AMERICA'S NATIONAL GAME

By A. G. SPALDING

PRICE, \$2.00 NET

A book of 600 pages, profusely illustrated with over 100 full page engravings, and having sixteen forceful cartoons by Homer C. Davenport, the famous American artist

The above work should have a place in every public library in this country, as also in the libraries of public schools and private houses.

The author of "America's National Game" is conceded, always, everywhere, and by everybody, to have the best equipment of any living writer to treat the subject that forms the text of this remarkable volume, viz., the story of the origin, development and evolution of Base Ball, the National Game of our country.

Almost from the very inception of the game until the present time—as player, manager and magnate—Mr. Spalding has been closely identified with its interests. Not infrequently he has been called upon in times of emergency to prevent threatened disaster. But for him the National Game would have been syndicated and controlled by elements whose interests were purely selfish and personal.

The book is a veritable repository of information concerning players, clubs and personalities connected with the game in its early days, and is written in a most interesting style, interspersed with enlivening anecdotes and accounts of events that have not heretofore been published.

The response on the part of the press and the public to Mr. Spalding's efforts to perpetuate the early history of the National Game has been very encouraging and he is in receipt of hundreds of letters and notices, a few of which are here given.

ROBERT ADAMSON, New York, writing from the office of Mayor Gaynor, says:—"Seeing the Giants play is my principal recreation and I am interested in reading everything I can find about the game. I especially enjoy what you [Mr. Spalding] have written, because you stand as the highest living authority on the game."

BARNEY DREYFUSS, owner of the Pittsburg National League club:—"It does honor to author as well as the game. I have enjoyed reading it very much."

WALTER CAMP, well known foot ball expert and athlete, says:—"It is indeed a remarkable work and one that I have read with a great deal of interest."

JOHN B. DAY, formerly President of the New York Nationals:—"Your wonderful work will outlast all of us."

W. IRVING SNYDER, formerly of the house of Peck & Snyder:—"I have read the book from cover to cover with great interest."

ANDREW PECK, formerly of the celebrated firm of Peck & Snyder:—"All base ball fans should read and see how the game was conducted in early years."

MELVILLE E. STONE, New York, General Manager Associated Press:—"I find it full of valuable information and very interesting. I prize it very highly."

GEORGE BARNARD, Chicago:—"Words fail to express my appreciation of the book. It carries me back to the early days of base ball and makes me feel like a young man again."

CHARLES W. MURPHY, President Chicago National League club:—"The book is a very valuable work and will become a part of every base ball library in the country."

JOHN F. MORRILL, Boston, Mass., old time base ball star:—"I did not think it possible for one to become so interested in a book on base ball. I do not find anything in it which I can criticize."

RALPH D. PAINE, popular magazine writer and a leading authority on college sport:—"I have been reading the book with a great deal of interest. 'It fills a long felt want,' and you are a national benefactor for writing it."

GEN. FRED FUNSTON, hero of the Philippine war:—"I read the book with a great deal of pleasure and was much interested in seeing the account of base ball among the Asiatic whalers, which I had written for Harper's Round Table so many years ago."

DEWOLF HOPPER, celebrated operatic artist and comedian:—"Apart from the splendid history of the evolution of the game, it perpetuates the memories of the many men who so gloriously sustained it. It should be read by every lover of the sport."

HUGH NICOL, Director of Athletics, Purdue University, Lafayette, Ind.:—"No one that has read this book has appreciated it more than I. Ever since I have been big enough, I have been in professional base ball, and you can imagine how interesting the book is to me."

MRS. BRITTON, owner of the St. Louis Nationals, through her treasurer, H. D. Seekamp, writes:—"Mrs. Britton has been very much interested in the volume and has read with pleasure a number of chapters, gaining valuable information as to the history of the game."

REV. CHARLES H. PARKHURST, D.D., New York:—"Although I am not very much of a 'sport,' I nevertheless believe in sports, and just at the present time in base ball particularly. Perhaps if all the Giants had an opportunity to read the volume before the recent game (with the Athletics) they might not have been so grievously outdone."

BRUCE CARTWRIGHT, son of Alexander J. Cartwright, founder of the Knickerbocker Base Ball Club, the first organization of ball players in existence, writing from his home at Honolulu, Hawaiian Islands, says:—"I have read the book with great interest and it is my opinion that no better history of base ball could have been written."

