ESTABLISHES EMBARGO ON COAL SHIPMENTS

Special Permits Will be Necessary for Steamers Bunkering at Island Ports: Bituminous Coal Seized in Ontario

Ottawa, Nov. 17.—In view of the critical fuel situation, export of coal from Carada to all destinations has been prohibited except under license issued upon the recommendation of the Canadian Trade Commission. Exportation of coal to Europe will cease immediately. As the prohibition includes coal for all purposes, licenses will have to be obtainable in the usual way for bunker coal. In the case of coal already loaded for export, the Canadian Trade Commission announces that consideration will be given applications for license by telegraph. plications for license by telegraph.

Toronto, Nov. 17.—Seizure of all bituminous coal in Ontario, either in transit or in storage, has been made by H. A. Harrington, Provincial Fuel Administrator, under an order which he issued on Saturday night, shortly after he had been notified from Ottawa that the Canadian Trade Commission had instructed Customs officials that an embargo had been placed on all coal shipments from Canada. This action comes as a result of the recent strike of bituminous coal miners in the United States and is taken to protect public utilities and essential industries, at the request of the Federal authorities.

Calgary, Nov. 17.—The prohibition of the export of Canadian coal as mentioned in an Ottawa dispatch will not affect Alberta. Local operators state that the embargo which has been placed by the Canadian trade commission, will only affect coal from

SCHEME FOR COAL FROM THE STATES

American Fuel Only For Essential Canadian Industries and Utilities

Industries Must Send Applications to Provincial Fuel Controllers

Ottawa, Nov. 17.—Canada has been advised by Washington that in the matter of coal this country will be treated fairly, but as long as the present situation in the United States, induced by the recent strike in the bituminous coal fields, remains acute, coal can go to only public utilities and essential industries in actual need. It is therefore useless for Canada to look for coal from the United States under existing conditions unless in absolute need, and it is the United States administration that must be satisfied on that point.

Applications

Applications

It is quite impossible for the provincial fuel controllers to create an organization sufficiently large to examine the coal yard of each industry, dealer or importer. Under this condition the only thing to be done in cases where industries or public utilities require soft coal is for each concern quickly to make out an application for additional coal, setting forth:

1. The nature of the work being

The nature of the work being to carry on which the coal is

done to carry on which the coal required.

2. The amount of coal on hand.

3. The normal coal consumption.

4. Source from which coal usually secured.

This statement must be sent to the Fuel Controller of the province in which the industry is located. He, in turn, will telegraph a summary of the situation to the Canadian Trade Commission, Ottawa, and will send the original applications forwarded by following mail.

D'ANNUNZIO CONTROLS ALL DALMATIAN COAST

Fiume, Nov. 17.—Gabriele d'Annunzio's latest exploit appears to have made him master of the entire Dalmatian coast. It secured the adherence to his side, it has developed, of Admiral Millo, com mander of the Italian occupation forces in Dalmatia, thus giving d'Annunzio a continuous command from the Austro-Italian armistice line north of Fiume, southward to Raguza, just to the north of Cettinje, covering all the approaches to the Dalmatian coast.

Admiral Millo wrote to Premier Nitti informing him of his action. The Premier replied:

"I am not astonished at the latest d'Annunzio enterprise. However, I am sorry for your action."

Back in Fiume.

Washington, Nov. 17.—Advices to the State Department last evening said that d'annunzio, after declaring his occupation of Zara, on the Dalmatian coast, returned to Fiume Saturday and was accorded a great demonstration. He is said to have declared his purpose to occuy other territory, including part of Istria, which he claims should form an independent state, to relieve Italy of responsibility to the Allies.

GERMANY IN HANDS OF REACTIONARIES

Washington, Nov. 17.—Replying to a question in the Senate, as to what had been done toward deporting Emma Goldman and Alexander Berkman, Attorney-General Palmer declared to-day that the woman's claim to American citizenship was "a fallacious" one, and that Berkman, by his own admission, was an anarchist. The Goldman case is under consideration by the Himmigration authorities at New York, and the Attorney-General's statement is taken to mean that the Government soon will attempt to send her back to Russia, where she was born.

Not Citizen. Copenhagen, Nov. 17.—Philipp Scheidemann, former German Chancellor, writing in The Vorwaerts, says he considers that Germany is in the power of reactionaries. "The entire army," he writes, "seems to be at the disposal of the reactionaries. Unity of the working classes has become a bounden duty."

Employers.

From the beginning the Canadian employers' group at the Conference took the stand that Canada should not become a party to any international convention placing restrictions on labor until the United States had first given its assent. The general employers' group, in fact, which was to put the Canadian objection into effect, submitted a resolution that any convention adopted to limit the course of labor should not become effective until it received the assent of the United States. But the special committee of the Conference which has the matter in hand has not yet reached a decision on the point.

Victory Bonds Accepted in Payment of Purchases

SUBSCRIPTION RATES:

EXPECT \$600,000,000.

Although it will be some days before the final eturns of the Victory Loan campaign which closed on Saturday night will be available, it is anticipated at Toronto that the total amount raised in Canada will reach \$600,000,000, at least, and may possibly equal the total of the Victory Loan of last year, which was \$610,000,000. This will be double the sum for which the bonds were issued, and, as the objective for the Dominion was \$500,000,000, the result is highly satisfactory, as far as the financial total is concerned.

Whether the general public was as largely be hind this loan as it was behind the Loan of 1918 is yet to be determined. There were 818,464 subscribers for the loan last year, and it will be of interest to learn how the total number of subcribers for the present loan stands in comparison Phis feature, perhaps, even more than the aggregate proceeds raised, provides the chief test of success or failure, for with terms so attrac tive as those involved in the loans of the last three years the realization of large sums is as sured in any case.

