THIRTY YEARS AGO PEOPLE WELCOMED SOUND OF THE SAW AND HAMMER

Times have changed in the past thirty years. Thirty years ago the sound of the saw and planing machine spelled prosperity, and the general effect was soothing upon the nerves because it meant employment for somebody, and hence a full dinner pail. In these days of modern notions the noise of machinery is considered coarse, and is entirely out of harmony with the music dispensed by the \$2000 pianola and the European trained vocalist.

Let there be a mass meeting called in Glendale and may this mass meeting be attended by that sturdy class who will extend a vote of thanks to the men who are engaged in industrial pursuits in Glendale—thank them for the substantial things they are doing for their city. These men of brain and genius are the backbone of our community. Have them understand that the honorable business in which they are engaged is not a nuisance, but a godsend to our foothill city.

The editor of the Evening News delights to listen to the rhythmic noise of machinery. To him that sound is a mark of civilization. Even a piece of sawed lumber or a whole yardful of new lumber is a pleasing sight and also denotes to him that prosperity reigns in the land.

It seems to have become a sort of fad in Glendale to oppose enterprises of an industrial make-up. The noise of machinery is looked upon with horror. The attitude taken by some people on this question reminds the writer of the instance of a farmer's daughter who had a senseless view of life. She would accompany her father in a lumber wagon to the city limits of their nearest trading place and from there she would walk to the heart of the city to avoid the humiliation of being seen riding in a lumber wagon by her city friends. When the lady's father drove to the city in a fine carriage she was pleased to ride the whole distance.

### TROPICO

The ladies of the Tropico Thursday Afternoon club are anticipating a most delightful afternoon at the home of Mrs. Haviland, 222 El Bonoito avenue, Thursday afternoon.

Mrs. Frank I. Marsh of North Central avenue left for Buena Park this morning, where she will spend a fortnight as the guest of friends. Mrs. Marsh formerly resided in Buena Park.

Mrs. Z. L. Bathrick and her sister, Mrs. M. R. Gallow of Owensmouth, entertained at cards Saturday evening at the home of Mrs. Bathrick on Palmer avenue complimentary to Mrs. Myra C. K. Shuey and Mrs. Elizabeth Kassell.

Dr. and Mrs. Samuel A. Pollock entertained as their guests Sunday Dr. and Mrs. C. H. Kuster of Los Angeles, who motored out for the day.

Chester Thrasher, nephew of Mrs. James R. Maxwell, passed away on Wednesday and the remains were taken to Kings City, Mo., the latter part of the week for burial. This young man was injured in a railroad collision several years ago and never fully recovered from the shock. He with his wife and young daughter, Helen Thrasher, had visited many times in Tropico and had a large number of friends here who regret to learn his passing on. Mrs. Thrasher and Miss Helen will reside in Kings City, Mo.

### "BROTHERHOOD DAY"

On Saturday afternoon at 1:30 the Glendale Elks are going to give the children in this end of the valley what they call a "brotherhood day" in memory of George Washington. There will be a free show at the Palace Grand for all children in Glendale, Tropico, Eagle Rock, Casa Verdugo, Lankershim, Burbank, San Fernando and Van Nuys, and an invitation is extended to all the children to attend this performance, after which they will be escorted to the lodge's clubrooms and given a little souvenir of the occasion.

Many friends of Kenneth Barager will likely go over to the U. S. C. this evening to hear his colleagues and himself debate on the subject of the "Single Tax." The debate will be held simultaneously at Occidental college.

### 'THE VOICE OF SCIENCE'

MISS MARIE C. BREHM DELIVERS AN ADDRESS TO PUPILS OF HIGH SCHOOL

Between three and four hundred students of the Glendale Union high school enjoyed the privilege of hearing Miss Marie C. Brehm in an able address on "The Voice of Science" delivered this morning in the high school auditorium. Miss Brehm was introduced by Mr. W. D. Root, who stated that she had been appointed by President Taft to represent the United States at the world's non-alcoholic convention in London in 1909 and again by President Wilson to the same convention in Italy in 1913. Miss Brehm has attended eight world's conventions and knows what she is talking about when she speaks on the subject of alcohol.

