Three Excellent Reasons for Studying This Book

This book of original recipes has a threefold purpose:—

(1). Briefly to call attention to the Isle of Pines, —what Americans are doing there in pineapple and grapefruit culture.

(2). To introduce to a discriminating public the superlative quality of Ambro Brand products and to set forth some of the uses of these products either in their natural condition as grown on the plantations of the Isle of Pines Co-operative Fruit Company or as preserved at 110 Broad St., Boston.

(3). To stimulate interest in the Co-operative Profit-sharing, Monthly Payment Plan under which several hundred residents of New England are engaged in raising and marketing pineapples and grapefruit without individually buying land or taking time away from their everyday occupations.

If you are anxious to make money—to enjoy the full earnings of your savings, we advise you to read in full the material on the back pages of this book and to fill out and mail the coupon on the last inside page.

AMERICAN ENTERPRISE ON THE ISLE OF PINES

P. J. EVANS

Founder of the Isle of Pines
Co-operative Fruit Co.

American enterprise has accomplished more on the Isle of Pines since the Spanish American war placed this beautiful island in its true perspective than Spanish and native occupation had brought to pass since Columbus landed there in 1492.

It is within a decade that the island has been

transformed from a health resort for wealthy Spaniards and Cubans into a veritable land of fulfillment of agricultural promise. And fully three-fourths of the inhabitants are such men, women and children as one meets in a thriving New England town. Capital and industry in co-operation are writing history and building fortunes in this lovely gem of the Caribbean.

One of the first organizations to realize the possibilities of money making through pineapple and grapefruit culture for northern markets was the Isle of Pines Co-operative Fruit Co., of 44 Federal St., Boston.

This company owns a large tract of land on the Isle of Pines. It is the intention eventually to plant six hundred and forty acres upon the basis of five thousand pineapple plants to the acre and seventy grapefruit trees to the acre,—an approximate total of one million six hundred thousand pineapple plants and twenty-two thousand four hundred grapefruit trees.

It takes eighteen months to raise a crop of pineapples and four years to raise grapefruit. After fruiting, pineapple plants furnish additional slips for continuous transplanting and the grapefruit trees increase in bearing capacity with age until they bear fifteen to twenty boxes to the tree.

Because of the length of time, the physical effort involved, and the great amount of capital necessary for such an extensive development, the property is divided into 80-acre sections, to be separately developed and oper-

ated as "Series A" Plantation, "Series B" Plantation and so on.

MONTHLY PAYMENT PLAN

In developing these various plantations monthly payment of bills is required for salaries to laborers, foremen, nurserymen and manager, upkeep of equipment, fertilizer, feed for mules and horses, and chemicals for spraying plants and trees.

The ground must be ploughed and harrowed at intervals, trees must be pruned and cared for to assure good growth and first quality fruit, and in order to meet these monthly expenses the idea of selling profit-sharing certificates was adopted.

The Company has issued and offers for sale a limited number of profit-sharing certificates in "Series B" Plantation which may be purchased upon the monthly payment plan. The net profits from this plantation are to be divided equally,—one-half to the one thousand profit-sharing certificates, in proportion to the amount paid by each certificate holder, and the other half to the Company.

This proposition that we are placing before the public will not pay tremendous dividends at once; but its earning power should increase steadily from year to year and pay richly for the waiting.

The earnings are coming from actual production of food products and not from speculation. The plan is *co-operative and profit-sharing* without fixed limitation of earning capacity.

Hard thinking and careful planning create money-making opportunities. Over and over again the brain power of one man has made fortunes for many others; and if your thoughts turn to money-making, you should send to us for full particulars of this enterprise.

To learn of our Co-operative Profit-sharing Plan read what Mr. P. J. Evans has to say in the closing pages of this Cook Book. If his statement proves as interesting as we think it will, **fill out and mail the coupon on the last page** and you will receive full particulars regarding our plan, and a beautifully **illustrated Isle of Pines book** and other printed matter in the next mail **without expense** or obligation on your part.

ISLE OF PINES CO-OPERATIVE FRUIT CO.

THE PINEAPPLE

THE pineapple is a native of tropical America. It is found wild in sandy maritime districts in the north-east of South America, but has been very much improved by cultivation. The first particular account of the pineapple was given by Oviedo in 1535, and it first began to be cultivated in Holland. Great care is requisite in the cultivation of the pineapple which, without cultivation, is generally fibrous and coarse, with little sweetness or flavor and with it one of the most delicate and richly flavored of fruits. Its size also very much depends on the cultivation. The size varies from one to twelve pounds in weight. There are many varieties of the pineapple in cultivation. A spirituous pineapple rum is made from the pineapple in some warm countries, and also the fiber from the pineapple has many uses.

