Sedalia, Mo., January 1st, 1904.

DEAR FRIENDS—With pleasure we present you with our **NEW AND ENLARGED GARDEN, FARM AND POULTRY ANNUAL** for 1904, describing **The Best Seeds and Bulbs Grown**, at right prices; also the most complete and largest stock of **BEE AND POULTRY SUPPLIES** in the West. We thank our friends for their kindness and liberal orders in the past, solicit your future patronage and ask you to kindly have your friends send their orders with yours this season for **ARCHIAS' "SURE SEEDS" AND SUPPLIES**—a favor which we will appreciate wishing you a prosperous New Year, we are respectfully yours,

Q. C. Phone, 139. L. H. ARCHIAS. **ARCHIAS' SEED STORE.**
L. ARCHIAS.

Advantages We Offer to Customers:

Sedalia (Home of the Missouri State Fair), with a population of about twenty thousand, is situated in one of the finest farming sections of Missouri, with good shipping facilities, low freight and express rates.

We have railroads running out in six directions, and about twenty mails daily.

WE OWN THE FINEST AND BEST EQUIPPED STORE BUILDING and warehouses in the West and have no rent to pay. Our cost for labor and advertising is about half that of houses in larger cities, therefore, we can sell the best seeds grown lower than other houses in our line.

OUR SEEDS ARE SELECTED especially to meet the demand of Market Gardeners and Good Farmers, and are good enough for anyone, this having been our business for twenty years.

OUR RESPONSIBILITY—We refer, by permission, to the Citizens' National Bank or to any Express or Railroad Office in Sedalia. Thousands trust their orders with us each year.

FREE SEEDS—We will give away 100,000 packets free seeds to our customers for 1904 as premiums. The larger the order the more free seeds you get. Have your neighbors order with you. It will pay you.

CASH PRIZES—On page 2 we give a list of prizes offered to our customers this season. We will sell you only THE FINEST SEEDS GROWN and want you to raise big crops and fine specimens. This pays you, and advertises us. We want every one of our customers to compete for these prizes in 1904. A more complete list will be published in the catalogue of the Missouri State Fair, which will be held at Sedalia next fall. Write the Secretary for a copy of the Fair Catalogue. We will publish a list of winners of our prizes in our 1905 catalogue.

WE DOUBLE TEST all Seeds, both as to vitality and purity, and we can conscientiously recommend Archias' Northern Grown "Sure Seeds" as Money Growers.

ARCHIAS' SEED STORE.

One of the busiest places, as well as one of the largest of its kind in the West today, is the Archias Seed Store, located at 106-108 East Main street, Sedalia, Mo. During the many years which this firm has been established they have not only built up a reputation for sure and reliable seeds, but have founded an immense business which requires a large force of assistants and thousands of square feet of floor space to take care of. While they handle all kinds of seeds, they make a specialty of field and garden seeds. They are having a big run on seed corn, of which they are large growers of many of the standard varieties.

This firm also deals largely in bee-keepers' and poultry supplies and can furnish anything needed in these lines. They are perfectly reliable and we highly recommend this firm to The Ruralist readers.

Archias' Evergreen Lawn Grass.

Best Mixture for a Beautiful Evergreen Lawn—Is a mixture of such grasses as will withstand the heat and dry weather of our summers.

The seed we offer is as pure and reliable as can be found anywhere.

To Produce a Good Lawn—Plow or dig up the surface thoroughly to a depth of twelve to fourteen inches and mix the soil with well-rotted manure or our Helmet brand Lawn Fertilizer, the latter being at all times preferable, as it is more durable in its effects and free from weed seeds, which are always contained in more or less quantities in stable manure.

The soil should be well pulverized before sowing, and the lawn kept free from weeds the first season. The quantity of seed required is one pound to every 400 square feet. It will add \$500 to the value of any farm to have a nice lawn around the house. The most beautiful thing that can be placed about a home is a well kept lawn. It is the soul of the surroundings of a home. Not only is it one of the most beautiful, but also useful, features of the landscape.

CROP.

Farmer Friends!

