Mr. Speaker reported, That the House had, this day, attended Her Majesty in the House of Peers, when Her Majesty was pleased to make a most gracious Speech from the Throne to both Houses of Parliament; of which Mr. Speaker said he had, for greater accuracy, obtained a Copy; which he read to the House, as followeth:

My Lords, and Gentlemen,

Circumstances have recently arisen, connected with the commercial interests of the Country, which have induced Me to call Parliament together before the usual time.

The failure of certain Joint Stock Banks, and of some Commercial Firms, produced such an extent of distrust as led Me to authorize My Ministers to recommend to the Directors of the Bank of England the adoption of a course of proceeding which appeared necessary for allaying the proceeding which As that course has involved a departure from the existing Law, a Bill for indemnifying those who advised and those who adopted it will be submitted for your consideration.

I have observed with great regret that the dis-turbed state of Commercial Transactions in general has occasioned a diminution of employment in the manufacturing districts, which, I fear, cannot fail to be attended with much local distress. I trust, however, that this evil may not be of long duration; and the abundant Harvest with which it has graciously pleased Divine Providence to bless this land will, I hope, in some degree mitigate the sufferings

while, I nope, in some degree mitigate the sufferings which this state of things must unavoidably produce. While I deeply deplore the severe suffering to which many of My subjects in *India* have been exposed, and while I grieve for the extensive bereavements and sorrow which it has caused, I have derived the greatest satisfaction from the dis-tinguished successes which have attended the basis tinguished successes which have attended the heroic exertions of the comparatively small forces which have been opposed to greatly superior numbers, without the aid of the powerful reinforcements de-spatched from this Country to their assistance. The arrival of those reinforcements will, I trust, speedily complete the suppression of this widely-spread Revolt.

The gallantry of the Troops employed against the Mutineers, their courage in action, their endurance under privation, fatigue, and the effects of climate, the high spirit and self-devotion of the Officers, the ability, skill, and persevering energy of the Commanders, have excited My warmest admiration; and I have observed with equal gratification that many Civilians placed in extreme difficulty and danger have displayed the highest qualities, including, in some instances, those that would do honour to veteran Soldiers.

It is satisfactory to know that the general mass of the population of *India* have taken no part in the Rebellion, while the most considerable of the Native Princes have acted in the most friendly manner, and have rendered important services.

Vol. 113.

I have given directions that Papers relating to these matters shall be laid before you.

The Affairs of My East Indian Dominions will quire your serious consideration, and I recommend

them to your earnest attention. The Nations of *Europe* are in the enjoyment of the blessings of Peace, which nothing seems likely to disturb.

The stipulations of the Treaty which I concluded with the Shah of *Persia* have been faithfully carried into execution, and the *Persian* Forces have evacuated the Territory of Herat.

Gentlemen of the House of Commons,

I have given directions that the Estimates for the next year shall be prepared, for the purpose of being laid before you. They will be framed with a careful regard to the

exigencies of the Public Service.

My Lords, and Gentlemen,

Your attention will be called to the Laws which regulate the Representation of the People in Parlia-ment, with a view to consider what amendments may be safely and beneficially made therein.

Measures will be submitted for your consideration for simplifying and amending the Laws relating to Real Property, and also for consolidating and amending several important branches of the Criminal Law.

Sir Benjamin Hall reported from the Committee and Harbour (New Works) on Group J. of Private Bills; That in the case of the Bill. Mersey Docks and Harbour (New Works) Bill, they had examined the allegations contained in the Preamble of the Bill, and amended the same, by striking out the recital referring to the extension of the North River Wall on the Liverpool side of the River Mersey ; and found the same, as amended, to be true; that a Report from the Board of Trade, dated in April 1858, on the subject of the said Bill, had been referred to the Committee, who have considered the observations and recommendations therein contained, and with regard to the periods for executing the new Works, to the appropriation of Land on the South Reserve to the Great Western, London and North Western, and Birkenhead, Lancashire and Cheshire Junction Railway Companies, to the omission of the Power to make the sea-wall at the north end of the *Liverpool* Docks, to the purchase of premises of the *Birkenhead* Railway Company adjacent to the Great Float, and to the purchase from the Corporation of Liverpool of its reversion in property at *Birkenhead*; and have amended the Bill in reference to the views expressed in the Report; they have not, however, thought it fit to settle by the Bill the terms or principles in which such purchases should be made, conceiving that those are points which might reasonably be left to the Parties themselves to arrange; they have also considered the observations contained in the said Report, in regard to the policy of deferring the execution of the northern entrances at Birkenhead, until it is seen how the other entrances work; but the Committee, after considering the circumstances of the case, have come to the conclusion, not to make any special Provision in that respect; they have also considered the recommendations in the Report of the Admiralty in regard to this Bill, and have inserted Clauses accordingly; and had gone through the Bill, and made Amendments thereunto.