Pineapples are also said to contain strong medicinal qualities both in throat and stomach affections. Finely sliced, then well chilled and sugared, pineapple is a favorite first course both for breakfast and luncheon. Ground pineapple is a good addition to ice-cream and makes a most delicious water ice. As a pudding sauce, or in a pudding itself, pineapples can be brought on daily without becoming monotonous, and, for winter use, they rank as one of the most satisfactory fruits, both in the natural state and preserved.

The Smooth Cayenne Ambro Brand pineapples raised on the plantations of the Isle of Pines Co-operative Fruit Co. at Westport, Isle of Pines, are unsurpassed in size, tenderness, juiciness and richness of flavor.

BEVERAGES AND PUNCHES

MANHATTAN PUNCH

Use four cupfuls of water and four of sugar boiling together five minutes; add the liquid from one cupful of raisins boiled with one pint of water; then strain the juice of three lemons, six oranges, and one cup of mixed fruit juice, grape, grapefruit and peach juice. Cut one Ambro Brand pineapple into small pieces; add to these a cupful of strawberries or maraschino cherries, four bananas cut in slices, and one orange sliced and cut in small pieces. This will take two quarts of carbonated water. Ice the fruit juice, and, when ready to serve, add the water to make the right strength. The fruit goes in last. This amount serves twenty-five persons.

PINEAPPLE CORDIAL

The white of one egg, four tablespoons pineapple juice, one teaspoon lemon juice, one teaspoon of sugar, a few grains of salt. Beat until frothy, and add remaining ingredients, and lastly one tablespoonful of cordial. Serve immediately.

NUANO PUNCH

Add to three quart bottles of Ambro Brand pineapple juice, the juice of three lemons, a pound of sugar, and six slices of pineapple cut in small pieces. Serve in a punch-bowl with a generous quart of plain or carbonated water and a large piece of ice. This makes over a gallon. It should stand on ice to chill before serving. This recipe will serve twelve or fifteen persons and is most delicious.

PINEAPPLE-ADE MOUSSE

For a cool drink in summer fill a goblet one-third full of pineapple-ade and on top of that fill the goblet heaping full with strawberry mousse or vanilla ice-cream, as desired, and decorate top with glacéd strawberries.

WESTPORT TEA

Add one or two tablespoonfuls of Ambro Brand concentrated pineapple syrup to a cupful or glassful of hot or iced tea. If served at the dining table, its proper place is with the

opening course and never with or after cake, preserves, ices, or sweet deserts. It fills a double function at the beginning in rendering the palate more sensitive to the flavor of the good things to follow and in providing the stomach in advance with a positive aid to the digestion of the food.

POMONA PUNCH

Add to two quarts Ambro Brand pineapple juice two lemons and two oranges sliced thin, one quart of fine large strawberries or raspberries, one quart of a good sparkling mineral water and a pound of sugar. Serve in a punch-bowl or large glass pitcher with plenty of ice.

PINEAPPLE-ADE

Pare and slice some very ripe pineapples. Then cut the slices into small pieces. Put them with all their juice into a large pitcher and sprinkle among them plenty of powdered sugar. Pour on boiling water, allowing a small half-pint to each pineapple. Cover the pitcher and let it stand till quite cool, occasionally pressing down the pineapple with a wooden spoon. Then set the pitcher for a while on ice. Lastly strain the infusion into another pitcher and transfer it into glasses, putting into each glass some more sugar, and a little ice. This is a most delicious beverage on a warm day.

TANGO PUNCH

One cup of sugar, one pint of Apollinaris, one-half cup of lemon juice, one cup of Ambro Brand Concentrated pineapple syrup, one cup of raspberry syrup, and two cups of tea infusion. Pour tea over sugar and as soon as the sugar has dissolved, add remaining ingredients. Strain into a punch-bowl over a large piece of ice and add more sugar if necessary.

FRUIT PUNCH

This requires one pint of strawberry juice, juice of six lemons, juice of three oranges. Fill glasses half-full of fruit mixture, and pour over it two tablespoons of sugar syrup. Add a tablespoon each of sliced bananas and

Ambro Brand pineapple. Fill glasses with ice-water; stir well and put a teaspoonful of whipped cream on the top.

CARAMEL PINEAPPLE-ADE

For pineapple-ade, put a pound of granulated sugar in a frying pan, stir constantly until it browns and becomes liquid. Then add one pint of water; cover; and cook slowly until it is all dissolved. Bottle for future use. When desired, sweeten pineapple-ade with this syrup to obtain a new and delicious beverage.

CUPID PUNCH

Add to five quarts of unfermented grape juice the juice of twelve lemons and sugar to taste, cut three oranges into thin slices, and add one quart of Ambro Brand pineapple juice, and one pint of sour cherry juice.

When ready to serve, place a piece of ice in the bowl. Stand a cupid in a few ferns and roses in the top of ice in which a hole is made, and then pour punch in the bowl. A wreath of grapes or flowers can be placed at the base of the bowl on a large centerpiece, which is very effective.

