Our Capitol Lawn Mixture and Evergreen Fertilizer

MADE THE BEAUTIFUL LAWNS AT

THE CAPITOL GROUNDS

A CUT OF WHICH WE SHOW BELOW

View of State Capitol Grounds, Denver, Showing the Beautiful Results from Using
OUR CAPITOL LAWN GRASS SEED.

Sow Capitol Lawn Grass Seed and obtain a grassy carpet of unrivaled emerald in six weeks' time. It is the purest, cleanest, heaviest Lawn Grass Seed offered—no waiting six months for a lawn. The magnificent lawn around the State Capitol building was produced in six weeks' time with Capitol Lawn Seed, and no lawn in this locality is more universally admired. Also many of the finest lawns of Denver and surrounding cities testify to the quality of the seed sold under this brand.

Capitol Lawn Grass Seed is a special mixture composed of grasses which are adapted for the purpose of producing a lawn quickly; one which will stand abuse and retain that rich, green color and velvety appearance throughout the entire summer and fall.

In making up this mixture we are extremely careful to use only the very best quality seed, which has been thoroughly re-cleaned, the light seed and chaff having been blown out, thus securing a strictly high-grade mixture, and seed that will grow.

QUANTITY REQUIRED.—A pound of this seed will sow a space ten by fifteen feet, or, say, one hundred and fifty square feet. One pound goes one-third farther in seeding than blue grass alone, and a successful lawn is more certain.

Capitol Lawn Grass—No White Clover.....	1 lb. 25c; 5 lbs. \$1.00
Capitol Lawn Grass—Mixed with White Clover.....	1 lb. 25c; 5 lbs. \$1.00
Kentucky Blue Grass—Fancy clean.....	1 lb. 20c; 6 lbs. \$1.00
Kentucky Blue Grass—Choice.....	1 lb. 15c; 8 lbs. \$1.00
White Clover.....	1 lb. 30c; larger quantities, special rates

IRRIGATED SEEDS

It is now a statistical fact, and one without dispute, that in order to have the fullest maturity, the strongest vitality, and the most perfect development, a seed must be grown and matured under perfect atmospheric and climatic conditions. In order to obtain this it has been found necessary to not rely entirely upon nature, but to depend on irrigation. In Colorado, we have perfect systems of irrigation, and consequently are able to produce Seeds of the most finished quality. We have almost perpetual sunshine, and with this perfect growing-weather, combined with an unlimited supply of water, which we are able to turn on whenever it is necessary, isn't it reasonable to suppose that here is where a seed would obtain its most perfect development, and strongest vitality? We are giving you undisputable truths, and want you to take advantage of them. One trial will convince you, and whether you live East, West, South or North, you will never plant anything but IRRIGATED SEEDS once you have tried them. The cost of the seed is such a small part of the cost of raising vegetables, or flowers, that it is folly not to procure the best obtainable, and from sources where you KNOW that it is only possible to produce the best. No amount of hard work will do a particle of good unless you start with a foundation capable of supporting your building. Let us have only a small trial order from you and we will convince you of the truth of our statements.

SEEDS FOR WESTERN CLIMATE AND CONDITIONS

Thousands make the mistake each year of ordering seeds, plants and bulbs from Eastern or Southern Catalogues—varieties not adapted to the West. We catalogue only such varieties as we have found by actual experience to be thoroughly adapted to the soil and climatic conditions of the West. We have found that many things which do splendidly in the East are absolute failures here, and consequently for your own good we advise our Denver seeds.

MARKET GARDENERS

We issue a special price list to parties who follow gardening for a living and will gladly send it on request. We are making a specialty of this trade, as Denver gardeners can testify, and will be glad to have you give us a trial.

CUT FLOWERS

We have also added this department to our business and can supply at a moment's notice, by mail or express, flowers, plants and decorations for all occasions. We devote special attention to bouquets and design work and our wedding and funeral designs are unexcelled and at as low prices as good work can be done. Hoping to hear from you, we are,

Yours very truly,

The Denver Seed and Floral Co.

Denver Seed and Floral Co.'s

DESCRIPTIVE LIST OF

Irrigated Seeds

WE DELIVER FREE to any postoffice, at prices quoted in this catalogue, all vegetable and flower seeds in packets, ounce and $\frac{1}{2}$ -pound. The purchaser must add 8 cents per pound (if to go by mail) for $\frac{1}{2}$ -pound and over on bulk seeds. A package of seeds or bulbs weighing 4 pounds or less can go by mail at 8 cents per pound.

ASPARAGUS

One ounce for sixty feet of drill. Sow early in spring in drills two inches deep, rows one foot apart. At one or two years transplant with crowns of roots six inches below the surface, to permanent beds made rich with plenty of manure.

Colossal—The standard variety. The shoots are of the largest size; very productive and of the best quality.....
Pkt. 5c; 1 oz. 10c; $\frac{1}{4}$ lb. 20c; 1 lb. 50c

The Palmetto—Earlier; more prolific.....
Pkt. 5c; 1 oz. 10c; $\frac{1}{4}$ lb. 20c; 1 lb. 50c

ASPARAGUS ROOTS.

Palmetto—Strong roots; two years old.
25c doz.; \$1 per 100; \$7.50 per 1,000

BEANS

DWARF OR BUSH.

Two pounds to one hundred feet in drills. A succession of sowings can be made as soon as danger from frost is over until July. Plant in drills about two inches deep, eighteen inches apart. The seeds should be planted about two inches apart.

GREEN PODDED VARIETIES.

Extra Early Red Valentine—(Best Improved Round Pod Strain.)—One of the very best snap-shorts; round, fleshy pods, which mature quickly and are of first-rate quality.
Pkt. 5c; $\frac{1}{2}$ lb. 10c; 1 lb. 15c; 2 lbs. 25c

The New Stringless Green Pod—Absolutely stringless; enormously productive.

The pods are straight and well filled with beans of excellent flavor. The earliest of all green-podded beans, requiring only twenty-eight days from germination and continues bearing longer than most varieties.....

...Pkt. 5c; $\frac{1}{2}$ lb. 10c; 1 lb. 15c; 2 lbs. 25c

Long Yellow Six Weeks—An early snap-short variety, producing edible pods thirty days after germination; very bushy. Beans long kidney-shaped, pods long flat.....
Pkt. 5c; lb. 15c; 2 lbs. 25c

Early Mohawk—One of the earliest and hardiest and one of the few that can endure a slight frost. Is very erect and productive and makes an excellent market garden sort.
Pkt. 5c; lb. 15c; 2 lbs. 25c

WAX PODDED VARIETIES.

Black Wax—Pods yellow, fleshy, tender and stringless; a favorite snap bean wherever known; beans black when ripe.....

....Pkt. 5c; ½ lb. 10c; 1 lb. 15c; 2 lbs. 25c

Golden Wax—One of the best dwarf beans known; ten days earlier than other varieties; pods large, long, brittle, entirely stringless, rich golden color, buttery flavor, while as a shell bean for winter use it has few or no superiors.....

....Pkt. 5c; ½ lb. 10c; 1 lb. 15c; 2 lbs. 25c

Crystal White Wax—The long, round pods are greenish white, transparent, entirely stringless, crisp, tender and very slow to harden.....

Pkt. 5c; ½ lb. 10c; 1 lb. 15c

Wardwell's Early Kidney Wax—One of the earliest, hardiest and most productive of all Wax Beans. Is almost entirely free from rust and spots. The pods are long and showy, very tender, stringless, of excellent quality.....

....Pkt. 5c; ½ lb. 10c; 1 lb. 15c; 2 lbs. 25c

BUSH LIMA BEANS.

Burpee's Bush Lima—A bush form of the true large Lima. Plants uniformly dwarf, bearing very abundantly.....

.....Pkt. 5c; ½ lb. 10c; 1 lb. 15c

Henderson's Bush Lima—Seed smaller, earlier and more prolific.....

.....Pkt. 5c; ½ lb. 10c; 1 lb. 15c

POLE OR RUNNING BEANS.

Plant in hills three feet apart, three or four beans to hill, and place poles for the vines to climb.

King of the Garden or Large Pole Lima—A great favorite with market gardeners on account of its large pods and its productiveness.....

Pkt. 5c; 1 lb. 15c; 2 lbs. 25c

Cut Short or Corn Hill—The old reliable corn-hill bean. There are no new varieties that surpass this. Beans oblong, white, usually covered with dark spots.....

.....Pkt. 5c; 1 lb. 15c; 2 lbs. 25c

Lazy Wife—This sort is popular in many localities. As its name indicates, a handful of choice, stringless pods at a single grab. The pods are broad, thick, very fleshy and entirely stringless, and possess a rich buttery flavor when cooked. The beans are white and make a very good dry bean for winter use; may be grown either on poles or on corn.....

Pkt. 5c; 1 lb. 15c; 2 lbs. 25c

BEETS

One ounce to fifty feet of drill; five to six pounds to the acre. Sow in drills fifteen inches apart, one and one-half inches deep. As the plants grow, thin to six inches in the row; if thinning is neglected the young plants make excellent greens.

Extra Early Egyptian—Earliest beet in cultivation; staple market sort; dark blood red...Pkt. 5c; 1 oz. 10c; ¼ lb. 15c; 1 lb. 50c

Crosby's Improved Egyptian—An improved strain of the Egyptian Beet, specially recommended as an extra early sort; it is much thicker than the original strain, of better color and quality, besides being smoother.....

....Pkt. 5c; 1 oz. 10c; ¼ lb. 20c; 1 lb. 50c

**Eclipse.**

Eclipse—Has become exceedingly popular, and is one of the earliest sorts. It possesses all the qualities requisite in a first-class beet, and is of a uniform, globular shape. The roots are a bright, glossy red, fine-grained and delicious.....

....Pkt. 5c; 1 oz. 10c; ¼ lb. 20c; 1 lb. 50c

Edmund's Blood Turnip—Handsome; turnip-shaped; skin-deep blood red; flesh dark and sweet; good, marketable size; matures early. .Pkt. 5c; 1 oz. 10c; ¼ lb. 20c; 1 lb. 50c

Swiss Chard or Silver Beet—Greens for boiling are always acceptable. Spinach can not always be had, and often is tough and stringy. The Silver Beet, on the other hand, is in season from early spring until autumn frost, and is infinitely superior as a vegetable to Spinach, Turnip tops, or other greens. Its culture is precisely the same as for the ordinary table beet.

...Pkt. 5c; 1 oz. 10c; ¼ lb. 20c; 1 lb. 50c

Mangel Wurzels and Sugar Beets—The value of these for stock feeding cannot be overestimated. Five to six pounds of seeds are required per acre. Pound 25c

Golden Tankard—A very valuable variety of fine form and very sweet flavor; bright yellow in color. 1 lb. 25c

Mammoth Long Red Mangel Wurzel—... 1 lb. 25c

Silesian Sugar—This form of beet, of which sugar is made, is rapidly growing in favor in this country as a most valuable winter food for stock of all descriptions. Fifteen to twenty tons can be grown to the acre under favorable conditions. 1 lb. 25c

BORECOLE OR KALE.

Sown in autumn for sprouts. Pkt. 5c; 1 oz. 10c; ¼ lb. 25c

BROCCOLI.

Growth and habit like cauliflower. Pkt. 10c; 1 oz. 40c

BRUSSELLS SPROUTS.

A variety of the cabbage family. Pkt. 5c; 1 oz. 20c

CAULIFLOWER.

One-half ounce of seeds sows 100 yards of row and gives about 2,000 plants. Treatment same as cabbage, except requiring extra rich soil and frequent watering, especially when heading.

Cauliflower Plants ready May 1st. Doz. 25c; 100 \$1.00; 1,000 \$7.00

Early Snowball—A variety of widest celebrity by reason of its reliable productiveness, flavor and keeping qualities. No stock of seed under any name, or at any price, is better than the strain here offered. Pkts. 10c and 25c; 1 oz. \$3.00

Large Late Algiers—One of the best late varieties. Pkt. 10c; 1 oz. \$1.00

CARROTS.

Three ounces of seed to 100 yards of row, four pounds to acre. Drill in rows of fifteen inches for hand culture, or two and a half feet for field culture, and when two inches high thin to four inches apart.

Early French Forcing—Stump-rooted, about two inches in length; popular forcing variety. Pkt. 5c; 1 oz. 10c; ¼ lb. 25c; 1 lb. 75c

Chantenay—One of the most perfect and uniform in shape, smooth, heavy yielder and of fine table qualities. It grows five or six inches long; is fine in texture and easily dug; the flesh is of a beautiful deep orange, tender and of excellent flavor. One of the very best for table and market use. Pkt. 5c; 1 oz. 10c; 1 lb. 65c

Improved Danvers Half-Long—The top is small, color a rich shade of orange, shape handsome and smooth, quality the very best. It is equally valuable to grow for feeding stock, being well adapted to all soils. Pkt. 5c; 1 oz. 10c; ¼ lb. 20c; 1 lb. 65c

Ox-Heart or Guerande—Top shaped; color orange red; tender, flavor excellent. Pkt. 5c; 1 oz. 10c; ¼ lb. 20c; 1 lb. 50c

Long Orange—Pkt. 5c; 1 oz. 10c; 1 lb. 50c

Large Yellow Belgian—For feeding stock; a heavy yielder. Pkt. 5c; 1 oz. 10c; ¼ lb. 20c; 1 lb. 40c

CABBAGE

One ounce will produce 1,500 to 2,000 plants. For early use sow seeds of the early sorts in hotbeds or boxes in February or March; transplant when the weather will permit. Sow seeds of winter sorts early in May. Early varieties may be transplanted from eighteen inches to two feet apart each way, and the late sorts from two and one-half to three and one-half feet, varying with size. Cabbage requires good soil and plenty of water.

CABBAGE PLANTS.

Ready April 1st. We have all the popular early and late varieties. Per doz. 15c; 100 50c; 1,000 \$4.00

Early Winningstadt—One of the surest headers grown; cone-shaped and remarkably hard and solid; desirable for both early and late; exceedingly good keeper. The best cabbage for the West. Used by all our market gardeners. Pkt. 5c; 1 oz. 15c; ¼ lb. 40c; 1 lb. \$1.50

Select Very Early Jersey Wakefield—The most widely cultivated of the early cabbages. Short-stemmed, head cone-shaped. Pkt. 5c; 1 oz. 15c; ¼ lb. 40c; 1 lb. \$1.50

Early Dwarf Flat Dutch—... Pkt. 5c; 1 oz. 15c; ¼ lb. 40c; 1 lb. \$1.50

Hollander or Danish Ballhead Cabbage
 —This distinct variety has become very popular, both on account of its uniformity in heading and from the character of the heads, which are extremely hard and solid. For planting late in the spring for a fall crop for winter use this has few equals, as it seems able to withstand drought and succeed in poor soil better than our American sorts. The growth is usually tall with stout stalks; heads round in form, eight to ten inches in diameter, and very solid; few outer leaves and these folded closely about the heads. The heads keep excellently through the winter when buried, coming out quite solid in the spring.
 ..Pkt. 5c; 1 oz. 20c; ¼ lb. 60c; 1 lb. \$2.00

Surehead—Produces large, round, flattened heads, of the Flat Dutch type, and is remarkable for its certainty to head. It is the very best cabbage for main crops. It is uniform, very hard, firm and fine in texture, and ordinarily weighs from ten to fifteen pounds each. It is very sweet flavored, has scarcely any loose leaves, keeps well, is good for shipping, and is just the variety and quality to suit market gardeners, farmers and all lovers of good cabbage.
 ..Pkt. 5c; 1 oz. 15c; ¼ lb. 40c; 1 lb. \$1.50

Premium Large Late Flat Dutch—
 ..Pkt. 5c; 1 oz. 15c; ¼ lb. 40c; 1 lb. \$1.50

Red Dutch Early—Used in pickling; head large and flat, color red to purple.
Pkt. 5c; 1 oz. 20c

Hollander or Danish Ballhead.

Giant Pascal.

CELERY

Golden Self-Bleaching—A general favorite with Denver gardeners. The appearance of the plant is beautiful—compact growth and straight, vigorous stalks, crisp and of delicious flavor. The heart is large, solid and of a beautiful rich, golden yellow color.
Pkt. 5c; 1 oz. 25c; ¼ lb. 75c

Giant Pascal—One of the best for winter use. Has the rich, nutty flavor peculiar to the Golden Self-Bleaching; stringless, heart rich, bright yellow. It blanches very easily and is the best keeper of any variety.
Pkt. 5c; 1 oz. 20c; ¼ lb. 50c

White Plume—Very early and extensively grown for market.
Pkt. 5c; 1 oz. 20c; ¼ lb. 60c

Celeriac or Turnip-Rooted—A variety forming a large, solid root of edible character.
Pkt. 5c; 1 oz. 20c

CUCUMBERS

Two or three pounds of seed to an acre. Plant eight seeds to the hill, four to six feet apart, one-half inch deep, soon as weather is settled and warm, hoe often and when out of danger from insects, thin to four plants to the hill. June is time to sow for pickling.

Early Frame or Short Green.

Early Frame or Short Green—Vines are very vigorous and productive; fruit straight, smaller at each end; crisp, tender flesh; excellent for pickles.....

.....Pkt. 5c; 1 oz. 15c; 1 lb. \$1.00

Boston Pickling, or Early Green Prolific.
Jersey Pickling.

Chicago Pickling.

The favorite pickling sorts in their several localities.

Denver gardeners prefer the Boston Pickling.....Pkt. 5c; 1 oz. 15c; 1 lb. \$1.00

White Spine Improved—A favorite for slicing and marketing; six to eight inches long, two to three inches in diameter; handsome fruit, light green, with a few white spines; flesh crisp, fine flavor; largely grown for forcing....Pkt. 5c; 1 oz. 15c; 1 lb. \$1.00

Improved Long Green—Fruit long and crisp; good for pickling and market.....

.....Pkt. 5c; 1 oz. 15c; 1 lb. \$1.00

Bismarck.—A late variety producing long, very dark green fruit, pointed at each end, very constant in form and color; flesh crisp and tender; excellent either for pickles or slicing. This is one of the best sorts for growing under glassPkt. 5c;

1 oz. 30c; 2 ozs. 55c; ¼ lb. \$1.00; 1 lb. \$2.75

New Japanese Climbing Cucumber—Is the best addition to our list in a long time, especially for a small garden, as a row ten or fifteen feet long, grown on chicken wire, or any support about six feet high, will supply an ordinary family....Pkt. 5c; 1 oz. 15c

CORN

SWEET OR SUGAR.

Extra Early Adams—Not true sugar; the earliest corn grown; ready for use in sixty days; height of stalk, three to four feet; can be planted earlier than the sugar varieties.Pkt. 5c; ½ lb. 10c; 1 lb. 15c; 2 lbs. 25c

Early White Cory—The earliest in cultivation; the ears are fair-sized; quality very fine..Pkt. 5c; ½ lb. 10c; 1 lb. 15c; 2 lbs. 25c

Early Mammoth White Cory—A decided improvement over both the popular White and Red Cory. The ears are twelve-rowed, fully twice the size of the old Cory, white-cobbed and covered with very large, white grains of extra quality.....

..Pkt. 5c; ½ lb. 10c; 1 lb. 15c; 2 lbs. 25c

IRRIGATED SPECIAL. SWEET CORN.

This we regard as the greatest and most important vegetable variety of years. Think of a corn ten days to two weeks earlier than any other variety, and not only the earliest but the sweetest of all sweet corn, early or late.

If you do not buy anything else out of this catalogue, send at least for some Irrigated Special.

A point of merit in our Irrigated Special Corn is the Size of the Cob. It is delicate and dainty, just right to handle at the table. Ladies who relish sweet corn will no longer be obliged to hide their lovely features behind a great unwieldy cob of corn while securing the succulent kernels.

The two points of this remarkable corn to which we wish to call most particular attention, are its extraordinary earliness and unparalleled sweetness; surpassing in these particulars any other known variety, early or late.

So marked is its sweetness and delicacy of flavor, that many of our customers who have been in the habit of planting several varieties to secure a succession, now plant Irrigated Special exclusively, arranging the plantings a few days apart so as to have this delicious corn throughout the entire season.

Another point of great importance is the wonderful productiveness of IRRIGATED SPECIAL.

The early varieties of sweet corn do not as a rule yield as heavily as the late sorts, but Irrigated Special not only surpasses in this particular all other early varieties, but all late varieties as well; in fact our crops of Irrigated Special have given us for three successive years almost double the yield per acre of any other variety we have grown, early or late.

Incredible as this may seem, it is readily accounted for by the fact that the stalks bear from two to five ears each, and the growth being dwarf—about 4 feet—admits of very close planting.....
.....Large Pkt. 15c; 1 lb. 25c

Extra Early Minnesota—One of the desirable early sorts; very productive and of excellent quality; rather dwarf habit.....
..Pkt. 5c; ½ lb. 10c; 1 lb. 15c; 2 lbs. 25c

Perry's Hybrid—A very fine early twelve-rowed variety, fully as early as Minnesota, and ears much larger; dwarf in habit; sweet and tender.....
..Pkt. 5c; ½ lb. 10c; 1 lb. 15c; 2 lbs. 25c

Country Gentleman—Late; ears large; of delicious quality; very productive.....
..Pkt. 5c; ½ lb. 10c; 1 lb. 15c; 2 lbs. 25c

Stowell's Evergreen—Used more generally than any other variety; one of the latest; sweet.....
..Pkt. 5c; ½ lb. 10c; 1 lb. 15c; 2 lbs. 25c

Black Mexican—Kernels bluish black; highly prized for table use; very sweet and delicious.....
..Pkt. 5c; ½ lb. 10c; 1 lb. 15c; 2 lbs. 25c

POP CORN.

White Pearl—.....Pkt. 5c; 1 lb. 15c
White Rice—.....Pkt. 5c; 1 lb. 15c
Queen's Golden—.....Pkt. 5c; 1 lb. 15c

CRESS, OR PEPPERGRASS.