Oaths Bill.

East India (Memorials, &c.)

> Lord John Russell reported from the Committee appointed to draw up Reasons to be offered to the Lords at a Conference for disagreeing to the Amendments made by their Lordships to the Oaths Bill; That they had drawn up Reasons accordingly, which they had directed him to report to the House :- And

> the same were read, as follow : Ist. Because the words " on the true faith of a Christian" were originally introduced in the Oaths to be taken by Members of Par-liament with a view to bind certain Roman Catholics, and were not intended for the pur-pose of excluding persons of the Jewish persuasion.

2d. Because the exclusion of British subjects from Seats in Parliament and Offices in the State, on the ground of their religious opinions, is contrary to the general maxims of freedom of conscience.

3d. Because no charge of disloyalty or unfitness for public employment and a fair share of legislative power has been alleged, or can be alleged, against the Jewish community.

4th. Because the infliction of disabilities upon any class of Her Majesty's subjects solely on the ground of their conscientious adherence to their faith savours of persecution, and is totally inconsistent with those principles of religious liberty which, in the case of more powerful communities, have been applied by Parliament with such happy effects.

5th. Because the Commons having already on ten previous occasions, and in five Parliaments, passed Bills for removing the civil disabilities of the Jews, and having of late years agreed to such Bills by constantly increasing majorities, are convinced that the opinion of their constituents and of the country at large has been irrevocably pronounced in favour of the removal of such disabilities.

6th. Because such Bills have been supported by many of the most eminent Members of both Houses of Parliament, who, while differing upon other political questions, have concurred in the justice and expediency of measures for the relief of the Jews.

7th. Because the rights of the Electors of the United Kingdom have been peculiarly affected by a Law which has been construed to prevent the admission to the House of Commons of Persons who have been lawfully returned as Members of that House.

8th. Because the 1st and 3d clauses of the Bill are open to the construction that the New Oath which the former of them contains should be taken, not only in all cases where the Oaths of Allegiance, Supremacy and Abjuration are now required, but also where the Oaths of Allegiance and Supremacy are at present required, though without the Oath of Abjuration; the result of which construction, if the Bill should pass into law without the fifth clause, would be to exclude the Jews from practising as Solicitors and Barristers, and from offices under the Crown, to which employments and offices they are now admitted.

9th. Because such result would be contrary to the intention of the two Houses of Parliament, appearing from the sixth clause and from the title of the Bill under consideration.

The said Reasons, being read a second time, ere agreed to.

Ordered, That a Conference be desired with the Lords upon the subject-matter of the Amendments made by their Lordships to the said Bill : And that the Clerk do go to the Lords, and desire the said Conference.

The Order of the day being read, for resuming the adjourned Debate on the Amendment which, upon the 14th day of this instant May, was pro-posed to be made to the Question, That this House, whilst in its present state of information it abstains from expressing an opinion on the policy of any Proclamation which may have been issued by the Governor General of India in relation to Oude, has seen with regret and serious apprehension that Her Majesty's Government have addressed to the Governor General, through the Secret Committee of the Court of Directors, and have published, a De-spatch condemning in strong terms the conduct of the Governor General; and is of opinion that such a course on the part of the Government must tend, in the present circumstances of *India*, to produce the most prejudicial effect, by weakening the au-thority of the Governor General, and encouraging the further resistance of those who are in arms against us; and which Amendment was, to leave

out from the word "House" to the end of the Question, in order to add the words "generally approves of Lord Canning's policy up to the time of the Oude Proclamation, and is satisfied with the " firmness and judgment he has evinced during the

" crisis in India; but this House declines to give any " opinion upon the Oude Proclamation until it has " had further information on the state of Oude when 11 the Proclamation was issued, and also Lord Can-

" ning's reasons for issuing it," instead thereof; And the Question being again proposed, That the words proposed to be left out stand part of the Question :- The House resumed the said adjourned

And having taken your Address into consideration, I have directed that a Commission shall issue for the purposes which you have requested.

