## MADE NO ATTEMPT TO RECAPTURE NEUVILLE

Last Night Germans Merely  
Bombarded New Position  
Held by French

## FRESH PROGRESS MADE IN "THE LABYRINTH"

Joffre's Forces Are Holding  
Ground Gained in Vicinity  
of Hebuterne

London, June 10.—The French continue to report progress and the repulse of German counter-attacks. The French state, and Berlin admits, that the French now are in occupation of the entire village of Neuville St. Vaast, while only a fraction of "The Labyrinth" is left in the hands of the Germans.

Paris, June 10.—The French war office this afternoon issued the following report on the progress of hostilities:

"All last night there was a very violent artillery engagement in the region between Lorette and the sugar refinery at Souchez. At 9 o'clock it night the enemy delivered an attack, which was repulsed at once.

"The Germans bombarded Neuville St. Vaast, but they made no endeavor to recapture it. We made further progress yesterday in 'The Labyrinth.'

"In the vicinity of Hebuterne we maintained all our advance on a front of 1,800 yards long and for a depth of about 1,000 yards.

"There is nothing further to report from the remainder of the front."

## HAD TO GO, DECLARES VOSSISCHE ZEITUNG

German Newspaper Says That  
Bryan Did Not Measure Up  
to Requirements

Berlin, June 10.—Secretary Bryan's resignation was the day's sensation here. It was heavily headlined in the papers, which printed columns of editorials and reviews on Mr. Bryan's career. The Germans always have regarded him as largely responsible for the alleged pro-British policy at Washington.

The Lokal Anzeiger urges a suspension of judgment until the facts are known, and scouts the Reuter report that the cabinet break was caused by Mr. Bryan's greater inclination for a peaceful compromise of the Lusitania case. It says:

"To be sure, by reason of his pacifist views and fondness for arbitration ideas, Mr. Bryan justly may be regarded as the exponent of a softer answer to Germany, but we are inclined to doubt whether Bryan represented a more peaceful direction only because of his love for Germany. There were personal bonds that chained him to Britain."

It concludes by expressing the belief that the break between Wilson and Bryan was over the means rather than the end.

The Vossische Zeitung says in part: "The moment of the resignation lends some significance to it. Of course, it is only too apparent, and everybody in the United States knew it long ago, that in a time which demands as much expert knowledge of diplomats as it imposes responsibilities upon them, a man like Bryan had to go from the post of directing foreign affairs."

"It was natural that as the world war made itself more and more felt in the United States, President Wilson should take the matters of foreign affairs into his own hands. The president was considered to be the author of the various American notes, harsh ones to Germany, weak ones to Britain. Bryan's resignation indicates serious differences with the president over the note to be sent to Germany and presumably that to be sent to Britain."

"Moreover, the postponement of the note to Germany, the contents of which were dominated by Bryan, already have been printed in the British papers, pointed to differences at Washington."

"One does not go far wrong in assuming that the theory-loving Wilson, not seen in the sinking of the Lusitania, the whole question of submarine warfare and (deleted by censor)"

## ANOTHER STEAMSHIP SUNK BY SAVAGES?

London, June 10.—The Atlantic steamship bound from Liverpool for Tampa, has been torpedoed off Spanish waters, according to a dispatch received here this evening.

## MONFALCONE TAKEN BY ITALIAN FORCES

Victor Emmanuel's Soldiers  
Fought With Ardor and Tenacity, Says Official Report

## POSITIONS IN REGION OF MONTE NERO CAPTURED

Advance Made Near Monte  
Croce; Austrians Abandoned  
Strong Fort

Rome, June 10.—The efforts of the Italian troops to force a passage of the Isone river are being contested stubbornly by the Austrians, but are meeting with success, according to a statement signed by General Cadorna, chief of staff, issued by the war office to-night. The following communication follows:

"With the object of repulsing the enemy from dominating positions he still holds on the right bank of the Isone and establishing strong positions at the passages of the river, we continued our operations on June 7 and 8. The enemy offered a determined resistance, favored by the formation of the ground and strong fortifications. Our passage was made difficult by numerous obstacles placed on the bridges and the roads and also by the flooded ground along the lower course of the river.

"Everywhere our troops fought with ardor and tenacity, and succeeded in taking important positions which enabled us to occupy the city of Monfalcone. The fire of our batteries considerably damaged the enemy's artillery at a number of points.

"In the difficult region of Monte Nero a successful attack on our part led to the occupation of positions from which the Austrians fled, leaving 100 bodies which we buried, and 60 wounded.

"Near Caporetto seventy Bosnian soldiers surrendered.

"In other regions along the Isone we made over 400 prisoners. Our losses were unimportant. Prisoners state that the Austrian losses were considerable."

"On the Tyrol-Trentino frontier our forces continue in close co-operation their action against positions which must be occupied in order to force the enemy to disclose his defensive preparations and to permit of the development of ulterior operations."

"Notwithstanding the resistance of the enemy our troops have approached beyond the frontier, close to Falzarego Pass, at the foot of the Sasso di Stria."

"A victorious action was fought ten kilometers (about 7 miles) north of Cortina d'Ampezzo. A piece of artillery remained in our hands."

"In the neighborhood of Monte Croce fighting has been going on for several days for the important position of Freikofel, which the Austrians have defended desperately.

"Our Alpine troops definitely took it on the evening of the eighth, making one hundred prisoners."

"Verona, June 10.—The Italian troops which are invading Austria through the Arsa valley towards Rovereto, to the south of Trent, have discovered that the Austrians abandoned Fort Possaccio, two miles north of Matsone, which is rated as one of the strongest Austrian forts in that region."

Vienna, June 10.—Admission that the Italians are making progress along the Isone river was forthcoming from the war office here to-day. Heavy guns are being moved to Flumse, where the fortifications are being strengthened.

The population of Gorz, according to today's statement, has been ordered to evacuate the city.

London, June 10.—According to Vienna, the efforts of the Italians to cross the river Isone, near Gorz, have been repulsed after a serious engagement.

## GRAMPIAN LANDS TROOPS SAFELY IN OLD COUNTRY

Montreal, June 10.—The Allan liner Grampian, carrying Canadian troops, arrived at Plymouth, England, last night without mishap, according to advices received here to-day.

The Grampian left Montreal on June 1. The majority of her passengers were soldiers from western Canada. The main body was the 5th Battalion (Winnipeg). There were also reinforcement drafts from the 43rd and the 4th Battalions (Brandon and Winnipeg), and a party of 50 medical men who are going to join the R. A. M. C. at the front.

## NEW VOTE WILL BE DISCUSSED ON TUESDAY

London, June 10.—Mr. Asquith announced in the House of Commons this afternoon that a further vote on the new vote would be discussed on Tuesday next week.

## GERMANY'S REPLY ON SINKING OF FRYE

Huns Claim Right to Sink Any  
American Ship Carry-  
ing Contraband

Washington, June 10.—Germany's latest note to the United States on the sinking of the American sailing ship William P. Frye, by the Prinz Eitel Friedrich, received here to-day, makes the far-reaching claim of a right to destroy any American vessel carrying contraband, while agreeing to pay damages for the act.

Two points made by the United States are rejected by Germany—the statement of the American government in its note of April 2 that prize court proceedings meant unnecessary delay, all matters concerned being susceptible of prompt settlement through diplomatic channels, and the charge that the destruction of the Frye "unquestionably was a violation of the obligations imposed upon the imperial government under existing treaty stipulations between the United States and Prussia."

Under the Prussian-American treaty of 1828, the binding force of which was admitted by Germany in its note of April 5, the right of citizens of either country to ship arms and ammunition as well as all other kinds of contraband in their own vessels was granted in time of war, but each party had the right to detain such contraband and make payment for it if confiscated.

The note from Germany to-day enlarges upon the treaty of 1828 by claiming that while the treaty did not specifically permit the destruction of a ship, nevertheless its contraband could not be stopped in any other way. It could "in extreme cases be effected by the destruction of the contraband and of the ship carrying it."

The effect of Germany's answer to-day, if its assertions are accepted by the United States, would be to throw into the prize courts for decision all cases involving the point as to whether destruction of an American vessel constitutes an extreme case of military necessity.

International law, according to the stipulations, has contained many a mooted case on that point. While the Declaration of London established clearly that in case of military necessity a ship whose cargo was more than half contraband could be destroyed after passengers and crew had been removed to a place of safety, the declaration was not ratified by the United States, express notice having been given again by the American government to Germany in the note of April 28 that the declaration was not regarded as in force.

In its note to Germany, the United States government stated that the Frye case was transferred from the prize courts to the prize courts of the United States in order to expedite settlement.

## DEWET BEING TRIED AT BLOEMFONTEIN

Pleads Guilty to Charge of Sedition; Three Judges Sitting

London, June 10.—"General Christian Dewet, one of the leaders in the rebellion in South Africa against Great Britain, pleaded guilty to a charge of high treason, but guilty to a charge of sedition at the opening yesterday of his trial at Bloemfontein," says a dispatch to the Reuter Telegram company. "The indictment against him is a long one, covering alleged rebellious acts and seditious utterances. Attorney-General Daggas is prosecuting and three judges are sitting."

General Dewet was captured on December 1, 1914, on a farm at Waterburg, British Bechuanaland, whither he had been pursued by a motor car brigade.

## IN SMALL BOAT FOR FIFTY-TWO HOURS

Crew of Trawler Velocity  
Brought to Land; Steamship  
Erna Boldt Sunk

Hartlepool, Eng., June 10.—The members of the crew of the trawler Velocity, which was sunk at sea by a German submarine, were landed here this morning after being 52 hours at sea in a small boat without food or water. The men were in a terrible state of exhaustion when picked up by the vessel which brought them to port.

London, June 10.—The British steamship Erna Boldt, formerly a German steamer, was captured and sunk off Harwich by a German submarine. The members of the crew were saved.

The Erna Boldt formerly was a German steamer. She was captured by the British and put into service. She was of 1045 tons net and 260 feet long, and was built in 1908.

Grimsby, Eng., June 10.—The trawlers Tunisian and Castor were sunk by a German submarine. The Tunisian's crew, which was allowed five minutes in which to leave the boat, arrived here to-day. The Castor's crew was picked up at sea.

## CAMPBELL WILLING TO WITHDRAW NOW

Cabinet Ministers Discussed  
the Lord Chancellorship of  
Ireland To-day

London, June 10.—The ministerial crisis over the proposal to appoint J. H. Campbell as lord chancellor of Ireland was aggravated to-day by the attitude of some of the Unionist ministers, who stated that the Unionists must have a share in the government of Ireland as a matter of principle. For some hours there was an atmosphere of suspicion among the various parties and considerable anxiety in the lobbies. Later there was a conference of most of the ministers who had taken different views on the subject and the situation was relieved somewhat by the knowledge that Mr. Campbell, who is in London, had expressed a willingness to withdraw rather than to continue to be the centre of the political storm. With the consent of both parties he will be offered a fitting post outside the government.

The proposal now is that an Irish nonconformist be appointed as the Irish attorney-general, and Mr. Gordon's name has been suggested. The Unionist members are not quite agreed that this will meet their point of view, but it generally is believed that it will in the end.

The Irish Nationalists are not at all agreed that the new proposal will meet their views, for the attorney-general appoints the reviling barristers, and it is considered that this might prejudice seriously the Nationalist position in the future.

The Nationalist party meets again tomorrow, when its position will be laid before its members. The government is endeavoring to induce the members to take a favorable view of the proposed arrangement.

## LABOR DISPUTES IN THE OLD COUNTRY

London, June 10.—Two serious labor disputes—coal and cotton.

South Wales miners are seeking to terminate the present wage agreement and are demanding increased pay.

The operatives at one cotton mill have stopped work and 20,000 workers in the same mill are affected by the issuance of lockout notices by the masters' federation.

## AUSTRIAN TORPEDO BOAT WAS SENT TO BOTTOM

Geneva, June 10.—An Austrian torpedo boat was sunk to-day in the Gulf of Genoa by a British submarine. According to dispatches received here this afternoon.

## Two Torpedo Boats Sunk by Submarine; Forty-One Survivors

London, June 10.—Two British torpedo boats, the No. 10 and the No. 12, were torpedoed at an early hour this morning off the east coast of England by a German submarine. Both of them went to the bottom. The survivors, forty-one in number, were brought ashore.

This information was given out by the admiralty to-day.

The torpedo boats No. 10 and No. 12 had complements of 35 men each. Number 10 had a displacement of 244 tons and a speed of 24 knots and was 156 feet long. Number 12 had a displacement of 253 tons and a speed of 26 knots and was 172 feet long. Both were built in 1904.

## CANADIAN GUNNERS IN ACTION AGAIN

Lieut. Lancaster Wounded;  
Infantry Brigades Being  
Held in Reserve

## WAR-HARDENED OFFICERS TO INSTRUCT SOLDIERS

Ottawa, June 10.—That the Canadian artillery again is taking a share in the fighting is indicated by a dispatch to the militia department stating that Lieut. Lancaster, a son of E. A. Lancaster, M. P. for Lincoln, has been wounded, but not seriously. Lieut. Lancaster refused to go to the hospital. After putting on a bandage, he continued to direct his men in the fight.

Although the Canadian infantry brigades still are being held in reserve, the wounding of Capt. Allan, of Teuro, N. S., is reported. He probably was hit by a stray shell while at a point behind the lines.

Ottawa, June 10.—The troops in training at the various camps throughout the country are to have the benefit of the experience of officers who have taken part in the fighting in Europe. Major-General Hughes is arranging to bring to Canada for a short period a number of officers who know what modern fighting means, in order the better to fit future Canadian contingents to cope successfully with the enemy. These officers, who will return to Canada on furlough, will include a number who have been wounded. There are many wounded officers, who, while not fit to return to active service for some time, will be well enough shortly to give the benefit of their experience to the officers and men at the various Canadian camps. It is likely that two or three such officers will be detailed for service at Valcartier, Barfield, Niagara Falls, Sewell, Calgary, Vernon and the camps in the Maritime Provinces. The names of the officers to be chosen for this temporary service will be announced in a few days.