A well-known salad plant. Sow rather thickly in shallow drills about ten inches apart at intervals during the season; can be used alone or mixed with mustard or lettuce.

Double Curled—The best variety.....
.....Pkt. 5c; 1 oz. 10c

Water Cress—Should be sown near the edge of a running stream. A perennial aquatic.....Pkt. 5c; 1 oz. 40c

CHIVES.

Belongs to the onion family; used for flavoring soups and salads.....
.....Roots, per bunch, 15c; two for 25c

Corn Salad or Fetticus—Pkt. 5c; 1 oz. 10c

EGG PLANT.

Sow seeds in February in hotbeds or in boxes in the house; transplant to two and one-half feet each way in good soil after all danger from frost.

New York Improved—...Pkt. 5c; 1 oz. 25c

Thornless—Large round purple.....
.....Pkt. 5c; 1 oz. 25c

ENDIVE.

Green Curled—A desirable salad when blanched.....Pkt. 5c; 1 oz. 10c

White Curled—A delicate variety of white tint.....Pkt. 5c; 1 oz. 10c

GARLIC.

The Garlic is the most pungent of all the onion family. It is much used in the south of Europe. The root or bulb is composed of many small bulbs called "cloves," which are planted in the spring six to eight inches apart and in August the tops will die, when the bulbs are ready to gather. They do best in light, rich soil. Large bulbs, lb. 30c; 3 lbs. for 80c, postpaid. Small bulblets, 40c per lb., postpaid. Write for prices on large lots.

GOURDS.

Mixed Varieties—Nest Egg, Dipper, Dish-cloth, Hercules Club, orange and green and yellow striped. Pkt. 5c each; mixed, 1 oz. 35c

KOHL RABI.

Early White Vienna—...Pkt. 5c; 1 oz. 20c

LEEK.

London Flag—Hardy and of good quality.....
.....Pkt. 5c; 1 oz. 15c

LETTUCE

For successive crops, sowing may be made in the open ground as early as the spring opens, and continuing until July. Always thin out well, or the plants will not be strong. When wanted as a cut salad sow the seed thickly in rows or broadcast.

CURLED OR LOOSE LEAVED VARIETIES.

Black-Seeded Simpson—Grown more than any other variety for Denver market. Leaves are very large and form a compact mass rather than a distinct head; not quick to wilt; color, light green; much liked by market gardeners for forcing.

.....Pkt. 5c; oz. 10c; lb. 80c

Simpson's Early Curled—One of the best early sorts for market or family use. All the leaves tend to produce a large, loose head. Leaves beautifully crimped, dark green, very tender and crisp. Recommended for general cultivation. .Pkt. 5c; 1 oz. 10c; 1 lb. 80c

Grand Rapids Forcing Lettuce—It is of superior quality and beautiful appearance; a strong grower. It is also desirable for early sowing in open ground.

.....Pkt. 5c; 1 oz. 10c; 1 lb. 80c

Cos—Vigorous, always heading under the severest sun; remarkably fine. It should be in every garden. . . .Pkt. 5c; 1 oz. 15c; lb. 80c

CABBAGE OR HEADING VARIETIES.

Denver Market Lettuce—New, distinct variety, good for forcing or open ground; forms large, solid heads of a good, light green color. The leaves are beautifully marked and blistered (like the Savoy Cabbage). .Pkt. 5c; 1 oz. 10c; ¼ lb. 25c; 1 lb. 80c

Hanson—(Improved Hard Heading Stock.) We can recommend this as one of the very best; heads green outside and white within; grows to a remarkable size, very solid and is deliciously sweet, crisp and tender. It withstands the hot sun

.....Pkt. 5c; 1 oz. 10c; 1 lb. 80c

Early Prize Head—It forms a mammoth head and remains tender and crisp throughout the season; is prompt to head, but slow to seed, of superior flavor and very hard. The leaves are very large, crimped, bright green, tinged with brownish red on edge.

.....Pkt. 5c; 1 oz. 10c; 1 lb. 80c

California Cream Butter—Solid heads of good size; medium early and slow to go to seedPkt. 5c; 1 oz. 10c; 1 lb. 80c

MELONS

MUSKMELONS.

One ounce for sixty hills, two or three pounds per acre; hills three to six feet apart each way; mix well in each hill before planting two shovelfuls of thoroughly rotted manure.

Rocky Ford—(True stock). A cantaloupe of great celebrity grown at Rocky Ford, Colorado. Small in size, but of very superior flavor, rind well ribbed, flesh green with a line of gold just beneath the skin.

..Pkts. 5c; and 10c; per oz. 15c; 1 lb. \$1.00

Emerald Gem—Small, extra early; smooth-ribbed, dark green skin and orange flesh, very sweet.Pkt. 5c; 1 oz. 10c; 1 lb. 60c

Osage or **Miller's Cream**—Cocoanut shaped; yellow flesh, light green, netted skin. .Pkt. 5c; 1 oz. 10c; ¼ lb. 20c; 1 lb. 60c

The Banquet—The flesh is a dark, rich salmon color, uniformly thick, and of granulated character; perfectly round shape. The skin is not ribbed, but is densely netted over its entire surface. .Pkt. 5c; 1 oz. 10c; 1 lb. 60c

Hackensack, or **Turk's Cap**—This is a favorite New York market variety. Fruits are of good size, round, heavily ribbed and netted; hardy and productive, with thick, firm, green flesh, of excellent flavor.

.....Pkt. 5c; 1 oz. 10c; 1 lb. 60c

WATERMELONS.

One ounce for thirty hills, four to five pounds per acre. Treatment same as for muskmelons, only hills should be six to eight feet apart, eight seeds to the hill, and thin to best three plants.

Rocky Ford—One of the best; medium long, dark skin, with white seed, and light red flesh, and of a most delicious flavor. . . .Pkt. 5c; 1 oz. 10c; ¼ lb. 25c; 1 lb. 80c

Kleckley Sweet—An improved strain of the Rocky Ford. Large oblong melon, twenty inches in length by ten to twelve inches in diameter, somewhat tapering at the ends. The skin is dark green, flesh bright scarlet, ripening close to the skin, the rind being only about one-half inch in thickness. Seeds white, lying close to the rind, leaving a large solid heart which does not crack open when ripe. The scarlet flesh is sweet and sugary and is of such texture that it leaves no strings of pulp whatever in eating. . . .Pkt. 5c; 1 oz. 10c; 1 lb. 80c

Ice Cream—Flesh red and solid, crisp and delicious flavor; form oblong, seeds whitePkt. 5c; 1 oz. 10c; 1 lb. 60c

Seminole—Very early, and desirable in every way.Pkt. 5c; 1 oz. 10c; 1 lb. 60c

Black Diamond—Grows the largest melons and more of them than any melon we have. Average weight is about 80 lbs.; color almost black; good shipper; very like the Kolb Gem.Pkt. 5c; 1 oz. 10c; 1 lb. 60c

Kolb Gem—Vines of medium size, but remarkably vigorous and healthy. Fruit of the largest size, round or slightly oval, marked with irregular mottled stripes of dark and very light green in sharp contrast, which gives it a bright and attractive appearance. Flesh bright red, extending to within half an inch of the rind; always solid, very firm, a little coarse, but sweet and tender; an excellent keeper.Pkt. 5c; 1 oz. 10c; 1 lb. 60c

MUSHROOM SPAWN.

Mushrooms may be grown in a warm cellar or shed in winter, or in the open air in summer. Take partially dry, fresh horse manure and lay it in a heap to ferment;

turn and mix well every few days; and when well and equally fermented, which will be in from ten to fifteen days, it may be made into a bed four feet wide and about two feet deep, mixing it well together, and beating or treading it firmly. As soon as the temperature of the bed falls from seventy-five to fifty degrees, the spawn may be inserted in pieces about the size of a walnut about two inches deep and six inches apart. Cover with loamy soil about two inches deep, and beat it down evenly and firmly. Finish off with a covering of clean straw or hay, about a foot thick to protect from heavy rains. Water, when necessary, with lukewarm water, and expect mushrooms in from four to six weeks. They can also be raised in pots, boxes, or, in fact, anything capable of keeping the material together, and placed in a cellar, closet, greenhouse, and gratery.

French Spawn— 3-lb. box 65c
English Miltrack Spawn— 1 lb. 20c

MUSTARD.

White English—Best for salads or medicinal purposes
Pkt. 5c; 1 oz. 10c; ¼ lb. 20c; 1 lb. 50c

Southern Giant Curled—The true curled-leaf variety so popular in the South for planting in the fall to furnish an early spring salad.Pkt. 5c; 1 oz. 10c; ¼ lb. 25c; 1 lb. 75c

ONIONS

Sow in rich, sandy soil, in drills one foot apart, as soon as the ground can be worked in spring. Thin to three or four inches, using the rake and hoe frequently to keep down the weeds.

Extra Early Red—Deep red in color; flat, medium size; good yielder and an excellent keeper
 Pkt. 5c; 1 oz. 10c; 1 lb. \$1.00; 10 lbs. \$8.50

Extra Fine Large Red Wethersfield Onion—This is the most popular standard variety for winter market in many northern states. It is not an early ripening sort, as it continues in growth throughout the season, and consequently makes very large onions. Continued selection of bulbs planted for seed gives us a small-necked sure-ripening strain, entirely free from scallions or thick-necks. Though well flattened, the solid onions are thick through. The outer skin is a deep rich purplish red, smooth and glossy; flesh white, lightly tinged with pinkish rose. The magnificent large solid onions are nearly as mild in flavor as many varieties with skin of lighter coloring. Its splendid keeping qualities make it easy to hold crops for late winter markets
 Pkt. 5c; 1 oz. 10c; 1 lb. \$1.00; 10 lbs. \$8.50

Yellow Globe Danvers—Popular in Denver markets; an excellent variety; mild flavor and very productive; ripens early and a good keeper.....Pkt. 5c; 1 oz. 10c; 1 lb. \$1.00

Yellow Flat Danvers—A flat form, of good keeping qualities Pkt. 5c; 1 oz. 10c; 1 lb. \$1.00

The Prize Taker or Yellow Globe Spanish.....Pkt. 5c; 1 oz. 10c; 1 lb. \$1.00

Australian Brown Onion—A new, medium-sized, wonderfully hard and solid variety of onion, and one which is quite attractive for the market, both in form and color. They are extremely early in ripening, and produce a crop of fine bulbs which are very uniform in size. Color is a peculiarly clear amber-brown, quite distinct from any other variety. In keeping qualities it exceeds any other variety known to us.....

.....Pkt. 5c; 1 oz. 10c; 1 lb. \$1.00

Extra Early Barletta—A small, white, Italian sort; the earliest of all, and best for picklingPkt. 5c; 1 oz. 20c; 2 oz. 35c; ¼ lb. 65c; 1 lb. \$2.25

Mammoth Silver King—The skin is a beautiful silvery white; the flesh is snowy white, and of a particularly mild and pleasant flavor; matures early and is of uniformly large size

...Pkt. 5c; 1 oz. 15c; ¼ lb. 50c; 1 lb. \$1.75

Silver Skin—The early, flat, white variety; used for an early onion; its mild flavor makes it especially desirable.....

.....Pkt. 5c; 1 oz. 15c; 1 lb. \$2.00

BERMUDA ONION, WHITE—The bulbs are quite broad and flat in form. The color is not a clear white, as in our American varieties, but rather a pale straw; flesh crisp, solid and mild in flavor. The plants are extremely thin-necked, insuring even and early ripening. Pkt. 10c; oz. 20c; ¼ lb. 60c; lb. \$2.00, postpaid.

BERMUDA ONION, RED—Bulbs of this variety are similar in form and early ripening to the Bermuda White, but grow larger in size, ranging from three to four inches in diameter; very flat, and of a light pink color. The flesh is white, lightly suffused with pink. Per pkt. 10c; oz. 20c; ¼ lb. 60c; lb. \$2.00, postpaid.

CHOICE ONION SETS

for early green onions.

Yellow Onion Sets—....Qt. 15c; bu. \$2.50

Red Onion Sets—.....Qt. 15c; bu. \$2.50

White Onion Sets—....Qt. 15c; bu. \$3.00

White English Multiplier—.....Qt. 20c

OKRA, OR GUMBO.

One ounce will plant one hundred hills. The long pods, when young, are used in soups, stews, etc. It is of the easiest culture and grows freely, bearing abundantly in any garden. Sow seed in open ground after all danger from frost is over.

White Velvet—Superior flavor and tenderness..Pkt. 5c; 1 oz. 10c; ¼ lb. 20c; 1 lb. 60c

Long Green Pod—..... Pkt. 5c; 1 oz. 10c; ¼ lb. 20c; 1 lb. 60c

PARSLEY.

Used for garnishing and seasoning soups, meats, etc. Sow thickly early in April, in rows one foot apart and one-half inch deep; thin out the plants to stand six inches apart in the rows. The seed is slow of germination, taking from three to four weeks to make its appearance. To assist its coming up quicker, soak the seed a few hours in warm water, or sprout in damp earth and sow when it swells or bursts. For winter use, protect in a frame or light cellar.

Extra Curled Dwarf or Emerald Parsley—This is a most beautiful and valuable variety; the moss-like leaves, of a handsome, bright green color, are finely crimped and curled. For garnishing no variety is more attractive.....Pkt. 5c; 1 oz. 10c; 1 lb. 50c

Turnip-Rooted, or Hamburg—The edible portion is the fleshy root, which resembles a small parsnip, and is highly esteemed for flavoring soups, stews, etc..... Pkt. 5c; 1 oz. 15c; ¼ lb. 25c

PARSNIPS.

Three ounces of seed to 100 yards of row; eight pounds to the acre. The parsnip is a delicious table vegetable, and is famous in some districts as a food for swine. Sow in shallow drills in good ground, deeply dug; cover the seeds lightly. When the plants are up two or three inches, thin them to stand four inches asunder. Yield 300 to 700 bushels. They are improved by frost, and it is usual to take up in the fall a certain quantity for winter use, leaving the rest in the ground until spring for use.

Hollow Crown—The best bred and handsomest parsnip to be found. It is half long, wedge-shaped, hollow crowned and very broad at the shoulders, easily taken out of the ground, and producing more tons to the acre than the longer and slimmer varieties

.....Pkt. 5c; 1 oz. 10c; 1 lb. 40c

PUMPKIN.

Culture in the same manner as melons and cucumbers. Avoid planting them near other vines.

- Large Cheese**—Flat; one of the best varieties for family use.....
Pkt. 5c; 1 oz. 10c; 1 lb. 50c
- Mammoth Tours, or Jumbo**.....
Pkt. 5c; 1 oz. 10c; ¼ lb. 30c; 1 lb. 60c
- Tennessee Sweet Potato**—Bell-shaped; thick, white flesh; fine for pies.....
Pkt. 5c; ¼ lb. 20c; 1 lb. 60c
- Early Sugar**—Fine grained, sweet and prolific..Pkt. 5c; 1 oz. 10c; ¼ lb. 20c; 1 lb. 60c
- Connecticut Field**—Largely grown for feeding stock
Pkt. 5c; 1 oz. 10c; ¼ lb. 15c; 1 lb. 40c

PEAS

In drills, one pound for thirty-five feet, seventy-five to ninety-five pounds for an acre. The pea will endure cold, frosty weather without harm, and may therefore be sown very early in the spring. Sow the dwarf varieties, that do not grow over fifteen inches high, in rows two feet apart; those varieties that attain the height of two or three feet, in rows three feet apart, and the latest four feet apart. The dwarf varieties should be liberally manured; the tall sorts will run too much to vine if too freely manured; bush the tall kinds when six inches high.

EXTRA EARLY AND MEDIUM PEAS.

Alaska—This is a blue pea, the earliest on the list, most popular with Denver gardeners for first planting; pods of dark green color, well filled, often seven to nine peas to the pod, of good flavor; height, two feet..
 ..Pkt. 5c; 1 lb. 15c; 2 lbs. 25c; 10 lbs. \$1.00

THOMAS LAXTON PEA.

A new variety of large-podded pea. The plant is a very hardy and strong grower, producing extra large size pods in abundance. The quality is delicious, and cannot be surpassed by any other variety. The "Thomas Laxton" will mature nearly as early as any of the extra early smooth Peas, and being a wrinkled sort is much sweeter. When this variety is thoroughly introduced it will command equal attention with "Gradus," which has been the leading variety for several years past.....
Pkt. 5c; 1 lb. 25c; 10 lbs. \$1.75

Gradus, or Prosperity—This fine, extra early combines the finest quality with extreme earliness, and is also very productive. It is very hardy, and can be planted fully as early as the smooth peas; grows vigorous and healthy; vines 3 feet in height, and is very prolific, bearing pods fully as large as Telephone. The color of the shelled peas is a beautiful light green, which color they retain after being cooked; the quality and flavor is delicious, and the peas remain tender and sweet for a long time.....
Pkt. 5c; 1 lb. 25c; 10 lbs. \$2.00

Chelsea Pea—It grows about 15 inches in height and is of compact short-jointed habit, thus requiring no brushing or staking. The pods are remarkably handsome, being gracefully curved and much longer than any other early dwarf kind. They are well filled, each containing 8 to 10 good-sized wrinkled peas of exquisite quality, which, when cooked, are rich, sugary, and of marrowlike flavorPkt. 5c; 1 lb. 25c

First and Best.—The best-flavored extra early pea offered. It is a smooth, white pea, very prolific and profitable to market gardeners..Pkts. 5c and 10c; 1 lb. 15c; 2 lbs. 25c

American Wonder—Height, twelve inches; the most popular of all the early dwarf wrinkled sorts
Pkts. 5c and 10c; 1 lb. 15c; 2 lbs. 25c

Nott's Excelsior—One of the best of recent introduction; an improvement on American wonder, being more vigorous and prolific, with larger pods and more peas; height, one foot
Pkts. 5c and 10c; 1 lb. 15c; 2 lbs. 25c

Carter's New Daisy Pea—Height, sixteen inches. A new second-early or main crop variety, of dwarf growth and wonderful productiveness; the pods average from five to five and one-half inches in length, well filled, with seven to nine very large peas of excellent flavor.Pkt. 10c; 1 lb. 20c; 2 lbs. 35c

Heroine—A medium early green wrinkled pea; and one of the best recent introduction; large, curved, showy pods; an immense cropper; peas of finest quality; height two to two and one-half feet.

.Pkts. 5c and 10c; 1 lb. 15c; 2 lbs. 25c

Yorkshire Hero, or Dwarf Champion—Two to three feet; a very popular variety; prolific and fine flavor; seed green and wrinkledPkts. 5c

and 10c; 1 lb. 15c; 2 lbs. 25c; 10 lbs. \$1.00

McLean's Little Gem—Height 14 inches; an early green wrinkled variety; excellent quality; one of the very best for family usePkt. 5c; 1 lb. 15c; 2 lbs. 25c

Everbearing—A first-class pea for summer and autumn use; pods 3 to 4 inches long, and contain 6 to 8 peas of a rich flavor; very sweet and tender; 2 feet.

.Pkt. 5c; 1 lb. 15c; 2 lbs. 25c

Abundance—Pods containing 6 to 8 large wrinkled peas of excellent quality. It ripens about one week after the earliest kinds. A feature of this variety is its remarkable tendency to branch out at the roots, and for this reason the seed should be planted thinly; height 1½ feet.

.Pkt. 5c; 1 lb. 15c; 2 lbs. 25c

PEAS—Late Sorts.

Improved Stratagem—All the good qualities of the old Stratagem are highly developed; vine medium height, but very stocky, and bearing an abundance of large, handsome pods; one of the best peas now on the market for those who want large showy pods and peas without any sacrifice in qualityPkt. 5c; 1 lb. 15c; 2 lbs. 25c

Telephone—A tall wrinkled marrow, very productive and of the best quality, with long pods containing from 7 to 10 very fine flavored peas; height about 4 feet.

.Pkt. 5c; 1 lb. 15c; 2 lbs. 25c

Champion of England—A standard sort; popular in all markets; productive, high flavor; seeds wrinkled; 5 feet high.

.Pkt. 5c; 1 lb. 15c; 2 lbs. 25c

Large White Marrowfat—A favorite sort; grows about 6 feet high.

.Pkt. 5c; 1 lb. 10c; 10 lbs. 65c

Black-Eyed Marrowfat—A favorite variety; grows about 5 feet high.

.Pkt. 5c; 1 lb. 10c; 10 lbs. 65c

PEPPER.

Should be started in hotbeds and transplanted to open ground when weather is favorable, in warm, mellow soil, in rows eighteen inches apart.

Sweet Spanish—Large, mild; used for salad and pickling.

.Pkt. 5c; ½ oz. 15c; 1 oz. 25c

Large Bell or Bull Nose—Large and of mild flavor.Pkt. 5c; ½ oz. 15c; 1 oz. 25c

Cayenne—Fruit three inches in length and slender; very hot.Pkt. 5c; 1 oz. 25c

Celestial—A Chinese pepper. At first the fruit is yellow, and when fully matured becomes a deep scarlet.

.Pkt. 5c; ½ oz. 15c; 1 oz. 25c

RADISHES

One ounce for one hundred feet of drill. Thrives best in a light, sandy loam. For a successive supply sow from middle of March to September, at intervals of two or three weeks. For an early supply sow in hotbeds in February; ventilate well or they will run to leaves.

Non Plus Ultra—This is one of the finest forcing radishes introduced, and has already taken a leading place with our market gardeners. It will mature in 18 to 20 days, and owing to the extremely small tops, can be sown very thickly. The roots are round, with a scarlet-colored skin, the flesh white, very crisp and tender.

.Pkt. 5c; 1 oz. 10c; 1 lb. 50c

Early Scarlet, White Tipped, Turnip Rooted—Very attractive, quick-growing variety

.Pkt. 5c; 1 oz. 10c; ¼ lb. 20c; 1 lb. 50c

Early Scarlet White Tip Turnip Radish

Rosy Gem—Similar to Scarlet Turnip White Tip. Its shape is perfectly globular, with rich, deep scarlet top, blending into pure white at the bottom; exceedingly tender; desirable for either the market or home garden

. . . . Pkt. 5c; 1 oz. 10c; ¼ lb. 20c; 1 lb. 50c

Early Scarlet Turnip—A standard early turnip variety, of quick growth.

