In the calculations of the Tide Table, the times of High and Low Water have been corrected for the Moon's Parallax, as also for the Seasons, in which is included the influence due to the Sun's position, the Freshes, and the two Monsoons. Much reliance cannot be placed on what may be called the Seasonal Corrections, as they depend on the comparative force and duration of the two Monsoons and the Freshes; but it is anticipated that any errors produced by variation in those elements will be constant for a considerable portion of a Luration, and the Table will still serve as a guide. The distances, in miles and decimals, of places in the River, given in the above Table, are measured through the centre of the navigable channels from Fort William Semaphore. The miles are geographical, of 2,018 yards each. The distances in British miles may be found by multiplying by 47 and dividing by 41. The Hours and Minutes that follow the distances, if *subtracted* from the time of High or Low Water given in the Tide Table, the remainder will give, though not quite accurately, the time of High or Low Water at the place in question. The time of High or Low Water at Barrackpore may be obtained roughly by *adding* one Hour to the time given in the Table.

The time of High Water is that at which it has reached its greatest altitude, and will commence to fall, although the tide will continue to run up about another hour. The time of Low Water is that at which it has reached its greatest depression, and will commence to rise, though the tide will continue to run down a little more than an hour.

Every parcel to be accompanied by a separate paper, headed with the address of the parcel, and containing a declaration of its contents and value, and the address of the sender. The Parcel, properly addressed, and the separate paper to be sent through any Post Office to the Postmaster, Bombay, superscribed *Overland Parcel Post*. It must be fully prepaid at the rate of 8 annas per lb. (40 tolas), which will carry the parcel to London. Any additional charge for carriage beyond London, and which may become due on account of custom duty, must be paid by addressee.

Parcels may also be forwarded to Germany at the same rate: limit of weight 25 seers; limit of size, 2 feet by 1 foot, breadth or depth.

RULES FOR "VALUE-PAYABLE" PARCELS.

WITH effect from the 1st December, 1877, the sender of a parcel may, at the time of posting, state the value of its contents in view to the amount being realized from the addressee and paid to him (the sender).

2. "Value-payable" parcels may be posted only in disbursing offices (printed in capital type in the list of post offices contained in the Postal Guide): there is no restriction as to the office of address except in the case of a few vernacular offices to which "value-payable" parcels cannot be forwarded.

3. The senders of "value-payable" parcels will be responsible for the proper packing and protection of such articles contained in them as may be liable to damage. The parcels will not be received unless the conditions respecting packing and sealing prescribed in paragraph 14, page 4, of the Postal Guide of 1st September, 1877, are fully complied with.

4. The commission chargeable on payment to the sender of the value of the contents of a parcel will be as follows:—

		Rs.	As.
If the value does not exceed Rs. 10	...	0	4
If it exceeds Rs. 10 and does not exceed Rs. 25	...	0	8
" " 25 " " " 50	...	1	0
" " 50 " " " 75	...	1	8
" " 75 " " " 100	...	2	0

and 2 rupees for every additional 100 rupees or fraction thereof.

5. The commission will be deducted from the amount of the value when payment is made to the sender. If a parcel is refused by the addressee, or from any cause is not delivered, payment of the value will not be made to the sender, and no claim will be made upon him except for any unpaid postage which may have been originally due.

6. Postage will be chargeable on "value-payable" parcels at the same rates as are chargeable on ordinary parcels, and it may be prepaid or otherwise at the option of the sender.

The limit of weight (2,000 tolas) as well as the conditions respecting size prescribed in the Postal Guide for ordinary banghy parcels will be applicable to "value-payable" parcels.

7. The value of the contents of "value-payable" parcels, together with any postage due, must be paid by the addressees before they are delivered.

8. The payments to the senders will be made within one month from the date of delivery.

9. "Value-payable" parcels will be received at the window of the post office during the hours fixed for receiving ordinary parcels, which, with a few exceptions, are from 7 to 8 A.M., and from noon to 5 P.M. They will not be received at all on Sundays, and they must be posted at least one hour before the time fixed for closing the mail with which they are to be despatched: otherwise they will be detained till the next despatch is made.

10. "Value-payable" parcels when presented at the post office window should be accompanied by a memorandum containing the following particulars, viz:—

Name and address of the sender in full.

