Chapter IX—War Food Administration
(Marketing Agreements and Orders)

PART 941—MILK IN THE CHICAGO, ILLINOIS,
MARKETING AREA

SUSPENSION OF CERTAIN PROVISIONS

Pursuant to the applicable provisions of Public Act No. 10, 73rd Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), hereinafter referred to as the "act," and of the order, as amended,

regulating the handling of milk in the Chicago, Illinois, marketing area, it is hereby determined that the provisions of such order which provide a seasonal minimum price on Class I milk during May and June 1945 are provisions which obstruct and do not tend to effectuate the declared policy of the act with respect to producers of milk under such order.

It is, therefore, ordered. That the following provisions of § 941.5 (a) (2) of the order, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area be suspended for the period from 12:01 a. m., on May 1, 1945, through June 30, 1945:

1. The words " * * ", except the delivery periods of May and June, " * * *," and

2. The words " * * *; and during the delivery periods of May and June the price per hundredweight for Class I milk shall be the price determined pursuant to paragraph (b), plus 50 cents * * *."

PART 941—MILK IN THE CHICAGO, ILLINOIS,
MARKETING AREA

SUSPENSION OF CERTAIN PROVISIONS

Pursuant to the applicable provisions of Public Act No. 10, 73rd Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), hereinafter referred to as the "act", and of the order, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area, it was determined on September 12, 1944, that the provisions of such order which provide for pro rata classification of milk or cream which is sold to a person who is a handler under another milk marketing agreement or order effective under the act, are provisions which, during October, November, and December 1944, obstructed and did not tend to effectuate the declared policy of the act with respect to producers of milk under such order. A similar determination was made on December 29, 1944, with respect to such provisions as regards January, February, and March 1945.

It is now determined, pursuant to the provisions of the aforesaid act and order, that the said provisions of the order are provisions which will, for an indefinite period after March 31, 1945, obstruct and not tend to effectuate the declared policy of the act with respect to the producers of milk under such order.

It is, therefore, ordered. That the suspension of the following provision of § 941.4 (a) of the said order be continued in effect after March 31, 1945, until otherwise ordered by the War Food Administrator: "And provided further, That in the case of the sale of milk or cream by a

handler to a person who is a handler under another Federal milk agreement or order, such milk may be classified on a pro rata basis."

(2) Each person who did not produce more than 12,000 pounds of butter in any calendar month from April 1944 to March 1945, inclusive, but who produces more than 12,000 pounds of butter in April 1945 or in any subsequent calendar month shall, during each calendar month thereafter, set aside a quantity of butter equal to such percentage as the Director may order of all butter produced by such person during each such subsequent calendar month, regardless of the quantity of butter produced by

such person in each such subsequent calendar month.

(3) In the event of a change in ownership with respect to a creamery, the production record of the former owner with respect to such creamery shall be the basis for reporting and setting aside butter by the new owner; and the purchaser of the creamery shall so report and set aside butter if (i) the person from whom he purchased the creamery was obligated to report and set aside butter, or (ii) such purchaser is required by other provisions hereof to report and set aside butter.

(4) Notwithstanding the restrictions in paragraphs (b) (1), (2), and (3) hereof, any person required by the provisions of such paragraphs to set aside butter may, at his option, sell and deliver all or part of the butter set aside pursuant to the provisions hereof to any authorized receiver who agrees to set aside, upon receipt of such set-aside butter, out of butter owned by him, a quantity of butter equal to the quantity of such set-aside butter so sold and delivered to him, and such authorized receiver shall so set aside such quantity of such butter. An authorized receiver may sell and deliver set-aside butter to another authorized receiver who agrees to set aside, upon receipt of such set-aside butter, out of butter owned by him and in addition to all other butter required to be set aside by him, a quantity of butter equal to the quantity of set-aside butter so sold and delivered to him. "This will acknowledge receipt of the above indicated quantity of set-aside butter.		
Name	Location	Signature

The aforesaid certificate, in duplicate, shall be signed (i) by the person selling and delivering set-aside butter, and (ii) by the authorized receiver accepting such set-aside butter; and such authorized receiver shall retain, for two years, one copy of such certificate and return the other to the person who sold and delivered such set-aside butter.

(5) All butter set aside pursuant to the provisions hereof shall be salted and shall be U. S. 90 score, or better, and shall be packed as bulk in domestic packages, unless

(i) Otherwise specified by the Director; or

(ii) The producer arranges with an authorized receiver to sell and deliver to such authorized receiver unsalted butter, butter below U. S. 90 score, or butter packaged other than as specified herein and such authorized receiver agrees to set aside, upon receipt of such set-aside butter, an equal quantity of butter which is salted, is U. S. 90 score, or better, and is packaged as specified herein; or

(iii) The producer or authorized receiver has previously arranged with a designated agency to sell and deliver to such agency unsalted butter, butter below U. S. 90 score, or butter packaged other than as specified herein; or

(iv) The producer manifests by butter grading certificates issued by the Office of Marketing Services, War Food Administration, or by other written evidence satisfactory to the Director, that the quantity of U. S. 90 score, and better, produced by such producer in the calendar month in which such butter is required to be set aside, is less than the quantity required to be set aside by such producer in such month, in which event the producer shall set aside all of the U. S. 90 score, and better, produced by him in such month and an additional quantity of U. S. 89 score produced by him in such month to the extent necessary to fulfill such producer's total set-aside requirements under the provisions hereof: *Provided*, That if a producer does not produce, during such month, an additional quantity, as aforesaid, of U. S. 89 score sufficient to fulfill such producer's total set-aside requirements, as aforesaid, he shall set aside all of the U. S. 89 score, and better, so produced by him, and thereupon he shall be deemed to have fulfilled the set-aside requirements, as aforesaid. Any authorized receiver who purchases and accepts delivery of any butter set aside in accordance with (iv) of this paragraph shall set aside, upon receipt of such butter, an equal quantity of butter which shall contain, at least, the same number of pounds of U. S. 90 score, or better, as that of U. S. 90 score, and better, contained in the quantity of butter so accepted by him, and the remainder, if any, thus set aside shall be U. S. 89 score. The Director may require any person who is required to set aside butter pursuant to the provisions hereof to submit butter grading certificates issued by the Office of Marketing Services or other evidences satisfactory to the Director relative to the grade of all butter produced or owned by such person.

(6) All butter set aside pursuant to the provisions hereof shall be stored under the same conditions of storage customarily observed to maintain the quality of butter.

(7) No person may serve as an authorized receiver unless he has received from the Director a letter of authority to serve as an authorized receiver. Any such letter of authority issued to become effective prior to April 1, 1945, shall not entitle the person to whom it was issued to serve as an authorized receiver on or after April 1, 1945. Any person who desires to serve as an authorized receiver on or after April 1, 1945, shall file with the Director an application upon a form approved by the Director setting forth

information requested in said form of application. Thereupon, the Director shall consider such application and issue a letter of authority if, in the opinion of the Director, the issuance of such letter of authority is necessary or appropriate in the public interest and to promote the national defense. Any letter of authority, issued as aforesaid, may be revoked at any time by the Director and all letters of authority issued to become effective on or after April 1, 1945, shall expire on March 31, 1946, or on such other date as the Director may specify by order. No person shall represent himself to be an authorized receiver unless he holds a letter of authority issued by the Director pursuant hereto. No person other than an authorized receiver shall purchase, receive, or deal in butter set aside pursuant to the provisions hereof: *Provided*, That any set-aside obligations incumbent on any person with respect to butter acquired or butter produced by him on or prior to March 31, 1945, shall continue subsequent to March 31, 1945.*

(c) *Inventory restrictions.* (1) No authorized receiver shall, during any calendar month, unless authorized in writing by the Director, buy, or contract to buy, and accept delivery of any quantity of set-aside butter which will cause the total quantity of set-aside butter owned by such authorized receiver on the last day of such calendar month to exceed an amount equal to the total quantity of butter required to be set aside by such authorized receiver during such calendar month and the immediately preceding calendar month.

(2) Each producer and each authorized receiver, respectively, shall retain in his possession at all times a quantity of set-aside butter which is equal to the total quantity of butter required to be set aside by each such person minus the quantity of set-aside butter (i) sold and delivered by each such person to authorized receivers or designated agencies, and (ii) released from the set-aside provisions hereof.

(d) *Releases by Director.* The Director may release any butter from the restrictions of this order if he determines that no designated agency has contracted for, or declared its intention or desire to contract for, such butter within such period as may be specified by the Director, or that such butter is not required for such agencies. The Director may issue such administrative rulings, regulations, interpretations, and exemptions, as he deems necessary to facilitate, expedite, and accomplish the purposes of this order.

(e) *Existing contracts.* The provisions of this order and of any regulation or order issued in pursuance hereof shall be observed without regard to contracts heretofore or hereafter entered into or any rights accrued or payments made thereunder. This order shall not, however, be construed as reducing the amount of butter which any person is required to offer or deliver, under existing contracts or contracts subsequently entered into with any designated agency, to any such agency.

(f) *Records and reports.* (1) The Director shall be entitled to obtain such information from, and require such re-

ports and the keeping of such records by any person, as may be necessary or appropriate, in the discretion of the Director, for the enforcement or administration of the provisions of this order, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(2) Every person subject to this order shall, for at least two years (or for such other period of time as the Director may designate), maintain an accurate record of his transactions in butter.

(g) *Audits and inspections.* The Director shall be entitled to make such audit or inspection of the books, records, and other writings, premises or stocks of butter of any person and to make such investigations as may be necessary or appropriate, in the discretion of the Director, for the enforcement or administration of the provisions of this order.

(h) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional or unreasonable hardship on him may file a petition for relief with the Order Administrator. Such petition shall be addressed to Order Administrator, War Food Order No. 2, Dairy and Poultry Branch, Office of Marketing Services, War Food Administration, Washington 25, D. C. Petition for such relief shall be in writing and shall set forth all pertinent facts and the nature of the relief sought. The Order Administrator may take any action with reference to such petition which is consistent with the authority delegated to him by the Director. If the petitioner is dissatisfied with the action taken by the Order Administrator on the petition, he shall obtain, by requesting the Order Administrator therefor, a review of such action by the Director. The Director may, after said review, take such action as he deems appropriate, and such action shall be final. The provisions of this paragraph (h) shall not be construed to deprive the Director of authority to consider originally any petition for relief from hardship submitted in accordance herewith. The Director may consider any such petition and take such action with reference thereto that he deems appropriate, and such action shall be final.

(i) *Violations.* Any person who violates any provision of this order may, in accordance with the applicable procedure, be prohibited from receiving, making any deliveries of, or using butter. In addition, any person who wilfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Further, civil action may be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

(j) *Delegation of authority.* The administration of this order and the powers vested in the War Food Administrator, insofar as such powers relate to the administration of this order, are hereby delegated to the Director. The Director

is authorized to redelegate to any employee of the United States Department of Agriculture any or all of the authority vested in him by this order.

(k) *Communications.* All reports to be filed hereunder and all communications concerning this order shall, except as provided herein or unless instructions to the contrary are issued by the Director, be addressed to the Order Administrator, War Food Order No. 2, Dairy and Poultry Branch, Office of Marketing Services, War Food Administration, Washington 25, D. C.

(l) *Territorial scope.* This order shall apply only in the area included in the 48 States of the United States and the District of Columbia.

Chapter VI—Solid Fuels Administration for War

[SFAW Reg. 26, Amdt. 1]

PART 602—GENERAL ORDERS AND DIRECTIVES
LIMITATION OF DELIVERIES TO AND RECEIPTS BY CONSUMERS

SFAW Regulation No. 26 is hereby amended in the following respects:

1. Paragraph (c) of § 602.652 is amended to read as follows:

(c) "Less scarce solid fuel" means No. 2 buckwheat (rice) anthracite, semi-anthracite produced in the Bernice Region of Pennsylvania, semi-anthracite produced in Virginia, reclaimed beehive coke, run-of-oven beehive coke, bituminous coal produced in Colorado, Iowa, Michigan, Montana, Utah and Wyoming, and lignite.

2. The last sentence of paragraph (b) of § 602.653 is amended to read as follows:

Each retail dealer shall record each delivery made to domestic consumers during the period from April 1, 1945 to March 31, 1946, inclusive, on the back of the Consumer Declarations filed by the consumers: *Provided, however,* That, unless the nearest SFAW regional representative or area distribution manager orders otherwise, this need not be done

if the retail dealer files a statement in writing with such regional representative or area distribution manager in which he states that:

(1) He maintains written records, and describes the book, card, or ledger where they are kept, of the dates on which consumer declarations and orders are received by him and of deliveries to consumers in at least as much detail as would be required if such information were recorded on the back of the consumer declarations.

(2) Such written records will be kept in the same office in which he keeps consumer declarations filed with him, and the address of such office, and

(3) He knows that the entries made in such written records are representations to SFAW and that wilful falsification of any of such entries will subject him to criminal and civil liability.

This amendment shall become effective April 1, 1945.

PART 602—GENERAL ORDERS AND DIRECTIVES

PROHIBITION AGAINST DEALER MAKING CHANGES OR FILLING IN CERTAIN ITEMS OF CONSUMER DECLARATION FORMS PRESCRIBED BY SFAW REG. 26

It appears that some retail dealers question whether they may lawfully write or otherwise place their names, or the names of their companies, or advertising statements or slogans, on the Consumer Declaration forms prescribed by SFAW Regulation No. 26. The answer is no.

The SFAW Consumer Declaration forms are governmental forms. Their filing is required by law; generally they have been supplied to retail dealers by the government; and they are to be kept in the custody of retail dealers for a period of not less than two years for and on behalf of SFAW. No retail dealer may change any item in the form filled out by a consumer except with the consumer's consent. The retail dealer should fill out the space in Item 3 of the form under the caption "Dealer's Verification." However, no retail dealer may lawfully write or otherwise place his name, or the name of his company, or advertising material on the prescribed SFAW Consumer Declaration form before he sends it or makes it available to the consumer.

Issued this 31st day of March 1945.

C. J. POTTER,
Deputy
Solid Fuels Administrator for War.

Chapter IX—War Production Board

AUTHORITY: Regulations in this chapter, unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 177; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended Dec. 31, 1943, 9 F.R. 64.

PART 3305¹—PAPERBOARD

[Conservation Order M-290, as Amended Mar. 30, 1945]

CONTAINERBOARD

The fulfillment of requirements for the defense of the United States has created shortages in the supply of containerboard and of materials entering into the production of containerboard for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3305.11 *Conservation Order M-290—*(a) *Definitions.* For the purpose of this order:

(1) "Producer" means a person (including a sheet supplier) who makes containerboard in roll stock form or in the form of corrugated or solid fibre sheets at one or more plants which he owns or controls.

NOTE: Subparagraphs (2) to (7) inclusive, formerly (1) to (6) redesignated Mar. 30, 1945.

(2) "Plant" means a congregation of pulp preparation, roll and sheet finishing

¹ Formerly Part 9270, § 9270.1.

equipment, paper machines and subsidiary facilities located and operated together as a single producing unit for the production of containerboard.

(3) "Containerboard" means the types and grades of paperboard classified under caption No. 211000 through 219000 in Form WPB-514, as currently revised. It shall also mean corrugated or solid fibre sheets of the kind used by "sheet plants" and "cleated-box manufacturers" in making containers or any other product. The term shall not include any item which is defined in Order P-146 as a "fibre shipping container"—such as a solid fibre (.045 or heavier) or corrugated fibre sheet or roll to be used for wrapping, packaging or otherwise protecting a product or material for shipment.

(4) "Container manufacturer" means any person (including any sheet plant operator, fibre-drum manufacturer, and any cleated-box manufacturer) who manufactures shipping containers or parts therefor, made wholly or in part from any type of containerboard.

(5) "Sheet-plant" means any container-manufacturing plant which does not have either corrugating or pasting equipment.

(6) "Cleated-box manufacturer" means any manufacturer of shipping containers made of corrugated or solid fibre sheets attached to wooden cleats.

(7) "Sheet supplier" means any container-manufacturer who supplies corrugated or solid fibre sheets to sheet-plants, whether owned by him or not.

Restrictions on Delivery and Receipt of Containerboard

(b) *Restrictions on acceptance of delivery.* On and after April 1, 1944, no person shall accept delivery of containerboard except as authorized by the War Production Board in writing.

(c) *Sheet plants and cleated box manufacturers.* Sheet plants and cleated box manufacturers who have been authorized to accept delivery of containerboard may place orders for corrugated or solid fibre sheets with sheet suppliers. If the orders have been properly certified as provided in the next paragraph the supplier may obtain the amount of containerboard which he will use to fill the orders in addition to that which the War Production Board has permitted him to receive by authorization issued directly to him. In certifying his orders for this additional containerboard the supplier shall give his customer's authorization number and date.

(d) *Delivery restrictions.* On and after April 1, 1944, no person shall deliver containerboard except on an order accompanied by a certificate, manually signed by the purchaser or an authorized official of the purchaser, in substantially the following form:

Authorized under Order M-290. Date of authorization _____, authorization number _____.

This certificate shall constitute a representation to the War Production Board (subject to the penalties of section 35A of the United States Criminal Code) that the purchaser is authorized under this and other applicable War Production

Board regulations and orders to place the delivery order and to receive the item(s) ordered for the purpose for which ordered. The standard certification of Priorities Regulation 7 must not be used instead of the certification described in this paragraph (d).

(d-1) *Exception to requirement of authorization to receive containerboard.* A person who has been granted an authorization by the War Production Board to receive containerboard may deliver such containerboard to another person to be processed, and such other person need not have War Production Board authorization or give the required certificate to accept the delivery if the person having the authorization retains ownership of the containerboard and invoices and sells the end product made from the containerboard. He must report the shipments of products so made on Form WPB-3077 in accordance with paragraph (v) below.

Authorizations

(e) *V-board.* Normally authorizations to accept delivery of containerboard for use in the manufacture of V-boxes will be on a monthly basis and will be issued separately on Form WPB-2492, Supplement No. 1, immediately prior to the month in which such containerboard is to be received. However, they may be issued at any other time and in any other manner (as by telegram or letter).

(f) *Containerboard other than V-board.* Authorizations to accept delivery of containerboard other than that described in paragraph (e) above will be either:

(i) *"Basic authorizations"* which will permit the acceptance of a specific amount of containerboard;

(ii) *"Incentive authorizations"* which will permit the acceptance of an indefinite amount of containerboard during a particular quarter. These incentive authorizations will be identified by the inclusion of the letter "X" in the authorization number. They will be issued to consumers of containerboard whose rating patterns as reported to the War Production Board on Form WPB-3077 are above average.

Both basic and incentive authorizations will generally be issued on Form WPB-2492 on a quarterly basis prior to the beginning of the pertinent quarter. They may, however, be issued at any other time and in any other manner, such as by telegram or letter.

(g) *Specifications of suppliers and delivery date; cancellation or amendment of authorizations.* (1) The authorizations described in paragraphs (e) and (f) above may specify the supplier with whom all or part of the authorized orders may be placed and the date as of which said orders are to be delivered.

(2) The War Production Board may cancel or amend any authorization for the purchase of containerboard at any time prior to its complete fulfillment.

Treatment of "Basic" Authorizations

(h) *Policy.* The following paragraphs ((i) and (j)) are directed at assuring, insofar as is possible, that all orders covered by basic authorizations can be

placed and filled during the calendar quarter for which the authorization was issued. To further implement this policy basic authorizations will be originally issued only to the extent of the contemplated production of containerboard during the pertinent quarter, less a reasonable safety factor, and, if necessary, will be adjusted from time to time to conform with variations in production trends and military requirements.

(1) *Definitions.* For the purposes of this paragraph (h) and of paragraphs (i) and (j) below "basic orders" are all those which do not have the letter "X" in the authorization number which must be set forth in the certificate provided by paragraph (d). The term shall include "V-board" orders and small delivery orders (see paragraphs (k) and (l)).

"Incentive orders" are those which do have the letter "X" in the authorization number.

(i) *Preferential treatment of basic authorizations.* No producer shall fill any order for containerboard, which is certified as carrying an incentive authorization, in any calendar quarter during which he has not previously shipped, from all plants he owns or controls, on basic orders, a tonnage of containerboard equal to at least 95 percent of the total production of containerboard, at these plants, during the corresponding quarter of 1944, (as reported on Form WPB-514).

(j) *Acceptance, fulfillment and placing of authorized orders.*

(1) *Acceptance of orders.* Each producer of containerboard must accept basic orders in the order in which they are received by him, except:

(i) He may reject orders calling for delivery in April, 1945, which are received on or before the tenth of April 1945; and he may reject orders calling for delivery in any subsequent month which are received on or before the seventh day of that month.

(ii) He may reject orders calling for delivery during the first month of any calendar quarter at any time when the basic orders which he has on his schedule for delivery during that month, plus those which he has already delivered during that month, call for a tonnage of containerboard equal to at least 33 $\frac{1}{3}$ percent of that produced, at all plants he owns or controls, during the corresponding calendar quarter of 1944. Orders carried over from a previous month may not be credited to the tonnage specified in this subparagraph, (unless this was done at the written request of the customer).

