# Foreword

This Price-List is compiled for the convenience of those who want to create the best home landscapes. There are 400 acres, with millions of plants being grown for quality and economy, for you to choose from.

The names of the trees and plants are based on the recommendations of the American Joint Committee on Horticultural Nomenclature as they appear in "Standardized Plant Names." All quotations are based on "Horticultural Standards."

## GUARANTEE

We guarantee every plant from our Nursery, and give new ones to replace those that do not grow satisfactorily. The cost of planting and transportation of replaced trees is borne by the purchaser.

## TERMS

Prices are for stock loaded at the Nursery. Five plants are sold at the ten rate and twenty-five at the hundred rate. We charge for delivery and planting, also for packing for shipment if considerable labor and material are used. On small shipments, such as sent by Parcel Post, no packing charge is made.

**Credit.** Cash with order, except to persons having established credit with us, whose accounts will be due in 30 days.

## LARGE TREE MOVING

We have moved many thousands of large trees with permanent success, to the satisfaction of owners and landscape architects. Get in touch with our office for further information and rates.

## SUMMER PLANTING

Approximately 90 per cent of the trees and plants in our Nurseries can be safely transplanted all summer. You can select them in leaf, and for particular color of bloom when at their full height of beauty. In a day or two the tree is planted on your lawn, so that you and the family receive immediate benefit of the shade. You can pick out shrubs and perennials in bloom and take them home in your car.

## WINTER PLANTING

Winter planting, too, has its advantages, especially where large trees are concerned. By winter planting we mean planting when there is considerable frost in the ground. On Long Island there is usually not much frost before January 1. The men easily pick through a few inches of frost. Trees can be hauled without injury to lawns. The best method is to plan ahead and muleh the trees and locations before much frost gets in the ground.

A hedge of Hicks Yew bordering terrace at North Hempstead Country Club, Port Washington, Long Island

# The Best Hedge-Plant

## Hicks Japanese Yew *Taxus media hicksi*

A typical specimen of Hicks Yew

IF YOU desire a hedge of exceptional distinction and hardiness, Hicks Japanese Yew will give entire satisfaction.

Being fastigiate in growth (upward-growing branches), each lower branch receives full sunlight. Without this advantage the lower branches kill out. Owing to its compact, upright form, you get a finished hedge effect immediately. It stands severe cutting back and the desired height is easily maintained.

The foliage is a rich dark green, even in midwinter, and compact to the ground. Its red berries in the fall are strikingly beautiful and provide food for the birds. The most important point is its

entire hardiness in the most exposed locations.

This variety originated in Hicks Nurseries. The landscape profession and public were quick to recognize the fine qualities of Hicks Yew. It has now become the most popular evergreen for hedge planting.

Here is an opportunity to obtain an evergreen hedge at low cost. Many estate owners are replacing winter-killed hedges of boxwood with this outstanding plant.

### Cost of Hicks Yew Hedging

In units of 50-foot lengths, or more

Height	Distance to plant apart	Cost per foot
1½ to 2 ft.	12 in. ....	\$2 00
2 to 2½ ft.	15 in. ....	2 40
2½ to 3 ft.	18 in. ....	2 80
3 to 3½ ft.	20 in. ....	3 00
3½ to 4 ft.	22 in. ....	3 36
4 to 4½ ft.	24 in. ....	4 00
4½ to 5 ft.	26 in. ....	4 60

NOTE. Add 15 per cent for approximate cost of delivery and planting within a radius of 20 miles from Nursery.

(See page 27 for plant prices of Hicks Yew)

## The Most Graceful Evergreen Canada Hemlock

**H**EMLOCK is one of the most ornamental and graceful evergreens for beautifying the home landscape. Plant it among other trees and shrubs and you have one of the happiest and brightest evergreens imaginable.

It will stand shade and does best in protected locations. For relieving the monotonous look, it is the best evergreen for scattering through the woodland. The foliage is a cheerful green, of soft, velvety texture.

If you need an economical hedge, 4 feet or more in height, Hemlock will serve the purpose. Hedge-plants should be kept broad at the bottom and narrower at the top. It stands severe cutting back.

Consider a Hemlock hedge for framing garden, or bordering terrace, court, or boundary. Your place may need this touch of an evergreen hedge for complete beauty.

### Cost of Hemlock Hedging (In units of 50-foot lengths, or more.)

Height	Distance to plant apart	Cost per foot
2 to 3 ft.	1½ ft. ....	\$1 00
3 to 4 ft.	2 ft. ....	1 37
4 to 5 ft.	2½ ft. ....	1 50
5 to 6 ft.	3 ft. ....	1 60
6 to 7 ft.	3½ ft. ....	1 95
7 to 8 ft.	4 ft. ....	2 35

NOTE. Add 25 per cent for approximate cost of delivery and planting within radius of 20 miles from Nursery.

See page 29 for plant prices of Canada Hemlock

This shows a Hemlock Hedge that subdivides the various gardens on the estate of W. R. Grace, Old Westbury, L. I. The tradition of flower-gardens in architecture is based on or presupposes enclosure.

## Hicks Sales Department

**E**VERY HOME-OWNER on Long Island should become acquainted with Hicks Plant Department. It offers the most convenient way to see and study the best plant material for developing your home landscape.

The large Sales Building can be seen by those driving through Westbury on the Jericho Turnpike. Drive in—the family will enjoy a visit. Large parking areas are available. You are welcome, whether you come just to look around or to buy.

You will be pleasantly surprised on seeing the large assortment of choice plants on display, economically priced, ready for you to select and take home in your car. Salesmen are on hand to take your order or give advice. You realize the convenience of this Department when you consider Hicks Nurseries consists of about 400 acres. Here, freshly dug plants are assembled from the various blocks, so that you can quickly compare and make a selection. Many people have developed their entire landscape by making weekly visits to this Department.

Interesting plant displays can be seen at all seasons. During their season of bloom, you should come to see the wonderful show of Flowering Trees and Shrubs, Azaleas and Rhododendrons, Roses, Peonies, Phlox, Asters, and Chrysanthemums. Evergreens are on display at all seasons. By seeing the plants in bloom you can select the particular color desired. They are prepared with large balls of earth, so you can take them right home in your car.

Most of your plant needs can be obtained at this Department, including Grass Seed and Prepared Fertilizers; also Bulbs for fall planting and potted annuals for bedding.

## Deciduous Trees

The term deciduous is applied to trees the leaves of which fall in autumn. Laymen generally classify them as Ornamental Shade Trees.

No home, no matter how small, need be without the joy and comfort of abundant shade. And the well-informed bring shade to where they want it. Trees are a real part of a home—the cheapest part, and frequently neglected.

In selecting trees, the first question is, What is the purpose the trees are to serve—shade for the house, path or avenue; lawn-planting as single specimens or in groups; screens for undesirable objects, etc.? Whatever the purpose, you can select trees at Hicks Nurseries that are guaranteed to prove satisfactory.

### Japanese Maples

<b>ACER palmatum.</b> Japanese Maple. Miniature trees or large shrubs admired for their delicate foliage. This is the wild form with green foliage; brilliant carmine in autumn.		
	Each	10
2 to 3 ft. high	\$3 00	
3 to 4 ft. high	4 00	
6 to 8 ft. high	15 00	
8 to 10 ft. high	20 00	
<b>A. palmatum atropurpureum.</b> Bloodleaf Japanese Maple. Dwarf tree with purple-red leaves all summer.		
1½ to 2 ft. high	3 00	\$27 50
2 to 3 ft. high	4 00	37 50
3 to 4 ft. high	5 00	
<b>A. palmatum dissectum.</b> Threadleaf Japanese Maple. A dwarf form with lace-like foliage.		
1 to 2 ft. high	3 00	27 50

### Maples (Shade Trees)

<b>ACER platanoides.</b> Norway Maple. Good street and shade tree. Vigorous grower. Dense shade. Sandy loam soil of Long Island suited to it.		
8 to 10 ft. high	2 00	17 50
10 to 12 ft. high, 1½-in. cal.	3 00	27 50
10 to 14 ft. high, 2 -in. cal.	4 00	37 50
12 to 14 ft. high, 2½-in. cal.	6 00	50 00
12 to 14 ft. high, 3 -in. cal.	12 00	110 00
12 to 16 ft. high, 3½-in. cal.	15 00	
14 to 18 ft. high, 4 -in. cal.	25 00	
14 to 18 ft. high, 5 -in. cal.	35 00	
Larger sizes on application.		
<b>A. rubrum.</b> Red Maple. Broad, oak-like tree. Brilliant autumn foliage. Will thrive in damp soil or good soil on the uplands.		
8 to 10 ft. high	3 00	27 50
10 to 12 ft. high, 1½-in. cal.	5 50	50 00
12 to 14 ft. high, 2 -in. cal.	8 00	75 00
14 to 16 ft. high, 2½- to 3 -in. cal.	12 00	110 00
14 to 18 ft. high, 3- to 3½-in. cal.	15 00	125 00
14 to 18 ft. high, 3½- to 4 -in. cal.	20 00	175 00
16 to 22 ft. high, 5-in. cal.	30 00	275 00
<b>A. saccharum.</b> Sugar Maple. Tall, ovate tree. Likes heavy soil. Good fall color.		
12 to 14 ft. high, 2-in. cal.	6 00	55 00
14 to 16 ft. high, 3-in. cal.	15 00	
20 to 22 ft. high, 4-in. cal.	30 00	
20 to 22 ft. high, 5-in. cal.	40 00	
<b>ÆSCULUS carnea.</b> Red-flowering Horse-Chestnut. In May, the Horse-Chestnut is the most beautiful flowering tree. This variety has red or deep pink flowers.		
8 to 10 ft. high	5 00	
<b>AILANTHUS glandulosa.</b> Tree of Heaven. Rapid-growing tree from China. Leaves bright green, with thirteen to twenty-five leaflets. Readily resists city smoke and dry air. 10 to 14 ft. high, 2-in. cal.		
	4 00	
Larger sizes on application.		

Maples give cool shade

- BETULA populifolia.** Gray Birch. The native White Birch of Long Island that usually grows in a clump of two or more stems.
- |                                 |         |    |

| 3 to 4 ft. high..... | 1 50 | 12 50 |
| 4 to 5 ft. high..... | 2 50 | 22 50 |
- CHIONANTHUS virginica.** White Fringe. It makes a large shrub or small tree 15 feet high and blooms in June. The white "fringe" looks like delicate white lace hung all through the branches. Its leaves distinguish it from all other shrubs, being 3 inches broad and 8 inches long.
- |                      |    |      |
|----------------------|----|------|
| 2 to 3 ft. high..... | 75 | 7 00 |
| 3 to 4 ft. high..... | 90 | 8 00 |
- CLADRASTIS lutea.** Yellow-wood. The few people that know this tree greatly admire it. It combines the gracefulness of the elm, the smooth, gray bark of the beech, and, in June, the long, white, pea-shaped flower-racemes of the Wisteria.
- |   |       |  |
|---|-------|--|
| 16 to 18 ft. high, 3- to 4-in. cal..... | 25 00 |  |
|---|-------|--|

## Dogwoods

**CORNUS florida.** White-flowering Dogwood. Many know the Dogwood, and have seen the sign, "Spare the Dogwood. It takes years for a branch to grow." In early May, before the leaves appear, it illuminates the woodland with white blossoms, floating like butterflies through the darker parts of the forest, or on the edges massed in horizontal strata, white as snow or tinged with pink. In September its brilliant red berries feed the robins on their south-bound journey. A week or two later the foliage turns red or scarlet with the first sumac and woodbine. In landscape planting it is properly used as a specimen tree, mass planting with shrubs, or bordering evergreen groups and woodland.

	Each	10	100
2 to 3 ft. high.....	\$1 00	\$9 00	
3 to 4 ft. high.....	1 50	12 50	\$100 00
4 to 5 ft. high.....	2 50	20 00	175 00
5 to 6 ft. high.....	3 50	30 00	250 00
6 to 8 ft. high.....	7 50	70 00	
8 to 10 ft. high.....	10 00	90 00	
10 to 12 ft. high.....	15 00	125 00	
12 to 14 ft. high.....	18 00		

Larger sizes on application.

**C. florida rubra.** Red-flowering Dogwood. Like preceding except flowers are red.

	Each	10
2 to 3 ft. high.....	\$2 00	\$17 50
3 to 4 ft. high.....	2 75	25 00
4 to 5 ft. high.....	3 50	32 50
5 to 6 ft. high.....	5 00	45 00
6 to 8 ft. high.....	8 00	75 00

**C. kousa.** Japanese Kousa Dogwood. This tree harmonizes completely with the native Dogwood and extends the season of bloom about one month. It blooms after the foliage comes out to afford it a background. Instead of a cluster of red berries, it has a globular berry about 3/4 inch in diameter filled with edible yellow pulp.

2 to 3 ft. high.....	1 00	9 00
3 to 4 ft. high.....	1 50	12 50
4 to 5 ft. high.....	3 00	27 50

6 to 8 ft. high.....	7 50	70 00
8 to 10 ft. high.....	10 00	90 00

White-flowering Dogwood

**CORYLUS colurna.** Constantinople Hazelnut.  
 A tree Hazel from Europe, with edible nuts. Each 10

8 to 10 ft. high.....	\$10 00	
10 to 12 ft. high.....	12 00	
12 to 14 ft. high.....	15 00	

**Hawthorns**

**CRATÆGUS cordata.** Washington Hawthorn.  
 These are small, round-topped trees of great hardiness, thriving in almost any kind of soil. Extremely ornamental for both flower and fruit. This variety has white flowers in June, followed by lustrous scarlet fruit persisting until spring.

2 to 3 ft. high.....	75	\$7 00
3 to 4 ft. high.....	1 50	12 50
4 to 5 ft. high.....	3 00	27 50

**C. oxyacantha splendens.** Paul's Double Scarlet Hawthorn. Bright scarlet, double flowers in May. Red fruit.

6 ft. high.....	2 50	
-----------------	------	--

**Cratægus in variety.**

2 to 3 ft. high.....	75	
3 to 4 ft. high.....	1 50	
4 to 5 ft. high.....	4 00	
5 to 6 ft. high, broad specimens.....	5 00	
6 to 8 ft. high, broad specimens.....	8 00	
8 to 10 ft. high.....	12 00	
10 to 12 ft. high.....	15 00	

**Beeches**

**FAGUS americana.** American Beech. Forms a tall silvery trunk in the forest, or a broad old tree of great character. Use for lawn, avenue, or screen planting.

4 to 5 ft. high.....	5 00
5 to 6 ft. high.....	7 50
8 to 10 ft. high, branched at 5 ft.....	8 00
10 to 12 ft. high.....	30 00
12 to 14 ft. high.....	40 00
14 to 16 ft. high.....	75 00
16 to 18 ft. high.....	100 00
18 to 20 ft. high.....	175 00
20 to 25 ft. high.....	250 00

**F. sylvatica.** European Beech. Foliage and bark darker than American Beech. Excellent hedge or specimen tree. Holds leaves in winter.

3 to 4 ft. high.....	4 00
4 to 5 ft. high.....	5 00
5 to 6 ft. high.....	7 50
6 to 8 ft. high.....	10 00
8 to 10 ft. high.....	12 00
14 to 16 ft. high.....	75 00
16 to 18 ft. high.....	100 00
18 to 20 ft. high.....	150 00
20 to 24 ft. high.....	200 00

**F. sylvatica heterophylla.** Fernleaf Beech. A tree of dense growth with delicate, feathery foliage. Its lights and shadows are always pleasing to the eye. Worthy of a place in most large plantings.

8 to 10 ft. high.....	35 00
12 to 14 ft. high.....	75 00

**F. sylvatica purpurea.** Purple Beech. Deep wine-red foliage in early summer, changing to dark green with tinge of red in late summer. Holds leaves in winter.

14 to 16 ft. high.....	75 00
16 to 18 ft. high.....	100 00
18 to 20 ft. high.....	150 00
20 to 24 ft. high.....	200 00
28 to 30 ft. high.....	300 00

**GINKGO biloba.** Maidenhair Tree. Leaves fan-shaped, with parallel veins, like the maidenhair fern. Resists smoke, therefore good for city planting.

	Each	10
6 to 8 ft. high.....	\$4 00	
8 to 10 ft. high.....	6 00	
10 to 12 ft. high, 1½-in. cal.....	8 00	
12 to 14 ft. high, 2 -in. cal.....	10 00	
14 to 16 ft. high, 3 -in. cal.....	18 00	
16 to 18 ft. high, 4 -in. cal.....	25 00	
20 to 22 ft. high, 5 -in. cal.....	40 00	

**GLEDITSIA triacanthos.** Honey Locust. A large, spiny tree with spreading branches and odd, flat, pendent seed-pods 12 to 18 inches long and dark brown. Beautiful ornamental tree.

6 to 8 ft. high.....	2 00
8 to 10 ft. high.....	3 50
10 to 12 ft. high.....	5 00
12 to 14 ft. high.....	8 00

**HALESIA tetraptera.** Silver Bell. A beautiful little tree having the branches thickly hung with snowy white bells in early May. Scatter them in your shrubbery or through open woods with dogwood.

3 to 4 ft. high.....	1 00	\$9 00
4 to 5 ft. high.....	1 50	12 50
5 to 6 ft. high.....	2 00	17 50
6 to 7 ft. high.....	5 00	45 00

**KÆLREUTERIA paniculata.** Golden Rain Tree. Beautiful flowering tree covered with golden blossoms in July. Flower clusters 1 foot long. Compound leaves.

4 to 5 ft. high.....	1 50
5 to 6 ft. high.....	2 50
6 to 7 ft. high.....	4 00

**LARIX leptolepis.** Japanese Larch. This always wins admiration as a forerunner of spring foliage. Its cheering green lights the landscape before the maples and oaks. The Larch is a tall, graceful tree, resembling the spruce tree or fir, for it belongs to the conifer family, but drops its leaves in winter.

