DECLASSIFIED E.O. 12065 SECTION 3-402 / NNDG NO. 775015

MEMO FOR RECORD:

The urgent need for Zipatone is considered to warrant handling on an emergency basis. Requisitions for Zipatone submitted through GHQ Supply have been returned because the item is no longer listed in Engineer catalogs. Request for procurement of Zipatone, 10 Nov. 1947, submitted through GHQ Supply, has been suspended by CG, San Francisco Port of Embarkation, until funds can be cited. Current stock of this item on hand in SRS is adequate only for 45 days.

Zipatone is used in preparing graphs and charts for the Supreme Commander for the Allied Powers monthly Summation of Nonmilitary Activities in Japan and for the Historical Record of Nonmilitary Activities of the Occupation of Japan, publications prescribed by Par. 3, G.O. No. 6, GHQ SCAP, 18 April 1947. This item makes it possible to present graphs and charts of more variety and informativeness than simple line and bar charts, and has been used consistently in preparation of publications since the beginning of the occupation. Lack of Zipatone will cause a distinct impairment in the preparation of Summations and other publications, in addition materially slowing down the publication of Summations, which is just the opposite to the recently expressed desires of the Supreme Commander.

Information contained in above message obtained from Mr. G.R. Fleming, O DC/S SCAP; Mr. J.W. Harrison, Budget, G-4; Capt. J.F. Kuznicki, Transportation, G-4; Maj. J.F. Grady, Supply, CE; and Lt. Col. D.J. Cook, Supply, G-4.

MEMORANDUM FOR RECORD: Certain discrepancies and generalities have been contained in reports (QSRS-01) submitted by USAMGIK which are used as basic source data for the Korean Monthly Summation. These controversial points can be cleared up by visits of representatives of USAMGIK. DCS SCAP (KCRYU) concurs in these visits which will be made monthly by USAMGIK representatives at the request of this headquarters (SRS) if results of initial visits justify requests.

MEMO FOR RECORD: In radio Z 41979, 8 April 1947, CG, RYKOM was informed that 100 copies of Monthly Summation No. 1 for July-November 1946 were shipped 4 February 1947 in two packages under Registry No. 972 and 969 addressed to CG, RYKOM, APO 331. These packages were inadvertently placed in registry pouch destined for Washington D.C. by APO 500 personnel. An inquiry to TAG, Washington revealed that above packages were reshipped to addressee. In the interim a second shipment of 100 copies were dispatched in split shipment on 7 March and 8 March 1947 to replace original shipment. Radio Z 41979 requested return of 100 copies of the Summation to GHQ, SCAP Attention SRS.

TO : WAR (WDSCA 10).....PRIORITY

( ) The radios referred to in your W-92740 of 25 February are not considered suitable for declassification and use by the press for the following reasons: at the time dispatched

a. They were an intimate presentation of the situation and were not designed for press release.

b. Articles covering the situation were carried in the press at the time these radios were dispatched.

c. Facts are contained in the monthly summation of non-military activities and other unclassified reports, for example, the written report on the "Food situation during the first year of the occupation" forwarded to the War Department by letter file AG 319.1 dated 1 February 1947.

d. Release of certain information in the radios describing a situation which existed a year ago would not be understood by the Japanese at this time.

For the above reasons, the request to declassify the radios referred to in W-92740 is not ~~favorably~~ considered advisable.

( ) Reurad W-92740 following extracts from subject ~~cables~~ radios can be declassified:

~~Cable~~ C-61053, "Ministry of Agriculture and Forestry gives rice purchases from 1945 - 1946 crop through 30 April as 2,750,000 metric tons; 81.9 per cent of total quota. 30 April 1945 government had purchased 97.2 per cent of quota"; "Mobs demonstrated in palace grounds 12 and 15 May demanding Imperial Household food stocks be released immediately. General Demonstrations throughout Tokyo scheduled 19 May. Daily incidents of demonstrations and intimidations increasing".

~~Cable~~ C-61107, "Of 10,000 kiloliters fuel oil alloted by SCAP to Japanese fishing industry for June, Japanese government has allotted 850 kiloliters to Hokkaido fisheries.

