TITLE 30—MINERAL RESOURCES
CHAPTER III—BITUMINOUS COAL DIVISION

[Docket No. A-1226]

PART 321—MINIMUM PRICE SCHEDULE, DISTRICT No. 1

ORDER AMENDING ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 1 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 1

An Order Granting Temporary Relief and Conditionally Providing for Final Relief was issued in the above-entitled matter on January 13, 1942, 7 F.R. 537, establishing price classifications and minimum prices for the coals of certain mines in District No. 1, including the establishment of price classifications and minimum prices for the coals of the Leland No. 1 Mine (Mine Index No. 272) of John D. Walker, a code member in District No. 1, for all shipments except truck and for truck shipments.

The original petitioner in the above-entitled matter filed an amendment to its petition alleging that the price classifications and minimum prices which it originally proposed for the Leland No. 1 Mine, Mine Index No. 272, were in error, and requesting that the Classification for the coals of this mine in Size Group 5 for all shipments except truck be changed from "B" to "C" and that the minimum price for such coals in Size Group 5 for truck shipments be changed from \$2.20 to \$2.15 per ton.

It appears that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth, that no pleadings in opposition to the said amendment to the original petition have been filed with the Division in the above-entitled matter, and that the following action is necessary in order to effectuate the purposes of the Act.

Now, therefore, it is ordered, That Supplements R and T in the said Order Granting Temporary Relief and Conditionally Providing for Final Relief dated January 13, 1942, in the above-entitled matter be, and they hereby are, amended, by revoking the price classification and minimum price established therein for the coals of the Leland No. 1 Mine (Mine Index No. 272) in Size Group 5 for all shipments except truck and for truck shipments;

It is further ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 321.7 (Alphabetical list of code members) is amended by adding thereto Supplement R, and § 321.24 (General prices) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

It is further ordered, That in all other respects the said order of January 13, 1942, be, and it hereby is, continued in full force and effect until otherwise ordered.

Dated: March 4, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

PART 323—MINIMUM PRICE SCHEDULE, DISTRICT NO. 3

FINDINGS OF FACT, CONCLUSIONS OF LAW, MEMORANDUM OPINION AND ORDER IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 3 FOR PERMISSION TO USE ADDITIONAL LOADING POINTS FOR RAIL SHIPMENTS FROM CERTAIN MINES IN DISTRICT NO. 3

This proceeding was instituted upon a petition filed with the Bituminous Coal Division by District Board No. 3, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

The original petition dated August 29, 1941, sought additional loading points for a number of mines in District No. 3. By a Motion to Delete filed on October 3, 1941, the District Board withdrew its re-

quest for additional loading points for all the mines except the Coombs Mine, Mine Index No. 614, of Guy A. Hall (Hall Coal Company).

District Boards 2 and 6 intervened but did not appear at the hearing.

Pursuant to appropriate orders, a hearing was held in this matter on October 21, 1941, before William H. Shipman, a duly designated Examiner of the Division at a hearing room thereof in Washington, D. C. All interested parties were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. District Board 3 and Guy A. Hall (Hall Coal Company) appeared through A. J. Kidwell, his sales agent. At the hearing District Board 3 made a motion to dismiss the petition. However, a representative on behalf of Guy A. Hall (Hall Coal Com-

[Docket No. A-1199]

PART 328—MINIMUM PRICE SCHEDULE, DISTRICT NO. 8

FINDINGS OF FACT, CONCLUSIONS OF LAW, MEMORANDUM OPINION AND ORDER IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 8 FOR A REVISION OF THE MINI-

MINIMUM PRICES OF THE COALS OF CERTAIN MINES IN BREATHITT COUNTY, KENTUCKY, SUBDISTRICT NO. 3 IN DISTRICT NO. 8, FOR TRUCK SHIPMENTS

This proceeding was instituted upon a petition filed with Bituminous Coal Division by District Board No. 8, pursuant to

section 4 II (d) of the Bituminous Coal Act of 1937. The Board in its original and amended petition proposed certain decreases in the effective minimum prices heretofore established for the mines of certain code member producers in the Breathitt County, Kentucky, Hazard Subdistrict of District No. 8. In accordance with an Order of the Acting Director dated December 19, 1941, and after notice to all interested parties, a hearing was held before Joseph A. Huston, a duly designated examiner of the Division, at a hearing room of the Division at Washington, D. C. All interested parties were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard.

Petitioner, District Board 8, and the Bituminous Coal Consumers Counsel appeared. The preparation and filing of a report by the Examiner was waived and the record was thereupon submitted to the undersigned.

The petition of District Board 8 herein requested a revision of the price classifications and effective minimum prices for truck shipments for the coals produced at seven mines located in Breathitt County, Kentucky, Hazard Subdistrict.

The testimony of the representative of the District Board 8 shows that minimum prices were originally established for the coals in question. However, it appears that the classifications and minimum prices heretofore established do not properly reflect the relative value of the coals and are not in proper coordination with other coals produced in District No. 8. It appears that the minimum prices of coals of these mines do not correspond with the prices established for other mines located in the same county and seam. The effect of the changes proposed would be to establish for the mines listed the proper prices applicable to the coals from the seam and subdistrict in which such mines are actually producing.

The change will result in decreasing the price for coals in Size Groups 1, 2, 3, 6, 7, and 8 by 10 cents per ton. In Size Group 4 the decrease will be 20 cents per ton and in Size Group 5, 15 cents per ton. Such proposed prices will result in the establishment of a uniform level of prices for analogous and comparable coals produced for truck shipments from other mines in this county.

