London, May 9.—A conspiracy to induce British sailors to mutiny and soldiers to demobilize themselves by marching out of their barracks has been discovered, according to The Daily Mail. The premises of various persons have been searched and documents seized. The object of the plot is stated to have been to compel the Government to use force if the projected disorders should occur, the organizars believing that this would precipitate anarchy.

Paris, May 9.—The naval terms of the treaty to be presented to Austria as they have been completed entirely wipe out the Austrian navy. All the ships of that navy, large and small, are to be surrendered. Their disposition among the Allies is to be adjusted later. The Drafting Committee this afternoon began work on the treaty

A dispatch from Paris last night said the expectation was that the Austrian peace delegation, numbering from forty to fifty persons would arrive at St. Germain on May 12. Information received from French sources was that the delegation had not left Vienna, owing Chinese Delegates to the difficulties encountered in selecting its membership because of

### OTTAWA BUDGET IN COUPLE OF WEEKS

When Borden Returns Ratification of Treaty Will Come Up

Ottawa, May 9.—It is expected that the budget will be brought down within a couple of weeks, although the official date has not yet been determined. The original idea was to hold the budget over until the return from overseas of Sir Robert Borden and his colleagues, but as Sir Robert, according to present indications, is not likely to be back before early June, there is every probability of an early announcement on the budget. Sir Thomas White aiready has intimated that he will give adequate notice before presenting the budget to the House.

When Sir Robert and his colleagues return the question of the ratification of the peace treaty by the Dominion Parliament will, arise.

Should the signing of the treaty be delayed, there is likelihood of adjournment of the House, once the budget is passed, with a view to meeting again early in the fall. Ratification would then be taken up as the first business.

### HARMONIZES VIEWS OF FRENCH LEADERS

British-American Guarantee of France's Security Fuses Both Premier's and Foch's Ideas

Paris, May 9.—(Associated Press)—
The engagement for joint action by
Great Britain and the United States to
assist France in case of an unprovoked attack has excited greater interest and satisfaction in French official and military quarters than the
peace treaty. It is understood to have
been the culmination of conferences
held by Premier Clemenceau and Marshal Foch. The latter took the advanced military view for complete defensive protection and the Premier
sought to reconcile this with the more
moderate view held in the Conference
and emphasized the difficulties attendant upon joint action by Great Britain
and the United States. The announcement of the proposed joint action of
those two countries has the effect of
harmonizing the views of M. Clemenceau and Marshal Foch on the adequacy of French security against Germany.

It is understood that the letter re-

It is understood that the letter requires approval by the United States Senate in order to make the pledge effective, and if this approval is given by resolution or otherwise, the engagement would then be submitted for approval to the League of Nations Council.

# Halifax, May 2.—The Cunard liner Mauretania docked here this morning with 4.000 returning Canadian soldiers, made up of the First, Second and Third Artillery Brigades and siege batteries under command of Major-Gen. Andrew McNaughton, D. S. O., and a few other details. Among the ninety-one civilian passengers brought by the Mauretania were Sir Edward Kemp, Canadian Overseas Minister of Militia; Sir Charles Ross, Sir Percy and Lady Daniels and Mrs. Whitelaw Reid. Sir Edward Kemp vigorously defended Argyll House, the Canadian military headquarters in London, upon his arrival here. Of the thousands of officers who had been attached to the Canadian Expeditionary Force, he did not believe a dozen could be found who would say anything against the work done at Argyll House, The facts of the matter were that the staff at Argyll House had accomplished a stupendous work under exceptionally severe difficulties. It was only a question of time before the problems precipitated, principally by the anxiety of the men to get home, would work out their own solution. It was this anxiety to get home more quickly than ships could be found to get them home which was responsible for the Kinmel Park riots. xecutive of British Labor Party Issues Manifesto Criticizing Treaty

London, May 9.—After meetings to consider the terms of peace imposed upon Germany by the Allied and Associated Powers, the National Executive Committee of the British Labor Party last night issued a manifesto declaring the treaty in some essential points "opposed to the declarations of President Wilson, of the Allied Labor Conference and the Berne Conference, and very defective from a standpoint of world peace."

"It bears evidence of a compromise by capitalism and the imperialism which still dominates European states," the manifesto declarate.

Armaments.

Other points criticized are the failure to give Germany representation and the omission of provision for a progressive limitation of armaments by the other signatories to the treaty. The manifesto protests against the permanent separation of the Saar Basin from Germany and advocates a pleb-scite in Malmedy and other contested territories between Belgium and Germany.

Ottawa. May 9.—The Public Accounts Committee of the Commons this morning continued its probe into the matter of the rush purchase for the offices of Hon. J. A. At a former meeting of the Committee James Hunter, Deputy Minister of Public Works, testified that as a result of this order being given to the Ottawa Typewriter Company without the formality of a requisition from the Department of Public Works, the bill had been disputed for a time but it had been finally paid. The Minister had explained that the order had been given in a hurry on the eve of his departure on a hurried trip to the West.

Delegates Considerably Divided, High British Authority Intimates; About a Month Is Expected to Elapse Before Treaty Is Signed

Paris, May 9.—The German delegates to the Peace Congress are siderably divided among themselves in their views on the peace erms submitted by the Allied and Associated Powers, it was intimated to-day by a high British authority, a Reuter statement says.

Paris, May 9.—(Havas).—It is generally believed that the Gernans will answer the delivery of the treaty by proposals relative to certain phases of the document. A competent commission will examine the German answer, and if modifications are necessary the Germans will be notified. It is expected that in the rejoinder the enemy will be allowed four or five days to agree definitely to the whole treaty. It is probable, therefore, that from twenty-five to thirty days will elapse before the pact is finally signed.

Charles Humbert, Senator and former, editor of Le Journal, was arrested in February of last year, during the trial of Bolo Pasha, who later was put to death for treasen, and directors of the Germanophile newspaper Bonnet Rouge. Bolo, it was brought out, had bought an interest in Le Journal, with money that came from the Germano Foreign Office through banking houses in New York. Proceedings were begun last month against Capt. Ladoux in connection, with the Bolo Pasha and Bonnet Rouge cases. Lenoir was accused of trading with the enemy. When arrested his case was placed in importance by the Government higher than that against Bolo Pasha. He was a Parisian capitalist, and, with Desouches, bought Le Journal in 1915 for 10,000,000 frames and later sold it to Humbert. The money was declared to have come from a German source. Desouches, although nearly sixty years old, fought with the French before Verdun. The prosecutor, in presenting the case against him, said Desouches knew that the money with which Lenoir bought Le Journal of the Serman Lud-was the Legunder Hason officer might permit the court to lighten his sentence on conviction.

Dr. M. Clark.

Dr. Michael Clark said the shipbuilding programme of the Government was only one more Hustration of the extreme things it was possible to do under a protective tariff. There were absolute incompatibility between a high tariff and successful shipbuilding. Dr. Clark referred to the great maritime business built up by Great Britain under free trade.

It had to be admitted that it had been a mistake to take shipbuilding out of the hands of the Imperial Munitions Board and that "we have entered into unprofitable, if not rulnous contracts." Hisenformation was that the prices of steel plates and of freights were tumbling, it would be a good thing if goods in the household should tumble at the same time and if the Government should see that it was necessary that they should tumble. Relief was needed from the high cost of living as well as in the high cost of living as well as in the high cost of living as well as in the high cost of living as well as in the high cost of living as well as in the high cost of living as well as in the high cost of living as well as in the high cost of living as well as in the high cost of living as well as in the necessary that they should tumble at the common sense and an attempt to reverse commercial history."

Mr. Ballantyne replied that the French Government was having thirty wooden ships built in Canada at \$200 at ton.