This is Canada's sixth domestic loan in the last four years. The first was in November, 1915, and was issued for the modest total of the workers themselves would have three repre-\$50,000,000, more than double that amount being subscribed. The second was in September, 1916 for \$100,000,000, more than twice that sum being subscribed. The third-and the first Victory Loan-was in March, 1917, and was for \$150,000,000, the total response being \$260,000,000. The fourth was in November, 1917, and was is sued for \$150,000,000, the total proceeds being \$418,000,000. Last year's total was \$610,000,000 Thus, assuming that the proceeds of the present loan will aggregate \$600,000,000, Canada will have raised \$2,100,000,000 by domestic loans in the last four years, the interest on which is being distributed mainly among the Canadian people.

Undoubtedly, this is the best way to borrow money, but the process, like every other form of porrowing, is subject to the usual economic limitation and must not be pursued too far. The business of the Canadian Government now should be to put its affairs as well as the affairs of the country in such shape that it will be able to pay its way, and to overhaul, if necessary, its entire system of revenue production to bring this about. Floating a domestic loan is the line of revenue production to of the least resistance, but too much of it only makes the real problem of restoring the balance between income and outgo harder in the end.

WILL EXCEED LAST YEAR'S TOTAL.

Brigadier-General Clarke, Chairman for Vansouver Island District in the Victory Loan campaign, and his energetic coadjutors, have every reason for elation over the response of the terri-tory under their supervision. It is anticipated that the total subscription for the Island this year a surprising response to the campaign, for there were very few who expected the total to equal that of last year, and it was even thought that an objective. The Island Chairman and his colleagues throughout the district are to be contratulated upon the result, and to be complicated under their direction.

INDUSTRIAL DISPUTES.

Assuming the same relation between wage Production for 1917, strikes in Canada have caused a total loss, in wages and output of workers and factories directly affected, of close to \$100,000,000. This figure takes no account of the loss to factories indirectly affected through interruption in orders and curtailment of production, nor of the commercial and community loss through dislocation of business. The time loss in working days from January 1 to September 30 is officially reported by the Department at Ottawa as 3,161,525. Assuming the average wage at \$3.50, the loss in factory output, according to the 1917 figures, was approximately \$78,000,000. Making allowance for the loss from the end of September to date, we find a total reduction in output of approximately \$85,000,000, and in wages of and value of output as shown in the Census of Production for 1917, strikes in Canada have of approximately \$85,000,000, and in wages of \$11,000,000.

Industrial disputes in the United States have been more numerous than in Canada, and, while letailed figures are not immediately available, it s probably not unfair to assume that the time lost there has been greater than in Canada in about the same proportion as the population of the United States is greater than that of the Dominion. On this basis we may estimate a reduction in production in the United States of about \$1,020,000,000 and a reduction in production on the North American continent in excess of \$1,100,000,000.

THE OLD OLD STORY.

At Cobble Hill on Saturday night Mr. Bowse At Cooble Hill on Saturday hight hir. Bowel addressed his supporters resident in that neighborhood. From a Duncan dispatch it is easy to judge that his speech contained no new ideas. He spoke at considerable length and devoted a part of his remarks to the cause of his party's defeat in 1916. His auditors also were regaled with a statement about the number of motor cars purchased since the present administration took of fice, how the sea-plane intended for forest patrol duty crashed with its mission unfulfilled, and other tit-bits of local policy long ago firmly established in the Opposition Leader's repertoire. But why did Mr. Bowser find it necessary to tell the people of Cobble Hill why his party died in 1916! Surely the residents of this enterprising section of Vancouver Island are sufficiently posted on the last decade of British Columbia's history to recall the reason in a much shorter space of time than it would take Mr. Bowser to relate it. tatement about the number of motor cars pur

JOINT RAILWAY MANAGEMENT.

One of the suggestions arising out of the negotiations which settled Great Britain's recent railway strike was to the effect that the onus of disposing of industrial disputes should rest with an impartial, although thoroughly representative, tribunal. It was contended that both capital CITY AND ISLAND and labor, as well as the general public, could be better served if contentious issues were re-moved from the prejudiced atmosphere which in-variably makes itself felt in a conference com-posed solely of the two warring interests. The day may be far distant, of course, when industrial Britain may regard the strike with the same complacency as it does the Millenium; but as soon as capital and labor accept the general principle of the impartial tribunal a more peranent industrial peace will be assured.

As far as the railwaymen are concerned considerable progress has been made towards what appears to be a desirable policy of control. From the Government came the suggestion that the transportation systems of Britain should be manby a joint committee of executives on which sentatives each possessing powers equal to those of the general managers. The plan similarly contemplates the creation of a joint board of five general managers of railways and five delegates general managers of railways and five delegates selected from the locomotive men and the National Union of Railwaymen. It would be the duty of this body to negotiate all matters concerning conditions of service. There is another safety valve, however, in the provision of a further body of twelve to whom any dispute on the subject of conditions would be referred. Its personnel would be comprised of four representawould be comprised of four representa tives of the railways, four appointed by the men and four delegates to safeguard the interests of the general public. Of the latter one delegate would represent a trade union not connected with the railroads and one other would represent the

co-operative movement.

Speaking at Bristol yesterday James H.
Thomas, M. P., General Secretary of the National Union of Railwaymen, expressed the hope that this arrangement would be accepted. He would be mad, he said, if he suggested that there would be no more strikes. Nevertheless, he was convinced that the machinery proposed he was convinced that the machinery proposed would ensure smoother working and an improvethere would be no more strikes. Nevertheless, he was convinced that the machinery proposed would ensure smoother working and an improvement in the men's conditions. Mr. Thomas did his best to prevent the September strike, and his endorsation of the Government's proposal would appear to suggest acquiescence on the part of the National Union of Railwaymen.