10 to 12 ft. high.....	12 00
12 to 14 ft. high.....	15 00
14 to 16 ft. high.....	20 00
20 to 24 ft. high.....	100 00

Group of Beeches screening road

Sweet Gum seed ball and corky ridges on bark

**LIQUIDAMBAR styraciflua.** Sweet Gum.

Symmetrical tree, with star-shaped leaves and gorgeous fall coloring. Cork-ridged twigs.

Ball-like fruit. 8 to 10 ft. high.....	Each	10
10 to 12 ft. high.....	\$5 00	\$45 00

## Magnolias

**MAGNOLIA glauca.** Sweetbay Magnolia.

Handsome small tree bearing sweet-scented flowers 2 to 3 inches across. Glaucous leaves.

2 to 3 ft. high.....	1 50	12 50
3 to 4 ft. high.....	2 50	22 50
4 to 5 ft. high.....	4 00	37 50
5 to 6 ft. high.....	5 00	47 50

**M. kobus.** Kobus Magnolia. Native of Japan.

Flowers pure white, 4 to 5 inches across, appearing before the leaves.

4 to 5 ft. high.....	4 00	35 00
----------------------	------	-------

**M. lennei.** Lenne Magnolia. Deep red cups in early May.

2 to 3 ft. high.....	3 00
3 to 4 ft. high.....	4 00
4 to 5 ft. high.....	5 00

**M. macrophylla.** Bigleaf Magnolia. The largest

flowers and foliage of any tree in this region. The flowers when open are 14 inches wide.

3 to 4 ft. high.....	2 50
4 to 5 ft. high.....	3 50
5 to 6 ft. high.....	5 00

**M. soulangeana.** Saucer Magnolia. Of all

flowering trees, the Magnolias take the lead. This variety is in greatest demand, having cup-shaped blossoms, touched with pink.

2 to 3 ft. high.....	3 00
3 to 4 ft. high.....	4 00
4 to 5 ft. high.....	5 00
5 to 6 ft. high.....	8 00

**M. stellata.** Star Magnolia. Native of Japan.

Shrubby habit. Fragrant semi-double white flowers appearing before the leaves.

2 to 3 ft. high.....	2 50
3 to 4 ft. high.....	3 50
4 to 5 ft. high.....	5 00

Flowering Crab-Apple (*Malus*)

## Flowering Crab-Apple

**MALUS.** Flowering Crab-Apple. It is hard to imagine anything more dainty and beautiful than a collection of Flowering Apples, with their white, pink, or red blossoms. They give a happy note to the garden or shrubbery or woodland about the middle of May. The little cherry-like, red and golden fruits feed the birds all winter.

**Arnoldiana.** Single or semi-double pink flowers.

**Atrosanguinea.** Brilliant carmine flowers.

**Baccata.** Small white flowers.

**Coronaria.** Double; pink; fragrant.

**Eleyi.** Rich wine-red flowers.

**Floribunda.** Pink in bud; white when open.

**Niedzwetzkyana.** Red flowers.

**Parkmani.** Pendent red flowers.

**Robusta.** Large, fragrant, white flowers.

**Scheideckeri.** Double pink flowers.

**Sieboldi calocarpa.** Large pink and white flowers.

**Spectabilis.** Semi-double, fragrant, pink flowers.

**Spectabilis Riversi.** Large; semi-double; bright rose-red.

	Each	10
3 to 4 ft. high.....	\$1 50	\$12 50
4 to 5 ft. high.....	2 00	17 50
5 to 6 ft. high.....	3 00	25 00
6 to 8 ft. high.....	7 50	70 00
8 to 10 ft. high.....	15 00	125 00

**MALUS sargentii.** Sargent Crab-Apple. A shrub of distinct habit, with white flowers and dark red fruit; leaves orange and yellow in autumn.

3 to 4 ft. high.....	3 00
4 to 5 ft. high.....	5 00

**NYSSA sylvatica.** Tupelo. Native tree, with horizontal branches and dark, shiny leaves. The autumnal coloring commends its use.

6 to 8 ft. high.....	5 00	45 00
8 to 10 ft. high.....	8 00	70 00
10 to 12 ft. high.....	10 00	90 00

## Flowering Cherries

**PRUNUS fruticosa pendula.** Weeping Bush

Cherry. Blooms very early in the spring. It makes a little tree of widely waving branches. In April the pink veil of blossoms appears to float in the air.

	Each	
5 to 6 ft. high, 1½- to 2-in. cal.....	\$4 00	
6 to 8 ft. high, 2½-in. cal.....	7 50	
8 to 10 ft. high, 2½- to 3-in. cal.....	10 00	
10 to 12 ft. high, 3-in. cal.....	15 00	

**P. pennsylvanica.** Pin Cherry. Shrub or small tree with slender, reddish, shining leaves.

Handsome in white blooms and numerous attractive red fruit in summer.

6 to 7 ft. high.....	3 00
----------------------	------

**P. serrulata fl.-pl.** Japanese Double-flowering Cherry. The blooming of the Cherry is a national festival with the Japanese. The blooms appear in May; some are fully as beautiful as roses. They are quite at home in this climate, thriving and blooming with as much vigor and freedom as in their own. Why not make a start at a collection of Flowering Trees by ordering one?

**Beni-Higan.** Early; small single blush-pink flowers.

**Hizokura.** Crimson buds. Flowers red to old rose.

**Kwanzan.** Double, delicate pink flowers.

**Kofugen.** Crimson buds; opens into deep pink double flowers.

**Naden.** Late, double pink flowers.

**Shirofugen.** Large, double, light pink flowers.

**Yedoensis.** Single pink flowers, fading to white.

	Each	10	100
4 to 5 ft. high.....	\$3 00	\$27 50	
5 to 6 ft. high.....	4 00	37 50	
6 to 8 ft. high.....	6 00	57 50	\$500 00
8 to 10 ft. high.....	12 00	110 00	
12 to 14 ft. high.....	25 00		

**OXYDENDRUM arboreum (Andromeda ar-**

**borea).** Sorrel Tree. The flowers are like the lily-of-the-valley, and borne in July. It is as good a tree as the dogwood, but the flowers are not quite so showy. Of greater charm in autumn by reason of the intense coloring of the foliage.

	Each	10
3 to 4 ft. high.....	\$2 50	\$22 50
4 to 5 ft. high.....	3 50	32 50
5 to 6 ft. high.....	4 50	42 50
6 to 8 ft. high.....	7 50	70 00

**PHELLODENDRON amurensis.** Amur Cork

Tree. A rapid-growing small tree with broad top. Foliage not injured by insects or drought. Native of China.

12 to 14 ft. high.....	25 00
14 to 16 ft. high.....	35 00

**PLATANUS orientalis.** European Plane Tree.

Withstands smoky city conditions. Rapid-growing tree with interesting bark. Good street tree.

8 to 10 ft. high.....	4 00	30 00
10 to 12 ft. high, 2 -in. cal.....	6 00	50 00
12 to 14 ft. high, 2½-in. cal.....	10 00	90 00

**POPULUS nigra fastigiata.** Lombardy Poplar.

Narrow, pyramidal outline. Does not enjoy life on Long Island after five years. Used for tall screening.

10 to 12 ft. high.....	1 25	10 00
------------------------	------	-------

**PTEROSTYRAX hispida.** Fragrant Epaulette

Tree. A rare and interesting tree from Asia. Very handsome and graceful in bloom with its large, pendulous panicles of creamy white, fragrant flowers.

2 to 3 ft. high.....	1 00	9 00
----------------------	------	------

## Oaks • Quercus

The Oaks represent the sturdiest character of our tree family—long-lived trees that defy ocean blast and prairie wind. There is an Oak for every soil-condition. The thought that they are slow-growing is erroneous; when established they grow just as fast as the maple or linden. Long Island is an Oak country; 80 per cent of the forest is Oak, and the noblest trees left along property lines and roadsides are Oaks. Oak-plantings are enduring monuments. They are beautiful in form and autumn coloring of foliage. Some hold their leaves all winter.

- QUERCUS bicolor.** Swamp White Oak. A shaggy-branched tree, native to hardpan and clay soils. Gray, scaly bark.
- |                                   |      |    |  |

Children enjoying the cool shade of a group of Pin Oaks.  
An ideal tree for lawn specimen or avenue planting

**SORBUS americana.** American Mountain-Ash.  
Admired for showy clusters of bright scarlet fruit. Dark green, compound leaves turning yellow in autumn.

	Each	10
5 to 6 ft. high . . . . .	\$3 00	\$27 50

### Lindens

**TILIA cordata.** Little-leaf European Linden.  
Small dark green leaves; compact, ovate top.  
One of the few Lindens that will hold its leaves all summer.

6 to 8 ft. high . . . . .		3 00	27 50
8 to 10 ft. high,	1½-in. cal. . . . .	5 00	40 00
10 to 12 ft. high,	2 -in. cal. . . . .	7 50	70 00
12 to 14 ft. high,	2½-in. cal. . . . .	10 00	90 00
12 to 14 ft. high,	3 -in. cal. . . . .	18 00	150 00

20 to 25 ft. high,	8- to 10 -in. cal. . . . .	200 00	
20 to 25 ft. high,	10- to 12 -in. cal. . . . .	250 00	

**T. spectabilis.** Showy Linden. It is like the Silver Linden, but the leaves are larger and not white beneath.

28 to 32 ft. high,	12- to 14-in. cal. . . . .	275 00
30 to 40 ft. high,	14- to 16-in. cal. . . . .	350 00

**T. tomentosa.** Silver-leaf Linden. More up-standing than the Little-leaf Linden. Leaves deep green above, silvery white beneath. Top symmetrical and elliptical.

22 to 24 ft. high,	8- to 10-in. cal. . . . .	150 00
26 to 32 ft. high,	10- to 12-in. cal. . . . .	200 00
28 to 35 ft. high,	12- to 14-in. cal. . . . .	275 00
30 to 38 ft. high,	15- to 16-in. cal. . . . .	350 00

Elms

**ULMUS americana.** American Elm. Has the ideal arching shape but must be artificially fed and watered on Long Island to get the best trees. A favorite tree for framing houses and avenue planting. We offer trees of good quality which are sure to grow.

Elms will thank you for a liberal supply of bonemeal and a drink before and during the summer drought.

		Each	10	100
10 to 12 ft. high,	2 -in. cal.....	\$5 00	\$45 00

12 to 14 ft. high.....	7 50
14 to 16 ft. high.....	15 00

Ulmus americana

## Evergreens

Evergreens of all kinds give a feeling of richness to the home landscape, especially during the winter months when other trees and shrubs are defoliated. Hicks Nurseries have given much time and study to the growing of Evergreens. Our largest department is devoted to them.

The sandy soil of Long Island is well suited for the successful use of Evergreens. Pines can be planted to blot out the ugly site of gravelly hillsides. Tall-growing Evergreens can be used in groups to shut out cold winds or a disagreeable view, or planted just for beauty. Low-growing Evergreens should be used at the base of tall groups or where a low effect is desired. They are particularly suited for planting at the house foundation.

Hicks Evergreens have been carefully grown to insure good root-systems and we guarantee them to satisfactorily serve your needs.

### Fir • Abies

Pyramidal trees, with whorled, spreading branches. The species of this genus are among the handsomest and stateliest conifers. With them, you will find new elements for composing your landscapes.

**ABIES cephalonica.** Greek Fir. Foliage dark, shining green, pale beneath. Recommended as lawn specimen or to dignify the background of an evergreen garden.

	Each
4 to 5 ft. high.....	\$8 00
5 to 6 ft. high.....	10 00
6 to 7 ft. high.....	15 00
7 to 8 ft. high.....	20 00
8 to 10 ft. high.....	35 00

**A. concolor.** White Fir. It has a beautiful silver or blue-green color, contrasting well with the darker evergreens and is, therefore, a good substitute for blue spruce. A big, broad-shouldered, sturdy tree well suited for your landscape.

	Each	10
2 to 3 ft. high.....	\$3 00	
3 to 4 ft. high.....	4 00	
4 to 5 ft. high.....	6 00	
5 to 6 ft. high.....	7 50	\$60 00

8 to 10 ft. high.....	25 00	200 00
10 to 12 ft. high.....	50 00	
18 to 22 ft. high.....	150 00	

**A. homolepis (brachyphylla).** Nikko Fir. From the Nikko Mountains in Japan. Likes our climate better than its own relative, the Balsam Fir. A rapid-growing evergreen with dark green foliage and space between the branches. Beautiful tree.

	Each
8 to 10 ft. high.....	\$30 00
12 to 14 ft. high.....	75 00
14 to 16 ft. high.....	100 00
18 to 22 ft. high.....	150 00
22 to 24 ft. high.....	175 00
24 to 32 ft. high.....	200 00

**A. veitchi.** Veitch's Fir. A graceful, rapid-growing Fir of slender habit. The under side of the shiny green foliage is marked with two broad bands of white, giving a distinctly blue effect.

4 to 5 ft. high.....	7 50
5 to 6 ft. high.....	10 00
6 to 8 ft. high.....	15 00
8 to 10 ft. high.....	25 00

**CEDRUS atlantica.** Mount Atlas Cedar. One of the most distinctive and ornamental evergreens. The Mount Atlas and Deodar Cedars are true Cedars, the native Red Cedar being, correctly speaking, a Juniper. The Mount Atlas Cedar and Cedar of Lebanon grow together in Palestine. They are almost identical. Deodar Cedar comes from the northwestern Himalaya Mountains.

5 to 6 ft. high.....	8 00
----------------------	------

Japanese Cypress • *Chamaecyparis* (*Retinospora*)

These have become more widely planted than any other evergreen from Asia. The great variety of form and color—dark green, light green, golden yellow, and silvery blue—lend variety to otherwise monotonous landscape. Excellent for hedge-planting as they can be kept sheared to desired width and height.

<b>*CHAMÆCYPARIS obtusa.</b> Hinoki Cypress. Shell-like fronds of dark green foliage. Grows to a tall tree in Japan, but use it where you want a plant about 6 feet high.		Each

6 to 7 ft. high	.....	10 00
<b>C. japonica lobbi.</b> Lobb Cryptomeria. A Japanese pyramidal evergreen of compact habit and dark green foliage. It is very distinct from other evergreens.		
7 to 8 ft. high	.....	15 00

**Juniper · Juniperus**

Have you a sunny place for small evergreens? Perhaps you are tired of arborvitæ and retinosporas and want to try a new group. Know the Junipers? Some tall and spiky, some flat creepers to hug the rocks and wind-swept areas or open pastures. Foliage blue-green, dark green, golden-tipped, clear green, and mossy.

- JUNIPERUS chinensis columnaris.** Column Chinese Juniper. A very hardy Chinese Juniper. It forms a distinct, narrow pyramid with needle-like leaves. The green or blue-green foliage is very decorative.

Juniperus chinensis pfitzeriana

<b>Juniperus excelsa stricta.</b> Spiny Greek Juniper. An upright-growing cone with cheerful blue-green foliage. The growth is slow, so that the tree is well adapted for foundation planting, rock-gardens or other situations where small or dwarf trees are required.		Each
1½ to 2 ft. high.....		\$2 50
2 to 3 ft. high.....		3 00
3 to 4 ft. high.....		4 00
<b>J. sabina.</b> Savin Juniper. Dense, dark green foliage. Spreading branches, forming irregular, vase-shaped bush.		
1½ to 2 ft. high.....		2 00
<b>J. squamata meyeri.</b> Meyer's Juniper. Rare and picturesque little evergreen. Deep blue with touch of red at tips—a distinctly unusual color combination that is seen to best advantage when grouped with other evergreens. Introduced from China.		
1½ to 2 ft. high.....		2 50
<b>J. virginiana.</b> Red Cedar. Tall, spiry Red Cedars are familiar sights along fence-rows and in abandoned fields. To use them in home landscapes requires careful moving with big balls of earth and watering of the roots.		Each 10
3 to 4 ft. high.....	\$3 00	
4 to 5 ft. high.....	4 00	
5 to 6 ft. high.....	5 00	
6 to 7 ft. high.....	6 00	\$50 00

8 to 10 ft. high.....	15 00	100 00
10 to 12 ft. high.....	25 00	
Larger sizes on application.		
<b>J. virginiana glauca.</b> Blue form of the above.		Each
2 to 3 ft. high.....		\$3 00
3 to 4 ft. high.....		4 00
4 to 5 ft. high.....		6 00
5 to 6 ft. high.....		8 00
6 to 8 ft. high.....		10 00
<b>J. virginiana globosa.</b> Globe Red Cedar. A compact, globose form with bright green, scale-like leaves.		
1½ to 2 ft. high.....		3 00
2 to 3 ft. high.....		5 00
<b>J. virginiana kosteri.</b> Koster's Juniper. A low-spreading variety; pleasing blue-green.		
1 to 1½-ft. spread.....		2 00
2 to 3-ft. spread.....		3 00
<b>J. virginiana schottii.</b> Schott Red Cedar. Columnar tree with compact, bright green, scale-like foliage.		
4 to 5 ft. high.....		5 00
5 to 6 ft. high.....		7 00

### Spruce • Picea

The spire-like crowns of Spruces lend a peculiar charm in garden and landscape. They thrive in well-drained soils, freely exposed to sun and air.

