No. 203

U. S. AND PULP WOOD SUPPLY

MUST SOON SECURE RAW MATERIAL FROM CANADA

Manager of Maine Company Wants Treaty to Do Away With Tariff.

Appleton, Wis., Sept. 17.—"Because raw material is much cheaper in Canada and labor is considerably cheaper, we should have to go to the limit if the tariff on wood pulp were to be cut off unless we could obtain higher prices for our sulphite than we are receiving at the present time," said N. M. Jones, of Bangor, Maine, manager of the Katahdin Pulp & Paper Company at Lincoln, Me., before the congressional investigation committee here yesterday.

Continuing, Mr. Jones said: "Unless we can get our material as cheaply as the Canadian mills do we would have to quit business, for we could not compete with them."

The chairman of the investigation committee asked Mr. Jones what if in his opinion the pulp wood supply is amply sufficient for an indefinite period. Mr. Jones replied by saying that in Maine the supply is perhaps practically inexhaustible, but in the Middle West, especially in Wisconsin, Michigan and Minnesota, where most of the paper mills are located, manufacturers will soon be compelled to secure their pulp wood from Canada.

"The only thing I see to do," said Mr. Jones, "is to make a treaty with Canada, not as a tariff, not as a Republican party to-day and a Democratic party to-morrow, but a treaty whereby the tariff on wood pulp would be cut off and our mills would be allowed to purchase pulp wood in Canada at the same figures that Canadian mills do, but I would also increase the duty on European pulp 100 per cent. Europe is our greatest competitor, not Canada. The market of the United States and Canada is large enough to use all the pulp wood, sulphite and paper manufactured in this country and Canada, if a treaty were made and the duty on European goods increased."

"GOD SAVE THE POPE."

London, Sept. 17.—The departure this morning for Rome of Cardinal Vincent Vannutelli, who was the papal legate at the recent Eucharistic Congress in the city, was made the occasion for a demonstration by the Catholics of London, who gathered in thousands at the railway station, cheered the cardinal and sang "God Save the Pope."

BROTHER SHOTS BROTHER.

Mistaken For Moose, New Brunswick Hunter Lies in Serious Condition.

Fredericton, N. B., Sept. 17.—While out hunting, Benjamin Smith, of Beaver Dam, about forty miles from here, was shot by his brother by mistake for a moose, and is now in a critical condition. The accident happened in the woods about six miles from the town, and the wounded man was obliged to remain alone on the ground for hours while his brother went for medical aid. It was 6 o'clock in the morning when the surgeon who was summoned, reached the side of the sufferer, having had to make the way over rough roads by lantern light. At daybreak Smith was taken to the settlement on a stretcher. He is wounded by a 44-calibre Winchester. Both men are hunters of experience, but the brother who did the shooting was deceived by the dim light of the evening, when the pair were working their way around a large pond.

WILL DEPORT BULGARIANS.

Toronto, Sept. 17.—The civic authorities yesterday received word that 300 Bulgarians, who have been working on the government railway in Northern Ontario, have gone out on strike, demanding an increase from \$1.60 to \$1.75 a day. They are reported to be returning to Toronto. They belong to a party which was supported by the city most of last winter. If they do return and should become a public charge, it is proposed to take steps to deport them to their own country.

MAY LOSE CONCESSIONS.

Chicago, Sept. 17.—William Robinson, manager of the interests of A. Booth & Co., conferred hurriedly with Receiver Chalmers here yesterday and then departed for New York to seek financial assistance for the Canadian, newspaper. Mr. Robinson stated that the firm had obtained concessions in Manitoba, under agreement with the Canadian government, to make a certain amount of improvements. Unless the improvements are made soon, Mr. Robinson said, the concessions would be lost.

REGIMENT QUARANTINED.

Aldershot, N. S., Sept. 17.—Private E. Morin, of the 65th Regiment of Halifax, has been stricken with smallpox at the military camp here, and the regiment has been quarantined. Tattoo has been cancelled.

COMMEMORATIVE TOWER.

Halifax, N. S., Sept. 17.—The Canadian Club has undertaken to raise a fund to erect a tower commemorative of the 50th anniversary of the establishment of parliamentary institutions in Nova Scotia. The monument is to be placed on the site of Sir Sandford Fleming's park.

INTERNATIONAL PEACE.

Germany Mainlining of Proposal to Hold Conference at Hague in 1909.

Rome, Sept. 17.—The invitation extended by Holland at the request of Germany to all the governments that participated in the last peace conference, to take part in a conference at the Hague in 1909 for the purpose of preparing a draft of a universal treaty, has been the subject of much discussion here. The primary subject, however, that will be taken under consideration by the proposed conference, will be the conclusion of a treaty looking to the establishment of an international law regulating exchange. Italy proposed that this conference should be held in November, 1908, but several of the countries were not ready to enter into a discussion of so important a question and it is believed that some date well along in 1909 will be fixed.

STRIVING FOR PEACE OF WORLD

PARLIAMENT OF NATIONS IN SESSION AT BERLIN

Prince Von Buelow Says Germany is at One With Aim of Congress.

Berlin, Sept. 17.—The inter-parliamentary congress, composed of representatives of nineteen of the world's parliaments, met to-day in the chamber of the Reichstag to discuss anew the peace of the world, and how to maintain it through arbitration. Frederick Passy, who, with Randolph Cromer, of England, founded the Union twenty years ago, sat on the platform next to the German Chancellor Prince Von Buelow.

In addition to the Chancellor nearly all the members of the Prussian and Imperial cabinets were in the mingling seats. Shortly after the meeting had been called to order Prince Heinrich Von Sosenach-Caralath was unanimously elected president. Prince Von Buelow made the welcoming speech in behalf of the government. He spoke in French and said the delegates would find sympathetic appreciation of their aims and achievements in Germany and that the government is at one with them in the end for which they were striving.

SMOKE OF FOREST FIRES HAMPER TRAFFIC

Navigation on Soo Canal Closed — Pail Over Lake Superior.