WALDORF PINEAPPLES

Slice Ambro Brand pineapples on a slaw-cutter or very thin with a knife. Mix with confectioners' sugar to taste, and add one tablespoonful Kirsch, and one teaspoonful of orange curacao. Set on ice till ready to serve.

PUNCH JULEP

To make two gallons—Two dozen oranges, two dozen lemons, one dozen bananas, one quart Ambro Brand pineapple juice, two quarts strawberries, six pounds sugar.

On the outside, where the eyes have been taken out, make round circles with a French vegetable cutter, and fill these circles with Fromage de Brie, and on this cheese in the center, put a tiny round circle, alternately, of pimentos and truffles; and when filled, flatten down with a knife so that the entire surface of the pineapple will be perfectly smooth. Cut around these circles in square blocks so that they may be easily removed, when ready to serve. Place on lettuce leaves and around the base, make nests of watercress; enclosed within these nests, have tiny balls of cream cheese and olives, making the cheese balls the same size as the olives. Then cut half way through narrow equal distances apart starting from the top down to the stem end, and then cut the same distances around the pineapple to the base which separates the sections for individual servings. Keep the pineapple in its natural shape which the cheese will hold together. place on oiled paper until dry. Glaced fruits keep but a day, and should only be made in cold and very clear weather, to be successful.

STUFFED FIGS

Steam figs over hot water until soft. Then cut one incision lengthwise and fill with a marshmallow, one English walnut, and a piece of candied Ambro Brand Pineapple. Close together, roll in confectioner's sugar and arrange alternately in a long, narrow silver tray with candied mint leaves. This is a most choice confection.

PINEAPPLE CHIPS

After peeling and removing the eyes of an Ambro Brand Pineapple, cut it into thin strips, lay on a platter and cover with granulated sugar. Keep the pieces separate. Set the platters on shelves in a dry closet, and sprinkle them with sugar every day, pouring off the syrup as it gathers. When the chips are dry and crystallized, pack in tin boxes with oiled paper between each layer. The syrup may be used for jellies or as a drink with the addition of water.

FRUIT FUDGE

Boil together in a granite sauce-pan two cups of granulated sugar, one-half cup of thin cream, one cup of Ambro Brand Concentrated Pineapple Syrup, and a piece of

butter the size of an egg. Stir constantly until a soft ball may be formed in cold water. Beat until it sugars, and has a creamy consistency. Then add one cup of candied fruit including pineapple, cherries, and plums; stir these in thoroughly, and pour into a buttered cake pan. When cold cut in squares.

PINEAPPLE SYRUP PRALINES

Mix together two cups of confectioners' sugar, one-half cup of thin cream, and one cup of Ambro-Brand Concentrated Pineapple Syrup. Cook in a granite saucepan stirring all the time. Let boil until a soft ball may be

formed in cold water; then remove from the fire and beat until of a creamy consistency, and beginning to sugar. Then drop from spoon in peppermint shape on unbuttered tin sheets. When thoroughly cold remove from sheets.

CREAMED WALNUTS

Put two cups of confectioners' sugar into a mixing bowl and gradually stir in Ambro Brand Concentrated Pineapple Syrup to moisten and make a very stiff fondant. Then make little balls, and on each side press into the fondant a half walnut. Then put away to stiffen and serve as a confection.

SANDWICHES AND CANAPÉS

PINEAPPLE CANAPES

Split in two some small square sponge cakes or take slices of sponge cake. Put butter in the chafing dish and when hot put in the slices of cake and brown on both sides a little. Lay slices on a plate and spread each with a layer of canned, chopped Ambro Brand pineapple. Turn juice from can into chafing dish. Moisten a teaspoonful of arrowroot in cold water; stir slowly into the hot juice and continue to stir until it becomes thickened and clear. Pour sauce over slices of spread cake. If more than a cupful of juice is used, add more arrowroot, in proportion.

malade. Spread between slices of buttered bread, cut in shapes of diamonds, hearts, clubs, and spades with tin cutters, and decorate with little bunches of currants in the center of each sandwich.

WHITE HOUSE CANAPE

Melt two tablespoons of butter, add two cupfuls shredded Ambro Brand Pineapple. Cook ten minutes and add sugar and lemon juice to taste. Serve on slices of sautéed bread. Garnish with cream. Sponge cake is excellent to use in place of sautéed bread.

FRUIT SANDWICHES

Crush slightly equal quantities of red currants, Ambro Brand pineapple and raspberries, and to every pound, add one pound of sugar. Cook until it reaches the consistency of mar-

SURPRISE SANDWICHES

Cut the Ambro Brand Pineapple in thin slices and dust with powdered sugar, and arrange between thin slices of buttered bread, to be served for afternoon teas.

