Premier Oliver Restates Ministry's Purpose in Freight Case

Government Has Not Made Question a Party One

Vancouver, March 9.—We have not made the freight rate question a party one, but if anybody forces us to do so my hat is in the ring.

Premier Oliver so informed a mass meeting held last night at the Hotel Vancouver in the course of an address featured by an open defiance of the G. P. R. and association of that party with the newly-formed Provincial Party.

While the meeting was sponsored by the Liberal Association, it was not intended to be political in character and there were men and women present of all shades of party affiliation.

After declaring that his hat was in the ring if any of the other parties wished to make the freight rates a political issue, the Premier said that when he appeared before the parliamentary committee to put British Columbia's case to that body, W. G. McQuarrie, M. P., for Westminister, rose in Parliament the same night and attacked his reputation as a public man, trying, as far as he could, to destroy the effect secured before the committee.

Disavowing all previous knowledge of the text of the advertisement calling the Premier a "traitor," he said he regretted that the phrase, "The People of B. C. vs. C. P. R.: A Fight to a Finish," had been used.

To Remove Grievances. "I have never gone out to fight the C. P. R.," he added, "if there is any difference between me and the C. P. R. it is incidental to my endeavor to remove the grievances which British Columbia has suffered."

At the same time W. B. Lanigan is the man, more than any other, responsible for the rates of which we complain. I addressed a meeting of the Edmonton Board of Trade in January, and was followed a few days later by Mr. Lanigan. According to newspaper reports, that official had some hard things to say against me. He stated that it was not immigration, transportation or taxation that was the pressing problem of the day, but the elimination from our public life of a man who, to serve his selfish ambitions, attempted by misrepresentation and calumny to destroy the C. P. R. and the rewards to which it was entitled.

Read Newspaper Reports. "When I saw this advertisement I could only conclude that, since I had given no instructions that I was in the fight to a finish with the C. P. R., the man who wrote it had probably been reading the Edmonton newspaper reports of Mr. Lanigan's remarks. Unless it is myself, I don't know the man who wrote it," he remarked. I would be sorry to think

WOULD CHANGE THE INCOME TAX

Quebec M.P. Would Make Burden Lighter for Fathers

Ottawa, March 9.—Joseph Archambault, Liberal, Chambly-Vercheres, Quebec, has given notice of a motion in the House favoring increased income tax exemption for each child from \$300 to \$500 and exemption altogether of the father of five children under eighteen years who has an income of less than \$5,000.

NEWFOUNDLAND COAST WAS SWEEP BY A BIG STORM

St. John's, Nfld., March 9.—The storm that swept the North Atlantic coast of the United States Wednesday raged off Newfoundland yesterday. All shipping in the harbors remained stormbound, and it was feared that several vessels due from Europe had suffered severely.

400 HERE LOSE HARD EARNED MONEY IN STEEL CRASH

Salesmen Covered Every Part of City and Public Bought Eagerly

Between 400 and 500 persons in Victoria are caught in the L. R. Steel crash, it was estimated today.

One million dollars was put in by British Columbia investors, mostly by small holders. Half of this amount was put in by residents of Greater Vancouver.

It is not known exactly what was put in by Victoria, and the adjacent district. Estimates to-day placed the amount at between \$250,000 and \$300,000.

The stock-selling office here in the Royal Bank Building were closed about ten days ago.

Awaiting Information. The only stock office open to-day was that of the Steel Realty Development Corporation on Fort Street.

HONGKONG BOASTS SEPARATE SCHOOLS

Teacher of Twenty Years' Standing Speaks on Segregation Question

A. T. Hamilton Sees No Reason for Opposition Here

In view of the controversy recently waged in this city on the subject of school segregation, the views of A. T. Hamilton, a member of the scholastic profession who has been teaching in the schools of Hongkong, and who arrived here to-day by the Kaga Maru, are of timely interest.

The segregation of European and native Chinese children has always been strictly observed in the schools of Hongkong, and never has there been any controversy relative to school management in the British possession in China. Mr. Hamilton stated on his arrival here. In Hongkong, schools are set apart for the British children, and no Asiatics are admitted.

Mr. Hamilton displayed considerable interest in educational matters here and he expressed surprise when he learned of the recent segregation controversy. He saw no reason why the Chinese community here should oppose the segregation plan as proposed by the Victoria school authorities.

Separate Schools. He is of the opinion that if a place like Hongkong, which is largely populated by Chinese, should have separate schools for Asiatics there is no reason why a British territory such as

CLAIM ROBBER GANG OF BOYS

Ten Robberies, Including Four School Entrances, Charged

Stolen Property Valued at About \$500, Mainly Recovered

That a gang of boys, the oldest 16 years of age and the youngest 14 years, has been in part responsible for ten at least of the robberies that have taken place this year, is alleged by the police in charges laid to-day against six boys in the Juvenile Court.

The boys formed themselves into a gang and operated in sections of two and three, it will be alleged. The list of robberies for which responsibility is laid at their door includes the Victoria High School, the North Ward School, the Quadra Street School, the Lamson Street School, and no less than six stores, including the Fairfield Pharmacy.

The value of the goods reported to be stolen in the ten robberies totals about \$500, including five Ross rifles from the Victoria High School. The Ross rifles are of the .22 calibre and used for target practice by the Cadet Corps.

Indications that the gang was well organized and under the leadership of a lad who appeared in nearly every case, say the police, are not wanting. The boys now in custody have made certain admissions, as the result of which a large part of the stolen property has been recovered. Some of the articles taken, as tobacco and candy, have been already used. It is stated on the apprehension of two boys of the gang yesterday by Sergeant O'Leary and the members of the City Detective Division. As a result of the first capture the whole chain of robberies has been connected, it will be alleged.

Some of the accused were arraigned in the Juvenile Court this afternoon, when evidence for the prosecution was commenced.

AUSTRALIA ADOPTS NEW TRADE PLAN

Farm Produce Sent to Britain of Standard Quality

Canadian Commissioner Now on Way to Australasia

Special to The Times. London, March 9.—New Zealand having already made serious inroads on the British market for Canadian cheese with its Government-graded product, Australia now threatens to steal a march on Canada by the establishment of a national standard of quality for all its primary products. A start has already been made with butter and cheese and the British market will soon receive supplies of quality for its primary products. DECLARES FEVER WENT UP TO 128

Missouri Physician Tells of Case Studied in 1895

Woman in Michigan Now Has Temperature of 114

Marion, Mo., March 9.—A fever temperature of 128 is recorded in the notes of Dr. W. H. Miller of this city, which has been following with interest reports of a case at Escanaba, Mich., in which a temperature of 114 has been recorded. The thermometer used by Dr. Miller was purchased in New York for the special case and tested by physicians. The case designated was that of Mrs. E. E. Brown, of Sedalia, Mo., ill here in 1895.

The patient's temperature was 115 on August 5, according to Dr. Miller, when the temperature went up to 128 October 21, the patient talked incessantly. From August until January her temperature ranged from 99 to 118.

Michigan Case. Escanaba, Mich., March 9.—Without any indications of abating, the excessive temperature of 114 degrees or better, experienced for twenty days by Miss Evelyn Lyons, 80, to-day still was registered.

Statement issued. To reassure doubters in regard to Dr. Henry Defnet, the attending physician, and Dr. C. W. Moll, secretary of the Delta County Medical Association, issued signed statements to the Associated Press yesterday. "No mistake has been made," Dr. Defnet said. "The reports are accurate and taken in every way known to medical science and the temperature has been 114 or more for sixteen days. The girl is rational in every respect and has control of all her faculties."

PROVIDENCE, R.I., STORE FIRE CAUSED \$1,500,000 LOSS

Providence, R. I., March 9.—Fire which swept two floors of the Shepard Company department store in the heart of the business section, still was demanding the attention of firemen early to-day having caused a property damage estimated at between \$1,500,000 and \$2,000,000.

MAYOR ASKS CITY TO GIVE REWARD IN MURDER CASE

Proposes Council Add \$1,000 to Government's Reward; Would Be Well Spent

Mayor Hayward expressed his opinion today in favor of a city reward for the apprehension of the person or persons implicated in the murder of Ernest Lionel Lorenz here last week, and intimated that he would urge the City Council to vote \$1,000 for this purpose.

"I think it is probable that the city will offer a reward," the Mayor said. "When the matter was first considered we thought that the Province should act first and now that the Province has not changed its mind we should put up a \$1,000 reward I think we should fall in line and do likewise."

If the murderer in this case is apprehended and brought to justice the money will be well spent," the Mayor declared. "We realize that the clearing up of the mystery is a matter of very great importance to this city, and certainly well worth the money involved."

A canvass of police circles to-day elicited no developments in the Lorenz murder mystery. The fact that the situation remains unchanged is in keeping with the announcement made by the authorities that the hunt would be a protracted affair. The Police Commission will meet to-night, when Police Commissioner W. E. Staneland will advance his views for independent aid in the detection of the criminal.

V. JOHNSON'S DOGS WON 150-MILE RACE IN SASKATCHEWAN

Saskatoon, March 9.—Frank Schlotter, driving Verner Johnson's dog team, won the Saskatchewanan 150-mile course at 3:40 last night. Schlotter's time for the distance was 29 hours and 34 minutes. John Irons was second, almost two hours behind the winner.

An Indian was third, but did not cross the finishing line until 8:45 this morning, carrying one of his dogs on his sled.

RAIDERS WOUNDED IRISH OFFICER FIRED ON COMMANDANT SCOTT FROM HOUSE IN CORK

Cork, March 9.—When Commandant Scott of the Irish Free State troops, called on to see the defence in Cork of Mrs. Powell, a sister of the late Michael Collins, whom he had come to visit, the door was opened by men who, observing Scott's uniform, promptly opened fire on him. The officer was seriously wounded.

It happened that the house had been occupied by a party of incendiaries who were engaged in saturating the furniture with gasoline before burning it. One of the men were arrested.

No Interview. Dublin, March 9.—Francis J. Lowe, secretary of the Friends of the Irish Free State in the United States, who is visiting Ireland in an endeavor to bring about peace, sought an interview with Eamon de Valera. De Valera, however, expressed regret at his inability to see him.

YUKON LIBERALS ELECT OFFICERS AT ANNUAL MEETING

Dawson, Y.T., March 8.—(Canadian Press)—Dr. W. E. Thompson was elected president of the Yukon Liberal Association at its annual meeting here last night. Charles Bosuoy was re-elected secretary-treasurer.

Premier King, who was elected honorary president, was congratulated in a resolution on the result of the Government's labors in its first year of power.

FORMER QUEEN OF MONTENEGRO ILL; SLIGHT HOPE

London, March 9.—A dispatch to The Times from Milan says former Queen Milena, of Montenegro, is critically ill, and slight hope is held out for her recovery.

REMARKS STARTED DEBT DISCUSSION; GEORGE HARVEY

The discussion of the Balfour note on the British debt to the United States which led up to the Earl of Balfour's statement in the House of Lords yesterday was brought about by remarks made by Col. George Harvey, United States Ambassador to Great Britain.

SUGGESTS ENDING OF DISCUSSION

Manchester Guardian Deals With Balfour British-U.S. Debt Note

Balfour Says Ambassador Harvey's Remarks Not Justified

Manchester, Eng., March 9.—The Manchester Guardian, commenting editorially on the Earl of Balfour's address in the House of Lords yesterday, says:

"It seems to us a little unfortunate that the United States Ambassador should have challenged and virtually asked the British Government to withdraw a certain passage in the Balfour note of last August.

"Our debt to the United States now has been definitely arranged on terms which probably do not dissatisfy one party more than they do the other. It would probably be a good thing if the discussion was allowed to drop."

Lord Balfour, who was Secretary for Foreign Affairs in the Lloyd George Cabinet, declared in a statement made in the House of Lords yesterday that his circular note to the Allies on the subject of inter-Ally debts did not deserve the strictures passed upon it by United States Ambassador Harvey in his recent speech here.

He said that "from a strictly commercial viewpoint, Ambassador Harvey's statements might be correct, but it is not the business of a commercial agent of a government to finance the European Allies, there would have been no United States troops in Britain and many commercial and international arrangements would have followed another course. He indicated any idea of questioning the American decision, but said it involved Great Britain in continuing to bear a double burden.

U.S. ARMY UNITS AT BORDER TO STOP LIQUOR SUGGESTED

Chicago, March 9.—Colonel A. C. Earnshaw, chief of the special intelligence unit of the United States Internal Revenue Department in the Central States, asserted in a statement made public to-day that runners from Canada are operating in open defiance of border guards. He said his investigators had seen piles of cases of liquor on the Canadian side waiting to be brought into the United States after nightfall.