Miss Brehm said that she always considered it a privilege to speak before such a student body of live boys and girls and she said she often dreamed of them afterwards, and wondered if they were remembering the things she had told them. She said that teaching was a good deal like throwing mud at a wall—a portion of it would stick, but a great deal had to be gathered up and thrown again and again.

Miss Brehm went on to say, taking up the thread of her subject, that human life is a wonderful thing when you consider how marvelously we are endowed, of the physical beauty of the body and of what is stored in that wonderful box called our skull—the wonderful brain, which has not only the ability to remember what it is told, but can also reason out whether things are true and worth while and can invent new things never thought of before; that we also have a spiritual being, which we are told by those who know best is eternal. When we consider all these things, then we must come to the conclusion that the human being is a trinity, lavishly endowed, and consequently has a very strong responsibility. "The measure of your opportunities is also the measure of your responsibility," said the speaker, and in this day we have very wonderful opportunities, consequently the measure of our responsibilities are larger than those of our fathers and mothers, and we must set our ideals by the future and not by the past.

Miss Brehm then called attention to a few things in this new century that contrast very materially with those in the past century. During the nineteenth century the greatest thinkers were looking for the cure for certain ills in the body social and the body politic, but in the twentieth century we are not looking so much for cures, as we are trying to find out how to prevent these ills. And so we have all been called upon to "swat the fly" because the fly does not wipe its feet, and those feet carry disease germs of many kinds of sickness; then the government has spent thousands of dollars pouring oil on the breeding swamps of mosquitoes, because scientists have found that the yellow fever germ is carried in the sting of the insect, and now yellow fever is almost unknown; not because we have learned to cure, but because we have learned how to prevent. Then we have had legislation in regard to preventing the spread of pulmonary tuberculosis and the death rate from the great white plague was reduced from 110,000 in 1884 to 85,000 in 1912, the time of the last census. Also the community towel has been abolished because eye diseases have been found to be thus carried; the public drinking cup has been disposed of because scientists found that germs lodged on its rim. And so many things for the public welfare have been set in motion, and people are beginning to welcome many things now that they would have considered unwarranted interference a few years ago.

Now in order to be absolutely consistent in all these things it is necessary that we abolish the alcoholic drinking cup, and so there is all over the world the anti-alcoholic movement. It means to protect society and to protect future generations from the diseases and dangers that abound in the beverages which contain alcohol. There is no question in the minds of scientists but that alcohol is a poison; and with scientists agreed, the truth has been given out to every people that the ills that beset us can be prevented if we prevent that which is responsible for the disease.

We are just one among the nations who are trying to get rid of the alcoholic liquor traffic, and the presidents, emperors, czars and kings all have been appointing people to represent them in these great world conferences. Among the things that this dreadful traffic is responsible for are the following:

It increases the number of insane; it shortens the length of life from

### A SPECIAL MEETING TO DISCUSS ORDINANCE

TRUSTEES WILL HOLD JOINT SESSION WITH MERCHANTS' ASSOCIATION OF GLENDALE TO TALK OVER LICENSE ORDINANCE—PROTESTS ARE HEARD AT MONDAY EVENING'S SESSION OF THE BOARD OF TRUSTEES

The regular meeting of the Board of Trustees of the city of Glendale was held in the city hall Monday evening, February 15, 1915. Present: O. A. Lane, president of the board, and Trustees Charles Grist, J. S. Thompson, A. W. Tower, Geo. Williams; also present: T. W. Watson, city manager; J. C. Sherer, city clerk; W. E. Evans, city attorney; H. B. Lynch, manager of the public service department; Edw. M. Lynch, city engineer; G. B. Hoffman, city treasurer.

The minutes of the preceding meeting were read and the same were approved.

On motion bids for the improvement of Bena way were opened and read. Contractors submitting bids were Peter L. Ferry, J. Hein, a Mr. Blank and M. W. McCombs. On motion the bids were referred to the city engineer.