MISCELLANEOUS

PRESERVED PINEAPPLE

Four pounds of Ambro Brand Pineapple, four pounds of sugar. Pare pineapple and remove the eyes, then cut in slices, and arrange slices and sugar in layers in preserving kettle; let stand over night. In the morning, simmer, until pineapples are tender. Fill jars with fruit, boil syrup five minutes, fill jars with syrup, and then seal.

CANNED APPLES AND PINEAPPLE

Four pounds of apples, four pounds of Ambro Brand Pineapples, two pounds of sugar, two pints of water, and rind of four lemons. Pare, core, and cut the apples in rings. Cut pineapple in slices, remove skin and eyes and cut pulp into squares, being careful to reject the core. Boil sugar and water five minutes, add pineapple; cook until

tender; then cook apples until tender, add lemon rind, fill jars which have been sterilized, with apple and pineapple; adjust rings, fill jars with syrup, adjust covers, and seal.

CANNED PINEAPPLE

Peel and slice, make syrup in proportion of two and one-half pounds best white granulated sugar to nearly three pints of water; boil five minutes; skim or strain. Add fruit and let it boil two minutes. Have cans hot; fill and seal up as soon as possible.

PINEAPPLE SYRUP

This makes a delicious water-ice and is better for flavoring than fresh pineapple. Put three pounds of loaf sugar in a porcelain kettle over the fire. Beat the whites of two eggs and add to them two cupfuls of clear water. Pour over the sugar and set on fire to boil until clear. Remove and cool. Pare and grate enough Ambro Brand Pineapple to make a quart of juice; then strain into the syrup. Boil ten minutes. Remove and bottle. Cover the corks with melted wax.

PINEAPPLE PRESERVES

Wash fruit and boil without paring until tender; take out, pare, and slice lengthwise, leaving out the hard center. Pour a syrup [using a pound of sugar to one of fruit] boiling hot over pineapples and let stand until the next morning. Pour off syrup, boil until nearly thick enough; then add fruit, and boil fifteen or twenty minutes. Then put in jars.

BRANDIED PINEAPPLE

Four large Ambro Brand Pineapples, half their weight in sugar, and one quart of high-proof alcohol or brandy. Prepare pineapples by paring, removing the eyes, cutting in one-fourth inch slices, and by cutting out the centre. Put alternate layers of pineapple and sugar in a stone jar; then add the alcohol or brandy, and cover closely having a heavy piece of cloth under cover of each jar.

PINEAPPLE FILLING

One cup of grated Ambro Brand Pineapple, one tablespoon of orange rind, two tablespoons of lemon juice, sugar to taste.

Mix pineapple, fruit juice, and rind, and enough confectioner's sugar to make of consistency to spread.

Bake a plain gold cake in cake tin or make individual cakes and frost with a boiled White Mountain frosting and decorate center of cakes with candied cherries or candied rose leaves, having a border of chopped pistachio nuts.

PINEAPPLE ICED TEA

Fill glasses with five tablespoons of iced tea, and add to it the whip from one cup of cream which has been sweetened, and shredded Ambro Brand Pineapple beaten into it. Decorate with cherries. This is a most attractive as well as a cool drink in summer.

PINEAPPLE MARMALADE

Take ripe, juicy Ambro Brand Pineapples, pare, cut out the eyes very carefully and grate on a coarse grater, all but the core. Weigh, and allow a pound of sugar to a pound of fruit. Cook from twenty minutes to half an hour and jar.

PINEAPPLE TARTS

Cook one cup grated Ambro Brand Pineapple, one-fourth of a cup of sugar, two yolks of eggs, grated rind and juice of one lemon, and a few grains of salt, until thick. Chill and fill tarts.

CRAB APPLE AND PINEAPPLE JAM

Use for this twelve glasses of crab-apple pulp, nine glasses of sugar, one pint of shredded Ambro Brand Pineapple. Cook the crab-apple pulp and sugar together until nearly done; then, add the pineapple and cook fifteen to twenty minutes longer. Put into glasses when cool and cover with paraffin.

PINEAPPLE AND TOMATO JAM

Peel and grate three Ambro Brand Pineapples. Pour boiling water over a peck of ripe tomatoes; take off the skins and hard places. Chop and put over the fire to boil. When soft, add the pineapple and measure. Allow to each cupful of fruit an equal amount of white sugar, and cook until clear. Pour into sterilized glasses and seal.

PINEAPPLE VINEGAR

Cover sliced Ambro Brand Pineapples with pure cider vinegar, let them stand three or four days, then mash and strain through a cloth as long as it runs clear. To every three quarts of juice add five pounds of sugar. Boil it altogether about ten minutes, skim carefully until nothing rises to the surface, take from fire. When cool bottle it. A tablespoonful in a glass of ice cold water is fine in warm weather.

PINEAPPLE JELLY FOR IMMEDIATE USE

Cover with cold water the cores and skins left in preserving Ambro Brand Pineapples. Cook until tender then strain. As pineapple is lacking in the pectin or jellying principle, use gelatine to stiffen in the proportions directed on the package, and sweeten to taste. This is exceedingly appetizing and attractive in appearance and goes well as a relish with veal loaf or a roast of any kind.

