Chapter VII—War Food Administration
(Agricultural Adjustment)

PART 727—FLUE-CURED TOBACCO

ISSUANCE OF MARKETING CARDS

Pursuant to the authority vested in the Secretary of Agriculture by Title III of the Agricultural Adjustment Act of 1938, as amended, and in the War Food Administrator by Executive Order No. 9322, as amended by Executive Order No. 9334, the marketing quota regulations, flue-cured tobacco, 1943-44 marketing year, are hereby amended as follows:

§ 727.530 *Issuance of marketing cards* * * *

(b) *Excess marketing card (MQ-757 flue-cured).* Except where the county committee determines that, by reason of flood, any crop on the farm has been destroyed or planting interfered with, an excess marketing quota card (MQ-757 Flue-cured) showing the extent to which marketings of tobacco from a farm are subject to penalty shall be issued for a farm under the following conditions:

(1) If the harvested acreage of tobacco in 1943 is in excess of the farm acreage allotment and such excess tobacco is not disposed of in accordance with § 727.529 hereof, or if the operator of the farm also operates another farm on which the harvested acreage of tobacco in 1943 exceeds the farm acreage allotment and such excess is not disposed of in accordance with § 727.529 hereof.

(2) If a within quota marketing card could be issued for the farm but the county committee determines that a zero percent excess marketing card is necessary to protect the interest of the Government and to insure proper identification of and accounting for the disposition of tobacco produced on the farm and the proper use of the marketing card issued for the farm.

(3) If there is tobacco available for marketing from the farm but no tobacco acreage allotment was established and such tobacco is not disposed of as provided in § 727.529 hereof.

(4) If information required for preparation of the marketing card is not furnished or the county committee is prevented from obtaining the necessary information.

(5) If there is tobacco available for marketing from the farm carried over from a prior marketing year and the harvested acreage in 1943 is not less than the 1943 acreage allotment by an amount equivalent to the acreage of carry-over excess determined as provided in § 727.530 (c) hereof.

(6) If a farm operated by a publicly owned experiment station produces tobacco for other than experimental purposes and such tobacco is not disposed of as provided in § 727.529 hereof.

TITLE 10—ARMY: WAR DEPARTMENT
Chapter VIII—Procurement and Disposal
of Equipment and Supplies

PART 81—PROCUREMENT OF MILITARY SUPPLIES AND ANIMALS

MISCELLANEOUS CORRECTIONS

Sections 81.1402, 81.1405 and 81.1406, as published in the FEDERAL REGISTER 2 September 1943 (8 F.R. 12068, 12069) are corrected to read as follows:

§ 81.1402 *All requisitioning by or on behalf of the Army to be in accordance with §§ 81.1401 to 81.1458.* All property to be requisitioned by or on behalf of the Army under the authorities referred to in § 81.1401 will be requisitioned as provided in this procurement regulation, unless authority to requisition the property otherwise has been specifically granted. However, the procedure prescribed by this procurement regulation relates only to requisitioning under such authorities and does not apply to, or prescribe procedure for, any other methods of requisitioning or commandeering which may be available to officers in theaters of operations.

§ 81.1405 *Statutory authority to requisition property.* (a) The Act of October 10, 1940, as amended, authorizes the taking of property by requisition when it is determined that:

(1) The property is military or naval equipment or munitions, or component parts thereof, or machinery, tools, or materials, or supplies necessary for the manufacture, servicing, or operation thereof;

(2) The property was ordered, manufactured, procured, or possessed for export purposes, and that the exportation thereof has been prohibited or curtailed in accordance with the provisions of sec-

tion 6 of the Act of July 2, 1940 (54 Stat. 714) as amended (56 Stat. 463, 50 U.S.C. App. 701), or any other law; and

(3) It is necessary in the interest of national defense or prosecution of the war to requisition and take over the property for use or operation by the United States or in its interest.

(b) The Act of October 16, 1941, as amended, authorizes the taking of property, other than fire arms possessed by an individual for his personal protection or sport, possession of which is not prohibited by existing law, by requisition, if the taking will not impair or infringe in any manner the right of any individual to keep and bear arms, when it is determined that:

(1) The property is military or naval equipment, supplies, or munitions, or component parts thereof, or machinery, tools, or materials necessary for the manufacture, servicing, or operation of such equipment, supplies, or munitions;

(2) The use of the property is needed for the defense of the United States;

(3) Such need is immediate and impending and such as will not admit of delay or resort to any other source of supply; and

(4) All other means of obtaining the use of the property for the defense of the United States upon fair and reasonable terms have been exhausted.

§ 81.1406 *Initiation of requisition proceedings*—(a) *Preparation of proposal and statement by initial requisition officer.* Having satisfied himself as to the existence of statutory authority to requisition the property, the initiating requisition officer will prepare and execute a proposal and statement in the appropriate one of the forms set forth in §§ 81.1417 and 81.1418; the form set forth in § 81.1417 being used if the property is to be requisitioned under the 1940 Act and the form set forth in § 81.1418 being used if the property is to be requisitioned under the 1941 Act. Copies of such forms of proposal and statement may be obtained from the chief requisition officer or from the Legal Branch, Purchases Division but, to expedite the proceedings, the initiating requisition officer may type or otherwise appropriately reproduce such forms. The following will be observed in the preparation of proposals and statements regardless of which form is used, to the extent practicable under the particular circumstances of each case:

(1) The property proposed to be requisitioned will be described accurately, and, in the fullest detail possible as to size, shape, quantity, quality, finish, etc., in order that a complete, correct and precise description of the property may be set forth in the requisition.

(2) The names and addresses of the owner or owners of the property, of all persons who may claim an interest in the property or a right to share in the compensation to be paid (such as common carriers, warehousemen, forwarders and others having possessory liens, and collectors of customs, mortgagees, conditional sale vendors and the like), together with a statement of their respective interests or possible interests will

be included appropriately in the proposal, and the nature and extent of the inquiry made to ascertain such persons and their interests or possible interests, which will be as thorough as may be practicable consistent with the speed of action required, will be set forth in the statement.

(3) The allotment, appropriation or fund specified in the statement will be charged with an amount clearly sufficient to represent full, fair and just compensation for the property.

(4) The persons designated as available to serve the requisition if it issues will be persons who will be available to, and will, personally serve the requisition as provided in § 81.1408. Two or more persons should be designated in each case to assure that at least one of them will be available to serve the requisition when it issues.

(5) Directions for disposition of the property will be as full and explicit as necessary to permit the serving officer to make the desired disposition of the property immediately upon service of the requisition.

(6) The facts indicating statutory authority to requisition the property will be set forth in detail sufficient to permit an independent determination of the existence of statutory authority to be made by higher authority. The proposal and statement in this and other respects may incorporate by reference statements contained elsewhere in them or in written memoranda or correspondence annexed to the statement as exhibits.

(b) *Transmittal of proposal and statement.* The original and one copy of the proposal and statement will be forwarded by the initiating requisition officer to the chief of his technical service addressed to the attention of the chief requisition officer, and seven copies thereof will be forwarded to the Legal Branch, Purchases Division.

(c) *Approval of report and statement by chief requisition officer; preparation of requisition, notices of requisition and instructions to serving officer.* The chief requisition officer will, if the proposed requisition is approved by him on behalf of his technical service or service command and if he concurs in the statements and certifications made by the initiating requisition officer in the proposal and statement, designate the initial compensation officer, endorse his approval on the original of the proposal and forward it in the most prompt method available to the Legal Branch, Purchases Division. He will also prepare (1) six copies of a proposed requisition for signature, (2) Notices of requisition in the form of that set forth in § 81.1422, in as many copies as will be required by the serving officer for service, plus four additional, and (3) such instructions to the serving officer, as to the person or persons upon whom the requisition and such notices of requisition should be served, as to any investigation and inquiry to be made by the serving officer to ascertain other persons who may have, or assert, any interest in the property, or otherwise, as may be appropriate in the particular

case and, unless the chief requisition officer has been advised otherwise, will forward the same to the Legal Branch, Purchases Division, in such manner as to be received by it within twenty-four hours after it shall have received the original of the proposal and statement. If negotiable documents of title relating to the property are outstanding and the whereabouts thereof is known such documents should be included in the requisition as a part of the property to be requisitioned.

PART 1114—TIRE RETREADING, RECAPPING AND REPAIR EQUIPMENT

[General Limitation Order L-61, as Amended Sept. 18, 1943]

The fulfillment of requirements for the national defense has created a shortage in the supply of certain critical materials used in the manufacture of retreading, recapping and repair equipment for the national defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1114.1 *General Limitation Order L-61—(a) Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or any organized group of persons, whether incorporated or not.

(2) "Retreading, recapping or repair equipment" means any mechanical device used in connection with applying uncured rubber (in the form of camel-back, patching rubber or otherwise) to

rubber casings or innertubes for the purpose of renewing or repairing a rubber casing or innertube. The term includes, but is not limited to; full circle molds, full circle matrices, holders, tables, steam chambers, kettle curing devices, curing rings, curing bands, pressure plates, spacer rings, curing rims, sectional molds, sectional matrices, tire and tube repair and spot equipment, tire spreaders, tire buffers, mechanical stitchers, mechanical rollers, regroovers. It does not include, however, small tools such as knives, hand rollers, hand stitchers, jacks, shears, and other miscellaneous shop tools and supplies.

(3) "Delivery" means any physical delivery of any item of retreading, recapping or repair equipment, or parts of such equipment to other persons.

(b) *Restrictions on production.* (1) No person shall manufacture any new retreading, recapping or repair equipment or parts or such equipment except to fill orders authorized by the War Production Board or as permitted by paragraph (e) of this order.

(2) On and after October 1, 1943, no person shall fabricate component parts for, or assemble them in the manufacture of any new full circle and sectional molds, matrices, curing tables, curing rings, steam chambers or kettle curing devices to fill orders which have been authorized before October 1, 1943, under the provisions of this order. Any manufacturer who has unfilled orders, authorized on Form WPB 2521 (Form PD-840) before October 1, 1943, for any items of new equipment enumerated above, may apply for special authorization by the War Production Board to continue his production by filing a list of his unfilled orders on Form WPB 3149. The orders which may be filled on and after October 1, 1943, will be authorized on the form which will be returned to the manufacturer.

(c) *Restrictions on delivery.* No person shall deliver or accept delivery of any new retreading, recapping or repair equipment, or parts of such equipment except as permitted by paragraph (e) or as specifically authorized by the War Production Board in accordance with paragraph (d) of this order, upon application of the purchaser.

(d) *Procedure for securing authorization.* Each person seeking to acquire new retreading, recapping or repair equipment or parts of such equipment shall apply on Form PD-840 for an authorization in writing on Form PD-840 by the War Production Board, which shall constitute permission to deliver and to accept delivery of any such equipment specifically authorized therein.

Preference ratings assigned to deliveries of retreading, recapping or repair equipment on Form PD-840 shall be applied in accordance with Priorities Regulation 3, as amended from time to time. In addition to the certification required by said regulation, each person authorized to accept delivery of such equipment

pursuant to this paragraph (d) shall endorse his purchase order or contract therefor: "PD-840, Serial No. _____," inserting in the blank his serial number of PD-840. The use of such endorsement shall constitute a representation to the supplier and to the War Production Board that the delivery of the retreading, recapping or repair equipment was specifically authorized on Form PD-840 in accordance with the provisions of this order.

(e) *Repair parts and certain items of equipment.* The restrictions of paragraphs (b) and (c) of this order shall not apply to the production, assembly, delivery or acceptance of delivery of:

(1) Parts to be used for the maintenance or repair of existing retreading, recapping or repair equipment, or to repair or maintain an item of retreading, recapping or repair equipment delivered in accordance with the provisions of this order.

(2) Any single item of new retreading, recapping or repair equipment having a retail value of \$85 or less, except curing bands, full circle and sectional matrices.

(3) New retreading, recapping or repair equipment in fulfillment of orders authorized in accordance with the provisions of General Limitation Order L-61, prior to April 29, 1943.

Provided, That defective repair and maintenance parts containing aluminum shall be disposed of in accordance with the provisions of Supplementary Order M-1-d, as amended from time to time: *And provided, further,* That no person shall produce or acquire any equipment or parts pursuant to this paragraph (e) except in quantities sufficient to maintain minimum practicable working inventories of such equipment or parts.

(f) *Miscellaneous provisions—(1) Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time, except to the extent that the provisions of this order may be inconsistent with Priorities Regulation 3, in which case the provisions of this order shall govern.

(2) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(3) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Office of Rubber Director, Washington 25, D. C., Ref.: L-61.

(4) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control

and may be deprived of priorities assistance.

(5) *Records.* Each manufacturer or distributor of new retreading, recapping and repair equipment affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales of such equipment.

PART 1166—APPAREL FOR FEMININE WEAR
[Interpretation 1 to Schedule III to General Limitation Order L-85]

The following interpretation is issued with respect to Schedule III to General Limitation Order L-85:

Using size 16 as an example, no coat or jacket may be made between 25 inches and 33 inches in length.

A coat, or a topper or reefer (a coat not shorter than 33 inches for any size, according to paragraph (a) (3)) may not exceed a 43-inch length, according to paragraph (e) (1). A jacket may not exceed a 25-inch length, according to paragraph (e) (2). Any outer garment shorter than 33 inches, usually worn over other outer apparel, would be a jacket, and would, accordingly, be subject to the jacket restrictions.

This interpretation does not affect the general exceptions from the provisions of General Limitation Order L-85 relating, for example, to official uniforms, apparel for persons with physical deformities, etc.

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[Direction 11 as Amended Sept. 18, 1943 to CMP Regulation 5]

SAFETY EQUIPMENT PURCHASED BY EMPLOYEES

The following amended direction is issued pursuant to CMP Regulation 5:

(a) CMP Regulation No. 5 (§ 3175.5) permits an employer to buy safety equipment for his employees only where the equipment will belong to the employer and will be checked

out to the employee or where the safety equipment will be resold by the employer to his employee. Where the employer is unwilling or unable to use one of these two methods, the employee is not permitted to use a preference rating under the regulation, since he is not in business. This direction is issued to provide a way for employees themselves to get safety equipment on their employer's ratings using the same procedure by which they may get hand tools under Direction No. 9 to CMP Regulation No. 5.

(b) The employee of any person producing any product or conducting any business listed on Schedule I or Schedule II of CMP Regulation No. 5 may use the preference rating assigned by the regulation to his employer to purchase safety equipment which he requires for use exclusively in his employer's business and which his employer requires him to furnish. The procedure which he should follow is the same as that used under Direction No. 9 to CMP Regulation No. 5 in purchasing hand tools.

(c) The rating will be valid only if the employee gives the seller of the safety equipment the certificate provided for in Direction No. 9 to CMP Regulation No. 5, changing the words "hand tool" and "tool" to "item of safety equipment", or the following certificate, which may also be used to buy hand tools, instead of the certificate in Direction No. 9, filled out and signed by his employer and then signed by himself:

"Preference rating _____ MRO. The following item _____ (specify rating)

(only one tool or item of safety equipment may be placed on each certificate; specify type and size of tool, or give item of safety equipment) is required by the undersigned employee for use only in the undersigned employer's business, and the undersigned employer requires the employee to furnish the item. The undersigned employee further certifies that he does not own or possess any similar item which will serve the same purpose.

Name and Address of employer

Authorized signature

Signature of employee

Position"

(d) The supplier who sells the safety equipment must keep the certificate for two years. He may extend the rating in the manner provided in Priorities Regulation No. 3.

(e) The cost of safety equipment bought by an employee by use of the preference rating must be included by the employer in computing the quantity restrictions of paragraph (f) of the regulation, but the employer may not include the cost of safety equipment bought by employees during the base period for the purpose of computing his quota under paragraph (f) of the regulation.

(f) The term "safety equipment" as used in this direction means the following items when they are specifically designed and used to furnish protection against specific occupational hazards (other than weather):

- (1) Asbestos clothing,
- (2) Gauntlet type welders' leather gloves and mittens, and electricians' leather protector or cover gloves,
- (3) Metal mesh gloves, aprons and sleeves,
- (4) Other safety leather gloves or mittens, but only if steel stitched or steel reinforced,
- (5) Plastic and fibre safety helmets,
- (6) Safety clothing impregnated or coated for the purpose of making the same resistant against fire, acids, other chemicals or abrasives,
- (7) Safety industrial leather clothing other than shoes, gloves or mittens,

- (8) Safety industrial rubber gloves and hoods and linemens' rubber gloves and sleeves,
- (9) Gas masks and canisters,
- (10) Respirators,
- (11) Face and eye shields,
- (12) Welding helmets and shields,
- (13) Goggles,
- (14) Foot and shin guards (not including safety shoes),
- (15) Safety belts and harnesses, and
- (16) Protective creams.

(g) The following example is given to show how an employee may use his employer's rating to purchase safety equipment. Suppose that a shipyard requires certain employees to have a welding shield. The employee himself is not entitled to use a preference rating assigned by the regulation because he is not in business. The employee finds that he cannot buy the welding shield without a preference rating. Shipyards are in Schedule I of CMP Regulation No. 5 and consequently may use preference rating AA-1. Under this direction the employer may fill out the certification, putting down the preference rating "AA-1" and listing the item "welding shield." The proper official of the employer signs the certificate and gives it to the employee. The employee then signs the certificate and gives it to the seller of the welding shield.

APPENDIX

Specifications for Valves and Valve Parts

The following specifications govern the manufacture of valves and valve parts. These specifications do not purport to contain any recommendations regarding the most efficient or safe use of any valve or valve parts covered herein.

Certain of the terms used in this appendix (including the terms valves and valve parts) are defined in the body of this order, L-252. In addition, certain exceptions are made, and certain obligations imposed upon producers and others. You should, therefore, be thoroughly familiar with the body of the order before reading this appendix.

PART 1

Iron Gate, Globe, Angle, Cross, and Check Valves and Valve Parts

1. *Standard size schedule: Iron valves.* (a) Valves shall be manufactured only in the pressure classes listed in Table 1 and in the particular sizes, specified in Table 2, which are comprehended within the size range specified in Table 1 for the particular pressure class:

TABLE 1

[All size ranges are inclusive]

Primary pressure classifications in pounds per square inch		Gates (inches)			Globe and angle (inches)		Lift check (inches)		Swing check (inches)		
Steam	Water	Screwed	Flanged	Hub	Screwed	Flanged	Screwed	Flanged	Screwed	Flanged	Hub
25	50		4 to 72	4 to 72							
	100		4 to 72	4 to 72							
125	150 to 200	2 to 6	2 to 72	2 to 72	2 to 4	2 to 10	2 to 4	3 to 6	2 to 6	2 to 24	4 to 24
150 ¹	250	1 1/4 to 3	1 to 3		1 1/4 to 3	1 to 3	1 1/4 to 3		1 1/4 to 3		
250	500	2 to 4	2 to 24		2 to 4	2 to 6			2 to 4	2 to 12

	800	2 to 6	8 to 12							3 to 12	

¹ The primary pressure classification designates a class of valves and does not necessarily mean that all sizes in a given class carry the primary pressure classification. American Standards Association standards and manufacturers practice frequently reduce the pressure ratings as size increases and may not always rate valves for both steam and water.

² In sizes 3" and smaller the 150# and 300# primary pressure classification valves are included as substitutes for brass valves. Flanged valves may be rated in accordance with the American Flange Standard used.

NOTE: Other valve end connections in common use on the date of issuance of this order, including among others, the types known as Victaulic, Dresser and Universal, may be manufactured, but only in accordance with the specifications listed in Table 1. For the purposes of this order, "common use" means use by at least ten companies.

PART 3216—MATERIAL ENTERING INTO THE OPERATION OF TRANSPORTATION SYSTEMS

[Preference Rating Order P-142, as Amended Sept. 18, 1943]

For the purpose of facilitating the acquisition of materials for maintenance, repair, operating supplies and certain other requirements of transportation systems in the public interest and to promote the national defense, preference ratings are hereby assigned to deliveries of such materials upon the following terms:

§ 3216.1 Preference Rating Order P-142—(a) Definitions. For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Transportation system" means a steam railroad, an electric railroad, a terminal railroad, a switching railroad, a private car line company, a rapid transit system, an electric street railway system, a trolley coach system, or a common carrier passenger motor bus system.

(3) "Operator" means any person to the extent that he is engaged in the business of transporting passengers or property over a transportation system. The term does not include any person who can obtain all of his controlled material requirements at retail, or from warehouses or distributors under the provisions of CMP Regulation No. 4, and who has not elected to operate under this Order P-142 pursuant to paragraph (g) (1) hereof; such person shall con-

tinue to operate under the provisions of CMP Regulation No. 5 and all other applicable regulations.

(4) "Material" means any commodity, equipment, accessory, part, assembly, or product of any kind.

(5) "Controlled material" means controlled material as defined in Schedule I of CMP Regulation No. 1, as amended from time to time.

(6) "Maintenance and repair" means the upkeep or restoration of any unit of the operator's property or equipment by using the minimum amount of material necessary

(i) To keep the unit usable for the purpose intended in its existing design.

(ii) To restore parts of the unit to their original usefulness, or

(iii) To renew parts to restore the unit to its usefulness for the purpose intended in its existing design.

The term does not include the use of material for "heavy repair of locomotives" or "heavy repair of railroad cars" as those terms are defined hereinafter; except that the following may be deemed maintenance and repair: modernization of locomotives when the cost of labor and material per locomotive does not exceed \$500, and the new installation on railroad cars of truck snubbers, bottom rod guards and break beam safety devices.

(7) "Operating supplies" means those materials and supplies which are essential to the operations of the operator's transportation system, the rendering of services, and the collection of revenues in connection therewith, but not including those items shown in List A of CMP Regulation No. 5, as amended from time to time. In addition there may be included as operating supplies minor items of productive capital equipment not exceeding \$500 per unit (excluding cost of labor).

(8) "Construction" means the use of material to provide additional facilities or to rehabilitate existing facilities for a purpose not intended in the existing design.