<b>PICEA excelsa.</b> Norway Spruce. A common variety of graceful and rapid growth, for sheltered situations.		Each
3 to 4 ft. high.....		\$3 50
4 to 5 ft. high.....		5 00
5 to 6 ft. high.....		7 50
<b>P. excelsa gregoriana.</b> Gregory Spruce. Very dwarf. Somewhat conical in form to 2 feet high.		
2 to 3 ft. high.....		3 00
3 to 4 ft. high.....		4 00
<b>P. excelsa maxwelli.</b> Maxwell Spruce. A low, flat, dense form not exceeding 2 feet in height, with very short, thick branchlets.		
1½-ft. spread.....		2 50
2 -ft. spread.....		3 00
2 to 3-ft. spread.....		8 00
<b>P. excelsa pumila.</b> Dwarf Norway Spruce. A dwarf, globose, densely branched form with dark green foliage.		
1½ to 2 -ft. spread.....		2 50
2 to 2½-ft. spread.....		3 00

<b>Picea excelsa repens.</b> Creeping Norway Spruce. Low form with procumbent or arching branches.	Each
2- to 3-ft. spread . . . . .	\$5 00
<b>P. koyami.</b> Japanese Spruce. Narrow-pyramidal Spruce with small needles. Introduced from Japan and Korea by the late E. H. Wilson of the Arnold Arboretum. 6 to 8 ft. high . . . . .	10 00
8 to 10 ft. high . . . . .	15 00
<b>P. omorika.</b> Serbian Spruce. Tall, narrow tree. Under-side of foliage is blue, giving distinctive appearance.	
2 to 3 ft. high . . . . .	3 00
3 to 4 ft. high . . . . .	4 00
6 to 8 ft. high . . . . .	12 00
8 to 10 ft. high . . . . .	18 00
10 to 12 ft. high . . . . .	20 00
<b>P. pungens.</b> Colorado Spruce. Narrow and regular in shape. Gray-green foliage. Handsome lawn tree.	
2 to 3 ft. high . . . . .	3 00
3 to 4 ft. high . . . . .	4 50
4 to 5 ft. high . . . . .	6 00
5 to 6 ft. high . . . . .	10 00
6 to 8 ft. high . . . . .	18 00
8 to 10 ft. high . . . . .	20 00
10 to 12 ft. high . . . . .	25 00
12 to 14 ft. high . . . . .	35 00
<b>P. pungens glauca.</b> Blue Colorado Spruce. A conspicuous tree with bluish or sage-green foliage.	
2 to 3 ft. high . . . . .	4 00
3 to 4 ft. high . . . . .	6 00
4 to 5 ft. high . . . . .	8 00
5 to 6 ft. high . . . . .	12 00
6 to 8 ft. high . . . . .	20 00
<b>P. pungens kosteriana.</b> Koster's Blue Spruce. A deeper blue variety than the preceding.	
3 to 4 ft. high . . . . .	8 00
4 to 5 ft. high . . . . .	12 00
6 to 7 ft. high . . . . .	18 00
7 to 8 ft. high . . . . .	22 00
8 to 9 ft. high . . . . .	30 00

A Nikko Fir at Hicks Nurseries. Raise a fund for your community Christmas tree and select it here. It is guaranteed

*Pinus strobus* (White Pine). Big value at low cost

## Pine • Pinus

Hicks Nurseries specialize on Pines because Pines specialize on Long Island. They like dry, sandy soils, exposed, wind-swept shores and mountainsides. Most other evergreens prefer swamps and ravines. Valuable as lawn specimens, windbreaks, screens, and hedges.

<b>PINUS cembra.</b> Swiss Stone Pine. In its juvenile state, it forms a dense pyramid and is of very slow growth.	Each	
4 to 5 ft. high.....	\$7 50	
6 to 8 ft. high.....	15 00	
<b>P. koraiensis.</b> Korean Pine. A slow-growing White Pine reputed to have been the last straw leading to the Russo-Japanese War.	Each	10
5 to 6 ft. high.....	\$10 00	
6 to 8 ft. high.....	15 00	\$125 00
8 to 10 ft. high.....	18 00	150 00
10 to 12 ft. high.....	25 00	200 00
12 to 14 ft. high.....	35 00	275 00
14 to 16 ft. high.....	75 00	
<b>P. montana mughus.</b> Mugho Pine. Forms round bush twice as wide as high. Bright green, hardy. Use in sunny, windy places.	Each	10
15- to 18 -in. spread.....	\$2 25	
18- to 24 -in. spread.....	3 00	\$25 00
2- to 2½-ft. spread.....	4 00	35 00
3- to 4 -ft. spread.....	7 50	60 00
<b>P. nigra austriaca.</b> Austrian Pine. A heavy, solid dome of green. Ideal for seashore and gravelly, wind-swept situations.	Each	10
2 to 3 ft. high.....	\$2 50	\$20 00
3 to 4 ft. high.....	3 50	30 00
4 to 5 ft. high.....	5 00	45 00
5 to 6 ft. high.....	7 50	60 00
6 to 8 ft. high.....	10 00	80 00
8 to 10 ft. high.....	18 00	150 00
10 to 12 ft. high.....	25 00	
12 to 14 ft. high.....	35 00	

**Pinus parviflora.** Japanese White Pine. Just what its name indicates—picturesque, irregular, and dwarf. Contrasts well with planting of darker varieties. Each

8 to 10 ft. high.....	\$25 00
10 to 12 ft. high.....	45 00
14 to 16 ft. high.....	150 00

**P. peuce.** Macedonian Pine. Medium-sized, dense, pyramidal tree. Resembles Swiss Stone Pine in its pyramidal habit. A useful and hardy ornamental plant of comparatively slow growth.

2 to 3 ft. high.....	2 50
3 to 4 ft. high.....	3 50
4 to 5 ft. high.....	5 00

**P. resinosa.** Red Pine. One of the handsomest Pines. It is named from its reddish bark. Has form and texture like Austrian Pine, pure dark green in color. In a collection of Pines, it will stand out as the darkest tree. Red Pine grows faster than White Pine and keeps its central leader. If you have a dry hillside you wish clothed, these will serve you admirably. Each 10

6 to 8 ft. high.....	\$15 00	
8 to 10 ft. high.....	20 00	\$175 00
10 to 12 ft. high.....	30 00	250 00
12 to 14 ft. high.....	45 00	400 00
14 to 16 ft. high.....	60 00	500 00
16 to 18 ft. high.....	75 00	600 00

**P. strobus.** White Pine. Classed as the noblest evergreen in the northeastern United States. It will give you more ways of expressing yourself than any other evergreen. Youthful beauty is succeeded by the beauty of middle age and picturesque old age. The Colonists found White Pine native in many parts of Long Island. It was the easiest timber to work and so was cut first. The mother trees are gone and fires killed the baby trees. For a wall of green, they are the best trees. Does your flower-garden need a background of dark green to show off its beauty? Perhaps a hedge of Pines will be just what is needed.

	Each	10	100
2 to 3 ft. high.....	\$2 00	\$15 00	\$125 00
3 to 4 ft. high.....	3 00	25 00	225 00
4 to 5 ft. high.....	4 00	35 00	325 00
5 to 6 ft. high.....	5 00	45 00	400 00

20 to 22 ft. high.....	150 00		
22 to 24 ft. high.....	200 00		

Larger sizes, prices on application.

**P. strobus pyramidalis.** Pyramidal White Pine. Same as preceding, except of narrow habit. Here is something unusual for formal effect. Each 10

2 to 3 ft. high.....	\$3 00	\$25 00
3 to 4 ft. high.....	5 00	40 00
4 to 5 ft. high.....	8 00	
6 to 8 ft. high.....	15 00	
10 to 12 ft. high.....	35 00	

**P. sylvestris.** Scotch Pine. The most Pine for the least money. Grows fast when young. Resists wind, drought, or cold. Foliage blue-green. Each 10

5 to 6 ft. high.....	\$5 00	\$40 00
6 to 8 ft. high.....	10 00	75 00

**P. thunbergi.** Japanese Black Pine. A darker green companion for the Jack Pine. Use for seashore hedges or any sandy wind-swept situation. Each 10 100

2 to 2½ ft. high.....	\$2 00	\$17 50	\$125 00
2½ to 3 ft. high.....	2 50	22 50	175 00
3 to 4 ft. high.....	3 00	27 50	250 00
4 to 5 ft. high.....	5 00	45 00	400 00
5 to 6 ft. high.....	8 00	75 00	
6 to 8 ft. high.....	12 00	100 00	
8 to 10 ft. high.....	18 00	150 00	
10 to 12 ft. high.....	25 00	225 00	

**Pinus virginiana.** Scrub Pine. Similar to the Jack Pine, with the same dense, dark foliage and picturesque, slender, wide-spreading branches. Valuable for covering dry and barren soil.

	Each	10
6 to 8 ft. high.....	\$8 00	\$70 00
8 to 10 ft. high.....	10 00	80 00

### Fir • Pseudotsuga

**PSEUDOTSUGA (Picea) douglasi.** Douglas Fir. You can keep Douglas Fir taller and more narrow than most other evergreens; therefore, consider the plants for situations where you need a screen not over 10 feet wide. The foliage is a light bluish green. The growth is dense and symmetrical.

	Each	10	100
2 to 3 ft. high.....	\$2 00	\$17 50	
3 to 4 ft. high.....	3 00	25 00	
4 to 5 ft. high.....	5 00	40 00	
5 to 6 ft. high.....	7 50	60 00	\$500 00
6 to 8 ft. high.....	12 00	100 00	
8 to 10 ft. high.....	18 00	150 00	
10 to 12 ft. high.....	25 00	200 00	
12 to 14 ft. high.....	30 00	250 00	
14 to 16 ft. high.....	50 00	400 00	
16 to 18 ft. high.....	75 00	600 00	

### Yew • Taxus

Of all the evergreens for small places these are preëminent. Dark green, fine-textured foliage, not affected by cold or heat, and small stature is the technical analysis, but you will have to get acquainted with them to know why they are better for your place. Popularizing the Japanese Yew is one of the achievements of Hicks Nurseries. The species was introduced by Dr. Hall, a missionary to Japan. He recognized the similarity in climate and brought over the plants to Parson's Nursery, Flushing, L. I., to introduce.

**TAXUS baccata repandens.** Spreading English Yew. A form of English Yew with a low, arching growth and luxuriant dark green foliage.

	Each	10	100
1- to 1½-ft. spread.....	\$2 00	\$17 50	
1½- to 2 -ft. spread.....	3 00	25 00	\$200 00
2- to 2½-ft. spread.....	4 00	35 00	
2½- to 3 -ft. spread.....	7 50	70 00	

A hedge planting of *Taxus media hicksi*

**Taxus baccata repandens** (Spreading English Yew)

**Taxus cuspidata.** (Flat form.) Japanese Yew. A prostrate form of the Japanese Yew. Flat-topped and wide-spreading. Can be kept trimmed as substitute for dwarf boxwood. The reason these are flat is that they are grown from cuttings of side branches of the upright form. Another point about Japanese Yew is its indifference to shade or sunshine; the bright sun does not brown it and the deep shade only makes it darker and richer.

	Each	10	100
1- to 1 1/2-ft. spread.....	\$2 00	\$15 00	
1 1/2- to 2 -ft. spread.....	3 00	20 00	\$175 00
2- to 3 -ft. spread.....	4 00	30 00	275 00
3- to 4 -ft. spread.....	7 50	70 00	600 00
4- to 5 -ft. spread.....	12 00	100 00	
5- to 6 -ft. spread.....	25 00		
6- to 7 -ft. spread.....	50 00		
7- to 8 -ft. spread.....	75 00		

**T. cuspidata capitata.** Upright Japanese Yew. An upright-growing form of Yew with a single trunk.

	Each	10	100
1 1/2 to 2 ft. high.....	\$2 50	\$20 00	
2 to 2 1/2 ft. high.....	3 00	27 50	\$250 00

3 to 3 1/2 ft. high.....	6 50	55 00	500 00
3 1/2 to 4 ft. high.....	7 00	65 00	600 00
4 to 4 1/2 ft. high.....	10 00	90 00	800 00
4 1/2 to 5 ft. high.....	15 00	125 00	1000 00
5 to 5 1/2 ft. high.....	20 00	195 00	
5 1/2 to 6 ft. high.....	25 00	225 00	

Arborvitae • Thuja

**THUJA occidentalis.** American Arborvitæ. Quickly makes a pyramidal tree with width about half of height. Foliage bright green in summer, bronze in winter.

	Each	10
3 to 4 ft. high.....	\$1 75	
4 to 5 ft. high.....	3 00	
5 to 6 ft. high.....	4 00	
6 to 7 ft. high.....	7 50	\$60 00
7 to 8 ft. high.....	9 00	80 00
8 to 10 ft. high.....	12 00	100 00

**T. occidentalis compacta.** Compact Arborvitæ. Low, globose, bright green form. Very formal and attractive.

2½ to 3 ft. high.....		Each	\$3 00
-----------------------	--	------	--------

**T. occidentalis rosenthali.** Rosenthal Arborvitæ. Deep green, columnar form of slow growth for formal use.

1½ to 2 ft. high.....		1 50
2 to 3 ft. high.....		3 00

**T. occidentalis wareana.** Ware or Siberian Arborvitæ. Denser and brighter foliage than American Arborvitæ. Fine for hedges.

2 to 3 ft. high.....		3 00
3 to 4 ft. high.....		4 00
4 to 5 ft. high.....		5 00

**T. plicata.** Western Arborvitæ. A pyramidal tree with rich, deep blue-green, dense foliage giving pleasing effect.

2 to 3 ft. high.....		2 50
3 to 4 ft. high.....		3 50
4 to 5 ft. high.....		5 00
6 to 8 ft. high.....		8 00
8 to 10 ft. high.....		12 00
10 to 12 ft. high.....		15 00
12 to 14 ft. high.....		20 00

**T. standishi.** Rather thick, compressed, bright green foliage. Handsome tree with rather broad head, quite different from the other species.

2 to 3 ft. high.....		3 00
3 to 4 ft. high.....		3 50
4 to 5 ft. high.....		4 00
5 to 6 ft. high.....		7 50

Border of Evergreens shutting out noise of highway

Rock- and water-garden backed by Evergreens

## Hemlock • Tsuga

**TSUGA canadensis.** Canada Hemlock. Very graceful tree with dark green foliage, doing best in sheltered situations. Wonderful for hedges because it keeps full and broad at the base. It withstands the most severe kind of cutting back and does best if pruned to a broad, oval form.

	Each	10	100
2 to 3 ft. high.....	\$2 00	\$17 50	\$150 00
3 to 4 ft. high.....	3 50	30 00	275 00
4 to 5 ft. high.....	4 50	40 00	375 00
5 to 6 ft. high.....	5 50	50 00	475 00
6 to 7 ft. high.....	7 00	67 50	650 00
7 to 8 ft. high.....	10 00	95 00	900 00
7 to 8 ft. high. Heavy specimens...	12 00	110 00	1000 00
8 to 9 ft. high. Heavy specimens...	15 00	140 00	1250 00

**T. canadensis atrovirens.** A dense and compact grower, forming a low broad pyramid. While slow growing, it ultimately attains a height of perhaps 20 feet.

	Each
1 to 2 ft. high.....	\$3 00
2 to 3 ft. high.....	4 00

5 to 6 ft. high.....	10 00		

**T. diversifolia.** Japanese Hemlock. A hardy and sturdy species accustomed to sun and wind. You will find them valuable for foundation planting with Japanese Yew, Holly, and Laurel. The foliage is lighter than our native Hemlock.

	Each	10
1 to 1½ ft. high.....	\$1 50	\$10 00

A Hicks planting tastefully arranged

Foundation planting of tall and low Evergreens

## Evergreen Shrubs

It is this class of plants that gives finish and richness to the home landscape. The green foliage is held throughout the year, thereby adding to the winter aspect of lawn and garden. No landscape or garden is altogether satisfactory without the use of these beautiful plants that afford such a wide range of selection in producing some of the most pleasing results.

Broad-leaved evergreens are comparatively higher priced than the common fast-growing evergreen trees, but in many plantings, especially foundation plantings, their use would ultimately prove more economical. If you want a foundation planting, choice in texture and color, make your selection from this list of Evergreen Shrubs. They are also particularly adapted for planting in the evergreen- and rock-garden, for covering banks, edging groups of tall shrubs and evergreens, and as a border for drive and woodland.

Long Island soil is suited to the growing of this class of plants. The soil you have, plus a mulch of decayed leaves, is all that is required. Watering, of course, is necessary during the dry season.

**ABELIA grandiflora.** Glossy Abelia. A little shrub with pink bells all summer. Protect it with cornstalks or burlap in winter and it will not be killed back. Blooms like a miniature weigela, with flowers as pleasant to discover as arbutus.

	Each	10
Plants in 6-in. pots.....	\$1 00	\$7 50

**ANDROMEDA (Pieris) floribunda.** Mountain Andromeda. A little gem of the rhododendron and laurel family, growing about 2 feet high, with light green foliage that is perfectly hardy. It appears as if in bloom all winter, for above the foliage are clusters of buds which open in March with lily-of-the-valley-like flowers. It is particularly appropriate at the outer edge of mass-plantings of choice evergreens about the foundation of a house, and can be used in the rock-garden.

	Each	10
1 to 1½ ft. high.....	\$1 50	\$12 50
1½ to 2 ft. high.....	2 00	17 50
2 to 2½ ft. high.....	4 00	35 00

**A. japonica (P. japonica).** Japanese Andromeda. This has long racemes of lily-of-the-valley-like flowers which come so early that they are sometimes covered with snow and ice. It is liable to have blossom-buds winter-killed unless it is in a sheltered place. Excellent for rockery and house foundation.

1 to 1½ ft. high.....	1 50	12 50
1½ to 2 ft. high.....	2 00	17 50
2½ to 3 ft. high.....	4 00	35 00

**BERBERIS julianæ.** A new and rare evergreen Barberry from China that is of great value for rockery or foundation planting. It stays perfectly green during the winter.

1½ to 2 ft. high.....	1 50	12 50
2 to 2½ ft. high.....	2 00	17 50

**B. verruculosa.** Warty Barberry. Another of the new things from China, with interesting foliage. Glossy green and bronze all winter.

## COVER-PLANTS

Pachysandra, Pachistima, Vinca,  
Euonymus, Calluna

Let them clothe your banks and cover the bare ground between newly planted trees and shrubs. They tie the individual plants together and make a pleasing unit of the entire group.

Bird-bath with *Euonymus radicans kewensis* and Cotoneaster

**CALLUNA.** Heather. Our supply consists of several varieties differing in foliage and flower. There is no difficulty in its cultivation. It will grow and spread like a great mat of sod. Use it to carpet a sweep of ground or to hold up steep banks. Tuck it in the edge of your foundation planting or to draw out the border of the shrub group.