Ministry of Agriculture and Forestry reports land reclamation 1 April 1945 to 31 March 1946, in hectares. Annual goal planned for reclamation, 96,575.2. Reclamation completed: paddy fields, 3,642.2; upland fields, 61,978.9; per cent of annual goal completed, 68. Land Settlement 1 April 1945 to 31 March 1946: Annual goal planned for settlement, 97,442; total settled, 41,295; per cent completed, 42"; "Frozen marine products listed by 1946 estimate and 1941 production respectively in metric tons. Scallop 100 to 150, 8,000; swordfish 500, 7,000; Albacore 1,000, 15,000; Skipjack 2,000, 90,000; Baby clams 500, 7,000 and Smelt 100, no data on production"; "Crowd of nearly 5,000 (Jap press estimate) railroad workers demonstrated outside the Diet building just before beginning of 16 May afternoon session.

DECLASSIFIED E.O. 12065 SECTION 3-402 / NNDG NO. 775015

They demanded food and overthrow of incoming Yoshida government, asserting it is essentially same as outgoing group.

Part 4 nil.

Cable C-61135, "Delay in distribution of food rations 9 days in Tokyo, 10 days in Yokohama. Absenteeism, turnover and inefficiency of Japanese labor employed by Army reaching critical stage. Government unable to distribute supplementary rations to heavy laborers in Tokyo-Yokohama area".

~~Cable~~ C-61185, "schools open only half day in Shinjuku, Tokyo since students have no food for lunches. Government efforts to effect further transfers of rice from producing prefectures in Tokyo and Yokohama result in negligible shipments. Collection program virtually at halt. Farmers refuse to release rice which will reduce their diet to lower levels during this period of intensive farm labor.

SCAP released 8,705 long tons of wheat in Tokyo-Yokohama area 19 May to meet crisis.

SCAP instructed Japanese Government to take charge of approximately 1,410 long tons canned squid and 120 long tons canned sardines shipped from U.S. on steam ship Cape Tryon. To be stored in Yokohama area pending official authorization for distribution.

SCAP granted approval to Japanese Government to construct 416 steel fishing vessels with gross tonnage 48,532 tons. First construction approved in proposed plan of expanding fishing fleet to increase food production.

SCAP approved release of following quantities of silk to industries engaged in fishing and bird hunting: 92,537 pounds of silk fishing nets and silk - piled threads; 3,616 pounds of hunting nets; 4,345 pounds of hair nets. Exception made to directive prohibiting release of silk to Japanese industries because of critical food shortage and the necessity of expediting production of food products.

DECLASSIFIED E.O. 12065 SECTION 3-402 / NNDG NO. 775015

Bureau of Fisheries gives reports on allotment of fuel oil for fishing industry for following years listing kerosene, light oil and heavy oil in kiloliters respectively. 1939, 21,943, 71,490, 383,288; 1940, 21,620, 61,980, 301,646; 1941, 12,539, 25,967, 177,132; 1942, 6,871, 17,464, 147,641; 1943, 6,869, 13,726, 74,067; 1944, 2,750, 7,010, 29,681; 1945, 12,130 (kereosene and light oilcombined), 34,943. Estimated normal annual fuel oil requirements 27,222 kiloliters kerosene, 62,947 light oil, 560,000 heavy oil. Owing to free sale of fuel oil, 1931 to 1938, allotments not made by government and consumption unknown. After 1943, petroleum substituted by use of coal tar, soya-bean oil, and whale oil. Lubricating oil allotted 5 to 7 per cent of heavy oil and 3 to 5 per cent of kerosene";

"Crowd estimated 150,000 to 250,000 demonstrated before imperial palace 19 May morning to demand increased food allotments and express opposition to "Conservative reactionary cabinet" speakers who addressed assembly demanded , in addition to emergency food rations, distribution of American food supplies to Japan handled by citizens organizations, and increased voice in production and management for labor.

Several Japanese police bruised when 100 police guarding palace gate successfully prevented 1,000 demonstrators from entering. Finally 12 representatives of "hunger marchers" gained entrance to palace and conferred with officials of Imperial Household Ministry. They demanded personal audience with Emperor. Delegation obtained from household ministry promise of reply 21 May to their demand for action in critical food situation.

Same afternoon demonstrators marched to officialresidence of Yoshida where delegation headed by Kyuichi Tokuda, communist party central committee secretary, presented party's demands to government representatives".

DECLASSIFIED E.O. 12065 SECTION 3-402 / NNDG NO. 775015

~~Cable~~ C-61253, "Rice purchased by Japanese Government fron 1945-1946 crop through 10 May 2,799,000 metric tons; 83.4 per cent of total quota for rice collections this year. Same date last year, government had purchased 98.6 per cent of goal.

