6. In the discharge of his responsibilities the Administrator shall collaborate with existing military, naval, and civil departments and agencies of the government which perform wartime functions connected with transportation overseas, in order to secure the most effective utilization of shipping in the prosecution of the war. The Administrator particularly shall maintain close liaison with the Departments of War and the Navy through the Assistant Chief of Staff for Transportation and Supply and the Director, Naval Transportation Service, respectively, with respect to the movement of military and naval personnel and supplies; and with the Director of the Office of Defense Transportation with respect to the relation of overseas transportation to coastwise and intercoastal shipping and inland transportation. With respect to the overseas transportation of cargoes essential to the war production effort and the civilian economy the Administrator shall be guided by schedules transmitted to him by the Chairman of the War Production Board prescribing

the priority of movement of such commodities and materials.

7. The Administrator may establish committees or groups of advisors representing two or more departments of the Federal government, or agencies or missions of governments allied with the United States in the prosecution of the war, as the case may require to carry out the purposes of this Order. Further, he may appoint representatives to such joint missions or boards dealing with matters within the scope of this Order as may be established with governments associated with the United States in the prosecution of the war.

In determining the amounts to be transferred from the United States Maritime Commission, the Director of the Bureau of the Budget may include amounts necessary to provide for the liquidation of obligations previously incurred by the United States Maritime Commission against such appropriations, allocations or other funds prior to the transfer; *Provided*, that the use of the unexpended appropriations, allocations or other funds transferred by this Section shall be subject to the provisions of Section 3 of the First War Powers Act, 1941.

TITLE 7—AGRICULTURE

CHAPTER VII—AGRICULTURAL ADJUSTMENT ADMINISTRATION

[NSCP-601-1]

PART 706—1942 NAVAL STORES CONSERVATION PROGRAM

SUPPLEMENT NO. 1

Pursuant to the authority vested in the Secretary of Agriculture under sections 7 to 17, inclusive, of the Soil Conservation and Domestic Allotment Act (49 Stat. 1149, 16 U.S.C. 590g to 590q), as amended, the 1942 Naval Stores Conservation Program¹ is amended, as follows:

1. Section 706.304 (c) is amended to read as follows:

¹ 6 F.R. 5688.

§ 706.304 Condition of payment; performance required

(c) Virgin faces on trees 9 inches or larger eligible for payment. Payment will be made on all virgin faces owned or leased by the applicant producer if all such virgin faces are worked on trees 9 inches d. b. h. or larger.

2. Section 706.304 (d) is amended to read as follows:

(d) Method of determining base. For each participating producer there shall be determined, in the manner herein-after outlined, the maximum number of faces which he is entitled to work during the 1942 turpentine season. For the purpose of arriving at a base figure for each producer the number of faces which such producer worked in 1938 will be taken as a starting point. This figure is subject to modification, for the purpose of finally determining his base, by the addition or subtraction of such number of faces as may have been transferred to him from, or transferred by him to, another participating producer subsequent to 1938, provided such transfer carried with it the right to work the number of faces transferred. In determining the base for a producer who began operations in 1939, the number of faces worked in 1939, subject to modification by any addition or subtraction, in the manner above prescribed, which may have been made in 1940 or 1941, or both, will be taken as his base. For a producer who began operations in 1940 the number of faces worked by him in 1940, subject to modification by any addition or subtraction, in the manner above prescribed, which may have been made in 1941, will be taken as his base. For a producer who began operations in 1941 the number of faces worked by him in 1941 will be taken as his base. Due to the emergency and the urgent need for increased production of gum naval stores during 1942, the Forest Service is authorized to grant to any producer without base, who begins operations for the first time in 1942, a base, non-transferable during 1942 and for working purposes only, in an amount sufficient to cover all the faces he can work, provided that the granting of such base will, in the opinion of the Forest Service, tend to increase production. No transfer of base for 1942 will be recognized except between participants in this program, and then only if it is for the purpose of working more faces than the transferee's established base permits and such transfer is stated on a transfer-of-base form, which the producer submits together with satisfactory evidence of consent by the transferring producer, and is approved by the Forest Service. In any case no transfer of base will be permitted after the final date for filing of work sheets.

3. Section 706.304 (e) is amended to read as follows:

(e) Working quotas. As an emergency measure each participating producer will be allowed to work faces in

1942 equal to 100% or more of his base as determined by the provisions of paragraph (d) of this section.

4. Section 706.304 (i) is amended to read as follows:

(i) Payment on discontinued faces limited to small trees. No payment will be made on discontinued faces except those removed from small trees as required by paragraphs (a) and (b) of this section.

5. Section 706.304 (k) is hereby amended to read as follows:

(k) Limitation of working area on faces. Total streaks per face made during the period of this program, averaged by drifts or tracts, shall not exceed 24 inches in vertical measurement between shoulders of first streak and shoulders of last streak.

6. Section 706.304 (m) is hereby amended to read as follows:

(m) Over 90-inch faces not eligible for payment. Payment shall not be made on working faces or on faces required to be removed by paragraphs (a) and (b) of this section in any drift or tract where the average height of faces exceeds 90 inches at the beginning of the 1942 turpentine season, in vertical measurement between shoulders of first streak and shoulders of last streak, including jump streaks.

7. In § 706.304 (t) the last sentence is amended to read as follows:

(t) Timber cutting requirements. * * * Payment on working faces or removed faces shall not be made if the tree is cut or removed prior to the expiration of the 1942 program; provided, however, that trees having faces which attain a height in excess of 90 inches during the 1942 season may be cut after October 15, 1942, and payment will be made for such faces if written permission to cut is given by a District Supervisor of the Forest Service.

8. In § 706.304 (u) the first sentence is amended to read as follows:

(u) Records required to facilitate administration of program. Each applicant producer in measuring his trees to determine those to be worked under the 1942 program shall make an accurate count, by drifts, lots, or other suitable units, of all such faces and shall separately account for those located on fee land and those on leased lands; and he shall make and keep a written record thereof and furnish such record to the Forest Service, together with a description of lands. * * *

9. Section 706.304 is amended by the addition of the following new paragraph (v):

(v) Chemical application to faces on selected tracts. Additional benefit payments will be made to participating producers (selected by the Forest Service

from volunteer applicants) for the experimental application of chemical stimulants as prescribed by the Forest Service to faces in areas of predominantly slash pine, such areas to be limited to one crop for each selected producer; one-half of the faces in each selected area to be so chemically treated after each chipping throughout the 1942 season and the other half of the faces to be worked without such chemical treatment. The areas selected are to be approved in advance, and the entire work is to be done under conditions prescribed, by the Forest Service. All of the work of each chipping on each selected area is to be done by the same chipper and so far as possible all the chipping on each selected tract is to be done by the same chipper throughout the 1942 season. Careful records of yield are to be made after each dipping for purposes of comparing yields from treated and non-treated faces and such records of yield are to be made available to the Forest Service.

10. Section 706.306 (a) is amended to read as follows:

§ 706.306 Rates of payment.

(a) 1 1/4 cents per face for each face in continuous operation during the 1942 turpentine season except faces in drifts or tracts which, by drifts or tracts, average more than 90 inches in height at the beginning of the 1942 turpentine season.

11. Section 706.306 (b) is amended to read as follows:

(b) 5 cents per face for each face in the selected areas on which chemical stimulation experiments are conducted as prescribed.

Done at Washington, D. C., this 6th day of February 1942. Witness my hand and the seal of the Department of Agriculture.

Assistant Secretary of Agriculture.

CHAPTER IX—SURPLUS MARKETING AREA

PART 922—MILK IN THE CINCINNATI, OHIO, MARKETING AREA

ORDER SUSPENDING ORDER NO. 22, AS AMENDED,¹ REGULATING THE HANDLING OF MILK IN THE CINCINNATI, OHIO, MARKETING AREA

The Secretary of Agriculture of the United States of America, pursuant to the powers conferred upon the Secretary by the Agricultural Marketing Agreement Act of 1937 (7 U.S.C. 1940 ed. 601 et seq.), issued, on November 29, 1940, and made effective, as of December 2, 1940, the order, as amended, regulating the handling of milk in the Cincinnati, Ohio, marketing area.

There being reason to believe that amendments to said order, as amended,

would tend to effectuate the declared policy of said act, notice was given, on the 9th day of July 1941, of a hearing which was opened at Cincinnati, Ohio, on July 21, 1941, and which was postponed to September 9, 1941. At said time and place all interested parties were afforded an opportunity to be heard on proposed amendments to said order, as amended.

Upon the basis of the evidence introduced at the hearing referred to above and of other evidence that is available and has been considered, it is determined that the order, as amended, regulating the handling of milk in the Cincinnati, Ohio, marketing area, as now in force and effect, obstructs and no longer tends to effectuate the declared policy of the act.

Now, therefore, pursuant to the powers conferred upon the Secretary of Agriculture by section 8c (16) (A) of said act, said Order No. 22, as amended, regulating the handling of milk in the Cincinnati, Ohio, marketing area is hereby suspended until the further order of the Secretary.

This order of suspension shall be effective as of 11:59 p. m., e. s. t., February 28, 1942.

This order of suspension shall not affect, waive, suspend, or terminate any right, duty, obligation, or liability which shall have arisen or which may hereafter arise in connection with any of the terms and provisions of said order, as amended, provided such right, duty, obligation, or liability was incurred prior to the effective date of this suspension. In addition, this order of suspension shall not release or waive any violation of said order, as amended, occurring prior to the effective date of this suspension.

Done at Washington, D. C., this 6th day of February, 1942. Witness my hand and the seal of the Department of Agriculture.

Assistant to the
Secretary of Agriculture.²

But the regulations in this part shall not be construed as defining or limiting the classes of aliens of enemy nationalities subject to apprehension, detention, or internment or the other provisions of the aforesaid Proclamations.*

§ 30.3 *Travel without special permission.* An alien of enemy nationality subject to the regulations in this part is hereby granted general permission to travel as follows:

(a) *Travel within a community.* An alien of enemy nationality may travel or move about within the limits of the municipality, town, village, locality, or urban or rural community in which he resides or in which he has his regular place of business, from place to place and in such manner as will permit him to engage in the activities usual in his community. The limits of such community shall not necessarily be fixed by boundaries of municipalities, counties, States, or judicial districts, but shall include in each case the metropolitan or other community area in which the alien resides or has his regular place of business and shall include all that area generally thought of as constituting a greater city or metropolitan district or an urban or rural community.

(b) *Commuting to business.* An alien of enemy nationality may commute between his home and his regular place of business.

(c) *Travel to places of worship, schools, or Government agencies.* An alien of enemy nationality may travel between his home and his usual place of religious worship, or the school, college, or institution of learning at which he may be in regular attendance, or between his home and any Federal, State, or local government agency with which he may be required by such agency to transact business.

(d) *Foreign travel.* An alien of enemy nationality may complete a trip to or from a place out of the United States, provided however, that such alien complies with all regulations governing such foreign travel.*

§ 30.4 *Occasional travel or trips.* An alien of enemy nationality shall not travel or make trips or move from one locality to another except as herein provided:

(a) The alien of enemy nationality shall file in writing with the United States Attorney of the district of his residence, a statement setting forth the particulars hereinafter enumerated.

(b) Such statement shall be filed, together with at least two copies (and any additional copies required by the United States Attorney) with the United States Attorney at least 7 days prior to the

intended departure except that the United States Attorney may, in exceptional cases and in the exercise of his discretion, waive all or any part of such 7 days' notice.

(c) Such statement and copies shall be prepared and filed personally by the alien desiring to make such trip at the office of such United States Attorney or at such place as he shall designate, except that, because of the distance between the place of residence of the alien and the office of the United States Attorney or other good and sufficient reason, the United States Attorney may permit such statement and copies together with a self-addressed stamped envelope to be mailed to him so as to be received at least 7 days prior to the intended commencement of the trip.

(d) Such statement and copies shall be made out upon forms to be prescribed by the Attorney General or in the absence thereof by the United States Attorney and shall contain the following information: (1) The name of the alien of enemy nationality; (2) the home address of the alien of enemy nationality and the telephone number, if any, of such place of residence; (3) the business address, if any, of such alien of enemy nationality and the telephone number, if any, of such place of business; (4) the alien enemy certificate of identification number of such alien of enemy nationality after it is obtained; (5) a detailed statement of the purpose for which the trip is to be made and the persons to be visited; (6) the proposed intermediate and final destinations of the trip; (7) the intended date of departure; (8) the intended date of return; (9) the address or addresses at which the alien of enemy nationality intends to be found while he is away from his permanent address; (10) the route to be followed to and from the point of destination; and (11) the common carrier or other means of transportation which the alien of enemy nationality intends to use.