## COL. E. M. HOUSE AS SECRETARY OF STATE?

Americans in London Believe  
He Has Been Called to  
Washington

London, June 10.—Americans here to-day were discussing the possibility of Colonel E. M. House becoming secretary of state. Col. House, who had not intended to leave so soon, left in a great hurry and with some secrecy. Until to-day the American embassy carefully refrained from making any announcement of his departure.

Colonel House recently returned from the continent, where he visited Germany and France, seeing high officials in both countries. After his return he settled down for an extended stay, and as the unofficial agent of President Wilson, saw Mr. Asquith, Sir Edward Grey and virtually all other men of importance in the government.

It is thought that he has been called to Washington on account of the resignation of Mr. Bryan. If this is so, the president foresaw last week what would happen.

## AMERICANS LEAVING GERMAN TERRITORY

Copenhagen, June 10.—Private advices received here to-day from Berlin say that many Americans are leaving Germany for Vienna and Switzerland as a result of the present relations between Germany and the United States.

## TWO SUBMARINES IN PORT; DAMAGED BADLY

Amsterdam, June 10.—A report from Copenhagen says that two German submarines have arrived at Lithau, damaged badly.

Constantinople, June 10.—Constantine continues to-day to show improvement.

## RUSSIANS CAPTURED 2,000 NEAR PERMYSL

Petrograd Reports Enemy Has  
Been Able to Cross Dniester  
at Only One Point

## BREATHING SPACE FOR THE TROOPS IN GALICIA

German Forces in Baltic Provinces  
of Russia Compelled  
to Retreat

London, June 10.—Careful reading between the lines of the various official announcements of the last twelve hours leads British observers of the situation on the continent to the belief that the Russians have been successful in gaining a breathing space along the eastern front. Furthermore, evidence of the stubborn opposition which the Austro-Germans are said to be meeting near the centre of the line in Galicia is declared here to exist in the statement from Petrograd that 2,000 Austro-German prisoners have been taken in a series of counter-attacks near Permysl.

Petrograd reports that the Austro-German forces in Southeast Galicia have not been able to cross the Dniester river at any point other than Zurawno, forty miles from Lemberg, which point they reached last Sunday.

Berlin contradicts this with the statement that the right wing of the army under General von Linsingen has advanced ten miles farther and occupied Stanislaw, an important railroad centre.

London, June 10.—The official announcement from army headquarters to-day states that the German forces which have invaded the Baltic provinces of Russia have retreated. The statement says that the German right wing, southeast of Shavil, has withdrawn to the south, towards the Beisagola-Zoginie line.

Petrograd, June 10.—Confirmation of a report that a German torpedo boat and a transport has been torpedoed off Windau, was given by the war office here to-day. It was stated that still another German torpedo boat had been sent to the bottom and a steamship blown up by a mine.

## KING AT THE FRONT WITH HIS TROOPS

Victor Emmanuel Has Visited  
All Zones Where Fighting  
is in Progress

Rome, June 10.—The presence of King Victor Emmanuel at the front is having a tremendous moral effect upon the Italian troops, according to reports reaching the capital from all sections of the battle line. His Majesty has visited every zone where fighting is taking place, which has meant the expenditure of a vast amount of energy on his part, as the line of advance of the Italian forces is exceedingly irregular and he frequently has had to climb to fortresses upon lofty heights along the frontier. Much of his traveling has been done on horseback, because roads are lacking on a considerable portion of the front. The king is idolized by his troops.

Queen Helena, during the absence of the king from Rome, is giving up all her time to philanthropic and relief work. She is supervising personally the making of supplies for hospitals.

## RECEIVED BY POPE AND PRIME MINISTER

Rome, June 10.—Jans Addams, of Chicago, a member of the committee appointed by the Women's Peace conference at The Hague to visit the capitals of Europe in an effort to hasten the end of hostilities, has left Rome for Madrid, whence she will go to France and Belgium. While here, Addams was received courteously by Pope Benedict, Cardinal Gaspari, papal secretary of state, Prime Minister Salandra and Foreign Minister Sonnino.

### SPLENDID WORK OF ITALIAN GUNNERS

Ammunition Depot at Tolmein Destroyed; Official Report Issued at Vienna

Geneva, June 10.—A dispatch to the Tribune from Laibach says: "The Austrian artillery at Tolmein has sustained heavy damage from the Italian bombardment. The Austrian losses are becoming serious, as the Italian fire is singularly well directed. An ammunition depot at Tolmein has been blown up. There were 200 victims.

"The passage of the Isonzo by the Italians is being effected normally owing to the activity of the pontoon corps, the work of which is undisturbed by the Austrian fire. The Italians are seeking to cross the river at Benzonca, where the Austrians are trying hurriedly to throw up defences."

### REPULSED ATTACKS AND CAPTURED 800

Russians Drove Enemy Back at Point on Dniester; Black Sea Fleet at Work

Petrograd, June 10.—The following communication was issued by the general headquarters staff last night: "In the region of Shavil fighting continued on June 7 and 8.

"In the direction of Kovno, between the Niemen and the Wirballen railway, the enemy made slight progress in the forest of Koslovoruma.

"On the Dniester we successfully repulsed attacks by the enemy on the Zbarzberg-Ildatcheff front during the night of June 7 and the day of June 8, taking over 800 prisoners, with ten officers and five machine guns.

"On the left bank of the Dniester fighting continued against large enemy forces which had crossed the river near Juravno.

"On the 7th the Black Sea fleet bombarded Zunguldiak and Koshu (Asia Minor), destroying coal establishments and quarries and sinking two Turkish steamships that were coaling."

### IMPORTANT GAINS MADE BY JOFFRE'S FORCES

In Possession of Neuville St. Vaast; Progress in "The Labyrinth"

Paris, June 10.—The following official communication was issued by the war office last night: "Very heavy artillery fighting continued in the sector to the north of Arras. We carried last night and this morning the houses in Neuville St. Vaast which the enemy still held. All the villages on the east side are in our hands. Besides, we have progressed up to the north group of houses.

"In 'The Labyrinth' our advance is being followed up, notably in the southeastern section.

"In the region of Hebuterne, notwithstanding a violent artillery fire, we extended our positions around the Touthvent farm.

"In the region to the east of Tracy-le-Mont, at the Quenevillers farm, a counter-attack by the enemy last night was checked completely. We have strengthened all the ground gained by us on June 6.

"On the rest of the front there is nothing to report."

Important successes for the French in Le Pretre forest were announced in the earlier official communique. It was stated that the French had captured three lines of German trenches, inflicting heavy losses on the Germans during the furious assaults.

### FAILED AGAINST ITALIANS

### PRESENTED REPORT TO SIR ROBERT BORDEN

Prime Minister Congratulated Canadian Branch of International Boundary Commission Upon Conclusion of Work.

Ottawa, June 10.—The report of the Canadian branch of the International Boundary Commission appointed in 1907 as a result of the treaty between Canada and the United States, presented its report to Sir Robert Borden at a gathering held in his office yesterday. W. J. Stewart, on behalf of the commission, presented to the prime minister beautifully bound copies of the report with maps. The documents were handed over to Sir Joseph Pope, under secretary of state for external affairs, to be preserved for the Canadian government.

Mr. Stewart, in making the presentation, pointed out that the report was entirely unanimous. The commission had found that there were considerable discrepancies between the American and British maps as drawn up under the Treaty of Ghent, but all the difficulties had been settled satisfactorily.

In accepting the documents, the prime minister congratulated the commission upon the conclusion of its work.

"The fact that the two great nations concerned," he said, "have chosen this method of bringing to a happy conclusion every possible difference over the question of international boundaries is not only an example, but a happy augury of future good relations between the two."

### SUGGESTED THAT OFFICE BE MOVED TO TORONTO

Committee Which Investigated Presbyterian Publications Made Report to General Assembly.

Kingston, Ont., June 10.—The Presbyterian General Assembly yesterday afternoon took under consideration certain questions connected with the official publication of the denomination known as the Record. This monthly has a circulation of 70,000. Its receipts for the past twelve months were \$22,000 and its expenditure \$18,500. A year ago a committee was named to consider matters regarding all the publications of the denomination, which are very numerous. The committee recommended that a new board be appointed to look after this part of the work. It also suggested that the office of publication of the Record be transferred from Montreal to Toronto. It was decided that the subject should be sent down to the Presbytery, from which a report will come to the assembly in Winnipeg next year.

The proposal to amalgamate the boards of Home Missions and Social Service again was referred to a committee. The committee was to report to the assembly to-day. It appears certain that this amalgamation could be brought about this year.

### DECLARES RUSSIAN ARMY IS FINEST HE HAS SEEN

Havre, June 10.—General Dewett, King Albert's special envoy to the czar and Grand Duke Nicholas, has just returned to Havre full of enthusiasm over the Russian army, which he declares is the finest, the best disciplined and the bravest he has ever seen.

"The retreats it has made this year," the general said, "are of no importance. The chief of the grand duke's staff said to me: 'Our army retreated as far as Moscow in 1812. When we retreat it is in order to make a better advance. We must go to Berlin—we shall go there.'

"The same general had informed him on May 14 that the abandonment of Permyst had been decided upon by the general staff because henceforth the place was of no military value."

### OIL WAS STRUCK AT DEPTH OF 3,527 FEET

Calgary, June 10.—At a depth of 3,527 feet the drill of the Southern Alberta Oil company, which has been grinding its way downwards for a year, encountered crude Pennsylvania oil in such quantities that it is standing now at a height of 800 feet in the well. This is two miles south of the famous Dingman, the first to strike oil in the Calgary oilfields, and makes the fourth steadily-producing well to be brought in within the past year. Arrangements for the drilling of a second well in the same vicinity by the Southern Alberta company are already afoot.

### ASKED TO REFRAIN FROM DISCUSSING THE WAR

Paris, June 10.—The Spanish government called a meeting of newspaper editors on Tuesday and requested them to maintain absolute silence regarding military and naval measures. The establishment of a censorship was offered as the alternative for failure to comply with this request.

An appeal was made by the government to newspapers last Sunday to refrain from discussing the war, as it was feared controversies might arise which would interfere with the maintenance of neutrality."

### PASSED AND SIGNED BY KING YESTERDAY

London, June 10.—The ministry of munitions bill, establishing a department to attend to the furnishing of supplies of munitions on an adequate scale, was passed by the House of Lords yesterday and received the royal assent.

### BARNES AND WYNDHAM COMING TO VICTORIA

Winnipeg, June 10.—George N. Barnes, member of the Imperial House of Commons, and W. Wyndham, of London, who have been sent to Canada to secure mechanics for British factories working on munitions, arrived here yesterday.

"In three months Britain will have all the ammunition she needs to carry on the war successfully," said Mr. Barnes.

The two left last night for the west and will stop at Regina, Moose Jaw, Saskatoon, Calgary, Vancouver and Victoria, and probably at Medicine Hat.

Officers of the war department will follow them in two weeks to make a selection of the men who offer themselves. They want only capable mechanics who are out of work. They have received 2,000 applications in Eastern Canada and 800 here. If the men chosen stay in the British Isles as long as they are required their fares will be paid back to Canada.

### ISSUES QUITE CLEAR, SAYS LONDON STANDARD

London, June 10.—The Evening Standard says: "Mr. Bryan's resignation from President Wilson's cabinet appears to foreshadow a more decided American policy—not necessarily intervention or war. It was some vision of this, no doubt, which led Germany to dispatch an unofficial embassy to talk unofficially of peace in the United States; he could be disavowed more easily than Count von Bernstorff when the occasion required. Britain will not emulate Germany in attempting to bully or cajole neutrals as to their policy."

"Political feeling will run high in the United States during the next few days, but the issues are clear enough, although German agents certainly will attempt to confuse the public mind.

"We already have expressed our hope that the United States will not be drawn into the conflict, but it is becoming increasingly difficult for her to remain outside."

### WAS NOT KILLED.

The Experience of One Who Knows and Places Dr. Chase's Kidney-Liver Pills First

It is not difficult to secure a medicine that will effect movement of the bowels. To cure Constipation and the complications which arise from it is another matter.

Constipation of the bowels is usually preceded by torpid action of the liver. Hence it follows that if Constipation is to be cured the liver must be set right. And here lies the secret of the success of Dr. Chase's Kidney-Liver Pills. They awaken the action of the liver and insure a good flow of bile, which is nature's cathartic. The liver, kidneys and bowels are invigorated and regulated, and the troubles with the digestive system disappear.

Mr. H. M. Bell, Innisfail, Alta., writes: "For some considerable time I have been using Dr. Chase's Kidney-Liver Pills, which I have obtained through your firm. I suppose, during my life, I have used nearly all the best known purgatives, but they have not acted on my bowels and digestive troubles. A friend recommended Dr. Chase's Kidney-Liver Pills, and I can honestly say that of all the pills I have tried nothing has suited me better—nothing has done me so much good. Hence I follow that if Constipation is to be cured this statement if you like."

This letter should convince you of the value of Dr. Chase's Kidney-Liver Pills, but there is nothing like personal experience. If you do not feel like risking 25 cents for a box, write to us for a free sample box, mentioning where you saw this advertisement. Put this medicine to the test when you have indigestion, constipation, biliousness, backache or kidney derangements. The results will soon prove to you the superiority of Dr. Chase's Kidney-Liver Pills. One pill a dose, 25 cents a box, all dealers.