The Minister said there had been-criticism of himself on the Pacific Coast because he would not allow firms to take foreign contracts. The reason, was because the Government could not get plates. Although there had been orders placed in the United States for \$0,000 tons of plates, only \$6,000 tons had been delivered up to the armistice.

The yards had taken very much longer to build the vessels than had been anticipated, but there had been a shortage of steet and labor. This was being remedied, and the yards were coming along more quickly now.

More Ships.

Mr. Ballantyne continued: "In view of the fact of the great demand for ships, and in view of the fact that we could sell our ships, we are not going to discontinue for the moment. We realize that there are 130,000 men engaged in the shipbuilding yards throughout Canada. We realize also that there are fully 10,000 more men engaged in allied industries. To cause 40,000 to be out of work at the present time would be a rather critical thing for any Government to do. We are going to order additional ships at least to keep the yards requiring business at work throughout the balance of 1919, and probably into the year 1920."

However, the Government could not go on forever building ships. There must be a limit to the number which the Government could use, and "we are getting very near to that point," said the Minister. "So that when I say it is the intention of the Government, with the approval of Parliament, to order more ships, the shipbuilders must be a firmit to the mumber which the the intention of the Government, with the approval of Parliament, to order more ships, the shipbuilders must be a firmit to the form of the Government could not go on forever building ships. Vancouver, May 9. — The many ranches of the Great War Veterans branches of the Great War Veterans' Association throughout Canada will be asked to support a movement to bar German goods and all enemy aliens from Canada for all time to come. This resolution was introduced last night at a meeting of the Vancouver branch of the Great War Veterans' Association, and met with the strong support of the meeting.

A resolution urging the adoption of the electoral system of proportional

the meeting.

A resolution urging the adoption of the electoral system of proportional representation in future elections throughout Canada was passed by the meeting, and copies of the resolution will be sent to all Provincial and Dominion executives.

The branch went on record as being absolutely opposed to any corporation attempting to exploit returned soldiers by offering reduced rates of wages, as it was said certain large firms are at present attempting to do.

A committee of six will consider a strong resolution condemning the Government at Ottawa, for its alleged inaction in the matter of the present high cost of living. The International Brotherhood of Electrical Workers invited the Association to send a delegate to its meeting on May 14 to discuss means of forcing down the cost of living in the Province Comrade McKinstrey was elected as delegate to prevent the harmsh.

### PLANS ARE MADE FOR LIBERAL CONVENTION

National Gathering of Party in Ottawa First Week of August

Ottawa, May 9.—D. D. McKenzie, the Liberal Leader, last evening, gave out the following statement covering in detail the arrangements made to date

ranks of the Liberal democracy in dealing with grave mational problems, invitations will be extended to the Canadian Council of Agriculture, the Dominion Trades and Labor Council, the G. W. V. A., and the Canadian Railway Brotherhoods to send representatives to the convention for the purpose of presenting such views as these national bodies may desire to present prior to the drafting and adoption of a national Liberal platform."

#### CLEMENCEAU STARTED MOVE FOR ALLIANCE

Paris, May 2.—The first move to-ward an alliance between Great Britain, France and the United States, supplementing the peace treaty, it is understood, was made by Premier Clemenceau in a letter to President Wilson with a view to developing United States co-operation in the French desire for an agreement. Later letters passed between Premier Lloyd George and President Wilson which it is understood brought out the fact that while the British and French Premiers were free to conclude arrangements, President Wilson could not do so without Congressional action. This, in turn, developed the present tendency of the negotiations to place the whole matter before the American Congress. The understanding takes the form of a letter signed by Premier Lloyd George and Mr. Wilson referring to the British Parliament and the American Congress.

#### THE NEXT STAGE

The treaty with Germany, while first in importance, is but one stage of the programme before the Paris Conference. Furthermore, it is not improbably the easiest stage, for the determination of the treaty with Austria-Hungary is complicated by factors absent from the German situation. In the first place the Austro-Hungarian Empire has . passed out of existence, and in its place have arisen a number of new states, most of whom have been recognized by the Allies. There is, therefore, no Government of Austria-Hungary to negotiate with.

The Allies must deal with the representatives of the fragments into which that once powerful empire and head of the Germanic confederacy has fallen. They must deal with Hungary, Czecho-Slovakia and Jugo-Slavia, treating the two latter both as enemies and friends. They must apportion the liability of each for reparation and impose territorial and economic conditions upon them and at the same time arrange their boundaries and help them on their way as independent

If Jugo-Slavia, that is to say, Croatia, Bosnia, Herzegovina and other Slav districts of Austria-Hungary, desire to remain in a big Balkan Slavic confederacy embracing also Serbia and Montenegro, the territorial readjustment will not be difficult. In that case no war indemnity could be paid to Serbia by Jugo-Slavia, for the new Government could not tax one part of the same nation in the interests of the other

It is hard to see also how the Allies can impose any stiff terms upon Czecho-Slovakia in view of the assistance rendered to them by Czecho-Slovak soldiers and by the present leaders of the Czecho-Slovak nation in other ways. Obviously the greater part of the burden of reparation must fall upon German-Austria and Hungary.

After the treaty with what was once Austria-Hungary has been completed, treaties must be negotiated with Bulgaria and Turkey. Serbia, Roumania and Greece have long accounts to settle with Bulgaria both for reparation and in the way of territorial readjustment. As for Turkey, the proceedings must deal with age-long problems of the utmost importance. They must retrace history and undo the diplomacy of many generations, The status of Armenia, Mesopotamia, Syria, Asia Minor and the Dardanelles will be determined, and, finally, the fate of Constantinople, the cause of countless wars, will have to be settled for all time. Clearly the Peace Conference has still a mighty task on its hands.

#### THE DEBT TO BELGIUM

We may assume that the Allies will assist Belgium financially pending the receipt of her share of the first payment of \$5,000,000,000 Germany must make on reparation account. Germany is allowed two years in which to pay that sum, but Belgium cannot afford to wait so long and should not be expected to do so. It should not be forgotten that Belgium's heroic action in casting herself in the path of the gigantic German military machine determined the final outcome of the war in the first few weeks. According to Dr. Muehlon, the ex-director of Krupp's who ought to know, the Belgian resistance at Liege made the Germans lose time they never were able to regain, when time was the most vital essential of their task. Furthermore, when Belgium thus sacrificed herself she knew that it would be a long time before the military power of her Allies would be equal to that of her foes. There is a great deal of unprofitable dis-cussion these days on the subject of who among the Allies won the war, and Belgium is scarcely ever mentioned in it. She can truthfully say, however, that had it not been for her, in all probability there would have been no basis for such a discus-

#### A SUGGESTION.

One of the members of the City Council a few days ago said he was attacking the caterpillar pest on his own property and suggested that resid generally do the same on their premises. This is all right as far as it goes, but it does not go far It does not meet the depredations of the undesirable visitor in the parks and on the boule-

Nevertheless, the suggestion offers a remedy for the situation as it affects our public places. The City Council is responsible for the maintenance of the parks and boulevards. Why should not the Mayor and Aldermen personally conduct an offensive against the caterpillar host on those bat-tlefields? With the Mayor in command and the application of sound strategic principles based upon the Foch model there can be no doubt that they soon would force the enemy to ask for an armistice and terms. The war having upset the armistice and terms. The war having upset the stipulations of The Hague and Geneva Conventions they could use liquid fire, poison gas, smoke barrages and all the deadly chemicals local science can devise. They could even blast the foe by delivering impromptu speeches.

