財政部駐滬調查貨價處簡章

第一章 大綱

第一條 本處專辦進出口貨價調查事宜爲稅則估價之補助機關直隸於財政部

第二條 本處設於上海就原有調查進口貨價處擴充組織之

第二章 組織

第三條 本處設主任一人會辦二人由財政部派充

第四條 本處辦事分二科如左

一總務科 關於收發文件刊行表冊管理出納及編製預決算等事屬之

二編查科 關於調查商情編製統計纂輯報告研究商品等事屬之

第五條 各科設科長一人由部派辦事員分別派充科員八人調查若干人書記六人由主任遴派

第三章 職掌

第六條 主任綜理本處一切事務會辦協同主任處理一切事務

第七條 科長科員承主任會辦之命分掌各科事務

第八條 調查員商承處員分掌各類調查事宜

第九條 書記商承處員繕寫文件整理稿案及校勘核算等事宜

第四章 增則

第十條 本處增設貨價審查會由主任於華洋公正商人中延聘組織之

審查員爲名譽職

第十一條 本處辦事細則另定之

第十二條 本簡章自呈准之日施行

發刊例言

貨價一端。千頭萬緒。將欲網羅而排比之。使燦然畢陳。毋涉疏漏。非易事也。而欲爲切實之調查。系統之統計。務使精確詳實。不爽毫厘。則其事爲尤難能。市諺有之。早晚時價不同。上海市場組織繁複。市面之雜亂。爲國內各大埠冠。同一市價也。而有躉售焉。有零售焉。有期貨焉。有現貨焉。此猶各處所從同者也。而同一零售市價。則有大同行焉。有小同行焉。有不入同行者焉。同一躉售市價。又有行盤焉。號盤焉。劃盤焉。大抵價格之種類既殊。斯其價目之大小不能盡同。况交貨之地點或碼頭。或送廠。或棧交。付款之期限或現交。或五日、十日、大小月底、對月、其長者乃至三節或陰歷年底清賬。而又有解現與打票之別。夫其所貼之利息。與所負之風險。既雜然若是其參差。則各貨所開售價。自無由同。然強歸於一致。滬埠各同業公會每有公議市價之舉。而陽奉陰違之弊終莫由盡祛。其故蓋在於此也。雖然。貨價統計。爲經濟統計之一端。經濟統計今尙幼稚。其結果所表之數字。僅有相對的價值。未有絕對的價值。此不獨吾國爲然。即歐美先進各邦之統計學界亦有同慨。夫事實者學問之先聲也。種種現象因事實之必要而發生。然後學問漸臻完成。我國統計之學。發軔伊始。即發達較早。歷史較深之人口統計。猶不免模糊影響。莫可徵信。海通以還。任用外人爲稅務司。始有關冊刊行。中外貿易藉資考鏡。而此外拳拳大者。若物價、若生產、若消耗各項統計。迄無繼起而爲之者。研經濟者蓋嘗病之。本處自民國八年奉令開辦以來。俟經四載。所查貨價上年修改稅則時頗見採用。即自八年九月按月公佈之上海物價指數表。亦荷東西統計學家許爲不謬。日積月

果。材料漸多。倘以其有缺陷故。諱莫如深。束之高閣。自不如將所得結果。貢諸當世。以待糾評而圖改善。此中得失。無待耆龜。斯則公布本刊之區區微意也。

本處奉令調查進出口貨價。所查範圍原不限於洋貨。但洋貨部分舉辦較早。所獲材料亦較詳備。故本期所刊。暫以洋貨為限。夫上海為華洋通商巨埠。帆檣輻輳。進口浩繁。同屬一貨。又以牌號之不同。花色之各異。與身骨來路等種種之差別。而其價目恆多至數十百種。故僅此洋貨一門。而欲兼容並包。悉數公佈。亦殊非本刊篇幅之所能勝。今之所刊布者。係從本處所造呈部季報中。刪繁就簡。酌選標準。以見貨價之趨勢。以視呈部季報約居其三分之一。茲請就編製方法略加說明。以便讀者之考訂焉。

- (一) 本刊所列貨價均係躉售貨價。計每星期調查一次。至月終按算術平均法登記。故與各個的實在成交價不能盡同。
- (二) 各種貨價均冠有牌號等標識。以免含混籠統之弊。
- (三) 各種貨價參列兩種貨幣本位。列規銀所以便調查。列關銀所以資比較。至上海規銀與江海關關銀之比率。則為一百一十四錢與一百兩之比云。
- (四) 上海為通用銀兩碼頭。而習用洋碼者亦頗不少。本刊仍按當時厘價折合規元。以歸一律。
- (五) 買賣單位悉從市面習慣。
- (六) 本刊目次。略按上海市場分業狀況。分為五部八類。並分別載明稅則號數。以資參考。

以上本刊編製之大略也。至於市價之變動。或徐。或疾。或輕微。或劇

烈。時或有兔起鶻落之升跌。與突飛暴漲之現象。而按諸當時市情。不無因果之可尋。本刊於篇首冠以市況說明。將重要各業之市面經過情形分加詮釋。所以便印證而供參考也。

夫進口各貨來自外洋。抵埠以後。其銷路之滯暢如何。市價之漲落如何。與外國之廠商及出口商俱有莫大之關係。況華商之洋貨業者。泰半未能向外洋直接定貨。苟有所需。大都委托各洋行代理。而洋行之運貨來華。自行批售者。亦日見其多。然則洋貨市面之變遷。匪特吾華商所繫念。抑亦各國洋商所注意。本刊之所以並用中英兩國文字。固將使中外商人同享參證之便利。而本處亦藉以獲得友邦商人之切磋也。

市况說略

米

今年洋米進口甚夥。全數約有百餘萬担之多。自二月底開始到申後。漸次加增。建幫各號及日商鈴木、英商謙順，均有大批進口。於三月中。暹羅米價格大至五兩二錢。西貢米亦高至四兩九錢。至四月份到貨已湧。市價漸見回平。幸天津烟台兩幫進胃甚佳。故尙能立足。一月中市價上落無幾。然到貨繼續不斷。存底最多時竟達三十餘萬担。而入五月後。津烟各幫辦出轉少。雖內地與本街買進尙不乏人。而去胃終不若客幫之大。市面因而見疲。至六月。湘米到貨轉多。兼之客幫與本街內地交易均淡。行情愈逐步跌小。後以洋米後步不來。屯積者居奇不售。市乃略形穩定云。

麵粉

本季洋粉到數。花旗粉本屬寥寥。即克拿大粉亦僅四月份尙有少數進口。惟粉質未見純粹。本街用戶。不甚歡迎。故價格亦較低廉。此時正值青黃不接。在往昔市面當有漲無跌。惟因前月份到貨甚湧。兼之客幫辦胃多形觀望。致標準銳落。洋粉自難維持固有之價格。但彼時廠家。以客銷停滯。市面續跌不已。乃議決一律停工。以鞏固標準地位。客銷始稍轉機。洋粉售開價格。亦逐步帶起。如紅日當天紅藍福壽等牌。最高至二兩另六分。（四十九磅）克拿大粉因不合用戶。價終難提。最高爲金鐘牌亦祇一兩九錢。與紅日當天牌竟差至一錢五分之一云。

海味

夏季海味營業。因時令關係。頗爲清淡。蓋海產品出新時期。均在秋

季。每至夏令。陳貨行將告罄。以致來源寥寥。况五月霉汛當臨。各貨易於變壞。客幫均取穩健主義。所辦各貨。莫不現進現出。無敢大批積存。迨至六月。新貨登場之期將近。陳貨市面大鬆。各幫從而趕辦。因是各行號亦不敢向產地採辦新貨。以免貨到而乏受主。致受停攔之損失。且本月下旬。適值陰歷端節。商家循例結賬。一時市面尤形沉寂云。

進口海產。日貨實居大半。香港轉口者次之。本季適值清淡時期。復因時局不甯及種種關係。行銷較去夏稀薄。本埠各行號開出各貨。以海帶絲、海帶、魷魚、麒麟菜、海參、鹹魚、干貝、魚翅、蝦米、淡菜等爲多。其成交約數。四月份較夥。五月次之。六月僅占少數而已。今按月分述如下。

四月 本月情勢較上季末月衰疲。而此五六兩月堅挺。計開出帶絲三千餘箱、一百六十餘包。海帶約七百餘包。麒麟菜五百五十包。魷魚三百六十餘包。黑海參二百三十箱、五十餘筐。白海參四十二筐。干貝約二百五十餘箱。淨魚翅卅餘箱。未淨翅五十餘箱、卅餘包。蝦米約六十箱。淡菜七十餘箱。紅菜約一百廿包。金山魚肚十七片。鹹魚未開出。其餘零星交易。尙未併計。至於內外路各幫銷路。甚爲呆滯。粵蜀諸省。正在劇戰之際。天津一帶。以有備戰之謠。均停止辦貨。惟江北鎮江一帶。購辦仍不乏人云。

五月 本月因鑒於上月銷路之呆滯。又在黃梅時節。故各貨開盤不多。計開出帶絲約一千七百五十箱、六十九包。海帶九百四十包。麒麟菜一百七十包。黑海參一百餘箱、六十餘筐。白海參四箱廿餘筐。干貝二百二十餘箱。淡菜卅餘箱。蝦米約三十箱七筐。紅菜僅十九包。淨翅九箱五筐。未淨翅卅六箱十四包。面肚十二箱。鹹魚六百包。餘均碎零。客幫交易。與上月相仿。除汕頭一帶尙有辦去外。餘均不動。

六月 本月市面之蕭條已達極點。匪特客幫交易不振。即本埠開盤亦寥寥無幾。合計開出帶絲卅包。黑海參卅七箱一件。白海參六箱九件。干貝約廿箱。蝦米十八箱。淡菜僅二箱。紅菜十包。淨魚翅三十箱。未淨翅三箱九包。金山魚肚三十九片。尚有零星不計。海帶、麒麟菜、鹹魚等。竟無開出云。

糖

查年來糖類進口之鉅。已達七百六十餘萬担。約值關平六千一百萬兩有奇。(見去年海關進出口貨品全年總冊)產額以荷屬爪哇等處為最鉅。若現市銷行之太古、怡和、車糖原料。大都採自該地。即日本糖原料。亦間有取之者。是以糖市升降。恆視荷電為轉移。爰以本年夏季滬市情況。詳述於後。

夏季糖市。素稱呆滯。加以時局不靖。及種種關係。尤受影響。三閱月中。四月份較有生色。五六兩月。甚見蕭條。日本火車白糖。自七萬餘包。降至四萬餘包。太古貨略有起色。由一萬餘包。加至萬五千餘包。荷蘭貨(赤砂及白糖)銷路甚暢。自三千餘袋。遞加至萬七千八百餘袋。呂宋青糖。存貨稀少。開價高昂。四五兩月。交易寥寥。六月分始開出一萬八千餘包。至於國貨。(青糖赤砂白糖)銷路本極衰微。邇來漸有擴張之勢。四月份約計六七千包。五月份萬六千六百餘包。六月分則為萬二千餘包。冰糖三閱月中。連國貨共銷二千餘箱。六千餘包。東冰及太古冰糖。銷勢均逐漸低減云。今將各月情形。詳述於左。

四月 本月價格。近期賤而遠期貴。荷蘭地價。上旬步跌。中旬平穩。下旬逐步增漲。申市隨之而轉移。日本大里車糖。三溫半上半月價約九兩五錢左右。下半月九兩七錢左右。後因現貨缺乏。神戶車糖。稍見增漲。惟此時已勿開盤。申地交易。祇就現存各貨而已。

太古貨交易一萬餘包。以山西、天津、陝西、安徽、等處。及本街幫辦去者爲多。內地及長江一帶。因均有分銷處。故由申地辦購者甚少。三溫半價格。最低十兩三錢左右。最高十兩六錢。銷出之貨。上檔居百分之二十。中檔居百分之十。下檔百分之七十。

荷赤並未開盤。僅行存銷去二千餘袋。荷白亦無開出。行存銷去一千餘袋。國貨赤砂。開出一千二百餘包。以杭嘉湖及本街購辦者爲多。青糖開出二千四百餘包。銷徐州、天津兩處爲廣。次則嘉興。餘均零星。白糖開六百餘包。常州、蕪湖及本街幫購之。青赤白三種。共開四千二百餘包。并各行存貨。計銷去六七千包之數。太古冰糖。開小塊車冰二千包。價十三兩二錢左右。大塊車冰五百包。價十二兩三錢。與各行家前存之貨併計之。約銷去四千餘包。天津、漢口、牛莊、烟台等處。去路較多。東洋冰糖。高貨十三兩五錢。低貨十二兩。銷去四百餘箱。國貨冰糖。亦開出六百箱云。

五月 月初荷電。地價鬆動。中旬漸高。繼又看落。至月杪復回漲。滬市亦因之上落不定。太古車糖。銷去萬五千餘包。山西、陝西、天津、安徽等處辦去居多。本街次之。內地分銷處。價格較中市稍高。故略有去路。銷數上檔居百分之二十。中檔百分之二十。下檔爲百分之六十。

東貨未開。荷白荷赤。開出甚夥。北幫購者居多。國貨青糖。因呂青存底稀少。盤價高昂。開出萬餘包。徐州、蘇州、嘉興、等處辦去。赤砂及白糖。亦開六千餘包。太古冰糖。開一千餘包。爲天津、漢口等處辦去。國貨白冰。亦開四百餘箱。均裝赴內地。怡和車糖。略有開出。惟不見盛耳。

六月 東貨仍無開盤。太古車糖。亦以價高。頗少交易。荷蘭地價逐步跌落。故荷白開跌六七錢。荷赤亦小。開出尙多。均爲北幫辦去。小包呂宋青糖。月之下旬。號盤讓步。計開出一萬八千餘包。由徐

州蘇州等處裝去。糖質乾燥。當天氣炎熱之際。頗爲合用。呂赤開二百餘包。江北幫辦去。國貨青糖開八千二百餘包。大半裝赴徐州。赤砂三千餘包。白糖四百餘箱。內路辦去居多。太古冰糖開六百餘包。裝往北地。國貨白冰。開亦開出八百餘箱云。

太古貨質重味甜。黏性甚強。價值較昂。日貨售價低廉。糖質潔白。國人俱樂用之。自商人唱抵制後。銷路漸小。太古貨乃有取代之勢。荷白及荷赤。亦銷數驟增。國貨以製法不事改良。銷行終不暢旺。邇來雖漸有起色。然尙不及洋貨之十一。卽其去路。亦不過內路一帶而已。至本季存貨。東糖四萬餘包。太古貨僅一萬餘包。以較去年。兩者約存三十餘萬包。存貨實屬寡薄云。

洋酒食物

自歐戰以後。業洋酒罐食者激增。業者愈多。競爭愈烈。于是各思招徠顧客。減價放盤。時有所聞。市面混亂異常。近來趨勢。竟有每况愈下之概。今將四五六三個月市面之概況。分論如下。

(一) 洋酒 影響市面之重大原因。厥惟成本之貴賤。及來源之衰旺。蓋成本賤。來源旺。則其價自跌。反之則市價飛昂矣。四五兩月。因到貨甚少。且匯價亦無大上落。市面穩定。與前數月無大高下。及交六月而後。到貨大旺。先令步縮。兼之時局不靖。客幫添辦停頓。市面遂日見清淡。其中尤以三星斧頭白蘭地爲最著。該牌行銷中國境地。名譽極隆。銷場最盛。到貨一批。往往數百箱乃至數千箱。六月份到貨尤湧。以致存貨山積。市價疲呆。四五月間尙能維持二十六七元。今則已降至二十四元。雖此貨銷路甚大。且屆時令中之需要品。無如來貨過旺。終不能相抵。觀其趨勢。恐尙不能穩定也。他如老恩老達香檳酒。獅牌呈酒。及萬取水等。均因銷路滯呆而貶價。貓牌葡萄酒。爲爾取葡萄汁等。因到貨稀少。價格

稍增。洋酒各貨。大都來自歐美。日貨祇有啤酒一種。但年來爲上海三星等牌所擠。銷場幾完全停頓云。

(二) 罐食 罐食一項。貨目繁多。總計不下數十百種。其價亦不一定。此漲彼落。此落彼漲。欲列表而盡記之。勢所不能。今就其大勢論之。四月份各種罐食。外洋運到頗多。惟此貨均係陰歷正月份所定。以前之市底存貨。已經售罄。故到貨雖多。而價格仍固。其銷路當以就地爲多。外路祇津漢滬略。略有交易外。餘則均受時局之影響。並無大宗採辦。此類花色既多。營是業者。不能逐樣多定。視其銷路。隨到隨賣。故囤積甚少。偶遇船期遲誤。或廠家罷工等事。市存軋缺。漲風立見。然其勢不能延長。新貨一到。原狀仍復。兼之海上各食物業之做定貨生意者。不下三四十家。銷場各有盛衰。存貨亦各有多寡。互相接濟。鋒俏之勢甚少。五月份市况平平。較之四月份稍見減色。迨六月後。先令漲縮不定。成本稍有不同。如銀根緊急。匯票隨到隨結者。則略爲吃虧。故市面遂呈漲風矣。

棉 花

棉市在夏季三箇月中。本屬清淡。蓋此時鄉人正值農忙。棉紗需要不起。棉花復在禁止出口之期。紗廠決定實行減工之際。棉業交易。不無更受影響。惟幸抵制日貨風潮發生。各幫均有止辦日紗之議。本紗銷路。尙不至於停頓。斯時通陝各花。存底漸形薄弱。產地儲藏亦屬無多。有時卽有運到。並無大批躉貨。祇有零星小數而已。其中上等貨極少。多半係低次之品。而其價格頗能堅持。且有上漲之勢。廠家存有原料者固屬不少。卽無存儲者亦非至萬不得已時必不購辦。蓋因執有現貨之人。因向內地收買。棉農索價甚高。來路成本既大。未肯稍抑其價。以相遷就。故市面雖無大上落。而其勢則逐步趨高。國外市面。亦以陳棉業將告罄。新棉下種稽遲。市勢非常堅固。

有時略低。旋即恢復。茲將經過情形分別詳列於下。

四月 在上半月間。時局發生變化。人心頗起恐慌。市面爲之呆滯。幸大勢不日明瞭。於本埠治安。初無重大關係。人心平定。市面即形穩健。且有自動之能力趨向上游。冀有以潛移紗市之人心。奈紗市雖多方維持。祇以大批銷路不旺。終非棉市所能振起。而紗市之一漲一落。轉足以影響棉市。通花到貨無多。本埠棧存(上沙)約有二千包。(下沙)約有一萬包。(陝西洋架)約有二三千包。印度花由英日兩公司運來。有二三萬包。南市出數日有二萬斤。北市出數每日五六千斤。現貨交易雖屬稀少。而市價已超出四十兩以上。期貨買賣似有停頓之勢。多頭空頭均無把握。業中人大都觀望。美棉價格已達最高之度。而利物浦之漲勢亦非常勁烈。兼之新棉種植。因天氣不良。較尋常稽延至數星期之久。業中人頗以爲憂。惟棉田區域增加。棉農極奮發。以求生產之豐稔。俾棉市受有限制。不致更有重大之高漲。現貨需要及出口交易。殊見冷淡。至下半月。日商曾購進十月期及以後月期貨約十萬包。而各方之執有陳貨者。均乘此時有多量之售出。一般多頭家更開始發生反動。市價遂漸回小。

印棉市面呆滯。價格無甚變動。因美棉上下不定。復有復活節之假期。頗乏興味。又兼日本紗市之下陷。致遠東需要殊形阻塞。中國及日本商人。於現貨略有購進。歐洲方面。需要亦形稀少。

五月 新棉均將下種。惟以天氣陰寒。耕作頗不順利。農人正值田中需款之期。頗有將陳貨入市售現者。大生廠又有積存之原料賣出。是以通花進口較之上月爲旺。市價仍形穩固。且聞通州開出廠布甚多。大生廠紗亦有起色。故現貨銷場稍暢。漢滬致有電運陝花來滬之舉。期貨市場亦因空頭之抵補。市面良好。通滬客人收多放少。一般熟悉市情者。觀察現狀。以爲做多頭者較爲穩重。俟行市稍

疲之際。購進似可獲利。本埠收花行家。北市已經停秤。南市門庄雖未停止。收數亦屬不多。價則須五十四元。

美棉因陳棉地位之堅固。新棉報告之不良。常使市場發生變化。每遇業中需要。市面即向上趨。紗廠定貨將罄。已擬減少產額。國內銷路殊屬有限。出口雖有需要。外商均向他處購求。塔克薩司植棉情形較佳。新棉價格相宜。國內外均有預行購買者。其時市況。悉隨南方氣候為轉移。

印棉市面仍形岑寂。因本地紗廠不甚活動。絕少發展之象。市價曾以美棉之下跌稍見低落。歐洲方面。僅於低廉之貨略有購進。為數毫不重要。遠東出口商仍無交易。僅日商於優級之白洛去有大批辦去。迨至月杪。美棉漲價。市面漸有起色。日商又買進現貨不少。六月棉市漸依據新棉狀況為轉移。惟新棉甫經下種。去收穫之期尚遠。各廠各行各棧以及各鄉戶。所存陳棉。綜核供需能否與新棉啣接。誠為一重大問題。故苟有需要。市面立見堅強。是以廠家未易接近。通州間有來貨。中下等居多。不甚合用。印花續有進口。存積頗多。交易亦少。各地新花。通崇海方面均已出地。根脚牢固。惟因多雨。田中積水而生蕪草。工作頗為不便。他處間有播種遲延者。期貨市場。賣方不敢為逾量之拋出。

美國新棉。此際為生長最暢盛之時。政府之報告雖未發表。惟據私家估計。僅有一千二百萬包之譜。市場常增買方之人氣。凡售出六七月份之期貨。均行補進。至投機家對於遠期之趨向。頗不一致。紗廠出品雖減。而原棉之消費並未見少。眾以為此項情形如仍繼續。則廠家存棉。在九月前必將耗盡。新棉須有數星期良好之天時。收成方能美滿。間有數區。因田中水多生草。已行荒廢。故市況祇見堅定。

印棉市面已轉堅固。現貨需要亦佳。日本出口商於白洛去及奧姆

辣兩種購買甚烈。下半月雖因廠家不活動。市面又見岑寂。但遠東出口商仍陸續買入現貨轉輸。日人買氣雖減。並無需要已足之表示。後此交易。尚有擴張之希望云。

棉 紗

本季棉紗市况頗多變化。綜其原因之大者有三。其一因氣候之關係。本季多雨。棉產上收穫之推測。每為紗價起伏之導線。又以潮濕之故。運輸維艱。銷路頗受阻礙。其二則因時局關係。四月之初。本紗與日紗銷路頗暢。旋以經濟絕交。紗市首當其衝。時局多故。各幫觀望。客銷倍形呆滯。即五六月間屢有印紗輸入。亦無活動之機會。其三則受美棉之影響。本季美棉。始以下種較遲。紗市為之緊張。繼以新棉預估超過七成。致紐約市面急轉直下。而大阪紗市亦為之猝轉。本埠自不能外此世界潮流而獨立。多數紗廠家處於艱苦備嘗之中。乘機大批預購。以備日後之用。而銷場轉滯。甚有停閉及減工者。至六月中旬。美棉漲一百餘磅。紗市始稍堅挺也。