(9) "Heavy repair of locomotives" means any of the following:

(i) Such repair to boiler, machinery and tender as is necessary to put the unit in thorough order and in condition to run out a new term of assigned mileage (sometimes known as class 1, 2 and 3 repair), and also such intermediate repair thereto as is necessary to enable the unit to run out its full mileage assignment (sometimes known as class 4 and 5 repair);

(ii) Conversion, which means any change in the general machinery or wheel arrangement of the locomotive; or

(iii) Modernization, which means the addition of accessories and/or specialties to the locomotive.

(10) "Heavy repair of railroad cars" means either of the following:

(i) Program repair for any group of cars, or, if the operator does not so program such repairs, repair of any car requiring 50 or more man hours per car for freight cars, or 100 or more man hours per car for passenger cars; or

(ii) Conversion, which means the modification of the structure of an existing car to such an extent as to change the type of the car.

(b) *Preference ratings.* (1) Subject to the restrictions of this order, the following procedure is established for the assignment of preference ratings to orders to be placed by an operator after April 5, 1943, for material other than controlled materials for a use authorized by paragraph (d) hereof, except that preference ratings for Class A products for which an allotment is required will be assigned at the time the allotment is made:

(i) The War Production Board may assign in writing specific preference ratings to deliveries of specific materials essential for emergency repairs, upon application made pursuant to paragraph (g) (2) hereof;

(ii) The War Production Board may specifically assign in writing preference ratings to deliveries of materials, in the quantities, for the periods, and on the terms and conditions specified in the copy of Form WPB-2585 (formerly Form PD-844) returned to the operator, upon application made pursuant to paragraph (g) (3) hereof.

(2) *Certification.* The ratings assigned in accordance with paragraph (b) (1) of this order, and the CMP allotment symbol T-7 assigned by paragraph (c) (1), may be applied by an operator only by use of a certification in substantially the following form, signed manually or as provided in Priorities Regulation No. 7:

Preference rating—(specify rating); CMP allotment symbol T-7; P-142, serial No. —.
The undersigned operator certifies, subject to the penalties of section 35 (A) of the United States Criminal Code, to the seller and to the War Production Board that, to the best of his knowledge and belief, the undersigned is authorized under applicable War Production Board regulations or orders to place this delivery order; to receive, for transportation MRO under P-142, the item(s) ordered; and to use any preference rating or allotment symbol which the undersigned has placed on this order.

The certifications specified in Priorities Regulation No. 3 and CMP Regulation No. 5 may not be used. However, instead of the certification specified above, a certification in the form provided in CMP Regulation No. 7 may be used, but the operator must include the following identifications: "Preference rating"—(specify rating); CMP allotment symbol T-7; P-142, serial no. —"

(3) The ratings applied in accordance with paragraph (b) (2) hereof may be extended in the manner provided in Priorities Regulation No. 3, subject, however, to the restrictions contained in CMP Regulation No. 3.

(4) An order for material, other than controlled material, bearing a rating applied or extended in accordance with this paragraph (b) and the CMP allotment symbol T-7 shall have the same status as a rated order bearing a CMP allotment number under all applicable CMP regulations. Such symbol shall

constitute an "allotment number or symbol" for the purpose of CMP Regulation No. 3.

(c) *Controlled materials.* (1) The CMP allotment symbol T-7 is hereby assigned (instead of the symbol MRO-P-142) to orders to be placed by an operator for controlled material, except aluminum, for a use authorized by paragraph (d) of this order, and in amounts authorized pursuant to application made upon Form WPB-2585 (formerly Form PD-844) in accordance with paragraph (g) (3).

(2) An order for controlled material, except aluminum, for a use authorized by paragraph (d), bearing the CMP allotment symbol T-7 and the certification required in paragraph (b) (2), shall constitute an authorized controlled material order.

(3) Aluminum for delivery after April 5, 1943, required by an operator for any purpose authorized by this order, may be obtained only upon specific application to the War Production Board, pursuant to paragraph (g) (2) hereof.

(d) *Restrictions on use of material.* (1) No operator shall use any material (including controlled materials, Class A products, Class B products, and other products and materials) acquired under the provisions of paragraph (b) or (c) of this order, nor make withdrawals of any material from inventory, except for the following purposes:

(i) Maintenance, repair and operating supplies;

(ii) Heavy repair of locomotives;

(iii) Heavy repair of railroad cars;

(iv) Replacement of rail with the weight of rail and type of fastenings conforming to the operator's standard practice; or

(v) For any other use when specifically authorized in writing by the War Production Board.

(2) No operator shall make withdrawals of any material from inventory for construction except to the extent specifically permitted by Conservation Order L-41, as amended from time to time; *Provided*, That any new materials (in excess of \$500 for any one project) so used from inventory shall be replaced only pursuant to the provisions of an approved order in the P-19 series.

(e) *Conservation of materials.* (1) Every operator shall, whenever possible, use conservation measures such as substitution, redesign and respecification to eliminate scarce materials normally used; and shall plan his operation, maintenance and repair schedules in accordance with the relative urgency and national need for transportation, subject to the provisions of this order. The War Production Board may from time to time issue supplementary orders or schedules requiring the elimination or diminution of the use of any material with or without the substitution of other materials, and may specify the use to which specific types of materials can be put.

(f) *Inventory control.* Notwithstanding any provision of this order, and unless

otherwise specifically authorized in writing by the War Production Board, no operator shall accept delivery of any item of material (except fuel) if his storehouse inventory of such item is, or will by virtue of such acceptance become, greater than the quantity of such item he will be required by his current practices to put into a use authorized by this order during the succeeding 60-day period. Nothing in this paragraph (f) shall be deemed to prevent any operator from maintaining minimum stocks of material for emergency use, nor from acquiring reasonable stocks of ties and lumber for seasoning. Shipment of material from the storehouse in advance of its actual need shall be deemed contrary to the intent of this paragraph.

(g) *Procedure*—(1) No operator shall be entitled to any assistance under the provisions of this order until he has been assigned an authorized serial number, which may be obtained upon application by letter to the War Production Board, stating that the applicant will be unable to obtain all of his controlled material requirements at retail or under the provisions of CMP Regulation No. 4. In addition, any person who can obtain all such requirements at retail or under that regulation may elect to apply as above for an authorized serial number. When such serial number is assigned to him, he shall be deemed an operator under all the provisions of this Order P-142.

NOTE: Paragraph (1) amended Sept. 18, 1943.

(2) An operator, in order to secure authorization or exemption under paragraphs (b) (1) (i), (c) (3), (d) (1) (v), (f) or (h) (2) hereof, must communicate with the War Production Board, describing the nature of the emergency or the reason why specific authorization is necessary, and the amount and type of material involved. The War Production Board will thereupon notify such operator in writing whether, and to what extent, his application is approved.

(3) An operator, in order to secure authorization for delivery of material under paragraphs (b) (1) (ii) and (c) (1) hereof, must forward to the War Production Board, 60 days prior to the beginning of each calendar quarter, an application on Form WPB-2585 (formerly Form PD-844) filled out in accordance with instructions thereon, and in accordance with any supplemental instructions covering all or any one or more operators, or specific classes of operators, under the provisions of this Order P-142. A supplemental application on Form WPB-2585 (formerly Form PD-844) may be filed as the need arises. The War Production Board will in each case return such Form, notifying the operator whether, and to what extent, his application is approved.

(h) *Resale of materials*. (1) An operator may resell material (whether or not obtained with the assistance of this order):

- (i) To any other operator,
- (ii) To another person when such material is to be physically incorporated in repairs of equipment that is used in the maintenance, repair, or operations of the

operator's own property: *Provided*, That such material could have been used by the operator itself in making its own repairs without violation of any of the provisions of this order.

(iii) To the operator's own transportation system subsidiaries, or for the maintenance of track or equipment not owned but customarily maintained by the operator or its subsidiaries, or

(iv) For the repair of equipment of another carrier in accordance with the Code of Rules for the Interchange of Traffic as adopted by the Association of American Railroads.

and any such sale shall be expressly permitted within the provisions of paragraph (c) (3) of Priorities Regulation No. 13: *Provided*, That nothing in this paragraph (h) (1) shall be deemed to authorize receipt or use of any material by any person in violation of any inventory or use restriction imposed by this order or any other order or regulation of the War Production Board, and no operator shall make any sale of material authorized above if he knows or has reason to believe that receipt or use thereof by the buyer will be in violation of any such restriction.

(2) In addition, an operator may resell such material when specifically authorized in writing by the War Production Board.

(i) *Appeal*. Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(j) *Records, audits and reports*. Each operator shall keep and preserve for a period of not less than two years accurate and complete records of all transactions affected by this order and shall submit from time to time to audit and inspection by duly authorized representatives of the War Production Board. Each operator shall execute and file with the War Production Board or other designated agency such reports and questionnaires as the War Production Board shall from time to time require, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(k) *Violations*. Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(1) *Applicability of regulations*. (1) This order and all transactions affected hereby, except as herein otherwise provided, are subject to all applicable regulations of the War Production Board, as amended from time to time.

(2) None of the provisions of CMP Regulations No. 5 or No. 5A shall apply to operators as defined in paragraph (a) (3) of this order, and no such operator

shall obtain any material under the provisions of either of those regulations.

PART 2—STEEL SCREWED PIPE FITTINGS

1. Standard size schedule. (a) The following table covers detailed list of pipe sizes (in inches) which are permitted within the size ranges given in paragraph (b) below:

Table with 3 columns: first column (1/8, 1/4, 3/8, 1/2, 3/4), second column (1, 1 1/4, 1 1/2, 2, 2 1/2), third column (3, 4, 5, 6, 8)

(b) Straight sizes of steel screwed pipe fittings shall be made in the following pressure classes, types, and pipe sizes only:

Table showing primary pressure classification (lbs. per square inch) versus pipe types (90° Elbow, Tee, Cross, 45° Lateral, Cap, Coupling, Plug) with size ranges.

(All sizes are inclusive)

1 The primary pressure classification designates a class of fittings on the basis of non-shock water, oil, and gas pressure ratings at a temperature approximating 100° Fahrenheit, and in no way regulates the pressure at which these fittings may be rated for other fluids and temperatures, but restricts the classes to those mentioned.

(c) Reducing sizes of steel screwed fittings shall be made in the following primary pressure classes, types, and pipe sizes only (as indicated by "X"):

Large table mapping Pipe size (Inches) to various fitting types (90° elbow, Tee, Reducer, Hexagon bushing, Face bushing) with 'X' marks indicating permitted combinations.

1 Where two dimensions are given for tees, it indicates both run openings of the same size (the larger or first dimension given).

2. *Materials.* (a) Fittings in the 1000 pound primary pressure classification shall be made of carbon steel, except when required to resist corrosion or temperature conditions they may be 4 percent to 6 percent chrome, ½ percent molybdenum.

(b) Fittings in the 2000, 3000 and 6000 pound primary pressure classifications shall be carbon or carbon molybdenum steel, except when required to resist corrosion or temperature conditions they may be 4 percent to 6 percent chrome, ½ percent molybdenum.

PROCESS TANKAGE, SEWAGE SLUDGE, CASTOR POMACE AND CASTOR CAKE

In the judgment of the Price Administrator, it is necessary and proper to establish specific maximum prices for the sales of process tankage, sewage sludge, castor pomace and castor cake. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

§ 1367.153 *Maximum prices for process tankage, sewage sludge, castor pomace and castor cake.* Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328, Maximum Price Regulation No. 470 (Process tankage, sewage sludge, castor pomace and castor cake) which is annexed hereto and made a part hereof, is hereby issued.

SECTION 1. Prices higher than ceiling prohibited. Article III—Specific Duties and Privileges and Prohibited Practices

Sec. 4. Adjustable pricing. Any person may agree to sell at a price which

can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

SEC. 5. Applications for adjustment or petitions for amendment—(a) Government contracts. (1) The term "Government contract" is here used to include any contract with the United States or any of its agencies or with the government or any governmental agency of any country whose defense the President deems vital to the defense of the United States under the terms of the Act of March 11, 1941, entitled "An Act to promote the Defense of the United States". The term also includes any sub-contract under this kind of contract.

(2) Any person who has entered into or proposes to enter into a "Government contract", who believes that the maximum prices established by this regulation impede or threaten to impede production of processed tankage, sewage sludge, castor pomace and castor cake essential to the war program, may file an application for adjustment in accordance with Procedural Regulation No. 6,¹ as amended, by the Office of Price Administration. As soon as the application is filed, contracts, deliveries, and payments may be made at the requested price, subject to refund if the requested price is disapproved or lowered. The seller must notify the buyer that the delivery is made subject to this refund.

(b) *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1,² issued by the Office of Price Administration.

SEC. 6. Prohibited practices. Any practice which is a device to get the effect of a higher-than-ceiling price without actually raising the dollars-and-cents price is as much a violation of this regulation as an outright over-ceiling price. This applies to changes in credit practices and cash discounts and to devices making use of commissions, serv-

ices, transportation arrangements, premiums, special privileges, tying agreements, trade understandings and the like.

SEC. 7. Records. All sellers and all buyers of process tankage, sewage sludge, castor pomace and castor cake for sales covered by this regulation, must retain a copy of the invoice covering each transaction, or maintain records in other form containing a complete description of the commodity, name and address of the other party to the transaction, date of sale and the price paid. These records must be retained for two years, for inspection by the Office of Price Administration.

SEC. 8. Enforcement. Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspension of licenses provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 9. Imports. The provisions of this regulation do not apply to the purchases, sales or deliveries of the commodities named in this regulation if they originate outside of and are imported into the continental United States. Sales, purchases and deliveries of such imported commodities are governed by the provisions of the General Maximum Price Regulation, and especially the Maximum Import Price Regulation.

SEC. 10. Relation to other regulations. Any sale or delivery covered by this regulation is not subject to the General Maximum Price Regulation.³

This regulation shall become effective September 23, 1943.

NOTE: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 17th day of September 1943.

¹ Grade A camelback means camelback which complies with the specifications issued by the War Production Board for Grade A camelback.
² For any tire size where no maximum price is listed on this table under the particular heading for ground-grip road grader or earth mover types of tread, the maximum price is that set forth for such size under the heading for conventional truck and bus type of tread.
³ Maximum prices set forth for stop-start type of tread apply only when such treads are applied to tires of a stop-start size listed in this column or of a size generally recognized as equivalent to one of such stop-start sizes. When a

stop-start type of tread is applied to such an equivalent size of tire, the maximum price shall be that set forth for the appropriate stop-start size.

¹ Conventional truck and bus type of tread includes any tread of a type generally recognized as designed primarily for ordinary "on the road" use on trucks or busses.

² Stop-start type of tread must have at least 1 3/8 inch tread design depth at the center circumference of the tire and must contain at least as much rubber in the undertread and have a tread design depth at the center circumference of the tire which is at least 3/32 inch deeper than the conventional truck and bus type of tread of the same retreader or recapper for the same size of tire. Stop-start type of tread includes any such extra heavy tread of a type generally recognized as designed primarily for city commercial use on trucks or busses.

³ Ground-grip type of tread must contain at least as much rubber in the undertread and have a tread design depth at the center circumference of the tire which is at least 3/32-inch deeper than the conventional truck and bus type of tread of the same retreader or recapper for the same size of tire. Ground-grip type of tread includes any such tread of a deep-cut, cleated type generally recognized as designed primarily for use on trucks for tractions through mud, snow, sand, or soft ground.

⁴ Road grader type of tread includes any tread of a type generally recognized as designed primarily for "off the pavement" use on the power driven wheels of highway maintenance and road construction machinery for traction through mud, snow, sand or soft earth.

⁵ Earth mover type of tread includes any tread of a type generally recognized as designed primarily for providing flotation in soft earth for "off the road" use on earth moving vehicles.

⁶ Rock service type of tread includes any extra heavy tread of a type generally recognized as designed primarily for heavy duty service on rocks or gravel in such work as earth hauling, quarrying, logging and road building.

This amendment shall become effective September 24, 1943.

PART 1312—LUMBER AND LUMBER PRODUCTS
[MPR 348, Amtd. 8]
LOGS AND BOLTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 348 is amended in the following respects:

1. The preamble is amended by the addition of the following sentence:

Insofar as this regulation uses specifications and standards which were not, prior to such use, in general use in the trade or industry affected, or insofar as their use was not lawfully required by another Government agency, the Administrator has determined, with respect to such standardization, that no practicable alternative exists for securing effective price control with respect to the commodities subject to this regulation.

2. Sections 1 through 10, inclusive, are incorporated under a new Article 1, to read as follows: "Article I—Prohibition, Scope of Regulation and General Provision."

*Copies may be obtained from the Office of Price Administration.
8 F.R. 3670, 5163, 5565, 6365, 8751, 9515, 10023, 11214.

3. Article II, containing a Table of Appendices and Appendices D and G, is added to read as follows:

Article II—Specific Maximum Prices

Regardless of any other provisions of this regulation, every sale or purchase of logs and bolts of the type and species listed produced in the areas described in the following tables, are subject to the dollars-and-cents maximum prices listed in those tables. Where grades of particular types of logs are established, any log falling below the minimum requirements of the lowest grade of that log must be culled out and unless a cull grade is specifically established and priced, no charge may be paid or received for those culls.

Grading Rules

Logs are to be purchased and sold by mutual agreement between buyer and seller using any of the following grades or combination of grades as a basis for pricing:

1. Separate grades as defined in the following log grading rules.

2. Woods-run—This combination of grades includes all the logs of a single species cut from a given area that qualify for a #3 grade or better.

3. Woods-run with #1 or veneer sorted out—This represents a grade combination of #2 and #3 logs from a definite area. It enables the sale of logs without grading where lack of facilities prevents this operation.

Hardwood Logs

No. 1 or Veneer Grade. 1. All logs must be 12" and larger in diameter the small way of the small end, except that 11" surface clear logs will be accepted if 12' or longer in length. Standard lengths are 10, 12, 14, and 16'; occasional 6, 7, 8, and 9 foot logs will be accepted, adding 4" to all logs 16" in diameter and over and 3" to logs under 16" in diameter for trimming. Yellow Birch and Hard Maple Veneer logs may be cut to the following specified lengths at the option of the purchaser: 5'6", 6'6", 7'6", 8'6" which includes trim. All logs must be reasonably straight grained, with spiraled grain ordinarily not exceeding one inch in 10 inches.

2. Knots, worm holes, shake, "cat faces", dead and dozy spots, seams (except as specified herein), and so-called "birds pecks" brown spots, pin-holes and pin-knots shall be considered standard defects. Maple logs having more than 1/2 the diameter of the small end in black heart or heavy mineral stain must be excluded from this grade.

3. Logs 12 to 14 inches in diameter can have a 3 inch hole, doze, or shake, in center, 15 to 16 inch logs can have, not to exceed a 5 inch hole, doze or shake in center, and over 16 inch logs; a 6 inch hole, doze, or shake in center, provided that logs with holes, doze or shake greater than the allowable size will be accepted if such defects will be reduced to the allowable size by deducting 2 feet of length in scaling.

4. Logs 15 inches and under in diameter must have no seams. Logs over 15 inches in diameter may have one straight tight seam not diverging more than 4 inches from a straight line from end to end which shall be considered a defect.

5. 10 foot logs must not have over one standard defect; 12 foot logs must not have over two standard defects; 14 and 16 foot logs must not have over three standard defects. Any number of defects so located that they can be cut out with one lineal foot deduction in scaling shall be considered as one defect. These logs must have at least one-half of their length in one clear cut.

6. 6 and 7 foot logs must be surface clear. 8 and 9 foot logs will permit one defect if not more than 10" from the end. These short logs, particularly small logs, should be practically straight and in no case should there be more sweep in logs 9' and shorter than 1/8 of the diameter of the small end of the log, when measured above the butt swell. The percentage of those short logs that will be acceptable should be agreed upon between the purchaser and the seller.

7. Any defect in butt logs which does not extend inside the diameter represented by the small end will not be considered a defect

in grading the log. Folds, fluted bark on butts, or shallow scars are examples of such defects.

8. In scaling defective logs, scale off one foot in length for each defect, unless the defects are so located that in cutting out one foot, it eliminates two or more defects. In that event, count the two or more defects as one. Logs with crotch tops, kinks, or crooks, are to be cut out in scale to eliminate the defects. No deductions in scaling will be made for defects admitted in paragraphs 3, 4, 5 and 6.

No. 2 log grade. 1. Lengths 8 feet or longer; diameters 10 inches or larger. 10" logs must be butt logs and surface clear for all species except basswood. Logs 10' long, 11" or larger, and including basswood 10" or larger, must have not less than two-thirds of each of three faces clear in not over two cuttings per face. Logs 12 feet or longer will admit not over three cuttings per face on each of 3 faces. Cuttings must be 3 feet or longer. The proportion of 8' logs allowed will be a matter of agreement between buyer and seller.

2. Logs 10'-15" with black heart, heavy mineral stain, or other end defects amounting to one-half or more of the average diameter on the small end, and logs, 16" and over with black heart, heavy mineral stain, or other end defects amounting to 60% or more of the average diameter on the small end will not be admitted in this grade.

3. Logs containing sweep or crook, or both, which cause a deduction of 30% or more from gross scale or sweep in conjunction with end defect in excess of 1/4 of the diameter on the small end that causes deduction in excess of 20% of the gross scale shall be eliminated from this grade.

4. Any defect in butt logs which does not extend inside the diameter represented by the small end will not be considered a defect in grading the log. Folds, fluted bark on butts, or shallow cat faces are examples of such defects.

5. No logs admitted with net scale less than 50% of gross scale.

No. 3 log grade. 1. Lengths 8' or longer; diameters 8" or larger, which do not qualify for No. 2 grade; logs below 10" must be surface clear and straight. The proportion of 8' logs allowed will be a matter of agreement between the buyer and seller.

2. No logs admitted with net scale less than 50% of gross scale.

Aspen and Softwood Logs

White pine log grades—Prime grade. 1. Logs must be 16" or larger, 10' or longer, and with deduction for defect not over 30% of gross scale.