SANDWICH FILLING

One-half of a cupful of shredded Ambro Brand Pineapple added to half that amount of cream cheese, moistened with lemon juice and salt to taste, makes a good filling that is unusual. Cut sandwiches in fancy shapes and in the center of each, make a hole in the top slice of bread, and insert an olive filled with cream cheese and a few grains of paprika sprinkled over it to give a touch of color.

PINEAPPLE AND RHUBARB MARMALADE

One quart of shredded Ambro Brand Pineapple, four quarts of rhubarb, and the juice of two oranges. Cook pineapple in water until tender; add rhubarb cut up, skin and all, and cook until soft. Then measure and add a large cup of sugar to each pint of fruit. Boil twenty minutes. Turn into sterilized glasses and seal. The marmalade must be stirred constantly while boiling, as it is apt to scorch. A cupful of nut meats chopped fine or a little spice may be added at the last if desired.

PINEAPPLE MARMALADE

Peel and grate or chop as many Ambro Brand Pineapples as are desired. Weigh and allow a pound of sugar to each pound of fruit. Mix well and stand in a cool place over night. In the morning cook for a half hour or until soft enough to put through a coarse sieve. Strain, return to the preserving kettle, and continue the cooking, stirring almost constantly for half an hour or longer until a clear amber jelly results that will thicken into a paste as it cooks. Put into small jars, and when cool cover with paraffin and seal.

PINEAPPLE TARTS

Cook one cup of grated Ambro Brand Pineapple, one-fourth cup of sugar, two eggs yolks, grated rind and juice of one lemon, a few grains of salt. Stir until thick over hot water. Chill and fill tarts.

PINEAPPLE FILLING FOR CAKE

One cup of grated Ambro Brand Pineapple, one tablespoon of grated orange rind, two tablespoons of lemon juice and sugar. Mix pineapple, fruit juice, and rind, and enough confectioner's sugar to make of consistency to spread.

PINEAPPLE FILLING FOR CAKE, ETC.

One quart each of diced Ambro Brand Pineapple and citron melon added to one pint of cold water. Bring to a boil, then mash thoroughly and cook to a soft pulp. Then strain this mixture and let stand over night. There should be one pint and a half of juice. Boil juice ten minutes, add an equal measure of sugar and it will begin to jell after fifteen minutes' boiling. If pineapple is very ripe and too sweet, add a tablespoon of lemon juice, added to each pint of juice. Pour into glasses and seal with paraffin.

A SIMPLE PINEAPPLE MARMALADE

One quart of sliced Ambro Brand Pineapple pared and cut in small pieces and one pound of powdered sugar; boil half an hour, and pour into sweet meat pots.

PINEAPPLE WITH CEREALS

Cold moulded cereals particularly Cream of Wheat may be prepared the day before. Cook the cereal in the usual way using half milk and half water, poured into cups and chilled or diced Ambro Brand pineapple may be stirred into the cereal before chilling. Garnish cereals with sliced Ambro Brand pineapple served with sugar and cream and it makes a nourishing and delightfully attractive meal.

PINEAPPLE BOUILLON

Add to one quart of boiling water the juice of two lemons and the grated pulp of one Ambro Brand pineapple. Canned fruit may also be used with good results. Sweeten to taste, and let simmer for five minutes and strain through cheese cloth. Thicken slightly with arrowroot. Serve very cold with a few pieces of diced Ambro Brand pineapple in each cup. This bouillon may be served in soufflé cases of the largest size and accompanied by sweet wafers or very thinly sliced bread spread between the slices with pineapple marmalade. These fruit bouillons are exceedingly popular abroad, and they are spoken of there as being soups instead of bouillons, but they are spoken of as bouillons from the fact that they are always served in cups.

ENGLISH ROLLS

Cut one loaf of very fresh bread in thin slices, and on each slice spread grapefruit or pineapple and orange marmalade, and roll each slice like a jelly roll, and put close together on a toaster. When well browned on both sides, put on a silver tray with a napkin and serve with afternoon tea.

WHIPPED EGG DRESSING

To the white of one egg, allow one tablespoonful of olive oil. Whip first the egg, adding oil gradually as in mayonnaise. Flavor with lemon juice, salt, cayenne, etc.; as for mayonnaise or use a Pineapple fruit syrup, fresh or preserved.

GRAPEFRUIT MARMALADE I

Four pounds grapefruit, four pounds of sugar. Wash grapefruit, slice thinly, and remove seeds and pulpy portions; add sugar and cook slowly two or three hours. Pour into glasses and cover.

GRAPEFRUIT MARMALADE II

Six grapefruit, four lemons, four quarts of water, ten pounds of sugar. Wash the fruit, and cut in thin slices, removing the seeds and as much of the white skin as possible. Cover with water, and let stand overnight. Cook slowly two hours. Add sugar and simmer until thick. Fill glasses, seal, and keep in cool place.