就大體觀察。本季紗市雖呈紛亂之象。然於我國棉紗事業之促進。亦未始非絕大之良機。尤宜踴勉進行。注全力於棉紗之生產。與組織之改善。庶世界之紡紗事業。吾國亦佔有一小部份之位置也。茲將本季之棉紗進出口數。及各該月市况詳情。記述於後。

四月份 成交數約計本紗二萬一千餘包。日紗萬四千包左右。初旬市氣頗堅。本紗客路甚暢。價漲二三兩不等。日紗人心閑散。價略跌。中旬原棉價格雖起伏靡定。客路去胃仍佳。川幫尤為活動。本紗以二十支細紗為最俏。價續漲一兩至四兩。中旬以後。美棉暴跌。買氣頓疲。價亦隨跌。迨月末。北路買胃遞增。十六支日紗人心始稍轉佳。

五月份 本月成交數約計本紗二萬六千餘包。日紗九千七百餘

包。印紗五十包。月初趨勢頗為穩定。價較前月末回漲兩許。旋因海外紗花無力。價復轉疲。中旬以後。客路活動。現銷驟暢。川幫買胃尤健。廣幫需要亦多。北幫購買力復不亞於川廣兩幫。然因美棉三品類漲不已。華商紗廠虧累日增。時有停閉之傳聞。本紗棧存遞減。市氣甚堅。

六月份 成交數約計本紗萬一千餘包。日紗九千四百包。月初客路平平。本紗價雖多微漲。而日紗反跌一二兩不等。中旬以後。端節將屆。客路益形平淡。惟以美棉新花步漲一百餘磅音。川幫又多零星採購。本廠現紗。趨勢仍堅。日紗則開出甚多。市價愈難起色。這月末客路轉暢。本紗與日紗價均稍漲云。

本季本埠輪進棉紗數量表

正 頭

本埠正頭。自陰歷新正紅盤開後。各路客幫於去年底所進開期貨太多。存底既厚。需要不多。以致價格日落。更以紗價巨跌。與夫時局不良之影響。於是人心益形衰落。所以今年春銷。較之往年殊多減色也。

當陽歷四月初。正值旅大問題發生。人心激昂。共倡經濟絕交之論。抵制之聲浪既高。各路客幫與本街內地等處。均競相收買。預備抵制實行後圖利之計。於是久經疲弱之東洋正頭。竟呈活潑狀態。本廠貨歐貨。遂亦得同趨佳景。東貨價格一律見漲。存貨幾有一掃而空之勢。此後于五月初客幫雖一概停止裝運。然售價與定價始終堅定。直至六月杪步趨漲風。未嘗因抵制而有所影響。本廠貨與歐貨價格於此三閱月間。甚形堅穩。另星交易。陸續不斷。雖時局時有變遷。一時人心固形恐慌。然旋即安定。第以年來變端百出。司空見慣。大眾心理均有見怪不怪之見解。所以市面得以常保現狀。而夏季交易反較春季為佳也。

(一) 叫莊 本季叫莊市面。銷路頗旺。雖於時局及匯率不無影響。

然其需要仍有日增月盛之勢。茲將經過市情約略述之。四月一二兩週。排叫激增。尤以本色布、漂布爲最。價格除白竹布、元絨、斜紋及羽綢中之幾種外。均稍上漲。是後因時局不靖。迄五月第一週市氣均閑散不振。就中以漂布、及羽綢呆滯尤著。惟洋紗、剪絨稍有進步。幸孟徹斯德正頭情形。轉呈輕鬆。好恩貝(Hornby)八磅半市布。減去三辨士。爲十六先令九辨士。卡爾維(Calvert)十磅市布亦減去一先令。爲二十先令六辨士。而此間又缺此貨。故五月第二週市面爲之活動。售價亦稍漲高。旋因本埠抵制風潮日烈。叫莊益形起色。排叫之數遞增。售價亦多趨漲。其中雖一度因政局變動。及孟徹斯德報告彼方行市。又隨棉花而步漲。加以匯率見縮。致此間進貨者頗感困難。惟本埠市情。仍稱堅穩。並未受若何之影響。迨六月末湘、鄂、高麗等幫。銷路均佳。長江幫去胃亦健。其趨勢尤足樂觀云。

總計本季叫莊總數共五十一萬二千五百另二疋。四月分爲十六萬八千四百四十七疋。五月稍減。爲十六萬另二百七十四疋。六月驟增。達十八萬三千八百八十一疋。雖以孟徹斯德出貨不多。於五月中行市有高逾百分之二十者。然於其推銷勢力。未曾稍減。而同時日本東京及神戶之棉布疋頭。堆積達六萬四千八百三十包。其間通塞。相去懸殊。殆亦經濟絕交之際。會有以使之然歟。英國正頭。去年雖於美棉昂貴之時。其贏餘報告爲九十四萬三千金磅。較前年多贏六十一萬三千金磅。驟增百分之五十。由此可知其紡織力之雄厚矣。

(二) 歐貨 自去年五月迄今年六月底。竟未見有所活動。白貨勢力。已被東貨佔奪殆盡。只叫莊若干勢力。以保持現狀耳。然排貨亦日見減少。進口數今年亦銳減。花色貨雖爲東洋所不能仿造。然如東洋之冲直貢呢。此及本廠出品之各種線織品。在在均足以奪其銷路。今春陰歷紅盤開後。與東洋本廠貨處境相同。一無發展。四月

間亦僅有洋紗及下身漂布交易。川幫因戰事關係。在六月底以前甚少交易。四月之下旬。漂標及下身漂布洋紗稍形活動。南北兩幫。均有零星交易。五月初旬。上身漂布北幫交易轉暢。絲光縐綢亦稱活潑。三十碼細斜。青島烟台辦進頗夥。長江及本街則對於下身漂布需要仍殷。中旬元芳叫莊價格忽報漲。一時人心甚形趨好而抵制日貨各埠均於九日前實行。亦為歐貨轉佳之一原因。惟號家所存之細布細斜。存底不豐。一經活動。便告斷檔。漂布銷北幫之貨。價亦均呈堅象。間亦有上漲者。所進之幫。以烟台、天津、青島、濟南四幫為最多。五月下旬。花色貨銷路完全停頓。而漂布銷路益形見佳。北幫如烟台、牛莊、安東、天津、奉天。南幫如漢口及長江各埠。均稱活動。八四布下身市布尤為活潑。以漢口本街辦去最夥。五月底與六月初漢口幫交易大形活動。辦去各牌細布甚多。而沖西緞與泰西緞以及泰西甯綢。小線絲羅緞。均詢問市價。間有落手辦進者。北幫似亦有活動之象。尺六絨與月藍素綢。均有辦進。其他各項原白貨。與各種雜色花色貨。一時亦均形活動。在此時期。成交數亦屬甚巨。殆至中旬。政局忽變。市面頗形停頓。入六月下旬。仍無起色。惟市上稀少之貨。則仍形活潑。而尤以上下身之漂布為最。至於花色貨。則究以時令太早。又呈停頓之象。惟存底不多。人心均屬看好。花羅緞走勢最劣。某行開出百件。價只四錢七分五厘。泰西甯綢趨勢尚好。漢口辦去協隆貨甚多。價三錢七分半。沖西緞曾落至三錢一分。然在六月底以前。又回漲至三錢三分。各種泰西緞。以五錢左右走勢為最好。漢口與北幫均有交易。花羽綢上下身均形缺少。公茂、祥興貨。售價均須四錢四分。下身泰和貨三錢二分半。小線羅緞元色大概價在五錢三分上下。各種花色貨。去應銷之期尚早。所以五月杪六月初一度活動後。即漸形岑寂。只漢口一幫始終收買。計至六月底。白貨與花色貨成交數當在千餘件之則。八四布于此三閱月間趨

勢甚佳。惜乎時有無貨應市之嘆。近年歐貨之不振。已無可掩飾。僅元羽綢、泰西緞、溜綢等。得以勉持現狀。漂布則仍佔優勢。惟牌子紛雜。不若以前整齊矣。

(三) 東貨 白貨如細布、細斜、洋標、原布等。年來歐美貨之銷路。已盡爲日貨所侵佔。白貨市面之漲落。完全視日貨爲轉移。今年入春後。因客幫銷路不振。貨價步見下落。至陽歷三月杪。本埠售價已落至最低限度。而抵制日貨之說適興。客幫本街等。鑒於歐貨之存底枯竭。均着手辦進。預備日後應銷之需。一時風起雲湧。大有供不應求之勢。在四月第一週。成交數約計三千件以外。第二週成交有二千件上下。本埠所存日貨。收買一空。竟至無貨應市。所銷之貨。以細布細斜兩項居多。約佔全數十分之七。細布以中路貨所銷爲巨。均由天津、青島、濟南、漢口、江西、本街等處辦去。上身貨。則以牛莊、長江銷去爲多。下身貨。南京、鎮江、蕪湖、等幫亦多辦進。四十碼細斜。以天津、濟南、漢口三處辦去較夥。三十碼細斜。多由牛莊辦進。二四白洋標。共成交四百件。以天、烟、青島去路爲巨。八四原布約有百餘件。價自五兩二錢五分落至五兩一錢。在四月初又回漲至原價。七磅布亦僅銷百件。以二兩五錢五分開與青島、濟南兩幫。較之春盤。實小去三錢。洋紅標合南北各幫。成交當有三百餘件。價自三兩九錢落至三兩四錢五分。旋又回漲至三兩六錢五分。月藍素卜綢。天津、烟台、青島、濟南成交數約在三百件內外。價格落至三兩七八。後又回至四兩一錢五分。花色貨中如直貢呢。春盤係在三錢三四。四月初售價在三錢以內。人字吡吸春盤三錢一分。四月初只開二錢七分。兩約成交三四百件。以烟台、長江、濟南、徐州四幫辦進最多。花標價則因存貨少而需要旺。四月初價未下落。花樣較好者約在五兩六七。下身貨五兩上下。濟南、本街、長江等處。共成交二百件左右。元色與各色細斜。春盤與四月初比較。約落去二三錢不等。交易亦不多。

小花羅緞爲銷路最呆之物。小價曾售過三錢六七。尙無受主。漂布與春盤相較。亦屬平平。銷路只長江另星交易。自一二兩週間之活動後。約略估計之。日貨銷路實有五千件以上之數。此後抵制風聲日緊。各幫胃口亦呈飽象。而五月七、九日之期漸近。各幫均宣布停止裝運。惟烟台幫于各幫熱鬧之時。未曾買進。後於五月中旬以前。共辦去素綢、貢呢、吡吸、細布、細斜等不少。而各幫亦間有若干添辦。所以在五月九日以前。又有千件以外之交易。此則均東洋趕運來滬之貨。貨價比之四月初。白貨約高五分。自五九至六月杪。表面上如已受抵制之應響。無多活動。而暗中之交易。則甚形起色。貨價步見高漲。直至六月底。各貨雖云有行無市。然各行家時有貨到。惟爲數不巨耳。到貨後暗中銷售甚速。隨時有供不應求之象。均屬本街內地改裝去路。至於東洋。存貨甚多。而定價竟不鬆落。此則由於日人深知我國之情形。在五分鐘熱度未過以前。雖貶價亦無大宗交易。不如始終堅定之爲佳也。

(四) 本廠貨 年來中外商所辦之廠日有增加。而銷場亦有增無減。花旗粗布與粗斜。已被排於中國市場之外。國貨能如此發達。固深爲可喜。然考其實際。則外資廠家之勢力。常較華商爲優。今年三月底出口數爲五八四,八一〇疋。四五六三個月之出口數爲一,一六七,六五二疋。今年半年間之出口總數爲一,七五二,四六二疋。日廠之貨多銷天津及東三省各埠。大生廠貨以烟台、本街。銷路爲多。此外如長江各埠。則無一定之準則。何種價格較低。即買何種。第銷數較少。不能左右市面也。此外各種雜牌之貨。各幫均間有辦去。惟牛莊一幫。則大有非日貨不進之現象耳。今年入春後。因各幫開期貨存手太多。以致銷滯價跌。直至四月初。由天津、烟台兩幫辦去各貨三千件左右。價較春初小去二三錢不等。烟台則以十三磅貨居其多數。牛莊於四月初兩週間。僅有若干粗斜成交。天津幫於此時

期中亦辦去怡和粗斜二百餘件。價較春盤小二錢。在四月第三週牛莊忽有六七百件去路。價較春盤亦小去三錢餘。四月第四週。只烟台辦去大生貨六七百件。五月第一二週。有千餘件交易。仍以日廠之貨居多。各幫另星去路亦不多。第三週因銷路不起。各貨售價稍疲。而十一磅貨則由天津、安東、烟台、本街等處共進千件以外。上身貨則以烟台去路較多。五月底六月初各幫又均形活動。上下身各種粗布均有成交。合南北各幫。共有五千件以外之交易。六月中旬政局突變。於是各幫心思冷落。市面轉呆。直至六月底另星去路幸尚繼續不斷。貨價則時有上落。至於六月底之價格。以與春盤相較。雖均形見小。然較之三月底四月初則尚有起色。總計三閱月間客幫之銷路。約在三萬件之則。惟年前之開期貨當市面疲時。各幫均墊銀存滬。直至四月間始陸續運出。所以出口總數三閱月間竟達百萬疋以上也。粗斜紋夏季銷路尚不岑寂。價格以六月底為最疲。因值落令之時也。

年來疋頭進出口兩相比較。出口恆多超過進口。今年減少之數且甚巨。就中以花旗貨為最多。英貨亦屬不少。東貨雖受抵制影響。致進口較少。然以較英美貨。其所減之數。尚不能稱巨也。茲錄去今兩年六月間之進出口數如下。以資比較。

	今年進口疋數	去年進口疋數	今年出口疋數	去年出口疋數
一月份	二五〇,七二二	四七五,四五二	五七八,八九六	六六四,三九二
二月份	六三一,二一〇	九四四,〇三八	六三八,五五六	八八四,六四四
三月份	六三二,八九八	九七〇,七一四	一,一二四,九〇五	一,一六五,二一九
四月份	八五五,〇二四	九三二,二八九	一,八〇一,七二三	一,四二二,三〇四
五月份	五九一,〇五九	一,〇九三,八二〇	一,二五一,五九七	六八七,八八九
六月份	五五三,〇五一	一,〇二六,三七四	九七九,九三六	八九一,八四一
總數	三,五一三,九六四	五,四四三,五八七	六,三七五,六一三	五,七一一,七八九

今年運出總數除去本廠貨計一,七五二,四六二疋外。歐美日貨計共運四,六二三,一五一疋。

麻 織 品

本季麻袋市況。新袋呆滯。舊袋四月平平。五六兩月去路暢旺。市氣堅挺。茲略述其梗概如下。

當四月間。新斜文袋無甚交易。新綠巾袋則略有去路。而舊袋各貨。適值清當。其交易不能十分美滿。惟十一行新麻布。因紗廠略有採辦。市氣尙佳。杭巾麻有本街購用。然成交之量不多。一入五月。舊袋氣象頓新。以大餅粉等用途。去胃流暢。故價亦繼長增高。惟新袋銷路愈滯。價格益形疲軟。攷其原因。不外於客幫不進。及盛傳下月將有大批新貨來滬之影響。但麻布及印度線。尙能維持原狀。迨六月。新袋市氣每况愈下。蓋以外電低落。存貨充斥。烟台、大連、諸幫。又復袖手不動。縱有蚌埠徐州之銷路。爲數極微。不足以振起人心。故市價急轉直下。下旬復逢端節。銀根緊迫。雖外電因存貨枯竭。價格趨高。而本埠交易。清淡如故。迨月末安東幫略有去路。始稍轉機。十一行麻布。初亦隨新袋而沉寂。幸有本街沙廠添辦數百件。與天津幫裝運數十件。市情爲之一振。舊袋則與之適成反比例。舊斜文袋有水泥廠之採用。竟有供不應求之勢。單雙嘜藍線袋。亦因蠶豆上市。銷路流暢。烟台大連各埠。又復紛紛採辦。價格突漲鋒銳之勢。至月末始稍殺云。

呢 絨

本季呢絨市況。盤旋起伏。頗有循環更易之概。四月份以存底枯竭。新貨無到。市況甚堅。嗣以時局不靖。致青島、烟台、漢口、南京等幫。去胃滯弱。津幫亦因謠傳備戰。曾一度停止採購。然其後有哈爾濱幫

動辨。市氣即爲之一振。毛線呢正當銷令。價頗鋒俏。橡皮布則外埠銷路甚暢。莊青嗶嘰亦有步漲之趨向。迨五月初。色嗶嘰以氣候溫暖。銷路漸廣。直貢呢花色貨亦均呈進步。惟雨衣布因來源湧旺。交易轉形滯呆。不意第二週趨勢猝變。除元直貢呢莊細嗶嘰白貨外。餘皆猛跌。按往年此時雖亦因時令關係。曾有一度之疲憊。然未有若此週之劇烈也。推其原因有三。一爲來源過湧。一爲客路停滯。又一爲賣方人心不固。職是之故。人心暗淡。遂一落千丈。至六月市現。先受時局影響。後以匯票低輓。造成閑散之市氣。除元直貢呢雜色嗶嘰比較的生色外。雨衣布銷路益稀。白貨已經落令。價漸低落。然中有利用端午節關及洋行半年清結之機會。擇要購進。以便居奇。市價尙不至十分跌小。而是時外洋廠盤頗堅。印度及南洋各屬需要尙殷。亦未始非保持本埠市面之一端也。

雜 類

雜貨有東西莊之別。東莊專營日貨。西莊則歐美各貨均有批售。其營業之範圍。廣言之。不外日用品與奢侈品二者而已。其營業之盛衰。全恃時局之安危。與夫時令之變遷而定。今夏正值兵戈四起。政潮日亟。災荒偏地。民不安居。益以先令跌落。同業鑒於去歲獲利之厚。各號向外洋定貨者頗多。以致到貨湧躍。屯積累累。不能一時脫售。此營業清淡之大原因也。此三閱月中。四月份營業尙有起色。斯時約在陰歷春末。各帶籌辦夏令貨色。而此時抵制風潮初起。對於日貨之必須品。均預先採辦。五六兩月交易清淡。東貨既少。西貨亦露遜色。惟國貨稍轉活動耳。今以銷路較廣各貨情形。分述於後。

毛 冷 光 絨 線

毛冷進口。年達一萬餘担。價值關銀二百餘萬兩。我國機製毛織品。如絨襪、手套、圍巾、絨帽、等事業。日漸發達。率多仰給於此。英貨之蜜

蜂、學士、花牌、等牌銷路最廣。但皆秋冬兩季之需用品。此時銷路呆滯。價亦步跌。花牌（粗）四月份市價每磅尙在二兩二錢餘。五六兩月。降至二兩一錢左右。學士牌（粗）向銷外路。四五兩月。無甚交易。磅價一兩七錢五分左右。六月份復跌一錢。月杪北幫已開始購辦。蜜蜂牌銷路。本埠極大。時令尙早。亦少成交。四五兩月。每磅價約二兩。六月份跌至一兩九錢。德國老鴨牌光絨線。爲絨線中之大路貨。銷路向盛。現屆生意清淡之際。四五兩月。價約二兩二錢五。六月份低至二兩一錢。其他各牌毛冷。去路均疲。總觀目前毛冷及光絨線市面。存貨累積。銷路沉寂。一俟秋涼。各路動辦。勢必增漲。

手帕 毛巾

手帕本以夏令銷路最盛。而今夏比較往歲。減色不少。各幫均無大宗成交。以致花色貨。祇能維持成本。大路貨虧蝕者尤多。所幸市面存貨不多。尙不致大跌。花色貨以英國之塔牌麻紗巾。銷路最大。三閱月中。市價每打在三兩二錢至三兩二錢五分之間。大路貨如德記十六吋絲光巾。打價一兩一錢五分左右。中和十八吋無光白紗巾。價近一兩。德記及華記十八吋文明巾。打價一兩五錢至一兩六錢不等。其餘無甚漲落。近來國貨手帕。亦有銷行。如瑞泰、建盛、建新、中華、諸廠。先後設立。出品尙佳云。

毛巾爲家用必需之品。用途至大。外洋進口。以日貨之鉄錨牌爲最。鹿頭牌次之。本季價格六月份稍漲。然自抵制發生後。銷路頓減。交易寥寥。國貨如三友實業社。先施永安諸公司。出品甚佳。銷路竟有一日千里之勢。現三友實業社三號三角牌毛巾。每打售一兩一錢六分云。

木紗 線球

木紗以時令之變遷。依顏色而定其銷路。如冬季概銷寶藍色、黑色。夏令則銷白色、或淡色。東西各貨。均有進口。西貨之五百碼鍊條牌。

銷哈爾濱奉天一帶。二百碼銷本埠及杭州、嘉興、湖州、各內地爲多。東貨則銷四川長江等處。今夏因謠傳奉直備戰。以致奉天一帶。交易不振。日貨亦因抵制關係。銷路大減。祇二百碼者。本埠略有少數交易。西貨市價。此三月中。無甚變動。東貨人面牌。每羅逐月跌落一兩左右之譜。

線球向係日貨麒麟牌應市。自滬上協大、鴻大、等廠設立以來。所出各貨。頗有進步。銷路日廣。頗有取代日貨之勢。每羅約售三兩三錢左右云。

線毯 棉毯 絨毯 毛毯

現交夏令。各毯銷路不振。無大宗之交易。價亦疲軟。日貨線毯完全停頓。西貨略有銷路。9/4列豐拷花線毯。四月份每打價約三十七兩。五六兩月。各跌去一兩。其餘 10/4 11/4 12/4 亦均一律步落。虎毯亦依次鬆跌。棉毯平定。惟灰毛毯於五六兩月北幫先後辦去一百餘包。市情尙佳。國貨線毯。銷路亦好。

汗衫 衛生衣

汗衫爲當令之貨。故銷行頗暢。東西貨均有進口。日貨向以燈塔牌。銷路最大。惟抵制以來。頗見遜色。西貨如英商洛士利洋行之蝴蝶牌。星牌。德國之英球牌。銷路亦較大。惟售價甚高。每打扯價。將近十四兩。銷路不無減色。國貨汗衫。如景綸廠出品。花色俱備。品質良佳。價值高低不一。頗能迎合社會心理。故推銷甚暢。各埠均有代理處云。