Upon the basis of the uncontroverted evidence, I find that the classifications and minimum prices as well as the seam designations shown in the schedule hereto attached for the coals specified therein are proper and should be established; that such classifications and minimum prices conform in all respects to those heretofore established for compa-

rable coals in District No. 8 and will preserve the fair competitive opportunities for the producers of said coal.

Now, therefore, it is ordered, That commencing fifteen (15) days from the date hereof, § 328.34 (General prices for high volatile coals in cents per net ton for

shipment into all market areas) is amended by adding thereto Supplement T, which supplement is hereinafter set forth and hereby made a part hereof.

Dated: March 7, 1942.

PART 1062—METALLIC LICENSE PLATES

General Limitation Order L-32

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of metal for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1062.1 *General Limitation Order L-32—(a) Definitions.* For the purposes of this Order:

(1) "Governmental unit" means any State, Territory or possession of the United States, the District of Columbia, and any political, administrative or governmental division, subdivision, corporation or agency of any of the foregoing or of the United States, including—by way of example and not of limitation—counties, townships, cities, towns, villages and special governmental districts of every kind.

(2) "Metallic license plate" means any type of plate, tag, emblem, insignia or marker which is or may be used by a governmental unit to evidence licensing or registration of any kind and for any purpose, into the physical composition of which metal, whether ferrous or non-ferrous, is incorporated to the extent of five percent (5%) or more, by weight, of the finished item.

(3) "Licensing year" means any twelve month period which has been established as the unit of time during which there shall be in effect the licensing or registration evidenced by a metallic license plate.

(b) *General restrictions.* Notwithstanding the provisions of any contract or of any federal, state or local statute or regulation, no governmental unit shall issue or use at any time metallic license plates greater in quantity than is specially authorized herein or from time to time hereafter by the Director of Industry Operations.

(c) *Permitted uses.* (1) A governmental unit may issue or use metallic license plates to the extent that, as of the date of the issuance of this Order, the cutting and stamping of the metal for the manufacture of such plates has been completed.

(2) In addition, a governmental unit may, during each licensing year which begins after December 31, 1941, issue or use metallic license plates licensing or registering any thing or activity, in total quantities not exceeding ten percent (10%), by weight, of the metallic license plates which it issued or used

during the corresponding licensing year ending after June 30, 1941, and before July 1, 1942, to license or register that same type of thing or activity: *Provided*, That metallic license plates may be thus issued or used for the following purposes and under the following conditions only:

(i) As replacement plates, that is, for the purpose of replacing metallic license plates which have been issued and which have thereafter been lost or destroyed.

(ii) To new licensees or registrants, that is, to persons who have not used or had issued to them during the licensing year immediately preceding that for which application is made, a metallic license plate licensing or registering the same thing or activity for which application for licensing or registration is made.

(iii) In the case of the licensing or registering of any type of vehicle or instrumentality of transportation, in the form of "date tabs", in sizes not exceeding four square inches in area, to be attached to metallic license plates already issued so as to change the effective dates of those plates.

(d) *Records*. All persons or agencies affected by this Order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production, sales, issuance and use of metallic license plates. Similarly, records shall be kept concerning inventories, use and disposition of all sheet metal on hand, as of the date of the issuance of this Order, for the production of metallic license plates.

(e) *Audit and inspection*. All records required to be kept by this Order shall upon request be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(f) *Reports*. All persons and agencies affected by this Order shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time request.

(g) *Violations or false statements*. Any person who violates this Order or who wilfully falsifies any records which he is required to keep by the terms of this Order, or otherwise wilfully furnishes false information to the War Production Board, may be deprived of priorities assistance or may be prohibited by the War Production Board from obtaining any further deliveries of materials subject to allocation. The War Production Board may also take any other action deemed appropriate, including the making of a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U.S.C. 80).

(h) *Appeals*. Where compliance with this Order will work an exceptional and unreasonable hardship upon any Governmental Unit, the duly authorized officials of that Governmental Unit may appeal to the War Production Board, Washington, D. C., setting forth the pertinent facts and the reasons why relief is sought. The War Production Board may thereupon take such action as it deems appropriate.

(i) *Applicability of Priorities Regulation No. 1*. This Order and all transac-

tions affected thereby are subject to the provisions of Priorities Regulation No. 1, as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(j) *Communications to War Production Board*. All reports required to be filed hereunder and all communications concerning this Order shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C., Ref.: L-32.

(k) *Effective date*. This Order shall take effect upon the date of the issuance thereof and shall continue in effect until revoked by the Director of Industry Operations. (P.D. PART 1133—MOLYBDENUM

General Preference Order No. M-110

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of Molybdenum for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1133.1 *General Preference Order M-110*—(a) *Definition*. (1) "Molybdenum" means and includes:

(i) Ores and concentrates containing Molybdenum (commercially recognized), and Molybdenum compounds for further purification or refining;

(ii) The element Molybdenum in pure form, ferromolybdenum, and all chemical or other combinations of the element Molybdenum with other materials in manufactured or semi-manufactured form, prepared either for further processing or for other purposes;

(iii) All scrap or secondary material containing commercially recoverable Molybdenum as defined in (i) and (ii) above, excluding Molybdenum-bearing iron and steel scrap.

(b) *Applicability of Priorities Regulation No. 1*. This Order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this Order shall govern.