## BRITAIN'S TRADE

London, June 10.—The board of trade report for the month of May shows imports into the British Isles of £71,604,400, against £59,990,000 in May last year. Exports were £39,615,000, compared with £42,651,000 last year.

The value of exports was the greatest of any month since the war began. The increase in the amount of imports was due largely to gains in food, drink and tobacco, amounting to £8,116,000, and cotton, £2,737,000. Manufactured iron and steel decreased £729,000. Other metals and their manufactures increased £121,629.

The largest decreases in exports were £2,229,000 in manufactured cotton, £1,590,000 in machinery, and £1,300,000 in iron, steel and the manufactures thereof.

## TORPEDO BOAT AND TRANSPORT WERE SUNK AT MINNEAPOLIS TO HEAR HORWOOD'S STORY

Petrograd, June 10.—In spite of the denials made by the Germans, it is insisted upon in authoritative circles here that one German torpedo boat and one transport were sunk and another torpedo boat was damaged by a Russian submarine in the recent naval engagement in the Baltic.

Minneapolis, Minn., June 10.—The royal commission which is investigating the construction of Manitoba's new parliament buildings, arrives here yesterday with the object of taking the evidence of V. W. Horwood, who has volunteered to tell his story. He probably will be examined at the Radisson hotel where the commission is staying.

New York, June 10.—The summer quarters of the German embassy at Cedarhurst, L. I., are in readiness for the arrival of Count von Helldorf, the ambassador, who is expected there the latter part of this week.

Berlin, June 10.—Only one German ship, a collier, was sunk by a Russian submarine in the naval engagement of June 6 in the Baltic Sea, off the Gulf of Riga, according to reliable information. It is stated that a German destroyer which was sailing by the side of the collier, was damaged slightly by the same torpedo, but was able to make port.

Denial is made of a report published in London of the Vanderbilt family receiving word from Queenstown this afternoon that the body found on the coast of County Clare, Ireland, was that of the Vanderbilt family.

London, June 10.—The representative in London of the Vanderbilt family received word from Queenstown this afternoon that the body found on the coast of County Clare, Ireland, was that of the Vanderbilt family.

WE LOST BOTH.

The Edmonton Bulletin, commenting upon the condition of affairs in this province, points out that the only safe system, that should be adopted in the administration of natural resources is to devote them to the purpose of development instead of to that of revenue.

Unfortunately to a large extent our resources have been administered for neither revenue nor development. As Sir Richard McBride stated in the legislature, large blocks of land are being held by speculators and the treasury is owed some \$18,000,000 on overdue payments.

NIBBLING ALL ROUND.

The conservatively worded official announcements from Rome state that the Italian campaigns on the Tyrol frontier and along the Isonzo are making slow but steady progress. This is the modest introductory claim in today's bulletin, but it is quite evident that the authorities are understating the situation.

It is a very difficult campaign Italy is engaged upon, and she began it with manifest disadvantages in position. Austria held the mountain crests; the Italians were concentrated on the lowlands.

Austria and Germany are reported to be pushing heavy artillery and reinforcements to both the Tyrolean and Isonzo lines, which means a relaxation of the pressure against the Russians, who are believed to be gradually stemming the Teutonic advance in Galicia.

advances at certain sections along the front. These attacks were not altogether for the purpose of diverting German attention from the eastern front, but were designed to bring the allies near the German lateral lines of communication.

DOLLAR DAY.

The merchants of Victoria are preparing another feast for purchasers. The table will be spread on Saturday. The idea to be expressed has been exploited in most of the leading cities in Canada, and the general opinion is that it is good.

HIS REASONS.

The comment in many American newspapers is strongly condemnatory of Mr. Bryan for abandoning the president at this critical juncture, but after perusing the reasons given by the ex-secretary for his action they and the bulk of the people probably will conclude that it was the best thing that could have happened in the interests of their country.

The United States cannot arbitrate properly the murder of her citizens by Germany any more than the authorities of justice can arbitrate with a criminal who kills people in the public street.

The second contention, that Americans should not be allowed to imperil the peace of their country by travelling on a belligerent ship, is little less far-fetched. The right of neutrals to travel upon any merchant ship in time of war is guaranteed by international law, which also guarantees their security from harm, and it is the duty of the United States government to maintain that right.

The illustration to be found in the action of the authorities during a riot as cited by Mr. Bryan is not applicable. The ex-secretary admits the duty of the mayor to suppress the mob, at the same time warning citizens to keep off the street.

trouble and permit the riot to continue unchecked in the meantime. The comments of German newspapers on Mr. Bryan's resignation indicate the abysmal ignorance which prevails in that benighted empire as far as affairs outside its boundaries are concerned.

Mr. Morley wants to know whether an appeal no longer lies "to the foot of the throne," and whether the Governor-General does not represent His Majesty. The appeal still lies in a manner of speaking, but the expression in these days of popular rule is largely a figure of speech.

Says our contemporary: "We are asked what Sir Richard McBride did with the order for a dissolution signed by the Lieutenant-Governor. We are not advised that any such order was signed. But if one was signed there was no reason in the world why the Lieutenant-Governor might not have been advised to cancel it."

Ex-Secretary Bryan probably is a happier man to-day than he has been since the day he was called into the Wilson cabinet. If there is anything Mr. Bryan delights to do it is to talk. As a minister his mouth was closed, to a limited extent at least.

The combination of Kitchener and David Lloyd George is hard to beat. In temperament they are so far apart as the poles, but each is a genius in his own particular sphere and for the purpose of the war one is the natural complement of the other.

The illustration to be found in the action of the authorities during a riot as cited by Mr. Bryan is not applicable. The ex-secretary admits the duty of the mayor to suppress the mob, at the same time warning citizens to keep off the street.

MATER DOLOROSA. British Review.

What have I given thee, England, beloved of me? I have no gold for thy desolate, I have no spear to guard thy gate, My hands are weak on the harp of fate.

Yet I have given, I; And, England, my gifts lie far from thee and thy sacred strand; I have given the hand that held my hand; The feet that once on my palm could stand.

All that I had I give, The life that I bade live, The heart that my heart made to beat, The lips erstwhile on my lips so sweet— These have I given; is it not meet?

"THE FREEDOM OF THE SEA." New York Herald.

Dr. Dernburg's letter to a compatriot in Mainz is of importance only because its suggestion of peace terms shows that Germans now realize they are confronting the collapse of the world conquest programme to promote which their government brought on this war.

The freedom of the sea that existed in peace speaks for itself. What of the German brand of freedom of the sea that the war has brought?

SCRAPS OF PAPER. New York Sun.

Surely, of all men living, it is not for Dr. Theobald von Bethmann-Hollweg, chancellor of the German empire, to reproach Italy for lack of faith in Germany's guarantee of the concessions proposed by Austria.

TOUGH LUCK. Pittsburg Gazette-Times.

Soldiers in London must now do all their drinking in the afternoon. This is tough on them who wish to follow the optimist's advice: "Begin each day with a smile."

THE LAND PROBLEM. Ottawa Citizen.

Men cannot be happy or that country prosperous where a system permits more to appropriate a portion of the value of the product of the labor of others. Society must collect and use for social purposes all the social values for land, which was given by the Creator for the equal use of all, is to be made available for use by all.

MAKES FOR IRISH PEACE. Ottawa Journal.

The first Irish division has left for the front, and is under the command of a cousin of Sir Edward Carson, while Stephen Gwynne, Archer Redmond and other prominent Nationalist leaders are among the officers. That will do more to settle the Irish difficulty than twenty years of parliamentary tactics.

**Service of Song**—On Sunday evening, at the First Presbyterian church, there will be a special service of song, when some of the choruses of the well-known oratorios will be rendered by the choir. Officers and men from H. M. S. Kent have been invited to these services. The minister will preach on the question, "What Shall We Do With Jesus?"

**Italian Reservists**—It is estimated that there are about four hundred reservists of the Italian army scattered up and down the island between Ladysmith and Cumberland, many of them in and about the mines. In Nanaimo there are one hundred and fifty. The total number in the province is said to be between six and seven thousand. Men who left Italy without having presented themselves to perform their military service, and who are therefore liable to punishment should they return there, will be forgiven this if they return to their native land at once.

**Scouts Report**—There was a meeting of the committee of 5th Troop Boy Scouts on Tuesday evening at Bishop's Close, Quadra street. Scoutmaster W. H. Johns in the chair. Mr. Greenwood, the new assistant scoutmaster, was introduced to the members of the committee, and the business of the meeting consisted of the presentation of Troop Leader Hawkins' report on the troop funds for May, and the election of officers. The last resulted as follows: Assistant-Scoutmaster Greenwood, secretary; Troop Leader Hawkins, deputy treasurer, and Scouts Hersop, Morrow and Lloyd-Young as patrol-leaders. The meeting was well attended.

**Badges for Teaching**—At the Y. M. C. A. last night Eustace Bidlake, Harry Witham and Geoffrey Bidlake were awarded gold-filled badges for teaching other boys to swim. In order to encourage proficient swimmers to teach other lads this prize was offered, and is proving most successful. Three button-awards are being offered as follows: For the boy able to swim fifty feet; for the boy able to swim fifty yards and fifty feet on back; and for the boy who teaches another boy to earn the first badge and in addition swims 200 yards, fifty feet on back and dives for objects.

**To Hunt Spy**—An interesting event is being arranged in connection with the Y. M. C. A. boys' department. This is a "German Spy Hunt," which is to take place on Friday evening, June 25. In order that the boys may know what they are searching, pictures of the spy in various disguises have been taken and are on view in the boys' rooms at the association building. On Friday evening, June 25, the spy will be "at large" within a certain defined area of the city, and the boys will be sent out to find him. A prize of a camera, given by W. S. Terry, is offered for the successful "Sherlock Holmes." Any further particulars of the "hunt" may be secured from R. E. Crompton, boys' secretary of the Y. M. C. A.

## CONTINUES APPEAL LIST

Civic Court of Revision Resumes Examination of List To-day.

Another session of the civic court of revision on the assessment roll was held this afternoon to complete the list of those appeals which were not supported by legal representatives.

The prospect is that an attempt will be made immediately to visit the properties left over for personal inspection by members of the court, so that the necessary rulings may be given, and the council may then know definitely what appeals will go further to the civil courts. Notice of such appeals must be given within seven days of the court's ruling, in order that the matter may not be indefinitely kept open, and that the tax rate may be struck by-by-law at any early date.

## SUCCUMBS TO INJURY

B. Jones, Who Was Hurt on Songhees Reserve on June 2, Died This Morning.

B. Jones, the man hurt on the Songhees reserve on June 2, died this morning shortly before 7 o'clock at the Jubilee hospital. The deceased man, who was 42 years of age, succumbed as the result of a fracture at the base of the skull through a blasting accident on the reserve road at a point a mile nearer town, than Mr. Jones came here about four years ago from Wolverhampton, England. His wife and two children, also his mother and two brothers, survive in Victoria.

It is expected that an inquest will be held on the body.

## INDIGNANT OWNERS' PROTEST TO COURT

Court of Revision on Local Improvement Assessment Has Lively Time

The court of revision on local improvement assessments, set for this morning, brought a large attendance to the council chamber, particularly with regard to Pandora avenue levy.

However, in the absence of Acting City Solicitor Harrison elsewhere on city legal business, the comptroller asked for an adjournment in the cases of Pandora avenue and Denman street widenings.

F. A. McDiarmid, on behalf of Pandora avenue owners stated that as there would probably be an appeal to the Supreme court, and the summer vacation was approaching, the expedition of the hearing as soon as possible was desirable, and he also hoped that the court would order all the necessary documents to facilitate the gathering of information to be placed on file at the city solicitor's office.

H. B. Robertson supported the application, and the court set Tuesday afternoon, at 2.30 o'clock, for the hearing, adding also the expropriation by-law on Hillside avenue.

The streets involved were all expropriation works regulated by by-law for long terms, being the north side of Pandora avenue from Douglas street to Amelia street, Hillside avenue, from Cedar Hill road to the city limits (formerly Lansdown road), and Denman street.

In considering a paving assessment on Fort street, Thornton Fell, K. C., appeared on his own behalf for property assessed under the by-law. He thought that the owners had a right to consideration both in regard to the aspect of the B. C. Electric railway's operation of a car line on the street, and a larger contribution by the city to Fort street paving, as a trunk street. In the former case he asked whether it was not true that if Yates and Fort streets were an equal width, the actual cost of paving the latter would be greater by 15 or 20 per cent, than the former on account of the street car tracks preventing complete access. He pointed out that the property, assessed under five by-laws, had ceased to be a revenue producing property, which it was before the improvements were effected.

Mr. Fell said he had learned several things about municipal engineering during the time the work was done on Fort street. A trench had been dug twice owing to the men running into a snag, while an excavation large enough for a house had been made to find the water service, whereas it was only 18 inches under the cement walk. He was not surprised at the cost per front foot of the assessment.

The assessment, however, was confirmed.

A deputation of Pandora avenue owners, between Cook street and Vancouver street, appeared to protest against the owners being charged for the central boulevard, or park, recently established there by the city.

J. W. McDonald and W. J. Burnes, two owners, represented that if the park strip was to be used by the public, it should be maintained by the city. Those who signed the petition declared that they signed it under false pretences.

Anton Viglius declared it had always been intended to make the vacant gore of the avenue into a park. Although he had some properties in town, with the high taxation he saw no future but the Old Men's Home.

The mayor called upon Mr. McDonald to make his statement about the petition under oath, as he stated that the petition before the court did not disclose the actual facts presented to the owners when it was signed.

Mr. McDonald asserted it was not his duty to give evidence. He believed that there had been interpolated into the petition, some additional matter with regard to the central boulevard which did not appear in the petition signed by the owners.

Thereafter the representation, and "harshed robbery" were used by the owners in making their protest.

