**Subject:** Rodney Bent duties

Reuben,

As we discussed, these are the responsibilities I would recommend to the Administrator that Rodney have:

Chairman of the Program Review Board (which is responsible for reviewing and making recommendations to the Administrator or all expenditures of vested, seized and DFI funds). *after the fact*

CPA Chief Financial Officer (responsible for the disbursement and auditing of all funds and the management of the DFI)

Al Runnels and his successor would work for him in this role. *What's Al's current role?*

*12* The American voting member on the board being established to review, and recommend to the Administrator, all disbursements from the Supplemental and Donor Fund accounts (total membership is three Iraqis and representatives of our other two principal partners)

Senior Advisor to Planning (Responsible for the Planning, evaluation and execution of infrastructure capital projects in Iraq)

Deputy Director, OMB (to become Director when Tony McDonald leaves)

FYI, Tony would be one of the three coalition members on the board reviewing Supplemental and Donor Fund Accounts, and would continue to monitor Iraqi Budget Execution as the Finance Ministry Senior Advisor. *who are others*

I believe this would be acceptable to Tony, and he would therefore stay.

Dave Oliver

- PMO? New funds approval diagram? *budget priorities*
- staff assignments? *who reports to whom?* *funds allocations*
- board concept? → supp will probably be highly divided up →
- Pending? Police, justice, other functions
- Tony's responsibilities?
- Review of RFP's, TO's, evaluations?
