WE TAKE pleasure in presenting herewith our WHOLESALE CATALOGUE of Bulbs, Roots, etc., for the Season of 1923-24.

In the growing of our stocks we endeavor to give most careful attention to cultivation, to insure prime quality, and we have taken great pains to keep our stocks pure and true to name.

In making up this catalogue, we have eliminated many items that we consider not worth growing, in view of later and better ones now on the market.

It is our wish to offer our customers only the best in our line.

Gladioli in Mixtures

We build our mixtures to order, as we believe this is the only way a true mixture can be kept to standard. We know perfectly well that mixtures can be bought at almost any price, but after testing most mixtures on the market we have come to the conclusion that our customers want and should have something better than the average. So we build our mixtures from named varieties and seedlings of merit.

Regarding our mixtures under color, we are most careful to have them true and pure, in fact as well as in name; and they are mixed with great care from named sorts.

Our Guaranty

We are so very anxious to give our customers satisfaction, and we are so very sure that we have satisfactory goods, that we stand ready to "make good" by replacing anything that does not turn out as represented, from any fault of ours.

"Primulinus Hybrids"

In recent years these Hybrids have come to be extremely popular and they deserve every word of praise they get; they are graceful, easy to grow, moderate in price, artistic in colors, which range from sulphur-yellow to chrome-yellow, all shades of orange with now and then a cream and pink among them, but Nasturtium colors predominate; they are the last word in Gladioli for dainty decorations.
