

## SUGARS WILL RECEIVE TREATY ON FRIDAY

### STRONGER FEELINGS ARE GIVEN VOICE AT OTTAWA CONFERENCE

Toronto Employer Deplores Threats of Strikes; Steel Workers' Delegate From Nova Scotia Says Concessions Must Not Be One-Sided.

Ottawa, Sept. 17.—Threats of strikes were deplored and a new warning from labor to employers issued before the National Industrial Conference had proceeded very far with this morning's session.

The session opened in a sort of fighting mood and it was not very long before things became interesting. J. S. McKinnon, of Toronto, thought labor had been going too far in using the term "conscription of wealth" and threatening a strike to enforce the eight-hour day in all industries. There should have been more of a spirit of British fair play, he claimed. The Conference had not been called for that sort of thing.

J. A. Gillis, of Sydney, N. S., a delegate of the steel workers, disclaimed any attempt to force class legislation. No industry had yet been ruined by reducing hours of labor. Every dollar invested honestly was worthy of a proper interest, he declared, but the speeding up of labor to earn profits on land and water was not legitimate. Speaking of fair play, he said: "It can not be all one-sided. We must be fair with you, but you also must give up a little more of what you have pleased to term profits in the past."

Definiteness Needed. A plea for the lumbering, agricultural and other seasonal industries, which would be handicapped by shorter hours, was made by J. Fraser Gregory, John N. B., and J. Thompson, Carleton Place, Ontario, said manufacturers would be more than willing to introduce lower hours where they could—where that labor should state specifically in what industries shorter hours were to be enforced.

Mr. Thompson also held that the demand for labor for an eight-hour day only preceded a demand for still further reduction of hours and wanted assurance that labor would set a minimum somewhere.

J. A. McLelland, in closing the discussion for the employees, moved, that the subject matter be referred to the committee appointed to deal with it. Called Impossibility. Thomas Cantile, of New Glasgow, and R. Pearson, of Toronto, thought that an eight-hour day throughout Canada was almost an impossibility. The latter expressed the opinion that it would paralyze industry.

H. B. Butler, of the British Ministry of Labor and secretary of the British Labor Conference, and Ernest T. Trigg and John C. Frazer, officials of the National Federation of Construction Employees of the United States, were present this morning.

Mr. Butler thought the sessions of the Conference would help greatly in shaping Canada's position before the International Labor Conference, where it was hoped to receive the fear of foreign competition by standardizing the laws respecting hours and conditions of labor.

Give and Take. Mr. Trigg congratulated the Conference for the purpose of "give and take," and believed Canada was serving the peace of the world in getting masters and men together in free discussion.

Mr. Frazer, in a splendid address, said there was no "man's land" between capital and labor. Employers and men must proceed to progress step by step together on the ladder.

Will Be Employers. In a few years the men seated among the employees probably would be numbered among the employers and they must remember that all of them were part of the public, whose interests in all cases were the most important.

The debate on the questions of hours of labor was concluded before the noon adjournment and the subject matter handed to the committee for its consideration and report.

(Continued on page 16.)

**BOLSHEVIKI CLAIM GREAT GAIN EAST OF CASPIAN SEA**  
London, Sept. 17.—A Bolshevik wireless message says that through the union of the troops on the Turkestan front with those on the Tashkent front enormous territory has been added to Soviet Russia. This territory has rich stores of raw materials, food and cotton, of which 241,000 tons are available.

**PRESENT PASSENGER FARES IN DOMINION DECLARED REASONABLE**  
Ottawa, Sept. 17.—The Railway Board, in a judgment just handed down, disallows the complaint of the Toronto Board of Trade and the Border Chamber of Commerce of Windsor, Ont., against the increased return passenger fares put into effect by the railways on February 1.

### IRISH PROBLEM AND THE WORLD LEAGUE

Wilson Says League is Forum to Hear All Claims

U. S. President Probably Will Issue Statement on British Dominions

On Board President Wilson's Special Train Sept. 17.—Setting forth publicly for the first time his interpretation of the League of Nations covenant as it affects Ireland, President Wilson said in a statement today that the League would constitute a forum before which could be brought all claims for self-determination which are likely to affect the peace of the world.

"The covenant would not bind the United States to assist in putting down rebellion in any foreign country," he asserted, "nor would it limit the power of this country to recognize the independence of any people who seek to secure freedom."

He said Ireland's case was not heard at Versailles because it did not come within the jurisdiction of the peace conference.

The President's statement was in reply to a series of questions sent to him by the San Francisco Labor Council.

Dominions. It is understood that within a few days he will reply similarly to questions put by other bodies regarding Shantung and the representation of the British Dominions in the League Assembly.

Replying directly to a question as to his attitude toward self-determination for Ireland, Mr. Wilson said his opinion was expressed in Article II. of the covenant, under which it is declared that any member nation can call the attention of the League to "any circumstances whatsoever affecting international relations which threaten to disturb international peace or the good understanding between nations upon which peace depends."

At San Francisco. San Francisco, Sept. 17.—President Wilson arrived here at 9:30 o'clock to-day on a special ferry boat from the Oakland Mole.

Socialization in the United States. Wilson May Work For Nationalization of Coal and Oil

Chicago, Sept. 17.—President Wilson will soon announce the doctrine of socializing the coal, oil and national highways of road and water in the United States, that these may be taken control of by the whole people for themselves as the people's property, former Senator James Hamilton Lewis, of Illinois, a Democrat, declared here to-day in addressing the Chicago Association of Commerce.

BACK TO CANADA. London, Sept. 17.—The S.S. Mezargic sailed Monday carrying 890 Canadian officers and their families.

**CAPTAIN B. HAYS, OF OLYMPIC, IS CREATED A KNIGHT**  
London, Sept. 17.—Captain Bertram Hays, commander of the troopship Olympic, which carried many thousand Canadian soldiers to and from the war zone, has been made a Knight of the Order of St. Michael and St. George.

**SPEECH BY LLOYD GEORGE IS AWAITED WITH INTEREST**  
London, Sept. 17.—Mr. Lloyd George's return to London last night from his vacation at Deauville, France, and a brief visit in Paris, will be followed to-night by an address which will be delivered at the London City Temple and which, in view of the extreme political and economic unrest prevailing in the country, is awaited with keenest curiosity and interest. Among the many topics which the public is eager to hear the Prime Minister discuss are the Russian situation, Ireland, a reduction in the national expenditure, industrial development and the probable dissolution of Parliament and a general election.

An election would be particularly welcomed, but it is doubtful if the Prime Minister will speak on that subject to-night, it being suggested that he probably will avoid controversial topics as far as possible. In view of the fact that the speech will be addressed to the International Brotherhood Congress, the Prime Minister probably will confine himself mainly to elaborating his recent appeal to the nation to co-operate in the establishment of a new world order, leaving other matters for addresses he has promised to deliver elsewhere.

Re-Alignment. London, Sept. 17.—Informal discussions are afoot as to the possibility of a working agreement between the younger members of the Unionist Party, headed by Lord Robert Cecil, and the Parliamentary Labor Party, according to the political correspondent of The Central News. He adds that Mr. Lloyd George has an ambition to lead such a combination and now that the Prime Minister has returned to London "the whole situation is full of striking possibilities."

Much depends, says the correspondent, upon how far the Labor Party will meet advances to join in the reconstruction of the Ministry.

Not Public Funds. London, Sept. 17.—It is officially announced that "The Future," the paper issued free containing messages from members of the Government, was not printed through public funds.

### Lady Foster, Wife of Minister, Dies in Dominion Capital

Ottawa, Sept. 17.—Lady Foster, wife of Sir George Foster, Minister of Trade and Commerce, died this morning.

### THREE DRYDOCK SCHEMES ON BURRARD INLET REPORTED

Vancouver, Sept. 17.—The Vancouver Daily Province has a special dispatch from Ottawa to the effect that Coughlan & Sons, shipbuilders here, announce that they will build a large graving dock at Vancouver. The site already has been secured adjoining the P. Burns packing plant on Burrard Inlet.

The Government has decided, according to the dispatch, not to build any more ships, but Coughlans, in their False Creek yards, will proceed with the construction of 9,000 and 10,000-ton vessels on their own account, to be disposed of upon completion.

The Coughlan firm is filing plans with the Government to bring it under the benefits of the Drydock Subsidies Act.

At Lynn Creek. Vancouver, Sept. 17.—Another applicant has joined the number seeking a Government subsidy for a drydock on Burrard Inlet. The latest is the Globe Syndicate, of which Theo. A. Frey, a New York millionaire, is president and E. S. Landrey is the general manager. This organization plans the completion of a drydock scheme at Lynn Creek, on the north shore. It is estimated that \$400,000 worth of preliminary work already has been done on this project and the site is declared to be the finest of any on the harbor. The Globe Syndicate opened offices here in May of this year and Mr. Frey spent some time in the city and on the harbor. He will be in Ottawa within the next few days to present his proposition to the Government.

### STILL HANG BACK FROM REGISTRATION

Citizens Show Small Interest; Do Not Appreciate Cancellation of List

Registration is dragging in the city for the by-election next month. The principal reason, so far as can be learned from the inquiries made at various polling divisions, is unquestionably the failure by the citizens to realize that the former lists are cancelled, and that it is imperative for everyone to register again in order to vote.

Members of the Women's Independent Political Association who distributed dodgers in the Public Market yesterday, to men and women alike found this circumstance very general. Only about one-tenth of those canvassed realized that the existing lists were cancelled, the majority being under the impression that the proclamation appeared only to those not on the lists, whose names should come before the periodical Court of Revision.

The citizens, with half the available time of registration almost over, are not yet awake to the necessity of action. Returning Officer H. W. R. Moore said to-day that a great deal of misunderstanding had arisen with regard to naturalization papers, and that inquiries directed to Captain Carew Martin, the Registrar, or himself at telephone 1405 would help to clear the air in this respect.

Registration in the wards must be made at the place specified in the proclamation, as the deputies make up individual lists for the Court of Revision. The hours at which the polls are open are: Morning, 9 to 1 o'clock. Afternoon, 2 to 6. Evening, 7 to 9 o'clock.

Merchants are advised to register in the morning, as the evening hours are expected to be occupied with registering those who are employed throughout the day.

To judge from inquiries reaching The Times editorial department there is more uncertainty about registration on this occasion than ever before, and unless the citizens read the proclamations, and avail themselves of the opportunity now available, the aggregate registration of voters will fall far below the legitimate total for this city.

Among places where information may be obtained in that section, registration is Telephone No. 519, where questions will be answered on this subject.

### Hundreds Killed By Big Storm in Texas Coast Region

Corpus Christi, Tex., Sept. 17.—The list of known dead in Corpus Christi and environs is now nearing the 200 mark, and is being swelled almost hourly.

It is now feared that the death toll will reach far into the hundreds, as reports reaching here from across Neches Bay, in the vicinity of Portland, White Point and Rockport and other towns in that section, tell a uniform story of heavy casualties.

### CZECHO-SLOVAK MINISTERS RESIGN; WON AT GAMBLING

Prague, Sept. 14.—Delayed—M. Frasclek, Minister of Agriculture, and M. Stribeny, Minister of Railways of Czecho-Slovakia, have resigned their portfolios. Their resignations were brought about by the fact that they won large sums at gambling from a defaulting bank official.

### Roumanian Troops Now Are Leaving Hungarian Capital

Budapest, Sept. 17.—The Roumanian army has begun to withdraw from Budapest. The retirement may be completed within a fortnight.

### WANTS DEBATE ON COST OF LIVING

Burnham, Peterboro Member, Thinks Commons Should Discuss Matter

Ottawa, Sept. 17.—J. H. Burnham, member for West Peterboro, Ontario, who recently left the Government side of the House, the cross-benches, wants Parliament to discuss the cost of living. He has given notice of a resolution calling for a discussion in the House, "that scientific methods may be applied in Canada to the struggle for existence."

Mr. Burnham also wants the Government to appoint a commission to formulate a definite plan to be laid down before the country at the next general election.

### Kiamil Pasha Sets Up New Government in Turkey in Asia

Paris, Sept. 17.—Kiamil Pasha, former Grand Vizier of Turkey, has organized a nationalist Government in Asia Minor, at Erzerum, and established a National Assembly at Sivas.

### ANOTHER FIGHT ON FISH TREATY

Convention Affecting These Waters to Go Before U.S. Senate Committee

Ottawa, Sept. 17.—It is stated by J. B. Hunter, Deputy Minister of Public Works, that two applications for the construction of drydocks at Vancouver under the Drydock Subsidies Act are before the Department. One is from the Wallace Shipyards Company, the dock to be built at Vancouver, and to cost \$2,500,000.

The other is from the Pacific Construction Company (Cameron and Davidson) for a first-class dock, to cost \$5,000,000 and to be built on Deadman's Island.

Bonus Urged. Kingston, Ont., Sept. 17.—The Council of the Kingston Board of Trade, with a view to encouraging the construction of a new dock, has passed a resolution suggesting to the Government that a bonus be given, and that the use of foreign-built ships, at least those over five years old, be not allowed.

### TO CREATE MORE TRADE WITH ORIENT

Dominion Trade Department Sends H. R. Poussette to Inspect Trade Offices

Vancouver, Sept. 17.—Making the first of a series of inspection trips under the Trade and Commerce Department of the Dominion Government, H. R. Poussette, of Ottawa, is in Vancouver, and will leave for the Orient at an early date on a trade mission to that country. Mr. Poussette, after four years service with the Canadian forces overseas, has taken over the work of inspecting the Canadian trade offices in Japan, China and at Vladivostok and this trip is the first to be made under the new system.

Regular Inspections. "The general policy of the Government," said Mr. Poussette, "is to bring the Canadian offices in Oriental cities up to a high standard of efficiency, and it is the intention of the Department to institute a regular system of inspection that will leave no stone unturned in the effort to promote Canada's foreign trade."

Mr. Poussette will inspect the offices in Japan, leaving Shanghai and other cities in China, and will then look over the field in Vladivostok, possibly spending some time at the celebrated Siberian port. The inspector makes no prediction of the Government's policy in Siberia but will give this great field close attention in the next few months.

### STEEL WORKERS OF STATES READY TO STRIKE ON SEPT. 22

Pittsburg, Pa., Sept. 17.—John Fitzpatrick, chairman of the national committee for organizing iron and steel workers, who arrived here today from Cleveland, told newspapermen that unless a last minute telegram was received from Elbert H. Gary, chairman of the board of the United States Steel Corporation, the strike of iron and steel workers would go into effect September 22.

### ALLIED LEADERS HAVE COMPLETED WORK ON TREATY FOR BULGARIA

Text of Pact They Must Sign Will Be Handed to Bulgarian Delegates Friday Forenoon; Britain and Ending of the Peace Conference.

Paris, Sept. 17.—The Supreme Council has definitely adopted the Bulgarian treaty, which will be delivered to the Bulgarian plenipotentiaries Friday morning.

The presentation of the document will be without ceremony. The reported desire of Great Britain to end the Peace Conference is generally believed in Conference circles to be due to Mr. Lloyd George, although the British delegates have issued a statement saying that Mr. Lloyd George does not wish to break up the Conference.

A statement issued yesterday and credited to the British saying that the Supreme Council had agreed upon a policy for the evacuation of Russia and had decided against "Russian adventures," holding that the future of Russia must be settled by the Russians, was flatly denied by M. Clemenceau and all the Ministers.

M. Viviani expressed fullest confidence in the guarantees of Great Britain and the United States that they would come to the aid of France in case of unwarranted aggression by Germany. He said: "Had I possessed such guarantees when I signed the mobilization decree in August, 1914, I should not have had to mobilize, as Germany never would have attacked."

Luxembourg, Sept. 16.—Via London, Sept. 17.—A plebiscite is to be held in the Grand Duchy of Luxembourg after the ratification of the treaty of peace. It is determined whether the form of government shall be changed, and also to determine whether the Duchy shall join France or Belgium economically.

At present the Grand Duchy is governed by a Council of fifteen members and a Chamber of Deputies of fifty-two.

The Grand Duchy, which recently applied officially to be admitted to the League of Nations, was formerly within the German customs union but such union was specifically dissolved by the treaty of peace.

Syria. Paris, Sept. 17.—The agreement reached by Premier Clemenceau and Field Marshal Allenby, concerning the occupation of Syria provides for the evacuation of all the area north of the frontier between Palestine and Syria on or before November 1 by British troops, according to newspapers here. The British will be relieved by French forces with the exception of the districts of Damascus, Hama, Hama and Aleppo, which will be left out of area of occupation but will pass under French influence, it is said.

Marshall Foch. Paris, Sept. 17.—(Havas)—Marshall Foch will be appointed vice-president of the French Supreme War Council upon its establishment, not Marshall Foch, as announced July 15, according to the Intendant.

Germany. Berlin, Sept. 16.—The Zeitung Am Tag says it is confidently expected that the German Government will accede to the demand of the Supreme Council in Paris that Germany shall submit a written agreement or protocol that Article 61 of the German constitution, relating to a union between Germany and German Austria, is not to be considered as transcending the section of the peace treaty forbidding such a union.

Dresden, Sept. 16.—Via London, Sept. 17.—(Associated Press)—Gustave Noske, Minister of Defence, in an address before the convention of the Saxon Majority Socialists, said he would oppose with the utmost means at his command any attempt to introduce the Russian system of Bolshevism into Germany.

Dr. Smith, American, Is Safe in Mexico; Ransom Was Paid

Juarez, Mex., Sept. 17.—Dr. J. W. Smith, an American physician for the Potot Mining Company at Santa Eulalia, Chihuahua, reached Chihuahua City late yesterday after having been liberated by Villa rebels, who held him for \$5,000 ransom, a message to American Consul F. A. Dow from Chihuahua City stated.

GUSTAVE NOSKE IS FIGHTING BOLSHEVISM

Dresden, Sept. 16.—Via London, Sept. 17.—(Associated Press)—Gustave Noske, Minister of Defence, in an address before the convention of the Saxon Majority Socialists, said he would oppose with the utmost means at his command any attempt to introduce the Russian system of Bolshevism into Germany.

### D'ANNUNZIO AND FOLLOWERS STILL IN CITY OF FIUME

Paris, Sept. 17.—Latest official advices report the situation at Fiume, forcibly taken possession of by Italian insurgents under Gabriele d'Annunzio, as without material change.

Of the Italian sailors who landed in Fiume, only 100 remained in the city at the last advices, the others having rejoined their ships.

It is announced, however, that Rear-Admiral Casanova, who landed yesterday in an attempt to restore order, has been "illegally detained" on shore.

Paris, Sept. 17.—The Jugo-Slav peace delegation here has issued a statement indicating that Italian regular troops are moving on Fiume.

Still Master. Geneva, Sept. 17.—Gabriele d'Annunzio is still master of "the situation" at Fiume, of which he took possession recently at the head of insurgent Italian forces, according to advices which have reached here despite the extreme rigor of the censorship.

Jeered. The British and American contingents of the city were jeered and hissed by the population as they marched to their warships, the advices state, but they embarked safely on their vessels. The Fremont contingent is said to have remained in Fiume, barricaded in its barracks.

French Comments. Paris, Sept. 17.—(Havas)—Commenting on the Fiume incident, Paris newspapers to-day declare that it points to the necessity of settling definitely the whole Adriatic question. The Echo (Concluded on page 4.)

MURDER IN 1909 IS CONFESSED AT NAPLES

Naples, Sept. 17.—The arrest here of a man named Luxemburg, thirty years old, has developed an alleged murder case in which an American girl was the victim, according to the authorities. The police say the prisoner confessed that in 1909 he eloped with a Miss Ellis, an American girl, then living in Geneva, and that shortly afterwards he murdered her.

### NO HIGHER PRICES, STATES O'CONNOR

Commerce Board Will Not Permit Foods to Be Increased

495,000 Pounds of Bacon "In Cure" in Winnipeg

Hamilton, Sept. 17.—W. F. O'Connor, vice-chairman of the Board of Commerce, announced yesterday afternoon that the Board would permit no increase in the price of any commodity, the maximum in high prices having been reached.

With reference to the milk situation in Hamilton and Toronto, where increases have been announced, Mr. O'Connor said:

"Noting that an attempt was being made by the producers—a daring procedure in the face of the law—to enhance the price of milk by agreement, I communicated with Judge Robson and Mr. Ackland, the other members of the Board, who are now in Winnipeg, and asked that an order be passed forbidding any increase in milk prices and giving me full power over the milk situation in Toronto and Hamilton.

Penalty.

"Any farmer, dairy company or vendor who advances the price of milk will now be liable to a fine of \$2,000 daily and two years' imprisonment."

Low prices have gone for ever, Mr. O'Connor thinks. "In my belief," he said, "we shall never see the same low prices we did years ago. I hope to live under new conditions. The working man must be looked after better in the future. He must receive fair and substantial wages. The reduction of prices must not be pressed so as to disenable the payment of fair wages. Our wage scales may have to go a little lower than at present, but it must be very, very little. The wage earner gets the worst of it on the upward grade; he must be the best of it on the decline."