(c) *Restrictions on deliveries*—(1) *Allocations*. Hereafter no person shall make or accept delivery of Molybdenum unless specifically authorized by the Director of Industry Operations. The Director will from time to time allocate the

supply of Molybdenum and specifically direct the manner and quantities in which deliveries to particular persons and for particular uses shall be made or withheld. The Director may also, in his discretion, require any person seeking to place a purchase order for Molybdenum to place the same with one or more particular suppliers. Such allocations and directions will be made primarily to insure satisfaction of all defense requirements of the United States, both direct and indirect, and they may be made in the discretion of the Director of Industry Operations without regard to any preference ratings assigned to particular contracts or purchase orders.

(2) *Reports*. Unless otherwise ordered by the Director of Industry Operations, no person shall be entitled to receive an allocation of Molybdenum unless, not later than the 20th day of the month next preceding the month in which delivery is desired, he shall have filed with the War Production Board reports on Forms PD-358 and PD-359, and an application for Molybdenum on Form PD-360, or in any case, on such other form as the War Production Board may from time to time prescribe, and in addition, shall have filed with any supplier with whom he may place a purchase order for Molybdenum, a copy of Form PD-360: *Provided, however*, That, subject to all the other provisions, restrictions and limitations of this Order and until further order by the Director of Industry Operations, any person may receive deliveries during any calendar month up to but not exceeding an aggregate of 50 pounds contained Molybdenum for consumption in the manufacture of non-metallic products, without filing the reports required by this paragraph. Failure by any person to file an application and reports in the manner and on the date required by this paragraph may be construed as notice to the Director of Industry Operations and to all suppliers of Molybdenum that such person does not desire an allocation of Molybdenum during the period to which the same would have been applicable.

(d) *Violations or false statements*. Any person who wilfully violates this Order, or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this Order may be prohibited from receiving further deliveries of materials subject to allocation, and such further action may be taken as is deemed appropriate, including the making of a recommendation for prosecution under section 35A of the Criminal Code (18 U.S.C. 80).

(e) *Communications to War Production Board*. All reports required to be filed hereunder, and all communications concerning this Order, shall, unless otherwise directed, be addressed to the War Production Board, Washington, D. C., Reference: M-110.

(f) *Effective dates*. This order shall take effect immediately upon its issuance, and unless sooner terminated by direction of the Director of Industry Operations, shall expire on the 31st day of December, 1942. (P.D. Reg. 1, amended Dec. 23, 1941, 6 F.R. 6680; W.P.B. Reg. 1, Jan.

PART 1367—FERTILIZERS

MAXIMUM PRICE REGULATION NO. 108—NITRATE OF SODA, SULPHATE OF AMMONIA AND CYANAMID

In the judgment of the Price Administrator the prices of nitrate of soda, sulphate of ammonia and cyanamid have risen and are threatening further to rise to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942. The Price Administrator has ascertained and given due consideration to the prices of nitrate of soda, sulphate of ammonia and

⁵ 7 F.R. 1378, 1857.

cyanamid prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this Regulation.

In the judgment of the Price Administrator the maximum prices established by this Regulation are and will be generally fair and equitable and will effectuate the purposes of said Act. A statement of the considerations involved in the issuance of this Regulation has been prepared and is issued simultaneously herewith.¹

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,² issued by the Office of Price Administration, Maximum Price Regulation No. 108 is hereby issued.

§ 1367.21 *Maximum prices for nitrate of soda, sulphate of ammonia and cyanamid.* On and after March 23, 1942, regardless of any contract, agreement, lease, or other obligation, no person shall sell or deliver nitrate of soda, sulphate of ammonia or cyanamid in quantities of 250 pounds or more at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1367.30; and no person shall agree, offer, solicit or attempt to do any of the foregoing. The provisions of this Section shall not be applicable to sales or deliveries of nitrate of soda, sulphate of ammonia, or cyanamid to a purchaser if prior to March 23, 1942 such nitrate of soda, sulphate of ammonia or cyanamid had been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.*

* §§ 1367.21 to 1367.30, inclusive, issued under the authority contained in Pub. Law 421, 77th Cong., 2d Sess.

§ 1367.22 *Less than maximum prices.* Lower prices than those set forth in Appendix A (§ 1367.30) may be charged, demanded, paid or offered.*

§ 1367.23 *Conditional agreements.* No seller of nitrate of soda, sulphate of ammonia or cyanamid shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided by § 1367.30, in the event that this Maximum Price Regulation No. 108 is amended or is determined by a court to be invalid or upon any other contingency: *Provided*, That if a petition for amendment (or for adjustment or for exception) has been duly filled, and such petition requires extension consideration, and the Administrator determines that an exception would be in the public interest pending such consideration, the Administrator may grant an exception from the provisions of this section permitting the making of contracts

adjustable upon the granting of the petition for amendment (or for adjustment or exception, as the case may be). Requests for such an exception may be included in the aforesaid petition for amendment (or for adjustment or for exception).*

§ 1367.24 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 108 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to nitrate of soda, sulphate of ammonia, or cyanamid, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or by the making of excessive charges for trucking or otherwise.*

PART 1304—IRON AND STEEL SCRAP

AMENDMENT NO. 1 TO REVISED PRICE SCHEDULE NO. 4¹—IRON AND STEEL SCRAP

A statement of the considerations involved in the issuance of this Amendment has been prepared and is issued simultaneously herewith.²