Joint management of Britain's railways is a drastic departure. It will come as a rude shock to the old school entrenched behind the piled up traditions of other policies. At the same time it

THE QUESTION OF THE HOUR.

THE QUESTION OF THE HOUR.

(The New York World.)

It is not labor's demand for a hearing that the public resents. It is labor's lending of its organized power to further the predatory schemes of an element that makes demand for a hearing only an episode and a pretext in a strict series of outrageous holdups. What the country most needs to know just now is what sort of tribunal responsible sections of organized labor would recognize as capible of making fair and impartial adjustments in labor disputes. How strong is the part of labor that only that is after spoils? That is the real labor question of the hour. Some help towards answering it may be forther on the coal strike.

COWICHAN SOCIETY ELECTS OFFICERS

Agricultural Society Plans Year of Increased Activity; **Good Reports**

The annual general meeting of the Cowichan Agricultural Society was held in the Agricultural Hall on Saturday afternoon last with between

urday afternoon last with between sixty and seventy members present. The chairman, C. J. V. Spratt, in his opening address pointed out the advantages to the community and to the farmers themselves of a thoroughly energetic society which he considered was the mainstay of any farming community. Mr. Spratt thanked the Board of Trade at its support, which showed that the business men saw the advantages of the society from a business point of view.

The fall fair he considered the only satisfactory method the farmer had to advertise his wares. Speaking from a personal point of view, he said he had sold cattle shown at the fall fair, and attributed inquiries and cales made to different points either directly or indirectly to exhibits at the Cowichan fair. Outside the social element and the educational value of a show, this aspect is the thief reason for the existence of fall fairs.

chief reason for the existence of fair fairs.

To the incoming directors Mr. Spratt suggested that they should try to arrange through the andian department and the Minister of Agriculture that more ground should be rented at a hominal figure, and that the scope of the fall fair should be greatly increased so that it might be a centre of agricultural interests for the whole Island. Putting the building in shape and holding a series of dances, utilizing it for sports or picture shows were among the ideas suggested.

Fair a Success.

The secretary, W. Waldon, reported that at the last fair live stock entries, with the exception of horses, had been most satisfactory. Domestic Science, Educational and Indian sections had shown marked improvement and the Better Babies exhibit had been a splendid feature. The Society now has a membership of 324, and the balance from last year's show was \$1086:26, being better than in any previous year.

J. Ruscombe Poole reported that the committee appointed to see the councils of the municipality of North Cowichan and the city of Duncan had not been able to hold out any hope that the building and grounds would be taken over and run as a municipality-owned institution, as was done in several cities of the Province. The hall remaining unused was, Mr. Poole considered, a drawback and an eyesore to the community when it might become a centre of agricultural and social activity.

Secretary's Henorarium.

Oh the motion of Mr. Paitson and Mr. Peterson, it was decided to pay interest and insurance premium out of the surplus, and on Mr. Peterson's suggestion the meeting unanimously decided to offer the secretary an honorarium of \$50 to emphasize its appreciation of the splendid work he had done during the year. The balance is to be used for strengthening the supports of the building and buying chairs and crockery.

Capt. Douglas Groves made the suggestion that a subscription be taken up to pay off part of the mortgage.

A. Herd wished the councils to be asked to guarantee interest on bonds for five years rather than to take over the property. L. W. Huntington thought the message, "Wake up, Cowichan," applicable. The concensus of opinion was that the property should remain in the hands of the Society and an effort made to stir up the community to a sense of its responsibility, that the building be put in good shape and utilized and the grounds extended and with alert

The enthusiasm of the meeting was largely a result of the president's forcible expressions of common sense and business-like optimism.

"Yes, they need washing. I haven't had a chance to clean them since we came back from our summer vacation. I'm going to wash them to-day, to get ready for Thanksgiving. When the windows are clean more light will come in and you will see better to read your paper."

"Tm glad to know that," said Uncle Wiggily. "I didn't want to think I needed new eyes. Wash the windows by all means, Nurse Jane. I'll go out on the porch and read."

"Well, don't take cold," begged the muskrat lady. "Wear your fur coat. It is almost too chilly to wash windows, but the sun is shining so nicely that they soon will dry bright and shiny."

Nurse Jane brought out some cloths, a pail of soapy water, another pail of clean, and the stepladder, and then she was ready to wash the windows of the hollow stump bungalow.

She had just finished one of the glass panes, and it was as shiny as a new looking glass, when all of a sudden, Uncle Wiggily's stood for a moment on the porch, and then he said:

"It's too bad to stop the window the washing this way. I'll finish cleansing them for Nurse Jane, since she was so kind as to go and help get the ghome out of Jackie's tooth. I'll wash the windows myself!"

Brave Uncle Wiggily, giving his to wash the windows myself! Brave Uncle Wiggily and his can extra twinkle or two, climbed up on the step ladder, and then he said:

take up farms have given up the struggle, according to Mrs. J. D. Gordon. Mrs. Gordon is director of the Homes Branch of the Soldiers' Settlement Board and visits and gives advice to soldier settlers and their wives throughout the country. She lectured at the First Unitarian Church last night.

Mrs. Gordon told of highly educated English girls, one particularly speaking fluently four languages, never used to hard manual work before, now pioneering with their husbands and hewing farms out of the forests in British Columbia. Others who were on heavy amunition work in England during the war are carrying on heavy farm work here and getting a family and home started. Some of these girls have a longing to get back to England for once, but Mrs. Gordon said they would make good Canadians and were determined to stick through the hard work. Most of them are glad to be in Canada amid plenty after their experiences on short rations and hard work in England during the war.

One of the dangers, however, to some of the settlements is lack of hospital and medical facilities. One settlement of thirty-five families she found 170 miles from the closest hospital. Mrs. Gordon said that something would have to be done to provide a nursing service for these districts.

