ANNOUNCER (CONTINUED)

The Commission also approved large purchases by the
 Executive and the Public... and Overlook National
 Forests and acquisition of lands within these two areas. This purchase
 will greatly double the area of National Forests in the Southern
 Appalachians and will enable the U. S. Forest Service and cooperating
 agencies to undertake more intensive forest management planning in
 many important watersheds and will increase the amount of timber
 being produced available to satisfy the economic interests of the
 people.

Next Friday of this line... Forest Service will
 be with us again. This program is supported by the National Production
 Company with the cooperation of the United States Forest Service.
