

# 1980 Census of Population and Housing

PHC80-P-10

## DISTRICT OF COLUMBIA

### Preliminary Population and Housing Unit Counts

*This report is based on preliminary counts of population and housing units as compiled in the 1980 census district offices. The series consists of 56 reports—number 1 for the United States; numbers 2 through 52 for the States and the District of Columbia in alphabetical order rather than in order of publication; and numbers 53 through 56 for Puerto Rico, Guam, Virgin Islands, and American Samoa. Preliminary counts for the Northern Mariana Islands and the remainder of the Trust Territory of the Pacific Islands are not part of this series of reports. These counts will be made available in a separate press release issued for each area.*

As of April 1, 1980, the population of the District of Columbia was 635,233, according to a preliminary count of the returns of the 1980 census. This figure represents a decrease of 121,435, or 16.0 percent, from the 756,668 inhabitants enumerated in the 1970 census.

The preliminary count of housing units in the District of Columbia as of April 1, 1980, was 278,915. This figure, which includes both occupied and vacant housing units, represents an increase of 588, or 0.2 percent, from the 278,327 units enumerated in the 1970 census.

An increase in the housing unit count is not inconsistent with a decrease in population as the average number of persons per occupied housing unit (or household) has declined since 1970.

This report presents preliminary 1980 census population and housing unit counts for the District of Columbia, quadrants, and the standard metropolitan statistical area (SMSA).

Data for the Washington, D.C.-Md.-Va. SMSA shown in this report relate only to the portion in the District of Columbia. For the remainder of the SMSA data, see the reports for Maryland and Virginia.

These preliminary figures will be superseded by the final counts to be shown in Advance Reports, series PHC80-V, which will be issued within the next few months. The final counts are subject to further processing and review and may differ from the preliminary figures.