. Pkt. 5c; 1 oz. 10c; 1 lb. 50c

French Breakfast—Very quick growth; oval form, bright scarlet, white tip.

. . . . Pkt. 5c; 1 oz. 10c; ¼ lb. 20c; 1 lb. 50c

Long Scarlet, Short Top—

. . . . Pkt. 5c; 1 oz. 10c; ¼ lb. 20c; 1 lb. 50c

Long White Lady Finger, or Vienna—Very beautiful in shape; skin and flesh are pure white. Pkt. 5c; 1 oz. 10c; ¼ lb. 20c; 1 lb. 50c

Chartier, or Long Rose—(Second Early.) A thick, solid variety; in color the greater length of the root is scarlet and pink, while the point and bottom portions are white.

. . . . Pkt. 5c; 1 oz. 10c; ¼ lb. 20c; 1 lb. 50c

Cincinnati Market—(Glass Radish.) A selected strain of the Long Scarlet, growing to slightly larger size, fully as early and darker in coloring.

. . . . Pkt. 5c; 1 oz. 10c; ¼ lb. 20c; 1 lb. 50c

White Strasburg—Desirable summer variety; large and stands heat well.

. . . . Pkt. 5c; 1 oz. 10c; ¼ lb. 20c; 1 lb. 50c

Chinese Rose Winter—Bright rose color, white flesh; excellent for winter use.

. . . . Pkt. 5c; 1 oz. 10c; ¼ lb. 20c; 1 lb. 60c

Round Black Spanish—A winter radish, cultivated in autumn and keeping like a potato in good condition for months after harvesting.

. . . . Pkt. 5c; 1 oz. 10c; ¼ lb. 20c; 1 lb. 50c

RHUBARB.

The richer the soil and the deeper stirred the better. In the fall, trench a piece of ground and manure it well; then transplant the young plants into it three feet apart each way; cover with leaves or litter the first winter, and give a dressing of coarse manure every fall.

Victoria Giant—

. Pkt. 5c; 1 oz. 15c; ¼ lb. 50c

Rhubarb Roots—Strong roots, 10c each; 75c per doz.; large quantity special price.

SALSIFY, OR OYSTER PLANT.

One ounce to 100 feet of drill. Sow early in spring, in drills twelve inches apart, one inch deep, and thin to six inches in the row; cultivate as for parsnips.

Mammoth Sandwich Island—This is the best variety grown; pure white and double the size of the common.

. . . . Pkt. 5c; 1 oz. 10c; ¼ lb. 35c; 1 lb. \$1.25

SQUASH

Bush varieties, one ounce for fifty hills; running varieties, one ounce for twenty hills; four to five pounds to acre.

Summer Crookneck—Best summer squash; very early and productive; orange yellow Pkt. 5c; 1 oz. 10c; 1 lb. \$1.00

White Bush Scalloped.

White Bush Scalloped—Early, flat, pure white, a favorite early sort. Pkt. 5c; 1 oz. 10c; 1 lb. \$1.00

New Giant, or Mammoth Summer Crookneck. This new squash is not only earlier than the common variety, but grows uniformly to twice the size, frequently over two feet long. Pkt. 5c; 1 oz. 10c; 1 lb. \$1.00

FALL AND WINTER SORTS.

Hubbard—The best winter squash. Pkt. 5c; 1 oz. 10c; 1 lb. \$1.25

Golden Hubbard Squash—This is a very distinct sort of the shape and general character of the Hubbard, but a little smaller; earlier to mature and of a rich orange red color, instead of the dark olive green of the old Hubbard, while the flesh is a little deeper colored and fully as good quality. Pkt. 5c; 1 oz. 10c; 1 lb. \$1.25

Boston Marrow—Oval, bright orange, flesh yellow and fine. Pkt. 5c; 1 oz. 10c; 1 lb. \$1.00

Mammoth Chili—This is the "Jumbo" of the squash family. The quality is good and very nutritious. Pkt. 5c; 1 oz. 10c; 1 lb. \$1.00

Fordhook—Early, sweet and dry. Pkt. 5c; 1 oz. 10c

SPINACH.

One ounce for 100 feet of drill; ten pounds per acre. Very easily managed requiring but little culture. The main crop is sown in September, and it is sometimes covered with straw in exposed places during the winter, which prevents it being cut with frost. For summer use it may be sown at intervals of two or three weeks from March to August. It is best when grown in rich soil.

New Victoria—Best of all new sorts for spring planting.....
.....Pkt. 5c; 1 oz. 10c; ½ lb. 15c; 1 lb. 20c

Bloomsdale, or Norfolk Savoy-Leaved—Best for fall planting; curled and wrinkled, like a Savoy cabbage. It produces nearly twice the weight of crops as the ordinary sorts; hardiest of all the varieties of spinach...Pkt. 5c; 1 oz. 10c; ½ lb. 15c; 1 lb. 20c

Thick-Leaved Round Seed—Produces large, thick, dark green leaves, somewhat crumpled, and possesses the valuable quality of standing a long time.....
.....Pkt. 5c; 1 oz. 10c; 1 lb. 20c

Ever Ready—As early as any other sort and continues in cutting condition three weeks longer than the latest.....
.....Pkt. 5c; 1 oz. 10c; 1 lb. 20c

TOMATO

Tomato—Livingston's Beauty.

One ounce to 1,500 plants; one quarter pound to transplant for an acre; sow in hot-beds during March; when the plants have four leaves, transplant into shallow boxes, setting them four or five inches apart; give plenty of air, and endeavor to secure a vigorous but steady and healthy growth, so that at time of setting in the open ground they will be strong and stocky; set out of doors as soon as danger from severe frost is over; transplant carefully and cultivate well as long as the vines will permit. The fruit is improved in quality if the vines are tied to a trellis or to stakes.

Beauty—The most popular tomato in Denver market. Rich glossy crimson, with a slight purple tinge; grows in clusters of four to five; is of large size, very smooth and solid. Pkt. 5c; 1 oz. 20c; ¼ lb. 60c; 1 lb. \$2.00

Dwarf Champion—An early and distinct variety, medium in size, plant of dwarf and compact growth
..Pkt. 5c; 1 oz. 20c; ¼ lb. 65c; 1 lb. \$2.25

- Perfection—Early, regular and productive red
 ...Pkt. 5c; 1 oz. 20c; ¼ lb. 60c; 1 lb. \$2.00
- Favorite—Large, smooth, productive and a good shipper
 ...Pkt. 5c; 1 oz. 20c; ¼ lb. 60c; 1 lb. \$2.00
- Acme—Medium red, smooth and good ..
 ...Pkt. 5c; 1 oz. 20c; ¼ lb. 60c; 1 lb. \$2.00
- Stone—Very large, perfectly smooth; fine bright scarlet
 ...Pkt. 5c; 1 oz. 20c; ¼ lb. 60c; 1 lb. \$2.00
- Golden Queen—The best yellow tomato on the list; very smooth and good size.....
Pkt. 5c; 1 oz. 30c
- Pear-Shaped Yellow—For preserves....
Pkt. 5c; 1 oz. 30c

TURNIPS

One ounce for 150 feet of drill; two pounds in drill for an acre. Commence sowing the early varieties in April, in drills from twelve to fifteen inches apart, and thin out early to six or nine inches in the rows. For a succession, sow at intervals of a fortnight, until the last week in July, from which time until the end of August sowing may be made for the fall and main crop.

Purple Top Strap Leaf—Very early; quick growing, fine flavor, and one of the most generally grown for main crop.....
Pkt. 5c; 1 oz. 10c; 1 lb. 50c

Early White Egg—Most popular in Denver markets. A quick grower; perfectly smooth and nearly egg-shaped; pure white; firm and solid; grows about half out of the ground; small top and rough leaves; flesh very sweet and delicious
Pkt. 5c; 1 oz. 10c; ¼ lb. 20c; 1 lb. 50c

Early White Flat Dutch (Strap-Leaf)—An early white-fleshed variety, of quick growth, mild flavor
Pkt. 5c; 1 oz. 10c; ¼ lb. 20c; 1 lb. 50c

Extra Early Purple-Top Milan—Handsome appearance, somewhat flattened, white with purple top, flesh snow-white, fine-grained and delicate flavor
Pkt. 5c; 1 oz. 10c; ¼ lb. 25c; 1 lb. 75c

Yellow Aberdeen, or Scotch Yellow—This is a highly approved cattle turnip attaining a large size
Pkt. 5c; 1 oz. 10c; ¼ lb. 20c; 1 lb. 50c

RUTABAGA.

Skirving's Purple Top—Standard sort; a first rate variety for table or stock.....
Pkt. 5c; 1 oz. 10c; ¼ lb. 20c; 1 lb. 50c

SWEET, POT AND MEDICINAL HERBS

Culture—Herbs delight in a rich, mellow soil. Sow seeds early in spring in shallow drills, 1 foot apart; when up a few inches thin out to proper distance, or transplant. They should be cut on a dry day just before they come into full blossom, tied in bunches and hung up or spread thinly on a floor where they can dry quickly.

MARKET GARDENERS

PLEASE NOTE—SEEDS BY EXPRESS C. O. D.

Market gardeners, as a rule, use larger quantities of Seeds, and are, therefore, entitled to lower prices than the ordinary planter. It is difficult to get at a uniform discount from prices in the catalogue, but a special price will be given on all purchases to market gardeners and those buying in large quantities. Such prices will corre-

spond very nearly to those issued by any reliable seed house. The seeds we here offer are intended to be only the best and true to name, and of good germinating qualities. Mail orders are solicited, which will have the best and prompt attention.

Ask for market gardener's price list.

You have enough to contend with without using poor seeds.

Irrigated seeds possess the highest degree of vitality and the fullest maturity.

View of State Capitol Grounds, Denver, Showing the Beautiful Results from Using

OUR CAPITOL LAWN GRASS SEED

Sow Capitol Lawn Grass Seed and obtain a grassy carpet of unrivaled emerald in six weeks' time. It is the purest, cleanest, heaviest Lawn Grass Seed offered—no waiting six months for a lawn. The magnificent lawn around the State Capitol building was produced in six weeks' time with Capitol Lawn Seed, and no lawn in this locality is more universally admired. Also many of the finest lawns of Denver and surrounding cities testify to the quality of the seed sold under this brand.

Capitol Lawn Grass Seed is a special mixture composed of grasses which are adapted for the purpose of producing a lawn quickly; one which will stand abuse and retain that rich, green color and velvety appearance throughout the entire summer and fall.

In making up this mixture we are extremely careful to use only the very best quality seed, which has been thoroughly cleaned, the light seed and chaff having been blown out, thus securing a strictly high-grade mixture, and seed that will grow.

Quantity Required—A pound of this seed will sow a space ten by fifteen feet, or say 150 square feet. One pound goes one-third farther in seeding than blue grass alone, and a successful lawn is more certain.

Capitol Lawn Grass—No White Clover
1 lb. 25c; 5 lbs. \$1.00
Capitol Lawn Grass—Mixed with White Clover.....1 lb. 25c; 5 lbs. \$1.00

Kentucky Blue Grass—Fancy clean.....
1 lb. 20c; 6 lbs. \$1.00
Kentucky Blue Grass—Choice.....
1 lb. 15c; 8 lbs. \$1.00
White Clover
 ..1 lb. 30c; larger quantities, special rates.

HOW TO MAKE A GOOD LAWN.

Nothing adds more beauty and comfort to the home and surroundings than a well-made lawn. To accomplish this, three things are absolutely necessary—the proper preparation of the ground, the right kind of lawn seed, and careful and faithful watering.

First do the rough grading, and get the proper slope or level throughout; this is a very important part, as when once seeded the grade can not be changed. The ground must be well plowed or dug, and harrowed, or raked to secure thorough pulverization.

Unless the soil is already properly enriched, a liberal coat of old, fine manure or other fertilizer should be applied; this can be done before spading or plowing, or it can be done after; if the latter, care should be taken to mix it well with the soil to the depth of four to six inches with a fork or rake; avoid any straw or fresh manure, as it will do more harm than good.

Now make the ground as even and fine as possible. The condition of the ground to properly receive the seed can be bettered by rolling with a lawn roller or packing down firmly with a board one by two feet, nailed from the under side to a stick five feet long.

Sow by hand, carefully and evenly, of Capitol Lawn Grass Seed, one pound to 150 square feet; less can be used but it does not pay, as this amount insures a good, thick mat of grass, choking out the weeds and making a better protection to itself, also a quicker showing. Give the ground a light raking in order to cover the seed. Care should be taken not to cover the seed too deep, as by very slight covering a larger percentage of it will grow. Now put on a top dressing of old, fine manure to the depth of about one-half inch, pack down firmly with the roller or board, and the ground is ready to receive the water. Great care must be exercised in watering, using only a fine spray, as a stream of any force from the hose nozzle on a newly-made lawn will do much damage, making holes and bare spots in the lawn. Keep the ground constantly moist until the grass has made a good showing.

A lawn can be successfully made any time from April 1 to October 1; the quickest results are obtained through the hot months. Frequent rolling, making the soil more solid, is advantageous in producing a good lawn. If at any time the grass appears to need fertilizing, Odorless Lawn Fertilizer is a first-class article, easily and quickly applied, is lasting, and contains no weed seeds.

A WORD ABOUT COMMERCIAL FERTILIZERS FOR LAWNS.

We would never advise the use of stable or barnyard manures. These are rich in nutriment, it is true, but they are not only unsightly when spread over the surface of the lawn, but they are sure to fill the soil with all kinds of weeds, which, once introduced, are always difficult, and often impossible, to get rid of. Prevention is worth a pound of cure, and it will be found much easier to keep weeds out of the lawn than it is to get rid of them when once established there. A chemical fertilizer does away with all danger of this kind, and is, besides, much more prompt and reliable in action.

Many in the market are worthless. They are simply made to sell. Some are good if used by persons having had experience with them, but in the hands of amateurs they often bring about unsatisfactory results. Others are reliable under all conditions, and one of the very best of these is our Evergreen Fertilizer. It produces a prompt effect. It brings about a healthy development, and is permanent in its results, because it is a real food, not simply a stimulant, as so

many so-called "Fertilizers" are, whose use is followed by a reaction, which leaves the lawn in a deplorable condition.

CLOVER SEEDS

There are no plants so valuable for fertilizers as the Clovers. They have the faculty of absorbing nitrogen from the air and also of rendering available much of the inert plant food of the soil. Their long, powerful tap roots penetrate to a great depth, loosen the soil, admit air and by their decay add immensely to the fertility of the soil.

Alfalfa, or Lucerne—It is useless to sow this clover on land having a stiff clay or hard-pan sub-soil, as the roots naturally penetrate to a great depth and must do so if the plants live any time. Sow on rich, moist loam or sandy soil, having a deep porous sub-soil. Prepare the land thoroughly and sow seed at the rate of fifteen to twenty-five pounds per acre, with a broadcaster or grass seeder. Cover with a brush or light harrow. The young plants are quite tender and the land must be free of weeds until they become established. .1 lb. 20c; 100 lbs. \$15.00

Bokhara (Sweet Clover)—This is exceedingly valuable as pasturage for bees. It is occasionally found growing wild by the roadside in company with the more common sweet clover, and may be distinguished from it by its white flowers and less coarse and more leafy stems.1 lb. 20c

Alsike, or Swedish—The most hardy of all clovers; perennial. On rich, moist soils it yields an enormous quantity of hay or pasturage, but its greatest value is for sowing with other clovers and grasses, as it forms a thick bottom and greatly increases the yield of hay; cattle prefer it to any other forage. The heads are globular, fragrant and much liked by bees, which obtain a large amount of honey from them. Sow in spring or fall, at the rate of six pounds per acre, when used alone. 1 lb. 20c; 100 lbs. \$17.00

Mammoth, or Large Red—Grows nearly twice the size of the common Red Clover, often making a stand when the other clovers fail. Sow about eight to twelve pounds per acre.1 lb. 20c; 100 lbs. \$17.00

Medium Red, or June—This is by far the most important of all the varieties for practical purposes. Sow in spring or fall, and if no other grasses are used, at the rate of eight to twelve pounds per acre; more is required on old, stiff soils than on new and lighter ones.1 lb. 20c; 100 lbs. \$17.00

White Dutch—A small, creeping perennial variety, valuable for pasturage and for lawns. It accommodates itself to a variety of soils, but prefers moist ground. Sow in spring, at the rate of six pounds per acre, or when used with other grasses, half that amount.1 lb. 30c; 100 lbs. \$20.00

GRASS SEEDS

Prices on Grass Seeds subject to change.

Rhode Island Bent Grass.—A valuable perennial for lawns and pasturage. Much like Red Top, though smaller. Thrives on light, dry soils as well as on rich moist ones. For lawn purposes, if used alone, it should be sown at the rate of about forty pounds per acre; for pasture, if used alone, twenty-four pounds per acre.....1 lb. 30c

Creeping Bent Grass.—Particularly valuable for lawns that are to be used as croquet and tennis grounds, because it is benefited more than hurt by tramping and by its bright color adds to the beauty of the lawn1 lb. 30c

Red Top.—In Pennsylvania and states farther south, this is known as Herd's Grass, a name applied in New England and New York to Timothy. It is a good, permanent grass, standing our climate well and makes good pasture when fed close. Is valuable for low, wet meadows, producing a large return in good hay. When sown alone, use about twenty-eight pounds of the chaff seed per acre. Sow in spring or fall.

Red Top, Unhulled Fancy (free from light chaff).....1 lb. 15c; 100 lbs. \$7.50

Red Top, Fancy (cleaned from chaff). Sow eight to ten pounds per acre.....
.....1 lb. 20c; 100 lbs. \$15.00

Tall Meadow Oat Grass.—A hardy perennial much used in the south and west. Its roots penetrate deep, and it thrives on any good soil. It yields a heavy crop, and is valuable both for meadow and pasture. If used alone, sow from thirty to forty pounds per acre.....1 lb. 30c

Awnless Brome Grass.—A perennial grass valuable for binding the soil of embankments and on account of its ability to resist both drought and cold. On light, dry soils it is used for both hay and pasturage, but is not recommended for locations where better grasses will succeed. Should be used at the rate of forty pounds per acre.....
.....1 lb. 15c; 100 lbs. \$12.50

Orchard Grass.—One of the most valuable grasses on account of its quick growth and valuable aftermath. It is ready for grazing in spring two week sooner than most grasses and when fed off is again ready for grazing in a week and will continue green when other grasses are withered by dry weather. It is palatable and nutritious and stock eat it greedily when green. It has a tendency to grow in tufts and does better if sown with clover and as it ripens at the same time as clover, the mixed hay is of the best quality. When sown alone, about twenty-eight pounds are required per acre; if sown with clover, half that quantity. It is perennial and will last for years, but its habit of growth unfits it for lawns.....1 lb. 20c; 100 lbs. \$15.00

Sheep's Fescue.—A small tufted, hardy grass, forming a cluster of narrow, cylindrical leaves. It is of value in mixture for lawns, on dry soils and in shady locations. Sow about thirty-five pounds per acre.....
.....1 lb. 15c

Meadow Fescue, or English Blue Grass.—A perennial grass from two to four feet high, with flat, broad leaves. This is one of the standard European grasses. It needs rich ground and succeeds well on prairie soil. This is an excellent pasture grass to take the place of the wild grasses, as it yields a large amount of early and late feed. Sow about twenty-five pounds per acre...1 lb. 15c

Perennial Rye Grass.—A very valuable variety for permanent pasture. Succeeds well on almost any soil, but is particularly adapted to moderately moist or irrigated lands. Sow thirty to forty pounds per acre, in spring.....1 lb. 15c

Timothy.—This is the most valuable of all the grasses for hay, especially in the north. Thrives best on moist, loamy soils of medium tenacity. It should be cut just when the blossoms fall. Sow early in the spring or fall, at the rate of twelve pounds per acre, if alone, but less if mixed with other grasses.....1 lb. 10c; 100 lbs. \$5.00

Kentucky Blue Grass.—Sometimes called June Grass, but the true June or Wire Grass is much inferior. Kentucky Blue Grass is the most nutritious, hardy and valuable of all northern grasses. In conjunction with White Clover it forms a splendid lawn; for this purpose use not less than fifty-four pounds of Blue Grass and six pounds of White Clover per acre. If sown by itself for meadow or pasturage about twenty-eight pounds per acre will be required. Sow early in the spring, or in October or November...
.....1 lb. 20c; 6 lbs. \$1.00

MIXTURES FOR GOLF LINKS

While there are on the market numerous ready prepared golf mixtures of more or less value, we have found that the best results are obtained by giving individual attention to each customer and making a special mixture to suit his needs. We have thus overcome the difficulties presented by the great dissimilarity of local conditions of various links and are willing to give you the benefit not only of our experience on some of the best greens in this country, but of expert knowledge of grass seeds as well. Write us a description of your links, telling what the nature of the soil is, how drained, how much it has the sun, whether the winters are long or open, and whether the summers are wet or dry, and we will offer you two or more mixtures especially adapted to the various parts of your grounds.

MISCELLANEOUS FARM SEEDS

Barley, Common—Barley succeeds best on rich lands more sandy and lighter than those adapted to wheat. It is sown in the spring and can be grown farther north than any other grain. Use about two and one-half bushels per acre.....100 lbs. \$2.50

Buckwheat, Common—Buckwheat should be sown about the 20th of June, broadcast, at the rate of about one-half bushel per acre; the average yield being from twenty-five to thirty bushels. It should be threshed as soon as dry for if allowed to stand in mass, it is apt to spoil.....100 lbs. \$3.50

Buckwheat, Japanese—The plants are large and vigorous, maturing seed early and resisting drought and blight remarkably well; the grain is much larger and has a thinner hull than the Common or the Silver Hull. We recommend this especially for well drained or sandy land and the dry climate of the western plains...100 lbs. \$3.50

Buckwheat, Silver Hull—This improved variety is much better than the old sort. It is in bloom longer, matures sooner and yields double the quantity per acre. The husk is thinner, the corners less prominent and the grain of a beautiful light gray color.