- C. vulgaris.** Scotch Heather. Flowers usually rosy pink.
- |                      |        |        |         |
|----------------------|--------|--------|---------|
|                      | Each   | 10     | 100     |
| 4 to 8 in. high..... | \$0 50 | \$4 50 | \$40 00 |
- C. vulgaris alba.** White Heather. Flowers white.

|----------------------|----|------|-------|
| 2 to 4 in. high..... | 50 | 4 50 | 40 00 |
|----------------------|----|------|-------|
- C. vulgaris cuprea.** Golden Heather. Foliage golden in summer, bronze in winter.
- |                      |    |      |       |
|----------------------|----|------|-------|
| 4 to 6 in. high..... | 50 | 4 50 | 40 00 |
|----------------------|----|------|-------|

**COTONEASTERS.** For low-growing forms, see list under Flowering Shrubs.

**DAPHNE cneorum.** Garland Flower. Little trailing evergreen plant about 6 inches high and 1 foot wide, with pink flowers in May and again in late summer. The spicy perfume you will enjoy and never forget. Begin the habit of buying little plants in pots or with clumps of earth. Tuck them in where there is room for a plant of 1-foot spread at the house foundation, in rockery, or flower border.

	Each	10
9 to 12 in. high.....	\$1 25	\$11 25

**ERICA.** Heath. Evergreen, branchy shrubs in many varieties, with small needle-like leaves. They are plants of attractive compact habit and slow growth. Use in rock-garden, foundation, or group-planting.

- E. carnea.** Spring Heath. Dwarf grower with red flowers.
- |                 |        |        |
|-----------------|--------|--------|
|                 | Each   | 10     |
| 4 in. high..... | \$0 75 | \$6 00 |
- E. mediterranea.** Biscay Heath. Taller growing with deep red flowers.
- |                      |    |      |
|----------------------|----|------|
| 6 to 8 in. high..... | 75 | 6 00 |
|----------------------|----|------|

**EUONYMUS myrtifolius.** Broad-leaved Burningbush. Dwarf evergreen plant that can be used as a substitute for boxwood edging.

	Each	10	100
2 to 4 in. high.....	\$0 35	\$3 00	\$25 00

**E. radicans.** Wintercreeper. Like many other plants from Japan, it is entirely hardy here. The elliptical leaves are about an inch long and so closely placed as to make a thick, green cover. It will clothe tree trunks along your woodland drive, cover the house foundations or carpet the ground under shrubs and rhododendrons.

	Each	10
8 to 10 in. high.....	\$0 35	\$3 00

Wintercreeper. Evergreen Bittersweet is another name. Hardy evergreen leaves like English Ivy. Red and orange berries

**Euonymus radicans kewensis.** Baby Wintercreeper. A diminutive variety with small leaves. Fine for ground-cover or rockery use.

	Each	10	100
2 to 4 in. high . . . . .	\$0 35	\$3 00	\$25 00

**E. radicans vegetus.** Bigleaf Wintercreeper. This has round, thick, leathery leaves about 1 inch in diameter. It will make a branchy little bush 2 feet high, or it will climb like a vine. Most effective for use in front of taller evergreens, or for planting at the base of walls or house foundation. Even when small it bears heavy crops of showy red berries like those of bittersweet, to which it is closely related.

	Each	10
8 to 12 in. high . . . . .	\$0 60	\$5 00

**ILEX crenata.** Japanese Holly. The leaf is like that of boxwood, not the Holly, and the berries are black. You will find it most happy in among other evergreens in the foundation planting or out among the pines and shrubs or in the woods. The outline of the plant is open and picturesque, not smooth like the boxwood. The tips of the plants may winter-kill if grown in the open, but that is no objection; it merely trims it back and keeps it down to a most useful size.

2 to 2½ ft. high . . . . .	2 50	20 00
2½ to 3 ft. high . . . . .	3 50	30 00
3 to 4 ft. high . . . . .	5 00	
4 to 5 ft. high . . . . .	7 00	
5 to 6 ft. high . . . . .	10 00	

**I. crenata microphylla.** Little-leaf Japanese Holly. A very neat evergreen shrub with leaves like boxwood, and black berries. It is more compact, has smaller leaves than *I. crenata*, and is considered more hardy.

	Each	10	100
10 to 12 in. high . . . . .	\$0 75	\$6 00	\$50 00
1 to 1½ ft. high . . . . .	1 00	7 50

3 to 4 ft. high . . . . .	5 50		
4 to 5 ft. high . . . . .	7 50		

**I. crenata nummularia.** Boxleaf Japan Holly. Somewhat resembles dwarf boxwood in habit and growth.

	Each	10
6 to 12 in. high . . . . .	\$0 75	\$6 00
2 ft. high . . . . .	3 00	
2½ ft. high . . . . .	4 00	

**I. glabra.** Inkberry. A native shrub making a round green bush about 3 feet high, like box. Has small black berries. Use it in quantity for your evergreen garden and foundation planting; naturalize it along ponds, streams, sand-dunes, or at edge of a woodland.

1 to 1½ ft. high . . . . .	1 00	9 00
1½ to 2 ft. high . . . . .	1 50	12 50
2 to 2½ ft. high . . . . .	2 00	17 50
2½ to 3 ft. high . . . . .	3 00	27 50

**Ilex opaca.** American Holly. The Holly is native along the coast as far north as Cape Cod, including Long Island. It is a beautiful tree and can be used for hedges. As it does not like to have the sun shine on its head, nestle it among pines and oaks as you see it in the woods. It will not keep its best color out in the winter sun. Holly is slow to start growing, so don't expect to get big ones cheap, but plant a lot of small ones.

	Each	10
2 to 3 ft. high.....	\$2 50	\$20 00
3 to 4 ft. high.....	4 00	35 00
4 to 5 ft. high.....	5 00	45 00
5 to 6 ft. high.....	8 00	75 00
6 to 8 ft. high.....	18 00	
8 to 10 ft. high.....	25 00	

**KALMIA latifolia.** Mountain Laurel. Here is something you can use by thousands to decorate your woodland, plant in the open lawn or border, underplant evergreen windbreak or screen, mass at the foundation of the house, or plant just for its beauty. You can add it to your commonplace shrub border. You will get extra quality and value. We have big, broad shrubs with large balls of earth. You can plant them all summer. All they ask is to have you tuck them in with leaves and give them a drink the first summer. The flowers are abundant in late June, but the crowning glory is the all-the-year foliage in billowy masses.

	Each	10	100
1 to 1½ ft. high.....	\$1 00	\$9 00	\$75 00
1½ to 2 ft. high.....	1 50	12 50	100 00
2 to 3 ft. high.....	2 00	17 50	150 00

**LEIOPHYLLUM buxifolium.** Sand Myrtle.

Low, compact evergreen with small entire leaves, native in sandy soils from New Jersey southward. Has small white or pinkish flowers in spring.

	Each	10
8 to 10 in. high.....	\$1 00	\$9 00

**LEUCOTHOE catesbæi.** Drooping Leucothoe. A close relative of the laurel and native to the southern mountains. Evergreen foliage like laurel but bronzed in winter. Flowers like crowded lily-of-the-valley. Makes a long, arching spray, perhaps 3 feet long. It is particularly valuable among the tall evergreens on the north side of your house and among your shrubs and trees. It is entirely harmonious with Long Island woodland and yet different enough to attract appreciative attention.

	Each	10	100
1 to 1½ ft. high.....	\$0 80	\$7 50	\$65 00
1½ to 2 ft. high.....	1 00	9 00	75 00

Mountain Laurel with ground-cover planting of Pachysandra

A charming use of *Leucothoe*

**MAHONIA aquifolium.** Oregon Hollygrape. This looks like a little holly a foot or two high, except that the foliage turns reddish brown in winter. It prefers a shady situation; in fact, in full sunshine it is apt to get open and ragged. Flowers yellow, in dense clusters, appearing in spring. Berries blue or nearly black.

	Each	10	
1 to 2 ft. high . . . . .			\$1 00 \$9 00

**PACHISTIMA canbyi.** Canby Pachistima. A green cover-plant 8 inches high. Little green and bronze leaves. It is native on cliffs in the Alleghanies. Use it in quantity as a green, velvety rug. It is related to wintercreeper and sometimes called "Mountain Lover."

	Each	10	100
4 to 6 in. high . . . . .			\$0 50 \$4 50 \$35 00

**PACHYSANDRA terminalis.** Japanese Pachysandra. An evergreen cover-plant growing about 8 inches high. It has leaves nearly as large as laurel and is particularly at home under it and similar plants. In groups of evergreens about the foundation of a house, the sight of bare ground is particularly disagreeable. Pachysandra will make a close carpet, covering all the area because it spreads from underground roots. It is perfectly hardy and keeps a cheerful green foliage all winter. In early spring it bears small spikes of inconspicuous flowers which, while not adding to the beauty of the plant, are very attractive to bees.

	10	100	1000
2½-in. pots . . . . .			\$1 50 \$12 00 \$90 00

**PYRACANTHA coccinea lalandi.** Laland Firethorn. A vigorous and hardy evergreen shrub. White flowers in flat-topped clusters in spring, followed by brilliant orange-colored berries. The foliage is rich and glossy. Especially adapted for training against walls. It thrives on any porous soil, either in full sun or partial shade, but fruit is more highly colored in a sunny situation.

	Each	10	
1½ to 2 ft. high, in 6-in. pots . . . . .			\$1 50 \$12 50
2 to 2½ ft. high, in 9-in. pots . . . . .			2 50 22 50

**VIBURNUM rhytidophyllum.** Leatherleaf Viburnum. A plant from Western China, with glossy leaves somewhat like *Rhododendron maximum*, flat white flowers, and small berries. Try in sheltered location.

	Each	10	
1 to 1½ ft. high . . . . .			\$1 00 \$7 50

**VINCA minor.** Common Periwinkle. This frequently has escaped from old farmyards and spread along the roadsides. As it is entirely hardy, it will make a thick green carpet under a growth of pine, spruce, or oak, but not where grass has died under maples. It trails along the ground, taking root as it spreads, and makes a mat of deep green foliage about 4 inches high. With the coming of the first violet, it has numerous blue flowers. It is sometimes used for garden borders. Every joint takes root, and a mat 1 foot wide can be shaken apart and will make two dozen plants.

	Each	10	100
2-yr. field-grown . . . . .			\$0 20 \$1 75 \$15 00

## Azaleas

Nothing in flowers could be more brilliant and showy than those of the Azalea. They belong to the same genus as rhododendrons and can be harmoniously planted with them. Most of them will have finished blooming when the rhododendrons begin.

Select a place and plant them this spring, or even when they are in bloom, or later. Carry out the idea of a fairy woodland. The colors range through white, orange, lemon-yellow, yellow, light pink, deep pink, bright red, and deep red. The main thing is to get them planted. Then as they grow and bloom, move them apart, extend the area, and arrange the color-harmony to express your ideas. All they ask is a mulch of oak leaves all the year, and moisture. They are thankful for shade.

### Deciduous Azaleas

This group drop their leaves in the fall. They are profuse bloomers and have an extended season on blooms. They are most useful for naturalizing along edge of woodland, drives, and paths.

<b>AZALEA arborescens.</b> Sweet Azalea. Sweet-scented, white flowers in June. Deciduous foliage.		
	Each	10

3 to 4 ft. high.....	4 00	37 50	
4 to 5 ft. high.....	5 00		
<b>A. viscosa.</b> Swamp Azalea. Fragrant white or pink-tinted flowers in June and July.			
1 to 2 ft. high.....	1 75	15 00	
2 to 3 ft. high.....	3 00	27 50	
<b>A. yodogawa.</b> Yodogawa Azalea. Double, pinkish lavender flowers in early May.			
1 to 1½ ft. high.....	3 00	27 50	

### Evergreen Japanese Azaleas

This group holds its foliage, or partly so, throughout the entire year. On account of the large number of varieties and many shades of color, these Azaleas comprise a most interesting group of plants. They are very effective in masses or in the foreground of Rhododendrons. They should be in every garden. All bloom in May, with the exception of *Macrantha*.

<b>Azalea amoena.</b> Flowers bright rosy purple, produced in a solid mass. Evergreen foliage.			Each
18 -in. spread.....		\$2 50	
2½-ft. spread.....		5 00	
<b>A., Cherry Blossom.</b> Dainty light pink, semi-double flowers. Evergreen foliage.

15-in. spread.....		2 00	

## Rhododendrons

The perfection of flowering shrubs. Certainly few shrubs possess greater beauty and usefulness for decorating the home landscape. You should visit our Nurseries in late May and early June when the Rhododendrons are in bloom. We do not ask you to buy, but we think it worth your while to get acquainted with them. You will find the hybrid seedlings of particular interest because they are of an economical size and good color.

Rhododendrons are easy to grow. Give them a little common-sense treatment and consideration, and they are the happiest kind of shrub, giving you ample returns for your pains in a rare wealth of blooms and a rich green foliage that is beautiful the year round. They give an effect always full of character and interest.

For best effect, they should be planted in groups. They prefer a light loamy soil to which has been added a quantity of leaf-mold. Mulch with oak leaves and keep them so mulched all the year. Lawn-clippings will do if leaves are not available. Lime is fatal to them. A liberal watering during hot, dry periods is also essential.

A new book, "Rhododendrons and Azaleas," by Clement Gray Bowers, covers the subject in a most complete way. Besides new and hitherto unpublished information of great value, this work supplies the essence of all that has been written on the subject. Orders taken, price \$10.00.

A charming use of Rhododendrons

**Rhododendron carolinianum.** Carolina Rhododendron. Winter foliage reddish green; red stems. Compared with the Rhododendron you think of—the Catawbiense and Maximum varieties—it is a small edition, a dwarf, lower plant, and yet it is not a puny or weak plant. It is vigorous and happy. Best of all, it gives a new note in a new season. It is a sheet of rosy pink bells before the other Rhododendrons bloom.

	Use it in great quantity.	Each	10	100
1	to 1½ ft. high.....	\$2 00	\$17 50	
1½	to 2 ft. high.....	2 75	25 00	\$200 00

2½	to 3 ft. high.....	3 50	32 50	275 00
3	to 4 ft. high.....	4 00	37 50	
4	to 4½ ft. high.....	4 50	40 00	

**R. carolinianum album.** White Carolina Rhododendron. This is a white variety similar to preceding in habit.

	Each	10	100
1	to 1½ ft. high.....	\$2 00	\$17 50
2	to 2½ ft. high.....	2 75	25 00
2½	to 3 ft. high.....	3 00	27 50
3	to 4 ft. high.....	3 50	32 50

**R. catawbiense, Hybrid Seedlings.** Catawba Rhododendron.

Here is a new and good way to get more color and evergreen foliage. The plants are grown from the seed of cross-pollinated, named hybrids. The grafted, named varieties are available only in small quantities, but these are more abundant. A large proportion of colors are the same. During the June flowering season you may come to the Nursery and pick out some of them in bloom.

	Each	10	100

## Flowering Shrubs

A good home landscape demands the free use of Flowering Shrubs. They quickly develop into dense masses of foliage, serving effectively as screens and boundaries along highways and adjoining properties. A fine effect is obtained by planting them at the base of the house or other buildings. They make the most interesting hedges for framing gardens and bordering walks. Flowering Shrubs give big value on a small investment.

<b>ACANTHOPANAX (Aralia) pentaphyllum.</b> A Japanese bush, with arching branches, crowned with bright green, shining foliage which is its principal merit.		
2 to 3 ft. high.....	Each \$0 75	10 \$7 00
<b>ACER ginnala.</b> Amur Maple. Similar to Tatarian Maple. Leaves three-lobed, middle division much elongated. Brilliant autumn coloring. Good substitute for Japanese Maple.		
2 to 3 ft. high.....	50	4 50
3 to 4 ft. high.....	75	7 00
4 to 5 ft. high.....	1 00	9 00
<b>ÆSCULUS parviflora.</b> Dwarf Horsechestnut. A beautiful shrub, blooming the middle of July when there are but few shrubs in bloom.		
1 to 1½ ft. high.....	75	7 00
5 to 6 ft. high.....	5 00	
<b>AMYGDALUS communis.</b> Pink and White Double-flowering Almond. An old-fashioned shrub with little, pink, double flowers along its stems in May.		
2 to 3 ft. high.....	75	7 00
<b>ANDROMEDA (Pieris) mariana.</b> Stagger-bush. Beautiful, low-growing shrub native on Hempstead Plains. White or pink-tinted flowers in early summer. A worthy relative of <i>A. floribunda</i> .		
1 to 1½ ft. high.....	\$60 per 100..	75 7 00
<b>ARONIA arbutifolia.</b> Red Chokeberry. Native white-flowered shrub 3 to 5 feet high, with red berries persisting till late fall.		
2 to 3 ft. high.....	\$60 per 100..	75 7 00
<b>A. arbutifolia brilliantissima.</b> Berries more brilliant red than preceding.		
1 to 2 ft. high.....	60	5 00
2 to 3 ft. high.....	75	7 00
<b>A. melanocarpa.</b> Black Chokeberry. Same as above except berries are black.		
1½ to 2 ft. high.....	60	5 00
5 to 6 ft. high.....	2 50	20 00
<b>BENZOIN æstivale.</b> Spice-bush. A shrub native to damp ground, growing 15 feet high. In April, when the forsythia is in bloom, this has clusters of small yellow flowers along the twigs; in September it has bunches of red berries.		
2 to 3 ft. high.....	\$40 per 100..	50 4 50
3 to 4 ft. high.....	\$60 per 100..	75 7 00
4 to 5 ft. high.....	\$75 per 100..	1 00 9 00
<b>BERBERIS thunbergi.</b> Japanese Barberry. Used extensively for hedges and its glow of red berries, which remain all winter.		
1 to 1½ ft. high.....	\$20 per 100..	35 3 00
1½ to 2 ft. high.....	\$25 per 100..	40 3 50
<b>B. vulgaris.</b> Common Barberry. Good border plant, growing 8 feet high. Graceful, arching branches with long clusters of red fruit.		
2 to 3 ft. high.....	\$40 per 100..	50 4 50
3 to 4 ft. high.....	\$60 per 100..	75 7 00
4 to 5 ft. high.....	1 00	9 00
<b>BUDDLEIA davidi magnifica.</b> Oxeye Buddleia. Correctly named "Butterfly Bush," for the butterflies are fluttering over it when the sun shines. From June until frost, long, arching racemes of lilac flowers.		
2-yr. plants.....	50	4 50

*Cotoneaster divaricata*

**CALYCANTHUS floridus.** Common Sweet Shrub.

Fragrant brown flowers. You remember carrying the sweet-scented buds in your handkerchief when a child. A shrub 5 feet high will flower in June. Plant in masses at the border of the shrubbery, for they will hold the mulch.