Active Christianity Will Mend the World

THE United National Campaign—representing the co-operative feature of the simultaneous, but independent, Forward Movements of the Anglican, Baptist, Congregational, Methodist and Presbyterian communions invites all followers of our common Lord and Master to pray earnestly for the peace and well-being of Canada and the world, and for a renewal of the Christian spirit of sacrifice and service.

Thirteen National Conventions

Thirteen National Conventions are about to assemble at the call of the United National Campaign. The dates arranged, and the places of meeting here follow:-

> November 25th and 26th November 26th and 27th November 27th and 28th December 1st and 2nd December 2nd and 3rd Calgary, London and Halifax.
>
> December 4th and 5th Charlottetown and Vancouver.

November 24th and 25th Toronto and Montreal Montreal and Moose Jaw. Edmonton and St. John.

The Objects of the Conventions

- 1. To give thanks to God for Victory.
- 2. To rouse the Canadian people to a keener sense of their religious privi-leges and national responsibilities.
- 3 To stimulate the practice of prayer for individual and national needs at this difficult period.

4. To re-affirm the principle that the Gospel of Christ is the only cure for those conditions which pro-duced the world wan, and the only foundation for ensuring national stability, social welfare and indi-vidual happiness in the day of

The Reason for United Action

His Grace, the Archbishop of Canterbury, preached the opening sermon of the Church Congress held at Leicester, England, on October 14th, 1919. On that occasion, he said:-

"We ought to be able to make more of the real oneness, which, thank God, is already ours, the oneness, both in faith and in potential action, of all who can and do kneel to Christ as their living Lord. We want to dwell upon and foster the power of that fellowship for united . . . impact upon the world, or penetration of the world, at an hour so inexpressibly difficult as this. That need not, it will not, interfere with completest loyalty to the distinctive truths, which in our smaller circles

within the Church of Cod we conscientiously hold dear."

"The corporate life which belongs definitely to our own Churchmanship claims our whole-hearted allegiance. But that allegiance acquires an element of peril if it becomes so disproportianed as to obliterate or mar our loyalty to the larger whole, the Christian fellawship, the Godguided life and energy of all who profess and call themselves Christians."

Having just returned from a tour of the prairies as far east as Winnipeg, J. G. Thomson, of the Victoria and Island Development Association, states that according to all indications, including railway reports, travel to the coast this winter will be extensive. The movement will not reach its height until well along in December, states Mr. Thomson, and the limited transportation accommodation on both steamship and rail to the south will have its due effect in directing and holding a lot of the tourist travel right here.

The c.P. R., most particularly, and all railways in general are exercising their influence to keep the towrist travel in Canada by inducing the prairie people to spend their vaccitions on the Pacific Coast.

"One of the most important conventions to be held on the Pacific Coast will convene in Victoria and Vancouver iff June and we should make the most of it while they are here. This body is the Industrial Congress of Alberta and British Cogness of Alberta and British Cogness of Alberta and prominent manufacturiers who will attend what facilities we have in Victoria and on Vancouver lisland for branches' of their industries.

Death had beef formed year's before in Petrograd. The family was placed under the personal care of Major Wallace, of the medical corps, who made it his business to nurse the unfortunate refugees back to health. Professor Bray was then attached to the British Mission and served with that organization up to a few months ago when he was given the opportunity to return to England.

Condemned to Death.

Then on a flimsy pretext the Red revolutionists placed the professor and his family under arrest and after being kept under close surveillance for some time he was condemned to death by the Provincial Council of Perm.

when he was given the opportunity to return to England.

Professor Bray declined to discuss the Russian situation beyond remarking that he believed that "all was lost in Russia," unless a power-ful country intervened to restore order and constitutional government.

death by the Provincial Council of Perm.

How he escaped is best told by the words of the professor himself.

"I escaped with my wife by expounding a tissue of falsehood which the Bolsheviks believed," said Professor Bray. "A cleverly conceived plan was suggested to me by friends and it succeeded. I told the Red leaders that I was a secret spy sent to the Ekaterinburg district by the Soviet government and was disguised to secure information that would lead to the arrest of enemies of the Soviet. The story was believed and the Bolsheviks apologized and allowed me to go free."

Left Behind.

Shortly after that incident Professor Bray and his family succeeded in getting away from the territory succeeded in getting away from the ground

Lyceum, the largest educational institution in Petrograd. He witnessed the overthrow of the Tarand passed through the bloody revolution which converted the country into a seething cauldron of anarchy which developed into a reign of terror.

When the Bolsheviks dissolved the Duma and assumed control of Petrograd the Professor's residence at the Imperial University became the headquarters or the Red army.

Residence Seized.

Then followed the seizure of his private residence on the Balite coars near Kronstadt. The Bolsheviks confiscated all his property and personal effects and had turned the British professor and his family adrift in a country where life was held cheaply. In the "twinking of an eye" a comparatively well-to-do Eniglishman was reduced to a state of pehury and was an outcast with his family in a hostile territory.

Driven from Petrograd the British refugees fled into the unknown interior and existed, as best they could under intolerable conditions. They

Absolutely Yes!

Emphatic Answers by Many Who Have Benefited by T.R.C.'s.

Thirty years ago a man conceived an idea; then for fifteen years he experimented. His idea was for a prescription that would remedy rheumatism. He did not try to discover the unknown infective agent responsible for the disease, but attempted by a series of drug combinations, to obtain a formula that would drive the disease, but attempted by a series out of the human system.

Imagine a Doctor writing prescriptions for rheumatism for fifteen years, keeping careful record of each, reducing a quantity here a bit, increasing it there a fraction, always getting a litle nearer the desired goal always getting better results from those under his treatment. Fifteen years—and then a day when success seemed absolute. Case after case improving, growing well. Then fiften more years of trial, each year confirming the virtue of the prescription. Wouldn't you believe such a formula well nigh perfect?