Ordered, That the Report do lie upon the Table; and be printed.

Ordered, That the Select Committee on East East India India (Transport of Troops) have Power to report (Transport heir Opinion thereupon to the House, together with No. 382. the Minutes of the Évidence taken before them. Sir MM3

Sir De Lacy Evans reported from the said Committee; That they had considered the matters to them referred, and had come to several Resolutions, which they had directed him to report to the House, together with the Minutes of the Evi-dence taken before them, and an Appendix: — And the Resolutions of the Committee were read, as follow:

1. That the Inquiry which this Committee has been appointed to conduct may be divided into three branches: the first, relating to the Overland Route to *India*; the second, to the employment of Steamers, as compared with Sailing Vessels, for the Transport of Troops round the *Cape of Good Hope*; and the third, to the use made during the Mutiny of the Military resources of this country and of the Colonies.

2. That the Court of Directors appear from the first intelligence of the Mutiny at *Meerut* to have been sensible of the advantages of the Overland Route, and to have lost no time in recommending its adoption; but that political and other con-siderations deterred Her Majesty's Ministers from at once assenting to that recommendation. 3. That the Committee cannot judge of the

validity of those political objections, as they felt themselves precluded from inquiring into them; but that they ceased to prevail in the first week of September, when the more serious character of the war and the lateness of the season for ships departing for Calcutta, led to a formal requisition from the Court of Directors, and to a compliance with it on the part of the Cabinet.

That it would have been desirable, independently of political considerations, to have taken advantage of the Overland Route at the earliest possible period, and, apart from such considerations, it is much to be regretted that the steps that were taken in September to transmit small bodies of troops by this route were not resorted to at an earlier date. That the transport, however, of any large body of troops would have required previous arrangements, and that the evidence laid before the Committee leaves great room to doubt whether any considerable reinforcements could have been sent in the months of July and August, with a prospect of their arrival in *India* so far in advance of those sent round the *Cape* as to give any great advantage in favour of this route.

5. That although the Overland Route may be advantageously employed in times of emergency, it would not be advisable that it should be relied upon as the ordinary route for the transmission of troops to India.

6. That if Steamers had been used in greater numbers, the reinforcements would have reached India more quickly than they did by Sailing Vessels; but that no evidence has been laid before the Committee to show that, at the time the emergency arose, a greater amount of Steam transport was attainable, whilst it has been shown that grave doubts existed whether the supply of coal on the route would have been sufficient for a larger number of Steam Vessels than were actually employed.

That Steamers should for the future be always made use of, as far as possible, in urgent cases; but that, for the transmission of the ordinary reliefs the Committee would not recommend the adoption of so costly a mode of transport.

8. That the Governors of Ceylon and the Maurivius gave early and valuable assistance to the Government of India, and deserve great praise for the zeal and promptitude with which they acted; that the Governor of the Cape, without loss of time, forwarded treasure and horses, together with a portion of the troops at his disposal, but that he did not send the whole amount of the force which he was instructed by the Home Government to transmit to India; that the Committee have not the means of judging whether the circumstances of the

colony did or did not justify Sir George Grey in taking this course. 9. That the Committee observe with satisfaction

that the people of *Canada* displayed great readiness to afford assistance to the Mother Country; and that the Committee are of opinion that it is highly desirable to give every encouragement to such de-

monstrations of loyalty on the part of the colonies. 10. That on the whole, considering the sudden-ness of the danger, and the distance to which the troops were to be sent, the Committee are of opinion that great credit is due to the Court of Directors of the East India Company for the promptiude and efficiency with which they discharged the difficult task of transmitting reinforcements to the Army in India during the past year. Ordered, That the Report do lie upon the Table ;

and be printed.

Stade Tolls No. 429.