Only mobilization of regular army units for border-service could prevent the smuggling, Colonel Earnshaw said.

POLISH DELEGATES AT MOSCOW TO DRAFT TREATY

Moscow, March 9.—The Polish delegates to the conference which will attempt to draft a commercial treaty between Poland and Russia have arrived here and the negotiations are expected to begin forthwith.

TWO WINNIPEG BOYS MISSING; SEARCH FAILS

Winnipeg, March 9.—Although police and citizens had conducted a city-wide search, there was no trace early to-day of Sidney Morris, five-year-old boy, and Harvey Simpson, 4½ years old, who have been missing from their homes in the West End of the city since late Wednesday afternoon.

STEP TOWARD LIBERAL REUNION

No Ties Between Lloyd George and Extreme British Conservatives

Seventy Liberals Favoring Reunion to Meet March 12

London, March 9.—(Canadian Press Cable)—The correspondence between Mr. Lloyd George and Major Entwistle, the Liberal member for South-west Hull, in which it was declared the former Premier's centre party idea had been abandoned, is regarded in the lobby of the House as a distinct advance in the direction of reunion of the two Liberal groups. It is stated authoritatively that no political ties whatever now exist between Lloyd George and the extreme Conservatives who are not included in the present Government. The understanding between the two wings of the late Cabinet which led to the presence of Lord Birkenhead and Austin Chamberlain on Lloyd George's platform in the general election last fall has been abandoned by both sides.

It is recognized that in the event of a Liberal reunion some half-dozen Lloyd George Liberals would transfer their support to the Hon. Law Government in conformity with election pledges.

A further development is expected on March 12, when seventy Liberals who recently adopted a resolution in favor of reunion will meet again to consider the question.

EXPLOSION KILLED TWO NAVY MEN

Torpedo Blew Up in British Cruiser Coventry

Four Men Injured; Cruiser at Gibraltar

Gibraltar, March 9.—Two sailors were killed and four were injured, two of them probably mortally, as the result of a torpedo explosion on board the British cruiser Coventry last night. The cause of the explosion is undetermined and the damage to the vessel has not been ascertained.

The Coventry is a light cruiser of 4,190 tons displacement and a normal complement of 327 men. She formerly was named the Corsair.

LOCKED IN VAULT FOR FIVE HOURS

Youth in New Jersey Rescued After Strenuous Effort

Paterson, N. J., March 9.—Charles Di Giacomma, nineteen, was in a serious condition in a hospital to-day as a result of his experience last night when he was accidentally locked in a concrete and steel vault for five hours of feverish, unceasing toil by the rescue and who had collapsed and died their way to him while he waited breathlessly outside for word of his fate.

The first judgment of the attending physicians was that Di Giacomma would recover. Some thought his mind might have been affected by the rescue and he was taken to the People's Park Bank.

HOSPITAL CARE OF INDIGENTS WAS DEBATED

Edmonton, March 9.—In an attack on the bill amending the Town Act Calgary members of the Alberta Legislature yesterday afternoon attacked with some old claims of contention which limit the public liability for the care of indigents at municipal hospitals to \$200 in the case of towns and \$100 in the case of villages and rural municipalities.

R. C. Marshall and W. M. Davidson, of Calgary, criticized the maximum claim that it was unreasonable to city hospitals and city taxpayers, and that the province at large should assume the cost of such cases if the home municipality of the indigents could not. Their contentions were supported by A. R. McLennan, Edmonton.

270 GERMAN POLICE PUT OUT OF DORTMUND BY FRENCH SOLDIERS

Members of Former Force Arrested and Expelled; Germans Say They Will Send Several Hundred Thousand Children Out of Occupied Zone.

Essen, March 9.—The French troops have again been drawn from Dortmund, which was occupied yesterday for the purpose of rounding up all the members of the disbanded Security Police still at large. The city was searched by the French soldiers and 270 of the Security force members were arrested and expelled.

Bochum, March 9.—The task undertaken by the Germans of sending several hundred thousand children from the trouble zone has been begun. Five hundred youngsters from three to seven years of age were sent from here by special train yesterday to Bremen, where they will be distributed among private families to be cared for until the trouble blows over.

LADY ASTOR'S BILL ADOPTED

Measure Affecting Liquor Given Third Reading by Commons

London, March 9.—The bill sponsored by Lady Astor to prohibit the sale of intoxicants to youths under sixteen for consumption on the premises where it is sold, passed its third reading in the House this afternoon by a vote of 338 to 56 after closure had been voted 235 to 70.

London, March 9.—Lady Astor, moving in the House of Commons to-day the second reading of her bill to prohibit the sale of intoxicants to youths under sixteen for consumption on the premises, delivered an address replete with witticisms to an attentive and frequently amused House.

The bill, she declared, was designed to protect the adolescents—their health, self-control and powers of resistance—and remove boys and girls from the environment of the public house. It was already illegal, she pointed out, to sell liquor to those under fourteen and her bill merely changed the age limit, because it was generally understood that persons were still youths at eighteen.

Regarding the suggestion that the bill should apply to only one sex, Lady Astor declared sex discrimination in this subject should not be tolerated. She wanted to "give the spirit and not the spirit a chance."

A great deal was heard about what the United States had done, remarked Lady Astor, but one never heard much about the Dominions, all of which had such measures as this. If they could do this, Britain ought not to lag behind. There also were similarities in Sweden, Norway and Poland and, she thought, in France.

Attacks on Railways. Sabotage of the railways and the telegraph and telephone lines continues. A telephone pole at Kettwig was laid across the tracks last night in an effort to wreck a train. Rocks were thrown at the tracks near Niedrich for the same purpose. Both attempts were discovered in time to prevent a crash. Several cars were derailed near Coblenz.

Relief Fund. Berlin, March 9.—The Tareblatt says that the relief fund now exceeds 10,000,000,000 marks. It is officially stated that 2,500,000,000 paper marks have been received from Austria, Brazil, Argentina, Chile, Mexico and Japan, as well as from Barcelona, Belgrade and Athens.

FUNERAL SETTLEMENT ON REPARATIONS

Sought by Poincare at Brussels Conference

Paris, March 9.—The outstanding feature in the Brussels Premier Poincare's visit next week to Brussels for the purpose of conferring with Premier Thunberg is that the French are determined to insist on a complete cleaning up of the reparations question should Germany make overtures for a settlement. Opponents here believe that the whole reparations question will be gone into so thoroughly by the two Presidents that there may be a final and total settlement of the whole matter.

If the French have any defined plan, M. Poincare has given no intimation of it.

French Position. The French position, it is stated, turns of whether France is willing to accept reparations or is seeking national security. It is on these two points that French public opinion itself, apparently, is divided.

Another suggestion is an internationally controlled State under the League of Nations, or one policed by the Allies. Still another plan is to neutralize the entire zone. All these suggestions led to one object—to prevent Germany from touching French soil.

TO ADGRANTS FOR BUREAU Tourist Trade Group Will Help Campaign with Municipalities

A small committee was appointed, on the motion of Russell Ker, at the luncheon of the Tourist Trade Group of the Chamber of Commerce this afternoon, to assist the Publicity Bureau in securing grants from neighboring municipalities.

It was decided that two representatives from the tourist group should attend the meeting of the celebration committee at the City Hall this evening, to discuss the programme, and the proposals for financing it.

Private Tours. D. W. Poupard offered a resolution that various service clubs and other organizations be asked to send two representatives to consider arranging privately conducted tours on Vancouver Island.

HONGKONG BOASTS SEPARATE SCHOOLS. (Continued from page 1.) as British Columbia should not have separate schools too.

It is interesting to note that education is not compulsory in Hongkong but all schools are State-inspected, and required to maintain a certain standard of efficiency.

Traveling on the same boat were a number of Russian officials of the old regime. There were also a large number of students.

400 HERE LOSE HARD EARNED MONEY IN STEEL CRASH. (Continued from page 1.)

Stockholders here went to the Royal Bank Building to find out what had become of their investments, but found the office closed.

Preferred Stock Sold. Steel sold here was preferred stock bearing 7 per cent dividends annually, with a bonus of half a share of common stock for each preferred share.

Stock to the People. From eight to a dozen trained salesmen operated in this district. They sold the stock chiefly on the strength of the great success of the Woolworth Company, which they said Steel was going to duplicate in Seattle.

Shipments to Great Britain and United States Increase. Ottawa, March 9.—Canadian wheat exported to the United Kingdom during February was 5,278,853 bushels, valued at \$5,245,020, considerably more than for February last year.

These plans brought persons with small savings and unaccustomed to finance into the company in droves. Stock salesmen were operating on a basis of 25 per cent commission and costs of the amount each investor put in, according to evidence given out from the head offices of the company in the East, and substantiated from information obtained here to-day.

paid only 5 or 10 per cent interest, and gave no chance to make any big money, while the Steel stock was a preferred stock to pay 7 per cent interest a year, and went the way of common stock which was to rise quickly and net the investors enormous profits.

Traded Bonds. One young woman here traded her \$2,000 of Victory Bonds which was her father's savings, and had her on his death, for Steel stock. She did this after promising the head of a reliable bond house in this city that she would not do anything with the bonds to jeopardize any investment and savings she had.

Octogenarian Caught. A woman in this city, 81 years old, was grief-stricken to-day when she learned that her savings of \$2,000, all her savings amounted to a little more than \$1,000. She put \$1,000 into the Steel stock in one sum, on the promise that it would give her \$100 a month for life.

A prominent doctor here is down on the Steel stock. To-day he was told he had better wipe the whole thing out at once as a total loss.

Another man who went to the Steel office to-day bewailed the fact that he and his wife had put their whole savings of \$1,500 into the Steel stock, and that it would give them a return of at least \$100 a month for life. Now they have nothing except what he earns at a precarious trade.

Scores of smaller investors, stenographers and other young girls and other persons who had put small savings running from \$100 to \$1,000 were anxiously trying to-day to get information about the Steel company.

Every house in Victoria was covered, and every resident catalogued. The volunteers in the Steel office were "see" every householder. If the householder did not buy the first time he was to be seen a second time, and a third time before being abandoned as impossible.

From the returns in their office, salesmen saw that the Steel stock had one person in every nine canvassed bought stock.

BALFOUR NOTE DISCUSSION ENDS. London, March 9.—The Earl of Balfour's defence in the House of Lords yesterday of his now-famous note regarding the Empire, and his debts may be taken as the final curtain in the wrangling over these debts.

It is emphasized that Lord Balfour spoke entirely on his own behalf, with the Government authority or responsibility, but at the same time it is pointed out that Forester Secretary Curzon was on hand with data regarding the debts, ready to follow Lord Balfour and contradict any of his statements which might be unacceptable to the Government.

Mr. Harvey's view of Lord Balfour's speech is unavailable here, as the United States Ambassador left this morning for a vacation of two weeks at the seashore.

MUCH DISPLEASED AT PRAIRIE CLUB Tourist Trade Group Discusses Petition to City Council

Emphatic condemnation of the Prairie Club was expressed at the luncheon to-day of the Tourist Trade Group of the Chamber of Commerce, their anger being aroused by the action of the Prairie Club in sending a petition to the City Council suggesting that the appropriation for the Publicity Bureau be reduced to \$10,000, and alleging that the work of the bureau was not responsible for bringing people from the prairie to the coast.

Frank Waring declared that the action of the Prairie Club was due to the fact that a difference had arisen over the free entertainments being put on weekly for visitors to the city at the Chamber of Commerce auditorium. The Prairie Club had agreed to take charge of two of these entertainments, but had insisted on being allowed to charge an entrance fee, although granted the use of the Auditorium without charge.

Take No Action. "Then," said he, "the secretary, who had come to me on the subject, went up in the air."

He told them that if they wanted to charge an entrance fee at the entrance, he would support them in making money out of the tourists, and I said no.

THE KING'S SHARE IN GOVERNMENT'S WORK

London, March 9.—(Canadian Press Cable)—That the British sovereign is by no means the automaton he is sometimes supposed to be was a statement made by Lord Haldane in the House of Lords in the course of a discussion raised by Lord Southborough, who wanted to know

whether the Government was introducing legislation recommended by the report of the Royal Commission on the distribution of honors. Lord Haldane said much misunderstanding existed regarding the King's relations with his Ministers. His Majesty did not automatically approve all the Ministers told him. He not only had the right to ask for a more minute explanation, but could criticize in what might be very effective fashion.