Sections 1304.6, 1304.13 (c) (3) and 1304.14 (a) are amended to read as follows; § 1304.13 (d) (3) including exceptions 1 to 8 is redesignated as § 1304.13 (d) (4) and amended to read as follows; Two new paragraphs, § 1304.13 (d) (3) and § 1304.15 (b) (3) are added and a new section 1304.12A is added; as set forth below:

§ 1304.6 *Commissions.* No commission shall be payable hereunder, except by a consumer to a broker for brokerage services rendered to the consumer. In the event that a consumer shall employ a broker to purchase iron and steel scrap, such consumer may pay such broker a commission not exceeding 50 cents per gross ton. No commission shall be payable unless (a) the broker guarantees the quality and delivery of an agreed tonnage of scrap; (b) the scrap is purchased by the consumer at a price not higher than the maximum applicable herein; (c) the broker sells the scrap to the consumer at the same price at which he purchased it; (d) the broker does not split or divide the commission, in whole or in part, with the seller or sellers of the scrap, with another broker or subbroker, or with the consumer, and (e) the commission is shown as a separate item on the invoice. No commission shall be payable to a person for scrap which he prepares.

§ 1304.13 *Appendix A: Maximum prices for iron and steel scrap other than railroad scrap.*

* * * * *

(c) *Maximum shipping point prices.*

* * * * *

(3) *Established charges.* (i) The transportation charges or switching charges used in computing shipping point prices need not reflect any rise in rates which became effective after March 14, 1942;

¹ 7 F.R. 1207.

² The Statement of Considerations has been filed with the Division of the Federal Register.

(ii) No charge shall be deemed an established charge within the meaning of Price Schedule No. 4 unless it has been the basis of actual movement of scrap to the most favorable basing point during the calendar year 1941.

(d) *Maximum prices delivered to the plant of a consumer.*

(3) For the purpose of computing maximum delivered prices under this paragraph, any increase in transportation charges resulting from a rise in rates which became effective after March 14, 1942 may be included only if shown as a separate item on the invoice.

(4) In no case, however, shall the delivered price exceed the price listed in paragraph (a) for the basing point nearest, in terms of established transportation charges, to the consumer's plant, by more than \$1.00 plus any increase in the transportation charge from shipping point to point of delivery resulting from a rise in rates which became effective after March 14, 1942, with the following exceptions:

Exception 1. For consumers having St. Louis as their nearest basing point the delivered price may not exceed the St. Louis basing point price by more than \$1.50 plus any increase in transportation charges mentioned in (d) (3) above: *Provided*, That the delivered price of scrap shipped to such consumers from shipping points in Arkansas may not exceed the St. Louis basing point price by more than two dollars plus any increase in transportation charges mentioned in (d) (3) above. For consumers whose nearest basing points are Detroit, Birmingham and Alabama City, respectively, the delivered price may not exceed by more than two dollars plus any increase in transportation charges mentioned in (d) (3) above, the price at their respective basing points.

Exception 2. In the case of machine shop turnings or related grades of turnings, as defined herein, delivered to electric furnace producers of ferro alloys, and in the case of chemical borings delivered to chemical users thereof, the delivered price shall not be limited to one dollar etc., in excess of the price at the basing point nearest the consumer's plant.

Exception 3. "Remote Scrap" means all the kinds and grades of iron and steel scrap referred to in § 1304.13, Appendix A, and having a shipping point and a point of origin within the states of Montana, Idaho, Wyoming, Nevada, Arizona, New Mexico, Texas, Oklahoma, Florida, Oregon, Utah, North Dakota, South Dakota and Washington. Colorado scrap shall be remote scrap for Colorado consumers only.

(i) The delivered price of remote scrap may exceed by more than \$1.00 but not more than \$5.00 the price at the basing plant nearest the consumer's plant: *Provided*, That immediately upon delivery of such scrap, the consumer files with the Office of Price Administration, Washington, D. C., (a) a fully detailed statement under oath setting forth the name and address of the seller, the

shipping point of the scrap, the grade, quantity and price at shipping point, delivered price, the mode of transportation employed and the transportation charges from the shipping point to the point of delivery, and (b) certified copies of all bills of lading covering the shipment of such scrap from the remote shipping point to the point of delivery.

(ii) Where the delivery price of remote scrap would exceed by more than \$5.00 the price at the basing point nearest the consumer's plant, the consumer may not purchase or accept delivery of such scrap until his application to the Office of Price Administration, Washington, D. C., for permission to absorb the additional transportation charges necessary to secure such scrap has been approved. Applications by consumers must be under oath and fully detailed, setting forth the name and address of the seller, point of shipment of the scrap, the grade, quantity and price at shipping point, proposed delivered prices, the mode of transportation to be employed, and the transportation charges from the shipping point to the consumer's plant. The application must also contain a statement by the consumer of its need for, and its willingness to accept, such scrap at the price quoted.

Immediately upon delivery of such scrap, the consumer must comply with the filing requirements of paragraph (i) (b) above.

Exception 4. Where scrap is shipped by vessel from Duluth, Minnesota, or Superior, Wisconsin, to consumers located in Buffalo, New York, Elyria, Ohio, Cleveland, Ohio, Saginaw, Michigan, Detroit, Michigan, or Chicago, Illinois, the delivered price shall not be limited to one dollar etc., in excess of the basing point nearest the consumer's plant.

Exception 5. In computing the delivered price of Billet, Bloom and Forge crops originating in and shipped from the Pittsburgh Basing Point, the maximum transportation charges which may be added to the shipping point price shall be \$2.65.

