The Degree of Honor gave another one of their surprises Monday night. They prepared a genuine oyster supper and all members of the Workmen Lodge who were fortunate enough to attend lodge that evening were royally treated. Games also added to the enjoyment of the evening.

The Central Santa Clara Fruit Company have finished packing their dried fruit and everything is now ready for shipment. They are fortunate in closing up their past year's business, while many other concerns are still holding a large amount of fruit. Campbell is fortunate in having so progressive a firm and we trust the coming year will be a most prosperous one for them. By their fair dealing they have made many friends in this vicinity.

Full line summer hats just received at Blodgett's. See them before buying.

The annual meeting of the Board of Trade will be held next Tuesday evening. Let all who are interested in the welfare of Campbell be present at the hall on that night.

**Methodist Conference.**

Preparations for the coming Methodist Conference which is to hold its sessions in Los Angeles are nearly completed. The committees are hard at work, the local committee having offices in the Conservative Life Building and the headquarters of the General Conference being in the Chamber of Commerce Building.

Previous meetings of this Conference which meets but once every four years, have been held in New York and Chicago, it never having met on the Pacific Coast before. The plan now is to open the Conference with a grand concert; the date as near as can be determined, being May 3rd. Mr. Harry Barnhart is busy organizing a chorus of 700 voices, to render selections from the great oratorios on this occasion. Weekly rehearsals are being held, and the chorus will be assisted by an orchestra of about sixty pieces and a number of soloists. A course of lectures, eight in number will also be given in connection with the Conference. Those who will participate will probably be Dr. W. A. Quayle of Kansas City, Bishop Chas. H. Fowler, Rev. Frank Bristol, Dr. A. J. Palmer, Dr. Frank Gunsaulus of Chicago, Rev. J. F. Buckley, Editor Christian Advocate, Bishop Henry P. Warren and Bishop John H. Vincent.

Hazard's Pavillion has been re-seated and the interior re-decorated to accommodate the assembly and doubtless the capacity of this large building will be taxed. Owing to a special rate of \$50 for round trip from Chicago and St. Louis, made by the railroads, hosts of people will no doubt take advantage of this opportunity to visit California. It is estimated that fully 75,000 strangers will be in Los Angeles at that time. The Conference will last about one month.

**Revolution in Bread-Making**

We have found the flour that is going to make a revolution in Bread Making.

**WHY?**

It is made from Blue Stem Wheat and Hard Wheat from Minnesota, and it is blended in such proportions as to produce flour for bread making that has never before been offered in this community.

Silver Bell Flour, the miller tells us, contains 28 per cent gluten.

Housekeepers coming here from the East ask why they can not obtain flour equal in quality to Pillsbury's Minnesota Flour.

The answer is that most California flour is made from Australian Wheat, while Minnesota's best Patent Flour is made from Hard Wheat.

SILVER BELL FLOUR is put on the market with the assurance that it is not excelled in quality by any flour whether made here or in the East. We claim for Silver Bell Flour that it will make from eight to ten more loaves of bread to the barrel than flour made from Australian Wheat and we are going to offer this carload of Silver Bell Flour at the regular prices for our local flour:

Barrel.....	\$5.10
100-pounds.....	\$2.55
50 pounds.....	\$1.30

It is our expectation that every bread maker in Santa Clara county will not rest satisfied with her bread until she has given the Silver Bell Flour a trial.

### The Easter Services.

Easter services at the churches were especially beautiful this year. The music was carefully prepared and the decorations were beautiful in their purity and simplicity.

At the Congregational church a large cross of white callas was the central feature, with the words "The Lord is Risen" surrounding it. Great sheafs of callas and groups of white iris, with the trailing Cherokee rose supplemented the cross and made a harmonious whole. The program of the Sunday school was given in the morning, and was made up of appropriate songs and recitations and talks by Dr. Windsor and the pastor. The program being arranged as follows:

Voluntary—Miss Nell Brandenburg.

Song—School.

Prayer.

Responsive Scripture Reading.

Luke's Story of the Resurrection—Mary Schuyler.

Anthem—Mrs. Townsend and Luther, Messrs Duncan and Abbott.

Recitation—Irwin Righter.

Recitation—Ada Nelson.

Talk to the Boys and Girls—Rev. Windsor.

Song—Rev. Atkinson's class.

