Fisheries Congress Opens In Vancouver With Many Visitors

Hon. William Sloan Cautions Gathering on the Need of Drastic Regulation to Prevent Depletion of Valuable Natural Resource; Meeting Is International.

Vancouver, June 3 .- The convention of the Canadian Fisheries Association, which has brought into conference more than one hundred delegates from various parts of Canada and the United States dred delegates from various parts of Canada and the United States opened here to-day. Waste, overfishing and lack of proper regulation would prove disastrous to the fishing industry unless remedied, said Hon. William Sloan, Commissioner of Fisheries. "The Dominion Government should step in and regulate fisheries in the interest of the people; failing that, it should turn them over to the Province," he declared. Joint and uniform regulations in regard to Fraser River salmon fisheries in the United States and Canada are necessary he said

Mr. Slean's Speech.

Following appropriate remarks of welcome to the assembled delegates the Hon. William Sloan, Minister of Mines and Commissioner of Fisheries for the Province of British Columbia, delved at once into his subject, and expressed the view that the convention would approach all questions affecting the fisheries of this Province with a keen desire to foster and protect an industry which meant so much to the people of to-day and to the generations to come.

Mr. Sloan informed his auditors that for the last decade British Columbia had produced annually upwards of forty per cent of the value of the fishery products of the Dominion, and during that period the value of the fishery products of the Dominion, and during that period the value of the fishery output annually had exceeded that of Nova Scotia, the second in rank, by from four millions to seven million of dollars, and had exceeded in value the combined fishery products of all the other Provinces. The last year for which complete returns were available, British Columbia's catch of fish produced \$21,518,595, or 41 per cent. of the fishery products of Canada.

"British Columbia" continued the In reply to allegations made by Mayor Porter and Alderman Sangster to the effect that the city of Victoria has been unable to obtain funds from the Provincial Government to finance this city's housing programme, the Hon. T. D. Pattullo, Minister of Lands, has issued the statement printed below in which he declares that the newspaper item recording the observations of the Mayor and Alderman Sangster is the first intimation that the necessary cash was not available.

Ottawa, June 3.—Sir John Randolph, a member of the British House of Commons, interviewed Sir Robert Borden this morning in regard to the creation of a commercial committee of the Dominion Parliament. Sir John is on his way back to the United Kingdom after an extended tour of the Far East. He is chairman of the Commercial Committee of the Parliament of the United Kingdom, which has as its special function development of trade between the Allied Powers. Similar committees are being created by the Parliaments of the Allies. Their aim is to secure, as far as possible, finiformity in laws affecting commerce, Japan, according to Sir John, is now experiencing a financial crisis, resulting from a fall in prices. resulting from a fall in prices. Prior to the war the enemy practically controlled the trade in the Far East in cheaper lines of goods. Japan, however, gradually seized the trade. She turned out large quantities of cheap goods of poor quality. Now importers of the Far East are turning to Great Britain and other European countries for better qualities, with the result that Japan has had to make heavy cuts to dispose of her surplus stock.

Calgary, June 3.—The opening here of the second annual Industrial Congress attracted several hundred business men and farmers from all parts of the country. A feature was the appearance of 200 members of the Canadian Manufacturers' Association, and the weather man was on his good behavior.

President M. A. Brown opened the Congress and Premier Stewart welcomed the delegates and visitors. In his address he emphasized that value to the whole country of the organized effort which had made the meeting an annual affair. As Mr. Howard, president of the Manufacturers' Association, had said, the work of the Congress was on a big scale, managed by men of vision who were helping to put the West on the map and develop a spirit of co-operation throughout the Dominion.

BUDGET RESOLUTIONS IN HOUSE FRIDAY

To-day Observed as Holiday by Dominion Parliament; Yesterday's Business

messengers" had not been to bed at all.

Speaker Rhodes replied that all the younger boys were sent home at 9.30 o'clock, although he admitted that on some of the pages the present system was a hardship.

Employment of pages by the House was time-honored. The question had been examined very carefully by the Inspector of Schools in Ottawa, who was satisfied that it was in the interests of the boys themselves.

Employment in the House had other advantages. One former page was now employed by a corporation at \$25,000 a year. Another had risen to be a bishop.

The question was one, however, for the House to decide, and it might be well to employ pages of more mature years.

To this Mr. McMaster replied that the argument of "time-honored institution" was not a very strong one. Fifty years ago child labor had been looked upon very differently. The point was that boys of twelve, thirteen, fourteen and fifteen should not be at work after 10 p.m. They should be in bed.

At 10 p.m.

Here the Speaker, amid applause, announced that he had given instructions that in future all pages should be sent home at 10 p.m. until such time as that arrangement would not work satisfactorily to the mem-

IRISH HOME RULE BILL CONSIDERED

Amendments in British Commons Either Withdrawn or Negatived

London, June 2.—Numerous amendments to the Irish Home Rule Bill, principally with regard to the powers reserved to the Imperial Parliament, were proposed, but were either withdrawn or negatived in the Commons yesterday afternoon when the bill was in committee.

Sir Edward Carson again took occasion to say he was convinced that Ireland was heading for separation through this bill, and that the precedent of the British North America Act ought to have been more closely followed.

Carried.

Carried.

Clauses 4, 5 and 6 were carried without important amendment. Only two noteworthy points were raised, the first being an amendment proposing to omit the subsection reserving to the Imperial Parliament control of the armed forces, which was negatived on division; the second, the clause in the bill empowering the constitution of a separate postal service for Ireland in the event of the two Irish Parliaments agreeing to unite. This provision was opposed by Sir Edward Carson and many members on both sides of the House, and eventually the Government, although desirous of retaining the clause, agreed to reconsider the matter at a later stage.

Clauses 7 and 8 were adopted, the Government accepting Sir Edward Carson's amendment providing that the seats of government should be in Dublin' and Belfast, or such other places as the Irish Parliaments themselves should determine.

Police.

The House adjourned while still discussing an amendment to clause 9, proposing that control of the Irish police should not be surrendered to the Irish Parliament for six years. Rt. Hon. Walter Hume Long, First Lord of the Admiralty, arguing in favor of the shorter period provided by the bill, culogized the brilliant record for courage and devotion of the Irish police during recent months "in the face of a cowardly and horrible vendetta." Police.

Hythe Conference.

At question time Mr. Bonar Law said no decisions had been made at the Hythe conference, and also announced that the Government intended to introduce a liquor bill and pass it this session.

CHANGES MADE BY GRANBY COMPANY

Sylvester, Managing Director, Retires; New Executive Comes From New York

Vancouver, June 3.— A reorganization in the higher direction of the Granby Consolidated Mining & Smelting Company is in progress. R. F. M. Sylvester, managing director in British Columbia, has resigned, and a new executive sent from New York to take charge in this Province will have his headquarters at Anyox.