2. Logs must be at least 75% clear on each of the three faces.

3. All knots outside clear cutting must be sound and not over 2 1/2" in size.

#1 Grade. 1. Logs must be 12" or larger, 10' or longer, and with a net scale after deduction for defect of at least 50% of the gross contents of the log.

2. Logs must be at least 50% clear on each of three faces or 75% clear on two faces.

#2 Grade. 1. Logs must be 8" or larger, 8' or longer, and a net scale after deduction for defect of at least 50% of the gross contents of the log.

Norway and jack pine, spruce, white cedar, tamarack, hemlock, balsam and aspen log grades. One grade will be recognized.

Logs must be 8" and larger, 8' and longer, and with a net scale after deduction for defect of at least 50% of the gross contents of the log.

Tie cuts. Tie cuts shall be counted by the piece. Tie cuts or bolts must be sound, green timber, free from decay, split, shakes, holes large or numerous knots or other imperfections which will impair strength or durability and must be otherwise suitable for the manufacture of railroad ties. (Dead cedar and tamarack acceptable if otherwise suitable.) Minimum diameter is 9" inside bark at the end and to be 8 or 8 1/2' long as specified. A 2" trimming allowance is required on all cuts.

Box bolts. 1. To be scaled on a face cordage basis of 8' plus trimming allowance of 4". A cord contains 133 cubic feet including trimming allowance.

2. Bolts must be 6" top and up, inside bark; 6" bolts must be perfectly straight and sound.

3. 7" and up bolts, will admit sweep and crook not to exceed 1/2 diameter of small end. Rot and excessive sweep or crook to be deducted on cordage basis. To be tightly piled and knots closely trimmed so true, or actual, cordage can be determined.

Shingle bolts. 1. To be scaled on a face cordage basis of 8' plus trimming allowance of 4". A cord contains 133 cubic feet including trimming allowance.

2. Bolts must be 8" and up; inside bark. Bolts must be straight and sound except that sweep or crook will be permitted not to exceed 1/2 diameter of small end. Rot and excessive sweep or crook to be deducted on cordage basis. To be tightly piled and knots clearly trimmed so true, or actual, cordage can be determined.

Scaling Principles

General. 1. Except as specified in the No. 1 or Veneer Grade, all logs shall be cut a minimum of 3" longer than specified lengths, and tie cuts 2" longer to allow for trimming.

2. All logs shall be scaled with Scribner Decimal C Log Rule and scaled on the average diameter of the small end inside the bark. Fractions of 1/2" or less will be dropped and fractions over 1/2" will be raised to the next inch.

3. Scaling is the measurement of sound material in the log and relates to quantity rather than quality of material. Timber will therefore be scaled in accordance with the defect in the log and not in relation to any particular grades of the product it will yield.

4. Scaling sound contents in the log rather than material of certain grades is to be the standard practice except for the No. 1 or veneer grade.

5. Softwood logs will be scaled in even lengths.

Defects to be considered in scaling. 1. Log defects include rot or any defective or waste material caused by sweep, crooks, checks, shake, seams or other features which actually reduce the amount of sound usable material in the log. The most common forms of defects which affect the yield are rot, shake, check, pitch ring, cat face, ingrown bark, and wormholes.

2. Ordinarily, sound knots and discoloration affect the quality and not the yield of the logs produced and will not be recognized as defects in scaling except in No. 1 or veneer logs. However, large clustered knots in the top logs shall be deducted for in scaling.

3. Deductions will be made for all visible defects, which will actually reduce the sound material in the log. There must, however, be an unmistakable surface or end indication of defect. The scale should never be reduced simply because the timber is known to be more or less defective, or because hidden defect frequently appears in sawing.

4. The extent of rot or other defects is to be determined by the scaler but the manner or method of deduction shall be no less rigid or exacting than those prescribed in the National Forest Scaling Handbook, Revised May 1940.¹

Log defect descriptions and definitions—
Bird peck. Bird pecks are defects resulting from the work of sap-sucking woodpeckers. The defects consist of ingrown bark usually not over 1/8 inch in diameter. Often they are noticeable on the end surfaces of logs and evidence of their presence in the logs is to be seen on the bark surface many years after the injury occurred.

Dote. Dote varies all the way from firm wood that has just begun to decay up to the definitely unsound stage which is designated as rot. Dote in its early stages often differs from the surrounding wood only in color.

Worm holes. Worm holes vary greatly in size and damaging effect depending upon the kind of worm causing the defect. From pin worm holes 1/32 inch in diameter they may range up to the 3/4" holes sometimes found in oak. Although there may be no evidence of worm work where the log cut is made the bark surface on close examination will reveal the presence of interior borings. Worm holes may be extremely damaging and close examination for them is warranted.

Bumps. Bumps usually indicate overgrown knots or other defects. They should be viewed with suspicion in grading logs.

Sweep. Sweep is a fairly uniform departure in any direction from a straight line drawn from one end of the log to the other. A crook, in contrast to sweep, is a more or less definite or sharp break from such line.

Butt log. A butt log is the first log cut above the stump of the tree except where a "long butt" 8 feet or longer is cut for the purpose of eliminating defect. The first log above such long butt will be classified as second log.

Encased metal. Encased or overgrown metal is common chiefly in farm woodlot timber or in trees close to farm buildings. Especially in oak, metal causes dark staining of wood and still more serious is the possible damage to workmen, saws, or edge tools. Logs suspected of containing metal should either be long butted or rejected.

Knots. Knots vary greatly in their damaging effect depending upon their size and condition. Knots in butt and second logs of mature trees are usually overgrown and often unsound, while knots in top logs are live and sound. Considerable rot may extend from unsound knots. Where there are old limb stubs or knot holes present there is quite certain to be rot running into the heart wood.

Mineral stain. Mineral stain is a common defect of maple. It is characterized by a greenish to blackish color that occurs in varying amounts chiefly in the heartwood in the form of solid masses of discoloration or in streaks. Aside from color the objection to mineral stain is the tendency of heavily stained wood to open up during drying. Shake is commonly associated with stain.

Shake. Shake is a separation of the wood, the greater part of which occurs between the growth rings and more commonly near the center of the log than toward the outside. It is a serious defect in both veneer and lumber logs.

Seams. Seams are cracks or splits running with the grain for part of or the full length of the log. They may be caused by frost or lightning. Seams may extend all the way from the bark to the pith or center of the log. They may be open or completely

¹For sale by the Superintendent of Documents, Washington, D. C., 60¢.

healed over, but in any event they are very damaging and especially so when they run spirally around the log.

Catface. A catface is a scarred area on a log usually caused by fire or mechanical injury. Catfaces may or may not have rot extending from them. Shallow relatively fresh injuries without rot may come out in rounding up or slabbing a log and thus cause no loss in scale. Old, imperfectly healed scarred areas cause loss of scale and log degrade.

Maximum Prices

The maximum prices apply f. o. b. rail cars or delivered to the mill by truck, unless otherwise specified. Where logs and bolts are purchased f. o. b. trucks, the maximum prices must be reduced by the actual cost to the purchaser of transporting the logs or bolts to his mill. The Scribner Decimal C Log Rule shall govern the scale of all logs.

APPENDIX G—CHEMICAL WOOD

NOTE: The tables in this appendix establish maximum prices based on the cubical content of a unit or cord of the size most usually purchased. In those cases where units of a different size are purchased, the maximum prices must be adjusted by the ratio which the unit sold bears to that actually priced in the tables. For example, if the unit sold is larger than that priced, the maximum stated may be increased proportionately, but where the unit sold is smaller, the maximum must be reduced accordingly.

The following table indicates the appropriate percentage adjustments which must be made; any additions or subtractions specified in the particular table shall likewise be adjusted to reflect the correct proportion.

If size of unit priced in table is—	If unit sold contains following cubic footage, adjust price by percentage shown below

TABLE 1—LAKE STATES

Area: Upper Peninsula of Michigan and the following counties in Wisconsin: Marinette, Florence, Forest, Oneida, Vilas, Iron, Oconto, Shawano, Langlade.

Species or kind of log or bolt

Chemical Cordwood: Mixed hardwood species, including hard maple, soft maple, yellow birch, beech, oak, ironwood, rock elm.

Chemical Bolts: Maple hardwood species, including hard maple, soft maple, yellow birch, beech, oak, ironwood, rock elm.

Chemical Logs: Mixed hardwood species, including hard maple, soft maple, yellow birch, oak, beech, ironwood, rock elm.

Scaling and grading rules

Chemical logs: Chemical logs are cull hardwood logs, mixed species, in random lengths not exceeding 18'. Such logs must be reasonably straight, reasonably sound and must be trimmed free of all projecting stubs and crotches. Buying plants may set minimum and maximum diameters and lengths to suit individual operations. Purchase may be by Scribner log rule measure or by weight and buying plants shall make reasonable deductions for rotten or dozy wood. In no case shall the purchaser be required to accept logs with a solid wood content of less than 50% by volume. The mixed species shall include hard maple, soft maple, yellow birch, oak, ironwood, and rock elm and may include other hardwood species at the option of the buying plant.

Chemical bolts: Chemical bolts are cull hardwood logs, mixed species, in uniform lengths or random lengths not exceeding 9'. Such logs must be reasonably straight, reasonably sound and must be trimmed free of all projecting stubs and crotches. Buying plants may set minimum and maximum diameters and lengths to suit individual operations. Purchase may be by Scribner log rule measure or by weight or by volume cord and buying plants may make reasonable deductions for rotten or dozy wood. The mixed species shall include hard maple, soft maple, yellow birch, beech, oak, ironwood and rock elm and may include other hardwood species at the option of the buying plant. Plants purchasing on a weight basis may class as cordwood any unsplit wood delivered in random lengths not exceeding 8 feet and random diameters not exceeding 8 inches. Plants with no facilities for weighing bolts may purchase same on a face cordage scale where 16 square feet on the face of the pile is one cord provided the sticks therein are all between 7 and 9 feet in length and average 8 feet.

Chemical cordwood: Chemical cordwood is wood cut from tops, branches, bodywood or second growth of mixed hardwood species either in the round or split or a mixture of round and split wood. The pieces of cordwood shall be approximately 52 inches long, 3 inches minimum diameter and eight inches maximum diameter but each buying plant may fix limits of lengths and diameter to suit individual operations provided such limits are reasonably close to the above figures. Pieces of cordwood shall be sound wood reasonably straight and shall be piled in a compact manner. Purchase may be by volume (a cord is a pile of pieces approximately 52" long and piled 8' long and 4' high), or by weight on a green or dry wood substance basis and purchasing plants may make appropriate deductions for rotten or dozy wood or loose piling. The mixed hardwood species shall include hard maple, soft maple, yellow birch, beech, oak, ironwood and rock elm and may include other hardwood species at the option of the buying plant.

Maximum Prices

Chemical cordwood: \$9.00 per scaled cord when purchased by volume (a cord is a pile 8' long and 4' high in which all pieces are approximately 52" long). \$1.800 per cwt of green wood when purchased by weight on a

green or "as delivered" basis. \$3.000 per cwt of bone dry wood substance when purchased by weight on a dry wood substance basis.

Buying plants are permitted to purchase chemical cordwood by weight on an "as delivered" basis with a sliding scale of increasing price as the wood becomes drier provided the total payment does not exceed \$3.00 per cwt of bone dry wood substance. This means that if at the time of the delivery, the wood is half dried, the maximum price will be \$.24 per cwt.

Chemical logs: \$21.00 per M when purchased on basis of Scribner log rule scale. \$3.00 per ton of green wood as delivered when purchased on a weight basis.

Chemical bolts: \$21.00 per M when purchased on basis of Scribner log rule scale. \$3.00 per ton of green wood as delivered when purchased on a weight basis. \$9.00 per scaled cord when purchased on a volume basis as provided above.

Prices are f. o. b. cars, or truck delivered. Plants which in 1942 received 80% or more of their chemical wood by truck delivery may, however, apply to the Lumber Branch, Office of Price Administration, Washington, D. C. for permission to make additions to these prices for truck delivery. The Lumber Branch may grant appropriate authority by letter or telegram.

This amendment shall become effective September 24, 1943.

In the judgment of the District Director of the San Antonio, Texas, District, the maximum prices established by this regulation are generally fair and equitable and are necessary to (and will) check inflation and effectuate the purposes of the Act. So far as practicable, the District Director of the San Antonio, Texas, District gave due consideration to prices prevailing between October 1 and 15, 1941, and consulted with the representatives of those affected by this regulation.

A statement of the considerations involved in the issuance of this regulation is issued simultaneously herewith.

Therefore, in accordance with the direction of the President to take action which will stabilize prices affecting the cost of living, and under the authority therewith delegated by the President pursuant to the Act of Congress approved October 2, 1942, entitled "An Act to Aid in Stabilizing the Cost of Living" (F.R. 7565), 77th Congress, Second Session, and under the authority of Executive Order 9250, Executive Order 9328, and the Emergency Price Control Act of 1942, the District Director of the San Antonio, Texas, District hereby issues this Restaurant Maximum Price Regulation No. 5-3, establishing as maximum prices for food and drink sold for immediate consumption in the counties mentioned above the prices prevailing therefor during the seven-day period beginning April 4, 1943, and ending April 10, 1943.

SECTION 1. Sales at higher than ceiling prices prohibited. If you own or operate a restaurant, hotel, cafe, bar, delicatessen, soda fountain, boarding house, or any other eating or drinking place, you must not offer or sell any "food item" (including any beverage) or "meal" at a price higher than the ceiling price which you figure according to the directions in the next four sections (sections 2 to 5, incl.). You may, of course, sell at lower than ceiling prices.

You may not sell any "food item" at a maximum price determined in accordance with this regulation if the maximum price so determined is a result of a violation by you of any regulation or order of the Office of Price Administration which is or was in effect during the base period used by you in establishing your price.

Example: During the period from April 4 to April 10, 1943, you were selling Texas Beers at 15 cents per bottle. However, if your maximum price for Texas Beers under Maximum Price Regulation 259 is 10 cents per bottle you may not legally sell Texas Beers under this regulation at a price in excess of 10 cents per bottle.

SEC. 2. How you figure ceiling prices for food items and meals you offered in the seven-day period from April 4, 1943 to April 10, 1943. Your ceiling price for any "food item" or "meal" is the highest price at which you offered the same "food item" or the same "meal" as a "meal of the same class" in the seven-day period beginning Sunday, April 4, 1943, and ending Saturday, April 10, 1943. (There are thirteen classes of "meals" provided for in section 21b of this Regulation.)

Example: If you charged during the seven-day period 75 cents for a dinner on week days and \$1.00 for the identical dinner on Sunday, the most you can charge for the dinner on week days is 75 cents because section 21 (b) provides that week-day dinners are dinners of a different class from Sunday dinners.

SEC. 3. How you figure ceiling prices for food items and meals which you cannot price under section 2. If you cannot figure your ceiling price for a "food item" or "meal" under section 2 and if you have adequate records of the prices you charged during the period from March 7 to April 3, 1943, inclusive, you must take, as your ceiling price for such "food item" or "meal", the highest price at which you offered the same "food item" or the same "meal" as a "meal of the same class" during that four-week period. (See section 21B for classes of meals).

SEC. 4. How you figure ceiling prices which you cannot determine under sections 2 or 3. If you cannot determine your ceiling price for a "food item" or "meal" under sections 2 or 3, you must proceed as follows:

(a) Determine the cost of the raw food which you use in preparing the new "food item" or "meal".

(b) From the "food items" and "meals" for which you have already established ceiling prices choose a "food item" or "meal" which currently has a raw food cost equal to or less than the raw food cost of the new "food item" or "meal".

Example: You desire to determine your ceiling price for a broiled trout dinner to be served on week days and you did not serve

such a dinner on week days during the period from March 7 to April 10, 1943, inclusive. You find that the raw food cost of this meal is 50 cents. You select from the meals for which you have already established ceiling prices a week-day dinner which has a raw food cost equal to or less than 50 cents. Since you may not select a meal which has a greater food cost than the raw food cost of the meal you are pricing, the meal you select in this instance must not have a raw food cost of more than 50 cents.

(c) Take as your ceiling price for the new "food item" or "meal" your ceiling price for the "food item" or "meal" chosen for comparison. The "food item" or "meal" offered for such comparison should be of the same class as the new "food item" or "meal" (the different classes of "meals" and "food items" are set out in section 21B). If, however, you can find no "food item" or "meal" of the same class, you may use for comparison the most similar "food item" or "meal" of another class having a food cost equal to or less than your food cost for the new "food item" or "meal". "Currently" as used herein means current on the day you figure your price.

(d) Under no circumstances are you permitted to use a raw food cost which exceeds the current maximum price fixed under any applicable maximum price regulation or order of the Office of Price Administration.

(e) Under no circumstances are you permitted to charge a higher price for any "food item" or "meal" determined under this section which is higher than the highest of the following prices:

(1) Your highest ceiling price for "food items" or "meals" of the same class offered in the seven-day period; or

(2) The last price at which you sold the same "food item" or the same "meal" as a "meal of the same class" prior to March 7, 1943, provided you first file with the appropriate war price and rationing board a menu or certified copy of the record showing the last price charged. The limitations under this section 4, paragraph (e), shall not apply to seasonal dessert specialties specified in section 21 (a), Class 25a.

Example 1: If you did not serve split pea soup during the five-week period and you determine the price in accordance with section 4, arriving at a price of 25 cents for split pea soup, and the highest price you charged for any soup during the seven-day period was 15 cents, you may not now charge more than 15 cents for split pea soup, unless you find that the last time you served the soup prior to March 7, 1943, you offered it at a price of more than 15 cents, in which event you may take as your price either the 25 cents arrived at under section 4 or the highest price charged by you for split pea soup prior to March 7, 1943, whichever is the lower.

Example 2: If you did not serve a chicken dinner on a week day during the five-week period and now wish to do so, you must calculate your maximum price under section 4. Suppose that your calculated price is \$1.25 and the highest priced week-day dinner you served during the seven-day period from April 4 to April 10, 1943, inclusive, was \$1.00, you may not now charge more than \$1.00 for this week-day dinner, unless the last time you served a week-day chicken dinner prior to March 7, 1943, you served it at a higher price than \$1.00. In such case, you may use the last price charged, or your price calculated under section 4, whichever is lower. Observe

the requirement that a supporting menu or certified copy of a record showing the maximum price charged must be first filed with your war price and rationing board.

SEC. 5. How you figure your prices for seasonal items. (a) First you determine your ceiling price for a "seasonal food item" (defined in section 20 (e)) in accordance with the first applicable pricing provision contained in sections 2, 3 and 4 of this regulation. Thereafter, this price must be varied in proportion to any seasonal change in the raw food cost of the item, provided that in no event shall the price be higher than the ceiling price as originally determined. If in the past it has been your practice to maintain one price throughout the season, you need not vary your ceiling price according to this rule provided the ceiling price was based upon estimated average raw food cost of the item for the entire season.

Example: Suppose when you first determine your maximum price for a serving of strawberries and cream it is 25 cents per serving and the raw food cost of this item is 12½ cents. Later, your raw food cost on this item is reduced to 10 cents, then the maximum price you may charge for a serving of strawberries at such time is 20 cents.

(b) In reducing your price of a "seasonal food item", you may ignore any reduction in raw food cost which would reduce the price of the item less than 5 cents. If the reduction is more than 5 cents and you customarily express your prices in multiples of 5 cents, you may adjust your price to the nearest figure which will be a multiple of 5 cents.

(c) Except for ceiling prices which are to be varied in accordance with this section, all of your ceiling prices for food items or meals once fixed or determined may not be changed by you.

SEC. 6. Substitution of food items in meals. If you have already determined your ceiling price for a meal, you may substitute for any food item other than the entree (or main dish) in that meal any other food item of the same class without refiguring your ceiling price, provided the new food item costs you approximately as much and offers customers about the same value as the food item which it replaces. A meal becomes a "new" meal whenever the entree (or main dish) is changed or a new food item is substituted which costs you less or offers your customers lower value than the food item which it replaces, and you must therefore determine its ceiling price in accordance with the rules established by section 4.

SEC. 7. Prohibition against manipulation of meal offerings. You must not manipulate your meal offerings in a manner which will force your customers to pay more than they did during the seven-day period. Among other things you must not

(a) Reduce the number of meals offered at prices equal to or below your "middle price" for meals of the same class without making a corresponding reduction in the number of meals offered at prices above that middle price. By "middle price" is meant the price most nearly at the mid-point of your price range for meals of the same class. To

determine the mid-point, add the price of your highest priced meal to the price of your lowest priced meal of the same class and divide by two.

(b) Cease to offer at least as many different meals at or below the lowest price charged by you for meals of the same class on any day you select in the seven-day period, as you did on that day.

Example 1: You have always offered five meals on week days at \$1.50, \$1.25, \$1.00, 85¢ and 65¢. The mid-point is \$1.07½. Your middle price is \$1.00. You may not eliminate your 85¢ meal without eliminating either your \$1.25 or your \$1.50 meal.

Example 2: If you select Friday, April 9, 1943, to determine the lowest price and the number of week-day meals offered at that price, and if on that day you offered six week-day dinners, of which two were priced at 85¢, and one each at 90¢, \$1.00, \$1.10 and \$1.15, you must continue to offer two week-day dinners at 85¢. Note that Sunday meals and week-day meals are meals of a different class.