衛生衣現在市面蕭條。無甚交易。價亦步跌。東西貨均有進口。花旗貨之胡禮氏牌最佳。

襪 腿帶

年來國貨充斥。襪廠林立。物質優美。定價低廉。銷路之廣。爲各國貨之冠。洋貨幾類絕跡。本刊所列之金興民生諸廠。均係國人在香港

經營。以其進口時。照洋貨進口例納稅。故亦列入。

腿帶以日貨之老人頭孔雀牌銷路最大。惟近社會風行大腳袴。并受抵制影響。又在夏令。因之銷場頓形不振。

呢 帽

呢帽以哈德門。貨銷路最廣。現屆夏令。交易清淡。入秋當有起色。

五 金

我國礦產之富。甲於世界。但能自行採掘冶鑄。以供國人之用者。直如鳳毛麟角。除煤礦可直接利用外。大抵以冶術不精。祇能舉原質售諸海外。而仰給其製成品。考諸十一年度海關貿易冊所載。五金一項。計關平四千數百餘萬兩。約占總數百分之五。種類以鋼鐵品為大宗。銅類次之。鉛、鋁、鎳、鋅等再次之。其餘如各種機械。或歸入他類範圍內者。尚不在其中焉。金屬既皆來自海外。故海外市場與吾國市面。息息相關。但就經濟原理而言。供求兩方。均有左右貨價之能力。是故存貨多寡。銷路廣狹。實為價格漲落之最大主因。而匯率升縮。關係成本。亦往往影響於市價。茲將四五六三個月市情。略述於後。以供參考。

(一) 四月中之市情。較之三月。相差遠甚。緣是時北有奉直再戰之謠。南有閩粵構兵之耗。川則內訌不已。其餘各省。亦鑒於大局不定。人心惶惶。以致各客帶。或停止採辦。或意存觀望。大抵裹足不前。即有成交。亦屬少數。而到貨日形擁擠。演成供過於求之現象。雖海外廠價增高。先令見縮。不獨不能同時漲價。因去胃不大。一般資本淺薄者。反急於脫手。不得不削價出售。以期資金之流動。至月末銷路略暢。先令縮短。方免續跌。茲擇重要貨品。記其價格變遷狀況如次。

鋼鐵類 鋼鐵本為五金類中之大宗貨品。本月中因到旺銷滯。市氣不振。如英白鐵皮、美白鐵皮、及白鐵瓦、白鐵板等售盤均跌。

孟林元鋼通扯下落錢許。二吋至三吋貨色。用製鋼地軸原料。銷路雖好。因德國到貨甚多。價又較廉。市價亦隨之下降。船板鋼。初尚平穩。後因到源甚湧。價因下跌。如二哩一項。本售價九兩。湧到後各號競相賣出。價竟跌至六兩七錢。至月杪來源頓減。市存單薄。標準得回漲至七兩許。又半吋一項。在貨未到以前。價爲六兩錢許。後受到貨影響。遂步降至六兩。一吋以上花色。則僅略有變動。三角鐵初亦平穩。後亦因到旺。價略下落。各種鐵管子市面。與白鐵皮等情形相類。雖有紡織廠。自來水廠。大批吸收。終不敵到貨之旺。市價未能回漲。竹節鋼進口雖不甚多。去胃亦平平。查其原因。由於建築幫皆直接向外洋定貨。除少數急於需用者外。無成交之可言。法西釘頗有轉枯向榮之勢。蓋因進口稀少。所存單薄。外價增長所致。

銅類 銅類大抵來自東洋。歐美雖有到貨。爲數不多。邇來東貨到埠頓少。以致存底淺薄。如黃銅板半吋一項。至月末。因市存無多。單批價目。較通扯標準價格。高上兩許。三吋黃銅管尤缺。二吋二吋半花色。亦有告罄之勢。以上數種小件花色。向來不甚注重。後加以到貨告絕。而各方面需要。仍不減於前。價之增高。勢必然也。黃銅條銷路甚大。自東貨到稀以來。標準已提高三四兩。如一吋二吋花色。存貨極少。各行號有是貨者。僅一、二家。祇得聽其操縱。每担竟有漲起四五兩者。紫銅條到稀存薄。歐美雖有到貨。爲數不多。不足供各幫之需要。故價亦漲起一兩五錢。總之銅類後市。尚須看漲也。

鉛錫類 青鉛條市面。月初甚疲。嗣因搨客向各行號搜集。價稍轉俏。後因到源洶湧。又乏去路。回跌至十一兩七錢。月末新茶上市。去胃漸增。幸未續跌。荷蘭點銅。月初因外市類跌。到源雖不甚多。奈存底濃厚。去胃毫無。所以價格步落。錫。則因到旺銷滯。終無

回漲之望。

(二) 五月中之市況。雖比四月略佳。以較三月。則仍有遜色。月初市情疲寂。與上月無異。至中旬間。奉直再戰聲浪已息。人心轉定。北如津、連、烟、青、等幫。長江一帶。如漢、蕪、九江等處。均有大批購進。惟閩粵方面。戰事方酣。除製造軍用品原料外。成交極少。各貨價目。仍跌多漲少。而以鋼鐵類為尤甚。實因存底濃厚。到源旺盛。加以德貨到埠甚多。價格較廉。英美貨為競爭起見。不得不略事減低云。茲分記各類重要貨價如次。

鋼鐵類 英白鐵皮。月初跌風仍甚。因來源重疊。棧存提出。雖有去路。終未能挽其疲勢。迄月末。經各幫大批採辦。價格始稍穩固。如三十號花色。回漲至十一兩四錢。白鐵板。自屢次跌價以來。本月仍未能回漲。白鐵瓦。則時起時伏。除二十六號外。價均較上月為低。皆由於到存過多故也。孟林元鋼。以中旬間為最有起色。無奈現貨擁擠。到源又旺。故去胃雖大。平均價格。較之上月。依然看小。如二吋以上之鋼地軸原料。仍受德貨價廉影響。疲軟如前。船板鋼。二哩半一項。月初價略回漲。計七兩五錢。繼因來源轉湧。各商之有存貨者。不得不鬆盤出售。至月末。鋼類到貨雖多。惟該花色獨缺。存薄到稀。銷路驟增。價遂回復。他如半吋至四吋花色。銷路雖有。因洋商掘客。存底極厚。較之三月中價目。均下落二三錢許。馬口鐵。上旬間到貨過多。價略疲軟。後因烟草廠及汕頭幫。大批買進。價方轉漲。統計百磅英貨。本月平均價格。較前月末高出錢許。九十磅則因前半月下落過甚。後雖超過前月末價格。但平均仍較上月為弱。三角鐵。棧存既豐。到新又夥。價目漸漸下落。雖出口幫及本埠鐵廠電廠等。有強大之吸收力。仍未能挽其疲風。跌價最甚者。為六吋、一吋及一吋二吋、三種。惟一吋半一項。存貨單薄。較前月反漲錢許。三吋一項。大有與一吋半並駕之勢。因是

貨乃建築業中中擋花色。銷路極廣。故價亦超過前月末週。各種鐵管子。自上月到湧以來。價逐下落。略有存貨者。無不力求脫手。孰意中旬初即生反動。各方需胃。驟然擴張。各花色皆有多量之成交。尤以黑白鐵管子為最。泗汀管次之。價則因到貨之多寡。存底之厚薄而不同。然均有回復之勢。如三呎、六呎銷路最廣。價亦續高。月末去胃漸縮。遂復轉疲。竹節鋼去胃甚大。奈到貨太湧。供過於求。終未能保持其原狀。較上月下落二錢有零。法西釘一吋至七吋之標準價。降至六兩。亦受到湧之影響也。惟三呎、六呎花色。末週稍見佳象。價增錢許。

銅類 銅類市面。大有愈趨愈高之勢。蓋因東貨到少。英美貨不敷應市。以致市價飛騰。如黃銅條。四呎至一吋花色。月初通扯售盤為三十一兩七錢五分。數日間即漲至三十三兩。二呎、三呎花色。下旬間亦由三十五兩漲至三十七兩。一吋二呎一項。單折原價三十六七兩不等。至月末竟無貨可購。惟任有貨者操縱。無市面之可言。紫銅條。亦與黃銅受同樣之影響。雖曾有大批美貨到埠。旋即為銅元局製造局所吸收。其餘除電廠外。雖無重大去路。而到源稀少。仍有漲無跌也。各種銅管與銅條。大有並駕齊驅之勢。存貨單薄。需者時有乏貨之虞。如三呎及二吋之花色。尤為缺乏。總之長此以往。銅市必繼長增高也。

鉛錫類 青鉛條。一項。在往年此時。正屬暢銷。因新茶上市。各茶業購製茶箱。需胃甚大。而日下情形。與前迥異。月初尚稱平穩。後因到貨太多。加以外價鬆。銷路亦疲。以致存貨堆積。價格大有江河日下之勢。荷蘭點銅。本月中價仍跌落。月初與月末比較。標準價目。相差三兩有奇。錫。則仍因來源過多。下落兩許。

(三) 六月份市面。可分兩部言之。銷路一方。比較前兩月尤為不及。大有每况愈下之勢。據業中人云。此時本屬五金生意清淡之季。值

此奉直戰謠甫息。北京政變又起。無不緊縮範圍。減少進貨。而下旬適逢陰歷端節。商家例須作一結束。往來各戶。均須結賬。以致銀根驟緊。銷路益呆。至月末始略有轉機。售價方面。殊不一致。月初通扯。仍趨跌勢。銅類貨少。乃屬特別情形。鋼鐵類大致以廠價增高。先令見縮。故雖銷滯。各商以血本攸關。不肯輕易開出。價遂堅挺。茲錄重要價目如次。

鋼鐵類 英白鐵皮。因到少銷暢。廠價疊增。先令見縮。所以次第上漲。如三十號。花色較上月升高兩許。美貨市面。則不若英貨。因到貨過多。存底亦厚。通扯價目。較之上月僅漲二錢。白鐵瓦。板。兩種。亦賴外匯短縮。價未下落。孟林元鋼。自前月跌價以來。來源轉淡。月初成交亦多。四吋至一吋之標準價。仍為四兩七錢五。二吋三吋各提高錢許。三吋以上之地軸原料。價亦略漲。各花色後均受到貨影響。去路雖有。標準價終回落一錢五分。惟地軸原料一項。到貨獨少。銷雖不暢。價得保持原狀。船板鋼。存底豐富。到源又旺。雖外匯疊縮。奈銷路稀少。價格遂逐漸下落。跌落最甚者。為二哩半一項。較之上月。相差五錢。英九十磅馬口鐵。初因存到均多。人心疲軟。內盤即鬆。價在八兩以內。美貨亦平庸如昔。繼因到源減少。先令見縮。廠價增高。銷路亦漸有起色。如煙草廠及各幫。均有大批買進。市面穩定。至中旬以後。海參崴幫極力搜羅。以致百磅英美貨均缺。大連幫及煙草公司等。竟至無從購買。價遂堅挺。美貨標準達十兩有零。英貨亦至九兩錢許。三角鐵。自上月轉疲以後。至本月初始有轉機。蓋因北方及長江等幫大批買進。本埠電廠建築幫。進胃亦甚浩大。故批價有增高錢許者。二吋四吋花色。雖搨客及洋棧中賣出甚多。但為建築之必需品。銷路之大。為各花色冠。至中旬末。出口幫及本埠各廠。又大批吸收。市價遂愈趨愈高。即各花色價格。亦隨之驟漲。後雖曾有到貨。並未受其影

響。不過同業中有故意跌價拋賣期貨。以致市面頗呈紊亂。各種鐵管子。自前月售罄回落以來。去路漸旺。到源近忽減少。存底漸薄。銷路復日暢一日。北有北京、天津、號家大批裝出。本埠水電廠進胃亦大。價格因此上升。如四呎白鐵管、一吋四呎黑鐵管、二吋及二吋四呎泗汀管四種。竟有軋缺之勢。中旬末新貨到埠。各商號因前途銷路。絕無把握。問津者少。惟價尙未有若何變更。竹節鋼。因天氣乾燥。便於建築。尙有銷路。價目與前月末相似。法西釘。因到湧銷滯。價趨落勢。幸外匯短縮。標準未至十分下落。銅類 黃銅板。進出兩稀。價未變動。黃銅條。因外匯見縮。價略趨漲。紫銅條。爲製造軍用品之重要原料。如漢口、天津、南京、福州等處。收買甚多。以致現貨缺乏。大呈漲風。其餘銅絲、皮等。無甚走動。市面沉寂。

鉛錫類 錫市月初因定價放寬。銷路又無。故大勢不振。如荷蘭點銅。中旬間雖曾有大批出口。奈存貨過多。到源又旺。本埠廠家及內河幫。偶有採辦。其數甚微。與市面無甚關係。故價格始終不克向上。鉛市因現存太多。又乏去胃。以致內盤放鬆。雖製造局等時來採辦。但爲數不多。無濟於事。而海外定價。利物浦價比較最廉。然折合中市。尙須虧蝕。倫敦等價。更無論矣。錫市沉寂已久。至月末。存底不多。英報載有軋缺消息。人心因即轉堅。業是者大有奇貨可居之勢云。

煤 市

西歷四五六三月。適值舊歷二月末。至五月初旬。商人慣例。每屆節關。諸事須待結束。交易亦以之而停滯。市面遂呈衰退之現象。故四月份走動稍形活潑。五月比較遜色。至六月則衰落不振矣。今將各該月市况。說明於下。

四月 國煤到源極鮮。內地各處銷路甚好。是以供求軋缺。價格頗堅。惟初旬走動亦呆。蓋此時各絲、油、紗、粉、等廠。皆在停工之際。需要不夥。買方購進頗少。囤戶皆欲脫手。價格稍跌。但自八日至三十日。奉直風雲陡起。雙方佈置軍事極忙。直省礦中運煤車輛。多被扣作運兵之用。致有貨不能運出。此間來源驟少。加以本埠有多數之用戶。鑒於去歲直奉戰時缺貨之覆轍。一旦市面緊急。相率屯積。以爲來源斷絕後之預備。躉批需要之廠家及客幫。亦紛紛搜羅大批現貨。致市面存底虛空。各種國煤之市價。大呈漲風。如中興、井陘、賈汪、悅昇、博山、開平一二號層、林西層、福中白煤、柳江白煤等。均提漲有七八錢之多。日本煤因匯水高漲。成本昂貴。撫順層、驗田層、新陳兩種紅煤層、香珠層以及高松、新手、高尾、福岡等層。售盤均被帶上一、二、三、四錢不等。蓋國日兩煤自北方形勢不佳。復經本埠買戶大批買進後。洋棧存底空虛異常。加以日匯頗高。水腳與辦本頓昂。各煤號皆懈於裝進。進口不旺。市上現貨更竭。幸斯時紗廠、粉廠尚在停閉中。絲廠因新絲尚未上市。需要尙鮮。凡買入者。多屬屯戶。後聞價格提漲。又復賣出。市場流通方見增多。計全月總成交數有十九萬五千餘噸之多。

五月 上半月市面仍緊。與四月份相似。下半月因奉直形勢緩和。礦中煤斤得以照常輸出。本埠到貨較旺。而日本煤亦因礦中產額見增。紛紛轉運來滬。各碼頭上進棧之貨。源源不絕。統計一月內。國煤、白煤、日煤、塊統層三項。各方共裝來十六萬五千餘噸之巨。各棧堆積既壅。商場賣出又夥。而客幫均存觀望之心。其有存貨者。復多轉行賣出。雖各廠家依然有大批購入。總成交終不若四月之旺。故賣出價格跌多漲少。然以全月交易計之。連國煤在內。共達十八萬七千餘噸。較四月份祇少一萬噸左右。爲數尙屬可觀。價格除井陘統、撫順層。因來貨依然不旺。繼續增漲外。其餘

烟煤塊、統屑與白煤等。自經湧到後。除三四種缺貨及華水屑、柳江、福中兩白煤。價尚平穩外。餘均受銷場打擊。盤價步落矣。

六月是月市况更不利。本埠方面。各貨交易雖仍有做開。而外埠客幫。則生意寥寥。每日平均裝出數目。不滿百噸。緣值舊歷端節期中。遠道客幫。多返里結束帳款。或收取欠戶帳頭。或支解上行貨款。故無暇進貨。至於本埠各煤號。與大小各煤店。近節前後。亦稍有停頓之象。此為每年常例。但明雖不做交易。而暗中私相接洽。反甚忙碌。蓋因銀根緊急。各店號。該欠上行貨款。一時不能支解。都將現貨抵押款項。或向寬裕者貸借。或以極廉之價將貨脫售。以應急需。是以在斯期中。暗盤變動甚大。甚至有一兩或五六錢之漲落。但此種賣買。均私相做開。市場絕少聞見。入下半月後。節期已渡。各幫漸復來滬添辦。而本埠賣買亦見活潑。價格徐徐回高。不若節前之疲軟。但統觀一月間大勢。市面終不為佳。總成交連中國各煤。祇十四萬數千噸。比四月份減少五萬餘噸。較五月份減少四萬餘噸云。

火 柴

火柴一項。近年來國貨銷場日增。內地各大埠。多由本地各廠供給。無所求于外貨。鳳凰牌係瑞典貨色。頗有銷路。乾坤、真人早已無貨。故無市價報告。其餘如猴牌、盤龍、雲鶴等。受抵制影響。銷路大不如前。且六月內盤龍、雲鶴、馬上猴均無貨云。

木 材

查木材一項。我國出產本屬不少。如川、閩、粵、贛諸省。素為產木著名之區。祇以運輸不便。製成品亦不若舶來者之適用。以致外貨充斥。大有反客為主之勢。每年進口數量。除鐵路枕木外。約計重木四千

六百餘萬立方呎。輕木二億三千百餘萬平方呎。共計關平一千一百九十餘萬兩。(十一年度海關貿易冊報告)該貨大抵來自美、日、新加坡、非列濱等處。其餘各國。雖有到貨。為數甚微。茲將本期市況。略述於後。

(一) 花旗松 四月初因存底單薄。銷路甚暢。雖大來洋行、祥泰公司。到有百萬方呎之譜。然仍不敷分銷。故市價逐漸提漲。下旬到貨雖夥。旋為客幫辦去。存底仍形單簿。至五月初。天氣晴和。利於建築。各幫進胃。益形浩大。頗有供不應求之象。人心愈堅。中旬後銷胃轉小。但存底不丰。紐約市面。電傳加緊。滬市亦隨之趨緊。六月中去胃雖不若前。而到貨甚稀。所以價格始終堅挺。

(二) 留安木 留安木來自非列濱。邇來銷路甚大。緣各地建築。日見進步。通常居舍。競尚華麗。加以現下美松價格。逾分高昂。與之相較。所差無幾。而其色質遠勝美松。故各地樂於購用。四五兩月。到存均濃。但市面並未因此呆滯。價亦平穩。至六月中旬後。銷路頓減。蓋受陰歷端節之影響。加以新貨續到。價方回跌。

(三) 柚木 柚木市面。自四月至六月。逐步下落。攷其原因。由於定價過高。需戶均意存觀望。以致銷路清淡。幸存底淺薄。產區價堅。價格始得保持二百十兩之數。

(四) 紅白板 四月初旬。交易雖盛。以到貨絡續。市面平平。至中下旬間。到貨雖較前加旺。去路亦較前為暢。價格因受他種木材影響。反見上升。五月初旬。價仍堅俏。中旬後。新貨驟增。銷路復不若往昔之暢。價因轉疲。迄六月末。始終未見回漲也。

(五) 企口板 四月中。頭號企口板。存貨極鮮。本埠雖有製品。質地究不若外來者純潔。以是價格逐漸上升。二號花色。到貨較多。而本埠鋸廠所出者。亦足應付市面。市價平平。五月中來源雖夥。銷路甚為活潑。市面未有變動。迨至六月。受售價過高之反響。銷路大不如

前。市面轉呈疲象。

(六) 東洋白松 東洋白松。向與美松有並駕齊驅之勢。邇來銷路驟減。蓋因本松價格較廉。各建築幫均採爲代用品故也。

染 料

本季染料市面。漸見軟勢。二月間因聞法國進兵魯爾。本埠行號。恐來貨斷絕。有貨者相率不售。市價大俯。不料至四月後。依然有到貨。各客幫因時局不靖。都以少辦爲主。內地去路既滯。外洋進口復源源不絕。因之存貨堆積。市面日疲。至六月中旬將屆端節。市上交易。益爲清淡。市價尤形疲軟。硫化元及硫化碱。本多採用東品。自抵制風潮發生後。各客幫及內地各路。銷場幾於絕跡。雖本街尙有銷路。亦屬有限。然產地原料見缺。到貨稀少。市價反有起色。德貨行盤亦隨之而增加。故市况尙有佳象。硫化碱雖他國亦有到貨。因水脚昂貴。成本加增。不易售出。市上祇有東貨交易。而來源月僅數百箱。均隨到隨銷。市價因亦平穩。每百磅約在五兩五錢左右。據業中人云。將來染料市况。恐難樂觀。惟靛油市况與染料適成相反。市價日趨佳象。究其原由。美貨存底早已售罄。祇有德貨到埠。然到數未見踴躍。而各幫銷路日盛。存貨益薄。市面日漸看好。六月初來貨雖多。而客幫銷胃益暢。內地及本街去路。亦尙不惡。市上現貨。益形缺乏。大有奇貨可居之勢。如愛禮司謙信等貨。品質最高。價格步漲至六十五兩。業者大抱樂觀。將來市况不致疲乏云。

化 學 產 品

本季市面。或因時令關係。或受時局影響。銷路之暢滯。價格之漲落。互有消長。若就此三個月間重要化學品之市况。分類說明其概略。

(一) 酸類 酸類中爲用最廣者。既惟磺強、硝強、鹽強三種。其餘礬

酸、石炭酸等。用途則僅限於一二種廠家。磺強於五月中銷路甚旺。祥茂洋行所經理之江蘇藥水廠。係英人經營。出品每月不過三四百箱。大有不敷應銷之狀況。三井之蝴蝶牌。吉田之雙旗牌。走場亦因之而暢旺。該貨用途浩繁。如各地之大藥廠。造幣廠。及本埠銀爐作。近來銷路頗增。外洋每月進口千餘箱。尚不敷分配。磺強市面頗平定。四十度品爲通銷之貨。四十八度品銷胃殊寥寥。市間存底均爲三井之到貨。蓋購戶素信該貨。別牌無立足之地。鹽強走場則較爲清淡。紙板廠硝皮廠均無多去胃。加以日本原價較前鬆動。故期貨現貨價均隨跌。醋酸於四月初因存底缺少。走場不惡。價格堅俏。次等貨價雖較廉。力分太薄。少問津者。入五月後。價益堅挺。九十六度美貨。營業頗旺。大宗去處爲油漆廠。當茲春夏之交。銷費之數。更大於前。硼酸粉以時交夏令。蛋廠需要停滯。遂無大批交易。雖有內地零星批售。爲數極微。加以存底甚豐。價格看疲。石炭酸則價值奇昂。去冬每百磅值銀四十元。今春以來。因銷路漸動。底貨日少。竟步漲至七十五元。又以美貨來源斷絕。存貨完全告罄。竟至欲購無從云。