(iii) He may reject orders calling for delivery during the second month of any calendar quarter, at any time when the basic orders which he has on his schedule

for delivery during that month, plus those which he has already delivered during that month, call for a tonnage of containerboard equal to at least 33 $\frac{1}{3}$ percent of that produced, at all plants he owns or controls, during the corresponding calendar quarter of 1944. Orders carried over from a previous month may not be credited to the tonnage specified in this subparagraph, (unless this was done at the written request of the customer).

(iv) He may reject orders calling for delivery during the third month of any calendar quarter at any time when the basic orders which he has on his schedule for delivery during the quarter, plus those which he has already delivered during the quarter, call for a tonnage of containerboard equal to at least 95 percent of that produced, at all plants he owns or controls, during the corresponding calendar quarter of 1944. Orders carried over from a previous quarter may not be credited to the tonnage specified in this subparagraph, (unless this was done at the written request of the customer).

(v) He must reject any order which he receives after the end of the quarter for which the authorization covering the order was issued. (Authorization numbers, which must be certified to suppliers according to paragraph (d), will identify the quarter for which the authorization is valid by the first digit following the letters in the authorization number. This number will be "6" for the second quarter of 1945, (such as CB-6-000), "7" for the third quarter of 1945, and so on.)

(vi) In any case where he is of the opinion that the filling of an order for containerboard would substantially reduce his over-all production, owing to the large or small size of the order, its specifications, or otherwise, he may apply for relief to the Paperboard Division of the War Production Board. The War Production Board may release him from his obligation to accept and fill such order.

(vii) He may reject an order, if the person seeking to place it is unwilling or unable to meet his regularly established prices and terms of sale or payment.

(2) *Notification of filling of schedules.* Each month, each producer shall notify the Paperboard Division of the War Production Board, in writing, as soon as he has accepted basic orders for delivery, during that month, in the amounts specified in subparagraphs (1) (ii), (1) (iii) and (1) (iv) of this paragraph (j). If, after giving this notice, a producer's orders scheduled for delivery during the month are reduced (due to customers' cancellations, cut backs or postponement of orders, etc.) below the specified amounts—and such reduction continues for more than twenty-four hours—he

must immediately advise the Paperboard Division of the War Production Board, in writing, that his original notice is withdrawn.

(3) *Delivery of orders.* If a producer fails to deliver a basic order, which he has accepted, during the month in which delivery is called for, he must deliver it as soon as possible thereafter, in preference to all other orders except orders for V or W board. He must do this even if delivery is effected after the end of the quarter in which the purchase order was placed.

This rule does not apply to orders based upon incentive authorizations. No person may deliver and no person may accept delivery of containerboard, pursuant to incentive authorizations unless the containerboard was in transit to the purchaser on or before the last day of the calendar quarter for which the incentive authorization was issued.

(4) *Variation of percentages in individual cases.* The War Production Board may increase the percentage of past production which any producer must sell and deliver on basic orders (paragraphs (i) and (j)), or which he must produce (paragraph (m)), where facilities have been expanded since the base period, or increased production is expected for other reasons. On application from a producer, the War Production Board may reduce said percentages in cases where breakdowns, work stoppages, raw material shortages, etc., justify a reduction.

(5) *Limitation on placing of orders.* No person may place orders for containerboard, during either of the first two months of any calendar quarter, for more than 36 $\frac{2}{3}$ percent of his basic authorization for that quarter. However, this shall not prevent any person from placing an order for one full carload of containerboard in each month, providing he does not exceed the tonnage he is authorized to accept under this order.

Exceptions for Small Deliveries

NOTE: Paragraphs (k) and (l), formerly (i) and (j), redesignated Mar. 30, 1945.

(k) *Purchasers.* A person who accepts delivery of less than 2 $\frac{1}{2}$ tons of containerboard from all sources in any calendar quarter shall not be required to obtain the written authorization of the War Production Board to get containerboard in that quarter. However, when he buys in lots of more than fifty pounds he must accompany his order with a certificate in the following form:

The undersigned certifies that the amount of containerboard delivered to him and ordered for delivery to him during the calendar quarter in which delivery of this order is to be made (including the amount specified in this delivery order), does not exceed 2 $\frac{1}{2}$ tons.

Any person may accept delivery of containerboard in lots of less than fifty pounds without the authorization of the

War Production Board and without filing the foregoing certificate.

(l) *Suppliers.* Any supplier of containerboard may deliver it to a person purchasing in accordance with the preceding paragraph (k) regardless of the provisions of paragraph (d) of this order.

Production of Containerboard

(m) *Required production.* No producer may manufacture any paperboard as defined in Order M-378, of a grade which is not listed in Direction 1 of Order M-93 at any plant, during any calendar quarter, unless the total tonnage of containerboard produced in that quarter, at all plants he owns or controls, is at least as great as the tonnage of containerboard produced at said plants in the corresponding quarter of 1944.

Directions

NOTE: Paragraphs (n) to (w), inclusive, formerly (k) to (t), redesignated Mar. 30, 1945.

(n) *Directions.* The War Production Board may, from time to time, issue directions of the following kinds:

(1) *Mill production.* Directions requiring that all or any part of any plant's or producer's containerboard production during any period shall be in specified types and grades. Such directions will not be inconsistent with Order M-93 or actions taken under that order.

(2) *Mill shipment.* Directions requiring that all or any part of any plant's or producer's containerboard production shall be shipped (in such quantities, types, and grades as may be specified) to specified persons and at specified times, whether or not the containerboard is produced for other persons.

(3) *Sheet-supplier shipments.* Directions requiring that all or any part of any sheet-supplier's supply of containerboard sheets shall be shipped in such quantities, types, and grades as may be specified, to specified sheet-plants or cleated-box manufacturers.

(4) *Observance of directions.* Directions issued pursuant to this paragraph (n) shall, to the extent stated therein, take precedence over other deliveries of containerboard. The War Production Board may (with or without conditions) rescind or modify any directions issued pursuant to this paragraph (n) in any case in which it decides that there are special circumstances which would cause fulfillment of the direction to be impractical. In order to receive consideration, such special circumstances must be presented by telegram or letter to the War Production Board within seventy-two hours after they have arisen. If the War Production Board shall, after receipt of such facts, not give its written approval to an application for rescission or modification of a direction, the direction shall be fulfilled in accordance with its original terms.

Unless the War Production Board specifically permits him to do so, in writing, no plant or producer or other supplier shall require customers to deliver waste in return for containerboard shipped on any authorized order.

Restrictions on Use of Authorized Containerboard

(o) *Use of authorized or directed containerboard.* Authorizations or directions issued under paragraphs (e), (f), or (n) may specify the use to which all or any part of the authorized or directed containerboard may be put. In such cases, no person shall use any such containerboard except for the purpose specified. This prohibition does not, however, prevent the substitute use of any equivalent amount of containerboard of suitable grades.

(p) *Production directions.* The War Production Board may, from time to time, direct any person to fill any designated order or class of orders involving the use of containerboard and to use in filling that order, any allocated or unallocated containerboard available to him.

(q) *Restrictions on usage of Kraft as a corrugating media.* No Kraft containerboard may be used as corrugating media except for V and W boxes. For the purposes of this paragraph "Kraft containerboard" shall mean a grade of paperboard of full bending quality manufactured on a Fourdrinier or a Cylinder machine from a furnish of at least 70 percent virgin Kraft wood pulp or Kraft wood pulp screenings.

Ratings

(r) *Prohibition against use of ratings.* No person shall use any rating to get containerboard and no person selling containerboard shall require a rating as a condition of sale. Any rating purporting to be applied or extended to containerboard shall be void and no person shall give any effect to it in filling an order.

Inventory Restrictions

(s) *Inventories.* No person shall knowingly deliver to any person, and no person shall accept delivery of any quantity of containerboard if the total inventory in the hands of the person accepting delivery is, or by virtue of acceptance will become, either (1) in excess of two carloads, or (2) in excess of his reasonably anticipated requirements for the next thirty days, whichever is greater.

(t) *Amounts of containerboard which may be ordered.* No person may place orders for more containerboard than he has been authorized to receive under this order, regardless of whether or not he intends to cancel or reduce some of his orders before they are delivered.

In addition, authorized purchase orders must specify delivery at a time when a person reasonably anticipates that he will be entitled to receive the amount of containerboard he has ordered within the inventory limitations of Priorities Regulation No. 1 or of paragraph (s) of this order, whichever is the more restrictive.

Applications and Reports

(u) *Applications for permission to receive containerboard.* Each person requiring authorization to accept delivery of containerboard during any calendar

PART 3305—PAPERBOARD

[Conservation Order M-290, Interpretation 1,
as Amended Mar. 30, 1945]

The following amended interpretation is issued with respect to Conservation Order M-290:

Paragraph (b) of Order M-290 provides that no person shall accept delivery of containerboard except as authorized by the War Production Board in writing. This prohibition is not only applicable to container manufacturers, sheet plants, cleated box manufacturers, etc., but covers any person who requires the materials defined as containerboard by paragraph (a) (3) for any purpose. For instance, manufacturers of insulation, cedar closets, filing cabinets, and all other users of containerboard are barred from accepting delivery of this material without authorization. Pursuant to paragraph (d) a person who delivers containerboard to any person (not alone container manufacturers) except on an order certified as provided in that paragraph is in violation of Order M-290.

The material defined as containerboard in paragraph (a) (3) is any grade of paperboard classified under caption No. 211,000 through 219,000 in Form WPB-514 and any corrugated or solid fibre sheets of the kind used by sheet plants and cleated box manufacturers in making containers or any other product. If the sheets are of a kind used by sheet plants or cleated box manufacturers, they are covered by the order and cannot be acquired without authorization, regardless of whether they are to be used for the fabrication of containers or not.

Cases falling within the "small deliveries" exceptions provided by paragraphs (k) and (l) of the order are an exception to this rule. In addition, attention is called to the fact that items which fall within the definition of "fibre shipping containers" in Order P-146 are excluded from the definition of "containerboard" in Order M-290.

Issued this 30th day of March 1945.

PART 984—LEAD

[General Preference Order M-38, as amended
Mar. 31, 1945]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of lead for defense for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 984.1 *General Preference Order M-38—(a) Scope of the order.* This order controls generally the use of lead and lead products. Lead and lead products may be used only for the items and purposes set forth in the order. Other restrictions may also be found in other orders of the War Production Board relating to particular articles or parts. In such case the more restrictive provision governs. In no case shall any person use, purchase, sell, deliver or accept delivery of any lead in violation of this order.

(b) *Definitions.* For the purpose of this order:

(1) "Lead" means metallic lead, including any alloy containing 50% or more by weight of metallic lead. It includes soft and antimonial lead produced from foreign or domestic ores, scrap, drosses, or other lead bearing material, as well as scrap lead and alloys in which the lead content is 50% or more by weight.

(2) "Lead product" means lead in the form of sheet, pipe, ingot, castings, and foil.

(3) "Refiner" means any person who produces lead in refinery shapes, and includes any person who has such lead produced for him under toll agreement.

(4) "Dealer" means any person who procures lead either by importing or from domestic sources for sale or resale without change in form, whether or not such person receives title to or physical delivery of the material, and includes selling agents, warehousemen, and brokers.

(5) "Military order" means a specific contract or sub-contract necessitating the use of lead or lead products in the manufacture of any product, or any component to be physically incorporated into such products, produced for or for the account of the Army or Navy of the United States, Maritime Commission, War Shipping Administration, Veterans Administration or Office of Scientific Research and Development.

(6) "Implement of war" means combat end products, complete for tactical operations (including, but not limited to, aircraft, ammunition, armaments, weapons, ships, tanks, military vehicles and radio and radar equipment), and any parts, assemblies or materials to be incorporated in any of the foregoing items. This term does not include facilities or equipment used to manufacture the foregoing items.

(7) "Use" means to melt, form or alloy lead for introduction into an end product or a component thereof.

(8) "Item" means any article or component thereof.

(c) *Prohibitions on use.* On and after April 1, 1945, no person shall use lead or lead products except for the items and purposes and subject to the qualifications set forth in List I of this order, and then only to the extent necessary to meet applicable specifications or for the proper service performance of the end product or where the use of any less critical material is impracticable or when satisfactory substitutes are prohibited in other War Production Board orders.

(d) *Special directions.* The War Production Board may at any time issue special directions to any person respecting

the production, distribution, delivery, or acceptance of delivery of lead.

(e) *Lead from Metals Reserve Company.* Any person unable to obtain pig lead from the regular sources of supply and wishing to procure pig lead from the Metals Reserve Company must make application in writing to the War Production Board on Form WPB-95, not later than the 20th of the month preceding that of shipment.

(f) *Inventory restrictions.* No person shall knowingly deliver to any person and no person shall accept delivery of any quantity of pig lead if the total inventory of pig lead in the hands of the person accepting delivery is, or by virtue of the acceptance will become, in excess of his reasonable anticipated requirements for permissible uses in the next 45 days (except where a minimum carload quantity requested by Office of Defense Transportation exceeds these restrictions). The restrictions of this paragraph do not apply to a refiner, dealer, or scrap dealer.

(g) *Restrictions on Sale and Delivery of new articles containing lead.* No manufacturer shall sell or deliver any new articles of the kinds listed below, which contain lead. For the purpose of this paragraph, a new article is an article which has not been used by an ultimate consumer:

(1) Buttons, badges, emblems and regalia (except for sale to the Army or Navy of the United States, the War Shipping Administration, the United States Maritime Commission or the Veterans Administration).

(2) Costume jewelry, novelties and trophies.

(3) Games or toys.

(4) Tennis court markers.

(5) Statuary and art goods (except church goods).

(h) *Restrictions on sales and deliveries of lead.* No person shall sell or deliver any lead to any person if he knows, or has reason to believe, such material is to be used in violation of the terms of this order.

(i) *Appeals.* Any appeal from the restrictions of this order must be filed by letter in duplicate to the War Production Board, Tin, Lead and Zinc Division, Washington 25, D. C., Ref. M-38, giving justification for the appeal with necessary supporting data, such data should include:

(1) Product in which the lead will be used.

(2) Period of time, not exceeding one calendar quarter, for which relief is requested.

(3) Monthly schedule of amount of lead to be used.

(4) Prime contract numbers on military orders.

(5) If the appeal is filed because the restrictions on use of lead will prevent the filling of non-military orders of extreme urgency, give exact information as to the use of the product in which the lead is used.

(6) Why other less critical materials cannot be used.

(7) Any other information pertinent to the appeal.

Attention is called to the requirement of Priorities Regulation No. 16 with re-

spect to the statement of manpower requirements which must be submitted with any appeal.

(j) *Priorities Regulation No. 25.* Requests for exceptions from the restrictions of this order may not be made under the provisions of Priorities Regulation No. 25. The use of lead for production authorized under Priorities Regulation No. 25 prior to January 1, 1945, will be subject to the restrictions of this order.

(k) *Records.* All persons affected by this order must maintain accurate and complete records of all transactions as required by Priorities Regulation No. 1, 944.15. Such records must include complete statements of the amounts of lead consumed for the items specified in this order, and the amount of inventory on hand.

(l) *Required reports.* (1) On or before the 20th day of each calendar month each person who purchased or consumed 10 tons or more of lead during the preceding calendar month, or had in his possession or under his control 20 tons or more of lead, shall report such purchases, consumption and stocks on hand at the end of the preceding month to the War Production Board on Form WPB-95.

(2) The War Production Board may from time to time issue special directions requiring any refiner or dealer to file a report showing a schedule of his proposed deliveries of lead.

(3) All persons affected by this order shall execute and file with the War Production Board such other reports as may be required subject to the approval of the Bureau of the Budget.

(4) The reporting and record-keeping provisions of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(m) *Violations.* Any person, who willfully violates any provision of this order or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(n) *Communications of the War Production Board.* All communications and reports dealing with this order shall be addressed to: War Production Board, Tin, Lead and Zinc Division, Washington 25, D. C., Ref. M-38

Issued this 31st day of March 1945.

Recording Secretary.

PART 3270—CONTAINERS

[Limitation Order L-197, as Amended Mar. 31, 1945]

STEEL SHIPPING DRUMS

Section 3270.15 *Limitation Order L-197*, as amended January 18, 1945, is hereby amended to read as follows:

The fulfillment of requirements for the defense of the United States has created shortages in the supply of materials entering into the production of steel shipping drums for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3270.15 *Limitation Order L-197*.—

(a) *What this order does.* This order restricts the manufacture, delivery and use of new and used steel shipping drums. Schedule A of the order lists quarterly tonnage quotas for the use of new steel shipping drums for the packing of all classes of products. Upon specific War Production Board authorization, such packing quotas may be adjusted as provided in paragraph (g) (2). Only upon specific War Production Board authorization, may new drums be used for any other purpose than for packing. Schedule B of the order lists certain products which may not be packed in new or used steel shipping drums, except that certain of those products identified by an asterisk may be packed in used drums. The numbers which appear in brackets after many of the items listed in Schedule A refer to the numbers which identified the respective items in the schedules of the January 18, 1945, edition of Order L-197. Certain other restrictions and exemptions from various restrictions appear in the order.

(b) *Definitions.* Wherever used in this order: (1) "Drum" means any single-walled, cylindrical or bilged container with a capacity of 132 gallons or less (including but not limited to buckets, kits and pails) constructed wholly of steel. It does not include cheese or ice cream cans or cans as defined in Order M-81, high or low pressure gas steel cylinders, storage tanks, or any container not usable commercially for transporting commodities.

(2) "Used drum" means any drum which has been used for shipping, storage or intra-plant transfer of a product. This term shall include any drum purchased from a disposal agency of the United States government.

(3) "New drum" means any drum which is not a used drum. It includes rejects or seconds, new drums which may be considered obsolete by the owner, and new drums which may be in idle inventory and not usable by the owner.

(4) "Reject or second" means any newly manufactured drum which cannot

be used for the purpose for which it was intended due to some defect in it.

(5) "Naval store products" mean those materials which are directly derived from the oleo-resinous secretions of various species of coniferous trees. The term includes resins and liquid terpenes, both crude and refined, and special materials derived from these and such related products as tall oil and pine tars.

Restrictions on Manufacture, Sale and Delivery

(c) *Restriction against manufacture, sale or delivery.* No person shall manufacture any new drum or sell or deliver any new or used drum which he has reason to believe will be accepted or used in violation of the terms of this order.

(d) *Use of preference ratings.* No preference rating shall be applied to obtain delivery of new or used drums except a rating which has been specifically assigned for drums by the Army, Navy, Maritime Commission, or War Shipping Administration for direct or ultimate delivery of drums either filled or empty to them or to other persons pursuant to assignment by the War Production Board on Form WPB-646.

(e) *Certificate for delivery of new drums.* No person shall sell or deliver any new drums unless he has received from the purchaser a certificate, signed manually or as provided in Priorities Regulation 7. This certificate shall be in substantially the following form and, once filed by a purchaser with a supplier, covers all future deliveries from the supplier to that purchaser.

The undersigned purchaser certifies, subject to criminal penalties for misrepresentation, that he is familiar with Order L-197 of the War Production Board, and that all purchases from you of steel drums, and the use of the same by the undersigned, will be in compliance with the order, as amended from time to time.

The standard certificate provided for in paragraph (d) of PR 7 cannot be used in place of the above certificate; nor may the certificate provided by this order be waived in accordance with paragraph (f) of PR 7.

Restrictions on Acceptance or Use of New Drums

(f) *Prohibition against acceptance or use of new drums for packing Schedule B products.* (1) Except as provided in paragraph (f) (2) below, no person shall accept delivery of or use a new drum for packing any product listed in Schedule B of this order. Where a specific product is listed in Schedule B, the prohibition of this paragraph applies even though the general class of products under which the product may be included has a quota under Schedule A.

(2) The above prohibition shall not apply to the acceptance of delivery or use by a person of a new drum for the packing of a specific quantity of a Schedule B product for export for which a license has been received by such person from the Foreign Economic Administration. However, such acceptance or use of new drums must be included within the quota limitations of paragraph (g) below.

(g) *Packing quota restrictions on new drums.* (1) No person shall, during any calendar quarter, use a greater tonnage of new drums for packing any class of products than the amount listed in Schedule A of this order with respect to that class.

(2) Any person who wants to establish a quota, or to obtain an adjustment of his packing quota for any class of products may file an application for authorization on Form WPB 3770 in quadruplicate with the War Production Board. The use of Form WPB 3770 has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942. Such applications will be considered on an equitable basis in view of the quantities of steel drums distributed to other persons in the industry. Authorizations will not be dependent upon whether the applicant used steel drums during any previous period to pack the particular class of products.

(3) Where a person has a quota for a class of products, he may not use any part of this quota to pack another class of products. However, a quota for a class of products may be distributed among the various products within that class except for the products restricted by paragraph (f).