Winnipeg, Sept. 17.—Reports received here show that traffic through the Soo canal is completely closed owing to the dense smoke and fogs. Port Arthur advises say navigation of the lake is almost entirely fled up, owing to the smoke of bush fires, rendering it impossible for boat officers to see more than a hundred yards ahead. The forest fires are dying out, but owing to the atmospheric pressure the smoke is thicker than hitherto. The delay in navigation is serious, in view of the efforts being made to expeditiously market the moving crop.

INCENDIARISM IN NEW YORK.

Little Girl Saves Building by Warning Her Father.

New York, Sept. 17.—The lives of more than 100 persons were twice imperiled when an incendiary attempted to burn a big five-story flat house in West One Hundred and Twentieth street. The first blaze was extinguished easily, but had it not been for the presence of mind of Margaret Raubert, 3 years old, the second fire might have caused a stampede among the sleeping sleepers in the house.

Through a plate glass panel in the apartment of her parents on the second floor, she saw a man start a blaze in the vacant room across the hall. Instead of screaming, she ran on tip toe to her father's bedside and told him the house was afire.

Evidently the man heard Raubert leap from his bed for he took to the stairs and escaped before the house was aroused.

DEAD AT HIS POST.

Santa Rosa, Cal., Sept. 17.—As he was doing his fruit drying establishment, W. H. Ragan directed Frank Duguet, the watchman, to extinguish the fire. Receiving no reply, he approached the watchman and found him dead, standing against the wall with a bag of apples in his hand. Duguet had been stricken with heart disease.

MEETS DOOM TO-MORROW.

(Special to the Times.) Kenora, Ont., Sept. 17.—William Paul, who murdered Henry Shelling at Pine Wood on Nov. 20, 1906, is to be hanged to-morrow morning.

FIVE HUNDRED MINERS LAID OFF.

Glace Bay, N. S., Sept. 17.—The coal company here is daily laying off men. About 500 have been discharged, since Saturday, and more than 300 will be laid off next week. Considerable coal remains on the banks, and the winter will be a dull one.

RIOTS DUE TO RAGING PLAGUE

AWFUL CONDITIONS PREVAIL IN AZORES

Lack of Money From Lisbon Prevents Authorities Fighting Outbreak.

Lisbon, Sept. 17.—Word has been received here that serious disorders have broken out in the Azores, where the plague is raging. The population of the towns of Horta, on the island of Fayal, and Angra, on the island of Feveira, maddened by the failure of the authorities to take preventive measures, have indulged in violent rioting, in which several people were killed.

New cases of the plague are occurring daily, and the epidemic threatens to spread throughout the entire group. The sick are lying huddled in the most miserable condition, lacking food, medicines and other necessities. The authorities are powerless as the financial crisis has not yet been able to permit the relief of the plague-stricken.

Commerce is completely paralyzed, the government having forbidden all communication with the infected islands.

The Portuguese gunboat Patria has

arrived at Fayal with a detachment of troops which will be stationed there to prevent further outbreaks.

KICKED TO DEATH.

(Special to the Times.) St. Catharines, Ont., Sept. 17.—Chas. Brown, a well known farmer of Niagara township, was found dead beside his horse in his stable. He is supposed to have been kicked to death.

TRIBESMEN LOSE THOUSAND MEN

Paris, Sept. 17.—Dispatches to the government from the governor-general of the French Congo state that a force of 600 French troops under Capt. Tardieu have routed the Coumbi tribe, whose territory is the centre of the trade in slaves and contraband arms. The tribesmen's losses numbered about a thousand.

CHOLERA RAGES IN RUSSIAN CAPITAL

SEVENTY DEATHS ARE REPORTED YESTERDAY

Contagion Spreads Among Better Classes—Municipal Authorities Powerless.

St. Petersburg, Sept. 17.—The official bulletins issued yesterday on the cholera situation give the number of cases in the city as 210 with 70 deaths.

M. Worozoff, manager of the Schulenburg Steamship Company, was stricken with the disease to-day indicating that the infection is beginning to spread from among the poorer classes to the better classes.

The Novoe Vremya says that General Dracheffski, prefect of St. Petersburg, is being entrusted with the complete powers to take charge of the situation in view of the ineffectiveness of municipal authorities.

EXCITEMENT KILLS HIM.

Lexington, Ky., Sept. 17.—Rev. J. W. Hawkins, retiring moderator of the Baptist General Association of Kentucky, one of the most noted negroes in the state, died yesterday of heart disease, as the result of excitement growing out of an attempt made by a state guardsmen to arrest Hawkins' son, accused of selling liquor.

YELLOW FEVER IN HAVANA.

U. S. Places Quarantine Against Vessels From all Cuban Ports.

New Orleans, La., Sept. 17.—Because of the announcement of two cases of yellow fever in Havana, the United States marine hospital service in New Orleans, acting on orders from Washington, has tonight put into effect a quarantine against all Cuban ports. All persons leaving Havana for the United States will have to remain at the detention camp in Trisconia, near Havana, six days if they are to go to Keywest or Tampa, and five days if they are bound for New Orleans or other ports.

U. S. SHIPBUILDING DIVIDEND.

Cleveland, Sept. 17.—The directors of the American Shipbuilding company yesterday declared a quarterly dividend of 1 1/2 per cent. on the preferred stock, payable October 15.

GRAND JURY WANTS REUF'S ATTORNEY

Disappears When Charged With Attempted Bribery in Notorious Case.

San Francisco, Sept. 17.—Foreman McFarland of the grand jury yesterday instructed the district attorney's office to find Attorney Frank Murphy, who is wanted in connection with the further investigation of the alleged attempt to bribe Joseph Kelly, one of the venemans in the Reuf case, to render a verdict in favor of the defendant.

It is now stated that Murphy has been absent from the prosecution since the Reuf case ever since Kelly made his declaration, and Detective William Burns, of the graft prosecution forces, is said to have been seeking the attorney for the past two days.

Murphy was not at his home when sought, and Attorney Newburg, with whom Murphy is associated in the Reuf defense, declares that he does not know where his associate is.