ORDERED, That the Select Committee on the Stade Tolls have Power to report their Opinion thereupon to the House, together with the Minutes of the Evidence taken before them.

Mr. Henley reported from the said Committee ; That they had considered the matters to them referred, and come to several Resolutions, which they had directed him to report to the House, together with the Minutes of the Evidence taken before them, and an Appendix ; and the Resolutions of the Committee were read, as follow :

1. That the foundation of the claim of Hanover to levy the Stade Toll was a Treaty with Denmark in 1719 A. D., by which, whatever right to levy such Toll Denmark possessed, was transferred to the Elector of Hanover.

2. That the proportion of Stade Toll to freight in British ships from Hull to Humburg is, at the present time, on a bale of spun silk, 115 per cent.; on a bale of cotton goods, 142 per cent.; and on a That the average bale of woollen yarn, 36 per cent. annual amount of Stade Tolls levied on cargoes, under the British flag, has risen from £. 3. 10 s. per 100 tons British in 1847, to £.4.6 s. 4 d. in 1855.

3. That the increase on British tonnage entering the port of Hamburg has been 102 per cent. since 1849, while the increase on Hamburg tonnage has been 248 per cent. since 1849; and the foreign tonnage, exclusive of British and Hamburg, entering the port of Hamburg, has, during the same

period, increased 99 per cent. 4. That the Stade Toll is injurious to the Trade and Shipping of the United Kingdom.

5. That the Tax is specially prejudicial to the part of our produce and trade which has to compete in Foreign Markets with similar articles not subject to the Tax, and this is felt sensibly in the Coal Trade, and particularly in the Export of the less valuable descriptions of Coal.

6. That goods, the property of Hamburg Citizens, and carried in *Hamburg* ships, are exempt from the Stade Toll, and *British* ships are thereby exposed to an unfair competition.

7. That the general trade to *Hamburg*, notwith-standing the discouragement occasioned by the Tax, has more than doubled within the last Ten years

8. That the trade to *Hamburg*, which is free from Stade Toll, has risen in a still more striking ratio; that of *Bremen*, the *Elsfleth* Toll on the Weser having ceased, and that of Stettin (the Sound Dues having been abolished), have also increased in a very large proportion.

9. That the Stade Toll differs from the Sound Dues, inasmuch as the Sound Dues were a Tax charged not only upon articles of Export, but also on articles of general use imported into the United Kingdom; but the Stade Toll is levied on Exports from and not on Imports into the United Kingdom.

10. That it does not appear that any service whatever is rendered by *Hanover*, in return for the Ta t levied upon the commerce of *Great Britain*. 11. That if the Treaty of 1844, by which the United Kingdom is bound for a limited period to

assent to the payment of the Stade Toll, were determined by notice pursuant to the terms thereof, but little injury or inconvenience would arise to the trade of this Country.

12. That it is expedient that notice should be given to terminate the Treaty of 1844 with Hanover.

Ordered, That a Printed Copy of the said Report be communicated to the Lords, as desired by their Lordships: And that the Clerk do deliver the same.

Mr. Dunlop reported from the Committee ap-Universities pointed to draw up Reasons to be assigned to the (Scotland) Bill. Lords for disagreeing to certain of the Amendments made by their Lordships to the Universities (Scotland) Bill; That they had drawn up Reasons ac-cordingly, which they had directed him to report to the House; and the same were read, as follow: The Commons disagree to the Amendment in

2, being to leave out Clause 3, for the following Reason :

Because, by the Act of the 16 & 17 years of Her Majesty, chapter 89, all Professors of the Universities of Scotland were relieved from the encessity of taking the religious test to which they previously were subject, except those holding Chairs of Theology; and although the offices of Principals in all the Colleges, with two exceptions, were included under the designation "Chairs of Theology," this pro-ceeded apparently on the assumption that the holders of these offices were actually teachers of Theology, while, in point of fact, none of the Principals of any of the Colleges, except Saint Mary's, Saint Andrews (a Theological College, and not affected by the Clause struck out by your Lordships), have, as such, taught Theology for more than a century and a half; and be-cause these offices of Heads of Colleges are situations of dignity, which ought to be open to persons of eminence of whatever denomina-, and whether Clergymen or Laymen. tio

The Commons disagree to the Amendments to Clauses 8, 9, 10, and 11, for the following Reason :

- Because, by making Professors Co-electors of the Rector with their Students, they would be placed in a position hurtful to their dignity and influence.
- The Commons disagree to the Amendment in 15, being to leave out Clause 26, for the following p. 15, be Reason
 - Because the distinction between the two classes of Professors proposed to be done away with by this Clause is, as set forth in the Report of the Royal Commissioners of Visitation, appointed in 1836, "invidious and unjust; detrimental to the interests of the University; injurious to Her Majesty's Prerogative, and deriving no countenance from the Rights and Charters of the University."