	Each	10
2½ to 3 ft. high .....	\$0 50	\$4 50
3 to 4 ft. high .....	75	7 00

**CEPHALANTHUS occidentalis.** Button Bush.

Although this will grow in fresh water a foot deep, it likes dry upland better. It makes a round bush, 6 feet high, with heavy, glossy foliage, decorated in July with clusters of white balls an inch or more in diameter.

3 to 4 ft. high .....	75	7 00
-----------------------	----	------

**CLETHRA alnifolia.** Summer-sweet. Passing over

damp ground in June and July, you have probably noted a distinct, honey-like perfume and traced it to the Clethra, with its finger-shaped spikes of white flowers. It is a shrub growing about 8 feet high which thrives well on the upland.

3 to 4 ft. high .....	75	7 00
4 to 5 ft. high .....	1 00	9 50

**CORNUS mas.** Cornelian Cherry. A week or two

before the Forsythia, or Golden Bell, this is a mass of bright yellow, like the spicewood of the swamps; in August it looks like the tree cranberry. The fruits have been used for jam and to make an acid drink. You can use this plant in your shrubbery or among your collection of small trees, for it grows ultimately 15 feet high.

1 to 2 ft. high .....	75	7 00
5 to 6 ft. high .....	3 00	
6 to 8 ft. high .....	7 50	

<b>Cornus paniculata.</b> Gray Dogwood. Panicles of white flowers in June and July. White berries in September that are enticing to birds.			
	Each	10	
2 to 3 ft. high.....	\$40 per 100..	\$0 60	\$5 00
3 to 4 ft. high.....	\$70 per 100..	90	8 00
4 to 5 ft. high.....		1 00	9 00
<b>C. stolonifera flaviramea.</b> Golden-twig Dogwood. Has bright yellow bark all winter. Use them with Blood-twig Dogwood to brighten your winter landscape. If you cut the older branches to the ground, you will get a big growth of brighter colored twigs.			
2 to 3 ft. high.....	\$40 per 100..	50	4 50
3 to 4 ft. high.....		60	5 00
4 to 5 ft. high.....	\$60 per 100..	75	7 00
<b>CORYLUS americana.</b> American Hazelnut. Can be used for a free-growing hedge which does not require trimming. The long catkins in early spring are uniquely beautiful.			
1 to 1½ ft. high.....	\$20 per 100..	25	2 25
2 to 3 ft. high.....	\$40 per 100..	50	4 50
3 to 3½ ft. high.....	\$60 per 100..	75	7 00

### The Cotoneasters

These beautiful plants, introduced from China, are proving to be the most useful of foreign shrubs. Some have foliage that is nearly evergreen, changing to tints of red and bronze before falling in early winter. Their gracefulness of habit and beauty of flower and fruit make them most ideal for planting at house foundations, entrances, hedges, or for cover-planting. They vary in habit from large, bold bushes to dwarf, spreading type.

<b>COTONEASTER adpressa.</b> Creeping Cotoneaster. Has irregularly branches creeping stems. Large bright red berries. An ideal rock-plant.			
	Each	10	
5-in. pots.....	\$0 75	\$7 00	
<b>C. apiculata.</b> Closely related to Rotundifolia.			
3 to 4 ft. high.....		1 00	9 00
<b>C. dammeri (humifusa).</b> Evergreen shrub with trailing, often rooting, branches, with lustrous dark green foliage. Fruit bright red.			
3-in. pots.....		75	7 00
<b>C. dielsiana.</b> Diel's Cotoneaster. Tall-growing shrub with showy, bright red fruit in autumn and early winter.			
3 to 4 ft. high.....		1 00	9 00
<b>C. divaricata.</b> Spreading Cotoneaster. Glossy, dark green leaves with red berries all winter. Desirable in shrub borders because of color and spreading habit of growth. Birds are very fond of the berries.			
1 to 1½ ft. high.....		60	5 00
2 to 3 ft. high.....		75	7 00
3 to 4 ft. high.....		1 00	9 00
<b>C. foveolata.</b> Tall-growing shrub with handsome autumn-tinted foliage and black fruit.			
2 to 3 ft. high.....		60	5 00
3 to 4 ft. high.....	\$60 per 100..	75	7 00
4 to 5 ft. high.....	\$80 per 100..	1 00	9 00
5 to 6 ft. high.....		1 75	15 00
6 to 7 ft. high.....		2 50	22 50
<b>C. francheti cinerascens.</b> Franchet Cotoneaster. Handsome half-evergreen shrub with small leaves and profusely produced orange-red fruit.			
2 to 3 ft. high.....		75	7 00
3 to 4 ft. high.....		1 00	9 00
<b>C. horizontalis.</b> Rock Cotoneaster. A dwarf shrub of trailing habit with nearly evergreen foliage. It is covered with brilliant red berries in autumn and winter.			
5-in. pots.....	\$60 per 100..	75	7 00
<b>C. moupinensis.</b> Mupin Cotoneaster. Tall-growing with large, glossy leaves and black fruit.			
2 to 3 ft. high.....		75	7 00
3 to 4 ft. high.....		1 00	9 00
4 to 5 ft. high.....		1 50	12 50

<b>Cotoneaster multiflora calocarpa.</b> Graceful shrub with slender, arching branches. Handsome white flowers and ornamental red fruit. Grows 6 to 7 feet high.		
3 to 4 ft. high.....	Each \$1 00	10 \$9 00
<b>C. nitens.</b> A densely branched, tall-growing shrub with small shiny leaves and black fruit.		
2 to 3 ft. high.....	75	7 00
3 to 4 ft. high.....	1 00	9 00
4 to 5 ft. high.....	1 50	12 50
<b>C. racemiflora soongarica.</b> Hardy, red-fruited variety of medium height, with handsome foliage.		
3 to 4 ft. high.....	1 00	9 00
4 to 5 ft. high.....	1 50	12 50
<b>C. salicifolia.</b> Willowleaf Cotoneaster. A tall, graceful shrub with half-evergreen foliage and attractive bright red fruit in autumn.		
8 to 10 in. high, 5-in. pots.....	1 00	9 00
<b>C. schneideri.</b> Similar to <i>C. nitens</i> .		
2 to 3 ft. high.....	75	7 00
3 to 4 ft. high.....	1 00	9 00
<b>C. simonsi.</b> Tall, handsome, half-evergreen shrub with scarlet fruit.		
2 to 3 ft. high.....	75	7 00
<b>C. tomentosa.</b> Tall-growing. Leaves dull green above, grayish beneath. Pink flowers and brick-red fruit.		
3 to 4 ft. high.....	75	7 00
<b>C. zabeli.</b> Zabel's Cotoneaster. Medium-high shrub with slender, graceful branches and red, hanging fruit.		
2 to 3 ft. high.....	75	7 00
3 to 4 ft. high.....	1 00	9 00
4 to 5 ft. high.....	1 50	12 50

A boundary of Flowering Shrubs

### Flowering Quince

<b>CYDONIA japonica.</b> Japanese Quince. The old-fashioned Fire-Bush. Brilliant red flowers in early May. It is just as handsome as it was years ago.		Each	10
1 to 1½ ft. high.....	\$25 per 100..	\$0 35	\$3 00
2 to 3 ft. high.....		75	6 00
3 to 4 ft. high.....		1 00	9 00
<b>C. japonica grandiflora rosea.</b> A Japanese Quince with light rose-colored flowers.			
1½ to 2 ft. high.....		50	4 50
2 to 3 ft. high.....		75	7 00
3 to 4 ft. high.....		1 00	9 00
<b>C. japonica nivea coccinea.</b> Scarlet-flowered Japanese Quince.			
1½ to 2 ft. high.....		50	
2 to 3 ft. high.....		75	
<b>C. sinensis.</b> Chinese Quince. A tall shrub with large shell-pink flowers the middle of May. Fruit larger and smoother than cultivated Quince.			
3 to 4 ft. high.....		1 50	10 00
<b>DAPHNE gwenka.</b> Lilac Daphne. Introduced from China and Japan. Shrub grows to 3½ feet high, with slender, upright branches. Lilac flowers in short-stalked clusters.			
1 to 1½ ft. high.....		1 00	
<b>D. mezereum.</b> February Daphne. Upright shrub to 4 feet high with deciduous leaves. Flowers long before the leaves, in clusters along branches of previous year. Planted for its early, fragrant, rose-purple flowers and conspicuous scarlet fruit.			
6 to 8 in. high.....		50	4 00

### The Deutzias

Vigorous shrubs with showy flowers, and of easy culture, thriving in almost any soil. They give striking effects in garden or border plantings. Include them in your shrub list.

<b>DEUTZIA gracilis.</b> Slender Deutzia. Low-growing mounds of white flowers in May.		Each	10
10 to 12 in. high.....	\$0 50	\$4 50	
12 to 15 in. high.....		60	5 00
<b>D. lemoinei.</b> Lemoine Deutzia. Showy white flowers. Low-growing, broad and bushy.			
2 to 3 ft. high.....		50	4 50
<b>D. magnifica.</b> Showy Deutzia. Deutzias are commonly known but this is a new variety with double white flowers, heavily borne.			
2 to 3 ft. high.....		50	4 50
3 to 4 ft. high.....		75	7 00
4 to 5 ft. high.....		1 00	9 00
<b>D. scabra, Pride of Rochester.</b> Pink Deutzia. Double white flowers in June, with band of pink on outside of petals. Strong, upright shrub 8 feet high.			
1 to 2 ft. high.....		50	4 50
3 to 4 ft. high.....		75	7 00
4 to 5 ft. high.....		1 00	9 00
5 to 6 ft. high.....		1 50	12 50
<b>ELÆAGNUS longipes.</b> Cherry Eleagnus. A shrub about 6 feet high, bearing, in July, large, cherry-like fruits ¾ inch long, with currant flavor. When in full bearing it is an attractive shrub.			
3 to 4 ft. high.....		75	
4 to 5 ft. high.....		1 00	
5 to 6 ft. high.....		1 50	
<b>E. umbellata.</b> Autumn Eleagnus. Grows to 12 feet high, producing masses of red berries that give food for birds and a touch of color when leaves fall.			
4 to 5 ft. high.....		1 00	
5 to 6 ft. high.....		1 50	

**ENKIANTHUS campanulatus.** Red-vein Enki-anthus. It resembles its relative, the high-bush blueberry, in size and brilliant autumn foliage.

	Each	10
1 to 2 ft. high.....	\$40 per 100..	\$0 50 \$4 50
2 to 3 ft. high.....	\$60 per 100..	75 7 00
3 to 4 ft. high.....	\$75 per 100..	1 00 9 00
4 to 5 ft. high.....	\$100 per 100..	1 50 12 50
5 to 6 ft. high.....	\$150 per 100..	2 00 17 50

**EUONYMUS alatus.** Winged Euonymus. One of the showiest shrubs of which we know. Combines the corky ridged bark of the sweet gum tree with the bright foliage of the Tatarian maple and the abundant brilliant carmine fruit of the Japanese barberry. They can be planted through the woodland for the birds.

2 to 3 ft. high.....	75	7 00
3 to 4 ft. high.....	1 00	9 00
4 to 5 ft. high.....	1 50	12 50

**EXOCHORDA grandiflora.** Common Pearlbush. A tall-growing shrub having snowy white flowers in May.

2 to 3 ft. high.....	75	7 00
----------------------	----	------

### Forsythia • The Golden Bells

Few, if any, spring-flowering shrubs can equal the splendor and brilliancy of the Forsythia. By the middle of April it commences to hang out its festoons of golden bells. The different forms vary in growth from 6 to 10 feet. Excellent for hedges.

**Forsythia intermedia.** Border Forsythia. A heavier blooming form of Fortune's Forsythia.

	Each	10
2 to 3 ft. high.....	\$0 50	\$4 50
3 to 4 ft. high.....	\$60 per 100..	75 7 00
5 to 6 ft. high.....	\$75 per 100..	1 00 9 00

**F. intermedia densiflora.** About the same as the preceding variety except a little denser growth and more profuse display of bloom.

3 to 4 ft. high.....	\$60 per 100..	75 7 00
----------------------	----------------	---------

**F. intermedia primulina.** Primrose Forsythia. A choice variety with pale yellow blossoms.

2 to 3 ft. high.....	50	4 50
3 to 4 ft. high.....	\$60 per 100..	75 7 00

**F. intermedia spectabilis.** Showy Border Forsythia. Very profuse-flowering variety. Large, rich golden yellow flowers.

2 to 3 ft. high.....	50	4 50
----------------------	----	------

**F. ovata.** Korean Forsythia. From Korea. Very hardy. Flowers pale primrose-yellow, produced later than other varieties.

1½ to 2 ft. high.....	75	7 00
-----------------------	----	------

**F. suspensa.** Weeping Forsythia. A weeping form of Fortune's Forsythia.

2 to 3 ft. high.....	50	4 50
3 to 4 ft. high.....	75	7 00

**F. suspensa fortunei.** Fortune Forsythia. The first conspicuous and common flowering shrub of spring, sometimes commencing to hang out its festoons of golden bells by the middle of April. It will grow 8 to 10 feet high and keep perfect foliage all season.

3 to 4 ft. high.....	\$60 per 100..	75 7 00
----------------------	----------------	---------

**GORDONIA (Franklinia) alatamaha.** A very rare, large shrub with handsome, shining foliage and producing large white flowers in autumn, even on small plants. This is the hardiest variety of Gordonia and should interest all plant-lovers.

10 to 12 in. high.....	1 00
2 to 3 ft. high.....	3 00
3 to 4 ft. high.....	5 00
4 to 5 ft. high.....	7 50
5 to 6 ft. high.....	10 00

Philadelphus, Virginal

**HAMAMELIS mollis.** Chinese Witch-Hazel. This Chinese species is considered the best of the family. Flowers larger, with broad petals, golden yellow, except at base which is reddish. Blooms in February.

	Each	10
2 to 3 ft. high.....	\$2 00	\$17 50
3 to 4 ft. high.....	2 50	

**H. vernalis.** Vernal Witch-Hazel. Usually forms a broad clump 5 to 8 feet tall. Has smaller flowers than other species, but is the most floriferous. Flowers bloom in winter time rather than in the spring.

1½ to 2 ft. high.....	50	4 50
2 to 3 ft. high.....	60	5 00
3 to 4 ft. high.....	75	7 00
5 to 6 ft. high.....	2 50	

**H. virginiana.** Common Witch-Hazel. Latest shrub to blossom. Long after foliage has fallen, the lemon flowers, like strips of paper, appear in profusion. It grows 8 feet high.

2 to 3 ft. high.....	\$40 per 100..	50	4 50
3 to 4 ft. high.....		75	7 00
4 to 5 ft. high.....		1 00	
7 to 8 ft. high.....		2 50	20 00
8 to 9 ft. high.....		3 50	30 00

**HIBISCUS syriacus.** Shrub Althea. Principal feature is blooming period—it flowers in late summer when little else is in bloom. Pink, white, or lavender, double and single flowering. Will make an ornamental hedge or screen.

2 to 3 ft. high.....	50	4 50
3 to 4 ft. high.....	75	7 00

Foundation planting of Flowering Shrubs

**HYDRANGEA arborescens.** Smooth Hydrangea.

A low shrub with large white flowers, like snowballs, in midsummer.

	Each	10
2 to 3 ft. high.....	\$0 75	\$7 00
3 to 4 ft. high.....	1 00	9 00

**H. paniculata grandiflora.** Peegee Hydrangea.

This is the most common variety, with large white flowers in August. To get larger blooms, reduce the number of new shoots by cutting the plant back severely each year, and manure freely.

2 to 3 ft. high.....	50	4 50
3 to 4 ft. high.....	75	7 00

**H. paniculata tardiva.** Late Panicle Hydrangea.

Late-flowering type. Wild form of preceding, with smaller and more open flower-heads.

3 to 4 ft. high.....	75	7 00
4 to 5 ft. high.....	1 00	9 00

**ILEX verticillata.** Common Winterberry. Holly-like berries all winter. Grows 8 feet high.

2 to 3 ft. high.....	\$60 per 100..	75	7 00
3 to 4 ft. high.....	\$75 per 100..	90	8 00

**KOLKWTZIA amabilis.** Beauty Bush. A rare new shrub introduced from China in 1902. The graceful habit, free-flowering qualities, pleasing pink flowers in June and hardiness make this one of the most beautiful flowering shrubs.

1½ to 2 ft. high.....	50	4 50
2 to 3 ft. high.....	75	7 00
3 to 4 ft. high.....	1 00	9 00

**LIGUSTRUM ibota regelianum.** Regel Privet.

A shrub with the habit of Japanese barberry. The lower branches arch downward and always cover the base, which sometimes has a bare and ugly appearance.

2 to 3 ft. high.....	\$40 per 100..	50	4 50
3 to 4 ft. high.....		75	7 00

**L. ovalifolium.** California Privet. The most popular hedge-plant.

2 to 3 ft. high.....	\$8 per 100..		1 00
3 to 4 ft. high.....	\$15 per 100..		2 00

**L. vulgare.** European Privet. Tall shrub 8 to 12 feet high. Leaves dark green and lustrous. Flowers white, in dense, upright panicles 2 inches long. Shining black berries.