Mr. Sylvester yesterday confirmed the report of his retirement from the company. At a meeting of directors in New York on May 26, the position of managing director was abolished.

in New York on May 26, the position of managing director was abolished. H. S. Munroe has now been sent from New York to be general manager, and will proceed to the company's mine at Anyox to take charge. W. A. Williams, for some years chief of smetter and other operations in the North, has been given an extended leave of absence. A new consulting metallurgist has arrived in the person of E. P. Matheson.

For Ten Years.

Ten Years ago Mr. Sylvester took charge of Granby Company in this Province. Previous to that time he had resided in Spokane, and became associated with Jay P. Graves, who was a leading spirit in Granby affairs. In 1910, Mr. Graves' health was unsatisfactory and Mr. Sylvester took up a position which required great energy and unlimited hard work. The great plant at Anyox has been developed under his direction, and during the last four years the Cassidy coal mine on Vancouver Island and extensive coking and by-products plants in the North have been brought into operation.

Yet there is nothing to indicate that his own position is not even stronger than it was ten years ago. On the contrary, all the evidence suggests that the bond between the British sovereign and his people is stronger because it has been made more intimate and real than ever it was before. This is due to the hours. In Vancouver two hundred and fortyqualities of the monarch more than to any other nine hours is the amount noted for the same factor. THE BUDGET VOTE.

The Government's majority of 26 on the first division on the budget in the House of Commons is a big drop from the majorities of seventy and over with which Administration measures were swept through Parliament two years ago. The effect of flying by moonlight is well worth the experience, says this genial pilot, who has spent many nights himself in the air in bombing raids in Flanders, for its remarkable sights.

While at Courtenay the machine of the V. I. Aerial Service was kept busily engaged in carrying passengers for "joy-rides" and on business trips. The enterprising aviators have been there since the holiday on May 24 and have not had a moment's rest from their exhilarating profession.

Leaving Victoria for Courtenay on May 24 the Curtiss machine made the trip in 1 hour and 45 minutes straight flying, arriving there in a rain shower. Rain and wind predominated for the week, but did not prevent the flying men from taking passengers.

On the return journey yesterday the aviators had the good luck to witness two sunsets in the same evening. Leaving Alberni as the sun was just going out of sight behind the hills, they arrived at Qualicum, where they again witnessed the sun sinking to rest below the horizon of the open waters.

On the moonlight journey back to Victoria the aeronauts picked up sight of many Gulf points, seeing the light of Port Townsend. Port Angeles and Point Grey lighthouse.

The landing was made at the Willows by moonlight without fares or artificial aids to navigation, and both aviators expressed themselves as much impressed with the beauties of the southern section of the Island when seen from the air by moonlight.

Constitutional Points.

Passing on to a discussion of constitutional points and their relation to the fisheries of this Province, Mr. Sloan said that when British Columbia, as a Crown Colony, entered the Confederation of Canada he did not think it was contemplated or intended by those responsible for the protection of 'the colony's interests that, under the Terms of Union, they should surrender the fisheries of the Province to the Dominion of Canada. By the Terms of Union Canada. By the Terms of Union Canada among other obligations, assumed the defrayment of the charges of certain specific services and one of these services, outlined in Section 5. Sub-Section E, was: "Protection and encouragement of our fisheries."

At the time British Columbia entered Confederation the value of B.C's fisheries was not so well or clearly understood, but the people of British Columbia no doubt were well satisfied that Canada, in undertaking to meet the cost of the "protection and encouragement of our fisheries" was not proposing that the regulation and control of those fisheries, heretofore vested in the colony, should be transferred to the Dominion.

in fact, when the conditions affecting our fisheries must be realized in Ottawa as they are realized by all concerned here. The salmon fisheries of this Province should be taken over bodily by the Dominion Government and operated to their betterment, or that Government should return the right of regulation to the Provincial Government where they rightfully belong. There is no inherent difficulty in the adoption of a policy of Government operation. Existing interests have no operating rights beyond those granted from year to year. The Government is under no obligations to renew these rights. I maintain that the Government should assume full control of the entire industry, giving compensation where compensation can be clearly shown to be due."

To the Province.

"If the Dominion Government of the day is not prepared to assume the control here indicated it should return that right to the Province. The Provincial Government is at all times accessible and can be approached by all concerned. The questions concerned are Provincial rather than Dominion questions. They should be dealt with by a Government that is intimately familiar with the situation in all sections of one of the greatest and most diversified coast lines of any Province of the Dominion, or in fact of any state in America, and, that Government should be the Government of British Columbia." Concluded Mr. Sloan.

Forward Movement.

Dr. S. P. Rose, pastor of St. Paul's Methodist Church, Ottawa, said, he appeared as representing the Methodists of Canada and Newfoundland. He spoke of the Forward Movement, in which all the churches were equally interested. While in some churches the financial part of the Forward Movement was a big success, there were other important parts of the Movement that gave rise to keen thought.

A Welcome.

Rev. M. R. Farmer, pastor of Mc-Phail Memorial Church, Ottawa, spoke on behalf of the Baptist Church and extended a hearty welcome to his brethren of the pulpit. The Presbyterian Church had been called the intellectual arm of the Christian Church, and was still living up to that fine saying.

Mr. Farmer rather deplored the ex-

clusiveness of the Church of England. The problems with which they were faced could not be solved if they refused to co-operate. There was a movement in Quebec which was aimed to crush out Protestantism. There was need of greater comity. Their Anglican brothers had got to get in.

"I am sick and tired of the exclusive way in which they behave in this part of the country," he said. Out West they get together, and they have got to do, it down here."

Colonel Dennys Says Minesweepers Helped Navy to Be Supreme

"The most silent of the Silent Service." This is how Col. W. Dennys, Deputation Secretary of the Royal National Mission to Deep Sea Fishermen describes the fleet of trawlers which swept the seas clear so that the Navy could maintain supremacy of the seas. Col. Dennys is staying for a few days with his son, R. E. G. Dennys, 231 Moss Street, and while here will give an address on the Royal National Mission to Deep Sea Fishermen, with an account of their work in peace and war. Col. Dennys is also a director of the famous Dr. Grenfell International Association, which is a branch of the National Mission, and has accomplished a wonderful work in the interests of fishermen off the coasts of Labrador and Newfoundland.

Splendid Service.

How the fisheamen manned the trawlers at the most critical time of the war, with the story of their quiet heroism, as told by Col. Dennys, is one that should thrill every British man and woman.

It is admitted by the Admiralty, says Col. Dennys in a statement to The Times, that the deep-sea fishermen by their ratings as mine sweepers, and for various other hazardous work, were the salvation of the Navy.