(e) The United States Attorney shall retain the original of such statements in his files and shall forward copies thereof to the local office of the Federal Bureau of Investigation, and shall inquire of the F.B.I. for any facts indicating that the particular trip proposed by the particular alien of enemy nationality would in any manner endanger the national security.

(f) If, after such inquiry to the F.B.I., and such further investigation as the United States Attorney may see fit to conduct, the United States Attorney at any time within the 7 day period shall know of no reason why the particular trip would endanger the national security, he shall stamp or write an endorsement upon the remaining copy of the said statement that it was duly filed with him and shall deliver or mail to the alien enemy such endorsed copy of the statement.

(g) The alien of enemy nationality shall, at all times while he is so traveling, have with him on his person or in his immediate physical possession the endorsed copy of such statement.

The United States Attorney shall have, however, authority in any case to prohibit any particular trip, or to cancel any permission to travel granted by him if he shall deem it dangerous to the national security.*

§ 30.5 Frequent travel or regular business travel. An alien of enemy nationality accustomed to frequent or regular business travel (e. g. traveling salesmen, touring theatrical performers, drivers of trucks and busses and similar cases), instead of seeking permission pursuant to § 30.4 may apply for permission to travel as hereinafter provided:

(a) The alien shall present himself in person to the United States Attorney or to an assistant designated by him, for the district of his residence and shall file in writing an original and at least two copies (and any additional copies required by the United States Attorney) of a statement containing as full detail of all facts concerning himself, his business, and the time he has been engaged therein and his proposed travel, as the United States Attorney shall in the particular case require. This statement shall contain in as great particularity as shall be practicable a description of the travel intended, including the place or places and persons to be visited, dates of the proposed trips, and the route or routes to be followed.

(b) Such permission will not be granted unless the United States Attorney is satisfied that such travel is necessary and does not endanger the public safety and that requiring the alien to seek permission to travel for each trip under § 30.4 would impose an excessive hardship.

(c) In all cases in which the United States Attorney is satisfied that the applications warrant consideration, the United States Attorney shall forward copies of such statement to the F.B.I. and request to be advised whether facts are known indicating that such permission to travel would endanger or be detrimental to the public safety or national security.

(d) In those cases in which, after investigation, the United States Attorney is satisfied that such permission may properly be granted, he shall endorse such permission in writing on a copy of the statement and may note in the alien's certificate of identification that permission has been granted in such manner and form as he shall deem best suited to the particular case, provided that the permission to travel shall in no case be more general or extensive than the necessities of the particular case require.

(e) An alien enemy who has secured such permission to travel may thereafter travel in accordance with the terms of such permission without also having complied with the requirements of § 30.4: *Provided*, That before he makes any particular trip he shall notify the United States Attorney who issued such permission in writing and by mail, of the designation, the route to be followed, the carrier to be employed, and the date of the commencement of the trip. If the intended journey will include intermediate destinations or stop-overs the full particulars as to each trip or part thereof

must be included. Such information must be sufficient so that at all times the United States Attorney may know the whereabouts of such alien.*

§ 30.6 Travel by airplane. No alien of enemy nationality shall make any flight of any nature in an airplane or other aircraft.*

§ 30.7 Change of place of abode, employment, or name. (a) No alien of enemy nationality shall change his place of abode or his place of employment unless he shall have at least 7 days previously filed with the United States Attorney for the district in which he resides a statement in writing containing the full particulars of such change.

(b) Whenever the holder of a Certificate of Identification changes his name under legal authority, residence address, or place of employment, written notices thereof shall immediately be given to (1) the Alien Registration Division of the Immigration and Naturalization Service, and (2) the Federal Bureau of Investigation at the office shown in the holder's Certificate of Identification.*

§ 30.8 Radio transmitters. No alien enemy shall use or operate or possess, or have under his custody or control at any time or place any radio transmitter. For this purpose the words "radio transmitter" are to be construed as including any apparatus designed to be used or capable of being used for the sending or transmitting of radio signals, communications or messages of any kind or nature whatsoever.*

§ 30.9 Short-wave radio receiving sets. (a) No alien of enemy nationality shall use or operate or possess or have under his custody or control at any time or place any short-wave radio receiving set, except where permission to do so is received as provided in paragraph (d) of this section. For this purpose the words "short-wave radio receiving set" are to be construed as including any apparatus designed to be used or capable of being used for the purpose of receiving signals, messages, or communications of any nature whatsoever, which signals, messages, or communications are transmitted by means of amplitude modulation radio waves of a frequency of 1,750 kilocycles or greater, or of a frequency of 540 kilocycles or less.

(b) A short-wave radio receiving set as defined in paragraph (a) of this section which is also capable of receiving standard-wave radio communications is deemed to be within the class of short-wave radio receiving sets prohibited unless the set is so altered or modified that short-wave radio communications or messages cannot be received by the said set, and further, unless the set is so altered or modified that it is impossible without the addition of more parts and the substantial rebuilding of the set to modify the set so that it will be capable of receiving short-wave radio communications.

(c) It shall be the duty of any alien of enemy nationality to ascertain whether or not any radio in his possession is prohibited; and he shall be held responsible

FEDERAL REGISTER, Tuesday, February 10, 1942

for knowing whether or not such set is a short-wave radio receiving set.

Such cameras, however, shall not be used except pursuant to permission obtained in accordance with the provisions of paragraph (c) of this section.

(c) The several United States Attorneys are hereby authorized to grant permission in writing to an alien of enemy nationality to possess or operate or have under his custody or control a camera, either fixed or otherwise, in cases where it appears to the satisfaction of the United States Attorney that the granting of the permission is needful to the applicant's regular and customary mode of earning a livelihood and it does not appear that the granting of permission will in any manner be detrimental to the national security. The alien shall make written application stating his name, certificate of identification number after it is obtained, residence, business address, the specific equipment, or if that is impracticable, the specific classes of equipment, with respect to which he desires to obtain permission (if telescopic or other special equipment is to be used such facts shall be stated in detail), the reason for which such permission is de-

(b) Every alien of enemy nationality who, for any reason, has at any time or shall hereafter have failed to comply with the Presidential proclamations and regulations, shall forthwith submit to the United States Attorney for the district in which he resides or is present, a statement in writing of the facts and the reasons for such failure.*

SECTION I—Introduction

Reports on Form TFR-300 with respect to all property subject to the jurisdiction of the United States in which any national of the Philippine Islands had any interest are required by paragraph (3) of Public Circular No. 11, issued under Executive Order No. 8389, as amended, and under section 130.4 of the Regulations of April 10, 1940, as amended. Each of the sections of additional instructions applies solely to reports by the class of persons referred to therein. Section XI deals with exchange rates.

Before attempting to prepare a report, a person required to report should read completely Sections II, III, and IV of this Circular, and if he comes within one of the classes of persons for which additional instructions are provided, he should also read the section devoted to that class of persons.

Copies of Executive Order No. 8389, as amended, the Regulations issued pursuant thereto, this Circular and Public Circular No. 11, and Series K may be obtained from any Federal Reserve Bank, the Governor of any territory or possession of the United States, and the Secretary of the Treasury, Washington, D. SEC. II—General Instructions

A. *Property to be reported*—(1) *Basic requirement.* Except as special provision to the contrary appears in this Circular, reports shall be made on Series K of Form TFR-300 with respect to all property subject to the jurisdiction of the United States on the opening of business on June 1, 1940, and with respect to all property subject to the jurisdiction of the United States on the opening of business on January 1, 1942, in which on the respective dates, or either of them, any national of the Philippine Islands had any interest of any nature whatsoever, direct or indirect. Section III of this Circular classifies property for purposes of reporting.

(3) *Property previously reported.* Reports which are required under this Circular must be made even though some or all of the property involved has already been reported on a series of Form TFR-300 other than Series K. Provision for reference to previous reports is made in Part F of Series K.

B. *Who must make report.* Except as special provision to the contrary appears in this Circular (see particularly Instruction G below), report must be made on Series K by:

(1) Every national of the Philippine Islands in the United States with respect to all property whatsoever subject to the jurisdiction of the United States on June 1, 1940, or January 1, 1942 in which on either or both dates he had any interest of any nature whatsoever, direct or indirect;

dates any national of the Philippine Islands had any interest of any nature whatsoever, direct or indirect;

(3) Every partnership, trust, association, corporation, or other organization, organized or existing under the laws of the United States or of any state, territory, or district of the United States, or having its principal place of business in the United States, with respect to any shares of its stock, including any right or claim to ownership or control or participation in ownership or control thereof or profits or income derived therefrom, or any equity in any of the foregoing, whether or not expressed by written agreement or evidenced by any instrument, and with respect to all bonds, debentures, notes, or other funded obligations or any equity therein, in any of which any national of the Philippine Islands had on either or both June 1, 1940, and January 1, 1942, any interest of any nature whatsoever, direct or indirect;

(4) Every agent or representative in the United States for any national of the Philippine Islands, having any information with respect to property subject to the jurisdiction of the United States on June 1, 1940, or January 1, 1942, in which on either or both dates the national for which he was agent or representative had any interest of any nature whatsoever, direct or indirect, but such an agent or representative who files a report in behalf of the national under paragraph (1) or reports under paragraph (2) above need not file a duplicate report under this paragraph.

C. *Definitions*—(1) *"Person" and "National".* The terms "person" and "national" are defined as follows in section 5 of Executive Order No. 8389, as amended:

C. The term "person" means an individual, partnership, association, corporation, or other organization.

* * * * *

E. The term "national" shall include,

(i) Any person who has been domiciled in, or a subject, citizen or resident of a foreign country at any time on or since the effective date of this Order,

(ii) Any partnership, association, corporation or other organization, organized under the laws of, or which on or since the effective date of this Order had or has had its principal place of business in such foreign country, or which on or since such effective date was or has been controlled by, or a substantial part of the stock, shares, bonds, debentures, notes, drafts, or other securities or obligations of which, was or has been owned or controlled by, directly or indirectly, such foreign country and/or one or more nationals thereof as herein defined,

(iii) Any person to the extent that such person is, or has been, since such effective date, acting or purporting to act directly or indirectly for the benefit or on behalf of any national of such foreign country, and

(iv) Any other person who there is reasonable cause to believe is a "national" as herein defined.

In any case in which by virtue of the foregoing definition a person is a national of more than one foreign country, such person shall be deemed to be a national of each such foreign country. In any case in which the combined interests of two or more foreign countries designated in this Order and/or nationals thereof are sufficient in the aggregate to constitute, within the meaning of the foregoing, control or 25 per centum or more of the stock,

¹ Sec. 5 (b), 40 Stat. 415 and 966; Sec. 2, 48 Stat. 1; 54 Stat. 179; Public No. 354, 77th Congress; E.O. 8389, April 10, 1940, as amended by E.O. 8785, June 14, 1941, E.O. 8832, July 26, 1941, E.O. 8963, Dec. 9, 1941, and E.O. 8998, Dec. 26, 1941; Regulations, April 10, 1940, as amended June 14, 1941, and July 26, 1941.

shares, bonds, debentures, notes, drafts, or other securities or obligations of a partnership, association, corporation or other organization, but such control or a substantial part of such stock, shares, bonds, debentures, notes, drafts, or other securities or obligations is not held by any one such foreign country and/or national thereof, such partnership, association, corporation or other organization shall be deemed to be a national of each of such foreign countries. The Secretary of the Treasury shall have full power to determine that any person is or shall be deemed to be a "national" within the meaning of this definition, and the foreign country of which such person is or shall be deemed to be a national. Without limitation of the foregoing, the term "national" shall also include any other person who is determined by the Secretary of the Treasury to be, or to have been, since such effective date, acting or purporting to act directly or indirectly for the benefit or under the direction of a foreign country designated in this Order or national thereof, as herein defined.

It should be noted that the definition of "national" includes a citizen of the United States who has resided in the Philippine Islands at any time on or since January 1, 1942. However, see the exemptions provided by Instruction G (4).

(2) "Philippine Islands." With respect to reports on Series K, the term "Philippine Islands" shall include, but not by way of limitation:

(a) The Commonwealth of the Philippine Islands, and the Government thereof, on January 1, 1942, as well as any political subdivision, agency, or instrumentality thereof, or any territory, dependency, possession, or place subject to the jurisdiction thereof;

(b) Any person to the extent that such person is or has been, or to the extent that there is reasonable cause to believe is, or has been, since such effective date, acting or purporting to act, directly or indirectly for the benefit or on behalf of any of the foregoing.