Name and address of the addressee in full.

Value of the contents recoverable from the addressee.

Date of posting.

A description of the contents need not be given; on the contrary, it is advisable that no description should be given. Receipts will be given to the sender for "value-payable" parcels posted by them.

11. Intimation of the arrival of a "value-payable" parcel will be sent to the addressee, and on his presenting at the post office, either personally or by messenger, the receipt at foot of the intimation duly signed, and tendering the amount of the value of the contents, together with any postage that may be due, the parcel will be delivered. The parcel should be carefully examined by the addressee or his messenger before it is received, and if there be any appearance of tampering, it should be brought to the notice of the postmaster, in whose presence, if necessary, it may be opened.

12. When information of the realization of the value of the contents of a "value-payable" parcel reaches the despatching post office, written intimation will be given to the sender, a date being mentioned therein on or after which payment will be made on his application. In making application for payment the sender must produce the receipt originally given to him for the parcel, and relinquish it with the acknowledgment at foot duly signed, and (if the amount exceeds the limit fixed by the stamp law for the time being) with a one-anna bill stamp affixed thereto.

13. Forward postage will not be charged when "value-payable" parcels are re-directed from one post office to another.

14. The system of "value payable" parcels will shortly be extended to "overland parcels" booked in London for delivery in India, under detailed conditions, which will be made known at the London Parcel Offices. The contents of such parcels must be declared for Custom House purposes. The value payable will be limited to £ 10, and it will be realized from the Indian addressee at the rate of exchange current in Bombay on the day of the arrival of the invoice.

RULES FOR ENSURING VALUE OF CONTENTS OF LETTERS AND PARCELS.

The 2nd November, 1877.

On and after the 1st January, 1878, registered letters and parcels may be insured for the actual value, as certified on them by the sender, for transmission by inland post.

2. The facility for insuring registered letters and parcels will be made available at almost all post offices; the only exceptions being a few vernacular offices. The Government will guarantee to the sender the safe transit of insured registered letters and parcels, and will give compensation to him, within the insured value, for any actual loss occurring in transit from any cause whatsoever, except in the cases described below.

The excepted cases are as follows:—

(1)—Misdelivery arising out of incorrectness or incompleteness of the address written by a sender.

(2)—Wrong declaration or fraud on the part of the sender or addressee.

(3)—When the receipt or acknowledgment has been signed by the addressee or his agent: it being understood that the addressee shall fully examine the outward appearance of the letter or parcel before signing the receipt or acknowledgment. By the term agent is meant not merely a person specially authorized by the addressee, but any servant or other person connected with the addressee's household or business establishment who is accustomed to sign the receipts for registered letters or parcels arriving to his address. Any person who wishes to restrict the delivery of insured articles arriving to his address may do so by communicating with the Post Office.

(4)—When the sender does not give intimation of loss within three months from the date of posting.

(5)—In cases of damage as distinguished from loss; it being understood that the sender is responsible for the proper packing of articles liable to damage so as to provide sufficient protection for them.

(6)—When there is no visible damage to the envelope or other covering or seals, it being understood that the sender must so pack the letter or parcel that its contents cannot be touched without visible damage as aforesaid being caused.

3. The compensation will be payable one month after the date on which intimation of loss is given by the sender to the Post Office, except in cases in which the Post Master General or Chief Inspector of Post Offices may consider that the circumstances demand the withholding of payment pending enquiry.

4. An acknowledgment signed by the addressee will in ordinary course be transmitted to the sender; and in the event of the acknowledgment conveying the intimation of loss, or of the non-receipt of an acknowledgment within three months, he is expected to give intimation to the Post Office.

5. The sender shall on receiving compensation make over in writing to the Government the whole of his rights in the lost property, and shall give all information necessary to facilitate the search for it.

6. No letter or parcel may be insured for an amount greater or less than the actual value of its contents as certified thereon by the sender. Letters and parcels may be insured without limit as to value. The weight of an insured parcel may not exceed the usual limit of 2,000 tolas; and in respect of size also it will be subject to the ordinary conditions mentioned in the Postal Guide.