They acted as convoys and patrols. In fact, the Canadians could never have landed in England or France, says the deputation secretary, had not the trawlers kept the ports clear of mines. Col. Dennys has some interesting sidelights to tell of British naval operations, but he is reserving the story for his lectures on Friday and Sunday.

The Royal Mission to Deep Sea Fishermen is maintained by public support, and Col. Dennys believes that their welfare is of national importance. The Colonel has a tender spot in his heart for these men who daily toll on the deep waters. They are rough, rugged, simple, but above all, so entirely sincere, he says, and are without exception the finest type of men.

Col. Dennys, on his return from France, where he was commandant

are without exception the finest type of men.

Col. Dennys, on his return from France, where he was commandant of the 10th Loyal Lancashires, went to Scapa Flow, and visited the trawlers of the North Sea in their own waters, seeing at first hand the conditions under which they worked.

The mission caters to the spiritual and temporal welfare of the men by means of hospital ships, and institutes at chief ports. Not so long ago these fishermen had practically no means of getting medical treatment, and so very little was done to provide them with comforts or show them human sympathy and appreciation.

Col. Dennys expressed the hope that the L O. D. E. might include missions working in the interests of deep sea fishermen in their patriotic work.

Col. Dennys sas a great admiration for the Dr. Grenfell Association.

On 'leaving Victoria, Col. Dennys will proceed to Salmon Arm to visit his son, and then will go to join Dr. Grenfell on a tour of the hospital ships, dispensaries, and orphanages of the Association in Newfoundland and Labrador.

The Dr. Grenfell International Association was founded twenty-seven years ago, and has developed enormously. The founder saw many opportunities to provide some measure of medical treatment, and spiritual welfare to the type of men he so much admired.

Col. Dennys has besides his experience in connection with missions to seamen a long miliary career which includes thirty-one years' residence in India, where he commanded the 31st Punjabis.

GARDEN PARTY

Charming Outdoor Fete Inaugurates Summer School Events

Under the slogan of "God Save Our Sailor King," the Ladies' Guild of the Connaught Seamen's Institute and the Navy League Chapter, Daughters of the Empire carried out the ar-rangements for the charming garden

of the Empire carried out the arrangements for the charming garden fete held on Wednesday afternoon at "Gonzales," the beautiful old Pemberton home on St. Charles Street.

Though "Gonzales" has been the scene of many brilliant society events, and its lovely lawns and shrubberies have made a picturesque background for numerous patriotic functions, it was generally agreed that never had the grounds looked lovelier. The smooth lawns were dotted with tastefully decorated booths installed in the shade of the fine old trees which are one of the beauties of the estate.

Flitting here and there untiringly daintily dressed little girls sold nosegays to numerous delighted patrons, while in the centre of the lawn was a gay balloon stall, a centre of attraction for many of the younger visitors. Lawn games for the young, with clock golf and croquet for the elders provided pleasant diversion for the afternoon. Lively airs by the band of the Great War veterans added pleasure to the occasion, and provided the festive atmosphere which is one of the attractions of a band at an outdoor fete.

Tea was served by the Women's

outdoor fete.

Tea was served by the Women's Canadian Club at daintily appointed tables in the shade, while ice cream found a ready sale. Brilliant sunshine gave an opportunity for the display of many charming Summer frocks, which added to the gaiety of the scene. The first of the Summer season's lawn fetes was undoubtedly a success from every boint of view. a success from every point of view, and the financial results should swell to a creditable extent the funds which are for the benefit of the organizations working for the welfare of seamen.

ganizations working for the welfare of seamen.

Mrs. Prior, wife of the Lieut.-Governor, arrived promptly at 3 o'clock to open the fete. Each booth was visited by Mrs. Prior, who was accompanied by Mr. H. J. S. Muskett, was received and escorted about the grounds by Mrs. Thomson, president of the Ladies' Guild of the Connaught Seaman's Institute, Mrs. Weston, regent of the Natvy League Chapter, Mrs. F. B. McCarthy was walking with his mother Mrs. McCarthy of 20 South Turner Street when he heard cries from the waterfront. Running there he saw the child drifting to sea, and removing his coat plunged in. The action of the nineteen-year-old lad was all the more commendable as he had but recently learned to swim, and his mother watched in anxiety seeing that his breath was rapidly going. He managed after a brave struggle to work the raft into the shore again. The child was taken to her parents at 36 Niagara Street and seemed quite unconcerned with her adventure at sea.

Carry Standards to Cathedral

Simple, but impressive was the service held at Christ Church cathedral at 10.30 o'clock this morning at the request of the Imperial Order Daughters of the Empire in commemoration of the King's birthday. The service was largely attended, members of the I. O. D. E. predominating, and sixteen chapters being represented. The standard bearers of each chapter, headed by Mrs. Curtis Sampson, regent of the Municipal Chapter, bore the standards to the Very Rev. Dean Quainton, who placed them in the Chancel during the service. Mrs. E. G. Prior, wife of the Lieutenant-Governor, attended.

"I Am Among You as He That Serveth," was the text taken from the scriptures by the Dean for his sermon, in which it was pointed out that in true loyalty lay the sense of duty and responsibility. Rev. Dr. Clay read the lessons.

The service was not choral, but the congregation joined in singing the well-known hymns chosen for this special service.

LIEUT. HELMSING HAD WELCOME

The New Westminster branch of the Navy League's celebration of the fourth anniversary of the battle of Jutland, held in the Opera House, New Westminster, was an unique one as it brought together hundreds of boys and girls of the various schools of the city to take part in a patriotic programme and to witness the presentation of the prizes to the scholars of the public and high schools for the essays on the Zee-brugge affair and other naval episodes. The pictures donated to the various schools were exhibited and explained by Lieut. Harold Helmsing, of Victoria, who made the presentations. In speaking of the essays, Lieut. IN ROYAL CITY

Victoria People on Film '

To Miss Margaret Crowley has fallen the honor of playing the leading role in The Romance of Victoria, which is being filmed in the city to-day, Friday and Saturday by the Hudris Film Company, of New York and Los Angeles. The caste is composed entirely of Victoria people, the selection of which was made at the Royal Victoria Theatre this morning when aspirants of all complexions and ages assembled for their trials. Next in interest to the leading lady came the selection of Miss Murlel B. Brooks as second lady, Miss Iris Johnson as third girl, Mrs. Agnes Lenoir for the matron's part, and little Miss Roberta Lochhead for "Baby." The choice seemed very popular with everyone and there were no evidences of any heartburnings.

A Wedding Scene.

Considerable badinage accompanied the announcements of the male parts, especially as it was known there was to be a wedding scene. The tests resulted in Hector Macdonald being caste for the leading man, R. W. Day as "Papa," Walter Regan and J. D. Macdonald as the villains of the play, Leonard Phillips as the "manager of the works," Leonard Griffiths as the bully and Douglas Radford as the best man, "always with the ladies." Another part not selected was that of "Shorty." The little newsboy is impersonated by Master Frank Hughes.