(3) "United States." With respect to reports on Series K, the term "United States" means the United States and any place subject to the jurisdiction thereof, except the Philippine Islands.

D. *Doubt concerning necessity of reporting.* No person who is a national of the Philippine Islands and is required to report on Series K is excused from reporting because of any doubt he may have as to his status as a national. A person required to report concerning property of another known to have had an interest in property should regard such other as a national for the purposes hereof, if he has any reasonable cause to believe that such other is or might be a national of the Philippine Islands. Similarly, a report should be made when there is reasonable cause to believe that a known national of the Philippine Islands had an interest in certain property, and also where there is reason to believe that a national had such an interest but the identity of the national is in doubt.

E. *Separation of reports for different nationals.* A separate report shall be

made with respect to each national of the Philippine Islands who has any interest in any property to be reported, but all items of property of each such person shall be included in one report. For example, if the person reporting owed debts to five different nationals he will make five separate reports, listing on each report all of his debts to the particular national for whom that report is made. If he owed one debt jointly to five nationals, he will also make five separate reports, entering the whole debt on each. If it is known or there is reasonable cause to believe that a national other than the national in whose name any property is carried has an interest in or adverse claim upon the property, the property must be shown on a report for each such national interested or adverse claimant as well as for the national in whose name it is carried. Any duplication in reporting the same property or debt on several reports, or duplication by reason of several persons reporting the same property or debt, shall not excuse anyone from rendering all reports required of him.

F. *Time and place of filing report—(1) Time and place of filing.* Reports must be executed and filed in quadruplicate on or before February 28, 1942, with the Federal Reserve Bank of the district or the Governor of the territory or possession of the United States in which the person filing the report resides or has a principal place of business or principal office or agency, or if such person has no legal residence or place of business or principal office or agency in a Federal Reserve district or a territory or possession of the United States, then with the Federal Reserve Bank of New York or the Federal Reserve Bank of San Francisco. Persons reporting should retain a copy of each report filed by them.

(2) *Discovery after February 28, 1942, that report is required.* If anyone fails to report concerning property of a person because he has no knowledge, notice, or other reasonable cause to believe that such person is a national of the Philippine Islands, or that such person is interested in certain property, he should file a report, with an explanation, as soon as he acquires knowledge, or receives notice, or has reasonable cause to believe that a report is required.

(3) *Change of circumstances after February 28, 1942.* If under circumstances existing on February 28, 1942, no report is required under any of the provisions of this Circular, with respect to property of a particular person, a report need not be made concerning the property of such person because of a change in his circumstances after that date, unless further provision for report is made pursuant to Executive Order No. 8389, as amended, and the Regulations issued pursuant thereto.

G. *When no report need be filed.* No report need be filed if any one of the following conditions exists:

(1) If the total value of all property of any national which any one person would otherwise be required to report was on both June 1, 1940, and January 1, 1942, less than \$1,000: *Provided*, That this exemption shall not apply to the lease of a safe deposit box, to patents, trade-marks, copyrights, and franchises, to interests in partnerships, and profit-sharing agreements, nor to property the value of which cannot readily be determined: *And provided further*, That in arriving at the value of \$1,000, no deduction shall be made for offsets, liens, or other deductions from gross value; or

(2) If the national concerning whose property a report would otherwise be required, is entitled to the benefits of General License No. 80, which reads in part,

A general license is hereby granted licensing as a generally licensed national any individual who is a citizen of the Commonwealth of the Philippine Islands and residing only in the United States or in the generally licensed trade area, as defined in General License No. 53.

(3) If the national concerning whose property a report would otherwise be required is entitled to the benefits of General License No. 81, which reads,

A general license is hereby granted licensing as generally licensed nationals:

(a) The New York office of the Philippine National Bank; and
(b) The offices within the United States and the generally licensed trade area, as defined in General License No. 53, of the Hong Kong and Shanghai Banking Corporation.

(4) If the national concerning whose property a report would otherwise be required is entitled to the benefits of General License No. 82, which reads in part,

The government of the Commonwealth of the Philippine Islands, the United States High Commissioner to the Philippine Islands, and all officers of the United States Government within the Philippine Islands are hereby licensed as generally licensed nationals; and all persons to the extent that they are acting for and on behalf of the foregoing are hereby licensed as generally licensed nationals.

In addition, no report is required with respect to the property of any citizen of the United States residing in the Philippine Islands as a representative, agent, or employee of the United States Government, or as a member of the military or naval forces of the United States, who is a national of the Philippine Islands only by reason of residence in the Philippine Islands in pursuance of his duties. No report need be made with respect to the property of a citizen of the United States who is a national of the Philippine Islands only by reason of residence in the Philippine Islands as a member of the family of a person covered by the preceding sentence or General License No. 82.

Paragraph (3) of Public Circular No. 11 is hereby revoked so far as it requires reports on Form TFR-300 with

respect to property in which the Philippine Islands had an interest.

No report need be made with respect to the property of a corporation or other organization which is a national solely because of control by or an interest of a person or persons licensed under General License No. 80, General License No. 81, or General License No. 82.

H. Penalties. (1) Section 5 (b) of the Act of October 6, 1917 (40 Stat. 415), as amended, applicable hereto provides in part:

• • • Whoever willfully violates any of the provisions of this subdivision or of any license, order, rule or regulation issued thereunder, shall, upon conviction, be fined not more than \$10,000, or, if a natural person, may be imprisoned for not more than ten years, or both; and any officer, director, or agent of any corporation who knowingly participates in such violation may be punished by a like fine, imprisonment, or both.

All spaces in the report must be properly filled in. Reports found not to be in proper form, or lacking in essential details, shall not be deemed to have been filed in compliance with the Order.

SEC. IV—Detailed Instructions for Filling Out Form

1. Purpose of form. Series K is to be used to report property of nationals of the Philippine Islands as required under Public Circular No. 11 and this Circular. See particularly Instructions A, B, and C in Section II.

2. Instructions applicable to entire Series—(a) Reading Circular. If you have not already read carefully Sections I, II, and III of this Circular, do so before reading this Section. Persons coming within one of the classes of persons for whom additional instructions have been provided in Sections V to X of this Circular should also read the appropriate Section before attempting to prepare the reports.

(b) Answers required. Each question on the Series must be answered and all the specific information called for must be given. When there is nothing to report under any question or if information is lacking, state "No," "None," or "Unknown," as the case may be, with an explanation if required, except that in Part C spaces not needed for reporting should be left blank. No person is excused from furnishing any information he reasonably should have.

(c) *Number of copies required.* File each report in quadruplicate. You should retain, for yourself, an additional copy of each report.

3. *Nationality.* Enter in this space the name of each country, other than the Philippine Islands, of which the person whose property is being reported is a national, as defined in Section 5E of Executive Order No. 8389, as amended. If the person is a national of any foreign country in addition to being a national of the Philippine Islands, or if he is a national of the Philippine Islands by reason of any fact other than having been a citizen thereof, the facts determining the person's nationality must be stated in Part E. For example, Part E must be filled out in reporting the property of an American citizen resident in the Philippine Islands on or after January 1, 1942. In answering Part E, state all the facts concerning the nationality of the person whose property is reported, including those relating to his status as a national of the Philippine Islands.

4. *Part A—(a) Name.* If the national is an individual doing business under a trade name, give that name in addition to his actual name.

(b) *Type of organization.* With respect to individuals not engaged in business, insert a dash (—). Concerning other persons, indicate the legal nature of their organization, e. g., individual proprietorship, partnership, corporation, business trust, etc.

(c) *Citizenship.* If the national is not an individual, enter the name of the country, state, district, territory, or possession under the laws of which it is incorporated, or if unincorporated, in which it has its principal place of business. When the national is a subject or citizen of more than one country state the name of each country, including the United States when that is one of the countries.

5. *Part B—(a) National reporting his own property.* A national reporting his own property should sign his name in this Part, exactly as he signs the affidavit of the report, and should insert the number 1 in the box in the upper right-hand corner of the Part. No other entry should be made. A national reporting his own property and also reporting property of another national or nationals should execute one affidavit for his own report and another affidavit for the reports of property of others. The reports for the other nationals should be prepared and numbered in accordance with sub-instructions (b) and (c) below and the first such report should be numbered 2.

(b) *Persons reporting property of others.* A person reporting the property of another should state in Part B, as indicated in the margin thereof, (a) its name, (b) its address, (c) its business, (d) the state or country of which it is a citizen or under the laws of which it is incorporated or, if unincorporated, in which it has its principal place of business, (e) if the person reporting is a national as defined in Section 5E of Executive Order No. 8389, as amended, the name of each country of which it

is a national, and (f) its relationship to the national whose property is being reported, e. g., as agent, trustee, nominee, custodian, debtor, banker, broker, etc. The statements must be precisely the same as the corresponding entries at the top of the affidavit under the caption "Name of person making report." The information may be given by any method producing a readily legible impression, including a rubber stamp.

(c) *Box for number.* Each report made on Series K by any one person is to be numbered consecutively in the box in the upper right-hand corner of Part B, beginning with the number 1, and the numbers so assigned are to be stated in the space provided in the affidavit of the report form. Nationals reporting for themselves must observe sub-instruction (a), above.

6. *Part C—Schedule I—(a) General.* This Schedule requires the valuation of all the property of the national within each property type contained in the classification set out in Section III of this Circular, which must be followed strictly, but property not falling under any of the other types of the classification must be reported under type 30. No property shall be reported under type 30 if it constitutes property reportable as any other type.

(b) *Valuation.* Enter in Column (a) the total value of the items of each type of property held on January 1, 1942, at the market price at the close of business on December 31, 1941, or, if such price is not available, at the estimated value on January 1, 1942. In estimating value, the last sale price or bid, if reasonably close to January 1, may be used as a basis. Enter in Column (b) the total value of the items of each type of property reported as being held on June 1, 1940. The January 1, 1942, unit value shall be used in both Column (a) and Column (b). In other words, if the same number of units of a particular kind of property was held on both June 1, 1940, and January 1, 1942, enter the same amount in Column (b) as in Column (a). If the number of units of a kind of property held on June 1, 1940, was different from the number held on January 1, 1942, use the same per unit value with respect to Column (b) as is used regarding Column (a), but apply the unit value to the number of units actually held on June 1, 1940. In any case where property was held only on June 1, 1940, none of it being held on January 1, 1942, the value should still be reported on the basis of the unit value on January 1, 1942, unless such value is not determinable, in which event the value of the property on June 1, 1940, should be entered in Column (b). When the June 1, 1940, value is used, an appropriate notation should be made.

All amounts reported should be given in dollars, to the nearest dollar. Do not enter fractions of a dollar on the report. However, in determining the value of a property item consisting of more than one unit, fractions of a dollar in the unit value should not be disregarded. For example, if ten shares of a particular stock are to be reported and the value of each share was \$116 1/2, so that the exact total

value was \$1,163.75, you should enter \$1,164 on the report.

(c) *Value expressed in foreign currency.* Property, the value of which was expressed in a foreign currency, or which was to be paid or liquidated in a foreign currency, shall be valued at the dollar value if dollar market value existed for such property itself; if not, the foreign currency value thereof shall be converted into dollars, in accordance with the instructions relating to exchange rates given in Section XI of this Circular.

(d) *Property of indeterminable value.* In reporting property of indeterminable value, enter "indeterminable" under the appropriate property type in Schedule I and describe the property in Schedule III, as required by Instruction 8, below. When property of determinable value and property of indeterminable value are to be reported under one property type in Schedule I, the determinable amount should be entered under the property type without indication of the property having indeterminable value, but descriptions of the items should be given in Schedule III in accordance with Instruction 8.

(e) *Inventories.* If in the regular course of its business, a national engaged in business prepared inventories of merchandise, and machinery and equipment, or either, between July 1, 1941, and January 1, 1942, and between December 31, 1939, and July 1, 1940, or during either of the foregoing periods, and if the information required to be furnished in Schedule I is not available from other existing records of the national, such inventories prepared nearest to the respective reporting dates and the values indicated thereon may be used in filling out Schedule I, with appropriate notation of such use, including the dates of the inventories.

(f) *Orders for goods.* Orders for goods and contracts for the sale of goods, including long term merchandise contracts, need not be reported.

(g) *Goods in transit.* Report is not required with respect to goods in transit, but all goods held or stored by or for a national, including goods stored by carriers, must be reported.

(h) *Agency, distributor's, and employment contracts.* Agency, distributor's, and employment contracts need not be reported, but report must be made of compensation due under such a contract.