1 to 2 ft. high.....	\$25 per 100..	35	3 00
2 to 3 ft. high.....		50	4 50
3 to 4 ft. high.....	\$40 per 100..	60	5 00
4 to 5 ft. high.....		75	7 00

## Lonicera • The Bush Honeysuckle

Handsome, upright shrubs, valuable for border or mass planting. Most varieties have showy flowers, some very fragrant, and bright berries which are the principal food-supply of the catbirds and robins during July and August.

<b>LONICERA demissa.</b> Dense, small-leaved shrub, handsome in autumn. Scarlet fruit.		Each	10
2 to 3 ft. high.....	\$0 50		\$4 50
3 to 4 ft. high.....	75		7 00
4 to 5 ft. high.....	1 00		9 00
5 to 6 ft. high.....	1 25		10 00
<b>L. fragrantissima.</b> Winter Honeysuckle. A big, broad shrub with fragrant yellow flowers from January to May. It holds its bright green foliage until Christmas.			
2 to 3 ft. high.....	50		4 50
3 to 4 ft. high.....	75		7 00
<b>L. maacki.</b> Amur Honeysuckle. Attractive, large shrub with white blossoms standing erect along the branches. Handsome scarlet fruit.			
2 to 3 ft. high.....	50		4 50
3 to 4 ft. high.....	75		7 00
6 to 7 ft. high.....	3 00		
<b>L. morrowi.</b> Morrow Honeysuckle. Extensively used in large plantations because of its wide-spreading habit, keeping full at the base. It has cream-colored flowers in June.			
2 to 3 ft. high.....	50		4 50
3 to 4 ft. high.....	75		7 00
<b>L. standishi.</b> Standish Honeysuckle. Fragrant, cream blossoms, sometimes covered with ice in early spring. Grows 5 to 7 feet high.			
2 to 3 ft. high.....	75		7 00
<b>L. syringantha.</b> Lilac Honeysuckle. Fragrant, pale rose-lilac flowers. An attractive, slow-growing shrub.			
2 to 3 ft. high.....	75		7 00
<b>L. tatarica.</b> Tatarian Honeysuckle. A large, broad shrub with pink or white flowers in May. In July and August it is heavily laden with currant-like fruit. It is one of the first shrubs to leaf out in the spring. A good shrub for screening.			
2 to 3 ft. high.....	50		4 50
3 to 4 ft. high.....	75		7 00
6 to 7 ft. high.....	1 50		12 50
<b>MYRICA carolinensis.</b> Northern Bayberry. You probably have admired the rounded masses of glossy foliage of the Bayberry, as it embellishes the dry hills and sand-dunes of Long Island. The gray, wax-covered berries were used by the settlers in making candles. Good foliage. Fine for dry ground.			
1½ to 2 ft. high. Collected.....	\$40 per 100..	60	5 00
2 to 2½ ft. high. Collected.....	\$60 per 100..	75	7 00
2½ to 3 ft. high. Collected.....	\$75 per 100..	1 00	9 00

## Philadelphus • The Mock Orange

Free-flowering shrubs with showy, mostly fragrant flowers which appear in late spring or early summer. Their beauty, grace, and fragrance make them well suited for garden and specimen planting. We have the old and improved varieties that will bring beauty and perfume to your garden.

<b>PHILADELPHUS, Boule d'Argent.</b> Fountain-like habit. Double white flowers transform branches into plumes of blossoms.		Each	10
2 to 3 ft. high.....	\$0 50		\$4 50
<b>P. coronarius.</b> Sweet Mock Orange. The big, sweet white flowers that you remember. It makes a shrub 8 to 10 feet high, gracefully arching under its border of white flowers in late May or early June.			
3 to 4 ft. high.....	50		4 50
5 to 6 ft. high.....	1 00		9 00

<b>Philadelphus grandiflorus.</b> Big Scentless Mock Orange. A tall shrub with large white flowers in June.		
	Each	10
5 to 6 ft. high.....	\$1 00	\$9 00
6 to 7 ft. high.....	2 00	17 50
<b>P. magdalænæ.</b> Magdalena Mock Orange. Spreading shrub with single white blossoms.		
4 to 5 ft. high.....	75	7 00
5 to 6 ft. high.....	1 00	9 00
<b>P. Virginal.</b> Fragrant Mock Orange. This is considered by many to be one of the best of the later introductions. It has highly fragrant, crested, double, white flowers.		
2 to 3 ft. high.....	\$60 per 100..	75 7 00
3 to 4 ft. high.....	1 00	9 00
<b>PHOTINIA villosa.</b> Chinese Christmas Berry. Large shrub with a profusion of white flowers in May and clusters of red berries in autumn.		
2 to 3 ft. high.....	\$40 per 100..	50 4 50
3 to 4 ft. high.....	\$60 per 100..	75 7 00
4 to 5 ft. high.....	\$75 per 100..	1 00 9 00
5 to 6 ft. high.....	\$100 per 100..	1 50 12 50
6 to 7 ft. high.....	2 00	17 50
7 to 8 ft. high.....	5 00	
<b>PHYSOCARPUS opulifolius.</b> Common Nine-bark. Suitable for tall screens, but rather coarse for planting near the house. White flowers in May and seed-capsules in July.		
4 to 5 ft. high.....	75	7 00
5 to 6 ft. high.....	1 00	9 00
<b>PRUNUS maritima.</b> Beach Plum. This grows native on the sand-dunes, even on the ocean-side and inland sand-hills and plains. If you have failed with other plants, try this.		
1 to 1½ ft. high.....	\$25 per 100..	30 2 75
2 to 3 ft. high.....	\$50 per 100..	75 6 00
3 to 4 ft. high.....	1 00	9 00
4 to 5 ft. high.....	2 00	17 50
<b>P. tomentosa.</b> Nanking Cherry. A round shrub of medium height, with myriads of bright pink flowers in May.		
3 to 4 ft. high.....	\$60 per 100..	75 7 00
4 to 5 ft. high.....	\$75 per 100..	1 00 9 00
5 to 6 ft. high.....	2 50	22 50
<b>P. triloba plena.</b> Double-flowering Plum. Similar to old-fashioned Flowering Almond with spikes of double pink flowers before the peach blooms.		
2 to 3 ft. high.....	75	7 00
3 to 4 ft. high.....	1 00	9 00
<b>RHODOTYPOS kerrioides.</b> Jetbead. Also known as White Kerria. A shrub growing 6 feet high, with single white flowers in May. Decorated in fall and winter with large, shining black berries. Light green foliage.		
1½ to 2 ft. high.....	\$40 per 100..	50 4 50
2 to 3 ft. high.....	\$45 per 100..	60 5 00
3 to 4 ft. high.....	\$60 per 100..	75 7 00
<b>RHAMNUS frangula.</b> Glossy Buckthorn. Large shrub with leaves dark green on upper side, paler beneath, fading to yellow, orange, and red. Berries change from red to black in September.		
4 to 5 ft. high.....	75	7 00
5 to 6 ft. high.....	1 00	9 00
<b>RHUS canadensis.</b> Fragrant Sumac. One of the few low, drought-resistant shrubs for dry banks and edging tall shrubs. Grows 2 to 5 feet high, with trailing stems. Its trifoliate leaves, like the poison ivy, turn a brilliant red late in the season. Bears brilliant orange-red berries in autumn.		
2 to 3 ft. high.....	50	4 50
3 to 4 ft. high.....	60	5 00
4 to 5 ft. high.....	75	7 00
<b>SALIX multinervis.</b> Japanese Pussy Willow. Earliest and largest Pussy Willow. Pinkish catkins.		
1½ to 2 ft. high.....	\$35 per 100..	50 4 00

*Spiraea vanhouttei*

### The Spireas

Showy, free-flowering shrubs of inestimable garden value. In general, they are graceful, compact bushes of great hardiness. The Van Houtte Spirea is one of the best.

- Spiraea bumalda*, Anthony Waterer.** The flat heads of carmine flowers appear in early July and at intervals during the season. If seed-pods are cut off, it will bloom all summer. Grows 3 feet high. Excellent for massing at edge of shrub border.
- |                       |        |        |
|-----------------------|--------|--------|
|                       | Each   | 10     |
| 1 to 2 ft. high ..... | \$0 50 | \$4 50 |
- S. douglasi*.** Douglas Spirea. Shrub to 6 to 8 feet high with deep pink flowers in long, dense panicles.
- |                       |    |      |
|-----------------------|----|------|
| 2 to 3 ft. high ..... | 50 | 4 50 |
|-----------------------|----|------|
- S. prunifolia fl.-pl.*** Bridal Wreath. An old-fashioned shrub with straight, upright twigs covered with little, double, white, rose-like flowers early in May.
- |                       |    |      |
|-----------------------|----|------|
| 2 to 3 ft. high ..... | 50 | 4 50 |
| 3 to 4 ft. high ..... | 75 | 7 00 |
- S. thunbergi*.** Thunberg Spirea. Its fluffy, lace-like foliage adds a distinct note to the landscape. Of dwarf habit and very graceful. Flowers appear before the leaves in the spring, distributed all over the plant, giving a solid display of white.
- |                  |    |      |
|------------------|----|------|
| 3 ft. high ..... | 75 | 7 00 |
|------------------|----|------|
- S. vanhouttei*.** Van Houtte Spirea. One of the best shrubs for the landscape. During the middle of May it is a mass of graceful arching sprays of pure white flowers. Its foliage is graceful and good during the summer.
- |                       |    |      |
|-----------------------|----|------|
| 2 to 3 ft. high ..... | 50 | 4 50 |
| 3 to 4 ft. high ..... | 75 | 7 00 |
- STEPHANANDRA *flexuosa*.** Cutleaf Stephanandra. Good for hedging or bordering tall shrubs. Billowy masses of foliage are very graceful.
- |                       |      |      |
|-----------------------|------|------|
| 2 to 3 ft. high ..... | 50   | 4 50 |
| 3 to 4 ft. high ..... | 75   | 7 00 |
| 5 to 6 ft. high ..... | 1 00 | 9 00 |

<b>STEWARTIA pentagyna.</b> Mountain Stewartia.		
During June and July it has pure white, satiny flowers like the camellia or gardenia.		
2 ft. high.....	Each	10
	\$0	75
<b>S. pseudocamellia.</b> Japanese Stewartia. A handsome ornamental tree with bright green foliage and large white flowers in summer.		
1 to 2 ft. high.....	75	\$7 00
2 to 3 ft. high.....	1 00	9 00
<b>STYRAX japonica.</b> Japanese Styrax. A little tree with dark, privet-like leaves and graceful, horizontal branches. About the middle of May it is covered with waxy, white flowers like orange-blossoms. One of the plants you will be proud to know, for it is above the commonplace. If you have but limited room, plant one as a specimen among your small trees or back of your shrubbery. If you wish to decorate the woodland along with Azaleas and Dogwood, plant a quantity of these small trees.		
3 to 4 ft. high.....	75	
4 to 5 ft. high.....	1 50	
5 to 6 ft. high.....	2 50	
6 to 7 ft. high.....	4 00	
8 to 10 ft. high.....	7 50	
<b>SYMPHORICARPOS racemosus.</b> Common Snowberry. Grows 3 feet high, with berries like white marbles in September and October. Valuable for edging down shrubbery or covering banks.		
2 to 3 ft. high.....	50	4 50
<b>S. vulgaris.</b> Coral Berry. Low, arching shrub with deep red berries. Good for bank plantings.		
2 to 3 ft. high.....	50	4 50
<b>SYMPLOCOS paniculata.</b> Asiatic Sweetleaf. A rare shrub, valuable for the robin's-egg-blue berries in September and October which attract the birds. An unusual shrub for your collection.		
2 to 3 ft. high.....	75	7 00
3 to 4 ft. high.....	1 00	9 00

### The Lilacs (*Syringa*)

<b>SYRINGA (Named Varieties).</b> Lilac. Beloved for beauty of flower and fragrance, but it is best not to depend on Lilacs for foliage. They need heavier soil than that on most of Long Island.		
<b>Alphonse Lavallee.</b> Double. Mauve.		
<b>Bleuatre.</b> Single. Blue.		
<b>Charles X.</b> Single. Reddish mauve.		
<b>Ekinea.</b> Blue.		
<b>La Mauve.</b> Mauve.		
<b>Marie Legraye.</b> Single. White.		
<b>Mme. Lemoine.</b> Double. White.		
<b>President Grevy.</b> Double. Blue.		
<b>President Massart.</b> Red in bud, purple when open.		
<b>Senateur Volland.</b> Double. Rosy red.		
<b>Ville de Troyes.</b> Single. Purple.		
2 to 3 ft. high.....	75	7 00
3 to 4 ft. high.....	1 00	9 00
4 to 5 ft. high.....	1 50	12 50
5 to 6 ft. high.....	2 50	20 00
6 to 7 ft. high.....	4 00	
<b>S. persica.</b> Persian Lilac. Graceful shrub with arching branches and pale lilac flowers. Splendid for hedges.		
2 to 3 ft. high.....	75	7 00
<b>S. vulgaris, Mixed.</b> Common Lilac. One of the oldest and most popular varieties of shrubs. Flowers lilac, purple, and white. Blooms in May.		
2 to 3 ft. high.....	50	4 50
3 to 4 ft. high.....	\$60 per 100..	75 7 00
4 to 5 ft. high.....	\$70 per 100..	1 00 9 00
5 to 6 ft. high.....	1 50	12 50
6 to 8 ft. high.....	3 00	27 50

**VACCINIUM corymbosum.** High-bush Blueberry. A native species abundant on Long Island. The beauty of the Blueberries as ornamental shrubs on the uplands is known to but few. The red tips of twigs in winter give an effect similar to red-twigged dogwood.

	Each	10
2 to 3 ft. high.....	\$60 per 100..	\$0 75 \$7 00
3 to 4 ft. high.....	\$75 per 100..	1 00 9 00
4 to 5 ft. high.....	\$100 per 100..	1 50 12 50
5 to 6 ft. high.....	\$250 per 100..	3 00 27 50

**V., Hybrid Seedlings.** Has improved fruit.

2 to 3 ft. high.....		75 7 00
3 to 4 ft. high.....		1 25 10 00

### The Viburnums

Hardy shrubs with showy flowers and foliage. Most species produce a profusion of attractive berries in clusters.

**VIBURNUM acerifolium.** Maple-leaf Viburnum. For shady locations. White flowers in June; black berries.

	Each	10
2 to 3 ft. high.....	\$0 75	\$7 00
3 to 4 ft. high.....	1 00	9 00

**V. affine.** Missouri Viburnum. A handsome shrub of dense habit and very floriferous. The flowers are white, followed by bluish black fruit.

3 to 4 ft. high.....	\$60 per 100..	75 7 00
4 to 5 ft. high.....		1 00 9 00

**V. carlesi.** Fragrant Viburnum. Among early-flowering shrubs, this is Korea's great gift to our gardens. The round clusters of flowers, waxy in texture, are pink tinted in the bud and pure white when expanded, filling the air around with a fragrant clove scent.

2 to 2½ ft. high.....	1 50	12 50
2½ to 3 ft. high.....	1 75	15 00

**V. dentatum.** Arrow-wood. Large shrub 8 to 12 feet high, with white, flat-topped flower-clusters in May and blue berries in October.

2 to 3 ft. high.....	50	4 50
3 to 4 ft. high.....	75	7 00
5 to 6 ft. high.....	1 50	12 50
6 to 7 ft. high.....	2 50	22 50

**V. dilatatum.** Linden Viburnum. A rare Japanese species, valuable for its profusion of cream-colored flowers in June and bunches of scarlet berries from September through the winter.

2 to 3 ft. high.....	75	7 00
3 to 4 ft. high.....	1 00	9 00
4 to 5 ft. high.....	1 50	12 50

Viburnum dentatum

<b>Viburnum lantana.</b> Wayfaring Tree. A European shrub with leaves that are whitish beneath and bright red fruits in July and August, which later turn black.		
3 to 4 ft. high.....	Each \$0 75	10 \$7 00
<b>V. lentago.</b> Nannyberry. Large shrub with dark green leaves, white flowers, and blue-black fruit.		
3 to 4 ft. high.....	75	7 00
4 to 5 ft. high.....	1 00	9 00
5 to 6 ft. high.....	1 50	12 50
6 to 7 ft. high.....	\$175 per 100..	2 50 20 00
7 to 8 ft. high.....	\$250 per 100..	3 00 27 50
<b>V. opulus.</b> European Cranberry. Large shrub with flat-topped white flower-heads and conspicuous, long-persistent red berries.		
2 to 3 ft. high.....	\$40 per 100..	50 4 50
3 to 4 ft. high.....	\$50 per 100..	75 6 00
4 to 5 ft. high.....	\$60 per 100..	1 00 8 00
5 to 6 ft. high.....	\$75 per 100..	1 50 10 00
<b>V. opulus sterile.</b> Common Snowball. An old-fashioned shrub with balls of white flowers 3 inches in diameter on Decoration Day. One of the best.		
2 to 3 ft. high.....	75	
3 to 4 ft. high.....	1 00	
<b>V. prunifolium.</b> Black Haw. Ultimately grows to be a tree like the dogwood. White flowers and edible black berries.		
2 to 3 ft. high.....	75	7 00
3 to 4 ft. high.....	1 00	
<b>V. sieboldi.</b> Siebold Viburnum. Handsome, vigorous shrub with lustrous large foliage. The very attractive creamy flowers are followed by fruit changing from pink to blue-black.		
2 to 3 ft. high.....	75	
<b>V. theiferum.</b> Tea Viburnum. Handsome shrub with large leaves and ornamental bright red fruit in autumn.		
1½ to 2 ft. high.....	75	
<b>V. tomentosum.</b> Double-file Viburnum. Flat-topped clusters of white flowers. Very showy.		
2 to 3 ft. high.....	75	7 00
3 to 4 ft. high.....	1 00	9 00
<b>V. tomentosum plicatum.</b> Japanese Snowball. The white balls are thickly set along the branches and are very conspicuous.		
2 to 3 ft. high.....	75	7 00
<b>V. wrighti.</b> Wright Viburnum. Similar to Dilatum, with bright red berries all winter. Named for the botanist of the Perry Expedition, which opened commerce and diplomatic relations with Japan.		
1½ to 2 ft. high.....	75	7 00
3 to 4 ft. high.....	1 00	9 00

### The Weigelas

These are justly classed among the showiest of flowering shrubs. Those listed are vigorous-growing varieties. Big, sturdy shrubs, growing 8 feet high and equally wide. They keep in good foliage throughout the summer. It is one of the most showy flowers in early June. Big masses give similar color effect as Rhododendrons.