Delay in ration distribution and sharp reduction in supplementary rations for laborers has resulted in serious increase in absenteeism. Fertilizer production in ammonium sulphate factory in Tsurumi, Kanagawa Prefecture, dropped from 4,500 to 3,000 metric tons monthly, due to absenteeism resulting from workers leaving job to search for food. Efforts being made to insure distribution of supplementary rations for heavy laborers in vital industries in spite of general food situation to prevent breakdown in transportation and other essential functions.

Emergency flour distribution commenced 19May will provide brief relief for this area. 6,405 metric tons of total allotted Tokyo. Three days ration distributed to 4,000,000 inhabitants of Tokyo. Remaining quantity will be distributed in second distribution in those wards in which delay of rations is greatest.

Tokyo metropolitan government has authorized principals of all Tokyo schools to close their schools or reduce school hours at their discretion. Recent survey indicated most Tokyo schools have already reduced to half day schedule because majority of school children unable to bring lunches"; "Tokyo newspaper Jiji Shimpo expressed strong approval of statement, issued by Supreme Commander 20 May, "Mass violence and intimidation, far from remedying present situation, can only serve to aggravate hardships of the people" Mainichi expressed approbation, declaring "self restraint and self respect are above all important".

Public statement by communist party spokesman issued immediately following publication of Supreme Commander's warning declares recent

DECLASSIFIED E.O. 12065 SECTION 3-402 / NNDG NO. 775015

demonstrations were not organized by "certain minorities" but staged by "United movement of all organized workers". He warns, that if present critical food situation, caused by "Reactionary government", is not alleviated, there is danger of "Unhappy riots" it is "Responsibility of democratic political party to provide an orderly criterion of action" he declares party has "Frequently stressed necessity of preventing acts of violence and of taking orderly action".

Labor union spokesman declares labor union leaders will review proposed activities in light of announcement.

Part four, nil."

~~Cable~~ C-61287, "Due to present food shortage absenteeism in two of largest communications equipment manufacturing plants increased between 20 and 30 per cent during past 2 weeks.

Spot checks made by SCAP officers in parts of Tokyo where rationing has been delayed indicate many people confined to their beds to conserve energy. Now daily occurrence to see hundreds of people along river banks gathering grass and other roots to be used as stomach fillers. Practice of school children stealing food from home gardens becoming common".

~~Cable~~ C-61320, "Statement of Yoshida upon formation of new cabinet stressed importance of efforts to solve food problem and need to "focus all its efforts on that issue, and to carry out an advanced rational measure of drastic character" Yoshida also placed special emphasis on need for Japanese people to strive to solve problem by own United efforts rather than relying solely on food imports.

Ministry of education proposed emergency measures in regard to role of school children in present food situation. Proposals include plan for supplementary rations to compensate for deterioration in general food rationing, increased emphasis on school gardens, and collection of acorns and other substitute foodstuffs by school children".

DECLASSIFIED E.O. 12065 SECTION 3-402 / NNDG NO. 775015

Gable C-61455, "Initial replies received from Governors of 18 of 22 ppefectures which were objects of appeals for emergency transfers of staple foods to deficit areas immediately following Emperors speech. All replies emphasized extreme difficulty of effecting further transfers due to fact shipments already completed have depleted local stocks to critical levels. Several prefectural governors flatly stated further shipments impossible. Governor Ishikawa prefecture stated it was impossible to comply with request and extraordinary efforts being made to complete rice collections to avert starvation within prefecture. Governor Mie prefecture replied no further deficit transfers possible unless definite assurance given Mie will be repaid with equal quantity imported foodstuffs when prefectural stocks exhausted.

Emergency transfer plan provided shipments to deficit area totalling approximately 38,000 tons. Initial reports indicate no more than 50 per cent of goal will be realized.

