user digest presentations

what: provides an overview of many different topics

target: beginners (no background knowledge required)

where: largest meeting space (sport hall)

selection: direct invitation (suggested by liaison)

topics: status of the organization, strategies related to territories, education, GLAMs, dynamics of the online community, research related to Wikipedia and the Wikimedia projects, software development, events, legislation

critical issues presentations

what: presents a critical issue: problem, possible solution, critical analysis

target: advanced (background knowledge required)

where: medium spaces (theatre of the Kindergarten, meeting)

selection: call for proposals (maybe with blind peer-review)

topics: topics meant to nourish discussions

community village

with posters, brochures and help desks

what: provides an overview of what is going on in the movement in different countries and locations

target: everyone

where: Former Museum/collaborative space

thematic discussions

what: discussions with an objective

target: advanced and beginners

where: Primary School

objectives: taking a decision, browsing possible solutions for a problem, making latent problems and issues emerging, considering a topic from different perspectives

selection: community proposals (collected by liaison)

meetups

what: small informal meetings on specific topics

target: specific or general, small groups

where: small spaces, bars, restaurants and the tensile structure;
outdoor

when: time for meetups included in the schedule (not simply planned
after the working sessions or at lunch)

hackaton / devCamp

what: classic Wikimania pre-conference event during which computer programmers are invited to collaborate on Wikimedia software projects

target: software developers

where: primary school (~200 seats)

training sessions

what: meant to enhance skills

target: advanced and beginners

where: Multimedia room of the new museum

selection: community proposals (collected by liaison)

topics: focus on practice

selection process

**Call for
proposal**

*Critical issues

Liaisons

*User digest

*Discussions

*Training