(4) Any person who has any part of his packing quota for a class of products left over from one calendar quarter (including a left over part of his first quarter 1945 quota as provided by this order as amended January 18, 1945) may use it to pack that class of products in the next calendar quarter in addition to that next quarter's quota. Any person may also borrow and use in any quarter up to 25% of the next quarter's quota. When this order takes effect on April 1, 1945, as prescribed in paragraph (s) below, a person shall deduct from his second quarter 1945 quota whatever amount of tonnage was borrowed and used in the first quarter of 1945 against his expected second quarter quota pursuant to paragraph (d) (6) of the January 18, 1945 edition of this order.

(5) Whenever a quota is given to a person based on use of new drums for packing a class of products, the quota shall belong to the person who owned the drums whether he packed them himself or had someone pack them for him. A person who packed drums in the base period owned by someone else does not have a quota based on packing those drums as that quota belongs to the person who owned the drums and for whose account the packing was done. An exception to this rule as to quota is made in the case of foreign petroleum operators operating under Priorities Regulation No. 9. The quota in such cases shall belong to the person who obtained the authorization for the drums for export on form WPB-743 or under other applicable licensing procedures, and the person who packs for him, whether he buys the drums or not, shall not be entitled to a quota based upon such packing.

A person who has a quota under the provisions of this paragraph may either pack the class of products himself or have someone else pack it for him. When someone else packs it for him, such use

of new drums shall be chargeable to his quota and not to the quota of the person who packs for him. A person who packs a class of products for another, to be charged against the latter's quota, must receive a statement from such person that the packing of that class of products is within his quota under the order.

(h) *Other use restrictions on new drums.* Unless specifically authorized by the War Production Board pursuant to application on Form WPB-3770, no person may use a new drum for any purpose other than for packing products permitted to be packed in accordance with paragraphs (f) (2) and (g).

(i) *Small user exemption from quota restrictions.* The restrictions of paragraphs (g) and (h) do not apply to any person during any calendar quarter in which he uses no more than a total of 1500 pounds of new drums for all purposes.

(j) *Inventory restrictions on new drums.* No person shall, at any time, accept delivery of any new drum which will increase his total inventory of that type or size of new drum to more than his requirements for the following sixty-day period or will increase his total inventory of all types and sizes of new drums to more than one and one-half carloads, whichever is the greater.

Restrictions on Used Drums

(k) *Prohibition against acceptance or use of used drums for packing certain Schedule B products.* (1) Except as provided in paragraph (k) (2) below, no person shall accept delivery of or use a used drum for packing any products listed without an asterisk in Schedule B of this order. Any other product not appearing on Schedule B or listed there with an asterisk may be packed in used drums without limitation.

(2) The above prohibition shall not apply to the acceptance of delivery or use by a person of used drums for the packing of a specific quantity of a Schedule B product listed without an asterisk for export for which a license has been received by such person from the Foreign Economic Administration.

(l) *Restrictions on sale or delivery of empty used drums.* (1) No person shall sell or deliver any empty drum which was packed with an edible product the last time it was used, and which is capable of being reused for the same purpose, if he knows or has reason to believe that it will be used for packing inedible products.

(2) No person shall sell or deliver any empty drum which was packed with a naval store product the last time it was used, and which is capable of being reused for the same purpose, if he knows or has reason to believe that it will be used for packing anything other than naval store products.

(m) *Exemption for certain used drums.* The provisions of this order shall not apply to the use by any person of used drums (1) for storage purposes by any person having less than five drums in use for all purposes or (2) constructed wholly of lighter than 23 gauge steel.

General Provisions

(n) *General Exemption.* Except for paragraphs (d) and (e), none of the restrictions of this order shall apply to the purchase, acceptance of delivery, or use of empty new or used drums by the following agencies or by any persons for packing a product for delivery directly to the following agencies: Army, Navy, Maritime Commission, War Shipping Administration or Lend-Lease Procurement Agency.

(o) *Appeals.* Any appeal from the provisions of this order shall be filed on Form WPB 3770 in quadruplicate.

(p) *Reports.* Any person affected by this order shall file such reports and questionnaires as the War Production Board may request from time to time, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(q) *Violations.* Any person who willfully violates any provision of this order or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(r) *Communications.* All communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Container Division, Washington 25, D. C., Ref: L-197.

(s) *Effective date of this order.* This order as amended March 31, 1945, shall take effect on April 1, 1945. Until that date, the edition of this order issued on January 18, 1945 shall remain in effect.

Issued this 31st day of March 1945.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

SCHEDULE A

As provided in paragraph (g) above, column 1 below lists all classes of products, and column 2 below lists the permitted packing quotas of new drums for the respective classes of products. The word, "Unlimited," means that a person may use in any calendar quarter an unlimited tonnage of new drums to pack the class of products appearing opposite such word. The words, "90%, 1944", mean that no person may use in any calendar quarter to pack the respective class of products a greater tonnage of new drums than 90% of the tonnage of new drums used by him for packing that class of products in the corresponding quarter of 1944, or 90% of his average quarterly usage of tonnage of new drums for packing that class of products during 1944. The other quotas, such as "20%, 1941" and "90%, 1941" shall be computed in a manner similar to the above. Commencing with April 1, 1945, a person may not change his method of computing his packing quota (either for the corresponding quarter of 1944 or the average quarter of 1944 method) for any class of products in the course of any calendar year. New drums used for packing products for any of the agencies listed in paragraph (n) shall be exempt from the specified quotas, and when determining the quotas for packing such

classes of products, all new drums packed during the specified base period for these agencies shall be excluded.

NOTE: Numbers in parenthesis in column (1) refer to item numbers of former commodity classes and are included for convenience in determining the new consolidated product class in which former commodity class is included.

INTERPRETATION 1

STEEL SHIPPING DRUMS; APPEALS GRANTED BEFORE MAY 27, 1944 NOT CANCELLED

Authorization by the War Production Board was required for delivery and acceptance of delivery of new drums under Order L-197 prior to May 27, 1944, but is no longer required

under the order as amended on that date. Paragraph (d) (7) declaring all authorizations null and void after May 27, 1944 does not invalidate appeals granted before that date. An appeal is a request for permission to use a new or used drum for packing a product listed without an asterisk in Schedule A of the old order or to use a new drum to pack a product listed with a single asterisk. [Issued June 19, 1944.]

PART 3270—CONTAINERS

[Limitation Order L-232, as Amended Mar. 31, 1945]

WOODEN SHIPPING CONTAINERS

§ 3270.56 Limitation Order L-232—

(a) *Definitions.* For the purposes of this order:

(1) "Wooden shipping container" means any new shipping container made wholly or partially of wood which is used for the shipment and delivery of commodities. The term does not include trunks, luggage, military locker boxes, field picking boxes, wooden inner containers, or boxes consisting of more than 50% of corrugated or solid fibre (by area).

(2) A "new shipping container" is one which has never been used for packing any product. The replacement of parts in a used container shall not cause it to become a new one unless new parts are added to replace three or more faces of the container. If three or more faces are replaced with new parts, it becomes a new shipping container subject to the provisions of this order.

General Restrictions

(b) *Restrictions—(1) Manufacture, sale or delivery of containers.* No person shall manufacture, sell or deliver any wooden shipping containers or parts which he knows or has reason to believe will be used or accepted in violation of any provision of this order.

(2) *Manufacture and assembly of containers.* No person shall commercially manufacture or assemble any wooden shipping container or any container (even though it is an inner container) defined in paragraph (d) of Table I of Schedule A of this order, for the purposes described in the several tables of Schedule A, which does not meet the specifications contained in those tables. The restrictions of this paragraph shall not apply to barrels, drums, kegs, kits or pails.

(3) *Manufacture of container parts.* No person shall commercially manufacture any wooden parts designed for any wooden shipping container described in the several tables of Schedule A (including those inner containers defined in paragraph (d) of Table I of Schedule A which, when assembled, will not conform with the specifications of those tables. The restrictions of this paragraph shall not apply to barrels, drums, kegs, kits or pails.

(4) *Coloring.* No manufacturer, dealer in, or commercial user of wooden shipping containers or parts shall dye, stain, or otherwise color containers or parts which are described in Schedule A.

The restrictions of this paragraph shall not apply to barrels, drums, kegs, kits or pails.

(5) *Printing.* All stamping, printing and labeling, unless otherwise required by law, shall be placed on only one outside surface of any container covered by the several tables of Schedule A of this order, whether it be an end, a side, bottom, top or cover. The restrictions of this paragraph (b) (5) shall not apply to barrels, drums, kegs, kits or pails or to paper, labels or markings which only:

(i) State the capacity of the container in terms of whole or fractional pints, quarts, pecks, or bushels; or

(ii) in the case of baskets and hampers are identifying markings provided for in regulations of the Secretary of Agriculture issued under the United States Standard Container Act of 1928; or

(iii) are designed for the purpose of encouraging salvage and reuse of the container, provided the label or printing does not include the name, brand, trade-mark or other reference to any person, firm, partnership or corporation.

Restrictions on Packing and Shipping

(c) *Restrictions—(1) Commodities for which wooden shipping containers are forbidden.* No person shall commercially pack or ship in wooden shipping containers any of the commodities listed in Table I of Schedule B. This shall not, however, restrict the shipment of any commodity listed which has already been packed on the date it was included in this table or the shipment of any listed commodity in wooden shipping containers which were in the shipper's inventory or in transit to him on the date it was included in this table, but only for a period of sixty days thereafter.

(2) *Quota restriction on packing.* Packers of a commodity listed in Table II of Schedule B, are restricted in the quantity of that commodity which they may pack in wooden shipping containers in each calendar quarter to a percentage of the quantity that they packed in wooden shipping containers in the same quarter of the base period. The percentage and base period for each commodity are shown in the table.

Exceptions

(d) *Containers made from waste materials or second hand lumber.* None of the restrictions of this order shall apply to a container made by a container user for his own use from waste material referred to as edgings, trim, or off-fall and excluded from the definition of lumber in Order L-335, or from second-hand lumber, provided the container is not made in a box factory or woodworking establishment which sells its product to other users. Second-hand lumber is lumber which has been previously used, as in building construction, or as dunnage in bracing, blocking or shoring, or in the construction of shipping containers.

Miscellaneous

(e) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of appeal.

(f) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction, may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(g) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to War Production Board, Containers Division, Washington 25, D. C., Ref.: L-232.

(h) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board, as amended from time to time.

Issued this 31st day of March 1945.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

1 The inside depth of this box may be increased up to 11 1/2", either by the addition of cleats of any thickness or by the use of a solid end.
2 The inside depth of this box may be increased up to 7 1/8" by the addition of cleats of any thickness or by the use of a solid end.
3 The inside depth of this box may be increased up to 5 1/2" by the addition of cleats of any thickness or by the use of a solid end.
* Wherever an asterisk appears, cleats may be used for such items, as provided for in paragraph (c) of the text of Table II.

(a) The designation in column (1) of Table II is merely for identification and shall not be construed as restricting usage. 'Inside width' and 'inside depth' of the container are the width and length, respectively, of the end pieces or end frames, exclusive of any cleats. 'Inside length' of the container shall be its outside length minus the combined thickness of both ends and of the center piece (if any).
(b) An optional variation of up to 1/8" under or up to 1/4" over the specified inside lengths is allowed. A tolerance of up to 1/8", plus or minus, in the specified inside depths

and inside width is allowed for shrinkage and manufacture.
(c) No cleats may be so used as to increase inside dimensions except where an asterisk appears in Column (1) of Table II or where, and as, specified in any footnote after that table. Where an asterisk appears in Column (1) of Table II, one or more cleats of 1/4", 3/8", 1/2", 5/8", 1 1/8", or 3/4" thickness may be attached to the top of each end piece, or end frame, provided such cleat or cleats do not increase the inside dimensions of the container by more than the specified thickness of the cleat or cleats.

(d) Exceptions. (1) The restrictions of paragraphs (b) (2), (3), (4) and (5) of this order and of this Table II shall not apply to:

(i) The manufacture or assembly of wooden shipping containers by any person from wooden parts cut to size by him before March 4, 1943; provided, such manufacture or assembly is completed by August 31, 1943:
(ii) The assembly of wooden shipping containers by any person from cut-to-size wooden parts bought and received by him before April 1, 1943; provided, such assembly is completed by August 31, 1943;

(iii) The assembly of containers purchased in flat or knock-down form from the surplus stocks of government agencies, or the coloring, printing, or labeling of such containers.

(2) The restrictions of this Table II shall not apply to the manufacture or assembly of wooden shipping containers, or the manufacture of wooden parts for wooden shipping containers, to be delivered:

(i) To or for the account of the Army, the Navy, the Coast Guard, the Maritime Commission, the War Shipping Administration, the Veterans Administration, or the Department of Agriculture (for Lend-Lease purposes), provided, the government agency's specifications require wooden shipping containers which do not comply with Table II.

(ii) To any person for use in packing fresh fruits or vegetables for delivery to or for the account of such government agencies; provided, the government agency's specifications require wooden shipping containers which do not comply with Table II; and provided further, such person furnishes the container or container-parts supplier with a written certification in substantially the following form, signed by an authorized official, either manually or as provided in Priorities Regulation No. 7:

"This is to certify that specifications of orders received by the undersigned from (designate government agency) require wooden containers not conforming with Order L-232. The material ordered herewith is for that purpose only.

Company.....
By.....
Title..... Date....."

Such certification shall constitute a representation to the supplier and to the War Production Board as to the truth of the facts stated therein. The supplier may rely upon such representation unless he has knowledge or reason to believe that it is not true.

PART 3285—LUMBER AND LUMBER PRODUCTS
[Order L-335, Direction 1 as Amended Mar. 31, 1945].

SAWMILLS' SHIPMENTS OF DOUGLAS FIR, WHITE FIR, NOBLE FIR, SITKA SPRUCE (EXCEPT AIRCRAFT GRADE) AND WEST COAST HEMLOCK

The following amended direction is issued pursuant to Order L-335:

(a) *What sawmills are covered by this direction.* This direction applies only to sawmills located in the States of Oregon and Washington west of the crest of the Cascade mountain range which produce the following species of lumber: Douglas fir (*pseudotsuga taxifolia*), Noble fir, White fir, Sitka spruce, (except aircraft grades of Sitka spruce and Noble fir which are specifically allocated either directly or indirectly to manufacturers of aircraft) and West coast hemlock.

(b) *Military orders placed with sawmills that take precedence over other orders.* This paragraph applies to every sawmill mentioned in paragraph (a) above which currently produces 25,000 or more board feet of lumber (whether one of the named species or not) per average day of eight hours of continuous operation or which produced an average of 25,000 or more board feet of lumber per day during the days from June 3, 1943 to December 3, 1943 on which it was in operation. Starting with the month of August 1944, sawmills that receive orders of the types described in paragraph (c) below must accept and ship such orders in preference to all other orders (except orders rated AAA) to the extent that such orders do not require more than 35 percent of the sawmill's anticipated monthly shipments of all species listed in paragraph (a) above. Such an order may not be accepted by a sawmill after the beginning of the month preceding the month of shipment if the acceptance of the order would result in displacing other certified and rated orders amounting to more than 10 percent of the sawmill's anticipated monthly shipments. A sawmill's shipment on such orders shall be in the sizes required by the agency or person placing the order.

(c) *Military orders.* The following types of certified and rated orders placed with a sawmill shall be accorded the treatment provided for in paragraph (b) above and shipments made on such orders may be credited against the percentage that a sawmill is required to ship under that paragraph in preference to other orders:

(1) Orders for the Account of the United States Government placed by the U. S. Army, U. S. Navy, U. S. Marine Corps, U. S. Coast Guard, U. S. Maritime Commission, and War Shipping Administration;

(2) Orders for the account of the United States Government placed by the Treasury Department, Procurement Division on behalf of the Foreign Economic Administration bearing the symbol DA-TPS;

(3) Orders placed by any other person which bear a certification of the Central Procuring Agency, Procurement Division of the United States Corps of Engineers to the effect that the order is a military order and as such is entitled to the preferential treatment prescribed by this direction. A person who receives such a certification from the Central Procuring Agency may extend that certification in placing orders with his supplier to the extent necessary to obtain lumber required for delivery on the order bearing the original certification of the Central Procuring Agency. If a distributor sells lumber out of inventory on an order bear-

ing a certification of the Central Procuring Agency to the effect that the order is a military order and as such is entitled to the preferential treatment prescribed by this direction, the distributor may not extend the certification of the Central Procuring Agency to replace the lumber in inventory. If the distributor wants his order to be identified as a military order he must send it to the nearest office of the Central Procuring Agency for certification and placement by that agency. If a distributor does not wish to have the Central Procuring Agency certify his order or the Central Procuring Agency refuses to certify it, then the distributor may place his order with his lumber supplier, but it may not bear any other certification than that described in paragraph (q) (3) of Order L-335.

(4) Orders placed for the account of the United States Government by the Veterans Administration or orders placed by any other person bearing a certification of the Director of Construction of the Veterans Administration to the effect that the lumber purchased thereby is for use on construction work done for the Veterans Administration.

For the purposes of this direction "orders" shall be deemed to include the memorandum of purchase issued by the Central Procuring Agency on ED Form 526 commonly known as a "purchase allocation." A "purchase allocation" order is not to receive the preferential treatment to be accorded military orders under paragraph (b) above unless it is one of the types of orders described above.

(d) *Other military orders.* The amount of lumber that must be made available to the military on orders receiving the preferential treatment described in paragraph (b) is the minimum and a sawmill must continue to accept other orders coming from the same sources for lumber in excess of the required percentage mentioned in paragraph (b) in accordance with paragraphs (x) (1) and (x) (2) of Order L-335, but orders placed with a sawmill over and above the required 35 percent shall be treated like any other order and they will not take precedence over other orders which are equally or higher rated.

If the distributor wants his order to be identified as a military order he must send it to the nearest office of the Central Procuring Agency for certification and placement by that Agency. If a distributor does not wish to have the Central Procuring Agency certify his order or the Central Procuring Agency refuses to certify it, then the distributor may place his order with his lumber supplier, but it may not bear any other certification than that described in paragraph (q) (3) of Order L-335.

(4) Orders placed for the account of the United States Government by the Veterans Administration or orders placed by any other person bearing a certification of the Director of Construction of the Veterans Admin-

istration to the effect that the lumber purchased thereby is for use on construction work done for the Veterans Administration.

(a) *What sawmills are covered by this direction.* This direction applies only to sawmills located in the United States which produce cypress (red or yellow) lumber.

Starting with the month of August, 1944, sawmills that receive orders of the types described in paragraph (c) below must accept and ship such orders in preference to all other orders (except orders rated AAA) to the extent that such orders do not require more than 30 percent of the sawmill's anticipated monthly shipments of red or yellow cypress lumber. (c) *Military orders.* The following types of certified and rated orders placed with a sawmill shall be accorded the treatment provided for in paragraph (b) above and shipments made on such orders may be credited against the percentage that a sawmill is required to ship under that paragraph in preference to other orders:

If a distributor sells lumber out of inventory on an order bearing a certification of the Central Procuring Agency to the effect that the order is a military order and as such is entitled to the preferential treatment prescribed by this direction, the distributor may not extend the certification of the Central Procuring Agency to replace the lumber in inventory. If the distributor wants his order to be identified as a military order he must send it to the nearest office of the Central Procuring Agency for certification and placement by that agency. If a distributor does not wish to have the Central Procuring Agency certify his order or the Central Procuring Agency refuses to certify it, then the distributor may place his order with his lumber supplier, but it may not bear any other certification than that described in paragraph (q) (3) of Order L-335.

(4) Orders placed for the account of the United States Government by the Veterans' Administration or orders placed by any person bearing a certification of the Director of Construction of the Veterans Administration to the effect that the lumber purchased thereby is for use on construction work done for the Veterans' Administration.

For the purposes of this direction "orders" shall be deemed to include the memorandum of purchase issued by the Central Procuring Agency on ED Form 526 commonly known as a "purchase allocation". A "purchase allocation" order is not to receive the preferential treatment to be accorded military orders under paragraph (b) above unless it is one of the types of orders described above.

(d) *Other military orders.* The amount of lumber that must be made available to the military on orders receiving the preferential treatment described in paragraph (b) is the minimum and a sawmill must continue to accept other orders coming from the same sources for lumber in excess of the required percentage mentioned in paragraph (b) in accordance with paragraphs (x) (1) and (x) (2) of Order L-335, but orders placed with a sawmill over and above the required 30 per-

cent shall be treated like any other order and they will not take precedence over other orders which are equally or higher rated.

PART 3290—TEXTILE, CLOTHING, AND LEATHER

[Conservation Order M-328, as Amended
Mar. 31, 1945]

PROVISIONS APPLICABLE TO TEXTILES, CLOTHING AND RELATED PRODUCTS

The fulfillment of requirements for the defense of the United States has created shortages in the supplies of textiles, clothing, leather and related products for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3290.118 *Conservation Order M-328—(a) Restrictions on preference ratings for textiles, clothing, leather, etc.* (This paragraph states conditions which must be met to make ratings for items on Schedule A valid. However, even though a rating is not valid for the items, this does not prevent anyone from filling a purchase order if he can do so without disregarding valid ratings on other purchase orders or disregarding other orders or directions of the War Production Board.)