A communication was read from W. H. Crane, secretary of the Merchants' association, stating that a motion had been adopted by the Merchants' association asking the board of trustees to meet with said association in a special session Tuesday evening, February 16th. Also a motion had been adopted in which the city trustees were requested to retain Judge Whomes in his position as city recorder. On motion the communication was received and placed on file.

The matter of the hearing of protests against the installing of ornamental street lights on Brand boulevard from Colorado boulevard to the Glendale-Tropico line, was taken up for hearing. Protests were read signed by C. Jessie Stuart, William S. Driver and others. Mr. F. Hester, who is a property owner in that district, spoke against the installing of ornamental lights on Brand boulevard, giving as his reason that he thinks they are not necessary at this time. He advised that twice the amount of money be expended in improving the street in that district. However, he stated that he had not signed a protest and would heartily concur with whatever the majority of the people favored in this particular. On motion the protest was denied, whereupon H. B. Lynch, manager of the public service department, presented a resolution ordering the lighting system installed from Colorado boulevard to the Glendale-Tropico line. Said resolution was adopted.

Frank E. Thorp and others protested against the abandoning of a certain alley in the locality of the Intermediate schoolground, stating that so long as a portion of that

twelve to eighteen years; it causes idiocy, epilepsy and many many more diseases; it is responsible for a marvelous amount of the crime that covers the world, and the scientists go on naming things without end. And so these great world conventions have been called and we are just beginning to see the harvest of the faithful work done, and were much surprised when we learned that Russia had gone dry over night because it had been proven to the czar that the reason for the defeats of the great Russian armies in the Russian-Japanese war was principally due to the fact that the Russian soldiers drank so much vodka during that war. So the czar stopped the sale of alcoholic drinks in Russia, thousands of places were closed by the imperial orders, and the czar's army is a clean, wide-awake army today instead of being just drunken lumps of flesh. The czar was able to do this because the Russian people had been educated during the past few years to see the terrible work done by alcohol; this education was done principally by literature scattered among the people, showing facts as learned at the great world's conferences.

It was also proven at the great conferences that there is more money to be made from the grape as a non-alcoholic food product than there is from the sale of the grapes to the wineries and distilleries. This was proven by companies in Italy and Austria, who made their reports at the convention. So we do not need to make such a cry about the "grape industry will go" in California when this state goes dry. It has also been proven that grapes used in non-alcoholic foods are very beneficial to the human body, but that when once fermented, these same properties are turned from a food to a poison.

Miss Brehm went on to say that "so long as grapes are used as God has placed them before us, they are valuable to life, and we should use God's gift as he has given it to us."

As the speaker closed, the students applauded so loudly that she rose once more and said that when recalled she always left them a bit of

block remained as residence property it was necessary to have a twenty-foot alley. The hearing of protests on this question will come up at a future meeting.

The cow ordinance was taken up for third and final reading, and on motion same was adopted. This ordinance regulates the minimum distance that cows may be kept from dwelling houses.

Resolutions for the improving of a portion of Hawthorne street and Pioneer drive were read and adopted. These resolutions are published in another column of this issue of the Evening News.

An ordinance for the laying out and opening of Seventh street from Everett street to Adams street was adopted, as was also an ordinance for the opening and widening of Adams street north of First street.

The question of additional fire insurance on the city hall was taken up for discussion. On account of the \$4500 addition to the building a motion prevailed that the fire insurance be increased from \$6000 to \$10,000 on the entire building.

Trustee Thompson mentioned the fact that in a recent report made by the city manager he noticed that \$316 had been paid out of the general fund for building cement walks on the library grounds. It was his opinion that this amount should be paid from the library fund. A motion prevailed that the library board be presented a bill for the amount of \$316.

On motion the board of trustees decided to meet in special session on Saturday afternoon at 1 o'clock, at which time the members of the Merchants' association are invited to meet with them for the purpose of discussing the merchants' license ordinance.

Considerable time was taken up in the discussion of whether the city should carry employers' liability insurance, it being the opinion of certain members of the board that the city can afford to carry the employers' liability risks cheaper than the same can be carried by paying premiums on such insurance. The question will come up for more complete discussion at a future meeting.