(二) 鹼類 燒鹼爲用最廣。肥皂廠需要尤多。五月中旬。到有大批美貨。因尚有存底。故價稍疲。惟卜內門月牌馳名最早。價雖較貴。營業仍不見弱。及六月後。市價稍平。至月末營業尤爲平淡。攷其原因。一以天氣陰晴無常。肥皂及絲光紗廠。出貨減少。應用原料量因而狹窄。一以時局不甯。商人進貨未敢冒險多辦。純鹼交易漸衰。惟價仍堅穩。太陽牌雖係英國製品。然品質較次。加以歸入日人鈴木洋行經銷。頗受抵制影響。交易清淡。卜內門月牌貨營業甚佳。三菱洋行之菱牌。去胃亦多。特較月牌終遜一籌耳。迨本季之末。以天熱銷路減退不少。然除日貨外。市價仍堅穩。晶鹼爲純鹼加水結晶而成。純鹼價漲。且走場日佳。市價隨之步漲。蓋該貨之主要用途。爲洗濯

船舶。在冬春二季。用途殊狹。至氣候和暖。逐漸增多。價格因亦看好。現市每桶二百磅售銀三兩餘。較之去年四兩餘之市面。尙屬低廉。泡花鹼銷場最大之處爲肥皂廠。及玻璃廠。但玻璃廠近多自製。遂少一大宗銷路。目前之走場。僅肥皂廠而已。所以營業甚形萎頓。幸存底不豐。價格尙能維持。三角牌貨質最佳。去胃較夥。染色上應用之硫化鹼。當此時令。銷路最呆。且存貨不在少數。一時營業不能發展也。

(三) 漂白粉 漂白粉值茲春夏之交。銷路最旺。往年以東貨老太陽牌貨質優美。力分充足。用戶最爲歡迎。故銷場迥非他牌所能及。抵制風潮起。國人多捨東貨而用西貨。美貨乘機行銷市上。去路大盛。貨質雖不如太陽牌。而價格較廉。故此鉅額之銷路。幾爲美貨所獨占。餘若東貨之吉字牌白熊牌。不過三兩六七錢。價格雖賤。去路仍寡。不過本埠少數廠家少有成交耳。迨六月初旬。市面益形熱鬧。客幫日有多量運出。本埠毛巾染織等廠。用途正繁。惟存底極豐。此後銷路。以時推測。將漸減退。故價甚平定。

(四) 化學油類 椰子油一物。肥皂廠需用甚廣。本季市況雖不如前時之旺。尙屬不惡。如漢口烟台等幫。採辦不少。本埠肥皂廠另呈成交。亦不寂寞。市價以進本堅昂。甚爲穩定。新加坡貨有老樹燈籠等牌。小呂宋有桶貨聽子貨。存底均已告罄。蓋此貨至天氣和暖。卽溶化而成流質。鉛皮聽子之裝製。難免漏洞。故每屆暮春。是項聽子貨存底。必早設法脫手。所到僅桶貨。是爲年常慣例。香草油亦皂廠用品。存底缺乏。是以價極堅俏。上等次等均無多量可以購到。期貨價稍廉。香皂廠多預定之。松節油老牌早已斷擋。新牌有十餘種之多。大都美貨。各牌競爭頗烈。致售價逐步低落。較之松樹老牌大相懸殊。存貨之多。亦數十倍於往昔。來源不絕。業此者倍受虧折。市面看疲。

(五) 雜貨 松香雖有國貨。但非精製者。不合工業上之用。其銷場適當旺令。肥皂廠及臭藥水廠去路甚繁。存底日漸稀薄。不能不仰給於外洋來貨。致市價愈趨堅俏。小蘇打為製造汽水及防疫藥品之必要原料。當此時令。銷路可觀。價亦堅俏。甘油紙烟廠去胃殊廣。市價頗堅穩。化妝品廠所用之聽子貨。則銷路甚寥。黃血鹽去胃頗廣。存貨不甚豐足。市價殊形堅挺。現貨祇有日製品。美貨市缺。

紙

洋紙進口。年達百萬担以上。價值超過一千萬兩。為進口貨大宗之一。來源歐美居多。日本次之。近年滬上紙號林立。推銷日繁。營業甚為發達。惟本季政潮起伏不定。而到貨日旺。市面沉寂。因之銷路頗見遜色。茲以行銷廣大各貨市情。略述於下。

白卡紙為印刷卡片之用。種類甚多。高低不一。市上銷路。以百磅為最廣。四五兩月。價格無甚上下。六月份來源頗旺。以致市價每磅低一分左右。報紙銷路為紙類冠。本季存底濃厚。市價平平。五六兩月。西貨每令跌八分之譜。日貨銷滯。月份牌紙各大商店在年底用途頗大。專印書畫日歷之類。現市銷路沉寂。市價萎縮。蠟光紙有大小之別。顏色具備。惟品質不堅。用製玩具之類。市面平定。有光紙在印刷界中用途極大。凡各書館出版之教科書。商家之廣告仿單等。均用此紙。重十七磅者需用尤多。四五兩月。到貨絡繹。市情平平。六月份來貨頓減。有供不應求之勢。市價稍見增漲。火柴紙洋燭紙及包紗紙。近年銷路亦大。以火柴洋燭棉紗均有國貨。故需用浩繁。五月市價較四月稍低。六月份每令又提漲一錢或數分不等。牛皮紙質地堅厚。現各大商號用以包裝物件。故銷路亦大。本季市價漲落與火柴洋燭等紙相彷彿。道林紙用途極大。銷路幾與報紙相等。今夏交易如常。無甚變動。價格每磅微有數厘之上落。

木造紙來源日本居多。五六兩月。市價較四月份稍跌。黃板紙用途甚廣。凡洋裝書籍之簿面。以及紙玩具紙盒等。概用此紙。種類極多。有五號六號八號十二號十四號至四十八號之別。來源日本最盛。年來國貨亦有出品。質地尙佳。售價亦廉。是以日貨市面冷落。存貨堆積。乏人問津。夫士紙俗稱寫字紙。卽用以製練習簿者。各學校洋行銀行及各大公司用者甚多。今夏市面平穩。價格無大上落。以上所述。均行銷廣大之貨。其餘洋紙種類甚多。銷路較微。故均從略。

烟 類

烟類之市價。胥視匯價之漲落爲標準。不惟外貨如是。卽國貨亦以匯率高下定其成本。蓋本葉製品。不及外貨。必攙和花旗烟葉。氣味純郁。方受社會之歡迎也。四五兩月市面。無大上落。六月份先令升降不定。成本稍昂。但市價未受若何影響。今將各貨之市况分述如下。

(一) 雪茄 邇來本廠貨及德貨充斥市上。呂煙市面。異常沉寂。蓋因煙店方面。以斯二者。可得較厚之利益。竭力鼓吹。推廣行銷。買方亦以其裝璜煙色均甚優美。相率舍彼就此。呂煙雖屬老牌。不免受其打擊。聞小呂宋各廠家。頗起恐慌。互謀抵制之法。遂有改良品質。減低市價之議。但近以生活程度日高。工人薪資亦增漲無已。且動輒罷工。各廠以血本關係。尙未有具體辦法。滬上煙業公會。出而竭力維持。始未見若何變化。然各店均爲利息關係。難免暗中賠本出售。幸長江、燕、趙、三帶。辦去甚夥。且霉汎中蛙霉損失。較上年爲少。尙可稍資彌補也。本季中各煙之銷路。較可觀者。爲老美女及亨白等煙。老美女行銷中國。已數十年。頗有名譽。雖有永泰之旗妹。鯤源之三鹿。先施之真妹。禮和之金妹。同泰之新妹。行銷市上。然終不若老

美女之遍及各埠。亨白銷路既大。獲利亦薄。老球牌在歐戰時。每箱可獲利五角。今則銷路日見呆疲。反須虧本數分。金盒三五。無人問津。因此煙乃合聖誕送禮之用。具有時令關係也。餘若老公公司哈物那等。銷路均疲。五月中旬。煙葉公會曾有減價之舉。期為三週。但以呂煙獲利甚微。若馳名各煙。暗中尚須虧蝕。故各貨略減一二角或數分不等。減價滿期後。價仍提漲。迨六月杪。軋羅分那拍非土四一種。市上軋缺。以其平日行銷頗廣。故頓形緊俏。批價提高三、五角不等。其餘各貨甚覺平平。新到各貨。因成本稍昂。幾無利益可取。老牌貨價格。下月須一律提漲。預料秋季市面。將益不如前云。

(二) 香煙 香煙名目繁多。總計不下數百種。今僅就各有名之煙。略述其漲落情形。紅橋自隨紅屋跌價後。銷路日盛。又得同業竭力推廣。行盤雖一度增加。銷場毫未見減色。紅屋受仙女歡迎。兩牌影響。已遭絕大打擊。去年跌價後。雖一時銷路驟增。內地烟業。亦來定購。未幾紅橋繼跌。遂成對峙之勢。故銷勢漸現疲呆。花旗公司之華盛頓牌。發行未久。銷路不弱。頗能與大前門相角。煙支較普通加長。煙葉不惡。價亦適中。將來如無漲價等變化。不易為他牌所影響。特別大前門。極力發展。添租樣子間。陳列頗多。以冀吸收顧客。銷場亦活躍。入五月後。十支司令牌軋缺。市價高漲。收羅者頗不乏人。開出即盡。于各煙均疲中。獨能堅俏。尤不多見。大英牌無甚上落。雖有新牌與之抗爭。終不能損其毫末。聯珠牌（南洋兄弟公司出品）頗能轟動一時。據一般吸者云。煙葉原料。較長城為低。其能受社會歡迎者。無非為贈品作用。六月後吉士缺貨。蓋是煙專銷洋荷。素來存積有限。該貨未到已久。現貨告罄。市價日漲。廿支三一牌。遂有代興之勢。六月下旬為陰歷端節之期。各店需貨正多。市價稍呈混亂。至月杪市况尤見活潑。廣銷各貨。如茄力克。大內未。三炮台。各漲起三四分不等。因陽歷月底將屆。賒賬之各煙業。向公司打貨。甚不合算。

遂紛至市上收買。故此種漲風。不可謂之正式市面。其爲期暫而不久。惟十支大內未。確因存貨枯竭。銷路湧旺。批價大有起色。至于我國煙業。南洋兄弟公司。出品最多。但聞該廠營業。較去年頗有遜色。各經理家之所以樂於經售。並甘心虧折者。實爲津貼。並年終花紅之故云。

(三) 煙絲 煙絲之銷路。殊不若紙煙之廣。故其市價之上落。往往越一二年而毫無變動。近來行盤既無漲跌。來貨亦不間斷。市價穩定。

(四) 烟葉 專做烟葉之公司有二。即美國烟公司。及萬國烟公司。前者大半注重於現貨交易。及零星買賣。烟價較廉。貨亦稍次。後者定貨居多。貨高而價昂。大廠家多與之交易。烟葉成熟之期。大約在七八月中。九月後則新貨源源來滬。至十二月爲最旺。故本季爲清淡時季。除四月中尙有銷路外。五六兩月。則市面更疲。且適逢霉季。各廠如有存貨。均抱敷衍主義。至萬不得已時。則隨進隨用。不願堆存。因雖製成烟捲。亦易爲潮濕所侵也。貨價均以美金爲標準。如美金跌價。則烟價高增。美金漲價。則烟價減低。故合至規銀及華幣後。貨價不見漲落矣。

藥 品

我國之業西藥者。尙無大規模之組織。亦無同業團體之設立。凡用量較大各藥房商店等。皆逕向外洋定貨。或轉託在華所設之經理處代定。在華所產藥品。其量極微。且較爲著名之廠家。亦屬西商。我國之藥業。幾全在外人掌握之中。故此業迄今尙在萌芽時代也。歐戰時。各國忙於戰事。國內工業。百舉具廢。輸出品幾於斷絕。東鄰日本。乃輸入多量藥品。幾盡驅西貨于市外。近數年來。各國商業漸復原狀。于是復源源輸入。至近數月來。德貨輸入增多。取價甚廉。英

美各貨亦尚適中。日貨價格高昂。過問者日形寥落。今將四五六三個月中之概況。分類詳論於下。

(一) 時令藥品 西歷四、五、六月。氣候潮濕多雨。所謂霉季是也。此時天時不正。疾病叢生。西藥銷路亦稍大。應時品如樟腦丸。Naphthalein balls 銷路大增。市上現貨充斥。霍亂 Cholera 瘧疾。Malaria fever 亦于斯時為最劇。故時疫十滴水。Cholera drops 哥羅顛。Chlordyne 金鷄納霜丸 Quinina Tablets 等。家庭中採購極多。醫院中則採用白蘭地。Brandy 葡萄酒。Port Wine 樟腦注射劑。Amp. Liquor Canphoral Sterilisatus 嗎啡注射劑。Amp. Liquor Morphine Sterilisatus 吐根阿片散。Dorer's Powder 阿片丁幾。Tincture of Opium 樟腦阿片雜酒。Tincture of Canphorand Opium Mixture 撒羅而。Salol 鹽酸規甯。Quinine Hydrochloride 鹽酸伊米汀 Emetin Hydrochloric 等。

(二) 暢銷藥品 滬上人煙稠密。花柳病蔓延甚廣。且屆茲霉季。六零六 Neosalvarsan 鈷碘 (Kali Jodati) 白濁治療藥。淋菌伐克辛 Gonococcus Serovaccin 白檀油 Oil Santali 及其各種製劑。銷行頗暢。

(三) 西貨在市上之勢力 歐西各國。對於國外商業。早已恢復。我國市場上日貨。受西貨之排擠。大受打擊。遂消聲匿跡。較之往時之盛況。不啻天壤之別。市上勢力。德美英可謂鼎足而立。無分軒輊。德貨中以怡默克廠之出品銷場為最大。英貨則以愛蘭漢百利洋行經理之各大藥廠出品銷路最多。美貨則如茂孚。立來等。銷路均大。日貨本在風雨飄搖之中。復受抵制之打擊。已奄奄無生氣。瑞典貨勢力。尚不算惡。其他各國出品。則無足計數矣。

(四) 藥價漲落之標準 藥價之漲落。要不外下列之二因。(甲) 我國醫院不普及。化學工業不振興。故用途有限。往往市上現貨充斥。時須經若干時日。方能陸續售罄。迨市面缺貨。價乃飛漲。故現今市上之價目。往往比歐西各國之時價為廉。此中國特有之情

形也。(乙)藥品之定價。概視來價之漲落。來價之漲落。繫於匯兌率之高下。本季中。外匯忽漲忽落。而藥價未受影響。此由於(甲)項原因也。

除以上所載外。市上需要大宗石炭酸 Acid Salicye 及水楊酸。就地現貨。皆係運往日本者。其用途是否正當。或係投機性質。則難斷言。雖在上海出售之價格。較歐美時價為廉。但價格有漲高之傾向。而無下跌之趨勢。餘皆平穩。無甚大變動云。

雜 類 肥 皂

肥皂向以祥茂、利華、和興、等貨進口為大宗。現祥茂皂已在上海設廠製造。暑中銷路甚大。本季市價。無甚變動。祥茂塊皂。每箱售四兩五錢二分。左右。條皂四兩。利華日光塊皂。約五兩二錢二分。和興傘牌四兩七錢五分左右。近年國貨日漸發達。滬上肥皂廠出品甚多。外埠亦相繼設立。故銷路日增。洋貨漸呈衰象。

洋 燭

白禮氏船牌洋燭。質佳耐用。銷路甚大。亞細亞僧帽牌次之。現白禮氏貨在滬已建專廠製造。歸亞細亞經理。四月初。行盤每箱提漲二角五分。重十二兩者。售四元二角五分。合規銀約三兩零六分左右。三閱月中價無變動。僧帽牌重十二兩者。價四元零五分。約規銀二兩九錢一分左右。亦無漲落。現華利、中華、諸廠。均有國貨。惟品質不及洋貨之佳。推銷不廣。

洋 針

本季洋針市面。因時局不甯。銷路異常呆滯。四川湖南等部。久未購辦。僅漢口及內地略有交易。德國針尚有去路。日貨停頓。

搪 磁 盆

磁盆為日用必需之品。銷路頗廣。向以日貨居多。西貨次之。自抵制

後。日貨止辦。西貨來源不旺。因之國貨銷路大振。現鑄豐廠三十吋素磁盆。每箱售價二十一兩云。

傘

當此夏令。正行銷暢旺之季。進口貨日貨較多。英貨次之。抵制後日貨銷路疲弱。英貨價昂。僅能銷行一部。未能暢銷各處。因之國貨去路尚廣。現市二呎八吋。頭等貨。每打售十二兩五錢。二等售九兩云。

桅燈

桅燈銷路。在長江一帶。及內地嘉興、湖州、蘇州、常州、無錫、等處頗廣。來源均自泰西。德國最多。美最時貨。品質堅固耐用。價亦較昂。二二號白桅燈。每打價約十兩六錢左右。黃桅燈約七兩七錢。國貨雖有耀明出品。然終不及洋貨之佳。銷路較稀。正號每箱（五打）售四十兩。副號三十四兩。

熱水瓶

熱水瓶頗便行旅。冬季銷大。夏季較稀。因之價亦步跌。

床蓆

現市床蓆。銷路當令。我國本有土貨。惟粗劣不堪。不若洋貨之細軟美觀。日本草蓆、台灣蓆。均為進口大宗。近年日貨屢被抵制。浙江之溫州、甯波、餘姚等處。先後設廠製造。出品與日貨相彷彿。定價亦廉。本季抵制發生。日貨銷路遂斷。台灣蓆售價過高。僅能消行繁華區域。不若普通貨之普及也。

草帽

近年滬上。派勒帽甚為流行。然售價高昂。銷路與台灣蓆相彷彿。僅一部分而已。現在國貨草帽銷行之廣。幾達全國。各埠均有專廠製造。行銷之盛。可與國貨線襪並肩。

寬 緊 帶

年來進口甚多。銷路亦廣。捷利貨品質最佳。四五兩月，售念兩另五錢左右。六月份來源充斥。一時不易脫售。遂跌至十八兩五錢左右。他如培昌、美最時、貨。同時步落。

撲 克 紙 牌

撲克牌近來流行我國。甚於麻雀。進口貨美國運來最多。八另八正號貨銷路頗廣。四月份每羅售價三十七兩三錢餘。五六兩月。來貨不斷。約跌一兩之譜。

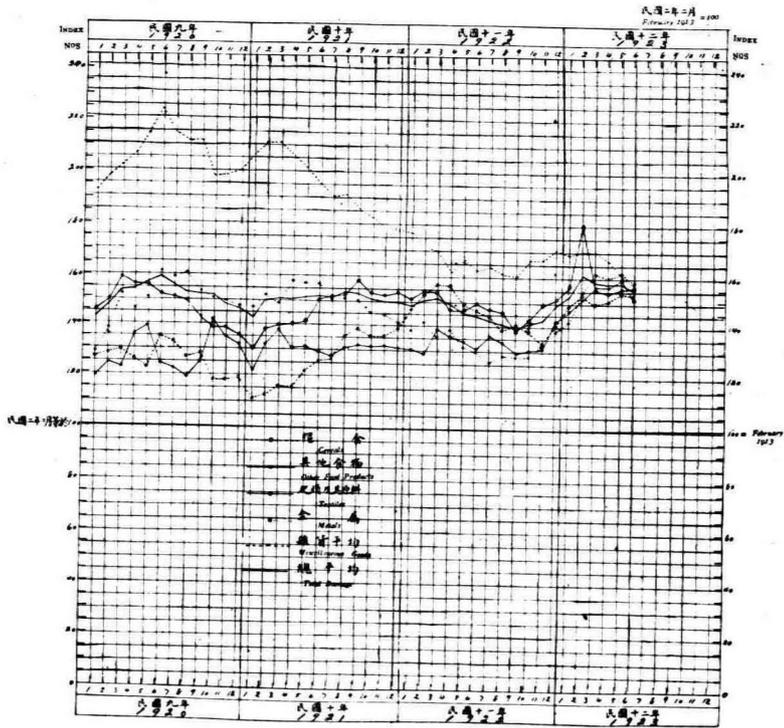

化 粧 品

白玉霜 雪花粉 雪花精 牙 粉 牙 漿
香 皂 香 粉 香 水 痱 子 粉

化粧品銷路。多依時令而轉移。如白玉霜雪花粉雪花精等。冬季去路甚大。香粉香水香皂。夏季銷路較盛。故白玉霜雪花粉等。現時交易沉寂。市價遂跌。與去冬比較。每打約低一兩之譜。法國檀香皂。香粉等。夏令銷路本大。而今夏法匯步漲。成本較輕。因之銷路更暢。美國藍腰皂。成本在二兩八錢左右。向與法國檀香皂售價相等。現既法匯加長。市價續跌。故其銷路。遠不逮檀香皂。痱子粉現在銷路正暢。香水來自法國居多。同受法匯影響。去胃亦大。牙粉牙漿。為日用必需之物。銷路本大。惟國貨推銷較廣。現以先施之虎牌。廣生之雙妹牌。家庭工業會社之無敵牌。及香亞公司等為最著。

上海物價指數升降圖

Index Numbers of Wholesale Prices in Shanghai.

THE INDEX NUMBER OF PRICES IN SHANGHAI

The Index Number of Prices in Shanghai had its first appearance in September, 1919, with the average price in that month as its base. The investigation of prices has been carried on once in a week and the index number is compiled monthly based upon the prices in the last Wednesday of every month.

This index number contains five principal groups of commodities: namely, cereals, other food products, textiles, metals and miscellaneous goods. Under the last heading there are again four sub-groups: viz. fuels, building materials, industrial materials and sundries. At the beginning we chose altogether 101 articles and 151 items which are largely staple imports and exports and necessary daily articles. After one year's trial we felt that there were certain imperfections in our selection of commodities. As the whim of fashion of the society changes and the new succeeds the old, the representative commodities, in fact, vary from time to time. Thus in October, 1920, we revised our table into 117 articles and 147 items. The revised table has been continually used for making our index numbers until the present.

A table of prices has two main different kinds: one is wholesale and the other retail. Our table contains wholesale prices only. Materials are based upon the reports of business men actually engaged in different lines of trade except the prices of beef, mutton, pork, eggs and milk in the group of other food products and that of firewood in the group of fuels which are obtained from the table of retail prices published by the Health Department of Shanghai Municipal Council.

We have hitherto in accordance with the common method of most index numbers adopted the simple arithmetic method in our calculation. At first we were compelled to use the average prices in September, 1919 as our base. With the out break of the European War most noted index numbers of prices have changed to use 1913 as the basic year. Thus in summer of 1921 we started to investigate the prices in 1913 of those commodities contained in our table. Unfortunately, we are only able to find so far the prices in the early part of February of 1913. Since 1922 we began to use the pre-war price as the base in our index number. The conversion of the whole index number in every past month has now been accomplished also.