No person shall apply, extend or give any effect to any preference rating heretofore or hereafter assigned, applied, or extended to the delivery of any item on Schedule A unless:

(1) The rating has been assigned by a preference rating form or letter issued by or under the authority of the War Production Board to a named applicant and the form or letter specifically describes the item and specifies the quantity, description and type which may be obtained by the rating. No rating assigned by any L, M, P or other order, by any regulation (such as CMP-5 or CMP-5A), or on Form CMPL-150, CMPL-200 or CMPL-201 shall be valid for any item on Schedule A, except as permitted by paragraph (a) (2), (a) (3) or (a) (4). For example, the rating for any fabric to comply with this subparagraph must be assigned on a War Production Board form or letter naming the person to whom the rating is assigned and stating the yardage, type and construction of the fabric for which the rating is assigned.

(2) The rating has been assigned by or pursuant to a form, order or regulation of the War Production Board and is used to obtain the item for direct or ultimate delivery to, or for incorporation into any material for ultimate delivery to the Army or Navy of the United States (including U. S. Army and Marine Corps Post Exchanges, U. S. Navy and Coast Guard Ship's Service Departments, and

War Shipping Administration Training Organization Ship's Service activities), the Maritime Commission or War Shipping Administration, (including marine distributors pursuant to authorization by the Maritime Commission on Form WPB-646). A delivery to an establishment or ship operated under contract with one of those agencies is not in itself a direct or ultimate delivery to the Army, Navy, Maritime Commission or War Shipping Administration.

(3) The rating has been assigned by or pursuant to any supplement to this order or the particular order specified after the item on Schedule A.

(4) The material to be delivered is actually required as, or is required for incorporation in, a functioning part of industrial machinery and is one of the following numbered items on Schedule A: 1, 3 (except Seine cord, hawser cord and other cabled cord), 4, 12.

13. Steel tacks (except thumb tacks).
14. Synthetic rubber thread and products made therefrom.

(b) *How ratings must be applied and extended.* (1) Priorities Regulation 3 states rules and restrictions on the use of all preference ratings. When a rating is used, the standard certification described in Priorities Regulation 7 or the certification described in Priorities Regulation 3 must be put on a purchase order for a Schedule A item. In addition, the purchaser must use one of the following applicable certifications (with the blanks properly filled in):

(i) If the rating is assigned by an order listed on Schedule A, the special certification, if any, required by that order shall be added.

(ii) If the rating is assigned by an order listed on Schedule A, but the listed order does not require a special certification, the following shall be added:

This rating is assigned by Order -----
[Insert number of order listed opposite the item on Schedule A.]

(iii) If the rating is assigned through the Foreign Economic Administration, the following shall be added:

This rating is assigned in connection with Export License No. ----- or Release Certificate No. -----
[Insert license or release certificate number.]

(iv) In all other cases the following shall be added:

This rating can be used under M-328.

(2) No rating permitted by paragraph (a) (1), (a) (3) or (a) (4) above, which is applied to get a Schedule A item, shall be extended for any other Schedule A item. However, in the case of ratings permitted by paragraph (a) (1), the rating may be extended if the form or letter specifically permits the extension of the rating for and fully describes the other Schedule A item. (For example, a rating which is applied to get fabric may not be extended to get yarn, except that in a case where the rating is permitted by paragraph (a) (1), the rating may be extended if the form or letter states that it may and also states the specific quantity, count, etc. The rating may also be extended for yarn if the fabric is for an Army, Navy, Maritime Commission or War Shipping Administration (including marine distributors pursuant to authorization by the Maritime Commission on Form WPB-646) order, as permitted by paragraph (a) (2). A rating permitted by paragraph (a) (3) may also be extended if the particular order specified after the item on Schedule A specifically permits extension. (For example,

Order M-388C specifically permits extension of the ratings assigned thereunder). This paragraph shall not prevent the extension of a rating for finished fabrics to get fabrics in the gray state.

(c) *Specific directives.* The war Production Board may issue specific directions to individual producers or processors of items listed in Schedule A, with respect to the production, fabrication, processing or delivery of items to meet particular military or civilian requirements, and no producer or processor shall produce, fabricate, process, deliver or accept delivery contrary to directions.

(d) *Equitable distribution.* (This paragraph does not apply to sales by retailers, inasmuch as the Fair Distribution Policy for retailers is defined in Declaration of Policy of July 15, 1943.) Preference ratings are given to certain orders to further the war program. It is the policy of the War Production Board that items listed in Schedule A not required to fill rated orders shall be distributed equitably. In making such distribution due regard should be given to essential civilian needs, and there should be no discrimination in the acceptance or filing of orders as between persons who meet the seller's regularly established prices and terms of sale or payment.

Under this policy every seller of the items, so far as practicable, should make available an equitable proportion of his merchandise to his customers periodically, without prejudice because of their size, location or relationship as affiliated outlets.

It is not the intention to interfere with established channels and methods of distribution unless necessary to meet war or essential civilian needs. If voluntary observance of the policy outlined is inadequate to achieve equitable distribution, the War Production Board may issue specific directions to named concerns. A failure to comply with a specific direction shall be deemed a violation.

(e) *Rejects, over-runs and seconds—*

(1) *Definitions.* "Reject" means a Schedule A item which was obtained with priorities assistance or a Schedule A item into which material obtained with priorities assistance has been incorporated and which cannot be used for the purpose for which the priorities assistance was given. The term includes seconds and over-runs, but does not include waste, scrap or cuttings normally generated in a manufacturing process.

"Priorities assistance" means a preference rating, allocation, specific direction, CMP allotment, or any other action of the War Production Board used to obtain a material or product.

(2) *No one may purposely make a reject.* No manufacturer, processor or converter shall manufacture, process or order any product on Schedule A which he knows or should know will be a reject. This paragraph does not prohibit the production of seconds, over-runs or by-products to the extent that they are unavoidable in the manufacturer's operations.

(3) *Restrictions on the disposition and use of rejects.* The following rules govern the disposition and use of rejects, regardless of Section 944.11 of Priorities Regulation 1:

(i) No manufacturer, processor or converter shall dispose of or use a reject listed on Schedule B, and no one shall accept delivery of such a reject, except as permitted by that schedule;

(ii) Subject to all restrictions contained in other orders of the War Production Board, any reject listed on Schedule A, but not listed on Schedule B, may be disposed of for use in the United States or to fill a rated order, or may be used for any purpose by the holder of the reject;

(iii) In any event, "special sales" (as defined in Priorities Regulation 13) of rejects may be made only in accordance with the provisions of Priorities Regulation 13."

(4) *How to get needed permission to dispose of a reject.* Any manufacturer who under the terms of this order needs specific permission to dispose of a reject may apply by letter to the War Production Board stating (where applicable) the number of the contract, the amount of material to be produced under it, the kinds of such material, a detailed statement of quantities and kinds of rejects, a copy of the rejection, and a statement of the efforts he has made to dispose of the rejects to the buyer. If the War Production Board decides he ought to be allowed to dispose of the reject, it will give him specific instructions.

(5) *Effect of specific instructions on disposition.* The War Production Board may issue specific instructions in writing to anyone respecting the use and disposition of rejects. These instructions may relate to rejects not yet manufactured on the date of their issuance. They must be obeyed even if they conflict with other provisions of this order.

(6) *Reports.* Manufacturers of textile, clothing and leather products shall report their rejects at such times and in such manner as the War Production Board may from time to time require, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(7) *Records.* All persons affected by this order shall keep for at least two (2) years records showing the quantities and kinds of rejects produced by them and the disposition thereof.

SCHEDULE B—REJECTS WHICH MAY BE DELIVERED ONLY ON SPECIFIC AUTHORIZATION OF THE WAR PRODUCTION BOARD

The following types of rejects may be sold or used by the holder of the reject on an order bearing a rating as high as or higher than the one on which the material or product was acquired or with which it was produced; otherwise the holder must apply for specific authorization of the War Production Board to sell or use the reject:

Cotton, wool and synthetic yarn, and blends of the foregoing.

Manila, agave, istle, hemp, raffa, jute, coir, and other fibers suitable for cordage; and cordage products made primarily therefrom.

Materials obtained with priorities assistance assigned by or under Conservation Orders M-317, M-317A, M-317B, M-328B, M-385, M-388, M-388A, M-388B, and M-388C, or directions or supplements thereto.

Sponges, marine and loofa.

Synthetic rubber thread and products made therefrom.

Textile fibers and fabrics (except cotton duck as defined in M-91) made primarily from textile fibers or of textiles (Note: for disposition of cotton duck, including rejects, see M-91).

Woven, felted, knitted and braided fabrics of cotton, wool, or synthetic yarns and blends of the foregoing.

The following types of rejects may be sold or used by the holder of the reject only on specific authorization of the War Production Board:

Equipment: Military luggage and sleeping bags.

Feathers, waterfowl, new.

Kapok.

Tanning materials, vegetable.

NOTE: Regarding the disposition of reject hides, skins, furs and leather and products made primarily therefrom, see paragraphs (b) (3), (b) (4), and (b) (5) of Conservation Order M-310. Regarding the disposition of cotton duck, including rejects, see paragraph (b) of Conservation Order M-91.

[Schedule C deleted Jan. 4, 1945.]

(f) *Exceptions from restrictions on "cutbacks" or terminations.* The War Production Board in any case where it finds that, by reason of cut-backs or terminations of Government contracts or subcontracts, compliance with any restriction on the manufacture, use, sale or delivery of any item on Schedule A would cause a loss of production or interfere with the filling of civilian orders, may grant temporary exceptions from such restriction.

(g) *Miscellaneous provisions—(1) Applicability of regulations.* Except as otherwise provided herein, this order and all transactions affected thereby are subject to all applicable regulations of the War Production Board as amended from time to time.

(2) *Violations and false statements.* Any person who wilfully violates any provision of this order, or who in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Communications.* All reports to be filed hereunder and communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Textile, Clothing and Leather Bureau, Washington 25, D. C., Ref: M-328.

(4) *Appeals.* (i) Any appeal from the provision of paragraphs (c), (d) or (e) of this order shall be made by filing a

letter in triplicate, referring to the particular provision appealed from, and stating fully the grounds of the appeal.

(ii) An appeal for suspension of a production direction dealing with an item on Schedule A may be made (whether or not such direction is issued under this order) on the ground that compliance with the action will result in production at a loss: *Provided*, That an application for price relief on that ground is first filed with the Secretary of the Office of Price Administration, Washington, D. C., and a copy is filed with the WPB appeal. If the WPB appeal is granted, requirements of a direction for increases above current production will be suspended until the decision of the Office of Price Administration upon the application for price relief. This paragraph does not indicate or limit the extent or kind of price relief, if any, which may be granted by the Office of Price Administration.

(iii) No direction or order relating to items on Schedule A (whether or not it refers to M-328) shall be deemed to require the furnishing of materials or facilities to the War Production Board. If a direction requires the furnishing of materials or facilities to a contracting agency or to a war contractor, or the production of a specified amount of a material or product, or restricts all or a part of a person's production or inventory to specified purposes, and if the person affected cannot get firm orders to cover the materials, facilities, production or inventory involved, he may appeal, and the War Production Board will grant appropriate relief.

(5) *Reports.* Every person shall execute and file with the War Production Board such reports and questionnaires as it shall from time to time request with respect to items listed on Schedule A, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

Issued this 31st day of March 1945.

Recording Secretary.

INTERPRETATION I

RATINGS FOR TWINE AND WRAPPING MATERIALS

Ratings for twine and other materials on Schedule A of M-328 used for wrapping must conform to the conditions specified in paragraph (a) of the order to be valid.

Such materials used to wrap products are not incorporated into the product which is wrapped. Therefore, a rating which can be used to get material to be incorporated into a product cannot be used to get twine with which to wrap the product even though the product is going to be delivered to one of the Government agencies mentioned in paragraph (a) (2). PART 1226—GENERAL INDUSTRIAL EQUIPMENT

[Conservation Order M-28, as Amended Apr. 2, 1945]

DICHLORODIFLUOROMETHANE

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of dichlorodifluoromethane for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 1226.27 *Conservation Order M-28—*

(a) *Definitions.* For the purpose of this order:

(1) "F-12 gas" means dichlorodifluoromethane (sometimes called "freon-12").

(2) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency or any organized group of persons whether incorporated or not.

(3) "Producer" means any person engaged in the production of F-12 gas.

(4) "Supplier" means any person to the extent that he is engaged in the business of distributing F-12 gas to persons using the same for installation in refrigerating or air conditioning systems. The term shall include an equipment manufacturer to the extent that he engages in the sale of F-12 gas which has not been installed in such systems. "System" means any "system" as defined in General Limitation Order L-38.

(5) "Equipment manufacturer" means any person to the extent that he uses F-12 gas for charging new refrigerating

or air conditioning systems or parts of systems manufactured by him. It does not include affiliates, subsidiaries, branches, divisions or sections or an enterprise, if not actually engaged in the manufacture of systems or refrigerant containing parts of systems.

(6) "Insecticide manufacturer" means any person to the extent that he uses F-12 gas in the production of insecticide.

(7) "User" means any person who installs F-12 gas in a refrigerating or air-conditioning system, other than an equipment manufacturer. It includes suppliers, service agencies, owners or lessees, to the extent that they engage in installing F-12 gas in any system.

(8) "Contract agent" means any person to whom or for whose account F-12 gas is delivered by a producer for distribution to suppliers.

(If the same person, or two or more branches, divisions or sections of the same enterprise, acts in two or more capacities as contract agent, supplier, equipment manufacturer, or insecticide manufacturer, the particular provisions of this order which apply to the respective activities must be followed, to the extent to which the various provisions are applicable to each activity.)

(b) Deliveries for systems on List A.

(1) F-12 gas may be delivered and accepted for use in any new or used system of a type referred to in List A. However, precedence shall be given to orders for F-12 gas for installation in systems not on List A over orders for systems on List A, by any service agency or other user who sells F-12 gas to the owners or operators of systems (or installs it for them).

(2) [Revoked Jan. 29, 1945.]

(3) Attention is called to paragraph (c) (2), which prohibits a supplier from delivering F-12 gas except on certified orders.

(c) Deliveries by suppliers. (1) No supplier or any other person (except a producer) shall deliver any F-12 gas for export outside of the continental United States, or for use by any of the following non-retail users (or to any ship yard or other person for use in a system to be delivered to any of them), namely: The Army, Navy, Maritime Commission, War Shipping Administration, post exchanges, ships service departments and activities, equipment and insecticide manufacturers, for new or used systems, or for use in insecticide, without specific authorization from the War Production Board.

No person shall accept from a supplier or other person any delivery of F-12 gas which is prohibited by the restriction in this order.

(2) Whenever the owner of a system or any other user wishes to obtain F-12 gas for installation in a system or systems, he may place his order for the minimum quantity which the available cylinder or cylinders permit, necessary to bring the charge in the system or systems up to a normal operating charge; and any per-

son wishing to secure such gas for ultimate uses (such as testing coaxial cable for leaks) other than the charging of a system, may place his order for the minimum quantity which the available cylinder or cylinders permit, necessary to give him a practicable minimum working inventory or such other use. He must certify his order, or the vendor's delivery receipt, by a certificate endorsed on or attached to it, showing that the F-12 gas is to be used for such purposes only, and that he is not holding any empty cylinders not owned by him, which shall be in substantially the following form:

The undersigned purchaser certifies to the seller and the War Production Board that he does not have any F-12 gas cylinders not owned by him, which have been empty for more than 15 days; and that the F-12 gas covered by this order will not be used or resold for any purposes not permitted by Order M-28.

The standard certification in the form described in Priorities Regulation 7 cannot be used instead of that described above. Such certificate, which must be signed by the purchaser or his authorized official, will constitute a representation that what is stated in it is true. A supplier must not deliver any F-12 gas except under certified orders; and he must not make delivery under any order which is certified if he knows, or has any reason to believe that the certificate furnished with such order is untrue, incomplete, or inaccurate. In such a case the supplier must reject the order, and should explain why he is doing so, so that the prospective purchaser can comply with this order. Each supplier must keep all accepted orders and certificates which he receives, for a period of two years, for inspection by the War Production Board. Cylinders must be emptied and returned to the supplier as promptly as practicable (unless the cylinder is owned by the person buying the F-12 gas). In general, this should be done in less than 30 days from the date the cylinder is received.

This restriction shall not prevent a person who services several systems for which deliveries are permitted by this order from purchasing a cylinder of F-12 gas from a supplier, if the amount purchased is the smallest quantity practicable considering the sizes of the standard commercial cylinders and the amount needed in his current operations.

(3) No "standby charge" or any other quantity of F-12 gas, over and above that needed to bring the total charge in a system or systems up to the normal operating charge, shall be delivered to or accepted by any person for use in a system which he owns, leases, or operates (except the Army, Navy, Maritime Commission or War Shipping Administration): except, however, that a "standby charge" may be maintained for a system which is operated primarily for one of the following purposes: air conditioning or refrigeration for the production and storage of penicillin, or blood serum; or refrigeration for the storage of blood for plasma, or the production or storage of blood plasma.

(d) Deliveries by producers. Each producer shall hold his entire inventory of F-12 gas, together with all additional quantities produced or otherwise obtained by him from time to time, for delivery for such uses as may be authorized or directed from time to time by the War Production Board. No deliveries of F-12 gas shall be made by a producer except pursuant to specific authorizations or directions heretofore or hereafter issued by the War Production Board.

(e) The provisions of this order shall be followed by every producer, contract agent, supplier, user, equipment manufacturer, insecticide manufacturer, and any other person buying, selling or delivering F-12 gas, without any regard to any preference ratings which have been assigned or which may hereafter be assigned to particular contracts or orders.

(f) Miscellaneous provisions—(1) Applicability of regulations. This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as issued and amended from time to time.

(2) Reports. (i) Each equipment manufacturer who wishes to secure delivery of F-12 gas during any month for charging systems or parts produced by him, or for factory repair and charging of sealed or hermetic condensing units, shall file with the War Production Board, on or before the 15th day of the preceding month a report on Form WPB-3326, prepared in accordance with the instructions for such form.

(ii) [Deleted Apr. 2, 1945.]

(3) Violations. Any person who willfully violates any provisions of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, materials under priority control, and may be deprived of priorities assistance.

(4) Appeals. Any appeal from the provisions of this order, or any direction thereunder, shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(5) Communications. All reports to be filed and other communications concerning this order should be addressed to: War Production Board, General Industrial Equipment Division, Washington 25, D. C., Ref. M-28.

Issued this 2d day of April 1945.

PART 1226—GENERAL INDUSTRIAL EQUIPMENT

[Conservation Order M-29, Interpretation 2 as Amended Apr. 2, 1945]

The following interpretation is issued with respect to Conservation Order M-28:

(a) *Quantities which may be obtained by system owner.* Subparagraphs (c) (2) permits the owner (or lessee) of a refrigerating or air conditioning system who does his own installation of F-12 gas, to place his order for the minimum quantity "which the available cylinder or cylinders permit" necessary to bring the charge in his system up to a normal operating charge.

The standard commercial cylinders are generally available in sizes which contain four

¹ The reporting requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

pounds, ten pounds, twenty-five pounds, and one hundred forty-five pounds of the gas, and a particular supplier may not have all four sizes in stock at all times. Questions will therefore arise as to the number and sizes of cylinders which the owner of a system is permitted to obtain if the particular supplier with whom his purchase order is first placed should not happen to have the sizes of cylinder from which the minimum quantity needed by the system can be furnished the owner.

In such a case, the owner of the system should make a reasonable effort to obtain the minimum quantity which he needs, from some other supplier in his locality, rather than purchase an excessive quantity from the first supplier upon whom he calls. While the order does not prescribe rigid rules as to exactly what effort the purchaser should make in every case, it is required that he do whatever is practicable, under his particular conditions, to obtain the minimum quantity which he needs, and no more.

Where he is located in a large community in which there are a number of suppliers, he should contact several, if necessary in order to obtain the quantity needed. If he happens to be located in a small community where there is only one supplier who cannot furnish the exact quantity needed and the F-12 gas must be obtained immediately in order to avoid spoilage of a substantial quantity of food, the restriction would not prevent him from obtaining a larger amount, if that is unavoidable without letting his food spoil.

As a guide to the number and size of cylinders which should normally be obtained, for the different quantities of F-12 gas which may be needed in different cases, the following table is furnished:

Pounds of F-12 gas required	Amounts which should be ordered			
	Number of cylinders			
	4 pounds	10 pounds	25 pounds	145 pounds
0-4	1			
5-9		1		
10-14	1	1		
15-24		2 or	1	
25-29	1		1	
30-39	1	1	1	
40-49	1	2	1	
50-59		1	2	
60-69		2	2	
70-79	1		3	
80-89	1	1	3	
90-110		1	4	
111-145				1
146-170			1	1
171-195			2	1
196-220			3	1
221-245			4	1
246-290				2
291-315			1	2
316-340			2	2
341-365			3	2
366-390			4	2
391-435				3

The above interpretation applies only where the system owner buys his F-12 gas from a supplier, and installs it himself. If he has a service shop install the gas, the shop will always be able to furnish no more than the amount actually needed, from its service cylinders, and there will be no problem.