SEC. 8. Evasion. (a) You must not evade or avoid the provisions of this regulation by any scheme or device whatsoever. Some, but not all, practices which will be regarded as evasive are:

(1) Dropping food items from meals, deteriorating quality or reducing quantity without making sufficient reduction in price so as to maintain the raw food cost ratio at least equal to such ratio prior to the deterioration or reduction;

(2) Withdrawing the offer, or increasing the price, of any meal ticket, weekly rate, or other arrangement by which customers may buy food items or meals at less than the prices they must pay when purchasing by item or meal;

(3) Increasing any cover, minimum, bread-and-butter, service, corkage, entertainment, check-room, parking or any other special charges, or making such charges when they were not in effect in the seven-day period except that a cover or minimum charge in effect during the base period may be increased in accordance with customary practice, where it was the practice to vary the charge in accordance with the type of entertainment offered and the increase does not cause the charge to go above the highest charge made during the last twelve-month period;

(4) Requiring as a condition of sale of an item or meal the purchase of other items or meals when such condition was not in effect during the base period except that you may refuse to sell coffee unless a customer also purchases another food item;

(5) Reducing the selection of meals offered at table d'hote prices when the food items which you customarily offered in such meals are being offered at a la carte prices which, when added together, total more than the table d'hote price for the complete meal or give your customers less value for their money.

(6) Shortening the period of time in each day during which table d'hote meals are offered unless there is a corresponding reduction in the period of time in which a la carte meals are served.

(b) You will not be considered evading the provisions of this regulation, however, if you do any of the following

things, even though you did not do any of these things during the seven-day period:

(1) You may limit your customers to one cup of coffee per meal.

(2) You may limit your customers to one pat of butter per meal.

(3) You may reduce the quantity, or eliminate altogether, condiments (such as catchup, chili sauce, etc.) which you may have customarily placed at the disposal of your customers and which now are, or may hereafter be, subject to any rationing order or rationing regulation of the Office of Price Administration.

(4) You may reduce the amount of sugar served with each cup of coffee or tea, or each bowl of cereal, fruit, or other similar food items with which sugar is served, to, but not less than, one teaspoonful except that less than that may be given if required by your available supply.

You may not, however, make the curtailment authorized in the foregoing subparagraphs and furnish these curtailed items at an additional charge. For example, if during the seven-day period you furnished catchup, you may not now discontinue furnishing this item free, and at the same time offer to furnish it for an additional charge.

SEC. 9. Rules for new proprietors. (a) If you acquire another's business subsequent to the effective date of this regulation and continue the business in the same place, you are subject to the same ceiling prices and duties as the previous proprietor. Prior to acquiring another's business, however, you may apply to the Office of Price Administration for permission to price under paragraph (b) of this section. If such permission is granted it may be subject to such conditions as the Office of Price Administration deems necessary.

(b) If you open an eating or drinking place after the seven-day period, you must fix ceiling prices in line with the ceiling prices of the nearest eating or drinking place of the same type as yours. If the ceiling prices so fixed are too high and threaten to have an inflationary effect on the price of food or drink, the Office of Price Administration may issue an order requiring you to reduce your ceiling prices. You are subject to the record requirements of section 12 and the posting requirements of section 13 immediately upon the opening of your place.

SEC. 10. Seasonal eating and drinking places—(a) *Exempt places.* If you are the proprietor of a seasonal eating or drinking place that falls all of the following classifications:

(1) Was not open during the base period from April 4 to 10, 1943;

(2) Receives 90 per cent or more of its total annual revenue during four calendar months of the year; and

(3) Is located in an area for which no maximum rent regulation has been issued

the prices for food items and meals offered by you in that place are exempt from control.

You must not regard this exemption as relieving you from the obligations im-

posed upon you by General Order 50, and you are still subject to the provisions of section 22 of this regulation. Pursuant to this latter section, the Administrator will, by special order, establish maximum prices for any seasonal eating or drinking place which takes undue advantage of the exemption.

(b) *Non-exempt places.* If you are the proprietor of a seasonal eating or drinking place which is not exempt under the terms of paragraph (a), you must figure your ceiling prices as follows:

(1) If the place was in operation during the base period from April 4 to April 10, 1943, use the rules set forth in sections 2, 3, 4 and 5.

(2) If the place was not in operation during the base period from April 4 to April 10, 1943, but another place of the same type and within a reasonable distance was in operation during that period, fix your ceiling prices as a new proprietor under the terms of section 9 (b).

(3) If you cannot price under subparagraphs (1) or (2) above, you must apply for a price to the OPA District Office for the area in which your place is located. Your application must be filed ten days prior to the date you plan to commence operations and present the following information:

(i) Your name and address;

(ii) A brief description of your business and the manner of operation;

(iii) A list showing the prices you charged during the previous season as well as the prices you propose to charge during the coming season;

(iv) The date when you plan to commence operations;

(v) The names of two establishments similar to yours.

You may charge the prices listed if they are not disapproved by the Office of Price Administration prior to the date specified for the commencement of operations. That Office may at any time, after proper investigation and hearing, establish such maximum prices for your business as it deems proper.

SEC. 11. Taxes. If in the seven-day period you stated and collected the amount of any tax separately from the price you charged, you may continue to do so. You may also separately state and collect the amount of any new tax or of any increase in the amount of a previous tax on the sale of food or drink or on the business of selling food or drink, if the tax is measured by the number or price of items or meals.

SEC. 12. Records. (a) You must observe all the record keeping and filing requirements of General Order No. 50 which are hereby made a part of this regulation by reference.

(b) *Customary records.* You must preserve all your existing records relating to your prices, costs and sales. You must also continue to maintain such records as you ordinarily kept. All such records shall be subject to examination by the Office of Price Administration.

(c) *Records of the seven-day period.* You must make readily available for examination by any person during ordinary business hours a copy of each menu used

by you in the seven-day period. If you did not use menus, you must make readily available for such examinations a list of the highest prices you charged in the seven-day period.

(d) *Filing by new proprietors.* The proprietor of an eating or drinking place which was not open during the seven-day period (including newly-opened places) shall file menus or a price list in accordance with paragraph (a), (of General Order 50) except that (1) the filing shall be for the seven-day period beginning with the first Sunday that place is open after April 4, 1943, and (2) the filing shall be made within three weeks of such first Sunday.

(e) *Future records.* Beginning with the effective date of this regulation, you must keep, for examination by the Office of Price Administration, two each of the menus used by you each day. If you do not use menus, you must prepare in duplicate, and preserve for such examination, a record of the prices charged by you each day, except that you need not record prices which are the same as, or less than, prices you previously recorded for the same items or meals. Proprietors who operate a number of eating or drinking places in the same city which have customarily been subject to central control may keep the records required by this paragraph for those places at a central office or the central office of the principal place of business within the city.

SEC. 13. *Posting.* (a) Beginning September 20, 1943, each menu must have clearly written on or attached to it the following statement:

All prices listed are our ceiling prices or below. By Office of Price Administration Regulation, our ceiling prices are based on our highest prices from April 4, 1943, to April 10, 1943. Records of these prices are available for your inspection.

(b) If you made menus available in the seven-day period, you shall continue to make them available.

(c) In addition to the requirements in (a) and (b), you must post in a conspicuous place, preferably at or near the cash register, a sign or poster when furnished by the Office of Price Administration. You must enter after each meal or food item on this list your ceiling price for such meal or food item.

SEC. 14. *Operation of several places.* If you own or operate more than one eating or drinking place, you must do everything required by this regulation for each place separately.

SEC. 15. *Relation to other maximum price regulations.* The provisions of this regulation shall in the territory covered by it as set out in Section 16 hereof supersede other regulations, including the General Maximum Price Regulation, now issued by the Office of Price Administration, insofar as they establish maximum prices for meals and food items sold by eating and drinking places. However, a price charged during the base period of this regulation shall not become a maximum price under this regulation to the extent that it exceeded the maximum price established by another

regulation applicable at that time. (See example in section 1).

SEC. 18. *Exempt sales.* Sales by the following eating or drinking places are specifically exempt from the provisions of this regulation:

(a) Eating and drinking places located on church premises and also any sales of food and beverages by churches, Sunday schools, and other religious organizations unless such sales are made as a regular business;

(b) Hospitals, except for food items and meals served to persons other than the patients when a separate charge is made for such food items and meals;

(c) Eating and drinking places located on board common carriers (when operated as such) including railroad dining cars, club, bar and buffet cars, and peddlers aboard railroad cars traveling from station to station.

SEC. 19. *Adjustments.* (a) The Office of Price Administration may adjust the maximum prices for any eating establishment under the following circumstances:

(1) The establishment will be forced to discontinue operations unless it is granted an adjustment of the maximum prices established by this regulation.

(2) Such discontinuance will result in serious inconvenience to consumers in that they will either be deprived of all restaurant service or will have to turn to other establishments that present sub-

stantial difficulties as to distance, hours of service, selection of meals or food items offered, capacity, or transportation.

(3) By reason of such discontinuance, the same meals or food items will cost the customers of the eating establishment as much or more than the proposed adjusted prices.

(b) If you are the proprietor of an eating establishment which satisfies the requirements specified above, you may apply for an adjustment of your maximum prices by submitting to your OPA District Office a statement setting forth:

(1) Your name and address;

(2) A description of your eating establishment including: type of service rendered (such as cafeteria, table service, etc.), classes of meals offered (such as breakfast, lunch and dinner), number of persons served per day during the most recent thirty-day period,¹ and such other information that may be useful in classifying your establishment;

(3) The reasons why your customers will be seriously inconvenienced if you discontinue operations;

(4) The names and addresses of the three nearest eating places of the same type as yours;

(5) A list showing your present maximum prices and your requested adjusted prices;

(6) A profit and loss statement for your restaurant business for the most recent three-month accounting period, and a copy of your last income tax return if one was filed separately for your restaurant business.

Applications for adjustment under this section may be acted upon by any District Office that has been authorized to do so by order of the Regional Office.

PART 1448—EATING AND DRINKING ESTABLISHMENTS

[Restaurant MPR 5-4]

FOOD AND DRINK SOLD FOR IMMEDIATE CONSUMPTION

In the judgment of the District Director of the Dallas District Office, the prices of food and beverages sold for immediate consumption in the counties of Anderson, Bowie, Camp, Cass, Cherokee, Collin, Dallas, Delta, Ellis, Fannin, Franklin, Freestone, Grayson, Gregg, Harrison, Henderson, Hopkins, Hunt, Kaufman, Lamar, Limestone, Marion, Morris, Navarro, Panola, Rains, Red River, Rockwall, Rusk, Smith, Titus, Upshur, Van Zandt, and Wood, Texas, have risen and are threatening further to rise to an extent and in a manner inconsistent with the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328.

In the judgment of the District Director, the maximum prices established by this regulation are generally fair and equitable and are necessary to check inflation and to effectuate the purposes of the Act. So far as practicable, the District Director of the Dallas District gave due consideration to prices prevailing between October 1 and 15, 1941, and consulted with the representatives of those affected by this regulation.

An opinion involved in the issuance of this regulation is issued simultaneously herewith.

Therefore, in accordance with the direction of the President to take action which will stabilize prices affecting the cost of living, and under the authority therewith delegated by the President pursuant to the Act of Congress approved October 2, 1942, entitled "An Act to Aid in Stabilizing the Cost of Living", 77th Congress, Second Session, and under the authority of Executive Order 9250, Executive Order 9328, and the Emergency Price Control Act of 1942, the District Director of the Dallas District Office hereby issues this Restaurant Maximum Price Regulation No. 5-4, establishing as maximum prices for food and drink sold for immediate consumption in the counties mentioned above the prices prevailing therefor during the seven-day period beginning April 4, 1943, and ending April 10, 1943.

§ 1448.404 *Maximum Prices for Food and Drink sold for immediate consumption.* Under the authority vested in the District Director of the Dallas District Office by the Emergency Price Control Act of 1942, as amended, Executive Order 9250, Executive Order No. 9328, and General Order No. 50 issued by the Office of Price Administration, Restaurant Maximum Price Regulation No. 5-4 (Food and Drink Sold for Immediate Consumption) which is annexed hereto and made part hereof, is issued.

AUTHORITY: § 1448.404 issued under Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681.

SECTION 1. Sales at higher than ceiling prices prohibited. If you own or operate a restaurant, hotel, cafe, bar, delicatessen, soda fountain, boarding house, or any other eating or drinking place, you must not offer or sell any "food item" (including any beverage) or "meal" at a price higher than the ceiling price which you figure according to the directions in the next two sections (sections 2 and 3). You may, of course, sell at lower than ceiling prices.

SEC. 2. How you figure ceiling prices for food items and meals you offered in the seven-day period from April 4, 1943, to April 10, 1943. Your ceiling price for any food item or meal which you offered in the seven-day period beginning Sunday, April 4, 1943, and ending Saturday, April 10, 1943, is the highest price at which you offered the same food item or meal in that seven-day period.

SEC. 3. How you figure ceiling prices for food items and meals you did not offer in the seven-day period. You must figure your ceiling price for a food item or meal which you did not offer during the seven-day period as follows:

(a) If you offered the same food item or meal at any time during the four weeks from March 7 to April 3, 1943, inclusive, and if you have adequate records of the prices you then charged, take as your ceiling price the highest price at which you offered that food item or meal during that four-week period.

(b) If you did not offer the food item or meal during the five-week period from March 7 to April 10, 1943, inclusive, or if you do not have adequate records of prices charged prior to the seven-day period you must proceed as follows:

(1) Determine the cost of the raw food which you use in preparing the new food item or meal.

(2) From the food items and meals for which you have already established ceiling prices, choose a food item or meal which currently has a raw food cost equal to or less than the raw food cost of the new food item or meal.

(3) Take as your ceiling price for the new food item or meal your ceiling price for the food item or meal chosen for comparison. The food item or meal chosen for such comparison should be of the same class as the new food item or meal. If, however, you can find no food item or meal of the same class, you may use for comparison the most similar food item or meal of another class having a food cost equal to or less than your food cost for the new food item or meal.

"Currently" as used herein means current on the day you figure your price.

(c) Once your ceiling price for a food item or meal has been fixed, it may not be changed except as provided in section 4.

SEC. 4. How you figure your prices for seasonal items. First, determine your ceiling price for a "seasonal food item" (defined in section 20 (e)) in accordance with the appropriate rule of Sections 2 and 3 of this regulation. Thereafter, this price must be varied in proportion to any seasonal change in the raw food cost of the item, provided that in no event shall the price be higher than the ceiling price as originally determined. If in the past it has been your practice to maintain one price throughout the season, you need not vary your ceiling price according to this rule provided the ceiling price was based upon estimated average raw food cost of the item for the entire season.

SEC. 5. No ceiling price for any food item or meal to be higher than the highest ceiling price for a food item or meal of the same class in the base period. Under no circumstances are you permitted to charge a higher price for a food item or a meal than—

(a) Your highest ceiling price for food items or meals of the same class offered in the seven-day period; or

(b) The last price at which you sold the same food item or meal prior to April 4, 1943 provided you first file with the appropriate War Price and Rationing Board a menu or certified copy of a record showing the last price charged.

The provisions of this section shall not apply to seasonal dessert specialties specified in section 21A Class 24a.

Example 1. If your highest ceiling price for any soup offered by you during the seven-day period is 15 cents, you may not offer any other soup at a higher price than 15 cents.

Example 2. You served sirloin steak in March at \$1.50. You did not serve sirloin steak during the base period. The highest price at which you can now serve sirloin steak is \$1.50.

SEC. 6. Substitution of food items in meals. If you have already determined your ceiling price for a meal you may substitute for any food item other than the entree (or main dish) in that meal

any other food item of the same class without re-figuring your ceiling price, provided the new food item costs you approximately as much and offers customers about the same value as the food item which it replaces. A meal becomes a "new" meal whenever the entree (or main dish) is changed or a new food item is substituted which costs you less or offers your customers lower value than the food item which it replaces, and you must therefore determine its ceiling price in accordance with the rules established by section 3.

SEC. 7. Prohibition against manipulation of meal offering. You must not manipulate your meal offerings in a manner which will force your customers to pay more than they did during the seven-day period. Among other things you must not—

(a) Reduce the number of meals offered at prices equal to or below your "middle price" for meals of the same class without making a corresponding reduction in the number of meals offered at prices above that middle price. By "middle price" is meant the price most nearly at the mid-point of your price range for meals of the same class.

(b) Cease to offer at least as many different meals at or below the lowest price charged by you for meals of the same class on any day you select in the seven-day period, as you did on that day.

Example: If you select Friday, April 9, 1943, to determine the lowest price and the number of week-day meals offered at that price, and if on that day you offered six week-day dinners, of which two were priced at 85¢, and one each at 90¢, \$1.00, \$1.10, \$1.15, you must continue to offer two week-day dinners at 85¢. Note that Sunday meals and week-day meals are meals of a different class.

SEC. 8. Evasion. (a) You must not evade or avoid the provisions of this regulation by any scheme or device whatsoever. Some, but not all, practices which will be regarded as evasive are:

(1) Dropping food items from meals, deteriorating quality or reducing quantity without making sufficient reduction in price so as to maintain the raw food cost ratio at least equal to such ratio prior to the deterioration or reduction;

(2) Withdrawing the offer, or increasing the price, of any meal ticket, weekly rate, or other arrangement by which customers may buy food items or meals at less than the prices they must pay when purchasing by item or meal;

(3) Increasing any cover, minimum, bread-and-butter, service, corkage, entertainment, check-room, parking or other special charges, or making such charges when they were not in effect in the seven-day period except that a cover charge or minimum charge in effect during the base period may be increased in accordance with customary practice, where it was the practice to vary the charge in accordance with the type of entertainment offered and the increase does not cause the charge to go above the highest charge made during the last twelve month period;

(4) Requiring as a condition of sale of an item or meal the purchase of other items or meals when such condition was

not in effect during the base period, except that you may refuse to sell coffee unless a customer also purchases another food item;

(5) Reducing the selection of meals offered at table d'hote prices when the food items which you customarily offered in such meals are being offered at a la carte prices which when added together total more than the table d'hote price for the complete meal or give your customers less value for their money.

Example 1. If you customarily offered fish on table d'hote dinners at \$1.10, you may not now offer fish a la carte and refuse to offer it on a table d'hote dinner priced at \$1.10.

Example 2. If you offered table d'hote dinners during the base period at 85¢ to \$1.25 which included dessert and beverage, you may now offer the same food item excluding dessert and beverage at 65¢ to \$1.05, providing you also offer dessert and beverage to be served with the meals at prices which do not total more than 20¢.

(b) You will not be considered evading the provisions of this regulation, however, if you do any of the following things, even though you did not do any of these things during the seven-day period:

(1) You may limit your customers to one cup of coffee per meal.

(2) You may limit your customers to one pat of butter per meal.

(3) You may reduce the quantity, or eliminate altogether, condiments (such as catchup, chili sauce, etc.) which you may have customarily placed at the disposal of your customers and which now are, or may hereafter be, subject to any rationing order or rationing regulation of the Office of Price Administration.

(4) You may reduce the amount of sugar served with each cup of coffee or tea, or each bowl of cereal, fruit, or other similar food items with which sugar is served, to, but not less than, one teaspoonful except that less may be given if required by your available supply.

You may not, however, make the curtailment authorized in the foregoing subparagraphs and furnish these curtailed items at an additional charge. For example, if during the seven-day period you furnished catchup, you may not now discontinue furnishing this item free, and at the same time offer to furnish it for an additional charge.

Sec. 9. Rules for new proprietors. (a) If you acquire another's business subsequent to the effective date of this regulation and continue the business in the same place, you are subject to the same ceiling prices and duties as the previous proprietor. Prior to acquiring another's business, however, you may apply to the Office of Price Administration for permission to price under paragraph (b) of this section. If such permission is granted it may be subject to such conditions as the Office of Price Administration deems necessary.

(b) If you open an eating or drinking place after the seven-day period, you must fix ceiling prices in line with the ceiling prices of the nearest eating or drinking place of the same type as yours. If the ceiling prices so fixed are too high and threaten to have an inflationary effect on the price of food and drink, the

Office of Price Administration may issue an order requiring you to reduce your ceiling prices. You are subject to the record requirements of section 12 and the posting requirements of section 13 immediately upon the opening of your place.

Sec. 10. Seasonal eating and drinking places—(a) Exempt places. If you are the proprietor of a seasonal eating or drinking place that

(1) Was not open during the base period from April 4 to 10, 1943;

(2) Receives 90 per cent or more of its total annual revenue during four calendar months of the year;

(3) Is located in an area for which no maximum rent regulation has been issued;

the prices for food items and meals offered by you in that place are exempt from control.

You must not regard this exemption as relieving you from the obligations imposed upon you by General Order No. 50, and you are still subject to the provisions of section 22 of this regulation. Pursuant to this latter section the District Director will by special order establish maximum prices for any seasonal eating or drinking place which takes undue advantage of the exemption.

(b) *Non-exempt places.* If you are the proprietor of a seasonal eating or drinking place which is not exempt under the terms of paragraph (a), you must figure your ceiling prices as follows:

(1) If the place was in operation during the base period from April 4 to April 10, 1943, use the rules set forth in sections 2, 3 and 4.

(2) If the place was not in operation during the base period from April 4 to 10, 1943, but another place of the same type and within a reasonable distance was in operation during that period, fix your ceiling prices as a new proprietor under the terms of section 9 (b).

(3) If you cannot price under subparagraphs (1) or (2) above, you must apply for a price to the Office of Price Administration District Office for the area in which your place is located. Your application must be filed ten days prior to the date you plan to commence operations and present the following information:

(i) Your name and address.

(ii) A brief description of your business and the manner of operation.

(iii) A list showing the prices you charged during the previous season as well as the prices you propose to charge during the coming season.

(iv) The date when you plan to commence operations.

(v) The names of two establishments similar to yours.

You may charge the prices listed if they are not disapproved by the Office of Price Administration prior to the date specified for the commencement of operations. That Office may at any time, after proper investigation and hearing, establish such maximum prices for your business as it deems proper.

Sec. 11. Taxes. If in the seven-day period you stated and collected the amount of any tax separately from the

price you charged, you may continue to do so. You may also separately state and collect the amount of any new tax or of any increase in the amount of a previous tax on the sale of food or drink or on the business of selling food or drink, if the tax is measured by the number or prices of items or meals.

Sec. 12. Records. (a) You must observe all the record-keeping and filing requirements of General Order No. 50 which are hereby made a part of this regulation by reference.