An ordinance amending the water bond ordinance was taken up for third reading and final passage. This amendment refers only to a little technicality in the wording of a certain sentence in the ordinance. The ordinance is published elsewhere in this issue of the Evening News.

Adjournment.

### AT THE HIGH SCHOOL

The high school's midget ninety-pound team played the L. A. Y. M. C. A. team of their class Monday evening and defeated that team by a score of 13-11. The boys who went over to the city to play were Brown, Pigg, Tummel, Powers, Beach and Dimick.

The music department are going to give the cantata, "Penelope," or "The Milkman's Bride," in the high school auditorium on Friday afternoon at 2 o'clock. The orchestra will open the program with the "Lustspiel" overture, which will be followed by the presentation of the cantata. The cast for the latter is as follows:

Pitcher, the policeman, Johnnie Stauffacher. Tossier, a soldier, Jamie Shea. The object of this concert is to start a fund for the purchase of pictures for the new music room and also to buy trap drums for the school. An admission of ten cents will be charged.

Mrs. Vivian R. Webb, local pianist, will play before the assembly on Friday morning of this week.

Numerous changes in class-rooms are being made at the present time in order to gain better accommodations for the various studies.

Mr. B. L. Dean opened the cafeteria today and the pupils greatly enjoyed the hot lunches.

Mr. and Mrs. A. D. Smith of 110 South Louise street celebrated their twentieth wedding anniversary Monday. Congratulations and flowers were showered on Mr. and Mrs. Smith throughout the day by many friends who called.

### BROWN AND CURRY

CROWDS THROTH TABERNACLE TO HEAR TRUTHS EXPOUNDED BY EVANGELISTS

(By Publicity Com.)

No reputation was ever better founded than that of Evangelist John Brown, who is now conducting the great tabernacle meetings in this city. Again last night the messenger of God with his message from God flooded the souls of over 1200 needy saints and sinners with the light and blessing of divine revelation. It was Monday night, usually understood to be rest night for the evangelists, but in this case worked in as a sort of extra meeting for which many were not prepared, it being understood that Mondays the tabernacle is to be closed; but nevertheless the service was of God's appointing, a special occasion which cannot again be repeated. In spite of the off-night and rain, the service came through never to be forgotten by those who were fortunate to be present.

"Prayer" was the theme of the evening. The story of Elijah praying on Mt. Carmel was handled by a veritable Spurgeon. An eloquent and convincing description of the popular Bible story found in I Kings 18:42-45 was followed by an application to modern times. The sins and failures of Israel and consequent reaping of judgment are duplicated in the nation, state, family and individuals of today.

The preacher then proceeded to a discussion of the remedy. Preaching, singing, machinery, as important as they may seem to be, are not the great essentials. Not even personal work, of which there is so little in most churches, will bring the revival.

Finally, the expectant audience was directed to prayer as the great requisite, the only hope of the churches, the sure means of reaching souls for Christ. Here the lesson of the prophet on Mt. Carmel made the situation clear to the hearers. If we are to win, like Elijah of old, it must be on our knees.

In conclusion the evangelist showed how to pray the prayer that will "puncture the sky." The essentials of prayer are: (1) Consecration, (2) Concentration, (3) Faith.

Elijah was surrendered to God. No use is it for a man to pray for others when he is wrong himself. "Lord have mercy on me," prayed the Syrian woman. And her prayer was heard on behalf of her afflicted daughter.

Prayer must be definite. Praying all over the universe and even beyond to interstellar space is vainly indeed. Prevailing prayer must have a focus. There will be hope for the meeting when we begin to pray for definite objects. Especially must there be concentration on loved ones out of Christ.

Faith, the third essential of prevailing prayer, was shown to be, not worked up, but a gift of God made the stronger by use.

The powerful discourse filled a needed place in the program of meetings and evidenced how systematic and effective the method of the leader. Each service will be unique in itself, especially on the opening week and to miss a meeting will mean one pearl lost from the beautiful necklace. Brown's name is destined to become as familiar to the church as that of Moody and to be privileged as a pastor or layman to co-operate in the big tabernacle meetings will undoubtedly prove to be one of the big numbers in the program of our lives.