COMMITTEES

LACKED POWERS

Defects in Instructions to Ottawa Groups Committees Were Not Called On to Report

Ottawa, March 9.—Because of alleged faulty orders of reference from the House, a peculiar situation arose in connection with some of the committees of the Commons to which were referred matters arising in the chamber. Committees, on meeting, found themselves without power to make reports to the House. This was the dilemma of the special committee on the Redistribution Bill, the chairman of which, E. M. Macdonald, felt obliged to report "from time to time." The order of reference to the special committee on agricultural conditions had the same defect in it and a motion was introduced by R. McMaster, Brome, was necessary in order that the committee should have the full powers with which the House intended to endow it.

Banking Committee In the case of the Banking and Commerce Committee, to which was referred William Irvine's resolution on credit, a most curious situation has arisen. This reference, it is claimed by officials of the House legal department, would confine the committee solely to discussion of whether or not a special committee should be appointed, whereas the intention of the House was to have the credit problem investigated by the Banking Committee.

11,648 SETTLERS TO AUSTRALIA

450 to Ontario and 2,000 to New Zealand Under British Scheme

London, March 9.—(Canadian Press Cable)—In a debate in the House of Commons yesterday, the Government, in which members of the Labor Party repeated their complaints that inadequate provision had been made by the Government to meet the situation, Sir Montague Barlow, Minister of Labor, said the work of making agreements with the Dominions regarding Empire settlement was proceeding smoothly and rapidly. Approval had been given for 11,648 assisted passages to Australia, 2,000 to New Zealand and 450 to Ontario.

The Minister said the Government had schemes in view which would provide machinery whereby both sexes could be brought in and all complete units sent to the Dominions. Sir J. Norton Griffiths complained that the existing emigration machinery was inadequate and urged the Minister to take over the emigration department from the Colonial Office and concentrate his attention upon it.

TO SET STANDARD FOR EXPORT CATTLE

Canadian Parliament Asked to Pass Bill Governing Shipments to Britain

Ottawa, March 9.—Dr. J. H. Grisdale, Deputy Minister of Agriculture, dealing with the shipment of cattle from Canada to the United Kingdom under the new regulations following removal of the British embargo, yesterday told the special committee of the Commons investigating agricultural conditions, that it was proposed to bring down a Government bill next week which would provide that export cattle must reach a certain standard. Canadian cattle for Britain would be tagged and numbered. The British authorities had demanded that a veterinary inspector cross the ocean with each ship load, and this would require temporary employment of veterinaries by the Government at the beginning at least.

Ports Ready. Dr. Grisdale said the ports of Dundee, Birkenhead, Newcastle and Manchester would be ready for reception of Canadian store cattle by April 1, and Bristol and Cardiff soon after. He estimated that 100,000 store cattle would go from Canada this year, though some British interests expected ten times as many. Irish cattle, said Dr. Grisdale, were better than the average Canadian article, though not equal to Canada's best. The cost of delivering an average animal from Winnipeg into the hands of the British farmer would be \$45 to \$50. The animal would bring from \$118 to \$120. Some members of the committee thought this would leave very little recompense for the Western farmer.

TRY SULPHUR ON AN ECZEMA SKIN

Costs Little and Overcomes Trouble Almost Over Night

Any breaking out of the skin, even flery, itching eczema, can be quickly overcome by applying Mentho-Sulphur, declares a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth. It seldom fails to relieve the torment without delay. Sufferers from skin trouble should obtain a small jar of Bowles Mentho-Sulphur from any good druggist and use it like cold cream. (Adv.)

UNION APPROVED

BY PRESBYTERIANS

British Columbia Synod Vote Favoring Church Plan 64 to 27

Vancouver, March 9.—The British Columbia Synod of the Presbyterian Church last night, expressed its approval of union with the Methodist and Congregational churches. The synod defeated, by 62 to 23, an amendment urging postponement of the issue. The affirmative resolution was supported 64 to 27. It was introduced by Rev. Dr. J. R. Robertson, retiring Moderator, and Judge Swanson, of Kamloops, and read as follows:

"It is resolved that the Synod of British Columbia, declares its full approval of the expressed policy of the church looking to union with the Methodist and Congregational churches, and now urges the General Assembly to proceed to the consummation of union as expeditiously as possible. The dissenting amendment was proposed by Rev. J. D. McLaren, of Vancouver, and Rev. Dr. W. L. Clay, of Victoria.

Although declaring himself a "unionist," Dr. McLaren, in his amendment, urged that the Synod of British Columbia, "viewing with apprehension the apparently inevitable disruption of the church should union be consummated under present conditions," send an overture to the General Assembly to proceed in the meantime along the line of (1) further extension of the principle of co-operation whereby overlapping will be eliminated in aid-receiving congregations, social service institutions and theological colleges; (2) an effort to bring together for conferences the advocates and opponents of union. Dr. McLaren voiced himself as strongly in favor of the union question being postponed until it could be passed un-animously. Rev. A. E. Cooke addressed the Synod later on "Prohibition." Introduction of the budget and the passage of a resolution approving of steps taken to curb the drug traffic were other important businesses of the day.

WARM SCENE OCCURS IN COURT OF APPEAL

Two Justices Mark Their Disapproval by Leaving the Bench

Vancouver, March 9.—An unusual scene occurred in the court of Appeal here yesterday, when Justice Martin and McPhillips withdrew temporarily from the bench. The trouble arose when J. S. Jamieson, counsel for the respondent in the case of the Alberta Lumber Co. appealing from a judgment for \$1,500 in favor of the Pioneer Lumber Co. opposed the application for an extension of time for filing the appeal and proposed to support his opposition by reading an affidavit made by himself.

Mr. Justice Martin and Mr. Justice McPhillips interposed that it was most improper for counsel to read his own affidavit. Chief Justice Macdonald and Mr. Justice Gallier held a contrary view and consented to hear the application. Mr. Justice Martin and Mr. Justice McPhillips then announced their refusal and withdrew their chairs to show they were not members of the court.

At the conclusion of argument, Chief Justice Macdonald and Mr. Justice Gallier stated the application would be granted. "There has been no valid order pronounced by this court," stated Mr. Justice Martin. "A majority of the court is necessary to constitute a quorum and the court has not, therefore, been properly constituted. The proceedings are non-judicial. With all respect the judgment pronounced is null and void. The order is a nullity because there was no quorum," agreed Mr. Justice McPhillips. "Even if it is conceded Mr. Jamieson should not have read his own affidavit," said Chief Justice Macdonald, "it is a matter of professional etiquette and proper conduct by counsel. I had no right to refuse the motion; but if there is any doubt, the motion can be made to me in chambers when I will hear it."

After some further dispute, Chief Justice Macdonald closed the incident by repeating that A. H. MacNeil, K. C. representing the Alberta Lumber Co., could renew his application in chambers.

WASHINGTON GIRL MURDERED; YOUTH IS IN CUSTODY

Vancouver, Wash., March 9.—Aimee Nosko, an eleven-year-old school girl who resided with her parents, Mr. and Mrs. Paul Nosko, on a farm about one mile northeast of Battle Ground, in this county, was attacked while returning home from school yesterday afternoon and then murdered by her assailant. Her throat was cut and her head crushed. Edward Whitefield, twenty years old, a nephew of Joseph Tule, a farmer of the Battle Ground district, is held in jail here, suspected of being the assailant and murderer of the girl. The sheriff announced that a charge of first degree murder would be preferred against Whitefield.

MAN FROZEN TO DEATH IN ALASKA

Nome, Alaska, March 9.—W. O. Marx, United States Commissioner at Teller, was frozen to death on an unmarked trail between Teller and Shishmaref, February 27, according to advices from Teller. A companion named Reed, who became separated from Marx in a blinding snowstorm, finally reached Teller safely and organized a search party. The body was found twenty-five miles from Teller. Searchers said that Marx, finding his companion missing, had evidently back-trailed several miles and had fallen over a high precipice. Apparently unharmed, he had continued in the direction of Teller until over-come by cold. (Adv.)

NEW LABOR M.P. WAS WELCOMED

Cheers When J. H. Hayes Took Seat in British Commons

London, March 9.—(Canadian Press Cable)—The recent Government defeat in by-election in the Edgehill Division of Liverpool was recalled yesterday in the House of Commons in an amusing incident. Premier Bonar Law, replying to a question as to whether the new rent bill would be available this week, said: "No. Certain changes have taken place which make that impossible." Loud cheers followed this remark. "There is one of them coming in now," Jack Jones, Labor member, shouted, referring to the new Labor member for Edgehill, J. H. Hayes, who was about to take his seat. This

sally was received with laughter and cheers by the Opposition. Hayes, the new member, then took his seat amid Labor cheers and cries of "three cheers for the force." This had reference to the fact that Hayes formerly was a policeman.

BRUCE CABINET UPHELD ON VOTE

Effort of Australian Laborites Failed; Empire Conferences

Melbourne, March 9.—(Canadian Press Cable)—The Labor motion for a vote of censure on the Bruce Government in the Federal House of Representatives was defeated yesterday 22 to 20, the House dividing on party lines. Leaders of the Labor Party show an increasing disinclination to allow Premier Bruce to go to Britain to take part in the Imperial and Economic Conference without a debate first being held in the Australian Parliament, in which general guidance

might be imparted as to the lines Parliament wishes to take in London.

WHERE IS OUR FAITH?

If the people of Victoria had been asked to supply \$200,000 for the development of this community to a point at which its appeal to the tourist would have been at least doubled, how much cash would have been obtained? It is not possible to furnish the answer. One can only compare the result of the Community Chest campaign, and the many expressions of opinion as to what should be spent on publicity for real business, with the ease with which a Buffalo corporation extracted possibly \$200,000 from people in this city.

While the losers in this enterprise are entitled to sympathy it is to be hoped that the condition of the concern in question will bring home to the people of this country the absolute necessity for Canadian initiative and Canadian faith in the employment of Canadian capital. As long as we send our dollars out of the country and let foreign capital do our developing we shall continue to put tribute to outside interests in the economic sense. If Canadians were without opportunity to put their dollars to work in their own country it would be an entirely different matter.

There is nothing the matter with this Island or this Province. British Columbia's wealth in natural resources needs no detailing here. Every school boy knows all about it. The chief cause of tardy development is the absence of faith and enterprise on the part of the people themselves. In view of these circumstances it is no use grumbling about the exodus of the younger citizens to California or to other parts of the United States. They can be held here to their own and the Province's advantage when there is something for them to do. Every \$100,000 invested here will be followed by a commensurate increase in development and population.

British Columbia should heed the lesson which the condition of the concern referred to so obviously teaches. Victoria in particular should mark well how much could have been done here if the money which went into the pot at Buffalo had been put to work in Greater Victoria. Think of it. Practically half the amount required for an Amusement Centre would now have been available in cash—not promises. For the Buffalo concern would not be interested in personal credentials and an undertaking to pay.

BRITISH EMIGRATION.

The report from London that more people of the United Kingdom are emigrating to the United States than to all the British Dominions combined no doubt will surprise those who have not been aware of the distribution of British emigration during the last century. It has been a rarely exceptional year in which this condition has not existed. The average British emigrant is just like the average emigrant of any other country. His movements are directed by his conception of what is best in his own interest. He may be wrong in the choice of his place of residence, but when he has discovered his error he goes somewhere else and again he is guided entirely by self-interest. We are confident a majority of the British emigrants eventually will be convinced that Canada is the best place for them to go to, but they are not going to be influenced for most part by the fact that Canada is a section of the British Empire or by any other national of imperial consideration, any more than these circumstances have influenced them in the past. British emigration in the main is as free from sentiment as British trade or British investment has been. Britain has traded and invested where it has been most profitable for her to trade and invest, regardless of locality. That is how she became the greatest trading nation in the world. Hence, it is just as well to remember in the light of the report from London of the movement of British emigration that emigrants from the United Kingdom will not go to Canada merely because it is Canada or because this Dominion is under the same flag, but only if they are shown that their well-being can be best advanced here.

THE BIG SHIP USELESS.

Reduction in British naval expenditure for the ensuing year is tantamount to an official recognition of the late Lord Fisher's dictum in respect of the capital ship. It is a recognition that the creator of the dreadnaught, who visualized the late conflict and prepared for it in strength of broadsides was right when at the strength of broadsides was right when at the close of his life he overthrew all his own theories, virtually demanding that the big ship be scrapped and not left as an easy prey to the submarine and the bomber. In other words the British Government realizes that an aerial torpedo costing about the price of a sixteen-inch shell may send a \$45,000,000 battleship to the bottom as if it were a raft of reeds. And the average individual who reads his newspaper will have seen hundreds of pictures of aeroplanes experimenting upon obsolete battleships—a recognition that aircraft has everything before it while the battleship cannot keep the pace.