John's Story of the Resurrection—Vera Fablinger.

Recitation—Willie Noble.

Song—Mrs. Cutting's class.

Easter—What it signifies, Rev. Atkinson.

Recitation—Vaudine Putnam.

Class Exercise and Song—Mrs. Nelson's class.

Violin Solo—"The Holy City," Mr. Hutton.

Recitation—Mildred Duncan.

Song—"Christ Arose," Quartette, Mrs. Luther, Messrs Duncan, Abbott and Cooper.

A responsive service was used in the evening which was much enjoyed.

The decorations at the Methodist church were of callas leaning their graceful slenderness over the altar rails, and tall vases of purple and white iris, the beautiful effect being gained by the great profusion of blossoms and the artistic arrangement. In the morning the service consisted of an Easter sermon by the pastor and the singing of the anthems "I Will Lift up Mine Eyes" and "This is the Day" by the choir. A special offering for missions

was taken and the amount raised was gratifying to all interested in the cause of missions.

The evening service was in charge of the Sunday school and the result of their labors was a program, consisting of the following numbers:

Hymn.

Prayer—Rev. J. F. Jenness.

Song—Mrs. Beaver's class, "The Bells of Easter Sweetly Peel."

Recitation—Boys of the primary class.

Song—Primary pupils.

Recitation—Girls of the primary class.

Exercise—Miss Lloyd's class of boys.

Recitation—Frances Calkins, "Easter Angels."

Song—Mrs. Holbrook's class.

Recitation—Lelia Granstrom, "An Angel Touched The Stone."

Exercise—Mrs. Waite's class.

Recitation—Ernestine Kennedy, "He is not Dead."

Song—Catherine Mar. inia, "All the Bells are Ringing."

Reading—Miss Cora Rodeck.

Song—Mrs. Beaver's class, "Jesus Our Lord."

Remarks by Pastor.

Hymn.

Benediction—Rev. B. F. Kephart.

### April Fool's Party.

The Kappa Alpha Chi gave an April Fool's Party at the beautiful home of Mr. and Mrs. R. A. Hamilton.

The rooms were daintily decorated with their colors. Games and refreshments carried out the spirit of All Fool's Day. Those present were: Mrs. R. A. Hamilton, Misses Ednah Briggs, Mayre Canine, Jessie Wood, Florence Kennedy, Zena Kennedy, Lena Swope, Avenl Brandenburg, Lena McLachlan, Beth Bucknall, Nina Davison, Dottie McKenzie, Mable Ross, Grace Blodgett, Messrs Carson Benner, Harlow Plimpton, Everett Campbell, Elliot Campbell, A. Abbott, Ernest Abbott, John Wood, Clarence Martinia, Leigh Rogers, Dwight Ross, Avie Kennedy, Fred Pannell, Mr. R. A. Hamilton.

Congressman Edward Livernash made a very clever move last week in bringing in the matter of the raise in wages of postmen before the House of Representatives; the amendment was made in such a way that the members were obliged to put themselves on record, and the postmen now definitely know who are their friends.

## THE STUDY OF PAST PERFORMANCES.

San Francisco Examiner

How often do you see young men, lead pencil in hand, poring over newspapers with the greatest intensity.

These young men, as you know, are trying to form an opinion on the probability of certain horses' winning certain races, their best energies, all their capacity of concentration, are going to waste.

\* \* \*

There is no study more important to young men than that of past performances—the RIGHT kind of past performances.

But there is no study that leads more often to jail, or more surely to failure, disappointment and disgrace than the study of the past performances of race horses and of gamblers.

Of a hundred young men who go into this study of gambling ninety-nine lose and the hundredth, by becoming a professional gambler, or some other kind of swindler, makes a little money temporarily as a social outlaw and swindler.

But it is not the money that young men lose in gambling that constitutes gambling's worst feature.

If they could all lose, from the start, lose every time, and lose every penny they had, it would be well for them.

The loss of money is a small part to the harm that gambling does.

\* \* \*

Of all the vices to which men are addicted, gambling is undoubtedly the worst.

Gambling has a worse effect on the mind and conscience even than drink.

The inveterate gambler cannot remain honest, he DOES not remain honest.

The professional gambler cannot be an honest man, he never is an honest man.

From the point of view of the individual, gambling is a vicious passion because it destroys moral character.