Alderman Bell said: "I am fully con-

## WOULD REMOVE GRADE

Proposal to Divert Road by Elk Lake School Along Natural Grade.

A proposal is on foot to improve the very bad grade on the road connecting Cordova Bay and the main East Saanich road, at Elk lake, by diverting the road through adjoining property. A reconnaissance survey has shown that by leaving the Saanich road at a point a mile nearer town, the road could climb by an easy grade to a point where it would cross the existing road, then proceed by a ravine in a horseshoe bend to Cordova Bay road, giving a good grade for motorists all the way from Mount Douglas to the junction of the main Victoria-Sidney highway.

In order to effect this improvement, it will be necessary for a re-subdivision of the property abutting on the East road, at the cross road, which as at present laid out is on parallel lines independent of physical conditions. To assist this course, it is stated, the interested owner has expressed his willingness to the Saanich engineering department.

The improvement would greatly benefit the district, and be of particular value in a short motor tour from town round the beautiful bay and park.

## Home Nursing

Members of the Home Nursing class are requested to attend the final lecture of the series to be given on Friday next at 8 o'clock at the Y. W. C. A.

## A Jitney Outing

The Young People of Knox church will hold their first summer outing on Saturday afternoon at Cordova Bay. Jitneys have been secured and will call for the picnickers at the church at 2.30 p. m. All the young people of the church are invited, and an enjoyable time is assured.

## Emmanuel Baptist Church

Rev. William Stevenson, of Emmanuel Baptist church, expects to return to the city after a brief rest, and will preach on Sunday morning and evening in his own church. His subjects will be "Christ's Good Man," in the morning, and, in the evening, "Babylon or Jerusalem: which?"

## Result of Whist Drive

On Tuesday evening at the Progressive temple, Pandora street, the Welcome Social club held a successful whist drive. The winners were: First lady, Miss D. Burman; second lady, Mrs. Hosking; consolation prize, Miss F. Coupland; gent's first, W. Poole; second, J. Rose; consolation, T. Donnelly. The next whist drive will be held on June 18.

## Preparatory Service

On Friday night services preparatory to communion will be conducted by Rev. A. E. Munro, of Duncan, formerly a college friend of Rev. J. G. Inkster at New College, Edinburgh. This will be the first preparatory service in the new First Presbyterian church. New members by certificate and profession of faith will be received at the close of the service. About one hundred new members are expected to join.

### LIVED HERE MANY YEARS

Late Nigel Bowyer Gresley, Who Died Yesterday in England, Was on Staff of B. N. A.

Many residents here will learn with sincere regret of the death yesterday at Doncaster, England, of Nigel Bowyer Gresley, who for many years was identified with the staff of the Bank of British North America here. The late Mr. Gresley came here first nearly a score of years ago, being sent here as a member of the staff of the Bank of B. N. A. He again returned to eastern Canada, however, but came out to Victoria in 1904 to the local branch of the bank. About four years ago he went into the stock brokerage business, but ill-health later became responsible for his return to England, accompanied by his family, in pursuit of a more permanent residence. He died on the 2nd of February of the old country.

The deceased gentleman was 44 years of age, and a native of Derbyshire, England. He was educated at Rossall school. His widow was before her marriage, Miss Mabel Jeffrey, of London, Ont., two young daughters also surviving. Mr. Gresley was for some time honorary secretary-treasurer of the Victoria stock exchange, and was widely known in the district as an enthusiastic sportsman.

**"DOLLAR DAY" OFFERS  
MANY ATTRACTIONS**

Shop-Windows Already Show  
Tempting Bargains for  
Saturday

Except to the finished shopper the diversified attractions offered for "Dollar Day" must be somewhat bewildering, for there seems positively nothing which is not procurable for the small sum: things to eat and things to drink, jewelry, furniture, clothing, appliances for garden and workshop, and all manner of articles used in the work and play of young and old. The advertisement pages contain more specific category of the articles for sale at the magic price of one dollar, and for the past week bargain-seekers have been jotting down notes while reading the day's paper.

And the store-keepers are marshaling their forces for the event. Shop window and counter testify to the fact. A big crowd is being prepared for, past experience having taught the merchant that there is no hour of the day too early for the lady intent on getting a bargain. In fact former sales days have found queues of shoppers lined up outside the door long before the store is opened for business. And the heading rush which takes place when the key is turned is met by a cool and collected army of clerks ready to search out and sell the articles required. It has required the experience of former occasions for the merchant to know just how to meet the rush, and even this time the event was decided upon the retailers have been picking extra assistants for the day with a view to the most efficient handling of the big crowd expected.

As already noted in these columns, the holding of a "Dollar Day" is rightly regarded as of mutual advantage to shopper and merchant. To the latter it offers an excellent opportunity to dispose of broken lines of merchandise and to clear past season's stock. To the former it provides almost unrivalled opportunity to shop advantageously at prices less than would be paid in many cases in the cheapest market in the world. And the goods can be seen, a thing impossible in the case of articles purchased by mail. To the community as a whole the result is beneficial. Money is kept at home instead of going out of the city.

Truly remarkable bargains are to be found on Saturday. And it only requires a reminder to the public that "things will be doing" very early in the day, so that the old adage about the early bird and the worm will have apt significance.

A menagerie stopped in a little country village. One archer with more cheek than cash thought he would like to see the animals so he quietly pushed his head through a gap in the canvas and had a look. But the manager saw him and hauled him out. "Here, Agrippa," he yelled to a nigger, "throw this lot into the lions' cage!" If he thought he had alarmed the youngster he was mistaken. The boy said calmly: "Art a mo', gov'nor! If ye'll let me see the show for nothing, I'll get all the fattest boys in the village to crawl under the canvas to-morrow night!"

The lesson in natural history had been about the rhinoceros, and the teacher wanted to know how well the lesson had been learned. "Now, name something," she said, "that is very dangerous to get near to and that has horns." "I know, teacher, I know!" called little Annie Jones. "Well, Annie, what is it?" "A motor car."

The former star of the "legitimate," is appearing all this week in an entrancing playlet, in which she is the good fairy who sets all things aright.

**WAS IN HEAVY ACTION  
FOR ONE WHOLE WEEK**

Victoria Corporal Writes of  
Terrible Conditions at Ypres;  
Has Since Been Wounded

The following letter was received by Mrs. Mary G. Clark, 1710 Holly-wood Crescent, from her son, Corporal L. Clark, just two days before a cable arrived appraising her that he had been wounded. He writes: "I am still well and in one piece. We have been in heavy action for a week, and our losses have been awful. As we held back the main attack, we were almost cut off completely for a long time, but we licked them, although the shell fire was awful. My platoon did not retire until two hours after all the rest had gone, and the Germans were within 300 yards of our left and rear. Then we "did a bunk," rather than surrender.

"We all expected to be 'potted,' but luckily they can't shoot for nuts—most of their bullets go too high—no we all got out. Then the open fighting started, and it lasted for three days. That was after fifteen days of shell fire, though "hell fire" is more descriptive of it.

"The whole plain about Ypres was strewn with dead, and the town itself is one heap of ruins. The Cloth Hall and Cathedral, built in the 12th century, covering in all half a square mile, are just heaps of ruins. I saw one family of eight in Ypres wiped out while at supper. "They tell us that we put up a great scrap, though we hardly realized it at the time, but, anyway, our general seems pleased, so it is all right. Though it cost a good deal, things like that must be, I suppose. Anyway, we will do it again if necessary."

A young journalist told this story at a recent dinner party: "One day, when I was city editor of a small newspaper, a fine turkey was left at the office. We all hankered after the bird, but the editor finally claimed it, took it home, and had it cooked for dinner. The next day a letter was handed in to him, which he opened and read: 'Mr. Editor, I sent you a turkey yesterday which had been the cause of much dispute among us. To settle a bet, will you please state in to-morrow's issue what the turkey died of?'"

"Anyhow, there's one advantage in having a wooden leg," said the happy optimist. "What's that?" said his friend. "You can hold your sock up with tin tacks."

**"THE RIGHT OF APPEAL"**

To the Editor.—The suggestion re petition to the governor-general for a non-partisan investigation of affairs in British Columbia, to which you kindly gave space, has raised a controversy on a most important issue of constitutional procedure. Your contemporary takes a trifle different view of the likely fate of such a petition, but agrees with you that it would be practically ignored, and that the only redress the people have under such circumstances is the ballot box.

Perhaps the best means of drawing your attention to what appears to me the danger of your contention is by quoting from my communication to the editor of the Colonist in reply to his share of the criticism: "Let us suppose that upon fair campaign promises a party government became solidly entrenched in power in the province for a term of years with a negligible minority opposition. That the Dominion government was of the same party, equally strongly entrenched. That the lieutenant-governor was beholden to the party influence for his appointment. That both governments early joined issue in a clear-cut policy of graft and depletion.

"If in this event your contention is correct that an appeal to the governor-general was useless, what recourse would be left to the people of the province? Does not the governor-general constitute "the king" in Canada? "Are the people of this province deprived of the inherent constitutional right of all British subjects of an appeal to the king?"

"We are not looking for worse troubles than beset us, but the best means to avoid them is for the people to be assured that they still enjoy the safety of constitutional redress. May I hope you will clear up the serious situation your editorial would imply."

A. J. MORLEY.

**ENCOURAGE HOME INDUSTRIES**

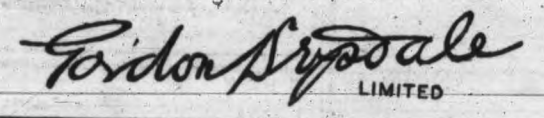

To the Editor.—Without making any comments may I place a few facts through your paper before the public as you and your contemporary have made important references relating to the strawberry season and its benefits to Victoria. To help a few of our people I suggested that they should visit the strawberry growers and ask for work picking and packing same. I prevailed upon one to go and get particulars re prices and conditions, etc. On his journey he counted 160 Chinamen picking. He asked one of the growers to give him a job and was informed that the Chinamen were getting \$1 per day usually, but on that particular day of his visit they were getting \$1.50, the reason being that the Chinamen had found out that the orders were heavy and they had refused to work for less, but that immediately they had got the supply ready the Chinamen would be compelled to work for the \$1.

The market offered his services at the rate they were paying, but was informed by the grower "he was sorry," the reason being that if he started one white man the Chinamen would refuse to work and he would be in a fix. I find that the boxes are made by Chinamen, the strawberries are picked and packed by Chinamen and in many cases are peddled by Chinamen.

So it would appear that the purchasers' money goes absolutely into the Chinamen's pocket. As far as the actual work is concerned, I fail to see what profit will be to the working class population of Victoria.

The biggest proprietor of the fruit is being shipped away from the city. So also does most of the money made by the Chinamen.

**D & A**  
**CORSETS**

"D & A" or "La Diva" Corsets retailing at \$2.50 are equal in style, material and workmanship to imported corsets costing \$3.50 to \$5.00; the duty and extra profit for which you get nothing, explains the difference.

Quite aside from your natural wish to encourage Canadian workmen, it is worth your while, for the saving it involves—to buy a "D & A" or a "La Diva" Corset.

"BUY MADE-IN-CANADA CORSETS" 6-15

Dinner was delayed and the hostess looked anxious. To tide over the awful gap a guest asked her to play them something on the piano. Gladly the lady doffed her gloves and seated herself. Then, twirling round on the stool, she smilingly asked one old gentleman near her: "What shall it be? Would you like a sonata?" The old gentleman quite bristled up. "Oh, yes, thank you!" he beamed. "I had one or two on the organ here, but I could do with another!"

Wonders.—Some of the records, we observed, went finally to a bench where a workman filed irregular scratches in them. We asked him about that. "These," he civilly explained, "are Grand Opera records and I am giving them the requisite temperment." To show us, he put a record in a machine. The effect was exactly like a soprano who had just learned that another soprano will have her name on the bills in larger type. "Wonderful!" we exclaimed. And it was wonderful.

Not Very Brown Left.—Mr. Brown had not a very good opinion of landladies in general until the other day, when he happened to see his bestowing kindness on the cat. Of course he reasoned that anyone who would be kind to human creatures, and be hastened to commend her actions. "I'm glad to see that you give all the scraps to the cat, Mrs. Migs." "Oh, yes, sir," she replied. "I've always done that. Mr. Brown is kind to the cats and yer'll find it saves yer 'arf the washin' up."

Owen. The bride was most attractively attired in a dress of white crepe de chine with veil and orange blossoms, and was attended by two small bridesmaids, the sisters of the bridegroom, who were daintily dressed in white, and carried baskets of pink sweet peas. Gerald Woodward acted as best man. Later a reception was held at "Oakdene," Finlayson avenue, where Mr. and Mrs. Woodward will make their home. The young couple, who are spending their honeymoon at Brentwood, were the recipients of numerous beautiful gifts.

### AT THE THEATRES

#### BABY PIG GIVEN AWAY.

Every available seat was filled early in the evening for the special country store held last night at the Columbia theatre when the management advertised they would give away a real live baby. A real live baby pig, two months old, and weighing almost 50 pounds, was given to a young lady holding the winning number, and created more merriment than has been seen in any theatre for many days. A five dollar dog piece is to be the capital prize for the country store at the Columbia on Friday night in addition to the regular prizes.

#### ROYAL VICTORIA THEATRE.

The Variety theatre was crowded to the doors last night, the attraction being the fourth episode of E. Phillips Oppenheim's great serial "The Black Box." This picture is proving to be the best serial produced so far by any of the moving picture companies. The dare-devil actions of the various players, and the remarkable appliances used by the great detective, together with the weird movements of the "unseen hands" all tend to hold the spectator spellbound from the time the picture starts to unfold until the last title appears on the screen. "The Black Box" and the usual high-class programme will be shown again to-night.