They have available all kinds of equipment.

be used against the air forces of the enemy. They could borrow the aeroplane from the Aerial League from which Alderman Sanctor for the Aerial League from which Alderman Sangster, for instance, could pour a withering spray into the hostile positions The police ambulance could be utilized for first-aid cases; cases, for example, in which the insidious foe might get under the aldermanic collar and seriously attack the aldermanic person about the Improvement of Machinery of small of the back. As a battle-ground Beacon-Hill would be ideal. General Headquarters could be established at the flag-pole, while the broom would furnish admirable concealment for an attack, masked batteries, listening posts, scouting and sniping. We throw out these suggestions for what they are worth, with the additional one that the campaign commence on May 24 as an extra attraction for that festive occasion.

#### REPARATION

The principal criticism recorded against the Treaty of Versailles in the Allied countries concerns the reparation provisions. A little reflec tion, however, must disclose the impossibility of any final determination of the matter at this stage, Nobody knows what is going to take place in Germany in the next few years. She may have revolution, mock or real, with the organization of a Government which might repudiate the Treaty of Versailles altogether.

It undoubtedly is this possibility which has prompted the Conference to provide for the creation of a reparation commission over a term of years which will fix the terms and conditions in accordance with the circumstances that may develop from time to time. Certainly it is impossi-ble to place any reliance upon bonds issued by the present Government in Germany,

On the other hand, most of the other terms of the treaty can be made good no matter what developments there may be in Germany, for the Allies are in a position to enforce them. They can effect the necessary readjustment of boundaries by mili tary occupation, the dismantling of fortifications and the reduction of the German navy. But they cannot make any binding stipulation regarding reparation except in broad principles, because they do not know how far Germany will be able to

#### PLAYGROUNDS-NOT REFORMATORIES

In her address before the Women's Canadian Club on Tuesday afternoon Mrs. McMath appealed to her audience in behalf of the youth of the community, From her long and intimate experience in child welfare work she was able to support her arguments with first-hand knowledge of her subject. We heartily agree with her views on the need for "directed play" or the organized playground—one and the same thing.

It is to be hoped that the City Council will deal

with this important question while the long days are here. The policy is sound, and any trifling outlay that may be necessary will be repaid with in terest by the coming citizen, who will look back upon his or her playground hours as those in which the principle of how to "play the game" was inculcated.

Boys-and even girls-may easily fall prey to on the streets, while the lack of attempt to lead their energy and youthful spirits in the right direction may readily result in wrongdoing in some form or another. The supervised playing ground, in the opinion of Mrs. McMath, is a better investment than putting money into reformatories

#### LABOR DEPARTMENT'S REPORT

British Columbia was the first Province of Canada to establish a portfolio of Labor, and the annual report of the Department now issued for general circulation is a very creditable document. As a compendium of general information dealing. with the labor market and conditions as a whole, its detail is not only exhaustive and useful, but also unique in its intimate and comprehensive relation to the lot of the worker.

The report represents a great deal more labor than the number of pages would appear to suggest, and the attention which has been given to the minutest detail goes to show with what thoroughness the early period of organization work has been carried out.

As the titular head of the Department, and by reason of his long association with labor in British Columbia, the Attorney-General has manifested a keen interest in its administration. But the "spade work" has very naturally fallen to J. D. McNiven, the Deputy Minister, who is well and favorably known to labor throughout Canada.

Bolshevism was bitterly denounced by Samuel Gompers, President of the American Federation of Labor, in his first address before the National Civic Federation after his return to America. "All of you who know me or know of my attitude in regard to labor conditions know my absolute oppo-sition to Bolshevism in theory and to Bolshevism in fact," he said. "In theory Bolshevism is an impossibility. In fact, if it were put into operation, or could be put into operation, it would mean the decadence or perversion of the civilization of our time. To me the story of the desperate Samson who pulled the Temple down on his head, is an example of what is meant by Bolshevism. I am not willing that all of the genius of past ages should be flung to the winds. And I am not willing that the little service that I may have been able to render during the long years that I have attempted to improve conditions in a constructive way should be destroyed by maddened despera tion. And so I may say to you that it is well fer us to see no wthat our own house is kept in order."

A GREAT CANADIAN ACHIEVEMENT.

(Toronto Globe.)

There is reason for gratification and pride in the announcement that Canadian scientists have succeeded in producing helium gas at so low a cost that it may be used for airship purposes, thus placing acrial navigation on a practical commercial basis. This was one of the great practical commercial basis. This was one of the great concealment.

# OTTAWA PROPOSED

Government in Dominon Debated in Senate

Ottawa, May 9 .- Need for improve-Ottawa, May 9.—Need for improvement in the machinery of government in Canada was debated by the Senate again yesterday. Senator Lynch-Staunton, who resumed the discussion, supported Senator McLennan's resolution in favor of a small, inner Cabinet to deal exclusively with questions of policy and also for the securing of expert technical advice on all large questions of administration. Canada, he said, had suffered greatly in the past through absence of sound, expert advice before launching upon big enterprises.

Schuecking's Ideas.

London, May 9.—Schuecking, a member of the German peace delegation, in addressing his colleagues on Tuesday, expressed the opinion that the League of Nations ought to include all the powers signatory to the Hague Convention and the Pope, according to a dispatch from Paris. He favored The Hague as the seat of the League instead of Geneva, and regarded the system of mandatories for the former German colonies as little else than "disguised annexation."

unless the conditions were greatly modified in her favor may possibly have been put out just now with ghe object of influencing the negotiations and that it is not necessarily conclusive. Experts attached to the Inter-Allied Conference who have just returned from Germany, where they endeavored to obtain material for a definite verdict on this subject, believe, however, that a refusal by the present Government is not impossible. They expect that in that case the existing Government would fall immediately and be succeeded by an Independence Socialist Government which would sign any treaty without any intention of binding itself by its signature or of observing the conditions if the opportunity should arise to disregard them.

Despite the decision that no oral negotiations shall be permitted, it is expected here that verbal discussions of some phases of the treaty may take place.

Germans Complaining.

Versailles, May 8.—Via London, May 9.—The German delegates to the Peace. Congress complained bitterly this morning to one of the French liaison officers of the unexpected harshness of the conditions of peace.

The delegates said they had expected from the newspaper reports that the demands in many respects would be farreaching, but were not prepared for the terms as actually laid down in the melvided cony of the document.

Berlin Paper's Idea.

Berlin Paper's Idea.

Berlin, May 8.—Via London, May 9.—

The National Zeitung to-day published what it termed the official standpoint the Government expects to take regarding the peace terms.

The Government, according to the newspaper, will refuse to sign any part of the treaty which provides for "oppression of Germany." For instance, the Entente's standpoint regarding Danzig and the Saar valley will not be accepted. The German delegates, however, will make every effort to institute negotiations on these and other unacceptable demands.

#### BORDEN MAY COME TO EXPLAIN TREATY

Winnipeg, May 9.—A local paper carries the following from an Ottawa correspondent:

"There is a possibility Sir Robert Borden may make a flying visit to Ottawa to explain the peace treaty as it affects Canada and then return for the final signing, which may not take place for a month yet. Sir Robert already has cabled that the formal declaration of peace may not take place until August.

"It is expected that there will be an imperial Cenference following the Peace Congress. Great Britain will be assigned a certain indemnity and the mother-country and the various Over-

"Buy it! Oh, buy it!" begged the bunny.

"Oh, but on the next floor is a hat with cucumber salad all around the edges!" said Bunty. 'I might look better in that!" Up the stairs she hopped and Uncle Wiggily hopped after her.

Well, sir, Baby Bunty tried on forty-leven hats before she found one she liked, and by that time Uncle Wiggily was so lively, from hopping up and down stairs, that he bought two tee cream cones. He said he felt so good he had to have a treat.

I thought you'd like to come shopping!" said Baby Bunty. And Uncle Wiggily only twinked his pink nose. But if the molasses jug doesn't take the candy stick to beat the parlor rug when it's trying to race with the kitchen oilcloth, I'll telf you rext about Uncle Wiggily and Bunty's ahoes.