7. *Part C—Schedule II.* This Schedule requires a statement of the indebtedness of the national payable to persons in the United States, within each indebtedness type as classified and described in the Schedule. State under each type only the total amount of indebtedness of that type being reported. Nationals reporting for themselves should enter all their indebtedness of each type. Persons reporting concerning nationals should enter only the indebtedness owed by the national to them. All amounts should be given in dollars, to the nearest dollar. Do not enter fractions of a dollar. Indebtedness payable in foreign currency should be converted into dollars in accordance with the in-

structions relating to exchange rates given in Section XI of this Circular.

8. Part C—Schedule III—(a) Property items to be listed. List in this Schedule, in the order in which the property types are given in Schedule I of this Part, each item of property of the value of \$1,000 or more either on June 1, 1940, or on January 1, 1942, or both, concerning which report is being made. Property items included in Class F, *i. e.*, patents, trademarks, copyrights, and franchises, and in Class H, *i. e.*, partnership and profit-sharing agreements, shall be listed even though valued at less than \$1,000. However, no reference whatever should be made to any invention with respect to which a secrecy order has been issued by the Commissioner of Patents pursuant to the Act of October 6, 1917 (40 Stat. 394), as amended. Also list all items of property, the value of which is not readily determinable. Except as provided in this paragraph, property items of a value less than \$1,000 should not be listed in this Schedule, although the value of each must be included in the total value of property of the appropriate type in Schedule I.

(b) Definition of property item. A property item is any unit of property commonly bought, sold, assigned, released, or alienated, except that the total of wholly similar units of the same kind is regarded as one item, such as a number of certificates each for shares of stock of the same issue, or a number of bonds of the same issue, or several head of cattle. The total number of units of such property shall be stated, but in other respects the property may be treated entirely as one item. Several bank accounts with the same institution, or several debts payable by the same debtor, shall be itemized separately in this Schedule if the aggregate amount thereof exceeds \$1,000, even though each individual item is less than \$1,000.

(c) Method of listing. Enter in Column (a) the number of the property type in which the item is included. Enter in Column (b) a short description or identification of the property item. In case of property, such as a patent, commonly referred to by number or other similar designation, state briefly the object or nature of the property in addition to the number or other designation. With regard to property other than debts and claims, enter in Column (c) the name and address of the person with whom the property was deposited or by whom it was held, and give the number or other designation of any safe deposit box or similar receptacle in which the property was kept. Respecting debts owed to and claims made by the national, state the name and address of the debtor and disregard the location of the evidence of indebtedness. If the property was held by or owed by the person reporting, it will suffice to state "Person reporting" in place of the name and address. Enter in Columns (d) and (e) the value of each property item on January 1, 1942, and June 1, 1940, as determined in accordance with the provisions for valuation contained in Instruction 6, above.

(d) Continuation sheets. Continuation sheets identical in form with Schedule III are provided for the use of persons reporting who find the space in Schedule III insufficient.

9. Part C—Schedule IV. Report in this Schedule any safe deposit box, or other similar receptacle for the safe keeping of property, (1) which was maintained in the national's own name or jointly with others, or in which property belonging to the national was kept, whether or not he had access thereto; and (b) to which he had access as deputy, attorney, or otherwise. When report is being made by the lessor or grantor, it will suffice to state "Person reporting" in the space provided for the name and address of the lessor or grantor. If the property kept in the safe deposit box is known to the person reporting, he must enter it in Schedules I and III of Part C, as appropriate, in addition to filling in this Schedule. Safe deposit boxes themselves should not be reported elsewhere than in Schedule IV.

10. Part D. All the information called for in the questions under this part must be given as of both June 1, 1940, and January 1, 1942, for each of the property items listed in Part C, Schedule III and each of the safe deposit boxes reported in Schedule IV. If a property item or safe deposit box was held on only one date, give the information as of that date. In the answers each item of property shall be designated by the number of its type and by its description in Part C, Schedule III. Safe deposit boxes shall be identified by the number or other designation given in Schedule IV.

With respect to safe deposit boxes the phrase "any interest" in Question 1 of Part D shall include rights or privileges of persons other than the national to enter a box as deputy, attorney, or otherwise, or any other rights of a person other than the national with respect to the box or its contents.

11. Part F. The requirements of this Part do not extend to cases in which the interest of the national of the Philippine Islands in the property reported on another series arose after the date or dates for which the property was reported on that series. If a previous report was filed with the Governor or High Commissioner of a territory or possession of the United States, enter the name of the territory or possession in the column headed "Federal Reserve Bank with which report filed."

12. Affidavit—(a) Necessity of execution. The affidavit must be signed and sworn (affirmed) to before an officer authorized to administer oaths, whose seal must be affixed. Reports will not be accepted unless the affidavit is properly executed in every particular.

(b) Number of affidavits. Except as provided in Instruction 5 (a) above, only one affidavit is required to cover all reports made by any one person on Series K. The affidavit should be filed in quadruplicate. Only one copy need be attested, but the other copies must be fully conformed except as to the notarial seal.

(c) Name of person making report. With respect to a national reporting for himself, the information given in this section of the affidavit must be exactly the same as the corresponding information in Part A of the report. In case of other persons reporting, the information must be exactly the same as the corresponding information in Part B of each report.

(d) Body of affidavit. A person reporting shall state in the spaces provided in the body of the affidavit the consecutive numbers assigned to his reports in accordance with Instruction 5 (c) above.

(e) Who shall execute. Affidavits in behalf of partnerships shall be executed by a partner. Affidavits in behalf of any other organization shall be executed by the president, vice-president, secretary or some other principal officer authorized to make the report on behalf of the organization. In case of a national reporting his own property, the signature must correspond exactly with that appearing in Part B of the report, in accordance with Instruction 5 (a) above.

In determining the unexpended or unused available amount of a letter of credit deduct from the face amount thereof or from the upper limit of credit, if greater than the face amount thereof, the amount of any drafts drawn and accepted thereunder, whether or not paid. No deduction or other adjustment should be made for any cash or other collateral or for any contingent liability under the letter of credit on the part of the person at whose request the credit was opened. Cash collateral should be reported under deposits. Other collateral should be reported under the respective property types.

Proceeds of collection should in all cases be reported as a deposit. The bank within the United States initially receiving an item for collection must report the item; its sub-agents need not report.

(v) *Financial securities held in custody—Property Class B.* If the financial securities held in custody or as collateral on June 1, 1940, cannot be ascertained with reasonable facility from the records of the bank, the securities, but not the values thereof, shown in the latest statement, audit, or reconciliation, if any, of the account made between December 31, 1939, and June 1, 1940, may be used in the Schedule. In addition, exporters and importers need not make any report with respect to letters of credit, except that exporters and importers who are nationals of the Philippine Islands must report their own interests in letters of credit.

Include claims and indebtedness resulting from an election by the insured to take cash surrender value and the like and those representing proceeds of a policy left with an insurer and the like, as well as claims and indebtedness arising because of the occurrence of a contingency covered by a policy. Do not include annuities in any way, except annuity installments actually accrued but unpaid. State the amount of claims and indebtedness without deduction for loans or offsets due or claimed to be due to the insurance company. Such loans or offsets should be listed in Part C, Schedule II with appropriate notation at the end of the Schedule.

SEC. IX—Additional Instructions for Organizations Issuing Securities

1. *Scope of Section.* This Section relates to reports required by paragraph (3) under Instruction B of Section II of this Circular to be made by organizations issuing financial securities as defined in Property Class B. Bearer securities must be reported when the organization reporting has any reason to believe that a national had an interest in them, as through a mailing address for dividends or for remittance of interest. The section does not apply to reports of the interest of partners under a partnership contract or of obligations of other business enterprises which do not constitute financial securities.

2. *Separation of reports.* An organization making a report of securities as required by this Section shall not include any other property, except dividends and interest as provided under Instruction 4 (c), below. If an organization which has issued securities to a national holds other property for him, it must file two reports. However, all securities issued by the organization in which a particular national has an interest should be included in one report even though of different kinds, issues, or series.

3. *Part B.* A person reporting pursuant to this Section must enter under the caption "relationship" the words "Organization issuing securities."

4. *Part C—Schedule I—(a) Valuation.* If the value of a security cannot fairly be ascertained by the method provided in Instruction 6 (b), under Section IV of this Circular, use the book value. When the book value on January 1, 1942 cannot be readily ascertained from the records of the organization reporting, the value shown in a statement, audit, or

report made between July 1, 1941, and January 1, 1942, may be used, but when no such statement, audit, or report is available the book value on January 1, 1942, must be used. Indicate the method of valuation if the value other than market value at the close of business on December 31, 1941, is used.

(b) *Record date.* If desired, the organization reporting may give the security holdings of nationals, but not the valuation of those holdings, as of the nearest date before June 1, 1940, on which a record was established of the holders of securities of a particular issue, provided, however, that such date shall not be prior to December 31, 1939. In such a case the record date with respect to each issue which is reported for the national should be stated clearly at the end of page one of the report.

(c) *Dividends and interest.* When stock or a similar security is reported, enter in property type 14 any amount due and owing to the national by reason of any dividend declared to stockholders of record on or prior to either June 1, 1940 (or alternative date), or January 1, 1942. Do not include a dividend for which a check had been mailed in the regular course of business unless the check had been returned undelivered, in which event the dividend must be included. When funded debt or a similar obligation is reported, enter the amount of interest due and payable, unless the security was in default.

5. *Part C—Schedule III—(a) Description of issue.* In Column (b) describe each issue of securities of which the national had a holding, stating (i) the type of securities, i. e., bonds, notes, common stock, preferred stock, etc., and (ii) the full title of the issue. If the national had an interest in securities of more than one issue, the holdings of that issue should be described immediately after the general description required for the issue, so that all the holdings of any one issue follow immediately after the description of that issue without any intermingling of holdings of other issues.

(b) *Description of each holding.* In describing particular holdings of securities state in Column (b) the exact name in which the securities were held and the number of shares, or face value of bonds, as the case may be. When any of the holdings are shown as of a record date other than June 1, 1940, the date should be stated in the description.

(c) *Column (c).* An organization issuing securities may insert the word "Issuer" in this column.

SEC. X—Additional Instructions for Trustees and Other Representatives of Estates and Trusts and for Members of Partnerships

1. *General requirements for report—(a) Report of property of estate or trust.* Trustees or other representatives of estates and trusts which are nationals of the Philippine Islands must report the trust property on Series K. In any event, the trustees or other representatives of trusts or estates in which an existing national, or nationals, of the Philippine Islands, as beneficiary had any interest, vested or contingent, obliged to

be reported, including interests in income, shall report the property of the trust on Series K, when the total national interests on either or both June 1, 1940, and January 1, 1942, exceeded 25 percent of comparable interests in the trust. The report for the trust should contain on a suitable attached sheet a brief but definite description of the rights of all existing beneficiaries who are nationals of the Philippine Islands.

(b) *Report of beneficiary's interest.* A trustee or other representative of an estate or trust shall report any reportable interest of a beneficiary under a trust, with a clear reference to the report, if any, required for the trust. Except in the case of specific devises, legacies, or bequests, the beneficiary's interest should be reported under property type 27 only. A description of the rights of the beneficiary, similar to that required on reports for trusts, should in any case be given on the report for the beneficiary. None of the assets of the trust should be entered on the report for the beneficiary but the total amount of such assets should be given with the description of the beneficiary's rights. If more than one national was a beneficiary, a separate report must be made for each.

(c) *Business trusts.* Trustees of business trusts in which the interests of beneficiaries are represented by financial securities should report the property of the trust if the trust itself is a national, and should file separate reports with respect to the interests of each national beneficiary in accordance with the instructions to organizations issuing securities given in Section IX of this Circular. The preceding sub-instructions do not apply to such business trusts.

(d) *Partnerships.* Principles analogous to the requirements of sub-instructions (a) and (b), above, should be applied by members of partnerships with respect to partnership property and the interests of the members.

2. *Part A.* In reporting the property of a trust or estate the trustee or other representative may enter his own name followed by an appropriate phrase, e. g., "as trustee under the will of X."

3. *Nationality.* Reports for estates and trusts, other than business trusts in which the interests of the beneficiaries were represented by financial securities, shall state the country or countries of which the trust itself is a national, and in any case shall state the country or countries of which each beneficiary of the trust is a national. Similar statement shall be made for partnerships. All entries made under the caption must be explained in Part E. If the only entries required are the countries of which the beneficiaries or partners, as the case may be, are nationals, it will suffice to state that fact in Part E without further explanation.