#### ROYAL VICTORIA THEATRE.

The new programme of pictures shown at the Royal Victoria theatre for the first time this afternoon include drama, comedy drama and comedy. The subjects are so varied that they should please all. In fact the new policy of showing photoplays at the above theatre looks like a success. A new equipment has been installed, and it is now running smoothly. The seats are comfortable, and the Royal orchestra is in attendance at all performances. A continuous performance is given from 2 till 5 in the afternoon, and from 7 till 11 in the evening. Eight reels of pictures are shown, which include "The Gentleman Burglar," a two-reel drama, "Jean the Faithful," portraying a very pretty love story, "The Fable of the Busy Man and the Idle Woman," one of George Ade's comedies, "The Strategist," an exciting newspaper story, "Whose Husband," a funny comedy, and "His Nemesis," a thrilling society drama in two acts.

#### "OVERNIGHT."

Next week at the Princess theatre the Allen Players will appear in one of last winter's big New York successes, "Over-night," a comedy of the very brightest order. The casting of the play calls for some remarkable contrasts physically. Charles Bennett is to be the hen-pecked husband of Mrs. P. R. Allen. A still greater contrast is shown in the scene between P. R. Allen as a colored steward, and Mr. Bennett. It is a long time since Mr. Allen appeared on the "boards," and the genial "P. R." will doubtless receive a hearty welcome. Mr. Hiron Eagan will be husband to Miss Yerna Felton, who has very fine comedy role admirably suited to her. Genuine wit is the distinguishing characteristic of "Over-night." To see it is to enjoy an evening of good, clean fun. It is one of those "drive-dull-care-away" sort of plays. This week the good old English melodrama, "The Stowaway" is enjoying a popular run, the attendances are increasing each night. "The Stowaway" is full of ad-

venture and humor from the rise of the curtain on the first act to its fall on the last.

### PAVLOWA HERE MONDAY.

One feature of the programme which Mile. Anna Pavlova will present here will consist of three-quarters of an hour of exhibition social dancing, first by Mile. Pavlova and her partner, M. Ivan Clustins, and then by the entire dancing members of the company making 25 couples. From beginning to end this soiree will be replete with interest demonstrations of various social dances. By far the most important part will be that in which Mile. Pavlova and her partner show her three new dances should be executed. These dances Mile. Pavlova originated last summer and they are: "The Pavloviana," a dance somewhat like the Maxine and Tango combined; "The Pavlovette," which is a form of the Gavotte, and "The Pavlova Waltz," a captivating waltz creation. Each of these dances will be performed to the composition that won the \$500 prize in its respective class in the competition open to American composers during the summer, and in which nearly a thousand American musicians, some of them famous were represented by waltzes, maxines and gavottes, all especially written for this contest. Mile. Pavlova will appear at the Royal Victoria theatre, Monday, June 14.

CHARLES CHAPLIN

In "The Tramp," at Romano theatre to-day, to-morrow and Saturday.

Everyone had gathered in the drawing-room after dinner, and all were feeling contented with the outside world, when it was suggested as a pastime that every lady should state the gift she most coveted, and the possession of which she would most prize. With prompt acquiescence each registered her choice. Mrs. Wellman wished for the most exquisite jewels extant. Mrs. King desired to be the best-dressed woman in society. Mrs. Drayton preferred to own the handsomest turn-outs, while Mrs. Smith craved popularity. Robinson, springing from his chair, exclaimed: "Heavens! don't any of you care for beauty? Some of them still think it was intentional."

"Well," she inquired, "what can I do for you? Do you want employment?" "Lady," replied the tramp, "you mean well, but you can't make work sound any more inviting by using words of three syllables."

"What's the income of that young man who wants to marry you?" "I really don't know, papa; but isn't it funny? Herbert asked me the same question about you."

Dawson—No rain; highest temperature, 80, on 5th; lowest, 36, on 2nd.

An old woman whose husband was seriously ill in bed sent for a doctor, who came and said to the old lady: "I will send him some medicine, to be taken in a recumbent posture." After he had gone the old woman sat down greatly puzzled. "A recumbent posture—a recumbent posture," she kept repeating. "I haven't got one." At last she thought, "I'll go and see if Mrs. Smith has got one to lend me." Accordingly she went and said to her neighbor: "Have you a recumbent posture to lend me to put some medicine in?" Mrs. Smith, who was equally as ignorant as her friend, said: "To tell you the truth, I had one but I lost it."

"Why are you for the allies?" a friend asked a solemn-looking neutral who looked as if there had been much suffering in his life. "Is it because you abhor Prussian militarism?" "No." "Is it that you fear Germany's desire to expand, to absorb foreign lands? Is it that you dislike the German character?" "No," replied the solemn-looking individual. "Well, why are you for the allies?" "Because," said the other with a pensive air, "I once ate some sauerkraut."

A locomotive had just struck an automobile, and the injured were lying among the debris along the tracks. "Has the insurance man been here yet?" asked a stranger breathlessly of a policeman. "No," answered the constable, bluntly. "Fine," continued the stranger. "If there's no objection I'll just lie down with the rest of the injured."

"Of course, I want my daughter to have some artistic education. I think I'll let her study singing." "Why not art or literature?" "Art spoils canvas, and literature wastes reams of paper. Singing merely produces a temporary disturbance of the atmosphere."

SHIPYARD VISIT OF KING INSPIRES MEN

French Barque Sully at 'Frisco After Thrilling Voyage From Australia

Much significance is attached to the recent visit of King George V. to all the important shipyards of the United Kingdom...

One day his Majesty visited the Clyde shipbuilding district. He called at Dumbarton to visit the yards of Denny Bros. and looked over some of the fast ships which that firm is constructing for the Admiralty...

A visit was paid to the Fairfield Shipbuilding yards and following the departure of the King the following resolution, which was unanimously adopted in every department...

The King sent the following reply: "I have received with the utmost satisfaction the resolution unanimously carried by the workmen employed by the Fairfield Shipbuilding and Engineering company..."

"Fit-Reform Clothes" are sold at the same price throughout the whole of Canada. You pay the same price in Montreal that you pay in Victoria. The prices are sewn into the pockets of the clothes by the tailors before the garments leave the workrooms. The Fit-Reform label on a garment means as much to you as the "Sterling Mark" does on silver. It is the Hall Mark and Seal of Quality.

## A MADMAN ON THE GERMAN THRONE

By A. G. G., in London News and Leader

I picked up this week from among the new books one which I was prepared to look at perfunctorily and dismiss as of little value. What new revelation could a selection of the speeches of the kaiser have for us? The voice of this talkative monarch had been the most familiar in Europe for more than a quarter of a century. In that time he has delivered over a thousand public or semi-public addresses, and all of them have had a European publicity. It seemed that there was nothing more to know about the man so far as he is reflected in his own words. And yet as I read I became sensible of the emergence of the personality of the kaiser with a clearness and definition that was new to me. It is said that words are made to conceal thought. That may be true. But they do not conceal personality, and the cumulative effect of these speeches has the quality of a piece of self-portraiture that is final and convincing. It may not shed light upon whether the kaiser wanted the war or was forced into it by the military party and the crown prince.

God and the Kaiser. The keynote of his character drums through these speeches as the note drummed in the head of Schumann in the days of his insanity. Indeed, it is so persistent, so extravagant, so unrestrained by any touch of humor, as to suggest insanity. That note is the divinity of his kingship. The world has traveled so far from the doctrine of divine right that it is not easy to conceive the mind in which it still lives as a reality. But in the mind of the kaiser it is a reality that consumes everything else in its fierce fire. He believes that his house is the divinely appointed instrument of God made to lead the German nation to redeem the earth as absolutely as Moses was raised to lead the chosen people out of Egypt. "Then," he says at Munster in 1907—"then the German people will be the rock of granite upon which our Lord God can build and complete his culture in the world." He sees the cloud by day and the pillar of fire by night. And out of the cloud the Almighty is speaking to him, William, His servant and confidant.

Hence the constant and familiar allusions to God. There is hardly a page in this book in which His name does not appear, and it is always employed with that note of familiarity which the confidential servant uses in speaking of the master who is even more friend and colleague than master. The claim of divine appointment is not held timidly or asserted vaguely. It is declared openly and defiantly. Thus at Konigsberg in 1910 he says: "And here my grandfather, again, by his own right, set the Prussian crown upon his head, once more emphasizing the fact that it was accorded him by the will of God alone and not by parliament or by any assemblage of the people or by popular vote, and that he thus looked upon himself as the chosen instrument of heaven and as such performed his duties as regent and sovereign." Even that cynical atheist, Frederick the Great, was the servant of God, for it was in reference to him that the kaiser said, "And just as the great King was never left in the lurch by the old Ally, so the Fatherland and this beautiful province will always be near His heart." Here one sees that terrible absence of humor that is the real disease of the man. He has never laughed at himself. He has never seen himself, in Fatsaff's phrase, "like a forked radish, carved out of cheese-parings after supper." He is afflicted with a frightful gravity about himself that is in itself a form of madness.

The Kaiser and the People. It would be a mistake to suppose from all this that his motive is ambition. His pride out-ears ambition. That quality is the attribute of ordinary humanity, and the kaiser no more thinks of himself in the terms of ordinary humanity than you and I think of ourselves in the terms of the troglodyte. If you prick him he knows that he will bleed, and if you tickle him he knows that he will laugh. In this human, but in his mission he is divine. And that divinity cannot be delegated. Hence his repudiation of Bismarck. Hence, too, those constant references to William "the Great." The idea that it was Bismarck who was the creator of modern Germany was an insult to the divinity of the house of Hohenzollern. It was an insult to the Almighty. It must be corrected by raising his grandfather to the skies where old William, who was really a modest and sensible man and hated war, never sought to intrude. And so we have the constant insistence on William "the Great."

This vision of himself as divine leads straight to other vital consequences. It governs his conception of the state and his relation to the people. Since he is the august instrument of the Almighty it follows that the government is upon his shoulders, and not the government alone, but even opinion, taste and religious belief. Hence his deliverances on art and music literature and theology, his sermons and his political discourses. They have all, together with their crude and shallow brilliancy, a Sinitic seriousness as of one who does not speak as a man but as a god. In these things, the deification of himself is amusing. It is when we come to his attitude towards the state that it leads to blood and iron. He sees in democracy the spirit of rebellion against himself and against the Almighty. He is the law-giver as Moses was the law-giver of Israel and these demands for liberty, this unrest of factious and the motives of people who are following strange gods and must be chastised with scorpions. What have they done with the law, except obey it? Is not the government placed in his hands by God and will he not deal justly with his people—if they are obedient; and smite them if they are disobedient?

Attitude to Labor. And so he lectures the strikers at Berlin or Breslau like an avenging angel, and denounces the Socialists like a Protective Defence league advocate. Thus: "For to me every Social Democrat is synonymous with an enemy of the realm and of the Fatherland. Should I, therefore, discover that Social Democratic tendencies become involved in the agitation and instigate unlawful opposition, I will step in sternly and ruthlessly and bring to bear all the power I possess—and it is great." (Berlin, 1888.) And again—this time to the working men of Breslau in 1902: "For years you and your brother have allowed yourselves to be deluded by the agitators of the Socialists into thinking that if you do not belong to this party and acknowledge it no one pays any attention to you and that you will not be in a position to obtain a hearing for your just interests in the amelioration of your condition. "That is a gross lie and a serious error. Instead of representing you directly, the agitator seeks to stir you up against your employers, against the other classes, against the throne and against the church. . . . And to what end is this power used? Not for furthering your welfare but for sowing hatred between the classes and for disseminating cowardly slanders that respect nothing sacred; and finally they have outraged the Almighty himself." The War Lord. From this absolutist attitude, to the state there follows the fact that his sole reliance is on the army. He not only does not ask for the sanction of the people; he repudiates it. He is their lord and his power is the sword. If they are good he will be kind to them; if they are disobedient he will flog them and shoot them. Throughout his speeches the glitter of the sword is as constant as the name of God. Indeed the two words are almost interchangeable. Even when he makes a gift to the great minister whom he has discarded and outraged it takes the form of a sword, and he says: "I could find no better token than a sword, this noblest symbol of the Germans; a symbol of that instrument which your highness with my late grandfather helped to shape to sharpen, and also to wield; the symbol of that great, powerful period of building whose mortar was blood and iron; that weapon which in his hands and which, when necessary, in the hands of kings and princes, will defend against internal foes that unity of the Fatherland which it had once conquered from the foes without." "Internal foes." Again and again that threat of the army against his own people if they are disobedient recurs like a refrain. It is to the army that he looks to preserve his throne and suppress the rebellious. In the first words he addressed to it—three days before he troubled to send a message to his people—he declared: "The absolutely inviolable dependence upon the war lord (Kriegsheer) is in the army, the inheritance of which descends from father to son, from generation to generation. . . . So are we bound together—I and the army—so are we born for one another, and so shall we hold together indissolubly, whether, as God wills, we are to have peace or storm." "Mine, Body and Soul."

The army is his own private inheritance. It is the sole pillar, as he says in another speech, upon which his empire rests. Now let us see what is his view of its functions. He is addressing the recruits to the regiment of the guard on their swearing in at Potsdam in 1891. Three renderings of the speech are given. They do not vary essentially, but I quote that taken from the "Neisser Zeitung": "Recruits! You have now before the consecrated servant of the Lord and before His altar, sworn fealty to me. You are still too young to understand the true meaning of what has just been said; but be diligent now and follow the directions and instructions given you. You have sworn loyalty to me; that means, children—of my guard, that you are now my soldiers; you have given yourselves up to me, body and soul; there is for you but one enemy, and that is my enemy. In view of the present Socialistic agitations it may come to pass that I shall command you to shoot your own relatives, brothers, yes, parents—which God forbid—but even then you must follow my command without a murmur." And now out of his own mouth we have got the full doctrine of Kingship. It is stated over and over again, always with the same fearless directness and lucidity, for among his many gifts is a distinct skill in passionate oratory. The doctrine is this (1) he is emperor and king by divine right, by the direct election of God; (2) the state is his family estate, to be administered justly but with absolute freedom from interference, criticism or attack; (3) the weapon of government is the sword of the army which is the private inheritance of his family and with which he will smite down any rebellious citizen who is not obedient to his will.