At Winnipeg.

Winnipeg, Sept. 17.—At present there are 495,000 pounds of bacon

held "in cure" in Winnipeg by the Swift Canadian Company for the export trade, according to J. H. Tapley, the manager, when questioned regarding the effect that the release of this quantity of bacon would create on the local market. This formed a feature of yesterday afternoon's session of the Board of Commerce here, when Commissioner James Auld presided in the absence of Judge H. A. Robson, chairman, who is indisposed. Mr. Tapley stated that the release of the bacon would not reduce prices to any appreciable extent, and about the only effect would be to make the packers, slow up in the buying of hogs, the prices of which would drop.

Full Details.

The intention of the Board to take the part of the efficiency experts in its investigation into the high cost of living was apparent at yesterday's session, when it was made clear that for the whole day any will receive further attention when the Board resumes on Thursday morning.

Lengthy Examination.

A. W. Rollins, assistant manager of Gordon, Ironsides and Pares, packers, was put through a lengthy technical examination regarding the cost of every process of the business of turning live hogs into hams and bacon.

Harry Whitt, K.C., representing the Dominion Government, announced that the auditor's report of the packing firm for the past year would be produced.

A feature of Mr. Rollins' testimony was the statement that the price received for pork shipped to Great Britain was 204 shillings per hundred pounds. He could not say how this compared with prices for the same grade of pork locally, as there was virtually no Canadian market for pork prepared in the manner used for export.

An Explanation.

A. T. McLean, of the Canadian Packers Ltd., explained his statement of Monday that in shipping his products to other branches of his firm he charged them a profit, and they charged another. The Winnipeg profit he declared, was only one-fourth of one per cent, the usual brokerage charge, while the eastern department sold the goods at the prevailing market price, so that the spread between cost to him and selling price to the local market was no more than if he sold the goods at market price.

"No Money."

Mr. Auld inquired if a limited embargo on exports east would not have a good effect if a shortage were threatened. The witness thought the creameries would go out of business.

"They tell us they don't make any money, anyhow," he said.

Mr. Auld: "We are having an inquiry elsewhere into the business of creameries. It is the same old story all around: the farmers don't make any money; the creameries don't make money; you don't make money; nobody's making money."

Hog Prices.

J. H. Tapley stated that the prices paid for the hogs purchased by the Winnipeg branch of the Swift Canadian Company during the last eight months were:

January, \$16.54 a cwt.; February, \$16.54; March, \$17; April, \$17.25; May, \$20.51; June, \$20.41; July, \$22.18; August, \$21.05. These were the average prices. The high price paid in August was, he thought, \$23.50 to \$24. He was asked to prepare a day-to-day statement showing purchases and prices since January.

Regarding the firm's egg trade, Mr. Tapley stated that eggs were bought at the result of quotations sent out by the firm to the various dealers in the country. About seventy per cent was acquired in this way. They came in by express, and the shipper paid the express.

About twenty-five per cent was obtained from city brokers, and some were got from wholesale grocers.

Candling eggs cost the firm about seventy-five cents a case of thirty dozens.

Average of Eggs.

The average cost of eggs in storage this season was 50.2 cents a dozen. A question put by Mr. Whitt brought out the information from Mr. Tapley that the eggs were bought on the straight receipts and not the loss-of-basis, and the firm was compelled to bear any damage or shortage.

About the time of the strike here 1,408 cases of eggs were shipped to Montreal, 440 to Montreal and 800 to Fort William. He did not think that any eggs had been shipped east since the time of the strike. In 1918 the firm shipped thirty-eight cars to points east and west. Some twenty-four cars were shipped to the company's houses in Toronto and Montreal, and to that extent the Winnipeg branch had acted as an agent. Mr. Tapley was asked to bring in a statement of eggs that might have been shipped to the United States from January, 1918, to date with details of price freight, duty, exchange, etc.

### PREPARING FOR FAIR AT DUNCAN

## USED ORGANS

from \$40.00

We have a number of used Organs in first class condition. Every one a snap.

### Heintzman & Co., Ltd.

Gideon Hicks, Mgr.

Opp. Post Office. Phone 1341

Duncan, Sept. 17.—Preparations for the coming Fall Fair here are well forward. In the cattle classes Teresia and Hostenius will have the largest entries. G. T. Corfield alone having made thirty-two entries in these two classes. Among other exhibitors are: C. J. V. Paterson and H. W. Bevan. There will be a good exhibit of Ayrshires and Great Leicesters of the show.

Among the classes of pigs will be stock shown by G. T. Corfield, C. J. V. Spratt and Crossland Brothers, Yorkshires and Berkshires taking the lead.

Sheep.

The largest entries of sheep are in the Oxford and Southdown classes. E. W. Patison's recently imported Oxford Downs will be entered.

Goats will be a new feature of the show. Several persons have sent in entries, one exhibitor having entered fifteen goats.

Entries in the rabbit classes are good, and in the poultry there will be very large entries in the Leghorn and Wyandotte classes.

Baby Contest.

The Better Baby contest is limited to forty babies owing to the limited time, but there is still room for a few mothers to enter their babies.

The Judges of the fruit and vegetables will be R. C. Abbott, Vancouver, and J. A. Turner, for the horses, J. A. Turner, for the sheep, W. T. Macdonald, for the British Columbia sheep and pigs, E. Buss, Victoria, poultry, H. E. Upton, dairy produce, H. Rive and T. F. Todd, needwork, Mrs. Abbott, Victoria.

Judges have expressed a willingness to demonstrate to exhibitors and others the points upon which their decisions will be made.

On Friday evening there will be an open air concert arranged by the Dick Lee Vaudeville Company from Victoria. On Saturday afternoon there will be riding contests and miscellaneous sports, and on Saturday evening the whole exhibition will wind up with a dance.

The Secretary, W. Waldon, is putting forth a tremendous amount of labor in making arrangements for the show, and with the generous help that will be given by members of the committees the show will be one of the best.

To College.

F. Price, son of F. H. Price, of the Tsoualem Hotel, will leave within a few days to enter the Washington University at St. Louis, Mo., to study electrical and chemical engineering. G. E. Elkington left a few days ago to enter McGill.

Girl Guides.

The Girl Guides' committee has decided to hold a progressive auction bridge drive on October 8.

The uniforms have arrived and the girls will begin their inspection on September 25.

### Weak, Sickly Folks Regain Health Quickly By New Remedy!

#### A BLOOD-FOOD NOW MANUFACTURED THAT ACCOMPLISHES MARVELS.

Lots of people that were thin and miserable for years have recently regained their health by using this treatment. All you have to do is take two little chocolate-coated tablets with a sip of water at the close of each meal.

The tablets, which, by the way, are called "Ferrozone," are in reality a perfect food for the blood. They contain exactly those elements your blood lacks when it becomes thin, weak and unhealthy.

This is just the time to use Ferrozone; it excites splendid appetite, gives digestion splendid aid, supplies nourishment for all weak organs. At once you feel buoyant and strong. Nutritious blood courses through your veins, supplies strength, makes you tingle with animation and ambition.

No more headaches.

None of that tired languor.

You feel like doing things because Ferrozone completely renews and strengthens your whole system.

No medicine on earth gives such quick, lasting benefits as Ferrozone. It has raised thousands from downright weakness, brings robust health simply because it contains the fortifying elements that run-down systems require.

One week after using Ferrozone you'll feel like new, you'll appreciate what real robust health means. In a month you'll scarcely credit the push your vigor and spirits have received. Ferrozone is more than a tonic because its work lasts, its benefits remain and are not temporary. It restores health where other treatments fail, and should be used by every man, woman and child. Try it, 50c per box or six boxes for \$2.50. Sold by all dealers or by mail from The Cattarhosone Co., Kingston, Ontario.

### VISCOUNT ALLENBY WELCOMED IN LONDON

London, Sept. 17.—Field-Marshal Viscount Allenby, commander of the Allied forces in Asia Minor, who headed the British expedition in Palestine arrived in London yesterday afternoon. He was accorded a most enthusiastic reception.

PRAIRIE FLIGHT.

Winnipeg, Sept. 17.—Making an aeroplane flight from Saskatoon in a little more than five hours' actual flying time, Lieuts. H. Robb and A. H. Rowe arrived here. Stops were made at Humboldt, Kamask and Dauphin for gasoline. Lieut. Robb yesterday announced that a non-stop flight from Winnipeg to Saskatoon will next be attempted—probably this week if the weather conditions are favorable. An auxiliary gasoline tank with a capacity of thirty gallons will be carried.

### HOURS OF LABOR SUBJECT OF DEBATE

#### Forty-four Hour Week Discussed at Ottawa Conference

No Decision on Motion Reached Before Adjournment Came

Ottawa, Sept. 17.—The threat of direct action to force legislation making the eight-hour day and forty-four-hour week compulsory throughout Canada, which came from more than one source, served to live up yesterday afternoon's session of the Industrial Relations Conference here. The question of shorter hours of labor in the industries of the Dominion was the bone of contention, during almost the entire afternoon, and the respective views of capital and labor on the subject were fully presented.

Capital objected to the reduction of hours of labor, claiming such a reduction would reduce the output of factories and workshops.

"There is nothing that will decrease production so much as a strike of a major or more in duration," countered James Winnie, one of the leaders in the recent Winnipeg strike, "and that is what may come."

Industrial peace, in the opinion of Mr. Winnie, and also of other labor speakers, is at present somewhat of a delusion in Canada. "Not far below the surface there was said to be a smouldering volcano of unrest which might burst forth at any moment, and unless the question of the eight-hour day and forty-four-hour week were settled at this conference it would be the chief issue in a strike within a very short period, it was claimed.

M. P. White, a Toronto manufacturer, thought labor wanted the basic eight-hour day that it might benefit by overtime at a premium wage, and other speakers of the employers held that the time was not ripe for this sort of legislation.

Labor speakers, including one woman delegate, Miss H. G. Gutteridge, of Vancouver, parried that the time was never ripe for labor legislation for those who opposed it, and that the workers wanted something better than to eat, sleep and work.

The recommendation in favor of shorter hours was still before the Conference when adjournment was reached, and Senator G. D. Robertson, Minister of Labor and chairman of the Conference, warned the delegates that there must be more speed in order to finish with the problem by Saturday. This was only the second resolution of the afternoon.

Labor Legislation.

J. R. Shaw, of Woodstock, of the employers' group, expressed grave doubt as to the feasibility of co-ordinating the labor legislation of all the Provincial Governments and the Federal Government. He had been chairman for a number of years of the executive committee of the Canadian Manufacturers' Association and he knew how difficult this work of co-ordination was. It had taken years and years to draft a bankruptcy measure which would apply to the whole Dominion.

In general, he said, it would be necessary to consider the relation of the co-ordination proposal to the principal of local self-government and to what extent the governments of the various provinces would be willing to fall into line with the scheme.

For Whole Dominion.

Tom Moore, president of the Dominion Trades and Labor Congress, thought the feeling was growing that even the British North America Act should be modified if such modification would be for the benefit of the people of Canada. He did not think that the provinces wished to maintain their prestige at the expense of the country at large. If it was possible for the Government to make laws for the conservation of livestock and agriculture applicable to the whole Dominion why not for the benefit of the workers?

The new Dominion Health Act applied to the whole Dominion and the country-wide system of employment capital, labor and representatives of the provinces would get together and try to bring about unity, great benefit should accrue.

Not Time Yet.

Munro Grant, of Toronto, thought that the time for discussing the matter was not ripe. It should come after other subjects on the order paper had been considered. There was a fundamental difference between the representatives on either side as to the value of co-ordination, but some standard to work toward should be laid down. Provincial rights must be respected.

James Simpson, of Toronto, expressed the view that differentiation

### MAKE YOUR PLACE OF BUSINESS ATTRACTIVE

Now is the time to go over your lighting fixtures and discard all blackened and burned-out lamps, replacing them with GENUINE "LACO" TUNGSTEN AND NITROGEN LAMPS. We carry a full line of these lamps.

The benefit of our experience in lighting matters is freely at your disposal. Let us know your requirements.

**HOURS OF LABOR**  
SUBJECT OF DEBATE

(Continued from page 2.)

"I think of the men who have been damned into the world—instead of born," said Colonel Carnegie. Conditions had changed in twenty-five years, but the need for the human touch in labor. Production under the nine and a half and ten-hour day was no more than with the eight-hour day, said Colonel Carnegie, and he referred to the statements of Mr. Lloyd George, in the British House of Commons on this question.

**Miss Gutteridge.**  
The first woman to address the conference, Miss Helen Gutteridge, of Vancouver, replied to what she called "the very, very pessimistic note which ran through Mr. White's discourse."  
The eight-hour day was not being asked as the ideal of labor, said Miss Gutteridge, but it was a compromise between the ideas of Canadian manufacturers and labor. Canadian workers realized their duty in reconstruction and in bearing the burden of the war debt.

The East was hampered by old customs and ideas and might find it hard to take up the eight-hour plan, but it would be for the benefit of labor in general.

**Changed Conditions.**  
Mr. White contended that output would be reduced twelve per cent, by the reduction in the hours of work was taken up by Miss Gutteridge, who reminded him that we were now in 1919, while his figures were for 1917. Those who had then been producing sinews of war were now able to produce necessities of life and the matter of reduction in output would be equalized.

"If you have unhealthy workers, you are going to lose in production," said Miss Gutteridge. "Frustrated and unhealthy workers, both men and women, can not produce to the limit of their capacity and the best asset of any country is its healthy workers."

**Confidence.**  
Hon. J. E. Davis, of Newmarket, Ont., referred to the need of confidence and co-operation, without which no good results would accrue from the Conference. This was not the proper time to pass legislation on labor matters, said Mr. Davis. Business was not on a normal basis, and there had been a decrease in wages and shortening of hours in the past few years.

**Woodward Spoke.**  
Ottawa, Sept. 17.—During the debate yesterday on the eight-hour day and 44-hour week at the National Industrial Conference here, E. S. Woodward, Victoria, B. C., urged consideration of the economic aspects of the problem. The poor were bearing the burdens of peace as they had done in war and the Government should have conscripted wealth as it did life.

E. M. Trower, secretary of the Retail Merchants' Association of Canada, said that he wished to be left out of any 44-hour week legislation. Early closing by-laws already had protected the retail clerks and legislation to cover every class of the workers could not be contained in one bill.

W. R. Trotter, of Vancouver, declared labor was tired of pessimistic speeches whenever it sought improved conditions. Reduction of hours in the printing trades had proved a splendid move.

**Against Legislation.**  
E. G. Henderson, of the Canadian Salt Company, was in favor of an eight-hour day, but utterly opposed to any legislation which would make it compulsory.

Hon. C. A. Dunning, of Saskatchewan, pleaded that the needs of agriculture in regard to labor be considered. The labor problem was of vital importance to the farmers, and he asked the delegates for advice on the questions at issue.

James Winning, of Winnipeg, hoped the Conference would result in something better than just talk. The eight-hour day was necessary, and must come in industries where it was practicable. Where it was not so the demand would not be pressed. The arguments against reduction of working hours had not changed in several decades, but the worker and employers must get down to a basis of unity. The rumblings of the demand for an eight-hour day could not be denied or ignored.

**Committees.**  
Among the committees appointed were the following:  
Consideration of recommendations of the Royal Commission on Industrial Relations that the findings of the Commission be put into effect on all works controlled by the Government where the principles of democratic management can be applied:

Employers—P. O. Miller, Montreal; J. S. McKinnon, Toronto; J. H. Ashdown, Winnipeg; spare, E. C. Knight, Vancouver.  
Labor—Gus Franco, E. S. Woodward and J. Lockwood; spare, J. Sexton.

Third group—Sir John Willison, Toronto; Arthur Roberts, K. C., Bridgewater, N. S.  
Consideration of resolutions relating to any other features of the report of the Royal Commission on Industrial Relations:

Employers—Hon. E. J. Davies, Newmarket; E. G. Henderson, Windsor; W. J. Hulman, Winnipeg; spare, J. E. Davies, Medicine Hat.  
Labor—F. Grierson, Ottawa; J. A. Ellis and A. R. Mosher; spares, W. G. Powles and Lou Braithwaite.

Third group—R. E. Grant, Toronto; Major T. D. Bouchard, St. Hyacinthe.  
Consideration of any other proposals which may be introduced bearing on the relations of employers and employees:

Employers—Hugh Blain, Toronto; T. R. Deacon, Winnipeg; and A. Maclean, Bathurst, N. B.; spare, P. W. Ellis, Toronto.  
Labor—J. Foster, James Marsh and G. Smith; spares, Major McInnes and J. A. Rousseau.

Third group—C. G. Macneil, Ottawa, and Professor H. A. Mackay, Montreal.  
Senator Robertson suggested that as the committees would be dealing with legislation needed, the committee should advise the proposal of officials in attendance at the Conference where they were meeting.

**BRIDES TO CANADA.**  
New York, Sept. 17.—The White Star steamship Celtic arrived here to-day with 373 cabin passengers on board, including forty-nine Canadian army officers and their wives, most of whom are war brides.  
Lieut.-Colonel Seymour Bullock, of Ottawa, organizer of the American Legion of the Canadian Expeditionary Force was with the Canadian officers.

**SHE BELIEVES IT**  
**SAVED HER LIFE**

Winnipeg Woman's Recovery by Taking Tanlac Surprise All Her Friends

"My wonderful recovery has been a surprise to all who knew of my dreadful condition," said Mrs. Amelia Hooley, of 843 Fleet Avenue, Fort Rouge, Winnipeg, Canada, recently, in one of the most interesting and remarkable statements yet published in connection with Tanlac.

"My system had been badly run down for several years," continued Mrs. Hooley, "and although everything was done for me that could be done for a person I got worse instead of better. I had begun to think Tanlac was going to fail me, too, as I could not see much improvement, if any, until I started on my third bottle. At one time I thought of giving it up, but if I had it would have been the mistake of my life; for, really and truly, it has made a new person of me. My stomach was in the worst kind of fix and my appetite left me entirely. Nothing tasted good and even the most delicate and tempting foods did not appeal to me. What little I did eat soured on my stomach and the gas from it would blow me up and make me miserable. Then I contracted rheumatism in my left leg, which finally affected my whole side, and it was as much as I could do to get around. In fact, I was right down in bed for six weeks, hardly able to move. This leg would pain me so, especially at night, that I couldn't lie still. There was also a terrible pain that started in my right shoulder and went up the back of my neck clean to the top of my head. This pain was so severe at times I thought I would go distracted, and I have used mustard and the strongest kind of liniments until I actually burned the skin off trying to get relief. I would lie awake night after night just suffering agony, never getting a wink of sleep. I would get up morning after morning like a work, unable to sew or do my housework, and would get so weak I would almost faint and feel like I was dying. I would have dizzy spells when I could hardly stand up, and these left me so weak and faint that I feared my heart was going to stop beating."

"Last year all arrangements were made to put my children in a convent, as I had been given up to die. My nerves were in such a shattered condition that I couldn't stand the slightest noise. Even the children playing around would almost make me frantic. I had fallen off in weight until I was scarcely more than a frame of skin and bones. At the time I began taking Tanlac I only weighed ninety-three pounds and my condition was really alarming. My husband told me to stick to Tanlac until I had given it a fair trial, and while I was taking my third bottle I commenced to get relief. I have used five bottles now and my improvement has been nothing less than wonderful. A few days ago I went to visit a friend, and she had so much to say about how well I looked that I asked her if I had really been very sick, and she said she never had any idea I would live. I have not only gotten relief from all my suffering, but I have actually gained twelve pounds in weight besides, and I am just so happy and grateful over my recovery that I want to tell everybody about Tanlac."

Tanlac is sold in Victoria by D. E. Campbell, corner Fort and Douglas Avenues.

**LOYD GEORGE SAYS BULLITT WAS WRONG**  
London, Sept. 17.—The Press Association last night issued the following apparently authorized statement from Downing Street, where Premier Lloyd George is staying: "William Bullitt's statements appear to be a garbled account of a private conversation with Mr. Lloyd George at a breakfast after Mr. Bullitt's return from Russia, together with a mixture of conversations with other people."  
"In the opinion of the Premier some of the statements were so ridiculous as to carry their own refutation on the face of them, as, for example, the suggestion of an intention to send Lord Lansdowne to Russia as Ambassador."  
"But apart from examples of this kind, the suggestion is that the narrator's memory was hopelessly at fault. While it is not suggested that Mr. Bullitt did not talk with the Premier, it is categorically denied that any statements were given for publication, and the whole account is declared to be absolutely inaccurate in important aspects and grotesque."

**SOCIALISM FAILING, DECLARES HOOVER**  
New York, Sept. 17.—Two dominant conclusions in the mind of Herbert Hoover after his five years' service abroad are that Socialism is bankrupting itself and that the United States must not abandon its moral leadership in restoring order in the world, or to permit itself to be used for experiment in social diseases.  
In an address at a dinner last night of the American Institute of Mining and Metallurgical Engineers, at which he was the guest of honor, he declared that the philosophy of Lenin and Trotsky was destroying itself, from a startling quarter, in the extraordinary lowering of productivity.