7. The charges for insurance will be as follows :—

When the value certified does not exceed	Rs. 10	...	1 anna.
" " "	" 25	...	2 annas.
" " "	" 50	...	4 "
" " "	" 75	...	6 "
" " "	" 100	...	8 "

and 8 annas for every additional Rs. 100 or fraction thereof.

8. The prepayment of postage, and in the case of letters of the registration fee, is compulsory and must be effected by postage stamps affixed to the article. The prepayment of the insurance fee is also compulsory and must be made in cash to be tendered with the article. Thus a letter weighing (say) three-fourths of a tola and insured for Rs. 1,000 must be prepaid with stamps to the extent of 1 anna for postage and 4 annas for registration (the total prepayment by stamps thus being 5 annas), and in presenting it at the post office it must be accompanied by rupees 5 in cash for insurance. Similarly a parcel weighing (say) 110 tolas and insured for Rs. 1,000 must be prepaid with stamps of the value of 1 rupee for postage and accompanied by rupees 5 in cash for insurance.

9. A written declaration stating the nature and value of the contents must accompany each registered letter or parcel tendered for insurance, and if currency notes form the contents or part of the contents thereof, the serial and general numbers as well as the value of each note must be written in the declaration. The signature and address of the sender must be added. This declaration will be recorded in the post office.

10. The declared value must also be certified by the sender in figures and words immediately above the address on the envelope or cover of the letter or parcel: no correction or erasure is permissible in the writing or figures of the amount certified.

11. Any person making a false certificate will be liable to the penalty under section 43 of the Post Office Act of 1866, as well as to penalties for cheating under the Penal Code.

12. Registered letters and parcels intended for insurance must be presented at the window of the Post Office. The hours for their reception will be the ordinary registration hours, which with a few exceptions are from 7 to 8 A.M. and from noon to 5 P.M. They will not be received at all on Sundays, and they must be tendered at least one hour before the time fixed for the closing of the mail by which they are intended to be despatched; otherwise they will be detained till the next despatch is made.

13. Letters and parcels intended for insurance should be closed as follows :—

In the case of a *letter* if the cover be an envelope of the ordinary kind as represented on the margin, it should be of strong paper having seals on the flap point in the centre, and on each of the four corners, with distinct impressions of some device other than that of a current coin. If the cover of the letter be other than an ordinary envelope of the kind referred to above, it should be of strong paper or other substantial material, the seals being placed along each fold or seam not more than two inches apart. A *parcel*, should be securely packed in cloth, wax-cloth, or tin, and if it is packed in cloth or wax-cloth it should bear similar seals at intervals not exceeding three inches along each line of sewing.

14. Letters or parcels not fulfilling the required conditions will not be insured.

15. As a further precaution it is recommended that in closing an envelope containing only paper enclosures, the flaps should be closed with paste as well as with seals and that a needle and thread should be passed through the envelope and its contents, the knot of the thread being placed under the central seal: a specimen of an envelope closed in this manner can be seen at the Post Office.

16. The addressee of an insured letter or parcel must sign both the receipt and acknowledgment presented therewith, unless the outward appearance of the cover give rise to suspicion of tampering. In such case he should return the letter or parcel unopened, arranging with the Post Master to take delivery at the Post Office, the letter or parcel being opened there in the presence of the Post Master, and its contents entered in an inventory which will be prepared in duplicate and must be signed by the addressee. One copy of the signed inventory will be forwarded by the Post Office to the sender with the unsigned acknowledgment attached to it.

17. "Value payable parcels," *i. e.* parcels the value of which is realized from the addressee and paid to the sender under the Postal notice of 1st November 1877, may also be insured; insurance, however, renders the prepayment of postage and the insurance fee compulsory. When a "value payable" parcel is insured, the sender will receive from the Post Office two receipts, *viz.*, a value payable receipt and an insurance receipt.

PARCELS TO STRAITS SETTLEMENTS.

I.—On and after 1st December 1877 parcels can be sent from India to places in the Straits Settlements (which comprise Singapore, Penang, and Malacca) under the rates and conditions applicable to the overland parcel post for other countries.

II.—The rate of charge per lb. or fraction thereof is 8 annas, and prepayment is compulsory.

III.—The conditions are specified in the Indian Postal Guide published on 1st September, 1877.