We do! Templeton's Rheumatic Capsules were first cenceived in 1889, first perfected in 1904, first advertised in 1919. Ask the thousands who have used them if they do the work. "Absolutely yes!" will be your answer, Agents everywhere. Not in your town? Then write Templeton's Western Branch, Box 152, Victoria, Booklet free. T.R.C.'s sant bost paid for 41.04.

"THE THUNDERBOLT"

Katherine MacDonald, New Screen Star, in Unusual Role

How the beautiful daughter of Allan Pomeroy paid the penalty for his crimes and in paying brought the humiliation of happiness upon the man who caused her loveless marriage is shown in "The Thunderbolt," starring Katherine MacDonald, and, which will be shown commencing to-day at the Dominion theatre.

Afflicted at birth by a thunderstorm

by Katherine MacDonald.

When Corbin demands the marriage of Ruth, threatening the exposure of Alian Pomeroy's guilt, the shock kills Pomeroy. Ruth, true to her promise, enters into loveless marriage with Bruce Corbin to be told by him that he only married her to carry out his pledge that he would "get the last Pomeroy." He informs her that with her death there will be no more of her family and that he will force her to live a childless life as the modern way of wiping a family out of existence.

It seems certain that Corbin will carry out his plans because he has not the faintest love for his wife. The opportunity for Ruth, as a Pomeroy, to win a victory over Corbin comes during a thunderstorm when Corbin loses control of himself.

When Corbin returns home from South America a year later he finds a child in the house. He threatens to kill the child when the realization of its presence shows him that the Pomeroy blood will still exist after the death of his wife.

AT THE DOMINION Viola Dana Stars in "Parisian Seven Good Acts on New Programme of Vaudeville is Led by Musical Turn

Viola Dana, the clever and fascinating little Metro star, will be the attraction at the Columbia to-day, Tuesday and Wednesday, in an original play entitled "The Parisian Tigress."

The story is that of a young girl of noble birth, left in babyhood in the care of strangers, who grows up in the slums of Paris into a wild and untamed child of the gutter, dancing for a living in the cates of the Latin Quarter. Her dancing partner is a young Apache, of whom she lives in constant fear.

Adventure comes to the girl when an aristocratic though impoverished artist finds her and conceives the idea of having her impersonate the latin god fascing of rare delight.

The Four Casting Campbells pro-

vide the special added attraction of the new programme. They have a thrilling turn in which most of the routine is done aloft with turns and flips in mid air. Meanwhile, the clown enlivens the entertainment by gretting a lot of comedy out of his getting a lot of comedy out of his system on the trampoline. The per-formance is a revelation in casting speed and accuracy which reaches a climax in a particularly daring feat.

speed and accuracy which reaches a climax in a particularly daring feat.

The Oklahoma Four bring a breath of the West to the stage in a scene which portrays the atmosphere of a cowboy camp in which the roles are played by two men wearing the plains-rider's outfit and cerise chaps and two girls with their picturesque divided skirts. After an exhibition of spectacular roping by one of the girls the company gives a routine of songs and dances which concludes with a whirtwind clog.

Jessie Maker and Billy Redford is the firm name of one of the cleverest entertainment duos in vaudeville. They introduce some very good singing and dancing and a few nitty sailor stories by Redford. They label their offering "The Girl and the Gob," and make it amusing conceit. Miss Maker is a vivacious little lady who wears a stunning black costume, considerably abbrevjated.

"All Balled Up" is the title of the turn presented by Alexander Brothers and Evelyn, in which they prove marvels of dexterity, quick judgment and almost incredible ability to bounce a myriad of rubber balls in unision.

this remarkable entertaining subject, and also plays the part of "Red" Adair, the villain of the piece, Mitchell Lewis plays the honest-hearted trapper, Leneau, with Jimsey Maye appearing as the wife. But good as the work of the adult actors of the cast is, the honors of the production go to Little Roughneck, played by a child called "Breazy" Revea. This little fellow is scarcely more than a baby, but he rises to the occasion in every scene, and this is a story which centres largely about him.

The plot, as was said, is simple but effective. Leneau and his wife, who live in a cabin, lose their own baby early in the story. Red Adair and his partner have kidnapped Little Roughneck, who starts out alone while they are in a drunken orgy. The child wanders over to Leneau's place and falls into a bear trap, where he is found next morning. Leneau and his wife, still mourning for their own child, at first refuse to give him up or look for his family. Later, after Leneau has had mortal combat with the kidnapers, he learns that the Little Roughneck belongs to a judge living at' Vancouver. He leaves his despondent wife to take the child to the city. There is a surprising finish.

One of the problems, in addition to that of further school consolidation looking to concentration at or near Royal Oak, is to start a High School. It is figured that a start could be made by January next, to provide for a large number of the popils, and that meanwhile steps could be taken to provide permanent accommodation later. Another suggestion that a Royal Commission should be appointed to investigate matters and take evidence in each district was scorned by the meeting. AMPUTATION CLUB.

To the Editor:—At a general meeting of the Amputation Club of British Columbia, Victoria Branch, the following resolutions were passed:

1. That the Amputation Club of British Columbia, is most emphatically opposed to the principal now in vogue throughout Canada, of reckoning a man's pension as part of his salary, and that pensions should not be deducted from the pay and allowances of men under Vocational Training.

2. That all Government Departments be approached with a view to having amputation cases employed where ever possible, in preference to able-bodied men, and especially in Orthopaedic Departments.

orthopaedic Departments.

If was found necessary to pass these resolutions, as in several cases, men who have lost limbs in the war, are being paid salaries, of which part is composed of pension, also a number of amputation cases have endeavoured to obtain employment in Government Offices, in competition with sound men, the work being possible for them to perform in spite of disability, and sound men have been given the preference.