### **VISITOR'S PRAISE FOR** ORPHANAGE CONDUCT

Guardian of English Home Impressed With Management of Protestant Orphanage

The regular meeting of the Ladies' Committee of the Protestant Orphanage was held in April and May and excellent reports of the domestic affairs in the home were received. There are now seventy-three children in domicile and at present all are in good health. One of the girls had been ill and received treatment in the Jubilee Hospital. To the nurses and management the committee are very grateful. A sincere and sympathetic vote of condolence was passed to Mrs. J. D. Helmcken, Mrs. G. A. McTavish and Mrs. W. R. Higgins on the passing away of Dr. J. D. Helmcken, who was always devoted to the welfare of the home and a sincere friend to the children.

During the month a visit was paid to the home by the guardian of a similar home in England, who was loud in the praise of the cleanliness, method and kindly discipline exercised by the matron. Other interesed visitors were Miss Dola Dunsmuir and Miss Betty Gray who came to see the children on behalf of a girls' school club and chose a little girl with the intention of dressing and caring for her.

Mrs. Sherwood and Miss Harger were appointed visitors for May: bills for March amounted to \$515, and for April to \$633.80, which were passed.

A request for jam is made to the kindly public as the supply is almost exhausted. There are many more children in the home and the food question is a serious one with seventy-three healthy young appetites to content. The annual pound party will be held on Thursday, June 19, on which the committee depend so much to fill again the empty spaces and shelves of the larder.

#### **AUSTRIAN PEACE DELEGATES TO START** FOR PARIS MAY 11

Basel, May 9.—(Havas)—The Austrian peace delegation will leave the Austrian capital for Paris on May 11. NEW WESTMINSTER DEATH.

New Westminster, May 3 - Mts. Eliza Cunningham, wife of George Cunningham, so well-known and much respected resident of long standing, died this morning at the age of seventy-five. She leaves four sons, Major Tom Cunningham, George, James and Samuel, and two daughters, Mrs. R. D. Hendry and Mrs. Alma McLean.

Gains Bar to Military Cross.—Supplementing the Military Cross won by him in July, 1917, Capt. Francis Carleton Hanington, son of Mr. and Mrs. H. C. Hanington of Ottawa, formerly of Victoria, has now been awarded a bar to his decoration. The official report of the action leading to the award is contained in The Canada Gasette, and reads as follows: "For conspicuous gallantry and determination during the infantry attack following the capture of the Drocourt-Queant line, 2nd September, 1918. He ushed his battery into action in the support line until stopped by machine gun fire. Throughout the day he engaged hostile batteries, neutralizing at least two, besides taking on numerous targets of troops and transports moving in the open. Altogether he fired 1,500 rounds from this position. His coolness and skill did much to releve the pressure on the infantry at very critical periods."

### IN SONORA, MEXICO

Douglas, Ariz., May 9.—Twenty-two mounted-bandits last night raided the town of Cananea. Sonora, robbed a bank, killed five policemen and the city jailer and released all the prisoners there. The chief of police was among the officers killed.

The bandits stole a number of horses and escaped to the mountains.

ON A CHERRY STONE.

It is remarkable how very popular cherry-stones have always been with people who aimed at breaking the record for minuteness-people of the type of those who write the Lord's Prayer, the Ten Commandments, the Beatitudes and the Twenty-third Psalm on a threepenny-bit.

ably none but the fair sex would have the patience!

If one applies one's best eye to a big magnifying glass the landscape can be seen in all its detail. There is a windmill, the miller and his daughter, a cart, horse and man, several trees, one water wheel and quite a lot of water. How's that for a cherry-stone?

But it has been beaten. Once upon a time a man set to work and carved the heads of 124 popes and kings on a single stone! The former could be distinguished from the latter by means of mitres and crowns, which were all visible even to the naked eye. But it must be confessed that to tell Pius IX. from Alfred the Great needed a microscope.—Tit-Bits.

WHERE MILLIONAIRES ARE BORN

Frankfort, the famous German town on the River Main, is the birthplace of the world's greatest millionaires. It is a wealthy commercial city and quite disproportionately famous in comparison with its actual size.

The Rothschilds, whose ancestral home is now the solitary relic of the once famous Jewish Quarter of the city; the Sterns and the Speyers in this country; the the Kahns, the Kuhn, Loeb and Co. in New York, would alone suffice to make it remarkable as the birthplace of international financiers.

Union of Sections Under the Omsk Government Being Completed

Washington, May 9.—The strength of the Omsk Government has reached such a stage that a formal declaration made to-day by S. Ughet, Charge d'Affaires ad interim of the Embassy

d'Affaires ad interim of the Embassy, begins:

"The hour which Russian patriots and democrats have been walting for during long months has come at last."

The statement indicates that the details of the establishment of the Government at Omsk as the All-Russian Government have been completed.

Thanks are given to the Allied nations for the assistance given the new Government, and especially to the Czecho-Slovak Republic, whose soldiers stemmed the flood of Bolshevism at the most critical time before the Omsk Government could be organized.

"Russia is coming back to life," concludes the statement, and the near future will see her a great organized state built on broad democratic principles, with equality before the law for every creed and nationality, Russia's constitutional, social and national problems will be solved through the All-Russian Constituent Assembly."

### WESTERN MEMBERS' **VIEWS ON TARIFF**

Unionists Reported to Desire Reduction on Number of Articles

Ottawa, May 9.—The Ottawa Citizen to-day publishes the following:

"The western members supporting the Unionist Government have presented to the Minister of Finance their views as to what should be done with the tariff at this session. Some of them speak of the proposition as an ultimatum and an irreducible minimum. Others, while wishing that their requests be met, do not characterize them quite so strongly.

"The Westerners have it all figured out that what is asked will affect the revenues to an extent of only. 87-800.

909. The reduction they seek is on the ordinary tariff and not on the tariff and net on the tariff and the extra 7½ per cent war tax combined.

"While some secrecy is maintained on the subject, it is understood that the reduction sought is around fifteen per cent, and that it applies to not only the things in use by the farmers, such as implements, but to commodities used by the laboring classes in the cities. The proposal, in brief, asks a reduction in duties on a number of commodities that are necessaries of life, huch as boots, shoes and other articles, of clothing."

Manufacturers.

Winnipeg, May 9.—At the annual these are continuing, according to the advices from the Federal members.

\*\*SAFETY FIRST.\*\*

Winnipeg, May 9.—At the annual meeting of the prairie provinces branch of the Canadian Manufacturers' Association last night, N. W. Warren, in delivering the presidential address, said the manufacturers must hasten to adjust their business to peace conditions, but the agitation for a lower tariff would not help them do that. Uncertainty about the tariff and constantly higher demands for wages prevented them increasing their production. Still work must be provided for the unemployed or next winter the conditions of unemployment would be serious.

#### WELLINGTON COAL INTERESTS AWARDED **MORE THAN \$85,000**

Vancouver, May 9.—A judgment or over \$85,000 damages in favor f the Wellington Collieries against he Pacific Coast Coal Mines was led by Mr. Justice Murphy this fternoon. The trial of the case pok place at Victoria.

The plaintiff company alleged that the Pacific Coast Coal Company had trespassed on to its property and removed a large amount of coal. The defence alleged that the boundary marked on defendants' map was not the true boundary, but made its main defence that the coal had been removed by permission of the late Mr. Coulson, manager of the Wellington Collieries.

### SEEK AGREEMENT TO REPLACE MACY AWARD

Conference Between Capital and Labor Representatives Pending at Oakland

Oakland, Cal., May 9 .- A conferen between representatives of approxi-mately 250,000 men employed in the metal trades on the Pacific coast and entatives of the shipbuilders and other large employers on the Pacific coast will be held in this city next week. The conference which has bee asked for by the bollermakers and shipworkers in convention here, is for the purpose of drafting an agreement to replace the Macy Award agreement. One important item of the new agreement will be abolishment of piecework in Pacific Coast shipyards and boiler shops, it is believed, as a motion to this effect was adopted at both conventions. A resolution endorsing the Mooney strike proposition was adopted by the bollermakers' convention.