**WILL NOT RESIGN.**  
Ottawa, Sept. 17.—Official denial is given to the published story to the effect that Hon. C. C. Ballantyne contemplated resigning from the Government. Mr. Ballantyne recently left the hospital where he was a patient, but found he was not improving as rapidly as could be wished and has returned to the hospital for treatment.

She—"And how is your bachelor friend?"  
He—"When I saw him last he was mending slowly."  
She—"Indeed, I didn't know he had been ill."  
He—"He hasn't been, he was sewing some buttons on his clothes."

**HOLEPROOF HOSIERY** *Angus Campbell & Co. Ltd.* **VENUS SILK HOSIERY**  
Store Hours—9 a.m. to 6 p.m.  
Wednesday, 1 p.m.

**These New Fall Coats for Women**  
**Are Ultra Attractive**

To be careful and sure is the definite aim of this store in bringing its customers authentic modes of a new season. And just as sure of direction is its policy of keeping up quality standards during present-day difficulties in obtaining the dependable merchandise you associate with this store.

**Handsome Coats of Velour and Silvertone**

The "illusion of softness" given by the newer coat materials is one of Dame Fashion's latest ideas. They have the novelty of combining the smoothness of a suede-like finish with the soft velvet-like pile of velours and silvertones. These coats are so attractive all by themselves that no trimmings other than a collar of fur and buttons are used. Their full, graceful lines are generally belted across the front. Priced at \$45.00 to ..... \$135.00

**Beautiful Broadcloth Coats**

The lavish use of fur for trimming is a distinguishing feature of many of these rich Broadcloth Coats now being displayed in the Women's Coat Section. They are lined with handsome fancy silk materials. They are exclusive in style and come in this season's most favored colorings.

**Rich Black Plush Coats Plain and Fur Trimmed**

When becoming fur collars and bands of fur adorn so many of these handsome Plush Coats, one has all that could be desired in style and comfort. This alone affords another good reason for deciding on the absolute necessity of selecting one's new coat this week end. Prices range \$45.00 to ... \$175.00

**Announcing the Arrival of a New Shipment of "Holeproof" Silk Hosiery**

Hosiery plays a more conspicuous part in your looks than many a larger and more costly item of dress. "Holeproof Hosiery" is made with this idea in mind. Wonderfully fine and soft in texture, shimmering and closely woven. Yet many days of wear in every pair without mending. Buy Holeproof Hosiery and you need buy but seldom—that's why their cost per year is low.

In black, white and all the wanted shades at, per pair, \$2.00.

**PRAIRIE MENNONITES TO BE PROSECUTED**

Swift Current, Sept. 17.—Prosecution will shortly be started against a number of Mennonites in the Alphio and Flora school districts for refusing to send their children to these new schools erected at the instance of the Saskatchewan Department of Education.  
With the new schools opened several weeks ago, Flora district has so far contributed no pupils, while the teachers at Alphio is called upon to instruct but three children.

**Millinery Opening**  
To-morrow, Friday and Saturday  
Presenting the New Modes in Autumn and Winter Millinery.  
This is to be a season of fetes and entertaining, and proper Millinery will express the spirit of gaiety.  
We are prepared in a broad and comprehensive way to show you a wide variety of FRENCH MODELS which have been designed and treated with a careful regard for our standard of excellence.  
No words can adequately describe these most charming and distinguished looking creations. They are beyond question examples of beautiful millinery in its highest and most attractive form. Every discriminating woman will instantly appreciate the unique charm of these exquisite French Models. They are quite reasonably priced for such super-quality of materials and workmanship.  
May we expect a visit from you on this occasion?  
**The South African Plume Shop**  
753 Yates Street. Phone 2818

**OPINIONS DIFFER ON GRATUITY PLAN**  
Hamilton, Ont., Sept. 16.—Officers of the Great War Veterans' Association here think the Toronto Gratuity League is doing more harm than good to the cause of the veterans in advocating a \$2,000 gratuity.  
"The Toronto Gratuity League is certainly interfering with Canada," said Secretary Fitzgerald, of the East Hamilton branch.  
The secretary of the central branch, F. W. Tresham, said his

opinion of the Toronto League would not look well in print.  
**QUEBEC WOMEN URGED TO VOTE**  
Quebec, Sept. 16.—In all the parish churches of the electoral division of Quebec East on Sunday the women were urged to vote in the coming by-election. They were told it was their duty to have their names placed on the electoral lists in order that they might exercise the right of franchise given them by a Federal law.

**VANCOUVER SIDE SHOW WAS "DISGRACEFUL"**  
Vancouver, Sept. 17.—Charging that one of the side shows at the recent exhibition was "both immoral and disgraceful" and that the gambling devices on the skidroad were a sub-committee of the civic bureau of the Board of Trade submitted its report to the bureau at a meeting yesterday afternoon. The report was adopted and ordered sent to the full Board.

**Mothers' Advice**  
The responsibility for a daughter's future largely rests with the mother. The right influence and the information which is of vital interest to the daughter imparted at the proper time has not only saved the life but insured the success of many a beautiful girl. When a girl's thoughts become sluggish with headaches, dizziness, or a disposition to sleep, pains in back or lower limbs and a desire for solitude, her mother should come to her aid and remember that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, will at this time prepare the system for the coming change and start this trying period in a young girl's life without pain or irregularities. Thousands of women residing in every part of the United States bear willing testimony to the wonderful virtues of this medicine, and what it has done for their daughters.  
Brooklyn, N. Y.—"I cannot praise Lydia E. Pinkham's Vegetable Compound enough for what it has done for my daughter. She was 15 years of age, very sickly and pale and she had to stay home from school most of the time. She suffered agonies from backache and dizziness and was without appetite. For 3 months she was under the doctor's care and got no better, always complaining about her back and side aching so I did not know what to do. I read in the papers about your wonderful medicine so I made up my mind to try it. She has taken five bottles of Lydia E. Pinkham's Vegetable Compound and doesn't complain any more with her back and side aching. She has gained in weight and feels much better. I recommend Lydia E. Pinkham's Vegetable Compound to all mothers and daughters."—Mrs. M. FURON, 516 Marcy Avenue, Brooklyn, N. Y.  
**Lydia E. Pinkham's Vegetable Compound**

## REGISTRATION.

Registration for the Dominion voters' list is said to be proceeding so slowly as to be quite alarming. As usual this condition is ascribed to the "apathy" of the public. The truth is it ought to be attributed to the nature of the arrangements required by the Act, particularly in the distribution of the registration stations. There should have been but one registration station for each ward with a staff large enough to attend to all the applications that might be expected. Even in elections there formerly was but one polling station for each ward and, although voting was limited to one day, this arrangement always was found to be quite adequate. If provision had been made in the present instance for a centrally-located and well-known station in each ward for registration a much larger response from the public would have been assured.

Notwithstanding these conditions, however, electors should register. Otherwise they will have no opportunity of voting in the coming Federal bye-elections. There is no other way of getting on the voters' list, and there are only three more days in which this means of qualifying will be open to them. And they should register at once, for by putting it off they are only adding to their own inconvenience.

## D'ANNUNZIO'S COUP.

Major Gabriele D'Annunzio's coup at Fiume may create a grave domestic situation for Italy. It necessarily must be resisted by the Italian Government, for the question involving the status of Fiume has not been disposed of, and in that aspect, therefore, it is a potential revolution. D'Annunzio appears to have been at the head of a considerable force of soldiers, for it was impossible for the Government to take adequate measures to prevent him entering Fiume and proclaiming the unity of the place with Italy.

D'Annunzio's proclamation, of course, means nothing, but what effect his dramatic action will have upon Italy's internal situation will depend upon the measure in which it is approved or supported by the Italian people. Their attitude to the general question is well known, and it is also well known that D'Annunzio, who is Italy's foremost poet and in the war became an able, daring officer of the Italian air service, is very much a national hero. At this stage the matter is essentially an Italian one, but if the present Government should fall on account of it, and the D'Annunzio faction retain control of Fiume, it would assume a complicated international aspect.

## REMOVE THE DUTY.

During the sittings of the Board of Commerce in Winnipeg, Judge Robson, the chairman, intimated that the Government may be asked to abolish the duty of three cents a pound on bacon. Three cents a pound is a small item in the ultimate cost of this product to the consumer, but "every little bit helps." Besides, it is notorious that the public invariably pays much more than the duty on protected articles.

But why should there be a duty on bacon, anyway? The packing industry in Canada is no infant. Indeed, it is such a healthy adult that it is operating extensively and profitably in the export markets of the world. In fact, tariff restrictions should be removed from all food products and the task of the Board of Commerce might be very much simplified if it recommended that this be done and the Government adopted the recommendation.

## THE CONSERVATIVES' DILEMMA.

Notwithstanding the fact that a Coalitionist was elected by a majority of nearly 6,000 at the last election the Conservatives in the Rusholme division of Manchester are hesitating to label their chosen candidate. It is not yet known whether Capt. J. H. Thorpe will contest the seat under a Coalitionist or a Conservative standard. William Pringle is in the field as an out-and-out Liberal-anti-Coalitionist and a Mr. Dunston has offered himself as a Laborite.

In connection with the latter's candidature, however, there appears to be a division of opinion as to the wisdom of Labor's choice. The Manchester Guardian, the foremost Provincial Liberal newspaper, suggests that Dunston withdraw because "he belongs to the new group of intellectuals and has no more direct knowledge and experience of labor conditions than any other member of the middle class whose sympathies lie in that direction." Hence a three-cornered contest would split the Liberal and Labor vote, in all probability present the seat to Captain Thorpe, and reverse the verdict expressed at Widnes as far as parliamentary representation is concerned.

Obviously the pendulum will continue to swing against the Government, but only by the more or less straight party fight can a general demand for an appeal to the country be pressed with effect. It would be a courageous Liberal Coalitionist, for instance, who would enter the field against his former confere who has remained under the Asquith wing. The Coalitionist aspirant from now on undoubtedly will be fourth-fifths a Conservative—one-fifth being retained to beat the Unionist drum which sent him to Westminster shortly after the armistice.

The day is drawing near when Premier Lloyd George or ex-Premier Asquith—or both—will make a political announcement of considerable

moment to the public life of Great Britain. The Widnes election rang up the curtain on an interesting political drama.

## GETTING TOO BIG.

According to a well-known British shipping authority the 1,000-foot Atlantic super-liner cannot be regarded as an economic success. While possible from an engineering standpoint, Mr. Charles F. Torrey, chairman of the Atlantic Transport and Leyland lines, declares that experience has proved that huge passenger liners cannot operate profitably. There may be a certain class of people always ready to pay to get in the way of "the biggest yet"; but this is a stratum of society which is much in the minority. The average individual has a limited purse and, after all, he really constitutes the greater proportion of the travelling public. It is for him that the big enterprises in everything will have to cater henceforward. The demand for the sensational will be limited to the few. If a vote could be taken of the regular trans-Atlantic and trans-Pacific voyagers it probably would be found that the majority would vote solidly for the 20,000-ton boat, replete with all the comforts and advantages of modern travel, against the larger vessels.

## ALWAYS THE OTHER FELLOW.

The House of Commons at Ottawa is on record against the bestowal of titles on residents of Canada, and it is not possible, therefore, to recommend this form of recognition for that noble band of Canadians whose evidence before the Board of Commerce goes to show the extent of their public benefactions.

Acting Chief Commissioner Auld observed to a witness yesterday that it was the "same old story. The farmers are not making any money, the creameries are not making any money, you (referring to the witness) are not making any money, nobody is making any money." Hence, for nearly five years the people of Canada have failed to recognize the true patriot. What has been regarded as profiteering must have been all a mistake; food, and a few other things, just had to cost more. Nobody is to blame.

It will now be in order to submit suggestions to Parliament for a suitable form of recognition to members of the "big five" and other philanthropists whose purses have been emptied by the needs of an ungrateful people.

## WHAT MAY COME.

In one of his sensational articles on naval developments Lord Fisher declares that "air fighting possesses possibilities of sinking all manner of surface ships so effectually that submersible vessels will be a necessity." "To navigate submersible craft," he added, "you must have internal combustion engines and oil."

The Fisher vision evidently is as powerful as ever. Two of the outstanding features of the war were the developments in aerial and submarine navigation, and Lord Fisher sees in these such possibilities as should call a halt on naval construction which ignores the lessons they teach. If developments in aircraft and aerial navigation during the next few years shall reach such a stage as to destroy the value of fighting ships on the surface of the water, they will not be any more astonishing than they have been during the last five years. Likewise, if the developments in submersibles and submarine navigation in the next five or ten years shall reach the point where submersible warships will take the place of surface ships, they will not be much more startling than the developments in underwater navigation have been in the last five years. Before the armistice was signed Great Britain had a submersible carrying a 12-inch gun.

Cable dispatches say that Lord Fisher's views are widely shared in the United Kingdom, and it is significant that while the construction of surface ships has been stopped by the British Government aerial and, we may be sure, submarine development is being encouraged. Much can be done in airship and submersible construction for the price of one dreadnought. Hence, if Lord Fisher's prophecy be fulfilled Great Britain will both have provided the means of her protection and met the imperative demand for economy which furnishes the key to all policy at this time involving the expenditure of public money. To persist in building dreadnoughts when their utility is so seriously questioned, the financial condition of the country so grave and when there is no conceivable enemy in sight, would be suicidal.

## BEGINNING AT HOME.

Premier Lloyd George talks in a language all can understand when he says that the state must set an example of economy and that it must begin at once. The British Premier declares that the general opinion of government is molded by external signs and that the people form their estimate of the character of the administration by what they see happening about them. He gives as an illustration the complaint regarding the excessive use of motor cars by government officials and others and cites the result of an enquiry into this alleged abuse. It was learned that a large number of motors could be dispensed with without injuring the efficacy of the government service. He goes on:

"The time has come when each minister ought to make it clear to those under his control that if they cannot reduce expenditure they ought to get out of the way and make room for someone who can. That is the public temper, and it is right. "Everything in excess must be ruthlessly cut down. In the interests of economy we must be willing to content ourselves with the second best where the best is too costly. Ministers cannot, until things are put right, hope to enjoy anything like vacations to where they were accustomed in pre-war days."

This has the right ring. The truth of the Premier's remarks seems to have escaped even our cleverest politicians, but it is undoubted that the people are more likely to judge an administration by its visible signs of extravagance than by any other standard. That may not be flattering to public intelligence, but politicians know that extravagances of this sort have killed governments, while others which have indulged in far greater expenditures indirectly have survived. The average voter is human and resents the situation. There should be some food for thought in the remarks of the British Premier for those who are at present entrusted with administration in the Dominion. With the present high cost of living ostentatious spending by Government is as likely to arouse public resentment as vulgar displays in the same way by the latest munition maker's

## NOT TO BE CONSIDERED \$2,000 GRATUITY

Doherty Tells Commons Committee Will Not Take Matter Up

Large Number of Members Expressed Views During Debate

Ottawa, Sept. 17.—The proposal put forth by returned soldiers that a gratuity of \$2,000 shall be paid to every man who served at the front, and that \$1,500 and \$1,000 shall be given to those who served in the United Kingdom and Canada respectively, will not be considered by the Government.

Hon. C. J. Doherty, Minister of Justice, speaking in the House last night, stated that the parliamentary committee which will be appointed to deal with the new soldiers' civil re-establishment bill will not take up this matter. He stated that the proposal that every returned soldier, regardless of his financial situation, should be paid the gratuity is not in the interests of the country or of the men themselves.

Mr. Doherty's statement came after a large number of members had expressed their views on the matter in a debate precipitated by Colonel John A. Currie (North Simcoe) on a motion to adjourn the House in order to discuss the question of gratuities. The Minister of Justice declared that the Government had given every opportunity to representatives of the soldiers to state their views and had given them every courtesy. "There was no slamming of doors in the faces of any soldier," he said. The Government, after giving every consideration to the proposal, had decided it was not feasible, and had stated its decision frankly. So far as the appointment of a Royal Commission was concerned, Mr. Doherty stated that the Government could not see what good end could be served by such action.

Replying to a question asked by Major D. L. Redman (Calgary East), as to whether the Government would consider making monthly payments to soldiers, the Minister of Justice said that any matter which came under the head of soldiers' civil re-establishment would be considered by the committee.

In a preceding debate, Mr. Doherty said there was no fixed indemnity which Canada was to receive from Germany. The Allied nations were submitting statements of the losses suffered by their civilian populations, pensions and allowances to soldiers and dependents, and Canada would receive her share of whatever the Reparations Commission should decide Germany was to pay.

In regard to finding work for returned soldiers, the record showed that 18,000 had been placed in the public service recently they were being engaged at the rate of forty to fifty daily.

Land. Col. Currie expressed surprise that apparently there was no land available for settlement in the West. He intended to go West and see where "lost lands" were, for it had been said that there were thousands of acres available. Under the present scheme of land settlement, every one of the soldiers who wanted a homestead. There would be rent and back rent.

"We are going to have another Ireland in this country," he said, "if you go on in this way. Something must be done to relieve the burden on their shoulders."

Mr. McKenzie. D. D. McKenzie, Acting Leader of the Opposition, charged that Mr. Doherty and Mr. Rowell had deceived the returned soldiers and the public. The matter has to do with the veterans' fund which the House Committee, and now the Minister of Justice qualified that statement to a great extent and said they would only hear the men had been living in a fool's paradise, and the member for Calgary had withdrawn his motion for a Royal Commission only to find that the committee was not to cover the ground he had expected it to.

He charged Mr. Rowell with making statements with a double meaning, and asked if it was a plan to silence the members for Calgary and Fort William, at the same time making sure that no evidence of the veterans' should be taken by that committee.

Mr. Rowell. Hon. N. W. Rowell, replying to Mr. McKenzie, said that the latter had misunderstood his statements. The bill in question, on reaching second reading, would be referred to a special committee of the House, which would also have all Orders-in-Council and all matters connected with the re-establishment of soldiers before it. That committee had the power to hear any representations made to it by persons interested, and the veterans would be among them.

Mr. Fielding. Hon. W. Fielding said he had needed change in the Government's attitude, for while the Government had refused to appoint a Royal Commission it had promised a committee of the House to the veterans. The officials of the Great War Veterans' Association were satisfied and Mr. Fielding saw no reason to find fault with their acceptance of the change.

A Prophecy. Colonel Currie, in discussing the debate before adjournment at one o'clock said the discussion showed that the Government would do nothing for the returned men in the line of an indemnity. He prophesied, however, that before the session was over a committee to consider the whole question would be appointed. The discussion had served its purpose and he withdrew his motion.

Apart from Colonel Currie, the proposal that all returned soldiers should receive an additional gratuity of \$2,000 did not receive much support from returned fighting men who are members of the House of Commons.

\$700,000,000. Captain R. J. Manion, who won the Military Cross in France, and Major D. L. Redman, who was wounded at

# KIRK'S JINGLE POT WELLINGTON

Ypres, both thought that the \$700,000,000 or \$800,000,000 involved in the proposal would be more than the country could undertake to pay, but both favored additional aid for men who really needed it.

## OCTOBER 13 TO BE THANKSGIVING DAY

Ottawa, Sept. 17.—Mr. Pedlow asked in the House yesterday afternoon if it was correct that the Government had fixed October 13 as Thanksgiving Day, and if so it was to be interpreted as an announcement of Government opposition to his bill to make Armistice Day, November 11, a permanent Thanksgiving Day. Mr. Pedlow stated that he had been fixed for Monday, October 13, but it did not necessarily follow that Thanksgiving Day would be on the same date next year. Future policy would have to be decided later.

## CAILLAUX CASE.

Paris, Sept. 17.—The commission of the High Court, sitting as a tribunal of accusation, has ordered M. Caillaux, former Premier of France, to face charges of intruding to bring peace with Germany. The justice discharged Louis Loutalot and Paul Comby, who were held in connection with the Caillaux case.

Joseph Caillaux, who has been in custody for a year and a half awaiting trial, recently was removed from prison to a hospital because of ill-health under recommendation of the commission of the High Court.

## A STATUE IN THE METZ.

New York, Sept. 17.—The citizens of Metz have accepted the offer of the Knights of Columbus to erect an equestrian statue of Lafayette on the site formerly occupied by a statue of Wilhelm Hohenzollern. It is proposed that the statue be moulded from bronze taken from German artillery captured in the war.

## MACKENZIE KING TO HAVE OPPONENT IN BYE-ELECTION

Charlottetown, P. E. I., Sept. 17.—The persistent hostile criticism by the Government press in this island of Mackenzie King strengthens the belief that he is to be opposed, in Prince County at the coming bye-election. Ex-Premier Arsenault is likely to be his opponent as it is expected he would capture the French vote.

## ANOTHER FIGHT ON FISH TREATY

(Continued from page 1.)