At the time of the expose Murphy interrupted court proceedings to state that he had been indirectly approached with an offer from Kelly that the latter would try to get on the Reuf jury and would work for a verdict in favor of Reuf, if Murphy would pay him \$1,000. District Attorney Henry in reply said that he had in his pocket a statement from Kelly in which the latter declared that he had been approached by A. S. Blake with an offer of money for his vote in favor of Reuf. Henry further said that Blake had been traced to the office of Henry Ach, chief counsel for Reuf, and he further stated that Kelly had been acting under the directions of Detective Burns after the former had reported the attempted bribery, and had endeavored to secure actual payment of the bribe.

At a former session of the grand jury to investigate the matter Blake was indicted and arrested at South San Francisco.

ANOTHER WRIGHT TRIAL

Le Mans, Sept. 17.—Wilbur Wright was out again in his aeroplane last evening and for a short time carried a passenger, Ernest Senz, a well-known aeronaut, occupying the seat in the machine.

On the first attempt the aeroplane failed to leave the ground, but on the second attempt it soared gracefully and described a great circle and figure eight. It then descended easily, having been in the air for 3 minutes 23 1/2 seconds. The machine covered a distance of about a mile and a half at an average height of 39 feet.

DEMOCRATIC UNITY IN NEW YORK STATE

Judge Parker Pledges Himself to Support Bryan—Nomination for Governor.

Rochester, N. Y., Sept. 17.—As the culminating feature of the Democratic state convention, which closed yesterday, there was a notable demonstration here last night in honor of the party's standard-bearer, W. J. Bryan, who addressed a mass meeting in convention hall and overflow gatherings outside.

Presiding over the assemblage was Judge Alton B. Parker, the presidential candidate of four years ago, who took advantage of the occasion to make a personal pledge of his earnest fidelity to the national ticket.

As Mr. Bryan and Judge Parker stood side by side before the great assemblage, which choked the hall to its capacity, the cheering swelled up to a deafening roar. Mr. Bryan acknowledged Judge Parker's pledge of his own support and the support of the "united Democrats of the Empire state," in words as gracious as those in which the pledge had been extended.

"It is worth coming a long way," said Mr. Bryan, "to participate in the closing hours of a great convention in this country's greatest state. I appreciate the pledge he has given, and especially do I appreciate his own earnest part in the fulfillment of that pledge."

"I am grateful to the great convention which closed to-day for placing at the head of its affairs one so worthy to carry the party's standard. In this state, Mr. Chandler represents a class that I believe will be a grand class in this country."

Lieut.-Gov. Chandler's nomination was unanimous and would have been made at an earlier stage if the Tammany Hall leader had been made sure of his strength in the up-state districts. When he was given that assurance he readily gave in his support to the nomination. All factions in the party express much pleasure at the restoration of harmony. The Democrats have now high hopes that they will be able to give effective opposition to the re-election of Governor Hughes and carry the state for Mr. Bryan.

Democratic Nominees. Rochester, N. Y., Sept. 17.—F. H. McCarran made a savage attack on C. F. Murphy before the Democratic state convention this afternoon after the nomination by acclamation of Chandler, Dix and others on the ticket down to the state engineer. The flaming-out of the feud nearly disrupted the convention and many delegates rose from their seats and remained standing until McCarran's test on the roll call in advocating the nomination of C. L. Smith, of Queens.

The speech of the permanent chairman, Judge Parker, dealt largely with national questions and the candidates nominated by the Democratic National convention at Denver were denounced. State issues, including a vigorous denunciation of Governor Hughes' administration, took up the greater part of the document.

The ticket is as follows: Governor, Lewis S. Chandler, of Dutchess; Lieut.-Governor, John A. Dix, of Washington; secretary of state, John S. Walter, of Monroe; controller, Martin Glynn, of Albany; attorney-general, George M. Palmer, of Schoharie; state treasurer, Julius Hauner, of Suffolk; state engineer and surveyor, Philip T. Parkey, of Kings; judge of the court of appeals, Albert Haigt.

DEATH FOLLOWS VACCINATION

Edmonton, Alta., Sept. 17.—That Viviane Foley came to her death from acute dilatation of the heart, and while there is not sufficient evidence to prove that vaccination was a primary cause, yet we recommend that in future the city employ only regular qualified physicians to be vaccinators.

This was the decision arrived at to-day after a four hours' session held to inquire into the death of Viviane Foley, daughter of W. E. Foley, superintendent of the poultry department of the provincial government, whose demise took place on Saturday, September 6th, which it was claimed by her father was the result of vaccination.

The inquest was conducted by Coroner Dr. Smith. The most important evidence given was that of Dr. Revel, provincial bacteriologist, who made a microscopic examination of portions of the body of the deceased. According to his evidence, death was caused by the child having taken too much exercise after vaccination, which caused dilatation of the heart and subsequently death.

THE VICTORIOUS YORKSHIREMEN

A TALE OF MANY CRICKET CHAMPIONSHIPS.

(From the London Mail).

Will the Yorkshiremen succeed in getting through the season without a loss? That is the cricket question of the moment for they are certain to take the county championship for the tenth time in their history.

Yorkshiremen will tell you that it ought to be the thirteenth time, for they claim that the White Rose county should have been placed first in the year 1872 and 1882. Instead of accepting only the second position on such occasions.

The methods of deciding the championship in those days were, however, somewhat primitive. Statisticians had not then grasped the value of decimal points.

The smallest number of lost matches decided the order of merit, and no notice was taken of wins, the result being that a side with one victory and fifteen drawn games to its credit took precedence over a side gaining ten victories with five drawn games and one loss.

The county championship competition, however, since 1872, has been officially regulated and since 1875, during those thirty-two years Yorkshire has won the championship seven times, being second only to Surrey, who have finished up at the head of affairs on eight occasions, while in 1889 they divided the honors.

How Other Counties Stand.

Notts also have seven championships to their credit, with three divided honors; Lancashire have won the championship three times and three times shared the honors; Middlesex and Gloucestershire each hold two; and Kent one.

By winning the championship again this year, therefore, Yorkshire will tie with Surrey.

Good all-round cricket has been the secret of Yorkshire's success. When Lord Hawke took over the captaincy of the Yorkshire eleven in 1882 things were in a parlous state. Thirteen years before the present time the county had elapsed since the championship had been won, and eleven brilliant individual players, of which the team was composed, were all pulling different ways.