The Gospel of the Madhouse. The doctrine sounds like the gospel of the madhouse; but it is absolutely sincere, like so much that one hears in the madhouse. Nor is it an empty creed. On the contrary it is the creed that has governed Germany and out of which the war came. For in order to make his gospel possible, even with the help of his army, he had to turn his people's eyes to other lands and to whet their appetites with the lust of conquest. The social reforms that Bismarck had introduced to keep the people quiet had exhausted their influence. A new motif must be found in the life of the nation—the demand for liberty within—which had been dead since 1848 would be revived.

## ANY DYSPEPTIC CAN GET WELL

By Taking "Fruit-a-lives," Says Capt. Swan

Life is very miserable to those who suffer with Indigestion, Dyspepsia, Sour Stomach and Biliousness. This letter from Captain Swan (one of the best known skippers on the Great Lakes) tells how to get quick relief from Stomach Trouble.

Port Huron, Ont., May 8th, 1913. "A man has a poor chance of living and enjoying life when he cannot eat. That was what was wrong with me. Loss of appetite and indigestion was brought on by Constipation. I have had trouble with these diseases for years. I lost a great deal of flesh and suffered constantly. For the last couple of years, I have taken "Fruit-a-lives" and have been so pleased with the results that I have recommended them on many occasions to friends and acquaintances. I am sure that "Fruit-a-lives" have helped me greatly. By following the diet rules and taking "Fruit-a-lives" according to directions, any person with Dyspepsia will get benefit." H. SWAN.

"Fruit-a-lives" are sold by all dealers at 50c. a box, 6 for \$2.50, or trial size 25c, or sent postpaid on receipt of price by Fruit-a-lives, Limited, Ottawa.

And so in these speeches we trace side by side with the gospel of divine right, the gospel of Weltpolitik. Germany is to have "its place in the sun." The German Michel is to go forth in shining armour and with "milled fist," carrying the culture of the Fatherland into the darkness without and adding to the glory of the house of Hohenzollern and of their "powerful Ally, the old, good God (der alte, gute Gott) in heaven, who, ever since the time of the Great Elector and of the great King, has always been on our side." And seeing that Weltpolitik is ultimately only another name for naval politics, he starts the great naval policy and declares—with that aptness for the adequate phrase that he, always shows—that "our future lies upon the water" (Stettin 1888).

Democracy and Divine Right. And so he keeps his people quiet, now flattering them with visions of "a German world empire and of a Hohenzollern world possible" (Breslau, 1905), now brandishing his hereditary sword in the face of the insurgent Socialists. The unrecurrent throughout is the thought of the internal menace to his absolute rule. In resisting that menace he was driven into courses that had only one goal. Surrender to the Socialists was an unthinkable humiliation. It was more. "It was disloyalty to the old, good God" who had been the family Ally so long. And so he sharpened his sword and shifted towards Niagara, and to-day he is not fighting the Socialists. They are fighting for him. They are falling in thousands and tens of thousands and hundreds of thousands to exalt the house they hate and the man who has treated them as his personal enemies. It is the strangest irony in all the history of war.

Perhaps the kaiser is mad. Pride such as his is hardly consistent with sanity. But certainly the peoples of Europe will be mad if, after this frightful lesson, they do not make an end on the earth for ever of the doctrine of the divine right of kings.

### GET POWER. The Supply Comes From Food.

If we get power from food, why not strive to get all the power we can. That is only possible by selecting food that exactly fits the requirements of the body. "Not knowing how to select the right food to fit my needs, I suffered grievously for a long time from stomach trouble," writes a lady from a little western town.

"It seemed as if I would never be able to find out the sort of food that was best for me. Hardly anything that I could eat would stay on my stomach. Every attempt gave me heart-burn and filled my stomach with gas. I got thinner and thinner until I literally became a living skeleton and in time was compelled to keep to my bed. "A few months ago I was persuaded to try Grape-Nuts food, and it had such good effect from the very beginning that I kept up its use. I was surprised at the ease with which I digested it. It proved to be just what I needed. "All my unpleasant symptoms, the heart-burn, the inflated feeling which gave me so much pain, disappeared. My weight gradually increased from 98 to 115 lbs, my figure rounded out, my strength came back, and I am now able to do my housework and enjoy it. Grape-Nuts did it!"

A ten days trial will show anyone some facts about food. Name given by Canadian Postum Co., Windsor, Ont. Read, "The Road to Wellville," in packages. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest. An Explanation.—A tiny girl of seven gave a dinner party the other day, for which twelve covers were laid, and that number of small maidens sat down to dine. It was a real little girls' dinner, and the mothers weren't present, sitting at the head of the table. She had been very anxious, in looking forward to it, to do everything as it should be done. "Mamma," she asked, "shall we say grace?" "No," said mamma; "it will be a very informal dinner, and I think you need not do that." That meant one ceremony less to go through, and was a relief. But the little lady was anxious to have all her guests understand it. So, as they gathered about the table, she explained: "Mamma says that such an informal dinner that we need not have grace to-day."

## CONNAUGHT LIBRARY READY FOR BOOKS

Handsome Addition to Parliament Buildings is Being Occupied

RANKS SECOND ONLY TO BUILDING AT OTTAWA

Ample Space for Unrivalled Collection of Northwest Historical Material

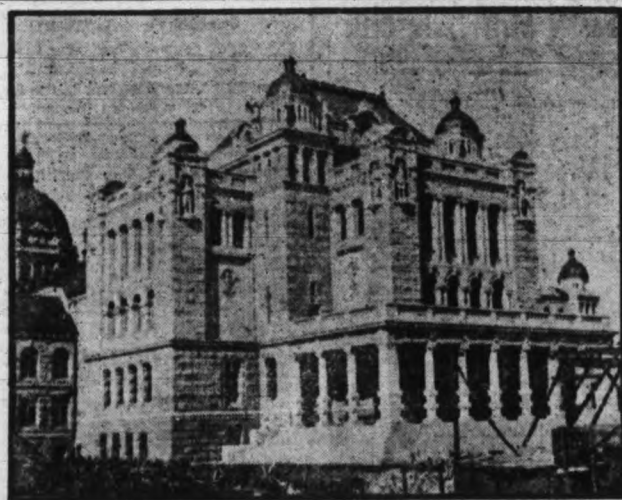

Within a few days the protracted task of transferring the invaluable records in the possession of the provincial library and archives department, and of the books now on the shelves in the rooms used for some years past for library purposes, will commence. Already the transfer of the newspaper files has begun, and the Connaught library block of the parliament buildings is beginning to look itself.

The contractors recently completed the interior finishings of the new library, and the furniture has been placed in position in the offices and the reading rooms. The work of moving in the books will necessarily be a lengthy one, especially as there are thousands of volumes to be unpacked which have been stored away in vaults and store-rooms for lack of shelf accommodation.

The library, the cornerstone of which was laid in August, 1912, by His Royal Highness the Duke of Connaught, is a handsome building and a worthy addition to the block of legislative structures of which British Columbians are so proud. It faces on Superior street, is immediately back of the legislative wing of the existing building, and although of a somewhat different style is in harmony with it.

The block stands three stories in height from the Superior street frontage, with a high basement, and even with the sheds of the builders blanketing the view its dignity is unmistakable. When the lawns are laid out and

for the housing of the splendid collection of material on the discovery and history of the Pacific northwest which has been diligently brought together by Mr. Scholefield. On the south side, on top of the stackroom, is the map room. In floor cabinets in these rooms will be displayed under glass books, documents, letters, diaries and other papers which can be exposed to the light without danger, and these will be so illuminated as to give a clear view of them.

On the ground floor is the cataloguing room and in the basement are quarters for the traveling libraries department. The public entrance to the library is on the east side of the block, in the corner where the block joins

the legislative wing of the main building. A passenger elevator adjoins the entrance.

The stackroom occupies the south portion of the building, from the basement up to the top of the main floor. The shelves are of steel and are so placed that every inch of space is utilized, while ample room is given for the handling of the books and newspaper files. The whole structure is as nearly fireproof as is possible, and the invaluable possessions of the province will be absolutely safe in it.

The lighting of the building is perfection. There are plenty of windows and the light streams in from three sides with nothing to block it, and future building plans will leave this

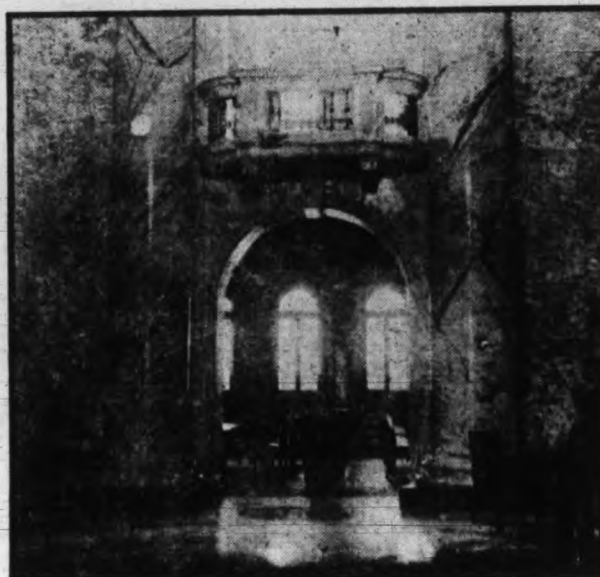

wealth of natural illumination unaffected.

Naturally E. O. S. Scholefield, provincial librarian and archivist and his staff are delighted at the early prospect of being thoroughly installed in the new quarters. The work of the library has been hampered for years by the inadequate accommodation now occupied. As a matter of fact, the original building made no provision for a library at all, and the quarters given for that purpose were really intended for committee rooms and apartments for the members.

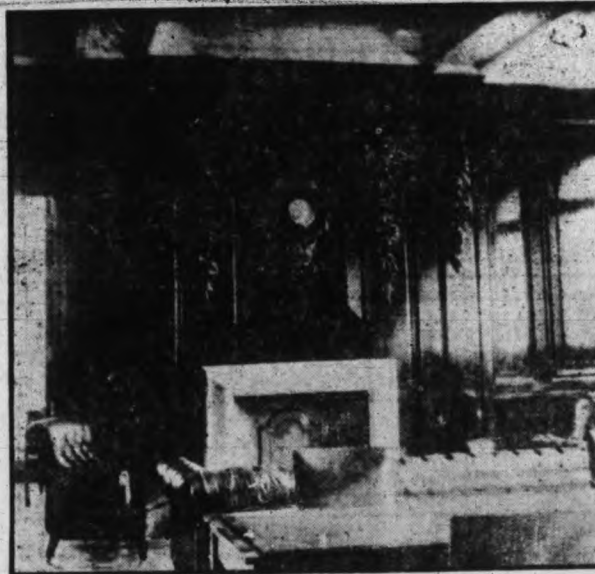

With the excellent work being done by the archivist in the collection of northwest historical data and records

for the archives the inadequacy of the accommodation has been all the more noticeable, and for that reason alone the provision of quarters in which this collection can be made available to students and historians has been desirable. The B. C. collection has now got a reputation among students which will go on increasing as time passes and the invaluable material already gathered is added to.

"Dear sir," wrote the anxious member, "I am afraid Johnny is not trying enough." "Dear madam," replied the harassed teacher, "I assure you that Johnny is quite trying enough. He is the most trying in the class."

#### GALLANT CANADIANS.

The following is taken from the London Daily Express of April 26, and corresponds with the Canadian in the big battle of Langemarck:

Graphic details of the great battle on the Yser, north of Ypres, which is still undecided, are contained in the following dispatches from Mr. Percival Phillips, the "Daily Express" special correspondent.

After their defeat at Hill 60, south-east of Ypres, the Germans made a surprise rush about seven miles further north, and by the use of asphyxiating bombs succeeded in crossing the Yser canal at Steenstraete, and

establishing themselves in the village of Lixerne.

They have been driven out of this, but they are still on the wrong side of the canal and are making desperate efforts to break through to Dunkirk. So far, however, they have not succeeded in breaking the Allies' line.

On the east side of the Yser the Canadians, with splendid gallantry have re-taken the ground and guns that they lost on Friday.

He—"I don't know whether to devote my life to painting or poetry." She—"Well, if I might advise you—painting." He—"You've seen some of my pictures, then?" She—"No, but I've read some of your poetry!"

shrubs and flowers are growing, its beauty will be fully brought out. In niches below the tops of the corner towers are full-length statues of prominent men in the history of the province since its crown colony days, and above are several symbolical figures.

The main portion of the library is on the same floor as the legislative chamber, and is approached from the lobby of the house by a wide corridor which occupies the place of the old rear entrance stairs. The office of the librarian is to the right, and that of his assistant to the left, before the rotunda is reached. The rotunda runs up through two storeys and is domed, with gallery openings on the second floor. It is octagonal in form, with columns in pairs at each side of the four openings, and the walls panelled in marble. The veining of the marble is symmetrical in all four walls. At the base of each is a wide marble pedestal for statuary. The floor is of marble tiles in color.

#### Mahogany Finishings.

On the west side of the rotunda is the reading room, and on the east is the reference room. Both are finished in mahogany, are high-ceilinged and spacious, and admirably adapted to their uses. In the reading room is a quantity of exquisite carving in holly, which will harmonize with the darker background when it has weathered somewhat. This was executed at Cheltenham, England, and is a triumph of the wood-carver's art. Intricately in the patterns are animals, birds, flowers and other bits of nature. In the model there is a festoon of this carving, and other bits are placed on the upper halves of the pilasters around the apartment. The fireplace in the reference room is built in simple style, and the mantel is carved in simple designs.