GEORGE W. FROST, San Diego, Calif.:—"You and 'Jim' White, George Wright, Barnes, McVey, O'Rourke, etc., were little gods to us back there in Boston in those days of '74 and '75, and I recall how indignant we were when you 'threw us down' for the Chicago contract. The book is splendid. I treasure it greatly."

A. J. REACH, Philadelphia, old time professional expert:—"It certainly is an interesting revelation of the national game from the time, years before it was so dignified, up to the present. Those who have played the game, or taken an interest in it in the past, those at present engaged in it, together with all who are to engage in it, have a rare treat in store."

DR. LUTHER H. GULICK, Russell Sage Foundation:—"Mr. Spalding has been the largest factor in guiding the development of the game and thus deserves to rank with other great men of the country who have contributed to its success. It would have added to the interest of the book if Mr. Spalding could have given us more of his own personal experiences, hopes and ambitions in connection with the game."

Pittsburg Press:—"Historical incidents abound and the book is an excellent authority on the famous 'sport.'"

Philadelphia Telegraph:—"In this book Mr. Spalding has written the most complete and authoritative story of base ball yet published."

New York Herald:—"If there is anyone in the country competent to write a book on base ball it is A. G. Spalding who has been interested in the game from its early beginnings."

I. E. SANBORN, *Chicago Tribune*:—"America's National Game' has been added to the *Tribune's* sporting reference library as an invaluable contribution to the literature of the national pastime."

O. C. REICHARD, *Chicago Daily News*:—"It is cleverly written and presents information and dates of great value to the newspaper man of to-day!"

GEORGE C. RICE, *Chicago Journal*:—"I have read the book through, and take pleasure in stating that it is a complete history of the game from the beginning until the present time."

SHERMAN R. DUFFY, Sporting Editor *Chicago Journal*:—"It is a most interesting work and one for which there was need. It is the most valuable addition to base ball literature that has yet been put out."

JOSEPH H. VILA, *New York Sun*:—"I have read it carefully and with much interest. It is the best piece of base ball literature I have ever seen, and I congratulate you on the work."

TIM MURNANE, Sporting Editor *Boston Globe*:—"You have given to the world a book of inestimable value, a classic in American history; a book that should be highly prized in every home library in the country."

FRANCIS C. RICHTER, Editor *Sporting Life*, Philadelphia:—"From a purely literary standpoint, your work is to me amazing. Frankly, I would not change a line, for the reason that the story is told in a way to grip the reader and hold his interest continually."

Los Angeles Times (editorial):—"Spalding's book has been out six months and ninety thousand copies have been sold. We understand there will be other editions. America has taken base ball seriously for at last two generations, and it is time enough that the fad was given an adequate text book."

CASPAR WHITNEY, Editor *Outdoor America*, and one of the leading authorities in the world on sport:—"You have made an invaluable contribution to the literature of the game, and one none else could have made. Moreover, you've done some very interesting writing, which is a distinct novelty in such books—too often dull and uninteresting."

New York World:—"Albert G. Spalding, who really grew up with the sport, has written 'America's National Game,' which he describes as not a history, but the simple story of the game as he has come to know it. His book, therefore, is full of living interest. It is a volume generously illustrated and abounds in personal memories of base ball in the making."

New York Sun:—"There is a mass of interesting information regarding base ball, as might be expected, in Mr. Spalding's 'America's National Game.' It is safe to say that before Spalding there was no base ball. The book is no record of games and players, but it is historical in a broader sense, and the author is able to give his personal decisive testimony about many disputed points."

Evening Telegram, New York:—"In clear, concise, entertaining, narrative style, Albert G. Spalding has contributed in many respects the most interesting work pertaining to base ball, the national game, which has been written."

"There is so much in it of interest that the temptation not to put it down until it is completed is strong within the mind of every person who begins to read it. As a historical record it is one of those volumes which will go further to straighten some disputed points than all of the arguments which could be advanced in good natured disputes which might last for months."

BEST PERFORMANCES OF GERMAN SWIMMERS

Compiled to November, 1912, by Otto Wahle, New York.