(b) *Customary records.* You must preserve all your existing records relating to your prices, costs and sales. You must also continue to maintain such records as you ordinarily kept. All such records shall be subject to examination by the Office of Price Administration.

(c) *Records of the seven-day period.* You must make available for examination by any person during ordinary business hours a copy of each menu used by you in the seven-day period. If you did not use menus, you must make available for such examination a list of the highest prices you charged in the seven-day period.

(d) *Filing by new proprietors.* The proprietor of an eating or drinking place which was not open during the seven-day period (including newly-opened places) shall file menus or a price list in accordance with paragraph (a), (of General Order No. 50) except that (1) the filing shall be for the seven-day period beginning with the first Sunday that place is open after April 4, 1943, and (2) the filing shall be made within three weeks of such first Sunday.

(e) *Future records.* Beginning with the effective date of this regulation, you must keep, for examination by the Office of Price Administration, two each of the menus used by you each day. If you do not use menus you must prepare in duplicate, and preserve for such examination, a record of the prices charged by you each day, except that you need not record prices which are the same as, or less than, prices you previously recorded for the same items or meals. Proprietors who operate a number of eating or drinking places in the same city which have customarily been subject to central control may keep the records required by this paragraph for those places at a central office or the principal place of business within the city.

Sec. 13. Posting. (a) Beginning September 25, 1943, each menu must have clearly written on or attached to it the following statement:

All prices listed are our ceiling prices or below. By Office of Price Administration Order, our ceiling prices are based on our highest prices from April 4, 1943, to April 10, 1943. Records of these prices are available for your inspection.

(b) If you made menus available in the seven-day period, you shall continue to make them available.

(c) In addition to the requirements in (a) and (b), you must post in a conspicuous place, preferably at or near the cash register, a sign or poster when furnished by the Office of Price Administration. You must enter after each

meal or food item on this list your ceiling price for such meal or food item.

SEC. 14. Operation of several places. If you own or operate more than one eating or drinking place, you must do everything required by this regulation for each place separately.

SEC. 15. Relation to other maximum price regulations. The provisions of this regulation shall supersede other regulations, including the General Maximum Price Regulation, now or hereafter issued by the Office of Price Administration, insofar as they establish maximum prices for meals and food items sold by eating and drinking places. However, a price charged during the base period of this regulation shall not become a maximum price under this regulation to the extent that it exceeded the maximum price established by another regulation applicable at that time.

SEC. 16. Geographical application. This Restaurant Maximum Price Regulation No. 5-4 applies to the counties of Anderson, Bowie, Camp, Cass, Cherokee, Collin, Dallas, Delta, Ellis, Fannin, Franklin, Freestone, Grayson, Gregg, Harrison, Henderson, Hopkins, Hunt, Kaufman, Lamar, Limestone, Marion, Morris, Navarro, Panola, Rains, Red River, Rockwell, Rusk, Titus, Smith, Upshur, Van Zandt, and Wood, Texas.

SEC. 17. Enforcement. Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspension of licenses, provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 18. Exempt sales. Sales by the following eating or drinking places are specifically exempt from the provisions of this regulation:

(a) Eating and drinking places located on church premises and operated in connection with special church, Sunday school and other religious occasions.

(b) Hospitals, except for food items and meals served to persons other than the patients when a separate charge is made for such food items and meals.

(c) Eating and drinking places located on board common carriers (when operated as such), including railroad dining cars, club, bar and buffet cars, and peddlers aboard railroad cars traveling from station to station.

(d) Bona fide private clubs insofar as such clubs sell only to members and bona fide guests of members. Whenever such clubs sell to persons other than members or bona fide guests of members, such clubs shall be considered for all sales an eating or drinking place within the meaning of this regulation. No club shall be considered to be exempt as a private club within the meaning of this paragraph unless its members pay dues (more than merely nominal in amount), are elected to membership by a governing board, membership committee or other body, and otherwise is operated as a private club.

No club organized after the effective date of this regulation shall be exempt unless and until it has filed a request for exemption with the nearest State or District Office of the Office of Price Administration,

furnishing such information as may be required, and has received communications from such office authorizing exemption as a private club.

(e) Eating and drinking places operated by any school, college or university which is a non-profit institution, that is, where no part of the net earnings inures to the benefit of any private individual, which sells food items or meals on a non-profit or cost basis or as near thereto as reasonable accounting methods will permit, and substantially all sales of which are made to students, faculty members and employees of such institutions. For the purpose of this section, persons receiving instruction on the premises of such institution by arrangement with the War Department or Department of the Navy shall be considered as students.

SEC. 19. Adjustments. (a) The Office of Price Administration may adjust the maximum prices for any eating establishment under the following circumstances:

(1) The establishment will be forced to discontinue operations unless it is granted an adjustment of the maximum prices established by this regulation.

(2) Such discontinuance will result in serious inconvenience to consumers in that they will either be deprived of all restaurant service or will have to turn to other establishments that present substantial difficulties as to distance, hours of service, selection of meals or food items offered, capacity, or transportation.

(3) By reason of such discontinuance, the same meals or food items will cost the customers of the eating establishment as much or more than the proposed adjusted prices.

(b) If you are the proprietor of an eating establishment which satisfies the requirements specified above, you may apply for an adjustment of your maximum prices by submitting to your Office of Price Administration District Office a statement setting forth:

(1) Your name and address.

(2) A description of your eating establishment including: type of service rendered (such as cafeteria, table service, etc.), classes of meals offered (such as breakfast, lunch and dinner), number of persons served per day during the most recent thirty-day period,¹ and such other information that may be useful in classifying your establishment.

(3) The reasons why your customers will be seriously inconvenienced if you discontinue operations.

(4) The names and addresses of the three nearest eating places of the same type as yours.

(5) A list showing your present maximum prices and your requested, adjusted prices.

(6) A profit and loss statement for your restaurant business for the most recent three-month accounting period, and a copy of your last income tax return if one was filed separately for your restaurant business.

¹In counting the number of persons served, any one who was served more than once is to be counted separately for each occasion he was served.

Applications for adjustment under this section may be acted upon by any District Office that has been authorized to do so by order of the Regional Office.

PART 1394—RATIONING OF FUEL AND FUEL PRODUCTS

[RO 14A]

FIREWOOD AND COAL IN THE PACIFIC NORTHWEST

Preamble. The serious uncertainty as to the adequacy of firewood supplies in the Pacific Northwest made it necessary for the Office of Price Administration, on February 27, 1943, to issue Ration Order No. 14—Firewood. That order, by requiring dealer registration and monthly reports, made available pertinent data respecting the supply and distribution of firewood in the affected area. To handle possible emergency situations, the Regional Administrator was authorized to issue orders which would assure fair distribution of the scarce commodity in particular localities.

A study of the dealers' monthly reports and of other factual sources, together with consultations with representatives of other agencies and dealers' organiza-

*Copies may be obtained from the Office of Price Administration.

tions, has revealed a growing demand for firewood with a corresponding decrease in supply, particularly in many of the heavily populated centers in the Limitation Area. To prevent hoarding, Ration Order No. 14 was amended on June 28, 1943 by adding provisions restricting deliveries of firewood to consumers on the basis of a stated order of preference. Except for certain exempt government agencies and persons, all firewood consumers were divided into five classes; the first class consisted of those consumers who use firewood for purposes other than heat, domestic hot water or domestic cooking, while those consumers who use firewood for those purposes were placed in four categories based upon the relation of the amount of all fuels on hand to annual fuel needs.

The several factors which have caused the firewood shortage in the rationed area have likewise affected the normal supply and distribution of coal. Scarcity of manpower and the demands of the armed forces have reduced the supply of coal while, on the other hand, consumption has increased by reason of increases in population (particularly in urban centers) and the rationing of fuel oil and firewood. It has been determined, therefore, that fuel oil and firewood rationing should be complemented by imposing controls and restrictions on coal deliveries in the Pacific Northwest similar to those now in effect there with respect to firewood.

This Ration Order 14A is accordingly issued to supersede Ration Order No. 14 and to effect an equitable distribution to consumers of both firewood and coal. Under this new order coal dealers, and firewood dealers (except those who have already registered under Ration Order No. 14), are required to register and both kinds of dealers are also required to file monthly reports. All deliveries to consumers (except certain exempt agencies and transactions) are restricted in the manner in which deliveries of firewood have been controlled under Ration Order No. 14 as amended. Thus, no person may deliver firewood or coal to a consumer unless the consumer has placed and confirmed an order for the fuel, the placing of duplicate orders for the same purpose with two or more persons is prohibited, and deliveries may be made only in the stated order of preference to consumers who have placed their orders in the required manner.

To assure equitable treatment in the light of different local conditions which may exist in various parts of the Limitation Area, and to provide a greater amount of flexibility in the administration of the order, broad authority to modify the provisions of the order is delegated to the Regional Administrator for Region 8. The Regional Administrator is authorized to issue orders allocating or giving priorities to, or removing restrictions upon, deliveries of firewood or coal, upon such conditions as he may designate. In addition, the Regional Administrator is empowered to issue administrative exceptions when the grant of such an exception would not impair or

defeat the policy or effectiveness of the order.

§ 1394.9206 *Rationing of firewood and coal in the Pacific Northwest.* Under the authority vested in the Office of Price Administration and the Price Administrator by Executive Order No. 9125 issued by the President on April 7, 1942, by Directive No. 1 and Supplementary Directive No. 1-U of the War Production Board issued January 24, 1942 and February 10, 1943, respectively, Ration Order 14A (firewood and coal in the Pacific Northwest), which is annexed hereto and made a part hereof, is hereby issued.

AUTHORITY: § 1394.9206 issued under Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 597, 77th Cong.; Pub. Law 421, 77th Cong.; WPB Dir. No. 1, 7 F.R. 562; Supp. Dir. No. 1-U, 8 F.R. 1835; E.O. 9125, 7 F.R. 2719.

This order also applies outside the Limitation Area with respect to "persons" who "deliver" "firewood" or "coal" to any place in the Limitation Area.

SEC. 2. *Firewood and coal are covered by this order.* The following fuels are covered by this order:

(a) "Firewood," which means all wood and wood products commonly known as fuel wood or firewood, or used for fuel purposes, including: forest cordwood, slabwood, mill ends, edgings or other millwaste; kindling wood, shavings, hogged fuel and sawdust, including sawdust pressed into logs or bricks; and

(b) "Coal," which includes all forms of anthracite, bituminous, sub-bituminous and lignitic coals (including packaged and processed fuels, such as briquets), coke and charcoal.

SEC. 3. *Who is a "dealer" under this order.* (a) A person who sells or delivers a total of fifty (50) or more cords of fire-

wood a year from any place or places inside the Limitation Area to consumers inside or outside the Limitation Area, or from any place or places outside the Limitation Area to consumers inside the Limitation Area, is a "firewood dealer."

(b) A person who sells or delivers a total of fifty (50) or more tons of coal a year from any place or places inside the Limitation Area to consumers inside or outside the Limitation Area, or from any place or places outside the Limitation Area to consumers inside the Limitation Area is a "coal dealer." However, a person who sells or delivers coal in carload or more than carload lots (or the truckload equivalent delivered within three (3) business days from first loading to final delivery), is not a coal dealer with respect to such deliveries.

SEC. 4. *Dealers must register.* (a) Every dealer must register, within the registration period fixed by the "Regional Administrator", by filing a Firewood Dealer Registration Certificate (Form OPA R-1404), if he is a firewood dealer, or a Coal Dealer Registration Certificate (Form OPA R-1405), if he is a coal dealer. A person who is both a firewood and coal dealer must file both forms. However, a person who is a firewood dealer under this order and who registered as such under Ration Order No. 14¹ is deemed to be a registered firewood dealer under this order, and he need not register again.

(b) The dealer must furnish all the information required by the form and file the form, in duplicate, in person or by mail, with the district office for the area in which he has a place of business, or at any other office designated by the Regional Administrator. Every dealer who delivers firewood or coal into the Limitation Area from a place outside the Limitation Area must register at the district office inside the Limitation Area nearest his place of business, or at any other office designated by the Regional Administrator.

(c) Every dealer must make a separate registration for each place of business inside the Limitation Area from which deliveries of firewood or coal are made, and for each place of business outside the Limitation Area from which deliveries of firewood or coal into the Limitation Area are made.

(d) Upon approval of the dealer's registration, one copy of the Dealer Registration Certificate will be returned to him appropriately marked. He must keep his copy available for inspection by the Office of Price Administration.

SEC. 5. *Dealers must make monthly reports.* On dates fixed by the Regional Administrator, every registered dealer must file, in person or by mail, with the district office or offices at which he is registered, or at any other office designated by the Regional Administrator, a monthly report on Form OPA R-1408 (Revised) furnishing the information for the preceding month required by the form.

SEC. 6. *Dealer may not do business if he does not register and file reports.*

(a) No firewood dealer may deliver firewood to any person and no coal dealer may deliver coal to any person after the

date he is required to register, unless he has registered in the manner required by this order.

(b) No firewood dealer may deliver firewood to any person, and no coal dealer may deliver coal to any person, after any date on which a monthly report is due from him, unless he has filed the report in the manner required by this order.

SEC. 7. *Deliveries of firewood and coal are restricted.* (a) No firewood dealer may deliver firewood to any "consumer", and after a date fixed by the Regional Administrator no coal dealer may deliver coal to any consumer, and no consumer may accept any such delivery, unless the consumer at the time of placing his order gives such dealer the following information:

(1) The kinds of fuels he uses (such as firewood, coal and fuel oil), and the purposes for which they are used; and

(2) The amount of each kind of fuel (except fuel oil) he has on hand and his estimated "annual fuel needs" for each kind of fuel (except fuel oil) in cords, tons or other appropriate units.

(b) Within seven (7) days after placing his order for firewood or coal the consumer must send to the dealer with whom he placed the order a signed statement confirming the information given under paragraph (a).

(c) If a consumer who has not received complete delivery of firewood or coal ordered by him places an order for firewood or coal for the same purpose with another dealer, he must immediately cancel his earlier order and he may not accept further delivery under the earlier order. No dealer may make a delivery of firewood or coal on an order that has been cancelled, or with knowledge that the consumer receiving the delivery has outstanding with another dealer an order for firewood or coal to be used for the same purpose. However, the provisions of this paragraph do not apply to deliveries to the consumers described in paragraph (a) (1) of section 8.

(d) So long as an order for firewood or coal remains unfilled, the consumer must send written notification to the dealer having such order of any increase in the amount of fuels (except fuel oil) on hand.

(e) Each dealer shall retain at his place of business for at least four (4) months from the date of its receipt each statement or notice he receives from a consumer, and he must keep them available for inspection by the Office of Price Administration.

(f) The Regional Administrator may direct a dealer to forward any statements or notices received from consumers to the district office or offices at which such dealer is registered, or to any other office of the Office of Price Administration designated by the Regional Administrator.

SEC. 8. *Order in which deliveries must be made.* (a) Deliveries of firewood or coal to consumers who have complied with section 7 must be made in the following order of preference:

(1) Consumers who need firewood or coal for any purpose other than heat, domestic hot water or domestic cooking, in the amounts needed, but not in excess of the amount necessary to bring their

¹ Words which are specially defined in this order are shown in quotation marks the first time they appear. These words are explained in section 14.

total inventory of all fuels to their annual fuel needs for such purposes.

(2) Consumers who need firewood or coal for heat, domestic hot water or domestic cooking (except consumers who use fuel oil, gas or electricity primarily for such purposes), and whose total fuel on hand is less than one-fourth ($\frac{1}{4}$) of their estimated annual fuel needs, in the amount necessary to bring their total inventory of all fuels to one-fourth ($\frac{1}{4}$) of their annual fuel needs for such purposes.

(3) Consumers who need firewood or coal for heat, domestic hot water or domestic cooking (except consumers who use fuel oil, gas or electricity primarily for such purposes), and whose total fuel on hand is one-fourth ($\frac{1}{4}$) or more but less than one-half ($\frac{1}{2}$) of their estimated annual fuel needs, in the amount necessary to bring their total inventory of all fuels to one-half ($\frac{1}{2}$) of their annual fuel needs for such purposes.

(4) Consumers who need firewood or coal for heat, domestic hot water or domestic cooking (except consumers who use fuel oil, gas or electricity primarily for such purposes), and whose total fuel on hand is one-half ($\frac{1}{2}$) or more but less than their estimated annual fuel needs, in the amount necessary to bring their total inventory of all fuels to their annual fuel needs for such purposes.

(5) Consumers who need firewood or coal for heat, domestic hot water or domestic cooking, and who use fuel oil, gas or electricity primarily for such purposes, to the extent necessary to bring their total inventory of all fuels to their annual fuel needs for such purposes.

(b) If conservation of labor or efficiency of transportation will be served thereby, nothing in this order shall be deemed to prohibit any single delivery to a consumer of a full load or portion of a load of firewood or coal by means of a truck or other transportation facility, customarily used in making deliveries to such consumer, even though such delivery brings the total amount of fuels in the consumer's possession to more than the amounts to which he would be entitled under paragraph (a). However, in no event shall any delivery of coal bring the total amount of coal in the consumer's possession to more than one and one-half ($1\frac{1}{2}$) tons in excess of the amount of coal he may acquire under paragraph (a).

(c) For purposes of determining the amount of fuel on hand and annual fuel needs under this order, a ton of coal and a cord or unit of firewood shall be deemed of equal value.

SEC. 9. Certain government agencies and persons are exempt. (a) Nothing in this order or in any order issued hereunder by the Regional Administrator shall limit the quantities of firewood or coal delivered to or for the account of:

(1) The Army, Navy, Maritime Commission, Panama Canal, Coast and Geodetic Survey, Coast Guard, Civil Aeronautics Authority, National Advisory Commission for Aeronautics, Office of Scientific Research and Development, and the Office of Lend-Lease Administration, of the United States; or

(2) Any government agency or other person acquiring firewood or coal for

export to and for consumption or use in any foreign country.

(b) Nothing in this order or in any order issued hereunder by the Regional Administrator shall limit the quantities of coal delivered to or for the account of any person:

(1) For industrial or agricultural purposes;

(2) For the operation of transportation facilities; or

(3) In carload or more than carload lots (or the truck-load equivalent delivered within three (3) business days from first loading to final delivery).

(c) The provisions of sections 7 and 8 shall not apply to deliveries of firewood or coal to the agencies or persons specified in paragraph (a), or to deliveries of coal for the purposes or in the manner stated in paragraph (b).

SEC. 10. Regional Administrator may issue orders. Notwithstanding any other provision of this order, whenever the Regional Administrator finds that conditions affecting the supply or distribution of firewood or coal in a locality or localities in the Limitation Area so require, he may from time to time issue orders, effective in such locality or localities, and for such periods, as may be stated in the orders, allocating or giving priorities to, or removing restrictions upon, deliveries of firewood or coal upon such conditions as he may designate. However, no such order shall affect the exemptions provided in section 9.

SEC. 11. Regional Administrator may grant administrative exceptions. Any person seeking relief from any provision of this order or of any order issued hereunder by the Regional Administrator shall present in writing to the Regional Administrator, a statement of the circumstances thought to warrant such relief, and the reasons why he believes that the granting of relief in his case and in all like cases would not defeat or impair the effectiveness or policy of the order. The Regional Administrator may grant such relief only if he finds that it will not defeat or impair the effectiveness or policy of the order.

SEC. 12. Prohibited acts. (a) Regardless of any agreement or commitment:

(1) No dealer shall discriminate in the delivery of firewood or coal among consumers entitled to receive deliveries under this order or any order issued hereunder by the Regional Administrator.

(2) No person shall deliver any firewood or coal acquired from a dealer and owned or held by him as a consumer, to any other consumer, and no consumer shall accept any such delivery, except in connection with a transfer of the premises for which the fuel was acquired.

(3) No person shall deliver or receive a delivery of firewood or coal except in accordance with this order or with any order issued hereunder by the Regional Administrator.

(4) No person shall make any false or misleading statement or entry in any document or record required to be filed or kept under this order or any order issued hereunder by the Regional Administrator.

(5) No person shall offer, solicit, attempt or agree to do any act in violation of this order or any order issued hereunder by the Regional Administrator,

(b) The prohibitions of General Ration Order No. 8,² to the extent applicable, shall be deemed a part of this order.

SEC. 13. Suspension orders. Any person who violates this order or any order issued hereunder by the Regional Administrator may, by administrative suspension order, be prohibited from receiving any delivery of, or from selling, using or otherwise disposing of any firewood or coal or any other rationed commodity. Proceedings for suspension orders shall be in accordance with the provisions of Procedural Regulation No. 4⁴ of the Office of Price Administration.

SEC. 14. Terms explained. (a) When used in this order, the term:

"Annual fuel needs" means the total amount of all fuels needed by a consumer for a period of one (1) year from the time he places an order.

"Coal" means all forms of anthracite, bituminous, sub-bituminous, and lignitic coals (including packaged and processed fuels such as briquets), coke and charcoal.

"Coal dealer" means any person who sells or delivers a total of fifty (50) or more tons of coal a year from any place or places inside the Limitation Area to consumers inside or outside the Limitation Area, or from any place or places outside the Limitation Area to consumers inside the Limitation Area. However, a person who sells or delivers coal in carload or more than carload lots (or the truckload equivalent delivered within three (3) business days from first loading to final delivery), is not a coal dealer with respect to such deliveries.

"Consumer" means any person who uses firewood or coal or who acquires firewood or coal for use.

"Dealer" means a firewood dealer or a coal dealer, or both.