PART 3133—PRINTING AND PUBLISHING

[Limitation Order L-240, Supp. 1, as Amended Apr. 2, 1945]

NEWSPAPERS

§ 3133.6a *General Limitation Order L-240, Supplement No. 1—(a) Purpose of appeal clause.* The serious shortage in the supply of print paper available for newspapers makes it necessary for publishers to reduce their consumption substantially, as provided in Order L-240. Such reductions may create serious hardships which, however, are unavoidable in time of war. Appeals are not granted to ameliorate, in individual cases, hardships applicable to an entire industry. They are granted only to provide relief, subject to the provisions of paragraphs (b) to (g), from certain undue and excessive hardships which would be created if the order were applied without modification to an exceptional set of circumstances. Appeals which do not establish such hardships shall be denied.

(b) *No automatic adjustments.* Paragraph (f) of this supplement describes the types of hardships for which quota adjustments shall be made by the War Production Board on appeal. These adjustments, however, are not automatic. A publisher who believes that his case is covered by one of the subparagraphs of paragraph (f) may not make his own adjustment of his consumption quota. No publisher may use any paper in excess of his consumption quota, computed in accordance with paragraphs (j) to (m) of Order L-240, unless he files an appeal for such relief and a grant is made in writing signed by the Recording Secretary of the War Production Board.

(c) *Adjustments of base tonnages.* Wherever appropriate, grants on appeal shall be made in the form of adjustments of a publisher's base tonnage which shall continue to be effective in future quarters, subject to re-examination and modification at any time by the War Production Board.

(d) *Effective date of base tonnage adjustments.* Adjustments of base tonnages are not retroactive. A publisher whose base tonnage is adjusted, on appeal, does not receive, by virtue of such adjustment, a "carry-over of unused tonnage" from any quarter before the issuance of the appeal grant.

(e) *Application of curtailments.* Constructive base tonnages granted on appeal are subject to the curtailments required by paragraph (k) of Order L-240 as amended from time to time.

(f) *Types of hardship for which relief shall be granted.* In passing upon appeals under Order L-240 the following standards shall govern:

(1) *Extraordinary population increase accompanied by circulation increase.* Where there has been an extraordinary growth of population in a newspaper's trading area since December 31, 1942, its consumption quota shall be increased as follows:

(i) Ascertain the percentage of population growth in the newspaper's trading area since December 31, 1942. Census Bureau figures shall be controlling in those areas where there has been a more recent enumeration than the 1940 Decennial Census. In other areas the percentage of population growth shall be determined on the basis of public utility company records of customers for domestic electric service.

(ii) Ascertain the percentage of the newspaper's net paid circulation increase in its trading area. This shall be measured by the average net paid circulation in its trading area for the first quarter of 1945 over the average net paid circulation in its trading area for the year 1942. Increased circulation resulting from promotional sales efforts shall not be included.

(iii) Subtract $7\frac{1}{2}$ from the lower of the percentage figures determined under paragraphs (i) and (ii).

(iv) Apply the resulting percentage to that portion of the newspaper's adjusted base tonnage which corresponds to the ratio of its trading area net paid circulation to its total net paid circulation for the last two quarters of 1944.

(v) The resulting tonnage shall be added to the newspaper's consumption quota.

(vi) *Example.* Assume that there was a 10% population growth in a newspaper's trading area (computed in accordance with paragraph (i) above) and that the increase in the newspaper's trading area circulation was 9% (computed in accordance with paragraph (ii) above). Subtracting $7\frac{1}{2}$ from the lower of these two percentage figures, in accordance with paragraph (iii), gives an adjustment factor of $1\frac{1}{2}$ %. Assume that the newspaper's adjusted base tonnage was 1,000 tons and that its total circulation in the last two quarters of

1944 was 100,000 of which 80,000 was within its trading area. The ratio of trading area circulation to total circulation is therefore 80%. This percentage of 1,000 tons is 800 tons. Applying the adjustment factor of $1\frac{1}{2}$ % to 800 tons results in an addition of 12 tons to newspaper's consumption quota.

Additional adjustments shall be made for newspapers in trading areas whose population has increased more than 50% since the 1940 Decennial Census, in order to maintain adequate newspaper service in the trading area.

Tonnage under this paragraph (f) (1) is granted to provide circulation service for the additional population in the newspaper's trading area. If a newspaper which has received additional tonnage under this paragraph does not use it for that purpose, any grant to which it would be entitled under this paragraph in the succeeding quarter shall be reduced accordingly. Increased circulation resulting from promotional sales efforts shall not be a factor for grant of additional tonnage.

(2) *Extraordinary circulation increase.* Where a newspaper's average net paid circulation in its trading area for the second quarter of 1943 exceeds its average net paid circulation in the trading area for the year 1942 by more than 10%, that portion of the newspaper's adjusted base tonnage which corresponds to the ratio of its trading area net paid circulation to its total net paid circulation for the last two quarters of 1944 shall be increased to the extent of such circulation increase in excess of 10%, without the necessity of establishing any population growth, provided such circulation increase has been maintained. Increased circulation resulting from promotional sales efforts shall not be included.

(3) *Discontinuance or merger of newspapers.* Adjustments in consumption quota shall be made in order to maintain adequate newspaper service in a community where there has been a discontinuance or merger of newspapers.

(4) *Supplements added in 1941 or 1942.* Adjustments in consumption quota shall be made for newspapers which added supplements in 1941 or 1942. Such adjustments shall be made only to the extent that the newspaper's total content was increased by the addition of the supplements and such increase was not reflected in its base tonnage and only to the extent it appears that because of contractual relationships undue hardship would be caused by a failure to make such adjustments.

NOTE: Paragraphs (5), (6), (7) and (8) formerly (6), (7), (8) and (9). Former paragraph (5) deleted Aug. 12, 1944.

(5) *Temporary suspension.* Newspapers which were forced to suspend publication temporarily during 1941 because of strikes, fires, or similar conditions shall

be granted compensatory increases in their base tonnages, to the extent that it was impracticable to continue operations at another plant.

(6) *Change in roll size.* Publishers who reduced the width of their newspaper rolls in 1941 shall be granted compensatory increases in their base tonnages.

(7) *Increased frequency of issuance.* Publishers who increased the frequency of issuance of their newspapers in 1941 and 1942 shall be granted adjustments of their base tonnages to permit continued publication at the frequency of issuance established before Order L-240 was issued, on December 31, 1942.

(8) *Extraordinary hardships.* Appeal tonnage shall not be recommended by either the administrator or the Division Appeals Committee or granted by the Appeals Board for causes other than those enumerated in subparagraphs (1) to (7) of this paragraph (f) except where unforeseen, unusual, extraordinary or emergency conditions constituting undue and excessive hardship are proved. Certain factors which shall not be recognized as grounds for the granting of appeal tonnage are described in paragraph (g).

(g) *Factors which shall not be considered as grounds for granting appeals.* The following is a list of some of the factors which shall not be considered as grounds for the granting of tonnage on appeal. This list is not exclusive.

- (1) The nature of a newspaper's contents.
- (2) Diminished base period consumption because of financial conditions.
- (3) Suspension of publication in 1941 or 1942 except as provided in paragraph (f) (5).
- (4) Population or circulation increase, except as provided in paragraph (k) (2) of Order L-240 or paragraphs (f) (1) or (f) (2) of this supplement.
- (5) Retarded circulation growth caused by a price increase in 1941 or 1942.
- (6) Conservation of paper at any time except as provided in paragraph (f) (6).

[NOTE: Paragraphs (7) through (13) formerly (8) through (14). Former paragraph (7) deleted Aug. 12, 1944.]

- (7) Change in number of advertising lines at any time, except as provided in paragraphs (f) (3) and (f) (4).
- (8) Unsold copies or circulation returns.
- (9) Special events such as war bond drives, recruiting drives, war news, political news, etc.
- (10) Inability to maintain or increase advertising lines under existing quotas.
- (11) The fact that additional tonnage was granted on appeal to a competitor.
- (12) Request to use in a newspaper started since December 31, 1942, more tonnage than that permitted in paragraph (m) of Order L-240.
- (13) Consumption of print paper in violation of Order L-240, whether or not such violation was willful.

Procedure

(h) *How appeals are submitted.* Appeals from Order L-240 may be filed by addressing a letter in duplicate to the War Production Board, Printing and Publishing Division, Washington 25, D. C. Ref: L-240.

(i) *Form of appeals.* The letter of appeal need not follow any particular form. It should state informally, but complete-

ly, the particular provision appealed from, the precise relief desired, the subdivision of paragraph (f) upon which the appellant relies, and the reasons why denial of the appeal would result in undue and excessive hardship.

(j) *Denials by administrator.* Appeals may be denied in the first instance by the administrator of the order.

(k) *Re-appeal from denial by administrator.* When an appeal has been denied by the administrator of the order, the appellant may re-appeal, within 15 days after the letter of denial is mailed, by addressing a letter to the War Production Board, Printing and Publishing Division, Washington 25, D. C. Ref: L-240. This letter may contain simply a request that the case be forwarded to the Appeals Board of the War Production Board. Any additional information which the appellant cares to submit at this time will also be forwarded to the Appeals Board.

(l) *Grant of appeals.* Although the administrator of the order may deny an appeal in the first instance, only the Appeals Board has the power to grant relief in individual cases from the provisions of the order.

(m) *Recommendation of grant by the administrator.* The administrator of the order may recommend that an appeal be granted in whole or in part. In that event the case shall be forwarded to the Appeals Board with the written recommendation of the administrator and the written concurrence or non-concurrence of each member of the Division Appeals Committee, consisting of himself, the administrators of Orders L-241, L-244, and L-245, the Assistant Director of the Printing and Publishing Division for Labor, and representatives of the Office of Civilian Requirements and the Conservation Division.

(n) *Optional reference to Appeals Board by administrator.* The administrator of the order may, if he desires, refer a case to the Appeals Board with a recommendation of denial or with no recommendation at all.

(o) *Hearings by Appeals Board.* If the Appeals Board desires to obtain additional facts not contained in the file it may, in its discretion, hold a public hearing on any appeal. To the extent consistent with the necessity for emergency relief, a schedule of hearings shall be made up in advance. Information concerning the time and place of any scheduled hearing shall be available at the office of the Appeals Board at any time during business hours.

(p) *Conduct of hearing.* Hearings by the Appeals Board are open to the public. All interested parties may attend and, in the discretion of the Board, may be heard. The hearings are informal and the Board is not bound by legal rules of evidence. It is not necessary for an appellant to be represented by counsel although he may do so if he wishes.

(q) *Decision by Appeals Board.* The Appeals Board may grant or deny an appeal in whole or in part. It may also attach conditions to a grant.

(r) *Finality of decisions.* The decisions of the Appeals Board shall be final, unless that Board elects to reopen the case.

(s) *Publication of grants.* Grants on appeals shall be announced publicly at least every two weeks.

(t) *Announcement of grounds of decision.* Whenever a grant is made for "unforeseen, unusual, extraordinary or emergency conditions" under paragraph (f) (8), a brief memorandum of the basis of the decision shall be made public by the Appeals Board within two weeks, and the decision shall be treated as a precedent in future situations of an identical character.

(u) *Amendment of supplement.* Whenever a new standard is developed, the supplement shall be amended to set forth that standard.

(v) *Public files.* Public files shall be set up in all cases, including those filed before as well as after October 7, 1943, whether or not they resulted in a grant. They shall be available for public inspection at any time during the business hours of the War Production Board. The public files shall include:

1. All papers filed by the appellant in support of the appeal except those portions which contain confidential data.

2. All memoranda by War Production Board officials containing recommendations for or against the allowance of the appeal.

3. Copy of all letters of grant or denial.

4. A transcript of the record of any public hearing (or if the stenographic notes of the hearing have not been transcribed, a memorandum referring to the notes and stating how a transcript may be obtained).

(w) *False representations.* All grants on appeal are conditional upon the validity of the statements submitted in support thereof. Any person who willfully conceals a material fact or furnishes false information in connection with an appeal, whether orally or in writing, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both, as provided in section (35) (A) of the United States Criminal Code.

Issued this 2d day of April 1945.

PART 3270—CONTAINERS

[Limitation Order L-336, as Amended Apr. 2, 1945]

SANITARY FOOD CONTAINERS

Section 3270.61 *Limitation Order L-336* is hereby amended to read as follows:

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of sanitary food containers for defense, for private account and for export, and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3270.61 *Limitation Order L-336*—(a) *What this order does.* This order places limitations on the manufacture, delivery, and use of various types of sanitary food containers. Among other restrictions, liquid tight paper containers may only be sold to package food for human consumption,

and paper milk containers may only be sold to package fluid milk, other dairy products, or fruits and vegetable juices. The use of hot drink cups is limited and a monthly quota is placed on the use of such cups. A one-time certificate is required for delivery of hot drink cups, cold drink cups, flat bottom dishes, liquid tight paper containers, and paper milk containers. The use of MRO ratings is restricted.

(b) *Definitions.* Wherever used in this order: (1) "Sanitary food containers" mean paper food containers, paper cups, paper milk containers and liquid tight paper containers.

(2) "Paper food containers" mean all empty round nested containers, with or without lids, made of paper or paperboard but excluding wedge-shaped food pails and nested paper plates.

(3) "Paper cups" mean all empty open nested cups, with or without lids, made of paper, including but not limited to hot drink cups, cold drink cups, hot food cups, dishes (including flat bottom dishes), water cups, and portion control cups. The term shall not include cups of the flat envelope type.

(4) "Hot drink cups" mean all cups made directly from moulded pulp, or all untreated tall cups, double-wrapped or single-wrapped of comparable weight, which are suitable for dispensing hot beverages. The term shall include all cups which at any stage of their manufacture fall within this definition of "hot drink cups."

(5) "Cold drink cups" mean all one or two-piece cups, treated or untreated, of 6-ounce size or larger, which are not suitable for dispensing hot beverages.

(6) "Hot food cups" mean all untreated squat cups, 8 to 16 ounce inclusive, double-wrapped or single-wrapped of comparable weight, which are suitable for dispensing hot foods. The term shall include all cups which at any stage of their manufacture fall within the definition of "hot food cups".

(7) "Flat-bottom paper dishes" mean all four to seven ounce shallow, flat-bottom cups, pleated or two-piece nested, having a minimum taper of fifteen degrees.

(8) "Paper milk containers" mean all treated paper containers, blank or folded cartons, which are commonly used to package fluid milk or fluid milk products.

(9) "Liquid tight paper containers" mean all spiral or convolute wound containers, made of paperboard, with a slip-on cover, which are commonly known in the trade as liquid tight containers.

(10) "Primary feeding" means the feeding of either food or hot beverages to persons, except feeding at gatherings of a purely social nature as at teas, parties or dances.

Restrictions on Manufacturers

(c) *General restriction on manufacture, sale or delivery.* No person shall manufacture, sell or deliver any sanitary food containers which he knows or has reason to believe will be accepted or used in violation of the terms of this order.

(d) *Restrictions on poundage of sanitary food container stock to be processed.* No manufacturer of sanitary food containers shall accept delivery of any

sanitary food container stock except as authorized by the War Production Board pursuant to Appendix B in Order M-241. A manufacturer may use the stock allocated to him only for the purpose for which it was allocated.

(e) *Maintenance of production of certain paper cups.* Commencing April 1, 1945, each manufacturer of hot drink cups, flat bottom cold drink cups or flat bottom dishes, shall maintain during each calendar quarter a production of each of these items equivalent to the highest quarterly production of that item attained during any calendar quarter beginning on or after October 1, 1943 to the extent permitted by paragraph (d) above and subject to contingencies beyond his control.

(f) *Distribution of production between military and civilian requirements.* (1) Regardless of preference ratings on other orders, each manufacturer of paper cups must set aside the following percentages of his production of paper cups in each month for delivery to the Army and the Navy (excluding domestic post exchanges and ship's service stores, but including those located outside of continental United States) in the sizes ordered by them: 35 per cent of his monthly production of 6 to 9-ounce hot drink cups inclusive (not more than 60 per cent of the total production of any one size to be produced need be included in the set-aside); 70 per cent of his monthly production of 6 to 9-ounce flat bottom cold drink cups inclusive; 100 per cent of his monthly production of 10 to 24-ounce flat bottom cold drink cups inclusive; 75 per cent of his monthly production of all flat bottom dishes. He must make this set-aside in the following proportion to the Army and the Navy: 70 per cent of each of the above specified four classes of cups to be set aside shall be reserved exclusively to fill Army orders received on or before the 15th day of the preceding month, and the remaining 30 per cent shall be similarly reserved for the Navy. Any unreserved portion of the Army set-aside shall be further reserved exclusively to fill Navy orders received on or before the 22nd day of the preceding month, and any unreserved portion of the Navy set-aside shall be similarly reserved for the Army. In the event that on the 23rd day of any month, any portion of either the Army's or the Navy's set-aside remains unreserved, such portion must be sold as provided in paragraph (f) (2). Set-asides under this paragraph shall be computed on the basis of number of cups.

(2) The balance of each manufacturer's production of hot drink cups, flat bottom cold drink cups and flat bottom dishes shall be used exclusively to fill orders other than Army and Navy orders (excluding domestic post exchanges and ship's service stores, but including those located outside the continental United States) in accordance with Priorities Regulation 1 and the provisions of this order.

(3) The above set-aside provisions shall not apply to the April 1945 production of flat bottom dishes.

(g) *Prohibited manufacture, sale or delivery.* No person shall manufacture, sell or deliver the following types of sani-

tary food containers if he knows or has reason to believe that they will be used for the purposes stated: (1) Liquid tight paper containers to package other than food for human consumption; but this restriction shall not apply to containers which were ordered for other purposes and which were in process of manufacture on or before April 2, 1945; (2) Paper milk containers for purposes other than packaging dairy products (including fluid milk), fruits and vegetable juices; but this restriction shall not apply to containers which were ordered for other purposes and which were in process of manufacture on or before April 2, 1945; (3) Packages of paper cups for retail sales, except that this restriction shall not apply to stocks of cups made up for retail sales which were on hand January 29, 1944; (4) Portion control or souffle cups for retail sales or for party favors.

Restrictions on Delivery and Use of Paper Cups

(h) *One-time certificate for delivery of hot drink cups, cold drink cups, flat bottom dishes, liquid tight paper containers or paper milk containers.* No manufacturer, wholesaler or jobber shall sell or deliver any hot drink cups, cold drink cups, flat bottom dishes, liquid tight paper containers or paper milk containers after April 2, 1945, unless he has received from the purchaser a certification signed manually or as provided in Priorities Regulation 7. This certification shall be in substantially the following form and, once filed by a purchaser with a supplier, covers all future deliveries of any of such cups from the supplier to that purchaser:

The undersigned purchaser certifies, subject to criminal penalties for misrepresentation, that he is familiar with Order L-336 of the War Production Board, and that all purchases from you of items regulated by that order, and the use of the same by the undersigned will be in compliance with the order, as amended from time to time.

The standard certificate provided for in paragraph (d) of Priorities Regulation 7 cannot be used in place of the above certificate; nor may the certificate provided by this order be waived in accordance with paragraph (f) of Priorities Regulation 7.

Furthermore, such customer may distribute to such caterer or concessionnaire for feeding the customer's employees, any paper cups obtained by the customer upon his MRO rating. Except as permitted for caterers and concessionnaires, blanket MRO ratings may not be used by any person to get paper cups for commercially packaging food or other products for shipment or delivery. None of the persons described in paragraph (j) (2) below may use their blanket MRO ratings to buy paper cups which are to be sent to a commercial food packer to be filled and returned to them for use in feeding.

(2) *Other sanitary food containers.* No MRO ratings may be used by any person to buy paper food containers, paper milk containers and liquid tight containers.

(j) *Restrictions on acceptance of delivery, or use of hot drink cups—(1) Use quota.* Except in the case of an individual for his personal use, no person permitted to use hot drink cups as provided in paragraph (j) (2) below shall use in any calendar month, beginning with April 1945, more hot drink cups than 75 percent of his average monthly consumption of hot drink cups during the months of January through March 1944. All authorizations for adjustment of quota made prior to April 1, 1945, shall not be affected by this restriction. Furthermore, this restriction shall not apply to the Army or Navy.

(2) *Persons permitted to use.* No person shall use hot drink cups except the following persons for the purposes indicated:

(i) Army and Navy (excluding domestic post exchanges and ship's service stores but including those located outside of continental United States) for any purpose.

quota provided under paragraph (j) (1) above to any person where there has been an installation of new feeding facilities, or where there has been an increase in the number of workers in his establishment using such facilities, but only when there are no substitutes reasonably available for hot drink cups. Application for such an increase in quota shall be made by letter, in triplicate, to the field office of the War Production Board for the district in which is located the plant of the applicant to which the application relates. The following information shall be included in such letter:

(1) State approximate number of workers employed as of pay-roll period in:

No person shall order any quantity of sanitary food containers for delivery to him or for his account on any date, if receipt thereof on that date would increase his inventory of such containers to more than the amount permitted in the first sentence of this paragraph. This provision does not apply to the Armed Forces, Post Exchanges and Ship's Service Stores.

