The labor union of the company accepted the suggestion which was given by us. DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175015

1. In accordance with the application, submitted by Electric Industry Workers Union, for asking the payment of wages during strike staged by the workers of the Company, we have decided to make an effort to solve the problem by mediation.

The application for increasing of personnel of the Company, was rejected for there seemed to be more room for further negotiation between the management and the laborer to settle down the matter.

The jurisdiction in the case of illegal labor practise at Shikoku newspaper office was transferred on 30 August to the jurisdiction of CRC.

However, investigation on the problem is still being carried on under the control of L.R.C.

On settling the problem of payment of allowance for resignation at Kotohira Takamatsu Electric Railway Co., Ltd we are making efforts to settle down the problem peacefully.

As it was found, during the mediation, that the company has no objection of setting up the regulation concerning retirement allowance, the LRC, who considers it reasonable for them to provide the regulation by the company has recommended the to settle down the problem peacefully by providing the regulation.

2. Conference and important meetings on prefectural and regional levels scheduled for next two months.

H. Trend.

As for such a fundamental labor problem as seen in the Japan Electric Industry Workers' Union demanding the payment of wages for the striked-out period, it was decided that the Local Labor Relation Committee should transfer it to the CLRC without taking charge of it itself.

Accordingly all the such disputes as those of the electric industry and press and broadcasting circles are to be handled by the CLRC.

The CLRC, however, is expected to exert unsparing efforts for the CLRC as far as investigations of cases are concerned.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175015

1. Analytic report on any noticeable change during the period of report.

There are two application cases asking for mediation concerning the request for early payment of wages and filling the vacant positions. These problems are all connected with the Electric Industry Worker's Union (DENSAN) and are now under deliberation at the general meeting.

But the Committee has not yet come to a stage to take up applications.

As illegal actions, there were the cases such as illegal discharging by the Shikoku Press Co., Ltd and claiming for the non-acceptance of collective bargaining offered by the Kagawa-Ken Chapter of DENSAN. (Electric Industry Worker's Union)

On the problem of the Shikoku Press Co., Ltd, we are at present starting a rough investigation but as regards the Densan's problem concerned we are not yet in a position to accept the application.

2. Conference and important meetings on prefectural and regional levels scheduled for next two months.

C. New cases appealed to the L.R.C. during the month

(a) Date of Appeal	(b) Name of plant and location	(c) No. of workers Total	M.	F.	(d) Nature of dispute
July 1	Itano Self-supply Salt Manufacture Labor Union, Muya-Cho, Naruto-Shi	7	7	0	KUGA Kingo, leader of Itano Self-supply Salt Manufacture Labor Union, who was discharged on the charge of his labor union activities, appealed to the L.R.C. for relief, alleging the undue labor practice.
July 6	Tokushima Timber Kyoei Shokai, Ltd., Tamiya-Cho, Tokushima-Shi	10	8	2	The dismissal case of Tomekichi Yamamoto, Union leader, was developed into dismissal of all unionists. In this connection, the union claimed for retirement allowance as counted by 2 months' pay per one year of service, while the management insisted on retirement allowance of 2 months' pay including dismissal notice allowance irrespective of period of service and the both parties failed to find a solution and appealed to the L.R.C. for conciliation.
July 18	The Chuo Shipbuilding Co., Tsuda-Cho, Tokushima-Shi	23	22	1	The management declared suspension of operation on July 3 on account of management depression and afterwards, proposed resumption of operation on condition of wage-cut and extension of working hours, but the unionists, disregarding to proposal, appealed to L.R.C. for conciliation.
July 20	The Nippon Mining K.K., Kotsu Mining Workshop, Yamase-Cho, Oe-Gun	316	293	23	34 workers who retired during the period from Nov. 10, 1949 to Nov. 20 on a condition that they will enjoy better treatment than those who will retire thenceforth, while as a matter of fact, 10 workers who retired afterwards in December were better treated as to retirement allowance. Therefore, an appeal was made to the L.R.C. for same treatment.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175013