"Deliver" means to transfer possession, directly or indirectly. The term does not include receipt by a consumer of firewood cut by himself or by an employee who is not a dealer. PART 1364—FRESH, CURED AND CANNED MEAT AND FISH PRODUCTS

[MPR 355,¹ Amdt. 11]

RETAIL CEILING PRICES FOR BEEF, VEAL, LAMB AND MUTTON CUTS AND ALL VARIETY MEATS AND EDIBLE BY-PRODUCTS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Maximum Price Regulation No. 355 is amended in the following respects:

1. Section 1 is amended to read as follows:

SECTION 1. What this regulation does. This regulation fixes dollars-and-cents ceiling prices on all retail sales of beef, veal, lamb and mutton cuts made on and after June 21, 1943, on all retail sales of variety meats and edible by-products made on and after June 21, 1943, and retail sales of dried beef (sliced) made on and after September 8, 1943. The only retail beef, veal, lamb and mutton cuts which may be sold

are those described in section 20 of this regulation. The United States is divided into zones and different ceiling prices depend on the zone where your store is, its group, and the grade of meat you are selling. A store includes any place where beef, veal, lamb and mutton cuts or variety meats and edible by-products are sold at retail.

2. Section 3 is amended to read as follows:

SEC. 3. When the new ceiling prices take effect. (a) On June 21, 1943, the dollar-and-cents ceiling prices fixed by this regulation take the place of all previous ceiling prices fixed by the Office of Price Administration upon retail sales of beef, veal, lamb and mutton cuts. On and after June 21, 1943, (or September 8, 1943, with respect to sales of dried beef (sliced)) you must not sell or offer to sell any cut other than described in this regulation, and you must not sell or offer to sell such cut at a price higher than the ceiling price fixed for the grade by this regulation.

(b) On June 21, 1943, the dollar-and-cents ceiling prices fixed by this regulation take the place of all previous ceiling prices fixed by the Office of Price Administration upon retail sales of beef, veal, lamb and mutton variety meats and edible by-products. On and after June 21, 1943, you must not sell or offer to sell any variety meat or edible by-product other than those for which dollar-and-cents prices are fixed by this regulation and which are clean, sound and free from foreign material, including blood clots, mucus, hair and wool.

3. Section 4 is amended to read as follows:

SEC. 4. What beef, veal, lamb or mutton cuts or variety meats and edible by-products you may sell. On and after June 21, 1943, the only beef, veal, lamb and mutton items you may sell or offer to sell are (a) those cuts, fresh, frozen, or cured, which are described and given dollar-and-cents ceiling prices under this regulation. (b) Those variety meats and edible by-products which are described and given dollar-and-cents ceiling prices under this regulation. (c) Sausage items which are given dollar-and-cents ceiling prices in Maximum Price Regulation No. 336 and (d) all other sausage and canned meat for which your ceiling prices are to remain as fixed under the General Maximum Price Regulation or under Maximum Price Regulations Nos. 422 and 423—Ceiling Prices for Certain Foods Sold at Retail.

4. Section 5 is amended to read as follows:

SEC. 5. Sales to eating places. Your ceiling prices for sales to hotels, restaurants, institutions, and other eating places selling or furnishing meals are the ceiling prices fixed by Revised Maximum Price Regulation No. 169 for beef and

veal, Revised Maximum Price Regulation No. 239 for lamb and mutton, and by Maximum Price Regulation No. 398 for variety meats and edible by-products. Nevertheless, you may, during any month, use the ceiling prices fixed by this regulation in selling to eating places if 80 percent or more of your total dollar sales of meat during the previous calendar month were retail sales to consumers, that is, to persons who buy the meat to be eaten by themselves or their families off your premises.

5. Section 11 (b) is amended to read as follows:

(b) You must not charge, solicit or receive any consideration for or in connection with any service which has not been provided for in this regulation and for which a price has not been fixed.

6. Section 12 is amended to read as follows:

SEC. 12. Prohibitions and penalties. On and after May 17, 1943, the date this regulation takes effect, if you sell, offer to sell or deliver any meat cut, variety meats or edible by-products specified in this regulation at a price higher than your ceiling price for the grade or type, or if you otherwise violate any provision of this regulation, you are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended. Also, any person who in the course of trade or business buys from you at a price higher than your ceiling price for the grade is subject to the criminal penalties and civil enforcement actions provided for by that Act.

OPERATIONSOIL WELLS IN INDIANA, ILLINOIS, AND
KENTUCKY

General exception pursuant to paragraph (c) (10) of Petroleum Administrative Order No. 11.

Section 1515.11 Supplementary Order No. 5 to Petroleum Administrative Order No. 11 is hereby amended to read as follows:

(a) Definitions.

The definitions of Petroleum Administrative Order No. 11, as amended from time to time, shall apply in this order. In addition:

(1) "Quarter of a quarter-quarter section" means the northeast, northwest, southeast, or southwest one-quarter of a quarter-quarter section: *Provided*, That such quarter of a quarter-quarter section is approximately square.

(2) "Half of a quarter-quarter section" means the north, south, east, or west one-half of a quarter-quarter section.

(b) *Oil wells drilled in the State of Illinois and in a portion of the State of Indiana.* Pursuant to paragraph (c) (10) of Petroleum Administrative Order No. 11, any person may accept delivery of, acquire, or use material to drill, complete, equip, connect, or provide additions to any oil well which is drilled to any sand formation in the State of Illinois, or in the Counties of Clay, Daviess, Dubois, Gibson, Greene, Knox, Martin, Perry, Pike, Posey, Spencer, Sullivan, Vanderburgh, Vigo, or Warrick in the State of Indiana: *Provided*, That:

(1) As to any such oil well which is drilled or completed at a depth of not more than 2,500 feet:

(i) Such well is drilled within 30 feet of the center of a drilling unit consisting of a quarter of a quarter-quarter section upon which quarter no drilling or producible well other than such well is or is to be located: *Provided*, That, where any other well has been located either approximately in the center of a quarter-quarter section (attributable solely to such well) or in the center of half of a quarter-quarter section (attributable solely to such well), such other well shall be deemed to have been drilled on an adjacent quarter of a quarter-quarter section;

(ii) The proposed drilling unit upon which such well is or is to be located consists entirely of acreage which is not attributable to any drilling or producible well (located within the same lease or property) other than such well. The acreage attributable to any well "spudded" subsequent to December 23, 1941, which offsets such well and is drilled to a depth of not more than 2,500 feet, shall be the quarter of a quarter-quarter section upon which such offset well is located. The acreage attributable to any well "spudded" subsequent to December 23, 1941, which offsets such well and is

drilled to a depth of more than 2,500 feet, shall be the one-half of a quarter-quarter section upon which such offset well is located. The acreage attributable to any well "spudded" on or before December 23, 1941, which offsets such well, shall be determined by assigning to such offset well an acreage equivalent to that in the existing well density or drilling pattern contiguous to such offset well;

(iii) All separate property interests in the proposed drilling unit shall have been consolidated prior to the actual commencement of operations at the designated drilling location of such well;

(iv) Such well is drilled at least 330 feet from any lease line, property line, or subdivision line which separates unconsolidated property interests.

(2) As to any such oil well which is drilled or completed at a depth of more than 2,500 feet:

(i) Such well is drilled on a drilling unit of not less than one-half of a quarter-quarter section upon which no drilling or producible well other than such well is or is to be located;

(ii) The proposed drilling unit upon which such well is or is to be located consists entirely of acreage which is not attributable to any drilling or producible well (located within the same lease or property) other than such well. The acreage attributable to any drilling or producible well which offsets such well shall be determined in accordance with the applicable provisions of paragraph (b) (1) (ii);

(iii) All separate property interests in the proposed drilling unit shall have been consolidated prior to the actual commencement of operations at the designated drilling location of such well;

(iv) Such well is drilled within 30 feet of the center of a quarter of a quarter-quarter section;

(v) Where other wells "spudded" in the field subsequent to December 23, 1941, and in conformity with the provisions of Conservation Order M-68 (as amended from time to time) or of Petroleum Administrative Order No. 11 have been located approximately in the centers of corresponding quarters of quarter-quarter sections, such well is drilled with respect to the quarter-quarter section upon which it is located either at a location which conforms to the location of such other wells or within 30 feet of the center of the quarter of a quarter-quarter section which is diagonally opposite such corresponding quarter of a quarter-quarter section;

(vi) Where other wells "spudded" in the field subsequent to December 23, 1941, and in conformity with the provisions of Conservation Order M-68 (as amended from time to time) or of Petroleum Administrative Order No. 11 have been located approximately in the centers of corresponding halves of quarter-quarter sections, any such well, other than the first well "spudded" in such field subsequent to the issuance of this supplementary order, is drilled at least 725 feet from any drilling or producible well which is to be drilled to a depth of more than 2,500 feet; and

(a) Such well shall bear the same geographic relationship to the quarter-quarter section upon which it is located as such first well bears to the quarter-quarter section upon which such first well is located, or

(b) Such well shall be drilled on the quarter of a quarter-quarter section diagonally opposite the quarter of a quarter-quarter section on which such geographic relationship can be attained;

(vii) Where paragraphs (b) (2) (v) and (b) (2) (vi) are not applicable, any such well, other than the first well "spudded" in such field subsequent to the issuance of this supplementary order, shall bear either the same geographic relationship to the quarter-quarter section upon which it is located as such first well bears to the quarter-quarter section upon which such first well is located, or such well shall be drilled on the quarter of a quarter-quarter section diagonally opposite the quarter of a quarter-quarter section on which such geographic relationship can be attained;

(viii) Such well is drilled at least 330 feet from any lease line, property line or subdivision line which separates unconsolidated property interests.

(c) *Oil wells drilled in a portion of the State of Kentucky.* Pursuant to paragraph (c) (10) of Petroleum Administrative Order No. 11, as amended, any person may accept delivery of, acquire, or use material to drill, complete, equip, connect, or provide additions to any oil well which is drilled to any sand formation in the Counties of Breckinridge, Butler, Christian, Daviess, Grayson, Hancock, Henderson, Hopkins, Ohio, Logan, McLean, Muhlenberg, Todd, Union, or Webster in the State of Kentucky: *Provided*, That:

(1) As to any such oil well which is drilled or completed at a depth of not more than 2,500 feet;

(i) Such well is drilled on a drilling unit of not less than 10 surface acres;

(ii) The proposed drilling unit upon which such well is or is to be located consists entirely of acreage which is not attributable to any drilling or producible well (located within the same lease or property) other than such well. The acreage attributable to any well "spudded" subsequent to December 23, 1941, which offsets such well and is drilled to a depth of not more than 2,500 feet, shall be 10 surface acres. The acreage attributable to any well "spudded" subsequent to December 23, 1941, which offsets such well and is drilled to a depth of more than 2,500 feet, shall be 20 surface acres. The acreage attributable to any well "spudded" on or before December 23, 1941, which offsets such well, shall be determined by assigning to such offset well an acreage equivalent to that in the existing well density or drilling pattern contiguous to such offset well;

(iii) All separate property interests in the proposed drilling unit shall have been consolidated prior to the actual commencement of operations at the designated drilling location of such well;

(iv) Such well is drilled at least 600 feet from any drilling or producible well;

(v) Such well is drilled at least 330 feet from any lease line, property line, or subdivision line which separates unconsolidated property interests.

(2) As to any such oil well which is drilled or completed at a depth of more than 2,500 feet:

(i) Such well is drilled on a drilling unit of not less than 20 surface acres;

(ii) The proposed drilling unit upon which such well is or is to be located consists entirely of acreage which is not attributable to any drilling or producible well (located within the same lease or property) other than such well. The acreage attributable to any drilling or producible well which offsets such well shall be determined in accordance with the applicable provisions of paragraph (c) (1) (ii);

(iii) All separate property interests in the proposed drilling unit shall have been consolidated prior to the actual commencement of operations at the designated drilling location of such well;

(iv) Such well is drilled at least 900 feet from any drilling or producible well which is or is to be drilled to a depth of more than 2,500 feet;

(v) Such well is drilled at least 330 feet from any lease line, property line or subdivision line which separates unconsolidated property interests.

(d) *Violations.* Any person who wilfully violates any provision of this Order, or who, by any act or omission, falsifies records kept or information furnished in connection with this order is guilty of a crime and upon conviction may be punished by fine or imprisonment.

Any person who wilfully violates any provision of this order may be prohibited from delivering or receiving any material under priority control, or such other action may be taken as is deemed appropriate.

tinued after the age of eighteen years and until completion of education or training (but not after such child reaches the age of twenty-one years), to any child who is or may hereafter be pursuing a course of instruction at a school, college, academy, seminary, technical institute, or university particularly designated by him and approved by the Administrator, which shall have agreed to report to the Administrator the termination of attendance of such child, and if any such institution of learning fails to make such report promptly the approval shall be withdrawn. (Section 3, World War Veterans' Act, 1924, as amended, and section (3) (c) Pub. No. 484, 73d Cong., and sections 1 and 7, Pub. No. 144, 78th Cong.)

(d) *Parent-father-mother.* For the purposes of Public No. 2, 73d Congress, and Public No. 141, 73d Congress, as amended, the terms "parent", "father", and "mother" include a father, mother, father through adoption, mother through adoption, and persons who have stood in loco parentis to a member of the military or naval forces at any time prior to entry into active service for a period of not less than one year: *Provided*, That not more than one father and one mother, as defined, shall be recognized in any case, and preference shall be given to such father or mother who actually exercised parental relationship at the time of or most nearly prior to the date of entry into active service by the person who served. (Section 8, Pub. No. 144, 78th Cong.) If the person who last occupied the relationship of parent does not establish entitlement, a person who had previously occupied such relationship is not thereby made eligible to pension or compensation benefits (see A. D. 510). Public No. 144, 78th Congress, does not affect awards to persons who were on the rolls July 13, 1943. (August 20, 1943.) (Pub. No. 144, 78th Cong.)

§ 5.2515 *World War II.* For the purposes of Public No. 2, 73d Congress, and Public No. 144, 78th Congress, the following definitions of relationship shall govern:

§ 5.2516 *Continuous cohabitation.* The requirement of any law administered by the Veterans' Administration that there must have been continuous cohabitation from the date of marriage to the date of death of the veteran will be considered as having been met when the evidence shows there was no separation due to the fault of the widow. If the

parties by mutual consent lived apart for purposes of convenience, health, business, or any other reason which did not show an intent on the part of the widow to desert her husband, the continuity of the cohabitation will not be considered as having been broken. Temporary separations which naturally occur in the ordinary course of life, including those caused for the time being through fault on the part of either party, will not break the continuity of the cohabitation. State laws will not control in determining questions of desertion. Due weight will be given to findings of fact in court decisions made during the life of the veteran on issues subsequently involved in the application of this paragraph, but such findings will not be conclusive as to determinations to be made by the Veterans' Administration. (August 20, 1943) (50 Stat. 662; 38 U.S.C. Sup. 472 (e))

(Sec. 4705, R.S., U.S.C. Title 38, sec. 198) (August 20, 1943) (17 Stat. 570; 38 U.S.C. 198)

(August 20, 1943) (Pub. No. 144, 78th Cong.)

§ 5.2548 *Death of World War veteran from disease or injury not the result of military service, who at time of death had a service-connected disability (Public No. 484, 73d Congress, as amended.)* * * *

(f) *Income limitation.* (1) *For periods prior to July 19, 1939.* For periods prior to July 19, 1939, exemption from the payment of Federal income tax for the preceding year is a prerequisite to title to compensation under Public No. 484, 73d Congress, as amended.

(2) *For periods on and after July 19, 1939.* For periods on and after July 19, 1939, no payment of compensation shall be made under the provisions of Public No. 484, 73d Congress, as amended, to any

The provisions of § 3.1228 will govern determinations under this paragraph but in no event will any payments by the United States Government because of disability or death under laws administered by the Veterans' Administration be considered. (August 20, 1943) (Section 11, Pub. No. 144, 78th Cong.)

* * * * *
§ 5.2550 *Concurrent payment of two benefits to the same person.* As to the application of section 15, Public No. 144, 78th Congress, see § 5.2551.

The following paragraphs in § 5.2551 are transferred to § 5.2550 as paragraphs (d), (e), (f) and (g).

(d) Under the provisions of Public No. 2, 73d Congress (Act of March 20, 1933), not more than one pension or award of compensation shall be payable to any one individual, except that the receipt of pension or compensation by a widow, child, or parent on account of the death of any person shall not bar the payment of pension or compensation on account of the death of any other person (§ 35.10 (m)); however, for periods prior to September 1, 1941, the increased rate of death compensation authorized by section 3, Public No. 304, 75th Congress (Act of August 16, 1937), or section 5, Public No. 198, 76th Congress (Act of July 19, 1939), may not be awarded concurrently with compensation or pension which may be payable under other laws because of the service and death of another person. Accordingly, for periods prior to September 1, 1941, when the maximum amount of compensation payable under § 35.011 on account of the service and death of more than one person exceeds the maximum provided on account of the death of one person by section 3, Public No. 304, 75th Congress, or by section 5, Public No. 198, 76th Congress, the awards will be authorized at the rates prescribed by § 35.011.

On and after September 1, 1941, the increased rates provided by section 5, Public No. 198, 76th Congress (Act of July 19, 1939), as amended, shall be paid to those persons entitled to pension or compensation on account of the death, disability or service of more than one person, if otherwise entitled. (Pub. No. 242, 77th Cong. (Act of August 21, 1941))

(e) (1) For the purposes of § 35.012 (a), as promulgated June 6, 1933, pension shall not be paid concurrently with active duty pay but may be paid concurrently with United States Employees Compensation.

(2) For the purposes of § 35.012 (a), as amended by Public No. 159, 75th Congress (Act of June 23, 1937), and Public No. 732, 75th Congress (Act of June 25, 1938), which relate to conditions of title of reserve officers and members of

the enlisted reserves of the United States Army, Navy, or Marine Corps, pension shall not be paid concurrently with active duty pay or United States Employees Compensation.

(3) For the purposes of the general law, the service pension laws, §§ 35.011 and 35.012 (except as amended by Public No. 159, 75th Congress, and Public No. 732, 75th Congress), and § 35.013, section 28, Public No. 141, 73d Congress, as amended; and Public No. 484, 73d Congress, as amended, the payment of United States Employees Compensation shall not operate as a bar to the payment of death pension or compensation. (Section 7, Act of September 7, 1916; Acting C. G., October 3, 1938)

(f) (1) Pension or compensation benefits under Public No. 2, 73d Congress, or Public No. 484, 73d Congress, shall not be paid concurrently to a claimant as widow of one veteran and as the remarried widow of another veteran. (A. D. 361 and 381)

(2) A widow may be paid additional compensation under provisions of Public No. 484, 73d Congress, as amended, on account of a stepchild of her deceased husband, during the period they are being paid death compensation under § 35.011 because of the service-connected death of her former husband who served in the World War. (Solicitor, August 12, 1938)

(3) A mother may be paid pension under § 35.01 series but not under the reenacted laws on account of the service of a son in the Spanish-American War, concurrently with pension as widow of a Civil War soldier. (A. D. 271)

(4) A widow may be paid pension based on the service of her husband in the Civil War and pension under a special act of the Congress or under the § 35.01 series based on the service of a son who served in the Spanish-American War, the period of the latter service being covered by section 35. (Solicitor, August 16, 1943)

(5) Death pension under § 35.013 is payable concurrently with death compensation based on service during the World War. (Solicitor, August 22, 1934; A. D. 271)

(g) As to circumstances under which both disability and death pension or compensation may be paid to the same person, see also §§ 3.1296 to 3.1302, and §§ 4.2170, 4.2171, 4.2175, 4.2176 and 4.2177, (August 20, 1943) (Pub. No. 144, 78th Cong.)

§ 5.2551 On and after July 13, 1943, the provisions of this paragraph are applicable to all laws administered by the Veterans Administration. Not more than one award of pension, compensation, or emergency officers' or regular retirement pay, shall be made concurrently to any person based on his own service. The receipt of pension or compensation by a widow, child, or parent on account of the death of any person, or receipt by any person of pension or compensation on account of his own service, shall not bar the payment of pension or compensation on account of the death or disability of any other person. Pension, compensation or retirement pay on account of his own service shall not be

paid while the person is in receipt of active service pay, but the receipt of active service pay shall not bar the payment of pension or compensation on account of the death of any other person. (August 20, 1943) (Pub. No. 144, 78th Cong.)

§ 5.2554 *Renouncement of pension.* Any person entitled to pension or compensation under any law or veterans' regulation administered by the Veterans' Administration may renounce his right thereto. The application renouncing the right shall be in writing over the person's signature and upon filing of such application, payment of such benefits and the right thereto shall be terminated and he shall be denied any and all rights thereto effective as of the date of last payment. The renouncement provided for herein shall not preclude the person from filing a new application for pension or compensation at a future date but such application shall have the attributes of an original application and no payment will be made for any period prior to the date of receipt thereof. (§ 35.10 (u), as amended by section 3, Pub. No. 144, 78th Cong.) (August 20, 1943) (Pub. No. 144, 78th Cong.)

§ 5.2577 *Death pension or compensation payable solely by virtue of Public No. 144, 78th Congress.* The date of commencement of original awards of death pension or compensation, payable solely as a result of the provisions of Public No. 144, 78th Congress, shall be the day following the date of death of the veteran or July 13, 1943, whichever is the later, if application is filed within one year from date of death; otherwise from date of filing application. In no event, however, shall the rates of pension or compensation authorized by section 14 of the Act be payable for any period prior to August 1, 1943. (August 20, 1943) (Pub. No. 144, 78th Cong.)

based on service rendered prior to April 21, 1898, the date of termination of such additional pension shall be the date of death of the child or the day preceding the child's sixteenth birthday. If the widow is receiving additional pension for a child or children based on service rendered on and after April 21, 1898, the date of termination of such additional pension shall be the date of death, or the day preceding marriage, or the day preceding the child's eighteenth birthday: *Provided*, That the discontinuance of additional pension for a child or children because of school attendance shall be effective as provided in § 5.2598 (g). Additional death pension being paid on behalf of any child by reason of permanent incapacity for self-support shall be discontinued effective the date of last payment when a determination has been made that such condition no longer exists.

(ii) *Overpayment to widow.* When a widow has continued to receive pension after her remarriage and the veteran's child or children under the age of sixteen years or helpless child or children have resided with and been supported by her, the effective date shall be the date of last payment (R. S. 4702).