REGULATIONS OF THE TREASURY DEPARTMENT'S BUREAU OF MARKETS

PART I PRINCIPLES

- Art. 1 This Bureau is under the direct control of the Ministry of Finance. Its prescribed duty is to investigate prices of imports and exports and is an assistant office for Customs Valuation as described in the Tariff.
- Art. 2 This Bureau is located in Shanghai.

PART II ORGANIZATION

- Art. 3 This Bureau has one Director and two Sub-Directors appointed by the Ministry of Finance.
- Art. 4 This Bureau contains two departments:
- (a) The General Department: Its function lies in the receiving and despatching documents, managing publications and accounts and making budgets and balance sheets.
 - (b) The Compilation and Investigation Department: Its function consists in the investigating commodities and prices, compiling statistics and submitting reports.
- Art. 5 A Chief is appointed for each department by the Ministry of Finance. Besides, there are eight Assistants, six Clerks and certain Investigators appointed by the Director.
- Art. 6 The Director manages the whole affairs of the Bureau assisted by the Sub-Directors.

PART III OBLIGATIONS

- Art. 7 The Chiefs and Assistants are in charge of each department as ordered by the Director and Sub-Directors.
- Art. 8 Investigators carry out investigations of different lines of trade according to the instruction of the officers in charge.
- Art. 9 Clerks have their duties of copying and arranging documents, checking records and making calculations, etc.

PART IV BY-LAWS

- Art. 10 An Advisory Council is established in this Bureau. It is composed of upright native and foreign merchants engaged by the Director.
- Art. 11 The office routine of this Bureau is enacted in separate sheets.
- Art. 12 This regulation goes into force after its ratification.

PREFACE

The word "Price" involves a great many different species and complicate problems. It is exceedingly hard to collect prices in a comprehensive way and is still harder to carry out accurate investigation and systematic statistics. A common saying states that prices in the morning change in the evening. Shanghai has the most complex market among all big cities of the country. Besides the difference in wholesale and retail and the date of delivery which are common to all places, a same retail price is various with its origin, that is, whether it is quoted by the large guild 大同行, or small guild 小同行, or any business house that neither belongs to the first nor the second. In like manner, there are different wholesale prices: namely, the Hong's quotation 行盤, the Hao's quotation 號盤, and that among the dealers themselves 劃盤. The term of delivery is usually distinguished into f. o. b., c. i. f., and ex-godown and payment is either cash or on credit which is again separated into 5 days, 10 days, end of either large or small month, alternate month, three festivals and end of lunar year. Furthermore, for payment both cash and drafts are in common use. As the question of interest and confidence naturally rises from the above conditions, prices are anything but uniform. Although public agreed quotations have been repeatedly attempted by some business, yet prices are still so irregular that the whole thing is almost left in despair.

However, the statistics of prices are a part in the statistics of economics. At present the latter is still in a young stage of development and their figures have only comparative value. It is not only true in this country, but also in Europe and America. Our statistics are the youngest among all and have just lately received the people's attention. Even the statistics of population which have an early history in world statistics, yet lack preciseness and reliability here. Since the opening of oversea trade, the government appoints foreigners as commissioners of customs and then "Foreign Trade of China" was first published by The Maritime Customs. It has been relied upon to ascertain the foreign trade of China, however, other important kinds such as prices, production, consumption, etc. have not been followed up to the present. Indeed a great defect exists in the economic field of this country. Four years have elapsed since the establishment of this Bureau by the order of the government in 1919. Our prices obtained from investigation were chosen to a large extent by the Custom Tariff Revision Committees in the last year. Its monthly index number of prices which has its first publication in September, 1919, is approved by the statistical experts both in Far East and in the Western countries. Materials have been accumulating more and more as time goes on. Hence, it seems appropriate to present them to the public for soliciting corrections and making improvements.

This Bureau has its prescribed duty of investigating prices of imports and exports. Its sphere of investigation does not confine to imports, but as that part was commenced earlier and has fuller materials, so this quarterly contains imports only during the present issue. Shanghai is a great international commercial port and has immense imports. A same kind of commodity differs in brand, description, quality and country of origin, while its price is frequently as numerous as

ten and hundred. In a small volume such as this it is impossible to include all figures even if its contents are limited to imports. This quarterly contains merely about one-third of the commodities contained in our report to the government whence they are carefully chosen. Certain methods of compilation are as follows:—

- (1) This quarterly contains wholesale prices only. Investigation is once a week and the average price is calculated by the arithmetic method and recorded in the end of month. Thus a slight difference is likely to happen between that and the actual price.
- (2) In order to be more specific, every kind of commodity is affixed with its trade mark, brand and in some cases the name of company.
- (3) Every price is expressed both in Shanghai Taels and HK. Taels. The first is used because of its convenience in investigation and the latter is for comparison. Their ratio is as 111.4 : 100.
- (4) Since taels and dollars are in parallel use at Shanghai, all prices in dollars are changed to taels as per the rate of dollars during the occasion.
- (5) The units or measures are based upon the custom of the market.
- (6) The commodities are classified into five parts, eight groups in accordance with the division of trade in the Shanghai market. Tariff numbers are inserted for reference.

As to the change of prices, they are different from one another in speed and degree, but all causes and effects are more or less due to the condition of the market. In the opening part of this volume, we publish a number of market news regarding different lines of trade with the idea of providing contrast and reference.

The sale and price of imports have close relation with the producers and exporters in foreign countries. Our business men who are selling imports instead of engaging in direct trade, place most of their orders through foreign firms. The number of foreign firms who import commodities here for wholesale has been also daily increasing. In consequence of this fact the change of the market of imports deserves the attention of Chinese and foreign merchants alike. This quarterly is published both in English and Chinese for the perusal of all business men here in this country with the particular hope of obtaining advice from the merchants of friend nations.

REVIEW OF THE PERIOD

RICE

The total imports of rice in this year amount to more than 1,000,000 piculs. Since the end of February the number of imports has been continually increasing. Large wholesale quantities are imported by Suzaki & Co., Heath & Co., P. and Fukien merchants. In the middle of March the price of Siam rice rises as high as ¥5.20 and Saigon rice ¥4.90. The price continues high until April when cargo becomes more abundant. Fortunately, shipments to Tientsin and Chefoo keep the market from falling down greatly. In fact the degree of rise and fall in prices during this month is very small. However, imports come incessantly and the stock once reaches to more than 300,000 piculs. In May the demand for Tientsin and Chefoo becomes less. Although some quantities are sold to local firms and inlands yet they are not so large as that for outports. The market thus turns dull. In June, Hunan rice reaches plentifully. The sale to local firms, inlands and outports is generally quiet and the market price decreases further down. Later on imports are discontinued and a great stock is kept in storage, so the market begins a little in steadiness.

FLOUR

During this season American flour arrives here very little and Canadian flour has a few imports in April only. However, the quality of Canadian flour is not so pure and it is not very fit for local consumption. Consequently, its price is comparatively cheaper. Though the market is then very likely to thrive as happened previously, yet owing to the heavy stock arrived here in the preceding month and the trifling business from the customer of outports, the price of standards decreases rapidly. The price of foreign flours falls in like manner. In order to relieve the situation the flour factories decide to carry out a temporary suspension of work. Thus the sale to outports begins slightly better. The price of foreign flours turns to rise also. Such brands as Major, Day Ton, High Life reach to ¥2.06 (49 lbs.). The price of Canadian flour, since it does not very suit the use of consumers, remains low. The "Golden Bell" whose price is considered the highest is sold at ¥1.90 only being about ¥0.15 lower than that of Major.

SEA PRODUCTS

As a rule the business of sea products lacks prosperity in the summer. All new products appear in the Autumn and by the summer a great part of old stocks has been disposed off, so the source of supply is limited. Moreover, the most rainy season happens then in which all sea products easily fall into decay, so business men generally take a safe policy by disposing the goods immediately after purchase and avoiding to keep a big stock. Until June the time for the appearance of new products is drawing near, and thus the price of old stocks falls considerably. Most business men take this advantage by buying a great deal. Thus business men do not dare to order new products right away, else they should meet delay in their disposal. Again the Dragon Festival occurs in the latter part of the present month and all business houses are customarily closing their accounts, so the market is specially dull at that particular movement.

Most sea products are Japanese. Others are imported via Hongkong. That line of business has naturally a depressing tendency in this season and owing to the political turmoil and various other reasons this period has a worse business than that in last Summer. The goods sold off by different firms are chiefly Sea weed, cut; sea weed, long; fish, cuttle; Agar - Agar; Bicho de mar; fish, Salt; Compy; Sharks' fins; Shrimps, dried; Mussels, dried; etc. As to the approximate wholesale quantity exchanged, April is the first, May second, June last. We trace the market in the three months respectively as follows.

April: This month has a better market than May and June but not so good as that in the end of last month. The wholesale quantities sold at agreed prices are given below.

Agar-agar — 550 bales
 Fish, cuttle — above 360 bales
 Bicho de Mar, black — 230 cases, above 50 baskets
 Bicho de Mar, white — 42 baskets
 Compy — approximately above 250 cases
 Sharks' fins, prepared, above 30 cases
 Sharks' fins — above 50 cases, 30 baskets and 20 bales
 Shrimps, dried — Approximately 60 cases
 Mussels, dried — above 20 cases
 Seaweed, red — approximately 120 bales
 Fish Maws 17 cattiees
 Fish, Salt

The cargo shipped to outports is very small. In Kwangtung and Szechuen, an intense civil war continues on and rumor has it that military preparations are being carried on in Tientsin, so goods have been stopped to go there. However, some quantities are continually shipped to Chinkiang and the ports north of Yangtse River.

May: In view of the dullness of the market in the last month and the rainy weather prevalent at present, no much wholesale business is done. The total sales are:

Seaweed, cut — 1750 cases, 69 bales
 Seaweed, long — 940 bales
 Agar-agar — 170 bales
 Bicho de Mar, black — above 100 cases, above 60 baskets
 Bicho de Mar, white — 4 cases, above 20 baskets
 Compy — above 220 cases
 Mussels, dried — above 30 cases
 Shrimps, dried — above 30 cases, 7 baskets
 Seaweed, red, — 19 bales
 Sharks' fins, prepared — 9 cases, 5 baskets
 Sharks' fins — 36 cases, 14 baskets

Fish Maws — 12 cases
 Fish, Salt — 600 bales

Other sales are very small. The business with outport customers is nearly the same as that of last month. All places are quiet except a certain little quantity which goes to Swatow.

June: The dullness of sea products business reaches its extremity in the present month. Not only there are few exchanges made with outport customers, but also little local whole-sale business at agreed prices is accomplished. It is briefly as follows:

Seaweed, cut — 30 bales
 Bicho de mar, black — 37 cases, 1 basket
 Bicho de mar, white — 6 cases, 9 baskets
 Compy — approximately 20 cases
 Shrimps, dried — 18 cases
 Mussels, dried — 2 cases
 Seaweed, red — 10 bales
 Sharks' fins' prepared — 30 cases
 Sharks' fins — 9 cases, 9 bales
 Fish Maws — 37 cattles

No exchange of seaweed, long, Agar-agar and fish, salt is made.

SUGAR

In the recent years the imported sugar reaches to more than 7,600,000 piculs and its total value amounts approximately to HK \$61,000,000 (Foreign Trade of China, 1922). The greatest quantity is produced in Dutch Indies where most of the raw materials of Tai Ku 太古, and E-Wo 怡和, white sugars are taken. Some raw materials of Japanese sugar are also obtained from the said territory. Thus the local market always depends upon Dutch telegraphic quotations. The market in this summer is as follows:

The market of sugar is customarily dull in summer and is especially so in this time due to the political situation and various other reasons. During these three months, April has a little business while in May and June the market is exceedingly dull. The sale of Japanese refined white sugar is reduced from 70,000 to 40,000 bales. Tai Ku 太古, sugar has a slight; better business. Its sale is increased from 10,000 to 15,000 bales. Dutch sugar (Brown and White) has the most prosperous sale being raised from 3,000 to 17,800 bales. Manila green sugar has a little stock and a high quotation. Little business is brought about in April and May. About 18,000 bales are sold in June. The sale of native sugar (Green, Brown and White) has been very little hitherto, but recently an expansion happens. Its sale consists approximately 7,000 bales in April; 16,000 bales in May and 12,000 bales in June. The total sale of candy sugar including native product during these three months amounts to 2,000 cases and 6,000 bales. Nevertheless, the sale of both Japanese and Tai Ku candy sugar is decreased gradually.

April: The price in this month is in two respects: Spot sales are cheap while forward sales are dear. The local market changes accordingly with Dutch quotations which rise gradually higher. Japanese White Sugar ㊦ ㊦ is quoted at ¥9.5 in the first part and ¥0.7 in the latter part. Afterwards the price of White Sugar TK ㊦ rises a little due to the scarcity of stock, but then the local exchange is confined to remaining goods only.

The sale of Tai Ku sugar consists about 10,000 bales and most of them are transported to Shansi, Tientsin, Shensi Anhwei besides local sales. In inlands and the Yangtse Valley the business is in the hands of agents. The lowest price of White Sugar HK is ¥10.3 and the highest ¥12.60. The proportion of sales among different grades are: superior, 20%; middle, 10%; and low 70%.

Dutch sugar has a sale of 2,000 bales of brown and 1,000 bales of White. About 1,200 bales of native brown sugar are sold partly to local firms and partly to Hangchow, Kashing and Huchow Green sugar is sold about 2,400 bales, most of which are shipped to Hsuechow and Tientsin and next Kashing. White sugar has a sale of 600 bales for filling the orders of local firms as well as those of Changchow and Wuhu. The total sale of green, brown and white sugars amounts nearly to 7,000 bales. The quotation of Tai Ku candy sugar is ¥13.20 for small crystals and ¥12.30 for large crystals. Its total sale is about 4,000 bales. Shipments are largely carried to Tientsin, Hankow, Newchwang and Chefoo. Japanese candy sugar is sold at ¥13.50 and ¥12.00 for first and second grades respectively and has a sale of about 400 cases. Native candy sugar is sold about 600 cases.

May: On account of the frequent change in Dutch quotations the local market is very unstable. Tai Ku white sugar has a total sale of 15,000 bales and is largely bought by the customers of Shansi, Shensi, Tientin and Anhwei. Local firms are next. A few sales are made to inlands, as the price given by inland agents is higher than the local quotation. The proportion of sales of various grades are: superior, 20%; middle, 20%; and low 60%.

No large wholesale of Japanese sugar is concluded. Dutch sugars are largely shipped to the North and its total sale is fairly great. Native green sugar is quoted very high, because the stock of Manila green sugar is scarce. About 10,000 bales are sold to Hsuechow, Soochow and Kashing. Brown and white sugars are sold about 6,000 bales. The shipments of Tai Ku candy sugar for Tientsin and Hankow consist about 1,000 bales. Nearly 400 cases of native white candy sugar are shipped to inlands. E-Wo white sugar is sold a little only.

June: The sale of Japanese sugar continues dull. The quotation of Tai Ku white sugar is dear and has little sales. Dutch quotations are dropping continually. Thus, the price of Dutch white sugar becomes about ¥0.7 cheaper. Nearly all are shipped to the North. The wholesale dealer's quotation for Manila green sugar is reduced in the latter part of the month, and some 18,000 bales are shipped to Hsuechow and Soochow. It has a dry quality and is very suitable for the use in warm weather. The Kiangpu merchants buy about 200 bales of Manila brown sugar. The sale of native sugar consists of approximately: green sugar, 8,200 bales; brown sugar, 3000 bales; and white sugar 400 cases. The first kind is mostly sold to Hsuechow, while the next two

kinds are bought by inland customers. Other kinds such as Tai Ku candy sugar and native candy sugar have sales of 600 bales and 800 cases each.

Tai Ku sugar has a heavy and a sticky quality. It is very sweet and comparatively higher in price. Japanese sugar is sold low and has a very white appearance, so people are generally fond of it. Since the boycott, its business becomes gradually less and is almost seized by Tai Ku sugar. The sale of Dutch sugar is increased also. Native sugar has never become very prosperous owing to the poor method of manufacture. It is scarcely equal to one-tenth of foreign imports and its sale is confined to inlands. In this season there are about 40,000 bales of Japanese sugar, 10,000 bales of Tai Ku sugar. The stock is very scarce in comparing with the 300,000 bales of last year.

WINES, BEER, SPIRITS AND CANNED GOODS

Since the end of the European war the number of wines, beer and spirits merchants has been greatly increasing and a sharp competition exists among them. We have heard very often cheap sales for the extension of business, so the market for that line of goods is exceedingly disorderly. At present, the tendency is from bad to worse. The market in these three months is briefly stated as follows.

WINES: The most important factors which influence the market are the cost of production and the source of supply. In the first two months, because of the scarcity of imports and the constancy in the rate of exchange, the market is quite steady being about the same as that in the last few months. In June imports arrive continually and the rate of exchange gradually drops down and moreover, the condition of the country becomes even more unsettled, so customers of outports stop to place additional orders and the market tends to decline. The Jas. Hennessy's Brandy has enjoyed a very good reputation and a prosperous business. Every cargo consists from some hundreds to thousands of cases. Due to the excessive imports and the heavy stock, its price has lately been unusually weak. In the first two months it is yet able to maintain its price at about \$27.00, but in June it reduces to \$24.00. Although it has a pretty good demand and is a special favorable article during this season, yet the amount of consumption can hardly absorb the immense imports. Its future tendency is still likely to go down. Other kinds such as Louis Roderer Extra Dry Champagne, Booth's Old Tom Gin and Vichy Mineral Waters all show decrease in their prices. On the other hand, the prices of Gate E. J. Burke's Port Wine and Welch grape juice have increased a little due to their small imports.

Most wines, beer and spirits come from Europe and America. Japanese merchants have only beers on the market, however in the recent years the competition with the Three Stars and other brands has almost compelled Japanese beers to retire from the field.

CANNED GOODS: There are almost some hundred kinds of canned goods and their prices are so unstable that it is impossible to include all of them in a single list. Briefly, its market is as follows.

In April, a great quantity of canned goods is imported from foreign countries. However all these belong to the former orders in the Chinese first moon. As the old stock has been nearly sold off, the prices remain steady in spite of the great imports. Most of the goods are sold locally. Only a little quantity is sent to Tientsin, Hankow and no great orders are received from other places chiefly due to the disturbed condition of the country. As this kind of goods has a great many descriptions, business men do not contract for a large quantity of each kind, but keep only a small stock according to the amount of business. When there happens a delay in the arrival of vessels or a strike in factories the price will suddenly rise. Nevertheless this rise will not last long. The normal state will be quickly restored as soon as the new goods arrive. Moreover, here some thirty or forty canned good merchants are engaging in contracting wholesale business, and an adjustment of supply is feasible among them, so there is little likelihood in the rise of prices.

In May the market is normal and is a little backward than that in April. In June, because fluctuation happens frequently in the rate of exchange and the cost of production varies, those who have to deal with sight drafts in payment will likely suffer loss in case of financial stringency. Consequently, a little increase of price is seen on the market.

COTTON

Cotton has naturally a dull market in this season, because the farmer is busy in fields and no demand of cotton yarn arises. During this particular period a temporary prohibition of export of cotton is in force and cotton factories have actually decreased their working hours. This causes the cotton market more quiet. However, the boycott against Japanese goods gives certain stimulus to native cotton yarn and keeps it from standstill. Up to this time the stock of Tungchow and Shensi cotton becomes less both in this port and the original places. These little quantities which arrive here continually are largely inferior products. But the price is exceedingly steady and tends to rise. As the farmer in inlands inclines to demand high prices, most factories buy nothing if no necessity arises. Thus the tendency of the market is continually high. The foreign markets show the same condition on account of the decrease of the old stock and the late plantation of seeds. The markets in April, May and June are as follows:—

April: In the first part of the month the rumor in politics makes the market very dull. Fortunately, the condition becomes soon settled and the market quickly regains its steadiness. But the decline of the cotton yarn market influences the cotton business greatly. Tungchow cotton arrives here very little. The local stock consists only 12,000 bales of Tungchow cotton, and 3,000 bales of Shensi cotton. About 30,000 bales of Indian cotton are shipped here by British and Japanese steamship companies. The total exchange amounts to 30,000 bales in Mantao and 20,000 cattles in the Settlement. Although cash sales are quite scarce, yet the market price has risen to more than ¥ 40.00. Sales at future deliveries are stationary, as both the buyer and seller are uncertain about the future.

The price of American cotton has probably reached its extremity. The market in Liverpool

also shows the highest rises. The plantation of seeds has been delayed several weeks long on account of the weather. However, the territory of cotton fields has been enlarged and an extensive cultivation is being carried on. Immediate demands and export business are very little. In the latter part, Japanese merchants buy about 100,000 bales to be delivered in October and the succeeding months. People who have stocks sell out large quantities, then the price gradually drops down.

The market of Indian cotton is dull and its price remains as before. Since the price of American cotton fluctuates constantly and Easter happens then, the market exceedingly lacks activeness. Furthermore, the Japanese market of cotton yarn drops down, so the demand in the Far East is more interrupted. Only a few cash sales are concluded with Chinese and Japanese merchants. The demand in European countries is small also.

May: The cold and cloudy weather causes inconveniences to the plantation of seeds. During that time many farmers sell stored cotton for cash. The Dah Sung Cotton Spinning and Weaving Co. sells off its superfluous cotton also. Thus the arrival of Tungchow cotton is more abundant than in the last month; moreover, the factories in Tungchow dispose of a large quantity of cloth and the "Dah Sung" cotton yarn also finds a better market, so immediate demands become greater. The customers of Hankow even send telegram to Shensi for the transportation of cotton to Shanghai. Sales at future deliveries are likewise many. The local firms in the Settlement have stopped to purchase, while those in Nantao buy only a little. The price is \$54.00.

The market of American cotton has frequent changes due to the steady price of the old stock and the unfavorable reports of the new harvest. Whenever there is a demand, the price suddenly rises. The cotton factories have then nearly finished their contracted stocks and have decided to decrease the amount of production, so the demand in the country is quite limited. Though certain demands prevail in the export business, yet foreign merchants largely buy from other places. In Texas the condition of cotton plantation is better. The price of new cotton is quite moderate there. A large number of pre-time orders are received both from the country and abroad. The market in this time depends wholly upon the weather in the South.

Indian cotton continues to have a dull market, because the demand of native cotton factories is small. Its price drops down a little along with the price of American cotton. Only a little quantity of secondary cotton is sold to Europe and no business is concluded with exporters in Far East except a certain wholesale quantity of F. G. Broach which is purchased by Japanese merchants. Until the end the market turns better, since the price of American cotton increases. Japanese merchants buy a large quantity at prompt delivery.