The other important features of the service of last evening were the opening prayer by Rev. Rider of the Tropico Presbyterian church, which is also co-operating in the union effort, making ten churches in all, and the splendid singing of the big chorus under the able direction of Mr. Curry. New songs came thick and fast and were simply swallowed with delight. The two sweet messages in song further revealed how splendidly inlaid into the work of the service is Brother Curry. Brown and Curry are surely a team. Most heartily let us give thanks to God for his anointed servants.

The wonderful song books can be secured for two bits, cardboard covers a few cents more. Mr. Curry may well be proud of this compilation of heavenly music. It is a scriptural collection, something which cannot be said of all collections of revival and church music, and the music combines the newness and the brightness that some call catchy with the depth and dignity of the good old-fashioned hymn book. One of the pastors has suggested it a good practice to circulate these books by each securing a few extra copies, marking the especially good tunes, and mailing to friends, some of whom might by such means become interested in the big tabernacle meetings.

### AN INVITATION

PARENT-TEACHER FEDERATION PLANNING EXTRA PROGRAM FOR FEBRUARY 22ND

Since Mr. Henry Jensen has so kindly donated the use of his beautiful and capacious house, the Palace Grand, for the use of the Glendale Federation of Parent-Teacher associations for the afternoon of February 22, the ladies of the patriotic committee are desirous of including the kindergarten children in the first lecture which will be at 1:15. At that time Miss Frances Richardson, the popular and well known "Flag Lady" is to speak to all the children of the 1st, 2nd and 3rd grades. If the parents of the kindergarten children will see that they are at school in charge of the kindergarten teacher, or an older brother or sister, not later than 1 o'clock, the little ones will be most welcome to attend. At 2 o'clock Miss Richardson will speak to the children of the 4th, 5th, 6th, 7th and 8th grades at the Palace Grand. These lectures delight the adults and children, and send them away loving all that the flag symbolizes better than ever before. For this reason, the P. T. A. ladies have arranged this treat for the children.

The patriotism committee ask that any persons who would care to assist in bringing the smallest children in automobiles from the outlying schools be at those schools with their machines at 1 p. m.

In the evening of February 22, Miss Richardson will give her inspiring lecture on the flag for adults. There will be a beautiful pantomime, "The Star Spangled Banner," posed by the Camp Fire girls, who have been trained by Mrs. Coral Harrison Sloan. Mrs. Edmund Shank will sing our national song during the pantomime. Mr. Shank will also lend his beautiful voice on this occasion.

As special guests the G. A. R. have been invited to attend. The high school students and the general public are invited to come in the evening to the lecture and concert to be given in the high school auditorium. It has been necessary to charge the small admission fee of 25 cents to the evening affair. The proceeds will be spent in paying the lecturer and in buying the nucleus for a library of Victrola records of a patriotic nature, said library to be circulating, so that each of the schools, primary, intermediate and high shall have the use of them through the year.

As this is a most excellent cause, it is hoped that the public will respond generously. Tickets will be on sale at the door as long as there are seats left.

### MR. DANIELS HONORED

The K. K. K. club were entertained Monday evening at the home of Mr. and Mrs. Goodman Phillips, 1424 West Colorado boulevard. This party was given in honor of Mr. Samuel Daniels of Boston, who has been spending about a month in Glendale and leaves Thursday morning for San Francisco to visit that place on his way home.

The decorations were pale pink carnations and ferns most tastefully arranged. What was the game played, there being five tables of players, and the prizes going to Mrs. Thos. Chappell and Mr. Perce H. Curtis, while the consolation was awarded to Mrs. Andrew Wightman. After cards a short musical program was given by Mr. Charles Goodrich, Mrs. Thos. Cappel and Mrs. Frank Buchanan, and dainty refreshments were served. Among the guests of the evening were Mr. Samuel Daniels, Mr. and Mrs. Andrew Wightman, Mr. and Mrs. Charles Goodrich, Mr. and Mrs. Ed. McKee, Mr. and Mrs. Salo Desky, Mr. and Mrs. George Daniels, Mr. and Mrs. Frank Buchanan, Mrs. Purser, Mrs. Cappel, Mr. and Mrs. Perce H. Curtis, Miss Eva Daniels, Mr. Victor Daniels and of course the host and hostess.