<b>WEIGELA candida.</b> Snow Weigela. A fine, vigorous shrub with yellowish white flowers.		
2 to 3 ft. high.....	Each \$0 50	10 \$4 50
3 to 4 ft. high.....	75	7 00
<b>W., Eva Rathke.</b> Has crimson flowers that cover the whole bush. It begins to bloom in late May, and continues to flower for several weeks.		
2 to 3 ft. high.....	75	7 00
<b>W. rosea.</b> Rose-colored Weigela. Most popular variety with pink bells in May and June.		
1½ to 2 ft. high.....	50	4 50
2 to 3 ft. high.....	75	7 00

*Ampelopsis veitchi*

## Vines

- ACTINIDIA arguta.** Bower Actinidia. This Asiatic vine is as vigorous as a wisteria, and similar in habit of growth. It has elliptical leaves about 5 inches long. The large, white flowers are like those of the orange tree, styrax, or philadelphus. It has edible, double fruit like the gooseberry. Each
- 3-yr., 2- to 4-ft. vines . . . . . \$0 75
- AMPELOPSIS quinquefolia.** Virginia Creeper. Have you ever noticed, on Long Island, tall tree-trunks looking like burning pillars of fire before you thought the summer was over? It is the Virginia Creeper. This vine has five leaflets and black berries, while the "poison-ivy vine," growing in similar situations, has but three leaflets and white berries. You can add it to the shrubbery, to give touch of color, without taking up much room, or you can let it climb up trees, forming graceful draperies in both summer and autumn. Excellent for covering walls and sandy banks.
- 2-yr. plants . . . . . 50
- A. quinquefolia engelmanni.** Engelmann Creeper. Improved variety of Virginia Creeper having shorter joints and thicker foliage. It is also better equipped with tendrils for clinging to rough stone or brick support.
- 3-yr. plants . . . . . 50
- A. tricuspidata (veitchi).** Japanese Creeper. A rampant-growing, hardy vine, clinging firmly to walls. Its rapid gain in popularity is the result solely of its merits. It stands city conditions perfectly, and needs only to be started in a crack in the pavement. The three-parted green leaves change to crimson and scarlet in fall.
- 3-yr. plants . . . . . 75
- A. tricuspidata lowi.** Geranium Creeper. A variation from Japanese Ivy, with smaller, deeply cut leaves, giving it a distinct grace and elegance. Clings to smooth surfaces without support.
- 3-in. pots . . . . . 75

*Actinidia arguta*. See page 55

- BIGNONIA radicans.** Trumpet Creeper. Orange flowers in July. A very hardy vine that will climb the tallest trees. Each  
 Strong plants.....\$0 75
- CLEMATIS henryi.** Henry Clematis. This variety has large, white flowers. 75  
 4-in. pots.....
- C. jackmani.** Jackman Clematis. A variety with large, violet-purple flowers. 75  
 4-in. pots.....
- C., Mme. Edouard Andre.** This has red flowers. 75  
 4-in. pots.....
- C. montana rubens.** Anemone Clematis. Star-like, rose-pink flowers in May. 1 00  
 4-in. pots.....
- C. paniculata.** Sweet Autumn Clematis. One of the showiest of vines, blooming in late August, when it makes a great snowdrift of white. It is a rampant grower, one vine covering a space 20 feet long and 10 to 20 feet high. Holds its fluffy, downy seeds until midwinter. It advertises its own merits and has no faults. 50  
 2- to 4-ft. vines.....\$4.50 for 10..
- C., Ramona.** Has blue flowers. 4-in. pots..... 1 00
- C. virginiana.** Virgin's Bower. A native vine with fragrant white flowers in July and August. Plant among shrubs, along the borders of the woods or streams. A splendid vine to use when obtaining natural effects. 50  
 2- to 4-ft. vines.....\$4.50 for 10..
- EUONYMUS radicans.** Wintercreeper. A creeping vine you can use on walls, to run up the trunks of trees, cover stumps, or carpet the ground. The leaves are perfectly hardy and bright green all winter. Use it freely to border paths and rock-gardens, in the woods and in shady places. 35  
 8- to 10-in. plants.....\$3 for 10..
- E. radicans kewensis.** Baby Wintercreeper. A diminutive or Tom Thumb variety with leaves 1 inch long. Use it as a border to the garden of little evergreens, in the rock-garden, in the flower-garden, or to carpet the ground beside the woodland path. 35  
 2- to 4-in. plants.....\$3 for 10..
- E. radicans vegetus.** Bigleaf Wintercreeper. Broad, round leaves 1 inch or more in diameter; can be used either as a creeper or a little dome. It is heavily loaded with orange berries even when the snow is on the ground. 60  
 8- to 12-in. plants.....\$5 for 10..

- HEDERA helix.** English Ivy. An evergreen vine commonly known and worthy of planting, even if it does occasionally winter-kill. It thrives best where it is partially shaded; the brilliant March sun burns the leaves. It can be used on tree-trunks, on the north side of buildings, and for carpeting the ground. Each
- Potted plants . . . . . \$4 for 10, \$35 per 100. . \$0 50
- H. helix baltica.** Baltic Ivy. Similar to English Ivy, but has smaller leaves, veined white, assumes a purplish tone in winter. Very hardy and reliable.
- Potted plants . . . . . 50
- HYDRANGEA petiolaris.** Climbing Hydrangea. A vigorous, tall-growing vine, the stems ascending by means of aërial rootlets. Odd and valuable for covering walls and trunks of trees. Flowers creamy white, in loose, flat-topped clusters 8 inches across.
- Potted plants . . . . . 1 00
- LONICERA henryi.** Henry Honeysuckle. The leaves stay bright green all winter. It is a new variety, described as the hardiest evergreen vine in New England.
- Potted plants . . . . . 50
- L. japonica halliana.** Hall's Japanese Honeysuckle. This is thoroughly at home in the woods, along hedge-rows and road-banks where the birds scatter the seed about and it comes up in patches. The foliage remains green until midwinter, or if grown on the ground, until spring. The hummingbirds and children like the honey, and you will like the fragrance in June and autumn. It is often the cheapest thing to cover a bank, where it may be mixed with climbing roses, Virginia creeper, and low shrubs. The ability of Japanese Honeysuckle to take complete possession of the ground results in economy of maintenance.
- Strong plants . . . . . \$2 for 10, \$15 per 100. . 25
- POLYGONUM auberti.** China Fleece-vine. A rapid-growing new vine, with festoons of white similar to clematis.
- 2-yr. plants in pots . . . . . 50
- WISTERIA multijuga.** Long-cluster Wisteria. Considered most beautiful of all Wisterias because of the very long flower racemes, which sometimes are over 2 feet.
- 1½ to 3 ft. high . . . . . 1 00
- W. sinensis.** Chinese Wisteria. The old favorite that climbs to the tops of the tallest trees, festooning them with fragrant flowers in early May. Feeds itself with nitrogen from air and is therefore always dark green. Here is a chance to make a big display at little expense. The flowers are blue.
- 4- to 6-in. pots, 3-ft. vines . . . . . 75

Wisteria sinensis

## Hybrid Tea Roses

This is the most popular class of garden Roses. They are the offspring of the Hybrid Perpetual and Tea Roses which have been developed toward hardiness as much as possible. The flowers are similar to those you buy from the greenhouse. They bloom from about the middle of June to the last of July; then they rest a bit, save for a few blossoms, until the end of August, starting once more and blooming until frost. Protect during the winter by mounding up 1 foot high; after freezing, mulch with strawy manure or leaves to keep frozen. Enrich with bonemeal and hoe thoroughly.

Strong, vigorous plants in a large pot with specially prepared soil,  
\$1 each, \$7.50 for 10, unless otherwise noted

Before May 15 we offer dormant plants at 60 cts. each

**Amelia Earhart.** Plant Patent No. 63. Large bud, cream with blushes; flowers full, graduating from deep yellow center to outer large cream petals with blush overtone. \$1.50 each.

**Angele Pernet.** Brownish orange.

**Autumn.** Burnt sienna.

**Better Times.** Plant Patent No. 23. Long crimson buds, opening into large, double, brilliant cerise-red flowers with delicate fragrance. Good foliage and very free blooming. \$1.50 each.

**Betty Uprichard.** Orange and carmine.

**Briarcliff.** Double; rose-pink at center, shading lighter at outer petals.

**Caledonia.** White; long-pointed buds, opening very double; large; fragrant.

**Carillon.** Plant Patent No. 136. Buds orange-scarlet; half-open bloom is a deep coral overcast with orange; full bloom is large. \$1.50 each.

**Carmelita.** Plant Patent No. 91. Vivid red color, same on both sides of petals. \$1.50 each.

**Charles K. Douglas.** Striking crimson-scarlet.

**Charles P. Kilham.** Large; orange-pink.

**Columbia.** Bright pink.

**Countess Vandal.** Plant Patent No. 38. Orange-copper buds; large, double, brilliant pink flowers with a salmon glow. \$1 each.

**Cuba.** Brilliant orange-vermilion.

**Dame Edith Helen.** Clear pink.

**Duchess of Wellington.** Saffron-yellow.

**Edith Nellie Perkins.** Orient red, shaded cerise-orange; inside salmon-pink.

**E. G. Hill.** Dazzling scarlet.

**Etoile de France.** Vivid crimson.

**Etoile de Hollande.** Enormous; brilliant red.

**Feu Joseph Looymans.** Yellow and apricot.

**Francis Scott Key.** Light crimson.

**General MacArthur.** Crimson-scarlet.

**Golden Dawn.** Large; double; yellow.

**Golden Emblem.** Intense yellow.

**Gross an Teplitz.** Double; velvety crimson.

**Hadley.** Crimson-red.

**Hoosier Beauty.** Dark red.

**H. V. Machin.** Large red flowers of perfect shape.

**Independence Day.** Flaming yellow.

**Irish Fireflame.** Deep orange, splashed with crimson, expanding satiny gold.

**Joanna Hill.** Creamy yellow, with golden heart.

**John Russell.** Brilliant deep velvety crimson-red.

**Julien Potin.** Primrose-yellow.

**Kaiserin Auguste Viktoria.** Snow-white.

**Lady Hillingdon.** Deep saffron-yellow.

**Lady Margaret Stewart.** Golden yellow, shaded with orange.

**Lady Pirrie.** Coppery pink.

**Los Angeles.** Salmon-pink and yellow.

**Mabel Morse.** Clear, unstained yellow.

**Margaret McGredy.** Solid orange-vermilion.

**Mary Hart.** Plant Patent No. 8. Red sport of Talisman. Bud maroon-red, opening deep velvety blood-red with overflow of amber. \$1 each.

**Matador.** Plant Patent No. 170. Scarlet-crimson with darker silky sheen on the reverse. \$1.50 each.

**Mevrouw G. A. van Rossem.** Vivid orange and apricot on golden yellow background.

**Miss Rowena Thom.** Fiery rose.

Plan a Rose-garden. We list select and worthy varieties

- Miss Willmott.** Large; white, with occasional touch of cream or pink.
- Mme. Butterfly.** Pink.
- Mme. Edouard Herriot.** Orange-red.
- Mme. Jules Bouche.** Fragrant; white, light blush at center.
- Mrs. Aaron Ward.** Tawny gold and pink.
- Mrs. A. R. Barraclough.** Large; pure pink.
- Mrs. E. P. Thom.** Bright canary-yellow.
- Mrs. J. D. Eisele.** Plant Patent No. 67. Rich cherry-rose color, overlaid with a scarlet glow. \$1.50 each.
- Mrs. Lovell Swisher.** Salmon-pink and gold.
- Mrs. Pierre S. du Pont.** Buds reddish gold, opening deep golden yellow.
- Nigrette.** Plant Patent No. 87. Deep maroon. \$2 each.
- Padre.** Copper-scarlet.
- President Herbert Hoover.** Cerise-pink, flame, scarlet, and yellow.
- Radiance.** Rose-pink.
- Red Radiance.** Deep rose-red.
- Rev. F. Page-Roberts.** Golden yellow and red.
- Richard E. West.** Light yellow, paling to lemon and lighter yellow.
- Roselandia.** Golden yellow.
- Roslyn.** Large; double; golden yellow, with orange shading.
- Souvenir.** Plant Patent No. 25. Rich deep golden yellow. \$1 each.
- Souvenir de Claudius Pernet.** Yellow.
- Talisman.** Scarlet-orange and yellow.
- Token.** Plant Patent No. 95. Unique, glowing shade of rich sun-ripened apricot gradually finished with soft coral. \$1.50 each.
- Ville de Paris.** Clear yellow.
- White Briarcliff.** Plant Patent No. 108. Glistening pure white of perfect form. \$1.50 each.
- Wilhelm Kordes.** Golden salmon.
- William F. Dreer.** Soft silvery shell-pink, with golden suffusion.

### Miniature Rose, Rosa Rouletti

A dwarf Rose species about 8 inches high with tiny rose-pink flowers. Adapted to rock-garden planting and for edging in front of taller Roses. 75 cts. each, \$7 for 10.

## Hybrid Perpetual Roses

These are the more hardy class of Roses which produce big, double blooms during the month of June, commonly called "June Roses." They require about the same culture as the Hybrid Teas, and, while hardier, winter protection should be given.

Potted Plants, \$1 each, \$7.50 for 10  
Dormant Plants before May 15, 60 cts. each

- Frau Karl Druschki.** Snow-white.  
**General Jacqueminot.** Brilliant scarlet-crimson.  
**Paul Neyron.** Lilac-rose.  
**Ulrich Brunner.** Carmine-red.

## Polyantha Roses

Polyanthas are dwarf little everblooming Roses, seldom exceeding 18 inches in height. They are quite hardy and bear small flowers in large, many-flowered clusters. Valuable for massing, edging, and mingling with other flowers.

Potted Plants, \$1 each, \$7.50 for 10, unless otherwise noted

- Anne Poulsen.** Plant Patent applied for. Large; semi-double; scarlet-crimson. \$1.25 each.  
**Cecile Brunner.** Soft rosy pink on creamy white ground.  
**Gloria Mundi.** Brilliant orange-scarlet.  
**Golden Salmon.** Bright blazing orange.  
**Miss Edith Cavell.** Small; semi-double; scarlet-red.  
**Red Baby Rambler.** Slightly fragrant; crimson-red.  
**Triomphe Orleansais.** Bright cherry-red.

## Climbing Roses

These are particularly happy on Long Island. Their grace and beauty are admirable for covering masses of objectionable formation. Dead walls and embankments can be made into things of beauty. Roses can be used to clamber through the shrubbery, to make hedges with or without the fence as a support, and to climb up tree-trunks on lawn or through the woods. Climbing Roses harmonize with any surroundings and take care of themselves. There seems to be no limit to their usefulness. The blooming season extends through June and July. Be sure to use them liberally in your landscape.

Potted Plants, 75 cts. each, \$7 for 10  
Dormant Plants, before May 15, 50 cts. each

- Aviateur Bleriot.** Saffron-yellow.  
**Blaze.** Plant Patent No. 10. Everblooming scarlet. \$1.25 each.  
**Christine Wright.** Wild-rose pink.  
**Dorothy Perkins.** Pink or white.  
**Dr. W. Van Fleet.** Cream-pink.  
**Gardenia.** Creamy yellow.  
**Golden Climber (Mrs. Arthur Curtiss James).** Plant Patent No. 28. Pure yellow; very hardy. \$1.50 each.  
**Jacotte.** Orange-yellow.  
**Mary Lovett.** Pure white.  
**Mary Wallace.** Large; bright pink.  
**Mme. Gregoire Staechelin.** Delicate pink, stained crimson outside.  
**Paul's Scarlet Climber.** Vivid scarlet.  
**Princess van Orange.** Plant Patent No. 106. Luminous orange-scarlet flower clusters. \$1.25 each.  
**Silver Moon.** Large; white.  
**Star of Persia.** Bright yellow.

## Rose Species (Shrub-like Habit)

75 cts. each, \$7 for 10, unless otherwise noted

- Agnes.** A yellow Rugosa. \$1 each, \$7.50 for 10.  
**Austrian Copper.** Bright coppery red.  
**Harison's Yellow.** Semi-double; bright yellow; early.  
**Hugonis.** Light yellow. Late May. \$1 each, \$7.50 for 10.  
**Persian Yellow.** Golden yellow; late blooming.  
**Rugosa.** Red, Pink, and White. 50 cts. each, \$4.50 for 10.  
**Rosa blanda (Meadow Rose).** Soft pink flowers 2 inches across.