In June the market changes in accordance with the condition of the new harvest. But as it is still far, there is an important problem as to the adequate supply of the remaining stock. The price will rise suddenly in case of demand. Tungchow cotton arrives at intervals, but most of them are secondary goods and are not very fit for the requirement. Indian cotton comes continually, but business is small and not able to absorb them, so a big stock is left here. New cotton seeds in Tungchow, Chungming and Haimen have begun to germinate, but the rainy season hinders the

work of the farmer. Some other places delay in the plantation of seeds. People do not dare to sell excessively beforehand.

American cotton has reached its highest growth. The governmental report has not yet been made public. According to the private estimation the total harvest is only about 12,000,000 bales. The market has a great attraction for buyers. Those who have sold cotton in terms of delivery in June and July buy in great quantities again. Speculators have different opinions about the future market. Although the production of cotton factories has decreased yet the amount of consumption of raw cotton is not a little less. People estimate that the remaining cotton in the factories will be exhausted by September. The new harvest still requires several weeks more and, moreover, much depends upon the weather. Some fields have been wholly destroyed by water. Thus the market is always steady.

The market of Indian cotton has turned to steadiness. Japanese merchants buy abundant quantities of F. G. Broach and Fine Oomras. In the latter part as the business of cotton factories is not very active, so the market turns dull again. However, the exporters in Far East continually buy immediate cargo for re-export. Though Japanese merchants buy comparatively fewer quantities, yet there is no indication that they have had sufficient supply. Possibilities of expansion exist in the later months.

COTTON YARN

The market of cotton yarn in this season has frequent changes. The rainy and damp weather makes the cotton harvest uncertain and causes speculation in the price of cotton yarn. Transportation is also hindered greatly. In the beginning of April, native and Japanese cotton yarns have quite good sales. However, the so-called "Severance of Economic Relation" soon rises and the disturbed condition of the country discourages customers to place orders. In spite of the continual imports of Indian cotton in May and June the market has little hope of becoming prosperous. To a certain extent the local market is influenced by American cotton. At first, the American cotton yarn market tends to rise on account of the late plantation of seeds and afterwards it suddenly turns to fall, because the harvest exceeds 70%. The market in Osaka also yields to this influence in its price. Many local factories in their hard struggle buy a great quantity for future use, but their business is so dull that some decide to close down and others decrease their working hours. Until the middle of June the news that the price of American cotton rises to more than 100 points reach here, then the market begins to turn better.

In short, though the market of cotton yarn in this season is a little in confusion, it is by no means hopeless. We ought to try everything possible to encourage the production of cotton and to improve the organization of cotton factories in order to have a share in the world cotton industry. The condition of the market in each month is as follows:

In April the total quantity of exchanges approximately amounts to (1) native yarn: 21,000 bales (2) Japanese yarn: 14,000 bales. In the beginning of the month the market is quite steady.

Native yarns have very good outport sales and their prices rise from \$2.00 to \$3.00. The sale of Japanese yarn is not so good and its price decreases a little. In the middle, though the price of raw cotton fluctuates greatly, yet the amount of outport sales is still much. The greatest quantity is bought by the customers of Szechuen. The cotton yarn, counts 20, has the largest sale among native yarns. Its price rises from \$1.00 to \$4.00. After that time both sales and price decline, as the price of American cotton suddenly decreases. Until the end on account of the continual increase in the demand for the North that Japanese cotton yarn, counts 16, becomes a little better in its sales.

In May the total quantity of exchanges approximately amounts to (1) native yarn: 26,000 bales, (2) Japanese yarn: 9,700 bales, (3) Indian yarn: 50 bales. The tendency is steady. In the first part its price returns to about \$4.00 higher than that in the end of last month. Later on since the foreign market is very weak, prices tend to drop down again. After the middle the amount of cash sales increases suddenly owing to the abundance of outport orders. Customers of Szechuen and Canton have an intense desire to buy and those of North China have about an equal demand. The local stock becomes gradually less and the market turns to be more steady. However, as the prices of American cotton and Sampin are on continual increase, native cotton factories meet heavy loss and close or suspension of work is frequently heard among cotton factories.

In June, the total quantity of exchanges approximately amounts to: native yarn: 11,000 bales, Japanese yarn: 9,400 bales. In the beginning outport sales are small. The price of native yarn rises a little, but Japanese yarn decreases from \$1.00 to \$2.00. Since the Dragon Festival is at hand, outports sales become even more less after the middle of the month, but as the price of new American cotton gradually rises to more than 100 points and quite many retail sales are made with Szechuen customers, the price of native yarn remains steady. Japanese cotton yarn carries many bargains, but the price continues dull. Until the end, outport sales turn better, so both native and Japanese cotton yarns rise a little in their prices.

PIECE GOODS

Since the opening of complementary sales in the first month the price of piece-goods has been dropping continually. As customers of various localities have already had large stocks, so no great demand arises during this period. The decline of the cotton yarn market and the disturbed political situation make the market more dull than ever.

In the beginning of April the problem of Port Arthur and Dairen arises which is followed by "Severance of Economic Relation". Local firms as well as customers of outports buy large quantities in order to make profits, when the supply is ended. Thus the market turns alive again for Japanese piece-goods and their prices all rise up. Native and European goods are likewise turning prosperous. This disposes of nearly the stock of all Japanese piece-goods. Although shipment to outports is suspended in May, yet the price remains steady until the end of June. The price of native and European goods is also very steady in spite of the frequent changes in the political

situation. People are accustomed to such changes and almost pay no attention to them. The market is thus able to maintain its present condition and has a better business in summer.

Auction: In this season the sale in auction is fairly good. Although it is subjected to certain influence of the political situation and the rate of exchange, yet the demand is constantly growing. In the first two weeks quantities are greatly increased, mostly in Grays and Whites. There is a marked improvement in prices all through, with the exception of Irishes, Velvets, Twills and few of the Italians. From this time on, all kinds turn dull owing to the disturbed condition of the country except Lawns and Velvets. Among them Whites and Italians are the most conspicuous. Fortunately the market in Manchester turns more favorable then. Harnby shirtings, $2\frac{1}{4}$ lbs., are quoted at 16/9 and Calvert Shirtings, 10 lbs. 20/6. They have become three pennies and one shilling cheaper respectively. As the local market is short of supply of these kinds, so business becomes active again during the second week of May. The boycott gives later on another stimulus to auction. Both quantities and prices are increased. Although afterwards importers once meet difficulties on account of the change in politics, the increase of prices along with cotton in Manchester and the fall of exchange, yet the local market receives little influence. In the end of June large shipments are carried to Hupeh, Hunan, Corea and the Yangtse Valley. During this season the total quantity in auction is 51,502 pieces. In April there are 168,447 pieces: in May, 160,174: and in June 183,881. Although in the middle of May the local price of some kinds rises to more than 20% due to the scarce supply from Manchester, yet their business is not a little impaired. At the same time the stock of piece goods in Tokyo and Kobe amounts to 64,830 bales. This is very likely due to the "Severance of Economic Relation". The profit from British textile industry according to the last year report is £943,000 during which American cotton has an exceedingly high price. It is £613,000 more in excess of that in the year before last at a percentage of 50.

Piece-good, European; From May, 1922 to June, 1923, European piece-goods are continually dull. The market of White and Grays is almost entirely seized by Japanese goods. Although auction is still able to maintain a part of its influence, yet the amount has been decreasing considerably. During this year the quantity of imports has decreased also. The Japanese is incapable to imitate fancy goods, but Cotton Lasting, Serge and the various kinds of native cotton goods all tend to compete with European imports. Since the opening of complementary sales in the beginning of China year, European piece-goods remain dull as Japanese and native products. In April only some Lawns and low White Shirtings are sold. Very little is shipped to Szechuen on account of the war. However, in the latter part of April Bleached T-Cloth, low White Shirtings and Lawns have comparatively good sales. Continual cargo is shipped to the North and the South. In the beginning of May the sale of White Shirtings to the North turns more prosperous. Mercerized crimps are also very active. A large quantity of 30 yards Gray Jeans is shipped to Chefoo and Tsingtao. The demand of Low White Shirtings for this port and the Yangtse Valley is still great. In the middle the price of Yuen Fong in auction suddenly rises and the boycott against Japanese goods begins before the 9th, so European piece-goods turn quite prosperous. The prices of those White Shirtings which are sold to the North are generally steady and the greatest quantity is bought by the

customers of Chefoo, Tientsin, Tsingtao and Tsinan. In the latter part of May the sale of Fancy Goods is almost entirely stopped, while that of White Shirtings becomes even more prosperous. Business amounts to a fairly large extent with the customers of Chefoo, Newchwang, Antung, Tientsin, Fengtien in the North and of Hankow and other ports along the Yangtse River. The low 8.4 Shirtings have the most active sale and its largest quantity is sold to Hankow besides local orders. Quantities sent to Hankow become particularly abundant in the end of May and the beginning of June. The shipments contain various brands of Shirtings. Inquiries about Cotton Imitation Venetians, Cotton Venetians, Cotton Satteens and Poplins are received. Business with the North has also now a good prospect. The customer of the North places certain orders of Cotton Velvets, Dyed Shirtings. Other kinds of Grays and Whites and Dyed Fancy goods have likewise big sales. However, the sudden change in politics seriously interrupts the progress of the market which remains dull until the latter part of June. Certain scarce goods are still active especially White Shirtings. As the season for Fancy Goods has yet not come, they remain stationary. But their stocks are not very great, so people all have hopes in the future. Figured Poplins have the lowest sales. A certain firm sells 100 pieces at the price of ¥0.475 only. A large quantity of cotton Satteens of Fearon, Daniel Co. is sold to Hankow at the price of ¥0.375. The price of Cotton Imitation Venetians once falls to ¥0.31 but before the end of June it rises again to ¥0.33. Most Cotton Venetians are sold at about ¥0.5. Quantities are shipped both to Hankow and the North. Figured Italians are very scarce. Those of Jibert Co. and Calder Marshall & Co. are quoted at ¥0.44, and that of Re'ss & Co. at ¥0.325. The price of Black Poplins is about ¥0.53. Dyed Poplins have not yet come to the demand season, so they are very quiet after having had prosperity once. Only the customers of Hankow continue to buy. To the end of June the total exchange of Whites and Grays, and Fancy Goods reaches to more than 1000 cases. During these three months the 8.4 lbs. Grey Shirtings have very good sales but unfortunately the supply is insufficient. In the recent years European piece-goods generally decline down. Only Black Cotton Italians, Cotton Venetians, Cotton Satteens are able to maintain their present status. White Shirtings are still predominant, but their brands are many and disarranged.

Piece-Goods, Japanese: The market of European and American Shirtings, Jeans, T-cloth and Sheetings in recent years have been almost entirely seized by Japanese products. During this year, the price continually decreases down and reaches to the minimum in the end of March. At that time the boycott arises. Both local firms and customers of outports in view of the small stock of European piece-goods begin to purchase abundantly. In the first week of April the total exchange approximately amounts to 3,000 cases and in the second week about 2,000 cases. The local Japanese stock is almost exhausted, mostly Shirtings and Jeans. The various brands of Shirtings are largely shipped to Tientsin, Tsingtao, Tsinan, Hankow, Kiangsi. Those which are shipped to Newchwang, Tsingtao are chiefly high brands. Jean has the most shipments for Tientsin, Tsinan and Hankow. The 30 yards Jean is sold to Newchwang. The 2.4 lbs. bleached T-cloth has the total exchange of 400 cases. The greatest part is shipped to Tientsin, Chefoo and Tsingtao. As to 8.4 lbs. Gray Shirtings there are only about 100 cases. Its price decreases from ¥5.25 to ¥5.10 in the beginning

of April, but soon rises to the original price. For 7 lbs. Gray Shirtings only about 100 cases are sold. Certain quantities are sold to Tsingtao and Tsinan at the price of ¥2.55 being ¥0.30 cheaper than that in the spring. Turkey Reds Shirtings have a total sale of about 300 cases to the North and the South. At different periods it is quoted variously at ¥3.9, ¥3.45 and ¥3.65. About 300 cases of Dyed Shirtings are shipped to Tientsin, Chefoo, Tsingtao and Tsinan. Afterwards its price again rises from ¥3.78 to ¥4.15. Among fancy goods the quotation of Cotton Lasting in the spring is about ¥0.34 but its selling price in the beginning of April is less than ¥0.30. Herringbone Twills are quoted at ¥0.31 in the Spring but ¥0.27 only in the beginning of April. The total exchange of these two kinds is about 400 cases and they are mostly transported to Chefoo, Yangtse Valley, Tsinan and Hsuechow. Printed T-cloth has only a little stock but a big demand. In the beginning of April its prices are quoted at about ¥5.7 and ¥5.00 for the first and second grades respectively. The total sale for this port, Tsinan and Yangtse Valley reaches to about 200 cases. The price of Dyed Jeans is reduced about ¥0.3 and they have little sales. Dyed Figured Poplins have the most dull sales. Once it is quoted at about ¥3.70, but it still finds no buyers. The price of White Shirtings is weak and only a little sale is made to the Yangtse Valley.

The total exchange of Japanese piece-goods approximately amounts to more than 5,000 cases in the first two weeks. Afterwards the boycott becomes more vigorous and as the national humiliation days of May 7th and 9th are drawing near, so customers of various localities stop to place orders. However, Dyed Shirtings, Cotton Lastings, Serge and Whites and Greys are continually shipped to Chefoo. Therefore, some 1000 cases more are sold before May 9th. These are all shortly imported from Japan. The price of Whites and Greys is 5 cents higher than that in the beginning of April. From that time to the end of June although the business is handicapped by the boycott, yet in reality the amount of exchange is fairly great. Prices instead of dropping down continually rise. Small imports arrive occasionally and are quickly sold to local firms and inlands after being changed somewhat in their packages. In spite of the heavy stock in Japan the price shows not a little tendency of decrease. The Japanese has learned very well that the boycott will not last very long. So they decide to keep their old prices.

Piece-Goods, Native: Recently both the number of native factories and the amount of their sales have been increasing rapidly. American Sheetings and Jeans are almost excluded out of the market. It is pleasant to note that the native piece-goods have become so prosperous but in fact those of foreign capitals have always predominant influence over those owned by Chinese. The total number of exports in the end of March is 584,810 pieces and that in April, May and June is 1,167,652 pieces. The total quantity in this half a year is 1,752,462 pieces. The products of Japanese factories are largely sold to the various ports of Manchuria. The products of Dah Sung Cotton Spinning and Weaving Co. are mostly sold in this port and Chefoo. For the Yangtse Valley there is no definite choice and the sale is so small that it has scarcely any influence on the market. Other miscellaneous brands are sold occasionally to customers of various localities. However, for Newchwang only Japanese products are saleable. Native piece-goods have little business in the spring of this year. Until April the customers of Tientsin and Chefoo buy about 3,000 cases. The

price is about \$0.3 cheaper than that in spring. The customers of Chefoo buy chiefly 13 lbs. Shirts. In the first two weeks of April only certain drills are shipped to Newchwang. The customer of Tientsin buys about 200 cases of E-Wo Drills. They are \$0.2 cheaper than the spring quotation. During the third week about 700 cases are sold to Newchwang. In the fourth week about 700 cases of Dah Sung products are shipped to Chefoo. In the first two weeks of May the total exchange is only about 1000 cases which are mostly Japanese. The market in the third week turns dull a little. More than 1000 cases of 11 lbs. Shirts are sold to Tientsin, Antung, Chefoo and local firms. Until the end of June the market becomes active again. The total quantity shipped to the North and the South reaches to more than 5000 cases. Nevertheless, the sudden change in the political situation interrupts the market greatly. Fortunately, small sales are continued without suspension. Prices rise and fall occasionally.

During these three months the sale to outports amounts 30000 cases, but as the orders in the beginning of the year are successively filled until April, so the total number of exports in these three months reaches to more than 1,000,000 pieces. Drills have still certain sales in summer. The price reaches to the lowest point in the end of June, because then the season for Drills is over. In recent years, the number of exports is always in excess of import in this port. During this year a great decrease is seen in imports. Among them American piece-goods are the first and British next. Although the boycott reduces the quantity of Japanese imports, yet the amount of decrease is far less than that of American and British piece-goods. The table of comparison of imports and exports in these two years is as follow:

	Total Imports 1923	Total Imports 1922	Total Exports 1923	Total Exports 1922
January	250,722	475,452	578,896	665,392
February	631,210	944,038	638,556	885,644
March	632,898	970,714	1,124,905	1,165,219
April	855,024	932,289	1,801,723	1,423,304
May	591,059	1,093,820	1,251,597	687,889
June	553,951	1,026,374	969,936	891,841
	<u>3,513,864</u>	<u>5,443,587</u>	<u>6,375,613</u>	<u>5,717,289</u>

The total exports of European, American and Japanese piece-goods after deducting 1,752,462 pieces of Native piece-goods are 4,623,151 pieces.

FLAX, HEMP, & JUTE GOODS

During this season new gunny bags have little business. The demand of old gunny bags is also very little in April, but a fairly good demand and steady price are seen in May and June. It may be stated briefly as follows:

In April little new twills gunny bags are sold. New blue stripe gunny bags have a little better market. This month has naturally an unfavorable tendency for old gunny bags while hessian

cloth due to the demand of factories has yet a good prospect. Certain hems are bought by local shops, but the quantity is not much. Until May the market of old bags turns suddenly very prosperous, because the demand of flour factories is very great, so its price is increasing continually. However, the sale of new gunny bags is from bad to worse, partly because customers of outports stop to buy and partly there is a common belief that a great cargo will arrive here in the next month. Hessian cloth and jute twine are yet able to maintain their business.

In June the market of new gunny bags is even worse than that in the preceeding month. The rate of exchange decreases and an immense stock is kept in this port.

Customers of Chefoo and Dairen stop to purchase. Only a little quantity is sent to Pengpu and Hsuechow. Moreover, the Dragon Festival happens in the next month, so the market is very short of ready money. Although foreign reports become better and prices are rising, yet business remains as dull as before. At the end of the month a certain quantity is shipped to Antung. Hessian cloth in the beginning is the same as new gunny bags. Fortunately, some hundred pieces are bought by local factories and many pieces are sent to Tientsin. Old twills gunny bags are greatly demanded by cement factories and old blue gunny bags, as bean business commences then, have a very good sale. Its price is more increased owing to the purchase by customers of Chefoo and Dairen. This tendency of rise in prices continues until the end of the month.

WOOLEN GOODS: COTTON AND WOOL UNIONS

The market of woollen goods and cotton and wool unions in this season has roundabout changes. In April, the stock is scarce and imports are small, so it is very steady. On account of the disturbed condition of the country the amount of sales to Tsingtao, Chefoo, Hankow and Nanking afterwards becomes less. As rumor has it that military preparations are being carried on, the customers of Tientsin once stop to place orders. However, the market is soon awaked by the active purchase of the people of Harbin. Fancy worsted is in demand season and has a steady price. Waterproof has very prosperous sales to outports. Blue worsted twills have also an ascending tendency. Until the beginning of June, since the weather becomes warmer, the sale of coloured worsted twills gradually turns prosperous. Venetians have progress also, but waterproof declines due to the abundant supply. Unexpectedly, in the second week a heavy fall of prices happens to all kinds except black venetians, blue worsted twills and white shirtngs. Although a same decline happens in that time of last year because of the change of season, yet it is not so intense as that happened then. The reason is owing to the excessive imports, bad sales and the desire of immediate disposal among sellers. In June at first the market is hindered by the disordered condition of the country and later on the fall in the rate of exchange. Besides black venetians, coloured worsted twills which have comparatively better sales, others such as waterproof and white shirtngs all show decrease both in prices and the amount of sales. However, some dealers buy certain goods for speculative purpose on the occasion of the Dragon Festival and the semi-yearly balance of accounts in foreign firms. Thus the market prices are relieved from falling too low. At

that time quotations in foreign countries are quite steady and the demand for India and South Sea Islands is yet great. Consequently, the local market is able to remain at its *status quo*.

MISCELLANEOUS COTTON AND WOOL GOODS

This kind of goods bears two different remarks: the Japanese and the Western, and may be broadly classified into daily goods and luxurious articles. Their business depends wholly upon the political situation of the country and the change of season. In this summer political turmoil is extraordinary, and war and famine happen in many territories. The fall of exchange causes prices to rise and the immense imports leave here a heavy stock. These are the causes of the dullness of the market. In April, there is a comparative better business, during which dealers actively buy summer goods. As the boycott against Japanese goods begins then, people buy a great quantity of necessary Japanese articles beforehand. In May and June, the market is generally dull except native products which have comparatively better sales. Those popular ones are as follows:

WOOLLEN AND KNITTING YARNS

The quantity of imported woollen yarn reaches to more than 10,000 piculs a year having a total value of HK \$200,000. In the recent years native woollen goods such as sock, stocking, handkerchief, neckerchief and hat become gradually prosperous and their raw materials are largely taken from imports. The British "Bee Hive", "Scholar" and "Flower" have the largest sales, but they are demanded only in autumn and winter having little business then. The price of "Flower" in April is about \$2.20 per lb., but falls to \$2.10 in May and June. The "Scholar Brand" has hitherto its most sales to outports. In April and May, it is quoted at \$1.75 per lb., but in June it is reduced to \$1.10. A trifling business begins in the end with customers of the North. "Bee Hive" has very large local sales. In April and May its price is about \$2.90 whereas in June it falls to \$1.90.

The German "Old Duck Brand" knitting yarn has had very prosperous sales up to the present. In April and May its quotation is about \$2.25 while in June it falls to \$2.10. Other brands all remain silent. Their prices are likely to rise, when the demand season comes.

HANDKERCHIEFS AND TOWELS

Handkerchief has its most prosperous business in summer, but a great decrease happens in this year. Those fancy kinds are only able to sell at cost, while the common ones mostly meet losses. Fortunately, the stock is not very great, so prices do not fall considerably. Among fancy kinds the "Pagoda" imitation linen handkerchief occupies the first place in the amount of sales. During these three months, its price varies from \$2.20 to \$3.25 per dozen. Among common ones, mercerized cotton handkerchief, 16" of Bradley & Co. is quoted approximately at \$1.15; the white cotton handkerchief, 18" of Wm. Little & Co., \$1.00; the cotton handkerchief, 18" of Bradley and Alex Ross & Co., from \$1.50 to \$1.60. Other brands have little changes. Recently various brands

of native handkerchiefs have been placed on the market such as Yai Tai 瑞泰, Chien Zung 建成, Ch'en Sing 建新, and Chung Hwa 中華. All of them have good qualities.

Towels are necessary articles in a family. The Japanese "Anchor Brand" has the first imports and the "Deer Head Brand" second. Its price is a little higher in June. However, since the boycott its business decreases greatly. The Sean You Zoo & Co., 三友實業社, the Sincere Co., and the Wing On Co., furnish a great quantity of excellent native products. The present price of the "Three Angles", No. 3, of the Sean You Zoo & Co. is \$1.16 per dozen.