Is there not some tangible reason why the business of the New England Market has increased so enormously during the past year? You cannot "gull" the people all the time. Take yourself for instance—once bitten, never again—that is, not while you're conscious. Well! the people commenced patronizing the New England Market and were delighted with the treatment they received—they told their friends, and hence the crowds. ENJOYABLE DANCE Nearly Three Hundred at Delightful Affair Under Auspices of Margaret Rocke Rebertson Chapter,

Rocke Robertson Chapter,

Nearly three hundred members of the younger set, as well as representatives of the naval and military forces attended the very enjoyable dance held under the auspices of the Margaret Rocke Robertson Chapter, L. O. D. E., last night. The spacious ball-room at the Alexandra House was effectively decorated with spring blossoms, the decorations being the handiwork of the girls of the chapter who have been working energetically for some weeks past to insure the success of the affairs. Professor Ozard's Orchestra provided the attractive dance music, which kept the crowd of dancers on the floor till 2 oclock this morning.

### **FAMILY MUST HAVE** LARGER INCOMES

American Households Require \$2,500 Per Annum to Make Ends Meet

Washington, May 9.—It requires 2,500 a year to keep the average merican family, Government investiof living throughout the United es still is soaring. Of those who es still is soaring. Of those whend upon a \$2,500 yearly incomdepend upon a \$2,500 yearly income, few families are able to show a surplus of \$100 at the year's end; some can save as much as \$50, while a large number have nothing to show but a deficit. Forty per cent, of the income of the average family goes for food—the largest single item on the list. Clothing calls for 15 per cent, rent about 14 per cent, and light 5 per cent, with expenditures for furnishings about the same.

These figures were just announced by the Department of Labor, which has made a year's survey of living conditions in the United States.

How family budgets in most large cities work out for the year is indicated by the income and expense accounts of 518 families in New York City.

Total Average Surplus is \$30.67. With an average of 4.9 persons per mily in this group the expenses were

Families whose incomes resulted from business or other sources were not included in the survey. Of family groups picked for study, the largest group included was that whose annual income ranges from \$900 to \$1,200.

Another large group had incomes between \$1,200 and \$1,500. Incomes to \$2,100 and from \$2,100 to \$2,500.

And right on top of this official survey, Prof. W. N. Osburn, in a talk en economics before the conference on child welfare standards, under the auspices of the Children's Bureau of the Department of Labor, declared that it costs on an average a little more than \$100 a year to feed a child between the period of its Dirth and the age of 15 years. He declared that the average income of families was loo a small to provide children with the requisites of life.

### **PLANNING WELCOME** FOR COLONEL PECK

Date is Uncertain Yet When Hero Member of Parliament Will Reach Here

At the present time it is uncertain when the Victoria members of the Empress of Britain party, who formed part of the Canadian Scottish Battallon demoblized at Winnipeg, will arrive here. It is known that the party is proceeding to the Coast over the Grand Trunk Pacific Railway, and that some reception is certain to be tendered Col. Peck in Prince Rupert before the party leaves for the south.

Since he went away the colonel has not only, won great military distinction, but has also entered the Federal House, by election to the House of Commons in December, 1917, for the new constituency of Skeena. Allusion to his welcome among fellow-members at Ottawa has already appeared in these columns.

As stated yesterday, the local com-

tawa has already appeared in these columns.

As stated yesterday, the local committee promised a hearty reception to the colonel and the local men of the British Columbian-Manitoba regiments who composed the famous battallon.

The welcome to Col. Peck, who is a V. C. and D. S. O, hero, is planned to take the threefold form of a greeting at the boat, the presentation by the 18th and 39th Battalions of a gift of silver plate, and a dinner. The finances are being raised by subscription, and tickets for the dinner may be secured from any member of the reception committee; the chairman, Col. Hall; the convener, Sergt-Major Birch; or T. Dark, secretary (telephone 5890).

The eireumstances under which Lieut.-Col. Peck won the V. C. are as follows:

#### WELL-EQUIPPED PLANT HAS OPENED IN CITY

With an equipment of the most modern and expensive machinery Stapledon and Carter have opened a large machine shop at premises on the corner of Broad Street and Pandora Avenue. That the reputation of the two partners is familiar to a wide circle of business men is evidenced by the fact that so far the new establishment, though possessing a large staff, has to remain open at nights to attend to the volume of work which has accumulated. In face, such has been the demand that it is intended in the near future to install a lathe which will probably excel any in the city.

The new concern will do general mechanical repairing, but will specialize in marine work. Mr. Stupiedon is well known along the waterfront as competent and experienced in this form of mechanics and his return to business after a number of years absence will be welcomed. Mr. Stapledon held an important position at the Assembly Plant until he decided to go into business for himself.

At present the machine shop is operating \$6,000 worth of machinery, including an unusually fine shaper and a most expensive lathe. A large amount of electrical installation has also been accomplished, it being the intention to electrical work.

### What Dominion Friction Surfacing Means to Power Transmission

If you should measure the slippage of the ordinary transmission belting in your plant, you would find that the yearly power wastage is costing you a considerable sum of money in de-creased production and increased cost. Measure the slippage of Dominion Friction Surface Belting by the same method and you will find on comparing the results, that it has paid for itself in the saving of time and power.

Dominion Friction Surfacing is more than
rubber waterproofing, it is a special friction
compound that prevents practically all
power wastage on the pulleys even under
quick load changes.

Dominion Friction Surface Belting removes the cause of most transmission troubles, increases production—cuts upkeep costs and keeps employees contented.

At your convenience and without charge our engineers will show you how our better belts give the greatest service at smallest cost. Wire our nearest service branch and we will gladly prove our claims.

### CHANGE IN RULE OF ROAD IS NOT LIKED

British Columbia Electric Railway Company Interviews Premier Oliver

Assistant General Manager W. G. Murrin and Local Manager A. T. Goward, of the British Columbia Electric Railway Company, waited upon Premier Oliver at the Parliament Buildings this inorning and expressed official displeasure at the prospect of a change in the rule of the road.

The company declares that a very large sum of money will have to be expended in the alteration of existing rolling stock in order to conform to the requirements demanded by a change from the present rule of turning to the left.

Immediately after the passage of the resolution by the Legislature at its recent session and the decision do introduce the requisite legislation of introduce the requisite legislation next year, a notification of the Goyernment's intention was sent to the street rallway company so that adequate time would be given in which to make its arrangements. It should be noted, moreover, that the Legislature was unanimous for the change, many of the members favoring legislation this year. Common consent, however, favored more time being given to such corporations as might be affected.

Premier Oliver promised to take the company's representations into consideration, the deputation agreeing to place written data on the subject before the Government at an early date.

Y. M. C. A. Workers Make Encouraging Reports at Luncheon; Everyone Helping

Another three thousand dollars was added to the Y. M. C. A. drive at today's luncheon and the grand total is now rapidly approaching the half way mark. Owing to the fact that the teams have found it impossible to cover the whole of the city. It has been decided to carry the campaign on for a part of next week.

Included in the subscriptions turned in to-day was an unsolicited cheque for \$3500 by a prominent business man of the city. As proof that not only the big men are enthusiastic over the work, several workers turned in subscriptions from stenographers. One girl gave a cheque for \$30 and another for \$15. They have been told the good that the Y. M. C. A. did in France by their heroic brothers.