Nobody in Britain will worry about British markets abroad. Most people know by this time that the British flag has been carried to the uttermost corners of the earth through the enterprise and farsightedness of the merchant who seldom thinks in any terms outside the terms of plain commerce. Battleships and the glorious tradition of the British Navy have their place in his mental outlook. He does not lose sight of

historical lessons. But he is not convinced that the enormous outlay required to maintain a great fleet is at all necessary to his commercial future. He will still depend upon the ubiquitous "tramp" steamer that carries his products across the seven seas. He knows the flag commands respect everywhere.

MR. BOWSER EMBRACES COUPE.

Local Liberals will be interested to learn that Mr. Bowser is of the opinion that conditions on Vancouver Island are favorable to the party which he leads in the Legislature. But we observe that the Opposition chieftain preferred to give publicity to this optimistic announcement in the City of Vancouver and not in Victoria.

We can imagine how a similar statement would be welcomed by a gathering of intelligent people who are more directly concerned about the political representation of this Island than are Mr. Bowser's own constituents. The Leader of the Opposition ought to know by this time that he and his party are beyond redemption by the Coupe route.

AN ANGLO-AMERICAN WEDDING?

Ambassador Harvey says the Prince of Wales crept into America's heart when he visited our neighbor to the South a year or so ago. Lady Nancy Astor calls the heir to the throne the greatest Anglo-American link.

The official representative of the United States to Britain did not have to draw upon his imagination very extensively to pay his compliment to the Prince. He could turn up the files of any American illustrated newspaper during the period in question and literally feel the warmth of the welcome in the wealth of pictorial evidence. The member for Plymouth did not err in using the same text for her own compliment. All of which once more encourages the hope that the Prince will direct his gaze towards the West when he finally makes up his mind to emulate his younger brother and take unto himself a wife. He will be able to renew American associations when he attends the American Legion's masquerade in London on March 23.

If the Prince crept into America's heart on one brief visit what could he not accomplish if he were to link the two countries at Hymen's altar? What an Entente!

NOTE AND COMMENT

Great Britain is carrying out the terms of the Washington disarmament pact. In doing so she is saving the taxpayers' money and the safety of the British Empire is by no means imperiled.

Nationalist Turkey objects to the terms of the Treaty produced by the Lausanne Conference and will not subscribe to them. But this does not mean war; it is the old Turkish trick of delay. Sooner or later the Ankara Government will sign this document or some other with similar or modified effect.

Any German who discovers a German girl associating with a Frenchman may cut off her hair and get a reward of 200,000 marks from the German Nationalist Party. The scientists of the Fatherland thought up a few nice little forms of torture early in the war. Apparently Teutonic imagination has not been allowed full play in this instance.

We trust the City Council will decide to-day to offer a reward for the apprehension of the murderer of young Lorenz. We hope also that the Police Commissioners will employ every means within their power in facilitating the search for the culprit. There should be no cessation of the hunt no matter how long it may take.

King George is a progressive monarch and not likely to let the Court suffer from the doldrums and get the Throne unpopular with any section of the people. The Labor leaders are going to Buckingham Palace to dinner and the King and Queen will not be backward in asking questions and learning as much as they can. Both are essentially thorough.

Dr. Tsur is reported to have told the Women's Canadian Club of Montreal that some of the Chinese jails were cleaner than the immigration detention buildings on this coast. If that is true then Chinese jails must be the cleanest places in China. When we recall the vigilance our authorities have had to exercise to let the sunlight and fresh air into Chinatown here during the last twenty years, Dr. Tsur's contrast strikes us as rather suggestive, to say the least.

OUR CONTEMPORARIES

FAIR TRIBUTE
London Free Press.—Bonar Law is perhaps best compared to Sir Robert Borden. Like Borden, he lacks personality, magnetism, but he has Borden's sound judgment, his sincerity, his patriotism, his executive ability, his courage, and his industry.

THE SALARY DOESN'T MATTER
Edmonton Bulletin.—Sir Henry Thornton is to get \$50,000 per year for managing the National Railway system. He will earn the money and be cheap at the price if he can bring the revenues and expenditures of the system into any reasonable relationship. It is better to pay a fifty thousand dollar salary than a fifty million dollar deficit.

WASTING "WHITE COAL"
Montreal Herald.—We cannot live in this country without cheap heating. Nature has provided the means to get it. Take Montreal, for instance, within a few miles of this city there are millions of horse-powers going to waste—the "white coal" of our great rivers. There is a source of heat that is inexhaustible and that would make Montreal and a large district around it absolutely independent of coal for ever. And why is this source of heat not utilized for general heating purposes? Because we have no men big enough to tackle the job. The pessimist says "You cannot manufacture electric heat from water power at a commercial rate, because the plant would be lying idle all summer." But stern necessity, the mother of invention, is already saying to us "You must do it, or perish." And we shall do it sooner or later, the sooner the better.

SAANICH SCHOOL BOARD.

To the Editor.—Your reporter's version of statements made at a recent meeting of the Saanich School Board did not come under my ken, so that I am not in actual possession of the cause of Mr. J. O. Welch's scorching criticism in to-day's Times.

During my term of service no Trustee has at any time objected to the payment of substitutes during temporary absence of teachers. The matter has been compelled to make such payments under a new provision of the B. C. School Regulations was proper a matter for comment by members of the School Board. The members of the teaching profession in Saanich are held to high standards almost without exception by those best qualified to judge, the Saanich School Board. Educational work, and it is to be deplored that small and perhaps unguarded remarks of Trustee Welch should be published to cause unnecessary recriminations in the case under review.

To state that a "staggering insinuation" was made by Mr. Welch is an ordinary and fair-play are not the rule of action of Saanich Trustees may be set down as a matter of fact. No doubt the Trustees will in future endeavor to disturb the recently appointed head of the Saanich Teachers' Institute as PHILIP HOLLOWAY, Trustee.

THE PEACE SOCIETY IN VICTORIA.

To the Editor.—Allow me a little space your paper to state my views on the attitude of some of our British friends to the recently formed Peace Society. I had the privilege of listening to Professor Odium during one of his visits to Victoria. My deepest feelings are that the Peace Society is a disgrace to the name of Peace. I have since then given much thought to the subject, and when I hear Christian men advocate that we should worship a War God if they can reconcile it with the teaching of Jesus. Jesus, according to my reading of His life, never handled a sword, and I conclude never will. His whole life and spirit are opposed to war. If the sword shall perish with the sword, if the interpretation is correct, it seems to me the logical conclusion is that God must perish with the sword. To make the statement is sufficient to refute it. In my humble judgment we must not rest the prophecies in the light of the fulfilment of the spirit of Jesus. I cannot imagine Jesus, the Jesus of the New Testament, killing anyone, since He said "I came not to destroy the law but to save it." Further, He commanded us to love our enemies. I would not that He intended this to cover our national enemies and this would include Turks and Russians. We are to go with the sword. I do not believe in the passage of Scripture that says "The righteous shall slay either the Russians or the Turks." I believe that we should love them and take to them the Gospel of Peace. The object of the Society for the Promotion of Peace is to bring the Brotherhood of the Churches is certainly a one can deny this fact, doing the will of Jesus in spreading the gospel of goodwill. War is destruction and is the Jew's worst enemy. Jesus came to give us by giving love. God is love. He is the Father of all and loves all, even the Turk and Russian. It is not the teaching of the "Prodigal Son." The father in that parable loved the boy who had been lost with as deep a love as he loved the one at home. God loves more than a man. If we, being evil, love our prodigals, how much more our Father in Heaven whose love is perfect. God is no respecter of persons. Whosoever he be or whatever nationality, says Peter, Acts 10, 35, is acceptable to God. He loves the whole world. He sent His Son to die for the world, not for the British and the Jews, and He will one day save the world. He will one day save the whole world through His love and not through war. The mailed fist is of the Evil One, the hand of God is the merciful hand, the open hand, the hand of peace. We are not called to fight against war. The commission given to us in the Sermon on the Mount, which is our guide, runs as follows: "Blessed are they who are persecuted for the sake of the Kingdom of God, for they shall be called the children of God. Are we not doing our work in forming a Peace Society in Victoria? Further, does it not logically follow that the war makers—at least the war agitators—are fighting against the teaching of Jesus? Now, I do not infer that our friends, the British and the Jews, are agitators, but I do claim that Jesus was an agitator, and still is, opposed to the use of arms and warfare. He will never sell His purity by becoming a war maker. War is an evil in itself. We can never cast out evil by evil. Overcome evil by good," says Paul. In other words the only way we shall eliminate the evil or devil of war out of this beautiful world, made world is not by war. No, not even God can eliminate war by war. War can be only by love, or in other words by means of peace and goodwill. I may say in closing I do not wish to enter into a controversy with our friends of the British Empire. The Bible contains more truth than any one man or any society of men can know. The man who can know the whole plans of an infinite and eternal God, no one book, not even the Bible, can contain. The ministers of the Bible, but let our British Israel friends remember that they may have made a mistake. It says in the Book of Genesis: "God repented." Perhaps His plans are conditional, and who knows He may again repent and save our brothers, the Turks and Russians.

If the sword shall perish with the sword, if the interpretation is correct, it seems to me the logical conclusion is that God must perish with the sword. To make the statement is sufficient to refute it. In my humble judgment we must not rest the prophecies in the light of the fulfilment of the spirit of Jesus. I cannot imagine Jesus, the Jesus of the New Testament, killing anyone, since He said "I came not to destroy the law but to save it." Further, He commanded us to love our enemies. I would not that He intended this to cover our national enemies and this would include Turks and Russians. We are to go with the sword. I do not believe in the passage of Scripture that says "The righteous shall slay either the Russians or the Turks." I believe that we should love them and take to them the Gospel of Peace. The object of the Society for the Promotion of Peace is to bring the Brotherhood of the Churches is certainly a one can deny this fact, doing the will of Jesus in spreading the gospel of goodwill. War is destruction and is the Jew's worst enemy. Jesus came to give us by giving love. God is love. He is the Father of all and loves all, even the Turk and Russian. It is not the teaching of the "Prodigal Son." The father in that parable loved the boy who had been lost with as deep a love as he loved the one at home. God loves more than a man. If we, being evil, love our prodigals, how much more our Father in Heaven whose love is perfect. God is no respecter of persons. Whosoever he be or whatever nationality, says Peter, Acts 10, 35, is acceptable to God. He loves the whole world. He sent His Son to die for the world, not for the British and the Jews, and He will one day save the world. He will one day save the whole world through His love and not through war. The mailed fist is

Illuminated Address Among Bridal Gifts To Lady Elizabeth

London, March 9.—Fostershire, son of the estate of the Earl of Strathmore, father of Lady Elizabeth Bowes-Lyon, will present the lady with an illuminated address on the occasion of her marriage to the Duke of York. The decision to send the bride this gift rather than an expensive present was made at a meeting of the people of the county at which a letter from Lord Strathmore was read, urging that, because of the hard times, a large sum should not be spent for a present. Thousands of presents have already been received by the Duke and his fiancée, but many of them have been returned as it is the custom of the Royal Family not to accept a gift from anyone not personally known.

MORE SPACE NEEDED SOLDIERS' GRAVES

I. O. D. E. Ask for Additional Plot in Ross Bay Cemetery
So extensive has become the work of the I. O. D. E. Soldiers' Graves Committee that at yesterday's meeting of the Municipal Chapter, it was decided to approach the City Council with the request that another plot in Ross Bay Cemetery be reserved for soldiers' graves, additional to that granted by the Council in 1918.

CARNIVAL SCENE AT MASQUERADE DANCE
So many beautiful and original costumes were in evidence at the annual masquerade ball of the Knights of Pythias last evening that the judges found their task no sinecure. Nearly 300 dancers crowded the K. of P. Hall, practically all of them in costumes designed by their own hands.

Knights and Sisters of Pythias Joint Hosts Last Evening

ELKS' ANNUAL BALL AGAIN BIG SUCCESS

All the hallmarks of success which have for so long been associated with entertainments arranged by the E. P. O. E. were much in evidence last evening when the Elks held their ninth annual ball. The lodge hall was effectively decorated for the occasion and a crowd numbering over two hundred danced with enjoyment to the gay music provided by Cecil Heaton and his musicians.

STRAWBERRY VALE W.I. HAD BUSY SESSION

Strawberry Vale Women's Institute held their regular monthly meeting in their rooms, Colquhoun, on Tuesday at 2:30 p. m. with a splendid attendance. Plans of work were received for each of the standing committees. It was decided to have a demonstration of the model meeting as soon as possible.