The Jordan-Prince Convention, negotiated several years ago and ratified by the United States Senate, proved so unsatisfactory to American fishing interests that it has never made operative by legislation. The regulations written into the new treaty, according to Secretary Redfield, "are essentially what were recommended and agreed to by representatives of the fishing industry of the Puget Sound region at hearings held before the conference, confirmed by the independent inquiries and findings of the conference."

Conferences. Dr. H. M. Smith, United States Fish Commissioner; L. H. Darwin, Washington State Fish Commissioner; Miller Freeman, of Seattle, and Frank Warren, of Portland, conducted the conference in the summer of 1918 on the proposed treaty and the Canadian representatives at the conference were William A. Fould, Commissioner of Fisheries of the Dominion of Canada; J. P. Babcock, Assistant Commissioner of Fisheries, Province of British Columbia; Dr. Fraser, of the British Columbia experiment station at Nanaimo, and Inspector of Fisheries Cunningham, of Victoria. These experts acted in the capacity of members of a sub-committee to assist the members of the Joint Fisheries Conference.

Surprised. Without indulging in actual criticism of the regulations written into the convention by the High Commission, Fish Commissioner Darwin yesterday expressed some surprise over the phraseology of some of the provisions, which he characterized as being "very drastic" than the provisions of the fisheries code which I submitted to the Legislature and which was defeated by a combination of fishing interests.

Purse Seiners. The purse seiners contend that under the treaty regulations they will be shut out of the sockeye grounds entirely, which will give the fish trap owners a monopoly of the industry in Washington. The language of the section to which principal objection is taken is as follows:

"Section 10.—(a) No purse seine shall be cast or placed in the water, for fishing purposes within 2,400 feet of any trap net.

"(b) The use of purse seines for the capture of sockeye salmon shall be confined to the treaty waters southward and westward of a straight line drawn from the lighthouse on Trial Island, B. C., to the northwest point of Whidby Island, State of Washington."

North of Line. The purse seiners and other floating gear fishermen say that the ground for sockeye and other varieties of salmon is all north of this line and that the fish traps now control the situation. This is the section that will be most bitterly fought before the Senate Committee.

The regulations are to remain in force for a period of fifteen years, and thereafter until two years from the date when either of the parties shall give notice of its desire to terminate the convention.

Commission. Two months after the exchange of ratifications of the convention, a

commission to be known as the International Fisheries Commission, consisting of four persons, two to be named by each party, is to be appointed. The Commission will conduct investigations into the life history of the salmon hatchery methods, spawning ground conditions and other related matters and shall observe the operation of the international regulations with instructions to report to the Governments any modifications which may be found desirable.

Illusion. While the convention deals specifically with the protection of sockeye salmon, provision is made for future modifications to include other species of salmon, including steelhead.

Battleship Damaged. London, Sept. 17.—The Italian battleship Dante Alighieri is said in a report received here, to have been damaged by her crew and has been unable to leave the port of Fiume.

French, American and British detachments which were in Fiume at the time of d'Annunzio's coup are reported to have boarded ships and departed.

Isolated. London, Sept. 17.—Fiume has been isolated from the world by the Italian Government, which apparently is taking steps to meet the situation that has arisen through the action of Captain Gabriele d'Annunzio in taking possession of the city and forcing Allied and Jungo-Slav forces to leave. The veil of the censorship was drawn yesterday and since that time little has been learned of events in the city.

## D'ANNUNZIO AND FOLLOWERS STILL IN CITY OF FIUME

(Continued from page 1.)

de Paris says the Italian Government is endeavoring to obtain from the powers a concession of the Fiume district to Italy in return for important concessions by Italy along the Dalmatian coast, but that American opposition is preventing such a settlement.

Back to Barracks. According to reports regarding the Fiume situation printed in to-day's newspapers, some of the Italian insurgents who took part in the d'Annunzio movement have signified their willingness to obey the order of Gen-

eral Badoglio for their immediate return to their garrisons. Another report from Fiume declares that the d'Annunzio partisans have made arrangements looking to the destruction of the city in case resistance becomes futile.

Rome, Sept. 17.—The Republican Party has passed the following resolution relative to Captain Gabriele d'Annunzio's coup at Fiume: "The temporary liberators of Fiume were carried away by noble impulse rather than political calculation. They thus deserve the sympathy of the nation, although it is an illusion to consider the accomplished fact of the occupation of Fiume as final."

London, Sept. 17.—The Italian battleship Dante Alighieri is said in a report received here, to have been damaged by her crew and has been unable to leave the port of Fiume.

French, American and British detachments which were in Fiume at the time of d'Annunzio's coup are reported to have boarded ships and departed.

Isolated. London, Sept. 17.—Fiume has been isolated from the world by the Italian Government, which apparently is taking steps to meet the situation that has arisen through the action of Captain Gabriele d'Annunzio in taking possession of the city and forcing Allied and Jungo-Slav forces to leave. The veil of the censorship was drawn yesterday and since that time little has been learned of events in the city.

**EVIDENCE HEARD**

**IN DROWNING CASE**

Death of Lieut. Gerald Dunn Miller Due to Accident, Jury Reports

That death was due to accidental drowning was the verdict of the coroner's jury at the inquest held late yesterday afternoon over the body of the late Lieut. Gerald Dunn Miller, who lost his life in a canoe accident on Sunday. The inquest was held by coroner Stanier in the Sands Funeral Parlors.

Dr. Raynor was the first witness and his evidence was to the effect that he had been called to the Gorge on Sunday afternoon, and after an examination, he had pronounced the young man dead.

His Companion, R. S. O'Meara, a close friend of Miller, and a comrade in arms in overseas service, related how the canoe in which they were paddling along the waters of the Gorge upset and nearly ended in a double tragedy. "I had known him for about eight years. About 4 o'clock Sunday afternoon we went out to the Gorge in the car. We hired a canoe and went up to the Craigflower Bridge, myself paddling. Here we landed on a rock

LATE LIEUT. MILLER

and changed over, Miller paddling on the return journey." Witness said the accident occurred near the bend at the B. C. Electric Park, and he was sitting facing Miller in the bottom of the canoe.

Suddenly the canoe began to turn over and witness noticed Miller, whom he could not say was an experienced canoeist, was digging his paddle in deep. As the frail vessel capsized, witness dived and came up some distance away, with the two men widely separated. Witness called to his friend to swim to the canoe, as he made for it himself, and when he first caught a glimpse of Miller, the latter was about thirty or forty feet away. He seemed to have all he could do to keep his head above water, and was calling for help and making no progress toward the canoe. Witness at once began pushing the canoe toward Miller, but he judged from his actions that he had already gone down once or twice.

Not Much Swimming. Witness said that on the way to the Gorge he had asked his friend about swimming and the latter had replied that he had not done much swimming this summer. Nothing was said about being able to swim thirty or forty feet away. He seemed to have all he could do to keep his head above water, and was calling for help and making no progress toward the canoe. Witness at once began pushing the canoe toward Miller, but he judged from his actions that he had already gone down once or twice.

Had Canoeed in England. Replying to a question from the foreman, witness said he and his friend had been out in a canoe together in England once when Miller remarked that he was not very good with the paddle. He said they had not changed places in midstream, nor did they stand up.

Asked if there was a boat behind them, witness said he did not see one, his theory was that Miller had thought there was one coming, and had dug his paddle deep in to turn the canoe. Then his paddle caught under it. Miller was a heavy man, and his lurch would easily upset the boat.

Witness referred to a report appearing in the morning paper to the effect that according to eyewitnesses the men had changed places in midstream. He denied this statement.

Constable John Andrews said he arrived after the body had been taken from the water. He took the name of a man named Gentry, who said he had witnessed the accident, and that both men seemed very happy in the boat, when suddenly it turned over. Gentry said nothing of the men standing up. This witness was out of town, and could not be summoned, having left after the inquest was ordered.

Angus McKinnon related how he and his brother had gone to the rescue, and after diving, had together found the deceased. Arriving at the float every effort had been made to resuscitate the man without success. The jury was as follows: C. B. Deaville, foreman; Frederick McGregor, J. H. Beatty, J. F. Scott, D. W. Spence and R. Clarke.

**A New Shipment of Handsome Serge Dresses**

Now on View and Selling at Each

**\$25.00 to \$37.50**

The woman who sets out to buy a new dress to-morrow has a rare treat in store when she finds this most interesting collection. Such smart styles and clever trimming ideas have rarely been our privilege to find in any one consignment. The majority of the dresses are handsomely embroidered with braid, and a few are neatly decked with beads. The trimming is presented at the neck, on the front, on the belt, in elaborate panels down the sides, and occasionally on the entire skirt. They are dresses that are really distinctive, and well worthy of your special inspection.

Priced as follows: **\$25.00, \$28.00, \$35.00 and \$37.50**

—Mantles, First Floor, Broad

**Cosy Wool Sets That Will Keep Baby Warm At \$4.50**

With the coming of the cold days, the great object in mother's life will be to keep baby snug and warm. In these cosy wool sets you will find the problem solved. The set consists of a sweater, bonnet and booties, hand-knit from soft fine wool in pretty patterns. Drop in when down town and inspect these wool sets. You will judge them great value at, a set **\$4.50**

—Infants, First Floor, Douglas

**Fashionable Waists In Candy Stripe Crepe de Chine At Each \$7.50**

These are Attractively Designed Waists—Made from the best quality crepe de Chine. The chief features are two-way collars and long sleeves nicely finished with button cuffs. The stripe shades are blue, rose, tan, purple and green, on a ground of white. As they are styled these are most desirable waists, and the quality of the material adds to their value. At the very modest price of, each **\$7.50**

—Waists, First Floor, Douglas

**Boys' Rainproof Coats in Paramatta and Tweed at \$7.50 to \$9.75**

On the border of the rainy season, these coats will be greatly in demand, and a special purchase has placed us in a position to supply you with them at almost wholesale prices. They are truly a most desirable coat for Fall and Winter wear, being both warm and rainproof. Lose no time in buying one for your boy, for at the prices quoted they will sell fast.

See them in the Boys' Clothing Section.

—Main Floor, Broad

**An All-Wool Full Fashioned Coat Sweater At \$14.50**

This is a sweater from which you will receive a maximum service both in long wear and comfort. It is made with a sailor collar and finished with pocket and sash. The wool is of the very best quality, and the colors presented are rose, dark brown, navy, black, saxe and peacock blue. They are splendid sweaters, and moderately priced at, each **\$14.50**

—Sweaters, First Floor, Douglas

**A New Shipment of Children's Sweaters in Coat Slip-Over Styles**

Seldom have we received a more worthy or attractively assorted shipment of children's sweaters than this, in which the styles are so neat and the colors so good.

## A BEDTIME STORY

UNCLE WIGGLY AND THE BROWN BALLS.  
 Copyright, 1919, by McClure Newspaper Syndicate. (By Howard R. Garis.)

Off through the woods hopped Uncle Wiggly Longears, the bunny rabbit gentleman. Along and along he hopped, and he felt very happy. For the sun was shining, his pink nose was twinkling, and he had had some cherry pie for breakfast.

"I don't really care much what happens now, I feel so good!" whistled Uncle Wiggly. "I guess I'll bring Nurse Jane home a lollypop, and make her feel happy. Wow! I don't care what happens!" cried the bunny, reckless like and scintillating.

And then, all of a sudden, something jumped at him from under a bush. Mr. Longears had just one look at an animal with long scratchy legs, and a big bitey mouth, and then away he ran as fast as he could go.

"That was the Pipsisewah!" cried the bunny as he hopped along. "I just got away in time. He must have heard me say I didn't care for anything, and he thought he'd scare me. Well, he didn't get me!"

Uncle Wiggly ran very fast, and soon, looking back over his shoulder, he saw that the Pipsisewah was far, far away.

"I guess I'm all right," thought Mr. Longears. "But I must be careful about saying I feel too well and that I don't care what happens."

So Uncle Wiggly hopped along and along, and pretty soon he heard, over behind a stone fence, some voices saying:

"Now it's my turn!"

"Send it over this way!"

"Don't hit the net!"

"Oh, wow! That went in my eye!"

"I wonder who it is there?" thought the rabbit. "The spoke of a net. Can they be fishing here?"

Carefully he peered over the top of the wall, and there he saw a lot of the animal boys playing a game of lawn tennis. It was the tennis net Uncle Wiggly had heard them talk about, and the little chaps were knocking small brown balls about, using sunflowers for rackets.

There was Jonnie and Billie Buskytail, the squirrels; Sammie Littletail, the rabbit; Jackie and Pettie Bow Wow, the puppies; and Jimmie Wibblewobble the duck.

Each one had, as I have told you, a short-stemmed sunflower and with this they were knocking the brown balls back and forth across the net, which was made of extra strong cobwebs, criss-crossed in just the right way.

"Well, this is lots of fun!" said Uncle Wiggly, as he hopped over the stone wall and sat down on top to watch the game. "Where did you get the tennis balls?" he asked the animal boys.

"Oh, we found them in the woods," answered Jackie Bow Wow.

"They aren't regular tennis balls, but they play just as good if you don't bang them too hard," spoke Pettie.

"Why didn't you bang them too hard?" asked the bunny rabbit gentleman.

"You'll see if you stay here long enough," chattered Billie Buskytail, the squirrel.

Uncle Wiggly sat in top of the stone wall, watching the game of tennis, played with brown balls, and with sunflowers for rackets, with which the balls were sent bouncing over the cobweb-net.

All at once a ball that Sammie knocked flew up in the air and came down right on top of Uncle Wiggly's tall silk hat.

"O, did it hurt you?" called the rabbit boy, sorry like.

"Not a bit," answered Uncle Wiggly with a laugh. "It just bounced off like a feather."

The game went on and then Jimmie Wibblewobble, the duck chap, knocked a ball extra far. Over the stone wall it went and then a sudden, sharp voice cried:

"Oh, he's just for that I'll take souce from all your ears! Here I come!" and something with long, clawy legs and something with a sharp, toothy mouth jumped up out of the grass.

"Oh, it's the Pipsisewah! It's the Pipsisewah!" cried Uncle Wiggly. "He chased me once to-day, and here he is again. O, boys, what shall we do?"

Over the wall jumped the Pip, as I call him, for short. He knocked off Uncle Wiggly's tall, silk hat, and he was just going to grab the bunny in his claws, the Pip was, when up rushed Sammie Littletail, the brave rabbit boy.

"Here! You let my uncle alone!" said Sammie.

"Ho! Who'll make me?" asked the Pip.

"I will," answered Sammie, still bravely.

"What with?" the Pipsisewah wanted to know, sneering like and defiant.

"With this!" answered Sammie, holding one of his jaw which held one of the brown balls the animal boys had used in playing tennis. "This will make you let Uncle Wiggly go!"

"Well, it'll. Well, I guess not! I'd like to see it!" howled the Pip.

"Oh, you'll see all right!" exclaimed Sammie. Then suddenly he raised his paw and brought the brown ball down crack! smash! right on the Pip's nose. The brown ball burst open and out came a lot of powder like snuff.

"A-ker-chool! A-ker-choo. A-ker-

# IN WOMAN'S DOMAIN

## THE GIFT CENTRE.

September Birthstones, "SAPPHIRE," Means (Wisdom)

Mr. and Mrs. William Marchant, of Fort Street, are visiting friends in Tacoma for a few days.

Mr. and Mrs. Andrew Beattie, of Vancouver, with their baby daughter have arrived in the city on a visit to Mrs. Beattie's parents, Mr. and Mrs. H. O. Miles, George Road.

Yesterday noon at Bredalbane, Captain the Rev. Dr. Campbell, celebrated the marriage of Edward George Potter, of Spokane, Washington, and Miss Margaret Hoffman, of Bismark, N. S. A. They were unattended, and after a honeymoon in Victoria will reside in Spokane.

Gideon Hicks, former honorary conductor of the Victoria Choral Society, was at the meeting of that body on Monday evening presented with a gold fob, suitably inscribed, in recognition of his services to the society. The presentation was made by Dr. L. F. Houghton, the president.

Of interest to their many friends in Victoria will be the announcement of the marriage of Bertram George Robson, only son of Mr. and Mrs. Head Street, Esquimalt, to Mary Grace (Margery) eldest daughter of the late John Clayton. The marriage was solemnized at Bella Coola, B. C. on September 10, by the Rev. W. H. Gibson.

On Monday afternoon at "Bredalbane," Fort Street, Captain the Rev. Dr. Campbell celebrated the marriage of Sergt. Franklin S. T. MacCabe and Miss Lillian May Henly, both of Victoria. The groomsmen were Archibald D. Kerr and the bride, who was given in marriage by her father, Mr. James T. Henly, was attended as bridesmaids by her sisters, Miss Flora and Miss Cora. The bridegroom is a native of Alberta, and the bride of British Columbia. Mr. and Mrs. MacCabe left by the evening boat for Seattle, where they will reside.

Miss Peggy Ross, of 1292 Fort Street, made her departure on the midnight boat for Vancouver on Monday, on her way to England for an extended visit with relatives. A large party of friends were assembled at the wharf to bid her "au revoir," including her mother, brothers and many of her friends from Terry's Soda Fountain, where she has been employed for some months past. Her father accompanied her to Vancouver. Miss Ross will sail on S. S. Mesantic from Montreal to Liverpool, and will make her home at Manchester for six months, as the guest of her aunt.

At Bredalbane, the minister's residence, at noon on Monday, Captain the Rev. Dr. Campbell, celebrated the marriage of Sergeant George Gavin Orr and Miss Lillian E. J. Hawking. The bridegroom was accompanied as groomsmen by Sergt. Monk, both being returned men. The bride, who was given in marriage by her father, looked charming in a travelling suit of navy blue serge.

The Misses Eva May and Molly Hawking were the maids of honor. Among the guests were Mr. and Mrs. Greenhaugh, Mr. Gannon, Miss Henley and Mr. T. S. MacCabe. Mr. and Mrs. Orr took the evening boat for Seattle, and on their return will reside in Victoria, where they have many friends.

Miss Belle Ellera has returned from Vancouver, where she has been spending her vacation.

Mr. and Mrs. D. Fair, of this city, spent the week-end in Vancouver as the guests of Mrs. Fair's brother, Mr. McLean.

Mrs. J. A. Macdonald who has been the guest of Mrs. A. T. Goward for some days past, left on Monday for her home in Vancouver.

Kenneth Tatlow, who has been spending the summer months with his mother at Pinnery Bay, near Victoria, left on Monday night for Suelph, Ontario, where he will enter the Agricultural College.

Mrs. John Barnsley, of Vancouver, is visiting her daughter, Mrs. A. Leonard Robinson, of this city, for a week. Mrs. Robinson has been enjoying a three weeks' visit to Prince Rupert and Anxox, and Mrs. Barnsley accompanied her on her return from the mainland.

Victoria friends of K. E. McLeod, district passenger agent of the Canadian National Railways at Vancouver, and formerly local passenger agent for the C. N. R., will be interested to learn of her marriage which took place in Vancouver on Monday. The bride was Miss Edna Reilly, of Kitsilano. Mr. McLeod since his return from overseas service has been stationed in Winnipeg until being transferred to Vancouver recently.

## TOKENS FROM WELL WISHERS

Quite naturally when you think of wedding gifts you question, What shall I present?

A few suggestions may help you solve the difficulty.

## LIFT OFF CORNS 'WITH FINGERS'

Doesn't hurt a bit and costs only few cents

Magie! Just drop a little Freezone on that touchy corn, instantly it stops aching, then you lift the corn off with the fingers. Truly! No huggin'!

Try Freezone! Your druggist sells a tiny bottle for a few cents, sufficient to rid your feet of every hard corn, soft corn, or corn between the toes, and calluses, without one particle of pain, soreness or irritation. Freezone is the discovery of a noted Cincinnati genius.

## BRIDES NEED NOT PROMISE "TO OBEY"

U. S. Protestant Episcopal Church to Change Marriage Service

From time to time instances are brought before the public attention of brides who at the marriage service refuse to use the word "obey." This occurs more frequently in the United States than in any other country, and in view of the fact it is perhaps not surprising to learn that the elimination of the word "obey" from the marriage service is only one of the revolutionary changes in the authorized practices of the Protestant Episcopal Church of America, which are recommended by the Commission of Revision and Enrichment of the Book of Common Prayer in its report for presentation at the Church Convention in October.

The proposal to abolish the woman's promise to obey is the result of protests which have been gathering strength throughout the country for many years. Some ministers have refused to use the term.

Another proposed change relates to the bridegroom's statement, "With all my worldly good," it being held that the law safeguards dower rights and that in modern practice the words have been stripped of meaning. A suggestion to introduce a modification into the Communion service is certain to be fought by Low Churchmen, even though the recommendation is made in the interest of hygiene. Intinction consists in dipping the consecrated wafer in the wine instead of the communicant drinking from the cup.

Gray—"Come home to dinner with me. I don't suppose there will be much, but if you'll take us as we are—such as it is—pot-luck and—"

Green (heartily)—"Oh, don't apologize, old fellow, I've dined at your house before, you know."