With the preceding exceptions, the Commons agree to the Amendments made by your Lordships to the Bill.

The

药

The said Reasons, being read a second time, were agreed to.

Ordered, That a Message be sent to the Lords to communicate the said Reasons (with the Bill and Amendments): And that the Clerk do carry the same.

Government of India (No. 3) Bill.

Lord Stanley reported from the Committee appointed to draw up Reasons to be assigned to the Lords for disagreeing to certain of the Amendments made by their Lordships to the Government of India (No. 3) Bill; That they had drawn up Reasons accordingly, which they had directed him to report to the House, and the same way read as follow: to the House; and the same were read, as follow:

The Commons disagree to the Amendments in p. 9, l. 2 and l. 7, for the following Reasons : Because they tend to divide the responsibility

of the Minister.

Because they create anew the Secret Committee, which, under the new Government, will

be no longer necessary. The Commons disagree to the Amendments in 9, ls. 21 and 22, and l. 32, for the following Reason :

Because it is undesirable to increase the patronage of the Minister, without providing a check upon its exercise.

The Commons disagree to the Amendments in 10, l. 23, and p. 11, l. 6, for the following Reason :

Because they desire to assert and secure the principle of open and unrestricted competition in a manner not admitting of doubt, and because they think this end would be better attained by Legislative Provision, than by an Order in Council.

The Commons disagree to the Amendment in

p. 17, l. 8, for the following Reason : Because the period of Three months allowed, if Parliament be sitting, is inconsistent with that of One month after the meeting of Parliament, which meeting may take place imme-diately after the issuing of the Order to which this Clause relates.

With the preceding exceptions, the Commons agree to the Amendments made by your Lordships

to the Bill. The said Reasons, being read a second time, were agreed to.

Ordered, That a Message be sent to the Lords to communicate the said Reasons (with the Bill and Amendments): And that the Clerk do carry the same.

following Reason : Because it would injuriously interfere with the exercise of the present Powers of the Secretary of State in making arrangements respecting Turnpike Trusts; but the Commons propose to amend the original Bill by leaving out Clause 2, because, in effect, the omission of that Clause carries out the principle of the Amendment made by your Lordships

to communicate the said Reason (with the Bill and Amendments): And that the Clerk do carry the same.

Lord Naas reported from the Committee appointed Vaccination to draw up Reasons to be assigned to the Lords for (Ireland) Bill. disagreeing to the Amendments made by their Lord-ships to the Vaccination (Ireland) Bill; That they had drawn up a Reason accordingly, which they had directed him to report to the House; and the same was read, as followeth :

The Commons disagree to the Lords' Amendments in Clause 2, for the following Reason :

Because these Amendments would entirely defeat the object of the Bill ; this object is to extend the practice of Vaccination in Ireland, by dividing every Dispensary District into several Vaccination Districts, and to induce the Medical Officer to exertion by paying him for his additional labour the sum of One pound for every twenty cases of successful vaccination performed by him in addition to his salary. The Lords' Amendments would leave it op-tional with the Board of Guardians to pay such Medical Officer any sum that they might think fit as a general Vaccination fee, instead of a sum payable in proportion to the number of cases successfully performed by him, and thereby deprive him of that incentive to exertion on which the success of the Bill mainly depends.

The said Reason, being read a second time, was agreed to.

Ordered, That a Message be sent to the Lords to communicate the said Reason (with the Bill and Amendments): And that the Clerk do carry the same.

Lords Com lers Speech.