A Good Selection. A Good Selection.

A Good Selection.

Of course everybody wants to know what the leading lady is like. She is petitie and blonde, with fair curls hanging down her back, piquant feartures and deep blue eyes, and as graceful as she is pretty. Miss Lowley has already had some stage experience in the United States, and is an accomplished toe dancer. The second lady is a good looking auburn haired type and the third girl is tall and dark. Little Miss Roberta Lochhead is a dainty fair-haired lady, who seems quite delighted with the distinction she has achieved.

As to the gentlemen of the caste, various opinions were exchanged among them in a spirit of goodnatured chaff, the bridegroom and "Papa" coming in for the greater share. Altogether there was, a great deal of fun and merriment and everybody enjoyed themselves.

Functually at 10 o'clock this morning the movie stars-to-be were at the theatre, where they were met by Manager Cliff Denham and Walter Steiner, director of the film company.

All Equal Chance.

All Equal Chance.

There were thrills of suppressed excitement as the stage door opened, and proud mothers with pretty curly-headed children were among the most eager of the aspirants. But there was no danger of being overlooked, for all had an equal chance. School girls with much beribboned hair were among many of the applicants, while social debutantes and even a few matrons joined in the throng. There was also a good representation of the ubiquitous small boy.

"Well, you never know your luck," and "why shouldn't we have a try anyway," were some of the remarks overheard as the results of the individual trials were awaited in sus-

there was a great deal of interest taken in its appearance. The per-formance will continue at outside points to-morrow and Saturday, when Director Steiner promises to start some fun.

Streets.

The scenes at the theatre and the Cathedral will provide a panorama in which the public is invited to take part, and have an opportunity of seeing how they appear on the film. The locations for Saturday will be announced in to-morrow's Times.

Delegation of Two Voices Opposition, But Proves to Be Under Misapprehension With Regard to Costs of Course; Board Proceeds With Inauguration of Arts Work.

Squelching Trustee Mrs. Andrews' attempt to stay the inauguration of a two-year arts course at the High School, the School Board last night appointed Municipal Inspector Edward B. Paulprincipal of the affiliated college. Mr. Paul, who is admirably fitted by long experience for his new position, will receive a salary of \$3,600 a year and will proceed immediately with the selection of a staff for the college, appointment of which he will recommend

to the Board.

In appointing a principal last night the Board not only put an end to the continued agitation against the two-year course, but also disregarded the protests of Dr. Lewis Hall and Eugene S. Woodward, president of the Trades and Labor Council, who addressed the trustees. As a matter of fact, the Board was led to believe that a large and influential delegation would appear to oppose the inauguration of the course, but the opposition simmered down to the remarks of these two gentlemen. The trustees the state of the course of the course of the course of the protests were at all representative of the citizens at large and, besides, the delegates, it developed, were laboring under a total misapprohension as regardes, it developed, were laboring under a total misapprehension as relarge to the college establishment of which Mrs. Andrews has been stating publicly and in the press would involve an expenditure of at least \$20,000 annually and probably more. Thus, when it was announced that the annual expense involved was approximately \$5,000 the delegates were somewhat taken aback.

After hearing the further remarks

were somewhat taken aback.

After hearing the further remarks of these gentlemen and the vigorous objections of Mrs. Andrews the Board went into private session. Dr. Lewis Hall.

Dr. Lewis Hall:

Dr. Lewis Hall recalled to the memory of the trustee that when a member of the Board he had moved the original resolution which put the High School in such a position that affiliation with McGill University was made possible. Consequently he was not against the principle of higher education here. Nor had he come to meet the trustees in any hostile mood. Rather he had come to give fatherly advice to the young men and women who composed the Board.

to give fatherly advice to the young nen and women who composed the Board.

"What the University of British Columbia has given you is entirely different from what you asked for," the Doctor asserted. "The McGill affiliation used to be free of expense as far as the pupils were concerned and practically so as far as the city was concerned. Under this arrangement you get a separate institution and you have to inaugurate a sort of university with a two-year course ending nowhere. It's not affiliation at all. You will have to appoint five professors to carry on the work, too. The trouble has been that the common schools have been run for the benefit of the High School and the High School for the benefit of the Universities. Now this course will cost you as much to run for one year as a whole graded school for a year. It will cost at least \$20,000 or more to give some an opportunity to pay so much to get two years in arts—arts alone, not science. I don't think you are justified in starting this course at this cost when you don't know which way to turn to pay your teachers sufficient salaries to enable them to live properly.

A graduate of Aberdeen Univerlisty, he served as a member of the diplomatic service with the British Embassy staff in Tokio when a young man. During that time he conducted a remarkable diplomatic mission to Korea.

He came to British Columbia in February, 1886, and shortly afterwards commenced his association with the teaching profession. He taught in the Lillooet district, and later was appointed to a position in the Nanaimo High School. From Nanaimo he came to Esquimalt, and was located there for a short time, being transferred, September, 1892, to the Victoria High School, of which he was made principal. It was during his term of office that the High School became affiliated with McGill University and two-year arts course, of which he was head, was inaugurated. In 1908 Mr. Paul was appointed Municipal Inspector or Schools in succession to Dr. R. W. Eaton—a position he has occupied with marked success ever since.

In appointing Mr. Paul the Trustees felt that they were selecting an educationalist of high standing and reputation, and also a man more familiar than anyone else with the purpose and organization of the affiliated college. Indeed, it was chiefly due to Mr. Paul's tireless efforts that the affiliation was allowed by the University authorities and the Department of Education.

Mr. Paul is well-known through-out Western Canada not with

thorities and the Department of Education.

Mr. Paul is well-known throughout Western Canada not only as Municipal Inspector, but also as a member of the B. C. University Senate, past Grand Master of the A. F. and A. M. of British Columbia, and as an examiner under the provincial regulations.

lishment of the course here, therefore, would make education possible for many students who otherwise could not afford it.

Mrs. Graves observed, in addition, that when the two-year course was established here the school year would be cut down for the students attending it from ten to seven months. This left a five-months holiday each year and gave ample opportunity to the students to earn sufficient money to pay the fees necessary. Under present conditions, however, there was a holiday of only two months during which, of course, little money could be earned. In any case, Mrs. Graves foresaw the day when fees would be charged for all High School tuition.

Reveals True Costs.

At this juncture Secretary Pope startled the delegate to course of the contract of the course.

Arrangements were made for the garden party to be given on Wednesday, July 14, Miss Agnew kindly offering to let the Chapter have the use of her grounds for the occasion.