July 25	Tokushima-Ken Salt Industry Labor Union Federation	1571	1257	314	The labor agreement between the union federation and the Tokushima-Ken Salt Industry Council was invalidated on Dec. 31, 1949, while, in the course of negotiation of 1950 year labor agreement, the union party requested a new labor agreement including (1) discontinuation of one year employment system and adoption of permanent employment system, (2) establishment of retirement allowance system, (3) establishment of medical association, (4) change of wage scale, (5) rationalization of Misc. allowances, (6) change of renewal time of labor agreement, but the management party considered it as premature and postponed the negotiation, so the union party notified on July 18 to drop the negotiation. In view of graveness in social influence, Mr. Kondo, mayor of Naruto-Shi, exerted his effort to conciliation of the both parties, but failed to reach an agreement and at last, the union party declared strike on July 24 and entered into 72-hour strike as from 8 a.m. of the following 25th.

Shikoku branch, Tokushima sub-branch, Ikeda-Cho, Miyoshi-Gun; Nippon Hassoden K.K's Tokushima Thermo-Power plant, Komatsushima-Cho, Katsuura-Gun.	1237	1186	51	As per mentioned in May report, C.	July 27. On July 21 local L.R.C. submitted mediation suggesting that efforts should be made so that such an issue like 'payment for the period of a strike' which affects the electrical industry of the whole nation be settled reasonably through a negotiation between the respective central organs of labor and management. The three managements accepted the mediation plan on July 26, 27 respectively, whereas the union requested reconsideration on the ground that they made the appeal to the local L.R.C. in a view to difficulties in settling the matter through the central L.R.C. The L.R.C. took the union's view as a manifestation of their will not so positive to reject the mediation and tried to make them understood. The dispute finally came to an end.
July 25	Tokushima-Ken Engyo Rodo Kumiai Rengo Kai, Muya-Cho, Naruto-Shi	1571	1257	314	As per mentioned in C above	July 29, on the conditions: (1) that Tokushima-Ken Engyo Kyogikai (hereinafter called A.) will submit its draft of retiring pay system to the local L.R.C. and Tokushima-Ken Engyo Rodo Kumiai Rengokai (hereinafter called B) by Aug. 20, and the system will be set up by Sept. 30.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175013

In the case where A fails to submit the said draft it should report B and the local L.R.C. to that effect, but it should see to it that the draft be submitted by Aug. 30 without fail;

(2) that matters concerning the labor agreement for 1951 will be settled through the joint labor-management conference. Both A and B shall never resort to to any action of dispute unless they appeal to the local L.R.C. for conciliation or mediation.

G. Problems: Nothing worth mentioning.

H. Trend:

The cases appealed during this month mostly cover demands for retiring allowance and objection to the forced suspension of operation of business due to the downfall of the enterprisers. The cry of agony of local small and medium enterprises seems to be beard as they are. There are many cases where the dispute have been settled by compromise, giving a small increased amount of retiring allowance and allowance for a period of business suspension. This kind of appeal is supposed to increase in future in parallel with the progress of adjustment of enterprises. At the same time, if there is no labor agreement concluded, the workers are not provided with any effective countermeasure and the adjustment of enterprises will be carried out without any consideration for relief of the workers. They are discharged at the enterpriser's will.

I. Recommendations:

None.

4. 趨勢傾向

本月新たに提訴のあった事件をみると企業主の没落に起因した. 退職金の要求. 又は強制休業反対等の事件が大半を占め. 地方的

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 115015

中小企業の苦悶の聲が其の儘聽へる様な觀がある。労組側でも斯る企業主の苦境が明かであるため僅少の退職金又は休業手當増額で妥結して居る事例が多い。今後企業整備の進展に伴ひ斯種提訴は漸増するものと考へられる。

同時に労働協約の締結のない場合の企業整備は労働組合員に対しては殆んど有効な救濟對抗手段が欠除して居り企業主の恣意による解雇に歸し易い傾向が痛感せられる