## ALL WOMEN MUST REGISTER

Women, as well as men, are reminded that they must register before nine o'clock on Saturday, September 20, or they will be unable to vote in the coming Federal bye-election in this city. To qualify as a voter a woman must be twenty-one years of age, a British subject and must have been a resident of Canada for twelve months and in the constituency for two months preceding the issuance of the writ of election. Registration must be made at the places, as published in the proclamation in *The Times of Saturday last*, between the hours of nine till one, two till six, and seven till nine, on any day this week.

## REGENT RESIGNS

Mrs. Herbert Drummond, of Vancouver Municipal Chapter, Leaving For England.

Mrs. Herbert Drummond, regent of the Vancouver Municipal Chapter, I. O. D. E., resigned that office at the meeting of the chapter held on Monday, owing to her forthcoming departure for England, where she will make an extended visit. The resignation was accepted with many regrets, a standing vote of thanks being extended to Mrs. Drummond for her five years of faithful work in the order, the last portion of that time being spent as vice-regent and regent. Mrs. C. E. Berg, the Municipal Treasurer, also resigned at the meeting, much to the regret of the executive and members.

## New Serge Dresses

Shown in Distinctive Styles

THESE dresses of serge will command the admiration of all women who see them. Generally speaking they are designed along simple though particularly smart lines, most of them hanging straight and almost free from the shoulders. Their plainness is relieved in many instances by clever embroidery and an unstinted use of buttons.

Women who anticipate an early purchase of a serge dress will do well to inspect these handsome models.

## Handbags

In Newest Styles

Velvet Handbags in a number of novel shapes and fitted with pretty metal tops. Obtainable in green, brown, navy and black—\$10.50 to \$22.50.

Leather Handbags featured in newest styles and developed from high-grade leather—\$5.50 to \$19.50.

At \$45.00—A Navy Serge Dress that shows decidedly good lines. It features a narrow sash, several flat horizontal pleats at the hips and buttons at the back.

At \$47.50—A simple but distinctive Dress of black serge which shows a narrow belt, roll collar and low cut V-neck, fitted with a vest of metallic embroidered net.

At \$55.00—This Dress of navy serge is particularly handsome in design. The skirt is made in tunic effect and is heavily embroidered in black silk. The blouse is embroidered at the neck in silver, blue and black.

At \$69.50—This model of navy serge buttons down the full length of the back. It has a round collarless neck and is trimmed with black military braid and buttons

## Women's Flannelette Nightgowns

Open front styles, V neck, stitched with pink or white, embroidered yokes, long sleeves. Particularly good values at \$1.75 to \$2.75.

Slipover Flannelette Nightgowns, with short kimona sleeves, hem-stitched and trimmed with Torchon lace—\$2.00.

## WOMAN'S ALLEGED MYSTIC PROPHECIES

Believers in Johanna Southcott Demand Opening of Ancient Box

London, Sept. 16.—A small meeting said to be representative of several thousand believers in the prophetess Johanna Southcott, was held at Camberwell recently to demand the opening of a box containing prophecies, etc., which the prophetess left in 1814, with the stipulation that it was not to be opened until its opening was demanded by twenty-four bishops.

It was stated that the hiding place of the box could not be divulged because the American branch of the believers was anxious to secure possession of it at all costs.

Mrs. Barnett, of Devon, said that Johanna foretold nearly all the points about the war, including the coming of the Zeppes. She declared that if the bishops would only read her writings they would open the box at once.

The speaker further stated that a message was delivered through supernatural channels to the late Bishop Boyd Carpenter, to the effect that in the month of October things were going to be terrible in this country unless the box was opened. It could only be opened between May and December.

With some men swearing off is a continuous performance.

### START DECORATING FOR ROYAL VISIT

Workmen Erecting Big Arch To-day and Stores Putting Up Colors

Workmen to-day started actual work on erecting the big festival arch for Royal Week on Yates Street in front of the Public Library. The arch was brought up in sections from the Garbally Road yards, where it has been stored for some years.

At the same time Mayor Porter ordered a number of civic employees under City Engineer Preston to go to the country to gather small evergreen trees. Large numbers of these will be brought into the city during the next few days, as the Mayor plans to decorate every telephone pole with evergreen along the main downtown streets of the city.

The electric light street standards are to be decorated with bunting and between them there will be draped on ropes red, white and blue banners.

It was announced to-day by the Mayor that he has invited the members of the Women's Canadian Club to take charge of the decoration of the big arch on Yates Street. It is understood that the members of the club are anxious to do this, as they have special artistic plans prepared which will relieve the Mayor of much of the trouble if he were to undertake as was proposed, the personal supervision of the work.

Special electric decorations are being arranged for the arch under the orders of the Mayor. The electricians are ready to start their work as soon as the erection of the arch has sufficiently progressed to let them get to work on it.

The Mayor to-day requested the attendance of every member of the special committees that have charge of the Royal Week Celebration at the meeting at the City Hall to-night at 8 o'clock. Final details of the celebration are to be decided on at this meeting.

Actual decorations of buildings by merchants started on Yates Street to-day.

The annual exhibition of the Nanaimo Agricultural Society opened yesterday, will continue to-day and close to-morrow evening, the exhibition being officially opened at 2 o'clock this afternoon by Mayor McKenzie. The attendance on the opening day was the largest in the history of the society, the number passing through the gates being upwards of 700.

The feature of the exhibition yesterday was the better babies contest, there being forty of Nanaimo's finest babies contesting for the several prizes donated by local business men. The contest continued this afternoon when the judging will be completed and the prizes awarded. All sections of the exhibition are fully up to the mark of former years. Local merchants have exhibits of their wares.

In the dog show there were over one hundred entries, including some of the finest dogs in the Province, notably a splendid Dane shown by a Vancouver exhibitor, Mr. McConnell, of Vancouver, had a busy time yesterday.

Motorist Injured.—Patrick Appa, a returned soldier, received some bad cuts about the head during a collision at 11.15 last night in front of the Pantages Theatre, when his auto and a Cloverdale street car crashed. He was thrown into the windshield and the broken glass inflicted severe cuts. Dr. Bechtel finding it necessary to use six or seven stitches to mend the scalp wound. The car had been hired by Appa and it seems that when he was about to turn the machine about he did not notice the oncoming street car. The automobile was badly damaged and Appa was picked up in an almost unconscious condition.

Agnes Deans Cameron Chapter, I. O. D. E.—The members of the Agnes Deans Cameron Chapter, I. O. D. E., will attend at the South Park School on Friday afternoon at 2 o'clock formally to present to the school the gift of three historical pictures, recently purchased by the Chapter for this purpose.

## HEAD OF BANK ADVOCATES POLICY OF SHIPBUILDING

General Manager of Royal Bank Here on Inspection Tour

A national shipbuilding policy for Canada was advocated to-day as the best salvation of the country in this period of reconstruction by Edson L. Pease, of Montreal, general manager of the Royal Bank of Canada, who is here with other officials of the bank on a tour of inspection of the western branches.

Mr. Pease told The Times to-day that such a national shipbuilding policy was of great importance, as it was quite essential that Canada should own a mercantile marine. Were the Dominion to inaugurate such a line of boats, running for instance, down the Pacific Coast to South America, it would result in banks such as the Royal Bank of Canada establishing branches in the southern hemisphere to encourage and take care of the foreign trade of this country in that part of the world.

As for extensions in the Orient, Mr. Pease said that exchange difficulties were at present in the way. While the Royal Bank is extending in foreign countries, he said the full attention would be devoted to the branches at home.

Mr. Pease and his party inspected the Royal Bank's branches in Victoria to-day and took an automobile tour of the business parts of the city. They leave to-morrow for Prince Rupert and will return east to Montreal over the Grand Trunk Pacific.

With Mr. Pease are A. J. Brown, K.C., of Montreal, a director of the Dominion Bridge and other companies in Quebec; C. S. Wilcox, of Hamilton, chairman of the board of the Steel Company of Canada; G. H. Dugan, of Montreal, president of the Dominion Bridge Company and director of the Montreal Trust Company; A. McTavish Cameron, of Winnipeg, director of the bank and formerly of the Northern Crown Bank which was absorbed by the

Royal and Robert Cameron, supervisor. Mr. Pease declared that the moneyed interests of the east were regarding British Columbia with much greater promise as all reports showed conditions to be on a much more substantial and satisfactory basis than they were seven years ago when the real estate boom was sweeping the country.

Americans Awaiting Loan.—That the new \$300,000,000 Victory Loan which is to be floated at Ottawa next month would be a financial success was one of the statements made by the banker. Already there was a great deal of American money waiting in Canada for the issuance of the loan. This was due to the favorable exchange rate, on which the Americans would receive the benefit. He thought that the taxable feature of the loan would have but little bearing on its sale. The larger investors would be harder hit than the small buyer. In the East the organization would be largely the same as last year, and elaborate preparations were being made to make the issue a success. Bond houses had ceased the selling of securities, awaiting the Government securities.

Mr. Pease was quite hopeful on the subject of the exchange rate on New York funds. Considering what Canada had experienced in the Great War, he thought her financial condition was decidedly sound and referred to a maximum rate of 5 per cent. on New York as against a discount of 16 per cent. on sterling, 50 per cent. on francs and 60 per cent. on Italian lira.

Able to Repay Canada.—Canada could not afford to extend any further credits to foreign countries with the exception of England and France. England was sound financially although it would take some time until normal conditions were again established. France had benefited greatly by the peace treaty, securing as she did great coal fields, and the polish deposits of Alsace, in addition to other valuable concessions. These countries would be well able to repay any loans made. Canada, however, needed all her available money to develop her own resources, many of which were retarded in development through lack of capital. The commercial clearing-house of the world would, he thought, still remain in London in preference to New York.

The prairie crop yield, said the banker, was very disappointing to the growers, but this would be offset in a large measure by the high prices. The party had traveled through the southern part of the prairies and Mr. Pease referred particularly to the poor crops around

Lethbridge, Medicine Hat and Calgary. The return trip will be made via Prince Rupert and much better reports are expected from the northern part of the prairies. There would be, he said, 100,000,000 bushels of wheat from this year's crop, available for export.

### OPENS PRIVATE SCHOOL

In response to the ever growing demand for private schools another one run on English lines will be opened in Oliver Street, Oak Bay.

The principal, Miss Annie Rigbey, is a sister of the Misses Bertha and Rosa Rigbey, of Uppingham House School, Stanley Avenue. The Misses Rigbey are well-known in scholastic circles in the north of England, and come with the highest credentials.

The new school will consist of special classes for girls, and will be also a preparatory school for boys, and kindergarten, and the curriculum is arranged with special reference to the High School entrance examinations.

W. G. RAYMOND, Postmaster, Brantford, Ont., who has been chosen as one of the leaders of discussion for the National Educational Conference, which is to be held in Winnipeg, October 20-22.

"I can't read this prescription, doctor."  
"It isn't necessary that you should, my dear sir."  
"Well, doctor, I hope you'll write your bill the same way."

Good Looks in Glasses May Not Be Enough

Many modern glasses are in themselves good looking, but they cannot be chosen indiscriminately.

The close attention of someone understanding the SUITABILITY of the style to the individual, and interested in the subject, is needed in the selection of frames, lens shape and size which are right for you.

STRAIN'S EYEGLASSES make new friends day by day, and keep old ones year by year, by virtue of this very feature—SUITABILITY. It is a study with all our opticians.

### WHAT HE FORGOT.

A farmer noted for his absent-mindedness went to the market town and transacted his business.

Then he started on his way home with the unpleasant conviction, however, that he had forgotten something, but what it was he could not recall.

As he neared home the conviction strengthened, and three times he stopped his horse and went carefully through his pocket book in a vain endeavor to discover what he had forgotten.

In due course he reached home and was met by his daughter, who looked at him in surprise, and then exclaimed: "Why, father, where have you left mother?"

## WANT RETURNED MEN TO PARADE

Space Reserved in Front of Parliament Buildings For Veterans

Lieut.-Colonel Chalmers Johnston, who has been placed in charge of the celebration in front of the Parliament Buildings in connection with the visit of the Prince of Wales has appealed to the Great War Veterans' Association to make the parade on that day as widely known as possible.

Space in front of the Parliament Buildings is to be reserved for army veterans and also for corps troops, R. A. F., Royal Navy and Imperial Veterans. It will be optional to those in the parade whether they wear uniform.

Captain Hendy, A. D. C., to the General Officer Commanding, has announced that all returned soldiers on parade on the morning of September 24 will appear with the units with which they served overseas.

The G. W. V. A. has already furnished seventy-five members who are to be on the guard of honor for the Prince of Wales.

As their representative on the reception committee for the Royal ball at the Empress Hotel, the G. W. V. A. has appointed Comrade Gordon Smith.

During the visit of the Prince of Wales the Association will have photograph buttons sold in the city, through most of the big stores to raise money for the new house fund of the organization.

### ANNIVERSARY SERVICES

St. Paul's Presbyterian Church, Sidney, Marks Occasion.

The fifth anniversary of St. Paul's Presbyterian Church, Sidney, was held on September 14 and 15. Rev.

## How Fat Actress Was Made Slim

Many stage people now depend entirely upon Marmola Prescription Tablets for reducing and controlling fat. One clever actress tells that she reduced two to four pounds a week by using this new form of the famous Marmola Tablets several times a year, keeps her weight just right. All druggists sell Marmola Prescription Tablets at \$1 for a large case. Or you can get them by sending price direct to the Marmola Co., 84 Woodward Ave., Detroit, Mich. If you have not tried them do so. They are harmless and effective.

## LABOR PARTY SEEKS AID OF SOLDIERS

Efforts are being made to combine returned soldier and labor dissatisfaction with the present Ottawa Government into the support of the Labor candidate to be nominated by the Federated Labor Party to-night to oppose the Hon. S. F. Tolmie, Minister of Agriculture, when he appears here for re-election. The Labor nomination will be made at the K. of P. Hall, North Park Street.

Indications are that the Labor party will choose Thomas A. Barnard, President of the Great War Veterans' Association of New Westminster, and a labor leader, as their candidate here. The only other man expected to be in the running at the convention is W. E. Pierce of this city.

To express kilometers in miles, multiply by six and divide by ten.

# Mabel McKinley—Niece of the Late President of the United States—Takes Nuxated Iron for Health and Strength

## And Says She Regards It as The Ideal Tonic For All Weak, Run-Down Nervous Women

Dr. George H. Baker, Formerly Physician and Surgeon Monmouth Memorial Hospital of New Jersey, Explains Why Iron Is One of the GREATEST OF ALL STRENGTH BUILDERS

Says: He has found nothing in his experience so effective for helping to make strong, healthy, red-blooded women as Nuxated Iron.

Miss McKinley has a voice of unusual quality and it was following her work singing for the soldiers that she became weakened and run-down and had recourse to Nuxated Iron. Once more in superb physical condition, Miss McKinley says she is convinced that Nuxated Iron has no equal as a Strength, Health and Blood-Building.

Every woman who wishes to possess health, strength and beauty should carefully read the statement of Miss McKinley who, after personal use of Nuxated Iron, tells of the results she obtained.

Physician and Medical Author, says: "It is my opinion that in practically nine times out of ten, weakness and falling strength and vitality are due to deficiency of iron in the blood. Many a woman who is run-down, nervous and who quickly tires out, suffers from iron deficiency and does not know it. I am convinced that there are thousands of such women who, simply by taking Nuxated Iron, might readily build up their red blood corpuscles, increase their physical energy and get themselves back to vibrant and vigorous health. By enriching the blood and increasing its oxygen carrying power, Nuxated Iron will often transform the flabby flesh, toneless tissues, and pallid cheeks of nervous, run-down women into a glow of health, and make them look younger within a surprisingly short time."

Sold in this city by C. H. Bowes, and all good druggists.

### MUCH SOUND.

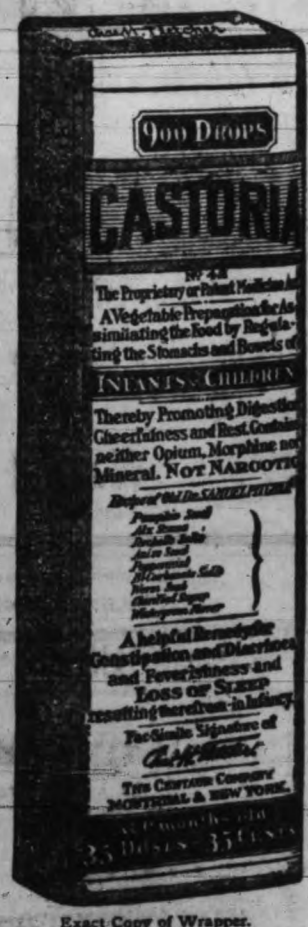

Orville Wright, at a dinner in Dayton, talked of his early struggles, says the Baltimore American.

People talked big, but they would put up nothing. With their mouths full of millions and their quite empty hands, they reminded me of a barber I once knew.

# What is Castoria

CASTORIA is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

It was only after years of research in the fields of herbs and roots for a combination of purely vegetable matter that would have all the virtues of Castor Oil, without its disagreeable, nauseating properties, especially when used for infants or children, that the formula now used in Fletcher's Castoria was found, and which for over 30 years has proven its worth. Try it.

## Children Cry For Fletcher's CASTORIA

### Have You Tried It?

Everybody has read the above headline; how many believe it? Have you a little one in the home, and that dear little mite when its stomach was not just right felt the comforts that come with the use of Fletcher's Castoria? You have heard the cry of pain. Have you heard them cry for Fletcher's Castoria? Try it.

GENUINE CASTORIA ALWAYS Bears the Signature of *Chas. H. Fletcher*

Meeting of Saanich Liberal Association at Arcade Building, Victoria, Thursday at 8 p.m.

Three Years in the Hands of the Turk—In fact, Edmonds will give his illustrated lecture at the Alexandra Club on Monday, September 22nd, at 8.30 p.m. Note the date! Admission 55 cents. Tickets obtainable at all Music Stores or at the Alexandra Club.

Weiler Bros. Limited, would like to communicate with two customers holding receipts No. 4394 and No. 6395, dated September 15.

In County Court—Judge Lammman gave judgment for the plaintiff this morning in answer to a charge of driving an automobile without a license. Magistrate Jay imposed a fine of \$5.

Tail Light Out—R. H. Powell was charged in the City Police Court this morning with allowing a car to stand on the street without the tail lamp lit. He pleaded guilty and was assessed \$5.

Had No License—H. S. Lelschman appeared in the City Police Court this morning throughout the charge of driving an automobile without a license. Magistrate Jay imposed a fine of \$5.

Strathcona Lodge—The season at Strathcona Lodge, Shawanigan, will close this month, and the hotel will not be opened after October 1. The season throughout has been successful, one of the best in the records of the house.

Decorating Post Office—The work of decorating the Post Office in readiness for the visit of the Prince of Wales is under way. The exterior of the building is being wired for electric lights, which will cover the whole building.

Muffler Cut Out—Mrs. M. Smith was charged in the City Police Court this morning with cutting out the muffler on the motor car which she was driving. A plea of not guilty was entered, and the case was remanded until to-morrow.

James Bay Club—The James Bay Social Club will hold its first social event in aid of the sailors' institutes to-morrow night at the Connaught Seamen's Institute at 8 o'clock. A cordial invitation is extended to all to attend, and a pleasant evening is assured.

Injured Man Charged—Patrick Appa, who crashed into a street car with a hired automobile which he was driving on the morning of September 12th, was charged in the City Police Court this morning with driving a car while under the influence of liquor. His case was remanded, as accused had to be taken to hospital.

Engineer Loses His Leg—As the result of an accident on Thursday evening last, Ernest Vaughan, of Prince Rupert, an engineer on the G.T.P. lost a leg and came near losing his life. He was walking in front of his engine when his foot caught in a frog. With great presence of mind he realized his position and threw himself clear of the rails, the engine passing over his ankle. After the accident Mr. Vaughan still kept his head and directed the men who came to his aid where and how to apply a tourniquet in order to stop the bleeding. A taxi was called and he was rushed to the hospital where shortly after midnight the leg was amputated.

Keating Five Hundred Party—A large crowd attended the military five hundred card party which was held at the Temperance Hall, Keating, on Wednesday evening there being eleven tables. Delicious ice cream found a ready sale and as the evening passed along all seemed eager to secure some prize. Mr. Pope was the lucky one for the box of candy and the prizes for playing went to the following: First, Mrs. E. T. Lowrie, Miss Lindsay and Messrs. Preston, Broos, H. Butler, Miss I. Sherring and Messrs. Mitchell and Sarup. Refreshments were served by the ladies of Keating and were much enjoyed. On Wednesday evening, September 24 another of these enjoyable events will be held.

Government Ill-Advised—"My comrades of the air service who fought a good fight thousands of feet in the air above the enemy lines, always co-operating with the navy and army, in the great struggle for right, have done their duty," said Mr. Greig, "and public opinion will prove how ill-advised the Government was in refusing the generous offer of the Mother Country. It is hoped that the Government will reconsider its decision before it is too late."

