HEADQUARTERS
CHUGOKU CIVIL AFFAIRS REGION
APO 182

10 July 1950

SUBJECT: Field Trip Report - Tottori, 29 and 30 June 1950

TO : Chief
Chugoku Civil Affairs Region
APO 182

1. Purpose of trip: To determine the status of fisheries programs through conferences with prefectural officials and spot-checks of fishermen's cooperatives.

2. Background: O.D. #13, Civil Affairs Section, GHQ, SCAP, subject: "Fisheries", dated 12 April 1950.

3. Discussions: Interviewed Mr. Miyake, newly appointed Fisheries Section Chief, Mr. Atarashi, l/c of fishermen's cooperatives and Mr. Tanaka, l/c of fisheries rights at Tottori Prefectural Office and obtained the following information:

a. Fishermen's Coops. - Fifty-one (51) new coops. have been formed in Tottori Prefecture, replacing 37 former fishing assns. The number of new coops. includes 2 processing coops. and 2 production coops. Only 15 of the old assns. have completed the transfer of their assets to coops. Target date for completion of the transfer phase in Tottori-ken is 31 Aug 50. Clerks from the Prefectural Office are assisting old assns. and coops. with their problems and paper work so as to expedite the transfer. In many instances coops. are not very interested in transfering the assets because they are so small even though they are currently paying rent for the use of these facilities. Thirty-five (35) of the old assns. possess fisheries rights which cannot be transferred until 1952 in accordance with the new Fisheries Reform Law. Committees to administer these rights until the time of transfer have been elected in each respective area.

On 29 Sep 49 the prefectural federation was formed and on 25 Feb 50 a prefectural credit federation wasorganized. During the early stages of the organization phase (Oct 49) a rival federation was formed in Yonago and had as its area of jurisdiction, the entire western end of the prefecture. This included the largest fishing ports. However, because of financial difficulties and "loss of face", they dissolved their organization on 19 Jan 50 and all the coops. then joined the Ken federation.

File Index
No. 11.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

At the end of the 1949 fiscal year (31 Mar 50), approximately 50% of the new coops. were financially in the red to varying degrees. During July, the prefecture Fisheries Section in cooperation with the Ken federation plan to conduct short courses for coop. personnel on good management practices, etc.

b. Fisheries Rights Reform - The Prefectural Fisheries Section has held 3 meetings with Coop. officials explaining sea-area boundaries and other provisions of the new law. Meetings with fishermen were then held to pass this information on. Three (3) sea-areas have been established in Tottori-ken, they are eastern, central and western. In addition there will be a special committee elected to handle disputes over rights in the 3 rivers and 2 lakes in the prefecture. An estimated 12,000 voters will be eligible to vote for these 4 committees on 15 Aug. 1950. No changes have been made by the Governor regarding voter eligibility in accordance with powers given to him in Article 86 of the new law.

Following is a list showing the types and numbers of rights in Tottori-ken and below that is given the type of ownership of these rights:

Type	Number
Exclusive	47
Fixed-Net	73
Demarcated	3
Special	15
Total	138

(No entry rights)

Type of Ownership	Number
Individuals	62
Fishing Assns.	73
Cities, Towns & Villages	3
Total	138

c. Fishing Boat Insurance - In Tottori-ken, the coops. handle all insurance business at the local echelon. The usual 90% of premiums are sent to the Fisheries Agency in Tokyo and the remaining 10% is kept by the Ken for overhead expenses, etc. The prefecture is offering a discount to coops. on the premiums if all members of a coop. purchase insurance together. In these cases they are allowing fishermen to pay premiums in instalments rather than in yearly lump sums. Of the number of boats listed below, only 418 are insured; 33 of which are over 30 tons:

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Powered - 1,128 (Average size - 5 tons)
Non-Powered - 4,290 (Average size - 2-3 tons)

Six boats applied for damages during the 1949 fiscal year and benefits paid totalled ¥265,546.

d. Effect of Occupation Force Gunnery Ranges - Tottori-ken was directed on 10 June 1950 by the Fisheries Agency to make a survey of damage caused by the Miho Air Base gunnery range located in Mihowan during the months of May and June 1949. This was hurriedly completed and submitted on 22 June 1950. They reported a loss in production for that period of ¥1,100,000. They have been notified since then by the Fisheries Agency to make a more complete detailed survey which is under way at this time. The period of May and June was selected because it is their heaviest mackerel and small sardine season. A complaint was made by the Yonago City Fish Coop. in Apr 1949 to the Air Force at Miho. Investigations by the AF followed but no reply has been given the fishermen as yet.

e. Prefecture Credit Federation -

Date Organized - 25 Feb 50
Membership - 26 (Coops.)
Capital - ¥1,000,000 (All paid)
Each share - ¥5,000 (shares are limited to 100 per member coop.)
Members' Deposits ¥17,305 (As of 31 May 50)
Interest - 0.7 sen per ¥100 per day
Fixed term Deposits - 5% per annum
Long term Deposits - 6% per annum
Loans to Members - ¥12,800,000 (As of 31 May 50)
Interest - 2.8 sen per ¥100 per day

The federation has started a savings program which calls for ¥500,000 deposits by 10 July 1950. This looks rather doubtful according to current deposits. Not many activities have been started as the federation has been in operation for such a short time and there is a critical shortage of qualified clerical employees.