The delivery clerk's desk is on the south side of the rotunda, and immediately back of it are the stackroom and the telephone and dumb-water which communicates with each storey of the six in the stack. The furniture in all the rooms is mahogany, upholstered in dark green leather, and the whole atmosphere invites to read and study.

At the head of the stairway, on the second floor, are a couple of small rooms for students. The archives department is given a large room on the east side; and on the west side, over the reading room, is a similar room

WHAT THE BRITISH PAPERS ARE SAYING

Comments of Several Dailies on Resignation of William J. Bryan (By F. W. Stevenson & Co.) London, June 10.—The majority of the morning papers print editorials to-day dealing with W. J. Bryan's resignation.

The Times.—The resignation is much more a personal than a political event. It is a dramatic incident in a highly dramatic career, but it is not the turning point or even a milestone in the national policy. It would argue profound misunderstanding of current American conditions to ascribe to Bryan's resignation one tithe of the importance the world naturally would attach to the resignation of Sir Edward Grey.

STATES AEROPLANE FLEW ABOVE AIRSHIP

Berlin Newspaper Correspondent Says Machine Gun Was Used by Austrians (By F. W. Stevenson & Co.) Berlin, June 10.—A correspondent of the National Zeitung has sent to his newspaper the following description of the destruction of the Italian airship Ciitta di Ferrara by the Austrian navy aeroplane L-48 while it was returning after an attack on Plume on June 8.

As soon as the airship was sighted the aeroplane began to ascend. Having gained an advantageous position above the airship, it opened fire with a machine gun and a rifle, using a special projectile designed to set balloons on fire. The airship manoeuvred wildly in an attempt to escape. It was descending all the time and finally was almost at sea level.

TEMPORARILY INSANE IN THE FIRING LINE

Wounded Victorian Describes Experiences of Men in Action at Ypres

A very interesting letter has been received by W. H. Coulson, Oak Bay, from his brother, Private T. A. Coulson, who went away with the first contingent and was wounded in the same fight when Lt.-Col. Hart McHugh, Captain Herrick McGregor and so many other Victorians were killed and wounded.

"I guess you will think I'm never going to answer your last letter, but I put it off from day to day until the night we got cut to pieces up at Ypres. Since then I've been in the hospital and of course I couldn't write very much there. When I got here I had a dozen and one letters to write but your turn has come at last, so will try and give you as good a description of what has been going on with me in the last month as possible.

WILL DELAY FIXING OF CIVIC TAX RATE

Prolonged Assessment Appeals Will Prevent Early Settlement of Tax Levy

The announcement of the tax rate this year will be delayed by the protracted proceedings over the assessment roll. There has to be an interval of seven days after the court announces its decision for appeals to go forward to higher courts, and it is practically certain that such appeals will be made this year.

"From the time we passed through the hedge the poor boys started to drop by the dozen, but the gaps were soon filled up by the rest of them. We kept right on and soon we came in touch with the enemy, but they would not stand and fight; they retired with us right after them till we got on the other side of the woods. It was then that the boys that were left got the worst of it, for the enemy kept up one continual shower of shrapnel all day, but I was not there to see it, but I got mine shortly after we entered the wood.

VILLA MUST DEAL WITH THE MURDERERS

El Paso, Tex., June 10.—H. C. Myles, British vice-consul, today telegraphed General Villa demanding punishment of the Villa soldiers responsible for the recent killing of four British subjects and the wounding of one at Tuxpan. The message was sent on instructions from Sir Cecil Spring-Rice, British ambassador at Washington, and contained a demand for reparation. Villa representatives here still were without definite word as to the status of the Villa reply to President Wilson's note.

TRAWLER BLOWN UP

Ymuiden, Holland, June 10.—The trawler Letty was blown up to-day off the Dogger Bank, in the North Sea. The crew of six men was drowned. "Well, George," said William, as they met on the street, "how is Arthur going on now?" "Oh, much better," replied George. "He has been in the country for seven days to regain his strength." "That's funny! I should have thought seven days in the country would have made one week!"

WERE TAKEN FOR TRIP ON FRASER RIVER

Many Delegates at Meeting of Grand Lodge of I. O. O. F. at New Westminster New Westminster, June 10.—The Odd Fellows' grand lodge of British Columbia met for its forty-first annual session at the Grand Hotel, New Westminster, today. There was a large attendance of delegates from all parts of the province. In the afternoon the delegates were taken for a trip on the steamer Fraser on the Fraser river, visiting Fraser Mills and the colony farm at Esquedale. The evening session was taken up with the consideration of reports and resolutions and the election of officers. There were over 400 Odd Fellows in attendance at the session.

BRYAN IS PREPARING ANOTHER STATEMENT

Washington, June 10.—Former Secretary Bryan is preparing another statement in keeping with Mr. Bryan's spectacular career, but its importance easily may be over-estimated. It must be remembered that, in accordance with American precedent, he became secretary of state automatically, not in recognition of a profound knowledge of international politics, but solely because he was Mr. Wilson's chief competitor for the presidency.

CAPTURE OF MONFALCONE AN IMPORTANT GAIN

Udine, June 10.—The Italian troops, having occupied Monfalcone, are within sight of Trieste. The capture of Monfalcone is regarded as of great importance. Less than a score of miles from Trieste, its possession gives the Italians control of the chief railway junction of that region. It prevents the Austrians from transferring the Austro-Hungarian army between Trieste and Tomizza and gives Monfalcone the centre of electrical supply for Trieste and has large shipbuilding yards.

GERMAN SPY KILLED AT NIAGARA FALLS

Niagara Falls, Ont., June 10.—The mangled remains of an unidentified German, supposed to have been a spy, were found in the Grand Trunk yards this morning. In his pockets were found papers giving information regarding the movements of Canadian troops, and an Austrian and a Russian passport.

## VICTORIA BEST CITY FOR HOME BUILDING

### Robert Hetherington Speaks to Rotarians From Twenty-Five Years' Experience

Speaking at the weekly luncheon of the Rotary club held at the Empress hotel to-day, Robert Hetherington, builder, referred to the many reasons why Victoria can be considered the best home building city on the continent. Mr. Hetherington spoke from twenty-five years experience in the building trade here and by observation of the changes that have occurred during that time.

The chief advantage Victoria has in regard to home building, said Mr. Hetherington, is the fact that there are no houses on twenty-five foot lots in this city. This has advantages for the people who live in the houses and gives, he said, a larger scope for the architect to carry out his ideas and a better chance for the builder. These statements were afterwards supported by Thomas Cunningham, provincial fruit inspector, Vancouver, who was a guest at the luncheon.

Mr. Hetherington spoke of the advance in home building during his twenty-five years here. In the old days he remembered the houses as being of four outer walls with four walls to each room. That is all there was to a house then, he said, and consequently the expense of furnishing was much greater than it is to-day, as houses now are improved with built-in furniture and the many modern conveniences that take the places of the articles the householder once had to buy.

A number of these modern features, Mr. Hetherington said, were due to the fact that women had taken a hand in house development. They have arranged with the architects and builders in later years for many conveniences. He also referred to the question of getting the builder and the financier together on terms that were economical and profitable to both sides. By this means many had been able to own their own homes, otherwise would be house renters.

Mr. Cunningham, when introduced to the club members by Frank Higgins, said he remembered that the chairman's father, Hon. D. W. Higgins, was the first man many years ago to grasp him by the hand when he landed at Esquimalt. Mr. Cunningham said the Rotary president's father and he had been friends ever since, and it was a pleasure for him to see the son of his old friend at the head of Victoria Rotary.

Referring to the fruit growing industry of British Columbia, Mr. Cunningham said that the year this year's crop in the districts this year, on Vancouver Island the crop would be the best yet. He put in a word for the strawberries—claiming that Vancouver island can produce the best strawberries on the continent, and that this year these had put the imported strawberry off the market.

W. H. Walker informed the club that four cartons of strawberries grown at Gordon Head had been sent to Calgary this season, and that after paying over \$400 freight had realized \$1.90 per crate.

## APPEAL COURT HEARS FARMING LAND CASE

### Supreme Court Upheld in Insurance Action of Crisp Against Matthews

The appeal court this morning commenced hearing argument by Sir Charles Tupper, K. C., for the appellant-defendant in the action of Anderson against Fuller. The suit is one concerning the purchase of one hundred and thirty-four acres of farm land on Westham Island.

The suit was begun on the ground of fraud and deceit by the defendant in connection with the sale of the land, which was dyked property and was, the plaintiff alleged in his case, stated to be properly dyked and capable of producing four hundred tons of hay per annum. The claim was that the dykes broke, that the land was flooded and the ground did not produce the amount of hay prophesied.

The price agreed to be paid for the property in 1911 was \$30,000. The plaintiff paid \$13,000 and was then unable to pay the balance. He had paid \$3,000 cash and the other \$5,000 was by instalments up to April 1913. On failure to pay the next payment foreclosure action was taken and acted upon and plaintiff was ejected in May, 1914.

Sir Charles Tupper, for the appellant, informed the court that plaintiff had, when the dykes broke, approached his client who offered a refund of \$3,000 on the price of \$30,000 and that it had been agreed to but was not placed in writing. Sir Charles claimed that the plaintiff had thereby entered a new agreement notwithstanding his complaint of damage by flooding. Therefore, he contended, there could be no case of fraud or deceit. This inducement however fell through when the plaintiff could not make the payments and foreclosure followed.

The argument was continued this afternoon.

The court of appeal upheld the verdict of the supreme court in the action of Crisp and Matthews against the Manufacturer's Life Insurance Co. The argument was heard yesterday and in the afternoon the court decided there was no reason to change the judgment which the supreme court had given. The plaintiff had acted for \$10,000 insurance under a policy given by W. S. Matthews, now deceased. The defence was the insured had made incorrect statements in regard to his health.

“Next time I think,” said the Victoria enthusiast reflectively. “How do you make that out?” “Easy,” said the enthusiast. “Haven't you ever heard of the O'Clocks?”

## INTERNING ALIENS

Following Visit of Ottawa Officer Police Make Numerous Arrests.

A number of the enemy aliens who reside in Victoria are being rounded up to-day by the police and will be taken to the internment camp at Vernon.

This action follows a visit to the city by Lt.-Col. J. P. Macpherson, Ottawa, who is in general charge of internment matters for the Dominion, and a conference with Major Ridgway Wilson, in charge here.

It is understood that not all the aliens registered on the police lists here will be placed in confinement, as it is felt that many of them have not done anything, and are not likely to do anything, to warrant depriving them of their liberty and making them a charge on the country.

The police are engaged to-day in placing under arrest those marked for the internment camp, to which they will be conveyed at once.

Mr. and Mrs. W. W. Johnson, of New Westminster, are the guests of Miss McQuade, 913 Burdette avenue.

Mrs. Frank Adams has invited the board of directors of the Y. W. C. A. to meet at her residence, Gorge road, for their business meeting on Friday next at 2:30 p. m.

Douglas Whittier, son of Mrs. A. D. Whittier, of 1242 Fort street, is leaving to-night for Toronto to join the Naval Aviation Corps there. After a month's tuition in the Toronto school, Whittier will proceed to England to join the Naval Aviation Corps on active service.

Commodore and Mrs. Frank H. Eldridge, Hartford, Conn., are spending a few days in the city and are registered at the Metropolis hotel, Yates street. Commodore Eldridge spent many years in the United States navy, rising through all the grades as an officer and retiring in 1909. For three years in the past he was the professor of engineering in the Ohio State university. He served in the Spanish-American war and in the Philippine Islands. From 1900 to 1902 he was instructor and head of the department of steam engineering and naval construction at the U. S. Naval Academy, Annapolis, Maryland.

A pretty wedding took place yesterday in the vestry of the First Presbyterian church, when Miss Mary Williamson, of Dundee, Scotland, and Oliver Speed, of this city, were joined in marriage by Rev. J. G. Inkster, pastor of the church. The bride, who was attended by the bridegroom's sister, Miss Violet Speed, was attired in a blue satin, with white serge coat, hat to match, and Tipperary veil. Her bouquet was of white carnations and sweet peas with trailers or roses, snail-lax and asparagus fern. The best man was William Bracken. On their return from Alberni, where they are spending their honeymoon, Mr. and Mrs. Speed will take up their residence at their new home, 227 Cedar Hill road, where they will be glad to receive their friends.

## MOTOR ACT BREACHES ARE MET WITH FINES

### Speeder on Malahat Drive Pays Thirty Dollars; Failed to Report Accident

The danger of driving on the wrong side of the road was impressed in city police court to-day by Magistrate Jay, when Robert Erskine was summoned for having driven sharply around the corner of Yates and Blanshard streets at the library on Saturday last, and continued along Yates street on the wrong side.

Constable Little stated to the court that the driver was in the habit of taking the wrong side frequently, and had been cautioned by him for that offence.

Mr. Erskine said he did not see any harm in what he had done, as there was little or no traffic on the street at the time, and there was no chance of any collision.

A fine of \$5 was imposed by the court.

Failure to report an accident in which their motor car was concerned brought H. T. and N. Jones to city police court to-day on a summons. Constable Macpherson told the circumstances of the collision which occurred between the Jones motor and a motorcycle ridden by a man named Campbell on Esquimalt road on May 31.

The defendants pleaded that they did not think it worth while reporting the case.

The constable stated that the accident was a most provoking one, as the car had been coming up behind the cycle. Several items of damage to the wheel were enumerated, and the clothing of the rider was torn.