4. *Affidavit.* A trustee or other representative of a trust or estate need execute only one affidavit with respect to all reports relating to the trust, including reports of the interests of beneficiaries, but if he was trustee of more than one trust, a separate affidavit must be executed with respect to the reports relating to each trust.

SEC. XI—Table of Exchange Rates

Where the value of property is expressed in terms of foreign currency, such values should be converted into dollars at the rates of exchange set forth below. Where no rate is given for a country, the latest rate next before January 1, 1942, as generally quoted by foreign exchange dealers or other recognized sources of information shall be used. Such rate should be clearly stated in the report. The exchange rates given in this table are for use only in preparing reports on Form TFR-300, Series K, and are not intended to be used or relied upon in any other connection or for any other purpose whatsoever.

Section 987.1 is hereby amended to read as follows:

Whereas, the uncertainty of shipments of cobalt from abroad, and the national defense requirements for cobalt have created a shortage thereof, for defense, for private account, and for export and it is necessary in the public interest and to promote the defense of the United States, to conserve the supply and direct the distribution thereof;

Now therefore, it is hereby ordered that:

§ 987.1 *General Preference Order M-39—(a) Definitions.* For the purposes of this order:

(1) "Cobalt" means and includes:

(i) Ores, concentrates, crudes, and residues, including beneficiated or treated forms containing cobalt (commercially recognized).

(ii) The element cobalt in any form, and combinations with other elements in which cobalt is an essential constituent.

(iii) All chemical compounds in which cobalt is an essential and recognizable component.

(iv) All scrap or secondary material containing commercially recoverable cobalt as defined in (i), (ii) and (iii) above, excluding cobalt-bearing iron and steel scrap.

(b) *Applicability of Priorities Regulation No. 1.* This order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this order shall govern.

(c) *Restrictions on deliveries—(1) Allocations.* Hereafter, no person shall make or accept delivery of cobalt except as specifically authorized by the Director of Industry Operations. The Director will from time to time allocate the supply of cobalt and specifically direct the manner and quantities in which deliveries to particular persons or for particular uses shall be made or withheld. The Director may also, in his discretion, require any person seeking to place a purchase order for cobalt to place the same with one or more particular suppliers. Such alloca-

tions and directions will be made to insure satisfaction of all defense requirements of the United States, both direct and indirect, and they may be made in the discretion of the Director of Industry Operations without regard to any preference ratings assigned to particular contracts or purchase orders. The Director may also take into consideration the possible dislocation of labor and the necessity of keeping a plant in operation so that it may be able to fulfill defense orders and essential civilian requirements.

(2) *Reports.* Unless otherwise ordered by the Director of Industry Operations, no person shall be entitled to receive an allocation of cobalt unless, not later than the 20th day of the month next preceding the month in which delivery is desired, he shall have filed with the War Production Board and with any supplier with whom he may have placed a purchase order for cobalt, a report in the manner and form prescribed from time to time by the War Production Board: *Provided, however,* That subject to all the other provisions, restrictions, and limitations of this order and until further order by the Director of Industry Operations any person may receive deliveries during any calendar month up to but not exceeding an aggregate of 50 pounds contained cobalt without filing the reports required by this paragraph. Failure by any person to file a report in the manner and on the date required by this paragraph may be construed as notice to the Director of Industry Operations and to all suppliers of cobalt that such person does not desire an allocation of cobalt during the period to which such report would have been applicable.

(d) *Violations.* Any person who wilfully violates any provision of this order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this order, may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(e) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to the Cobalt Branch, War Production Board, Social Security Building, Washington, D. C. Reference: M-39.

(f) *Revocation of Supplementary Order M-39-a.* Supplementary Order M-39-a, issued by the Director of Priorities December 5, 1941, is hereby revoked.

(g) *Effective date.* This order shall take effect immediately upon its issuance, and unless sooner terminated by direction of the Director of Industry Operations, shall expire on the 30th day of June, 1942. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6630; W.P.B. PART 987—COBALT

Conservation Order No. M-39-b Curtailing the Use of Cobalt in Certain Items

Whereas, national defense requirements have created a shortage of cobalt for the combined needs of defense, private account, and export; and the supply now is and will be insufficient for defense and essential civilian requirements unless its use in the manufacture of many products where such use is not absolutely necessary for the defense or essential civilian requirements is curtailed or prohibited as hereinafter provided;

Now, therefore, it is hereby ordered that:

§ 987.3 Conservation Order M-39-b—(a) Prohibition on use of cobalt in articles appearing on List A. (1) Between February 1 and April 30, 1942, inclusive, no person shall use in the manufacture of any item on List A more cobalt than 40% of the cobalt used by him for such item during the first six months of 1941.

(2) Effective May 1, 1942, no cobalt shall be used in the manufacture of any item on List A.

(b) Limitation on all other uses of cobalt. (1) Between February 1 and March 31, 1942, inclusive, no person shall use in the manufacture of any article not covered by paragraphs (a) or (c) of this section more cobalt than 23% of the cobalt used by him for such article during the first six months of 1941.

(2) Beginning April 1, 1942, no person shall use during any calendar quarter in the manufacture of any article not covered by paragraphs (a) or (c) of this section more cobalt than 35% of the cobalt used by him for such article during the first six months of 1941.

(c) General exceptions. Where and to the extent the use of any less scarce material is impracticable, the prohibitions, limitations and restrictions contained in paragraphs (a) and (b) of this section shall not apply to the use of cobalt in the manufacture of any item, or for any of the uses set forth on List B attached, nor in the manufacture of any item which is being produced:

(1) For delivery under a specific contract or subcontract for the Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Commission for Aeronautics, the Office of Scientific Research and Development or for any foreign country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States," (Lend-Lease Act) if in any such

case the use of cobalt to the extent employed is required by the specifications of the prime contract, or

(2) To comply with Safety Regulations issued under government authority, provided the pertinent provisions of such regulations were in effect both on December 1, 1941, and on the date of such use, and specifically and exclusively require the use of cobalt to the extent employed;

(3) With the assistance of a preference rating of A-1-j or higher.

(d) Prohibitions against sales or deliveries. No person shall hereafter sell or deliver cobalt to any person if he knows, or has reason to believe, such material is to be used in violation of the terms of this order.

(e) Limitation of inventories. No manufacturer shall receive delivery of cobalt, (including scrap), or products thereof, in the form of raw materials, semi-processed materials, finished parts or sub-assemblies nor shall he put into process any raw material, in quantities which in either case shall result in an inventory of such raw, semi-processed or finished material in excess of a minimum practicable working inventory, taking into consideration the limitations placed upon the production of cobalt products by this order.

(f) Miscellaneous Provisions—(1) Applicability of priorities Regulation No. 1. This order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this order shall govern.

(2) Appeal. Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of cobalt conserved, or that compliance with this order would disrupt or impair a program of conversion from non-defense work to defense work, may appeal to the War Production Board, Reference M-39-b, on such forms as may be prescribed by said Board, setting forth the pertinent facts and the reasons he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(3) Applicability of order. The prohibitions and restrictions contained in this order shall apply to the use of material in all articles hereafter manufactured irrespective of whether such articles are manufactured pursuant to a contract made prior or subsequent to the effective date hereof, or pursuant to a contract supported by a preference rating. Insofar as any other order may have the effect of limiting or curtailing to a greater extent than herein provided the use of cobalt in the production of any article, the limitations of such other order shall be observed. In the absence of a specific direction by the Director of Industry Operations to the contrary, insofar as this order may have the effect of limiting

or curtailing to a greater extent than is provided in General Preference Order M-39 or any other order or any preference rating certificate, the use of cobalt in the production of any article, the limitations imposed by this order shall be observed.

(4) Violations or false statements. Any person who wilfully violates any provision of this order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this order, may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U. S. C. 80).

(5) Definitions. For the purposes of this order:

(i) "Cobalt" means and includes:

(a) Ores, concentrates, crudes and residues, including beneficiated or treated forms containing cobalt (commercially recognized).

(b) The element cobalt in any form, and combinations with other elements in which cobalt is an essential constituent.

(c) All chemical compounds in which cobalt is an essential and recognizable component.

(d) All scrap or secondary material containing commercially recoverable cobalt as defined in (a), (b), and (c) above, excluding cobalt-bearing iron and steel scrap.

(ii) "Inventory" of a person includes the inventory of affiliates and subsidiaries of such person, and the inventory of others where such inventory is under the control of or under common control with or available for the use of such person.

(iii) "Manufacture" means to fabricate, assemble, mix or process in any other way, but does not include installation of a finished product for the ultimate consumer.

(iv) "Item" means any article or any component part thereof.

(v) "Use" means both (1) the act of putting cobalt into process in the manufacture of any item and (2) the act of completing the manufacture of any such item. (Where a person is limited to a percentage of the material used in a base period, this limitation applies respectively to (1) the amount of material put into process during the base period and (2) the total amount of material contained in a completed item multiplied by the number of such items completed during the base period. Each restriction must be applied separately.)

(vi) "Put into Process" means the first change by a manufacturer in the form of material from that form in which it is received by him.

(6) Effective date. This order shall take effect upon the date of issuance and shall continue in effect until revoked by the Director of Industry Operations. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan. 26, 1942, 7 F.R. 581, E.O. 9024, Jan. 16,

Issued this 7th day of February 1942.

J. S. KNOWLSON,
Director of Industry Operations.

PART 1010—SUSPENSION ORDERS

Suspension Order No. S-11—Hurley Machine Division of Electric Household Utilities Corp.

Hurley Machine Division of Electric Household Utilities Corporation of Chicago, Illinois, is a manufacturer of domestic laundry equipment and is subject to the provisions of Limitation Order L-6 and Supplementary General Limitation Order L-6-a¹ restricting the production of domestic laundry equipment. The quota for the Hurley Machine Division, established under Limitation Order L-6² and Supplementary General Limitation Order L-6-a, for the months of September, October, November, and December for the year 1941, was 44,376 electric washing machines and electric ironers. With full knowledge of this restriction, the Hurley Machine Division, during the months of September, October, November, and December of the year 1941, produced 76,770 electric washing machines and electric ironers.

By reason of this wilful violation of the provisions of Limitation Order L-6 and Supplementary General Limitation Order L-6-a, the Hurley Machine Division of the Electric Household Utilities Corporation has obstructed the impartial administration of the Priorities System. In view of the foregoing facts,

It is hereby ordered:

§ 1010.11 Suspension order S-11. (a) During the period in which this Order shall be in effect, the Hurley Machine Division of Electric Household Utilities Corporation, its successors and assigns, shall accept no deliveries from any source of electric washing machine parts or electric ironer parts, except as specifically authorized by the Director of Industry Operations.

(b) During the period in which this Order shall be in effect, Hurley Machine Division of Electric Household Utilities Corporation, its successors and assigns, shall not process, assemble, or produce electric washing machines, electric ironing machines, parts for electric washing machines, or parts for electric ironing machines, except as specifically authorized by the Director of Industry Operations.

(c) During the period in which this Order shall be in effect, Hurley Machine Division of Electric Household Utilities Corporation, its successors and assigns, shall not transfer or deliver electric washing machines, electric ironing machines, parts for electric washing machines, or parts for electric ironing machines, except as specifically authorized by the Director of Industry Operations: *Provided, however, That Hurley Machine Division of Electric Household Utilities Corporation may deliver or transfer such machines, or the parts thereof, for the purpose of storing the same for their own account.*

(d) This Order shall take effect immediately and, unless sooner terminated by further order of the Director of Industry Operations, shall expire at midnight of July 31, 1942. (P.D. Reg. 1, amended December 23, 1941, 6 F.R. 6680; W.P.B. Amendment No. 1 to General Limitation Order No. L-23

It is hereby ordered that:

Subparagraph (b) (8) of § 1028.1 (General Limitation Order L-23)¹ is hereby amended to read as follows:

(8) No copper, nickel, chromium, or aluminum shall be put into process for the manufacture of parts for Domestic Cooking Appliances, except for functional parts where the use of any less scarce material would seriously impair proper operation. Insofar as any other Order issued, or to be issued hereafter, limits the use of any material in the production of Domestic Cooking Appliances to a greater extent than the limits imposed by this Order the restrictions in such other order shall govern unless otherwise specified therein.

This amendment shall take effect immediately. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. PART 1091—CORUNDUM

General Preference Order M-89 to Conserve the Supply and Direct the Distribution of Corundum

Whereas, National defense requirements have created a shortage of Corundum (as hereafter defined) for the combined needs of defense and private account, and the supply of Corundum now is and will be insufficient for defense and essential civilian requirements, unless the supply of Corundum is conserved and its use in certain products manufactured for civilian use is curtailed; and it is necessary in the public interest and to promote the defense of the United States, to conserve the supply and direct the distribution and use thereof

Now, therefore, it is hereby ordered that:

§ 1091.1 *General Preference Order M-89*—(a) *Definitions.* For the purposes of this Order:

(1) "Corundum" means naturally occurring crystalline anhydrous aluminum oxide suitable for abrasive use and not artificially bonded. Emery, ruby and sapphire are specifically excluded.