Exception 6. The delivered price of Low Phos. and Sulphur Punchings and Plate Scrap, Low Phos. and Sulphur Bar Crops and Smaller, Alloy Free Low Phos. and Sulphur Turnings, and First Cut Heavy Axle and Forge Turnings produced in industrial plants in the State of Michigan and shipped directly to consumers located in or nearest, in terms of established transportation charges, to the Buffalo, N. Y., Pittsburgh, Brackenridge, or Midland, Pa., basing point, shall not exceed by more than \$3.00 plus any increase in transportation charges mentioned in (d) (3) above the price at the basing point nearest the consumer's plant.

Exception 7. Where scrap is shipped from a New England shipping point, the maximum transportation charges which may be added to the shipping point price shall be \$6.65 per gross ton.

Exception 8. Where the shipping point price of scrap is computed from water rates, and water movement is not available the year round, consumers who can

establish that they did receive delivery of such scrap by water within \$1.00 of the price at their nearest basing point between April 15 and November 15, 1941, may pay the shipping point price plus all-rail transportation charges from the shipping point to the point of delivery whenever water movement is not available.

Exception 9. Where scrap is shipped pursuant to an allocation order issued by the War Production Board, the delivered price shall not be limited to \$1.00 etc., in excess of the price at the basing point nearest the consumer's plant: *Provided, however*, That in all such cases, the most economical transportation facilities must be employed. For example, but not by way of limitation:

(i) If vessel or rail-vessel or vessel-rail facilities are available from shipping point to point of delivery, and use of such facilities will result in lower transportation charges than all-rail movement, the maximum transportation charges which may be added to the shipping point price may not exceed the charges which would apply if the cheapest available facility were employed;

(ii) Where the most economical method available involves rail movement, the rail transportation charges must be computed on the basis of the rates for the highest minimum carload weight.

§ 1304.14 *Appendix B: Maximum prices for iron and steel scrap originating from railroads—(a) Scrap originating from railroads—operating in a basing point named below* (all prices given below are per gross ton). The scrap is at its point of delivery to the consumer when it has arrived for unloading at the plant of the consumer. Where used in this appendix, the term "transportation charges" means the established charges for transporting the scrap to the point of delivery by the mode of transportation employed. The term "transportation charges" shall include any increase in transportation charges resulting from a rise in rates which became effective after March 14, 1942; and where specific amounts of allowable transportation charges are mentioned, there may be superadded thereto 6% of such allowable charge. In no case shall the maximum delivered price include any charge or cost incurred in unloading the scrap at the point of delivery or in subsequent handling.

§ 1304.15 *Appendix C: Maximum prices for cast iron scrap other than railroad scrap.* (All the prices given below are per gross ton).

(b) *Maximum price delivered to a consumer.*

(3) For the purpose of computing maximum delivered prices under this paragraph, any increase in transportation charges resulting from a rise in rates which became effective after March 14, 1942 may be included.

§ 1304.12a *Effective dates of amendments.* (a) Amendment No. 1 (§§ 1304.6,

1304.12a, 1304.13 (c) (3), (d) (3), (d) (4), 1304.14 (a), 1304.15 (b) (3)) to Revised Price Schedule No. 4 shall become effective March 18, 1942.

(Pub. Law 421, 77th Cong., 2d Sess.)

Issued this 18th day of March 1942.

TITLE 43—PUBLIC LANDS: INTERIOR

CHAPTER I—GENERAL LAND OFFICE

[Circular No. 1503]

PART 79—TIMBER¹

AMENDMENT OF THE REGULATIONS GOVERNING SMALL SALES OF TIMBER IN ALASKA, SO AS TO REQUIRE THE ISSUANCE OF PERMITS IN ADVANCE OF CUTTING OF TIMBER; OFFICERS IN CHARGE OF CUTTING

In order to prevent the cutting of timber on public lands in Alaska under small sales applications, authorized by 43 CFR 79.15-79.33, until permits authorizing such cutting have been issued, the regulations are hereby amended as stated below.

Section 79.20 is amended to read:

§ 79.20 *Action by register on application.* Upon receipt of an application for timber on land from which it may properly be cut with the required deposit, the register will give it a serial number and note a reference thereto on his tract book. He will acknowledge receipt of the application and advise the applicant that no timber may be cut until receipt of a permit from the officer in charge of timber cutting operations in Alaska. If the required deposit does not accompany the application, or the land is embraced in an entry or selection or is not of the character described in § 79.16, from which timber may be cut, he will suspend action on the application and call on the applicant to make the required payment, or to amend the application as the case may be.

When the application is proper the register will promptly forward it through the office of the General Land Office Coordinator for Alaska, to the officer or examiner, as the case may be, in charge of timber cutting in Alaska. The application will be accompanied with the statement indicating that the records of the District Land Office do not show any objection to the cutting of the timber applied for.

Section 79.21, paragraph (c) is amended to read as follows:

¹ These regulations are issued under the authority contained in sec. 11, 30 Stat. 414; 48 U.S.C. 421.

§ 79.21 *Conditions precedent to cutting and removal of timber.*

(c) After he has received from the officer in charge of timber cutting operations in Alaska a permit authorizing the cutting of the timber applied for.