(n) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(o) *Reports.* All paper food container or paper cup manufacturers shall file Form WPB-3366 in accordance with the instructions in that form. This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942. PART 3285—LUMBER AND LUMBER PRODUCTS

[Order L-335, Direction 17]

SOUTHERN YELLOW PINE WHOLESALERS AND COMMISSION-MEN

The following direction is issued pursuant to Order L-335:

(a) *To whom this direction applies.* This direction applies to every wholesaler and

commission-man who handles Southern Yellow Pine lumber. For the purposes of this direction, a "wholesaler" is any person who, in the normal course of his business, buys and resells Southern Yellow Pine lumber which at no time becomes a part of his yard inventory, or any person who, in the normal course of his business, buys Southern Yellow Pine lumber for or sells Southern Yellow Pine lumber to two or more distribution yards, one or more of which is not his own. It does not include a person who only operates a sawmill or concentration yard and who sells Southern Yellow Pine lumber as an incident thereto. A "commission-man" is a person who customarily represents and sells Southern Yellow Pine lumber for sawmills or concentration yards, receives his compensation in the form of commissions based on the amount of lumber sold, and is independent of both the buyer and the seller.

(b) *Wholesalers and commission-men must report on Form WPB-4207.* Starting with the month of April, every wholesaler and commission-man must file a monthly report with the War Production Board on Form WPB-4207. This report must be filled out in accordance with the instructions contained on the form. For the month of April this report must be mailed to the War Production Board not later than the 15th of April. Each month thereafter it must be mailed not later than the 10th day of the month for which the report is required. A wholesaler or commission-man, who does not file his report with the War Production Board for a particular month, is forbidden, during the period that the report would cover, to deliver, order for delivery, or sell, either for himself or for any other person, any Southern Yellow Pine lumber even though he has received certified orders for such lumber or has certified orders that he would be entitled to extend to get such lumber but for this direction.

(c) *Wholesalers and commission-men who have filed Form WPB-4207.* Unless otherwise notified by the War Production Board, any wholesaler or commission-man, who has filed his report on Form WPB-4207 as required by this direction, may order and sell Southern Yellow Pine lumber to the extent authorized by Order L-335 or one of the directions issued under that order. However, the War Production Board may, pursuant to paragraph (y) (2) of Order L-335, direct a wholesaler or commission-man to accept other orders either in addition to or in place of orders that are included in his report on WPB-4207.

(d) *Restrictions on delivery.* No person shall sell, ship, or deliver, or cause to be sold, shipped, or delivered, any Southern Yellow Pine lumber which he knows or has reason to believe will be accepted or sold in violation of the provisions of this direction.

(e) *Reports.* The above reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942. Any person shall execute and file with the War Production Board such other reports and questionnaires as the War Production Board may, from time to time, require subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(f) *Appeals.* Any appeal from the provisions of this direction shall be made by mailing a letter to the Lumber and Lumber Products Division, War Production Board, Washington 25, D.C., Ref.: L-335, Direction 17, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(g) *Applications and communications.* Form WPB-4207 for use in reporting under this direction may be obtained at any War Production Board district office. All communications, unless otherwise directed, must be addressed as follows: Lumber and Lumber Products Division, War Production Board,

Washington 25, D. C., Ref.: L-335, Direction 17.

FILING OF APPLICATIONS AND STANDARDS FOR PROCESSING THEM

(a) Application on Form WPB-3732 (set forth separately and identify in column (f) of Form: (1), 1944 production on your facilities for your own account; (2), 1944 pro-

duction on your facilities for the account of others; (3), 1944 production of others for your account).

(b) Application must be filed on or before April 15, 1945.

(c) These items will be required to be produced during the second, third and fourth quarters of 1945 in as near equal installments as deliveries of the fabric will permit.

(d) Applications will be considered only for the fabrics and components specified above. Applications calling for other fabrics or components will be denied.

(e) Applicants should base their estimated production on their present labor and machinery. If the quantity applied for is greater than that produced in 1944, a statement must be submitted describing facilities which are available now and were not used for this purpose in 1944.

(f) Priorities assistance will be granted to the extent of 60 percent of the fabric available for this program to persons producing these items at or below prices indicated in Table I above, and the remaining 40 percent will be allocated to those producing these items in prices at or below those indicated in Table II above. This does not, of course, authorize any person to exceed his OPA ceiling price for any item in this program. (For example: Item (1), Snow Suits or Ski Suits (Toddlers'), sizes 1 to 4, at least 60 percent will be allocated to persons producing at \$4.75 or below and the remaining 40 percent will be allocated to those producing from \$4.76 up to and including \$7.75).

(g) Applicants when filing Form WPB-3732 must provide the following information:

(1) The item he wishes to produce, such as snow or ski suit, legging set or coat and ski pants set, or ski pants. Also identify the item by number—for example, snow or ski suit in size range 1 to 4 is #1—leggings set or coat and ski pants set in size range 1 to 4 is #5, etc.

(2) The size range.

(3) Price at which sold.

(4) Quantity in units of each item in each size range and in each price range.

(h) Each applicant who produced during the base period (1944) items listed in this program, must in producing such items from materials obtained with a rating under this program, meet the same specifications, including standards of quality, workmanship, inspection, pressing, folding, and all other operations pertinent to the preparation of the completed garments for marketing, used by the applicant in producing such items sold at the same or nearest higher price during the year 1944.

(i) Each applicant who did not, during the base period, produce the items for which he makes application, shall file with his application the specifications (including the proposed sales price) of the item he proposes to manufacture and, if required by the WPB, a sample. If his application is granted, the applicant must meet the specifications filed. These specifications shall include, but not be limited to, specifications as to dimensions, type of fabric, and stitches per inch, as well as such other essential points as may insure a quality garment, and the price at which the applicant proposed to sell each such item.

(j) Each applicant must include a statement under "remarks" on Form WPB-3732 stating which of the prices he has included in columns (d) and (e) of the form are approved OPA ceiling prices. If any of the prices included in columns (d) and (e) are not approved OPA prices, an explanation of the steps taken to obtain approved OPA ceiling prices must be included; in such cases priority assistance will not be given

until notice of approval by OPA of a ceiling price is received by the War Production Board from the applicant.

However, any person who did not produce the item in 1944 and who wants to make it or whose facilities for the production of the item have increased since 1944 or who wants to increase the production of the item may apply for priorities assistance under the program, but his application will not be entertained unless it is accompanied by a signed statement setting forth the facilities or increased facilities he owns or has under contract for his exclusive use to produce the item(s) applied for within the program period. Where facilities or increased facilities are available because of a change from the production of other items, he must state whether production will be reduced on any other items and specify the items. Such applications will be granted on an equitable basis.

Likewise, the reservation of set-asides and rated delivery quotas for 1943 customers under paragraph (d) (2) shall continue until April 15 with respect to deliveries to be made in May and June.

PART 4500—POWER, WATER, GAS AND CENTRAL STEAM (NATURAL GAS)

[Utilities Order U-7, Special Directive C]

Whereas, upon investigation, it has been determined that:

(1) A critical shortage of natural gas exists on the system of Ohio Fuel Gas Company ("Ohio") which threatens gas deliveries to war producers and essential civilian services being served by Ohio;

(2) Additional supplies of natural gas can be transmitted into the system of Ohio through the facilities of the Panhandle Eastern Pipe Line Company ("Panhandle");

(3) Panhandle will have available during the months of April through October, 1945, varying amounts of gas in excess of its firm commitments to other utility systems and the requirements of its own consumers;

(4) Delivery of the aforementioned excess gas by Panhandle to Ohio will be in the public interest and will promote the national defense;

Therefore, it is ordered and directed pursuant to paragraphs (b) (3) and (b) (4) of Utilities Order U-7:

(a) Commencing April 1, 1945, and continuing until October 31, 1945, unless otherwise ordered by the War Production Board, Panhandle shall each day deliver to Ohio all the natural gas available on its system over and above the requirements of its utility customers and the requirements of all con-

sumers supplied with natural gas directly from the Panhandle System, including such additional requirements as may hereafter be authorized by the War Production Board under Utilities Order U-7: *Provided*, That the total amount of gas delivered hereunder during the period April 1, 1945, to October 31, 1945, shall not exceed 9 billion cubic feet.

(b) Ohio shall accept all deliveries tendered by Panhandle pursuant to the provisions of paragraph (a) above.

(c) Each week during the effective period of this Directive, Panhandle shall mail to the Office of War Utilities of the War Production Board, Washington, D. C., (Ref: U-7) a report setting forth:

Deliveries made each day at each main delivery point to Michigan Consolidated Gas Company, Consumers Power Company, East Ohio Gas Company and Ohio.

Appendix A: Bakery products covered by this regulation and appropriate base period for calculating maximum prices.

Authority: § 1351.1901 issued under 56 Stat. 23, 765; 57 Stat. 566; Pub. Law 383, 78th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681.

SECTION 1. Applicability—(a) Commodities covered by this regulation. This regulation sets up rules for determining maximum prices for the sale of certain bakery products. It is not intended to cover every item which might be considered a bakery product, but is limited to pastries, doughnuts, sweet yeast raised goods, pies, fruit cakes and all other cakes except cookies. It continues the pattern laid down by Maximum Price Regulation 319 and Revised Maximum Price Regulation 319 under which maximum prices for these products have heretofore been determined.

(b) Except as otherwise provided in paragraph (c) of this section, this revised regulation shall apply to all sales of commodities covered hereby within the 48 states and the District of Columbia.

(c) *Exempt sales.* (1) The maximum prices for export sales shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation issued by the Office of Price Administration.

(2) Sales or deliveries of any commodity covered by this regulation to the War Department or the Department of the Navy of the United States shall be exempt from this regulation, but sales or deliveries of any such commodity to post exchanges or ships' stores shall be subject to this regulation.

(3) Whenever circumstances of emergency make the purchase of any commodity subject to this regulation by the United States or any of its agencies imperative, and it is impossible to secure or unfair to require immediate delivery at the maximum price which would otherwise be applicable, such purchases and deliveries may be made pursuant to the provisions of section 4.3 (f) of Revised Supplementary Regulation No. 1 to the General Maximum Price Regulation, as amended: *Provided, however*, That the Administrator may, by order, waive the reporting of any part of the information required by section 4.3 (f) in connection with a particular purchase or group of purchases upon determining that such information may not reasonably be required under all the circumstances, and he may, in lieu thereof, require the reporting of other information more suitable to the circumstances.

(4) On sales and deliveries of any commodity subject to this regulation to a procurement agency of the United States involving extra packing expenses, the seller or any subcontractor under the seller's contract with the United States may add to the maximum prices

specified herein the appropriate amounts for special packing as provided in Revised Supplementary Order No. 34.

SEC. 2. Sales at other than maximum prices. (a) Regardless of any contract or obligation, no person shall sell or deliver, and no person shall in the course of trade or business buy or receive, any of the commodities covered by this regulation at prices above the maximum prices established by this regulation, nor shall any person agree, solicit, offer or attempt to do any of the foregoing.

(b) Prices lower than the maximum prices established by this regulation may, of course, be charged or paid.

SEC. 3. Definitions. When used in this regulation, the following terms shall have the following meanings:

(a) "Person" means any individual, corporation, partnership, association or other organized group of persons, or the legal successor or representatives of any of the foregoing, and includes the United States or any agency thereof, any other Government, or any of its political subdivisions and any agency of any of the foregoing.

(b) "Producer" means with respect to any lot of the commodities covered by this regulation the person who baked, manufactured, produced or processed the same in the operation of a producing plant.

(c) "Wholesaler" means with respect to any lot of bakery products any person, other than a routeseller, who purchases a commodity covered by this regulation for resale to any person other than an ultimate consumer.

(d) "Retailer" means with respect to any lot of bakery products any person, other than a routeseller, who purchases a commodity covered by this regulation for resale to ultimate consumers. It includes restaurants, cafes, cafeterias, hotels and all other eating places purchasing a commodity covered by this regulation for resale or distribution to their customers and all institutions, public or private, purchasing the same for resale or distribution to their customers or inmates, except that maximum prices established by section 9 hereof shall not apply to sales by eating places for consumption on the premises.

(e) "Routeseller" means with respect to any lot of bakery products any person who purchases a commodity covered by this regulation for resale from a vehicle operated by him over a regular route.

(f) "Direct labor costs" means with respect to any lot of bakery products the labor costs involved in the manufacturing, packing, and preparation for shipment, but shall not include the labor involved in the purchase of ingredients and supplies, plant and machinery maintenance, or distribution, selling, advertising and administrative expenses. Direct labor costs are those costs per unit of the commodity to be priced determined by the producer's actual costs thereof as reported in April 1943 but calculated at a rate not higher than the highest wage rate paid by him in March 1942 for each class of labor involved in the production of the commodity. If the producer employs a class of labor included in "direct labor costs" which he did not employ during March 1942,

he shall take the highest wage rate paid in March 1942 by a producer of the same or a comparable commodity, operating under the most nearly comparable conditions, who did employ that class of labor during March 1942.

(g) "Labor costs previously reported" means the direct labor costs which were calculated and reported in April 1943 under Maximum Price Regulation 319 based on the highest wage rate paid during March 1942, or which have since been reported under the provisions of Revised Maximum Price Regulation 319 or this regulation.

(h) "Cost of ingredients and packaging materials" means the cost of ingredients and packaging materials to the producer, not exceeding the maximum price thereof, when purchased at his usual source of supply and in quantities normally purchased by him.

(i) "Markup" means the markup established on the particular commodity in question for a sale to a particular class of purchaser pursuant to the provisions of Maximum Price Regulation 319, Revised Maximum Price Regulation 319 or this regulation.

(j) "Bakery products" means pastries, doughnuts, sweet yeast raised goods, pies, fruit cakes and all other cakes except cookies.

SEC. 4. Maximum prices of producers must be calculated and reported. If you are a producer making any bakery product covered by this regulation, you cannot sell such commodity until you have calculated and reported your maximum price to the Office of Price Administration. If you have previously filed such report under Revised Maximum Price Regulation 319, or if you are the transferee of a bakery plant and your transferor has filed such report, it shall satisfy the requirements of this regulation until a further report is required to be made.

SEC. 5. Maximum prices of producers who made at least twenty-five percent of their total net sales to retailers during base period. If you are a producer of bakery products and made at least twenty-five percent of your total net sales of such products to retailers during the applicable base period referred to in Appendix A, you have already calculated and reported your maximum prices for such sales under Revised Maximum Price Regulation 319. This regulation continues such maximum prices without change, subject to recalculation as provided in section 10 of this regulation.

(a) *On sales to ultimate consumers.* Your maximum price on sales of bakery products to ultimate consumers shall be the maximum price which you were last required to report for your sales to retailers, multiplied by one hundred twenty-five (125) percent.

(b) *On sales to wholesalers and routesellers.* Your maximum price on sales of bakery products to wholesalers and routesellers shall be the maximum price which you were last required to report for your sales to retailers, less twenty (20) percent.

SEC. 6. Maximum prices of producers who sold to ultimate consumers, and made less than twenty-five percent of

their total net sales to retailers during base period. If you are a producer of bakery products and sold such products to ultimate consumers and made less than twenty-five percent of your total net sales of such products to retailers during the applicable base period referred to in Appendix A, you have already calculated and reported your maximum prices for such sales under Revised Maximum Price Regulation 319. This regulation continues such maximum prices without change, subject to recalculation as provided in section 10 of this regulation.

(a) *On sales to retailers.* Your maximum price on sales of bakery products to retailers shall be the maximum price which you were last required to report for your sales to ultimate consumers, less twenty (20) percent.

(b) *On sales to wholesalers and routesellers.* Your maximum price on sales of bakery products to wholesalers and routesellers shall be the maximum price which you were last required to report for your sales to ultimate consumers, less thirty-six (36) percent.

SEC. 7. Maximum prices of producers who sold to wholesalers and routesellers and made less than twenty-five percent of their total net sales to retailers during base period. If you are a producer of bakery products and sold such products to wholesalers and routesellers and made less than twenty-five percent of your total net sales to retailers during the applicable base period referred to in Appendix A, you have already calculated your maximum prices for such sales under Revised Maximum Price Regulation 319. This regulation continues such maximum prices without change, subject to recalculation as provided in section 10 of this regulation.

(a) *On sales to retailers.* Your maximum price on sales of bakery products to retailers shall be the maximum price which you were last required to report for your sales to wholesalers and routesellers multiplied by one hundred twenty-five (125) percent.

(b) *On sales to ultimate consumers.* Your maximum price on sales of bakery products to ultimate consumers shall be the maximum price which you were last required to report for your sales to wholesalers and routesellers, multiplied by one hundred fifty-six (156) percent.

SEC. 8. Maximum prices of producers who made no sales during base period. If you are a producer of bakery products and made no sales of such products during the base period, you will not be able to classify yourself for the purpose of determining, recalculating and reporting your maximum prices under this regulation because you will not have had any "total net sales during the base period". In such case, and for the above purposes, you shall substitute your "total net sales during your first month of operations" for "total net sales during the base period" wherever the latter is specified in any provision of this regulation.

SEC. 9. Maximum prices of wholesalers, routesellers and retailers. The maximum prices of wholesalers, routesellers and retailers of bakery products shall be the maximum prices which their producers could charge for a sale to the

same class of purchaser, except that in the case of fruit cake the wholesaler or retailer may add the actual transportation cost incurred by him to such maximum price if he purchased such fruit cake f. o. b. the producer's plant and the producer's markup during the base period did not include the cost of delivery.

SEC. 10. Recalculation and reporting of maximum prices—(a) Recalculation. If you are a producer of bakery products covered by this regulation, you must recalculate your maximum prices for the sale of such products during the months of April and October of each year in the following manner:

(1) *Producers who made at least twenty-five percent of their total net sales to retailers during base period.* If you made at least twenty-five percent of your total net sales to retailers during the base period, you shall first refigure your maximum prices on sales of bakery products to retailers by taking the ingredient and packaging cost per unit at the time of such recalculation, and adding to this figure, the direct labor costs and markup previously reported by you. If the resulting figure is lower than the price last reported by you, you must report this recalculated price as your maximum price. If the resulting figure is equal to or higher than the maximum price you last reported, you need not report such recalculated figure if you are going to continue to use the same maximum price previously reported by you. If you desire to establish such higher price as your maximum price, you must report it as your new maximum price.

In order to figure your maximum prices on your sales to wholesalers, routesellers and ultimate consumers, you apply the same markups and discounts to your maximum price on sales to retailers which you used in paragraphs (a) and (b) of section 5.

(2) *Producers who sold to ultimate consumers, and made less than twenty-five percent of their total net sales to retailers during base period.* If you sold to ultimate consumers and made less than twenty-five percent of your total net sales to retailers during the base period, you shall first refigure your maximum prices on sales of bakery products to ultimate consumers by taking the ingredient and packaging cost per unit at the time of such recalculation and adding to this figure, the direct labor costs and markup previously reported by you. If the resulting figure is lower than the price last reported by you, you must report this recalculated price as your maximum price. If the resulting figure is equal to or higher than the maximum price you last reported, you need not report such recalculated figure if you are going to continue to use the same maximum price previously reported by you. If you desire to establish such higher price as your maximum price, you must report it as your new maximum price.

In order to figure your maximum prices on your sales to wholesalers, routesellers and retailers, you apply the same discounts to your maximum price on sales to ultimate consumers which you used in paragraphs (a) and (b) of section 6.

(3) *Producers who sold to wholesalers and routesellers and made less than twenty-five percent of their total net sales to retailers during base period.* If you sold to wholesalers and routesellers and made less than twenty-five percent of your total net sales to retailers during the base period, you shall first refigure your maximum prices on sales of bakery products to wholesalers and routesellers by taking the ingredient and packaging cost per unit at the time of such recalculation and adding to this figure, the direct labor costs and markup previously reported by you. If the resulting figure is lower than the price last reported by you, you must report this recalculated price as your maximum price. If the resulting figure is equal to or higher than the maximum price you last reported, you need not report such recalculated figure if you are going to continue to use the same maximum price previously reported by you. If you desire to establish such higher price as your maximum price, you must report it as your new maximum price.

In order to figure your maximum prices on your sales to ultimate consumers and retailers, you apply the same markups to your maximum price on sales to wholesalers and routesellers which you used in paragraphs (a) and (b) of section 7.

(b) *Reporting.* After you have recalculated your maximum prices as provided in paragraph (a) above, you shall file such prices with the appropriate office of the Office of Price Administration as indicated below within ten days after the expiration of the specified month for which such prices are recalculated:

(1) If you sold to ultimate consumers and made less than twenty-five percent of your total net sales to retailers during the base period, you must report your maximum prices for sales to ultimate consumers on OPA FORM NO. 634-2248¹ to the district office of the Office of Price Administration for the district in which you produced such product.

(2) If you sold to any other class of purchaser during the base period, you must report your maximum prices for sales to retailers or wholesalers and routesellers on such form to the Office of Price Administration at Washington, D. C. If you sold to ultimate consumers in addition to retailers, wholesalers or routesellers, you must file such report in duplicate with the Office of Price Administration at Washington, D. C.