ROLLS STUFFED WITH MARMALADE

Scoop out the soft part of tiny dinner rolls and fry in deep fat. When a delicate brown, drain on brown paper, and fill with orange and grapefruit marmalade. Serve on paper doilies.

GRAPEFRUIT

(From our Illustrated Book)

GRAPEFRUIT, so named because the big yellow fruit grows in grapelike clusters, has begun only within the past few years to take its rightful place as a staple article of diet. It is delicious and healthful and the demand for it grows more insistent every day. Physicians vouch for its tonic properties. With hundreds of thousands of Americans in the large cities it has become almost indispensable as an appetizer or as a dessert. In European markets, however, it is practically unknown.

Certain soil and climatic conditions being absolutely essential to its successful cultivation there are few places where grapefruit can be grown. The Isle of Pines happens to be one of the favored spots. The excessively bitter "quinine" taste found in grapefruit grown elsewhere is not characteristic of Isle of Pines fruit; and it is only the simple truth to say that the grapefruit grown on this island is sweeter, juicier and more tender than is the grapefruit grown anywhere else on the globe. The soil condition, the rainfall, and the exemption from extremes of heat and cold, make for perfect fruit. The Isle of Pines grapefruit is obtainable in Northern markets from four to six weeks earlier than is the fruit from the groves farther north; and because of its size and quality it brings high prices.

Grapefruit trees are planted 25 feet apart, or 70 to the acre. They do not yield an income until the fourth year after planting; and while trees have been known to bear ten boxes of fruit in the fifth year, the amount of yield is not certain. With proper care and attention as the trees grow older it is possible for them to bear as high as fifteen to twenty boxes.

GRAPEFRUIT AND ITS SUGGESTED USES

Baskets made from Grapefruit shells make most attractive receptacles for the different varieties of fruit salads. For a garnish on these salads, long curls of citron and angelique, triangles and stars of candied grapefruit peel, and maraschino or crystallized cherries give an unusual touch as well as having an inviting appearance. Tiny sandwiches put together with a tart currant jelly give just the desired piquancy to a salad made of fruit. An attractive bow of ribbon tied through the handles of the

grapefruit baskets has the tendency of beautifying a table for luncheon or dinner.

The ingredients of a salad must blend smoothly and the dressing must be particularly suited to the combination; yet the accessories are the visible signs that appeal to the eye and indirectly affect the quality of the salad. Nothing gives a more unappetizing appearance to a salad than a wilted green foundation. Always use fresh crisp leaves in arranging a nest of lettuce or romaine and the most tender succulent parts of watercress. M. E. F.

BEVERAGES AND PUNCHES

FRUIT APOLLINARIS

Four cups of sugar, eight cups of water, two quarts of Apollinaris, one Ambro Brand Pineapple shredded, one cup of grapefruit juice, one box strawberries hulled, and cut in pieces, four bananas cut in slices, juice of six oranges, juice of three lemons. Boil sugar and water five minutes, add fruit, ice, Apollinaris, and water to make punch right strength. One cup of maraschino cherries may be added.

PARADISE ISLAND PUNCH

Put into a punch-bowl three quarts of bottled Ambro Brand Pineapple juice, one

can grated pineapple, one quart crushed strawberries, the strained juice of one grapefruit, six large oranges and three lemons. Dissolve a pound and one-half of granulated sugar in a quart of boiling water. Chill and stir through the fruit, adding a large piece of ice to the contents of the bowl.

RUSSIAN TEA [A LA MARMALADE]

Instead of serving lemon with tea, put a teaspoonful of grapefruit marmalade in the tea instead of lemon.

GRAPEFRUIT COCKTAILS

GRAPEFRUIT A LA RUSSE

Cut grapefruit in halves crosswise with a small, sharp, vegetable knife, cut around each section, so it can easily be removed with a spoon. Sprinkle with sugar and pour over it two tablespoons of sherry wine. With the pastry bag and tube, pipe a border all around the edge of heavy cream beaten stiff. Equal distances apart, place a maraschino cherry on the cream. If so desired make a square, crossing the sides diagonally and in each corner place a candied or maraschino cherry.

GRAPEFRUIT WITH BRANDY AND GIN

Prepare grapefruit for serving and add to each portion one-half tablespoon of Apricot brandy and one-half tablespoon of gin, well mixed together. Let this stand one hour in the ice box or in a cold place, until ready to serve and decorate with maraschino cherries, and around the base arrange spun sugar and in it, at equal distances place a glazed cherry.

GRAPEFRUIT COCKTAIL

Cut a chilled grapefruit in halves; with a thin sharp knife, remove the seeds and cut each section of fruit; serve the pulp with the juice in dainty glasses, adding two teaspoons of sugar and one teaspoonful of sherry to each glass.