(c) *Child reaching eighteen, marrying, dying or entering Military or Naval Service.* (1) Discontinuance or reduction of pension or compensation to or because of a child reaching the age of eighteen years, or being married, or dying, shall be effective the date next preceding the eighteenth birthday or next preceding the date of marriage, or will be effective upon the date of death. (§ 35.021 (c) (5).)

(2) In those cases in which there is a widow entitled, the additional death compensation or pension being paid on behalf of or for a child shall, upon such child's entry into the active military or naval service of the United States be paid to the widow during the period of the child's military or naval service prior to the child's eighteenth birthday: *Provided*, That in those cases in which an apportioned share is currently being paid in behalf of the child at the date of the child's entry into service, such apportionment will be discontinued as of the date of last payment and, effective as of the next day, the apportioned share for the child will be included in the widow's award. except that the amount so apportioned and paid shall not exceed the amount to which each dependent would be entitled if such person were dead. As to recommencement of payments, see § 5.2588 (f). (August 20, 1943) (Pub. No. 144, 78th Cong.)

NOTE: For receipt of active service or retirement pay see § 3.1299.

(f) *Recommencement after discontinuance because of residence in enemy-controlled territory.* In any claim where payments of death pension or compensation have been discontinued under section 5, Public No. 144, 78th Congress, because a beneficiary, who was not a citizen of the United States was a resident in the territory of or under the military control of an enemy of the United States or of any of its allies, payments shall not be recommenced except upon the filing of a new claim accompanied by evidence satisfactory to the Administrator of Veterans Affairs showing that the claimant was not guilty of any of the offenses enumerated in section 4 of Public No. 144, 78th Congress: Mutiny, treason, sabotage or rendering assistance to an enemy of the United States or of its allies; *Provided*, That no pension or compensation shall be paid for any period prior to the date of receipt of such claim. The requirement that a child be "insane, idiotic or otherwise permanently helpless", or "insane, idiotic or otherwise mentally or physically helpless", as a prerequisite to the continuance of pension after the child attains the age of 16 years, will be considered as having been met when the evidence shows that such child is "permanently incapable of self-support by reason of physical or mental defect". As to the continuance of death pension on behalf of a child of a deceased veteran of the Spanish-American War, Boxer Rebellion or Philippine Insurrection who meets the requirements of § 5.2514 (c) as referred to in § 5.2512 (c), see § 5.2594. FORFEITURES

§ 5.2608 *Forfeiture for treasonable acts.* Any person shown by evidence satisfactory to the Administrator of Veterans Affairs to be guilty of mutiny, treason, sabotage, or rendering assistance to an enemy of the United States or of its allies shall forfeit all accrued or future benefits under laws administered by the Veterans Administration pertaining to gratuities for veterans and their dependents: *Provided*, That any part of such benefits may be apportioned and paid to the dependents of such person, not exceeding the amount to which each dependent would be entitled if such person were dead. (August 20, 1943) (Pub. No. 144, 78th Cong.)

PROTECTED AWARDS; DEATH CASES

§ 5.2609 *Awards for service-connected death prior to March 20, 1933.* Pursuant to section 17 of Public No. 2, 73d Congress (Act of March 20, 1933), and of section 20, Title I, Public No. 78, 73d Congress (Act of June 16, 1933), in death pension or compensation claims allowed prior to March 20, 1933, based on a finding that the veteran died as the result of a service-connected disability, it will be presumed that the prior decision, holding that the disease or injury causing the death of the veteran was the result of active service or was not the result of the veteran's misconduct or that the discharge was not dishonorable or that the relationship was properly established, was a proper decision and that every award to or for any individual as the widow, child, or dependent parent of a deceased veteran of the World War who was in active service on or after April 6, 1917, and before July

3, 1921, was a proper award, and no reduction or discontinuance thereof will be made except by reason of marriage or death of the widow or child, or death or cessation of dependency of the parent, or the attainment of the age of eighteen years or twenty-one years or cessation of school attendance of the child. This presumption will be effective in all instances in the absence of an affirmative showing that the prior decision was clearly and unmistakably erroneous under the criteria in effect when it was rendered. (§ 35.04) (August 20, 1943) (48 Stat. 11, 309; 38 U.S.C. 717, 722)

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

Subchapter B—Carriers by Motor Vehicle [Ex Parte MC-3, MC-4]

SAFETY EQUIPMENT ON MOTOR VEHICLES

At a session of the Interstate Commerce Commission, Division 5, held at its office in Washington, D. C., on the 13th day of September, 1943. Ex Parte No. MC-3: In the matter of need for establishing reasonable requirements to promote safety of operation of motor vehicles used in transporting property by private carriers. Ex parte No. MC-4: In the matter of qualifications of employees and safety of operation and equipment of common carriers and contract carriers by motor vehicle.

It appearing that the manufacture of fusees prescribed by § 194.3 (d) (9) (i) (h) (Rule 3.3491 (h) of the Motor Carrier Safety Regulations, Revised) requires the use of materials urgently needed for the prosecution of the war, particularly potassium perchlorate, without the use of which in conjunction with the other constituents the fusees will not be "red-burning", and that it has become

and will continue to be increasingly difficult for manufacturers of fusees to obtain these critical materials; and

It further appearing that other less critical materials are available for use in the manufacture of fusees which materials, if used, would not appreciably affect the efficacy of fusees as warning signals except that such fusees would not be "red-burning"; and

It further appearing that § 194.3 (d) (9) (ii) (b) (Rule 3.3492 (b) of the Motor Carrier Safety Regulations, Revised) prescribing first-aid kits requires that the containers thereof be of sheet steel, which also is a critical material the distribution of which is so restricted that it has become and will continue to be increasingly difficult for manufacturers of those containers to obtain steel for such use; and

It further appearing that containers for first-aid kits can be made of other materials generally available in such manner as to be adequate for the purposes intended:

It is ordered, That pursuant to the authority of section 204 of the Interstate Commerce Act, as amended, the effectiveness of §§ 193.8 (b) (2), 194.3 (d) (9) (i) (h), and 194.3 (d) (9) (ii) (b) (Rules 2.082 (b), 3.3491 (h), and 3.3492 (b) of the Motor Carrier Safety Regulations, Revised) hereby is suspended until December 31, 1944; and

It is further ordered, That during the period of such suspension, the following §§ 193.8 (b) (2), 194.3 (d) (9) (i) (h) and 194.3 (d) (9) (ii) (b) (49 CFR Parts 193, 194; 1939 Supp.) shall be in effect in lieu of those suspended.

PART 193—DRIVING OF MOTOR VEHICLES

§ 193.8 *Emergency equipment must be in place.* * * *

(b) *On every bus.* * * *
(2) One first-aid kit as prescribed (see § 194.3 (d) (9) (ii) (b)). [Rule 2.082 (b) of Motor Carrier Safety Regulations, Revised.]

PART 194—NECESSARY PARTS AND ACCESSORIES

§ 194.3 *Equipment required on all motor vehicles (except in driveway operations).* * * *

(d) *Miscellaneous parts and accessories on all vehicles.* * * *

(9) *Emergency parts and accessories required—(i) On every bus, truck or tractor there shall be.* * * *

(h) At least three fusees (if carrier elects to carry and use flares as warning signals); each fusee shall be made in accordance with specifications of the Bureau of Explosives, 30 Vesey Street, New York, N. Y., and so marked, and shall be capable of burning at least 15 minutes. [Rule 3.3491 (h) of Motor Carrier Safety Regulations, Revised.]

NOTE: Flares (pot torches), fusees, oil lanterns, or any signal produced by a flame, shall not be carried or used as warning signals for motor vehicles used in the transportation of inflammable liquids or inflammable compressed gases in cargo tanks; but in lieu of such flares and fusees, three red electric lanterns, or three red emergency reflector warning devices shall be carried. (See § 193.23

(b)—Rule 2.232 of Motor Carrier Safety Regulations, Revised.)

(ii) *On every bus there shall be.* * * *

(b) One first-aid kit, heavy-duty 10- or 12-unit type, contained in a case which shall be made of sheet steel, wood, fiber, or other durable material, the corners, cover, and closure of which shall, when the cover is in closed position, be reasonably dust and weather tight. If made of sheet steel the case shall be so designed and constructed that the cover will be capable of being opened to an angle of 90° to 100° with the case, and a substantial stop shall be provided at the angle of full opening, which stop shall not interfere with the smooth operation of the cover. If the case and/or cover are made of sheet steel, neither shall be of metal lighter than No. 20 U. S. gage (nominal) and the cover shall be attached to the case by means of at least two substantial hinges or by a continuous piano-type hinge. If the case is non-metallic, either a sliding or hinged cover may be provided. The dimensions of the case shall be such that it will contain and allow easily to be extracted at least the numbers and kinds of unit packages hereby required:

- 4-inch bandage compresses—1 package.
- 2-inch bandage compresses—1 package.
- 1-inch adhesive compresses—2 packages.
- 40-inch triangular bandage—1 package.
- Burn ointment—1 package.
- Ammonia inhalants—1 package.
- Iodine applicator—1 package.
- Wire splint—1 package.
- Tourniquet and forceps—1 package.

C. [Rule 3.3492 (b) of Motor Carrier Safety Regulations, Revised.]

It is further ordered, That this order shall be effective forthwith and shall continue in effect until December 31, 1944, unless sooner revoked or modified by order of the Commission; and

It is further ordered, That notice of this order be given to motor carriers and the general public by depositing a copy of it in the office of the Secretary of the Commission at Washington, D. C., and by filing with the Director, Division of the Federal Register.

[Order No. T-51]

CLAY COUNTY COLLIERIES, INC., ET AL.

ORDER TERMINATING GOVERNMENT POSSESSION AND CONTROL

SEPTEMBER 17, 1943.

The Operating Managers for the United States for the coal mines of the mining companies listed in Appendix A have advised the Coal Mines Administrator that there has been no interruption in the operation of such mines since April 30, 1943, as a result of a strike or other labor disturbance, and have submitted factual evidence to that effect. Based on such evidence and advice, and after consideration of all the circumstances, I find that the possession and control by the Government of such mines are not necessary to insure the operation of such mines in the interest of the war effort, and that it is practicable to terminate the possession and control of such mines.

Accordingly, I order and direct that possession and control by the Government of the mines of the mining companies listed in Appendix A, attached hereto and made a part hereof, including any and all real and personal property, franchises, rights, facilities, funds, and other assets used in connection with the operation of such mines and the distribution and sale of their products, be, and they are hereby, terminated and that there be conspicuously displayed at the mining properties copies of a poster to be supplied by the Coal Mines Administration and reading as follows:

NOTICE: Government possession and control of the coal mines of this mining company have been terminated by order of the Secretary of the Interior.

Provided, however, That nothing contained herein shall be deemed to preclude the Administrator from requiring the submission of information relating to operations during the period of Government possession and control as provided in section 40 of the Regulations for the Operation of Coal Mines under Government Control, as amended (8 F.R. 6655, 10712), for the purpose of ascertaining the existence and amount of any claims against the United States so that the administration of the provisions of Executive Order No. 9340 (8 F.R. 5695) may be concluded in an orderly manner; And provided further, That except as otherwise ordered, the appointments of the Operating Managers for the mines of the companies listed in Appendix A shall continue in effect.

Secretary of the Interior.

FIELD EMPLOYEES OF BUREAU OF MINES
WAGE FIXING PROCEDURES

For the purpose of determining the prevailing rate of wages to be paid certain classes of field employees of the Bureau of Mines and to enable the payment to such employees of time and one-half for work in excess of 40 hours per week, the following procedure is established:

I. Wage Board. A Wage Board, composed of three representatives of the Department, is hereby established to determine prevailing wages for similar work in the locality of their employment for persons employed by the Bureau of Mines, excluding employees whose wages are fixed on an annual basis pursuant to the Classification Act of 1923, as amended, and excluding employees whose wage rates are fixed by wage boards which have been previously established, and to make recommendations with respect to such wages to the Secretary of the Interior.

II. Procedure to be followed by Board. In determining the prevailing wages for the labor classifications being considered by the Board, the Board shall procure evidence of the wages and compensation being paid to and perquisites received by those employed in these labor classifications by local contractors, Federal agencies (including wage scales currently being paid pursuant to minima established pursuant to the Davis-Bacon Act), private industrial employers, and others employing labor in the locality, whether pursuant to union agreements or otherwise. Hearings for the purpose of adducing evidence of wages paid in the locality may be held when, in the judgment of the Board, this is required in order to determine the prevailing rates of wages.

Based on the evidence procured as to prevailing wages and the perquisites of employment in the locality in the classifications under consideration by the Wage Board, the Board shall make its recommendations to the Secretary of the Interior as to the rates of wages to be paid to the Government employees of the classes above specified. The wages recommended, upon approval by the Secretary, shall become effective upon the date approved, unless otherwise directed by the Secretary of the Interior: *Provided*, That the Secretary of the Interior may direct the Board to reconsider any recommendation in whole or in part when, in his judgment, the recommended wage does not accord with the evidence procured as to the prevailing wage in the locality or when there is insufficient evidence to support the wage recommended.

III. Effective period of approved wage determinations. Any wage rate fixed in the manner above provided shall remain in effect until that rate has been supplanted by a different rate determined by the Wage Board with the approval of the Secretary of the Interior. Unless

directed by the Secretary of the Interior to do so at other intervals, the Wage Board shall review wage rates at six-month intervals, beginning with the effective date of the first schedule of wages made in accordance with the procedure herein provided: *Provided*, That the Secretary of the Interior may direct a review at any other time when, in his judgment, this is desirable.

Unless otherwise ordered, the Board shall be composed of these departmental representatives:

Duncan Campbell, who shall act as Chairman of the Board, and Guy W. Numbers, selected from the Office of the Secretary of the Interior.

John M. Morris, Member of the Board, and John D. Secrest, Alternate Member of the Board, selected from the Bureau of Mines.

[Docket 6545]

PRESS WIRELESS, INC.

NOTICE OF APPLICATIONS

In re: Applications of Press Wireless, Inc.; dated July 28, 1943; for modifica-

No. 187—8

tions of licenses from "fixed public press" to "fixed public" service; class of service, Fixed Public Press Service; class of stations, Point-to-point telegraph; locations, Hicksville, New York; Los Angeles, California.

You are hereby notified that the Commission having examined the above-described applications, and being unable to determine upon examination of such applications that public interest, convenience or necessity would be served by the granting thereof, has designated the matters for hearing for the following reasons:

1. To determine whether the interest of the United States public and of the United States communication system as a whole will be served by authorizing another telegraph carrier to enter the field of commercial communications with foreign points at this time.

2. To determine whether a grant of the above-described applications will result in diversion of telegraph traffic from existing communication channels and whether such a grant will result in any increase in the total volume of telegraph traffic handled by United States carriers.

3. To determine the effect of a grant of the above-described applications upon the relations of United States telegraph carriers with their foreign correspondents.

4. To determine the effect of a grant of the above-described applications upon the operating efficiency of the United States communication system as a whole.

5. To determine whether there is a public need for additional communication channels for handling commercial telegraph traffic with foreign points, which cannot adequately be met by carriers already authorized to handle such traffic.

6. To determine whether a grant of the above-described applications would be consistent with the policy of the Joint Chiefs of Staff and the Board of War Communications with respect to communication service between the United States and foreign points.

7. To determine whether the circuit capacity and system capacity of United States carriers authorized to furnish commercial telegraph service with foreign points are adequate to handle the present volume of such traffic and any foreseeable increase therein.

8. To determine whether applicant has the necessary offices, physical equipment, and qualified personnel to provide efficient and economical public commercial telegraph service with foreign points.

9. To determine whether applicant is prepared, if authorized by the Commission, to provide comprehensive commercial telegraph service with foreign points.

10. To determine whether applicant would provide less, equally, or more efficient and expeditious commercial telegraph service with foreign points than that provided by carriers now authorized to furnish such service.

11. To determine the effect of the rendition by applicant of commercial telegraph service with foreign points, in addition to press and government telegraph service, upon the quality of the

press and government telegraph service rendered by it.

12. To determine what rates for commercial telegraph service with foreign points applicant is prepared to propose to its foreign correspondents.

13. To determine whether a grant of the above-described applications will result in a sound rate structure for telegraph service with foreign points.

14. To determine whether the establishment of the rate structure proposed by applicant for commercial telegraph service with Cuba would better serve the public interest than the maintenance of the rate structure now in effect for such service.

15. To determine the number of facilities and frequencies needed by applicant to render the services applied for and further to determine whether applicant's use thereof is the most efficient use of such facilities and frequencies.

16. To determine whether in the light of the evidence adduced on the foregoing issues, public interest, convenience or necessity would be served by a grant of the applications herein designated for hearing.

The applications involved herein will not be granted by the Commission unless the issues listed above are determined in favor of the applicant upon the basis of a record duly and properly made by means of a formal hearing.

The applicant is hereby given the opportunity to obtain a hearing on such issues by filing a written appearance in accordance with the provisions of § 1.382 (b) of the Commission's Rules and Regulations. Persons other than the applicant who desire to be heard must file a petition to intervene in accordance with the provisions of § 1.102 of the Commission's Rules and Regulations.

FEDERAL TRADE COMMISSION.

[Docket No. 5048]

UNITY STAMP COMPANY, INC.

COMPLAINT AND NOTICE OF HEARING

The Federal Trade Commission, having reason to believe that the party respondent named in the caption hereof, and hereinafter more particularly designated and described, since June 19, 1936, has been and is now violating the provisions of subsection (a) of section 2 of the Clayton Act (U.S.C. Title 15, section 13) as amended by the Robinson-Patman Act, approved June 19, 1936, hereby issues its complaint stating its charges with respect thereto as follows:

PARAGRAPH 1. Respondent Unity Stamp Company, Inc., is a corporation organized and existing under and by virtue of the laws of the State of New York, with its principal office and place of business located at 7 West 30th Street, New York, New York.

PAR. 2. Respondent corporation is now and has been since June 19, 1936, engaged in the business of processing, manufacturing, offering for sale, selling and distributing made-to-order straight line stamps, hereinafter referred to as rubber stamps. Such commodities processed and manufactured by the respondent are sold direct to the consuming public. Some customers of the respondent purchasing such products are located in states other than the state in which respondent's business is located and some customers, although located within the state in which the respondent's business is located, direct that the shipment of their purchases be made by the respondent to their branch offices located in states other than the state in which the respondent's business is located, and in such cases respondent causes such products to be shipped and transported across state lines from respondent's place of business to such customers or to such branch offices of such customers. There is and has been at all times mentioned a continuous course of

trade and commerce in said products between respondent's factory and the purchasers of said products, some of which are located in states other than the state in which respondent's business is located, as aforesaid. Said products are sold and distributed for use within the various states of the United States.

PAR. 3. In the course and conduct of its business in commerce as aforesaid, respondent is now and during the time herein mentioned and has been in substantial competition with other corporations and with individuals, partnerships, and firms engaged in the business of processing, manufacturing, offering for sale, selling and distributing rubber stamps.

PAR. 4. In the course and conduct of its business as aforesaid, respondent, since June 19, 1936, has been and is now discriminating in price between different purchasers buying such products of like grade and quality by selling its products to some of its customers at higher prices than it sells its products of like grade and quality to other of its customers.

Among the general practices pursued by the respondent in so discriminating in price the Commission alleges that:

(1) To some customers the respondent has sold rubber stamps 3 inches or less in length and $\frac{3}{8}$ inch or less in height at 4¢ per line, plus 4¢ for each additional line or any fraction thereof, while to other customers purchasing the same type of rubber stamp of like grade and quality, the respondent has charged for each product varying prices of 5¢, 7¢, 8¢, 10¢, 15¢, 20¢, 30¢ or 35¢ per line 3 inches or less in length and $\frac{3}{8}$ inch or less in height plus in each instance an additional sum for each additional line or any fraction thereof.

(2) The respondent has sold at approximately the same time rubber stamps of like grade and quality at varying prices of 4¢, 5¢, 7¢, 10¢ and 15¢ per line 2 inches or less in length and $\frac{3}{8}$ inch or less in height plus in each instance an additional sum for each additional line or any fraction thereof.

PAR. 5. The effect of the discriminations in price set forth in Paragraph Four hereof has been and may be substantially to lessen competition and to injure, destroy and prevent competition between respondent and its competitors in the sale and distribution of rubber stamps in interstate commerce and has been and may be to tend to create a monopoly in respondent in said line of commerce.

PAR. 6. The foregoing acts and practices of said respondent are in violation of the provisions of subsection (a) of section 2 of the Clayton Act (U.S.C. Title 15, section 13) as amended by the Robinson-Patman Act approved June 19, 1936.

Wherefore, the premises considered, the Federal Trade Commission on this 15th day of September, A. D. 1943, issues its complaint against said respondent.

Notice

Notice is hereby given you, Unity Stamp Company, Inc., respondent herein, that the 22nd day of October, A. D. 1943, at 2 o'clock in the afternoon, is hereby

fixed as the time, and the offices of the Federal Trade Commission in the City of Washington, D. C., as the place, when and where a hearing will be had on the charges set forth in this complaint, at which time and place you will have the right, under said Act, to appear and show cause why an order should not be entered by said Commission requiring you to cease and desist from the violations of the law charged in the complaint.

You are notified and required, on or before the twentieth day after service upon you of this complaint, to file with the Commission an answer to the complaint. If answer is filed and if your appearance at the place and on the date above stated be not required, due notice to that effect will be given you. The Rules of Practice adopted by the Commission with respect to answers or failure to appear or answer (Rule IX) provide as follows:

In case of desire to contest the proceeding the respondent shall, within twenty (20) days from the service of the complaint, file with the Commission an answer to the complaint. Such answer shall contain a concise statement of the facts which constitute the ground of defense. Respondent shall specifically admit or deny or explain each of the facts alleged in the complaint, unless respondent is without knowledge, in which case respondent shall so state.