A strong man was needed, and he was found in the young Cambridge undergraduate, with the quiet, incisive manner, who was not afraid of bringing All-England players to book for breaches of discipline. He had a hard fight, but wisely made an example of the greatest offenders, men with most famous names, and from that day to this Yorkshire has never looked back.

All the same, it took ten years before the county championship was won, but from 1892 until the present time Yorkshire has always been well in the fighting line. It is doubtful whether Yorkshire ever possessed a finer team than in the three seasons of 1900, 1901 and 1902.

Without Losing a Match.

In 1900 Yorkshire carried off the championship without losing a match, winning sixteen of the twenty-eight games played, and drawing the other twelve. In 1901 the championship was again won with the loss of only two matches, and in 1902, when their third successive win was obtained, their only reverse was at the hands of Somerset.

Those were the days of Hirst, Rhodes and Haigh. One year it was Rhodes and Hirst who dismissed county after county for small totals, the next it was Hirst and Haigh. About this time and bad seasons, but Rhodes, who is imperturbable, was always consistent.

From 1898, when he took the place of Peel as the slow bowler of the Yorkshire team, until 1905, when he took to making centuries and his bowling never suffered in consequence, Rhodes never took fewer than 100 wickets in county championship matches.

His great season was in 1900, when he captured 206 wickets at an average cost of 32.25. In that year it was said of him that he never had a bad day and scarcely sent down a really bad ball.

With his short run and beautifully easy action, Rhodes is the most powerful bowler. His strategy is almost Machiavellian, for he conceals his thoughts behind a mask of indifference, and even the batsman who scores three fours in one over off Rhodes' bowling is doubtful whether the fact of his being so deeply let alone scheme to bring about his downfall.

In marked contrast to Wilfrid Rhodes is George Hirst, one of the finest all-round cricketers that ever lived. A typical Yorkshireman, ruddy of countenance and rotund of figure, he is the embodiment of cheerfulness. He has every natural advantage for a cricketer, for he is stockily of a sturdy build, with no particular length

Do You Think For Yourself?

Or, Do You Open Your Mouth Like a Young Bird and Gulp Down Whatever Food or Medicine May be Offered You?

If you are an intelligent, thinking woman, in need of relief from weakness, nervousness, pain and suffering; then it means much to you that there is one tried and true, honest medicine of known composition, sold by druggists for the cure of woman's ills.

The makers of Dr. Pierce's Favorite Prescription, for the cure of weak, nervous, run-down, over-worked, debilitated, pain-racked women, knowing this medicine to be made up of ingredients, every one of which has the strongest possible indorsement of the leading and standard authorities of the several schools of medical practice, are not afraid to print, as they do, the list of ingredients, of which it is composed, in plain English, on every bottle-wrapper.

The formula of Dr. Pierce's Favorite Prescription will bear the most critical examination of medical experts, for it contains no alcohol, no injurious or delicate women even in small quantities when long continued. Neither does it contain any narcotics, or other harmful, or habit-forming drugs, and no agent enters into it that is not highly recommended by the most advanced and leading medical authorities and of their several schools of practice. These authorities recommend the ingredients of Dr. Pierce's Favorite Prescription for the cure of exactly the same ailments for which this world-renowned medicine is advised by its manufacturers.

No other medicine for woman's ills has any such professional endorsement as Dr. Pierce's Favorite Prescription has received, in the unqualified recommendation of each of the several leading authorities of medical men, and an endorsement of such a nature that it is far more weight than any number of non-professional, or lay testimonials.

A booklet of ingredients, with numerous authoritative professional endorsements by the leading medical authorities of this country, will be mailed free to any one sending name and address with request for same. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native American medicinal roots and is perfectly harmless in its effects in any condition of the female system.

As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system, and to the organs disordered by weakness, over-worked, "run-down," "depleted," debilitated, nervous, and feeble women generally. Dr. Pierce's Favorite Prescription is the greatest earthly boon, being recommended as an appetizing cordial and restorative tonic.

As a soothing and strengthening nerve "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability,

nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, St. Vitus' dance, and other distressing nervous symptoms commonly attendant upon functional and organic disease of the female system. It induces refreshing sleep and relieves mental anxiety and despondency.

A woman suffering from any of the above symptoms can afford to accept any secret nostrum or medicine of unknown composition, as a substitute for a medicine like Dr. Pierce's Favorite Prescription, which is of known composition and has a record of over forty years and sells more largely to-day than ever before. Its makers hold no secrets from their patients, believing open publicity to be the very best guaranty of merit.

Dr. Pierce invites all suffering women to consult him by letter free of charge. All letters of consultation are held in strictest confidence and an answer is returned in plain sealed envelopes. Address: Dr. R. V. Pierce, Medical Institute and Surgical Dispensary, Buffalo, N. Y.

Dr. Pierce's Great Kidney and Bladder Medicine, Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. They are the original Little Liver Pills having been put out by old Dr. Pierce over 40 years. Much imitated, but never equaled. One to three a dose. Tiny sugar-coated granules; easy to take as candy.

Dr. Pierce's Golden Medical Discovery is a most potent alternative, or blood-purifier, and tonic, or invigorator, and acts especially favorably in a curative way upon all the mucous lining surfaces, as of the nasal passages, throat, bronchial tubes, stomach, bowels and bladder, causing a large percent of catarrhal cases, whether chronic or acute, to disappear. of arm, just the sort of man who would run into flesh if he did not take regular exercise.

He is indomitable, some people pegged him with his stubborn or even obstinate, but he is so thoroughly in earnest and so good tempered with it that his popularity remains. A born fighter, he never knows when he is beaten, and he has the useful knack of making runs and taking wickets when they are most required.

Teefee and Cricket.

He has gained nearly every honor that it is possible for a cricketer to obtain, and is the holder of innumerable records both in batting and bowling. If George Hirst has one weakness, it is Teefee, which he manufactures himself.

Much has been written in praise of Lord Hawke's able captaincy of the Yorkshire eleven, and he certainly deserves every word of credit that has been given to him. A born leader of men, Lord Hawke has the gift of being able to get the best out of his players. He has never been known to storm or rave in the cricket field even when a dropped catch at a critical period of a game may have meant all the difference between victory and defeat. With young players on their trial for their county Lord Hawke always adopts an encouraging tone, and it has been said with some truth that if Rhodes had made his debut under any other captain he would have met with nothing like the success he did, at any rate for some seasons.