The wedding took place at the Christ Church Cathedral at 11 a. m. on Tuesday of Miss Astred Engveck to Mr. Tayton, a prominent Seattle merchant. Mrs. T. H. Jones, of Victoria, sister of the bride, acted as matron of honor. Mr. and Mrs. Tay-"So far as my experience goes, Tanlac is the best medicine in the world, for when everything else fails ed to give me any relief from my long-standing trouble, Tanlac not only built up my whole system so that I am now as well and strong as ever, but I have gained ten pounds in weight besides," said Mrs. Alice Bradley, wife of a well-known farmer at Verdon, Manitoba.

"For two years I was in a weak, nervous, run-down condition, and suffered the worst form of indigestion, and all the distress that goes along with it. I lost all desire to eat, and in fact dreaded the sound of the dinner gong, because I knew only too well what I would suffer after a meal. It just seemed as though my food would lie on my stomach like a lump of lead, and then I would have a burning sensation just as though I was on fire inside. The gas that formed used to bloat me up as tight as a drum until I fairly gasped for breath. I was subject to such terrible headaches that they quite unnerved me, and I often had to go to bed and stay in a darkened room for two or three days. I simply had to let my work go, and was very discouraged because I had tried so many different medicines without getting any help from them.

"I heard so many people praising Tanlac that I tried it as a sort of last resort, and I am grateful to say that it has done me a wonderful amount of good. I now have an excellent appetite, and can eat roast duck or pium pudding or anything else, and never suffer a bit of indigestion afterwards. I am entirely free of all headaches, sleep like a child at night, and am so much stronger that I can do all my housework without any trouble. I am glad of this opportunity to tell what a really fine medicine Tanlac proved to be."

Tanlac is sold in Victoria by D. E. Campbell, corner Fort and Douglas, and Lang's Drug Store, Esquimalt Road.

cated in our schools. They have now grown to manhood and are scattered all over the continent, having proved themselves to be respected citizens, but owing to the lack of industries here have had to go away to other parts of the globe in search of employment.

It is my opinion that if the Fathers of our city were to turn their efforts to encourage industries instead of tourists and golf links, we would have a prosperous city with the sanction and support of the majority of the people. But most of them appear to be like the man who had a balky horse which when urged to go ahead would back up, until finally a bystander suggested to the man to turn his horse and hitch him up the other way. This appears to be the manner in which our City Fathers are driving the affairs of the city at present—they are driving out good citizens to cater to golf players and a few tourists instead of helping to find employment for our own, and leave the tourists and golf players to the transportation companies.

THEOSOPHY AND REINCARNA-

Laurier last evening.

President L. S. Klinck, British Columbia, in introducing His Excellency, spoke in appreciation of the Duke's knowledge of science and agriculture. His Excellency had taken a prominent place in 'education, I would like (as a student of occultary).

J. B. Reynolds, president of the Manitoba Agricultural College, in his address on "A vision for Canadian agriculture," advocated a vision for Canadian agriculture," advocated a vision for Canadian which, he admitted, was impossible. He looked forward, he said, to the people owning the land and leasing it to those who tilled. No man, under this system, could hold land he did not till. Speculators were the curse of the land.

Dr. Reynolds urged improved drainage, irrigation, tillage and crop rotation, and in the battle against the elements, said agriculture was the moral equivalent of war.

President, Reynolds urged the necessity of organization for politic all purposes, in order that Governments would be compelled to give attention to the needs of the farmer, which is all to the farmer and the control of the farmer was too much of an individualist to subordinate his soul to sheles.

How long it will be possible for us to continue this offer we cannot say. This week we offer you a choice of the following high-grade instruments at the same prices that prevailed before the present tax came into effect.

The pianos we show include The Steinway, Gerhard Heintzman, Nordheimer, Mendelssohn and Haines Bros. Each of these instruments we sincerely believe to be the finest piano value at its price obtainable to-day.

Convenient terms of payment can be arranged.

Post-Mortem

THIS drawing is from a photograph of a veranda post from which the paint has been allowed to wear off. Is it not eloquent? This was a good post not so very long

ago but it has now gone beyond redemption. Think of the trivial cost of the paint to protect the post and keep it

Every crack in this post started from the outside. Those deep checks were at the first little checks. Once the surface was broken down, the damage was under way.

How much is similar deterioration under way on your property? Do you dare to say? Have you examined it or just taken for granted that its condition just taken for granted that its condition is sound? Have you examined the siding of your building? Have you inspected the eave troughs and other metal trim? Have you seen the roof lately—have you really looked at it in years? Are you watching the floors, and woodwork, and furnishes in the house? and furniture, inside the house?

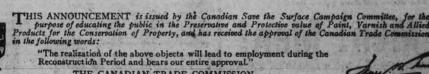

Your thoughtful answer to these questions we do not ask that you give us: give them to yourself. You owe it

to yourself and to those who will inherit your property to ask these questions and answer them.

All over this country property is rotting, rusting, crumbling, wearing, which a surface coating of paint and varnish would save.

The most needless, useless, senseless, and most aggravating loss in the world is loss due to neglect on our own part. Isn't it so?

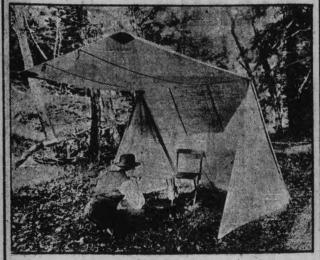

Look at your property in a new way-Save the surface and you save all.

Morton Pitched Victoria To Victory Over Spokane

Capitals Got To Crespi in Fifth and Sixth and Scored Winning Runs Off Slim Smith in Eighth; Indians Find They Engaged in Their Toughest Series.

Victoria, 6; Spokane, 4.

After their seven straight wins over Seattle and the doubleheader victory over the Capitals on Monday the Spokane Indians got a hunch that they were the "main squeeze" in the Pacific International League and that they would just romp away with the pennant. But the mighty are easily fallen, especially when they get overbearing with their own importance, put their hats on at a saucy angle and try to shoulder everyone whom they encounter off the pavement.

off the pavement.

For two days in succession the Indians have tried their redskins tricks of bumping the Capitals off the path, but to their great sorrow they have found that they picked on a quarrelsome and fighting customer and instead of receiving in return a black look they have been planted two solid blows right between the eyes and are mustering their strength to fend off another serious wallop this afternoon. On Tuesday the Leardites scored twelve runs in the last inning and won the game and yesterday they gave the Indians another nasty trimming.

Morton Went Well.

Morton Went Well. Morton Went Well.

Harry Morton pitched a splendid game for Victoria and for six innings blanked the Indians. He weakened slightly in the seventh and allowed three runs to cross the plate and yielded another tally in the eighth. The Indians were greatly assisted in their scoring by the juggling exhibition around third base by Jimmie Church, who had three boots to his credit.

redit.