(2) "Supplier" means any person who offers Corundum for sale.

(b) *Restrictions on delivery.* After the effective date of this Order, no Supplier shall make delivery of Corundum except as authorized by the Director of Industry Operations. The Director will from time to time allocate the supply of Corundum and specifically direct the manner and quantities in which deliveries to particular persons or for particular uses shall be made or withheld. Such allocations and directions will be made to insure the satisfaction of defense requirements of the United States, both direct and indirect, and they may

be made, in the discretion of the Director of Industry Operations, without regard to any preference ratings assigned to particular contracts or purchase orders. The Director may also take into consideration the possible dislocation of labor and the necessity of keeping a plant in operation so that it may be able to fulfill defense orders and essential civilian requirements.

(c) *Reports.* On or before February 20, 1942, and on or before the 10th day of each calendar month thereafter, each Supplier shall file with the War Production Board all the information required by Form PD-293.

(d) *Miscellaneous provisions*—(1) *Applicability of Priorities Regulation No. 1.* This Order and all transactions affected thereby are subjected to the provisions of Priorities Regulation No. 1 (Part 944) as amended from time to time, except to the extent that any provisions hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(2) *Appeal.* Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of corundum conserved, or that compliance with this Order would disrupt or impair a program of conversion from non-defense work to defense work, may appeal to the War Production Board, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(3) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this Order, shall, unless otherwise directed, be addressed to:

War Production Board, Social Security Building, Washington, D. C. Reference: M-89.

(4) *Violations.* Any person who wilfully violates any provision of this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order, may be prohibited from receiving further deliveries of any Material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(5) *Effective date.* This Order shall take effect immediately and shall continue in effect until revoked by the Director of Industry Operations. (P.D. Reg. 1, Amended, Dec. 23, 1941, 6 F.R. 6680; W.P.B. PART 1102—AGAR

General Preference Order No. M-96 To Conserve the Supply and Direct the Distribution of Agar

Whereas, it appears that the fulfillment of requirements for the defense of the United States will result in a shortage in the supply of Agar for the combined needs of defense, private account and export, and it is necessary in the public interest and to promote the defense of the United States to conserve the supply and direct the distribution of Agar.

Now, therefore, it is hereby ordered, That:

§ 1102.1 General Preference Order M-96—(a) Applicability of Priorities Regulation No. 1.¹ This Order and all transactions affected hereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(b) **Additional definitions.** As used in this Order:

(1) "Agar" means the dried mucilaginous substance extracted from the *Gelidium corneum* and other species of *Gelidium* and closely related algae; known as "Agar-Agar", Chinese Gelatin", "Japanese Gelatin"; and not heretofore so processed as to be rendered unfit for use in the preparation of bacteriological media.

(2) "Bacteriological Media" means those products intended to meet the general and specialized nutritional requirements for bacteria under culture.

(c) **Restrictions on the sale or use of Agar.** No person may buy any Agar the sale of which is forbidden by this Order. Notwithstanding anything in Priorities Regulation No. 1, as amended, to the contrary no person having in his possession or under his control on the date of this Order, or subsequently acquiring, any Agar, shall use or sell any such Agar, except as specifically ordered by the Director of Industry Operations, or for incorporation into Bacteriological Media, provided that any person seeking to purchase Agar for such incorporation shall furnish to the seller in duplicate a statement in writing, manually signed by a responsible official, certifying that the Agar is to be so used. Such statement shall be substantially in the following form:

I require _____ pounds of Agar for incorporation into bacteriological media. I have _____ pounds in my possession or under my control, leaving a shortage of _____ pounds which I must fill by purchase.

Name _____
By _____

A copy of such statement shall be filed by the seller with the War Production Board. Such statement shall constitute a representation to the War Production Board and the seller of the facts stated therein. The seller shall be entitled to rely on such representation unless he knows or has reason to believe it to be

¹ 6 F.R. 4489, 6680.

false. Any person making such a representation may use such Agar only for the purpose specified.

(d) **Applicability of Order.** This Order does not apply to the use or sale of any Agar which on the date of this Order was in the possession or control of any person who then possessed or controlled less than fifty (50) pounds of Agar, nor to purchases by importers of Agar to be delivered from outside the continental United States, but any subsequent dealing in Agar, after its importation, is governed by this Order.

PART 1312—LUMBER AND LUMBER PRODUCTS

AMENDMENT NO. 2 TO PRICE SCHEDULE NO.
13—DOUGLAS FIR PEELER LOGS AND DOUGLAS FIR PLYWOOD

The title, the preamble, and §§ 1312.1 to 1312.09, inclusive, are hereby amended and renumbered to read as set forth below:

Price Schedule No. 13—Douglas Fir Plywood

Douglas fir plywood, made primarily from Douglas fir peeler logs, is widely

used as a building material, as a form for concrete shapes, as lining for the inside of freight cars and trucks, and as a display material. In the defense program, it has been extensively employed in the construction industry, and in the production of aircraft, pontoon bridges, and small boats. The recent increased use of plywood stemming from the defense program and the accompanying expanded economic activity has so increased demand for plywood that current requirements considerably exceed the existing capacity of the industry. As a consequence, inflationary pressure has been exerted upon the prices of these products, causing them to rise greatly in excess of previously existing levels in the industry. Such price increases have markedly outstripped cost advances. Certain members of the plywood industry have refused to cooperate voluntarily with the Office of Price Administration in maintaining stable prices, and those producers who have cooperated by withdrawing price increases have therefore been subjected to unjust discrimination.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1312.1 *Maximum prices for Douglas fir plywood*. On and after February 20, 1941, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, offer to sell, deliver, or transfer, for domestic or export use, any Douglas fir plywood, where the shipment originates at the mill rather than at a distribution plant, at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1312.10.*

* §§ 1312.1 to 1312.10, inclusive, issued pursuant to authority contained in E.O. Nos. 8734, 8875, 6 F.R. 1917, 4483.

§ 1312.2 *Less than maximum prices*. Lower prices than those set forth in Appendix A may be charged, demanded, paid, or offered.*

§ 1312.3 *Evasion*. The price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery or transfer of Douglas fir plywood, alone or in conjunction with any other material; or by way of any commission, service, transportation, or other charge, or discount, premium, or other privilege; or by tying-agreement, or other trade understanding; or by making terms or conditions of sale more onerous than those in effect or available to the purchaser on August 1, 1941; or by unnecessarily routing plywood through a distribution plant; or by any other means.*

§ 1312.4 *Records and reports*. Every person who, during any calendar month, shall sell one or more carloads of Douglas fir plywood for shipment originating at the mill shall keep for inspection by the office of Price Administration, for a period of not less than one year, complete and accurate records of each such sale, showing the date thereof, the name and address of the buyer, the prices, and the quantities and grades sold.

Persons affected by this Schedule shall submit such reports to the Office of Price

Administration as it may, from time to time, require.*

§ 1312.5 *Enforcement*. In the event of refusal or failure to abide by the price limitations record and report requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command, including taking action to see (a) that the Congress and the public are fully informed thereof, (b) that the powers of the Government, both state and federal, are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule, and (c) that the procurement and other services of the Government are requested to refrain from selling to or purchasing from those persons who fail to comply with this Schedule. Persons who have evidence of the offer, receipt, demand or payment of prices higher than the maximum prices or of any evasion or effort to evade the provisions hereof, or of speculation, or manipulation of prices of Douglas fir plywood, or the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1312.6 *Modification of the Schedule*. Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: *Provided*, That no application under this section will be considered unless filed by persons complying with this Schedule.*

§ 1312.7 *Definitions*. When used in this Schedule the term:

(a) "Person" means an individual, partnership, association, corporation or other business entity.

(b) "Mill" means a factory or plant which processes Douglas fir peeler logs into Douglas fir plywood.

(c) "Manufacturer" means a person operating a mill.

(d) "Less than carload" means a quantity of one or more grades or sizes of Douglas fir plywood, the aggregate weight of which is less than 38,000 pounds. Either Douglas fir doors or Douglas fir millwork, or both, may be included with plywood in computing such aggregate weight.

(e) "Distribution plant" means a wholesale or retail warehouse or yard which purchases or receives Douglas fir plywood from a mill or another distribution plant for purposes of unloading and resale or redistribution, and which regularly maintains a stock of plywood.*

§ 1312.8 *Delivered prices*. A delivered price in excess of the maximum f. o. b. mill prices set forth in Appendix A may be charged, consisting of such maximum prices plus actual transportation costs paid by the seller. However, for the purposes of this section, the following two practices shall not be deemed a deviation from the use of actual transportation costs:

(a) The charging of a sum equivalent to the one-twentieth of a dollar nearest to such actual transportation costs; and

² 7 F.R. 815.

FEDERAL REGISTER, Tuesday, February 10, 1942

(b) the computation of transportation costs on the basis of a system of estimated average weights used by the seller during the month of July, 1941: *Provided*, That a copy of such system of estimated average weights has been filed with the Office of Price Administration either before the use of such system in a transaction subject to this Schedule as amended in Amendment No. 2, or within thirty days of the effective date of this Amendment.*

§ 1312.9 Effective date of Schedule. This Schedule (§ 1312.1 to 1312.10, inclusive) shall become effective August 5, 1941.*

This amendment No. 2 (amending the title, the preamble and §§ 1312.1 to 1312.09, inclusive) shall become effective February 20, 1942. Issued this 7th day of February 1942.

(b) "Second-hand bag" means a container composed of burlap, jute, sisal, cotton cloth, gunny cloth, or other textile material which has been used once or more to package any product and thereafter emptied, and sold for re-use as a container, and shall include all containers manufactured from any such material which has itself been used once or more as a container or for any other commercial purpose. (b) The maximum price for any construction of rayon grey goods not enumerated above shall be a price in line with the maximum price for the nearest related construction so enumerated. The term "in line with" means having a

price with commensurate increases or justifiable relation to such maximum increases to give effect to the differences in costs of the yarn used and in weaving costs, taking into account changes in (1) the number of picks, (2) the number of ends, (3) the width and (4) the weave: *Provided*, That firm commitments entered into prior to February 9, 1942 for the sale of rayon grey goods at prices not exceeding the maximum prices established by this Schedule prior to February 9, 1942 may be completed at contract prices. PART 1380—HOUSEHOLD AND SERVICE INDUSTRY MACHINES

PRICE SCHEDULE NO. 102—HOUSEHOLD MECHANICAL REFRIGERATORS

Household mechanical refrigerators are of considerable importance to the consuming public. Between January and June, 1941, manufacturers' prices on these refrigerators were revised upwards on three occasions and advanced on the average 5.9 per cent. On June 23 the Office of Price Administration requested refrigerator manufacturers not to make further increases without consultation with this Office. Thereafter, no price increases have become effective without the approval of the Office of Price Administration and this approval has been granted only on the basis of a demonstrated rise in costs of production. In effect, therefore, the present level of prices accords with that prevailing between October 1 and October 15, 1941, with necessary adjustments for these increased costs for all companies except the General Electric Company and the Frigidaire Division of General Motors Corporation who have not yet submitted their cost figures.

After investigation it has been determined that efficient administration, and uniform treatment of all manufacturers, make advisable the formalization of the existing arrangement by the issuance of a price schedule.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1380.51 Maximum prices for household mechanical refrigerators. On and after February 9, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, no manufacturer shall sell, offer to sell, deliver or transfer any model of household mechanical refrigerator at a price higher than the maximum price:

(a) *Manufacturer's brand household mechanical refrigerators.* (1) In the case of all manufacturers who have had price lists on 1942 models approved by the Office of Price Administration, the maximum price, exclusive of federal excise tax, for any model of household mechanical refrigerator sold under the manufacturer's brand during the two-month period ended February 2, 1942, shall be the net price quoted to the same general class of purchasers for such model in the manufacturer's price list in effect on February 2, 1942.

(2) In the case of all other manufacturers, the maximum price, exclusive of federal excise tax, for any model manufactured for sale under the manufacturer's brand during the two-month period ended February 2, 1942, shall be the net price quoted to the same general class of purchaser for the most comparable model in the most recent 1941 price list, until a new price list has been approved by the Office of Price Administration.