(c) *Determination of direct labor costs and markup when unknown to producer.* If you are unable to determine your direct labor costs or markup for any product separately during the applicable base period set forth in Appendix A, or if you did not manufacture such product during the base period, you may use a combined figure for both your direct labor costs and markup. To determine this figure for a product which you produced during the base period, you must subtract the average ingredient and packaging costs from the price which you charged for the

product during the base period. For a product which you did not manufacture during the base period, you must subtract the ingredient and packaging costs from the maximum price first established for the sale of such product. In either case the resulting figure may be used by you in place of your direct labor costs and markup under this section and under section 11.

(d) *Adjustments of fraction of a cent.* If the figure resulting from the calculation of any maximum price contains a fraction of one-half cent or more, it shall be adjusted to the next higher cent and if it contains a fraction of less than one-half cent, it shall be adjusted to the next lower cent.

SEC. 11. Optional method of recalculating maximum prices on sales of pies. If you are a producer of pies, you may recalculate maximum prices on individual varieties or you may recalculate one price for all varieties of a given size. To determine one price for all varieties of a given size, you must figure the weighted average markup for pies of this size during the base period, to which you shall add the average cost of ingredients and packaging materials as of the time of recalculation, by weighting the cost of ingredients and packaging materials of each individual variety of that size by the volume of that variety and size produced by you during the six months prior to such time of calculation, plus the weighted average of the direct labor costs last reported by you. If you choose to recalculate your prices by this method, you must include all varieties produced in the particular size.

You must report your maximum price on your sales of pies to the appropriate office in accordance with the provisions of section 10 (b).

SEC. 12. Price changes may be reflected in unit weight changes. (a) If you are a producer and are required to decrease or desire to increase your maximum prices as determined under section 10 or 11, you may instead make changes in package or unit net weight to reflect the change in maximum price by dividing your existing maximum price per unit of the commodity by your maximum price as recalculated and then multiply the existing package or unit net weight of the commodity by the percentage so determined. The resulting figure shall be the new package or unit net weight for sales at the maximum price prevailing prior to the recalculation in question. Such package or unit net weight changes together with the applicable maximum prices must be reported to the Office of Price Administration as provided in section 10 (b).

(b) If you are a producer and you desire to increase the weight of a product and sell it at a specified higher price, you may increase the weight of the product so that the cost of ingredients and packaging materials in the enlarged product plus the markup and direct labor costs previously reported for the original item equal the desired maximum price. You must report such changes to the Office of Price Administration as provided in section 10 (b).

¹ Copies may be obtained at any District Office of the Office of Price Administration or they may be reproduced.

SEC. 13. Modification of maximum prices. Whenever a maximum price calculated and reported under this regulation is apparently based upon a miscalculation or appears to be excessive, the Office of Price Administration may require the filing of data supporting the price as calculated and reported.

If the supporting data does not substantiate the price as calculated and reported the Office of Price Administration may establish such maximum price as is justified by the data submitted, or if insufficient data is submitted, it may establish a maximum price consistent with the maximum prices for similar products produced by other sellers of the same class. Whenever the Office of Price Administration disapproves a maximum price as calculated and reported and establishes a different maximum price, it shall notify the producer in writing of the maximum price established for the sale of such product, and the producer shall not thereafter sell such product at a higher price.

SEC. 14. Maximum prices for new products. If you desire to produce a bakery product not previously manufactured by you, you must calculate and report your maximum price for sales of such product to the appropriate office of the Office of Price Administration specified in section 10 before making any sales thereof.

(a) Your maximum price for such product shall be your cost of ingredients and packaging materials at the time of calculation, plus your direct labor costs and markup as computed for a similar commodity produced by you. For the purposes of this section a "similar commodity" is a commodity which has (1) substantially the same cost at the time of determination, (2) is made from the same basic type of dough or batter and (3) has the same weight when completely finished and ready for wrapping or when ready for sale if sold unwrapped. In the case of pies, the similar commodity must have the same kind of filler; or

(b) If you are unable to determine a maximum price in such manner, you may take the cost of ingredients and packaging materials at the time of calculation and add thereto your direct labor costs and markup on the product produced by you having a greater weight but having the same form, basic type of dough or batter, and icing, filling or topping characteristics, adjusted downward in accordance with the ratio of the weight of the new product to the weight of the old product; or

(c) If you cannot establish a maximum price under subparagraphs (a) or (b) above, you shall apply to the regional office of the Office of Price Administration for the region in which you produce such product, for a maximum price therefor. Such application shall set forth (1) the reason why you are unable to establish a maximum price under the foregoing provisions of this section, (2) a detailed description of the product, including the brand name, if any, (3) an itemized breakdown showing the cost of each ingredient and packaging material

of the new product, (4) if you produce comparable products an itemized breakdown for your most nearly comparable product, and (5) the specific price desired for each producing plant for sales to each type of purchaser, f. o. b. your producing plant and delivered. The Regional Administrator for such region shall approve or disapprove said maximum price and, in the event of a disapproval, he shall proceed to determine a reasonable maximum price for such sale.

SEC. 15. Additions to maximum prices for wrapping or packing. If you are a wholesaler, retailer or routeseller and receive any bakery product unwrapped or unpackaged, you may add to your maximum price of such product the cost, not to exceed the maximum price thereof, of the packaging materials furnished by you.

SEC. 16. Prices to ultimate consumers on packaged items must be shown. (a) If you are a producer of bakery products and sell them packaged, you must print the maximum price to ultimate consumers on the packaging materials or otherwise show such maximum price on the label or other device attached to or inserted in the package so as to be readily seen by the purchaser, except (1) on sales to restaurants, cafes, cafeterias, hotels and all other eating places, (2) on sales to any class of purchaser of fruit cake sold on an f. o. b. basis during the base period and for which your markup was determined on an f. o. b. basis, and (3) on sales to ultimate consumers if you furnish a list to the purchaser containing the names of and your maximum prices for each bakery product which you offer for sale to such purchaser: *Provided*, That no sale shall be made to any purchaser after the expiration of 14 days from the day upon which such a list is delivered to such a purchaser.

(b) No person shall sell any packaged bakery product without having the price printed on the label or other device attached to or inserted therein when required under paragraph (a) of this section.

SEC. 17. Posting requirements for sales at retail. If you sell a commodity covered by this regulation at retail which is unwrapped or unpackaged or fruit cake which was purchased on an f. o. b. basis, you shall, on and after May 1, 1945, post your current selling price for each such item at or near the place in the store where it is offered for sale and where it can readily be seen by the purchaser. This provision shall not apply to sales by routesellers.

SEC. 18. Notice of retailer's maximum price. When any unpackaged item of any commodity subject to this regulation is sold by a producer, wholesaler or routeseller to a retailer or by a producer to a wholesaler or routeseller for the first time after the maximum price for it has been established or a new and different maximum price for it has been recalculated under this regulation, the seller

shall supply his purchaser with a written notice as follows:

NOTICE OF RETAILER'S MAXIMUM PRICE

The Office of Price Administration has established a new maximum price for retailers for sales by them of (insert name of commodity) at (insert retailer's maximum price for this commodity). This price was determined by multiplying producer's maximum price for sales of this commodity to retailers by 125 percent. The Office of Price Administration requires you to keep this information for public examination.

When the retailer receives this notice he shall keep it and make it available for public examination upon request.

SEC. 19. Records and reports. Every seller, and every purchaser in the course of trade or business, shall keep the following records for inspection by the Office of Price Administration, for so long as the Emergency Price Control Act of 1942, as amended, and the Stabilization Act of 1942, as amended, remain in effect:

(a) *Records in connection with the calculation and recalculation of maximum prices by producers.* (1) Copies of all reports filed under sections 10, 11, 12 and 14 of this regulation;

(2) Copies of all calculations made in order to file reports of maximum prices under sections 10, 11, 12 and 14 of this regulation. For products manufactured during the base period, he shall keep records and invoices showing the cost of each ingredient and packaging material, cost of delivery on delivered sales, payroll records of March 1942, labor costs as of April 1943 computed at rates as of March 1942, markup, and selling price during base period. For products not manufactured during the base period, he shall keep records and invoices showing the cost of each ingredient and packaging material, payroll records and direct labor costs figured at rates no higher than those of March 1942.

(b) *Records in connection with sales.* (1) For sales by the producer to wholesalers and routesellers, he shall furnish an invoice for each sale, showing the name and address of the purchaser, the items sold, the f. o. b. plant price or the delivered price, as the case may be, and the discounts allowed and the delivery cost, if any. A copy of each such invoice shall be retained by the producer.

(2) For sales to ultimate consumers, the seller shall keep his customary and usual records, and in addition, upon the request of any purchaser, shall furnish an invoice of the sale whether or not he customarily furnished such invoice.

(3) For sales to retailers, the seller shall keep his customary and usual records, and shall furnish sales invoices showing the name and address of each purchaser, the items so sold and the price received for each, if that was his custom prior to March 1942. In addition, he shall furnish such invoice of the sale, upon the request of the purchaser, whether or not he customarily furnished the same.

SEC. 20. Evasion. The provisions of this regulation shall not be evaded

whether by direct or indirect methods in connection with any offer, solicitation, agreement, sale, delivery, purchase or receipt of any commodity covered by this regulation alone or in conjunction with any other commodity or by way of commission, service, transportation or other charge, discount, premium or other privilege or by tying agreement or other trade understanding or by any other means.

SEC. 21. Licensing. The provisions of Licensing Order No. 1 licensing all persons who make sales under price control are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 22. Enforcement. Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for suspension of licenses, provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 23. Interpretations, protests and petitions for amendment. Any person seeking an interpretation or an amendment of, or desiring to file a protest against, any provision of this regulation may do so in accordance with the provisions of Revised Procedural Regulation No. 1, as amended, issued by the Office of Price Administration.

SEC. 24. Reasonable tolerance permitted. Each individual item of a commodity produced by a baker need not weigh as much as the weight reported for the commodity under section 10. A reasonable tolerance shall be permitted as to individual items but the producer must comply with the purpose of section 10 by maintaining average weights that conform to the weight reported under that section.

1. Section 8 is amended to read as follows:

SEC. 8. *Adjustment of maximum prices*—(a) *When adjustments may be granted.* Either upon application for adjustment in accordance with Revised Procedural Regulation 1, or on his own motion, the Price Administrator may adjust a processor's maximum price established for an item under this supplement where it appears that:

(1) The maximum price is below the general level of prices prevailing for the same or similar items sold to the same class of purchasers by other processors;

(2) The maximum price is such as to prevent or threaten to prevent his continued production of the item;

(3) An increase in the maximum price will enable him to continue production;

(4) The loss of his production would result in consumers having to pay higher prices for the same or for the most nearly similar item available;

(5) In the judgment of the Price Administrator an increase in his maximum price would, under all the circumstances, be in furtherance of the purposes of the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and Executive Orders 9250 and 9328.

(b) *Amount of adjustment.* The maximum price as adjusted under this section shall in no event exceed the general level of prices prevailing for the same or similar items of flour mixes sold to the same class of purchasers by other processors. Subject to this limitation and the limitation of paragraph (a) (5), the adjusted maximum price shall not exceed the following amount:

(1) Processing costs for the item, if the applicant had any net profit (before income and excess profits taxes) on his flour mix operations during his most recent fiscal period;

(2) Total costs of the item if the applicant had no net profit (before income and excess profits taxes) on his flour mix operations during his most recent fiscal period.

(c) *Cost definitions.* (1) "Processing costs" shall be determined per unit to include actual costs (not to exceed maximum prices and lawful wages) of (i) ingredients, (ii) packaging materials, (iii) direct labor, (iv) indirect labor, (v) incoming transportation, (vi) outgoing transportation if sold on a delivered basis, (vii) depreciation, (viii) factory rental, (ix) insurance and (x) all other cost factors generally pertaining to processing operations, but shall not include general administrative and selling costs.

(2) "Total costs" shall be determined by adding to processing costs general administrative and selling costs.

2. Section 10 is amended to read as follows:

SEC. 10. *Reports which sellers must file.* Within twenty days after the effective date of this amendment, every processor (except processors of pancake and waffle mixes) who has a maximum price subject to this supplement, or within twenty days after a maximum price has been established in the manner explained in section 9 (a) or 11 (j) of this supplement,

shall report by letter to the Office of Price Administration, Washington, D. C., as follows:

(a) A description of each item, naming the brand, kind of mix, package type and size, including bulk size.

(b) The price to each class of customer to which the item is sold, whether the price is f. o. b. or delivered, and if f. o. b., the shipping point.

(c) The regulation under which the price was determined.

This amendment shall become effective April 7, 1945.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[Restriction Order 14]

SHORTENING RESTRICTION ORDER FOR PUERTO RICO

PREAMBLE: All the information obtained shows that the stocks of shortening in the Island are low. At the same time there is no assurance that imports of said commodity may be increased accordingly. The result is that the supplies of shortening in Puerto Rico are not sufficient to meet the normal demand. By restricting the transfer of shortening which may be made to industrial and institutional users and limiting the quantity which consumers may acquire of said commodity, we hope that an equitable and fair distribution will be assured.

ARTICLE II—REPORTS

- 2.1 Importer's and wholesaler's monthly reports.
- 2.2 An importer may not transfer shortening if he does not file his monthly reports.
- 2.3 A wholesaler may not acquire or transfer shortening if he does not file his monthly reports.

ARTICLE I—HOW SHORTENING IS TRANSFERRED

SECTION 1.1 *Restriction on transfers of shortening*—(a) *How shortening is transferred to retailers.* Unless authorized in writing by the Director, no importer or wholesaler shall transfer shortening to any person, other than a retailer, and no person, except a retailer, shall accept a transfer of shortening from an importer or wholesaler. No importer or wholesaler shall transfer shortening to a retailer and no retailer shall accept from an importer or wholesaler a transfer of shortening in containers of more than five (5) pounds.

(b) *How shortening is transferred to consumers.* Unless authorized in writing by the Director, no retailer shall transfer shortening to any person other than a consumer and no person except a consumer shall accept from a retailer a transfer of shortening. *Provided*, That no retailer shall transfer to a consumer shortening in containers of more than five (5) pounds, and such transfers shall not exceed ¼ of a pound a week per person. However, a consumer may act as an agent of a family or other unit in the purchase of a quantity of shortening not to exceed the allotment for all members of such family or unit who customarily eat the majority of the meals as member of such family or unit. *Provided further*, That no retailer shall knowingly transfer shortening to a consumer who has obtained his weekly quota of lard pursuant to the provisions of Restriction Order No. 13 and such person shall not accept a transfer of shortening from a retailer.

(c) *How shortening is transferred to institutional or industrial users.* Institutional or industrial users who must use shortening in the performance of their services may be authorized by the Director to acquire a quantity of shortening. *Provided*, That no institutional or industrial user may request or accept an authorization from the Director to acquire shortening to be used during a specified period if he has applied for and obtained from his Local Board a certificate authorizing him to acquire lard to be used during such period, nor shall he apply or accept from his Local Board a certificate for the purchase of lard to be used during a specified period if he

has already obtained from the Director authorization to acquire shortening for use during such period. Applications for such authorization shall be made in writing, specifying the amount of shortening desired, the nature and volume of the business if an industrial user, nature and persons fed in the institution if an institutional user, and that his petition is not in violation of section 1.1 (c) of this order. Upon receipt of such applications the Director may take such action as he shall deem necessary or appropriate.

SEC. 1.2 Exceptions to the limitations on transfers of shortening—(a) Exempt agencies. Nothing in this restriction order shall be construed to limit the quantity of shortening which may be transferred to the Army and Navy of the United States, United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Commission for Aeronautics and the Office of Scientific Research and Development.

(b) **Judicial process.** Any person may acquire shortening pursuant to judicial process or under the supervision of a court of competent jurisdiction.

ARTICLE II—REPORTS

SEC. 2.1 Importer's and wholesaler's monthly reports. Every importer and wholesaler must prepare in duplicate a monthly report on Form OPA PR-R 208 indicating the amount of shortening received during the month, name of his customers of said commodity, and transfers of shortening made to each one of them during the month and amount of shortening on hand at the end of the month. The original of said report must be filed with the Office of Price Administration, at San Juan, Puerto Rico, and the duplicate shall be kept by the importer or wholesaler for at least six months after the restriction on shortening has been lifted. The monthly reports must be filed not later than the fifth day of the month immediately succeeding the period reported.

SEC. 2.2 An importer may not transfer shortening if he does not file his monthly reports. An importer who does not file his monthly reports within the time specified in this order shall not thereafter make any transfer of shortening, unless authorized by the Director.

SEC. 2.3 A wholesaler may not acquire or transfer shortening if he does not file his monthly reports. A wholesaler who does not file his monthly reports within the time specified in this order shall not thereafter transfer or accept the transfer of shortening, unless authorized by the Director.

ARTICLE III—PROHIBITED ACTS

SEC. 3.1 Discrimination. No importer, wholesaler or retailer shall discriminate in the transfer of shortening among persons entitled to receive transfers under this order.

SEC. 3.2 False statements or entries. No person shall make any false statement or entry in any document or record

required to be filed or kept by him under this order.

SEC. 3.3 Transfers in violation of Restriction Order No. 14. No importer, wholesaler or retailer shall transfer shortening and no person shall accept the transfer of shortening except in accordance with this restriction order.

SEC. 3.4 Offer, attempt or agreement to violate this restriction order. No person shall offer, solicit, attempt or agree to do any act in violation of this order.

ARTICLE IV—ENFORCEMENT

SEC. 4.1 Criminal prosecution. Any person who wilfully performs any act prohibited or wilfully fails to perform any act required by any of the provisions of this restriction order may, upon conviction, be fined not more than \$10,000 or imprisoned for not more than one year, or both, and shall be subject to such other penalties or actions as may be prescribed by all applicable statutes.

SEC. 4.2 Suspension orders. Any person who violates this order or any other order issued hereunder may, by administrative suspension order, be prohibited from receiving or disposing of shortening or any other rationed commodity. Proceedings for the suspension order shall be instituted and governed by the provisions of Procedural Regulation No. 4 of the Office of Price Administration.

PART 1499—COMMODITIES AND SERVICES
[SR 14F, Amdt. 3]

CHANNEL CARBON BLACK

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Section 28 is revised and amended to read as follows:

SEC. 28. *High cost output of channel black sold to Defense Supplies Corporation—(a) Applicability.* (1) Any seller of high cost output of rubber grades of non-specialty channel carbon black, produced under the War Production Board program for increasing the supply of such black, may use the maximum prices established by this section in place of his maximum prices established under other provisions of the General Maximum Price Regulation for his sales of such high cost output to Defense Supplies Corporation.

(2) High cost output shall include:

(i) Output from new facilities. New facilities are:

(a) "New plants," which are either

(1) Plants which did not operate at any time during June 1944, or

(2) Plants, or portions of plants, which operated during June 1944, but have been moved to a new location where gas costs are substantially greater than at the old location and have been set up as a new plant.

(b) "Expanded plants," which are existing plants (plants in operation at any time during June 1944), in which the number of burner units in operation has been increased above the maximum number in operation during June 1944.

(ii) Output of existing plants attributable to supplemental raw material. Such output shall include:

(a) Output produced from supplemental raw materials in order to utilize portions of existing channel black plants which have become idle since June 30, 1944 or which would otherwise become idle.

(b) Additional output produced from supplemental raw materials used at channel black plants whose facilities are already in full operation.

(iii) "Supplemental raw materials" include natural gas purchased at a cost higher than in June 1944, natural gas enriching agents such as propane, naphtha, natural gasoline fractions, and the like, costing more than normal raw materials, and additional gas used to operate a new facility.

(b) *Determination of amount of high cost output.* (1) The amount of high cost output at any new facility or from supplemental raw materials shall be deter-

mined by actual physical measurement where this is feasible.

(2) Where it is not feasible to separate the high cost output of channel carbon black produced at a new facility or from supplemental raw materials, the high cost output shall be computed by multiplying the quantity or volume (adjusted for specified temperature and pressure base) of supplemental raw material, as the case may be, by the estimated yield in pounds of a specific grade of carbon black per specified unit of supplemental raw material used. Where more than one raw material is used, this information should be given for each supplemental raw material used. The yield estimate shall be made in accordance with customary methods of estimating yield. The yield per gallon of propane shall be calculated at .25 lb. of channel black.

The producer shall, prior to sale of any high cost output, the amount of which is determined on the basis of estimated yield, submit in writing to the Rubber, Chemicals and Drugs Price Branch, Office of Price Administration, Washington 25, D. C., a full description of the tests made in arriving at the estimated yield of the supplemental raw material; a full description of the supplemental raw material to be used, a statement as to the sources of supply of each such material and the amount to be obtained from each source; the yield figure the producer proposes to use; the grade of channel black to be produced and to which the yield refers. If within 20 days of mailing this report the producer has not received a written disapproval of the yield figure proposed, the producer may use such yield figure in computing his additional production and maximum prices therefor. The Office of Price Administration may at any time disapprove, or modify, the yield figure proposed, and in doing so may consider the yields obtained by other producers of channel carbon black using the same supplemental raw materials. The producer may at any time request modification of the yield estimate and submit evidence in support of such request, and such request and supporting evidence shall be considered by the Office of Price Administration, which shall make such adjustment in the yield figure as may be warranted.