ARCHIAS' GOLDEN MORTGAGE LIFTER is what you have been seeking. It is all corn. It is early, it is prolific, it has a short, strong stalk admitting of close culture. It will out yield any other early corn. It has the smallest cob of any large grain. It is rich in oil. It will fatten faster than any

125 Bushels of Corn to the Acre.

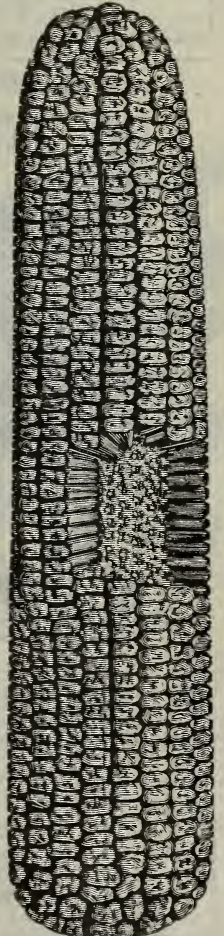

SMITHTON, MO.—My crop of Archias' Speckled Beauty Corn yielded 125 bushels per acre, and is the sweetest as well as the soundest corn I have ever raised. It fattens faster than any corn I have fed yet.

E. MCBRIDE.

Archias' Speckled Beauty Corn.

Introduced by us in 1902, and the past two seasons it has made a wonderful record. We hope to see all records broken in 1904. It is an improved strain of the old strawberry. Earlier, two good ears to stalk. Many ears weighing over a pound—no small ears. Yielded 125 bushels to acre in Pettis county last season. The best corn for bottom land, but will produce mammoth crops on any good corn land. A guaranteed success. Do not fail to plant it if you wish a big yield and finest quality. Matures in 110 days. As its name implies IT'S A BEAUTY and will please you. IT HAS A RECORD.

Archias' Speckled Beauty won First, Second and Third Prizes of the Missouri World's Fair Corn Contest, held at Sedalia last fall, for the best mixed color corn; won First Prize at the Missouri State Fair 1902-1903. Won First Prize at the Dallas, Tex., Fair; also First at Bunceton, Mo., Higginsville, Mo., Fort Worth, Tex., Paris, Tex., Ft. Smith, Ark., and Topeka, Kas. Mr. Wm. Romig, of Pettis county, Mo., won \$20 in prizes at last year's fairs with Archias' Speckled Beauty Corn, besides growing a "bumper" crop of this elegant grain. Crushed Shell For Poultry.

The market for Poultry Supplies has been flooded with a cheap article of Ground Shell which is worthless. It is manufactured from a deposit found under a few feet of soil, which must have been submerged by the sea thousands of years ago; since then has been subjected for hundreds of years to the bleaching of the sun and air, corroded by the acids and alkalis of the earth until it lost its flinty character entirely, and nothing remains but chalk. It thus becomes worthless for poultry.

PEARL SHELL, manufactured for Archias' Seed Store, is made from pure pearl, being trimmings from button factories where they use only fresh, live stock direct from the water, and contains all the substances sought and needed by poultry, and is highly endorsed.

Advantages Gained by the Use of It—It acts as a grit and prevents cholera. It keeps the poultry healthy. It makes hens lay more. It prevents soft shells. It makes the shells strong enough to carry without breaking. It contains many essential compounds of the egg. It makes eggs larger and heavier. It prevents hens eating their eggs. Is sharp and clean and contains 95 per cent of carbonate of lime, as shown by chemical analysis. Send us a trial order. You cannot afford to be without it. Made in three sizes—"A" for turkeys, "B" for hens, "C" for little chicks, pigeons and birds. Price, 10 lbs 15c, 25 lbs 25c, 100 lbs 75c, 300 lbs \$2.10, 500 lbs \$3.25.

Helmet Brand Complete Fertilizers!

HERETOFORE the farmers in this vicinity have questioned the wisdom of the use of fertilizers, contending that fertilization was not essential to the growing of paying crops.

The intelligent and prosperous farmer of the present day is certain to be one who fully believes in and practices the excellent motto: **FEED THE SOIL AND THE SOIL WILL FEED YOU.** Crops cannot live and thrive on air and water alone. Their roots penetrate the earth and absorb therefrom the Nitrogen, Phosphoric Acid, Potash or other elements of plant life they require. In some form these must be replaced, otherwise the land would eventually revert to that deplorable condition usually described as "worn out."

We Guarantee All Our Helmet Brand Fertilizers to Be Made Wholly from Animal Flesh, Blood and Bone.

Stable manure is a true fertilizer—all of its plant food, viz: Phosphoric Acid and Nitrogen, is available to the plants—but it cannot compare in strength with the Animal Fertilizers.

Stable manure contains 1,600 pounds of water to the ton, or more than ten times as much as the Animal Fertilizers

It takes 30 to 40 cords of Stable Manure to equal the plant food found in 1 cord of Animal Fertilizers,

It takes vastly more labor to apply stable manure than to apply equal strength in Animal Fertilizers.