GRAPEFRUIT OYSTER COCKTAIL

After the grapefruit is halved, cut out a large portion of the heart [a flexible knife, double edged, is now made for this purpose] leaving a lining of fruit in the shell and place on ice. Drain and wipe gently medium-sized oysters, place in heart of grapefruit, and sprinkle with salt. Pour over the oysters a mixture made as follows:

a saltspoonful of horse radish, one of Worcestershire sauce, a teaspoonful tomato ketchup, three drops of tabasco sauce. Place grapefruit shell in dish of ice and serve. Clam cocktails may be made the same way.

PREPARED GRAPEFRUIT

Prepare grapefruit by cutting in halves, cutting out the center of each half and by cutting carefully around each section with a sharp vegetable knife so that they can be easily removed with a spoon. Sprinkle with sugar, and add one tablespoonful kirsch, and one teaspoon of orange curacao, and one-half teaspoon of maraschino, or instead use two tablespoons of sherry wine. Drop into the center a maraschino cherry and a couple of candied mint leaves.

GRAPEFRUIT SALADS

GRAPEFRUIT A LA ISLE OF PINES

Cook canned artichoke bottoms, in white stock to cover, ten minutes. Drain, cool, marinate with French dressing and let stand one hour. Mound with grapefruit pulp and pimolas cut in slices which have also been marinated. Pour over whole French dressing to which has been added one tablespoon red wine vinegar, and one-fourth teaspoon paprika and garnish with strips of red and green peppers.

MANHATTAN SALAD

STUFFED PEPPERS

Cook green peppers until soft with the tops cut off, and the seeds taken out. Remove from boiling water and fill with grapefruit cut in pieces and chopped olives. Marinate with a French dressing to which has been added one tablespoon of horse radish. Decorate with radishes and place each one on a bed of watercress. Place small cheese-ball circles of pimento cheese sprinkled with paprika equal distances apart on watercress.

CUCUMBER SALAD

Pare and cut a long, thin, cucumber in thirds crosswise, scoop out the centres and fill with the following mixture: One cup of grapefruit cut in small pieces, and one-third cup of cooked green peppers, cut in strips. Pour over the following chiffonade dressing: two hard-boiled eggs chopped fine, five tablespoons of olive oil, two tablespoons of vinegar, one-fourth teaspoon of paprika, one-half of a teaspoon of black pepper, two tablespoons of parsley chopped finely, one-

half teaspoon of salt, one teaspoon of chopped shallot or onion, two tablespoons each of red and green peppers finely chopped. Pour over the stuffed cucumber, and place each cucumber cup on lettuce leaves and place on top, in the center of each, a piece of the cucumber rind cut in a diamond shape. For any of these salads, fruit or otherwise, place one or two thin water crackers on the side of the plate, and standing up in the center of each cracker, place a mushroom which is made of cream cheese in the shape of mushrooms and is rolled in very fine bread crumbs. This makes a very attractive salad and gives a very pleasing appearance.

Cut equal amounts of each fruit into equal pieces half an inch square. Sprinkle very lightly with salt and lemon juice. When thoroughly blended, mix again with half the measure of mayonnaise dressing. Sprinkle with walnuts and serve at once. People's ideas vary as to the quantity of dressing needed for a salad. A salad should never be dry but the dressing should not be applied lavishly.

GRAPEFRUIT SALAD I

Mix equal quantities of grapefruit and English walnut meats with one-half cup of mayonnaise dressing. Serve in grapefruit cups in lettuce nests, and garnish with cherries and mint leaves.

GRAPEFRUIT SALAD II

Replace top on pear and around the stem place five pieces of angelique in diamond shapes. Serve with mayonnaise dressing.

ROMAINE À LA TUILERIES

Arrange on individual plates selected pieces of Romaine and in the center alternate the following fruits all cut in the same sizes: Grapefruit, pineapples, tangerines. NO QUESTION AS TO SUPERIORITY

"We have distributed two cars of Isle of Pines grapefruit here this winter. We sold nearly all of this fruit at \$1.00 per box above the prices that were being obtained for Florida fruit and in almost every instance the trade wanted more of the fruit, as there is no question as to its flavor being far superior to that of any other grapefruit grown."—The Alden Adams Brokerage Co., C. S. Alden, Pres., Cleveland, Ohio.

BIG IMPORTERS PRAISE OUR FRUIT

"We have handled probably seventy-five per cent. of the pineapple coming from the Isle of Pines to Boston. They are of very large size (all of them weighing individually from six to ten pounds) and better flavored than pineapples from any other section shipping to Boston. They mature very early thus enabling the grower to secure very high prices by not coming in competition with pineapples from other sections."—Lord & Spencer, Boston.

DESERVES THE HIGHEST PRAISE

"We have disposed of a large quantity of Isle of Pines grapefruit at \$6.00 a crate, and have received nothing but the highest praise in regard to it from our customers."—Thos. F. Galvin, Boston.