It is impossible to give a reliable list of German records, as the German Swimming Association has no rules under which records can be made. In open water, races are generally started from a tread water start and pushing off on turns is not permitted. In baths the start is made with a push off and contestants are allowed to make a walking step when turning in the shallow end, which means a great advantage over a turn with a push-off. The timing is at times not reliable.

WHY AMERICA WINS OLYMPICS

Mr. A. G. Spalding, who was appointed by the late President McKinley American Commissioner to the Olympic Games at Paris in 1900, and who follows all athletic events of whatever character with the keenest interest, has a theory about the invariable success of American athletes in international contests that is original and worthy of consideration.

"Of course," said Mr. Spalding, "I am not surprised at the result at Stockholm. History has been repeating itself in this way ever since the celebration of the Olympic games was inaugurated at Athens. America won the victory there in 1896; she triumphed again at Paris in 1900; our athletes defeated the contestants at St. Louis in 1904; the victory was ours at London in 1908, and it was a foregone conclusion that we would win at Stockholm.

WHY DO WE ALWAYS WIN?

"But there is food for thought in this uninterrupted succession of triumphs. Why do our athletes always win? All other things being equal, the contestants in the country holding the event should naturally come to the front. Their numbers are always greater than those from any other country and the home grounds influence is strong. However, that advantage has not in any case prevented American success.

"Therefore there must be a cause. What is it? Measured by scale and tape, our athletes are not so much superior as a class. The theory of 'more beef' must be discarded. We may not lay claim to having all the best trainers of the world. We must look to some other source for American prowess.

"I may be a prejudiced judge, but I believe the whole secret of these continued successes is to be found in the kind of training that comes with the playing of America's national game, and our competitors in other lands may never hope to reach the standard of American athletes until they learn this lesson and adopt our pastime.

"The question, 'When should the training of a child begin?' has been wisely answered by the statement that it should antedate his birth. The training of Base Ball may not go back quite that far, but it approaches the time as nearly as practicable, for America starts training of future Olympian winners very early in life. Youngsters not yet big enough to attend school begin quickening

their eyesight and sharpening their wits and strengthening their hands and arms and legs by playing on base ball fields ready at hand in the meadows of farms, the commons of villages and the parks of cities all over the land. Base ball combines running, jumping, throwing and everything that constitutes the athletic events of the Olympian games. But above all, it imparts to the player that degree of confidence in competition, that indefinable something that enables one athlete to win over another who may be his physical equal but who is lacking the American spirit begotten of base ball.

STAND COMPETITION.

"An analysis of the 1912 Olympian games shows that the American showed to best advantage in contests where the stress of competition was hardest. In the dashes they were supreme; in the hurdles they were in a class by themselves, and in the high jump and pole vault there was no one worthy of their steel. Whenever quick thinking and acting was required, an American was in front. Does not this fact prove that the American game of base ball enables the player to determine in the fraction of a second what to do to defeat his contestant?"

A. G. Spalding & Bros., the largest manufacturers in the world of athletic goods, cordially invite all European athletes and directors of athletics to visit their shops and factories in London, Birmingham, Manchester, Glasgow and Edinburgh when visiting Great Britain. A. G. Spalding & Bros., being in close touch with the growth of athletics in America for forty years, are in a position to offer every facility for information on any branch of athletics. If you want to know how to train, how to build an athletic track, what the record is for any athletic event, what to use for any sport, the official rules for any sport, how to lay out a playground or construct a gymnasium, a request to them will bring a reply with the opinions of the most reliable experts in their particular lines. Do not hesitate to write for any athletic information.

Spalding Vaulting Poles

Spalding Vaulting Poles—Selected Spruce, Hollow

The greatest care has been exercised in making these poles, and in selecting the spruce only the most perfect and thoroughly seasoned pieces have been used.

No. 103. 14 ft. long. Each, | No. 104. 16 ft. long. Each,

We guarantee all of our wood vaulting poles to be perfect in material and workmanship, but we do not guarantee against breaks while in use, as we have found in our experience that they are usually caused by improper use or abuse.

Spalding Bamboo Vaulting Poles

owing to differences in climatic conditions it is impossible to keep Bamboo Vaulting Poles from cracking. These cracks or season checks do not appreciably detract from the merits of the poles, except where they are continuous. Much of the real strength of the pole is in the joints. All of our tests would seem to prove that poles with season checks may be accepted as safe and durable, except where the season check is wide open and extends through several sections on one side. Very frequently such splits or season checks can be entirely closed by placing the pole in a damp place for a day or so.