Canadian airmen were amazed that when the air board for the Dominion was appointed, not a single airman was named on the list. Names of its members, Mr. Greig pointed out, know anything at all about aviation, and everyone of them is a civilian. "It is regrettable," said he, "that Brig-Gen. Critchley should not have been given an appointment in connection with the air service of Canada."

Speaking of the possible formation of aerial squadrons as part of the defence force of Canada, Mr. Greig said that if the Government would accept the British machines and bear the cost of upkeep, the ex-members of the Royal Air Force would undertake to provide the personnel without cost to the Government if this were desired.

Gratuities Problem. "Another question in which the Air Service Association of British Columbia is interesting itself," said he, "is that of gratuities. Although the men who went to the R. A. F. were Non-Canadians recruited in Canada, they have only received the gratuities of the

## DOMINION AIRMEN TO MAKE PROTEST TO GOVERNMENT

Lieut. J. I. Greig, of Victoria, on Government's Refusal of Aeroplanes

Imperial which are much less than those of the C. E. F. Petitions dealing with this matter have been forwarded to Lord Weir of the air ministry, London, and to Sir Robert Borden.

Statements made in the defence of Alderman Sargent at the meeting of the City Council on Monday night were challenged at the City Hall today as inaccurate, and as tending to minimize in the mind of the public the importance of the office of Building and Plumbing Inspector. It was said that figures were furnished the Aldermen by the City Comptroller and that he misstated the import of some of the statistics.

Building and Plumbing Inspector Shade gave the following interview: The Times of last evening reports Alderman Sargent with stating at Monday night's meeting that the revenue derived from the Building and Plumbing Inspector's office for August, 1919 was only \$12.50. This statement is not near enough to the truth to pass unchallenged as it may tend to create an impression amongst our citizens that very little business passed through my office during this period. As a matter of fact the amount of revenue was \$104.75 for the month of August, 1919.

Great Indignation. The government's refusal has created indignation among the returned airmen of the west. The Imperial Government offered planes to Canada, Australia, New Zealand and South Africa, and other portions of the Empire which had contributed to the air forces of the crown during the war. Australia has accepted and formed six flying squadrons. New Zealand has formed four and South Africa four. Of the 107 which was Canada's quota, forty have been delivered to Montreal before the Canadian Government's unwillingness to accept them was made known. There will be shipped back to Europe, and if the Government is determined not to use these machines itself, said Mr. Greig yesterday, in conversation with The Albertian, they should at least turn them over to the airmen of Canada who have earned them, who want them, and to whom they rightly belong. A refusal only means that aerial progress must be crippled in Canada for many years to come. "Mr. Greig is of the opinion that the Government is actuated by a desire to protect the manufacturers in Canada."

What It Means. Its refusal means that airmen will have to purchase at high prices machines made in this country or in the States, which are inferior in type to the European machines. The British Government's offer included German and British machines of the most American type. As is well known, the American machines are inferior to those made in Europe, since it was not until after the United States declared war that questions of design and construction, which had been engaging the attention of Europe throughout the war, was given any serious consideration. "At a time when aviation in this country is such a busy industry, and the case to-day," said Mr. Greig, "the urgent need of machines of all kinds is felt very keenly by the ex-members of the air force. Canadian airmen know played no small part in the British air service and that these services deserve better treatment at the hands of the Government goes without saying."

Government Ill-Advised. "My comrades of the air service who fought a good fight thousands of feet in the air above the enemy lines, always co-operating with the navy and army, in the great struggle for right, have done their duty," said Mr. Greig, "and public opinion will prove how ill-advised the Government was in refusing the generous offer of the Mother Country. It is hoped that the Government will reconsider its decision before it is too late."

Mr. Greig pointed out that the sea-planes which the Imperial Government has offered, are wanted by the coast aviators, while aeroplanes are wanted on the prairies, and if the gift were accepted, a division of the western provinces' share on these lines would doubtless be made.

## CORRECTS FIGURES GIVEN BY ALDERMAN

Building Inspector Says Receipts Were Eight Times Greater Than Reported

Imperial which are much less than those of the C. E. F. Petitions dealing with this matter have been forwarded to Lord Weir of the air ministry, London, and to Sir Robert Borden.

Statements made in the defence of Alderman Sargent at the meeting of the City Council on Monday night were challenged at the City Hall today as inaccurate, and as tending to minimize in the mind of the public the importance of the office of Building and Plumbing Inspector. It was said that figures were furnished the Aldermen by the City Comptroller and that he misstated the import of some of the statistics.

Building and Plumbing Inspector Shade gave the following interview: The Times of last evening reports Alderman Sargent with stating at Monday night's meeting that the revenue derived from the Building and Plumbing Inspector's office for August, 1919 was only \$12.50. This statement is not near enough to the truth to pass unchallenged as it may tend to create an impression amongst our citizens that very little business passed through my office during this period. Office Phone 802. Res. 581R

### FATHER OF ENGINEERS.

It is a popular idea that we owe the steam engine entirely to the inventive genius of James Watt, the centenary of whose death occurred on August 25.

The idea, however, is quite erroneous, for steam was in use as a motive power before he came on the scene. Several types of steam engine were in use, notably Savory's and Newcomen's.

But they were cumbersome, extravagant and of small power, and it was while repairing a model of a Newcomen engine that Watt, who was working as a mathematical instrument maker at the time, evolved the various improvements, notably the separate condenser.

Meeting Matthew Boulton, a manufacturer of metal goods, he entered into partnership and they produced engines, which at once established Watt's reputation. Improvements and inventions followed quickly one after the other, and the present day advance in motive power is due to the pioneer work of Watt. Even today the steam engine remains the same in principle as Watt evolved it.

It is an interesting fact, by the way, that Watt's workshop, exactly as he left it, still exists at Heathfield Hall, Handsworth, where the engineering genius spent the last nine-teen years of his life carrying on scientific investigations—Tilt-Bits.

Perceval—"My heart is on fire with love for you!" My very soul is aflame!"  
Gertrude—"Papa will put you out."

## LETTERS

Letters addressed to the Editor and intended for publication must be short and to the point. The longer an article the shorter the chance of insertion. All communications must bear the name and address of the writer, but not for publication unless the owner wishes. The publisher reserves the right to make alterations in the discretion of the Editor. No responsibility is assumed by the paper for letters submitted to the Editor.

### THE GAME LAWS.

To the Editor.—I notice the usual annual news item during hunting season, "Man shot—mistaken for deer."

I have on my desk a copy of the Game Regulations for 1919-20, in which is outlined the shooting of various game. In the paragraph dealing with the shooting of deer it is stated: "Deer—All kinds, over one-year-old, etc., etc."

You will notice, Mr. Editor, it states it is lawful to kill deer over one-year-old, and, of course, it must be unlawful to kill a deer under one-year-old. As the law requires that a hunter shooting at a deer must not only know it to be a deer, but to be a deer over one-year-old, how under the sun is a hunter to be excused when he finds the object hit to be a man? How can he defend himself in the eyes of the law when called upon to explain his decision in determining whether the deer was over one-year-old or not? Of course, he cannot. Therefore he's breaking the game laws, aside from shooting or, perhaps, killing a man, because that class of hunter has absolutely no regard for game laws; he's simply going to kill either young or old, and try to get away with it. And if for no other reason his inability to explain the object he was shooting at was a deer over one-year-old or not and that he did not even know it to be a deer, ought to be sufficient evidence to deal with reckless hunters.

We impose fines and imprisonment for the infraction of our laws. Why not make a few examples by imprisonment of these law-breakers, which no doubt would tend to eliminate its everlasting, "I thought it was a deer."

HUNTER.

### REGISTRATION.

To the Editor.—May I have space to contradict the statement which has just appeared in the daily press to the effect that it is not sufficient in order to be registered as a voter for a naturalized person to produce his naturalization papers to a Registrar, but that he must also go before the Registrar, and get a certificate.

This is not correct. Any person who has been naturalized can, on producing his naturalization papers and taking the required oath, have his name put on this voters' list. He should go to the Court of Revision at all.

The mistake has arisen from a confusion between persons naturalized under the "Naturalization Act" and persons who have become British subjects by operation of law.

The first category produces their naturalization papers to the Registrar, takes the oath and gets on the list.

The second category has to go before the County Court Judge for a certificate, and upon production of the certificate to the Registrar and taking the oath gets on the list.

The most common instances of this category are (a) French wives of British subjects, who, by reason of their marriage, are by operation of law British subjects, but yet cannot get a certificate from the Judge.

Another instance is that of (b) a Swiss, who comes to this country with minor children born in Switzerland. He takes out naturalization papers in this country, and, therefore, can on producing his papers get on the list, but his children, although the them British subjects by operation of law, under this Act cannot get on the list, unless they have got a certificate from the Judge.

The case for foreign born British subjects is this. If you have papers go to the registrar; if you have not, go to Judge Lammpan.

May I also urge that all persons who want to vote at this election register their names at once, and, if possible, during the day and not during the evening. Very few names have been put on the list so far.

It takes an appreciable time to get each name on the list, and, as the Ottawa authorities have not allowed me to engage the staff I considered necessary, a large proportion of the electorate will find themselves deprived of their franchise on election day if things go on as they have done up to the present.

There is no staff capable of coping with a rush on account of the restrictions mentioned, and, therefore, it is imperative that electors lose no

time in registering, and that, as far as possible, they register in the day time, leaving the evening session free for those who cannot get away during the day.

H. W. R. MOORE,  
Returning Officer.

### COAL AND SUGAR.

To the Editor.—A correspondent discussing the enhanced price of coal in your issue of Saturday is making a slight mistake in saying the increase of wages to the miners amounts to only 12 1/2 cents a ton. The majority of the mines are paid day work, and are working one hour per day less than heretofore. Therefore, it is hard to see how an increase of 25 cents in wages and a lower production in coal can only increase the cost to 12 1/2 cents per ton.

Then the statement is made that tonnage rates are higher. This is not true, because it takes coal, and lots of it (at the increased price) to tow coal. Add to this the recent raise in wages to longshoremen—30 cents an hour straight and \$1.35 an hour overtime, and it is easy to see how the common citizen who earns maybe 60 cents an hour is being hit below the belt.

As to the world shortage of coal this is understandable. Since the British miners obtained by threat the seven-hour day, the production of coal has fallen off at the rate of 47 million tons per year, although 50,000 extra miners have been added to the pay roll.

The shortage of coal in British Columbia, a glance at the Labor Gazette shows us that the miners in British Columbia and Alberta wasted in strikes no less than 59,329 working days in July alone. If we average the miner's daily output at but one ton, this loss is equivalent to nearly 60,000 tons for the month of July only—enough to supply the needs of the householders for the better part of a year.

It may be of interest to note that the miners of District 18 have been on strike for six months, not for higher wages or better conditions, but the same old humbug of an excuse, although a little worse, viz., recognition of the "One Big Union." Thus do women and children starve and freeze to gratify the ambitions of Trotsky-like, of a bunch of vain and ignorant men.

As to sugar, a sympathetic strike is largely responsible for this shortage also. Last month two heavily-laden sugar ships reached Vancouver, and after waiting some weeks in vain for the strike to subside took their cargoes back to the United States. The strikers should be deprived of coal and sugar, not the workers.

WALTER POSTER.

### NEWS AND NOTES OF THE MINES

The Salmon River district at the head of the Portland Canal continues to be the chief point of mining interest in the Province of British Columbia, and is the mecca for mining men from all parts of America. While the district is not undergoing a boom such as took place a few years ago at Stewart, the individuals one meets and the sights that are seen at the seaport town are those usually associated with mining booms.

For that reason alone a visit to the district is well worth while. Reports of the mining development, however, are most encouraging and in spite of its handicap of situation and transportation the district promises to become one of the best mining camps in the province.—Canadian Mining Institute Bulletin.

### Black Prince.

The Black Prince mine, situated on the divide between Lemon and Springer Creeks, in the Slocan district, has made its first shipment of the season to the Consolidated Mining & Smelting Company's smelter at Trail, B. C. This is a silver-lead property of promise.

The Black Prince has been developed to some extent and in the process has passed through the hands of a number of operators. Mr. J. E. Tipping, the present owner, has been in possession for the past four years, and the best car of ore taken from the mine was shipped by him. The average return in this case was about 200 ounces of silver to the ton.

### Trail Shipments.

An analysis of the shipments made to the Consolidated Company's Trail smelter with reference to the consigned shows that the smelter had 21 customers during the four month period, of whom nine received shipments in April, eight in May, 15 in June and 11 in July. Twenty of these customers were Canadian firms, and one was American.

The last named, the Pacific Orient Company, of San Francisco, received 17 consignments in June, for export, this being the only month in which it figured. The five largest customers were: The Carter White Lead Company, of Montreal, 59 shipments; the Northern Electric Company, of Montreal, 49 shipments; the Canada Metal Company, of Montreal, Toronto, Winnipeg and Vancouver, 25 shipments; the Robertshaw & Co., of Montreal, Toronto and Winnipeg, 15 shipments; and the Steel Company, of Canada, of Atwater and Montreal, 12 shipments.

The other 15 customers averaged three shipments each, the destinations including, besides the cities named above, St. Johns, Sherbrooke, Quebec, Hamilton, Walkerville and Vancouver.

The average price for April was 5,452 cents per pound; May, 5,579 cents; June, 5,556 cents; July, 6,084 cents. Shipments for the four months, reduced to tons, were: April, 675 tons; May, 1,458 tons; June, 3,278 tons; July, 1,334 tons.

### Granite-Poorman.

H. H. Vincent, president of the Vincent Development Company, which has the development of the combined Eureka-Granite-Poorman property for the Inland Mining Company, announces that the surveying of the 6,000 extension of the tramway has been completed, and that a contract for its construction will be awarded immediately.

Mr. Vincent has inspected the work at the mines recently, and reports that a car of concentrates is ready for shipment to the Trail smelter. He says that it is much cleaner and better than what was shipped in the month of August, owing to the tuning up of the Granite-Poorman mill and to other improvements effected in the interval.

### Mountain Chief.

The Mountain Chief Mining Company is making a shipment of 200 tons of the Consolidated Mining & Smelting Company's smelter at Trail, this being the first ore to go from this copper property under its present management. Development has been under way since last February. The ore body, which at first was calcopyrite, acquired a substantial percentage of bornite as the shaft

# The Big New Store

## Of MEN'S APPAREL at POPULAR PRICES

# Is NOW OPEN!

POPULAR prices! That's the big dominating idea behind this men's clothing venture. Our store is centrally located, and we have brought to it a complete new stock of men's apparel in styles that will appeal to men of all ages. The brands and qualities of clothing and furnishings we carry will be familiar to most men—it is our prices that will come as the greatest surprise. To-morrow we invite your inspection and patronage. Candidly, we are out to please you with values such as you have seldom been offered in this city for many months. Furthermore, we intend to keep up this giving of better values in order to merit continuance of your custom.

## Suits, Overcoats, Hats, Shirts—Every Clothing Item That Men Need—All at Popular Prices

THE young men who prefer waist-seam styles in clothing will find our stock plentifully supplied with smart, well-tailored examples of this businesslike model. Every young man's suit we show affords genuinely good value.

THE man who desires a suit of less conspicuous cut will find many models to his taste in our new assortment. Tweeds, worsteds and serges are offered in an extensive showing and as usual prices are at a welcome low level.

SHIRTS, Collars, Underwear, Socks—you will find the styles and brands you are familiar with at this store—and all of them at most moderate prices.

PLEASE NOTE—Our Johnson Street store will not be closed. The values there are—as always—remarkably good.

OLD STORE—Still Open at 578-580 JOHNSON STREET

### VANCOUVER ISLAND NEWS

Books Conservatives.

The first meeting of the Sooke Conservative Association since the war took place at the Sooke Hall on Saturday evening, with W. Miller Higgs, J. P., in the chair. Quite a number of ladies were present, showing the active interest they are taking in political affairs now that they have the vote. There were also present several old supporters of the association who have but recently returned from the front.

The meeting was especially called for the selection of delegates to attend the Provincial Conservative convention in Vancouver on September 29. The chairman and Alex. Campbell, were chosen, and A. Percy Raymond was selected to act as a substitute should either be prevented from attending.

Dominion Chautauqua.

Ladysmith, Sept. 15.—The Dominion Chautauqua will be held in Ladysmith on September 23, 24 and 25. The citizens of Ladysmith will be assured of a good time, judging by

the various posters, which contain the names of several first-class lecturers and artists of exceptional ability.

Buy's Property.

Wm. Nightingale has purchased the property in Rainbow Road, Ganges, owned by the executor of the late Mr. Hore.

Nanaimo Library.

A public library for Nanaimo is now assured. With spirited citizenship, Bastion Chapter, I. O. O. E., are meeting the expense of obtaining a large consignment of books quarterly from Victoria. Voluntary help for librarians is also provided for, and without doubt the new Community Centre Board will arrange for a place in the building for the library and reading room. The citizens may anticipate the enjoyment of plenty of books and magazines during the coming season.

Tax Sale.

Nanaimo city property in arrears of taxes will be offered for sale on September 30, so the City Council decided at Monday evening's session.

"When Mr. Casey died he left all he had to the orphan asylum."

"Indeed! That was nice of him. What did he leave?"

"His twelve children."

### LIFE INSURANCE PAYMENTS.

The Insurance Press computes the life insurance distributions in 1918 by insurance organizations operating in the United States and Canada, including the transactions of the Bureau of War Risk Insurance of the United States government, as follows: Claims paid, \$660,875,000; payments on policies, \$283,025,000; total, \$923,900,000; war risks, \$192,710,000; grand total, \$1,116,610,000. The present year shows large growth over 1918, because during the first six months of this year sixty-four companies wrote nearly \$1,800,000,000 of new insurance, against about \$950,000,000 in the same period of 1918. The influenza epidemic, which began in the fall of 1918, is estimated to have cost the legal-reserve life insurance companies about \$100,000,000, and an estimate of the amount the Government Bureau of War Risk Insurance will have to pay on account of influenza deaths is \$150,000,000.

### THE DIFFICULTY.

Mr. Ikenstein, the respected pawnbroker of a certain small town, was dead, and the public was notified by means of bills posted in the shop window that "This establishment will be closed on Thursday next on the occasion of the funeral of the late proprietor."

On the Thursday morning Ikenstein's eldest son decided to engage the local band to play "The Dead March" on the way to the cemetery, and word was sent to the Land-marshal to that effect.

Shortly afterward that worthy presented himself at the Ikenstein residence wearing a very worried look. "I'm afraid all your arrangements can't stand, sir," he said. "How? What do you mean?" "What I mean is, sir," came the answer, "you'll 'tber ave to open your shop or go without the band, the big drum's in pawn!"

### MARKING GRAVES OF SOLDIERS OVERSEAS

E. J. J. Glensk Explains  
System Adopted For  
Re-interment

The efforts being made to make sure that every Canadian who was killed overseas, is given proper burial and that his grave is marked so that his friends can easily find it, are well told by E. J. J. Glensk, of Vancouver, who for several months has been Y.M.C.A. secretary with one section of the Canadian War Graves Detachment. When the British authorities took over the work for Canada, the detachment returned to Canada, only a Canadian officer remaining to see to the keeping of the records.

Mr. Glensk says that the work was done most thoroughly, the men

marching over the ground only three feet apart. When any indication that a body might be underneath was observed the two men closest fell out and started to dig. The men covered the ground in waves so that every foot was scrutinized several times. Unless forty or more bodies were in one locality, the bodies are removed and buried in special cemeteries. All bodies found were interred, the Canadians, Allies and Germans being kept separate. The bodies of many men who had been reported "missing" have been identified, and it is believed that by the time the British authorities complete the task, there will be very few Canadians who were killed on the Western front whose bodies will not have been found and buried in a properly marked and registered grave.

The detachment was composed of one thousand men who volunteered for this work. They were divided into three sections and with each section was a Y.M.C.A. secretary with a complete moving picture outfit, tent for recreation and writing and a canteen stocked with Canadian goods. The "Y" man did a very necessary and greatly appreciated work for the men engaged in this gruesome task.

### AMUSEMENTS TO-DAY

Royal Victoria — "Choosing a Wife."  
Pantages—Vaudeville.  
Dominion — Mary Pickford in "The Hoodlum."  
Variety—All-star cast in Ivan Abramson's production, "The Sins of Ambition."  
Columbia—J. Warren Kerrigan in "One Dollar Bid."  
Romano—Bryant Washburn in "All Wrong."

### ROYAL VICTORIA

The thrilling adventures of a scientist among the savage natives of the South Sea Islands are realistically set forth in "Choosing a Wife," the first National attraction which will be shown at the Royal Victoria to-night and again to-morrow night.

Andrew Quick is an explorer backed by wealthy interests which send him into the South Seas to study the natives and various aspects of the country. Traveling in one of the remote islands with a small bodyguard, he is set upon by fierce savages who kill off his followers and take Quick prisoner.

Saved By Native Girl.  
Held by the natives he is visited by a dark-skinned girl who longs to go to the lands of the white men, of which she has heard in a vague and distant way. She begs to be allowed to go with him, and secretly gives him the means of freeing himself. A native lover of the woman witnesses his escape. Killing the woman who was responsible, the huge savage chases Quick to the top of a high cliff, where they fight to the death.