Blankenship sent Crespi in to do

Blankenship sent Crespi in to do the twirling for him. Crespi is the man who tried to throw the ball out of the park in Wednesday's game. He was sent in to relieve Russell in the ninth inning after the Caps had scored three runs and then did things that no other pitcher in this league has ever done, gave each man in the Caps' batting order a hit, granted four bases on balls and hit a couple of men for luck.

In the fifth inning Crespi heard the first peels of the approaching storm in the form of long hits. He tried to put more stuff on the ball, but when the inning had ended three runs had been scored off him. Another run came in the sixth and Blankenship decided to yank Crespi while there remained a chance to win the game and Sad Silm Smith was sent in to do the twirling. Smith was touched up for two runs in the eighth, which won the game.

New Lead-Off Man.

New Lead-Off Man.

Bill Leard has put Jimmie Church at the top of the batting order. For some time Leard was the lead-off man but when Jimmie began connecting with the ball so often the manager decided to switch positions. Zienke and Leard were the only men on the team yesterday who did not get a hit. Carty Elliott knocked out three safeties, Cunningham and Morton got the only doubles of the game.

"Don't quote me as saying that Spion Kop is the best horse I ever rode," said O'Neill to the newspapermen, as he alighted from the train. "There is class to Spion Kop, however," he added. "He is a better horse than Allenby or Tetretama, and will beat them again at even weights."

"The race was won on its merits," continued O'Neill. "As for ne, I was lucky, for a long time back I wanted to ride a Derby winner."

ELKS' OPENING WAS BRILLIANT SUCCESS

200 People Enjoyed Sports, Banquet and Dance Last Evening at Gorge '

Cer two hundred people attended the opening of the Elks Swimming Clvb at the Gorge last evening, and every member of that happy throng expressed the hope that the officials of the club would arrange to hold similar functions at frequent intervals during the Summer. It was one of the most enjoyable and entertaining affairs ever held in this city in connection with aquatics.

The committees of the club used commendable judgment in drafting the programme. It was diversified and provided a sufficiency of each particular part to please the most exacting critic.

The weather conditions were most ideal for the outing, which commenced at 4.30 o'clock with water sports. The canoe tilting competition was won by Carter, D, Spence being a close second. Capt. Dadds' team, composed off himself, Stocks and Cave, secured first in the 150-yard relay race after an exciting contest which provided several spectacular features. D. Spence secured the decision in the pillow fight for men, and the honors went to Miss Edna Curry when the men were pitted against the ladies.

One of the best races of the day was the 50-yard event for ladies, Miss Eurry secured first in that. Among the other novelties, the egg and spoon race provided much merriment, and the result was nearly clouded in doubt. The final decision gave premier position to Dodds, with Warn in second place. The cigarette race gave Dodds another first.

Interest in Big Yacht Race Becoming Intense

People on Two Continents Are Watching Movements of Two Great Yachts Which Will Race Next Month For America Cup; Defender Has Crew of Scandi-

Interest in the great yacht race between Shamroon . v. and the American defender, either the Resolute or Vanitie, is becoming intense. The public, both sporting and otherwise, of two continents are gobbling up with great relish the news of the racers as it emanates from New York. Everyone is anxious to hear the latest news of the craft on which fabulous sums of money are being ex-

pended.

So far it is impossible to formulate any idea as to the chances of either the Resolute or Vanitie for the honor of defending the cup. Even at the conclusion of the races off New Haven it will be impossible to form any accurate idea of the relative speeds of the two big singlestickers unless one of them proves to be decisively better than the other, which is improbable.

In 1914 and 1915 the Resolute showed up much better than the Vanitie, but it is generally believed that the latter has been improved to a decided extent and will not only show more speed but will not have to allow as much time to the Herreshoff creation as she did before.

Shamrock's Few Trials.

to allow as much time to the Herreshoff creation as she did before.

Shamrock's Few Trials.

At any rate, the two American craft are sure to have the advantage of a much more thorough tuning up than the Shamrock IV. The challenger cannot well start in on any effective trials in much less than ten days from now, and that means a whole lot when it comes to getting the best out of one of the tender, whimsical craft.

The 23-meter Shamrock left England on May 10 and arrived at the Azores Just one week later. That represented practically one-third of the distance. The second leg of the journey to Bermuda should, with the prevailing winds, give her a reach, and she should make good time. The final leg, from Bermuda here, is more than likely to call for windward work, which, with her abbreviated jury rig, may delay her arrival. In consequence of this delay it is likely to be well into the second week of June before the two green Lipton racers have their first brush off Sandy Hook. At that rate it is doubtful if the challenger will get more than three weeks of tuning up with her trial "horse" before she is hauled out for her final grooming preparatory to the big races.

No Irish in Crews.

No Irish in Crews.

Thrills of handling a cup contender in the approaching yacht race are not to fall to the lot of those of Celtic blood.

Announcement recently was made that, although Sir Thomas Lipton's challenger, Shamrock IV., bears the name of Ireland's emblem, she boasts not a single native of Erin's Isle in her crew. Inquiry at the Herreshoff yards as to the birth or percentage of those who will man the Resolute—the yacht favored as America's cup defender—found each to be a native of one or another of the Scandinavian countries.

From captain down, the Resolute's crew bear the thoroughly Norwegian or Swedish names of Christianson, Jenson, Hanson, Johnson, Olson or Gunderson. Although each is a naturalized American citizen, their manners and customs, and, in several instances, the language in which they converse, are those of the peninsular nations of Northern Europe.

insular nations of Northern Europe.

Good Discipline.

Amenability to discipline is a quality that skippers of American cup yachts insist upon. Captain Christianson of the Resolute, himself a native of Norway, believes America can trace much of her success in international cup races to the work of the well-drilled and always obedient Swedish-Americans or Norwegian-Americans who have made up virtually every cup-defending crew.

"In more than thirty-five years of handling speed yachts," said Captain Christianson, "I have witnessed the work of many crews made up of men of other races, and I am very much of the opinion that a natural distaste for strictest discipline and thorough drilling has handleapped their chances."

their chances."
Captain Christianson, who came
to Boston in 1885, was a member of
the old Puritan and for a half dozen years commanded the racing yachts of Charles Adams and H. M. Forbes.

NEW CRICKET LEAGUE STARTED YESTERDAY

The Wednesday afternoon Cricket League got underway yesterday with a game between Spencer's and the Broad Street Hall, which was won by the latter, 115 to 40.

The match scheduled between Five C's and the Congos played the Garrision second team at the Garrison grounds and won out by 72 to 42. Sam Kirkham made fifteen at bat for the Congos, and took five of the Garrison wickets for eleven runs. Ingles was the best man on the Garrison team.