The Club would greatly appreciate it, if you would give these resolutions publicity, as it is felt that if the public is aware of such condition, steps will be taken to rectify them,

A HIGHWAY BRIDGE.

To the Editor:—There seems to be great Afficulties confronting the mayor and Council. Whenever they try to settle the Johnson Street Bridge question. I am one of those who have always been in favor of a highway traffic bridge, as I consider the ratepayers should not be called upon to vote their money for a bridge to carry railway cars. The offer of the E. and N. Railway—If accepted—would mean that additional property would have to be acquired at a cost of at least two-thirds of the E. and To the Editor:-There seems to be would have to be acquired at a cost of at least two-thirds of the E. and N. appropriation. It would, therefore, be a poor business deal seeing that the cost of construction would be more than doubled. I, therefore, fall to see the necessity of railway cars eming into the heart of the city if terminals on the reserve are conveniently and properly arranged. Take the present yards on the old Albion Iron Works site and compare the sites on the reserve. I believe the advantages are with the latter, provided a commedious traffic bridge is constructed and, I am certainty of the opinion that the transportation companies would agree that this contention is right. I would, therefore favor going shead with a highway, bridge and let the other interested parties look out for themselves.

Improved Army and Navy Team
The critics who prophesied an easy
win for the Foundation soccer team
had their calculations rudely disturbed
by the greatly improved Army and

TOOK RUGBY GAMES

Fifteen For First Time This Season

Sait Lake City, Ut., Nov. 17.—
Jack Dempsey, world's heavyweight champion, is in Sait Lake
City for a visit yeaterday with his
mother. He declared his physical
condition to be "fit as a fiddle."
Regarding his next fight, Dempsey said he would meet the winner
of the Carpentier-Beckett match,
to be staged abroad on December
4, if the victorious fighter will agree
to come to America. If not, Dempsey says, he is willing to go to
Lendon or Paris. He confirmed
the report that he had signed a
\$115,000 contract with Dominic
Tortorich, New Orleans promoter,
to mest either Carpentier and
Beckett if the proposed match can
be arranged for New Orleans.
This match probably would take
place March 17.

Wanderers, 17 points; V.I.A.A., 6, James Bay, 12 points, G.W.V.A., 2, Their greater experience of the rubby game stood the Wanderers in good stead on the Oak Bay field Saturday, and they hinded out a seventeen, in defeat to the V.I.A.A. a quad. The Wanderers were out with a stronger line-up than they have fielded this season, although Williams was absent from the full back position and they gave the greatest exhibition of the oval ball game seen for a long time in this city.

Boyd's men, were fighting hard from the time the whistle west and stared out like a team that world secure points. McCallium provided the first plees of sensational play with a run nearly the whole length of the fight of the fight on the Wanderers afteen and did most of the scoring. The victor had registered fourteen points before the half time whistle went. The Great War Vetgrans fielded a full side for the first time this season, hut suffered defeat at the hand of the James Bay fifteen—twenty-one points to three. The excellent defence of the Bays was the main factor in holding the War Veterans and won, for the soldiers showed up much better than they have done on any other occasion. With the full team practicing together, the G.W. V. A., should prove a fighting team before the season is much further advanced.

AMATEUR ANXIOUS TO GET INTO GAME

Lady Puckchasers Will Be in Action at the Arena This Evening

Ladies' teams, junior teams, and te teams to compete in the city ce on the ice at the big arena for amateur hockey. With the number of teams anxious to get in action this on, it would be almost necessary to close down the ice to skaters and rive the puckchasers the waking hours of each day.

give the puckchasers the waking hours of each day.

To-night the steel blade experts will chase the circular disc until 11 o'clock, the late hour being necessary for all the teams to get a chance.

There is a team of ladies in the field who have entered the hockey field and they will be in action to-night from 6.30 to 7 o'clock. The girls are keen fans and judging from their persistent requests for reserved ice are equally keen players. From 7 to 8 the Two Jacks will have the ice. From 8 to 9 the Eiks will be in action. The Senators will work out between the hours of 9 and 10, after which the G. W. V. A. players will work out for an hour in their first first practice game of the season.

There are several junior clubs in the city seizing every opportunity to stage a game.

MANY EVENTS ARE PLANNED FOR WINTER FOR BILLIARD FANS

The following players are requested to be on hand to-night at 7.15 sharp for the game in the Two Jacks Billiard League between Capt. Hinson's team and Capt. Robinson's team: Hinson vs. Robinson, E. Petch vs. Spencer, Mc-limoyl vs. Ramsay, Norton vs. Henderson, Lamb vs. Waterson; reserves, Stuart and Etchell.

The billiard handicap will be finished this week, the final game between

SLAUGHTER SALE of CHOICE FARM LAND ACREA

AT CHEMAINUS

IN THE FAMOUS FARMING DISTRICT of COWICHAN, Vancouver Island

Subdivision of part of Sections 12, 13, 14 and 15, in Range 3; part of Sections 11, 12 and 13, in Range 4, and a part of Sections 10 and 11, in Range 5, Chemainus district, Municipality of Cowichan.

Instructed by the owners, we offer for immediate sale nineteen tracts of choice farm land property, averaging in size twelve acres. Eleven of these tracts front upon the Chemainus River. The extreme west end of the property is but two miles from Chemainus Station on the E. and N. Railway, and a good road from Chemainus runs along the entire north side.

The land, which is level throughout, was logged off some ten years ago, and the present widely-scattered second growth presents no great clearing difficulties.

The soil, which is of a sandy loam and gravel, is eminently adapted for growing of small fruits and vegetables, and many portions are particularly suited for chicken ranching.