Tape wound at short intervals. Thoroughly tested before leaving our factory. Fitted with special spike

Mike Murphy "Rub-In" Athletic Linimer

THIS PREPARATION is the same as has been used by Mike Murphy, the famous athl trainer, in conditioning the Yale, University of Pennsylvania and other college teams wh have been under his charge. He is famous for the perfect condition in which he brings his athletes into a contest, and the ingredients and proper preparation of his "Rub-In" Liniment has been a closely guarded secret. He has finally turned the formula over to A. G. Spalding & Bros. with perfect confidence that the proper materials will always be used in preparing the liniment and that no considerations will induce us to cheapen it in any way.

Spalding Roll Collar Sweaters

Nos. AA, A and B Sweaters, listed below, are made of special quality worsted, exceedingly soft and pleasant to wear. For straight athletic wear there is no garment more useful than these regular roll collar sweaters which we have been making in our factories for over twenty-five years. Full fashioned body and arms and put together by hand, not simply stitched up on a machine, as are the majority of garments sold as regular made goods. All made with 9-inch roll collars. Sizes: 28 to 44 inches.

Standard Policy

A Standard Quality must be inseparably linked to a Standard Policy.

Without a definite and Standard Mercantile Policy, it is impossible for a Manufacturer to long maintain a Standard Quality.

To market his goods through the jobber, a manufacturer must provide a profit for the jobber as well as for the retail dealer. To meet these conditions of Dual Profits, the manufacturer is obliged to set a proportionately high list price on his goods to the consumer.

To enable the glib salesman, when booking his orders, to figure out attractive profits to both the jobber and retailer, these high list prices are absolutely essential; but their real purpose will have been served when the manufacturer has secured his order from the jobber, and the jobber has secured his order from the retailer.

However, these deceptive high list prices are not fair to the consumer, who does not, and, in reality, is not ever expected to pay these fancy list prices.

When the season opens for the sale of such goods, with their misleading but alluring high list prices, the retailer begins to realize his responsibilities, and grapples with the situation as best he can, by offering "special discounts," which vary with local trade conditions.

Under this system of merchandising, the profits to both the manufacturer and the jobber are assured; but as there is no stability maintained in the prices to the consumer, the keen competition amongst the local dealers invariably leads to a demoralized cutting of prices by which the profits of the retailer are practically eliminated.

This demoralization always reacts on the manufacturer. The jobber insists on lower, and still lower, prices. The manufacturer, in his turn, meets this demand for the lowering of prices by the only way open to him, viz.: the cheapening and degrading of the quality of his product.

The foregoing conditions became so intolerable that 14 years ago, in 1899, A. G. Spalding & Bros., determined to rectify this demoralization in the Athletic Goods Trade, and inaugurated what has since become known as "The Spalding Policy."

The "Spalding Policy" eliminates the jobber entirely, so far as Spalding Goods are concerned, and the retail dealer secures the supply of Spalding Athletic Goods direct from the manufacturer by which the retail dealer is assured a fair, legitimate and certain profit on all Spalding Athletic Goods, and the consumer is assured a Standard Quality and is protected from imposition.

The "Spalding Policy" is decidedly for the interest and protection of the users of Athletic Goods, and acts in two ways:

First.—The user is assured of genuine Official Standard Athletic Goods and the same prices to everybody.

Second.—As manufacturers, we can proceed with confidence in purchasing at the proper time, the very best raw materials required in the manufacture of our various goods, well ahead of their respective seasons, and this enables us to provide the necessary quantity and absolutely maintain the Spalding Standard of Quality.

All retail dealers handling Spalding Athletic Goods are requested to supply consumers at our regular printed catalogue prices—neither more nor less—the same prices that similar goods are sold for in our New York, Chicago and other stores.

All Spalding dealers, as well as users of Spalding Athletic Goods, are treated exactly alike, and no special rebates or discriminations are allowed to anyone.

This briefly, is the "Spalding Policy," which has already been in successful operation for the past 14 years, and will be indefinitely continued.

In other words, "The Spalding Policy" is a "square deal" for everybody.