Then there is the Hon. G. S. Jackson, "Jacker," as he is known to his intimates, who has practically retired nowadays from first-class cricket, but was some few years ago one of the mainstays of the team.

It required a great occasion to bring out Mr. Jackson's best qualities. Test matches, when other men were nervous and excited, saw him cool and collected.

He has a trick when puzzled or worried of passing his hand lightly across his moustache, but it requires an emergency even to make him so far depart from his usual imperturbability, and the action generally spells trouble for the other side.

Schofield Haigh, John Tunnicliffe and David Hunter, are a trio of sturdy Yorkshiremen who have done yeoman service for their county for years, and must certainly be reckoned as among the mainstays of the team.

Haigh as a Bowler.

Haigh, as the third bowler of the side shared the honors of Yorkshire's success with Rhodes and Hirst. In some ways he is better than either of them, for his particular wicket he is absolutely unplayable, but he lacks their consistency on all pitches.

Tunnicliffe, John Tunnicliffe, is now of the team. He has secured a good appointment as cricket coach at one of the public schools. As a slip fielder he was quite out of the best of his day.

Hunter, the veteran wicket-keeper, although nearly fifty years of age (he is two years younger than his captain), is still as lively at the wickets as ever, although he has not been able to keep-wicket regularly this season.

The Lucky Man of the Team.

David Denton, the lucky man of the Yorkshire team, who is nearly always missed before he scores, but yet is one of the best bats in the eleven and one of the smartest outfielders in the county, is another of the pillars of Yorkshire cricket whose doing for his county might well fill a volume.

There are plenty of recruits who may be relied upon to carry on the best traditions of Yorkshire cricket when some of the veterans drop out, for Yorkshire never seems to lack new talent to take the place of the old.

Synopsis of Canadian Northwest Homestead Regulations.

Any even numbered section of Dominion Lands in Manitoba or the Northwest Provinces, excepting 5 and 26, not reserved, may be homesteaded by any person the sole head of a family, or male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for such an entry must be made in person by the applicant at the office of the local Agent or Sub-Agent. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

An application for entry or inspection must personally at any Sub-Agent's office may be wired at the local agent by the Sub-Agent, at the expense of the applicant, and if the land applied for is vacant on receipt of the telegram such application is to have priority and the land will be held until the necessary papers to complete the transaction are received by mail. In case of "personation" the entry will be summarily cancelled and the applicant will forfeit all priority of claim.

An application for inspection must be made in person. The applicant must be eligible for homestead entry, and only one application for inspection will be received from an individual until that application has been disposed of.

A homesteader whose entry is in good standing, and not liable to cancellation, may, subject to approval of Department, relinquish the same in favor of another person, or his brother or sister, if the latter, but to no one else, on filing declaration of abandonment.

When an entry is summarily cancelled, or voluntarily abandoned, subsequent to institution of cancellation proceedings, the application for inspection will be entitled to prior right of entry.

Applicants for inspection must state in what particular the homesteader is in default, and if subsequently the statement is found to be incorrect in material particulars, the applicant will lose any priority of claim.

Inspection of the land in question must be made in person, or by a representative, and the conditions under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of a homesteader resides upon a farm in the vicinity of the land entered for by the homesteader, the requirement as to residence may be satisfied by such person residing with the homesteader.

(3) If the settler has his permanent residence upon farming land owned by himself, the homestead regulations may be satisfied by residence upon such land.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTHWEST WEST MINING REGULATIONS.

COAL—Coal mining rights may be leased for a period of twenty-one years at an annual rental of \$1 per acre. Not more than 2,500 acres shall be leased to an individual or company. A royalty collected at the rate of five cents per ton shall be paid to the owner of the coal mine.

QUARTZ—A person eighteen years of age, or over, having discovered mineral in place, may locate a claim 1,000 x 1,000 feet.

The fee for recording a claim is \$5.

At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When \$500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at \$1 per acre.

The patent provides for the payment of a royalty of 5 per cent on the value of the mineral produced.

Placer mining claims generally are 100 feet square; entry fee \$5, renewable yearly.

An applicant may obtain two leases to dredge for gold of five miles each for a term of twenty years, subject to the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental \$10 per annum for each mile of river leased. Royalty at the rate of 25 per cent collected on the output after it exceeds \$10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

DISSOLUTION.

The announcement of dissolution of the Dominion Parliament cannot be said to have taken the country unawares. It was expected. Seldom indeed nowadays does a legislative either in Great Britain or in Canada live out its constitutionally allotted term.

BRITISH COLUMBIA'S REPRESENTATIVES.

The one feeble charge laid against the representatives of British Columbia in the late Parliament is that they neglected to support Premier McBride in his claim for better terms.

completely ignored or treated with contempt at Ottawa as long as there was a Conservative government in power. When the province was represented in Parliament exclusively by Conservatives not a single one of these members raised his voice in advocacy of our reasonable, righteous demands.

ELECTIONS AND BUSINESS.

The interval between the dissolution of the old Parliament and the election of the new, between five and six weeks, will be sufficient for all practical purposes. It will give ample time for an intelligent discussion of the political issues of the day.

limitation of the abounding prosperity which has been characteristic of business and industry in Canada for the past decade and more.

There is surely a lamentable poverty of political capital at the command of the Conservative party in this province when a puerile attempt is made to drag the visit of the Scottish agriculturists into the realm of party politics.

