## Overseers of the Poor Report.

---

The Overseers of the Poor present the following report:—

The net expense of maintaining the poor of this town during the past year has been \$7656; a reduction of \$1197 from the previous year, notwithstanding the increased expense at the Town Farm caused by the burning of the buildings last July. The mild winter has made calls for aid less frequent, and a close investigation of cases has resulted in the cutting off entirely of some who have been receiving aid for years, and a reduction of the amount furnished to others. One settlement which had been credited to Palmer through unintentional erroneous statements has been proved to be in the town of Barre, and the Overseers of that town have refunded the amount paid for the pauper's support by the town of Palmer, although not legally required to do so.

The total orders drawn were \$1139 in excess of the appropriation, the additional funds used in their payment being the money paid to the Town Treasurer by the Warden of the Town Farm, and the return of money previously paid for the support of poor belonging to other towns and cities and to the state.

The burning of the Town Farm buildings, with the barn filled with crops, has of necessity increased the cost of maintaining the poor at the farm, yet the Overseers are pleased to report that the weekly cost of board per inmate is only 49 cents greater than last year, or \$3.35. It is only fair to state, however, that included in this cost are many items which might be classed in the nature of permanent improvements, such as the purchase of furniture and utensils, and the reconstruction of the water supply, which was found to be absolutely necessary.

The income at the farm for the year has been \$1104, in addition to which the warden and inmates did work to the value of \$395 on the foundations for the new buildings.

It has been a custom of the Overseers to give to needy persons orders on grocers and markets for a certain amount of weekly aid. A careful scrutiny of the bills rendered has shown that many articles which come under the class of luxuries rather than necessities were being paid for by the town. The Overseers, believing that the Town was willing to provide necessities but not luxuries, have adopted the method employed in cities and most of the larger towns and issued a list of articles to which applicants for aid are restricted. The list is as follows :

Tea.	Not over 40c a lb. and not over 1-2 lb.	Lard.	
Potatoes.		Cabbage.	
Butter.	Not over 30c a lb.	Flour.	Bag or 1-2 bag only.
Sugar.	Not over 50c worth.	Milk.	
Rice.		Salt Codfish.	
Oatmeal.	Or cereals in bulk only.	Molasses.	
Indian Meal.		Fresh Meat.	Not over 12c a lb.
Common Crackers.		Onions.	
Salt Pork.		Soap.	
Salt Beef.		Kerosene Oil.	Not more than 1 gal.
White Beans.		Eggs.	Not over 26c a doz.
Dried Peas.		Coffee.	Not over 25c a lb.

Any number of articles on the list may be had each week to the amount of the order given, but no others except by special order. In case of sickness or other unusual circumstances, orders for other articles are given.

The plan of awarding a contract to one dealer for all the meat furnished to the Town Farm was tried last year. It proved so satisfactory that the arrangement was continued this year, and a contract for the groceries was also made. Bids were invited from all the dealers, and the meat contract was given to Frederick Thompson at a discount of 10% from the monthly bills. The groceries contract was given to W. E. Stone & Son at 12½% discount on groceries, 5% on flour and 1% on sugar. This arrangement has resulted in a material saving on these two items, and it is probable that the plan will be extended to other lines of supplies during the coming year.

A new water supply must be secured for the Town Farm. The former supply was from springs near the house, but these have failed until there is not now enough for house purposes, and only sufficient

to run one of the two hydraulic rams formerly used. The whole system had to be overhauled; a new dam was built and one of the rams installed to send the water to the barn.

Much of the house equipment was destroyed by the fire and will need to be replaced before the house can be used. This includes furniture, crockery, utensils, etc. A list has been prepared of the material necessary, and the Overseers ask for an appropriation of \$600 for its purchase.

It will be noted from the financial report that there is very little money due the poor department. The Overseers therefore recommend an appropriation of \$8,000 for the coming year, and ask that the Town Treasurer be instructed to add thereto the monies received for support of "Poor of Other Towns" and "Poor of the State," as these sums are paid from the appropriation before their reimbursement; also the cash receipts from the town farm.

## Tax Collector's Report.

Of the amount reported to be collected—\$777.79—approximately \$300 is due on poll taxes assessed to Polish residents of the town on the first of May last, whom the Collector has been unable to find. These taxes will probably be abated at the proper time. In addition to this amount, approximately \$300 will have to be abated for legal reasons when the law permits.

## Board of Health Report.

The Board of Health respectfully submits the following report : This Board is pleased to report fewer cases of contagious and infectious diseases than for many years. We believe this to be due to rigidly enforced quarantine and the coöperation of householders in infected places. Of the seven cases of typhoid fever reported, three of them at least were contracted in places outside of Palmer. With this thought in mind the following table will be found very interesting.

TABLE NO. 1.

Showing the number of contagious and infectious diseases reported to the board from Feb. 15th, 1905, to Feb. 15, 1906 :

C. A. LEGRO,	

# Young Men's Library Association.

In accordance with the regulations of this association I herewith present the annual report :

Our aim this year has been to make the library more useful to the boys and girls of the town by adding such standard works as were best suited for younger readers. A classified list of all the books in the library according to grades in the public schools has been made and is now ready for the printer. While building up this department after consulting the trustees, we hired from the Tabard Inn Library of Philadelphia 50 books which can be exchanged as many times during the year as we see fit. As this includes a large number of books of modern fiction it has satisfied the need of the reading public and we have not added to our shelves much fiction which is unusable after one or two years.

One or two changes have been made in our reading room and we have added three dailies to our list.

The circulation of the regular books and the Bodley service has been as follows :

Number of volumes in library March 1st, 1905.	7,039
Number of volumes purchased,	103
Number of donated,	35
	<hr/>
Number of volumes 1906,	7,177
Donations, State 16, U. S. Government 10, R. J. Fuller 5, W. J. Marshall 1, Lee & Shepherd 1, City of Boston 2.	
Number of different volumes received from Bodley service, 80.	
Number of volumes of fiction circulated,	11,854
All else,	4,093
Number of circulations of Bodley books since Sept. 20, 1905,	1,128