Flax For Sowing—Sow late enough in the spring to avoid frost and early enough to secure a good stand and enable the crop to ripen before the fall rains. A fair average quantity of seed to be sown on an acre is one-half bushel, when cultivated for seed; if for the fiber a larger quantity should be sown. Cut before quite ripe and if the weather be dry, let it lie in the swath a few hours, when it should be raked and secured from the weather; thresh early in the fall and in dry weather.....1 lb. 10c

Hungarian—This is a species of annual millet, growing less rank, with smaller stalks, often yielding two or three tons of hay per acre. It is very valuable and popular with those who are clearing timber lands. Sow and cultivate like millet...100 lbs. \$3.50

Millet, Common—Requires a dry, light, rich soil and grows two and a half to four feet high, with a fine bulk of stalks and leaves and is excellent for forage. For hay, sow broadcast, about twenty-five pounds per acre, from May 1st to August 1st. For grain, sow in drills, about twelve pounds per acre and not later than June 20th...100 lbs. \$3.00

Millet, German, or Golden—An improved variety, medium early, growing three to five feet high. The heads, though numerous, are very large and compact. The seeds are contained in rough, bristly sheaths and are round, golden yellow and beautiful in appearance.....100 lbs. \$3.25

Rape, Dwarf Essex for Sowing—There is but one variety of Rape that has proven profitable to sow in America and that is the Dwarf Essex. Do not be deluded into buying inferior grades offered by unscrupulous dealers through exaggerated advertisements. Such seed is often more or less mixed with the annual variety which is not only worthless as forage, but once planted is likely to become a pernicious weed. **There is no plant that will give as heavy a yield of forage at such a small cost as this and its general cultivation would add largely to the profits of American farms.** Especially valuable for green manuring and pasture. When fed off by sheep, it will probably do more to restore and make profitable exhausted soils than any other plant. Biennial....100 lbs. \$6.00

CULTURE—Prepare the ground as for turnips and sow in June or July, with a turnip drill in rows two and one-half feet apart, at the rate of two and one-half pounds of seed per acre. It may be sown broadcast, either with other fall forage crops or by itself, using from one to five pounds of seed per acre.

Rye, Spring—Although this grain is often planted especially for paper makers, who prefer it to any other, its principal value is as a "catch" crop, to sow where winter grain has failed. The straw is shorter and stiffer than the winter variety and is always easily secured, while the grain, although smaller, is of equal value.....100 lbs. \$2.50

Rye, Fall or Winter—The time for sowing is from the middle of August to the last of September. Prepare the ground as for wheat and sow broadcast or with a drill at the rate of one and one-half bushels per acre. This has no equal as a crop to be used for late fall and early spring pasture and is one of the best to turn under for green manure.....100 lbs. \$2.50

SUGAR CANE (Sorghum).

Albough Early—The best early variety and the one which we especially recommend for the north, where the season is short. It is practically as early as the old Early Amber and yields much more per acre either of syrup or seed. The plant is large, of strong, vigorous and erect habit and stands up much better than Early Amber. It may be planted as late as the 15th of June, and will be in condition to harvest for syrup in September. Cane seed should not be planted before the weather is warm in the spring. Three to four pounds of seed are required per acre.....100 lbs. \$3.50

Early Orange—An exceedingly valuable variety; very large, of strong and vigorous habit and does not fall down. It is early and often yields as much as 240 gallons of very beautifully colored and highly flavored syrup to the acre. We recommend it highly to all desiring a superior cane..100 lbs. \$3.50

We believe the Lincoln Oat to be the best ever introduced. The claims we made for earliness, enormous yielding qualities and freedom from rust when first sending it out, have been fully sustained on every point and from all sections. Hundreds of customers have written us that, on account of its stiff straw, it stood up perfectly under weather that caused all other varieties to lodge. It is the best and most economical Oat for feeding on account of its thin hull, heavy meat and soft nib.

Why plant unknown varieties or run out of stock, when you can get true stock of Lincoln Oats here?

It is one thing to make extravagant and ridiculous claims for an Oat in sending it out. It is another thing to be able to point to such a record as the Lincoln Oat possesses... 1 lb. 15c, postpaid; 100 lbs. \$3.50

CAUTION.—It has come to our knowledge that certain seed houses are sending out as Lincoln Oats, common, ordinary oats, such as can be bought at any **FEED STORE**. Of this we have **POSITIVE INFORMATION**. The only safe plan is to buy your seed from us or from those who can show proof of having obtained their seed direct from us.

SPRING WHEAT

PEDIGREE STOCK

PRICES.—We are obliged to ask a considerable advance over the market price for our High Grade Seed Wheat, as there is a very much larger cost attached to its production and preparation than any one who has not had the experience could possibly appreciate. Space does not permit of going into detail, but, as a matter of fact, the prices named below for the larger quantities represent but a slight advance over the actual cash outlay to us.

We believe that farmers who want to change their seed will find it very much to their advantage to secure enough, at least, to give them a start.

Saskatchewan Fife Spring Wheat.—Noted for its great productiveness, earliness, vigor and freedom from smut and disease. This wheat has become so well known as to render extensive description of its unnecessary. We first brought it to the attention of the trade in 1884, and it has well sustained the claims then made for it, as the earliest and healthiest Spring Wheat. Lb. 15c, postpaid; by express or freight.....100 lbs. \$3.50

FIELD CORN

Owing to the fact that almost every farmer in our glorious West has plenty of land, he is inclined to try and increase his crop by putting in more acres, rather than try and increase the yield per acre. Farmers! Look well to your Seed. See that it is adapted to your Climate and Soil. **SEE THAT IT IS IRRIGATED SEED. INCREASE YOUR YIELD PER ACRE AT NO INCREASED EXPENSE.**

GOLDEN WEST FIELD CORN.

Description. Golden West is one of the most vigorous growing varieties that we know of. Stalk is of medium height, not as tall as Legal Tender, but very much thicker at the ground, short jointed with broad leaves which help to mature the large crop of corn it produces. It is the **deepest rooted corn that we know of** and therefore not easily injured by hard windstorms nor are the roots so near the surface as to be broken off and the vitality of the plant sapped and weakened in cultivating the crop. The ears have usually eighteen to twenty rows. There are many ears which measure eleven inches in length and weigh one and one-half pounds, containing from twelve to fifteen hundred grains to the ear. The kernels are of such shape that they wedge in tightly and make a solid ear not only at the cap but down near the point or germ end (see cut of ear section). This is a characteristic which is overlooked by many corn breeders, thus causing ears of ordinary varieties, which appear solid, to be of light weight. The ear is solid, nearly uniform in size throughout its entire length, but gradually tapering off to a blunt oval tip, cob comparatively small and of such nature that it dries out rapidly, thus **insuring a well matured crop**, even during unfavorable seasons. It matures in about one hundred days, thus making it a safe corn to plant, and we claim that it will yield a **larger crop than any other yellow corn in existence.**

The breeder of this corn has been working on essential principles for many years, and instead of simply crossing two good vari-

eties, he has made his cross from several varieties, and selected so as to combine the best characteristics of each with an ideal in his mind towards which he was working. Instead of having simply surface roots like other northern varieties, he has bred to obtain a deep rooted sort which would obtain its nutriment from the sub-soil as well as having plenty of surface roots. In this way he has secured a better leaf structure for the plant which **enables it to stand long seasons of drouth**, hot weather and strong winds. By working with his first cross to obtain plants with unusual heavy leafage and roots, he has been enabled to build this new variety on a foundation of perfect health and vigor. It is sure to become the leading corn for this latitude and will rapidly win the confidence of all corn growers.

SWADLEY FIELD CORN—Nearly as hardy as White Australian and fully as early and yields more matured corn.

This cut is a fair representation of the true Swadley Field Corn which was originally brought to Jefferson County, Colorado, from the mountain farms of Virginia twenty years ago, by Mr. George C. Swadley. He has cultivated it ever since and has supplied us for several seasons, though never having enough to fill all orders.

We are firmly convinced that it is the corn for uplands and worn out soils, where it pro-

duces 20 to 35 bushels of ears per acre. It stands drouth nearly as well as White Australian. It is much softer kernel, being a pale yellow dent. The ears will average eight inches long, 12 to 16 rowed. One-third of the crop will yield two ears on a stalk, maturing in 90 to 100 days. Eight pounds of seed will plant an acre, three feet, eight inches, check-rows. This is the corn for our short season districts. Give it a trial, you will be pleased. Price, 1 lb. 5c; 100 lbs \$1.75. Subject to change.

Australian White Flint—The earliest and surest variety we have for Colorado and the arid lands of the west. It will actually endure more drouth and cold than any other variety known. Grows to a height of six to ten feet, ears varying from eight to twelve inches long, usually eight or ten rowed, one and two ears on a stalk.....
1 lb. 5c; 100 lbs. \$1.75
 Bags extra, at cost.

Colorado Yellow Dent—An early Dent variety, ripening with the Flint varieties, and can be grown in almost any locality. Stalks large with broad leaves, ears eight to ten inches, sixteen rowed, grain yellow, making a good quality of meal.....
1 lb. 5c; 100 lbs. \$1.75
 Bags extra, at cost.

Pride of the North (90 days)—This variety has smaller ears than the late kind, but is valuable to grow, as it matures earlier. Planted as late as July 4, it has fully matured by October 1. The ears have from fourteen to sixteen rows, grown eight to ten inches in length, slightly tapering. The kernels are closely set together on the cob, of a light orange color. The stalks usually grow six to eight feet in height, producing one or two good ears. Our seed of this variety has been grown for us with special care, from the original stock.....
1 lb. 5c; 100 lbs. \$1.75
 Bags extra, at cost.

Improved Leaming (90 days)—This is one of the earliest large yellow Dent corns in cultivation, ripening in 90 to 100 days from planting. It is extra early, and not a hard flinty corn. The ears are large and handsome, with deep, large grains; orange yellow color and red cob. Stalks medium size, tapering gradually, producing two good ears each, husks and shells very easily.....
1 lb. 5c; 100 lbs. \$1.75
 Bags extra, at cost.

Golden Beauty (110 days)—The ears are

of perfect shape, with from ten to fourteen straight rows of bright golden yellow grains, remarkable in size, and filled out completely to the extreme end of the cob. The richness of color and fine quality of grain make it vastly superior for grinding into meal. The grains are not of a hard, flinty nature, neither are they so soft as to be greatly shriveled: The ears are easily shelled, although the kernels are firm on the ear, and in every respect present as perfect a type as could be possible to have. Golden beauty matures early, ripening in 100 to 110 days from planting and surpasses all in size and beauty of grain....

.....1 lb. 5c; 100 lbs. \$1.75
 Bags extra, at cost.

Iowa Silver Mine Corn (90 days)—The stalk grows to a height of seven or eight feet and set the ears about three and a half to four feet from the ground. The ears measure from ten to twelve inches in length and often weigh one and a half pounds. They are very uniform in size and shape, with sixteen to twenty straight rows of deep, pure white kernels on a small white cob. It matures in about ninety days, being about one week earlier than Champion White Pearl. It is the heaviest yielder we know, having yielded over 200 bushels to the acre. Seventy pounds of ears will make sixty-two pounds of corn. It is entirely distinct and will give satisfaction.....
1 lb. 5c; 100 lbs. \$1.75
 Bags extra, at cost.

Champion White Pearl (100 days)—The stalk is short and thick. The ear grows low on the stalk, from seven to twelve inches in length, almost parallel throughout of medium size, averaging sixteen rows of grains. The grains are pure white, very deep, compact, and heavy. Two grains will more than span the cob. The cob is small. By a test, seventy ears weighed eighty-seven and one-half pounds, of which the cobs alone weighed only seven pounds. It makes a superior quality of corn meal, and grades No. 1 white in any market. It matures early. We recommend it highly....
1 lb. 5c; 100 lbs. \$1.75
 Bags extra, at cost.

Hickory King (110 days)—This new corn is entirely distinct from all other varieties, having the largest grain with the smallest cob ever introduced in a white corn. It yields greater, and is unquestionably the most productive white field corn. Stalks bear two good ears each, and occasionally three, it never has barren stalks, no matter how thin the soil, and both ends of the ear are filled out full. A single grain will completely cover the cob of an ear broken in half. It both shells and shucks easily, and will make more shelled corn to a given bulk of ears than any other variety.....
1 lb. 5c; 100 lbs. \$1.75
 Bags extra, at cost.

SELECT LIST OF High-Grade Flower Seeds

*The Most Popular Varieties and Such as are Best
Adapted to Western Climate and Conditions*

W E DELIVER FREE to any postoffice, at prices quoted in this catalogue, all vegetable and flower seeds in packets, ounce and $\frac{1}{2}$ -pound. The purchaser must add 8 cents per pound (if to go by mail) for $\frac{1}{2}$ -pound and over on bulk seeds. A package of seeds or bulbs weighing four pounds or less can go by mail at 8 cents per pound. All 5-cent packets, 50 cents per dozen; 10-cent packets, \$1.00 per dozen.

ANTIRRHINUM, or SNAPDRAGON.

Hardy perennial; flowers from seed the first season; an old garden favorite with odd-shaped flowers, and pretty, spotted throats, deliciously fragrant; one of the most showy border plants, of easiest culture—the tall sorts yielding an abundance of fine cut flowers, while the dwarf sorts make the prettiest edgings.

- Tall Sorts—Two feet; mixed colors.... Pkt. 5c
- Dwarf Sorts—One foot; mixed colors.... Pkt. 5c
- New Tall Giant White..... Pkt. 10c
- New Tall Giant Yellow Queen.... Pkt. 10c
- New Tall Giant Bright Scarlet... Pkt. 5c
- New Tall Giant Niobe, Garnet, White Throat—Very fine..... Pkt. 10c
- Mixed—The above four giant varieties. Pkt. 10c
- Queen of the North—..... Pkt. 5c

AQUILEGIA, or COLUMBINE.

Very handsome, ornamental, hardy perennial plants, growing one to three feet high; of easy cultivation and bearing in profusion large flowers of novel shape and in great variety of color.

- Mixed Colors—Single and double.. Pkt. 5c
- Golden Spurred—(Chrysantha.) Beautiful long yellow-spurred flowers..... Pkt. 5c
- White Spurred—(Chrysantha alba.) Beautiful snow-white, with long spurs.. Pkt. 10c
- Aquilegia Coerulea—(Rocky Mountain Columbine.) Two feet. Undoubtedly the best of Columbines. Flowers immense, with blue sepals, white petals, long spurs and bright yellow stamens; is adopted as the Colorado state flower..... Pkt. 10c

For Columbine Roots, see Hardy Perennials.

ASTERS

PAEONY FLOWERED PERFECTION ASTERS.

A very favorite type. Thrifty upright plants; large, fine flowers, with long incurved petals. The Florists' Aster, and one of the finest..... Pkt. 10c

VICTORIA ASTERS.

A magnificent race of Asters. The colors include many delicate and some gorgeous shades; flowers very double and four inches across, and from twenty to thirty in a single plant; fifteen to eighteen inches high.... Pkt. 10c

COMET OR PLUME ASTERS.

A very beautiful and distinct class, with long curled and twisted petals formed into a loose yet dense half globe, resembling the Japanese Chrysanthemum..... Pkt. 10c

GERMAN QUILLED ASTER. *

Flowers composed of tube or quill-shaped petals. Very beautiful, with a great variety of colors.

- German Quilled—(Betteridge's Prize). Mixed Pkt. 5c
- German Quilled—Pure White.... Pkt. 5c

NEW OSTRICH FEATHER ASTER.

The new Ostrich Feather Asters are a new type, with long, wavy, twisted feathery petals, like the wavy beautiful feathers of the ostrich. They are a very valuable addition to the decorative class of Asters. Flowers frequently measure four inches across, in long, thin, wiry stems. Price, mixed colors, Pkt. 15c

CROWN ASTER.

The center of each flower is white, surrounded by a broad margin of color, such as crimson, rose, violet, etc.; flowers large and freely produced; height 18 inches to 2 feet. Pkt. 10c; 3 pkts. 25c

NEW YELLOW ASTER.

A Yellow Aster is at last at our disposal. It is a double flower in the form of a perfect ball; the quills are close together, and of the brightest sulphur-yellow. The flowers are borne upon long, erect stems, excellent for cutting.....Pkt. 10c; 3 pkts. for 25c

QUEEN OF THE MARKET ASTER.

The earliest Aster known, two or three weeks ahead of most of the other sorts, of dwarf branching habit, very double flowers, valuable for cutting. A favorite Florist's Aster for early market. Mixed....Pkt. 10c

NEW BRANCHING ASTERS.

The new Branching Aster is quite different in several respects from any Aster known. The branching habit is accompanied with great vigor of growth and profusion of bloom. The flowers are of extraordinary size and exceedingly graceful, and are borne erect on very long stems.

- White Branching Aster.....Pkt. 10c
- Crimson Branching Aster.....Pkt. 10c
- Shell Pink Branching Aster.....Pkt. 10c
- Finest Mixed Branching Aster....Pkt. 10c

ALYSSUM.

These flower profusely throughout the season, thriving in flower garden, window boxes, vases, etc.; also well adapted for ribbon lines and edgings; very fragrant annual.

Tom Thumb Sweet Alyssum—One of the finest plants for edgings and low beds, flowering in unparalleled profusion for months; height, six inches.....Pkt. 5c; ¼ oz. 15c
(Enough for a row forty feet long.)

"Carpet of Snow"—(Compactum procumbens). Pure white; grows only two to three inches high and flowers profusely; in fact, it is a perfect carpet of snow throughout the season.....Pkt. 10c; ¼ oz. 20c

Sweet White—One foot. Pkt. 5c; ¼ oz. 15c
(Enough for a row forty feet long.)

Ageratum "Blue Perfection"—This sterling novelty is the darkest colored of all the large flowering Ageratums. Dwarf, compact growth, making it a valuable plant for beds or borders. Its color is a deep amethyst blue and has nothing of the faded-out appearance of the old-style Ageratum.....Pkt 10c

BEGONIA.

Tuberous Rooted—Single; mixed colors.
.....Pkt. 15c

Balsam.

Double Camellia Flowered—One of the finest strains for either amateur or florist use. Colors mixed.....Pkt. 5c

BELLIS.

Double Daisy—The well-known Daisy, much improved.

Longfellow—Large pink.....Pkt. 10c

Giant Snowball—Unusually large, very double, pure white.....Pkt. 10c

Double Mixed.....Pkt. 10c

CHRYSANTHEMUMS.

Single Annual Varieties—Summer-blooming plants of compact growth and thrifty habit, 12 to 18 inches high, producing quantities of large, single flowers, two inches across. Colors, crimson, gold, maroon, white, etc.; mixed.....Pkt. 5c

Double Annual Varieties—Bushy, thrifty plants, about one foot high; very effective for summer flower beds, pot culture, and for cut flowers; mixed.....Pkt. 5c

Inodorum Plenissimum—Double white flowers.....Pkt. 10c

Latifolium, or Maximum—The great white "Moon Penny Daisy;" one of our finest hardy perennials.....Pkt. 10c

CALENDULA.

(Pot Marigold)

Pure Gold—A magnificent variety of pure golden yellow, large, double flowers, borne profusely until frost.....Pkt. 5c

Pongei Double—White.....Pkt. 5c

CENTAUREA.

(Bachelor's Button)

Cyanus—(Bluet, Ragged Sailor, Corn Flower, Blue Bottle.) A very old favorite garden annual, flowering freely in almost any situation; height, two to three feet; they are largely used for cut flowers. Mixed colors.....Pkt. 5c

Cyanus—Blue.....Pkt. 5c

Cyanus—New double mixed. Large size and filled up to the center with florets; many novel colors.....Pkt. 10c

Very handsome plants, which grow 18 to 24 inches high and produce large flowers of the sweetest fragrance; being produced on long, stiff stems, the flowers are most admirably adapted for bouquets, vases, etc.; as easily grown as a Bachelor's Button, to which family it belongs.

Centaurea Margaret—New, large flowering, white.....Pkt. 10c

Centaurea Mariae—Sulphur yellow, tipped rose.....Pkt. 10c

Centaurea Odorata—Reddish lavender.....Pkt. 10c

Centaurea Suaveolem—Yellow Sweet Sultan.....Pkt. 10c

Centaurea—Mixed colors.....Pkt. 10c

WHITE-LEAVED CENTAUREAS, OR DUSTY MILLER.

C. Candidissima—Round, compact plants, silvery white leaves, valuable for ribbon bedding; one foot.....Pkt. 10c

C. Gymnocarpa—One of the best ribbon plants, white foliage; 1½ feet.....Pkt. 10c

CANDYTUFT.

Large Flowering Rose—Immense umbels of exquisite rosy, flesh-colored flowers... Pkt. 10c

Empress—A beautiful pure white variety bearing candelabra-shaped branches, each producing a large truss of flowers, presenting a perfect pyramid of bloom throughout the summerPkt. 10c

Crimson—Very beautiful.....Pkt. 5c

Rocket—Pure white, in large trusses... Pkt. 5c

Mixed—All colors.....Pkt. 5c

TOM THUMB CANDYTUFT.

Bushy little plants only 4 to 6 inches high; splendid for edgings.

Tom Thumb—White.....Pkt. 5c

Tom Thumb—Purple.....Pkt. 5c

Tom Thumb—Rose.....Pkt. 5c

Tom Thumb—Mixed colors.....Pkt. 5c

COBEA SCANDENS.

Elegant, rapid-growing climber, 20 feet high; can be grown in the greenhouse or conservatory, or in the garden in summer, where, from their luxuriance, they are particularly desirable for covering arbors, walls, etc. Flowers large and bell-shaped.

