## California Republicans Closing the Door of Hope to Negroes.

LIVES OF NEGROES GETTING CHEAP.—Page 4.

The refusal of the Democrats of the District of Columbia to allow the Negro Democrats to take part in the Democratic primaries is going the rounds of the colored press of the country.

The Progressive Republicans of this city, county and state raise no objection whatever to the Negroes voting at elections, but simply close the door of hope to them in the distribution of opportunities. Although the Negro voters made possible the triumph of the present city and county office holders, they are making use of their power to systematically close every position to the Negroes that carries with it manly recognition.

Take the court house, for instance: of the hundreds of clerks and copyists employed there only one is a Negro. She is a mulatto woman in the County Recorder's office. The number of clerks employed in the Recorder's office: deputies, 33; copyists, 92, total 125; one Negro woman. In the Tax Collector's: clerks, 40; Negroes, none. County Clerk's office, clerks, 44; Negroes, none. Tax Assessor's: clerks, 34 Negroes, none. County Auditor's: clerks, 14; Negroes, none. In the Sheriff's office deputies, 19; bookkeepers, 2; one Negro deputy. County Treasurer's, clerks, 6; Negroes, none. County Superintendent's Education: clerks, 10; Negroes, none. In offices of the Dist. Atty. and Coroner no Negro is employed, although both gentlemen owe their political salvation to the Negro voters, the majority of the white voters voting against them.

What is true at the court house is true at the city hall. Of course, the city is under civil service which of late in some way side-tracks competent Negroes.

That these conditions exist here, is the fault of the Negro voters alone. The solid Negro vote of this county thrown against any county officer will defeat him. The treatment the Negro voters are receiving at the hands of men they elected to office is wrong. For the Negro voters to tamely submit to such treatment is unmanly.

In Mississippi, for instance, where the Negroes are not allowed to vote, they do all of the street work, take care of the state capitol and capitol grounds, care for the court houses and public buildings throughout the state. Mississippi is a Democratic state. The Negro in that state gets the positions above mentioned because he is willing to work.

In this Republican city and county, as a reward for putting white men in office, the Negro is confined to cleaning spittoons and cleaning after horses in the streets, where he is continually in danger of death by street cars, automobiles and passing vehicles. When the Democrats were in power in this city the Negroes were given representation in the parks where the pay is better, the work lighter and life and limbs are safe. By cunning manipulations the present Good Government administration has gotten all of the Negroes out of the parks; and unless the Negro with his vote, arrests the progress of the color line in the public

service, the Negroes in the police and fire departments will be eased out. This is to be the next move.

### The County Hospital.

The Democrats of the District of Columbia would not allow the Negro Democrats to vote at the primaries.

The progressive Republican members of the Los Angeles County Board of Supervisors, refused the daughters of black Republicans admission to the nurse-training school at the county hospital, because of their color, although the school is a public institution supported by public taxation. These black Republicans are not only taxpayers but patriotic, law-abiding citizens. But they are Negroes, and all attempts on their part to better their conditions must be discouraged, even if every principle of right and justice be sacrificed.

One of the gentlemen responsible for that outrage against the rights of the educated young Negro women will be a candidate for re-election this fall. Without the Negro vote he cannot win at the primaries. Will he get the Negro vote? The colored janitors are to be forced to keep the colored voters in line or lose their jobs. Can office holders, who treat you with such contempt, get your vote?

Another scheme will be to put a little money in the hands of a few irresponsible Negroes who have just arrived, coming from a section where their rights were ignored—men unaccustomed to fair treatment. Such men for a few dollars will sacrifice rights that

no decent citizen would think of  
It is in this way the colored voters are being systematically robbed of their rights. It is in this way that the robbery is to be kept up and the cry of "race prejudice" used as an excuse by tricky politicians, who are now so much in evidence.

At the hands of Governor Johnson the colored voters have fared no better.

We shall have more to say on this subject later on.

*"Consider the lilies of the field, how they grow; they toil not, neither do they spin; and yet I say unto you: That even Solomon in all his glory was not arrayed like one of these."*—*Matbew 6:28:29.*

It was from the above sublime passages that Rev. Kenchin preached an able, impressive Children's Day sermon at Wesley Chapel, last Sunday. He showed that as it is now, it was at the time when our Saviour spake the words quoted, men and women were more interested about the without, than the within. Christ wanted men to know that the things that make life worth while and beautiful are from within and not dependent upon what they put on. What He wanted us to learn, is that we should not become so absorbed in what we eat and wear that we lose sight of things eternal. The God whose wisdom is displayed in the delicate structure of the lilies; the beautiful tent of the rose, and prepared for our entertainment all nature with her grandeur and beauty will forget none who trust and obey Him. Turning to the children the pastor likened them to the lilies emblems of purity and urged the importance of leading them in the foot-steps of the Saviour by exemplary lives.

The Children's Day exercises which took place in the evening were worthy in every way of the occasion, and were largely attended. The children made a fine appearance each playing his part well.

**WILL SPEAK AT THE LYCEUM**

After the Conference adjourned he made an extensive tour of the

Southern States, and will give those who hear him the benefit of his observations.

Everybody welcome.

#### ANNOUNCEMENT

Mr. James N. Drake, treasurer of the Good Hope Consolidated Mines Co. (incorporated), of Seattle, Washington, is in this city for a short stay in the interest of his company. Mr. Drake has been a resident of San Francisco and vicinity for the past thirty years, and desires to meet any acquaintances. He will visit both the Forum and Lyceum next Sunday. Mr. Drake's Company is incorporated and capitalized at \$1,500,000. Mr. Drake is stopping at 542 Cerris Avenue.