(c) *Maximum prices.* (1) The maximum price per pound in covered hopper cars, f. o. b. plant, for sales of the high cost output of rubber grades of non-specialty channel black produced at any new plant, shall be the sum of the following items per pound of such high cost output. The computation is to be made in accordance with subparagraph (2) below and reported in accordance with subparagraph (4) below.

(i) Cost of supplemental raw materials.

(ii) Delivery cost of supplemental raw materials.

(iii) Gas treatment cost.

(iv) Amortization of preparatory expense involved in rehabilitation of existing plants and the adaptation of channel plants for the propane enrichment of gas

and depreciation (except on bagging facilities).

All items of preparatory expense involved in the rehabilitation of existing plants which, in accordance with good accounting practice and the regulations of the Bureau of Internal Revenue, need not be capitalized, may be written off within a period of not less than one year. All items of preparatory expense involved in the rehabilitation of existing plants, which in accordance with good accounting practice and the regulations of the Bureau of Internal Revenue are considered depreciable items and the cost of building new plants and moving idle plants to new locations shall be depreciated at normal rates applicable to like items. The Administrator may, on application by the producer, permit the use of a higher than normal rate where he finds that because of particular circumstances applying to the plant such higher rate is necessary to reflect the probable useful economic life of the plant. The cost of equipment required for the propane enrichment of gas used by channel black plants, less its salvage value, shall be written off over a six months period provided that the costs are prudently incurred, and under WPB authorization.

(v) Defense Plant Corporation rentals.

(vi) Direct labor cost (excluding bagging labor).

(vii) Other manufacturing costs properly assignable to the high cost output. Such costs include indirect labor, factory supplies, repairs and maintenance of buildings, machinery, and equipment used in the manufacture of high cost output, insurance, property taxes, purchased utility services, and other items commonly associated with factory operations. They do not include depreciation, amortization of preparatory expense and cost of propane enrichment equipment, Defense Plant Corporation rentals, or bagging costs.

(viii) Selling and administrative expenses. This includes executive and administrative salaries, office expense, commissions, and other selling expenses, advertising, and similar items, but does not include income or excess profits taxes, or charges to war reserves or reserves for contingencies, or bagging costs.

(2) *Computation of the items specified in subparagraph (1) for various types of high cost output.* (i) Where costs include payments made to a subsidiary or affiliate, only costs incurred by such subsidiary or affiliate and not payments thereto, shall be included.

(ii) All costs shall exclude bagging costs and costs incident to the production of specialty channel blacks.

(iii) In the case of all high cost output, item (viii), the selling and administrative cost per pound, shall be taken as equal to the average cost for selling and administrative expense per pound of rubber grades of non-specialty channel black produced by the producer at all plants during the first six months of 1944, except that the amount per pound by which the Texas carbon black production tax applicable to the high cost output exceeds 31/240¢ may be added to such

average cost in those cases where such tax has not otherwise been included in costs.

(iv) In the case of high cost output produced at a new plant, items (i) and (vii) inclusive shall be based on actual costs of operation of the plant.

(v) In the case of high cost output produced at expanded plants or high cost output produced from supplemental raw materials at existing plants, items (i) to (viii) shall be computed as follows:

- (a) Total raw material cost during period for entire output of plant (less any cost absorbed by producer under (j) below)----- \$-----
- (b) Total raw materials delivery cost at plant during period----- \$-----
- (c) Total gas treatment costs at plant during period----- \$-----
- (d) Amortization of preparatory expenses involved in rehabilitation of existing plant per period----- \$-----
- (e) Amortization involved in adaptation of plant for propane enrichment per period----- \$-----
- (f) Depreciation:
 - (1) On existing plant (dollar amount per period based on dollar amount of depreciation at plant during June 1944)----- \$-----
 - (2) On depreciable items added to plant since June 30, 1944 for high cost output (dollar amount at plant for period)----- \$-----
- (g) Total direct labor costs (average cost per pound of rubber grades of non-specialty channel black produced at plant during first 6 months of 1944 multiplied by plant's output of both normal and high cost channel black per period)----- \$-----
- (h) Total of other manufacturing costs (average cost per pound of rubber grades of non-specialty

- channel black produced at plant during the first 6 months of 1944 multiplied by plant's output of both normal and high cost channel black per period)----- \$-----
- (i) Total selling and administrative expenses (average cost per pound of rubber grades of non-specialty channel black produced at all of the producer's plants during first six months of 1944, multiplied by plant's output of both normal and high cost channel black per period)----- \$-----
- (j) Average monthly profits on the plants production of rubber grades of nonspecialty channel black during the first six months of 1944, reduced by the percentage of the base period gas supply of the plant which has been dropped or which has been replaced at an increase in price above a level which the producer is willing to absorb. The average maximum price per pound of high cost output during a period may be used for all high cost output at a plant during the period except where the use of an average maximum price in place of separate maximum prices for each type

of high cost output would result in increasing the price of the raw materials for a portion of the output (as by increasing royalties paid for such materials) or would result in a higher Texas carbon black production tax. In such cases separate maximum prices shall be determined for each type of carbon black taking account of the cost and yield of supplementary raw materials used and the specific depreciation, amortization and Defense Plant Corporation rental charges applicable to each type of high cost output. The total maximum price for all types of high cost output, pricing each type at its separate maximum price, shall not exceed the total maximum price obtained by multiplying the total high cost output by the average maximum price per pound computed as indicated above.

materials to channel carbon black producers in determining the cost of the material.

(3) *Maximum prices for sales other than in covered hopper cars.* The maximum price for sales by any seller of high cost output other than in covered hopper cars shall be the maximum price determined by the producer in accordance with subparagraphs (1) and (2) for sales in covered hopper cars of rubber grades of non-specialty channel black, plus the seller's dollar-and-cents quantity and container differentials established under other provisions of the General Maximum Price Regulation for sales of such channel carbon black.

(4) *Determination of maximum prices.*

(i) Maximum prices computed pursuant to (1), (2) and (3) above for high cost output produced in any period shall be determined separately for each new facility and for each plant using supplemental raw materials. Such maximum prices shall apply to an amount of channel black sold to Defense Supplies Corporation equal to the high cost output produced during the period. Until the end of a period the amount of high cost output to be produced during that period and the maximum prices therefor shall be based on estimated operations during the period. The estimate of output during a period shall be based on expected operations during the period. The period, except for the initial period, shall consist of one calendar month. The estimated price for any calendar month after the first two calendar months of full operation shall be the maximum price determined on the basis of actual operations during the second calendar month preceding the calendar month for which a price is being estimated.

Within 15 days after the end of a period a report of actual production of high cost output during the period and a determination of maximum prices based on actual operations during the period shall be filed in accordance with subdivision (ii) below. The estimated prices shall be adjusted upward or downward in accordance with the determination of maximum prices upon the basis of actual operations. If excess payment has been made, whether because of sales at a price in excess of the adjusted price or because of sales of an amount of channel black in excess of the high cost output actually produced during the period, the seller shall refund the excess.

A maximum price so determined on the basis of actual operations shall be subject to disapproval in writing at any time by the Office of Price Administration, and if a maximum price reported pursuant to this subparagraph (4) is revised downward by the Office of Price Administration and if any payment has been made at a price higher than the price approved by the Office of Price Administration, the seller shall refund the excess.

(ii) *Reports.* (a) Prior to making the first delivery of high cost output from a new facility or from supplemental raw materials, the producer shall submit a report of the output and maximum price on the basis of expected operations during the initial period from the beginning of operations to the end of the calendar month following the first

full calendar month of operations at the new facility or on supplemental raw materials.

(b) Within 15 days after the end of the initial period the producer shall submit a report of actual output during the initial period and maximum prices based on actual operations during the period. The adjustment specified in (i) above shall be made for the entire initial period on the basis of this report.

(c) Within 15 days after the end of the first full calendar month of operations and within 15 days after the end of each calendar month thereafter the producer shall file a report of the actual output during the calendar month and the maximum prices based on actual operations during the calendar month. For every calendar month after the initial period, the adjustment specified in (i) above shall be made on the basis of the report of actual operations during that calendar month.

(d) The reports required by this subdivision (ii) shall be made on OPA Form No. 692-2051 in the case of new plants. In the case of existing plants the reports shall include the material required by paragraph (c) (2) (v). Such reports shall be filed in triplicate, one copy being mailed to the Rubber, Chemicals and Drugs Price Branch, Office of Price Administration, Washington 25, D. C.; the other two to the Defense Supplies Corporation, Washington 25, D. C. Copies of OPA Form No. 692-2051 may be obtained from the Office of Price Administration, Washington 25, D. C.

(d) *Records.* (1) Each producer of high cost output shall keep for each new facility and for each plant using supplemental raw material, records of the entire output at that facility or plant and records of the deliveries of such output showing the name of the buyers, the number of pounds delivered and the date of delivery, the containers in which delivered and the price charged. Such records shall be kept for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(2) Each producer of high cost output shall preserve for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, all his existing records relating to the costs of producing and selling channel carbon black during the first six months of 1944.

(3) Each producer of high cost output shall keep books and records relating to the costs of production at each new facility and each plant using supplemental raw materials and preserve the same for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect. Such books and records shall set out the costs in the detail customarily used by the producer for management purposes, but in all cases in sufficient detail to enable verification of the computation of maximum prices under the provisions of this section 28.

(e) *Tolling arrangements.* Where high cost output of easy processing channel carbon black is produced for the Defense Supplies Corporation from supplemental

raw material furnished the producer by that corporation, the producer shall determine his maximum price for the conversion service in accordance with paragraph (c) of this section, except that in computing a maximum price thereunder no costs shall be included for any items of material or service furnished by the Defense Supplies Corporation. The seller of the conversion service shall keep the records and file the reports required of producers of high cost output by this section.

This amendment shall become effective March 31, 1945.

NOTE: The reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 31st day of March 1945.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

[S. O. 299]

PART 97—ROUTING OF TRAFFIC

REROUTING OF TRAFFIC DUE TO WASHOUTS IN TEXAS AND ARKANSAS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 31st day of March, A. D. 1945.

It appearing, that because of washouts on the Sulphur River at Darden, Texas, between Mt. Pleasant, Texas, and Texarkana, Arkansas, and at Cedar

Creek between Tyler, Texas, and Corsicana, Texas, reached by the St. Louis Southwestern Railway Company of Texas; and a washout on The Texas and Pacific Railway Company near Mineola, Texas, such carriers are unable properly to serve the public; in the opinion of the Commission an emergency exists requiring immediate action to avoid congestion of traffic, and in order to best promote the service in the interest of the public and the commerce of the people; It is ordered, that:

Washouts—(a) *Rerouting of freight traffic.* The St. Louis Southwestern Railway Company of Texas and The Texas and Pacific Railway Company are hereby directed to forward freight traffic having origin or destination in or ordinarily moving through Mineola, Texas, or the Sulphur River and Cedar Creek areas described above, via routes most available to expedite its movement and prevent congestion, without regard to the routing thereof made by shippers or by carriers from which the traffic is received or to the ownership of cars; *Provided*, That the billing covering all cars rerouted shall carry a reference to this order as authority for the rerouting. All rules, regulations, and practices of said carriers with respect to car service are hereby suspended and superseded insofar only as conflicting with the directions hereby made.

(b) *Rates to be applied.* That inasmuch as such disregard of routing is deemed to be due to carriers' disability, the rates applicable to traffic so forwarded by routes other than those designated by shippers, or by carriers from which the traffic is received, shall be the rates which were applicable at date of shipment over the routes so designated.

(c) *Division of rates.* In executing the orders and directions of the Commission provided for in this order the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic; such divisions shall be, during the time this order remains in force, voluntarily agreed upon by and between said carriers; and upon failure of the carriers to so agree, said divisions shall be hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(d) *Effective date.* This order shall become effective 6 p. m., March 31, 1945.

(e) *Expiration date.* This order shall expire at 11:59 p. m., April 10, 1945, unless otherwise modified, changed, suspended, or annulled by order of the Commission. (40 Stat. 101, sec. 402, 418; 41 Stat. 476, 485; sec. 4, 10; 54 Stat. 901, 912; 49 U.S.C. 1 (10)-(17) 15 (4))

It is further ordered, that copies of this order and direction be served upon the carriers named herein and upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order

be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

By the Commission, Division 3.

Applications have been made by Salant & Salant, Inc., pursuant to section 14 of the Fair Labor Standards Act of 1938 and Regulations, Part 522, as amended (Regulations Applicable to Employment of Learners Pursuant to section 14 of the Fair Labor Standards Act of 1938), requesting the issuance of special certificates permitting the employment of learners at wage rates lower than the minimum applicable under section 6 of the act at those of its plants located at Lawrenceburg, Henderson, Lexington, Parsons, Union City, Obion and Paris, Tennessee.

Objections having been filed by the Amalgamated Clothing Workers of America, temporary 90-day certificates were issued to the aforementioned plants of Salant & Salant, Inc., authorizing the employment of learners at subminimum wage rates pending the holding of a hearing on the company's applications for issuance of full one-year learner certificates under §§ 522.160 to 522.165 of regulations, Part 522, as amended (Regulations Applicable to the Employment of Learners in the Single Pants, Shirts and Allied Garments, Women's Apparel, Sportswear, Rainwear, Robes and Leather and Sheep-Lined Garments Divisions of the Apparel Industry). These temporary 90-day certificates will expire on April 10, 1945. Accordingly,

Notice is hereby given of a public hearing to be held on April 12, 1945, commencing at 10 a. m., in the Medical Arts Building, 119 Seventh Avenue, North, Nashville 3, Tennessee, before Isabel Ferguson, a duly authorized representative of the Administrator, who is hereby authorized to receive evidence and hear argument on the following question:

Whether special learner certificates should be issued to any of the Tennessee plants of Salant & Salant, Inc., on and after April 10, 1945, under section 14 of the Fair Labor Standards Act of 1938 and §§ 522.160 to 522.165 of Part 522, as amended, of the regulations issued thereunder.

In order that the Administrator or his duly authorized representative may arrive at a proper determination in this proceeding and in order to determine the extent to which special learner certifi-

cates are necessary in order to prevent curtailment of opportunities for employment, the presiding officer will receive evidence bearing on such factors as: availability of experienced workers to Salant & Salant, Inc.; effect of issuance of special learner certificates on creation of unfair competitive labor cost advantages; effect of issuance of such certificates on working standards established for experienced workers for work of a like or comparable character in the industry; and the extent and nature of the use of certificates previously issued to any of applicant's plants.

Following the hearing, the presiding officer shall file with the Administrator a complete record of the proceedings together with his findings of fact and recommendations thereon.

Any interested person may appear at the hearing to offer evidence, *Provided*, That not later than April 9, 1945, such person shall file with the Administrator of the Wage and Hour Division, United States Department of Labor, 165 West 46th Street, New York 19, New York, a notice of intention to appear containing the following information:

3. A statement whether the appearance is in support of or in opposition to the applications.

Such notice may be mailed to the Administrator and shall be considered filed upon receipt. Written statements in lieu of personal appearance may be mailed to the Administrator at any time prior to the date of hearing or may be filed with the presiding officer at the hearing.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 30th day of March, A. D. 1945.

North West Utilities Company, a registered holding company, and its subsidiary, Lake Superior District Power Company, having filed joint applications and declarations pursuant to the Public Utility Holding Company Act of 1935, particularly sections 7, 10 and 12 and the applicable rules thereunder, with respect to the following transactions:

1. Lake Superior District Power Company proposes to issue and to sell to North West Utilities Company (the owner of all the presently outstanding common stock of Lake Superior District Power Com-

pany) for \$75 in cash, one additional share of common stock of the company of the par value of \$75 thereby increasing the total number of outstanding shares to 35,600 shares of the par value of \$75 each; and North West Utilities Company proposes to acquire for \$75 in cash, one additional share of the common stock of Lake Superior District Power Company of \$75 par value.

2. Lake Superior District Power Company proposes upon the issuance of the one additional share (a) to reduce and change its authorized capital from \$11,235,025 composed of 70,000 shares of preferred stock of a par value of \$100 each and 56,467 shares of the common stock of a par value of \$75 each to an authorized capital of \$11,235,000 composed of 70,000 shares of preferred stock of the par value of \$100 each, and 211,750 shares of common stock of a par value of \$20 each; (b) to change the outstanding 35,600 shares of common stock of the par value of \$75 each into 133,500 shares of common stock of the par value of \$20 each by splitting each share of the par value of \$75 into 3.75 shares of a par value of \$20; and (c) to amend and restate Article Third of the Articles of Organization of the company to reflect the above changes in the authorized capital stock of the company; to eliminate from Article Third reference now contained therein to shares of preferred stock which have been retired and are no longer either authorized or outstanding shares of the company; to reduce the amount of unsecured debt which may be issued without authorization of the preferred stockholders; to grant preemptive rights to the common stock, except in certain cases; and to change the voting rights of the preferred stock and the common stock, as provided in the applications and declarations filed in this matter and as summarized in the proxy statement to be sent to the stockholders.

Lake Superior District Power Company also having proposed to solicit proxies in connection with a special meeting of the stockholders of the company to be held on or about April 10, 1945 to vote on the proposed amendments to the Articles of Organization and having filed copies of the proposed notice of special meeting of stockholders, proxy and proxy statement; and

Lake Superior District Power Company having requested that the declaration with respect to the proxy solicitation material be considered and disposed of independently of the principal transactions and that the Commission enter its separate order permitting said declaration as to all such proxy solicitation material to become effective;

It appearing that the solicitation of authorizations of stockholders as proposed to be conducted, does not make it necessary or appropriate in the public interest or for the protection of investors or consumers or to prevent the circumvention of the provisions of the act or the rules and regulations thereunder, that the Commission issue any order with respect thereto other than an order per-

mitting the declaration as to such solicitation to become effective;

It is therefore ordered, That, without passing upon the merits of the application or declaration filed pursuant to sections 7, 10 and 12, the declaration as to solicitation of authorizations be and it is hereby permitted to become effective forthwith.

APPLETON-NEENAH-MENASHA, LA CROSSE,
AND OSHKOSH, WIS., AREAS

MINIMUM WARTIME WORKWEEK

Designation of the Appleton-Neenah-Menasha, Wisconsin, labor market area, the La Crosse, Wisconsin, labor market area and the Oshkosh, Wisconsin, labor market area as subject to Executive Order No. 9301.

By virtue of the authority vested in me as Regional Manpower Director of Region VI by § 903.2 of War Manpower Commission Regulation No. 3, "Minimum Wartime Workweek of 48 Hours," and having found that such action will aid in alleviating labor shortages which are impeding the war effort, I hereby designate the Appleton-Neenah-Menasha, Wisconsin, labor market area, the La Crosse, Wisconsin, labor market area and the Oshkosh, Wisconsin, labor market area as subject to the provisions of Executive Order No. 9301.

1. For the purpose of this designation, the above-mentioned areas shall include:

Appleton-Neenah-Menasha labor market area includes the following counties: Outagamie, Waupaca and the townships of Clayton, Menasha, Neenah, Winchester and Wolf River in Winnebago county.

La Crosse labor market area includes the following counties: La Crosse and Monroe.

Oshkosh labor market area includes the following counties: Townships of Algoma, Black Wolf, Nekimi, Nepouskun, Omro, Oshkosh, Poygan, Rushford, Utica, Vinland and Winneconne in Winnebago county.

2. The effective date of this designation is April 15, 1945.

3. Not later than the effective date, each employer in the designated areas shall, in accordance with War Manpower Commission Regulation No. 3:

(a) Extend to a minimum wartime workweek of forty-eight hours, the workweek of any of his workers whose workweek can be so extended without involving the release of any worker;

(b) If extension of the workweek of any of his workers to a minimum wartime workweek of forty-eight hours would involve the release of any workers, submit to the Area Manpower Director the number and occupational classification of the workers whose release would be involved, together with proposed schedules for their release, and thereafter extend such workweek when and as directed in schedules authorized by the War Manpower Commission;

(c) File an application for a minimum wartime workweek of less than forty-eight hours for those workers engaged

in employment in which the employer claims that a workweek of forty-eight hours would be impracticable in view of the nature of the operations, would not contribute to the reduction of labor requirements, or would conflict with any Federal, State or local law or regulation limiting hours of work.

"Minimum wartime workweek" as used in this order means a workweek of forty-eight hours, except in cases where a workweek of forty-eight hours (a) would be impracticable in view of the nature of the operations, (b) would not contribute to the reduction of labor requirements, or (c) would conflict with any Federal, State or local law or regulation limiting hours of work. In such cases, "minimum wartime workweek" means the greatest number of hours (less than forty-eight) feasible in the light of the nature of the operations, the reduction of labor requirements or the applicable Federal, State and local law or regulation, as the case may be.

Date of issuance: March 3, 1945.

W. H. SPENCER,
Regional Director,
Region VI.