BluePkt. 10c

CANARY BIRD VINE.

A rapid-growing summer climbing annual, growing 10 to 15 feet high. It will cover trellis work in the most graceful manner, producing hundreds of its pretty, fringed, bright yellow flowers, which resemble a canary bird with expanded wings...Pkt. 5c

CYPRESS VINE.

Pretty climber with star-shaped flowers; mixed colors.....Pkt. 5c

CALLIOPSIS, or COREOPSIS.

Showy and beautiful, free-flowering annuals, blooming all summer and excellent for cutting and massing; very popular and should be in every garden.

Golden Wave—(Drummondii.) Large, rich golden-yellow flowers with chestnut-brown centers, produced in great abundance.... Pkt. 5c

Tinctoria—Golden-yellow with garnet eyePkt. 5c

Nigra Speciosa—Rich crimson.....Pkt. 5c

Mixed—All the choice kinds.....Pkt. 5c

Tom Thumb Mixed—Height 1 foot.Pkt. 5c

COREOPSIS HARDY PERENNIAL.

Most of the showy annuals formerly known by this name are now called Calliopsis, while most of the perennial species are still left in this genus. The perennial kinds are quite hardy, the taller sorts requiring plenty of room. They are very free flowering, showy, and should have a prominent position. They are valuable also for cutting, as the closer the blooms are cut the more they flower. They are propagated by division of the roots or from seed.

Coreopsis Harvest Moon—Greatly improved variety; large, deep yellow flowers, with broad, over-lapping petals....Pkt. 10c

CANTERBURY BELLS.

Canterbury Bells.

Single Mixed—Rose, blue, white, etc... Pkt. 5c

Double Mixed—Rose, blue, white, etc... Pkt. 5c

"CUP AND SAUCER."

One of the most beautiful plants when in bloom that can be imagined. The bells, of beautiful colors, average three inches in length, and the saucers, three to four inches across, resembling in shape somewhat a cup and saucer.

Cup and Saucer—Mixed.....Pkt. 5c

Cup and Saucer, Rosa—Beautiful rose colorPkt. 10c

CELOSIA, or COCKSCOMB.

Very popular annuals of the easiest culture, producing large, ornamental, comblike heads; not only are they highly prized for summer flower beds, but they make fine pot plants.

Glasgow Prize—Very dwarf; immense crimson combs; 1 foot.....Pkt. 5c

COSMOS.

Mammoth Perfection—For cutting for bouquets and vases this is one of the finest flowers grown; the long stems and feathery foliage lend themselves to graceful arrangements. The plants, five to six feet high, are one mass of feathery, green foliage, gemmed with flowers of white, pink or crimson, enlivening the garden long after more tender flowers have succumbed to early frost.

- Mammoth Perfection**—Mixed colors.... Pkt. 10c
- White Pearl**—Beautiful snow white.... Pkt. 10c
- Pink**.....Pkt. 10c
- Delicate Shade of Pink**.....Pkt. 10c

Early Blooming Cosmos.

Early Summer Flowering—This new strain of early-flowering Cosmos begins to bloom scatteringly in June, the quantity increasing gradually until August, and from that time until frost the plants are a mass of flowers. The plants are dwarfer than the late-flowering Cosmos, forming compact bushes only four feet high. The colors are white, crimson and pink; only in mixture.....Pkt. 10c

CONVOLVULUS MAJOR.

(Morning Glory.)

The old-fashioned Morning Glory, as easy to grow as any weed. Brilliant, beautiful flowers of every shade of white, blue, pink, scarlet and variegated. The standard vine of every flower grower.

- Mixed**—Many beautiful colors....Pkt. 5c

"Imperial Japanese" Morning Glory—Not a success in Colorado. Pkt., mixed colors, 15c

Convolvulus Minor, or Bush Morning Glories—These should more justly be called Everblooming Morning Glories, for they are covered with flowers from June until late in fallPkt. 5c

For other varieties, see Ipomoea.

SPECIAL CLUB OFFER.

To anyone getting up a club, with order and remittance, to the amount of \$5.00 in seeds in packets, oz. or ¼ lb., we will send free of charge \$1.00 in seeds of your selection in packets, oz. or ¼ lb., and prepay all postage; or for club and remittance to amount of \$2.50, 50c of your own selection and postage prepaid.

CARNATION.

Finest Double Mixed—Hardy garden or greenhouse carnation; does not bloom the first year.....Pkt. 25c

"Marguerite" Carnations—A magnificent class that are, without exception, the most abundant bloomers of all the "Pinks." The flowers are of brilliant colors, ranging through many beautiful shades of reds, pinks, white, variegations, etc. They bloom in about four months from seeds..Pkt. 10c

CANNAS.

Mixed varieties of large-flowering French CannasPkt. 10c

Mixed—(Old Types.) Many varieties.....Pkt. 5c; 1 oz. 25c

Coccinea Indica—(Scarlet-fruited, Ivy-leaved climber.) A handsome climber of the gourd species, with beautiful, smooth, glossy, ivy-like leaves, contrasting with the fine, snow-white, bell-shaped flowers and brilliant carmine fruit; 10 feet.....Pkt. 10c

DIANTHUS, or PINKS.

Dianthus, or Pinks.

The family of "Pinks" are unrivaled for brilliancy and rich variety of color; the plants are bushy, of symmetrical form;

blooming so profusely as to almost uninterruptedly cover the plants until late in autumn, rendering them one of the most beautiful and satisfactory of all annuals for summer flower gardens. Height, about 1 foot.

DOUBLE ANNUAL DIANTHUS.

- Single and Double—Mixed colors..Pkt. 5c
- Chinensis—fl. pl., mixed colors; double China or Indian Pink; one foot.....Pkt. 5c
- Heddewigii—fl. pl., mixed colors; double Japan Pink, large flowers; fringed..Pkt. 5c
- Snowball—Double white fringed flowers; very finePkt. 10c

HARDY PERENNIAL DIANTHUS OR PINKS.

Highly valued for the great beauty and fragrance of their flowers. These make splendid bushy plants, from 1 to 2 feet high, unrivaled for permanent beds and borders.

- Double Mixed—(Double Hardy Garden Pink.) Large fringed flowers.....Pkt. 5c

SEE OUR LIST OF POULTRY SUPPLIES

DELPHINIUM, or HARDY LARKSPUR.

Handsome and well-known hardy perennials, with splendid flowers and curiously cut leaves; for permanent beds and borders they are indispensable.

- Pillar of Beauty—(D. formosum coelestinum.) An unusually pretty color—a delicate azure or sky blue, so bright and pretty a shade that it has to be seen to be appreciatedPkt. 10c

- Formosum—Bright blue, white center.....Pkt. 5c

- Finest Mixed Single Hybrids.....Pkt. 5c

For annual varieties, see Larkspurs, page 30.

DAHLIA.

DOUBLE VARIETIES.

Although perennial, these will flower freely the same season from seed, producing large, double flowers of perfect form, and of rich colors and markings in greatest variety; indispensable for garden decoration; 4 to 6 feet.

- Choice Double Mixed—Many colors....Pkt. 10c

- Pomponé—Double mixed; small floweringPkt. 10c

- Cactus Dahlia—Mixed colors; double flowers of distinct and remarkable appear-

ance, the petals being quilled and curved loosely and gracefully arranged in large double oval heads of bloom; the seed offered will produce many beautiful varieties, including several colors; worthy of extended cultivationPkt. 10c

SINGLE VARIETIES.

From their grace and beauty are much used for cut flowers; handsome bedding plants, flowering in great profusion in a large variety of color; seed sown in spring will produce plants that bloom from August until frost; 2 to 4 feet.

- Single Large Flowering—Mixed sorts and Striped. Many colors; many striped and spottedPkt. 5c

ESCHSCHOLTZIA.

(California Poppies.)

Showy summer flowering annuals, of the easiest culture, forming nice bushy plants, 1 foot high, which produce in wondrous profusion large saucer-shaped flowers of striking brilliancy; one of our finest garden plants.

Eschscholtzia.

SINGLE VARIETIES.

- California—Sulphur, with orange centerPkt. 5c

- Mandarin—Flowers bright scarlet; inner side rich orangePkt. 5c

- Rose Cardinal—Rich rosy purple, extremely beautifulPkt. 10c

- Finest MixedPkt. 5c

- Double Mixed—Colors.....Pkt. 5c

FOUR-O'CLOCK.

(Mirabilis.)

Good old-fashioned flower; fragrant, easy to grow and hundreds of blossoms.

Mixed—All colors.....Pkt. 5c; 1 oz. 25c

EVERLASTING OR STRAW FLOWER.

Six varieties. These can be cut in the bud state, dried and used in winter bouquets.

Acroclinium, Helichrysum, Amobium, Rhodanthe, Globe Amaranth, Xeranthemum...
.....5c each; 6 for 25c

GAILLARDIA.

Exceedingly beautiful annuals, making very showy plants, 1 to 2 feet high, for the flower garden. Grown in masses they are especially effective; large flowers, two or three inches across, produced from early summer until frost; unrivaled for cutting.

Single Mixed Varieties.....Pkt. 5c

Lorenziana, or Double Flowering—Large round heads composed of 30 to 50 flowers, of orange, claret, amaranth, sulphur, etc.
.....Pkt. 5c

James Kelway—(Perennial.) The most beautiful variety grown; immense flowers, often 5½ inches across, of dazzling crimson scarlet, with narrow gold edge. It is a hardy perennial variety, flowering abundantly until frost. A grand garden plant, 2 feet high by 2 feet throughPkt. 15c

GERANIUM.

Single Mixed—They flower from seed the first seasonPkt. 10c

ORNAMENTAL GOURDS.

Rapid growing, interesting annual climbers, with ornamental foliage and singularly shaped fruit; 15 to 20 feet.

Fine MixedOz. 40c; pkt. 5c

The following are handsome climbers, with delicately cut foliage; white, fringe-like flowers and pretty small fruits, some of them highly colored.

Momordica Balsamine—(Balsam Apple.)
.....Pkt. 5c

Momordica Charantia—(Balsam Pear.)
.....Pkt. 15c

GYPSOPHILA PANICULATA.

(Or Baby's Breath.)

Perennial; white; fine for cutting; most valuable for bouquet making, either green or dried; should be in every garden. Pkt. 5c

HOLLYHOCKS.

A superb collection. Grand summer and autumn flowering plants, bearing long spikes of double flowers, 3 to 4 inches across. Hardy biennial, 5 to 8 feet high.

- Double MaroonPkt. 10c
- Double WhitePkt. 10c
- Double PinkPkt. 10c
- Double YellowPkt. 10c
- Double CrimsonPkt. 10c
- Extra Choice MixedPkt. 10c

Mammoth Fringed "Allegheny"—An entirely new departure which has much to commend it. The mammoth flowers are wonderfully formed of loosely arranged fringed petals, which look as if made from finest China silk, and when cut are hardly recognizable as a Hollyhock, having none of the formality of the ordinary type. The color varies from the palest shrimp-pink to deep red. The plants are of majestic growth, sending up spikes 6 to 7 feet high, and are of a strong constitution, not being troubled with the disease so prevalent among HollyhocksPkt. 10c

HELIOTROPE.

Lemoine's Giant—Hybrid. These are grand

improvements. The clusters of bloom are immense; many measure 6 inches across; deliciously fragrant; colors, lavender, white, purple, etc.....Pkt. 10c

HUMULUS JAPONICUS.

(Jap. Hop.)

Probably the most rapid climber grown, in three or four weeks' time attaining a height of 20 to 30 feet; resembling the common hop, but being an annual, attains full perfection the first season. The foliage is luxuriant, making a dense covering.... Pkt. 5c

New Japanese Variegated Hop—A strikingly beautiful variety of the above. The leaves of rich green are blotched and marked with white and gray..... Pkt. 10c; 3 pkts. 25c

IPOMEA.

The Moon Flower—White-seeded. Not very great success in northern Colorado, unless started very early inside in pots.... Pkt. 10c

"Heavenly Blue"—Does well in Colorado climate. Flowers 4 to 5 inches across, in large clusters, of light blue with a yellow throat. It is also a splendid conservatory climberPkt. 10c

LOBELIA.

These are indispensable plants, with trailing branches 6 to 9 inches long; flowers of charming blue; for hanging over vases and baskets.

LOBELIA—ERINUS VARIETIES.

Gracilis—Light blue; slender trailing stemsPkt. 5c

COMPACTA VARIETIES.

Little, round, compact plants, 4 to 6 inches high; splendid for edgings, beds and ribbon gardening.

White Gem—Pure white.....Pkt. 10c

Crystal Palace—Dark blue; the finest for beddingPkt. 10c

PERENNIAL LOBELIAS.

A hardy perennial variety, with spikes of splendid shades of rose, red, lilac, purple, etc.; in bloom from July to October; 2 feetPkt. 15c

LARKSPUR.

Popular annuals for summer garden decoration; the splendid flowers are of varied colors and are borne on long spikes, blooming within a few weeks' time.

Giant Rocket—A much improved type, the

flowers being larger than the old varieties, very double, and the colors very beautiful.

Mixed ColorsPkt. 10c

MYOSOTIS.

(Forget-Me-Not.)

Bushy plants, 6 to 12 inches high, bearing clusters of lovely small flowers. They are perennials and hardy enough to remain in the open ground, excepting in very cold latitudes, where they should be well protected. If sown early in the house they will flower the first season.

Myosotis-Palustris — Hardy perennial; large flowering; dark blue.....Pkt. 10c

MIGNONETTE.

Mignonette—Defiance.

This deliciously fragrant flowering plant is the most popular annual grown. Mignonette does best in as cool a situation as possible; when exposed to the full force of the summer heat it begins to form seed, sometimes before the spikes are fully grown.

Large Flowering—The common, sweet MignonettePkt. 5c; ¼ oz. 25c

Machet— A dwarf, French variety, with broad spikes of very fragrant reddish flowers; one of the best varieties for either garden or pot culturePkt. 5c; ¼ oz. 20c

New Golden Machet—Distinct new variety of the above, of the same compact and robust habit, but differing from the type by

its massive spikes of golden-yellow blossomsPkt. 10c; ¼ oz. 25c

Allen's Defiance—Magnificent, even in the open ground. Its full, round spikes, when grown under favorable conditions in the greenhouse, are of a gigantic size, measuring from 12 to 15 inches long, with individual flowers of enormous size and of an intensely rich perfume ..Pkt. 10c; ¼ oz. 25c

Golden Queen—Golden-yellow flowers; dense dwarf growth.....
.....Pkt. 5c; ½ oz. 15c; 1 oz. 25c

Red Victoria—A very fine, distinct, profuse-flowering variety of dwarf, branching habit, bearing large and compact trusses of deep red flowers, very fragrant..Pkt. 10c

Bird's Mammoth—Largest variety grown; under proper cultivation the spikes average 12 to 15 inches long; are very full and exceedingly fragrant; it is not only a splendid Mignonette for garden culture, but for greenhouse and pot culture
.....Pkt. 10c; ¼ oz. 25c

MARIGOLD.

These annuals are old favorites in our gardens, but have been greatly improved recently in size and doubleness of flowers. They are very effective for groups and masses.

DOUBLE AFRICAN MARIGOLDS.

Double African Mixed—Yellow and orange; 2 feet.....Pkt. 5c

Eldorado—Immense flowers, 10 to 14 inches around; exceedingly double; primrose, lemon, orange and golden shades; 3 feetPkt. 5c

DOUBLE FRENCH MARIGOLDS.

Double French Mixed—One foot..Pkt. 5c

NEW FRENCH MARIGOLDS.

Legion of Honor "Little Brownie"—One of the prettiest and handsomest of the Marigolds. The plants grow 9 inches high, are insect and drouth proof, and will bloom from the middle of summer until late in the fall. The flowers are of a rich golden-yellow, marked with velvety brown; splendid for border or pot plant.....Pkt. 5c

MIMULUS.

New Mammoth Mixed—A magnificent strain of enormous size; 1 foot.....Pkt. 10c

Moschatus—(Musk Plant.) One-half foot; foliage emits a strong, musky perfume, yellowPkt. 10c

NICOTIANA AFFINIS.

(Ornamental Flowering Tobacco.)

An annual with sweet-scented pure white, star-shaped flowers, 3 inches across, blooming continually; height, 2 to 3 feet..Pkt. 5c

NIGELLA.

Or "Love in a Mist."

Damascena—Double mixed. Pretty annuals, known as "Love in a Mist," "Devil in a Bush," etc.; foliage feathery, in which large, double, charming blue or white flowers are set; 1 to 2 feet high.....Pkt. 5c

OXALIS.

Pretty little half-trailing annuals, for hanging baskets and vases; flowering in profusion.

Mixed Colors—.....Pkt. 10c

NASTURTIIUMS.

TOM THUMB VARIETIES.

The improved Dwarf or Tom Thumb Nasturtiums are unrivaled in beauty and effect. When planted in poor soil they flower most profusely and remain long in bloom.

Mixed—Many sorts

.....Pkt. 5c and 10c; 1 oz. 15c

Golden King—Grand flowers; 3 inches across; deep golden-yellow and maroon blotchesPkt. 5c

Aurora—Salmon, rose (mottled bluish white), garnet blotches.....Pkt. 5c

Gem—Sulphur, spotted maroon...Pkt. 5c

Pearl—WhitePkt. 5c

Beauty—Striped yellow and red..Pkt. 5c

Prince Henry—Creamy white, spotted and tipped dark scarlet.....Pkt. 5c

King Theodore—Dark scarlet maroon; dark foliage.....Pkt. 5c

Empress of India—Brilliant crimson, dark foliage; very effective.....Pkt. 5c

Chameleon—Peculiarly marked with crimson, bronze and golden-yellow.....Pkt. 5c

A Special Mixture of the above eight named sorts.....Pkt. 10c; 1 oz. 25c

TALL OR CLIMBING NASTURTIIUMS.

Beautiful and luxuriant annual climbers, for trellises and arbors; of easiest culture, bearing their gorgeous flowers in profusion until killed by frost; 6 to 10 feet.

Mixed—Contains many beautiful sorts..

.....Pkt. 5c and 10c; 1 oz. 15c

Tall Rose—A fine shade.....Pkt. 5c

King Theodore—Velvety dark crimson, dark foliage.....Pkt. 5c

Yellow, Spotted Crimson.....Pkt. 5c

Lemon-YellowPkt. 5c

Pearl—Creamy white.....Pkt. 5c

Purple—Rich shade of purple violet....

.....Pkt. 5c

Straw—Striped scarlet.....Pkt. 5c

Vesuvius—Brilliant, fiery rose....Pkt. 5c

Scarlet—Glowing vermilion.....Pkt. 5c

Chocolate—Unique color.....Pkt. 5c

Special Mixture of the above ten sorts, Tall Nasturtiums, all first-class.....

.....Pkt. 10c; 1 oz. 25c

The Denver Seed and Floral Co.

**DENVER,
COLO.**

Pansies.

PANSIES

**GIANT FLOWERS, UNIQUE COLORS,
SPLENDID VARIETY.**

Pansies require good, rich soil, and plenty of moisture. They do best here on the east side of the house or any partially shaded place. Remove all seed pods and dry blossoms, and a succession of lovely blooms can be had from spring until late in the fall. Seed can be sown early in the house in shallow boxes or in open ground as soon as it can be worked, and transplanted again when large enough to handle.

Our Superb Mixture—These magnificent Pansies, for gorgeous colors and markings, are the finest giant flowering varieties in cultivation. They include the French and German Show Pansies, the Royal Prize Pansies, the Butterfly and Improved Giant Trimardeau, the rich-stained Bugnot or Highland Pansies, an assortment sure to please, and the very best mixture we have to offer. Liberal pkt. 20c; half-size Pkt. 10c; large pkt. of about 500 seeds, 40c.

German Finest Mixed—A splendid mixture for bedding purposes, including many of the best colors in proper proportions; thrifty, free-blooming varieties.....Pkt. 10c

VARIOUS NAMED PANSIES.

- King of the Blacks.....Pkt. 10c
- Snow Queen—Pure white.....Pkt. 10c
- Rex—Solid deep purple.....Pkt. 10c
- Bronze—Golden bronze.....Pkt. 10c
- Pure Yellow.....Pkt. 10c
- Blood Red—Velvety.....Pkt. 10c
- Cardinal—A rich brown scarlet, the brightest red Pansy grown; the three lower petals are marbled with a large dark blotch....
.....Pkt. 10c
- Lord Beaconsfield—Deep purple violet, shading off to a white hue; prettiest blue on

the list; the seed we offer of this is the improved and more expensive stock. What is prettier than an entire bed of this lovely variety? Try itPkt. 10c

GIANT TRIMARDEAU PANSIES.

These are remarkably large Pansies, which, for size of flowers and robust growth, eclipse by all odds any known strain.

Mixed Colors.....Pkt. 15c

PETUNIAS.

Few, if any, plants are more deservedly popular than these for bedding purposes, greenhouse or window culture, producing showy flowers in profusion. Although perennial, they flower in a few weeks from the seed.

SINGLE VARIETIES.

- Fine Mixed—Many beautiful colors and combinationsPkt. 5c
- Striped and Blotched—In splendid mixturePkt. 10c

Large Single Hybrid—Fringed. Flowers average four to five inches across, of innumerable shades, colors and markings, all beautifully fringedPkt. 25c

Fancy Fringed Double Petunias—Revelation of beauty of form and color. They embrace a wide range of colors and combinations, including delicate mauve, porcelain blue, white, garnet and velvet shades. The delicate blue and white flowers are particularly noteworthyPkt. 25c

PHLOX DRUMMONDI.

There can be no stronger proof of the value and beauty of Phlox than the extent to which it is grown. For beds and massing nothing can surpass these beautiful annuals. They produce immense trusses of large, brilliant flowers of numberless hues throughout the summer; 1½ feet high.

Phlox D.—Good mixture.....Pkt. 5c

Good Mixture—For a low price, this is good value, as it contains many beautiful colors and some of the fancy show varieties, and just as free blooming as any....Pkt. 5c

LARGE FLOWERING PHLOX.