Report on stable food stocks in days of supply respectively listed for 24 and 25 May. Tokyo 4.2, 3.7; Yokohama 4.9, 5.4; Sapporo 10.6, 10.6; Otaru 4.9, 4.9; Hakodate 2.7,3.7; Muroran 10.2, 10.2; Kyoto 1.0, 1.0; Hiroshima 3.7, 3.5; Sakai 7.8, 8.9; Kure 5.4, 4.5; Yokosuka 3.1, 3.7; Kawasaki 2.8, 2.2; Nagoya 9.7, 9.0; Kobe 7.0, 7.7; Osaka 14.1, 13.9"; "General maritime bureau reports ship construction 21 April to 20 May in total gross tonnage: two steel ships launched 12,000, three steel ships finished 6,170, two wooden ships launched 318 wooden ships finished 2,900"; "first large public demonstration held since SCAP warning against acts of violence by participants in mass gatherings held Nagoya 26 May with approximately 20,000 organized laborers participating. Police report assembly "orderly" demonstrations adopted 28. resolution demanding immediate delivery of rice rations, dissolution of prefectural assembly, resignations of prefectural governor, mayor of Nagoya, and others".

DECLASSIFIED E.O. 12065 SECTION 3-402 / NNDG NO. 775015

~~Gable~~ C-61498, "As of 26 May, 4,590 of the 6,405 long tons of imported wheat flour released in Tokyo had been distributed to 4,279,210 consumers in the prefecture. Distribution will be completed by 29 May. The release of imported wheat flour in the Tokyo-Yokohama area plus daily arrival from other prefectures during past week have had effect of providing temporary relief from delay in distribution of staple food ration. Number of days of non-delivery of ration will now begin to accumulate at rapid rate due to very small quantities of staple foods being received from other prefectures at present time.

Emergency transfer plan represents final effort of Japanese Government to effect inter-prefectural shipments of food under deficit transfer plan. It is estimated that only 20 to 40 per cent of goal of 37,000 tons will be realized, so deficit transfers during June will be negligible. Accordingly, all major urban areas (with the exception of Nagoya which can be sustained from indigenous sources until 30 June) will be largely dependent on imports for maintaining food rationing during June. Anticipated arrivals from other prefectures and stocks on hand will meet rationing requirements for June approximately as follows: Tokyo and Yokohama, 1 to 5 per cent; Kyoto, 20 per cent; Osaka and Kobe, 50 per cent"; "Japanese Government ordered by SCAPon 18 May 1946 to retain 6,000,000,000 yen appropriation for public works program in its 1946-47 budget. Program to provide from 1,000,000 to 1,250,000 man-years of employment and is designed to utilize about 2,000,000 unemployed in producing or assisting production of food, fuel and shelter. The public works projects program includes reclamation of land"; "executive committee of social democratic party has advocated immediate establishment of government control over all farm lands as necessary measure to assist nation in coping with the current food crisis.

Essential elements of the social democratic party's plan are "formulation of program for increased fertilizer production; immediate imposition of government control over all farm lands and basic revision of the existing

DECLASSIFIED E.O. 12065 SECTION 3-402 / NNDG NO. 775015

food delivery system, including immediate suspension of compulsory collection measures".

Party is also launching campaign designed to stimulate farmers "to greater efforts to help overcome the present food crisis" campaign will be promoted by farmers unions and other organizations affilliated with the party".

SRS COMEBACK COPY

MEMO FOR RECORD: WD radio 91467 dated 7 February requested verification of figure of 3,221,056 suk (585,841.8 metric tons) of rice collected as of 27 January in Korea as reported in Daily Operations Report Korea for 1 February, and latest figures available. CINCFE radio C-69993 dated 11 February requesting above verification, and latest figures, also referred to USAFIK radio ZMGNFA 59 dated 8 February which indicated a substantial discrepancy between the rice collection figures reported. USAFIK radio ZMGADM 75 dated 17 February furnished no verification of collection figure as of 27 January but listed national quota for major crop collection, major crop collection goal, major crop collections for January 1947 and total collection of major crop as of 1 February. A recheck of the conversion of 3,221,056 suk to metric tons showed that the original 585,841.8 metric tons were in error and should have been 482,239 metric tons based on 1 suk = 330 lbs. Later figures received by Government Section from Korea indicate 3,364,933 suk (503,687 metric tons) collected as of 8 February or 77% of national quota. Radio above answers verification by pointing out conversion error and gives latest collection figure available.

MEMO FOR RECORD:

OMGUS requested this Headquarters to place it on distribution for "Military Government Regulations" of this Headquarters. Because of policy of SCAP not to make distribution outside this theater, this Section requested information of WARCAD by radio Z-34164 to check whether latter was sending SCAPIN's (nearest approach to MG Regulations), Index to SCAPIN's and Catalogs to OMGUS. Evidently radio Z-34164 arrived Washington prior to copies of SCAPIN Catalog which were transmitted 27 January. This radio clarified "Catalog" to WARCAD.