Section 79.24 is amended by adding thereto the following:

§ 79.24 *Issuance of permit.* * * *

Where conditions warrant the officer in charge will reject the application, stating his reasons for such action. The officer will insert in all permits issued by him such conditions and provisions respecting the cutting and removal of the timber as in his opinion are required by the public interests. Any person who is adversely affected by the action taken on his application may secure a review thereof by making request therefor to the Commissioner of the General Land Office. The officer in charge will make a report in triplicate showing all permits issued and all applications rejected, transmitting the original to the Commissioner of the General Land Office, the duplicate to the Register, and the triplicate to the General Land Office Coordinator for Alaska.

Supervision of Alaska timber sales hereafter will be had through such officers or examiners as may be designated by the Commissioner of the General Land Office. Accordingly the following changes in the regulations will be made:

In § 79.25 (*Field examination and appraisal of timber*), the words "officer or examiner, as the case may be," will be substituted for the word "agent."

In § 79.26 (*Removal of timber*), the words "officer or examiner, as the case may be," will be substituted for the words "special agent."

In § 79.27 (*Payment*), paragraph one, the words "officer or examiner, as the case may be," will be substituted for the words "special agent" and paragraph two will be amended to read as follows:

The register will advise the officer in charge as to all moneys received in connection with applications to purchase timber giving the serial numbers of the cases and other necessary information. The moneys will be held as "unearned" pending receipt of a report from such officer. The officer in charge will account to the register for all moneys received by him or by the examiners, and he will advise the register when moneys on deposit should be covered into the Treasury or returned.

Section 79.28 will be amended to read as follows:

§ 79.28 *Final action.* After necessary action by the register and by the officer in charge, the application and related papers will be forwarded by the register to the General Land Office, through the

General Land Office Coordinator for Alaska.

In § 79.31 (*Revocation of permit*), the words "officer or examiner, as the case may be," will be substituted for the words "special agent."

By Order of May 27, 1941, the Director, pursuant to and in accordance with Section 12 of the Bituminous Coal Act of 1937, having provisionally approved Indiana Coals Corporation, the applicant, as a "marketing agency," subject to specified conditions designed to insure that the operations of applicant would not circumvent the standards of Section 12 and the over-all objectives of the Act;

On December 17, 1941, the applicant having filed a motion to suspend for six months the operation of Conditions 2 and 4 of the Order of Provisional Approval, which are concerned with sub-agents' commissions and discounts allowed to registered distributors or registered farmers' cooperatives, in order that applicant might effect contracts covering sufficient tonnage to permit the functioning of the marketing agency;

The Acting Director in a Memorandum Opinion and Order, dated December 24, 1941, having granted the motion for the suspension of the operation of said Conditions 2 and 4 for a period of 90 days and denying applicant's request for a longer suspension, and having reserved jurisdiction, if in the Acting Director's opinion such action would be deemed advisable, to order applicant to show cause at the end of the 90-day period from the start of the applicant's operating and functioning as a marketing agency why the operation of Conditions 2 and 4 should be further suspended, and for the purpose of imposing any further condition that might be found necessary, and further concluding that unless applicant is organized and functioning as a marketing agency within 90 days from December

24, 1941, the provisional approval granted applicant should be withdrawn and revoked 90 days from December 24, 1941;

The applicant, on March 6, 1942, having filed a supplemental motion reciting, *inter alia*, that the applicant has proceeded with its organization, has caused due meetings of its Board of Directors and stockholders to be held, has negotiated and has in process of negotiation contracts with subscribers, all of which are set forth in an exhibit attached to said supplemental motion, has issued its initial classification and Price Schedule No. 1, which was filed with the Bituminous Coal Division under date of February 12, 1942, and thereafter submitted supplemental statements and data in support of said price schedule,¹ but that it will be unable to be in full operation by March 24, 1942, and, therefore, will not have been able to operate a sufficient length of time to present any facts upon which applicant and the Director may judge the effect of Items 2 and 4 as applied to applicant;

The supplemental motion praying that the operations of Items 2 and 4 of the Order of Provisional Approval be suspended for a period of six months from March 24, 1942, and that thereafter the Director order applicant to show cause why the operation of said Items 2 and 4 should be further suspended, and that the Order of Provisional Approval, dated May 27, 1941, be not withdrawn and that the revocation of said Order be extended for a period of 90 days from March 24, 1942, and under the conditions set forth in the Memorandum Opinion and Order dated December 24, 1941;

It appearing to the Acting Director that no immediate harm will result from a brief suspension of those conditions;

It is concluded that the prayer of applicant should be granted to the extent that the operation of Conditions 2 and 4 set forth in the Order granting provisional approval dated May 27, 1941, be suspended for a period of 90 days from March 24, 1942, and that the applicant's request for a longer period of suspension should be denied.

It is further concluded that thereafter the director may order applicant to show cause why the operation of said Items 2 and 4 should be further suspended.

It is further concluded that the provisional approval to applicant, heretofore granted by Order of the Director dated May 27, 1941, be not withdrawn and that the revocation of said Order be extended for a period of 90 days from March 24, 1942, subject to all the conditions set forth in the earlier orders issued in this proceeding.

And it is so ordered.

Dated: March 17, 1942.