An improved strain with extra large, perfectly round flowers, with petals overlapping each other.

Brilliant Scarlet—.....Pkt. 10c

Pure White—.....Pkt. 10c

Crimson with White Eye—.....Pkt. 10c

Large Flowering—Mixed colors..Pkt. 10c

Pure White—.....Pkt. 10c

Rosy Salmon—Rosy carmine eye.Pkt. 10c

Brilliant Scarlet—.....Pkt. 10c

Dwarf—Mixed colors.....Pkt. 10c

Improved Star Phlox—Pure stock and much improved in size; choice colors, mixedPkt. 5c

HARDY PERENNIAL PHLOX.

Magnificent, hardy, flowering plants, growing into strong bushes from two to three feet high, bearing immense heads of large, waxy flowers of lovely shades of color.

POPPIES

Large Flowering Hybrids—Mixed.Pkt. 15c

It may be safely said that no other flower produces a more brilliant display of colors and abundance of blooms than the improved

Tulip Poppies.

Poppies we now offer. New developments are annually taking place, both among the annuals and perennials. Seed should be sown early, where they are to stand, as they are not easily transplanted.

SINGLE ANNUAL POPPIES.

Mixed Single—Many beautiful and showy colorsPkt. 5c; 1 oz. 25c

English Scarlet—The common field Poppy of BritainPkt. 5c

Fire Dragon—Flowers four inches across, of brilliant scarlet, with black spots margined whitePkt. 5c

Armenian Tulip Poppies—(Glaucum.) Plants 12 to 14 inches high, each producing fifty to sixty vivid scarlet flowers. The two outer petals form a saucer, surrounding two erect petals, giving a very unique and handsome appearance of scarlet tulips..Pkt. 10c

New Giant Yellow Tulip Poppy—This new variety is one of the most showy and satisfactory. The plants, by the middle of July, are covered with their large buttercup, yellow, Poppy-like blossoms, and continue to bloom until frost; height, two feet; quite bushy, with beautiful feathery glaucous foliagePkt. 10c

Shirley—Single and semi-double. The colors range from purest white through pinks of all shades to glowing scarlet without black; some are red with white edges, and others veined and streaked and flaked from the center out in the most charming confusion. In mixed colors.Pkt. 5c; large pkt. 25c

DOUBLE ANNUAL POPPIES.

Peony Flowered—A magnificent class; immense double flowers, in form resembling Peonies; pure white.....Pkt. 5c

Chamois Rose—.....Pkt. 5c

Mixed, Many Colors—.....Pkt. 5c

Double French Ranunculus Flowered Poppies—Mixed colors. Exceedingly beautiful double flowers, about two inches across, of every imaginable shade, color and variegation; very profuse and continuous blooming; height, two feet....Pkt. 5c; large pkt. 25c

Double Carnation Flowered—A magnificent class of large globular flowers, often a foot in circumference; of the greatest variety of colors. The petals are finely slashed and fringed. Plants 2½ feet high. Mixed colorsPkt. 5c

Golden Gate Poppies—Recall to mind every color you have seen in Poppies, then imagine every conceivable combination of colors—striped, blotched, edged and bordered, on both single, semi-double and double flowers and you will have but a faint idea of the wondrously varied beauty of the new Golden Gate Poppies.....Pkt. 10c

HARDY PERENNIAL POPPIES.

New Oriental Hybrids—Containing charming new colors—pink, blotched purple, blood red, blotched black, glowing scarlet, reddish orange, salmon, etc.; hardy perennials. Mixed colorsPkt. 10c

Oriental Scarlet—.....Pkt. 10c

Iceland Poppies—Although hardy perennials, these Poppies bloom the first season from spring-sown seed. The fragrant, elegant, satin-like flowers are produced from the beginning of June to October. The flowers last quite a week if cut as soon as open. Mixed, many colors.....Pkt. 10c

For a Large Poppy Bed—A general mixture is here offered of all varieties here listed suitable to plant together; enough for a bed 10 feet by 100 feet.....50c

DO NOT SEND EAST FOR SEEDS.

Our stock is more complete and larger than ever of High-Grade Flower and Vegetable Seeds, Bulbs, Roots and Garden Supplies. Can save you money.

PORTULACA.

In brilliancy and beauty of color Portulacas are unrivaled. They delight in sunny situations, where they rapidly carpet the ground.

Finest Single—Mixed. In great variety; large flowers of most brilliant colors.....Pkt. 5c; 1 oz. 40c

Double Mixed—Unsurpassed for brilliancy and beauty. From first-class seed over one-half of the plants will produce magnificent double flowers; these can be transplanted eight inches apart as soon as they bloom, thus making the entire bed of double flowers.....Pkt. 10c; ¼ oz. 75c

PYRETHRUM.

Hardy Pyrethrum—Height 2 feet. A valuable perennial plant, producing the most beautiful Daisy-like flowers on long stems, of bright colors, such as rose, flesh-pink, white, crimson, etc., the cut blooms lasting nearly a week.

Single Large Flowering—Mixed..Pkt. 10c

Pyrethrum Aureum—(Golden Feather.) Yellow foliage plant used for edging.Pkt. 5c

HARDY PRIMROSES.

These are among the best of the early spring blossoming plants. With a slight protection they will stand the winter, but do better if protected by a cold frame.

Japonica—(Japanese Primrose). Bright and showy flowers, borne in whorls on stems 6 to 9 inches long; mixed colors.....Pkt. 10c

Vulgaris—The common yellow English Primrose; flowers fragrant and of a light canary-yellow color.....Pkt. 10c

SCABIOSA, OR MOURNING BRIDE.

The "Mourning Bride" of our old gardens, but much improved in size, color and doubleness; colors white, carmine, lilac, maroon, etc.; excellent for bouquets.

Dwarf—MixedPkt. 5c

Tall Mixed—Height 2 feet.....Pkt. 5c

SALPIGLOSSIS.

Salpiglossis—Large Flowering Mixed.....Pkt. 5c

Salpiglossis—Emperor.

NEW SALPIGLOSSIS EMPEROR.

This new variety forms only one leading stem and bears on its summit a veritable bouquet of the most beautiful flowers, each one richly veined with gold and much larger than the finest of the grandiflora type. (See cut)Pkt. 10c

SWEET WILLIAM.

As now improved they make matchless border plants with heads of bloom of great size and wonderful beauty; should be in every garden. Height 1½ feet.

Perfection—Single, mixed.....Pkt. 5c

Perfection—Double, mixed.....Pkt. 10c

STOCKS, OR GILLIFLOWERS.**Large Flowering Ten Weeks' Stock.**

This magnificent strain is without a rival for open ground planting, attaining a height of 2½ feet. The spikes of bloom are very long and the individual flowers are enormous in size and very double.

Rosy Morn—Delicate rosy flesh...Pkt. 10c

Mount Blanc—Purest white.....Pkt. 10c

Grand Rouge—Brilliant crimson..Pkt. 10c

Blue Bells—Pretty shade of blue..Pkt. 10c

Princess May—Large double flowers of the most excellent shape and of the most ex-

quisite yellow, extremely early flowering, in fact the first Ten Weeks' Stock to bloom.

.....Pkt. 10c

Cut and Come Again—About 2 feet high. It produces from spring to late fall pure white beautifully shaped double flowers. It throws out numbers of side blossoms, each of which bears a cluster of blossoms, and the oftener they are cut the better they seem to like it.....Pkt. 10c

Colossal Stocks—Mixed colors....Pkt. 10c

RICINUS—CASTOR OIL PLANT.

Large, luxuriant, rapid-growing foliage; annual, with palm-like leaves, much used for sub-tropical effect on the lawn or for center of beds. Ricinus can also be grown successfully in pots, and in this way are very desirable for porch or for house plant in the winter.

Ricinus—(Gibsoni Coccineas.) Height 6 feet. Stalks and leaves of a bright, metallic bronze color; fruit crimson. Finest mixed varietiesPkt. 5c

Zanzibarensis—Have gigantic leaves, and the great size of the plants surpass any other variety. Four varieties in mixture..

.....Pkt. 5c

SUNFLOWER.

(Helianthus.)

Stately growing annuals, with immense golden-yellow flowers; effective for garden decoration.

H. Californicus—Extra large and very double. Height 6 feet. The most desirable of all annual sunflowers.....Pkt. 5c

Globosus Fistulosus—Height 6 feet. Flowers immense, from 12 to 15 inches in diameter; globular and extremely double.....

.....Pkt. 5c; 1 oz. 15c

Mammoth Russian—The giant among Sunflowers; immense single heads, full of seeds.

.....Pkt. 5c

SWEET PEAS FOR 1905

Headquarters for California Grown
Seed. No Better Collection to be had.

The most popular named sorts — new varieties and splendid mixtures.

Our stock was grown under contract by a special grower of
Sweet Pea seed in California, where the best is now
obtained for the trade the country over.

SPECIAL NOTICE Only the cream of the Sweet Peas are offered in the following list. There are too many varieties on the market—several hundred—many of them are duplicates under different names, and many not desirable. By careful study and comparison we have selected only the handsomest, largest flowering and freest blooming of the different shades of pink, red, lavender, etc.; also the variegated and striped combinations and have culled out until we have a collection to offer that will surely please anyone. Will say to those who have been accustomed to sending away for their seeds we are prepared to supply you as well and save you money.

HOW TO PLANT.

First dig a trench about 16 inches deep, 12 inches wide, fill in 6 inches with old, fine manure, then 6 inches good soil; plant the seed about 1 oz. to 8 feet, and cover 3 inches.

Our Evergreen L. and Garden Fertilizer can be used in place of old fine manure. Mix it thoroughly with the soil. See Fertilizers.

All 5c pkts. 50c per dozen; 6 for 25c.

All 10c pkts. \$1 per dozen; 3 for 25c.

WHITE VARIETIES.

Blanche Burpee—Eckford's Giant White. The flowers are pure white, mostly four on a stem, of extra large size and good substance.....Pkt. 5c; 1 oz. 10c

The Bride—Large, white; one of the best. Black seeds.....Pkt. 5c; 1 oz. 10c

Emily Henderson—White; early; splendid sort.....Pkt. 5c; 1 oz. 10c

The seed of White Sweet Peas, except The Bride, seem to be more delicate than other varieties and does not always come up well, especially if planted very early; would advise planting thicker.

PINK AND WHITE VARIETIES.

Blanche Ferry—Rose, pink, standards; white wings tinged with pink.Pkt. 5c; 1 oz. 10c

Extra Early Blanche Ferry—Same as above, except about two weeks earlier, and vines not quite so tall.Pkt. 5c; 1 oz. 10c

Earliest of All—New; pink and white; same as Extra Early Blanche Ferry, but the earliest to bloom of any Sweet Pea on the market..... Pkt. 5c; 1 oz. 10c

PINK VARIETIES.

Blushing Beauty—Very fine, delicate flesh pink, hooded form..... Pkt. 5c; 1 oz. 10c

Lovely—Soft shell pink; truly most "lovely".....Pkt. 5c; 1 oz. 10c

Katherine Tracy—Color, a soft shade of pink, precisely the same shade in wings and standards; perfect in form, exquisitely beautiful in color..... Pkt. 5c; 1 oz. 10c

Prima Donna—A beautiful shade of soft pink.....Pkt. 5c; 1 oz. 10c

Royal Rose—Deep rosy pink..... Pkt. 5c; 1 oz. 10c

Prince of Wales—Bright rose pink, large and superior in every way.Pkt. 5c; 1 oz. 10c

Venus—Light salmon, suffused with buff, distinct and charming shade..... Pkt. 5c; 1 oz. 10c

Lady Penzance—The standard is a beautiful laced pink, touching orange, while the wings are a darker and purer pink. Truly a superb flower, of large size, exquisite color, very striking and distinct. .Pkt. 5c; 1 oz. 10c

Lady Mary Curry—Bright orange-pink, very bright and showy, and the best of this shade.....Pkt. 5c; 1 oz. 10c

STRIPED AND VARIEGATED PINK VARIETIES.

Gray Friar—This is decidedly gray in color, unlike any other Sweet Pea in cultivation. The flowers are very large and of fine hooded form, while the light gray color makes a most distinct and pretty effect, both on the vines and as cut flowers.... Pkt. 5c; 1 oz. 10c

Mrs. Jos. Chamberlain—One of the largest and handsomest of the striped varieties;

white ground, heavily striped and flaked with bright rose.....Pkt. 5c; 1 oz. 10c

Aurora—Gigantic expanded shell-formed flowers; striped orange rose on white....
.....Pkt. 5c; 1 oz. 10c

America—Bright cardinal and white stripePkt. 5c; 1 oz. 10c

BLUE AND LAVENDER VARIETIES.

Captain of the Blues—Of large, expanded form; standard purple-mauve; wings lighter, shading to pale blue; not so dull as some others; a pretty blue and a noble flower..
.....Pkt. 5c; 1 oz. 10c

Navy Blue—New and distinct; largest size; deep violet blue; the only sweet pea that is of a true blue color.....
.....Pkt. 5c; 1 oz. 10c

Countess of Radnor—Large flowers of pure light lavender.....Pkt. 5c; 1 oz. 10c

New Countess—An improved Countess of Radnor, in which is eliminated the reddish cast in standard, the flowers being a clear light lavender. The shade is very attractive when seen in a large bouquet composed solely of this variety.

Emily Eckford—Rosy purple standard and bluish purple wings, changing to almost blue when open a day; quite distinct and very pretty.....Pkt. 5c; 1 oz. 10c

Dorothy Tennant—Very large, round, shell-formed flower of rosy heliotrope, deepening as the flowers age..Pkt. 5c; 1 oz. 10c

Countess Cadogan—The large flowers, when first opening, resemble those of Captain of the Blues, but soon change to a light bluish purple in standard and clear blue in wings. The color effect is that of a bright blue; very attractive in shade and of finest form
.....Pkt. 5c; 1 oz. 10c; ¼ lb. 25c; 1 lb. 75c

MAROON.

Stanley—A magnificent large flower; standard rich mahogany brown; wings garnet maroon.....Pkt. 5c; 1 oz. 10c

Black Knight—Very deep maroon; somewhat deeper than Stanley—Pkt. 5c; 1 oz. 10c

Shahzada—Noticeable for its size, form and abundance of blooms; color, rich, dark maroon, with a shade of purple.....
.....Pkt. 5c; 1 oz. 10c

Othello—Deep, glossy maroon, a color not before attained; it is of first-class form, of splendid size and substance; a very free bloomer.....Pkt. 5c; 1 oz. 10c

RED VARIETIES.

Firefly—An intense glowing crimson scarlet; large flower; a profuse bloomer....
.....Pkt. 5c; 1 oz. 10c

Mars—Bright, fiery crimson, deepening with age; a large, expanded flower.....
.....Pkt. 5c; 1 oz. 10c

Salopian—Pure cardinal; the best type of this shade; is a shade deeper than Mars or Firefly, which commends it in addition to its fine form.....Pkt. 5c; 1 oz. 10c

Cardinal—The deepest crimson.....
.....Pkt. 5c; 1 oz. 10c

YELLOW VARIETIES.

Mrs. Eckford—A large flower of charming primrose yellow.....Pkt. 5c; 1 oz. 10c

Primrose—Pale primrose yellow, novel and distinct.....Pkt. 5c; 1 oz. 10c

Stella Morse—Primrose yellow, tinged with bluish pink, well formed, graceful flowers; has become very popular.....
.....Pkt. 5c; 1 oz. 10c

SWEET PEAS IN MIXTURE.

Good Mixed—A great variety of colors, free flowering and good value.....
.....1 oz. 10c; ½ lb. 25c; 1 lb. 40c

Choice Large Flowering—Mixed; contains many named sorts and hybrids; large flowering varieties.....
.....Pkt. 5c; 1 oz. 10c; ½ lb. 30c; 1 lb. 50c

Mixed New Giant Hybrids—This is a first-class mixture of large flowering sorts, prepared from a well-studied and carefully arranged formula, and contains many new and very best varieties grown.....
.....Pkt. 5c; 1 oz. 10c; ½ lb. 35c; 1 lb. 60c

OUR SPECIAL MIXTURE.

No better mixture than this is offered by any seed house. It is made up in proper proportions to best please from the following thirteen varieties which are the cream of all the above-named sorts. You get the best from the entire list and know the varieties you are to have, thus making a very select mixture sure to please. Remember that thirteen best varieties in mixture is far superior to fifty or seventy-five, as in the latter you are sure to get many inferior colors not desirable; besides, if you wish to select large bunches of flowers of one shade, you can better do so from our Special Mixture of the following thirteen varieties only:

Blanche Burpee—Eckford's Giant, white.

Blanche Ferry—Best pink and white.

Earliest of All—New pink and white.

Mars—Fiery crimson.

Gray Friar—Decidedly gray; fine.

Navy Blue—Largest size, deep violet blue.

Countess of Radnor—Pure light lavender.

- Black Knight—Very deep maroon.
- Salopian—Pure cardinal; fine.
- Lady Mary Curry—Bright orange pink.
- Prince of Wales—Bright rose pink.
- Kahterine Tracy—Light or shell-pink.

Stella Morse—Charming primrose yellow.
 Pkts. 5c and 10c; 1 oz. 15c; 2 oz. 20c; ¼
 lb. 35c; ½ lb. 60c.....1 lb. \$1.00

Do not be deceived by special offers of sweet peas by some seedsmen. Packet containing 10 seeds, 12 seeds, 24 seeds.

Our Special Mixture here offered is much better than many collections, as you get in a 5c packet about seventy-five seeds from thirteen best varieties in the entire list of named sorts. Ten-cent packages contain about 200 seeds; 15-cent packages about 400 seeds.

DOUBLE SWEET PEAS.

- Double White—Very clear white.....
Pkt. 5c; 1 oz. 10c
- Double Boreatton—A deep maroon.....
Pkt. 5c; 1 oz. 10c
- Double Mixed—One-half dozen varieties.
Pkt. 5c; 1 oz. 10c

CUPID SWEET PEAS.

- New Dwarf—White; height 6 inches; a novelty; fine for edgings, low beds and for pot culture.....Pkt. 5c; 1 oz. 15c
- Pink Cupid—.....Pkt. 5c; 1 oz. 15c

PERENNIAL PEAS.

(Lathyrus Latifoleus.)

- Hardy climber, growing 6 to 8 ft.; of easy culture.
- Crimson—.....Pkt. 5c; 1 oz. 20c
- Pink Beauty—.....Pkt. 5c; 1 oz. 20c

VERBENAS

New Mammoth Verbenas—Largest and best of all. For garden beds or massing the Verbena is unrivaled. Flowers are of the most brilliant colors, blooming continually from spring until late in the autumn.

- New Mammoth Verbena—In splendid mixturePkt. 10c
- Pure White.....Pkt. 10c
- Bright Scarlet.....Pkt. 10c
- BluePkt. 10c
- StripedPkt. 10c
- Fine Mixed—A very good strain...Pkt 5c

New Mammoth Verbena.

WILD CUCUMBER

Very rapid climber; grows in any soil; 20 to 30 feet high; desirable for covering porches, arbors, etc.....Pkt. 5c; 1 oz. 25c

Wild cucumber seeds, if planted after the hard frosts have passed, should first be cut out at the germ end to the white and soaked 24 hours, then they will germinate quickly.

ZINNIAS

LARGE FLOWERING DWARF DOUBLE ZINNIAS.

For gorgeous summer and autumn display there is nothing that can equal in effectiveness the improved dwarf, compact-growing, large-flowering Zinnias; growing only 2 feet high and bearing flowers of immense size, perfectly double, showing no center, and as perfect in form as Dahlias.

- Double White.....Pkt. 5c
- Double Orange.....Pkt. 5c
- Double Scarlet.....Pkt. 5c
- Double Canary.....Pkt. 5c
- Jacqueminot—Rich, deep, velvety crimson, exactly the shade of the famous “Jack” RosePkt. 10c
- Dwarf Double Mixed.....Pkt. 5c
- Zebra Zinnias—Mixed colors.....Pkt. 10c

PALMS AND FERNS

Latania—Broad leaf palm, or Chinese Fan Palm; very popular variety; prices, most popular sizes, each.....\$1.00, \$1.50, \$3.00

Kentia—Is one of the hardiest of “Palms”

Kentia.

and most desirable as a house plant; leaves narrow; price on most popular sizes, each\$1.00, \$1.50, \$3.00

Cocus—A beautiful feathery-leaved little palm; just the thing for the dining table; each.....75c to \$1.50

Boston Fern—(*Nephrolepis Bostoniensis*.) One of the most useful and ornamental of the “Sword Ferns.” It is now grown by the thousand for the market in all the large cities, and is steadily increasing in popularity. In well-grown specimens the fronds attain a length of six or seven feet, like plumes arching over in every direction, in a most graceful manner. This beautiful fern is excellent for outside planting in shady borders. It is a very fine plant for hanging pots or baskets on the piazza in summer and conservatory or window in winter; price25c to \$5.00

NEPHROLEPIS PIERSONI, THE OSTRICH PLUME FERN.

This beautiful Fern was introduced two years ago, and was then considered the most important addition to the Fern family in many years. The plant possesses the same vigorous growth that is characteristic of the of the Boston Fern, with long graceful fronds, but with each pinnae or leaflet subdivided so as to form a perfect miniature frond. Any description conveys but a slight idea of their grace and plume-like beauty. The fronds grow broad and heavy, and measure, when fully developed, at least 6 inches across, increasing in beauty as they develop. In 6-inch pots.....75c each

Novelties and Dahlias of Special Merit

(Varieties here offered for the first time are indicated by date.)

A. F. Bishop. 1905—A new decorative Dahlia, which combines many excellent qualities, chief among which is its unique color—a rich, clear lilac—a color hitherto unknown in this type. The plant is of robust, dwarf habit, and produces a wealth of large, finely formed flowers.....3 feet.
Strong tubers, 50c each; \$5.00 per doz.