And afterwards, a Speech of the Lords Commis-sioners was delivered to both Houses by the Lord High Chancellor, as followeth :

My Lords, and Gentlemen,

We are commanded by Her Majesty to express Her satisfaction at being enabled to release you from the duties of a Session, which, though interrupted, has, by your unremitting assiduity, been productive of many important measures. Her Majesty is happy to believe that Her rela-tions with Foreign Powers are such as to enable

Her Majesty to look with confidence to the preservation of general Peace.

Her Majesty trusts that the labours of the Ple-nipotentiaries now sitting in Conference at Paris may lead to a satisfactory solution of the various questions which have been referred to them.

The efforts, the gallantry and devotedness displayed in India by Her Majesty's Forces and those of the East India Company have been above all praise; and Her Majesty hopes that those efforts have already been so far crowned with success that the formidable revolt which has raged throughout a large portion of Her Indian Possessions may now, under the blessing of Almighty God, be speedily suppressed, and Peace be restored to those important Provinces.

In this hope Her Majesty has given Her willing assent to the Act which you have passed for transferring to Her direct authority the Government of Her Indian Dominions; and Her Majesty hopes to be enabled so to discharge the high functions which She has assumed, as, by a just and impartial Ad-ministration of the Law, to secure its advantages alike to Her Subjects of every Race and Creed, and, by promoting their welfare, to establish and strengthen Her Empire in India.

Gentlemen of the House of Commons,

Her Majesty commands us to thank you for the judicious liberality with which you have made Pro-vision for the exigencies of the Public Service.

The present state of the Revenue, authorizes Her Majesty to entertain a confident hope that the Supplies which you have granted will be found fully ade-quate to the demands upon them.

My Lords, and Gentlemen,

The sanitary condition of the Metropolis must always be a subject of deep interest to Her Majesty, and Her Majesty has readily sanctioned the Act which you have passed for the Purification of that noble River, the present state of which is little creditable to a great Country, and seriously preju-dicial to the health and comfort of the inhabitants of the Metropolis.

Her Majesty has also willingly assented to an Act whereby greater facilities are given for the ac-quisition by towns and districts of such Powers as may be requisite for promoting works of local improvement, and thus extending more widely the advantages of municipal self-government.

Her Majesty trusts that the Act which you have assed for the future Government of the Scotch passed for the future Government of the Scotch Universities will be found highly advantageous to those venerable institutions, and will greatly pro-mote and extend a system of sound moral and reli-gious education in Scotland.

The Transfer of Land Bill, which extends the powers hitherto exercised by the Incumbered Estates Commissioners, and facilitates the acquisition of an indefeasible title by purchasers of land in *Ireland*, cannot fail to be highly beneficial to the landed proprietors, and to advance the prosperity of that part of Her Majesty's Dominions. The Act to which Her Majesty has assented for the establishment of the Colony of *British Columbia* was urgently required in consequence of the recent owers hitherto exercised by the Incumbered Estates

was urgently required in consequence of the recent discoveries of Gold in that district; but Her Madiscoveries of Gold in that district; but Her Ina-jesty hopes that this new Colony on the Pacific may be but one step in the career of steady pro-gress, by which Her Majesty's Dominions in North America may ultimately be peopled, in an unbroken chain, from the Atlantic to the Pacific, by a loyal and industrious population of Subjects of the British Crown.

Her Majesty thankfully acknowledges the diligence and perseverance which has enabled you in a comparatively short time to pass these and other measures of inferior but not insignificant importance.

Many of you, in returning to your respective counties, have extensive influence to exercise, and duties to perform of hardly less value to the community than those from the labours of which you are about to be released; and Her Majesty enter-tains a confident assurance that, under the guidance of Providence, that influence will be so employed, and those duties so performed, as to redound to your own honour, and to promote the general welfare and the happiness of a loyal and contented People.

Then a Commission for proroguing the Parliament was read.

After which the Lord Chancellor said ;

My Lords, and Gentlemen,

By virtue of Her Majesty's Commission, under Parliament the Great Seal, to us and other Lords directed, and prorogued. now read, we do, in Her Majesty's Name, and in obedience to Her Commands, prorogue this Parlia-ment to Tuesday the 19th day of October next, to be then here helden and this Parliament is no be then here holden; and this Parliament is accordingly prorogued to Tuesday the 19th day of October next.