IV.—Parcels from Post Offices in the Bengal Circle should be packed in an outer cover, addressed as follows:—

OVERLAND PARCEL POST.	Postage Stamp to be affixed.
To THE POST MASTER, CALCUTTA.	

V.—The prepayment carries the parcel to destination. The ports of destination are free ports, so that no custom duty will be chargeable thereon.

VI.—The routes are by opium steamers (Jardine, Matheson, and Apear) monthly through Calcutta to Singapore, and by British India Steam Navigation Company fortnightly through Calcutta to Singapore, Penang, and Malacca.

GOVERNMENT INLAND CARRYING AGENCY, OR BULLOCK TRAIN.

Packages can be forwarded, either paid or unpaid. The charges vary according to the classification of goods, which is the same as that in force on the East Indian Railway.

Packages for transit between two Railway stations only will not be received, but if addressed to a station beyond, will be received and forwarded by rail 'unpaid' to the Bullock Train Agent at the Railway station, who will send it on by the ordinary means. Similarly a package sent from an out-station to a station on the Railway will be forwarded by the Bullock Train Agent to the nearest Railway station, and thence forwarded 'unpaid' to the addressee, who will be charged the Railway hire and a commission of 5 per cent. thereon.

Charges between any two stations may be ascertained at a Bullock Train Office. No package will be charged at a less rate than one maund; but a despatch of several made by the same party at one time, and bearing the same address, will be charged according to aggregate weight.

The bullock train also conveys passengers.

BRITISH INDIAN MONEY, WEIGHTS, & MEASURES.

The Gold Coin is the *Mohur* = 16 Rupees, but silver is the standard metal of India.

The current money is one Rupee = 16 annas; 1 anna = 12 pie.

The weight of the Gold Mohur and that of the current Rupee is the same, *viz.*, 180 grains Troy. *Sicca* Rupees are referred to in the Money Market, but they are not issued; 100 *Sicca* Rupees are equal to 106-10-8 current Rupees.

To convert *Sicca* Rupees into current, add $\frac{1}{16}$ th; and current Rupees into *Sicca*, deduct $\frac{1}{16}$ th.

Bazar Weight.—16 Chittacks are one seer, or 2 lbs. 0 oz. 13 drs., and 40 seers, 1 maund, or 82 lb. 2 ozs. 3 drs. 100 Bazar maunds = 110 Factory; and $1\frac{1}{2}$ Factory maunds = 1 cwt.

Factory Weight.—16 chittacks are 1 seer, or 1 lbs. 13 ozs. 14 drs.; and 40 seers, 1 maund, or 74 lbs. 10 ozs. 11 drs. The Indian maund = 82 $\frac{1}{2}$ lbs. Avoirdupois Weight.

BRITISH INDIAN MONEY.

1 Pie	marked P.	= $\frac{1}{4}$ Farthing.
3 Pie make 1 Pice " Ps. = $1\frac{1}{2}$ "
8 Pie		= 1 Penny.
4 Pice or 12 Pie " 1 Anna	= $1\frac{1}{2}$ Pence
16 Annas " 1 Rupee	= 2 Shillings.
16 Rupees " 1 Gold Mohur	= £1-12.

N.B.—The relative value of the money of India and England fluctuates in the Money Market; thus a Rupee is sometimes worth 2s. 2d., and sometimes only 1s. 9d., but 2s. is the medium, or, as it is called, its par value.

Cowries (*Cypræa moneta*), or small shells, are also made use of for fractional payments. Their value is subject to fluctuations. They are reckoned in Bengal:—

4 Cowries make 1 Gunda.
20 Gundas " 1 Fun.
5 Funs " 1 Anna.

In the North-West Provinces:—

2 Adhis make 1 Dumree = say 7 Cowries.
2 Dumrees " 1 Chādai = " 14 "
2 Chādams " 1 Adhela = " 28 "
2 Adhelas " 1 Pysa = " 56 "

BRITISH INDIAN WEIGHT.

The *Unit* of the British Ponderary System is called the *Tola*. It weighs 180 grains English Troy Weight. From it upwards are derived the heavy weights, viz. *Chittack*, *Seer*, and *Maund*; and by its subdivision, the small or jeweller's weights called *Mashas*, *Ruttees*, and *Dhans*.