By superhuman effort Quick throws the savage into the sea. Later he is rescued by a relief expedition. It is then he goes back home to face the most remarkable situation imaginable, that of answering to a woman who thinks he has proposed to her, while in truth he had been trying to propose to her niece.

### DOMINION

Society girls who take life as one continual round of automobiles, parties and expensive frocks may get some new ideas of how to lavish wealth if they will see "The Hoodlum," starring Mary Pickford, produced by her and which will be seen to-night at the Dominion Theatre.

As Amy Burke, Miss Pickford depicts the part of a girl whose chief life problem is how to spend money. Amy's day begins with a lesson from a high-priced tutor who is awed by her vast wealth and consequently quite indifferent as to her education. Her other diversion is a high priced roadster which she pilots around with the speed of a race track marvel. Her wealthy but unscrupulous grandfather has also employed a groom who accompanies her on all auto ex-

ursions and whose advice she does not heed.

All of this luxury suddenly fades away showing Amy as a tenement girl whose real character is brought out when her devoted but poor father returns to town after a long absence. She prefers to live in a tenement with her father than to live in her grandfather's house without him. How a discovery made by Amy while living in the tenements aids her in restoring to respectability a man whom she loves and whom her grandfather has unjustly sent to the penitentiary makes a pleasing and interesting ending to this second of Miss Pickford's releases under the banner of First National.

### VARIETY

In these troublesome days when so many productions, both on the spoken as well as the screen stage, deal with the big affairs engrossing the world just now: when so many dramatic projects are presented to solve the knotty problems which have entangled a universe, Ivan's "Sins of Ambition" steps forth with the solution which probably will be worth while trying as a preventive of war. While "Sins of Ambition" is nowise a military or diplomatic intrigue play, certain features touch on international situations. The body of the story is an intense drama seeking to show that that which would solve family trouble would solve the troubles of a city, state, nation, yea, the world, hearing out the established fact that the family is but a large unit of the nation.

"Sins of Ambition" is attracting large crowds daily to the Variety, where it is showing this week.

### COLUMBIA

J. Warren Kerrigan will be presented on the Columbia screen for the first time to-day in "One Dollar Bid," which is a thin adaptation of Credo Harris' romantic novel of the Kentucky hills, which was published a few years ago under the title of "Toby."

The story offers exceptional opportunity for the kind of work in which Mr. Kerrigan has achieved his foremost successes. Early in the action of the play he sees a young man of refinement who has sunk to the lowest ebb. Cast aside by the whites he lives in a negro hut, no one knowing or caring who he is or from whence he came. As the story develops he rises under the influence of a girl of high ideals until at last he becomes one of the dominant factors of the town which has shunned him as an outcast. The entire theme is interwoven with strong situations and romantic moments, to all of which Mr. Kerrigan arises with that charm of manner which has been responsible for his phenomenal success as a delineator of screen types.

### PANTAGES

While his qualities of mind and muscle were playing Mr. Rawlinson foremost among the screen favorites of the day, the Craig Kennedy detective stories from the facile pen of Arthur B. Reeve were captivating multitudes of people with their enthralling blend of science, mystery and romance. It seems natural that the readers of these thrilling tales would try and picture to themselves in the flesh the character of the great detective whose exploits held them with such breathless interest. In Mr. Herbert Rawlinson they see the actual Craig Kennedy come to life.

When Mr. Reeve arranged with Oliver Films, Inc., for the production of his stories in serial film form, thousands of letters were sent throughout the United States to find

who, in the public's estimation, could most ideally portray the great fiction character, Mr. Rawlinson was that man, and Mr. Reeve's fondest hopes of finding for the hero of his fiction a star who combined intellect and physical vigor with charm and great talent were triumphantly realized. Both will be seen at the Pantages for the next fifteen weeks in the fascinating photoplay serial, "The Carter Case," as a part of the regular bills of Pantages vaudeville.

### PRINCESS

The God "Phad," unknown to historians plays havoc with the customs of the ancient Gods and Goddesses whom he persuades to live as creatures on mortal earth, the experiment finally ending in his extermination. This unique character is portrayed by S. G. Clarke in Mr. R. H. Hincks' new and original musical comedy, "Oh Jupiter." The other Gods and Goddesses are portrayed by Miss Eva Hart, Mrs. F. Bielby, Lieut. R. R. Webb, Mr. R. N. Hincks, James Hunter and A. D. M. Fairbairn whilst a very excellent chorus completes the cast. Special scenic designs by A. D. M. Fairbairn and the costuming under the direction of Mrs. Tilton will appeal to the picturesque eye, and as the whole production seethes with humor, dancing, and song, a most enjoyable entertainment is assured. The run opens on Friday evening next for which and subsequent performances seats can now be booked.

Hands Pat Credit For Leading the Reds Along Path to National League Pennant

Won the Rag With Best Team in the League, Says Chairman Hermann—Holiday for Winning Nine To-day

Cincinnati, Ohio, Sept. 17.—While "disturbing" reports were being received regarding the chairmanship of the National Commission in which Judge Landis was mentioned as a successor to Chairman Hermann, Mr. Hermann, president of the National League pennant winning club, seemed not at all interested and spent a quiet evening with friends following the victory of the Cincinnati team over the Giants yesterday. "It is a great day for Cincinnati. We won the pennant with the best team in the league. Pat Moran deserves a world of credit, as do all the players. I do not want to mention the world's series till I recover from the joy due to winning the pennant," Mr. Hermann said.

CUTHBERT GETS ONE MORE GOLF TITLE

Total Score For Four Rounds of Nine-Hole Course Was 151

Winnipeg, Sept. 17.—Equalling the course record in two rounds of the four-round final, J. T. Cuthbert, amateur golf champion of Manitoba, Saskatchewan and the Winnipeg club, added another to his string of championships yesterday when he defeated Matt Thompson, six up and five to play, in the Norwood Club event. His scores for the four rounds of the nine-hole course were 37, 37, 39, 38, a total of 151. Thompson was seven strokes worse. The record of the course, 37, was only established last week, the previous best 28 having stood for several years.

LEONARD AND DUNDEE ARE AGAIN MATCHED

Newark, N. J., Sept. 16.—Benny Leonard, world's light-weight boxing champion, and Johnny Dundee, of New York, will meet for the seventh time in an eight-round bout here to-night. All the previous bouts went the limit.

PLENTY OF DEER BUT FEW BIRDS

About Two Birds Per Man Seem to be Average Week-end Bag

Deer hunters generally seem to have met with good luck over the week-end, but those who were after the elusive grouse came home sadly disappointed with the results of their outing. All roads led to the woods during the week-end, and the turnout of sportsmen was greater than it has been of years past. Some declare they hardly saw a bird during the whole time they were out, and others bemoan the fact that they went after birds and only saw deer that they were not prepared for. "I got two grouse," said one sportsman who spent the day on the Malahat. "I saw a deer standing on a knoll as clearly and close as I could not have missed it if I tried, but all I had was a shotgun." Willow and blue grouse were both as hard to get, the hunters report, and two birds per man is given as the probably average week-end luck. Deer appear plentiful, and those who saw them with that business which the beginning of the season soon dispels had evidently not overated their numbers. The experienced shots generally had some success on their own skill, and most of the cars containing huntersmen returning along the Sooke Road Sunday and Monday contained a deer. Two parties at Fitzgerald Sunday night, one of which weighed 135 lbs. dressed. Fishing continues good. One fisherman "rolling" near Brodie Ledge, on the Breakwater, using a large spoon and a worm, caught no less than 44 grise. Around Saanich Arm Sunday was particularly good, although no such large catches are reported.

BAN JOHNSON IS BITTERLY ASSAILED

Complete Investigation into American League Finances

Chicago, Sept. 17.—A complete investigation of the financial affairs of the American League was ordered yesterday at an executive session of a majority of the board members. Charles A. Comisky, president of the Chicago Americans, was authorized to proceed with the inquiry. Ban Johnson, president of the league, was requested last month to furnish this information to the board, and has failed to do so. The question of gambling at baseball parks was also discussed, and Mr. Johnson was bitterly assailed for the failure to give the board of directors information, which he is said to have in his possession in regard to gambling at games. Ban Johnson, president of the league, was requested last month to furnish this information to the board, and has failed to do so. The question of gambling at baseball parks was also discussed, and Mr. Johnson was bitterly assailed for the failure to give the board of directors information, which he is said to have in his possession in regard to gambling at games.

OLD COUNTRY SOCCER

London, Sept. 16.—British soccer results to-day: First Division. Blackburn Rovers, 0; Middlesborough, 2. Southern Division. Fulham, 2; Clapton Orient, 1. Southampton, 0; Reading, 0. Millwall Athletic, 4; Northampton, 2. Scottish Division. Kilmarnock, 1; Glasgow Rangers, 7.

BY THE K. O. ROUTE

Denver, Colo., Sept. 17.—Johnny Noye, of Minneapolis, lightweight, knocked out Red Doan, of New Orleans, in the second round of a scheduled fifteen-round bout here last night.

SURE OF WIN SAY ISLAND NATIONALS

Confident of Overtaking the Four Goal Lead of Mainland Stickhandlers

Victoria Nationals will take the field with a strengthened side against the Mainland Nationals at Royal Athletic Park Saturday. Although Vancouver piled up a four-goal lead on the Mainland last week the local stickhandlers consider everything is in their favor for this week's tilt. "We not only expect to even up the four-goal lead but to get a comfortable margin," Bob McInnes states. "For everything will be in our favor."

PLENTY OF DEER BUT FEW BIRDS

About Two Birds Per Man Seem to be Average Week-end Bag

Deer hunters generally seem to have met with good luck over the week-end, but those who were after the elusive grouse came home sadly disappointed with the results of their outing. All roads led to the woods during the week-end, and the turnout of sportsmen was greater than it has been of years past. Some declare they hardly saw a bird during the whole time they were out, and others bemoan the fact that they went after birds and only saw deer that they were not prepared for. LEAGUE BASEBALL

Table showing league baseball standings for American League, National League, and Coast League.

WHAT'S THE "STUNT" HE WAS ATTEMPTING TO DO?

Bill succeeded in his stunt of paddling in a barrel from the Causeway up towards the Gorge as well as any James Bay athlete might have done, some years ago. Has anyone attempted it since?

OREGON FIELD TRIALS

Lebanon, Ore., Sept. 15.—Ideal weather conditions marked the opening here to-day of the Pacific Coast and Oregon State Field Trials. Meet. Eleven braces and one bye-race in the California Derby were run off, but announcement of the owners was withheld pending the trials, which are to be run to-morrow. Dogs have been entered for the trials from many states east and west.

BRITISH COLUMBIA GOLFERS WILL TAKE TRIP TO SOUND CITY

Members of All Clubs Expected For Punch Bowl Tourney

Announcement has been made to-day by the Seattle Golf Club for the annual punch bowl tournament, open to eight-man teams of the Northwest to be played at the Seattle links on September 27, and teams representing all of the British Columbia clubs, Montana, Oregon and Washington and Idaho are again expected to battle for supremacy. The punch bowl tournament is the golfing classic of the Northwest, and is the real test of golfing skill among the Northwest cranks. The competition is a 26-hole event in which the competitor plays against the beauty of the course. The total scores of the eight men in the battle with the "Colonel" determine the club's standing in the punch bowl affair. The lowest aggregate score decides the winner of the trophy for the year, and the winner becomes the host and defender of the punch bowl for the following year. Three wins are necessary for final possession of the trophy. Seattle won the first punch bowl, offered in 1909 by the Woverley Club of Portland. Then came the Seattle

AMERICAN ASSOCIATION AND COAST LEAGUE PLAY

Los Angeles, Sept. 15.—Officials of the American Association have agreed to a proposal of the officials of the Pacific Coast League to match the winner of the Association pennant with the team winning the Pacific Coast League pennant for a minor league championship series. This proposal made several days ago, was agreed to by Thomas Hickey, president of the American Association, according to information received here to-night. The winner in the American Association will meet the coast pennant winner here for a seven-game series starting, according to plans about October 10. Both teams will share equally the proceeds of the first five games, the winner of the series to get 50 per cent. of the remaining two games, and the loser 40 per cent.

**The Expert Cueists Have an Opportunity  
Connect With a Life Sized Bank Roll**

The prizes at stake when the cue artists meet in a test of skill for championship honors are worth striving for. In a notice sent to Victoria announcing the tour of American billiard champions for the season 1919-20 and the championships of the 18-2 balk line, three cushion carom game, fifteen ball continuous pocket billiards, information is given that the 18-2 balk line tournament for the national championship of the United States of America will be limited to six players, subject to an entrance fee of \$250, the following prizes to be awarded the winners according to their standing in the competition: tournament: First prize, \$2,500; second prize, \$1,750; third prize, \$1,250; fourth prize, \$750; total, \$6,250.

The three cushion tournament for the national championship of the United States of America will be limited to ten players, \$1,500 being the first of four prizes.

The pocket billiard tournament for the national championship of the United States of America will be limited to ten players, the prizes being the same.

**An Annual Salary.**  
The winner of each tournament will receive an annual salary in recognition of his having won the championship; the salaries to be as follows: Balk line champion, \$4,000; three cushion carom champion, \$2,400; pocket billiard champion, \$2,400. These salaries to be paid in monthly installments beginning thirty days after the termination of each tournament.

The winners of the three championships, together with the runners-up of each tournament must participate in a tour extending over a period of approximately eighteen (18) consecutive weeks, to play exhibitions and matches in various cities throughout the United States and Canada.

The players participating in the tour will receive during the period of said tour a special compensation ranging from \$100 per week up, according to their standing and drawing ability, as an attraction. In addition to this salary, each player is to receive free transportation throughout the tour.

**CANADIAN OARSMEN  
FOR OLYMPIC REGATTA**

Toronto, Sept. 17.—No time is being lost by the Canadian Association of Amateur oarsmen in preparing for the sending of Canadian crews to the Olympic regatta at Antwerp, Belgium, next year. At a recent meeting of the executive of the association it was decided to send delegates to the convention of the Amateur Athletic Union of Canada in Ottawa, September 27, when the Canadian track and field Olympic trials will be held. Lieut. "Bobbie" Dibble may be a delegate.

The Canadian Olympic committee has been asked to arrange for the purchase of an eight and a four for the use of the Canadian crews. In the event of it being finally decided not to send a representative Canadian crew to Antwerp, there will be no difficulty in disposing of the shells to rowing clubs.

The committee appointed by the O. A. U. at the recent Royal Canadian Henley at St. Catharines to select crews for the Olympiad will likely be called together during the convention at Ottawa, when the intention to discuss the whole matter. The association is desirous of securing information and advice from the Montreal, Brockville, Ottawa and other clubs.

**"Y" GUESTS TO STAGE  
SWIMMING EVENTS**

A meeting of the dormitory committee of the Y. M. C. A. was held Monday, W. Alcock presiding. The social committee appointed Mr. W. M. Mitchell, chairman, and Mr. L. Dixon, secretary. The first social event is to take place next Friday, when motion pictures and an impromptu concert are to be followed by refreshments. A reception to returned men and their lady friends is planned for early in October. Events in the gymnasium and swimming tank, followed by music in the lobby, will also be rounded off with refreshments. A glee club is in process of formation, having already secured the services of a leader and a pianist.

**UNIVERSITY ATHLETIC  
MANAGER.**

Lawrence, Kas., Sept. 17.—The athletic board of Kansas University yesterday elected Dr. Phreast C. Allen, formerly of Warren, Normal, Kas., athletic manager of Kansas University.

**PLAY EXTRA HOLE TO  
SETTLE GOLF HONORS**

Winnipeg, Sept. 15.—Emulating the recent historic battle for the amateur golf championship of Manitoba, which required an extra hole to decide the issue, the final of the ladies' provincial championship also went one hole further than the regulation length at the St. Charles Country Club to-day. Mrs. K. C. Allen winning the 19th from Mrs. Bearisto, and with it the title. Mrs. Bearisto tied up the match on the 17th, halved the 18th, only to be beaten on the putt at the extra hole necessitated. Mrs. Allen completed the 19 holes in 38, Mrs. Bearisto being one less.

Mrs. Bearisto proved herself a real acquisition to the golf talent of Winnipeg, having recently come to this city from Calgary.

**CONCEDES PENNANT.**

New York, Sept. 15.—John McGraw, manager of the New York Giants, has conceded the National League pennant to the Cincinnati club, according to a message received to-night by club officials here. The message stated that McGraw was returning here and had appointed Coach Christy Mathewson temporary manager. The Reds can cinch first place by defeating the Giants tomorrow. New York is assured of second place, McGraw said.

"Now, if there is anything you wish explained, just ask me," said he at the race meeting. "I suppose some things are meaningless to you."  
"Everything I've seen and heard so far is meaningless," said the girl.  
"Some of the things are positively silly."  
"For instance?"  
"Why do they call 'he seats the stands'?"  
Even the brunette insists on fair treatment.

**Eight Provincial Liberal Premiers and Leader of the Ontario Opposition**

This group, taken at Ottawa during the recent National Liberal Convention, shows the leaders of the Liberal party in each Canadian province. Reading from left to right the group is:—  
Hon. J. H. Bell, the new Premier of Prince Edward Island.  
Hon. T. H. Norris Premier and Commissioner of Railways of Manitoba.  
Hon. W. M. Martin, Premier and Minister of Education, of Saskatchewan.  
Hon. Charles Stewart, Premier and Minister of Railways, of Alberta.  
Sir Lomer Gouin, Premier and Attorney-General, of Quebec.  
Hon. W. E. Foster, Premier of New Brunswick.  
Hon. G. H. Murray, Premier and Provincial Secretary, of Nova Scotia.  
Hon. John Oliver, Premier and Minister of Railways, of British Columbia.  
Hartley H. Dewar, K. C., Leader of the Liberal Opposition in Ontario.

**IMPORTANT PROPOSALS  
FOR ATHLETIC UNION**

Victoria Men Will Watch Reinstatement Decision With Interest

British Columbia amateur officials will suggest a number of important changes in the laws of the Amateur Athletic Union of Canada at the annual convention which will be held at Ottawa on September 25, and, in the event of their adoption, it will virtually result in home rule for provincial bodies affiliated with the national union. Dave Leith, of Vancouver, who leaves on Friday next to represent the province at the Ottawa conference, will press for the adoption of certain changes in the amateur code, and the enactment of legislation which will give the various provincial bodies more authority.

All of the four western provinces are working to the same end in bringing about changes in the A.A.U. of C. laws that will give the provincial bodies wider scope. One matter in which Victoria sportsmen are especially interested is the plan to ask for the abolition of the present national registration committee, and to give the governing bodies of the various provinces the power to reinstate athletes and issue cards pending the official O.K. from the A.A.U. of C. governors. At present it is necessary to recommend reinstatement to the governors, and then await action, sometimes long delayed, before the athlete can participate in games. Under the new proposal the provincial body would conduct an investigation and determine the issue on its merits. In the case of returned soldier athletes the westerners will suggest that the provincial bodies take up these cases individually and act accordingly without having to refer the matter to Toronto headquarters, in fact, the western officials will insist on more authority in amateur affairs in their own territory.

"We will insist on a more generous action in the matter of competition between the professional and amateur," Mr. Leith declares. "Whether the number of the cases of returned soldier athletes the professional has long been a contentious point. We have gone into this very carefully and will recommend that such permission be given in team sport, subject, of course, to the provincial union being thoroughly conversant with the facts, and seeing to it that the amateur interests are protected. We have prepared the matter to Toronto headquarters, in fact, the western officials will insist on more authority in amateur affairs in their own territory."

**DR. J. T. M. ANDERSON**  
Director of Education among New Canadians, Regina, Sask., who will deliver an address on "The School and the Newer Citizens of Canada," before the National Conference on Education, which is to be held in Winnipeg, October 20-22.

**DR. JOHN M'KAY**  
the newly-appointed Principal of Manitoba College, Winnipeg, who has been chosen as one of the leaders of discussion for the National Educational Conference, which is to be held in Winnipeg, October 20-22.

**REPRESENT PROVINCE  
IN TITULAR EVENTS**

John Cameron, all-round athletic champion of British Columbia, and Lee Cowan, the speedy colored sprinter, will represent British Columbia at the Canadian championships to be held at Ottawa on Saturday, September 25, and will leave for the East on Friday night, it was announced to-day. They will have a couple of days in which to condition themselves before the titular meet in which the cream of Canadian and American athletic talent will compete. Cameron will enter six events, while Cowan will start in three. Their entries were wired last night by Mr. Leith. The Vancouver policeman-athlete will compete in the sixteen-pound hammer, sixteen-pound shot put, twelve-pound shot-put, fifty-six-pound weight, discus throw and grenade throwing. Cowan will start in the century dash, 220-yard dash and the running broad jump.