From the broad point of view of the welfare of society, gambling is a menace, not only because it ruins men's morals, but especially because it KILLS TRUE AMBITION.

Every man who gambles knows perfectly well that he has no concentrated effort for anything else.

When the young man risks ten, or twenty, or more dollars in some form of gambling in the course of an hour or less, it does not seem worth while to work hard for a whole day to earn a half or quarter of that sum.

All gamblers—except the very few successful criminals whom gambling develops—are losers and bitterly disappointed men in the end.

Look at the hangers-on of the Stock Exchange, the race track or the gambling house and you will see how gambling destroys a man's mainspring—killing his am-

bition, self-respect and hope.

Hanging around the Stock Exchange you will see old man pointed out who once had money, energy and a good chance in life. Now he is timorously begging old friends for a little money, a chance to gamble JUST ONCE MORE.

He studied the past performances of the ticker; it has made him a beggar, broken in pride and prospects.

The same type of broken man, but fallen even lower, you may find hanging around the betting ring of the race track, or around the gambling room.

He has studied the past performances of the horses, or of the roulette wheel, and he is a failure for life—begging, begging, whining, too weak to reform, too low-spirited to do anything but hang about and beg.

\* \* \*

It is a calamity to see the number of young men in the United States to-day studying these past performances of the horses which are used for amusement by a few rich men and for theft by many blacklegs.

These young men with their pencils and paper you will find all over, in the big cities and in the country.

If each one would look up from his study, and look the situation straight in the face, it is hard to think that he would continue on the path that gives nothing but failure in return for concentration.

We wish that such young men could be made for a moment to think of the REAL men who in their youth studied REAL past performances.

Such men were Jefferson, Lincoln, Edison, Franklin, Fulton—all the men that have won success on great and useful lines.

Edison as a lad sat with his heavy head hanging over the telegraph instrument at which he worked. He studied the past performances of men who had added to the world's knowledge in electricity.

Do you suppose that he could have benefited the human race by his discoveries and made himself a rich and respected man if he had given his powers of concentration to aimless, useless, study of some gambling question?

We assure the young man who gambles that the force and patience which he puts into his gambling studies might make him a success in some respectable, profitable line of effort.

You admire such a man as Lincoln—could you possibly imagine him straining his eyesight in the dusk studying the records of race track gambling machines? •

Could you imagine any man whom you respect risking the money which costs effort and which represents opportunity on the dishonest gambling ventures of a race track or card room?

\* \* \*

We talk earnestly to the young man with the gambling habit, because many such young men are strong in ability and character and would render good service to the world if they could use their energies properly.

The gaming instinct is a perverted form of ambition, the most dangerous of human perversions.

Every young man who has genuine strength should think about gaming from his own point of view, and his own pride should give him reasons for stopping.

If you want success in life, you should want it as a result of your own efforts, not as a result of any accident.

If you want to be prosperous, you should have the ambition to be prosperous because YOU have worked hard, not because some poor horse, jockey and spurred and over-driven, has happened to win when you bet on it.

The gaming instinct is weak as well as vicious. It is self-indulgent and contemptible, it represents the desire to get something for nothing.

### Another Scratch.

Does it pay to keep chickens? Certainly, if it is managed right. Some people go to needless and worse than useless expense in putting up wire fences and coops for their accommodation. This is a mistake. Chickens thrive better when allowed to run at large. Of course the neighbors will object but, a placid and passive patience on the part of the chicken owner will eventually overcome all resistance. In times when the objections of the neighbors become too strenuous, it is well to appear to yield, and keep the fowls up a few days or even a week or two in gardening time, well knowing that the reward for the trouble will be rich. Nothing makes such fine pasture for them as a well fertilized pansy bed or a patch of lettuce an inch or so tall, and it is pure joy (to the owner) to see the happy creatures reveling in the soft soil so carefully and trustfully prepared by the neighbor. To be sure the wrath of the latter will be a frightful thing to behold but a calm and conciliatory manner on the part of the chicken fancier will do much to mitigate his anger. And what a comfort to wounded feelings, to think that the humble birds will be a means of grace to the irate man. For when, as will finally happen, the chickens may roost on his front porch without the feeblest remonstrance, a miraculous change in his character will have been affected—his, will be a conquered and subdued spirit.