CO-OPERATION THE BIG MONEY MAKER

By P. J. EVANS

I believe I am right in this—*you want to make money*. Well, if you had a hundred thousand or a million dollars you could afford to put it into Government bonds to earn 3%. You could live comfortably within your income, not touching the principal, and never be in need.

But no man or woman ever got wealthy by placing small savings from wages in savings institutions or in stocks or bonds which pay the usual small fixed rates of interest of 3% to 6%. To prove this, ask any man of wealth if he accumulated his fortune that way. Ask the heirs of a man of wealth if the original fortune was made that way, and you will get "No" for an answer.

If you are a member of the average class you cannot make money very fast upon a 3 to 6 percent basis. *That is why our Co-operative, Profit-sharing business should appeal to you; because the earnings of your money are not tied down to small fixed rates of interest.*

You will now probably say to yourself "What is this Co-operative, Profit-sharing business?" My explanation is this: If one man with \$100,000 can make it earn \$20,000 a year, why isn't it possible for a number of persons to put together small monthly sums and operate a business to get the same result? *It IS possible.*

THE DEVELOPMENT OF THE ISLE OF PINES

Eight years ago I began to sell 10-acre tracts of land on the Isle of Pines; advertising in the newspapers; sending out books and other printed matter and talking with everybody who would listen to me. It was a tough proposition to begin with, I assure you. The average person didn't know anything about the island. I knew the place thoroughly. I had faith in it and the moral courage to back up my convictions. I understood the conditions of soil, climate and location. I compared the place with Florida and California and knew the Isle of Pines would make good.

Above all, I pictured in my mind what the Isle of Pines would be in a few years—a thriving American community. I could write a book about the past, present and future of the Isle of Pines, but today hundreds of thousands of people know about the island where

eight years ago only a handful even knew its location.

Three lines of steamers are now carrying fruit from the Isle of Pines; one connecting with Boston steamers, another with New York steamers and the third going direct to New Orleans. Hotels, schools, churches, banks, newspapers and stores; and homes and groves by the hundreds tell the story of the wonderful progress that has been made on the island. Ten millions of dollars have been invested in the Isle of Pines; and as a tourist resort the place has become famous. In brief, it is now one of the most important citrus fruit sections in the world.

Co-operation has made the Isle of Pines just what it is today. Co-operation of brains and capital built the biggest commercial enterprises in the world. And who furnished the capital to build these enterprises? The Co-operators—the people who placed their hard-earned dollars and faith with the dollars and brains of big business builders; and those who had foresight and grit enough to get in at the beginning reaped rich rewards.

YOUR OPPORTUNITY TO MAKE MONEY

Now, here is your opportunity to make money, to make more money with your monthly savings than you could make at fixed rates of interest. My associates and I are putting our time and our dollars into fruit raising on the Isle of Pines. We are raising the finest pineapples and grapefruit in the world upon a Co-operative, Profit-sharing plan. We own the land, raise the fruit and sell direct. We have our own preserving plant in Boston, and we invite you and others to become associated with us in the continued success and expansion of the business.

It is the same proposition for the layman, the business man and the banker, and if you can put aside a *few dollars monthly*, in the same way that you would put the money into a savings institution and if you would like your money to earn more than ordinary rates of interest and are willing to wait for big profits, you owe it as a duty to yourself to send in the coupon below and to take time to read and study the plan as outlined in the illustrated book and circulars which we will send to you without expense or obligation on your part.

AMBRO BRAND PINEAPPLES

PINEAPPLES of the Isle of Pines "Smooth Cayenne" variety are the largest and best ever introduced into American markets. They are packed 8 to 12 to the box as compared with other brands common to the American market that are packed 18 to 36 to the box. Ambro Brand pineapples are planted in rows like strawberry plants and are propagated from slips, of which six to twelve develop yearly on each bearing plant. Five thousand pineapples can be grown on an acre of land, 200,000 plants upon 40 acres; therefore with the plan of eight 80-acre plantations in mind, half planted to pineapple plants and half to grapefruit trees, it is the intention of the

Co-operative Fruit Co. to grow 1,600,000 pineapple plants and 22,400 grapefruit trees.

Pineapples can be harvested at all seasons of the year, depending upon the time the slips are put into the ground. They bear fruit from fourteen to eighteen months after planting. Meanwhile they produce additional new slips for transplanting in new ground.

The plants require proper cultivation, including fertilization, and, though considered an air plant, they need moisture. This the rainfall of the Isle of Pines amply furnishes. The soil of our plantations is of a light, sandy, loam nature with a clay subsoil. It retains the moisture necessary for the successful growing of perfect pineapples without irrigation.

Among the best known firms who are using Ambro Brand Pineapples fresh from the plantations or in the form of preserves or syrup may be mentioned:
