

NX-36

N Report 36

90.17-2760

Irumagawa Airfield

Irumagawa Airfield was operational it served as both a training school and as a base for operational air groups.

The training school was divided into 3 parts - Pilot training, ground crew training and communication training.

The field was sod surfaced and apparently well enough drained to use under almost all weather conditions.

All photo intelligence material was found to be correct except for failure to locate 5 small storage sheds set low in the ground in a clump of trees adjoining the south side of the communications **shool**.
