Hello,

My name is Carmen and I am currently enrolled in a class at American University that specifically focuses on Wikipedia practices. My current assignment is to pick a WikiProject to participate in and I am very interested in WikiProject: Breakfast. I would love to participate here and help with the expansion of this project in any way that is needed. I have checked the to-do- list and I see there is work to be done and many more things to add. I currently live in the DC area and would love to be able to contribute about Brunch in DC as well as any other work that is needed to help improve article status. I am really new to Wikipedia, willing to learn, so any advice or recommendations are greatly appreciated.

Thank you.

Thank you Cm8587a for your interest in breakfast. Breakfast is happening here, but you have also wandered into a test space for a new communication system which is not in place elsewhere on Wikipedia. I thought you should be aware.

It would be useful if you contributed to actual Wikipedia articles as part of your time here. If you want to

Hi. Wikipedia:WikiProject Breakfast/Article collaboration seems a bit dead, but it might be a nice idea to collaboratively get the breakfast article to featured article status. WikiProject Breakfast currently only has one featured article (maple syrup).