Badenia—In this grand Dahlia we have the first really variegated Dahlia in the Cactus section. Color a clear bright orange, striped and flecked with bright red. Petals are very long, and curved towards the center. Flowers are large, and the plant an erect, robust grower. A glance at the illustration will show the form to be a model of perfection.....4 feet.
Strong tubers, 20c each; \$2.00 per doz.

Cora Gilbert—A new show Dahlia. In form a perfect model, rounded and full, with a high center, petals beautifully quilled. Color, creamy pink, beautifully shaded. Stems very long.....4 feet.
Strong tubers, 35c each; \$3.50 per doz.

Countess of Lonsdale—The freest-flowering Cactus Dahlia in the collection, and perfect in form. Color, an exquisite shade of rich salmon, with just a suspicion of apricot at the base of the petals. Towards the tips the color deepens gradually to the softest carmine pink;.....3 feet.
Strong tubers, 20c each; \$2.00 per doz.

Grand Duke Alexis—A magnificent Dahlia of the largest size. Its petals are beautifully quilled, giving it a very unique appearance. Its color is pure white, if slightly shaded, but overspread with delicate lavender when grown in bright sunlight. Undoubtedly one of the best of the show varieties.....4 feet.
Strong tubers, 20c each; \$2.00 per doz.

Exquisite—Pure orange-scarlet. A superb form with long pointed petals. Produces a mass of flowers which are held well above the foliage3 feet.
Strong tubers, 20c each; \$2.00 per doz.

Estella. 1905—A charming new Cactus of the fancy type. Flowers medium size; stems very long and erect; petals broad, but well pointed. Color variable, ground varying from blush to dark pink, heavily streaked and marked with red, sometimes producing a half of the flower solid red4 feet.
Strong tubers, 50c each; \$5.00 per doz.

Gold of Ophir. 1905—Flowers extra large of the decorative form, and always full to the center. Rich old gold shading to amber center4 feet.
Strong tubers, 50c each; \$5.00 per doz.

Innovation—A fine Cactus with long wiry stems holding the flowers well away from the foliage. Petals are long and point forward. Base of petals bright red, shading white at the tip4 feet.
Strong tubers, 20c each; \$2.00 per doz.

Ingeborg Egeland—We feel secure in the statement that this Dahlia is easily the first of its color in the Cactus class. The plant is a strong grower with bright green foliage, presenting a picture of wonderful richness when combined with the large mass of deep scarlet blooms. Flowers are borne well above the foliage on strong, medium length stems. 3¼ feet.
Strong tubers, 50c each; \$5.00 per doz.

Kriemhilde—An exquisite delicate shell-pink, shading to white in the center; undoubtedly the finest and most perfect pink Cactus Dahlia to date, and as a cut flower likely to supersede all the other pink sorts.....4 feet.
Strong tubers, 25c each; \$2.50 per doz.

Mrs. Winters—This superb white Dahlia is now so generally and favorably known that an extensive description is unnecessary. We look upon this Dahlia as my best introduction; al-

Mrs. Winters (1-4 natural size).

ways reliable, always satisfactory; as a white it has neither superior or equal.....3 feet.
Strong tubers, 25c each; \$2.50 per doz.

Mrs. J. J. Crowe—Another superb Cactus; clear canary yellow, with long, finely cut petals; form very regular and stems long and erect4 feet.
Strong tubers, 25c each; \$2.50 per doz.

Mrs. M. Leslie—In some respects this one resembles Ingeborg Egeland, only the plant is of a more spreading habit and the flower a little more compact; flowers are large and of a deep glowing red. Truly a fine Cactus.....3 feet.
Strong roots, 25c each; \$2.50 per doz.

Opal Queen. 1905—A new decorative Dahlia. Strong, erect grower, with good stems. A color as difficult to describe as the opal itself. In a general way it may be said to be a light sulphur, overspread and shaded with a tinge of pink, but giving varying hues according to light. A pleasing color.....4 feet
Strong tubers, 25c each; \$2.75 per doz.

Progenitor—Bright carmine or crimson lake, the petals being furcated on the end like a stag-horn, forming several points, each division having a fluted termination.....3 feet.
Strong tubers, 20c each; \$2.00 per doz.

Standard Bearer—Not so new as others in this list, but nevertheless a most valuable one. Few among the Cactus varieties can show a

better form or a clearer, brighter scarlet. A general favorite4 feet.
Strong tubers, 20c each; \$2.00 per doz.

The Antlers. 1905—Plant dwarf and spreading. Color a rich purple maroon, with dark violet shading. Petals are long and tubular, curving forward in the form of a deer's antlers4 feet.
Strong tubers, 50c each; \$5.00 per doz.

Zephyr—A light, feathery form of unique coloring; rosy pink, shading to heliotrope. An early and profuse bloomer. One of the best;3 feet.
Strong tubers, 20c each; \$2.00 per doz.

New Single Dahlia. "Twentieth Century"—No single Dahlia ever created such a sensation or was received with such popular favor as this, and it is well worthy of the praise bestowed upon it. It is entirely distinct from all others, and ranks high, not only as a free-flowering plant for the garden, but as a cut flower, holding a place alongside the finest roses. Intense rosy-crimson tipped with white and having a white band around the disc. As the season advances they become lighter, until they are almost a pure white, suffused with a soft pink; not variegated, but blended in the most beautiful manner.....5 feet.
Strong tubers, 25c each; \$2.50 per doz.

SPECIAL OFFER.

One each of the foregoing twenty novelties postpaid for \$5.25.

Cactus and Decorative Varieties

Strong Tubers. Price, 15c each; \$1.50 per doz., postpaid.

Bon Maza. (Uncertainty)—An old Dahlia, but one of the best. White ground, streaked and marbled in a curious manner with bright red.....	4
Bon Ton—A fine ball-shaped flower of a deep garnet red; sometimes tipped and streaked with white. An extra fine Dahlia.....	4
Crimson King—Deep crimson. Very constant in color. An early and free bloomer.....	3
Canary Bird—Clear yellow, rounded and full.....	3
Earl of Radnor—Very large; rich purple maroon.....	5
Floral Park Jewel—Rich purple red, tipped and striped with white. Sometimes solid color. Very early and free.....	3
Gloria De Lyon—Pure white. The largest white Dahlia in cultivation; almost round as a ball.....	3
Gen. Custer—Deep purple maroon; long stems and a very free bloomer.....	4
Golden Treasure—A beautiful burnt orange color. Flower large, well formed and full to the center.....	3
Ignacio—A remarkably healthy, strong-growing plant, with long stems and large, full flowers. A deep, clear red.....	4
John Forbes—Fawn color, striped maroon. Very large and free, possessing all the properties of a first-class flower.....	3
Frank Smith—Rich, dark maroon. Generally tipped with pure white, shaded into pink. One of the best.....	5

	Ft. High, Approximate
John Lamont—Maroon shading to almost black; very fine.....	4
Kate Haslam—A beautiful, soft pink. Petals beautifully quilled.....	3
Kaiser Wilhelm—One of the grandest flowers in cultivation. Of immense size and perfect form. Deep yellow, tipped and shaded with cherry red.....	4
Lydia Dieter—A beautiful soft lavender shade.....	3
Lady Mildmay—A very beautiful flower. White ground shaded to pale lilac. Very large and full. A free bloomer.....	3
Miss Dodd—Purest yellow. Of exquisite form and color. A remarkably handsome flower.....	3
Mrs. Bryan—Light lavender, tinged pink.....	4
Mrs. Langtry—Light buff, tipped with crimson.....	3
Miss Ruth—Lemon yellow, tipped with pure white; sometimes clear yellow.....	3
Orine Emerson—A very handsome flower, borne on long stems. Color, rich, dazzling red, shaded light cherry red.....	3
Pearl—Of immense size, with long stem. Color, pale lavender, shaded to lilac.....	3
Pioneer—The nearest approach to a black Dahlia of any yet introduced. For combined excellence it has no superior.....	2½
Purple Gem—Rich royal purple, clear and constant. This variety is a decided improvement over the old varieties. A first-class flower.....	4
Penelope—White ground shading to pale lavender.....	3
Red Bird—Deep garnet red. Fine for cutting.....	3
Snow—A beautiful pure white, long stem. Excellent for cutting.....	4
Storm King—Purest white. Fine form. Early and free.....	3
Veridiflora—A natural curiosity. Its flowers are as green as the foliage, and are produced in profusion.....	2½

Pompon or Bouquet List

Price, 15c each; \$1.50 per doz., postpaid.

SPECIAL OFFER—One each of the 20 Pompons, including mail, \$2.25.

SECOND SPECIAL OFFER—For \$1.00 we will send a choice collection in 13 separate varieties, our choice from the foregoing lists, including red, scarlet, white, yellow, variegated, etc. All good varieties. Prepaid for \$1.00.

Tuberoses

Excelsior Pearl.

This is a special selection of the most dwarf-double and full-flowered spikes; first size bulbs, 5c each; 6 for 25c; 40c per doz., on dozen rates, if by mail, add 10c per doz.

Mam. Bulbs—These are very large, strong bulbs5c each; doz. 50c

Paeonies

Fine, hardy plants, rivaling the rose in perfection of bloom, color and fragrance. They are at home in any climate or soil, but thrive best in a deep, rich, well-drained loam. They make a gorgeous display planted in beds, on the lawn, or planted singly along a walk or herbaceous border. The paeony is perfectly hardy and generally able to care for itself, but it does not follow that they enjoy neglect. Give them ample room in which to grow, keeping them free from

weeds and grass and they will amply repay all the care given. A word to beginners. Don't be alarmed when you see your newly set paeonies begin to turn brown in July and appear to be quite dead by August. This is natural and they will be on hand again in the spring.

The following varieties embrace a wide range of color and will be found very satisfactory.

Prices, except where noted, 25c each; \$2.50 per doz.

Albiflora—A grand old Paeony; pure white; very large and fragrant.

Early Rose—An early pink variety; blooms right after the Old Red; the flowers are large and in clusters.

Duke of Wellington—Ivory white with creamy white center; very large.

Festiva Maxima—A rare variety of great beauty; exceedingly showy and of large size. Flowers perfectly double; pure, snowy white-tipped or flaked with small crimson spots at center; petals fine as summer silk; finest white in cultivation.

Humei—A pink Paeony; very full and double; very large and showy; one of the latest in bloom. It wants to be mulched heavily in order to bring its flowers into perfection.

Pottsi—Dark purple red; very long stem; medium quality.

Golden Centre—This is not a large Paeony, but is a very good one; pure white, pale yellow center.

Late Rose—Similar to Early Rose, only it blooms later in the season. It is a fine rose-scented flower.

Lady Lenora Bramwell—Very large and sweet; silver rose.

Officinalis Rubra (Old Red)—Flowers of a bright scarlet crimson, quite double and globular; very early, rare and fine.

Rosea Superba—Fine, full rosy pink; extra choice flower; very free bloomer.

EVERBLOOMING CANNAS.

A choice collection of the best large-flowering varieties. One of the grandest of plants, both in foliage and bloom, and they continue in bloom until frost. Price choice bulbs, 10c each; per doz. \$1, except where noted.

Alphonse Bouvier—Crimson.

Florence Vaughan—Orange dotted with red.

Madam Crozy—Vermilion gold bordered.

Paul Marquant—Salmon and orange.

Queen Charlotte—Crimson, scarlet or gold border.

J. D. Cobas—Apricot.

Egandale—Currant red.

Austria—Canary yellow.

Gladiolus

GLADIOLUS.

If wanted by mail, add 10c per dozen for postage.

Fine Mixture of Choice Colors
4 for 10c; 1 doz. 25c; 50 for 75c

Extra Fine Mixture—Select bulbs of choice colors, 3 for 10c; 1 doz. 35c; 50 for \$1
Lamoine's Hybrid, or Butterfly Gladiolus—mixed colors.....Each 5c; 1 doz. 50c

Red and Scarlet—Varieties mixed.....
1 doz. 40c
White and Light—Colors mixed 1 doz. 40c
Pink—Varieties mixed.....1 doz. 40c
Yellow—Varieties mixed.....1 doz. 50c

New Giant Gladiolus—Enormous flowers, with gorgeous colors and marvelous markings.....10c each; 3 for 25c; 75c per doz.

Hardy Vines and Climbers

CLEMATIS.

Jackmanii Superba—Deep violet purple; fine 2-year-old plants.....Each 75c

Henryii—A pure white; large flowers; fine 2-year-old plants.....Each 75c

Paniculata—One of the most beautiful of our hardy fall-blooming vines; flowers are pure white, very fragrant; borne in large clusters.

Strong 2-year-old plants, 40c each; 2 for 75c.

Virginia Creeper—Our common Woodbine. This is almost indispensable in Colorado, as it is one of the easiest to grow and perfectly hardy.... Strong roots, each, 15c, 25c and 35c

Cinnamon Vine—A rapid climber, suitable for porch or window; bulbs remain in ground permanently and the vine grows stronger each year. We can not recommend this too highly for this western climate, as it is not troubled with insects and worms

and holds its foliage fresh and green until killed by frost, and seems perfectly hardyStrong roots 10c; 3 for 25c

Monthly Fragrant Honeysuckle—Flowers bright red with yellow and buff markings at end of tube..... Strong plants 35c and 50c

Hall's Japan Honeysuckle—Pure white, flowers changing to yellow; very free blooming and fragrant—Strong plants 35c and 50c

Bignonia Radicans—(Trumpet Creeper.) Rich orange scarlet; an exceedingly handsome vine35c

ANNUAL CLIMBERS.

Madeira Vine—A rapid climber, suitable for porch or window; grown in shade or sun. Flowers small, white. The bulbs should be taken up in the fall and stored in the cellar1 bulb 5c; 6 for 25c

Cobaea Scandens—A beautiful climber for porch. This will also grow in a shady place; well started plant in pots..Each 15c and 25c

Hardy Perennial Roots and Plants

NEW HARDY PHLOX.

Most desirable hardy perennials, flowering abundantly from June until late in the autumn. The immense flower heads often measure from seven to nine inches across.

Any of the above clumps, 25c each; 5 for \$1.00.

Hollyhocks—Strong plants, all double, in red, white, pink, yellow and maroon
.....15c; 6 for 75c

New Double Rudbeckia "Golden Glow"—Of fine habit, vigorous growth, with early, continuous and immense blooming qualities; excellent, also, for cut-flower purposes; a large vase filled with these bright yellow flowers is a beautiful sight; height, six feet; and is perfectly hardy..Each 15c; 4 for 50c

Hardy Garden Pinks—Double flowers, assorted rich colors and possessed of the true clove scent; strong clumps....15c; 6 for 75c

Delphinium-Formosum — (Hardy Larkspur.) One of the handsomest and most popular; has long spikes of bright blue flowers.....Clumps, each, 25c

Hardy Pyrethrum—Single, large flowering; several shades of pink and red; daisy-like flower; very desirable. Clumps, each 25c.

Hardy Gaillardia—James Kelway. The most beautiful variety grown; immense flowers, often five and one-half inches across, of dazzling crimson scarlet, with narrow gold edge. It is a hardy perennial variety, flowering abundantly until frost. A grand garden plant; two feet high by two feet through...
.....Clumps, each, 25c

Lychnis—Large flower heads; bright scarletEach 20c

Hardy Coreopsis—A handsome perennial; the flowers are golden-yellow, which are freely borne from June till frost; they are fine for cutting Clumps, each, 25c

Gypsophila Paniculata, or Baby's Breath—Perennial; white; fine for cutting; most valuable for bouquet making, either green or dried; should be in every garden; small plants 10c

Canterbury Bells—Biennial. "Cup and Saucer." The bells, of beautiful colors, average 3 inches in length, and the saucers 3 to 4 inches across, resembling in shape somewhat a cup and saucer.....25c

Sweet William.....10c; 3 for 25c

Dielytra—(Bleeding Heart.) Strong root.Each 25c

Dielytra.

Hardy Flowering Shrubs

Spireas Anthony Waterer—A valuable and distinct variety; it outshines all other spireas in brilliancy of color, being of a bright crimson; it is of dwarf dense growth, 24 inches; blooms all summer and fall; strong plant.....Each 25c, 50c, \$1.00

Spirea Ballardia—Pink, each 25c, 50c, \$1.00

Spirea Van Houttii—(Bridal Wreath.) The grandest of all the white spireas; it is a beautiful ornament for the lawn at any season, but when in flower it is a complete fountain of white bloom, the foliage hardly showingEach 25c, 50c, \$1.00

Syringa—Common white, fragrant
.....Each 50c

Lilacs—Purple Persian
.....Each 25c, 50c, 75c, \$1.00

Lilac—WhiteEach 50c, 75c, \$1.00

Hydrangea Paniculata Grandiflora—One of the finest hardy shrubs in cultivation, the flowers, which are borne in dense pyra-

midal panicles in the greatest profusion, are white when they first open, but gradually change to rose color and remain in good condition for weeks; fine bush plant; height about 2 feetEach 50c

SnowballEach 25c, 50c, \$1.00

Flowering Almond —Double rose. Each 50c

Bush Honeysuckle—Tartarian, forms a high bush with rose colored flowers; blooms in June and JulyEach 50c

Wistarias—For training over buildings, piazzas, verandas, or trellises, the Wistaria is of superior excellence, and the decorative features—which their long, graceful, pendant blossoms afford—particularly pleasing and effective. The different varieties are entirely hardy, rapid growers and easy to cultivate. They may be trained to a shrub form of habit by attention to pruning, by cutting away the new growth for several seasonsEach 50c

CARNATIONS

We carry a complete stock of all standard Carnations.

Dorothy—Pink.

Flora Hill—White.

Norway—White.

Crane—Scarlet.

All 10c each; 3 for 25c; 75c per dozen;
\$5.00 per 100.

ROSES

A Select List of Most Popular Hardy Hybrid Perpetual Varieties. All Stock Shipped Under This Head is Two-Year-Old Stock and Will Bloom First Year.

General Jacqueminot—Too well known to require lengthy description. It still holds first place among the dark red Roses and is one of the most satisfactory to grow; a rich crimson scarlet, simply a mass of bloom when at its best. 35c and 50c

"American Beauty"—A hardy rose of the largest size, having the ever-blooming qualities of the Tea Rose, with the delicious odor of the Dañask Rose, consequently equally valuable for winter or summer flowering. In color it is a deep, brilliant rosy carmine, shaded toward the center with rich carmine-crimson 50c

Anna de Diesbach—Brilliant rose color, with long, pointed buds and large, perfectly formed blossoms; delightfully fragrant; a

vigorous grower and persistent bloomer; one of the best in this class. . . Each 35c, 50c

Baron de Bonstetten—Still the leading dark Rose; a splendid shade of dark red, changing to velvety maroon. It blooms very freely and makes a fine shaped bush Each 35c, 50c

Clio—The finest flesh-colored Hybrid Perpetual. The flowers are simply perfection in form, with fine, broad petals, and are beautiful at all stages of development, from the small bud to the full open flower; color delicate satin blush, with a light shading of rosy pink at the center; very free blooming and strong, healthy grower. . . . Each 35c, 50c

Mrs. J. H. Laing—A grand, free blooming Hybrid Perpetual, with fine flowers of soft, delicate pink, with satin cast. . . Each 35c, 50c

Magna Charta—A general favorite, prized on account of its strong, upright growth and bright healthy foliage, as well as for its magnificent bloom. The color is beautiful bright pink, suffused with carmine. Each 35c, 50c

Madame Plantier—The iron-clad white cemetery Rose. This is the old standby and is unequalled where a hardy white Rose is needed. It bears thousands of beautiful, snow-white, fragrant Roses. It is hardy as an oak Each 35c, 50c

Paul Neyron—The largest flowered in cultivation and one of the most prolific bloomers; color, deep clear rose, very fresh and attractive. The plant is an exceptionally good grower, making straight shoots 4 to 5 feet high in one season, each shoot tipped with an immense flower, often 5 inches in diameter. We always recommend Paul Neyron when a good, hardy pink or rose-colored Rose is desired Each 35c, 50c

HARDY CLIMBING ROSES.

Crimson Rambler—Without doubt the greatest acquisition of a lifetime. The sale of this Rose in all sizes for a single season reaches enormous numbers, yet the supply is scarcely equal to the demand. It is perfectly hardy; has never killed back in the slightest degree on our home place, where the mercury frequently registers twenty degrees below zero. Very vigorous in growth, often making shoots 10 to 12 feet long in one season, with canes one-half inch in diameter. May be grown in any position, pegged down to the ground in beds, trained to porch pillars, the side of a building or on trellises. Its flowers are glowing crimson, produced in large panicles, many of which

have measured as large as 9 inches long and 7 inches across, covering the plant from the ground to the tips

.....Strong two-year-old plants, 35c, 50c

Queen of the Prairies—Flowers are very

large and of peculiar globular form. A bright rosy red, changing to lighter as the flower opens; of very strong, rapid growth

Baltimore Belle—A distinct pure white, very beautiful and hardy.....Each 35c, 50c

HYBRID TEAS

All These at \$2.00 and \$3.00 per Dozen.

Kaiserin Augusta Victoria—This is one of the grandest of all Roses. It is a strong, vigorous grower, producing buds and flowers of enormous size; color pure white. We have no hesitancy in saying that this Rose is unequalled by any other variety of its color. It is a grand winter bloomer, and is largely forced for cut flowers. A grand garden Rose on account of its vigorous growth and hardiness

La France—No variety can surpass it in delicate coloring—silvery rose shades, with pink. It has a satin sheen over all its petals. It is universally regarded as the most useful of Roses, for it is hardy beyond question. It blooms continuously. Each 25c

Caroline Testout—Clear, bright Rose; large, double, beautiful and attractive..... Each 20c, 35c

Gruss an Teplitz, or Greeting of Teplitz—(Hybrid Tea.) As a bedding Rose this is one of the finest and most useful varieties ever sent out. Many of our customers who bought it the past spring are realizing its value and singing its praises. It will take rank with *Hermosa* or *Souper*. The color is brightest scarlet, shading to deep, rich, velvety crimson. It is very fragrant. The freest grower and most profuse bloomer of any ever-bloomer. The mass of color produced is wonderful, and the foliage is extremely beautiful, all the younger growth being a bronzy plum color. A queen among scarlet bedders. It is a perfect sheet of richest crimson scarlet all summer.....