YOUR HOME AND YOU Winter Shrubbery

Just at this time, while Winter still lingers with us and the snow has not yet left the ground, home-makers will find it worth while to study the exteriors of their houses with a view to making them more attractive next year. The suburban cottage, especially, needs to have its connection with the ground softened and partly concealed by the judicious grouping of evergreens, barberry bushes, Rhododendrons, or other shrubs which keep their beauty through the Winter months.

BRILLIANT SOCIAL AFFAIR AT OTTAWA

Cabinet Ministers' Wives Hostesses at Reception Recently

The wives of the Federal Cabinet Ministers held a largely attended reception, dinner and social at Ottawa a few days ago. Among the hostesses were:

Mrs. W. S. Fielding, wife of the Minister of Finance, who was greatly admired in her gown of black embroidered nylon gracefully draped over black satin.

Next stood Mrs. George P. Graham, wife of the Minister of Defence, in a handsome gown of pearl grey crepe de Chine trimmed with silver lace.

Mrs. Ernest Lapointe, wife of the Minister of Marine, was in a lovely gown of black and gold brocade, with emerald ornaments, was worn by Lady Gouin, wife of the Minister of Justice.

Mrs. J. H. King, wife of the Minister of Public Works, was wearing a smartly modelled gown of metallic cloth, entirely embroidered in cut steel beads and she carried a green feather fan.

A simply designed gown of black Spanish lace with jet trimmings and underdress of black silk was worn by Mrs. J. A. Robb, wife of the Minister of Trade and Commerce.

protect the cameras from the blaze. But the best laid plans of mice and cameramen sometimes go astray, for when the production staff came to check up at the finish of the final shooting, they found two cameras had been put out of commission by the terrible heat of the blaze, and five cameramen were so badly burned they required medical aid.

"It was a case of being ten leaps ahead of ourselves," said Mr. Barker when asked why he had twenty cameras, when a much smaller number would have done the work just as well. We wanted to be absolutely safeguarded because of cost of the forest fire was so enormous, and since we could only photograph the blaze for one minute, as it would not have any photographic value after that time, it was very important that we insure ourselves of getting the full value of our efforts. And an even better reason was the importance of catching Anna Q. Nilsson in the cab of the locomotive which she drove through the flames—a feat which almost cost her her life. EDWARD JOHNSON COMING TO ROYAL
"Edward Johnson was the assisting artist of the afternoon," says Karlton Hackett, in the Chicago Evening Post, "and he appeared three times on the program, which gave us an opportunity to enjoy his art in several departments. The excerpt from Andre Chénier shined his best and he made a brilliant display of his powers. His tone was always clear and firm, very telling in the upper tones and he sang the words as if he meant them. It was a dramatic singing of the operatic stage made convincing on the concert platform, which is a severe test for Edward Johnson's voice."

PRESS STEADILY FOR EQUALIZED RATES

(Continued from page 1.) that Mr. E. W. Waddy, President of the C. P. R., would sanction such a statement.

The remarkable thing was that ten days after this statement of Mr. Langman we find that a new political party sprang up in British Columbia. It seems rather a peculiar thing that Mr. Langman says that it is necessary to eliminate 'this man' from public life there is a party launched immediately in Vancouver for that very purpose.

"All I have to say to Mr. Langman is that I don't believe he speaks for the C. P. R. If he does, I am waiting for the C. P. R. to avow the statement that I am to be driven from public life."

Valuable Service. The Premier regretted that men like himself, in public life, should have an evil interpretation put on their efforts, and stated that he would have no objection to laying down the burden of work on behalf of the Province if he could carry to another in United States waters that equality.

Must Pay Duty. As having a bearing on the general question of freight rates and the lower cost of transportation to British Columbia via the Panama Canal, the Premier started his audience by explaining that goods imported from Nova Scotia to Vancouver by the water route had to pay duty.

\$5,512 Collected. Only recently, he added, the Morrison Street and Wire Company, of Vancouver, purchased from the Imperial Steel Company at Sydney, N. S., 550 tons of steel rods to be shipped via the Panama Canal.

Declaration of Loyalty. "Hon. H. H. Oliver says we want a declaration of loyalty to Confederation in view of what I said when in the East. But who is to make that declaration?" asked the Premier.

"No," shouted Mr. Oliver, "I say it is the men who have got the power to make the customs regulations and which, in this case, are absolutely in defiance of the statutes of the country, for the 'North American Act in Section 41 says that down that the products of any province shall be admitted free of duty into every other province of Canada."

Reviewed Efforts. More than an hour of the Premier's address was devoted to a resume of the whole agitation for equalization of rates from the time the Government of the Province decided to tackle the matter. He emphasized the point that under the terms of Confederation British Columbia was entitled to the same method of handling other parts of Canada.

there was held out to the people of this Province the promise of equity. It showed also wherein the Dominion Government had failed to implement its part of the bargain through failure to commence the railway construction within the time specified under the terms of agreement with British Columbia. He also dealt at length with the subsidies given to the C.P.R. Company in the way of land and money grants for the building of the C.P.R. through the mountains.

Saving of \$4,000,000. The order of the Railway Commission had reduced that discrimination by twenty-five per cent, which in itself, he said, represented a saving of an additional \$2,000,000 a year. The removal of the remaining twenty-five per cent would mean the saving of an additional \$2,000,000 a year.

Long Transportation System. The construction of the trans-continental lines, he argued, had in view the opening up of overseas countries, and the British Asiatic possessions. That purpose was amply realized in the trade that was going on to-day with the Orient and the United States.

Great Differences. The Premier quoted a series of comparative figures which showed that had been compiled by A. E. Rumsby, in charge of the Traffic Bureau of the Associated Boards of Trade of British Columbia, which showed the excessive rates that had to be paid in British Columbia and on British Columbia goods as compared with what obtained in other parts of the Dominion.

Intercolonial Railway. He declared the Intercolonial Railway, built by the Government, had always been a losing proposition; not only so, but that a much lower freight rate was enjoyed by the people in Lower Canada than by those in the West.

Port Moody-Kamloops. It was generally understood, added the Premier, that the Dominion Government had been in the process of negotiating with the Federal Government for the construction of the railway from Port Moody to Kamloops, the most costly part of the system in British Columbia.

Railway-Haul. Such a policy, the Premier indicated, had the effect of retaining for the railway company the long and expensive haul of the goods from the Atlantic to the Pacific coast, instead of giving shippers the benefit of the cheap water route. He had urged the Montreal Board of Trade to exert its influence in getting a Canadian customs officer at New York and to urge the British Columbia did not propose to tolerate any longer the kind of treatment in this connection that it had been receiving.

Reviewed Efforts. More than an hour of the Premier's address was devoted to a resume of the whole agitation for equalization of rates from the time the Government of the Province decided to tackle the matter. He emphasized the point that under the terms of Confederation British Columbia was entitled to the same method of handling other parts of Canada.

Great For Bad Coughs and Colds

Make Your Own Medicine and Have the Best There Is.

You'll Say It's Good When All Mucus Disappears and Clean Healthy Membrane is Your Reward.

Here is an inexpensive home made remedy that you can't beat and one that will quickly bring up that phlegm, stop the snuffling, relieve the congested nostrils, make breathing easy and cause stubborn colds and persistent coughs to vacate—many times over night.

Try it right away if you suffer from Catarrh, Cold Coughs or any irritating nose or throat troubles and you'll be glad, you run across this little remedy.

Get from any druggist, one-ounce of Garmint (double strength) add to it a little sugar and enough water to make one-half pint. You can make it in two minutes and when it is mixed you can pride yourself on having a medicine that acts directly on the membrane of the nose and throat and acts so effectively that all phlegm, all tickling and inflammation speedily disappears. Seattle, March 9.—At an expense of \$500,000 the five trans-Pacific liners operated for the United States Shipping Board by the Admiral's Oriental Line are to be reconditioned at this port, work on the steamship President Jackson, one of the five, being started to-day. Work on the other four will be pushed in order to make the ship ready to keep a departure date on next Thursday.

DIESEL ENGINES FOR HOLT VESSELS

One of the two 10,000-ton ships now under construction for Alfred Holt & Co. will be propelled by Still combined steam and Diesel engines. This vessel is building at the plant of Scott's Shipbuilding and Engineering Company. The other, being built by the Caledon Shipbuilding Company, will be equipped with Burmeister & Wain engines.

OBSERVER HERE

The Canadian Government Merchant Marine freighter Canadian Observer, Capt. J. P. Tait, reached port at 5.30 a.m. to-day from San Francisco, where she was en route for local consignees. She left at 11.15 a.m. for Vancouver.

NEWS IN BRIEF

THE HUMPHRIES MOTORS, LTD., WAS CHARGED IN POLICE COURT TO-DAY WITH SPEEDING IN A DEMONSTRATION CAR. THE FINE WAS \$15.

Ward Five Liberals will hold their dance and social evening on Monday, March 12, in the Liberal rooms, Government Street. A short meeting will be held at 7.30. All Liberals are invited.

Victoria Lodge, No. 83, Daughters of St. George, held their regular meeting in Harmony Hall recently, when new members were initiated into the order. Final arrangements also being made for sale of work to be held on March 15, also the whist drive to be held on March 15.

Judgment for \$743, with interest was given by Judge Lammiman this morning on a promissory note, the plaintiff being D. W. G. Coley and the defendant the Direct Supply Association, Ltd. E. L. Tait appeared for the plaintiff. The defendant association was unrepresented.

The regular general meeting of the Veterans of Franco, held last night in the Douglas Street Headquarters, was well attended. The Veterans expressed appreciation of Attorney-General A. M. Manson in his stand for greater preferential treatment in the employment of returned service men. General business was considered.

At a recital in St. Mary's Church, Oak Bay, under the direction of T. R. Myers, organist, a substantial sum was raised in aid of the funds of the Ladies Guild. Mrs. Harry Briggs was heard to advantage in several numbers. Messrs. T. H. Myers, W. Melville and others contributed, the recital being a great success.

A contribution of \$400, given as a thank offering for recovery from sickness, was included in the subscriptions reported yesterday to the Anglican Memorial Hall and Cathedral Buildings Fund. Most of the captains and canvassers are meeting to-night to report results of the canvass made so far in the residential districts of the cathedral parish.

The Victoria Choral Society at its meeting last evening decided that the former officers should remain in office until such time as the re-organization of the society could be carried out. The only change in the officers is the appointment of Mrs. Welsh as secretary. The society hopes to re-commence its activities in the Fall, and in the meantime an active campaign to secure members will be conducted in the city.

The regular monthly meeting of the Victoria branch Army and Navy Veterans of Canada was held last night in the club headquarters, Hamley Building. Major Seymour Rowlinson occupied the chair. A committee of Messrs. T. Jones, H. Davies and J. Quinn were appointed to take up the question of a joint returned soldier's meeting to hear the report on the result of the sessions of the Royal Commission held recently in Vancouver.

Found by Constables Harper and Drover in a hay loft at the Beacon Hill Nursery overnight, Thomas Jones, white haired and elderly, was charged with vagrancy in the City Police Court to-day. The accused stated he had lived for sixteen years in this city, had worked on occasion for the city and other employers. He was in possession of \$2.50 when arrested. The Court acquitted the accused, advising him to leave town and get to work.

Mrs. W. J. Sipprell was the hostess to the Women's Educational Club at its meeting yesterday afternoon at her home when about forty members were present. The feature of the afternoon was the able address given by Mrs. S. Farr, of the High School staff, on the subject, "Modern Progress in Education." Miss Kate Hemming and Mrs. Dilworth contributed musical numbers which were much enjoyed. Mesdames Christie Hopkins and Hall assisted the hostess with the serving of refreshments.

Lee Chow Duck, charged with failure to keep his confectionery and grocery store shut after legal hours of operation, was fined \$20 and \$2.50 costs in Police Court to-day. The accused said his wife was in charge at the time when police officers bought a half pound of tea late on Saturday night. His wife, stated the accused, did not know the law, and normally the groceries were locked up. Constables Reid and Palmer told of the purchase, the half pound of tea being put in as an exhibit. The case was identical with others, held the Court, imposing the fine.

Charged with operating a motorcycle without the necessary 1923 license, Alexander was fined \$5 in Police Court to-day.

SEEK TO KEEP TOURIST BODY IN EXISTENCE

Northwest Tourist Association Must Have Money or Stop Functioning

Efforts to keep the Pacific Northwest Tourist Association in existence in spite of the refusal of the Oregon State Senate to vote the Association its usual grant will be made immediately, according to local businessmen who are interested in northwest tourist work. Now that the Oregon Senate has declined to grant the Association \$25,000 it will be necessary to raise money by private subscription to keep the organization functioning at all, it was explained.

News that the association was in a serious plight on account of the Oregon Senate's attitude was brought to the city yesterday afternoon by P. B. Scurrah, President of the Rotary Club, who returned from a meeting of the Association's directors in Portland.