The current average income of fishermen in Tottori is ¥3,000 per month. Fish prices have decreased about 30% when compared with former official prices and the price of manilla and nets has increased 150% and 180% respectively above the former controlled prices. Approximately 40% of the fuel oil used is being purchased on the black-market at ¥17,000 per kilo. Allocations of oil under the new system are reportedly 30% less than the old link system. Principle type of fisheries in this area is eastern trawlers which require much oil.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

f. Uradome-cho Fish Coop.

Date of organization - 24 Apr 1949
Membership - 170, only 10 members are full-time fishermen. The others are part-time farmers. Membership of the old assn. in 1940 was 102. 15 associate members are not fishermen.

Capital Stock - ¥235,000 (All paid)
Each share - ¥500 (Shares are limited to 30 per member)
Members Deposits - ¥850,000 (As of 30 June 1950)
Members Deposits - ¥600,000 (As of 30 June 1949)
Interest - 4.5% per annum
Loans to Members - ¥1,000,000 (As of 30 June 1950)
Interest - 4.5% per annum. Only ¥200,000 was given out as loans, the remaining ¥800,000 is for unpaid supplies which no interest is charged.

Assets with a total value of ¥3,699,885.46 have been transferred to the coop.

1 Office Building
1 Warehouse
1 Shipyard (capacity - 2 ton boat)
1 Landing Point
1 "Tan" of land
(no liabilities were transferred)

The coop., has borrowed a total of ¥600,000 from the following sources:

Local Banks - ¥350,000 @ 3 sen per ¥100 per day
Individuals - ¥100,000 @ 3.5 sen per ¥100 per day
MAF Bank - ¥150,000 @ 2.7 sen per ¥100 per day

The following figures on fish catch were presented:

1 Jan - 31 Dec 1949 - 95,000 kan valued at ¥5,620,000
1 Jan - 31 May 1950 - 50,900 kan " " ¥1,920,000
1 Jan - 31 May 1949 - 75,500 kan " " ¥4,000,000

Approximately 7% of the catch is unreported. An 8% commission is charged on all fish handled and a 2% commission is charged on fishing gear. Of 37 powered and 135 non-powered boats operated by members of this coop., 10 powered boats are covered by insurance. The largest boat insured is 19 tons.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Types of fisheries engaged in are:

Sardine Gill Net
Eastern Trawlers
Mackerel Gill Net
Flying Fish Gill Net
Beach Seine
Single Line
Fixed Net

Meetings were held with fishermen in Mar and Jun 1950 to explain details of the new law. Fishermen seem to be very interested in the reform program. Approximately 150 members of this coop. are eligible to vote in the coming adjustment committee elections. Pamphlets, posters, etc. forwarded by the prefectural government are being distributed to fishermen.

g. Hagi-son Fish Coop.

Date of organization - 31 Aug 1949
Membership - 104
(No changes in membership since organization)
Capital Stock - ¥31,200 (All paid)
Each share - ¥300 (Limit of 50 shares per member)

No saving or loan programs are carried on by this coop.

Assets of the old association have been transferred to the coop. These were all minor items which totalled ¥110,070.76. The coop. also took over liabilities of the old association amounting to ¥40,601.

The coop. has borrowed ¥50,000 from local banks for the purchase of fishing gear. At the end of the fiscal year (31 Mar 50), a financial loss of ¥79,911.61 was registered. No reasons for such a loss could be given.

A commission of 8% is charged on all fish handled by the coop. and no commission is charged on fishing gear.

Production from 1 Jan to 31 Dec 1949 totalled 26,867 kan compared with 16,000 kan in 1942, approximately 3% of the total catch is unreported.

Income of members of this coop. is obtained from both fishing and farming. Fishing brings about 40% of the total income and farming about 60%. The average income from fishing is ¥20,000 per year per member.

There are 6 powered (average 4½ tons) and 43 non-powered (average 0.25 tons) boats operated by members, none of which are insured.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Principle type of fishing is:

Sardine Gill Net
Single Line
Beach Seine
Surrounding Net

This Coop. operates 2 exclusive rights which are not individually owned. Fishermen appear to be interested in the rights reform program. Pamphlets, etc. received from the Kencho are discussed at general meetings. All supplies are reportedly sufficient.

4. Conclusions:

a. The financial condition of cooperatives and fishermen in Tottori seem to be much worse than that in other areas recently visited. A stronger Credit Federation may help the situation.

b. All major programs are progressing as satisfactorily as other areas in the region.

c. The AF Gunnery range in Miho-wan is causing considerable loss in fish production in that area.

5. Recommendations:

That further investigation be made into the effect of the AF gunnery range in Miho-wan.
