* * Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

* * Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

No. in Book	Steamer's Name. Material, Rig, &c.	Builder's Name	Particulars of Classification.		Built.		Owners.	Register Dimensions. Deck Erections, &c.			Port of Registry.	Engines.	Moulded depth.
			Character.	Survey.	When.	By Whom.		Length.	Breadth.	Depth.			

While the Committee take all means possible to obtain correct information concerning the Vessels entered in the Society's Register Book, it will be understood that in the case of Vessels not classed by the Society they cannot vouch for the complete accuracy of all the particulars given in respect of metalling, tonnage, dimensions, decks, classification, &c.

* * Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*. *Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

Steamer's Name.	Material, Rig, &c.	Particulars of Classification.	Built.	Owners.	Regist'd Dimensions.			Port of Registry.	Engines.	Moulded depth.
					Length.	Breadth.	Depth.			

While the Committee take all means possible to obtain correct information concerning the Vessels entered in the Society's Register Book, it will be understood that in the case of Vessels not classed by the Society they cannot vouch for the complete accuracy of all the particulars given in respect of dates of metalling, tonnage, dimensions, decks, classification, &c.

** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time. In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

Note named "Sorsogon" See No. 135 in Supplement

*. *Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

No. in Back.	Steamer's Name.	Material, Rig, &c.	Registered Tonnage	Particulars of Classification.			Built.		Owners.	Registered Dimensions, Deck Erections, &c.			Port of Registry.	Engines.	Moulded depth.	Freeboard amidships.	Date of Metall.
				Character.	Port of Survey.	Date of last Survey.	Where.	By Whom.		Length.	Breadth.	Depth.					

While the Committee take all means possible to obtain correct information concerning the Vessels entered in the Society's Register Book, it will be understood that in the case of Vessels not classed by the Society they cannot vouch for the complete accuracy of all the particulars given in respect of dates of metalling, tonnage, dimensions, decks, classification, &c.

* * Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the problem and the objectives of the research. The second part is a literature review, which surveys the work of other researchers in the field. This is followed by a description of the methodology used in the study, including the design of the experiment and the data collection procedures. The results of the study are then presented, and a discussion is given of their significance. Finally, conclusions are drawn and suggestions are made for further research.

2. The second part of the report is a detailed description of the experimental apparatus and the procedures used in the study. This includes a description of the equipment used, the design of the experiment, and the methods used for data collection and analysis. The results of the study are then presented, and a discussion is given of their significance. Finally, conclusions are drawn and suggestions are made for further research.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions.

2. It is essential to ensure that all entries are supported by proper documentation and receipts.

3. Regular audits should be conducted to verify the accuracy of the records and identify any discrepancies.

4. The second part of the document outlines the procedures for handling disputes and resolving conflicts.

5. It is important to establish clear communication channels and protocols for addressing any issues that arise.

6. The document also provides guidance on how to maintain confidentiality and protect sensitive information.

7. Finally, it emphasizes the need for ongoing training and education for all staff involved in the process.

8. The document concludes by reiterating the importance of transparency and accountability in all business operations.

9. It is hoped that these guidelines will help to improve the efficiency and effectiveness of the organization's record-keeping practices.

10. The document is intended to serve as a reference for all employees and management alike.

11. Any questions or concerns should be directed to the appropriate department or supervisor.

12. The document is subject to periodic review and updates as needed.

13. The document is effective as of the date of its issuance.

14. The document is approved by the Board of Directors.

15. The document is signed by the President of the organization.

16. The document is dated as of the date of its execution.

Faint, illegible text at the top of the page, possibly a header or title area.

1888-4-20
Faint text, possibly a date and a reference number.

Main body of faint, illegible text, appearing to be several lines of a letter or document.

Continuation of faint, illegible text in the middle section of the page.

Continuation of faint, illegible text, showing some structural elements like a closing or signature area.

Continuation of faint, illegible text, possibly including a signature or name.

Continuation of faint, illegible text, showing more lines of the document.

Final section of faint, illegible text at the bottom of the page, possibly a footer or a final note.

Handwritten header information, possibly including a date and location.

First main section of handwritten text, appearing as a list or series of entries.

Second main section of handwritten text, continuing the list or entries.

Third main section of handwritten text, continuing the list or entries.

Fourth main section of handwritten text, continuing the list or entries.

Fifth main section of handwritten text, continuing the list or entries.

Sixth main section of handwritten text, continuing the list or entries.

Final section of handwritten text at the bottom of the page.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice to ensure transparency and accountability.

2. In the second section, the author outlines the various methods used for data collection and analysis. This includes both primary and secondary research techniques, as well as the use of statistical software to process large datasets. The goal is to identify trends and patterns that can inform strategic decision-making.

3. The third part of the report focuses on the implementation of the findings. It details the steps taken to integrate the research results into the organization's existing processes and systems. This involves close collaboration with various departments to ensure that the new initiatives are effectively adopted and sustained over time.

4. Finally, the document concludes with a summary of the key findings and recommendations. It highlights the areas where the most significant improvements were made and provides a clear roadmap for future actions. The author expresses confidence that these measures will lead to increased efficiency and better overall performance for the organization.

LIST
OF
SHIP OWNERS AND MANAGERS.

LISTE
DES
ARMATEURS ET DES DIRECTEURS-GÉRANTS.

NOTE.—This List consists chiefly of the Names of Managing Owners. It therefore does not include the names of some large Owners of Shipping Property, or form a true indication of the extent to which others are interested in Shipping.

NOTA.—Cette liste mentionne principalement les noms des Directeurs-Gérants. Elle ne comprend donc pas les noms de certains actionnaires importants et n'indique pas non plus quelle part d'intérêt certaines autres personnes peuvent avoir dans l'affaire.

Union Steamship Co. of New Zealand, Ltd., Dunedin, N.Z.; & 31, Leadenhall Street, London, E.C.

Table listing ships and net tons for Union Steamship Co. of New Zealand, Ltd., including vessels like Arawata, Aotearoa, and various other ships with their respective net tonnage.

Union Transport Co., Ltd., 9, Albert Square, Manchester.

Table listing ships and net tons for Union Transport Co., Ltd., including the vessel Thistle with a net tonnage of 180.

United Alkali Co., Ltd., 30, James Street, Liverpool.

Table listing ships and net tons for United Alkali Co., Ltd., including vessels like Friars Goose, Jarrow, and others.

United Boating Co., Ltd., East London. See W. DUNN & CO.

Table listing ships and net tons for United Boating Co., Ltd., including vessels like Abaronda, Abozmac, and others.

United States Government, New York, U.S.

Table listing ships and net tons for United States Government, including vessels like Abaronda, Abozmac, and others.

United Steam Fishing Co., Ltd., Grimsby.

Table listing ships and net tons for United Steam Fishing Co., Ltd., including vessels like Fisherman and others.

United Steam Shipping Co., Ltd., 72, Highgate Street Within, London, E.C. See J. LIMPURLEY & CO.

Table listing ships and net tons for United Steam Shipping Co., Ltd., including the vessel Dilwara with a net tonnage of 5.

United Steam Tug Co., Gravesend.

Table listing ships and net tons for United Steam Tug Co., including the vessel Dilwara with a net tonnage of 5.

Upper Ottawa Improvement Co., 194, Middle Street, Ottawa, Canada.

Table listing ships and net tons for Upper Ottawa Improvement Co., including vessels like A. Hart, Alexander Fraser, and others.

Uppmark, K. O. T., Brevik, Rödmandsö, Sweden.

Table listing ships and net tons for Uppmark, K. O. T., including the vessel Marla with a net tonnage of 177.

Urbye, G., Farsund, Norway.

Table listing ships and net tons for Urbye, G., including the vessel Meta with a net tonnage of 471.

Ure, A. (Mrs.), Toronto, Ontario.

Table listing ships and net tons for Ure, A. (Mrs.), including the vessel Antelope with a net tonnage of 334.

Uribarri, R., Bilbao, Spain.

Table listing ships and net tons for Uribarri, R., including the vessel Cotillo with a net tonnage of 348.

Urbe, Antonio, c/o C. A. Erhardt y Cia., Bilbao, Spain.

Table listing ships and net tons for Urbe, Antonio, including vessels like Algorteho and Arrizue with net tonnages of 1748 and 1355 respectively.

Urnberg, E., Raumo, Finland.

Table listing ships and net tons for Urnberg, E., including the vessel Naima with a net tonnage of 240.

Usui Shikataro, Mitatsuma, Japan.

Table listing ships and net tons for Usui Shikataro, including the vessel Toka Maru No. 3 with a net tonnage of 239.

Uttrondelagens Dampbaadssamlag, Dronheim, Norway. See P. PIERMSTAD.

Table listing ships and net tons for Uttrondelagens Dampbaadssamlag, including vessels like Uwajima Maru No. 2, 3, 4, and 5.

Uyematsu, Shinjuro, Shingu, Japan.

Table listing ships and net tons for Uyematsu, Shinjuro, including the vessel Melji Maru with a net tonnage of 164.

Urania, Dampskibsselskab, 24, Amaliegade, Copenhagen, Denmark; and 101, Leadenhall Street, London, E.C. See ALFRED CHRISTENSEN.

Table listing ships and net tons for Urania, Dampskibsselskab, including vessels like A. Hart, Alexander Fraser, and others.