The following Table gives both the series :—

1 Dhán or Grain...	...	=	$\frac{1}{32}$	grain Troy	=	$\frac{1}{175}$	dr. Avoir.
4 Dháns	= 1 Ruttee	=	$1\frac{1}{8}$	"	=	$\frac{17}{175}$	"
8 Ruttees	= 1 Mashá	=	15	"	=	$\frac{99}{175}$	"
12 Mashas	= 1 Tola	=	7 dwt. 12	"	=	$6\frac{102}{175}$	"
5 Tolas	= 1 Chittack	=	1 oz. 17 $\frac{1}{2}$ dwt. Troy	=	$2\frac{2}{35}$	oz.	"
16 Chittacks	= 1 Seer	=	2 $\frac{1}{2}$ lbs. Troy	=	$2\frac{2}{5}$	lbs.	"
40 Seers.	= 1 Mun	=	100 lbs. Troy	=	82 $\frac{2}{5}$	lbs.	"

N.B.—The Maund is exactly equal to 100 English pounds Troy, and 35 Seers are exactly equal to 72 pounds Avoirdupois.

TO CONVERT INDIAN WEIGHT INTO AVOIRDUPOIS.

Multiply the weight in Seers by 72, and divide by 35; the result will be the weight in lbs. Avoirdupois; or multiply the weight in Maunds by 36, and divide by 49; the result will be the weight in cwt. Avoirdupois.

TO CONVERT AVOIRDUPOIS WEIGHT INTO INDIAN WEIGHT.

Multiply the weight in lbs. Avoirdupois by 35, and divide by 72; or multiply the weight in cwt. by 49, and divide by 36; the result will be the weight; in the former, in Seers; in the latter, in Maunds.

A Ton is equal to 27·222 Maunds, or 27 $\frac{1}{4}$ Maunds nearly.

BAZAR WEIGHT.

5 Siki* or Quarter Rupee make 1 Kancha.	To reduce Bazar weight into Cwt., add
4 Kancha* ... 1 Chittack.	1-10th and deduct 1-3rd of that sum, the
4 Chittacks, or 20 Tolas ... " 1 Powah.	remainder will be Cwt.
4 Powahs ... " 1 Seer.	Thus: 3,000 Bazar Maunds.
5 Seers ... " 1 Pusserec.	Add 1-10th 300
8 Pusserees, or 40 Seers ... " 1 Maund.	3,300
To reduce Bazar weight into Factory	Deduct 1-3rd 1,100
weight, add 1-10th.	2,200 Cwt.
Thus; 3,000 Bazar Maunds.	To reduce Factory Maunds into Tons,
Add 1-10th 300	divide by 30, and the quotient will be the
3,300 Factory Maunds.	answer.
	Thus: Factory Maunds 3,000 ÷ 30 = 100
	Tons.

* These are Bengal weights, and not used in the N. W. Provinces.

The following Tables have been calculated on the old elements of Indian weights, as being still of a more General use. If it was necessary to convert old Bazar Maunds into new ones, the operation would consist simply in the following rule:—

A (the old weight): Y (the new weight): : 179.666: 1,80,000.

English, at so many Rupees, or parts of a Rupee per Maund or seer :—

EXAMPLES.

Required the value per lb. of Indigo at Co.'s Rs. 200 per Factory Maund, Exchange at 2s. per Co.'s Rupee.

In the Table in a line with 2s., and under per lb. at Co.'s Rs. per Factory Maund, is the Number ·001339, which, when multiplied by Co.'s Rs. 200, will give ·2678 decimal of a £ Sterling, or 5s. 4½d.

Required the value per Cwt. of Sugar at Co.'s Rs. 7-8 per Bazar Maund, Exchange at 2s. 1½d. per Co.'s Rupee.

Opposite to 2s. 1½d., and under per Cwt. at Co.'s Rs. per Bazar Maund, is the Number ·142, which, when multiplied by Co.'s Rs. 7½, will give the value in £ Sterling expressed decimally, 1·065, or £ 1 1s. 3½d.

Required the value per lb. of Quicksilver at Current Rs. 4 per Factory Seer, Exchange at 2s. per Co.'s Rupee.