## Hardy Garden Flowers

(Plants marked with \* are rock-plants)

Plants in 2½-in. pots, 20 cts. each, \$1.80 for 10, \$15 per 100,  
unless otherwise noted

Field Clumps, 30 cts. each, \$2.50 for 10, \$20 per 100,  
unless otherwise noted

- ACHILLEA millefolium roseum.** Pink Yarrow. All summer. Rosy pink. Medium.
- A. ptarmica, Boule de Neige.** Yarrow. All summer. Cream. Medium.
- A. ptarmica, The Pearl.** Sneezewort. All summer. White; double. Medium.
- ACONITUM autumnale.** Autumn Monkshood. Late summer. Dark blue. Tall.
- A. fischeri.** Chinese Monkshood. Late summer. Dark blue. Medium.
- AGROSTEMMA coronaria.** Rose Campion. Early summer. Bright rose. Medium.
- \***AJUGA genevensis.** Geneva Bugle. Spring. Deep blue. Low.
- \***A. reptans.** Carpet Bugle. Spring. Blue. Low.
- \***A. reptans alba.** White Carpet Bugle. Spring. White. Low.
- ALTHÆA in Variety.** Hollyhock, Single and Double. Mid-summer. Maroon, Pink, Red, Salmon, and Yellow. Tall.
- \***ALYSSUM rostratum.** Yellowhead Alyssum. All summer. Yellow. Low.
- \***A. saxatile.** Golden Tuft. Spring. Golden yellow. Low.
- \***A. saxatile citrinum.** Pale Golden Tuft. Spring. Citron-yellow. Low.
- ANCHUSA italica, Dropmore.** Dropmore Bugloss. Mid-summer. Blue. Tall.
- \***A. myosotidiflora.** Siberian Bugloss. Spring. Blue. Low.
- ANEMONE japonica, Queen Charlotte.** Japanese Windflower. Fall. Pink. Medium.
- A. japonica, September Charm.** Silvery pink. Medium. 40 cts. each, \$1.05 for 3.
- A. japonica alba, Whirlwind.** Japanese Windflower. Fall. White. Medium.
- \***A. pulsatilla.** European Pasqueflower. Spring. Violet. Low. 35 cts. each, \$3 for 10.
- \***ANTENNARIA dioica.** Common Pussytoes. Summer. White. Low.
- ANTHEMIS tinctoria.** Yellow Camomile. All summer. Yellow. Low.
- \***AQUILEGIA chrysantha.** Columbine. Spring and summer. Yellow. Medium.
- A., Long-spurred Hybrids.** Columbine. Spring and summer. Mixed. Medium.
- A., Mrs. Scott Elliott's Hybrids.** Columbine. Spring and summer. Medium.
- A., Rose Queen.** Spring and summer. Pink. Medium.
- A. vulgaris nivea grandiflora.** Spring and summer. Large; white. Medium.
- A., Wayside Pink.** Spring and summer. Pink. Medium.
- \***ARABIS alpina.** Alpine Rock-cress. Spring. White. Low.
- \***A. procurrens.** Rock-cress. Spring. White. Low. 50 cts. each, \$4.50 for 10.
- \***ARMERIA cephalotes rubra.** Summer. Crimson and red. Low.
- \***A. formosa.** False Thrift. Summer. Rose-pink. Low.
- \***A. lauchiana.** Rosalie Thrift. Summer. Rose. Low.
- \***A. plantaginea.** Summer. Bright red. Low.
- ARTEMISIA abrotanum.** Southernwood. Late summer. Yellowish white. Medium.
- A. lactiflora.** White Mugwort. Late summer. White. Tall.
- A., Silver King.** Late summer. White. Medium.
- ASPHODELUS luteus.** Asphodel. Early summer. Yellow. Medium.
- \***ASTER alpinus.** Rock Aster. Late summer. Blue. Low.
- \***A. alpinus, Goliath.** Blue-purple.
- \***A. alpinus, Mauve Cushion.** Mauve.
- \***A. alpinus rubra.** Rose-purple.

Path bordered with hardy flowers, trees, and shrubs on the Mrs. Robert Bacon estate, Westbury, L. I. As you walk along the path there are bird-baths surrounded by berried shrubs and trees, creating a paradise for the birds.

### Asters • Michaelmas Daisies

- Barr's Pink.** Pink. Fall. Tall.  
**Beauty of Colwall.** Lavender-blue. Fall. Medium to tall.  
**Blue Gem.** Rich blue. Fall. Medium to tall.  
**Capt. Fiat.** Late summer. Blue. Medium to tall.  
**Climax.** Late summer. Lavender-blue. Medium.  
**Elta.** Late summer. Blue. Medium to tall.  
**Frikarti.** Lavender. Late summer. Medium. 50 cts. each, \$4.50 for 10.  
**General Lehman.** Late summer. Pink. Medium to tall.  
**Gray Lady.** Late summer. Opal. Medium to tall.  
**Japonica fl.-pl.** Double; white. Fall. Medium to tall.  
**Lady Lloyd.** Late summer. Pink. Medium to tall.  
**\*Leige.** Late summer. Pink. Dwarf.  
**Louvain.** Late summer. Pink. Medium to tall.  
**Mrs. J. P. Morgan.** Late summer. White. Medium to tall.  
**Novæ-angliæ.** New England Aster. Late summer. Purple. Tall.  
**Nurse Cavell.** Late summer. Pink. Medium to tall.  
**Pink Perfection.** Late summer. Pink. Medium to tall.  
**Queen of the Lilacs.** Late summer. Pink. Medium to tall.  
**Rosea.** Late summer. Pink. Tall.  
**Sam Banham.** Late summer. White. Medium to tall.  
**Snowdrift.** Late summer. White. Medium to tall.  
**St. Egwin.** Late summer. Pink. Medium to tall.  
**Sunset.** Late summer. Pink. Medium to tall.  
**Tataricus.** Tatarian Aster. Fall. Lavender. Tall.  
**White Climax.** Late summer. White. Medium to tall.

### Asters, New Dwarf

- Countess of Dudley.** Clear pink.  
**Lady Henry Maddocks.** Light pink.  
**Nancy.** Lilac-pink.  
**Marjorie.** Bright rose-pink.  
**Victor.** Lavender-blue.

- ASTILBE arendsi Hybrids.** Astilbe. Summer. Medium. 50 cts. each, \$4.50 for 10.  
**Deutschland.** Pure white.  
**Bergristol.** White.  
**Granat.** Dark crimson, shaded salmon.  
**Hyacinth.** Light pink.  
**Rheinlander.** Bright crimson, shaded salmon.
- \***AUBRIETIA deltoidea græca.** Greek Aubrietia. Spring Violet. Low. 35 cts. each, \$3 for 10.
- BAPTISIA australis.** False Indigo. Early summer. Blue Medium.
- BELAMCANDA chinensis.** Blackberry Lily. Summer. Orange. Medium.
- \***BELLIS perennis.** English Daisy. Summer. Pink and White. Low.
- BOLTONIA asteroides.** Boltonia. Late summer. White. Tall.  
**B. latisquama.** Violet Boltonia. Late summer. Pinkish lavender. Tall.
- \***CALAMINTHA alpina.** Alpine Savory. Early summer. Rich purple. Low.
- CAMPANULA alliarifolia.** Summer. White. Medium.
- \***C. carpatica alba.** White Harebell. Summer. White. Low.  
**C. francheti.** Summer. Blue. Medium.  
**C. glomerata.** Danes-blood. Summer. Light blue. Medium.  
**C. glomerata acaulis.** Summer. Violet. Medium.  
**C. medium calycanthema.** Cup-and-Saucer Bellflower. Summer. Blue, Pink. Medium.  
**C. persicifolia.** Peachleaf Bellflower. Summer. White and Blue. Medium.  
**C. persicifolia, Telham Beauty.** Summer. Improved blue. Medium.  
**C. pyramidalis.** Chimney Bellflower. Summer. Blue. Medium.
- \***C. rotundifolia.** Harebell. All summer. Blue. Low.
- CARYOPTERIS incana.** Bluebeard. Late summer. Lavender. Tall. 50 cts. each, \$4.50 for 10.
- CATANANCHE cærulea.** Blue Cupid's Dart. Summer. Deep blue. Medium.
- CENTAUREA macrocephala.** Globe Centaurea. Summer. Yellow. Medium.
- \***C. montana.** Mountain Bluet. Summer. Blue. Low to medium.
- \***CERASTIUM tomentosum.** Snow-in-Summer. Summer. White. Low.
- \***CHEIRANTHUS allioni.** Biennial Siberian Wallflower. Spring and summer. Orange. Low.
- \***C. pumila.** Dwarf Wallflower. Spring. Yellow. Low.
- CHELONE lyonii.** Pink Turtlehead. Late summer. Purplish pink. Medium.
- CHRYSANTHEMUM arcticum.** Arctic Daisy. Late summer. White. Medium.  
**C. maximum.** Shasta Daisy. All summer. White. Medium.

Shady areas can be beautiful

## Chrysanthemums

Chrysanthemums for spring planting, 2½-in. pots, 25 cts. each, \$2 for 10, \$15 per 100; for fall planting (field-grown plants which can be selected in bloom), 50 cts. each, \$4 for 10.

This year's offering of Chrysanthemums contains what we consider the best of the new varieties, including the hardier Koreans, as well as old varieties that have stood the test of time.

The selection is outstanding. For your convenience we gathered armsful and, using Ridgway's Color Chart, arranged them until we can assure you that the two following lists are harmonious within themselves but not together.

### *Harmonious with Orange Tones*

**Red.** Cavalier, Dazzler, Vulcan, Adelaide, Ethel.

**Pink** (Smoky pink to old-rose). Angelo, Daybreak, Diana, Daphne, Bokhara.

**Bronze.** Frances Whittlesey, Granny Scovill, Louise Schling, Ruth Cumming, Apollo, Early Bronze, Bonnibel.

**Yellow.** Yellow Lillian Doty, Ceres, Orion, R. Marion Hatton, Golden West, Yellow Gem.

### *Harmonious with Violet Tones*

**Red.** Mars, Red Lillian Doty.

**Pink.** Murillo, Pink Doty, Delphine Dodge, Jean Treadway, Charles Maynard.

**White.** Irene, Ruth Hatton, White Lillian Doty.

## Hardy Pompon Chrysanthemums

**Adelaide.** Rich mahogany. Early.

**Aladdin.** Plant Patent No. 64. Bronze. Early.

**Amelia** (Pink Cushion). Pink. Dwarf.

**Angelo.** Light pink.

**Bokhara.** Old-rose.

**Bonnibel.** Orange-buff.

**Bright Eyes.** Apricot with bright eye.

**Charles B. Maynard.** Rosy lilac.

**Daybreak.** Large; shell-pink.

**Delphine Dodge.** Pink, daphne-red center.

**Early Bronze.** Bronze-yellow. Early.

**Ethel.** Carmine to garnet-brown.

**Evelyn Baer.** Small; white.

**Frances Whittlesey.** Rich bronze and garnet.

**Golden Climax.** Orange-yellow.

**Golden West.** Rich yellow.

**Granny Scovill.** Coral-bronze; very large.

**Irene.** White.

**Jean Treadway.** Pink with daphne-red center.

**Jewell.** Lilac; small; compact.

**Lillian Doty, Pink.** Shell-pink.

**Lillian Doty, Red.** Garnet, shaded light red; large.

**Lillian Doty, Yellow.** Yellow, with red shading.

**Murillo.** Rosy pink, light center; large.

**Petite Jean.** White, yellow center.

**R. Marion Hatton.** Bright canary-yellow. Early.

**Ruth Cumming.** Reddish bronze with terra-cotta.

**Wheatley Hills.** Rich creamy buff.

**Yellow Gem.** Bronze-yellow.

## Single Chrysanthemums

**Cavalier.** Vermilion-red.

**Dazzler.** Cardinal-red. Early.

**Louise Schling.** Bronze-salmon.

## Korean Hybrids

**Apollo.** Bronze-red. Early.

**Ceres.** Old-gold to coppery bronze.

**Crimson Splendor.** Crimson-maroon; large. Early.

**Daphne.** Daphne-pink; large.

**Diana.** Lilac-rose and salmon.

**Hebe.** Soft pink.

**Mars.** Deep amaranth-red.

**Orion.** Canary-yellow.

**Vulcan.** Garnet-crimson.

- CHRYSOPSIS macrantha.** Late summer. Yellow. Medium.
- CIMICIFUGA racemosa.** Cohosh Bugbane. Summer. White. Tall.
- C. racemosus simplex.** Summer. White. Tall. 60 cts. each.
- CLEMATIS heracleæfolia davidiana.** Fragrant Tube Clematis. Late summer. Blue. Medium.
- C. integrifolia.** Summer. Blue. Medium.
- \***CONVALLARIA majalis.** Lily-of-the-Valley. Spring. White. Low.
- COREOPSIS lanceolata.** Lance Coreopsis. All summer. Yellow. Medium.
- C. lanceolata fl.-pl.** Double-flowered Lance Coreopsis. All summer. Double yellow. Medium.
- DELPHINIUM belladonna.** Larkspur. Summer. White and Blue. Tall.
- D. bellamosum.** Larkspur. Summer. Blue. Tall.
- \***D. chinense.** Slender Larkspur. Summer. Blue and White. Medium.
- D. formosum.** Hardy Larkspur. Summer. Blue and White. Medium.
- D., Gold Medal Hybrids.** Summer. Blue and Lavender. Medium.
- D., Wrexham Strain.** New. Originated by Mr. Watkin Samuel, Wrexham, England. Summer. Assorted colors. Tall.
- \***DIANTHUS, Annie Laurie.** Summer. Single pink. Low.
- \***D. arenarius.** Summer. Pink. Low.
- D. barbatus.** Sweet William. Early summer. White, Pink, Crimson, and Scarlet. Medium.
- D. barbatus, Newport Pink.** Early summer. Rose-pink. Medium.
- D. cruentus.** Summer. Crimson. Medium.
- \***D. deltoides.** Maiden Pink. Early summer. Pink and white. Low.
- \***D. deltoides, Brilliant.** Early summer. Crimson-red. Low.
- D. grenadin.** Hardy Pink. Summer. Bright scarlet. Medium.
- \***D. plumarius semperflorens.** Perpetual Pink. Early summer. White to pink. Low.
- \***D. superbus.** Summer. Lavender. Medium.
- \***DICENTRA eximia.** Fringed Bleedingheart. All summer. Pink. Low.
- D. spectabilis.** Bleedingheart. Early summer. Pink. Medium. 50 cts. each, \$4.50 for 10.
- DIGITALIS ambigua grandiflora.** Yellow Foxglove. Summer. Yellow. Medium.
- D., Horticultural Varieties.** Summer. White, Pink, and Purple. Tall.
- DORONICUM plantagineum.** Showy Leopard's-bane. Spring. Yellow. Medium. 35 cts. each, \$3 for 10.
- ECHINOPS humilis.** Low Globe Thistle. Late summer. Blue. Medium.
- ERIGERON glaucus.** Beach Fleabane. Summer. Blue. Medium.
- \***ERINUS alpinus.** Alpine Liver-balsam. Spring. Rosy purple. Low.
- \***ERYNGIUM amethystinum.** Amethyst Eryngo. Summer. Blue. Medium.
- EUPATORIUM cœlestinum.** Mistflower. Late summer. Blue. Medium.
- E. fraseri.** Late summer. White. Medium.
- \***FESTUCA glauca.** Dwarf grass with bluish green foliage. Low.
- FUNKIA (Hosta) cærulea.** Blue Plantain Lily. Late summer. Blue. Medium.
- F. fortunei.** Fortune Plantain Lily. Summer. Pale lilac. Medium.
- F. lancifolia.** Lance-leaf Plantain Lily. Summer. Lilac-blue. Medium.
- F. ovata.** Summer. Blue. Medium.
- F. subcordata grandiflora.** White Plantain Lily. Summer. White. Medium.
- GAILLARDIA grandiflora.** Common Perennial Gaillardia. All summer. Orange-red, Yellow. Medium.
- \***GERANIUM nepalense.** Summer. Rose-purple. Low to medium.

Block of Iris at Hicks Nurseries

- GEUM, Lady Stratheden.** All summer. Golden. Medium.  
**G., Mrs. Bradshaw.** All summer. Red. Medium.
- \***GYPSOPHILA cerastioides.** Mouse-ear Gypsophila. Early summer. White. Low. 35 cts. each, \$3 for 10.  
**G. paniculata.** Baby's Breath. Summer. White. Medium.  
**G. paniculata, Bristol Fairy.** All summer. White. Medium. 50 cts. each, \$4.50 for 10.  
\***G. repens.** Creeping Gypsophila. Summer. White. Low.
- HELENIUM autumnale, Riverton Beauty.** Late summer. Lemon-yellow. Tall.  
**H. autumnale, Riverton Gem.** Sneezeweed. Late summer. Orange and red. Medium.  
**H. hoopesi.** Orange Sneezeweed. Spring. Orange. Medium.
- \***HELIANTHEMUM.** Sun Rose. Summer. Yellow and Pink. Low.
- HELIANTHUS maximiliani.** Maximilian Sunflower. Fall. Yellow. Tall.  
**H. orgyalis.** Tall Sunflower. Fall. Yellow. Tall.  
**H. rigidus, Miss Mellish.** Fall. Yellow. Tall.
- HELIOPSIS helianthoides pitcheriana.** Pitcher Heliopsis. Summer. Golden yellow. Medium.
- HEMEROCALLIS.** Day Lily. Medium to tall.  
**Apricot.** Light orange. May.  
**Aurantiaca.** Deep orange. July.  
**Aureole.** Deep yellow. June.  
**Dumortieri.** Orange-yellow.  
**Flava.** Lemon-yellow. May, June.  
**Florham.** Yellow. June, July.  
**Fulva.** Orange. July, August.  
**Gold Dust.** Rich yellow. May, June.  
**Kwanso.** Double. Orange. July.  
**Middendorffi.** Orange-yellow. June.  
**Thunbergi.** Pale yellow. August.
- HESPERIS matronalis.** Dames Rocket. Early summer. Pink, Purple, and White. Medium.
- \***HEUCHERA sanguinea.** Coral Bells. Summer. Red. Low.  
\***H., Wayside Hybrids, Mixed.** Summer. Red, Coral, Pink, etc. Low.
- HIBISCUS moscheutos.** Marshmallow. Summer. White, Pink, and Red. Tall.
- HYPERICUM patulum.** Japanese Hypericum. Summer. Yellow. Medium.  
\***H. repens.** Summer. Yellow. Low. 35 cts. each, \$3 for 10.

- \***IBERIS sempervirens.** Evergreen Candytuft. Early summer. White. Low.  
 \***I., Snowflake.** Spring. White. Low. 35 cts. each, \$3 for 10.  
**INULA ensifolia.** Swordleaf Inula. Summer. Yellow. Medium.

### Iris kaempferi · Japanese Iris

Summer. Tall.

- Gold Bound.** Double; white.  
**Mahogany.** Dark red-purple.  
**Painted Lady.** White, rose center.