Failure of the respondent to file answer within the time above provided and failure to appear at the time and place fixed for hearing shall be deemed to authorize the Commission, without further notice to respondent, to proceed in regular course on the charges set forth in the complaint.

If respondent desires to waive hearing on the allegations of fact set forth in the complaint and not to contest the facts, the answer may consist of a statement that respondent admits all the material allegations of fact charged in the complaint to be true. Respondent by such answer shall be deemed to have waived a hearing on the allegations of fact set forth in said complaint and to have authorized the Commission, without further evidence, or other intervening procedure, to find such facts to be true.

Contemporaneously with the filing of such answer the respondent may give notice in writing that he desires to be heard on the question as to whether the admitted facts constitute the violation of law charged in the complaint. Pursuant to such notice, the respondent may file a brief, directed solely to that question, in accordance with Rule XXIII.

In witness whereof, the Federal Trade Commission has caused this, its complaint, to be signed by its Secretary, and its official seal to be hereto affixed, at Washington, D. C., this 15th day of September, A. D. 1943.

By the Commission.

B & A shall transport such diverted traffic from the westerly terminal of the State of Maryland Chesapeake Bay ferries to its terminal in Baltimore.

5. The provisions of this order shall not be so construed or applied as to require either carrier to perform any service beyond its transportation capacity, or to permit either carrier to alter its legal

liability to any passenger. In the event compliance with any term of this order would conflict with, or would not be authorized under, the existing interstate or intrastate operating authority of either carrier, such carrier shall apply forthwith to the appropriate regulatory body or bodies for the granting of such operating authority as may be requisite to compliance with the terms of this order, and shall prosecute such application with all possible diligence. The coordination of operations directed by this order shall be subject to the carriers' possessing or obtaining the requisite operating authority.

(b) The term "bus miles" includes all miles of actual bus operation, whether in passenger service or otherwise.

8. The provisions of paragraph numbered 1 of this order shall be subject to any special permit issued by the Director, Division of Local Transport, Office of Defense Transportation, or such members of his staff as he may designate, to meet emergencies.

REQUISITIONING AND DISPOSAL OF IDLE USED
COMMERCIAL MOTOR VEHICLES

DIRECTIONS AND INSTRUCTIONS OF MOTOR
TRANSPORT DIVISION

SEPTEMBER 21, 1943.

1. For the purpose of making available in the national food production program idle used commercial motor vehicles held in private hands, a plan has been developed in cooperation with the Office of War Mobilization, the U. S. Department of Agriculture, War Food Administration, and the Defense Supplies Corporation, which, in part, involves the requisitioning of such vehicles and their placement into transportation service in connection with the accomplishment of the food production program.

2. Pursuant to the Act of October 16, 1941, Executive Order 8942, as amended, Executive Order 9294, and Regulations under Requisitioning Acts issued by the War Production Board, the Chairman of that Board, on July 27, 1943, approved a proposal of the Office of Defense Transportation, dated July 9, 1943, for the requisitioning and disposal of idle used commercial motor vehicles. The pro-

posal contemplates the cooperation of the U. S. Department of Agriculture, War Food Administration, and the Office of Defense Transportation to the extent hereinafter indicated. A copy of the proposal as approved is attached hereto as Appendix 1.¹ In carrying out the requisitioning process, the Defense Supplies Corporation will play an important part as hereinafter shown. So that the Corporation may acquire and transfer title, the actual requisitioning and disposition will be done by it upon requests and instructions from ODT Regional Directors of the Division of Motor Transport.

3. Requisitioning and disposal of vehicles must be done in accordance with the Act, Executive Orders and Regulations above referred to. The Act provides, among other things, that (1) whenever the President, or a requisitioning authority designated by the President, determines that the use of certain equipment, supplies or munitions, or parts thereof, is needed for the defense of the United States (2) such need is immediate and impending and such as will not admit of delay or resort to any other source of supply; and (3) all other means of obtaining the use of such property for the defense of the United States upon fair and reasonable terms have been exhausted, he is authorized to requisition such property upon the payment of fair and just compensation, and to dispose of such property in such manner as he may determine is necessary for the defense of the United States. It is, therefore, important that these provisions of the statute be adhered to and that the procedural steps herein set forth be strictly observed.

4. Appropriate authority has been delegated to all Regional Directors and District Managers, Division of Motor Transport, by Administrative Order ODT 4, to initiate the requisitioning and disposal of idle used trucks in accordance with these and any subsequent instructions which may be issued.

WHAT EQUIPMENT MAY BE REQUISITIONED

5. The proposal relates only to idle used commercial motor vehicles, as therein defined, which are to be disposed of as shown therein. The term "idle used commercial motor vehicle" for the purpose of this program is defined as follows:

The term "commercial motor vehicle", for the purpose of this proposal and requisitioning and disposal thereunder, means (i) a straight truck, (ii) a combination truck-tractor and semi-trailer, (iii) a full trailer, or (iv) any combination thereof, propelled or drawn by mechanical power and built (or rebuilt) primarily for the purpose of transporting property, and the attachments and spare parts used, or intended for use, in conjunction with the foregoing.

The term "idle used commercial motor vehicle", for the purpose of this proposal and requisitioning and disposal thereunder, means any used commercial motor vehicle not in use but which is capable of use for the transportation of agricultural commodities and products thereof.

¹ Filed as part of the original document.

6. It will be observed that any vehicle to be subject to requisitioning and disposal under the plan must:

- (1) Have been built or rebuilt primarily for the purpose of transporting property;
- (2) Have been used;
- (3) Be capable of use or of being conditioned for use in the transportation of agricultural commodities and products thereof; and
- (4) Be idle, that is, when in the sound judgment of the District Manager he determines that under all the circumstances the vehicle is not presently in use and is likely to remain idle for an indefinite period.

7. If the owner is a member of the armed forces of the United States or any of its Allies, an offer to purchase or lease the equipment from him may be made either by or in behalf of an eligible purchaser, but such equipment will not be requisitioned except when specifically authorized by the Director, Office of Defense Transportation.

DISPOSAL OF REQUISITIONED EQUIPMENT

8. Any requisitioned vehicle may be disposed of only to a person certified as an eligible purchaser. For the purpose of this program the term "eligible purchaser" is defined as follows:

The term "eligible purchaser", for the purpose of this proposal and requisitioning and disposal thereunder, means (a) any agricultural producer who is engaged in production and who is found by the County USDA War Board to be in need of the vehicle which he desires to purchase or otherwise acquire to complete the production program on the farm which he operates, or (b) any person who engages in, or proposes to engage in, the transportation of agricultural commodities, or products thereof, and who is found by the USDA County War Board, the Regional or District Manager to be in need of the vehicle he desires to purchase or otherwise acquire for such transportation.

9. No idle used commercial motor vehicle is to be requisitioned unless:

- (1) When the owner is known, an offer to purchase it from him at a reasonable price, not exceeding the lawful ceiling price, or to lease it upon fair and reasonable terms, has been made to him by or in behalf of a person having the qualifications of an eligible purchaser and the owner either has rejected the offer or has not accepted it within a reasonable time;
- (2) The vehicle will be purchased from the Government by an eligible purchaser immediately upon its being requisitioned.

10. If the owner is not known and cannot be ascertained within a reasonable time by the use of reasonable diligence, the vehicle may nevertheless be requisitioned for disposal as indicated in subparagraph (2) above.

11. In the requisitioning and disposal of any vehicle or vehicles, accessories, attachments or spare parts to be used on such vehicle, hereinafter sometimes referred to as "property", the following procedures shall be observed:

PROCEDURE

ODT District Manager Procedures

12. Before taking any of the steps herein outlined with a view to requisitioning any property under consideration, the District Manager shall communicate with the County USDA War

Board for the county in which the property is located to ascertain whether the Board has initiated action with a view to requisitioning that property. If such action has been initiated the District Manager need go no further unless the Board desires him to proceed.

13. *Inaccessible property.* If the vehicle under consideration is not accessible for identification and appraisal, so advise the Regional Director. Authority is conferred upon him to require that the necessary information regarding the property be made available. (See paragraph 22.) When he has secured this information, he will furnish it to the District Manager, who will proceed as directed in paragraphs 14-19.

14. *Accessible property.* When the property is accessible for identification and appraisal, and if the owner is known, the District Manager will proceed as follows:

15. If no eligible purchaser is known to the District Manager or to the County USDA War Board either may locate an eligible purchaser willing to lease the property from the owner upon fair and reasonable terms, or to purchase the property from him, or from the Defense Supplies Corporation after the property is requisitioned.

16. The District Manager will communicate with the owner by registered mail at his last known address stating that the eligible purchaser (naming him) stands ready to lease the property upon fair and reasonable terms (naming the terms) or to purchase the property at a fair price (stating the amount) and advising the owner that if no answer is received within seven days from the date of the letter that a request will be made for requisitioning the property. If the owner and purchaser cannot agree upon a price or rental the District Manager shall have the fair appraised value determined as set forth in paragraph 17, and another offer to purchase at the fair appraised value, or to lease upon fair and reasonable terms, if different from the preceding offer, shall be made by letter to the owner, and he shall be advised that in case of failure to accept the offer within seven days from the date of the letter, a request will be made to requisition the property. If leasing is impractical or not feasible, the offer to lease may be omitted.

17. For the purpose outlined in paragraph 16 and of arriving at a disposal price to be paid by the purchaser if the property is requisitioned (see item (6) of paragraph 18), the District Manager shall avail himself of the services of a competent appraiser. (Each District Manager will communicate with his Regional Administrative officer for instructions as to how the services of an appraiser may be secured.) After inspection of the vehicle and making detailed written notes, for future reference, concerning the condition of the vehicle and its parts, and listing each accessory or spare part, the appraiser will place a fair and reasonable value thereon in its present condition and location that is, on a "where is, as is" basis. The value so fixed should in no case exceed the applicable ceiling price established by

Revised Maximum Price Regulation No. 341 (Rev. MPR 341), issued by the Office of Price Administration on August 10, 1943. Ceiling prices so established are in line with values of vehicles in better-than-average condition. Therefore, in most cases the fair and reasonable value of the vehicle being appraised will be less than the ceiling price depending, of course, upon the condition of the vehicle. In almost all cases the value found by the appraiser plus the reasonable cost of appraisal, but not in excess of the ceiling price, will be the disposal price to be paid to the Defense Supplies Corporation by the purchaser upon sale to him after requisitioning. (See Appendix 2 for form of contract.) In nearly all cases the value found by the appraiser will be the fair and just compensation to be paid to the owner as hereinafter provided. (A copy of Rev. MPR 341, issued August 10, 1943, and of MPR 341, issued March 31, 1943, has been or will be furnished each regional and district office.)

18. When an offer made pursuant to paragraph 16 has been refused by, or when no response to an offer has been received from, the owner within the time specified in paragraph 16, the District Manager will execute Form ODT Req. 1 and send the form to his Regional Director. In executing the form the following details will be observed:

(1) Make at least six copies, the original and four of which are to be transmitted to the Regional Director.

(2) Use a separate form for each vehicle or group of vehicles located on one and the same premises. A separate schedule for each vehicle and its parts and accessories shall be prepared and securely attached to the request.

(3) Give an adequate description of the location of the vehicle or group of vehicles. Give also accurately and fully the name and address of the custodian or person in possession.

(4) Identify each vehicle or each unit on a separate schedule by type, manufacturer's name, year of manufacture, engine number, serial number, if any, type of body, and other identifying characteristics. Also describe fully all attachments or spare parts, if any, to be requisitioned for use on the vehicle. Describe fully the condition of the vehicle.

(5) Give accurately and fully the owner's name and last known address and the names and addresses of all persons known to have or to claim an interest in the property, such as chattel mortgagees, holders of conditional contracts of sale, tax, storage, mechanic's or garage lien claimants, etc. District Managers and USDA War Boards will make diligent efforts to ascertain the names and addresses of all claimants, but the request for requisitioning should not be delayed thereby. Additional information concerning claimants should be submitted later. In securing this information, it may be advisable to check the recording registries in the county records and the State title registrations.

(6) Insert the appraised value as found by the appraiser and the costs of appraisal, but in no case will the amount to be paid by the purchaser be more than the ceiling price fixed by OPA.

(7) When transmitting the completed form to the Regional Director the District Manager shall inform him of the name and address of the eligible purchaser and the applicable OPA ceiling price. The appraiser should be of assistance in arriving at such ceiling price.

19. If the owner is not known, execute Form ODT Req. 1, as directed in paragraph 18, inserting in lieu of the owner's name the word "Unknown".

20. When the Regional Director notifies the District Manager that a request for requisitioning has been granted, the District Manager will issue to the proposed purchaser a statement certifying that he has been found by the District Manager to be an eligible purchaser. Any County USDA War Board may also certify eligible purchasers in accordance with instructions issued by the War Food Administrator. When the Regional Director requests the agent of Defense Supplies Corporation to requisition the property, the agent will get in touch with the eligible purchaser and make arrangements with him, including the execution of a contract, for the sale of the property to him upon its being requisitioned. The contract will be substantially in the form of Appendix 2 attached hereto.

21. County USDA War Boards will also, pursuant to instructions issued by the U. S. Department of Agriculture, War Food Administration, take the steps outlined above and will submit requests for requisitioning, together with the name and address of the eligible purchaser, to the State USDA War Board. The State Board will transmit such requests, names and addresses to the Regional Director who will handle such requests in the same manner as those received from District Managers.

ODT Regional Director Procedures

22. When informed by the District Manager or State USDA War Board that certain idle used commercial motor vehicles have been located which are necessary to the war effort but which are not accessible for identification and appraisal, the Regional Director shall determine after communication with the ODT General Counsel's Office, the procedures to be followed in making the vehicles accessible for identification and appraisal.

23. Upon receipt of a request from either the District Manager or the USDA War Board to requisition idle vehicles, the Regional Director will review such request and if he finds that the requested requisitioning is necessary to afford transportation service in the achievement of the war food production program, he will grant such request.

24. Upon the approval of such request by the Regional Director, he will proceed as outlined below:

25. The Regional Director will insert in an original and five copies of Form ODT Req. 2, entitled "Requisition by the United States of America" the ODT Requisition No., the number of each schedule attached, and his name and address in the appropriate blank spaces. Each vehicle to be requisitioned shall be described on a separate schedule which must bear an identifying number and be

securely attached to the requisition. The description of the property in each such schedule should correspond to the description contained in each Form ODT Req. 1 or Form Req. 1 of the County USDA War Board. After the requisition form is prepared the Regional Director shall transmit the original and 3 copies, together with 2 copies of Form ODT Req. 1 or Form Req. 1 and one original of instructions shown as Form ODT Req. 2.1, properly filled in, to the agent of the Defense Supplies Corporation in whose area the property is located, with a request that he requisition and dispose of the property. (A list of such agents, their addresses, and the areas they serve is attached as Appendix 3.) In his letter of transmittal to the agent, the Regional Director will advise the agent of the following:

(1) The name and address of the eligible purchaser;

(2) The extent of negotiations with the owner to purchase or lease the vehicle;

(3) The value of the vehicle as found by the appraiser and the costs of appraisal;

(4) The applicable OPA ceiling price;

(5) Any other information deemed of value in the case. A copy of the requisition and of the request therefor shall forthwith be sent to the Associate Director, Division of Motor Transport, at Washington, D. C.

26. The agent will arrange with the United States Marshal's Office for the judicial district in which the property to be requisitioned is located for an exact time (date and hour) when the property is to be seized by the Marshal. The agent will notify the eligible purchaser, and the Regional Director of the time fixed.

27. Upon the seizure of the property by the Marshal, he will then and there deliver it to the agent of the Defense Supplies Corporation who will dispose of it to the eligible purchaser or purchasers. The Marshal will exhibit to the person from whose custody or possession the property was seized the original requisition (Form ODT Req. 2) and deliver to him a conformed copy, a copy of Form ODT Req. 2.1, and a receipt for the property (Form ODT Req. 3). The Marshal will also furnish to the DSC agent three conformed copies of such receipt, and will execute the return shown on the requisition form in triplicate and deliver them to the agent. The agent will transmit one conformed copy each of the requisition, of the return endorsed thereon, and of the receipt to the Regional Director. At the same time the agent will advise the Regional Director of the names and addresses of any additional persons who he may have learned claim an interest in the property.

28. Upon receiving notice from the DSC agent that the property has been requisitioned, the Regional Director will immediately transmit to each person known to have or to claim any interest in the property a notice of requisition (Form ODT Req. 4), 4 blank copies of disclaimer (Form ODT Req. 7), 4 blank copies of proof of claim (Form ODT Req. 5) accompanied by an appropriate form of verification (individual, corporate, or

by agent or attorney, as the case may be) together with power of attorney (Form ODT Req. 6), if necessary, and with instructions for the submission of disclaimer or proof of claim. Such persons are expected to execute the appropriate forms in triplicate and forward to the Regional Director. The fourth copies may be retained by such persons for their files.

29. In order to enable the ODT to make report to the War Production Board as required by its regulations, the Regional Director shall as soon as he has received notice from the DSC agent of the requisitioning and disposal of the property, make a report thereof immediately to the Associate Director, Division of Motor Transport, at Washington, D. C., giving a description of the property, the name and address of the owner, the name and address of the purchaser, the date and place of requisitioning and disposal, and the disposal price.

30. As soon as a reasonable time has expired within which to expect proofs of claim to be made (twenty days from time of sending out of Form ODT Req. 4 is suggested as a reasonable time), the Regional Director shall prepare and send out Form ODT Req. 8, which is the notice of preliminary determination by him of fair and just compensation for the property. This should be mailed to all persons known to have or to claim an interest in the property regardless of whether or not they have filed a claim but should not be mailed to persons who have filed a disclaimer. A copy must also be mailed to the Associate Director, Division of Motor Transport without delay. The preliminary determination of fair and just compensation ought to equal the fair and reasonable value as found by the appraiser (see Par. 17) and indicated on Form ODT Req. 1 or Form Req. 1, but should not include the costs incurred in appraisal.

31. Within thirty days after the date of the notice (Form ODT Req. 8) any claimant may file written objections to the preliminary determination specifying in detail the grounds for his objection.

32. If there is such objection and the Regional Director is nevertheless not in doubt as to the proper award to be made, he shall proceed as provided in paragraphs 34-38 below.

33. In any case in which the Regional Director is in doubt as to the proper measure to be applied in determining fair and just compensation or in any case in which there is a difference of opinion arising from such objections between the Regional Director and the person known to have or to claim an interest in the property as to the proper measure to be applied in determining compensation, the Regional Director may, in his discretion, either before or after making a preliminary determination, designate a time and place for all persons known to have or claim an interest to appear in support of their claims. Ample notice thereof must be given to all such persons. Such appearance shall be before a member of the field staff designated by the Regional Director. Such member shall hear the claimants who appear and shall receive

any evidence relative to the inquiry. A stenographic transcript of the proceedings and a copy of the written evidence shall be preserved. Following such inquiry, such member shall make his recommendation to the Regional Director as to the amount of compensation to be paid and the Regional Director shall consider such recommendation, and if he has not already made a preliminary determination he shall do so or he shall affirm, increase or decrease the preliminary determination already made. (Such inquiries or hearings should be had only in exceptional cases.)

34. The Regional Director shall not authorize payment to any claimant until such claimant has presented such proof of title to or an interest in the property requisitioned as the Regional Manager may require and until he is satisfied that payment may be safely made. In cases of doubt, the Regional Director should obtain the advice of the ODT General Counsel.

35. If the claimants cannot safely be paid the Regional Director shall nevertheless make the award in duplicate on Form ODT Req. 9, with a notation thereon that "The persons entitled to compensation cannot now be determined", shall retain one copy in his files, and transmit the other to the DSC agent with a letter along the lines of part B of Appendix 4. The Regional Director will also advise the claimants by letter along the lines of part B of Appendix 5. No payment will be made until the person or persons entitled to receive the same shall be clearly established. Conformed copies shall be sent to the Associate Director, Division of Motor Transport, with a statement as to why claimants cannot safely be paid.

36. If payment can safely be made the Regional Director shall make the award in duplicate on Form ODT Req. 9 and transmit one of the duplicates to the Defense Supplies Corporation agent together with a letter along the lines of part A of Appendix 4 hereto. The Regional Director shall also notify each person entitled to compensation by a letter along the lines of part A of Appendix 5 hereto. At the time Defense Supplies Corporation pays each such person, he will be required to execute a release and indemnity agreement.

37. If any person is unwilling to accept the award made to him, he will be paid 50 percent of the amount and shall be entitled to sue in the United States Court of Claims or any District Court of the United States for any additional amount which, when added to the amount paid him, he considers fair and just compensation. In any such case, the Regional Director shall immediately notify the General Counsel.

38. In any case where a number of vehicles have been requisitioned in pursuance of one requisition (Form ODT Req. 2), and questions concerning title or interest in, or compensation for, one or more of them will delay the payment of compensation for all, a separate award of fair and just compensation may, in the discretion of the Regional Manager, be made as to any one or more of the vehicles with respect to which there are no such questions.

39. A copy of each award made shall be sent to the Associate Director, Division of Motor Transport as soon as made so that required reports can be made to the War Production Board within the time fixed.

(ii) Milk received directly from producers at receiving plants shall be considered to have first been the handler's Class I milk, except that in case the handler has received milk from plants located beyond 15 miles from the City Hall in Fall River, milk received directly from producers may be allocated to the handler's Class II milk, up to but not in excess of a quantity equal to 5.0 percent of such receipts from producers.

(d) Renumber subpart (i) to (iii) and renumber subpart (iii) to (iv).

7. Delete § 947.9 (h); in § 947.6 (e) delete the reference "§ 947.9 (h) and § 947.11"; in § 947.6 (g) (1) and (2) add

8. Delete § 947.13 and substitute therefor the following:

§ 947.13 *Agents.* The War Food Administrator may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions hereof.

Notice of all meetings of the committee shall be given to the War Food Administrator and such person or persons as the War Food Administrator may designate shall be permitted to attend and take part in such meetings.