And in the mean time for the persevering owner, there will be the fresh egg for breakfast and the fresh hen for Sunday dinners. Oh, yes! it is well worth while to keep chickens.

### New Voting Machines.

The new voting machines purchased by the Board of Supervisors were first used in the election at Santa Clara Monday and proved a great success. Supervisor Roll cast his vote in just 11 seconds, and 3 minutes was the longest time required. In 15 minutes after the close of voting the full result of the election was known. There are now 15 machines in the county.

### Disorderly Conduct.

Sunday evening three Campbell young men, much the worse for liquor endeavored to paint the town red. They caused considerable disturbance around the M. E. Church, and managed to assault a couple of young men who were on their way to church. Justice Glendenning was summoned over Monday and one of the offenders was brought before the Judge who gave the boy a severe reprimand and let him go with a promise of better conduct. The other two disturbers had left town. This kind of trouble ought not to be tolerated and steps should be taken to see that such offenders are severely dealt with. This trouble also emphasizes the fact that Campbell should have a constable to take care of such offenders.

### CAMPBELL

(THE ORCHARD CITY)

Lies 50 miles south of San Francisco on the Santa Cruz division of the Southern Pacific Railway, 5 miles from San Jose, in the famous Santa Clara Valley, the garden spot of the State.

#### SCENERY SUPERB

With the Santa Cruz Mountains to the west and south and the Coast Range on the east, a majestic amphitheatre is formed, the beauty of which can not be excelled anywhere. Campbell has an altitude of 195 feet. The cool breezes from San Francisco bay at the north insure an even and comfortable temperature throughout the summer months, while the winters are warm and pleasant. Flowers bloom out of doors the year around.

#### EDUCATIONAL ADVANTAGES

Campbell has a population of about 600. It maintains a (third class) post-office which distributes mail to 3,000 patrons, covering over 30 square miles of orchard homes. There are two churches—Methodist and Congregational—a first class High School and Graded School, and within a few miles are two Universities, two Colleges, a State Normal School and several Business Colleges and private schools.

The Stanford University with its marvelous architecture is only 20 miles away.

#### NO SALOONS

Campbell has a complete water system of its own. It has electric lights and power for mechanical purposes, which is distributed throughout the orchard district. A telephone exchange serves over 40,000 people. A prohibitory clause in all deeds to property within the town limits, prevents the saloon from being established.

#### FINE ROADS AND RESORTS

The Santa Clara Valley boasts of the finest roads to be found in the State. It has over 350 miles of sprinkled rural highways. In attractions for tourists the Santa Clara Valley can not be surpassed. Thirty-two miles eastward over a magnificent mountain road is the famous Lick Observatory on Mt. Hamilton, 4,444 feet above sea level. There are numerous mountain retreats within two hours' drive for those who love the camp and sparkling brook. The sea beach to the southward 27 miles by rail or carriage drive, and through the most beautiful mountain scenery in the world.

A trip to the Big Trees, twenty feet in diameter and two thousand years old, will furnish a delightful day's outing.

#### MINERAL SPRINGS

The hot springs of Alum Rock Canyon and Congress Mineral Springs are within two hours' drive, giving a panoramic view of the entire valley.

The Almaden Quicksilver Mines, the largest in the world are within easy access by rail or team.

The largest seed farms in the world only 10 miles distant.

#### FRUIT CENTER

Campbell's mammoth fruit dryer and packing house is the largest in the world. It has a capacity of over 10,000,000 lbs.

The Campbell Orchard District is noted for the quality of its fruits. For delicacy of flavor and beauty and perfection of color, its cherries, apricots, peaches, apples, plums, grapes and pears, have no equal in their fresh state, and command the highest market price. As cured or dried fruit the Campbell prune, apricot, and peach is shipped to every civilized country on the globe. Nearly one-half of all the prunes grown on the continent are from Campbell orchards. One and a half million cans of fresh fruits are packed in Campbell every season.

The demand for intelligent labor is increasing every year. Families desiring profitable employment in orchards, packing houses and canneries find this an ideal home.

#### LAND VALUES MODERATE

Land values are very moderate—bare land brings from \$100 to \$300 per acre and when set to trees sells from \$200 to \$1,000 per acre, according to location and age of orchard. Ten to fifteen per cent is an average net income, while many places yield a much higher rate.

In short a Campbell home is one surrounded with HEALTH, WEALTH AND PLEASURE.