In a line with 2s., and under per lb. at Current Rs. per Factory Seer, is the Number ·04926, which, when multiplied by Current Rs. 4, will give ·19704 decimal of a £ Sterling or 3s. 11½d.

INDIAN CLOTH MEASURE.

3 Jaus make 1 Ungli ... say = $\frac{3}{4}$ Inch. | 8 Girahs make 1 Hathl ... say = 8 Inches.
 3 Unglis ,, 1 Girah ... ,, = $2\frac{1}{4}$ Inches. | 2 Haths ,, 1 Guz ... ,, = 1 Yard.

N.B.—The Guz varies in different localities from 24 to 36 Inches.

There appear to be no Indian measures of capacity for Dry and Liquid Goods, which are sold by weight. Wherever, for the sake of convenience, measures are employed, they are intended to represent some specific weight of a *Seer*, *Chittack*, &c.

LINEAL MEASURE.

Notwithstanding that the cubit or human forearm is the basis or unit in Oriental and Western Countries, there is no fixed Standard established in India.

In Bengal the measure mostly used is the following:—

1 Hath (Cubic) = 18 Inches.
 4 Haths = 1 Danda = 2 Yards.
 2,000 Dandas = 1 Coss = 4,000 ,, = $2\frac{1}{2}$ Miles nearly.

The Coss or Bengal mile is equal to 1 mile, 1 furlong, 3 poles, $3\frac{1}{2}$ yards English.

In the N. W. Provinces, the average distance is about 2 miles; but it differs in almost every province in the country. For distance, in Agra and Muttra, the coss is about $1\frac{1}{2}$ miles; towards the Hills the coss is a little more than a mile; in Bundelcund is three times as long as in others parts, and is called a *Pucca Coss*; while in the Doub is the *Gow Coss*, or as far as the lowing of a cow is heard at dead of night.

BENGAL SQUARE OR LAND MEASURE.

11 Chittacks = 45 Sqr. Ft. or 5 Sqr. Yards
 16 Chittacks ... = 1 Cottah ... = 720 ,, or 80
 20 Cottahs ... = 1 Beegah ... = 14,400 ,, or 1,600 ,,
 $3\frac{1}{2}$ Beegahs ... = 1 Acre.

(*N. W. Provinces.*)

20 Uswansees ... = 1 Suswansee. | 20 Kuchwansees ... = 1 Biswansee.
 20 Suswansees ... = 1 Kuchwansee. | 20 Biswansees ... = 1 Biswa.
 20 Biswas = 1 Beegah.

This is, however, no fixed standard Beegah; almost every district has its own Beegah of local measurement. Besides these there are *Cucha* and *Pucca* Beegahs, the latter generally three times larger than the former.

ASSAM LAND MEASURE.

12 Feet = 1 Looeer. | 5 Cottahs = 1 Hillisah.
 20 Looeers = 1 Cottah. | 4 Hillisahs = 1 Poorah.

BENGAL LIQUID MEASURE.

5 Sicca Rs. Weight ... make 1 Chittack. | 4 Powahs make 1 Seer.
 4 Chitacks " 1 Powah. | 40 Seers " 1 Maund.

HINDOO ASTRONOMICAL TABLE.

15 Matras or Twinkles ... = 1 Kashta. | 30 Mahurtas = 1 Day & Night of Mortals.
 30 Kashtas = 1 Kala. | 30 such Days = 1 Month of Mortals.
 30 Kalas = 1 Mahurta. | 12 M. or 360 D. = 1 Year.

The Hindoo Astronomical Year is 5 days 6 hours and 48 minutes shorter than ours.

INDIAN TIME TABLE.

60 Antipals .. make 1 Vival = 04 Seconds.
 60 Vipals or 6 Prans = 1 Pul = 24 Seconds.
 60 Puls = 1 Dundo or Ghurri... = 24 Minutes.
 60 Dundos or Ghurris = 1 Deen = 24 Hours.

The Astronomical works of the Hindoos follow the *sexagesimal*, or sub-division of 60 throughout.

BENGAL TIME TABLE.

