

# Where, I wonder where?

Lyrics by (Drake.Kent.Shand)

Where is the garden? The scent of flowers.

That sweetly perfume the air.....

(a) Long with the leaves that have fallen...Where I wonder where?  
Where is the moonlight? Where is the stardust?  
The breeze that's skipping your hair.

(a) Long with the sunset of summer...Where I wonder where?  
All my nights are dreaming wonderful dreams.  
When I wake they disappear.....  
Through the day I wait for only nighttime it seems.  
How I wish you were here?  
For all our love schemes... Just drifting daydreams.  
Was I alone in my prayer?

Where was the love we once imagined?  
Where I wonder where?