### CHARGE OF ASSAULT STILL BEFORE COURT

DOLLARS TO TOTAL Defence is Begun in Assize Court Hearing of Rex Vs. Lum Bong

> Chinaman accused of forcing a girl under the age of fourteen years and of having improper knowledge of the girl,

was continued in the Assize Court today before Chief Justice Hunter.

The case for the defence was begun
shortly before noon when R. C. Lowe,
counsel for accused, put on the stand
J. Jonés, part-owner of a laundry, adjoining the Moore & Whittington
mills, where the assault was alleged to
have taken place. Mr. Jones said that
he very frequently met the accused
about 7 o'clock in morning, just as he
was going to his work. The Chinaman
had complained that the girl in the
case and other members of the family
had bothered him a good deal by taking wood from the mill, and he had
told them to keep away.

John Henry Pugsley, foreman of the
mill, said that the Chinaman had
worked for the company for several
years, and had always paid attention
to his duties. The working hours of
the mill at the time of the alleged assault were from 7 o'clock in the morning till 5 o'clock in the afternoon. The
Chinaman had orders to keep the children away from the mill, and witness
believed that he had always done so.

### WILL MEET MR. BEATTY sion "temporary insunity" is merely used by a jury wishing to save relatives pain, but numbers of doctors who have made a birdy of mental disorders, emphatically declare it is no idle term. One doctor has stated that temporary insunity is a condition of double consciousness, not dissimilar to collepsy. A person normally quite sane may have attacks of temporary aberration lasting little more than a few minutes, especially after long bouts of hard, continuous mental work, being particularly liable if insomnia supervenes. ON BRIDGE PROPOSAL

City Will Probably Approach C. P. R. President on Arrival Here

If no satisfactory result has been accomplished in the meantime, representatives of the city will probably confer on the Johnson Street Bridge problem with E. W. Beatty, President of the C. P. R., during his visit here in the near future. The fact that Mr. Beatty is accompanied by Mr. Motley, the company's bridge engineer, is taken by the aldermen to mean that the party of railway officials intends to go into the bridge question during its stay here.

### PROMINENT ATHLETES ON THEIR WAY HOME

"Dick" Wallis and "Tommy" Gallon Expected to Arrive on Sunday Morning

Two weil-known "originals" of the Great War and prominent athletes in the peace days of yore, Major P. R. M. Wallis, M.C., and Lieut. T. H. Gallon, are now crossing the continent and are expected to arrive here on Sunday orning. Both were members of the 16th Battalion, "Canadian Scottish, and received their discharges in Win nipeg, where the gallant regiment was

easily recalled as "Dick" Wallace, joined the 50th Gordon Highlanders when they were organized by Lieut. General Sir Arthur Currie. On the outbreak of war he volunteered for overseas and proceeded to Valcartier, where he obtained the rank of lieutenant in the 16th Battalion. He took part in a great many of the actions which gave the "Canadian Scottish" such a remarkable name in the history of the war. For his conspicuous and brilliant work he was promoted twice and awarded the M. C.

Prior to going overseas "Dick" was a prominent High School boy. He was one of the fastest men on the High School Rugby team and took an active interest in mahy other branches of sport.

"Tommy" Gallon was one of Victoria's leading spriaters. In company with "Hal" Beasley he went to Stockholm in 1912 and made a splendid showing in the 440-yard dash. In British Columbia there was nothing

that could touch Gallon at the quartermile and he could step over the distance with any of the boys in Canada.
At the outbreak of war Gallon went
to Valcartier with a draft from the
50th Gordon Highlanders and was there
posted to the Canadian Scottish. He
went to France and saw a tremendous
lot of fighting, and was recommended
for a commission on the field.
A large number of Victoria's athletes are returning home after doing
their bit and it is expected that sports
will, in the near future, play an important part in the life of the city. It is
possible that track meets may be held
during the summer and next winter the
rugby and football teams should be
reorganized on the pre-war footing.
Both the returning soldiers are members of the J. B. A. A. and will materiadly assist in the reorganization of
the club.

### CRICKET LEAGUE **OPENS WITH FOUR**

Teams Announced for First Matches in Virtue Cup Race

Cricketers are looking forward with the thrill that heralds the opening of the summer game when the first series played Saturday. The league this seaestablished and for the first year since 1914, when, while the season was in progress, players left the playing field

against the complete enjoyment of the game.

Several of last year's players are absent from the ranks, including A. H. Ackroyd, the skipper of the representative team which for the first time in history decisively vanquished the Mainland eleven. There are, however, many old players who have been away from cricket for a time who are taking their former place in the game, and the ability of several new men to Victoria cricket who will make their first appearance Saturday is heing wafched with interest. One or two come with a big reputation, and not only their club mates but those who are figuring an the all star eleven which will represent the city are anxious to see whether they will shape up like players who will help the Island eleven.

Four Matches. Four Matches.

### ANOTHER UNIT TO FORM ASSOCIATION

Members of 88th Regt. Will Gather: Dance to Commemorate Departure Overseas

Arrangements are being made to form the 88th Association in order to bring together all men who at any time served in this famous regiment. A meeting will be held in the Helmont Building on Tuesday evening next, commencing at 8 o'clock, when the formation of the association will be proceeded with. All ex-members of the regiment are asked to attend as full support is required if the organization is to be a success.

regiment are asked to attend as funsupport is required if the organization
is to be a success.

One of the matters to be discussed
will be the proposal, which is being
strongly supported by the military
authorities, to have the 192nd Battaljon, which has seen active service, take
the place of the 88th Regiment, in this
city. A great many of the members
are anxious to have the old regiment
retained here, as it contributed a great
many men to the allied cause.

When war broke out the 88th Regiment sent 250 officers and men to Valcartier, where they were merged into

Dominion-William S. Hart, in Breed of Men."

Variety — Mae Marsh in "The Bondage of Barbara," and Houdini in "The Master Mystery."

Virility, the breeziness of the West, the qualities of manhood that inspire admiration, are the strongest traits of William S. Hart, whose latest Artcraft picture, "Breed of Men," is now at the Dominion Theatre.

During his screen career, Mr. Hart has depicted Western types of every description — bad men, pinchers, woodsmen, ranchers, etc.—His remarkably forceful personality imparts a realism to his acting that lifts it out of the commonplace and renders it distinctly superior and convincing.

His new picture offers great opportunities for the famous star, for the role he portrays is that of a positive daredevil among cowpunchers, a man who is afraid of nothing. He is involved innocently in a great wrong which he rights, finally after some strenuous work. Seena Owen is his lading woman.

Shareholders Would Be Tenants, Says Major W. A. Chapple

double the wares before the war were demanded. The high cost of living, which still kept high, applied to maids in the home as well as to the family, and people could not afford to live in mansions. Flats or apartments, as you call them here, were solving the difficulty. Larger residences all over London, especially in the West End, and the fashionable residential quarters, were being converted into flats and equipped on the American plan, with every labor-saving device, and with all the amenities of a high-class home."

operative joint stock company, system, so successful in New York, and now being advocated in England, by which a person desiring a four or six-room apartment took shares in a company, formed to build an apartment block to suit the requirements of its share-holders. The shares taken would represent at least the estimated cost of the suite, and that suite would be armarked for him, and would be identified with his block of shares, and go with them on transfer. For instance, if the estimated cost of a certain five-room suite in an apartment block was \$5,000, and Mr. Jones wanted such a suite, he would apply for the \$5,000 block of shares identified with that five-room suite, and would give the architect any instructions with regard to the design and arrangement of the rooms, provided these requirements did not exceed the limit of the estimated cost. Another shareholder might estimate a \$3,000 suite \$10,000 suite. All shareholders would be tenanta, having representatives on the board of directors that made the regulations and administered the whole block. If a holder of a \$5,000 block of shares, with its accompanying suite wished to leave, he could self out his shares and interest, offering them first to the board of directors. Shareholders might hold any lesser number of shares, but they would not be entitled to a lien over a suite unless they held a number of shares equal to the cost of that suite.