**THE UNNATURAL SMITH.**

Police Captain McKinney said in New York:  
"The Bolsheviks tell us we should not love our own country better than any other country, but should love all countries alike. That seems unnatural to me."  
"Yes, not to prefer your own country seems as unnatural as the conduct of Mr. Smith."  
"Mr. Smith was informed by William, his office boy, that a lady wished to see him."  
"Is she good looking, William?" Mr. Smith asked.  
"Yes, sir; very," said William.  
"The lady made her visit, and after she was gone Mr. Smith growled to William indignantly:  
"A fine judge of beauty you are, I must say."  
"Well, you see, sir," said William, "I didn't know but what the lady might be your wife."  
"So she is my wife," growled Mr. Smith.

**VETERANS PROTEST  
S. C. R. RESIGNATION**

Sixty-three New Members. Elected; Five Hundred Dollar Gift

The Great War Veterans' Association, at their meeting last night formally protested against the forced resignation of Dr. C. Denton Holmes from the Soldiers' Civil Re-establishment Board. It was announced at the meeting that Dr. Holmes had been asked to resign. The meeting decided that action should be taken at once and Comrades Purser and Tait had the following resolution passed unanimously:  
"That this branch of the G. W. V. A. protests against any action by any parties for the resignation or removal of Dr. C. Denton Holmes from the position of Assistant Medical Director of 'J' Unit, S. C. R."

Sixty-three new members were initiated, including Major Martyr, Industrial Commissioner. This brings the membership up to 1,750. Comrade Johnson was chosen to succeed Comrade D. Donaldson, who has resigned the office of recording secretary of the G. W. V. A.

It was announced that Mr. Griffith R. Hughes has given \$500 to the building fund of the Association.

The Association passed a vote of thanks to Mr. Hughes.  
The Association will send a letter of sympathy to the parents of Comrade Miller, who was drowned in the George last Sunday. A wreath was sent for the funeral.  
Names of blind veterans known by members of the Association are to be sent to the secretary of the S. C. R. The Women's Auxiliary have charge of the dance next Friday night to raise money for the Association's football fund.

Most people are sorry only after it is too late.

# ACUTE TRAVEL PROBLEM DEVELOPS ON PACIFIC

### Big Shipping Companies Unable to Handle Phenomenal Rush of Passenger Business Between This Coast and the Far East—Ships Are Booked Months Ahead

The transportation problem on the North Pacific route is becoming distinctly acute. For months ahead all available space on liners operated by the various shipping companies has been fully booked and the demand for accommodation continues. Travel on an even greater scale is predicted for next year, and in order adequately to take care of the new business additional tonnage is being built for the Pacific trade.

#### New Ships Solution.

It is expected that the giant passenger liner Empress of Canada, built for the C. P. O. S. at the Fairfield yards on the Clyde, will be available for next year's travel on this ocean. A second ship of the same type has also been contracted for to augment the C. P. O. S. service between British Columbia ports and the Far East.

The Japanese companies are also making preparations to handle the ever increasing travel on the Pacific. Three 20,000-ton passenger liners are planned by the Nippon Yusen Kaisha, the first of which will be turned out by a British yard, and the Osaka Shosen Kaisha is considering the development of its passenger service by adding new and larger tonnage.

The bulk of the North Pacific passenger business is now handled by the Canadian Pacific Ocean Services, Ltd., and the Nippon Yusen Kaisha. The C. P. O. S. operates the fine liners Empress of Asia and Empress of Russia, and the smaller liners Empress of Japan and Monticello. The Fushimi Maru, Suwa Maru, Katori Maru and Kashima Maru, all splendid passenger ships, are maintaining the N. Y. K. trans-Pacific service.

**Holt Beats Get Business.**  
The Blue Funnel Line is benefiting from the phenomenal demand for passenger space to the extent that all the limited cabin accommodation on the three modern freighters plying on this route is invariably taxed to capacity.

The situation at the present time is that many prospective travellers are unable to reserve space with any prospect of immediate departure. The coast steamship offices of the different lines are deluged with inquiries for accommodation.

The Nippon Yusen Kaisha recently boosted their rates, but in spite of the big increase there appears to be no lessening of applicants for accommodation.

The C. P. O. S. is said to be contemplating a similar increase in passenger rates.

**Empresses Booked.**  
The liners Empress of Japan and Empress of Russia, which are due in port this week and from the Orient are already fully booked for the return voyage.

The fact that these vessels will be required for the transportation of coolies back to China will not interfere with the booking arrangements for first class passenger space.

The Chinese coolies will be carried in the steerage quarters.

The liner Monticello, which is sailing to-day for the Orient, is also a full ship.

**Suwa Full Up.**  
With all her accommodation taken up the Nippon Yusen Kaisha liner Suwa Maru will clear from this port to-morrow afternoon for Yokohama and Hongkong. People desiring to sail by this boat have been turned away.

Reports of congested space also emanate from the Osaka Shosen Kaisha offices. The local agents are unable to secure space for the outward sailing of the liner Africa Maru. The Africa Maru sailed from Yokohama September 9, and is expected to make Victoria September 22.

#### SUNRISE AND SUNSET.

Time of sunrise and sunset (Pacific standard time) at Victoria, B. C., for the month of September, 1919:

Day	Hour Min.	Sunset	Hour Min.
1	5:30	6:56	
2	5:30	6:55

## Clears the Nostrils In Five Minutes

### Routes Out Catarrh, Stops Sniffles, Prevents Sneezing

Catarrhone is a Marvel.

It just takes about five minutes for the penetrating vapor of Catarrhone to clear out clogged nostrils. Hard crusts and accumulations are quickly removed. The soothing balsam of Catarrhone draws out every vestige of inflammation, nose-ache stops as if by magic. Catarrh is prevented, better health is assured. To cure colds without taking drugs may seem almost too much to believe, but Catarrhone does it quickly and effectively. Endorsed by physicians and in common use by the people of many nations. All dealers sell Catarrhone, complete size 25c, small size 10c; sample size 3c, direct from the Catarrhone Co., Kingston, Canada.

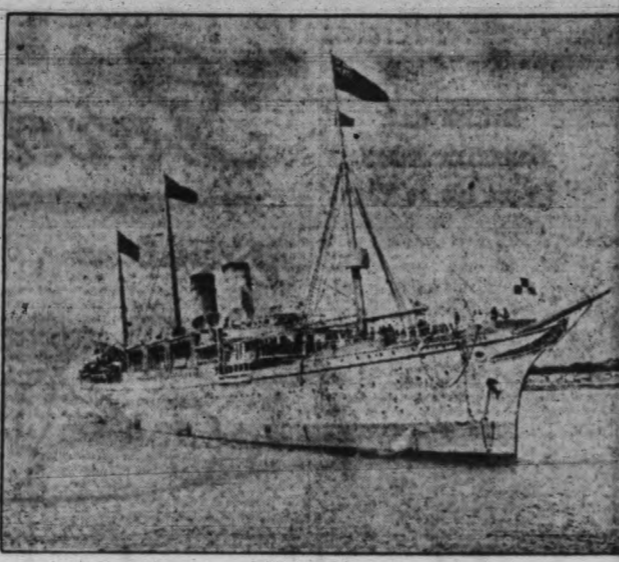

The time used in Pacific standard for the 120th meridian west. It is counted from 0 to 24 hours from midnight to midnight. The figures for height serve to distinguish high water from low water. Where black occurs in the table, the tide rises or falls unusually during two successive tidal periods without turning.

The height is in feet and tenths of a foot above the average level of lower low water.

**Sequimait.**—To find the depth of water on the sill of the dock at any tide, add 15.0 feet to the height of high water as above given.

In front of Stanford University, U.S.A., there formerly stood a statue of Agassiz, the famous Swiss naturalist. A recent slight earthquake turned the statue head over heels and rammed its head and shoulders into the ground, so that it now stands upside-down.

## C. P. O. S. LINER EMPRESS OF JAPAN

Which is expected to arrive here on Friday with 400 British soldiers from Siberia.

## BAND IS LOCATED AT OGDEN POINT

### Large Audiences of Workmen Appreciate Daily Lunch-Hour Performances

The Foundation Band under the direction of Bandmaster Lou Turner is now located at the outfitting plant at Ogden Point, where musical programmes are rendered at the lunch hours daily. As Ogden Point is now the busiest scene of the Foundation Company's activities it was decided last week that the ship-outfitting plant was the logical station for the location of the band.

With well over one thousand men employed at the Ogden Point plant the band is daily assured of large and appreciative audiences.

Throughout the spring and summer months the band has been serving the musical needs of the Point Hope and Point Ellice construction party. The band will still be an important feature at the launchings of the remaining hulls.

Organized by Lou Turner, the Foundation Band has become one of the most noted musical units on the coast and its services are in great demand outside of the shipbuilding activities. The idea of establishing a band here was conceived by Bayly Hopkins, Pacific Coast head of the Foundation Company, and throughout the course of the French contract he has taken a personal interest in its development.

The band is composed entirely of workers in the shipyards.

## EMIGHEN MEN OF BAYRONTO'S CREW LANDED AT HAVANA

Havana, Sept. 17.—Eighteen men of the crew of the British steamer Bayronto, from Galveston to Marcellines, who had been picked up at sea from a lifeboat were landed here yesterday. Thirty others of the crew are missing.

**Wreck Located.**  
Savannah, Ga., Sept. 17.—The wreck of the steamer Barnstable, disabled in a storm Saturday night en route to Havana, has been located by the revenue cutter Itasca and one survivor rescued. Eleven others of the crew are believed lost.

## DOLLAR TONNAGE FOR COOLIE TRANSPORT

### Three Freighters Will Assist in Moving Labor Corps Back to China

Vancouver, Sept. 17.—The Canadian Robert Dollar Company will assist the C. P. O. S. and the Blue Funnel Line in carrying Chinese coolies from the war front back to their own homes. Mr. Dollar states that the Harold Dollar would be the first to load the coolies outward. The Beale Dollar and Melville Dollar will take shiploads of passengers also as they arrive. About 1,700 coolies will be carried on each vessel each trip.

Mr. Dollar who has just returned from New York announced also that the new steamship Grace Dollar will load Oriental cargo at San Francisco, come to Nanaimo to coal and sail for the Orient. She will there take cargo for her regular run to Vancouver, arriving in this port about the middle of October.

The M. S. Dollar, formerly the War King, the big 13,000-ton freighter recently purchased will sail from a Cape Lazo—Overcast; S. E. light; 29.92; 55; sea smooth. Spoke steamer Admiral Rodman, 7.20 p. m., through Seymour Narrows, 6.40 p. m., southbound; spoke D. G. S. Estevan, 5.20 a. m., abeam Cape Lazo, southbound. Pacha—Overcast; S. E. light; 29.82; 55; light swell.

Alert Bay—Cloudy; S. E.; 29.54; 54; sea smooth. Trinagle—Fog; S. E.; 29.92; 54; thick seaward. Spoke steamer Firwood, 7.10 p. m., five miles north of Millbank Sound, 8 p. m., northbound; spoke steamer Prince Albert, 9.35 p. m., abeam Bella Bella, southbound; spoke steamer George, 10 p. m., Millbank Sound, northbound.

Dead Tree Point—Rain; S. E.; 29.63; 52; sea rough. Ikeda Bay—Rain; S. E. fresh; 29.65; 55; sea moderate. Prince Rupert—Overcast; S. E. moderate gale; 29.60; 49; sea rough. Passed out steamer Camouan, 8.20 p. m., southbound.

Triangle—Fog; S. E.; 29.92; 54; thick seaward. Spoke Steamer Gray, 11 a. m., off Cape Cook, northbound. Dead Tree Point—Cloudy; S. E. strong; 29.61; 61; sea rough. Ikeda Bay—Rain; S. E. strong; 29.63; 55; sea rough. Prince Rupert—Rain; S. E. strong gale; 29.44; 59; sea rough. Passed in, Steamer George, 10 a. m., northbound; passed in, Steamer Prince John, northbound.

## DEMAND OF UNION TO SHARE PROFITS HAS BEEN DROPPED

San Francisco, Sept. 17.—Demands of the Riggers' and Stevedores' Union that it share in the dividends of the various steamship companies precipitated the strike of between 500 and 600 waterfront workers, E. W. Saunders, president of the International Brotherhood of Union, announced here. Union officials said these demands had been dropped.

"The granting of such demands would mean a decrease of forty per cent in working efficiency," said Saunders. "We are willing to pay the advanced wages demanded, but we cannot stand for any lowering of our standards."

The strike was called Tuesday. The sole reason for the strike was that the employees were working the men excessively hard and refused to employ more men where more were needed, union officials said.

## NEW WOODEN SHIP GETS \$58 RATE FOR INDIAN TRIP

The first sailing vessel to be chartered to carry lumber from Puget Sound to India in recent years is the new five-mast schooner Bianca, shortly to be launched at Seattle, which has been fixed to carry a 2,000,000 ft. lumber cargo to Bombay. The charter rate is \$58 a thousand board feet. The vessel is owned by the Binns Shipping Corporation, of Seattle.

## BELGIAN FINANCES.

Brussels, Sept. 17.—Premier de La Croix announced to-day the Belgian Government had concluded an agreement with J. P. Morgan & Company and the Guaranty Trust Company, of New York, by which they become the financial agents of the Belgian Treasury in the United States.

## NEW PILOTAGE DISTRICT

A pilotage district, to be called the Pilotage District of British Columbia, has been established with limits from the international boundary on the south to the international boundary between Alaska and the Dominion on the north, excepting the throat and therefrom the waters of the Pilotage District of New Westminster.

# Polarine

FRICITION REDUCING MOTOR OIL  
"Makes a good car better"

A refinery where crude oil is received and Imperial Polarine and other Imperial products are manufactured.

### Expert Refining

All the experience and skill of Canada's best known and largest oil company goes into the refining and making of Imperial Polarine.

Imperial Polarine shows its quality in service. It is proof against severest engine heat and the pressure of engaging parts. Its body holds. It keeps on lubricating. It makes cylinders power tight so far as an oil can. It burns clean.

Three grades—Imperial Polarine, Imperial Polarine Heavy and Imperial Polarine A. Ask the Imperial Oil Man which you need.

In one-half, one and four-gallon sealed cans—twelve and a half gallon kegs, in half-barrels and barrels.

Sold by good dealers everywhere.

Helen—"Do you believe it is true that all the world loves a lover?"  
Tom—"No, not since I had an interview with your father."

### FULLY APPRECIATED EXHIBIT AT TORONTO

Praise Is Given to B. C. Government Display at National Exhibition

That the British Columbia exhibit at the Canadian National Exhibition at Toronto attracted general attention is evident from the appreciative notices of the local press. The Toronto Daily Star says: "An exhibit that never fails to hold the attention of home builders and all those interested in any way with manufactures in which wood is used, is that of the Province of British Columbia, in the Government Building at the exhibition."

A distinct departure from the exhibits of former years has been made in the arrangement of the booth, instead of timber in the rough being featured, the exhibit consists of the finished products and their application.

The booth, which is on the left of the main entrance, is lined with beautiful panels, finished in their natural colors. In addition, several handsome pieces of furniture are shown, stained and finished in various ways, besides which there is a large assortment of manufactured articles made from the different kinds of woods indigenous to the province. There is also a series of slabs, finished and polished to imitate other rarer and more expensive woods, all of which give the visitor an excellent idea of the wide variety of uses the woods of British Columbia may be adapted to.

#### Products of Forests.

The attention of the visitor is especially called to the exhibits of Douglas fir. This is easily the best all-round wood for exterior and interior work. It has strength and elasticity beyond that of any soft wood known, while its beauty of grain is almost unequalled for interior finish. Panels of rotary cut veneer show lines of exceptional beauty. As an example of what may be done with this wood, when chemically shown at the booth, finished to represent dark mahogany, light golden oak and dark golden oak.

Western red cedar may perhaps be said to be the pet wood of the exhibit. In it is reached the highest mark in the matter of beauty of color and delicacy of grain. A chest shown made from this wood never fails to call forth the enthusiastic admiration of all who see it. But not only is Western red cedar famous for its beauty, but also for service. It is the one and only wood out of which house shingles can be satisfactorily made, and when chemically treated is proof against fire. The wood is invaluable for the manufacture of clothes chests, closets, drawers, etc., while nothing like it has been found for exterior work where the surface is exposed to the weather. It is of the greatest value for fumes, rowboats, trellis work, and hothouse frames.

#### Used For Aeroplanes.

British Columbia is justly proud of her great forests of cedar, fir and spruce. These were the woods used so extensively in the manufacture of aeroplanes for the British and Canadian flyers. During the war 35,000,000 feet of spruce were used in war planes and 10,000,000 feet of fir. British Columbia placed sawn lumber at the disposal of the British Government sufficient for the manufacture of 30,000 aeroplanes.

British Columbia also produces the finest of everything in boxes, from the daintiest of little baskets to the heaviest packing case. Sitka spruce is largely used in their manufacture, being free from resin or pitch, taste or odor, and having a straight, white, tough grain of great strength and lightness.

The best exhibit and display ever put up by British Columbia has been commented upon by many prominent visitors.

The walls of the exhibit are of natural panelling of various woods, while in prominent places are small individual panels, showing the different finish stains.

The exhibit is in charge of Major J. Brechin and W. Robertson, two returned men, and they are to be highly commended for their efforts. Messrs. Brechin and Robertson are the local representatives of the British Columbia Lumber Commission, and have offices at 409 Kent Building, Toronto.

### EXHIBITION TO BE BRILLIANT AFFAIR

Home Products Fair During "Week of September 22-27 Almost Ready

Next Monday Victoria's 1919 Home Products Fair will be thrown open to the public with due ceremony, amid gay and brilliant surroundings. From start to finish of the big Fair, which runs during the entire week of September 22-27 inclusive, the management has provided for plenty of good music, a ten-piece orchestra having been engaged.

The interior of the huge and palatial Hudson's Bay Building, which has again been kindly loaned for the purpose, will be veritable Fairyland. Some of the exhibits this year will be exceedingly attractive, and one includes the working out of a water-fall scheme with mirrors and lights so placed as to make the display one of great effectiveness. There will be numbers of working displays, and the whole arrangement of the exhibition is exceedingly attractive.

Drawings for places took place Monday afternoon, when it was discovered that there are a great many more exhibitors this year than last. The competition therefore, is going to be very keen for the prize for the best exhibit.

The exhibits themselves will present a beautiful scene in their artistic and elaborate arrangement, while the pillars and beams of the interior of the vast building will be gaily bedecked with flags and bunting, and the floral features will give the whole scene an added color effect.

The fact that the exhibition will be held during Royal Week, when thousands of additional visitors will visit the city during the presence here of the Prince of Wales, has spurred the management and the exhibitors on to even greater efforts than they have made heretofore. Victoria, too, is in a better and more prosperous position than a year ago and manufacturers and business men are a good deal keener on the merits of exhibition displays as a means of advertising and making themselves and their goods known.

The Hudson's Bay Building will remain open during this week from 8 o'clock in the morning until 11 o'clock at night for the use of exhibitors only. All displays must be in place in good time so as to eliminate confusion incident to this sort of work being carried on after the doors are thrown open to the public next Monday.

George L. Warren, the fair manager, now has his headquarters in the fair building, and three telephones have been installed.

### CONSERVATIVES TO ELECT DELEGATES

Forty delegates, the number to be made up of both men and women, are to be chosen a block to-morrow night in the Belmont House to represent Victoria at the Provincial Conservative Convention, scheduled for September 23 and 24 at Vancouver. W. J. Bowser, K.C., Provincial Conservative leader, will speak.

The Esquimalt delegation to the convention has been chosen as follows: Capt. Cox, W. J. Pitcock, J. R. Saunders, R. A. Anderson, P. D. Sedger, W. J. Cave, all of the Town of Esquimalt; A. C. Burdick and David Henry, of Metchoin, and Miller Higgs and Alexander Campbell, of Sooke. Alternates are: A. Sadler, W. Dawson and A. P. Raymond.

### ROTARIANS TO LEARN OF CURES FOR UNREST

What is wrong with this old world anyhow? is announced as the attitude of the members of the Victoria Rotary Club at their luncheon at the Empress Hotel, Thursday, when the committee on industrial unrest, its causes and cures, will bring down its report.

The new entertainment committee under Lieut. R. R. Webb will make its introduction. Arthur Mallett is acting secretary during the absence of Captain Goodlake in Tacoma.

### COST OF LIVING CAMPAIGN IN BRITAIN

London, Sept. 17.—(Reuter's)—Mr. McCurdy, chairman of the Central Committee under the Profiteering Act, in order to deal with such trusts. The Central Committee would sit in three sections—Investigation of prices committee, committee on trusts and committee on complaints.

Mr. McCurdy declared that the Government classed profiteers with rats and other vermin, and was determined to stamp the profiteers out. Criticism against the Anti-Profiteering Act is mainly on the ground that it will never touch the big profiteers but merely render the small trader liable to espionage and persecution. Meanwhile, street markets are being increasingly instituted in the crowded streets. Their establishment is frequently followed by a drop in prices at the neighboring shops.

Behavior is a mirror in which every one shows his image.