CLAIMS MAGEE TRIED TO THROW GAME AWAY

Cincinnati, June 3.—That Lee C. Magee, Cincinnati, professional baseball player, confessed to William L. Veeck, president of the Chicago National League baseball club at Chicago on February 10, 1920, that he bet against the Cincinnati Reds in July, 1919, when a member of the Red team and made "intentional wild throws" and otherwise "played to cause his team to lose to Boston," is alleged in an amended answer filed in United States district court here yesterday by the Chicago club. Magee is suing for \$9,500 alleged to be due as damages for the refusal of the Chicago club to permit him to play this year.

Lacrosse enthusiasts in this city are eagerly looking forward to the game to be played at the Royal Athsame to be played at the Royal Ath-letic Park on Saturday afternoon at 3 o'clock between Sidney and the world's champions. Following the overwhelming defeat suffered by Victoria at the hands of the neigh-boring team, experts in the game are anxious to see just what Sidney pos-sesses in the way of material. The win for Sidney dropped like a bombshell among the lacrosse fra-ternity here. Last Saturday they blossomed out as a rival of New Westminster for developing lacrosse players.

Taken By Surprise.

The world's champions were taken by surprise in their game. They went out with the idea of giving an exhibition game and never thought about coming home beaten warriors. But when the defence saw the Sidney home tear in and score three goals in as many minutes they began to worry. And despite all the efforts of the Victoria home they could not break through the impregnable defence of the home boys.

The champions are anxious to wipe out this defeat and will be in the game on Saturday to the limit of their endurance. They know they have a hard job cut out for themselves but believe that with their full team they will be able to win a goal or two.

The whole of Sidney will be here for the game. The town has gone lacrosse "mad," according to reports. Taken By Surprise.

REPAIRS TO SUWA NOW UNDER WAY

Temporary Work Awarded to Heffernan Drydock Co., of Seattle

Temporary repairs to the N. Y. liner Suwa Maru are being made by the Heffernan Drydock Company and the work will be completed in time to permit the departure of the liner on schedule June 16 for Japan. The damage by fire and water, now estimated at \$150,000, was confined to the upper works, first class cabin accommodations and dining salpon and officers' quarters. Except in emergency cases the first class reservations are being cancelled. The passenger department of the Nippon Yusen Kaisha is now communicating with those who have reservations on the Suwa Maru announcing the situation brought about by the fire. A few of the passengers can be accommodated aboard the liner Kashima Maru, which is scheduled to sail July 7. In the meantime the steamship Toyohashi Maru is due from the Orient in the N. Y. K. service, but she has limited passenger accommodations and will be unable to assist in the emergency. Rendering the problem facing the Mayu, on her next scheduled outward voyage on September 11, was commodations and will be unabled to sail yill for the fire will likely delay the vessel considerably on the other side of the Pacific, it is probable that the N. REGISTER PROTEST TO PREFERENTIAL RATES IN SHIPPING MEASURE

Seattle, June 3.—Protests against the inclusion in the merchant marine bill of the clause which would give American ships and deny to foreign carriers preferential import and export rail rates, were wired to members of Washington's congressional delegation last night by the Seattle Chamber of Commerce.

The clause was opposed on the ground that it would discriminate against Pacific Coast shipping and tend to drive foreign vessels from the Pacific Coast to Gulf and Atlantic ports.

As a photoplay nothing like it has been shown in this city before. It has been strongly endorsed by all who have seen it. Dr. Higgins, the well-known doctor of this city, has the following to say about it after witnessing a performance. "I have viewed this great film with much interest and consider that the lesson taught therein is presented in a most convincing and moral fashion. The educational results will be untold."

DOMINION

Robbed of everything you have and forced to wander around a desert in a pair of silk pajamas is enough to feaze even the hardy film star, who is supposed to be used to anything. That is Wallace Reid's experience at the start of his latest photoplay, "Double Speed," which is at the Dominion Theatre during the week. It all happens when Wallie, as "Speed" Carr, is taking a joyride in an auto from New York to Los Angeles. Pitching his tent for the night in the Western "bad lands," he is "frisked" by two robber gentry and in the morning finds himself without re-

kind. The novel is the basis of "The Invisible Bond" now at the Variety. Irene Castle is Marcia Crossey, every inch of her. And she has been given a real story of real folks in which to demonstrate her newly-discovered talents. It is about a young married couple, wedded four years and reasonably happy. A fliritatious siren, always just in the offing when the husband is handsome and successful, wins the man, who is spoiled and susceptible to flattery, away from the wife. The scenes leading to the woman's decision to divorce her husband-are packed, with drama. Then comes the sad disillusionment when the husband, now married to his charmer, discovers that, like himself, she is insistent upon her "personal liberty," which includes the right to maintain her relations with other men.

A day comes when one of these men-creatures whom she is accustomed to lure turns upon the coquette. Maddened by her treatment of him, he adopts a ruse and plunges them both over a high cliff in a motor car to their death. Then the great love which husband and former wife have always had for each other is cleansed by the tragedy and they are reconciled.

Baby Specialists.

THAT there are Physicians who specialize on Infant ailments you know. All Physicians understand Infant troubles: all Physicians treat them. It is his profession, his duty, to know human ills from the Stork to the Great Beyond.

But in serious cases he calls in the Specialist. Why? He knows as every Mother knows, or ought to know, that Baby is just a baby, needing special treatment, special remedies.

Can a Mother be less thoughtful? Can a Mother try to relieve Baby with a remedy that she would use for herself? Ask yourself; and answer honestly!

Always remember that Baby is just a baby. And remembering this you will remember that Fletcher's Castoria is made especially for Infants and

The False and the True.

Advertising by the use of large space, the expenditure of huge sum of money have placed on the market, have put in your home, perhaps many articles that today have been discarded, as you will readily admit. Do you recall anything that has more modestly appealed to the public than has Fletcher's Castoria: modest in all its claims, pleading

at all times—and truthfully—for our babies?

The big splurg, the misleading claims may win for a time, but the honest truth-telling advertiser is like the old story of the tortoise that beat the hare.

Mothers everywhere, and their daughters, now mothers, speak frankly, glowingly, enthusiastically in praise of Fletcher's Castoria. Speak of it lovingly as a friend that has brought comfort, cheer and smiles to their little-one.

There are substitutes and imitations as there are for the diamond, for anything of value. One might almost say that that which is not copied has no value. So you have had the signature of Chas. H. Fletcher and a copy of the genuine wrapper kept censtantly before you that you may guard against the false and the untrue. MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

WANT LABOR UNION

of the Provincial Civil Service As-

of the Provincial Civil Service Association into a labor union affiliated with the Trades and Labor Council is to be taken up at the monthly meeting of the Association next Monday night in the Comrades' Hall, Douglas Street.

The Victoria branch is already affiliated with the Trades and Labor Congress of Canada. Some members say this affiliation does not mean anything and are out for a straight

labor union. There is much opposi-tion to the move, however.