Miss Munroe was carried into a nearby house, where she was attended by Dr. Milne and Dr. Fraser, who had been summoned. She was then taken to the Jubilee hospital, where her injuries were attended to. On inquiry this morning it was found that the doctors report her condition as follows:

GOOD PROGRESS IN LAYING WATER PIPES Effects Are Already Felt by Some Residents of the City. The benefit of the new distribution system which the city is putting in is beginning to be apparent in the greater flow of water which is obtainable from the taps of consumers along the streets where the service has been completed and connected up. —Rev. E. G. Miller, the rector of St. Barnabas church, and family, are expected home from England and the great Pan-American congress some time during the coming week. Bishop Perrin and Rev. C. E. Cooper, who will remain in Montreal for several days in order to attend the general synod of the Church of England in Canada, will not reach home until the first week in October. —There will be a meeting of No. 2 company, Fifth Regiment, this evening at the drill hall. The principal business to be considered is the making arrangements for the school of artillery, which will be inaugurated about October 1st. All acting non-commissioned officers are requested to attend, while those privates who are anxious to take up the studies must first obtain a permit. It is for the purpose of deciding on those who will enter the school that Capt. Winsby has called his section together, and he hopes that there will be a large attendance.

George Jay, chairman of the school board, and City Superintendent E. B. Paul are in Vancouver attending a meeting of the Board of Governors of the Royal Institute of Learning. They will discuss the name to be given to the Victoria college, which has recently come under their governance, and also the standing and titles of the different teachers in that institution, some of whom doubtless will have the title of professor while others will be simply tutors of lecturers. While in the Terminal City Superintendent Paul will investigate the conditions in various lines of school work, especially in the manual training department, with the idea of keeping the local branch thoroughly up to date.

READY TO BEGIN ON WORK OF DRAINS If By-law is Passed Laying Can Be Commenced At Once. If the ratepayers ratify the surface drainage by-law on September 23rd this important work can be commenced next day, as all the plans have been prepared and are ready in detail. It is desired to have a portion of it completed in time for the coming rainy season. The prolongation of the Cook street drain at its six-foot diameter to the sea will be first undertaken. At present this drain, which is constructed of brick and concrete, empties into the ordinary sewer at May street and this reduced outlet very materially affects its usefulness. As a six-foot drain throughout its whole length it could take care of all the surface water that could possibly drain into it, but so long as it remains with its outlet so much smaller its capacity is to be measured by that of the smaller drain. —Laying of the Cook street one will be constructed on Burnside road, on Fernwood road, between Walnut street and Cedar Hill road, and on St. Charles street, between Chandler street and the sea. Other drains, which will be laid with ordinary sewer pipe of from twelve to twenty-four inches diameter, will be put in on William street to the city boundary; Queen's avenue, from the main on Blanchard street to Vancouver street; Foul Bay road, from Davie street to Fort street; Dallas road, from San Juan street to Menzies street; Moss street, from Richardson street to Snowden street; Niagara street, from San Juan street to Carr street; St. Lawrence street, from Dallas road to Simcoe street, and along Simcoe street; Fort street, from Oak Bay junction to Foul Bay road; Gorge road, from Market street to the sea; King's road, from Quadra street to Seventh street; Sixth street, from King's road to Hillside avenue, from Sixth street to Blackwood street; from Douglas street through to Tojippe avenue by way of the brickyard, and on Douglas street from Speed street to Francis street.

TENNESSEE PARDNER. Pleasing Play is Given at A. O. U. W. Theatre This Week. The success achieved by Miss Pansy Dennis this week in the part of Tennessee Parner, in the comedy drama, Tennessee Parner, being played by the Barrows Stock Company at the A. O. U. W. hall, has been the means of filling the theatre to its capacity limit every night. Miss Dennis, in the title role, has scored an undoubted success and the applause tendered her for her share in the performance has been unstinted each evening. She plays her part, that of the amorphous girl in the wild country, with a fact and semblance of reality that marks her as the actress born for the juvenile part. The part of Geewhittiker Hay, of the spring of '67, is taken by Mr. Kelsey, the comedian who has taken the brunt of the funny work of the new company, in a most full and quaint humor, and Mr. Kelsey is ably assisted by Margaret Marion as Mrs. Hay. The comedy drama runs well and is free from breaks and waits, while the intervals are occupied by a turn or two given by members of the company. Next week "The Deserter" will be presented.

THE POLLARDS. Talented Actors Will Be Here the End of the Week. The show-shoppers of this city will be glad to learn that the perennial Pollards are to return to the Victoria theatre for three more performances, starting next Friday night, opening with "Florodora." The play that turned many people away who were unable to secure seats when it was presented here before. For the jaded theatre-goer, just a wee bit tired of problem plays, hopelessly adult or musical shows with coryphees of rare old vintage, a visit to a Pollard performance is the prescription that is guaranteed to cure. Those who could not get seats before will have one more opportunity. This will probably be the last chance to see the company for many seasons to come as after their tour of Canada a trip to Old Mexico is contemplated, then to Australia via San Francisco. "The Mikado" is announced on Saturday night.

The parks board is meeting this afternoon to transact routine business. —The firm of Barnsley & Co., Government street, have received one of the newest models of the Ross rifle. The latest rifle is a .303 sporting rifle and is equipped with the same barrel as the Ross match rifle. The gun was inspected this morning and will be on view at the store henceforth. —The harvest thanksgiving services at St. Mark's church, Cloverdale, will be held on Friday evening at 8 o'clock. Rev. W. Barton, of Chemainus, will conduct the services and the sermon will be "Ye Shall Dwell in the Land." A cordial invitation is extended to all members of the congregation and visitors to the harvest home gathering in the schoolroom after the service, when refreshments will be served.

THE J. M. WHITNEY CO. JEWELLERS.

CLOSE OF THE BROWNELL CASE

COUNSEL WITHDREW FROM COURT ROOM

W. J. Taylor, K. C., and J. A. Aikman Objected to Ruling.

There was quite a sensational development in the case of Brownell vs Brownell which was continued this morning before Mr. Justice Martin, counsel for the plaintiff withdrawing from the case because his questions were disallowed.

At the opening of the court the examination of the only witness for the defence, Brownell, was concluded by Thornton Fell, and then W. J. Taylor, K. C., proceeded to cross examine him.

"Do you say that you did not go through a ceremony of marriage with a woman other than your wife in South Africa on March 7th, 1902?" At the same time Mr. Taylor referred to a marriage certificate which he held in his hand.

His Lordship at first refused to compel witness to answer, but after a short argument was taken for half an hour to look up authorities on the matter. After the court reassembled the case was decided in favor of Mr. Taylor, and the defendant answered "No."