(b) *Private brand household mechanical refrigerators.* The maximum price, exclusive of federal excise tax, for any model of household mechanical refrigerator sold under a brand other than the manufacturer's brand during the two-month period ended February 2, 1942, shall be the highest price, exclusive of federal excise tax, specified for such model in a contract with a purchaser of the same general class in effect on February 2, 1942.

(c) *New models.* The maximum price for any 1942 model not manufactured or offered for sale before February 2, 1942, and for any other model not offered for sale by the manufacturer in the two-month period ended February 2, 1942, shall be the price approved in writing by the Office of Price Administration after the submission to it of a report in accordance with § 1380.54 (c), and no sale, offer to sell, delivery or transfer of such model shall be made until such approval shall have been given.*

* §§ 1380.51 to 1380.59, inclusive, issued pursuant to authority contained in Executive Orders Nos. 8734, 8875, 6 F.R. 1917, 4483.

§ 1380.52 Less than maximum prices. Lower prices than those established by this Schedule may be charged, demanded, paid, or offered.*

§ 1380.53 Evasion. The limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with the manufacturing or assembling of household mechanical refrigerators by deterioration of quality or performance thereof, or in connection with a purchase, sale, or transfer of household mechanical refrigerators, alone or in conjunction with any other material, or by way of any commission, service, transportation or other charge or discount, premium or other privilege, or by tying-agreement or other trade understanding, or by decreasing cash discounts, allowances for or absorption of transportation costs, or by any other means.*

§ 1380.54 Reports. (a) *Present line.* On or before February 25, 1942, every manufacturer shall submit to the Office

of Price Administration a report on all models currently offered for sale, giving the maximum price established for each model by § 1380.51, the specifications, and the terms of sale. Manufacturers who have already submitted all or any part of this information need not duplicate such material but shall send a reference to the material already submitted.

(b) *Approval of price lists.* Manufacturers who have not had price lists on 1942 models approved, may submit to the Office of Price Administration price lists on 1942 models for approval, giving the necessary description of the models, cost, profit, and other information which may be required by the Office of Price Administration.

(c) *New models.* Manufacturers wishing to offer for sale a new model as defined in § 1380.51 (c) shall submit to the Office of Price Administration a report on such model, giving proposed maximum price, the specifications and the terms of sale.

Persons affected by this Schedule shall submit such other reports to the Office of Price Administration as it may, from time to time, require.*

§ 1380.55 *Records.* Every manufacturer making sales of household mechanical refrigerators on or after February 9, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each such sale showing the date of billing, the name and address of the buyer, the name, number or other designation and the price received for each household mechanical refrigerator, the quantity of each household mechanical refrigerator sold, and discounts and allowances of any nature given.*

§ 1380.56 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record and report requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command, including taking action to see (a) that the Congress and the public are fully informed thereof; (b) that the powers of Government, both state and federal, are fully exerted in order to protect the public interest and the interest of those persons who comply with this Schedule; and (c) that the procurement services of the Government are requested to refrain from selling to or purchasing from those persons who fail to comply with this Schedule. Persons who have evidence of the receipt or demand of prices higher than the maximum prices or of any evasion or effort to evade the provisions hereof, or of the speculations, or manipulation of prices of household mechanical refrigerators, or of the hoarding or accumulation of unnecessary inventories thereof are urged to communicate with the Office of Price Administration.*

§ 1380.57 *Modification of the Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification

thereof or exception therefrom: *Provided*, That no application under this section will be considered unless filed by persons complying with this Schedule.*

§ 1380.58 *Definitions.* When used in this Schedule, the term:

(a) "Person" means an individual, partnership, association, corporation, or other business entity;

(b) "Manufacturer" means a person operating a factory or plant which manufactures or assembles household mechanical refrigerators;

(c) "Household mechanical refrigerator" means any refrigerator for household use which operates either by compression or by absorption;

(d) "Model" means any combination of size and specifications of equipment;

(e) "Net price quoted" means the actual price, exclusive of federal excise tax, but including charges for warranty and cooperative advertising, to be received by the manufacturer, f. o. b. seller's point of shipment, or delivered to the purchaser, whichever the price list specifies.*

§ 1380.59 *Effective date of the Schedule.* This Schedule shall become effective February 9, 1942.*

Issued this 4th day of February 1942.

PART 237—REPAIRS TO VESSELS UNDER BAREBOAT CHARTER

REPAIRS TO VESSELS BAREBOAT CHARTERED UNDER PUBLIC LAW NO. 101, 77TH CONGRESS

Whereas, Bareboat Charters of vessels, pursuant to the provisions of an Act of Congress approved June 6, 1941 (Public Law 101—77th Congress, Ch. 174, 1st Session) contain the following Articles or their equivalent:

Maintenance: All repairs to the vessels made by the charterer, not recoverable from insurance, shall be for the account of and borne by the owner and shall not be included as an item of vessel operating expense. Repairs are hereby defined as the replacement

by duplication of, or restoration to satisfactory condition of, damaged or worn parts or vessels, their machinery and equipment, which are integral parts of the vessel, including the purchase of equipment and spares required by the classification societies, and any betterments; or

All repairs to the vessels shall be made by the charterer and the charterer shall be reimbursed by the Owner for the costs thereof to the extent not recoverable from insurance, and the costs so reimbursed shall not be included in vessel operating expense;

And, whereas, the condition of the Repair Industry as a whole during the past year has precluded active competitive bidding on repairs, thereby necessitating negotiation of repair contracts with limitations on profits; and

Whereas, it is essential that the cost of repairs for the owner's account be kept at the absolute minimum consistent with good operation, arrest of deterioration, safety of the vessel and its operating personnel; it is therefore ordered that:

§ 237.1 Detailed repair specifications; payment and audit. All required repairs and betterments (alterations and/or improvements) authorized for the owner's accounts shall be covered by specifications prepared by the charterer in sufficient detail to describe fully all items of work to be performed and shall be paid for by the charterer and allowed for reimbursement to the charterer by the owner at rates not exceeding those which would have been paid had such work been accomplished under an existing master contract between the owner and the repair company, or in the absence of such a master contract at rates not in excess of those then being currently paid by the owner to the repair company or to other repair companies in the vicinity, and the charterer in ordering any such work otherwise than upon a basis of proper competitive bids shall cause full right of audit to be reserved to the owner.*

* §§ 237.1 to 237.3, inclusive, issued under the authority contained in Public Law 101, 77th Cong., June 6, 1941.

§ 237.2 Repairs outside United States prohibited; exceptions. No repairs, except as hereinafter provided, shall be performed outside of the Continental limits of the United States without specific authorization in each instance of a representative of the Commission: Provided, however, That such specific authorization shall not be required in the case of repairs of an emergency nature required for the safety of a vessel for its return to the United States or such work as is required for convoy operating purposes.*

§ 237.3 Consumption entries. All consumption entries involving repairs in foreign ports shall be filed and handled to a conclusion with the United States Customs, including payment of all unremitted duties, such payments to be allowed for reimbursement to the charterer by the owner as an additional cost of such foreign repairs.*

[Docket Nos. A-745, A-959]

PETITION OF JOSEPH F. STREMEL, A CODE MEMBER IN DISTRICT NO. 17, FOR MODIFICATION OF THE EFFECTIVE MINIMUM PRICES FOR THE COALS IN SIZE GROUP NO. 13 OF THE MINE INDEX NO. 442 IN THAT DISTRICT FOR LOCOMOTIVE FUEL USE; AND PETITION OF JOSEPH F. STREMEL, A CODE MEMBER IN DISTRICT NO. 17, FOR MODIFICATION OF THE EFFECTIVE MINIMUM PRICES FOR THE COALS OF MINE INDEX NO. 442 IN THAT DISTRICT

MEMORANDUM OPINION AND ORDER APPROVING AND ADOPTING THE PROPOSED FINDINGS OF FACT AND CONCLUSIONS OF LAW OF THE EXAMINER AND DENYING RELIEF

This proceeding was instituted upon original petitions filed with the Bituminous Coal Division, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, by Joseph F. Stremel, on March 14, 1941 (Docket No. A-745), and July 8, 1941 (Docket No. A-959). The petitioner, in Docket No. A-745, requests a reduction of 25 cents per ton in the effective minimum price established for the coal in Size Group 13 produced at petitioner's Crow Bar Mine (Mine Index No. 442) when sold for railroad locomotive fuel. In Docket No. A-959, the petitioner requests that the prices established for the Crow Bar Mine coals for all shipments be reduced 25 cents in all size groups.

District Board 17 filed answers herein on March 27, 1941 and July 15, 1941, requesting that the relief sought in the original petitions be denied, alleging, *inter alia*, that to grant such relief would adversely affect other coal producers in District 17.

On August 5, 1941, the Sleepy Cat Coal Company, a code member in District 17, intervened in Docket No. A-959 in support of the original petition and requested similar relief for the coals produced at its Sleepy Cat Mine (Mine Index No. 71).

By Order of the Acting Director, dated July 22, 1941, the dockets were consolidated and, pursuant to orders and notices duly issued, a hearing was held in this manner on August 11, 13 and 14, 1941 before D. C. McCurtain, a duly designated Examiner of the Bituminous Coal Division, at a hearing room of the Division in Denver, Colorado.

Thereafter, the Examiner made his Report, Proposed Findings of Fact and Conclusions of Law, dated October 9, 1941. Upon the basis thereof, he recommended the entry of an order denying the requests of the original petitioner and the intervener, the Sleepy Cat Coal Company. An opportunity was afforded all parties to file exceptions thereto and supporting briefs. On November 5, 1941, the original petitioner filed exceptions to the Examiner's Report. For the most part, the exceptions are merely arguments in opposition to the conclusions reached by the Examiner, rather than specific exceptions to the findings supporting those conclusions.

The petitioner contends that the coal produced at his Crow Bar Mine is inferior in certain characteristics, especially in moisture content, to certain competitive coals similarly priced, particularly those of the Harris Mine of the Colorado-Utah Coal Company and the Wedge Mine of the Victor-American Fuel Company. He contends that the difference in the quality of the latter coals and other higher priced coals is no greater than the difference in the quality of the Crow Bar Mine coals as compared with the coals produced at the Harris Mine, and thus concludes that the latter coals should be priced higher than the coals produced at his mine. After a review of the record, I find, as did the Examiner, that while the analysis submitted indicates that the petitioner's coal is inferior in moisture content, and heat value, in other analytical qualities his coal appears to be equal to or better than the Harris Mine coal, and, moreover, that recent analysis submitted for petitioner's coal cannot be considered as representative of that coal because samples were not taken in accordance with approved standards. The petitioner does not take exceptions to the Examiner's findings in this respect nor makes reference to any evidence in the record that would support a different finding.

The Examiner also found that while the production of all coal in Colorado has decreased in the past few years, the petitioner and intervener have steadily increased their production. The petitioner contends in substance that this is due to the fact that his mine, and other mines producing from the same seam level, have been in operation only a short time and must necessarily expand their markets, whereas the other mines of the district have had established markets, which have been affected by substitute fuels. The Examiner recognized that an increase in the production at the mines operated by petitioner and intervener was to be more or less expected, yet found there was no definite showing that the increase in production was below what could normally be expected, taking into consideration the investments, sales efforts, etc. A review of the record convinces me that the findings of the Examiner in this respect were proper.

Petitioner excepts to the statement of the Examiner that the testimony of witnesses for petitioner and intervener shows that their coals are comparable to the coals produced at the Hayden Valley Mutual and Babson Mines, and that these coals would be at a competitive disadvantage if the petitioner's request were granted. The petitioner states that he does not ask for relief individually but is satisfied and convinced that relief should also be extended to the coals of the other two mines. In answer to this exception, it is sufficient to note that neither of the petitions filed herein request that such relief be granted. In view of this fact, and since the operators of the Hayden Valley Mutual and the Babson Mines did not intervene or appear at the hearing, a revision in the prices established for their coals would not be proper in this proceeding. The undersigned points out, how-

ever, that the petitioner, or any other proper party, is not precluded from filing a subsequent petition requesting a revision in the prices established for the coals of the four mines which petitioner asserts are improperly priced, and states that any petition so filed will receive full consideration.

An exception is taken by the petitioner to the consideration by the Examiner of the testimony of Joseph F. Stremel in a previous hearing before the Division, regarding a reduction in the prices established for the coals of the Hayden Valley Mutual Mine, contending in effect that the petitioner's rights in this proceeding should not be decided on the basis of his testimony in a prior proceeding. While the petitioner's testimony in the prior proceeding is certainly not conclusive of his rights here, those prior statements can, if properly considered at the hearing, be used as a means of evaluating his testimony in the present proceeding. An examination of the Examiner's findings and the record shows that Stremel's prior testimony was only considered for this purpose.