60 Pals ... make 1 Ghurri = 24 Minutes.
 $7\frac{1}{2}$ Ghurris = 1 Prohor' = 3 Hours.
 8 Prohors = 1 Deen = 1 Day or 24 Hours.
 7 Deens = 1 Hafta or Week.
 15 Deens = 1 Pokkho.
 2 Pokkhos = 1 Maus or Month.
 2 Maus = 1 Rhittoo.
 6 Rhittoos = 1 Butsar or Year.
 10 Butsars = 1 Joog.

From this date five Native Christians (one to be a diver) will be placed at the following stations on the banks of the river—Prinsep's Ghaut, Baboo's Ghaut and No. 7 Jetty. At each of these stations there will be a *Doolie* for conveying Seamen to Hospital, and also a life-saving and body-recovering apparatus.

The following signals must be made when the men are required:—

Three blasts on fog horn, at intervals of about two minutes, and a blue or flare-up light, for *man overboard*.

Two blasts on fog horn, blue or flare-up light, for *Doolie*.

On seeing or hearing the above signals the men at the nearest station will proceed at once to the ship with necessary implements, and do what is required.

Should the sick man be sent ashore without any regard to signals, the *Doolie* station may be known by the Society's flag, *viz.*, a blue ground with a Maltese Cross in the centre, and the Society's initials C. M. H. S. inserted.

SARSAPARILLA.
WILKINSON'S
COMPOUND ESSENCE OR FLUID EXTRACT
OF
RED JAMAICA SARSAPARILLA

Is the only Preparation recognised by the Faculty of this wonderful purifier of the Human Blood.

It is not too much to say that those suffering from the effects of tropical climates, such as Torpid Liver, Debility, Impurity of the Blood, Cutaneous Diseases, Rheumatism, Lassitude, Nervousness, Attenuation of the Body, and other complaints, will, by taking a course of this extraordinary ESSENCE OF RED JAMAICA SARSAPARILLA, soon find relief, and ultimately a cure. It may here be stated that those who take this valuable preparation regularly at the changes of the seasons, give the system such power as to throw off easily any ill-effects therefrom; and it is asserted by competent authorities to be a decided specific after taking mercurials—hence its deserved celebrity. Earl Stanhope has remarked that, "he who discovers and makes known a remedy for any malady regarded as incurable, is entitled to greater honour than the most renowned conqueror." What, then, does that man deserve who succeeds in preventing those maladies which poor humanity is afflicted with? A celebrated Physician says, "To me it would be most gratifying to hear of this invaluable medicine introduced, if possible, into every family residing in hot climates, for I am convinced, if frequently taken, it would be found immensely beneficial."

It acts by producing a gradual change in the fluids and habit of body, its *modus operandi* being that of a most efficient *Alterative*, giving an impulse to the natural secretions and excretions; assisting those functions which maintain life and health, and by which the blood is renewed and made to circulate through the extreme arteries and minute capillaries; promoting the appetite, digestion, and the assimilation of food; and thus imparting strength and vigour to all parts of the animal frame. If it is asked—what is an *Alterative*? it is this: it involves the basis of operation of most other medicines; that is, by imparting an impulse to the capillary circulation, promoting the power of the absorbents, exhalants, and of the entire discerning system; thus regenerating healthy blood, and conveying in numberless streams the pabulum of life to all parts of the animal frame. Its effects, then, are simply to aid the renovating powers of the system or the *vis medicatrix*; that is, to assist Nature to come in her own way. It is, therefore, adapted for all disorders requiring the use of an *Alterative*. It is by the judicious use of WILKINSON'S ESSENCE OR FLUID EXTRACT OF RED JAMAICA SARSAPARILLA that a constitution may be gradually built up until strong enough to resist any tendency to disease. Hundreds of subtle maladies are floating around us, ready to attack wherever there is a weak part. We may escape many a fatal shaft by keeping ourselves well-fortified with pure blood and a properly nourished frame.

Out of the immense number of Celebrated Men who have borne their unqualified testimony to the efficacy of this Compound Essence or Fluid Extract of RED JAMAICA SARSAPARILLA, a few only can be selected.

"We cannot speak too highly of your Essence of Red Jamaica Sarsaparilla."—*Lancet*.

"We recommend your Essence of Red Jamaica Sarsaparilla."—*Medical Review*.

"The only preparation (Red Jamaica) for removing what may be called the sequelæ of a Mercurial course."—SIR R. MARTIN.