"That means that you did go through a ceremony of marriage?" "Yes." "How long did you live with her as man and wife?"

After much consideration and hesitation and with the help of counsel defendant found that it was about ten months, probably.

"Her name was Magdalena Maria Snider was it not?" No answer came and Mr. Fell objected to the question. Then an appeal was taken to the judge who ruled against Mr. Taylor. A long discussion ensued between His Lordship and counsel, the latter stating that he wanted the information in order to see if it agreed with the evidence he gave before the trial on examination for discovery.

His Lordship will hold out, so Mr. Taylor stated that if he was not permitted to cross-examine witness without giving reasons for his asking them, it would upset his whole line of argument. If this question was not answered as well as others which he was intending to ask, he could not continue. More discussion took place and then both Mr. Taylor and Mr. Aikman, counsel for the plaintiff, withdrew from the case, and Thornton Fell summed up and closed the case.

BAR-FOOTED CROQUET.

Benefits and Dangers of New Fashion Now in Vogue.

The fashion of playing croquet in bare feet has shown signs of spreading this summer in England, in country houses and in suburban villas alike has been seen in a corner of the croquet lawn a row of deserted shoes and stockings while their owners' feet acrobatically tread the maze of hoop and ball.

So compelling has the vogue become that resistance to it is no longer expected. It is whispered that a duchess has succumbed to it, and during a recent week-end at one of the best known, most hospitable seats in Surrey the croquet party comprised a leading society beauty, a prominent literary woman, the commander of one of His Majesty's destroyers, and a city merchant prince, all fashionably attired in Nature's own footgear.

Unlike most fashions, bare-footed croquet is not at all uncomfortable. After the game the players invariably agree that they have never before played either so comfortably or so well. The unshod-foot takes a splendid grip of the turf, far better than indiarubber or leather can, and, as a consequence, the poise of the body is much assisted and the aim much improved. The fact of the sole of the foot coming in contact with mother earth also seems to be distinctly soothing to the nerves.

A medical correspondent writes: "Exposure to the sun and air and the increased freedom to the muscles are, of course, beneficial. But if the day is cold, or the grass damp, for those unaccustomed to the conditions a bad cold may follow of lambrago and similar complaints be brought on. We are so used always to covering our feet that when they are uncovered we are particularly liable to ailments from exposure."

News From Four Corners of B. C. Interesting Happenings Gleaned From All Sources in the Province.

LOCATION SURVEY EAST OF COPPER RIVER Route of G. T. P. is Not Yet Definitely Decided Upon.

(Special Correspondence.) Prince Rupert, Sept. 14.—The location survey of the Grand Trunk Pacific east of Copper river has not yet been completed and the route definitely decided upon, so the reports to the effect that an additional 100 miles of the road from Copper river east will soon be let are without foundation.

WANTS REMOVAL OF POLICE MAGISTRATE Leech Case Leads to Resolution Passed by Children's Protective Association.

(Special Correspondence.) Vancouver, Sept. 16.—At an adjourned meeting of the Children's Protection Association, held last evening in the mayor's office, with President P. C. Wade in the chair, a resolution was unanimously agreed upon, calling for the immediate resignation of Magistrate Williams, and petitioning the attorney-general to remove the official from his office.

PRINCE RUPERT LOTS WILL VARY IN SIZE Utmost Secrecy Preserved in Survey Work—Heavy Rainfall.

(Special Correspondence.) Prince Rupert, Sept. 14.—Notwithstanding the fact that the weather during the week has been almost as rough as any experienced here last winter, good progress has been made with the work of surveying the lots. During the fine weather Messrs. A. R. Barrow and J. Fred Ritchie, engineers in charge of the survey, got the work in such shape that it will be continued in such weather without interruption and very little time has been lost.

BARRISTER'S PREJUDICE. Vancouver, Sept. 15.—"I am in a very unfortunate position, Your Honor," said one of the barristers in the County court yesterday when his case was called.

BIG FIRE IN VANCOUVER. Bakery Stores Burned to Ground—Two Firemen Injured.

Vancouver, Sept. 17.—Hanbury, Evans & Co.'s bakery stores at Mount Pleasant were burned last night. The value was about forty thousand dollars.

COAL STRIKES ON MORSE RIVER. Vancouver, Sept. 17.—W. W. Leach, geologist of the department of mines, Ottawa, who spent the past season in the Copper River and Telkwa districts, is in the city and brings news of the coal sections on Morse river in that part of the province.

INDIA AND HOME RULE. Vancouver, Sept. 16.—Sir Ralph Benson, judge of the high court of Madras, is a visitor here. He is of the opinion that India may yet be a self-governing colony.

ENGINEERS ON TOUR. Nelson, Sept. 15.—The visiting mining engineers from Europe and the east, passed through here last night on their way to the Boundary and Rossland. They will return on Friday night and will be entertained here on Saturday.

SOCIALIST IN FIELD. Vancouver, Sept. 16.—A meeting to-night called by the Socialist Democratic party and unaffiliated Socialists to select a candidate for the Dominion parliament after a stormy session endorsed the nomination of E. T. Kingsley, recently chosen by the Socialist party of Canada.

LABOR DAY PROVED FINANCIAL SUCCESS Labor Men at Meeting Last Evening Received Reports—Other Business.

The reports presented at the meeting of the Trades and Labor Council last night showed that on the financial side the celebration of Labor Day was a success. Chairman Waxstock, Secretary Argyle and Treasurer Gardiner were all heard from. Heartily votes of thanks were passed to them and to the members of the committee, to the mayor, city engineer, Chief Watson, Acting Sergeant Blackstock, the Times and Colonist for their assistance in making the day the success it was.

What Other People Think THE DOG LOVER!

To the Editor: In your report in last night's issue, headed, in big letters, "Aid. Hall Will Prey by Law," you state "Aid. Hall is a lover of dogs," and I therefore trust that the enclosed "Eulogy on the Dog," if published in your paper, may meet his eye and approval. This eulogy is published in this month in that capital little magazine Westward Ho, and is a masterpiece of truth and pathos. Some men as well as women have strange ways of showing their love, the love of this alderman taking the form of endeavoring to send every available dog to the pound to be first half-starved and then killed.