Two votes by farmer members of the Oregon Senate quashed the usual tourist grant, Mr. Scurrah stated.

"It is a very great pity that the Northwest Tourist Association should not secure the money it needs from Oregon," Alderman A. E. Todd, Honorary President of the Association, said in a statement given to-day on learning of the Oregon Senate's action. "If the Association is to be kept in existence at all, money must be raised by private subscription, and efforts to do this undoubtedly will be made. The Association is very valuable to British Columbia as well as to American States on the Pacific."

Majority Prepares to Quash New Move for Higher Publicity Grant

Following his announcement Tuesday that he would resign from the Victoria and Island Publicity Bureau and the formal submission of his resignation to Mayor Reginald Hayward last night Alderman A. E. Todd made it clear to-day that he would retain his seat on the City Council.

"My resignation from the Publicity Bureau is final and will not be withdrawn even if the Council increases its grant to the Bureau," Alderman Todd told The Times, "I am not resigning from the Council now, having agreed to retain my Aldermanic seat. Nothing will persuade me to resign from the Publicity Bureau after the way the Council has treated it."

Simultaneously it was learned that Alderman Todd was resigning from the Bureau—a move which he forecast at Tuesday's Council meeting. Alderman Leeming, however, refuses to discuss the matter.

Formal receipt of Alderman Todd's resignation from the Publicity Bureau was given to-day by city aldermen, who said they would move that the resignation be received without discussion.

Quash New Move.

At the same time the Council majority which was in charge of increasing the publicity grant, as desired by Alderman Todd and Leeming, prepared to quash any new move to increase the grant to-day. If necessary these aldermen will prevent the question coming up again by insisting that, according to the rules of order, every member of the Council must agree to such a reconsideration. As Alderman J. H. Gillespie, who supported Alderman Todd, said, "I will leave for Britain in a few days, opponents of the higher publicity grant are confident that they can maintain a majority on one vote each."

No Backing and "Filling."

Alderman who killed the \$25,000 grant move declared that Alderman Todd was wrong when he charged the Council with "backing and filling." They said that they stood firm on their determination to make a \$15,000 grant and still stood by that sum. The grant had been fixed some time and had not been changed, he explained. Recent discussions of the matter had been caused not by them but by Alderman Todd and his supporters, they asserted.

Word has been received by Hugh Little, of Saanich, of the death of his brother, Clifford Little, which occurred in California on Monday last, March 5. The late Mr. Little left Victoria a short time ago for the purpose of arranging a hunting trip in the South. He was taken ill with severe gastritis a few days before his death, the news of which came as a great shock to his relatives. It is probable that the body will be brought back to Victoria for interment.

South Africans Plan to Increase Meat Exports

London, March 8.—In the House of Commons yesterday the Government was asked whether its attention had been directed to a proposal of the South African Government to subsidize the exportation of meat and livestock, and whether, if legislative effect is given the proposal, countervailing import duties would be imposed by Great Britain in order to safeguard the interests of home producers.

Sir Robert Sanders, Minister of Agriculture, replied that the possible effect of the South African proposal on the British producers would be carefully considered when further details were available.

CHAMPIONSHIP OF CITY AT STAKE

Annual Typewriting Contest Draws Many Competitors Seeks to Encourage Accuracy and Speed in Service

Over forty contestants are taking part in the annual championship typewriting contest which is being held to-day in the Sprout-Shaw school. The winner will be entitled to be styled champion of Victoria and vicinity, as well as winning the Sprout-Shaw gold medal, and holding the championship cup for one year. The material being used in the contest is the same as is used in the Canadian championship tests which take place in Toronto this evening.

Not only will those competing here have a chance to be ranked first for this district, but the results here will be sent by telegraph to Toronto and the Victoria typists will be given rank in the Canadian championships according to their showing.

There are three divisions among those writing, championship, intermediate and novice, with appropriate prizes in each division, making in all thirteen cups and prizes. These are now on exhibition in the window of Mitchell & Dunsmuir, Limited.

The Awards.

In the first class the Sprout-Shaw challenge cup goes to the winner of the contest to be held for a year; a cup donated by R. J. Scott becomes the property of the winner; for the runner-up there is a cup donated by J. H. Beatty; there are cups donated respectively by H. J. Johnson, manager of the Underwood Typewriter Co., and A. H. Kerr, manager of the Remington Typewriter Co.; an accuracy prize given by Miss Moore of the Victoria High School, and a prize presented by the school for a one-minute test.

In the intermediate class the winner will receive a cup presented by The Times; and the runner-up a prize by Miss Noonan; the school giving a prize for the one-minute test. In the novice class the cup for the winner is presented by The Colonist; the prize for the runner-up by J. R. Jones, and the prize for the one-minute test by the school.

This is the first time this city has been entered in the all-Canada contest. The matter for the use of contestants is prepared by J. N. Kendall, of New York, a stenographic expert, appointed to take charge of such matters by "Office Supplies" and others responsible for the institution of these contests. The parcel from him arrived this morning by express and was opened by Civil Service Commissioner MacInnes in the presence of the other judges, H. H. Smith, principal of the Victoria High School; Rev. Dr. W. Leslie Clay, H. P. Johnson and A. H. Kerr. There were present also representatives of St. Ann's Academy, the Shorthand School and other institutions having representatives among those competing.

The Ultimate Object.

Victoria and Vancouver have the distinction of being the only cities outside of Toronto where contestants are permitted to write for the Canadian championship. The intention is, however, that as soon as possible, arrangements shall be made to have competitors write in all the important centres of the Dominion. These would be in the nature of preliminary or elimination contests, the championship to be eventually decided by bringing the survivors together at some convenient place where they would all write under the same conditions.

Accept New Oak Day Fire Pact Municipality to Pay City \$6,500 Under Andros Agreement

Negotiations of a new fire protection agreement between the city and Oak Bay has been completed, Alderman E. B. Andros, chairman of the city Fire Warden's Committee, announced to-day. He added that the agreement would come before the City Council for ratification on Monday.

Under the new agreement Oak Bay will pay the city \$6,500 a year for fire protection from the Duchess Street Fire Hall instead of \$5,500, paid last year.

"This agreement should be very satisfactory to the city," Alderman Andros said to-day. "We are anxious to close it for three years, but we are doubtful that one Council can bind the next year's Council in this way. However, this phase of the matter is being investigated by the city solicitor now."

Dean Quanton Again President

Dean Quanton was re-elected president of the Royal Society of St. George at the annual meeting held at the Belmont Building last evening. Other officers were elected as follows: First vice-president, C. T. Cross; second vice-president, Alderman J. Harvey; third vice-president, H. J. Pollard; secretary pro tem, Charles Keen; treasurer, H. F. Bishop; standard bearer, W. J. Keen; marshal, Mr. Jowett; auditors, Alderman Harvey and W. J. Alder. The appointment of a chaplain was left to the executive, which comprises the officers and the following: Messrs. George Desville, Pat, W. D. Deaville, F. E. Martineau, Moss, Robert Dinale and Mrs. T. K. Leach.

The treasurer's report showed a gratifying balance in hand, and the secretary reported an increase in membership. Hearty thanks were accorded the officers for their work during the past year. The next executive meeting will be held on Monday, March 19, at 5 p.m. to discuss plans for the annual St. George's Day banquet.

Local Industry in Difficulties

A suit is being heard by Mr. Justice Gregory to-day, in which M. L. Caudwell seeks to recover \$1,000 from F. W. G. George. The allegation is that the plaintiff was induced to lend this sum to the Silver Foam Soap Manufacturing Company on misrepresentations made by the defendant. D. S. Tait is appearing for the plaintiff and Alexis Martin for the defendant.

Major Donald B. Martyn, Deputy Minister of Industry, was the chief witness this morning. He told of himself and the late Joshua Kingham being a special committee to look into an application by the Soap Manufacturing Company for a loan from the Department of Industry. The loan was not recommended by the committee and was turned down by the Minister. Major Martyn was appointed there was some further correspondence about the matter, but nothing was done as the Soap Manufacturing Company went into liquidation.

FAVOR INSPECTION OF SIGHT-SEEING VEHICLES HERE

The Tourist Trade Group of Chamber Petitioned on Matter

That there should be official inspection and regulation of all sight-seeing vehicles, was the suggestion advanced to-day in a letter from sight seeing companies to the Tourist Trade Group of the Chamber of Commerce. The Chamber was asked to support a movement for a civic by-law to this effect. The sight seeing companies also objected to the existing regulations at the Canadian Pacific wharf, the chief complaint made being that the taxi men were given too much latitude.

Howard S. Stevenson said he thought all tourists coming to Victoria should be protected. Every car for hire should be inspected at least once every thirty days, and the driver given a card which he would be bound to show the police on demand. A. Lineham said there were already too many inspectors for too many things. This proposal would have a tendency to create a monopoly for those already in the business.

Considerable discussion took place over the matter. The idea was advanced that those having cars for hire should be obliged to take out accident insurance. Finally the matter was referred to the executive with instructions to report back later.

The allegation is that the plaintiff was induced to lend this sum to the Silver Foam Soap Manufacturing Company on misrepresentations made by the defendant. D. S. Tait is appearing for the plaintiff and Alexis Martin for the defendant.

Major Donald B. Martyn, Deputy Minister of Industry, was the chief witness this morning. He told of himself and the late Joshua Kingham being a special committee to look into an application by the Soap Manufacturing Company for a loan from the Department of Industry. The loan was not recommended by the committee and was turned down by the Minister. Major Martyn was appointed there was some further correspondence about the matter, but nothing was done as the Soap Manufacturing Company went into liquidation.

Frenchmen Asking For Apology Or Will Quit

Odie Cleghorn, Brother of Suspended Player, Says Canadiens Will Not Play in Ottawa To-night Unless Dandurand Retracts Everything—Refuse to Be Made "The Goats"

Ottawa, March 9.—(Canadian Press)—While everybody here looks on to-night's final play-off hockey game against Montreal Canadiens as an easy thing for Ottawa, the Senators themselves are taking no chances and will go out determined to make the score as decisive as possible. Hitchman and Denney, victims of the first play-off battle of Wednesday night, will be in uniform but will not be called upon unless necessary.

MAY CALL A STRIKE

ODIE CLEGHORN

There are those here who believe that Leo Dandurand, the Canadiens' manager, who suspended Cleghorn and Couture, may stage an eleventh-hour repentance and decide to lift the suspension by placing the Canadiens at full strength.

COUGARS ARE WORKING OUT FOR BATTLE ON MONDAY

Leaving the past to take care of itself the Cougars bent their energies to-day towards fitting themselves for the future. They hopped out to the arena this afternoon and went through their paces and to-morrow they plan another light workout. The team will likely cross over to Vancouver on Sunday to be ready for the final game of the play-off against the Maroons on Monday night.

WALSLEY AND IRELAND TO MEET AT RUGBY IN DUBLIN TO-MORROW

London, March 9 (Canadian Press Cable)—The thirty-third annual meeting of the Rugby Football Union will be held in Dublin to-morrow. The game is not surrounded by any special features nor will the result materially affect the international table, which is as follows:

	P.	W.	L.	Pts
Scotland	3	3	0	6
England	2	2	0	4
Wales	3	1	2	6
France	2	0	2	0
Ireland	2	0	2	0

CRICKETERS TO MEET

The annual meeting of the Army and Navy Veterans' cricketers takes place this evening at eight o'clock in the Hamley Building Government Street. Ex-members of the services (all ranks) and non-members of the association are cordially invited to attend. Forget your doubts and turrets and play the game of cricket one half day each week. We are trying to keep our wicket up, so come and give a hand. The invitation issued. Any likely member who cannot attend is asked to phone 2345 for information.

ARGENTINE WILL PLAY FOR DAVIS TROPHY

Buenos Aires, March 9.—The Argentine Lawn Tennis Association announced that Argentine would be contestant for the Davis Cup this year.

Final Rugby Game of Year On To-morrow

J.B.A.A. and V.I.A.A. to Play-off for City Senior Championship

Rugby enthusiasts will have their last chance this season to witness a gridiron battle when the J.B.A.A. and V.I.A.A. meet at the Oak Bay Park to-morrow afternoon at 3 o'clock to see who is to hold the city senior championship for the next year.

The Bays at present hold the trophy but have won it for two years in succession. Their right to win it for three years in a row has been strenuously contested by the V.I.A.A. who have asked that a game be held to determine the champion.