MACHINE AND CROCKET COTTON

The sale of various colors of machine cotton changes in accordance with the season. Those of blue and black have the most sales in winter while those of white and light colors are demanded in summer. There are both Japanese and Western imports. That machine cotton of 500 yards of J. P. Cotts is largely sold to Harbin and Mukden and that of 200 yards is largely shipped to the interior places such as Hangchow, Kashing and Huchow. Japanese imports are sold chiefly to Szechuen and the Yangtse Valley. During this Summer on account of the rumor of military movement between Eengtien and Chihli, little sale is made to Mukden and its neighboring places. Japanese imports meet a heavy loss due to the boycott. In this port a little quantity of that of 200 yards is sold. Prices remain about the same during these three months. The Japanese "Human Face" falls about \$1.00 per gross in each month.

As to Crocket cotton, the market has been hitherto filled by the Japanese "Unicon Brand" Since those factories, such as Yeh Dah 協大, and Hung Dah 鴻大, are established in Shanghai, their products are nearly able to take the place of Japanese imports. They are sold about \$3.30 per gross.

COUNTERPANES AND BLANKETS

As these kinds of goods have little demands in warm weather, their prices are low. The sale of Japanese goods has almost entirely stopped. Western imports have little business. The Ching Fong 9/4 printed counterpane is quoted at \$37.00 per dozen in April, but decreases about \$1.00 each a time in May and June. Those of 10/4, 11/4 and 12/4 all fall more or less in their prices. Tigar rugs meet continual decrease, but the price of cotton blankets is steady. In May and June above 100 bales of grey woollen and cotton blankets are shipped to the North. Native counterpanes are comparatively better in sales.

COTTON SHIRTS AND UNDERWEARS

Cotton shirts are favorable articles in this period and have fairly good sales. The "Lantern Pagoda" brand has the widest sale among Japanese goods but it has been greatly handicapped by the boycott. In Western imports, the "Butterfly" and "Star Brands" of W. R. Loxley & Co., the "Ball Brand" of K. & B., Shanghai, have comparatively wider sales, but their average price is as high as \$14.00 per dozen. The products of Ching Lung Factory 景倫, provide various colors and have excellent qualities. Their prices vary with the qualities. Very prosperous sales have been

made at present and agencies nearly exist in all cities. Underwear has little demand during the season and its price decreases step by step. There are both Japanese and Western imports. Wright's is the best brand on market.

SOCKS AND STOCKINGS: ANKLE-BANDS

In the recent years many sock and stocking factories have been established in this country. The market is full of native products which have fine qualities and moderate prices. They have the largest sale among native goods and are almost able to drive foreign products out of the market. Such factories as "King Sing" 金興, and "Ming Sun" 民生, are owned by Chinese in Hongkong. Their products are contained in this quarterly since they are charged to pay duties as foreign goods.

Among ankle bands the sale of "Old Man Head" and "Peacock" is the greatest, but due to the boycott and the warm weather they have little sales during this period.

FELT HATS

That of Bradley & Co. has the widest sale. It has little business in Summer.

METALS

We are very rich in mineral resources, but besides coal mines very few furnish any direct use to the people. On account of our poor method of metallurgy we sell most ores to foreign countries and buy manufactured products from them. According to The Maritime Customs Foreign Trade of China, 1922, the total value of imported metals in that year reaches to more than HK \$40,000,000 being 5% of the whole amount. Among them the products of steel and iron are the first, copper second and lead, aluminium, nickel and zinc third. The various kinds of machinery and those belonging to other groups are yet extra. As nearly all metals are imported from foreign countries, so a close connection exists between foreign markets and the local condition. Since prices are regulated, both by supply and demand, thus both the stock and the amount of sales are the chief factors in the rise and fall of prices. It is further influenced by the rate of exchange. The market in April, May and June is as follows:

The market in April varies greatly from that in March. Rumor has it then that another Fengtien-Chihli conflict will break out in the North. Civil war is going on in Fukien, Canton and Szechuen. In view of this situation, customers of various localities stop or delay to place orders. As shipments arrive continually, there is an excessive supply. The local price remains dull in spite of the increase of foreign quotations and the fall of exchange. Small dealers are compelled to sell at discounts. This depressed condition continues until the end, when business becomes a little better and the decrease of exchange keeps the prices from falling further down. Some important kinds are given below:

Steel and Iron Products: These are the staple goods among metals. During this month the market seems very dull owing to the excessive supply. The quotations of British and American

galvanized sheets all decrease down. The price of mild steel round bars falls about \$1.00. That of 2-3" in length falls in its price also, because of the abundant cheap German imports. The price of mild steel ship plates is steady in the beginning and falls down later on, due to the same reason. For instance, that of 1/40 in. is originally sold at \$9.00 and reduced then to \$6.70. In the end it rises again to \$7.00, since there happens a sudden decrease of imports. That of 1/16 in. is quoted at about \$6.10 in the beginning and afterwards is reduced to \$6.00. Those above 1/8 in. have little sales. Iron angles are also steady in the beginning, and later on the great imports cause its price to fall down. The various kinds of iron tubes have the same condition as galvanized sheets. In spite of the abundant quantity purchased by cotton mills and water works the great imports prevent the advance of prices. Bamboo steel has a normal import, but a small demand. It is because constructors usually place orders directly from foreign countries. Wire nails, countersunk, are gradually turning prosperous, because the foreign quotations increase and both the stock and import are small.

Copper Products: Most copper products are imported from Japan. Little comes from Europe and America. Recently Japanese import becomes less, so the stock turns scarce. The price of 1/10 in. brass plates rises about \$1.00 higher than that of the standard. That of 3/8" has a particular scarce stock. Those of 1/4" and 5/16" are also nearly out of supply. Brass rods have very wide sales. Since the diminution of Japanese imports the price of the standard has risen about \$4.00. That of 1 1/4" is very scarce. Only one or two firms have still that commodity, so they are able to control the price and raise it as high as \$5.00 in the amount of increase. Copper rods have both small imports and stocks. The little western imports are hardly sufficient for the demand of customers of various localities. Consequently, its price also rises about \$1.50. In short, the future market of copper products is very likely to rise yet higher.

Lead and Tin Products: The market of lead bars is very weak in the beginning. Afterwards it turns a little higher because of the intense purchase of brokers. However, it again falls to \$11.7 since there are heavy imports but small demands. Till the end the sale of new tea increases the demand of lead bars, so fortunately it does not fall further down. Tin in slabs has a big stock at first. The foreign market drops down continually. Although not very much is imported, yet its little business causes the price to decrease step by step. Nickel has little hope of rise, as it has large imports but small business.

The market in May is slightly better than that in April, but is still inferior to that in March. In the beginning, the market is as dull as that in the preceding month. In the middle, the rumor of Fengtien - Chihli conflict disappears and people have more steady minds. Great cargo is shipped to Tientsin, Darien, Chefoo, Tsingtao in the North and Hankow, Wuhu and Kiukiang along the Yangtse Valley. As the war in Fukien and Canton still continues, little is shipped there except the raw material of military articles. Because of the great stock and abundant imports, the prices of most kinds drop down, especially copper and iron products. German imports are great and are sold at cheaper prices. Thus British and American goods are compelled to sell at discounts.

Steel and Iron Products: British galvanized sheets are continually dull due to the excessive imports. Until the end, the prosperous sales to outports enable its price to become a little steady. That of No. 30 rises to \$11.50. Galvanized plates remain low after its repeated decrease in price. Corrugated and plain sheets rise and fall frequently. The prices of all descriptions are cheaper than these in the preceeding month except No. 26. Mild steel round bars have the highest price in the middle, but owing to the abundant supply, the average price is still lower in comparing with that of the last month, although there are fairly good sales. That mild steel ship plate, 1/32" is sold at \$7.50 in the beginning. Afterwards the source of supply turns abundant and business men are compelled to sell their old stocks at low figures. Until the end, it returns to the old price because that particular kind is lacking among imports. Other descriptions from 1/16" to 1/8" have very large stocks among foreign firms and brokers and their prices fall about \$0.3. The price of tinned plates is weak at first and turns higher afterwards on account of the large purchase of tobacco factories and the customers of Swatow. In average, every hundred British tinned plate is about \$1.00 higher than that in the end of last month, but that of 90 lbs. is still comparatively lower. Iron angles as both the stock and import are great show decrease in prices, although large quantities are demanded for export and the use of local iron and electric factories. Those of 3/4", 1" and 1 1/4" wide have the greatest degree of fall. However, the price of that of 1 1/2" wide rises about \$1.00. That of 3" wide has about the same degree of rise as it is widely needed in architecture. The price of most kinds of iron tubes falls down since the increase of imports during the last month. Unexpectedly, in the middle a great reaction happens and the demand for various localities creates a large business of various descriptions, especially the galvanized and ungalvanized. Steam pipes are the next. The price varies with the amount of imports and the size of the stocks, but nearly all kinds rise more or less. Those of 3/8" and 1/2" in diameter have the widest sales. In the end, their demand turns less, so prices decrease. Bamboo steel has a good demand, nevertheless, the excessive supply causes its price to fall about \$0.20. The standard price of wire nails, countersunk, checkered, 1-7" falls to \$6.00 due to the same cause. However, in the end those of 3/8" and 1/2" rise about \$1.00.

Copper Products: The market of copper products rises higher and higher, because there are few imports from Japan and the British and American goods on market are insufficient for supply. Those brass rods of 1/2" - 1" are sold at \$31.75 in the beginning. After a few days the price rises to \$33.00. Those of 1/4" and 3/8" rise in the latter part from \$35.00. to \$37.00. That of 1 1/4" is sold at about \$7.00 alone. It is almost out of supply in the market and its price is controlled by those who have still stocks. Copper rods have the same condition as brass. Although once a large shipment arrives from America, yet it is soon bought by copper mints and arsenals. The electric factory has the second amount of consumption. In view of the small import, the price will not easily fall down. This is also true with the various kinds of copper tubes, the stock of which is very small. Those of 3/8" and 2" thick are particularly so.

Lead and Tin Products: Lead bars have customarily a very good business during this time of the year, as great quantities are demanded for making tea cans. However, a very different

condition appears at the present period. In the beginning, the price is steady. Because of the excessive import and the bad business a heavy stock is left here and its price is decreasing less and less. Tin in slabs continues dull and has a difference of about ¥3.00 in comparing its price in the beginning with that in the end. Nickel has great imports and its price decreases about ¥1.00.

June: The market in June may be looked from two sides. As to the amount of sales it is even worse than that in the last two months. The business of metals is usually dull in this period. As the political change suddenly rises in Peking, most business men reduce the amount of their orders. Again the Dragon Festival happens in the latter part during which all business houses close their accounts and financial stringency exists among the public. The market continues dull until the end of the month. On the other hand, a great variety is seen in the prices. In the beginning, the average tendency is turning downward with the exception of copper products. However, on account of the increase of factory quotation and the fall of exchange the price of most steel and iron products remains yet steady.

Steel and Iron Products: British galvanized sheets are rising step by step because of the continual increase of factory quotation and the fall of exchange. That of No. 30 rises about ¥1.00. American cargo being greater in stock and imports rises ¥0.20 only. Corrugated and plain sheets and galvanized plates remain at the old price. Mild steel round bars turn less in imports and have good business in the beginning. The standard price of $\frac{1}{2}$ " to 1" remains at ¥4.75. Those of $\frac{3}{4}$ " and $\frac{5}{8}$ " also increases a little in its price. The standard price of various descriptions falls about ¥0.15 afterwards under the influence of imports. Mild steel ship plates have both great stocks and abundant imports. Its price drops down continually in spite of the repeated decrease of exchange. The price of that of $\frac{1}{32}$ " falls about ¥0.50. The 90 lbs. British tinned plates are quoted at less than ¥2.00 since it has both heavy stock and great imports. American cargo remains silent as before. Great quantities are bought later on by tobacco factories and outport customers, so the price turns steady. After the middle, the customer of Vladivostok begins to purchase actively and this nearly finishes the local stock of both the British and American cargo. The price becomes very steady. That of standard American cargo reaches to more than ¥10.00 and British, approximately ¥9.00. Iron angles turn prosperous also. Large orders are received from the North and the Yangtse Valley. The demand of local electric factories and construction firms is large too. Thus the wholesale price rises about ¥0.10. That of $2\frac{1}{2}$ " wide is a necessary commodity in construction work and has the widest sale among all descriptions. Its price turns constantly higher after the middle of the month, because large quantities are bought by outport customers and local factories. The price of other descriptions rises jointly. As the dealer carries out sales of forward deliveries purposely at discount, so the market is quite disturbed. The sale of various kinds of iron tubes gradually turns prosperous. Recently their imports suddenly become less, while the amount of sales increases daily. Great shipments are made for Peking and Tientsin. The demand of local water and electric light works is also fairly great. This causes its price to grow higher and higher. The $\frac{1}{2}$ " galvanized tubes, $1\frac{1}{2}$ " ungalvanized tube and 2" and $2\frac{1}{2}$ " steam pipes are almost out of stock. After the middle, new cargo arrives, but it is sold little. However, the price remains

unchanged. Bamboo steel has about the same price as that in the end of last month, as the weather is quite favorable for construction work. The price of wire nails, countersunk, checkered decreases, but fortunately the fall of exchange prevents its standard to fall greatly.

Copper Products: Brass plates have both small sales and imports and remain at the old price. Brass rods rise a little in the price due to the fall of exchange. Copper rods are the important raw material for making military articles and the intense purchase by those places such as Hankow, Tientsin, Nanking and Foochow causes a deficiency in the local stock and a great rise in the price. Wires and sheets have little sales.

Lead and Tin Products: Tin has a dull market in the beginning. Although a great quantity of tin in slabs is exported during the middle part, yet the purchase of local factories and inlands is very small in comparing with the heavy stock and great imports. Thus its price remains low throughout the month. Lead has a great stock but little sales. The occasional orders from arsenals amount very little and have not much influence. As to the foreign quotation that in Liverpool is the cheapest, however, business men should yet suffer loss by selling lead here at that price. The market of nickel has been long silent. Until the end, the local stock becomes little and people are informed that the foreign market also lacks this article, so the market quickly turns steady.

COAL

As the Dragon Festival happens in the end of this season and business houses generally close accounts by that time, commerce is then at a standstill. Coal has a good market in April but it declines in May and June. We now trace its market as per each month.

As a whole, coal has a steady price in April, because the quantity of native coals arrived here is very small, but the demand of inlands is fairly great. However, in the early part of the month sales are rather little and prices decrease down, because those factories such as silk, oil, cotton and flour have not yet begun to work. Those who have big stocks desire to put their coal into immediate disposal. Unexpectedly, rumor rises that another conflict will break out between Fengtien and Chihli and military preparations are being carried on eagerly by both parties. Arrival of coal becomes suddenly few, since many cars in the mines at Chihli are detained for military purpose and new outputs are unable to be transported here. Local consumers in view of the lack of supply during the last Fengtien and Chihli conflict keep big quantities purposely. Factories and customers of outports one after another place large whole-sale orders. All these have an immediate effect upon the stock and prices. About \$0.8 is added to the prices of nearly all native coals including Chung Hsing 中興, Tsing Ching 井徑, Ku Wang 賈汪, Yueh Sheng 悅昇, Pe Shan 博山, King Ping 開平, (Nos. 1, 2 dust coal), Ling Si 林西, (dust coal), Fu Chung 福中, (Anthracite coal), Liu Kiang 柳江, (Anthracite coal). Japanese dust coals including Fujen, Masuda Ochi, Takamatsu, Arate, Jakao, Fukuoka on account of the rise in the rate of exchange increase more or less in their prices. Imports from Japan are small because both the freight and cost are suddenly high. Thus,

the supply becomes more less. Fortunately, silk and flour factories still have not started to work. When prices become high, the coals which have been kept in storage are again sold out at a profit. The total quantity exchanged in this whole month amounts to more than 195,000 tons.

The market in the first part of May is the same as that in April. During the latter part the condition in the North becomes peaceful again and the transportation of coals is made possible. Japanese coals are shipped here continually owing to the increase of outputs. The total quantity of both native and Japanese coals reached here are approximately 165,000 tons. Most business men who keep large quantities sold off their coals. Thus the supply is very abundant now. Although large orders are received from factories, yet the market is not as prosperous as that in April. Prices are generally dropping down. However, the total exchange in this month reaches to more than 187,000 tons being only about 10,000 tons less than the last month. As to the prices those of Tsing Ching 井徑, Fujin 撫順, continue to rise, while other kinds such as mixture dust and anthracite all decrease in their prices with the exception of Liu Kiang 柳江, and Fu Chung 福中.

The market in June is even more worse, because the Dragon Festival comes now. Although certain sales are made, yet the business with customers of outports is exceedingly small. The quantity shipped out is less than 100 tons every day. It is interesting to note that as a rule all large and small local coal dealers customarily close business at that period, but secret bargains are unusually many. The reason is because money is usually very stringent then and those dealers who are in short of ready money either mortgage their present stock as security or borrow from rich dealers or sell their goods at very cheap prices. Accordingly, there is a great fluctuation in the prices of those secret bargains although these are all done privately. The greatest difference is from \$1.00 to \$0.6. After the festival customers of outports again come here to buy coals and local business becomes active also, so prices gradually rise up. In short, the market in this month never becomes very prosperous. The total exchange is only approximately 140,000 tons being more than 50,000 tons less than April and 40,000 tons less than the preceding month.

MATCHES

The sale of native matches has been increasing in the last few years enormously. Nearly all demands of large inland cities are furnished by native factories. In fact there is no need of foreign matches.

"Phoenix" matches are made in Sweden and have certain sales. "Chien Kun" 乾坤 and "Fairy" 金人牌 are long out of stock, while others such as "Monkey" 猴牌, "Dragon" 盤龍 and "Cloud Stork," 雲鶴 are greatly hindered in their business by the boycott. In June "Dragon", "Cloud Stork" and "Monkey on Horse" 馬上猴 are lacking of supply.

TIMBER

Our country is rich in the resources of timbers. Such provinces as Szechuen, Fukien, Kwangtung and Kiangsi are famous for the production of wood. However, owing to the difficulties in

transportation and poor methods of manufacture, the market is full of foreign timbers and their products. The quantity imported every year besides railway sleepers amounts to approximately (1) Hardwood: 46,000,000 sq. ft. (2) Softwood: 231,000,000 sq. ft. The total value is about HK \$11,900,000 (The Maritime Custom Returns of Trade, 1922). These are largely imported from America, Japan, Singapore, and Philippines. A certain small quantity comes from other countries. The market in this season is briefly stated as follows:

OREGON PINES: In the beginning of April, there is only a very little stock but the demand is intense. Although Robert Dollar Co. and China Import and Export Lumber Co. take in some 1,000,000 sq. ft. yet that is not sufficient for distribution. Consequently, the price is continually rising. More imports arrive in the latter part of the month but they are lasting only a very little while. Until May the weather turns favorable for construction work, so the demand becomes even more urgent. Since that time to the end of June though sometimes the amount of sales decreases a little, yet due to the small stock and the stringent condition in the New York market, its price remains constantly high.

LUAN: That kind of wood is a product of Philippine Islands and has a fairly good sale lately, because the construction work in different localities is daily improving and, moreover, the present price of Oregon pines is excessively high being about the same as Luan, while the color and quality of the latter is far superior. Therefore, it is welcomed by a great many people. In April and May both the stock and import are large, but the market does not suffer. Its sale becomes suddenly less and price turns to decrease in the middle of June on account of the Dragon Festival and the continual imports.

TEAK: The market of teak gradually drops down from April to June, because the high quotation reduces the number of orders. Fortunately, its stock is not very great, so the price remains at \$210.00.

HARDWOOD, PLANK: Its business is quite good in the beginning of April but the continual imports prevent it to reach the highest point. Both sales and imports are greater in the latter part of the month, but its price rises owing to the influence of other timbers and remains high until the beginning of May. Later on new goods become suddenly increased. As the demand turns less, its price has been dropping down continually to the present.

OREGON PINE T. & G. FLOORING: In the middle of April, there is only a little stock of first grade Oregon Pine T. & G. Flooring. Local products are not as good as imports, so the price is continually high. The second grade T. & G. Flooring has more imports, but as the product of local sawmills is sufficient to meet the demand, the price is always moderate. Its market remains unchanged until June during which an adverse tendency comes owing to the bad sales and high prices.

JAPAN PINE: This wood hitherto goes on in parallel with Oregon Pine. Recently its demand is suddenly decreased, because the price of native pine is cheaper and construction firms generally take it in stead of Japanese pines.

DYES

The market of aniline dyes in this season seems very weak. During February when the French occupies Ruhr, people think that the supply may be ended, so most local firms keep stocks for advance in prices. This has a quick effect upon the rise of prices. However, until April imports still come continually and, moreover, the unsettled condition of the country causes the customers in different localities to place few orders. As the sale to outports becomes less and the stock is ever increasing, it is natural that the excessive supply induces the market to decline. Until in the middle of June the Dragon Festival is at hand, so the market becomes more dull than before and prices decrease to a considerable extent.

Sulphur black and Sodium sulphide are hitherto mostly Japanese. Since the recent boycott the sale to outports and inlands almost ceased and local business becomes also very little, but, on the contrary, the lacking of raw materials in the producing country makes imports very few and prices are rising in spite of the boycott. The market of German sulphur black is fairly good and its quotation is rising also. Though certain imports of sodium sulphide come from other countries besides Japan, yet owing to the heavy freight they have a difficulty for sale. Only Japanese sodium sulphide is actually exchanged on the market, but its supply consists only some hundreds of cases per month, so every cargo is sold off immediately upon its arrival. Its price is steady being about five and half taels per pound.

It is told by experts that the future market of dyes has little chance even if it is not hopeful.

On the contrary indigo has an entire different market. Its price is rising step by step. The reason is because the stock of American indigo has been long finished and the German stock is also not large enough. However, the demand from outports is growing daily, which causes the stock less and less. In the beginning of June, although the imports are quite large, yet the demand from various places is so great that the supply is still not sufficient. At present, the stock is very small. M. L. B. and Badische which have the finest quality are sold at \$5500. Business men have generally an optimistic view as to the future market.

CHEMICALS

The market of chemicals during this season partly due to the weather and partly to the condition of the country shows a great variety in the amount of sales and the degree of prices. The chief chemicals are as follows:

Acids: The most useful ones are sulphuric, nitric and hydrochloric acids. Other kinds such as boracic and carbolic are confined to the use of certain factories. Sulphuric acid has its largest sale in May. A. B. Burkill & Sons is the agent of Kiangsu Chemical Works which is under the British management and has a monthly output of about 400 cases. As this quantity is not sufficient to meet the demand, the Japanese "Butterfly" and "Two Flags" sulphuric acids contribute a great part of the supply. Sulphuric acid is greatly needed by pharmacies and mints in outports and local

silversmith shops. The demand for that acid is constantly increasing. Every month's import consists more than 1000 cases, but it is far from enough distribution.