This method of having shareholders was develonded, when the cost was a suite unless they held an unber of shares, occupying their own nomes, and receiving their own soules.

This method of having shareholders huilding their own suites, occupying their own homes, and receiving their own homes, and receiving their own dividends, though new to this section has been tried out elsewhere, and proved a great advantage to investors, as well as to those in search of a modern home, giving the minimum trouble and the minimum cost.

Of the Admiral line steamships plying to the North, the Admiral Evans and the City of Seattle on their last northward wayages carried the first of Alaska tourists. The next sailing of the City of Seattle, scheduled for May 13, has a generous complement of sightseers, while this movement will increase rapidly as the season develops. Alaska, according to reports received by local steamship officials, will receive this tourist influx with open arms, for this activity will in a measure stimulate the, mining inactivity resulting from the war.

LAND SEEKING TRIP

Inspect Tracts in Central British Columbia

Hon. E. D. Barrow, Minister of Agr culture, will leave the city to-night for points in Central British Columbia along the line of the Grand Trunk Pacific and the Pacific Great Eastern Railways. He will be accompanied by T. A. Barnard, of New Westminster. T. A. Barnard, of New Westminster, who has been chosen by the Provincial Executive of the Great War Veterans' Association to make the trip with the Minister for the purpose of inspecting lands for soldier settlement. An invitation was extended to the Association by Mr. Eurrow a few ago.

Licut. W. H. Kirchner, M.C., D.C.M., who did good work on the Asia committee, will also be a member of the party, as will Captain Leighton, of Nanaimo. The latter will act as representative of about 200 prospective farmers, members of the returning 72nd Battalion.

Other members of the party will be

Battalion.

Other members of the party will be B. E. Paterson, chalrman of the committee on soldier settlement, appointed by the Dominion Government; Robert G. L. Clark, chief Dominion Fruit Inspector; and A. Thompson. Leaving Vancouver on Sunday morning the party will travel on the Canadian Nattlemal to Lücerne, where connection will be made with the Grand Trunk Pacific train for Prince George, which point will be reached on Monday night. Some time will be spent in the Inspection of lands in the Fort George district and the Minister well consider the advisability of declaring a new settlement area there.

It is the intention of Mr. Barrow to examine lands all through the Nechaco Valley, while a trip will be made to the Francois Lake district. Later on the Buikley Valley will be visited. The Minister will also investigate dairying conditions in the Vanderhoof district with a view to establishing a creamery. This will be done if sufficient dairy cattle are found there.

PLEA FOR EXTRADITION

Case Arises Out of Disputed Owner ship of Queen of Hawaii.

ship of Queen of Hawaii.

Application was made before Judge Lampman in the County Court yesterday in behalf of the State of Washington for the extradition of A. H. A. Bode, of Seattle, who was arrested by the local police on Wednesday on a charge of stealing the vessel Queen of Hawaii. An adjournment was taken and the case was again brought before Judge Lampman this afternoon for further argument.

The Queen of Hawaii is a seventy-foot sealing craft. The arrest of Bode follows a disagreement between three partners, one of whom is Sherman, who apparently inspired the proceedings in Washington on a charge of grand larceny.

There were three partners in the transaction each of whom was to put up money for installing engines and fitting the craft up for trade. The intention had been to load the vessel bere with evidence for south American and the control of the country of the supplements with evidence for the supplements and the craft up for trade. REPAIRING ROADBED

Hon. E. D. Barrow Will Go to Premier Oliver Wires Hanna to Apply Here for Running Rights

"There is nothing the matter with the roadbed and all that is required is a little general maintenance work and the replacing of a few ties; when that is done that section of the line over which the Canadian National trains would run from the intersection will be capable of carrying any rolling stock on this Island," said Premier Oliver this morning in discussing his visit to Sidney yesterday. Chief Engineer Proctor accompanied Mr. Oliver and both came to the conclusion that the possibility of the roadbed not being capable of carrying the C. N. R. trains may be eliminated from consideration.

Writes to Bondholders Writes to Bondholders
Written notification has been sent from the Premier's office this morning to the bondholders of the Victoria & Sidney Railway Company of the state of the road and the incidental work necessary before use can be made of it by the C. A Telephonic Epitaph.

ed him as he leaned out of his bedroom window.

The mourner stated his request, and the post, feeling chilly and wanting to cut the interview short, "rang off" with the words: "All right! Good night!" And as he retired to rest it was borne in upon him that if he thought for a week he could not write a better epitaph than the one he had just uttered, and it duly supeared on the stone. A man who died in Canada some years ago was famous for his hatred of Yankees. They were the red rag to the buil to him, and to mention the name was enough to send him into a towering passion. When he died a friend composed his epitaph, and the conclusion of it was:

"Rest in Heaven is my prayer,

There will be no Yankees there!"

the recognition of the Government of Admiral Kolchak at Omsk by the Alilies as the de facto Government in Russia is supported so generally in Paris that announcement of such action any day will not be surprising. President Tschaikowsky, of the North Russian Government in Archangel, has consented to recognize the Kolchak Government as the central Government of Russia on condition that Archangel and other local Governments are with the retain control of local affairs. Similar action is expected on the part of General Denikine, whose advisors in Paris have recommended it.

#### **AERIAL PLANS OF** Advance of British Columns THE C. P. R. COMPANY

Concern May Enter Field When Ready

Montreal, May 9.—"The application of the Canadian Pacific Railway Company for an air charter, said Grant Hall, vice-president of the C. P. R., "is sued instructions to the district offices of the Board to prevent real earlier transport as applied to commerce. Even before the war a dirigible airship maintained a regular passenger service between Frankfort and Berlin for two years and during the war the progress of the maintained a regular passenger service state operators, especially in the Prairie Provinces, charging soldier settlers a servant process. It has been brought to the attention of the chairman that certain firms are attempting to sell lands on corts of the British agent, who is an Indian, left the capitat. Kabui was then the scene of great excitement and there were considerable movements of the troops in the surrounding country. It was, however, clearly understood that there was to be nothing in the nature of a general advance in the absence of direct-orders from the Amir. It is understood that there is a band of 400 Afghanistans with a couple of guns at one frontier position occupied

Much of it has been due to the skill and daring of Canadian filers.

In Preparation.

"Although at present aerial transport is a distinctly expensive matter, the progress being made in aeroplanes and dirigibles is so rapid that it is quite in order for a company such as the C. P. R. to be ready to enter the field as soon as air transportation comes within range of practical policy. There are areas in Canada, however, which for a long time will present difficulties particularly to aviators and the price of the second quarter section which for a long time will present difficulties particularly to aviators and the price of the second quarter section which had been sold to the set there are other great which conform to the requirements of the experts. Take for instance the prairies, which offer the conditions described by General Seely as vital, namely, that they are regions where there are wide spaces with almost complete absence of the airmen's real enemy—fog and mist, not wind. It is there where air traveling might be made profitable.

"There are, however, many costly features about a service by means of

"There are, however, many costly features about a service by means of aeroplanes which will militate against any hope of very low rates, particularly the necessity of suitable landing spaces at frequent intervals in case of engine trouble." continued Mr. Hall.

"In a word, the future of commercial air transportation is bound up in the question of cost, but we are of the opinion that with the engineering and operating resources which the C. P. always has been able to command, we should be able to enter the field with confidence when the time seems ripe."

FRENCH SOCIALIST

Black has issued the following in the structions:

"Where a soldier buys land from the Board and an additional area on crop payment or otherwise, the Board will not complete sale to him of the land which he requires from us, nor make additional loans for stock and equipment until it has been assured that the land purchased from private parties is worth the price which he has agreed to pay for it and it is a desirable purchase for him to make. Otherwise the Board's security would be greatly weakened and the possibility of the settler's success decreased. This Board urges the adeption of this plan as a fixed policy."