[General Docket No. 23]

IN THE MATTER OF THE MARKETING RULES AND REGULATIONS INCIDENTAL TO THE SALE AND DISTRIBUTION OF COAL BY CODE MEMBERS AS ESTABLISHED BY THE DIVISION FOR DISTRICTS 1 TO 20, INCLUSIVE, 22 AND 23; AND IN RE THE PROPOSAL TO REVIEW AND REVISE THE MARKETING RULES AND REGULATIONS AS ESTABLISHED BY THE DIVISION

AN ORDER APPROVING AND ADOPTING, WITH MODIFICATION, PROPOSED FINDINGS OF FACT AND CONCLUSIONS OF LAW OF THE EXAMINER AND REVISING AND MODIFYING THE MARKETING RULES AND REGULATIONS

The Director of the Bituminous Coal Division having instituted a proceeding, pursuant to the provisions of the last sentence of section 4 II (b) of the Bituminous Coal Act of 1937, to receive evidence relating to the reasonableness and necessity of revising those portions of the Marketing Rules and Regulations¹ relating to the payment of interest on overdue accounts;

A hearing having been duly held in this proceeding before Edward J. Hayes, a duly designated Examiner of the Division, at Washington, D. C., on September 30, 1941; District Boards 1, 2, 3, 4, 6, 7, 8, 9, 10, 11, 15, 18 and 22; the City of Chicago, the American Coal Distributors Association, The National Fuel Credit Association, several code members and one registered distributor intervened. Bituminous Coal Consumers' Counsel filed a notice of appearance.

The Examiner having made and entered his Report, Proposed Findings of Fact, Conclusions of Law and Recommendations, dated December 19, 1941;

District Board 11, the Bituminous Coal Consumers' Counsel, and the City of Chicago, all parties to this proceeding, having in due time filed exceptions to the Report of the Examiner and supporting Briefs;

The undersigned having carefully considered the entire record in this proceeding, and upon the basis thereof, having rendered Findings of Fact, Conclusions of Law and an Opinion, which are filed herewith;

Now, therefore, it is ordered, That the Proposed Findings of Fact, Conclusions of Law and Recommendations of the Examiner be and are hereby adopted, except that his recommended revision of Rule 1 (I) of Section VII be modified to include (1) a provision that the waiver of interest charges not exceeding fifty (50¢) cents is permissible only when the amount of such interest is computed on the total shipments of coal to any one buyer during any one month, and not upon the amount of an individual invoice and (2) to exclude the provision excepting the City of Detroit from the 10 day grace provision.

¹ The Marketing Rules and Regulations incidental to the Sale and Distribution of Coal were established to take effect concurrently with the establishment of effective minimum prices in General Docket No. 15. These rules and regulations were later revised, in part, in Dockets Nos. A-3 and A-375 and General Docket No. A-20.

It is ordered, That effective April 1, 1942, the Marketing Rules and Regulations established in General Docket No. 15 be and the same hereby are revised and amended to read as follows:

A. Rule 1 (I) of Section VII. Unless payment of an account for the sale of coal is received by the seller within ten (10) days after the due date of such an account as provided in these Marketing Rules and Regulations, the seller shall charge and the buyer shall pay interest from and after the due date of the account at the rate of not less than five (5%) per centum per annum on the invoice price of the coal sold: *Provided, however,* That no interest need be charged on the account by the seller and unless such interest exceeds fifty (50¢) cents on the total purchases for any one month, except where an account remains unpaid thirty (30) days after the due date thereof interest must be charged from the due date, regardless of the amount of such interest; *And provided further,* That in the case of sales made to Federal, State or Local Governments, or any agency thereof, interest need not be paid at a rate in excess of, but shall be paid at a rate of not less than that prescribed by applicable statutes or rules as the maximum rate of interest governing such payments, where that prescribed maximum is less than five (5%) per centum per annum.

B. Rule 1 (J) of Section VII. Transportation charges on all-rail shipments or on ex-river shipments of coal from the lifting point shall not be paid by a Code Member, his Sales Agent, or a Distributor, except to prepay stations as published in current railway tariffs or on shipments to the United States Government, States or political subdivisions thereof, and except as authorized in the minimum price schedules or in paragraph 1 of Section 4 II (i) of the Act. Where the transportation charges are thus prepaid, the amount thereof shall, immediately upon receipt of the freight bill or notice of sight draft payment, be invoiced to the buyer for immediate payment, and unless payment for such transportation charges on shipments to prepay stations is received by the seller within ten (10) days from the date of the invoice, the seller shall charge and the buyer shall pay interest at the rate of five (5%) per centum per annum from the due date commencing on the day following the date payment is due, except as otherwise provided in the minimum price schedules.

C. Rule 1 (K) of Section VII. Except as provided in Section X of these Marketing Rules and Regulations, no Code Member, his Sales Agent, or a Distributor, shall accept as payment in full for any account for the sale of coal any amount which is less than the applicable invoice price for the quantity of coal involved plus any interest charges on the unpaid balance of the invoice price as required under Rule 1 (I) of this Section: *Provided,* That a Code Member, his Sales Agent, or a Distributor may enter into a bona fide general creditors' composition with other creditors of a defaulting pur-

chaser. A copy of such creditors' composition shall be filed with the Statistical Bureau or Bureaus within ten (10) business days from the date of the making hereof. No provision of this rule is intended to prohibit the interim acceptance of a partial payment of an account, pending its final payment with all interest due.

D. Rule 2 of Section V and Rule 8 of Section VI. The following subsection (e) is to be added to these Rules:

(e) If the price herein is not paid on the date of payment (including the ten (10) day grace period) specified in Rule 1 of Section VII of the Marketing Rules and Regulations established by the Bituminous Coal Division of the United States Department of the Interior, the seller shall charge and the buyer shall pay interest as required in the aforesaid Rule 1 of Section VII, commencing on the day following the date payment is due. Only the receipt of a remittance by the seller shall be deemed to constitute payment of the account, as provided in these Marketing Rules and Regulations.