TEAMS PLAY FOR RIGHT TO ENTER SEMI-FINALS OF CUP TIE IN ENGLAND TO-MORROW

London, March 9.—(Canadian Press Cable)—The play-off for the semi-finals of the English Football Association Cup takes place to-morrow, when four games are scheduled for decision. Of the eight teams contesting the cup, only three are first division. Bolton Wanderers, Sheffield United and Tottenham Hotspurs. The second division is represented by a similar number in Southampton, Westham and Derby County, while the Southern section of the Third Division will be championed by Charlton Athletic and Queen's Park Rangers.

Sons Want to Halt Champs Once More This Year; Soccer Games To-morrow

It will not be necessary for the soccer fans to sit tight while their teams to-morrow afternoon as the Victoria and District Football Association has come to the rescue and ordered two First Division games played.

Red Sox and Dodgers May Be Put On Block

Two Major League Ball Clubs May Be Sold, According to Rumor—Some Doubt Expressed as to Whether Deals Will Go Through—Holdouts Reports at Training Camps

New York, March 9.—Basketball circles had two major league clubs on the block to-day—the Boston Americans and Brooklyn Nationals—but although interest in both admittedly was for sale to the highest bidder, doubt was expressed as to the prospects of either changing ownership at present.

SIKES WITH BOSTON

Baseball men regarded the attitude of Mr. McKeever as practically quashing the proposed deal because of an agreement he and his brother are understood to have with Mr. Ebbetts, under the terms of which each party has first option on the other's holdings in the event either desires to sell.

SIKI AND CARPENTIER MAY YET HAVE THEIR 'HONOR' BOUT IN RING

Chicago, March 9.—The controversy over Fitch Babe Benton was settled last night by a decision of K. M. Landis, baseball commissioner, declaring Benton eligible to play in organized baseball.

Teams Play for Right to Enter Semi-Finals of Cup Tie in England To-morrow

London, March 9.—(Canadian Press Cable)—The play-off for the semi-finals of the English Football Association Cup takes place to-morrow, when four games are scheduled for decision.

The draw is announced as follows: Southampton vs. Westham. Charlton vs. Bolton. Queen's Park vs. Sheffield United. Tottenham vs. Derby.

Edinburgh, March 9.—(Canadian Press Cable)—Three Lanarkshire teams and one from the county of Edinburgh are the survivors of the protracted struggle for the Scottish Football Association Cup, and to-morrow East meets West in the capital when the Eastern road champions, the Hibernians, take the field against Motherwell.

The draw is as follows: Hibernians vs. Motherwell, at Edinburgh. Celtic vs. Third Lanark, at Glasgow.

Body Shifts on Mashie Iron Shot, Golf Champion Explains

Lesson 16, By Gene Sarazen, World's Champion Golfer.

I would like to call your attention to the position of the hands in this stroke, the finish of the back swing with the mashie iron. Notice that they are a little above the waist.

eries treaty between Canada and the United States in Washington last week.

The questioner also wanted to know if this was the first occasion on which a British treaty with a foreign country had not borne the signature of a representative of the British Executive, and whether, in signing the treaty, the Canadian Minister had done so as a representative of His Majesty the King.

Premier Bonar Law replied that it did not appear necessary to lay on the table any of the correspondence in connection with the fisheries treaty.

A plenipotentiary who signed a treaty, he added, did so on behalf of the King, by whom his full powers were issued, and the Canadian Minister acted in that capacity on the occasion referred to.

A woman of rather apprehensive disposition took a new maid into the country. The maid was a Cockney, and determined to find the country unpleasant. The first morning after her arrival she called her mistress, who asked her how she had slept.

"Couldn't sleep a wink, mum; didn't you hear the howls?"

"Howls, mum?—what's the mistress perturbed. 'I hope nothing was wrong. I can't think who could have been howling outside our house in the middle of the night."

"No, mum; it wasn't anybody 'owling; it was the howls."

CANADA BATTLE HONOR LIST OUT

Veterans' Medals as Well as Units' Colors Depend on Official Scroll

Ottawa, Mar. 9.—The returned soldiers who have served at the front have been waiting with interest to learn the list of battle honors to be awarded to the Canadian army. These have to do with the matter of the veterans' medals, also the battle honors to be enrolled on the colors of the various units. In addition the names of the actions should be enumerated on the monuments erected to those who fell in the war.

The British Government has been very slow in getting into this matter. Battles of various kinds have been going around under various names and in order to settle the nomenclature of the various battles and actions a committee was appointed in Lon-

don and as a result the committee tentatively agreed that the Great War battle honors should be allotted as follows:

Battles and other engagements in which the military forces of Canada took part on the western front during the Great War, 1914-1919:

TRENCH WARFARE—1914-1916.

Summer operations, 1915 (March-October)—The Battles of Ypres, 1915.

Action of St. Eloi, March 14-15, P.P.C.L.I.

(i) Battle of Gravenstafel Ridge (the gas attack), April 22-23, 1st Canadian Division, P.P.C.L.I.

(ii) Battle of St. Julien, April 24-May 4, 1st Can. Div., P.P.C.L.I.

(iii) Battle of Frenzenberg Ridge, May 24-25, P.P.C.L.I.

(iv) Battle of Bellewaerde Ridge, May 24-25, P.P.C.L.I.

Battle of Peubert, May 15-25, 1st Canadian Division.

Second action of Ginchy, 1915, June 13-16, 1st Canadian Division.

Local Operations, 1916—

Actions of St. Eloi Craters, March 27-April 16, Canadian Corps.

Battle of Mount Sorrell, June 2-13, Canadian Corps.

FISHERIES TREATY CAUSE OF QUESTIONS

Canadian-U.S. Pact Brought Up in Canadian and British Commons

Ottawa, March 9.—Rt. Hon. Arthur Meighen has given notice that he will on Monday next move for a copy of all correspondence which passed between the Government of Canada and the Government of Great Britain referring to the recent negotiation of the treaty between Canada and the United States respecting the halibut fisheries of the Pacific coast waters.

He will also move for and for what the cause of the extreme weakness of body and mind and the nervous exhaustion that is so often seen in men and women and for what they have not been able to account for.

It has been found that the loss of weight, strength and energy that brings distress and depression of mind to countless men and women is often due solely to the fact that the inorganic elements present in the food they eat are not properly utilized by the millions of little cells of which our tissues are composed. When these cells fail to receive the proper amount of these inorganic elements—when they are faced by a famine—they lessen their functional activity in order to escape death through starvation. In other words, these cells curtail their production of vital energy, and, as a consequence, the entire body is weakened, just as it is after a day of extremely hard labor if we do not take time for a mid-day lunch and rest.

The inorganic elements present in the food we eat, and which the cells of the body require in order to produce strength and energy and rebuild tissue have been combined in a preparation called Wincarnis. When taken three or four times a day, Wincarnis furnishes the cells with an abundance of the necessary inorganic elements, and the body promptly regains its lost vigor, weight is restored and there is a full recovery of energy. Wincarnis is now on sale at all druggists. A very interesting little book describing the preparation will be sent, on request, by Coleman & Co., "Canada," Limited, 67 Portland Street, Toronto.

The Overseas Military Forces of Canada were represented on the committee by Lt.-Col. T. M. McAvity, C.B.E., D.S.O., Major C. W. Echeback, O.B.E., and Major-General J. W. MacBrien, C.B., C.M.G., D.S.O.

A committee has been appointed at Ottawa in connection with the Military Department, known as the Battle Honors Committee, to deal with the question of the engagements in which the Canadian troops took part. The matter was discussed by this com-

DIDN'T WANT TEARS

The housewife was complaining to her dairymaid regarding the quality of the milk.

"Short o' grass feed, mum—short o' grass feed this time o' year," said the milkmaid. "Bless you! them cows o' mine are just as sorry about it as I am. I often stands and watches 'em cryin'—reg'lar cryin', mum, because they feel as how their milk don't do 'em credit. You don't believe it?"

"Oh, yes! I believe it," said the housewife; "but I wish in future you'd see that they don't drop their tears into our can."

GENARO'S PATH AS CHAMPION IS ROUGH... Conqueror of Villa Is Under Suspension Despite Payment of Big Fine

New York, March 9.—Frankie Genaro, who captured the American flyweight championship from Pancho Villa last week, has found none too smooth his path as titleholder. The diminutive East Sider, following disappointment over the fact that Villa, instead of himself, had been selected for a world's flyweight title bout with Jimmy Wilde of England, learned yesterday that he was again under suspension by both the New York and New Jersey state boxing boards.

According to Louis J. Messano, chairman of the New Jersey commission, Genaro's suspension, due to his failure to go through with a match with Villa in Newark last December, was lifted only temporarily after the title bout in Madison Square Garden. It was done at the request of the New York state Athletic Commission and on the conditions that the boxer pay \$2,000 to the American Fairplay Foundation for losses it incurred in trying to promote the Newark match. Genaro refunded this amount of his share of the purse in the Garden bout.

Genaro Must Fight in N. J. The suspension, however, which is recognized in this state under the terms of the New Jersey law, will automatically in effect after the title contest, Mr. Messano said, and will not be lifted until Genaro fights in New Jersey under conditions to be fixed by the state ring solons.

These conditions, Mr. Messano added, probably would be stipulated by them when it meets in Jersey City today.

COMB SAGE TEA INTO GRAY HAIR... Darkens Beautifully and Restores Its Natural Color and Lustre at Once.

Common garden sage brewed into a heavy tea with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients a large bottle, at little cost, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of mess.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application of two or three days, your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger. (Adv.)

WEREN'T YOU?" asked Johnny Beaver. "Yes indeed we were," answered Grandpa Diver, "and this story should teach you youngsters not to wander away from the pond until you are much older than you are now."

Little Johnny and Tommy Beaver looked very wise and shook their heads in a knowing way because they knew so much more than most little boys, for didn't they have a wise grandpa to tell them about the dangers they must try to avoid?

GRANDPA DIVER'S STORY. Grandpa Diver sat nodding by the fire and little Johnny and Tommy Beaver knew this was the time to get him to tell them one of his stories, and then the winter time is always the best time for story telling they had discovered.

Grandpa Diver had been a great worker in his day and knew many stories which the little Beaver boys were never tired of hearing, so Tommy climbed up on the back of Grandpa's chair to tickle with a straw the tip of Grandpa's nose. "What is that?" asked Grandpa, awaking with a start and knowing perfectly well what was going on. "Oh you young scallawags, it is you," he said, looking around, "and I suppose you want a story."

"Well, come and sit down on the hearth and I will tell you how my mother saved me and my brother from being captured once by Mr. Man, Tommy Beaver and Johnny sat down, and kept as quiet as little mice while Grandpa Diver told his story. "One day," he began, "my brother and I were sunning ourselves when far away, and thinking there was no one about, we ran to the tree and began to eat, when all at once right up we appeared Mr. Man with a gun. "We were pretty well frightened, for we knew we could not get to the water without being shot, we tried to dodge behind some rocks, but Mr. Man saw us and then all at once we heard a sound that made us look towards the river and there was our mother splashing the water with her tail to make Mr. Man look that way, so we could escape."

"But though he looked he kept his eyes on us and tried to cut us off from the water. Then mother began to swim as if she were terribly hurt and could not swim well, but still Mr. Man kept after us, and mother, seeing that her scheme did not work, tried another. "She came right out of the water and began to tumble about and Mr. Man, thinking mother would be a better catch than us youngsters, I guess, started after her and my brother and I waddled as fast as we could to the river and dived out of sight."

"And did the bad Mr. Man catch your mother?" inquired Tommy Beaver, unable to keep quiet any longer. "Oh dear no, mother was too old and wise to be caught. She tumbled and dodged until she was near enough to the water to dive, and out of sight and reach she went, but she knew of course that we youngsters were safe before she did so. "I am sure that Mr. Man must have been some surprised when mother reached the water, for she made him think, you see, that she would be easy to catch, because she was so wounded, and she told father afterwards that she scornfully struck the water with her flat tail to let him see she had fooled him and that she was smarter than he."

"I guess you and your brother were pretty glad to get under the water, weren't you?" asked Johnny Beaver. "Yes indeed we were," answered Grandpa Diver, "and this story should teach you youngsters not to wander away from the pond until you are much older than you are now."

Both in England and on the continent the ascendant rulers seized upon Christianity as a unifying force to cement their conquests, Christianity was the banner for aggressive chiefs—as it did in Uganda in Africa in the bloody days before that country was annexed to the British empire. After Pepin who died in 768, came two sons, Charles and another, who divided his kingdom; but the brother of Charles died in 771, and Charles the Great, who died in 781, was the founder of the growing realm of the Franks.