The district. Cowichan district is one of the largest settled and most important agricultural districts on Vancouver Island, and its farming community comprises some of the most progressive co-operators in British Columbia agricultural affairs. At Duncan, which is but ten miles from Chemainus, there is a co-operative creamery, which is pointed to as one of the most successfully conducted enterprises of its kind in all British Columbia, if not in all Canada. Duncan itself is a thriving country town, with all the advantages which a good surrounding agricultural district can give it. Mixed farming, poultry raising and dairying are the three branches of farming which are generally followed in this section.

> Here is your opportunity to get on to the land and produce at small cost. The prices, averaging \$50.00 an acre, at which we offer this desirable farm land property in one of the best and most productive farming communities of British Columbia, make this possible for anyone.

Plans now on view at our Vancouver and Victoria offices, where full information will be cheerfully furnished.

Living in the Country Living in the Country

Haven't you when you've been travelling through' the country looked at some of the farms and wished you were the owner?

It has taken hard work to bring to the state of produce heads to the the work to get, otherwise it would be worthless. To be happy and contented you've got to work and practice economy, then when you gather the fruits of your labors you can look back with pride as to what you have done.

There is nothing like putting a part of your a tenfeld, if only put into the right place and worked intelligently, and there is no better place than Vancouver Island, where small fruit and chicken raising is not single from the renough produce grown and the openings for making money pleasantly are more than ever evident.

Martens Declares Russians Brutally Treated in the Republic

New York, Nov. 19.-Ludwig C. Martens, self-styled "Ambass he United States," has offered i United States to Russia for all Rus-United States or whose presence the Federal Government. This offer was made in a letter written by Martens to Secretary of State Laning, which has been made public

against the "unwarranted and crue treatment" to which many Russian cted" by the Federal and state officers, as well as by mobs acting without authority." He propos that the Soviet Government be permitted to return the citizens to Soviet Russian, and declares that he has received thousands of applications from such citizens who are anxious to return to their home.

Arrested. Martens was arrested for contempt Saturday and released on \$1,000 ball after he had refused to appear and bring certain documents before the Lusk committee of the New York Legislature, which is investigating radical activities in New York State. that all the communications passif between himself and his Government were privileged. When brought be were privileged. When brought be-fore the committee in the custody of deputy sheriffs Saturday afternoon, Martens promised to appear before the committee Monday and to bring his papers with him.

Gertain Death.

Calling attention to press reports that it is proposed to deport certain unstains to parts of Russia under turning to the Soviet tovernment, Martens in his letter rotests that such deportations rould mean certain death for those epocred.

Treatment of Americans,
"The Government of the Russian
Soviet Republic has accorded American citizens in Soviet Russia civil and
considerate treatment even in cases
where active hostility on the part of
these citizens toward the Government
of Soviet Russia has been proven beyond all doubt," the letter says.
"Only in some exceptional cases
where offences of a particularly
grave nature against the Russian
Government ware committed by Government were committed by American citizens were they prose-cuted by officers of the law. Ameri-can soldiers taken prisoner in the Archangel district, which was invad-Archanged district, which was invaded by American troops without a declaration of war, have been treated with especial consideration, and were unconditionally released as soon as it was practicable to send them home, so that there remain to-day ne American priseners of war in Russia."

On the contrary, Russian citizens in America, Martens says, have been denied the protection of the law.

"The lot of thousands of Russians in the United States to-day," he explains, "is exceedingly unhappy through no fault of their own. Through daily abuse in the press and the prejudice created by a virulent campaign of misrepresentation, their Russian citizenship has become a bar to employment and advancement. They have been arrested without warrant and subjected to oppressive treatment, against which they have no adequate protection as citizens of a country whose government is not recognized by the United States."

Violence. "Within the past few days," the letter says, "great numbers of Russian citizens in New York and elsewhere have been arrested and have suffered the most brutal physical violence at the hands of public officials. In the city of New York alone over 1,000 persons recently were arrested, among them many citizens of Soylet Russia, and although those arrests were made in a manner MAY LOSE AN EYE

"The arrest of Jenkins came after twelve peons had sworn to state ments before a judge in Puebla declaring that Jenkins had been seen in company with Cordova, who accomplished his abduction from Puebla under no pressure and in apparent understanding with his alleged captive."

Washington Opinion

Washington Opinion
Officials here said the charges against Jenkins was "absurd" in view of the recent investigation by a judge, who declared that the agent was not mixed up in any plot. The opinion was that it was "a measure of retaliation" following late disclosures connecting some Mexican authorities with radical propaganda and in which the name of the Mexican Consul-General in New York was mentioned.

Letter to Father
Hamford, Cal., Nov. 17.—John W.
Jenkins, father of Wm. O. Jenkins,
made public last night portions of a
letter received from his son from
Puebla, Mexico, under date of November 6, in which the Consular
Agent said he was being falsely accused of connivance with his kidnappers, but that the accusation came
from Carranzistas, who were acting
in behalf of the Mexican Government
in its efforts to "cover up its failure
to afford 'protection' to Americans."

to afford 'protection' to Americans."

Ransom.

The letter recounted details of his capture and said the ransom demanded by the handits had been paid by the writer.

"I am coming out of this country just as soon as I can arrange my business affairs." the letter declared, and added that citziens of Puehla were highly indignant over the accusations by the Carranzistas.

John W. Jenkins said he had no information regarding the reported arrest of his son.

C.P.R. Agrees to Waive Ex-clusive Privileges on Johnson Street Bridge

Notice was received this afternoon, that the Canadian Pacific Railway has given way to the city on the Johnson Street bridge question and agreed to the elimination of the clause which the company desired to secure exclusive railway rights to

"I am mailing you today a redraft of the agreement."

This announcement from Mr. Mc-Mullen ends the fight between the city and the C. P. R., which has persistently held up the commencement of the bridge.