Urbye, G., Farsund, Norway.

Table listing ships and net tons for Urbye, G., including the vessel Meta with a net tonnage of 471.

Ure, A. (Mrs.), Toronto, Ontario.

Table listing ships and net tons for Ure, A. (Mrs.), including the vessel Antelope with a net tonnage of 334.

Uribarri, R., Bilbao, Spain.

Table listing ships and net tons for Uribarri, R., including the vessel Cotillo with a net tonnage of 348.

Urbe, Antonio, c/o C. A. Erhardt y Cia., Bilbao, Spain.

Table listing ships and net tons for Urbe, Antonio, including vessels like Algorteho and Arrizue with net tonnages of 1748 and 1355 respectively.

Urnberg, E., Raumo, Finland.

Table listing ships and net tons for Urnberg, E., including the vessel Naima with a net tonnage of 240.

Ursino, F., Catania, Sicily.

Table listing ships and net tons for Ursino, F., including the vessel L'Italia with a net tonnage of 221.

Vagliano Bros., 19, Old Broad Street, London, E.C.

Table listing ships and net tons for Vagliano Bros., including vessels like Adelphi Vagliano, Achille Joannis, and others.

Vagliano, M., Taganrog, Russia.

Table listing ships and net tons for Vagliano, M., including the vessel Flying Arrow with a net tonnage of 38.

Vagliano, Michael, Rostoff-on-Don, Russia.

Table listing ships and net tons for Vagliano, Michael, including the vessel Liolla with a net tonnage of 1074.

Vagliano, P. A., 19, Old Broad Street, London, E.C.

Table listing ships and net tons for Vagliano, P. A., including vessels like Ambatiellos and Despina with net tonnages of 1074 and 778 respectively.

Vagliano, P. S., Cephalonia, Greece.

Table listing ships and net tons for Vagliano, P. S., including the vessel Korantes with a net tonnage of 640.

Valcich, Giuseppe, di P., Fiume, Hungary.

Table listing ships and net tons for Valcich, Giuseppe, di P., including the vessel Marino with a net tonnage of 493.

Valdes, Hermanos, Valparaiso, Chili.

Table listing ships and net tons for Valdes, Hermanos, including the vessel Iquique with a net tonnage of 440.

Valentin, F. W., Troense, Taasinge, Denmark.

Table listing ships and net tons for Valentin, F. W., including vessels like Helena, Dania, and others.

Vaccani, Pinto & Co., Macao, Brazil.

Table listing ships and net tons for Vaccani, Pinto & Co., including vessels like Dois Irmãos and Inteador with net tonnages of 100 and 109 respectively.

Vaccari, A., & A. Raggio, Chiavari and Zoagli (respectively), Lima.

Table listing ships and net tons for Vaccari, A., & A. Raggio, including the vessel Lima with a net tonnage of 981.

Valle, Eredi di Santo, Camogli, Italy.

Table listing ships and net tons for Valle, Eredi di Santo, including vessels like Noi and Oronaso.

Vallée, G., 3, Rue Jeanne d'Arc, Rouen, France.

Table listing ships and net tons for Vallée, G., including vessels like St Joseph, Sully, and Vulcan with net tonnages of 625, 1507, and 413 respectively.

Valley City Transportation Co., Grand Haven, Mich., U.S.

Table listing ships and net tons for Valley City Transportation Co., including the vessel Valley City with a net tonnage of 380.

Valoopillai Saumogampilla, Jaffna.

Table listing ships and net tons for Valoopillai Saumogampilla, including the vessel Chankaranatha Paravy with a net tonnage of 111.

Valsamachis, Pothito, Scopelos, Greece.

Table listing ships and net tons for Valsamachis, Pothito, including the vessel Zoodochos Pighi with a net tonnage of 141.

Valund, Dampskibsselskab, Mandal, Norway.

Table listing ships and net tons for Valund, Dampskibsselskab, including the vessel Valund with a net tonnage of 411.

Valverde, L., Vigo, Spain.

Table listing ships and net tons for Valverde, L., including the vessel Lina with a net tonnage of 41.

Vanaman, W. S., 295, Walnut Street, Philadelphia, U.S.

Table listing ships and net tons for Vanaman, W. S., including the vessel Annie E. Stevens with a net tonnage of 209.

Vancouwenberghe-Lemaire, Dunkirk, France.

Table listing ships and net tons for Vancouwenberghe-Lemaire, including vessels like Martha and Promise with net tonnages of 104 and 114 respectively.

Vancouwenberghe, Numa, Dunkirk, France.

Table listing ships and net tons for Vancouwenberghe, Numa, including vessels like Franco, Marguerite, and Yvonne.