This Charles is known in history as Charles the Great or Charlemagne. As in the case of Alexander the Great and Julius Caesar, posterity has enormously exaggerated his memory. He made his wars in terms of definite religious wars. All the world of north-western Europe, which is now Great Britain, France, Germany, Denmark, and Norway and Sweden, was in the ninth century an arena of bitter conflict between the old faith and the new. Whole nations were converted to Christianity by the sword just as Islam in Arabia, Central Asia and Africa had converted whole nations a century or so before.

With fire and sword Charlemagne preached the Gospel of the Cross to the Saxons, Bohemians and as far as the Danube into what is now Hungary; he carried the same teaching down the Adriatic coast, through what is now Dalmatia, and drove the Moslems back from the Pyrenees as far as Barcelona.

Moreover, he it was who sheltered the last strongholds of paganism upon the last strongholds of paganism in England, and as far as the west coast of the British Isles, he conquered the Britons of Brittany, and by a series of wars, which he continued after the death of his Frankish patron, made him the first king of all England (828).

But the attacks of Charlemagne upon the last strongholds of paganism in England, and as far as the west coast of the British Isles, he conquered the Britons of Brittany, and by a series of wars, which he continued after the death of his Frankish patron, made him the first king of all England (828).

METCHOSIN AND VICINITY
Special to The Times.
Metchosin.—A special meeting was held at Metchosin Hall Tuesday night under the auspices of the Metchosin Farmers' Institute when potato growers of the district gathered to hear special speakers on the subject.
C. E. Whitney-Griffiths presided. He pointed out the advantage of these meetings to the district, announcing another meeting March 14 when an illustrated lantern lecture on insect pests as they effect small fruits will be given by Mr. Downes, and delegates will be appointed to the Convention of Island Institutes in the Parliament Buildings, Victoria, March 27. The delegates on that occasion will be entertained to luncheon by the Chamber of Commerce.
C. Tice, provincial potato expert, spoke on the growing of potatoes from certified seed. He prefaced his remarks with a report of the meeting of potato growers of the Saanich Peninsula held in the Keating Temperance Hall the previous night. Appointments were made from the Directorate of the Institute to canvass the district for members to attend the meeting March 17 in Victoria with a view to forming a potato growers' organization. F. C. Blake and A. Wale were chosen to attend to this work.
R. C. L. Clark, Dominion Fruit Inspector who attended the meeting in place of Mr. Grant, Market Commissioner, gave valuable information regarding the marketing of fruit and vegetables.
Mr. Lane, editor of the annual "Great Journal," gave a short address, confining his remarks chiefly to the proposed co-operation of potato growers.
The directors of the Institute held a meeting in the committee room, when a report was received by the executive on the progress of the year's programme. Among other suggestions adopted by the Board were arrangements for the procuring of certified seed potatoes for members at special rates, and a meeting to discuss taxation as it affects the farmers, also consideration of agricultural credit loans. Refreshments were served during the evening by members of the Institute.
Mrs. Leonard Phillips, of Colwood, has left for a visit to San Francisco, where she will make an extended stay, visiting friends and relations.
The Bohemian Club of Langford held one of their delightful little dances in the Langford Hall on Tuesday evening, real jazz music being supplied by the Langford orchestra. The scene presented was bright and colorful, fancy dress being the order of the evening, and a very enjoyable time was spent. Refreshments were served by lady members of the club, and N. Brown ably filled his usual position as master of ceremonies.
Mr. and Mrs. W. Longmura, of Vancouver, who have been in the habit of spending part of the summer months at Langford Lake, have purchased a charming bungalow in that vicinity and will make it their summer residence.
S. Goucher, proprietor of the Langford Garage, who has been very sick, is reported to be improving though slowly.

A Clear, Beautiful Skin

There are millions of tiny openings or pores in the skin and these must be kept open and clean if the beauty of the skin is to be maintained.

Because it cleanses these pores and encourages the healthy action of the skin, Dr. Chase's Ointment is most effective as a skin beautifier. Roughness, redness, pimples and all sorts of skin blemishes disappear by its use, and the skin is left clear, smooth and velvety.

B.C. SHOULD LOOK TO SOUTHERN STATES

F. Wilkinson, Vice-President of E. G. Prior & Co., Returns From Tour

One opportunity for development of a commercial character which has hitherto been neglected by British Columbia trade is that of the Southern States. In the opinion of F. Wilkinson, of the Wilkinson Co., Limited, and Vice-President of E. G. Prior & Co., Limited, who was in the city yesterday from the Mainland, Mr. Wilkinson has just returned from an extensive "visit" round the circle, in which he visited the principal Canadian and American cities in the East, and then proceeded to Birmingham, Alabama, where, in steel, his chief interests being in steel and wire. He visited a number of southern ports, and was particularly impressed with the more facilities at New Orleans, and the vast amount of cargo handled there from tropical America. Strange as it may appear, in view of the great competition by southern pine against British Columbia soft woods in the cities of the Middle West, Mr. Wilkinson's tour is a simple opportunity to export lumber from B.C. to supply the southern market, and to carry other products to the cities served by the great waterway of the Mississippi, and its tributaries.

Mr. Wilkinson spent a considerable time in Southern California. He drew parallels, in the attractions offered by the country, which he says is a natural desert made fertile by roads, irrigation, and man's efforts, with the Mesopotamia of the ancient world. Mesopotamia was an arid country which art and science embellished, and made the cradle of great civilizations, and therefore, said Mr. Wilkinson, "You should have history repeating itself. Why ever aids Southern California will in long run benefit British Columbia, and particularly Victoria, because after a time the people of wealth and ease tire of the scenery, and long for the evergreen country of the Pacific Northwest. Keep yourselves before them, and the result will be beneficial in filling the hotels and resorts of this country."

SAVS WRONG FOOD MAKES CRIMINALS

There are more people intoxicated from over-eating than from over-drinking, according to Dr. J. C. Lawson, Vancouver dietitian, who is now at the Chamber of Commerce last night. He urged laws against intemperance in eating as well as in drinking.
He blamed over-eating for nearly all diseases and said it was responsible for most crime. Overloading digestive organs and improper food left the body in a state where it could not withstand disease, he declared.
"Most of the young criminals of today have had their mental capacity disturbed by the wrong kind of food," said Dr. Lawson, "I am personally acquainted with many who hands out the stiffest sentences when he is not feeling well; that is to say, when he has been eating too much."
Dr. Lawson made the prediction that in less than ten years a new order of healing would be inaugurated, that teachers of health would supplant doctors of disease. He said that one could search the dictionary from cover to cover to find more suggestive words than the two words "bad habits" as indicative of disease. Personal responsibility was the keynote of his address, and outside of accident every one should be his own doctor. Dr. Lawson, in conjunction with Dr. Dorchester, will begin the first class to-night in the committee room, Chamber of Commerce.

NATIVE SONS

Celebrated Tenor Is Dinner Guest of Local Organization

Edward Johnson, a native of Guelph, Ont., who has become celebrated as a tenor singer, was the guest of the Native Sons of Canada at a dinner in the Empress Hotel last night. Over forty members of the organization were present. The chair was occupied by W. M. Ivel, who is the Grand President of the Native Sons. Letters of regret at being unable to be present were received from the Lieut.-Governor and the Mayor. Rev. F. A. P. Chadwick proposed the toast of the guest of the evening. Mr. Chadwick, who himself comes from Guelph, indulged in some reminiscences of the day when he and the guests brother formed the battery of a baseball team which was too much for one of the neighboring towns. He referred to the fact that Guelph has produced at least one other citizen of distinction, in Lieut.-Col. John McRae, the author of "In Flanders Fields."

Mr. Johnson, in replying, urged Canadians to "boost" their country. When he first went to Italy to study, he was accompanied by an American, despite his explanation that he was a Canadian. This, however, changed to a considerable extent during the war, in further reminiscences, he mentioned his meeting with the Prince of Wales, who afterwards told the people of Guelph that he had heard of their city from Edward Johnson, a Guelph man, whom he had met in Rome. Mr. Johnson also included an account of an opera season in Madrid.

The toast to "Our City" was responded to by J. D. Connell, who promised that when he became Mayor the Native Sons would not be forgotten. J. B. Clearhue, M. P. P.; Thomas Menzies, M. P. P., and W. E. Walsh spoke to the toast of "Canada."

HAYWARD AGAIN

Re-elected Chairman of Intermunicipal Cemetery Trustees

Mayor Reginald Hayward was re-elected chairman of the Board of Intermunicipal Cemetery Trustees at the annual meeting of that body last night.
Standing committees to carry on the management of the Royal Oak Cemetery this year were appointed as follows:
Finance—Mayor Hayward, William March, and Councillor Francis Simpson, of Saanich.
Buildings and Grounds—Reeve George F. Watson, Councillor McWilliam, and Perry.
E. S. Bradley, City Clerk, was re-appointed secretary-treasurer of the Board.
It was decided to make arrangements to purchase water for the cemetery, from Saanich. F. Butterfield, engineer to the Board, stated that considerable development work had been done at the cemetery recently.

SAPPHIRE FIND STIRS GEOLOGISTS

Gemstones Would Mean Much for Mineral Wealth

Minerals used for decorative purposes have not hitherto figured in the production of Vancouver Island. The gemstones made yesterday that the British Columbia Geological Survey area came as a surprise to the mining men, who generally are inclined to discount the discovery of Cumberland. That section has not yet formed the subject of intensive examination by the Canadian Geological Survey in the same way as the Victoria, Lunenburg and Saanich areas, but sufficient to present no obstacle to the location of corundum in such an area. The mineral is a corundum, is found as a constituent of some metamorphic igneous rocks, especially the gneisses—In quartzite in Montserrat, one corundum deposits so far worked in Canada are in Eastern Central Ontario. The supply here is worked for abrasive purposes, the supply being too limited to be used as an ore of aluminum.
Mr. Brock, Dean of the Faculty of Applied Science at the University of British Columbia, wires the following comment on the discovery to The Times: "Sapphires are mined in Montserrat, a single stone found in Pond d'Oreille, B. C. Minerals are found in the Tuleen at west of Lower Arrow Lake. No commercial stocks in Saanich west of Lakes."
Mr. Oakley, in describing his find to The Vancouver Sun, says in part: "Mr. Oakley says that he has picked up forty-five of them since last August and has had them tested by various gem cutters and lapidarists. Portland. These experts describe them as sapphires, but state that they are above the average quality of sapphires and resemble the diamonds found in Brazil. Several of the stones which have been cut, says Mr. Oakley, show beautiful red, orange, yellow lights. The stones themselves are almost pure white and their surface, before being polished, resembles prism glass."
Mr. Oakley declines to give the location of his discovery at present. The stones are found in the gravel of creeks, beds, and all that he has found so far says he says were taken out with an ordinary pick and shovel. They are not embedded in rock, but are usually found three or four in a group. Those found to date range in size from a few millimeters to the largest having a diameter of about half inch. Some are very hard, he says, and are not so valuable as they lack luster for mounting.
The first stone, Mr. Oakley says, he found lying on the surface by pure chance. He was walking on a small white stone, picked it up and while he was in doubt as to its value formed the immediate belief it was precious.
Losses in Gravel.
Mr. Oakley stated that the contemplated purchase of some simple equipment which would cost only a few hundred dollars, but by means of which he is able to work much more rapidly and systematically, that he has found so far were within two feet of the surface and were lying loose in the gravel. Some were lying

Y.M.C.A. INAUGURATES NEW MEMBER SERVICE

The Victoria Y. M. C. A. is planning a service for the boys who live in outlying districts, and who cannot take advantage of the Association programme. Extension in the boys' church groups in the outlying districts will be made, and on a Saturday once a month a programme of social and athletic events will be held in the Association building. An invitation is extended to the boys of these groups to use the social room at the Y. M. C. A. while in the city. The first of the monthly meetings will be held on Saturday, March 24. The programme begins at 6:15 with a bean feed, followed by a gymnasium period. A basketball game will then be played between two of the districts. A swim in the swimming tank will be given at 8 o'clock, followed by games in the boys' room. The extension membership is for boys from ten years and upward.

Propy-lactic Tooth Brush

LOOK at your tooth brush. If the bristles are even across the top, place them against your teeth and look in the mirror. See how they bridge over the spaces between the teeth and how they just clean the smooth outside surfaces.

Now look at the Propy-lactic Tooth Brush. The tufted bristles get between the teeth, and the curved handle makes it easy to reach every part of every tooth.

Regular brushing with this brush and four visits a year to your dentist will insure good, sound, attractive teeth for a lifetime.

Propy-lactic Tooth Brushes come in three sizes—adults', youths', and children's; and in three degrees of stiffness—hard, medium, and soft.

Look for the name Propy-lactic on the handle. Always sold in the yellow box.