The argument of the petitioner to the effect that the coordination of the coals in the district was established as a result of hearings held before his mine was in operation and since his coals were not considered in the coordination proceedings they are improperly priced, is without merit. The issue here is not a question of the basis upon which the prices for petitioner's coals were established, but whether or not those prices are proper and whether the fair competitive opportunities of other coals would be prejudiced by the granting of the relief sought.

The petitioner also excepts to the remarks of the Examiner pointing out that merely because the petitioner and intervener have received complaints from certain customers is not necessarily indicative of a price disadvantage, but that this may result from improper preparation of the coals at the mine, lack of sales organization, or from various other causes. A review of the record discloses that there was sufficient foundation for this statement.

The Examiner's findings regarding the amount of slack sold by the petitioner and the intervener to the railroad, in comparison to the amount sold by other producers, is adequately supported by the record, and the petitioner's exceptions thereto are not well taken. The undersigned has also examined the record in connection with petitioner's assertion that the Examiner overlooked the fact that purchasers of slack are not limited to railroads and that petitioner sells practically no slack at established prices to dealers. I find that the record evidence in this respect affords no justification for altering the conclusions reached by the Examiner.

Therefore, after a review of the record and upon the basis of the foregoing, I conclude that the Proposed Findings of Fact and Conclusions of Law of the Examiner are proper and should be adopted as the Findings of Fact and Conclusions of Law of the undersigned.

Now, therefore, it is ordered, That the Proposed Findings of Fact and Conclusions of Law of the Examiner be, and they hereby are, approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned.

It is further ordered, That the prayers of the original petitioner and intervener, the Sleepy Cat Coal Company, for a reduction in the minimum prices established for the coals produced at the Crow Bar and Sleepy Cat Mines be, and they hereby are, denied.

PETITION OF WILLIE DRAKE, A CODE MEMBER IN DISTRICT NO. 8, FOR REVISION OF THE EFFECTIVE MINIMUM PRICE FOR FORKED COAL PRODUCED FROM THE DRAKE MINE (MINE INDEX NO. 3307), FOR TRUCK SHIPMENT

ORDER TERMINATING PROCEEDING

Willie Drake filed an original petition in the above-entitled matter on September 25, 1941, praying for revision of the effective price classifications and minimum prices established for the coals of Drake Mine, Mine Index No. 3307, in District No. 8, for truck shipment.

C., he failed to appear at the above-mentioned hearing. It appears, therefore, that the petitioner has no further interest in the above-entitled matter.

Now, therefore, it is ordered, That the original petition in the above-entitled matter be, and it hereby is, dismissed, and that this proceeding be terminated. Such dismissal shall, however, be without prejudice to the right of petitioner to file a petition in regard to the same matters pursuant to the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

NOTICE OF HEARING¹ ON THE MINIMUM WAGE RECOMMENDATION OF INDUSTRY COMMITTEE NO. 40 FOR THE GLOVES AND MITTENS INDUSTRY, AND ON THE HOME WORK PROBLEM IN SUCH INDUSTRY

Whereas the Administrator of the Wage and Hour Division of the United States Department of Labor, acting pursuant to section 5 (b) of the Fair Labor Standards Act of 1938, on January 9, 1942, by Administrative Order No. 137, appointed Industry Committee No. 40 for the Gloves and Mittens Industry, composed of an equal number of representatives of the public, employers in the industry and employees in the industry, such representatives having been appointed with due regard to the geographical regions in which the industry is carried on; and

Whereas Industry Committee No. 40, on January 27, 1942, recommended a minimum wage rate for the Gloves and Mittens Industry and duly adopted a report containing such recommendation and reasons therefor and filed such report with the Administrator pursuant to section 8 (d) of the act and § 511.19 of the regulations issued under the act; and

Whereas, the administrator is required by section 8 (d) of the act, after due no-

tice to interested persons and giving them an opportunity to be heard, to approve and carry into effect by order the minimum wage recommendation of Industry Committee No. 40 if he finds that the recommendation is made in accordance with law and is supported by evidence adduced at the hearing before him, and taking into consideration the same factors as are required to be considered by the Industry Committee, will carry out the purposes of section 8 of the act; and, if he finds otherwise, to disapprove such recommendation;

Now, therefore, notice is hereby given that:

I. The recommendation of Industry Committee No. 40 is as follows:

Wages at a rate of not less than forty cents an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938 by every employer to each of his employees in the Gloves and Mittens Industry (as defined in Administrative Order No. 137) who is engaged in commerce or in the production of goods for commerce, and that no classifications be established in such industry.

II. The definition of the Gloves and Mittens Industry as set forth in Administrative Order No. 137, issued January 9, 1942, is as follows:

The production of gloves and mittens from any material or combination of materials, except athletic gloves and mittens: *Provided, however,* That the definition shall not include any product the manufacture of which is covered by an order of the Administrator defining an industry, and approving the recommendation of an industry committee or appointing an industry committee for such industry, issued prior to the signing of Administrative Order No. 137 appointing Industry Committee No. 40 for the Gloves and Mittens Industry, except the products included in the wage orders issued for the "Work Gloves and Mittens" and the "Gloves and Mittens Other Than Work Gloves and Mittens" Divisions of the Apparel Industry.

The definition of the gloves and mittens industry covers all occupations in the industry which are necessary to the production of the articles specified in the definition including clerical, maintenance, shipping, and selling occupations: *Provided, however,* That such clerical, maintenance, shipping, and selling occupations when carried on in a wholesaling or selling department physically segregated from other departments of a manufacturing establishment, the greater part of the sales of which wholesaling or selling department are sales of articles which have been purchased for resale, shall not be deemed to be covered by this definition; and *Provided further,* That where an employee covered by this definition is employed during the same workweek at two or more different minimum rates of pay, he shall be paid the highest of such rates for such workweek unless records concerning his employment are kept by his employer in accordance with applicable regulations of the Wage and Hour Division.

[Docket No. IT-5695]

IN THE MATTER OF MISSISSIPPI RIVER POWER COMPANY

ORDER TO SHOW CAUSE AND FIXING DATE OF HEARING

FEBRUARY 3, 1942.

It appearing to the Commission that:

(a) On June 19, 1941, there was served upon Mississippi River Power Company, hereinafter referred to as "Company," a joint report prepared by the Commission's staff and the staff of the Illinois Commerce Commission, entitled "Mississippi River Power Company, Keokuk, Iowa, Report on the Reclassification and Original Cost Studies of Electric Plant as at January 1, 1937";

(b) Concurrently with the service of the report described in paragraph (a) above upon the Company, there was served, also, an order, entered June 17, 1941, directing the Company to show cause, under oath, if any there be, on or before July 15, 1941, why the Commission should not determine by order that:

(i) Adjusting entries be made by the Company to bring its accounts in conformity with the recommendations made by the staffs of this Commission and the Illinois Commerce Commission in the joint report;

(ii) A plan be submitted by the Company for the disposition of \$16,000,000 classified in Account 107, Electric Plant Adjustments;

(iii) Disposition be made of certain other amounts classified in Account 107, in the sum of \$6,251,519.24, in accordance with the recommendations of the staffs of this Commission and the Illinois Commerce Commission as set forth in the joint report;

(c) On July 11, 1941, the Commission, upon petition of the Company, granted an extension of time until August 15, 1941, for compliance with the order to show cause, and by order of August 19, 1941, the time was further extended to October 15, 1941;

(d) On October 15, 1941, the Company filed with the Commission its response to the order to show cause;

The Commission finds that:

(1) Mississippi River Power Company's proposed reclassification and original cost studies, and the information submitted in its response to the order to show cause, do not justify or explain the Company's failure (i) to adjust its accounts in accordance with the adjustments recommended in the joint report described in paragraph (a) above, (ii) to submit a plan for the disposition of \$16,000,000 classified in Account 107, Electric Plant Adjustments, and (iii) to dispose of certain other amounts classified in Account 107, in the sum of \$6,251,519.24, in accordance with the recommendations of the staffs of this Commission and the Illinois Commerce Commission as set forth in the joint report;

(2) It is advisable, necessary, and proper in the public interest that a public hearing be held for the purpose of requiring Mississippi River Power Company to

FEDERAL REGISTER, Tuesday, February 10, 1942

show cause why this Commission should not order (i) adjustment of the Company's accounts in conformity with the recommendations made in the joint report described in paragraph (a) hereof, and (ii) disposition of the amount of \$22,251,519.24 established in Account 107, Electric Plant Adjustments, in accordance with the evidence adduced at said public hearing:

The Commission orders that:

(A) A public hearing be held commencing on February 23, 1942, at 9:45 a. m., in Room 516 of the Courthouse and Customhouse, St. Louis, Missouri, and at said hearing Mississippi River Power Company show cause why the Commission should not by order determine that:

(i) Adjusting entries be made to bring the Company's accounts in conformity with the recommendations made by the staffs of this Commission and the Illinois Commerce Commission in the joint report described in paragraph (a) above;

(ii) Disposition be made of the amount of \$22,251,519.24 established in Account 107, Electric Plant Adjustments, in accordance with the evidence adduced at said hearing;

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 5th day of February, A. D. 1942.

1. H. L. Ruppert & Company, Inc., is registered with this Commission as a broker and dealer under section 15 of the Securities Exchange Act of 1934, and is also a member of the National Association of Securities Dealers, Inc., a registered national securities association under section 15A of the Act, and of the St. Louis Stock Exchange, a registered national securities exchange under section 6 of the Act. We instituted this proceeding under sections 15 (b), 15A (1) (2), and 19 (a) (3) to determine whether registrant's registration as a broker and dealer should be suspended or revoked and whether registrant should be suspended or expelled from membership in the National Association of Securities Dealers, Inc., and the St. Louis Stock Exchange.

2. The registrant has admitted "for the purpose of this proceeding, and for that purpose only" that:

(a) On November 24, 1941, and prior thereto, registrant had no net capital employed in its business and, at the same time, in the ordinary course of its business as a broker, owed substantial sums to various customers and banks;

(b) During the period from February 24 to December 22, 1941, the date of our order instituting this proceeding, registrant directly and indirectly hypothecated securities carried for the account of customers under circumstances that permitted such securities to be commingled with securities carried for the account of persons other than bona fide customers of the registrant under liens for loans made to the registrant;

(c) During the same period, registrant directly and indirectly hypothecated certain securities carried for the account of certain customers, under circumstances that permitted the commingling of such securities with securities carried for the account of other customers without first obtaining the written consent of each of such customers to such hypothecation;

(d) During the same period, registrant directly and indirectly hypothecated certain securities carried for the account of certain customers under circumstances that permitted such securities to be hypothecated and subjected to liens and claims of the pledgees for a sum which exceeded the aggregate indebtedness of all customers in respect of securities carried for their accounts;

(e) During the period from October 31, 1940, to December 22, 1941, registrant failed to make and keep current a securities record or ledger reflecting separately for each security as of the clearance dates all "long" or "short" positions (including securities in safekeeping) carried by it for its account or for the account of its customers and showing the location of all securities long and the offsetting position to all securities short, and in all cases the name or designation of the account in which each position was carried.

Registrant has also consented to the entry of an order revoking its registration as an over-the-counter broker-dealer and expelling it from the National

FEDERAL REGISTER, Tuesday, February 10, 1942

Association of Securities Dealers, Inc., and the St. Louis Stock Exchange.

3. We find that the registrant has wilfully violated sections 8 (b), 8 (c), and 17 (a) of the Securities Exchange Act of 1934, and Rules X-8C-1 and X-17A-3 of the Commission's rules thereunder, and that it is necessary and appropriate in the public interest and for the protection of investors to revoke the registrant's registration as an over-the-counter broker-dealer, and to expel registrant

from membership in the National Association of Securities Dealers' Inc., and the St. Louis Stock Exchange.

Accordingly, it is ordered, Pursuant to Sections 15 (b), 15A (1) (2), and 19 (a) (3) of the Securities Exchange Act of 1934, that the registration of H. L. Ruppert & Company, Inc., as a broker and dealer be, and it hereby is, revoked, and that H. L. Ruppert & Company, Inc., be, and it hereby is, expelled from the National Association of Securities Dealers,

Inc., a registered national securities association, and from the St. Louis Stock Exchange, a registered national securities exchange.

By the Commission (Chairman Purcell, Commissioners Healy, Pike and Burke), Commissioner O'Brien being absent and not participating.

[SEAL]

FRANCIS P. BRASSOR,
Secretary.