Helen Gould, or Baldwin—(Hybrid Tea.) This is probably the most beautiful and satisfactory Rose for general planting ever introduced in America. It has proved itself to be the strongest-growing, freest-blooming, largest-flowering and hardiest Rose in existence. It is a better Rose for general planting than *American Beauty*—the dream and hope of every Rose grower for years past. The flowers are full and perfectly double, the buds beautifully made, long and pointed. The color is a warm, rosy crimson, like the color of a ripe red watermelon. It is as hardy as *La France*, and one of the best, if not the very best, Roses for winter blooming

Admiral Dewey—(Hybrid Tea.) In color this is among the most beautiful of pink Roses, a delicate daybreak blush, clear and distinct and very captivating; nothing weak or washy in color. It is a sport from *Madame Caroline Testout*, is more vigorous in habit and a very free bloomer. Like *Testout*, the flowers are very perfect in form, a little lacking in fullness when fully expanded, forces finely and is very fragrant; a fine cold weather Rose of enormous size

Burbank—A perfectly hardy, new, ever-blooming Rose. This lovely Rose was raised by Mr. Luther Burbank, of California, known the world over as the "Wizard of Horticulture." The color is described as cherry crimson—it is, in other words, the very deepest and brightest pink Rose in cultivation. It is peculiarly adapted for both outdoor planting or for blooming in pots in the house during the winter. It is a strong, vigorous grower, making well rounded bushy plants. The Burbank Rose is perfectly hardy, and will stand our most severe weather. The Burbank is, without doubt, the freest-flowering Rose in cultivation. It commences to bloom when only a few inches high, and blooms throughout the season until stopped by freezing weather. The flowers are double, three inches across. The whole flower is most pleasing in its rich beauty, and is delightfully fragrant. 20c and 35c

Perle des Jardins—Or the "Pearl of the Gardens." The one Tea Rose which you positively cannot do without. The color is faultless, whether the waxy petals show the rich cream tint of cool weather or take richer golden shades which a warmer sun gives them. The form of the bud is rich, round and luxuriant. It is only equaled in beauty by the open rose, which is full to center and large. Price, 20c each; extra large, 50c each.

Duchess of Albany—(Hybrid Tea.) A deep, sweet pink in color, not shaded, but what is called a solid color. Ladies prefer it on account of its beautiful color to any other Rose for personal adornment, as it shows up against either light or dark dress goods to a charming advantage 20c and 35c

Meteor—An excellent bedding Rose, with intensely rich, deep, velvety crimson flowers of perfect form, produced on long stems with handsome foliage. Each, 20c and 35c.

Souvenir du Pres. Carnot—A handsome Rose, with flowers of large size both in bud form and when fully expanded; in color a rosy-flesh, shading to white at the edges; of vigorous growth free-flowering, with fine foliage. Each, 20c and 35c.

New Hybrid Tea Rose Franz Deegen—A deep yellow Rose, which would flower continuously either under glass or all summer in the open ground; has been a desiderata for a long time, and we believe is fully covered by this seedling of Kaiserin Augusta Victoria, which is one of the best of all white Roses, and whose strong growth and free-flowering habit seem to have been fully perpetuated in this offspring, which in color is a rich yellow shading to a deep orange in the centre. Each, 20c and 35c.

Cut Flowers

Roses—In Roses we carry every known Rose that is fit for cutting. You need never be afraid of sending us an open order for a dozen or a thousand. We will take care of you and at the lowest possible price ruling at that date. Roses usually cost from \$1.00 to \$1.50 per dozen, with a shade higher for longer stems, and are also higher at Easter and Christmas, long-stemmed American Beauties sometimes selling at \$1.00 each.

Carnations—Here again we have everything the market affords. You have but to mention it. We've got it. Prices, according to season and quality, are from 50c to \$1.50 per dozen.

Design Work—In making funeral, wedding or decorative designs a great deal depends on the artist. In ordering simply say what you want and what you want to pay for it; for instance, a 12-inch wreath for \$3.00, a pillow 10x14 for \$5.00, etc. All we solicit is a trial. We know we can please you.

GERANIUMS

Price for plants in two and a half-inch pots, 10c each; \$1.00 a dozen; available to March 1. After that date, from three to four-inch pots, 20c each; \$2.00 per dozen. If desired by mail, postage must be added for the plants for two and a half-inch pots, 10c per dozen; three and four-inch pots, 15c per dozen.

Fleur Poitevine—Extra large single flowers; brilliant rosy carmine, marked and striped with pure white, center orange scarlet. Each 10c and 20c

S. A. Nutt—The best crimson bedding Geranium. This, the finest of dark crimson geraniums, has now taken the lead as a bedding variety, being used in the largest parks and public grounds of the country in preference to all others. Its dense, compact growth, profuse blooming qualities and sun-proof constitution combined gives it the prominence as a bedder it has attained. As a pot plant it cannot be excelled, as it does not make the long, straggly growth so many other Geraniums do in the winter. We sell many thousands of these for borders and large beds. 10c and 20c Each

Double Pink Geranium, Jean Viaud—Very large, slightly semi-double blooms, borne in large trusses well above the foliage; individual floret large; color, bright rosy pink with distinct white blotch in the center; habit dwarf, compact, very vigorous and exceptionally free blooming. Price 10c and 20c Each

Sam Sloan—Velvety crimson; immense trusses. The most popular Geranium on the Denver markets to-day. . . Each 20c; doz. \$2.00

Madame Salorii—A grand little variety, with leaves from one to two inches in diameter; center of leaves rich olive green, with broad margins of pure white; plant very dwarf, growing in dense round masses. Each 10c; doz. 75c

Marquis de Castelaine—A giant among Geraniums. Petals broad; a round flower of perfect shape. Color deep rose.

La Favorite—Trusses very large and one of the purest snowy white, even when grown in the open ground.

Riccard—Double—One of the best. A bright vermilion scarlet.

PELARGONIUMS.

Lady Washington Geraniums—The six varieties offered below are a choice selection of distinct colors of the most beautiful plants.

Champion—White delicately shaded blush. small carmine blotch on lower petals, upper feathered maroon and red.

Crimson King—An intense rich crimson.

Mme. Thibaut—White, richly blotched and marked with rose, the upper petals marked with crimson-maroon, with large white center.

Mrs. R. Sandiford—Pure glistening snow-white.

Prince George—Enormous trusses of finely-fringed white flowers, faintly suffused with blush, all the petals spotted with maroon.

W. C. Boyes—Of a pleasing shade of salmon; large, bold, beautifully crimped flowers.

All 25c each; \$2.50 per dozen.

**MYERS
FOUNTAIN
SPRAY
PUMP**

Holds 5 gallons

Weights 52 pounds
when full

All working parts
are Brass

FIG. 599

For spraying Potatoes, Trees and Vines with Paris Green, London Purple or any soluble mixture.

FIG 600

Fig. 599 represents The Myers Fountain Knapsack, which is constructed of first quality galvanized iron, with round corners, built precisely the same as our regular Myers Knapsack, with removable strainer and a tight lid which prevents liquid from splashing on operator. It is fitted with adjustable straps, so as to be carried on the back, or it can be carried by bail as shown by dotted lines.

It is tapped at both right and left hand lower corners, and fitted with brass female ends to which hose is attached, either one or two strings of which may be used at one time. When one hose only is used, the other opening is closed with a metal plug furnished for that purpose.

THE HOSE AND BULB are made of the best white rubber, and protected at each end by coiled wire to prevent breaking.

THE VALVES are made of brass and will not corrode; have large openings which permit the free flow of water and shut off instantly when under pressure.

THE NOZZLE is made of brass, nickel plated, has 50 small openings, and throws a spray 6 feet wide at a distance of 12 feet.

OPERATION.—The pump is operated by grasping the bulb in the hand and compressing it, which causes a spray to be thrown any distance from 3 to 15 feet, as desired; on relaxing the pressure on bulb it expands, re-filling instantly, when the same operation can be repeated. To shut off flow of water entirely, use valve on hose for that purpose.

The operator can cover one or two rows of plants or vines, as desired, and do the work at a rapid walk, thus going over a large amount of territory in a very short time.

We furnish this hose and fixtures to be attached to a barrel or tank placed on wagon. This is desirable when spraying large fields of cotton or potatoes.

CAUTION—Always mix Paris Green or London Purple in a separate vessel, forming into a paste before adding the water. In this way everything will be dissolved and will not need to be agitated.

FIG. 639

The Little Giant.

These spray pumps are constructed entirely of brass, a material that is not affected by the poisonous arsenites used in different formulas for spraying fruit trees, vines and shrubbery. They are so arranged that the labor of pumping is all done on the downward stroke of the piston, and nothing on the up. The effect of this operation while pumping is to hold the pump down. The foot-rest steadies the pump, holding it in proper position.

They are provided with a large air chamber, and have ball valves; the pressure is held uniformly in the air chamber and on the hose, so that the nozzle throws a continuous spray, and is not affected by the movement of the plunger. The operator is enabled to keep a constant pressure on the nozzle of from 50 to 100 lbs. with very ordinary exertion. Will throw a solid stream 50 feet, and are of unusual value for washing windows and buggies, extinguishing fires, sprinkling lawns, flowers, etc. For spraying are arranged so as to discharge a fine jet in the bottom of the bucket to keep the solution thoroughly mixed and agitated, a feature peculiar to these pumps only, and a very necessary feature to a spray pump. The pumps are also provided with a sprinkler for flowers.

PRICE, \$3.50

PRICE, \$3.50

The Faultless Sprayer

Made in Brass and Tin. Throws a Spray as Fine as Mist

Kills, Drives Away and Exterminates Every Living Thing Obnoxious to Yourself, Your Animals or Your Crops.

FIG. 70

Is Adapted for the Destroying of Every Kind of Insect.

One-half tablespoonful of Paris Green and once filling with water is sufficient to destroy all the bugs on 1,300 hills of potatoes.

The Faultless Sprayer is absolutely the best constructed sprayer of its class ever offered to the trade. For strength and durability it has no equal. The tapering point to air chamber gives great force to the spray, carrying it to the greatest possible distance.

This tapering tube also allows the air chamber to be fastened to the tank in the most substantial manner. The tube of air chamber is soldered to top of reservoir and also supported by a broad strap of metal passing over point of tube. The point of air chamber and small tube through, which the liquid passes are thoroughly protected from damage in use or shipping. Piston rod is spring steel wire and cup leather plunger. Price, 50c each.

Our Lightning Sprayer

All our Sprayers are now improved and are made with the slanting air chamber which enables the operator to spray upward, downward or sideways, by simply revolving the sprayer in the hand; this will be appreciated by the operator, as it is necessary to spray all over the plant as well as on the top. This improvement is covered by patents.

Our Lightning Sprayer is the only sprayer having a glass reservoir, detachable, encased so that the operator at all times can see the ingredients mixing and just how they are working. Also having a glass reservoir, which is made of the pattern of a Mason fruit-jar, and any such will fit this sprayer. Price, \$1.00 each.

Insecticides

Whale Oil Soap—Death to plant insects especially for Palms, Rubbers, etc.; it also cleans the foliage and prevents insects.
Pkts. 5c and 10c; 1 lb. 20c

Tobacco Dust—Dampen the plant and dust it on; destroys aphid or common plant lice, fleas, beetles, etc.; also splendid fertilizer and preventive for insects in the ground and around roots..Pkt. 10c; 1 lb. 15c; 2 lbs. 25c

Paris Green—Used dry or if liquid 1 lb. to 200 gallons of water.....
¼ lb. box 15c; 1 lb. 40c

London Purple—More soluble in water; use same proportion; one of the best insecticides for spraying trees, shrubs, rose bushes, etc...Put up in pkts. 10c, 15c and 20c

Fir Tree Oil—Destroys all plant insects without injuring the plant. Dilute 1 pint with 20 gallons of water.....
 Bottle 25c; 1 pt. can 75c; ½ pt. bottle 15c

Chloroleum is soluble in water in the proportion of 1 to 100, and in this solution is effectual for all general disinfecting and antiseptic purposes.

Chloroleum heals sores and wounds on both man and beast. It is invaluable for the treatment of chicken cholera, as an insecticide for the destruction of bedbugs, cockroaches and other pests, and for destroying all kinds of insects which infest flowers and trees.

FERTILIZERS.

Our Odorless Lawn and Garden Fertilizer, manufactured expressly for our trade under our own formula; scientifically constructed. We can vouch for its containing all the constituents required to produce a luxuriant growth in lawns, gardens, flower beds and plants in general. Splendid for new lawns or in renewing old lawns and for mixing with the soil for Sweet Peas. It is odorless and not disagreeable to handle. It is free from weed seeds, which is one of the greatest objections to manures. It gives very quick results and is lasting; can be applied at any time during the year from March to October.

For lawns apply 1 lb. to 25 square feet; for gardens and flower beds apply 1 lb. to 6 square feet; for mixing with potting soil use 1 lb. to 25 lbs. soil; for Sweet Peas mix in the trench about 1 lb. to 4 feet of row.

Price, 5 lbs. 25c; 10 lbs. 40c; 25 lbs. 75c; 50 lbs. \$1.25; 100 lbs.....\$2.00
 \$2.00 of this is equal as a fertilizer to \$3.00 worth of old fine manure.

Bone Fertilizer, or Blood and Bone, is excellent for lawns, shrubbery, vines, plants and all vegetable growth.

For the Lawn—Spread 1 lb. to 40 square feet, and water freely at once; this will wash the fertilizer into the roots of the grass.

Poultry Supplies

Pratt's Poultry Food—.....
26 oz. 25c; 5 lbs. 60c; 12-lb. bag \$1.25

Chick Mixture No. 2—Consists of all small seeds suitable to brooder chicks.

Stoneware Drinking Fountains—½ gal. 30c; 1 gal. 40c; 2 gal. 55c; in two parts, ½ gal. 25c.

Makes Flowers Flourish

Flowers are like people. Their health depends upon their food. It must be *nourishing*, but not too rich to force growth and cause reaction. The one chemically correct flower food for house plants is

Walker's Excelsior Brand.

It has no odor whatever, and can be used dry or dissolved in water for sprinkling. Use it and your flowers will flourish and their health will last.

Small size (feeds 25 plants 6 months), 25c.; large size (enough for a year), 50c. Sent prepaid anywhere. With each package we send FREE the book, "How to Make the Window Garden a Success."

FOR HOUSE PLANTS.

Imported and Domestic Birds

HARTZ MOUNTAIN CANARIES.

These we make a specialty of. They are considered the most satisfactory bird for the people. They are bred in Germany, high up among the Hartz Mountains, and are famous for their clear, beautiful, pure song. There is no comparison between these and the common American "screeching" canary,

whose choppy notes are at times almost ear-splitting. The music of the Hartz Mountain birds is a restful melody, and they endear themselves by their cheery song, bright plumage and active ways. Being raised in the mountainous region, they are more hardy than any other bird, perfectly happy in the cage, and considered the most satisfactory and best bird in the world.

Imported Hartz Mountain Canaries—
 Choicest male birds, each \$3.00. Second grade birds, each \$2.50. Choicest crested heads, or top knots, each \$3.50. Females for breeding, \$1.50.

Domestic Canaries—(When in stock)..
 Females \$1; males \$2 and \$2.50

ST. ANDREASBERG ROLLER CANARIES.

These birds are raised in the world-renowned town of St. Andreasberg, Germany, and are without doubt the finest songsters in the world. They are taken from the nest into the training room, where they listen continually for about six months to English larks, nightingales, musical instruments, etc., and as a consequence their tones are sweet, round and full, consisting of delightful bell notes, low water bubble, charming flute notes, and long, silvery trills and whistling. They are an ideal bird. Price, each \$6.

Red Bird or Cardinal—.....
 Male, \$3; female, \$1.50
European Goldfinch—..... Male, \$3.00
Java Sparrows—White...... Per pair, \$4

Australian Shell Paroquets, or Love Birds.
 Per pair, \$5

OTHER BIRDS.

At certain seasons of the year will have in stock such birds as there is a demand for. Please ask or write for prices.

Mail orders solicited.

PARROTS

MEXICAN DOUBLE YELLOW HEAD.

This is the most popular and most generally satisfactory of all species of parrots. If the teaching of these birds begin when they are young, they learn to talk quite readily and become very fluent. If you desire a really good parrot, purchase a young, hand-raised Double Yellow Head. They are the most satisfactory. Price, \$5 to \$50, according to season. From January to June these parrots are scarce and usually sell at somewhat higher prices. Ask for quotations.

MEXICAN RED HEAD PARROT.

This small parrot may well be called the pet of the parrot family. He is a very quiet, gentle bird, about the size of the Cuban, but is always tame and easily handled by any-

one, and there is much pleasure in training them. They are considered about equal to the Cuban parrots in talking ability and are not so noisy. Some of them become excellent whistlers and singers. They are by far the most satisfactory of all low-priced parrots. Color green, with a bright red spot on head. Price \$8 each. From January to June they usually sell at \$10 each, owing to their scarcity.

- Cuban Parrots—Usually...\$4.00 to \$10.00
- Panama Parrots—Usually..10.00 to 25.00
- Single Yellow Heads—Usually.....
-5.00 to 15.00
- Amazon Parrots—Usually.. 5.00 to 15.00

Bird Seed and Foods

Do not injure your bird's song by feeding the common low-grade mixed seed usually sold in stores—the cheapest quality obtainable, often old, hard and musty. The canary seed is apt to be the poorest grade of Dutch seed, instead of Sicily. The Rape is simply wild mustard. The seed here offered is put up fresh every few weeks; the cost is so little that it will pay you to feed only the best.

FOR THE CANARY.

Our Superior Mixed Bird Seed, for fine singing canaries. This seed in quality is the very best obtainable; fresh, plump, thoroughly cleaned and no waste.....

BEAUTIFUL SEA SHELLS.

Every one likes to have a few of those beautiful parlor ornaments to place on the mantel or brackets, and but few know where to obtain them. We carry a stock of very nice specimens, ranging in price from 5c to \$1.75 each. A beautiful collection of small shells.....Pint 75c; ½ pint 40c

GOLD FISH AND AQUARIA

A well-regulated aquarium adds an elegance to any place and is one of the most desirable ornaments for the parlor, library, sitting room or dining room. Children especially are always delighted with the gold fish and enjoy watching them day by day. They have been found of great interest in the school room and in the kindergarten.

GOLD FISH.

Prices, each, 15c, 25c and 35c.

Universal favorites; originally imported from China, but now bred extensively in the United States.

All Gold—Beautiful golden-red color.

Oriole Fish—Beautifully variegated, golden red and clear black; sometimes the black markings are very curious and attractive.

Pearl Fish—Clear, pearly white, or variegated white and red.

Silver Fish—An uncolored Gold Fish of dull, silvery color, but makes a nice contrast among gold fishes.

Gorgeous or Comet Fish—A greatly ad-

mired variety of the Gold Fish, with very long, graceful fins and tail; when the fish turns in the water the head and tail nearly meet.....Each 50c and 75c

Fantail Fish—These are very popular on account of their V-shape or fantails, which are long and graceful, sometimes as long as the body; the fins are also long. If you want fish which will be especially showy, buy a few of these.....Each 75c

Tadpoles—These are desirable as scavengers for the aquaria, as they consume the decaying matter and help to keep the water pureEach 10c

Snails—A few of these in the aquarium will help to keep the glass clean.....
.....5c; 3 for 10c

SUPPLIES.

Prepared Fish Food—A white wafer put up in boxes, which is the best and safest food for fish10c

Imported Natural Fish Food—In powder form; keeps fish in good health and color.
.....Per tin box, 10c

Directions how to care for Gold Fish free.

RAFFIA WORK

The use of Raffia is now taught in most Public Schools as well as Kindergartens, both public and private. The possibilities are great and the uses are now beyond the experimental age, the practicability being very remunerative, likewise a very pleasant vocation.

Hats, Baskets, Mats, Placques, Bags, Portieres, Screens, Hammocks, etc., being among the articles that are ingeniously constructed with this remarkably strong fibre, which comes in long strands.

“Raphia” is the name given it in Madagascar, where it is gathered from a long-leaved palm. The natural color is a creamy white, which is a permanent color. The Natural comes in hard twisted braids. We have contracts with importers whereby we secure No. 1 grade—it costs more and is well worth the difference. The Colored comes in tied skeins. At present we have twelve colors.

- | | |
|-------------------|-------------------|
| No. 1. Dark Red. | No. 7. Orange. |
| “ 2. Irish Green. | “ 8. Jet Black. |

GOLD FISH AND AQUARIA

A well-regulated aquarium adds an elegance to any place and is one of the most desirable ornaments for the parlor, library, sitting room or dining room. Children especially are always delighted with the gold fish and enjoy watching them day by day. They have been found of great interest in the school room and in the kindergarten.

GOLD FISH.

Prices, each, 20c, 25c and 35c.

Universal favorites; originally imported from China, but now bred extensively in the United States.

All Gold—Beautiful golden-red color.

Oriole Fish—Beautifully variegated, golden red and clear black; sometimes the black markings are very curious and attractive.

Pearl Fish—Clear, pearly white, or variegated white and red.

Silver Fish—An uncolored Gold Fish of dull, silvery color, but makes a nice contrast among gold fishes.

Gorgeous or Comet Fish—A greatly admired variety of the Gold Fish, with very long, graceful fins and tail. When the fish turns in the water the head and tail nearly meet. Each 50c

Fantail Fish—These are very popular on account of their V-shape or fantails, which are long and graceful, sometimes as long as the body; the fins are also long. If you want fish which will be specially showy, buy a few of these. Each 75c