JOHN BULL'S WAY AND CANADIAN POLITICS. To the Editor: An editorial in Tuesday's Colonist dealt with the ten members of the Mile End Board of Guardians who used their official positions to enrich themselves by making an arrangement with a builder whereby he received a larger price for a structure than he otherwise would have done.

LEONARD H. BOLLY. Gentlemen of the Jury: The best friend a man has in this world may turn against him and become his enemy. His son or daughter that he has reared with loving care may prove ungrateful. Those who are nearest and dearest to us, those whom we trust with our happiness and our good name, may become traitors to our faith. The money that a man has may lose it, flee away from him, perhaps when he needs it most. A man's reputation may be sacrificed in a moment of ill-considered action. The people who are prone to fall on their knees to do us honor when success is with us may be the first to throw the stone of malice when failure settles its cloud upon our heads. The one absolutely unselfish friend that man can have in this selfish world, the one that never deserts him, the one that never proves ungrateful or treacherous is his dog. Gentlemen of the jury, a man's dog stands by him in prosperity and in poverty, in health and in sickness. He will sleep on the cold ground, when the wintry winds blow and the snow drives fiercely, if only he may be near his master's side. He will kiss the hand that has no food.

CONSISTENT GAME PROTECTION. To the Editor:—My attention has been drawn to an article appearing in Monday's Times relative to the illegal shooting of grouse. If there is any truth whatever in the statements made, it is a pity that so much more is in the interests of game protection.

EE A MOTHER'S EE HAPPY THOUGHT. A lady writing from Ireland says—"I used to see my mother's baby, who was very ill indeed. She had been up for nights with him without sleeping; he was crying all the time as with some internal pain. The doctor told her he could do nothing except put him in a warm bath, which gave him a little ease for the time being. I thought of STEEDMAN'S SOOTHING POWDERS which I used for my own children; and next day I sent some to my sister, who she gave the child half a powder according to directions. For the first time for a fortnight she and the baby, and in fact all the household, had a good night's sleep, and the little fellow has continued to improve ever since." These powders do not contain poison, nor are they a narcotic; but they act gently on the bowels, thus relieving feverish heat and preventing fits, convulsions, etc. Please notice that the name STEEDMAN is always spelt with EE.

COPPER CITY GIVES EXCELLENT PROMISE

New Townsite in North Now Put on the Market.

In another column of the Times appears the announcement that lots in Copper City are now on sale. Time and again the importance of the site selected as the location of the latest city in the north has been brought to the attention of the public and W. J. Saunders, of this city undoubtedly made a wise selection when he decided to make that the location of a townsite. Situated at the head of the Kitimat branch of the G. T. P., the town of Copper City will come into prominence at once.

The question of the immediate construction of a trail from Copper City to Taku up the Copper river is now being urged upon the local government and is likely to be built. With that constructed Copper City will be the point at which the transfer will be made from the Skeena river to the trail of during the winter months will be the distributing point for goods between the Kitimat and the Bulkley Valley. It is at present in the city. He says the feeling in the north is strongly in favor of the building of the Copper River trail.

FOG-BOUND CHICAGO.

Traffic Tied Up—Two Laborers Are Killed. Chicago, Ill., Sept. 17.—Dense fog covered Chicago and its environs today, handicapping transportation companies, and was responsible for a number of accidents. Through passenger trains were delayed on all roads through the inability of trainmen to distinguish signals. An interurban car from Aurora crashed into an elevated train at the Oak Park incline, injuring several passengers. Two laborers, one on the South Side and another on Gross Park, were run down and killed by railroad trains obscured by fog. By 6 o'clock the fog had been largely dispelled by the sun.

NEW MEAT COMPANY TO OPERATE HERE

Property Has Been Taken on Foot of Johnson Street for New Premises.

A deal has been closed by the Vancouver-Prince Rupert Meat Company with a local firm for a 21-year lease of the property on Johnson street, adjacent to the Victoria hotel, on which a suitable brick building is to be built for the accommodation of a local branch. The Vancouver-Prince Rupert Meat Company commenced business two years ago in Vancouver, and has now seven branches there. The Victoria branch will be opened up as soon as possible, and it is understood that a branch in Prince Rupert is also to be established.

The Assembly Rink is open. If you can't skate come up in the morning or afternoon session, and let us show you how. Two strings of race horses are expected here, one to-night and the other to-morrow night, from Vancouver to stable at the local track for next week's meet. Arrives received to-day from Vancouver announced that two shipments are prepared and will leave today and to-morrow. On Sunday the steamer City of Nanaimo will leave Westminster with the contingent of Fraser river stock exhibits for the show.

JOSE HERE TO-NIGHT.

Victorians Will Hear Talented Singer at Victoria Theatre.

To-night the people of Victoria will have the opportunity of witnessing something in the musical line far superior to the usual offering when Richard Jose and his company come to the Victoria theatre for an engagement. The past season for Mr. Jose has been one of the most successful in the history of theatricals, the company appearing to crowded houses everywhere, from whom come nothing but words of praise. As for Richard Jose himself, he needs no introduction to the general public, as the older generation have heard him at some time in vaudeville, with high class minstrels or with Denman Thompson's "Old Homestead," with whom he travelled for eight years, while those who have not had this opportunity have listened to the old ballads which he has made famous through the talking machines. Any one who has a Victor machine does not consider their list of records complete without Jose's "Silver Threads Among the Gold," "Belle Brandon," "When You and I Were Young, Maggie," etc. Jose sings his simple melodious ballads of by-gone days in his own inimitable voice and style, and they seem to touch the popular strain as they say good-bye to the new songs, and call in chorus for the old until he is compelled by the tumult of the plaudits to sing "Belle Brandon" and then "Dolly Gray," at which the whole audience seems to be lifted to its feet and marching in spirit down the village street to the martial melody.

MANUFACTURERS HAVE TRIP.

Montreal, Sept. 17.—Yesterday afternoon the delegates to the manufacturers' meeting were given a trip around the harbor as the guests of the harbor commissioners. Steam has not yet abolished sailing vessels, the total number of the latter craft in the world being nearly double that of steamers.