IN THE MATTER OF AN EXTENSION OF THE DETERMINATION OF THE PREVAILING MINIMUM WAGE IN THE AIRCRAFT MANUFACTURING INDUSTRY

NOTICE OF OPPORTUNITY TO SHOW CAUSE

Notice is hereby given to all interested parties that they have until April 1, 1942, to show cause why the Secretary's decision of December 14, 1938 (3 F.R. 3044) in the matter of the determination of the prevailing minimum wages in the Aircraft Manufacturing Industry, as amended on October 18, 1941 (6 F.R. 5342) should not be further amended by the substitution of the following definition for the industry:

The Aircraft Manufacturing Industry is that industry which manufactures airplanes and gliders, aircraft-type engines, aircraft propellers, parts and accessories for the above mentioned products, and specialized aircraft servicing equipment.

Expressly excluded from the scope of the definition are such commodities as:

Fabricated textile products. Fabric covers (including engine warming covers); parachutes; safety belts; tow targets; and wind socks.

Pyrotechnics. Cartridges for engine starters; and flares and signals.

Electrical and radio equipment. Batteries, electric wire and cable; intercommunication equipment; landing and navigation lights; lighting systems; radios; and radio compasses.

Rubber products. Rubber de-icing equipment; flotation gear; life preserv-

ers and life rafts; bonded rubber mountings and vibration dampers; rubber utilities; and tires and tubes.

Machine shop products and machinery. Bearings; bolts, nuts, rivets, screws, and washers; gas refueling systems (including refueling pumps); gears and sprockets; piston rings; springs; and wire rope.

Miscellaneous products. Cameras; fire extinguishers; first aid equipment; gas-kets; instruments; lavatory equipment; and lighter-than-air craft.

The effect of the proposed amendment will be to broaden the scope of the minimum wage determination for the industry to include such products as the following:

- Light commercial aircraft;
- Engines and propellers for light commercial aircraft;
- Parts and accessories for light commercial aircraft and their engines and propellers;
- Gliders; and
- Specialized servicing equipment for ground use.

The prevailing minimum wage for the Aircraft Manufacturing Industry, as determined by the Secretary of Labor, is 50 cents an hour or \$20.00 per week of 40 hours, arrived at either upon a time or piece work basis. The determination further provides that apprentices may be employed at lower rates if their employment conforms to the standards of the Federal Committee on Apprenticeship.

The proposed extension is based upon evidence received by this Department which indicates (1) that the majority of the plants manufacturing light commercial aircraft for which data are available have a minimum wage of not less than 50 cents per hour; (2) that the predominant number of wage earners manufacturing light commercial aircraft are employed in plants having a minimum wage of not less than 50 cents per hour; (3) that gliders are manufactured by processes and at wages similar to or identical with those in the production of light commercial aircraft; (4) that parts and accessories for light commercial aircraft are usually made either by the manufacturer of the aircraft, or by the manufacturer of parts and accessories for military and heavy transport aircraft; and (5) that specialized servicing equipment for ground use is normally manufactured by the same firms which manufacture products already subject to the determination.

All briefs or telegraphic communications should be addressed to the Administrator, Division of Public Contracts, U. S. Department of Labor, Washington, D. C. They will be considered if they are received on or before April 1, 1942. No form for the brief is prescribed, but an original and four copies must be submitted.

IN THE MATTER OF CITIES SERVICE
COMPANY

NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 13th day of March, A. D. 1942.

A declaration having been filed with this Commission by the above named party pursuant to section 12 (c) of the Public Utility Holding Company Act of 1935 and Rule U-42 thereunder; and

The said declaration concerning the following:

Cities Service Company, a registered holding company, proposes to expend not in excess of \$5,000,000 in the acquisition of its outstanding 5% Debentures not held by affiliates during the 12-month period next following the date of any such order as the Commission might issue herein approving such proposal. Said acquisitions would be made (1) in the open market, either through brokers or dealers on securities exchanges or in the over-the-counter market, or (2) at private sales not solicited by the applicant and at prices not exceeding the current offering prices on the New York Curb Exchange at the time of such acquisition. No fees or commissions would be paid in connection with such acquisitions except the usual brokerage or dealers' commissions.

As of February 28, 1942 there were outstanding \$149,441,828 principal amount of said Debentures, which mature in 1950, 1958, 1963, 1966, and 1969 in varying amounts. Net working cash balance of the company as of the same date amounted to approximately \$27,253,000. As of December 31, 1940 the company had outstanding preferred and preference stocks in an aggregate par amount of \$59,000,000, on which there were dividends in arrears aggregating \$30,385,000.

The company estimates that on the basis of present market prices, such expenditures of \$5,000,000 would enable it to acquire approximately \$6,500,000 principal amount of said Debentures, resulting in an annual interest saving of \$325,000 and a reduction in annual sinking fund requirements with respect thereto.

It appearing to the Commission that it is appropriate and in the public interest and the interest of investors that a hearing be held with respect to such declaration and that said declaration shall not become effective except pursuant to further order of the Commission:

It is ordered, That a hearing on such matter under the applicable provisions of the Public Utility Holding Company Act of 1935 be held on April 3, 1942 at 10:00 A. M. at the offices of the Securities and Exchange Commission 18th and Locust Streets Philadelphia Pa. On such day the hearing room clerk in room 318 will advise as to the room in which such hearing shall be held. At such hearing cause shall be shown why the aforesaid declaration shall become effective;
