

# WIKIDATA LAB XXII

## LUA TRAINING WORKSHOP

April  
24-26  
2020

This training aims to share resources and capabilities for the integration of Wikidata and other Wikimedia projects, in particular Wikipedia.

During the three days of this event, part of the Wikidata Lab series, there will be presentations and sequences of practical activities on the LUA programming language.

The event is aimed at training the Brazilian community of editors of Wikimedia projects. The presentation and coordination of the training will be performed by the wikimedian Doug Taylor (User:RexxS), in English.

Doug is the developer responsible for the WikidataIB module and other Wikidata-focused modules, which allow information to be extracted from Wikidata and

used in several forms across the Wikimedia projects. He also serves on the boards of the Wiki Project Med Foundation and Wikimedia UK.

The training is part of the Wikimedia Foundation's Community Capacity Development plan.

Please, if you are interested in participating in the event, register on the registration page. There are no registration costs and places are limited.