#### RECEPTION TO DELEGATES

A good size audience attended the reception tendered Rev. Peck and delegates who attended the General Conference at Kansas City. Addresses were delivered by Rev. Kenchin and Messrs. Hale, Hall and a member of the trustee board.

Mr. Hale's address was a good one and was well received. The audience was swept by a considerable ripple of mirth, when Mr. Hale said in the course of his remarks that: "there were a good many job hunters in the Conference, but we defeated them."

Rev. Peck was in excellent spirits and wanted it understood that that meeting was not one of condolence, that he had not been defeated and that he would be a red-hot candidate four years from now. He said the candidates, recently elected bishops, had been running twenty, sixteen, twelve and eight times respectively. "So you see I have just commenced running."

Of course, it is understood that the President of the Afro-American Council will never again be entrusted with Rev. Peck's future bishopric fights. The most serious problem now confronting Rev. Peck is, how to keep Alexander's

"mouf shet." He somehow kept Alexander away from the reception which of itself was considered by Rev. Peck's friends as a master stroke. Rev. Peck's friends, however, take a rather gloomy view of the situation and say: "unless he muzzles the President of the Council his case is hopeless." "You see the fellow was never out of the state before; that's why he is belching so," said a trustee.

#### NOT SO FRATERNAL

The other day, the editor of the Fraternal Bulletin and the correspondent of the Richmond Planet came near coming to blows. The trouble grew out of the Planet man advertising the Bulletin.

Seeing the P. man at some distance, the B. editor leaped from his wheel and made a dash for him.

Assuming a defiant attitude the Planet scribe said: "If you put your hands on me, I will bust your fist all to pieces with my head!"

This put the Bulletin editor to thinking—a thing it is said he hasn't done for many moons. After sizing up the Planet man, who looked like a big human bone, he seemed to conclude that "discretion is the better part of valor," backed off, remounted his wheel, leaving his advertiser in undisputed possession of the field.

## LIVES OF NEGROES CHEAPER IN THIS CITY NOW, THAN EVER

There has never been a time in the history of this city and county when the lives of Negroes were so cheap as now. Those who doubt this have only to call to mind the number of Negroes who have been murdered in cold blood in this city in the past, say, six years, and then consider the ease with which the persons murdering them escaped punishment, and our assertion is absolutely proven.

It requires no expert to discover

the cause of this cheapening of the lives of Negroes in this community. Whenever evilly disposed persons discover that they can murder certain members of a community without encountering serious trouble, they murder such persons with slight or no provocation, especially if they hold human life cheaply. These are the conditions that have obtained in this county with respect to the lives of Negroes, in recent years. Of the Negroes that have been murdered in this county in the past six years by lawless white men no serious attempts have been made to bring them to justice.

The white man who murdered Godfrey, a few years ago, was never tried for the crime, although the murderer had no provocation for committing the deed.

The white man who assassinated Perry on Baldwin's ranch was promptly discharged on his own testimony, but on the demand of the Monrovia people he was re-arrested, tried and given a long term in the state's prison.

There are other flagrant cases, but those are sufficient.

### Was She Murdered?

On May 20th, the dead body of Mrs. Mary Rogillio, colored, was found in a white lodging house, 137 South Broadway. The keeper of the house states that the woman came there on the night before, with a white man and registered as man and wife. When it was discovered that the woman was a mulatto no very serious attempt was made to ascertain the real cause of her death. Although there was an ugly bruise on one side of her head, heart disease was given as the cause of her death. If the bruised skin had been removed from her head a different decision might have been reached. But she was a Negro and why the trouble? No efforts have been put forth to find the white man who took the woman to the place. He could certainly throw some light on the case.

But he was a white man and she a Negro.

Reverse the case: suppose the woman had been white, the man black and the proprietor of the house black. The District Attorney's office would have turned the city upside down in search of the Negro. The lodging house would have been photographed and put in bad with the police department. A murder charge would have been made against the Negro who took the woman to the house and violence suggested by the daily papers.

### But She Was a Negro.

Mrs. Rogillio was considered, by those who knew her, as a woman of good moral character. She was a working woman, and married and seemed devoted to her husband who is expected to arrive here in a few days from Okla. How the white man got her to the house will never be known.

### Another Case.

A few years ago, a notorious crib woman, white, was found murdered in her crib. A desolate young Negro man with hundreds of white men of the same kind were seen in the neighborhood on the night preceeding the murder. The Negro was arrested on suspicion as the murderer and kept in jail several months. For want of evidence fixing the crime upon him, he was finally discharged.

Whenever a Negro has even been suspected of murdering a white person he has had to face a jury trial for being suspected. Not so with white men who murdered Negroes; they have in nearly every case, escaped the annoyance of jury trials.

The Liberator believes in and advocates the rigid enforcement of the laws without regard for race, color or condition. It is the only protection that society has.

The prevalence of mob law in this country is due to the condition we are complaining of. It is not the crimes that Negroes commit that provoke mob violence,

for white people commit the same and worse crimes many times, each day without fear of summary violence, but it is the low price put upon the Negro's life everywhere that makes them victims of the mob..

That's all. We have neither respect nor sympathy for criminals of any class, whether it be a red-handed murdered or officers of the law who aid mobs because their victims are weak.

Colored men and citizens, this cheapening of life demands your serious consideration. There is danger ahead.
