 1946, considering the state of things at that time, we applied and received the Permission of its Conversion dated Dec. 5th, 1946, and for the purpose of operating a low pressure electric boiler with it, we moved it as an EX-machine into the 2nd Transformer room which was one of the reparation-designated equipments.

(B) And now we have decided to stop the operation of the low pressure electric boiler from various points of view. While on the other hand, the Nagoya plant belonging to our same company has recently planned to take up the manufacture of a synthetic fibre "Amilan", and endeavouring to contribute to the recovery of Japanese industry, after hardest studies and experiments they have almost succeeded in attaining the object, and it has become necessary for them to use this Induction Regulator in that work. The poorest condition of Japanese economy at present also makes us think it very much to the point that we shall move this machine, which is not at all used in our plant, to the Nagoya plant.

5. The date of move the machine:

We shall move it immediately after the permission.

6. The total number of the machines now present in the designated plant:

A. Reparation machines:
Registered machines 260 } 868

B EX-machines: 60

We apply for the permission to move the above mentioned machine, as it is not a reparation machine. I represet the Company and Plant.

Subject: Application for the Withdrawal of the "Application for the conversion of the Work of the Designated Reparation Plant."

1. Name of the Plant:

Toa Gosei Kagaku Kogyo Kabushiki Kaisha,
Takaoka Plant.

2. Locality of the Plant:

No.500, Futagami-Innai, Takaoka city,
Toyama Pref.

3. Representative of the Plant:

Hiromu Seo, Master of Takaoka Plant.

4. Nominal capital: ¥40,880,000.-

5. Paid-up capital: ¥40,880,000.- the whole sum paid up.

6. Description of its Work and Products:

Manufacturing and Selling of Ammonium sulfate, caustic soda and their connecting chemicals.

We hereby entreat you to permit us to withdraw the "Application for the conversion of the Work of the Designated Reparation Plant," dated Jan. 13th, 1947, which was to the effect that we wanted to commence scouring and dyeing of cotton cloth. The reasons for this entreaty are as follows:

1. This plant was designated as Reparation Plant by the Directive S.C.A.P.-A-1129, Aug. 13th, 1946. Later the additional directive APO 713, "Clarification of Directives Selecting Chemical Plants for Reparations",

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

dated Feb. 24th, 1947, (typewritten on another paper) made clear the limits of the designated equipments, including all the equipments used in recovering chlorine. Then by the directive APO 713, "Status of Parts of Industrial Plants Not Under Reparations," dated May 22nd, 1947, (typewritten on another paper) the designation was relaxed. But in response to "the Application for the Conversion of the Work" offered on Jan. 13th, 1947, we have not received any directive, so the projected programs explained in the same application remains untouched hitherto. Now our plant has decided to give up enforcing these programs according to the change of the situation.

2. Owing to the kind direction of the Eighth Army, all the land and buildings except No.1 Warehouse were exempted from designation, so if we were to practise some other undertakings, we should not have to use reparation equipments. We shall then use new exempted equipments. Thus for these reasons the application mentioned in the subject has become meaningless and unnecessary.

SUBJECT: Status of Parts of Industrial Plants Not Under Reparations.

TO : Governor, Toyama Ken.

THRU : Toyama Liaison Office.

1. It is the opinion of this headquarters that portions of industrial plants, which are not under custody and control of the Occupation Forces, may be operated and controlled by the plant officials in the same manner as similar plants which have not been designated as Reparations Plants.

2. Custody and control apparently applies only to that portion of a plant which officially has been designated as under reparations or other type of restrictions.

TO: Toa Gosei Kagaku Kogyo

A caustic soda plant includes not only the electrical equipment, cell equipment (which includes the mercury in mercury-type cells),and caustic soda evaporators, but also all equipment used to recover chlorine. Chlorine recovery equipment consists of liquid chlorine bottling plants, bleaching powder and solution plants, hydrochloric acid plants, and auxiliary equipment servicing such plants. Hydrogen blowers and their accessory equipment servicing the caustic soda plants are also included.

Subject: Application for the Movement of a Reparation Machine.

1. Applying Company: Toa Gosei Kagaku Kogyo Co., Ltd.
Fushiki Plant.

2. Locality of the Applicant:

No.90, Fushiki-Shinshima,
Takaoka city, Toyama Pref.

3. The Machine to move:

(a) Name: II A 5-4 Three Phases Induction Voltage Regulator.

(b) Type: 180 K.V.A. ph. 360 cy.
3,300 ± 990 V.
Sec. Amp. 105.

(c) Quantity: 1

(d) Present position: Toa Gosei Kagaku Kogyo Co., Ltd.
Fushiki Plant.

(e) Owner: the same as above.

(f) Place to move to: Tokyo Shibaura Electric Co.,Ltd.
No.16, 1-chome, Nihonbashi
Motomachi, Chuo-ku, Tokyo city.

4. Reasons for the Application:

(A) This Induction Voltage Regulator once belonged to Rotary Convertor (D.C. 720 KW, 120 V, 6,000 A, A.C. 6 ph., 60 cy., 600 r.p.m.) and was made useless on account of an accident in 1944. When it was designed as a reparation machine on Aug. 24, 1946, it was registered on the List of B class as a machine required to repair, and remains now as such.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

Now the rehabilitation of the peacetime industry is desired earnestly, so we, our plant, heartily wish to do our part in that line, and are steadily endeavouring to arrange all the present equipments into a perfect condition.

As the convertor of this regulator has no spare regulator at present, and we are using the one belonging to II A S-1, D.C. 1,320 KW in its place, the voltage goes down, and we are sorry to be unable to fully display our productive power. For these reasons we hereby, with following references, apply for the permission to move this machine for the purpose of repairing it.

22-25-A38	"	- do -	1	"	- " -	- " -

4. The Reasons for Applying:

a. Purpose of the movement of the machinery.

These transformers were set at the entrance of Fushiki Harbour to take in the sea-water while the plant was engaged in manufacturing salt. After it stopped making salt at the end of May, 1947, they were left in the same place and preserved and repaired, being not used. But now, owing to the inconvenience of remoteness, we wish to move them into the No.2 Electric Substation in the site of the plant in order to preserve and repair them altogether with the other non-used electric.

b. Date of the movement of the machinery.

Immediately after the permission.