The price of nitric acid is quite steady. The common kind is 40 degrees, while that of 48 degrees has not much sales. Most stocks of nitric acids in Shanghai belong to Mitsui Bussan Kaisha, Ltd, because customers have deep confidence in the commodity of the said company and there is no possibility to compete with it for other brands.

Hydrochloric acid has a comparative small sale. No great quantity is demanded by straw board paper factories and tanneries. The original price in Japan is also decreased, so the prices for the sales of both prompt and forward deliveries drop down.

Acetic acid has a high price during the first part of April, because its stock then is not sufficient to meet the demand. Although the second class good is cheaper, yet it is too weak in quality. Until June the price becomes even higher. That American acetic acid of 96 degrees has a fairly good business. Most of them are bought by paint and varnish factories. During this season, the amount of sales is greater than the last.

Boric acid powder achieves no great business as the work in egg factories is usually stopped in the summer. Some small wholesale orders are received from interiors, but these do not amount much. In view of the big stock, its price is tending to drop down.

Carbolic acid has an unusual high price. In the last winter it is forty dollars per pound, but since this spring it has been continually increasing to \$75. Since the American supply is suspended and the stock has been all sold off, people even have a difficulty to buy it.

Alkalis: Caustic Soda has a very wide use especially in soap works. In the middle of May its price decreases a little because a great American cargo arrives. The "Moon Brand" of Brunner, Mond & Co. still maintains a good business in spite of the higher price, since it has enjoyed a long reputation in China. Until June the price gradually drops down and this tendency becomes more apparent in the end of the month. It is partly due to the bad weather because of which the production of soap works and mercerized cotton factories becomes less and partly to the unsettled condition of the country.

Pure soda is declining but its price is yet steady. Although the "Sun Brand" pure soda is a British product, but because it has a comparative inferior quality and is sold by Suzuki & Co., it is subject to certain influence of the recent boycott against Japanese goods.

The "Moon Brand" of Brunner Mond & Co. has a fairly good business and the "Ling Brand" of Mitsubishi Shoji Kaisha, Ltd., is next to it. Until the end of this season, the business of pure soda decreases on account of the weather, but except Japanese goods prices are still steady.

Crystal Soda is the crystallization of soda and water. Its price increases correspondingly with that of pure soda. It is chiefly used for washing boats in the warm weather, so it has little use in winter and spring. The present quotation is about three taels per two hundred pounds, being lower than the last year price which is about four taels.

Soda, silicate of, has the widest use among soap works and glass factories, but now the latter manufactures a great part for itself. It is still able to maintain its price, because it has only a small stock. The finest brand is the "Three Angles".

Soda, sulphide of is mostly used in dyeing and has only little business during this time of the year. It will not easily restore its business in view of its large stock.

Bleaching Powder: It has the largest business in this period. Formerly customers welcome very much the "Sun Brand" which is made by Japanese and has an excellent quality. Since the boycott, people have generally changed to use western goods. The American bleaching powder quickly seizes this opportunity and almost holds monopoly on the market. Though its quality is not as good as the "Sun brand", yet it has a cheaper price. Other Japanese brands such as "Chi Shin" and "White Deer" are sold at about \$37 only and little quantity is brought by local factories. In the beginning of June the market of bleaching powder becomes quite prosperous owing to the big demand of outport customers and local dyeing factories. As the future demand is likely to become less, its price remains stationary.

Oils: Coconut oils are largely demanded by soap works. Although the market in this season is not as prosperous as in the last, yet it is by no means bad. The quantities sold to Hankow, Chefoo and local soap works amount fairly large. Its price is steady because of the original high price. The "Old Three" and "Lantern Brands" are imported from Singapore. Those which come from Manila are packed both in barrels and tins. The stocks of both kinds have exhausted, because that oil melts into fluid in the warm weather and the tin cans frequently have small holes, so as the summer is drawing near, business men must try to sell off tin cans quickly and import barrels only.

Citronellae oil is also used by soap works. Only a small stock exists in this period, so the price is very high and no great quantity is supplied. The first and second classes of that goods are scarce. Most soap works contract to buy it beforehand, because of the cheaper price in the sales of forward delivery.

The stock of the old brand of turpentine has long finished. There are more than ten new brands which are largely American and sharp competition exists among them. The price is dropping continually being different greatly than the old "Pine Brand". Business men have met a heavy loss due to the immense stock and the continual imports.

Native gum rosin due to the poor method of manufacture is not fit for industrial use. In this season a very large quantity is demanded by soap works and carbolic acid factories, so it is necessary to rely upon imports. The price is higher and higher.

Soda Bicarbonate is a requisite for making mineral waters and antiseptic substances. In this season it has a fairly good demand and a high price.

Glycerine goes largely to cigaretties factories. Its price is steady. The quantity in tins cans used for toilet articles is small.

Potassium ferrocyanide has a good demand. Its stock is small and price is high. There is only Japanese cargo on the present market. American cargo is out of stock.

PAPERS

Papers are the one of staple imports. The quantity imported every year exceeds 1,000,000 piculs having a total value of more than \$10,000,000. These are largely imported from Europe and America and next Japan. In the recent years numerous firms engaging in paper business have been established in Shanghai and the paper trade is growing very rapidly. However, during this year, on account of the incessant political turmoil, the market is exceedingly dull. The chief kinds are given below.

White Card Board Paper is used for making cards and is not the same in kind and quality. That which weighs 100 lb. per ream has the widest sale. In April and May its price continues steady but since June it has fallen by 1 cent per lb. owing to the additional imports.

News Printing Paper occupies the first place in paper business. In this season it has a large stock and a normal price. Western papers fall by 8 cents per ream, whereas Japanese papers have only a very small sale.

Coated Litho paper is used extensively during the end of years for making calendars and almanacs. At the present period its demand is small and price continues to decrease.

Flint Glazed Paper is classified into two kinds according to the size and has all sorts of colors. However, its quality is not strong and is only used for making toys. Its price is steady during this period.

M. G. Cap Paper has the widest use in printing business for making text-books, advertisements and receipts especially that which weighs 17 lbs. per ream. In April and May it arrives continually and its price is normal. Until June the imports become suddenly less and the price increases accordingly to a certain extent, since it has a fairly good market at that time.

Match Paper, Blue Candle Wrapping Paper and Cotton Wrapping Paper have a pretty good sale in the recent years, because the increasing production of native matches, candles and cotton, makes the demand of these three kinds of papers immensely large. Referring to its market in the present season, the price in May is a little lower than that in April, while in June it rises about \$0.1 per ream.

Kraft Paper has a strong and thick quality. Its demand lies chiefly in those big business houses who use it for wrapping goods. Its business in this season is about the same as that of the preceding three kinds.

White Printing Paper has almost an equal demand as news printing paper. During this season its business is quite the same as that in preceding years and has little change in prices.

Simili paper is largely imported from Japan. In May and June its price is a little lower than that in April.

Straw Board Paper is extensively used for making covers of foreign books, paper toys, boxes etc. It has various kinds and is classified into Nos. five, six, eight, twelve, fourteen up to forty-eight. Its chief source of supply is Japan. Recently that kind of paper is also produced in our own country. These native products have a good demand for that kind of quality and a cheaper price, so Japanese paper becomes less and less and a big stock is left in Shanghai.

White Foolscap Paper is commonly known as writing paper for making exercise books to be used by schools, foreign firms, banks and native big firms. In this season, its price is steady and no great degree of rise and fall is happened to its price.

The above kinds are the main ones. Others which have comparatively small sales are omitted.

TOBACCO

The price of tobacco depends wholly upon the rate of exchange. Not only imports are so but also the cost of native products is based on it, because native tobacco leaves are not as good as imports and must be mixed with some foreign tobacco leaves in making cigar and cigarettes. In April and May the price is stationary, while in June owing to the fluctuation in the rate of exchange the cost of production turns higher, but the price remains about the same as before. The different kinds of tobacco are as follows:

Cigar: Recently native and German products are very abundant and the market is exceedingly dull. Tobacco shops take a great delight to sell German and native products, since they can get more profits out of these two kinds. Consumers welcome them mainly because of their decoration. The various tobacco factories in Manila whose products are considered to be the old brands in China, have tried to compete with them by improving their quality and reducing their prices. But as the wages are continually rising due to the increase in the standard of living and laborer strikes happen so frequently, no definite plan has been adopted. The Shanghai Tobacco Merchants' Guild has tried all means to maintain the business of Manila cigars and this gives a certain measure for preventing any great change of the market. However, the shops inevitably sell Manila cigars at discounts. Fortunately, a great quantity is purchased by the customers of Chihli, Shansi and the territories along the Yangtse Valley. The damage caused by insects during this rainy season is less than that in the last year. In this period, Londres, Excelentes and Especiales have comparatively better sales. Londres has been selling a number of years in China and has a good reputation. Although certain other brands such as La Emperatriz, La Union, El Vencedor Flor de Ancoras, La Cabana are in equal supply, yet they are not widely distributed to a great many places. The sale of Excelentes and Especiales has also a good profit. During the great war a profit of \$0, 50 per case can be obtained by the sale of Nuevo Cortado, but now a loss of a few cents is occurred. Golden 555 is demanded as Christmas gift and has very little sale in this season. Compania General de Tabacos de Filipinas and Havana Cigars have likewise little sales. In the middle of May the Tobacco Merchants Guild decides to carry out reduction sales for three weeks, but as the sale of cigar has only a

very little profit, the prices decrease from twenty to a few cents only and rise quickly to the old state after the period is over. In the end of June, the wholesale price of Golofina Perfectos, owing to the lack of supply, rises from thirty to fifty cents. Other kinds are normal. Very little profit or none is obtained from the sale of new imports because of the high cost. There is little hope as to the Autumnal market.

Cigarettes: There are almost several thousands kinds of cigarettes. The sale of "Bridge" has been greatly increased since its reduction in price. It is pushed on energetically. Although there has been once an increase in its price, yet its business is not a little impaired. "Old Mill" is greatly hindered by "Victory" and "Welcome". Though a temporary prosperity is seen in the last reduction sale, yet now "Bridge" has become its equal competitor. The "Washington Brand" of Tobacco Products Corporation has a fairly good quality and a moderate price. It has a fairly good business and is capable to compete with "Chienmen Grande". "Chienmen Grande" has quite an active sale, since it has been pushing very hard. Recently an additional show room is opened. Until May the price of "Commander 10" rises very high, since its supply is finished then. "Ruby Queen" remains as prosperous as before and is not a little impaired by any new brands. "Pearls" (Nanyang Brothers Tobacco Co.,) has a quite deep attraction in a certain period of time chiefly due to the present, as the smokers generally say that its quality is inferior to the "Great Wall". "Chesterfield" is mainly sold to foreigners. In June the stock becomes very small, so its price is rising daily. One Eleven "I 11", 20' gradually comes to take its place. As the Dragon Festival happens in the latter part of June, all cigarettes shops demand great quantities. Prices become a little disturbed especially during the end of the month. The prices of "Garriek", "Capstan Navy Cut Magnum" and the "Three Castles" increase from three to four cents differently. Since the end of the month is at hand, local cigarettes shoppes do not place large wholesale orders with the companies, but buy small quantities at different prices on the market. This has a temporary effect upon the rise of prices. The Nanyang Brothers Tobacco Co. has the most part of our native tobacco business, but it is learned that their business in this year is not as good as that in the last year. The reason that the agents are willing to sell their products even at a loss is because of the ordinary allowance and the bonus in the end of the year.

Tobacco Leaves, Prepared: The sale of tobacco leaves is far less than that of cigarettes, so their prices sometimes remain unchanged even after one or two years. The present quotations are steady and there is no suspension in the arrival of imports.

Tobacco Leaves: The International Tobacco and Universal Leaf Tobacco Co. are the two firms who are specially selling tobacco leaves. The former deals largely with cash sales and has cheaper prices, while the latter carries on time transaction and has a higher quality but dearer prices. The International Tobacco Co. finds its patronage mostly in big factories. As the maturity of tobacco leaves reaches in June and August, so new goods come continually after September and reach the highest amount in December. During this period, April has a little business while in May and June the market is exceedingly dull. Since the rainy season happens then, all factories avoid to

keep large stocks. The price of tobacco leaves is wholly based upon the rate of the American gold dollar.

DRUGS

Our druggists have not yet organized large guilds or associations, so most dispensaries and drug stores order goods direct from foreign countries or buy from the agencies. The amount of drugs produced here is very small and, moreover, most famous drug manufactories belong to foreign merchants, so the drug business in this country is entirely in the hands of foreigners.

During the great war the European countries are busy in military affairs. Industries come to a standstill and export business almost stops entirely. Japanese merchants thus import a great quantity of drugs into this country and are nearly able to drive all western products out of the market. Now commerce in these countries has gradually restored its former condition and imports again arrive continually. Recently, there has been a great increase in German imports which have very moderate prices. English and American products are all quoted reasonably. On the other hand, Japanese drugs have very high prices, so their demand is becoming less and less. The markets in April, May and June are as follows:

Seasonable Drugs: In this season the rainy and damp weather easily causes people sick, so drugs have a greater business then. The market is full of Naphthaline. As cholera and malaria fever are extremely common, Cholera Drops, Chlorodyne, Quinina Tablets are bought in large quantities by most families. Hospitals need urgently such articles as Brandy, Port Wine, Amp. Liquor Camphoral Sterilisatus, Amp. Liquor Morphine Sterilisatus, Dover's Powder, Tincture of opium, Tincture of Camphor and opium mixture, Solol, Quinine Hydrochloric, Emetin Hydrochloric, etc.

Wide-selling Drugs: Shanghai is highly densely populated and venereal diseases spread far and wide. During this rainy season such drugs as Neosalvamsan, Kali Jodati, Gonococcus Serovaccin, Oil Santali and other pharmaceutical goods have had very wide sales.

Foreign Drugs on the Market: The European countries have long restored their foreign trade. Japanese drugs have almost lost their former prosperity entirely. German, American and English drugs are on an equal footing. E. Merck Dunstadt sells the most German drugs. Allen and Hanburys, Ltd. is the agent of many large English drug factories whose products have great sales here. American drugs are largely sold by H. K. Mulford Co. and Lilly. Japanese drugs both are defeated in the competition and hindered by the boycott. Swedish drugs are sold also to a quite large amount while the products of other countries have very little influence on the market.

The Change in the Price of Drugs: The rise and fall of the prices of drugs are chiefly due to the following two reasons:(1)As there are only a few hospitals in China and our chemical industry is not developed, the use of drugs is quite limited. When the market is full of supply, it takes a very long time to dispose of the stock and price will only rise after the supply is finished. Consequently, a peculiar condition prevails here that the local market price is lower than the current price

in Western countries. (2) The price of drugs is based upon the cost which is again decided by the rate of exchange. The reason that the price of drugs remains unchanged during this season in spite of the great fluctuation in the rate of exchange is due to the first cause.

Besides those mentioned above, Carbolic and Salicyl Acids have a very great demand. Most local products are shipped to Japan. It is hard to say whether this is due to a right purpose or to speculation. Although their prices here are cheaper than the current prices in Europe and America, yet they are tending to rise. Other drugs remain steady.

MISCELLANEOUS

SOAP

The soaps of Burkill & Sons, Lever Brothers (China) and J. Crosfield & Sons have been hitherto the great part of supply. That Gassages Honey Soap of Burkill & Sons is now also manufactured in Shanghai. It has a very large sale in summer. During this season its price has little changes. It is quoted at ¥4.52 and ¥4.90 per case respectively. The "Sunlight" laundry soap of Levers Brother is quoted at ¥5.22 and the "Umbrella Brand" of Crosfield & Sons is ¥4.75. Native products are gradually becoming prosperous and many soap factories have been established both in-port and out-port. The sale of foreign soaps seems to decline.

CANDLES

The "Prices" candle has fine qualities and wide sales. That "Crown Brand" of A. P. C. is the next. At present the former is also produced in Shanghai. A. P. C. is its agent. In the beginning of April its quotation rises \$2.50 per case. That of 12 oz. is sold at \$4.25, approximately equal to ¥3.06. This price remains unchanged till the end of the season. The price of 12 oz. "Crown Brand" is about ¥4.05, nearly equal to ¥1.91. It also meets no changes. Native products are now manufactured by Hwa Lee 華利, and Chung Hwa 中華, but they are inferior in quality and have not much sales.

NEEDLES

On account of the disordered condition of the country, the market of needles is exceedingly dull during this season. The customers of Szechuen and Hunan have long stopped to purchase. Only a little quantity is shipped to Hankow and inland. German needles have comparatively better sales, while Japanese needles are sold little.

ENAMEL BASINS

Enamel basins are the necessary daily articles and have big demands. Their supply has been largely Japanese. Western imports are the next. Since the boycott, Japanese imports cease to come, while the quantity imported from the West is very little. Thus native products are able to make good sales. The plain enamel basin, 30" of China Enamelling Co. Ltd., is quoted at ¥21.00 per case.

UMBRELLA

Umbrella has a wide demand in this season. Its greatest quantity is imported from Japan and next Great Britain. Since the boycott the sale of Japanese imports becomes very weak. However, the demand of British imports is confined to certain places. Consequently, native products have increased in its sales. At present, the superior 2-2/3" Umbrella is sold at \$12.50 per dozen and the second grade is at \$9.00 per dozen.

LANTERN

Lantern has an extensive sale in the Yangtse Valley and such interior places as Kashing, Huchow, Soochow, Changchow, and Wusih. All their supply comes from the West, particularly Germany. That of Melchers China Corporation has fine quality but higher price. That white lantern, No. 222 is quoted at \$10.60 per dozen and that of brass color is at \$7.70. Certain native products are supplied by Yao Ming 耀明, but they are inferior in quality and have only small sales. They are sold at \$40.00 and \$34.00 per case (five dozens) for the first and second grades respectively.

ICY-HOT FLASK

Icy-hot Flask is used extensively in travelling. It has little sale in summer and its price is decreasing step by step.

MATS

Mat has great demands in this season. Unfortunately, our old fashioned mats are inferior in quality and lack of good appearance. Among imports, Japanese and Formosa mats consist the staple quantities. However, in recent years Japanese mats have been repeatedly and seriously hindered. Native factories have been established in Wenchow, Ningpo and Yu Yao. Their products are as good as imports and are quoted at moderate prices. In this season, the sale of Japanese mats is stopped since the boycott. Formosa mats are quoted very high and their demands are limited to some big cities.

PANAMA HATS

Panama Hats are very fashionable in Shanghai, but as their quotations are exceedingly high they have met the same condition as that happened to Formosa mats. The sale of native products has now almost reached to the whole country. Factories for making hats exist in many cities. Their sales are equal to that of native socks and stockings.

ELASTIC WEBBING

Among that kind of goods that of Julinswill Sons & Co. has the finest quality. In April and May it is quoted at about \$20.50. In June as the supply becomes too abundant, its price falls to \$18.50. Other brands such as Bay Chong and Co. and Melchers China Corporation decrease in their prices also.

PLAYING CARDS

Playing cards have lately a wider circulation than Ma Jang sets in this country. America furnishes the most imports. The No. 808 Bicycle playing Cards have a very good sale. In April, it is quoted at about \$37.30 per gross. Owing to the continual imports, its price falls about \$1.00 in May and June.

TOILET ARTICLES

The sale of toilet articles changes in accordance with the season. Such articles as Ponds Varnishing Cream, Horzeline Snow and La Valliere Cream have very good sales in winter, while face powder, perfumed water and toilet soap are sold more in summer. Thus the quotations of Varnishing Cream and Horzeline Snow decrease about \$1.00. The French No. 773 Savon Santal face powder are sold extensively in summer. In this season due to the continual decrease of French exchange they are able to sell at cheaper prices and have even more prosperous sales. Eclat Soap is about \$1.80 in cost and is sold at equal price with Savon Santal. But then as the latter continually decreases in its quotations, the business of the former is greatly hindered. Talcum powder has good sales now. Perfumed water is largely imported from France. It has also a large demands. Dental powder and tooth paste are necessary daily articles. In this kind of goods native products have better sales. The famous ones are the "Tiger Brand" of the Sincere Co. and the "Girls Brand" of Kwang Sung Hong and the "Butterfly Brand" of The Association for Domestic Industry 家庭工業社.

The Shanghai Market

貨物花色		DESCRIPTION OF GOODS
番鉛絲	六號至十號	Galvanized wire shorts or ends, 6-10
洋元頭	三吋至四吋	Round iron shorts or ends, 3-4
踏皮頭	一時至二吋半	Hoop iron ends, 1-2 1/2
打包鐵皮		Hoops
熟生鐵		Old Cast Iron
孟林圓鋼	徑四吋至一時二	Mild Steel Round Bars, 1-1 1/4
??	徑一時半	?? ?? ?? ?? 1 1/2
??	徑二吋	?? ?? ?? ?? 2
??	徑二吋半	?? ?? ?? ?? 2 1/2
??	徑三吋	?? ?? ?? ?? 3
扁鐵	厚二吋	Flat Bars, 1 1/2
??	厚三吋	?? ?? ?? ?? 3
??	厚四吋	?? ?? ?? ?? 4
三角鐵	邊寬二吋	Iron Angles, 2" wide
??	??二吋半	?? ?? 2 1/2
??	??三吋	?? ?? 3
法西釘	長一時至六吋	Wire nails, countersunk, checkered, 1-6
花旗釘	長一時半至六吋	Cut Nails, 1 1/2-6
黑鐵管	徑二吋 長十八呎以上	Tubes, ungalvanized, 2" in diameter, above 18 ft. long
??	徑二吋半	?? ?? 2 1/2
??	徑三吋	?? ?? 3
??	徑四吋	?? ?? 4
長塊剪口鐵		Plates cutting
鐵子鋼釘	粗五吋	Panhead Rivets, 5
??	粗六吋	?? ?? 6
鐵子鋼板	厚三吋	Boiler Plates, 3
??	厚三吋半	?? ?? 3 1/2
??	厚四吋	?? ?? 4
船鋼板	厚半吋	?? ?? 1/2
??	厚一吋	?? ?? 1
??	厚一吋半	?? ?? 1 1/2
??	厚二吋	?? ?? 2
百司黑鐵釘	三吋	Blued cut tacks, 3
??	四吋	?? ?? 4
??	五吋	?? ?? 5
花馬口鐵		Tinned plates, decorated
九十磅者馬口鐵		?? ?? plain, 90 Lb.
白鐵釘		Tinned Tacks
黑鐵絲	八號至十六號	Iron Wire, 8-16
粗細鋼絲	(黃牌)	Steel Wires
六股十二號鋼絲繩	周一吋半	Steel Wire Rope, 1 1/2 in circumference
??	周二吋	?? ?? ?? 2
番鉛絲繩		Old Wire Rope
器具用鋼彈簧鋼		STEEL, TOOL AND SPRING
竹節鋼	徑二吋至一時	Bamboo Steel, 1-2
黃牌器具鋼		Tool Steel, Yellow Brand
藍牌		?? ?? Blue Brand