#### PAPERS CRITICIZE THE PEACE TREATY

with the advanced programme or ship-building and the furnishing of the plates.

Hon. C. C. Ballantyne, Minister of Marine and Fisheries, repeated his statement of last night that arrangements had been made with the company for modification of the price or cancellation of the contract. If the company was willing to give a more favorable price, the Government was ready to carry on with the proposition, but if the company was not willing to modify the price then it might be in the best interests of the country to cancel the contract. As yet the company had not imported any machinery, all the company had done was partially to erect a building.

Mr. McKenzie, discussing the question of prometing shipbuilding in Canada, said he was "not a very high protectionist, but I can not help knowing that protection has done a great deal for many industries in this country." Paris, May 9.—The Socialist press, of France, criticizes the peace conditions severely. One newspaper, for example, under the caption of "A Peace of Oppression and injustice." says: "The capitalist and imperialist world as it exists could only produce a capitalist and imperialist peace, which would prepare the way for another war. Between President Wilson's fourteen points and certain stipulations communicated to Count you Brokdorff. Rantzau there are wanks and contrasts which are too striking." #### MAN IN FRANCE IS CHARGED WITH BURNING

A mocouver, May 9.—A movement of considerable importance to refligious circles took place this morning when a delegation of Anglican clergy called on the Presbyterian Synod, which is in session, and brought greetings and a wish for closer relationship in the cause of Christianity. This is believed to be the first occasion on which the Church of England in Canada has moved for closer union with other Christian denominations, and it was the cause of much gratification.

The delegation from the Anglicans consisted of Most Rev. F. H. Du Vernet. D. D., Archibishop of Caledonia and Metropolitan of the Ecclesiastical Province of British Columbia; Right Rev. A. U. de Pencier, M. A., Bishop of New Westminster; Right Rev. C. D. Schofield, D. D., Bishop of Columbia, and Right Rev. A. J. Doult, D. D., Bishop of Kootenay.

EFFORTS TO SETTLE

WITH BURNING

BODIES OF WOMEN

Paris, May 9.— Calcined human bodies are said to have been discovered by the police in the Yilla at Gambass, owned by Heuri Landru, who is under arrest on suspicion of having murdered several women who disappeared in the recent past. According to the police, Landru used, a furnace beated by some method as yet unknown to burn the trunks of his victims and destroy their limbs in the largelaces of his villa.

A mass of stonea piled against a wall of the villa evidently beionged to a furnace, and clinging to them, it is said, were found bits of melted glass in which were pieces of bones which persons have declared to be human. These bones are alleged to include fragments of three human skulls.

### WILL NOT INSTALL LIGHTS IN THE PARK

Electrical Power Not Available: No Expected Action on Playground Supervision

The city it is understood will not ex tend the lighting facilities in Beacor Hill as a counter measure against the Hill as a counter measure against the vice which, it is alleged, at present mars the resort. The aldermen take the stand that as the electrical power system has as large a lead as it cencarry, it would not be advisable to use any more electricity about Beacon Hill. The proposal that something should be done to check vice in the Park was sponsored by the Local Council of Women, members declaring that the immoral conditions at present prevailing made it unsafe for uneacorted girls to walk about the Hill.

While they have no intention of extending the lighting facilities, the aldermen reserve with very little enthusiasm the suggestion that the broom should be cut down. Various public protests have been launched against such action, and, it is understood, the Council intends to leave the broom standing. Additional trails, however, are being cut through the thicker parts of the underbrush.

Entertainment at the Unitarian Church.—On Thursday evening the men of the Unitarian Church gave a special programme for the entertainment of the ladies and visitors. The items were varied and interesting, and revealed a considerable degree of histronic talent in unexpected quarters. A hearty chorus led off the proceedings; J. W. Bolden gave a telephone talk full of pungent humor; E. J. Bowden related "a bit of modern history;" F. Rand recited and sang "God Gave the Land to the People;" W. L. Llowellyn contributed a humorous reading; C. E. Green gave a whimsical mediation; T. Dooley sang some of his characteristic songs: T./H. Grant recited in fine dramatic style. His ifems were "if" by Kipling; Kellogg's "Driftwood Story," "A Cigarette" by Capt. Fergusson, and. 'Humanity' by Mrs. Hemans. Neil Black took the audience by storm with his funny Scotch songs, given in costume, and with magnifectivoice. They were "Nannie," "She's the Lass for Me." I Love to be a Sallor" and "The Trousers That Ma Father Used to Wear." H. H. Hollins accompanied the songs and choruses with spirit and style, and Geo. Grant made an excellent stage manager. The ladies present were unanimous in declaring that such an aggregation of notable talent had seldom gathered under one roof, and cheered the performers on to further efforts.

#### IMPORTANT MATTERS AT LAST NIGHT'S MEETING

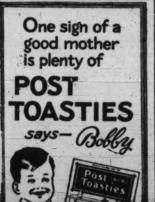

Proposals made by the Vernon unit of the Army and Navy Veterans to place all men who have served in the army during the European war, whether overseas or in Canada, on the same footing, were thrown out at a meeting of the Victoria Unit held at the Belmont Building last night. The Vernon veterans' suggestions were contained in a resolution submitted to the Victoria unit for endorsation, calling upon the Dominion Executive to ask that all men who had voluntarily served twelve months in the cave war, and had been retained for special duty in Canada be placed on the same status as the overseas returned soldier, and enjoy the same privileges as the returned man. Resolutions favoring the moving of the Dominion headquarters to Ottawa from Winnipes, pooling of expenses of delegates to the convention at Montreal were also endorsed.

Without discussion a resolution was endorsed that no member holding executive office in any other ex-set, executive office in any other ex-set, of executive office in the Army and Navy Veterans' Association.

The names were taken of seven volunteers representing the army to arborate and seven representing the army to arborate and seven representing the army to arborate and the could hold out no hopes of success. There appeared to be considerable doubt at Ottawa on the inferred training that they had the could hold out no hopes of success. There appeared to be considerable doubt at Ottawa on the inferred training that they had been overpaid \$210, and in some case with the matter will be gone into at Ottawa this week.

Thanksoning from Winning Fund.

It was stated that the Vancouver unit of the Army and Navy Veterans had endorsed Canon Hinchliffe's scheme, and the Great War Veterans had also taken up and were working for the scheme. At the opportune time they would be in a position to interview Premier Oliver with a request to make the scheme Provincial wide. Suggest Veterans' Whaling Company. The much-debated question of the employment of Orientals in positions that could be filled by veterans arose on a resolution being moved by Comrade Birch, declaring that the Consolidated Whaling Company employed many Orientals as freemen and constructions.

ade Birch, declaring that the Consoliated Whaling Company employed any Orientals as firemen and engineers. The resolution petitioned for he same rights as enjoyed by the Whaling Company to be given to a ody of returned men. The resolution hich will be placed before the Exervice Men's Council was as follows: "Whereas the Consolidated Whaling Company with its offices in the City f. Yictoria had a menopoly given by be Dominion Government:

"And whereas the aforesaid Considiated Whaling Company is mough the aforementioned monpoly deriving immense profits; and thereas there was recently a dispute searching the rate of pay of the entineers employed on the steamers of he Consolidated Whaling Company; and whereas the Consolidated Whaling Company; arge proportion of its engineers and remen who are Orientals; and returned men only should be in the proposed of the Dominion and the Impire; and whereas it is essential hat returned men only should be in the proposed of the consolidated wherever a firm or individuals enjoy a monopoly that enables uch a firm or individual to secure menses personal advantages and rolits;