Lots of folks will respond along the line of music in any form, even though they have nothing to do with churches.

Afternoon services commence today at 2:30 promptly, rain or shine. The evening service commences at 7:30.

Jeff once wrote a poem in which he referred to the clock striking five minutes past ten. Mutt objected to the mechanical blunder of the rhythm, but Jeff made the Bud Fisher climax by explaining that the clock was five minutes late. Judged by the manner in which some good folks trailed in last evening, they must have Jeff clocks on their mantelpiece. Brown says try to be on time. But of course better late than never.

**THE RETORT COURTEOUS**

Justice Day was a "hanging judge" and when on circuit expedited business in a summary manner. On one occasion the trial of a prisoner concluded at dusk, and the judge ordered candles to be lighted so that he could try another case that night.

O'Connor, a noted Irish barrister, defended and in protest against night work, exclaimed, addressing the court:

"What, my lord, try men by night! What will men say? That justice is not done by Day!"

He obtained his end, and at the next sitting the accused was acquitted.—London Mirror.

**We Specify the Stock**

We welcome competition in quality and service and we are not afraid of any good printer's competition in price.

There can be no competition in the matter of stock if all printers would specify the stock in weight, basic size and trade name as we do. There's a difference.

**BUSINESS POINTERS**

The person conducting a business should always be in a position to control the business he is managing and not allow it to control him. He should not be so busy but he can take time to ascertain whether he is doing business at a profit or a loss. He should not take so many orders that he can not fill them in a satisfactory manner. He should not employ more clerks or assistants than he needs. There is such a thing as maintaining a business equilibrium, and it is also possible for a business concern to be out of balance. The proprietor or manager is the person who is responsible for the business condition of the concern with which he is connected, and it is up to him to make good.

Business failures result from bad management. Often the individual or firm who fails in business is overcrowded with orders. The failure comes about from poor business management and not on account of lack of patronage.

**CHILDREN'S PARTY**

A very pretty children's valentine party was given Saturday at the home of Mrs. Elmer Masters in the Monte Vista apartments in honor of her little niece, Miss Isabelle B. Bauer of Kansas City who with her mother is spending the winter in Glendale.

The living and dining rooms were beautifully decorated in hearts and cupid. Several games were played for prizes, the prizes being won by Daisy Murphy and Dorothy McGinnis. A very dainty luncheon was served to twelve little guests at a pretty table covered with red and white crepe paper, the place cards being red hearts pierced with gold daggers which were numbered to correspond with the hand painted valentines which the children drew from a red crepe basket suspended over the center of the table. Streamers of red satin ribbon with little cupids and hearts were hung from the basket to the center of the table. The centerpiece was a pretty Japanese basket filled with jack straws for the children. The luncheon was carried out to correspond with the decorations and mottoes. One never saw a happier gathering of little folks and they thoroughly enjoyed the afternoon.

The little guests were: Dorothy McGinnis, Daisy Murphy, Helene Orr, Helene Sprout, Alice Carpenter, Anna Weber, Lucile Thompson, Elizabeth Brewer, Winnifred Brewer, Arline Yakel, Lois Naudain and Isabelle Bauer.

M. Lynch and sister, Miss Dorothy Wood of Berkeley, Mrs. Joseph H. Webster and Mrs. E. J. Morgan of Tropic.

**THAT SINFUL PRINTER**

Unobserved and unannounced, the president of a church society entered the composing room just in time to hear these words issue from the mouth of the boss printer:

"Billy, go to the devil and tell him to finish that 'murder' he began this morning. Then 'kill William Jennings Bryan's Youngest Grandchild,' and dump the 'Sweet Angel of Mercy' into the helbox. Then make up that 'Naughty Parisian Actress' and lock up 'The Lady in Her Boudoir.'"

Horrified, the good woman fled from that place of sin and now her children wonder why they are not allowed to play with the printer's youngster.