In this case a fine of \$10 was levied. T. A. Hardy was charged in provincial police court by Constable Robert Owens with having driven on the Malahat Drive on the night of May 24 at an excessive speed. Owens testified that he saw the defendant passing along the road at Finlayson Arm at 10 o'clock that night at a speed of between 30 and 35 miles an hour, and when he turned on the Colwood road he increased the speed.

His worship commented upon the danger of speeding on this highway, apart from the offence of breaking the law restricting the speed, and marked the court's sense of the seriousness with a fine of \$30.

## SAILORS' SMOKER AT DRILL HALL TO-NIGHT

Mayor Stewart to Welcome the Men Who Will Witness Good Program.

As guests of the city to-night the sailors of H. M. S. Kent are to attend a smoking concert at the drill hall, which has been arranged in their honor, and which will be presided over by Mayor Stewart. The committee in charge of the arrangements for the event has issued invitations to members of the two services only; detachments from the regiment and the ships. The invitations have been limited to these because the hall would not hold more.

The mayor is to extend a welcome to the men from the Kent and then announce the programme. This is long, and contains various events along athletic lines. The men are to march to the drill hall from Discovery and Government streets, leaving there at 7.30 o'clock, and, accompanied by the ship's band, will march along Government street to Johnson, then to Douglas, down Yates to Government street, and then on to the drill hall, where the programme will begin at 8 o'clock.

The programme is as follows:

- Band—Patriotic Airs, God Save the King.
- Song—J. Dunford.
- Comic Song—J. Melville.
- Address of Welcome—Mayor Stewart.
- Band—Naval Selections.
- Reply—Officers H. M. S. Kent.
- Boxing—3rd's, Midgets, Benson Brothers.
- Comic Song—Private W. Pellat, R. M. L. I.
- H. M. S. Kent, A.
- Song—Fantasia Theatre.
- Musical Turn—Columbia Theatre.
- Japanese Fencing—T. Fiyimori vs. S. Kiyooka.
- Wrestling Exhibition—Stoker Rose, H. M. S. Kent, vs. Private Gattenby, Fusiliers.
- Boxing Exhibition—3rd, Scott Cropper, Y. I. A. A., vs. Stanley James, Sir J. Jackson's.
- Jiu Jitsu Wrestling—M. Mitsui, J. Kano, M. Kawai.
- Boxing Exhibition—Cpl. J. Ross, 45th Battalion, vs. Stoker Hicks, H. M. S. Submarines.
- Boxer Exhibition—First Class P. O. Newcombe, H. M. S. Kent, vs. Private R. M. Crane, H. M. L. I.
- Boxing Exhibition—Joe Bayley vs. Al. Davies, Y. I. A. A.
- Comic Boxing—Stoker S. Britton vs. A. B. Gosling, H. M. S. Kent.
- Comic—Britannia, "Maple Leaf," "God Save the King."
- Officials—Referee, W. H. Davies. Announcer, Geo. Nicholson. Time-keeper, J. Gordon.
- Table committee—P. A. Raymond, G. I. Warren, A. Folland, Leo, J. H. Kelly, A. Hawthorthwaite, Al. Davies and R. Stewart.

As a result of the match, it was noted for his absent-mindedness. On one occasion he mistook the back of a cab for a blackboard. Taking out a piece of chalk, he proceeded to trace the number of the vehicle, and followed the moving "board" for the space of a quarter of an hour without noticing the progress of the conveyance.

### AS TO RUSSIA'S "TAKING INDIA."

A Canadian writes as follows in the New York Globe:

A writer in your paper recently in taking the German side of the war question accuses Britain of racial treachery because she keeps her obligations to France and Russia in face of the German attack, and he prophesies that Russia will repay England by "taking India."

It is an open secret, of course—even before Kipling wrote "Beware of Adam-Zad the Bear that looks like a man"—that Russia yearns unto the Indian empire. Her spies and agents are many and busy, and of later years have been given a good deal with competing German spies and agents. In consequence British rule has gone up in the Indian estimation. This competition in spies is too like native methods to win native respect.

Those who talk glibly of Russia's "taking India" reckon without India and without history. I believe I am right in these two statements: (a) That there are no finer, braver, swifter warriors in the world than the Sikhs, and (b) that Britain has never yet lost a colony or dependency to another European power.

She lost the American colonies to herself. History shows that British people work in the world is, in part, to fit people for self-government. She may one day lose India to India if India's some 350 princes and rulers ever unify their subjects into one nation. At present, and from the beginning, Britain is the only reason why these princes are not at each others' throats, as they were constantly before Britain became their overlord.

When India is fit for complete self-government the chances are in favor of her remaining in the empire. Canada and Australia have remained in the empire not only because of blood ties, but for a reason that goes deeper than race or kinship. That reason is one law for all, one honor, and just dealing. They stand with Britain because they always know where she stands. They can trust her. The Indian princes, who do not trust each other, trust Britain.

The cry of racial treachery is superficial. The British are not only Saxon or Teuton—they are a mixture. Into the making of them went Briton, Saxon, Jew, Roman, Norse, French, and Celt, in the early centuries of their history. They drew their strength from all national sources. It is natural, therefore, that their ideals should be amalgamation and unity. They made French and British, and they have made British and Boer, and Boer are shaping into one African colony, and its premier to-day is the Boer general Botha, wearing an English title. The British are the only people in the world commons with a voice in all imperial affairs as well as all affairs in the British Isles, and a certain number of voters in Ireland send four members, whereas the same number of English voters have only one member.

A few years ago Kitchener was conquering Arabs in Egypt. Last year he opened a school for the conquered in their desert city. When he and a few of his staff rode into the town to open the school, the Arabs on horse and camel lined the road for miles, and over the gate was an inscription meaning, in effect, "Welcome to the Great Reformer." The inscription is given them by Mahometan

teachers, so that their religious beliefs shall not be affronted. Britain pay for the schools and maintains them.

Compare these things with Germany's record in Poland and in Alsace-Lorraine, where the native speech even is forbidden. Germany's methods of tyranny make her a poor colonist and breed hate toward her. Her ideal is conquest and repression. Britain's ideal is amalgamation and unification. When Britain's day is done she may pass as other great nations have passed, but the work she has done will remain, and the ideal she has carried from the heart of her little island into Canada, the south seas, and the Egyptian desert will continue to fructify.

"He is a self-made man, is he not?" "Yes, except for the alterations made by his wife and her mother."

Anxious Mother—"My dear, little Dick has been fighting again." Husband—"He has, eh? Where's the stick? Got his face all scratched about. I suppose?" "No-o." "Clothes torn, may be?" "No, he didn't get hurt this time. It was the other boy who got hurt." "Oh! Well—boys will be boys you know, my dear. Is supper quite ready yet?"

Youth—"I've got some poetry here I'd like to have you look over." Editor—"Yes, sir. Have you got your license with you?" Youth—"My license?" Editor—"Yes; your poetic license." Youth—"N-n-no. I didn't know I had to have one." Editor—"We never look over poetry without first seeing the poet's license. Good-day."

### SEVERAL TEACHERS RESIGN FROM OFFICE

Annual Changes Will Lead to Readjustment; School Board Business

Owing to the meeting being close to the end of the school year, when teachers are being transferred, the city school board last evening was chiefly engaged in receiving resignations, and making arrangements for the work next term. From the High school there have been five resignations, and the board dealt with the teaching of mathematics by the appointment of G. P. Putnam, who resigned from the staff in January to receive an appointment with the Normal school, Vancouver, from which he has since retired. This appointment is subject to a formal application from the teacher, who had so far only communicated with the principal of the High school. Applications will be invited for the other positions by advertisement.

Principal Willis asked for the appointment of a competent commercial teacher. This matter will be taken up with the appointments. The resignations from the High school were those of Messrs. Tomlinson, MacDonald, Hoping, Plant and Tait. Mr. Hoping will probably return to the teaching staff of one of the graded schools. Mr. Plant indicated that he is going to the front. Miss J. S. Johnson, of the North Ward school staff, has resigned. Mrs. Jenkins drew attention to the desirability of abandoning the tents which were put up during the time that there was pressure on the school accommodation. The municipal inspector said he had not decided yet what use would be made next term of the Margaret Jenkins school, owing to the rearrangement which would arise from withdrawing children from the Sir James Douglas school. The Chinese children under the board will be withdrawn from Figgard street, and will be transferred to the Rock Bay school, from which the white children will be removed next term.

Applications for vacant positions on the board's teaching staff will have to be made by June 25. Miss Juniper, supervisor of domestic science, made a report on the teaching of domestic science, which at present is not carried on at the High school. The municipal inspector said that whatever argument might be used for teaching domestic science and manual training in the graded schools, could be applied with equal force to the High school. Mrs. Jenkins agreed that while the time was inopportune for developments, something ought to be done by way of work at the nearest existing centre to the High school. The chairman appointed a committee composed of Mrs. Jenkins and Trustee Shortt to look after the domestic science work.

Mrs. Jenkins said that the time was coming shortly when the South Park annex, recently finished, should be made use of as soon as possible. The secretary of the board asked for instructions as to the purchase of material to equip the South Park annex. Trustee Dr. Hall requested additional information before any further expense was incurred. Major Riddell believed that the people in Fairfield district, whose children were attending the Sir James Douglas school, were entitled to similar facilities, and the South Park annex had been built for that purpose. The time had come when domestic science facilities should be provided for the girls of the district. The committee will look into the matter.

Principal Cunningham, of the Boys' Central school, drew attention to the condition of the annex at the school, and the building and grounds committee will look into the matter. The board decided to thank W. F. Best for his addresses in the schools, under the auspices of the Natural History society, on the subject of mineralogy. The finance committee reported that there was a credit to the board under various by-laws of \$55,402. The board adopted the following report from the same committee:

"That the secretary be instructed to procure a detailed statement of attendance at High school of pupils living outside of the city, for the school year ending June 30 next, and to prepare a statement of the cost per pupil in the High school, covering this period, in accordance with the requirements of section 15 of the Public School act. The board decided to ask Major Best for an explanation of his remarks regarding the boys' cadet corps on Monday, in making an inspection to the effect that the board and municipal inspector had been negligent of the cadet corps movement.

One of the girls described the observation as being in "walk" posture," and another thought "it was subservive of discipline."

Katherine and five-year-old boy at the table. Her father reproved her, and said she was not to speak again at that meal unless she wanted something. Katherine became thoughtful, and a few moments later addressed her father. "Papa, you said I could ask for something if I wanted it." "Yes, Katherine; what is it?" "I want to talk."

### OBJECT TO REMOVAL OF HOTEL LICENSE

Transfer of Bank Exchange License is Proposed to Metropolis Block

Objection was lodged at the meeting of the city licensing commissioners yesterday afternoon to the transfer, after a temporary permit, of the license of the Bank Exchange, corner of Yates street and Langley street, to the Metropolis hotel, 712 Yates street. The applicant, Cornelius Whelan, was represented by Frank Higgins. A. P. Luxton, K. C., stated that he appeared on behalf of the original owners, the mortgagee, and for Mr. Twigg, acting for the present registered owners. He stated that the property was mortgaged to Walter Thompson some years ago, and sold subject to that mortgage to Eleanore Gore & Elliot, the present registered owners. Now the license came forward, and endeavored to take away the valuable asset of the license, which under the statute was granted to the particular premises. Thereby he was attempting to depreciate the value of the property. "It seems to me" he stated, "that in common honesty, justice, and fairness that license should be left alone, and that the rights of the mortgagees, and the original and registered owners should be protected."

Mr. Edwards, the original owner of the property, protested that he had pledged the licensed house as part of the bargain to the purchasers, and if it was taken away, an action might be brought against him for breach of covenant. The mayor: Suppose the license was taken away for cause? Mr. Edwards: The position would be different, but the possession of the license by the property was considered in the sale. Frank Higgins, on behalf of the applicant, claimed that the property was not in a position to be regarded as a satisfactory hotel premises, because

of the rental of rooms at the rear from Miss Langley in order to make up the necessary number of rooms required under the license act. It was necessary for Mr. Whelan to make immediate arrangements for premises in which to carry on the business.

Mr. Luxton declared that over \$5,000 had been expended to fit the premises for hotel purposes. No further request for additional outlays had been made. Mr. Edwards rose to explain that the Dairy Lunch adjoining had been purchased to add to the accommodation.

The commissioners announced that they desired to consult the acting solicitor, and would adjourn the application for a week. The application for the transfer of the restaurant license of the New England hotel to the Olympus cafe was supported by a widely signed petition of owners in the district. The matter will be taken up at the next meeting of the commissioners. J. A. Alkman presented the petition.

The following transfers were made without opposition: Transfers after temporary permits, continued from the last statutory meeting: Comus, from William Alex. Galt to A. E. Brooks and H. H. Boyd; Brown Jug, Robert E. Noble to Robert Downswell; James Bay, Herman Roth to Mrs. Thomasina K. Bunge; Murphy's hotel from W. H. Murphy to J. B. Adams and J. D. Adams.

Transfers after temporary permits: Borden hotel from George Sprone to L. T. Robertson and Stephen Murphy; Prince George, from Joseph W. Wallis to Ernest Albert Willshar. Extension of temporary permits: Tourist from Avery S. Conklin to Thomas Garvin. The application for the extension of a temporary permit for the Panama hotel, from D. T. Barnhart to Sidney A. Mitchell, was laid over for a week.

An old Yankee who runs a small summer hotel on the coast once received a letter from a prospective "guest" who wrote to engage "two large sunny rooms overlooking the ocean and connecting with private bath." One may imagine the lady's surprise at getting the following curt reply: "Dear madam, all rooms face the ocean, and that's your bath."

Fond Mother—"Well, good-bye, my dear boy. Take good care of yourself; and, whatever you do, always avoid trenches with a north-east aspect."—"Punch."
