COMPREHENSIVE EMPLOYMENT AND TRAINING ACT

Allocation of Funds

DEPARTMENT OF LABOR

Employment and Training Administration COMPREHENSIVE EMPLOYMENT AND TRAINING ACT

Allocation of Funds

Notice is hereby given that the Department of Labor, Employment and Training Administration, is allocating funds under the Comprehensive Employment and Training Act (CETA). The funds being allocated are the \$1.2 billion appropriated under Title II of the Act by the recent supplemental appropriation as well as funds for the transition quarter (July 1, 1976 through September 30, 1976). In addition, funds are being allocated for the 1976 Summer Youth program under Title III of the Act.

FY 1976 TITLE II \$1.2 BILLION SUPPLEMENTAL APPROPRIATION AND TRANSITION QUARTER FUNDING

Congress recently appropriated \$1.2 billion in FY 1976 supplemental title II funds to continue nationwide some 260,000 jobs currently funded under the authority of title VI of CETA through January 1977. In addition to these supplemental funds, Congress has made available \$100 million under title II for use in the transition quarter. Attached

are the allocation of the funds under both appropriations.

A. Supplemental Appropriation—\$1.2 Billion.

1. *Eighty Percent Formula Allocation.* The statutory formula was applied to 80 percent of the available funds (\$960 million). Each title II prime sponsor received a formula allocation equal to his proportionate share of available funds based upon the same data and areas of substantial unemployment (ASUs) used for the earlier FY 1976 formula allocation. If a prime sponsor had a title VI program but no eligible title II area, it would receive no funds, and if the sponsor had only a partial area eligible for title II it would receive funds only for that area.

2. *Twenty Percent Discretionary Fund Allocation.* The 20 percent discretionary funds (\$240 million) were allocated in a manner which (1) would ensure that prime sponsors could sustain the annual level of FY 1976 public service employment jobs for a 7-month period, (2) provides those prime sponsors who have increased enrollment above that level with additional funds for an orderly phase-down, and (3) provides enough funds to those prime sponsors which are in whole or in part not eligible for title II, to phase out their programs between July and January in an orderly manner.

In determining these levels, it was inappropriate to utilize current enrollment levels, since for the past several months some prime sponsors have been phasing down their levels in anticipation of no further funding while others have been continuing to increase their levels beyond their annualized FY 1976 levels. Consequently, some prime sponsors, utilizing their total (formula and discretionary) allocation, may not be able to sustain their current on-board level through January but may have to allow for attrition and even minor phasedowns to ensure that the program can be continued through January. This may be particularly true for those prime sponsors who have or will exhaust their funds prior to July 1. For these prime sponsors, the funds allocated under the urgent supplemental will be totally expended earlier in the fiscal year than for the other sponsors.

B. Transition Quarter—\$100 Million.

Also provided are prime sponsor allocations for the transition quarter. The amount indicated for each prime sponsor is 25 percent of their FY 1976 title II allocation announced in June 1975. These funds will be available for obligation and expenditure on or after July 1, 1976. However, prime sponsors will be able to develop plans based on these allocations.