The late LORD CLYDE, writing for "*Wilkinson's Sarsaparilla*," says:—"I am never without it; for when feeling depressed or out of sorts from anxiety or fatigue, a dose or two revives me."

"Your Essence of Red Jamaica Sarsaparilla cured me of a Torpid Liver when all other medicines failed."—EARL OF ALDBOROUGH.

LAMPLOUGH'S PYRETIC SALINE.

HAVE IT IN YOUR HOUSES, AND USE NO SUBSTITUTE.

Taken as a morning or evening Draught, it is most agreeable, invigorating, and cooling; it removes Bilious Affections, Heartburn, and Acid Eructations, in a marvellous manner.

"It will cure the worst form of Ordinary or Sick Head-Ache in ten minutes."

The late Dr. TURLEY states in a letter "that in the worst cases of Scarlet and Typhus Fevers, he found it in his experience and family to act as a specific, *no other medicine being required.*"

Important to Travellers, English Ministers, British Consuls, and Europeans seeking to reside in safety in Tropical and Foreign Climates. Her Majesty's Representative, the Governor of Sierra Leone, in a letter of request for an additional supply of Pyretic Saline, states: "It is of great value, and I shall rejoice to hear it is in the hands of all Europeans visiting the tropics."

SICKNESS, HEAD-ACHE, and NAUSEA are in most cases immediately relieved by taking a teaspoonful in a tumblerful of water. This can be repeated once or twice in two hours if needful.

SEA VOYAGES.—It is a very valuable accompaniment, and should on no account be omitted; it instantly allays the sickness.

For BILIOUS CONSTITUTIONS, giving rise to Vitiated Secretions, Indigestion, and Eruptions on the Skin, a teaspoonful should be taken daily with the dinner, in a tumbler of water, and the same quantity on going to bed.

PRICKLY HEAT, JUNGLE or YELLOW FEVER.—Given in teaspoonful doses every hour in a tumbler of water. It is by many considered a specific, no other medicine being required. W. Stevens, Esq., M.D. and D.C.L., in a work upon Fevers, states that since its introduction the Fatal West India Fevers are deprived of their terrors. In the Island of Trinidad alone, out of upwards of One Thousand treated on this plan there were only eleven deaths.

In MEASLES, SCARLET, TYPHUS, JUNGLE, or GASTRIC FEVERS and ERUPTIVE DISEASES, it should be given in teaspoonful doses every four hours, in a glass half full of water, or with an increased quantity of water if the patient suffers from thirst. If accompanied with sore throat or enlarged glands, well rub into the part strong hartshorn and oil until redness is produced. "The late Dr. Turley, of Worcester, stated he found this SALINE a specific in these diseases, no other medicine being required. Persons at a distance from Medical aid would do well to have such simple remedies by them."—*Illustrated News of the World*. This method has been found successful in every instance in which it has been used.

HEARTBURN and INWARD FEVER.—One teaspoonful should be taken in half a glass of water, and repeated if needful.

As a pleasant and active aperient, one dessert-spoonful should be taken, mixed in a tumbler three parts filled with water, early in the morning; this quantity might be repeated a second or third time in the hour, if obstinate costiveness prevails.

The Public, and Invalids especially, are informed that the late distinguished and learned Dr. Prout characterised its discovery as unfolding germs of immense benefit to mankind; and forty years' experience confirms his opinion.

Numbers who have previously suffered from Climates unsuited to the constitution, or the injurious use of mercury, inducing disease in all its Protean forms, who had visited our native Bethesdian waters and pools in vain, have, by the daily taking the PYRETIC SALINE, recovered their wonted health and vigour.

CAUTION.—Observe the Trade Mark and Name. Worthless imitations are now being offered to the public, the only merit of which is a label and wrapper with a transposition of the sentences and words of mine—a colourable imitation—in fact a *fraud* on myself and the public. The Genuine is always in a BUFF COLOURED WRAPPER, with my Trade Mark as above, and the *fac simile* of my name and handwriting.

Sold by all Chemists throughout England and the Colonies; and the Maker, in Patent Glass-stoppered Bottles, at 2s. 6d., 4s. 6d., 11s., and 21s. each, 113, Holborn Hill, London.