In the summer Mayor Porter succeeded in getting the differences between the two parties down to this one clause regarding the monopoly rights of the C. P. R. over the bridge. The matter was before the president of the company several times and until last week when Mayor Porter announced that the city was firm in its demand that the C. P. R. should yield on this clause and that the city would rather build a separate bridge of its own than build the joint structure with the C. P. R. under such an agreement.

When Mr. McMullen met the aldermen last Friday and learned that the city would not yield, he intimated that the C. P. R. would rather give way now than see negotiations with the city break down.

The telegram from Mr. McMullen will be placed before the City Council at its meeting to-night.

Mayor Porter sald this afternoon that it removed the last of the differences between the company and the city over the building of the bridge and cleared the way for the submission of the necessary by-law to the electors agut January.

Sinn Feiners Made Attempt on a Ship But Got no Arms

Belfast, Nov. 17.—Fifty armed Sin Feiners boarded the steamer Minni Horn, lying in Cork Harbor, late Sat urday night, and held up the crew with revolvers. They searched for arms, firing shots to intimidate the ship's crew and badly damaged the wireless room. The raid was fruit-less because the police previously had removed all the arms.

Butter at Highest Point Ever touched on Chicago Market

Chicago, Nov. 17.—The highest price ever known for butter was reached in Chicago to-day, seventy cents a pound for creamery extras, wholesale. This same grade never went above 67½ during the period of active hestilities of the world war. Receipts of butter here of late have been much curtailed as compared with a month ago.

Faint and Dizzy Spells Weakness and Shortness of Breath

You can generally tell when the heart is affected by faint and dizzy spells, the shortness of breath, palpitation, throbbing, irregular beating, smothering sensations, weak, sinking, all-gone feeling, choking sensation, etc.

Many men and women becomes run-down and worn out when otherwise they could be strong and healthy if they would only pay some attention to the first sign of heart weakness.

No remedy will do so much to make the heart regain strength and vigor, regulate its beat and restore it to a healthy and normal condition as Milburn's Heart and Nerve Pills.

Mrs. C. A. S. Drake, Paris, Ont, writes:—'I have used on towards the second box of Milburn's Heart and Nerve Pills and find they have done me good. I had those fainting, dizzy spells, once in a while, and also weakness and shortness of breath, and would become so choked up at times I could hardly sleep without sitting up in bed. When walking too fast I would have to stop and try to catch my breaths. I feel a lot better since I have used your pills and know that they have helped me wonderfully as I have improved very much."

and finance were interwoven, of the
South African war, of the reconstruction period, the restoration of responsible government and of confederation nearly ten years ago. The
figures which appear and disappear
in the kaleidoscopic shiftings of that
story are familiar to every reader of
contemporary history, and as honorary secertary of the Reform Committee on the Rand, Fitzpatrick took

the South African War

Adventurous Early Manhood.

Born at King William's Town in
1862, son of a judge of the Cape Supreme Court, he was educated at at
Downside Abbey, a Benedictine
House near Eath, England. He went
to the Transvaal at the early age of
22, when the gold excitement was beginning. He first tried his luck at the
Barberton field in the Eastern Transvaal. He did not move to the Rand
until the spring of 1887, a year after
the famous goldfield began its meteoric rise to the world's leading goldfield. Davies, who is now in Victoria, was a major.

In the fall of 1911 the reorganization of the country had progressed sufficient to warrant the reopening of the mines on the Rand. Next year Fitzpatrick received his knighthood. Now he is a K.C.M.G.

When the Campbell-Bannerman Government restored representative institutions in the Transvaal, Sir Percy with Sir George Farrar were the leading Uitlanders, then known as the Progressives, who were re-

A persuasive tongue and engaging personality made "Fitz," as he was known to his associates, a man marked to rise. Adventurous in a country teeming with kindred spirits, Fitzpatrick penetrated into Mashonaland with the Randolph-Churchill expeddition in 1891, thereby securing material for one of his subsequent stories. In 1892 he settled down at Johannesburg, then expanding into the typical mining community where fortunes were made and lost daily. He joined the leading mining firm of Eckstein & Co., in which he eventually, after many years, became a partner. His Later Years.

In addition to his home at Parktown, Johannesburg, Sir Percy has of late years developed an estate near Harrismith, in the Orange River Province. There he has advanced a land settlement scheme on a large scale. As a writer on contemporary South African affairs, his books are widely read, and are thoroughly characteristic of the man.

ally, after many years, became a partner.
Associated with Lionel Phillips in his attack on the Boer oligarchy at Pretoria, history tells how a local trouble grew to be a ffiatter of national, and then imperial importance. The obstinacy of Kruger and the blundering reactionary policy of the Boer leaders ran parallel with Rhodes as Premier of the Cape, conciliating the Dutch in the magnificent manner he succeeded in doing from 1890 to 1896, when the Raid ended his political power. Intrigue Before Raid.

In his book, "The Transvaal From Within." Fitspatrick teils the inner story of what preceded the Jameson Raid. The seizure of the members of the Reform Committee naturally followed, and brought him within the prison ceils. Later on, after their release, the situation for the Uitlanders continued with increasingly difficult phases. The crisis was inevitable, and war followed in October, 1839. The Johannesburg leaders had to leave the country they had developed from poverty to prosperity. Miss Emily Carr makes the following remarks on the subject of application of the aboriginal Indian designs in weaving and rug making.

She says the best designs are obtained from the Haidah group of Queen Charlotte Islands and it is customary to paint designs including their family crest on all their personal belongings. Color means little to them and they use any color they can get hold of. It is explained that the Indians obtain their designs by splitting the object and by laying the halves side by side obtained symmetry in their drawings. Many of the designs show a number of eyes because they think of the supernatural being more clever than human. Designs may be taken chiefly from baskets and totem poles, a number of which are still standing in Queen Charlotte Islands.