MARKET UNCHANGED IN WALL STREET

Newport, Eng., June 3.—White and negro sailors classed in street fighting last night and early this morning in this city. Large crowds assembled in the thoroughfares. Windows were smashed and a number of houses badly damaged. Several combatants were badly beaten and one white sailor was arrested. Careful handling of the crowd by a large force of police finally restored order. The encounter, which was caused by a quarrel over a woman, recalled similar rioting last year.

Attacks Made.

London, June 3.—A concerted attack was made on the Crossgar barracks, County Down, Ireland, twenty-one miles from Belfast, yesterday, according to a dispatch sent here. Efforts were made from houses on both sides of the barracks to blow up the building. These failed after two hours, during which there were hot exchanges between the attacking party and the police. Finally the assailants withdrew.

SCIENCE PROVES THE **BLEEDING GUMS**

Medical science proves that unhealthy gums cause serious ailments. People suffering from Pyorrhea (a disease of the gums) often suffer from otherills, such as rheumatism, anaemia, nervous disorders, or weakened vital organs. These ills have been traced in many cases to the Pyorrhea germs which breed in pockets about the teeth.

Four out of five people over forty have Pyorrhea. It begins with tender and bleeding gums. Then the gums recede, the teeth decay, loosen and fall out, or must be extracted to rid the system of the infecting Pyorrhea germs.

Guard your health and your teeth. Keep Pyorrhea away. Visit your dentist often for tooth and gum inspection, and make daily use of Forhan's For the Gums.

Forhan's For the Gums will prevent Pyorrhea—or check its progress—if used in time, and used consistently. Ordinary dentifrices cannot do this. Forhan's will keep the gums firm and healthy, the teeth white and clean.

AUDITORS' REPORT TO SHAREHOLDERS

We have compared the above Balance Sheet with the books and accounts at the Chief Office of Imperial Bank of Canada and with the certified returns received from its Branches, and after checking the cash and verifying the securities at the Chief Office and certain of the principal Branches on 20th April, 1920, we certify that in our opinion such Balance Sheet exhibits a true and correct view of the Bank's affairs according to the best of our information, the explanations given to us and as shown by the

books of the Bank.

In addition to the examination mentioned, the cash and securities at the Chief Office and certain of the principal Branches were checked and verified by us during the year and found to be in accord with the books of

the Bank.

All information and explanations required have been given to us and all transactions of the Bank which have come under our notice have in our opinion been within the powers of the Bank.

RECORD YEAR FOR

New High Mark Attained in Business and in Profits Earned

That' the fiscal year, ending April last, established new records for the Imperial Bank of Canada since it opened its doors to the public, fortyfive years ago, is proven by the financial statement which was sub-mitted to the shareholders at the annual meeting in Toronto on May

Total assets reached the high figure of \$123,274,168, as compared with \$112,186,457 at the end of April, 1919, an increase of \$16,087,711. The immediately available assets stood at \$60,499,726, or equal to 54 percent of the bank's total liabilities to the public. Cash assets alone, at \$30,179,882, were equal to 32 per cent of liabilities to the public.

of liabilities to the public.

Increase in Profits.

Profits amounted to \$1,379,318, against \$1,247,516 the year before, an increase of \$131,802. This increase permitted the payment of a bonus of 1 pen cent. to the shareholders, in addition to the usual dividend of 12 per cent., while the balance of account carried forward at \$1,062,278, was in excess of the previous year by \$196,819, notwithstanding a \$55,000 increase in Dominion Government tax and liberal contributions to pension and repatriation campaign funds.

Increase in Deposits.

Increase in Deposits.

In total deposits there was an appreciation to the extent of \$14,585,-983, or 18%, the figures being \$97,-784,217 as compared with \$83,198,234 at the close of the previous fiscal year. Savings deposits stood at \$72,676,679, as against \$61,712,144, again of \$10,964,535, and deposits not bearing interest at \$25,107,537, an increase of \$3,621,448.

Current loans, expanded by \$11,-908,232, or 24,53 per cent., the total on April 30 standing at \$60,452,943 as against \$48,544,711 the corresponding date of 1919.

Note circulation increased by \$1,-

date of 1919.

Note circulation increased by \$1,483,489 to \$13,354,212. Deposits with
the Minister of Finance for the purpose of the circulation fund amounted to \$404,897 as against \$339,491 a
year ago, while the deposits in the
central gold reserve at \$7,000,000
show an increase of \$1,000,000.

The paid up capital of the bank
remains unchanged at \$7,000,000 and
the reserve fund at \$7,500,000.

During the year forty-two new

the reserve fund at \$1,500,000.
During the year forty-two new branches were established in various parts of the Dominion, making the total increase since the close of the war, seventy-six.

college," she asserted, "is simply juggling with figures and I have no hesitation in saying so. I am in favor of a two-year course, but this matter had not come before the Board when we were elected."

Deploring the suggestion that fees would be charged in the High School in the future, Mrs. Andrews pointed out that this plan had been tried in Vancouver, but the School Board there had been forced to discontinue it. "I would plead that such a thing should never be mentioned," she said.

Offers Reward. Offers Reward.

Offers Reward.

"I would like to confront that statement that here will be 100 students for the college next year," interjected Dr. Hall. "There won't be half of that number. I shall be glad to put up \$250 for the Orphanage if there are fifty."

"And I'll add another \$250!" Mrs.

"And I'll add another \$200!" Mrs. Andrews broke in.

Trustee Aitken, however, answered the argument regarding the number of students who would attend the college by remarking that the number who at present studied in the Senior Matriculation class was no standard by which to judge. Under present conditions, he said, the students naturally went to outside uniats naturally went to outside uni-ersities. The Senior Matriculation ourse was unsatisfactory, and kept tudents away. The chief purpose of students away. The chief purpose of the affiliated college, indeed, was to keep the students in victoria for the two first years of their university training. "The principal of the High School, who prepared these figures," said Capt. Aitken to Dr. Hall, "is in a better position than you are to know how many students will at-tend."

Well Nigh Fraudulent.

Well Nigh Fraudulent.

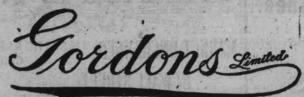

"If it is necessary, in order to get popular support for this scheme, to put forth a statement which, on the face of it is well nigh fraudulent," said Mr. Woodward, repeating himself for the benefit of the Trustees, "then I say it only lends force to the argument that it should be submitted to the ratepayers."

Capt. Aitken then moved that the Board go into private session and appoint a college principal. Mrs. Coady Johnson seconded the motion.

"I cannot see why this matter cannot be treated fairly and not rushed through," Mrs. Andrews protested. "If the Board proceeds I shall have to retire."
